Counsel for Plaintiffs

## **EXHIBIT A**

- 1 BOARD STAFF LILA CUMMINGS: Callie, it 1 met with representatives from Gilead. 2 looks like are we still waiting on Chair Mizner? CHAIR GAIL MIZNER: Thank you, Lila. 3 BOARD STAFF CALLIE ANN SHELTON: 3 Anyone else? Okay. Do I have a motion to 4 Thought I saw her. 4 approve the December 8th minutes? BOARD STAFF LILA CUMMINGS: Thanks, 5 5 BOARDMEMBER JAMES JUSTIN VANDENBERG: 6 everybody, for joining us this afternoon and 6 This is Justin VandenBerg. Motion to approve. 7 thanks for your patience while we make sure we 7 CHAIR GAIL MIZNER: Thank you. Do I 8 got all our Board members present. 8 have a second? BOARD STAFF CALLIE ANN SHELTON: I see BOARDMEMBER CATHERINE HARSHBARGER: 10 her. 10 This is Cathy Harshbarger. I second. 11 CHAIR GAIL MIZNER: Hello, I'm here. 11 CHAIR GAIL MIZNER: Thank you, Cathy. 12 BOARD STAFF LILA CUMMINGS: Hi. Dr. 12 So Dr. VandenBerg moved and Ms. Harshbarger 13 Mizner. 13 seconded. All those in favor of approving the 14 CHAIR GAIL MIZNER: Sorry about that. 14 December 8th minutes, raise your hand and say 15 **BOARD STAFF LILA CUMMINGS: Absolutely** 15 aye. Aye. 16 fine. 16 BOARDMEMBER CATHERINE HARSHBARGER: 17 CHAIR GAIL MIZNER: Good. So it is 17 Aye. 18 1:01 p.m., and I would like to call this meeting 18 BOARDMEMBER SAMI DIAB: Aye. 19 of the PDAB to order on February 16th. Callie, 19 BOARDMEMBER JAMES JUSTIN VANDENBERG: 20 Aye. 20 would you please call the roll. 21 CALLIE ANN SHELTON: Of course. Dr. 21 BOARDMEMBER AMY GUTIERREZ: 22 Sami Diab. 22 Commissioner, I just wanted to -- I know there 23 BOARDMEMBER SAMI DIAB: Present. 23 was the meeting that I didn't attend in December. 24 Hello, everyone. 24 I just wanted to make sure I know my name is 25 CALLIE ANN SHELTON: Dr. Amy Guttierez. 25 listed. I was just trying to look at my travel Page 2 Page 4 1 BOARDMEMBER AMY GUTIERREZ: Good 1 records to make sure that wasn't the day, but if 2 I could just get that clarification. 2 afternoon. I'm here. CHAIR GAIL MIZNER: Lila or Callie, are 3 CALLIE ANN SHELTON: Cathy Harshbarger. BOARDMEMBER CATHERINE HARSHBARGER: 4 you able to clarify with whether Dr. Guttierez 4 5 was at the December 8th. 5 Present. Welcome, everyone. BOARDMEMBER AMY GUTIERREZ: I believe I CALLIE ANN SHELTON: Dr. Gail Mizner. 6 7 CHAIR GAIL MIZNER: Present. 7 was there, but I just wanted to make sure that CALLIE ANN SHELTON: And Dr. Justin 8 the record is clear. CALLIE ANN SHELTON: Let me just double 9 VanderBerg. 10 check. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: 11 BOARDMEMBER CATHERINE HARSHBARGER: 11 Present. 12 Yeah, I think you came from -- didn't you 12 CALLIE ANN SHELTON: Madam Chair, we 13 participate from the airport on one of those 13 have a quorum.
- CHAIR GAIL MIZNER: Thank you, Callie.
- 15 Do any Board members want to disclose any
- 16 stakeholder meetings?
- 17 BOARDMEMBER SAMI DIAB: Yes, Madam
- 18 Chair. Sami Diab here. We had a meeting with
- 19 Colorado Oncology Society and our executive
- 20 director was present as well.
- 21 CHAIR GAIL MIZNER: Thank you, Sami.
- LILA CUMMINGS: And then in turn, is
- 23 there anyone else who would like to do that.
- 24 Members of the Division of Insurance, so Chief
- 25 Deputy Commission Kate Harris, as well as myself,

- 14 days?
- 15 BOARDMEMBER AMY GUTIERREZ: Yeah,
- 16 perhaps. Then I approve.
- 17 ATTORNEY ABBY CHESTNUT: Dr. Guttierez,
- 18 I think you were present for the December 8th
- 19 meeting, and I think you were not present on
- 20 December 15th, so we'll have you abstain from the
- 21 next vote.
- 22 BOARDMEMBER AMY GUTIERREZ: Thank you.
- 23 I approve then, Chair Mizner.
- CHAIR GAIL MIZNER: Thank you. Thank
- 25 you, Abby, too for the clarification. So the

- 1 amendment that you all are here and that you're 1 motion passes unanimously and the December 8th 2 doing all the great work that you're doing. 2 minutes are approved. Do I have a motion to approve the We're incredibly thankful about the 3 4 work that you're doing. The reason why I think 4 December 15th minutes? BOARDMEMBER SAMI DIAB: I will approve. 5 we are moving as expeditiously and as, I think, 5 6 Diab. 6 concretely as you are is because you all are 7 CHAIR GAIL MIZNER: Thank you. Do I 7 experts in the field and it's impressive every 8 time that I get an update on the work that you're 8 have a second? BOARDMEMBER JAMES JUSTIN VANDENBERG: 9 doing from the team, really how far you've 10 gotten. 10 Justin VandenBerg, I second. So really again, it's mostly just a 11 11 CHAIR GAIL MIZNER: Thank you. Dr. 12 Diab moved and Dr. VandenBerg seconded. All 12 thank you. I'm unfortunately not going to be 13 those in favor of approving the December 15th 13 able to hang out with you all day. I've got to 14 hop off right after that. But like I said, it's 14 minutes, raise your hand and say aye with the 15 been a while since I came and told you directly 15 exception of Amy who will abstain since she was 16 how thankful I am for all the work that you're 16 not present. Aye. 17 BOARDMEMBER CATHERINE HARSHBARGER: 17 doing. I know we don't pay you incredibly well 18 Aye. 18 and I know my thanks doesn't go too far, but it's 19 BOARDMEMBER JAMES JUSTIN VANDENBERG: 19 good for me to come in and thank you personally 20 Aye. 20 every once in a while. 21 21 So again, thank you very much, folks. BOARDMEMBER SAMI DIAB: Aye. 22 BOARDMEMBER CATHERINE HARSHBARGER: 22. CHAIR GAIL MIZNER: Thank you. The 23 Thank you, Commissioner, for allowing us to do 23 motion passes. Commissioner Conway is here to 24 provide opening remarks for todays meeting. 24 the work. 25 Welcome, Commissioner. 25 COMMISSIONER MICHAEL CONWAY: Page 6 Page 8 1 COMMISSIONER MICHAEL CONWAY: Thank 1 Absolutely. 2 you, Madam Chair, and it's really not opening CHAIR GAIL MIZNER: And thank you, 3 remarks; it's more a thank you. So it's been a 3 Commissioner, for your support of our work. 4 while since I've come by to thank you all for all BOARDMEMBER CATHERINE HARSHBARGER: And 5 of your hard work. And obviously, in recent 5 a special thank you to the executive team that we 6 really kind of months, people have been paying a 6 have. You really have some dynamic people 7 ton of attention to all of the work that you are 7 working to help support us in our work, and I 8 doing that are very knowledgeable about PDABs 8 really can't thank you enough for the level of 9 just generally speaking throughout the country. 9 credibility they lend to this project. 10 And whenever they reach out to have a 10 COMMISSIONER MICHAEL CONWAY: Honestly, 11 conversation, it's always the case that they are 11 Cathy, thank you very much for saying that. They 12 incredibly impressed about all of the great work 12 don't get to hear that. I tell them that all the 13 that is being done and how far along the path 13 time, I know you guys do too, but it's great for 14 that you all are. 14 them to hear it publicly as well because they're 15 And it's really a testament to all of 15 awesome, they're rock stars. 16 the work that you're doing and all of the work 16 BOARDMEMBER CATHERINE HARSHBARGER: 17 that the team at the Division is doing, really 17 Yeah, they are. 18 the team just across the Board at the Division, 18 COMMISSIONER MICHAEL CONWAY: All
- 19 the A.G.'s office, everybody. So it's a thank 20 you to everybody, but most importantly, the Board 21 members, and it really has been I think one of 22 the amendments that went on to the legislation

23 back a couple of years ago is to make sure that

25 on to the Board, and it's a testament to that

24 we appointed and the governor appointed experts

- Page 7
- 19 right, folks, I'll let you get back to your
- 20 meeting. But again, thank you. Have a good
- 21 meeting. I will stop by again soon enough I'm
- 22 sure
- 23 CHAIR GAIL MIZNER: Thank you very
- 24 much, Commissioner. We really appreciate your
- 25 support.

- 1 COMMISSIONER MICHAEL CONWAY: Thank 2 you, Madam Chair.
- 3 BOARDMEMBER CATHERINE HARSHBARGER:
- 4 Chair Mizner?
- CHAIR GAIL MIZNER: Yes. 5
- 6 BOARDMEMBER CATHERINE HARSHBARGER: I
- 7 was wondering if we could, at some point, I would
- 8 like to have an executive session to talk about
- 9 -- talk with legal, get legal advice on recent
- 10 correspondence.
- CHAIR GAIL MIZNER: Okay. Lila, would
- 12 you like us to do that now or would you prefer to
- 13 give your director update first.
- LILA CUMMINGS: I'd be happy to run
- 15 through the director update first, so we can get
- 16 that out of the way, and then maybe right after
- 17 that if that sounds okay.
- 18 BOARDMEMBER CATHERINE HARSHBARGER:
- 19 It's fine with me.
- 20 CHAIR GAIL MIZNER: Sounds great.
- 21 Thank you.
- LILA CUMMINGS: All right, well, thank
- 23 you. So I just have two quick updates: 2024
- 24 legislative session and affordability review
- 25 policy changes.

- 1 committee hearing next Thursday is what it's
- 2 currently scheduled for.
- BOARDMEMBER CATHERINE HARSHBARGER:
- 4 Lila, who's carrying that bill, please, do you
- 5 know?
- 6 LILA CUMMINGS: I do not know the
- 7 sponsors offhand; our legislative team does. I
- 8 should know the sponsors. I could look that up
- 9 for you.
- BOARDMEMBER CATHERINE HARSHBARGER: No 10
- 11 problem. I just was curious. I can look it up
- 12 too, so thank you.
- 13 LILA CUMMINGS: Okay, thank you. All
- 14 right, and we can go to the next one.
- 15 Okay, so affordability review policy
- 16 changes. At your last meeting, actually at the
- 17 last few meetings, we have talked about potential
- 18 changes and redlines to both the affordability
- 19 review rule, as well as policy documents. And
- 20 these potential changes have really been focused
- 21 on feedback we've gotten from you all, as well as
- 22 stakeholders, around the Board's ability to -- or
- 23 potential ability to consider a prescription 24 drugs orphan drug designation earlier in the
- 25 process and specifically an ask of could you all

Page 12

- 1 So just want to make you all
- 2 situationally aware of some of the goings ons of
- 3 the state legislature and the general assembly,
- 4 so there's just two introduced bills that I would
- 5 like to call to your attention: the first is
- 6 Senate Bill 24-060, and that's a prescription
- 7 drug affordability Board exempt orphan drugs. It
- 8 details kind of exactly what the title says and
- 9 does directly impact your statute. And then
- 10 another one that is going through is Senate -- or
- 11 that has been introduced is Senate Bill 24-077,
- 12 and this is prescription drug manufacturer
- 13 requirements, so it would require a level of
- 14 registration for prescription drug manufacturers
- 15 with the state.
- 16 If you have any kind of specific
- 17 questions on these, be happy to connect you
- 18 offline with our leg team, but these are two that
- 19 have been introduced. There may be more this
- 20 session. We got a couple of more months, so
- 21 we'll just continue to kind of keep you
- 22 situationally aware.
- 23 And then I will say that as of right
- 24 now, I believe it's just Senate Bill 60 that has
- 25 been calendared, so it's going to have its first

- 1 consider it during the selection stage.
- 2 Additionally, we've gotten some great
- 3 feedback, constructive feedback from stakeholders
- 4 on how we could engage patients and caregivers
- 5 differently, as well as alternative ways to
- 6 engage individual with scientific and medical
- 7 training, so we've begun a redline. I think due
- 8 to timing we didn't think today was the right
- 9 meeting to bring that before you all to start
- 10 looking at and discussing. I think the plan
- 11 would be for us to do that at your next meeting.
- 12 And then also note too that it wouldn't impact
- 13 these affordability reviews; it would be for your
- 14 next round of affordability reviews.
- 15 A question I have and would just like
- 16 to get a temperature check from Board members is,
- 17 would you all like to see redlines first and then
- 18 we reach out to some of the stakeholders to kind
- 19 of get their thoughts, or would you all like us
- 20 to kind of present initial drafts of these
- 21 redlines directly to stakeholders, start to
- 22 gather their response, and then come to you with 23 redlines. I was kind of curious which direction
- 24 you'd like us to go.
  - BOARDMEMBER JAMES JUSTIN VANDENBERG:

Page 13

25

- 1 Lila, who are the stakeholders that we're
- 2 thinking of -- I guess it's to ask for their
- 3 feedback before then it comes to us versus coming
- 4 to us, possibly tweaking them before going out.
- 5 LILA CUMMINGS: Good question. I think
- 6 so, for orphan drug designation, there are some
- 7 specific groups, so I'm thinking of the Rare
- 8 Disease Advisory Council over at CPHE, the
- 9 National Organization of Rare Diseases. On the
- 10 alternate ways to engage with patients and
- 11 caregivers, I think we've just gotten some good
- 12 feedback from specific conditions, specific
- 13 consumer groups, so we'd reach out to them.
- 14 And then on scientific and medical
- 15 training, I think we've kind of heard from you
- 16 all that having a non-clinician in the middle of
- 17 the conversation between clinicians maybe isn't
- 18 the most efficient way, so that would probably --
- 19 I think will kind of engage in that.
- 20 I think with this, if you all -- and we
- 21 would plan on this at some point. We'd also have
- 22 just an open to any stakeholder to engage, so
- 23 probably just a stakeholder meeting, but those
- 24 are the groups that I think we're thinking about.
- 25 BOARDMEMBER AMY GUTIERREZ: Lila, what Page 14

- 1 CHAIR GAIL MIZNER: That sounds fine to
- 2 me too. I apologize to everyone. I can't make
- 3 my camera work. I'm working on it.
- 4 LILA CUMMINGS: Miss Harshbarger, Dr.
- 5 Diab, any objections to kind of going out to
- 6 stakeholders first?
- 7 BOARDMEMBER SAMI DIAB: No, I agree
- 8 with that.
  - LILA CUMMINGS: Okay. Okay, then we
- 10 will plan on doing that. And for the
- 11 stakeholders that are listening in, we'll take a
- 12 look at kind of calendars over the coming weeks
- 13 and months and get some things on the website and
- 14 on the LISTSERV for how we can engage.
- 15 And that concludes my updates.
- 16 I'll just make one last comment before
- 17 we move on. Clearly, I think you can hear my
- 18 voice is a little sore, not quite at 100 percent,
- 19 so I may be going off camera and on mute more
- 20 frequently this meeting. Please know I'm still
- 21 listening, I might just be getting a hot cup of
- 22 water, so thanks.
- 23 CHAIR GAIL MIZNER: Okay. Thank you,
- 24 Lila. So it sounds like at this point, we should
- 25 vote about whether we want to go into executive

- 1 would be the staff's recommendation in terms of
- 2 what you believe would be most effective?
- 3 LILA CUMMINGS: I think it might be
- 4 most efficient if we just go directly to
- 5 stakeholders first with some of the redlines, and
- 6 we can bring them to you all kind of after we've
- 7 vetted them a little bit with stakeholders and
- 8 kind of identified areas where we agree. And we 9 can also, if we disagree with stakeholders, we
- 10 can at least explain why we disagree.
- So, yeah, I'd say allowing us to kind
- 12 of go forth and share redlines earlier with
- 13 stakeholders might be the most efficient.
- 14 BOARDMEMBER AMY GUTIERREZ: I don't
- $15\,$  know about the other Board members, but I'd
- 16 recommend that we do have you work with the
- $17\,$  stakeholders first before we saw the redline. I
- 18 don't know, fellow Board members, what do you
- 19 think?
- 20 BOARDMEMBER JAMES JUSTIN VANDENBERG: I
- 21 agree with you, Amy, yeah, to get that feedback
- 22 and not have more of a back and forth, if it's
- 23 coming to us, then going back out, and now the
- 24 changes, and then to come back to us. I think
- 25 you're on the right track.

- 1 session. Do I have a motion to meet in executive
- 2 session to discuss legal questions that Ms.
- 3 Harshbarger has.
- 4 ATTORNEY ABBY CHESTNUT: And actually,
- 5 Dr. Mizner, if I can just interject.
- 6 CHAIR GAIL MIZNER: Yeah.
- 7 ATTORNEY ABBY CHESTNUT: So without
- 8 waiving any privilege, Ms. Harshbarger, if you
- 9 could just maybe specify with a little bit more
- 10 detail what you want the topic on legal advice to
- 11 be. We need to be a little bit more specific in
- 12 the motion to go into executive session. And we
- 13 also -- actually, let's just start there, Cathy,
- 14 if you don't mind. Which correspondence were you
- 15 wanting to get legal advice on?
- 16 I'm sorry, you're on mute.
- 17 BOARDMEMBER CATHERINE HARSHBARGER: Can
- 18 you hear me now?
- 19 ATTORNEY ABBY CHESTNUT: Yes.
- 20 BOARDMEMBER CATHERINE HARSHBARGER:
- 21 Okay. I just don't know where my camera went,
- 22 but anyway...
- 23 I wanted to talk about the -- and
- 24 that's what I had switched to, in specific, the
- 25 letter received from Community Access National

Page 17

1 Network.	1 we're back. The Board has adjourned its
2 ATTORNEY ABBY CHESTNUT: Okay. So I	2 executive session. The Board received legal
3 believe since that public comment letter was	3 advice regarding responding to public comment on
4 received for one of these affordability reviews,	4 Genvoya. The Board conducted no formal business
5 we're happy to provide legal advice on that, and	5 within the meeting.
6 I can help kind of formulate the motion. But	6 Next on the agenda is a discussion of
7 since Dr. Diab has a conflict with that drug, I	7 Enbrel. Before we begin discussion of the
8 believe it's Genvoya, but please correct me if	8 affordability review data, Board members will
9 I'm mistaken. So since Dr. Diab has a conflict	9 need to disclose conflicts of interest related to
10 with that drug, we'll just ask that the remaining	10 the prescription drugs on today's agenda, Enbrel
11 four Board members vote. Dr. Diab, you're	11 and Genvoya. Callie will do a roll call.
12 welcome to vote us into executive session, but we	12 CALLIE ANN SHELTON: Dr. Sami Diab.
13 won't have you join us.	13 BOARDMEMBER SAMI DIAB: Yeah, I have
So then I'll kind of phrase the motion,	14 conflict with both drugs.
15 but Cathy, please correct me if this is not	15 CALLIE ANN SHELTON: Thank you, Sami.
16 correct. So are you asking that the Board move	16 Dr. Amy Gutierrez.
17 into executive session to receive legal advice	17 BOARDMEMBER AMY GUTIERREZ: No
18 from its attorneys regarding the public comment	18 conflicts.
19 letter received relating to Genvoya, pursuant to	19 CALLIE ANN SHELTON: Cathy Harshbarger.
20 Section 24-6-402(3)(a)(II)?	20 BOARDMEMBER CATHERINE HARSHBARGER: No
21 BOARDMEMBER CATHERINE HARSHBARGER	21 conflict.
22 Yes, I am. Thank you.	22 CALLIE ANN SHELTON: Dr. Gail Mizner.
23 ATTORNEY ABBY CHESTNUT: Okay.	23 CHAIR GAIL MIZNER: No conflict.
24 BOARDMEMBER AMY GUTIERREZ: I'll second	24 CALLIE ANN SHELTON: And Dr. Justin
25 Cathy's motion.	25 VandenBerg.
Page 18	Page 20
1 CHAIR GAIL MIZNER: So moved.	1 BOARDMEMBER JAMES JUSTIN VANDENBERG:
2 ATTORNEY ABBY CHESTNUT: Okay.	2 No conflict.
3 BOARDMEMBER AMY GUTIERREZ: And I'll	3 CHAIR GAIL MIZNER: Thank you. So we
4 second, Amy Gutierrez.	4 do have a quorum of four people to proceed.
5 CHAIR GAIL MIZNER: Thank you. So	5 Before we begin deliberation, I'd like to note
6 sorry, who Ms. Harshbarger moved and Dr.	6 that all Board members were present at the
7 Guttierez seconded to convene in executive	7 December 8th meeting when staff presented draft
8 session. We need to vote on that, so all in	8 evidence for the Enbrel affordability review.
9 favor, please raise your hand and say aye.	9 I'd like to also note that the Board members were
10 BOARDMEMBER AMY GUTIERREZ: Aye.	10 provided with the entire unredacted draft report
11 BOARDMEMBER CATHERINE HARSHBARGER:	11 on February 9th. I'm sure everyone has read
12 Aye.	12 that, as have I.
13 BOARDMEMBER JAMES JUSTIN VANDENBERG:	To ensure that all Board members have
14 Aye.	14 had an opportunity to review the information in
15 BOARDMEMBER CATHERINE HARSHBARGER:	15 the draft report, I'd like to ask if any Board
16 Aye.	16 member feels we do not have sufficient
17 CHAIR GAIL MIZNER: Thank you. The	17 information to deliberate regarding
18 motion passes and the Board will now convene in	18 unaffordability for Enbrel today. Is there
19 executive session. The public is now excused.	19 anybody who feels that we need further
20 LILA CUMMINGS: And just note for	20 information before deliberating?
21 members of the public, the slide will be up and	21 BOARDMEMBER CATHERINE HARSHBARGER:
22 we will be back when this is done.	22 Nope.
23 (00:19:09 Executive Session begins)	23 CHAIR GAIL MIZNER: Okay. If there are
24 (00:33:36 Executive Session ends)	24 no concerns, are there any objections to moving
25 CHAIR GAIL MIZNER: Thank you everyone,	25 forward with deliberation?
Page 19	P 04
Tuge 17	Page 21

- 1 BOARDMEMBER CATHERINE HARSHBARGER: No 2 from Cathy.
- 3 CHAIR GAIL MIZNER: Okay, good. Lila,
- 4 let's move forward with deliberation.
- 5 LILA CUMMINGS: All right. Thank you,
- 6 Chair Mizner. We can go to the next slide.
- 7 So I will note that we have received
- 8 several suggestions for redlines. Board members,
- 9 that was those redlines were shared in your
- 10 confidential protected folder, so you have the
- 11 unredacted confidential version.
- 12 I also have on my desktop a redacted
- 13 public version and was planning to open those
- 14 documents up and we will go to them to walk
- 15 through the changes as we go throughout the
- 16 report but do let me know if you kind of would
- 17 like the cadence to go any differently.
- 18 So we'll just start with therapeutic
- 19 and utilization profile overview. I will say
- 20 that, you know, the next I believe 40 slides are
- 21 really just copy and paste or screenshots from
- 22 the report itself, so we will defer to you on how
- 23 much time you would like to spend discussing each
- 24 slide. To save my voice, I'm not going to read
- 25 each slide, but we'll leave it up on the screen
- Page 22

- 1 its indication, utilizer profile, health equity
- 2 impact, and therapeutic alternatives, and these
- 3 are the appendices with that information is
- 4 pulled from. We can go to the next slide.
- 5 So Enbrel has six indications, six FDA
- 6 approved indications: rheumatoid arthritis,
- 7 ankylosing spondylitis, plaque psoriasis,
- 8 psoriatic arthritis, juvenile idiopathic
- 9 arthritis. And then October of 2023, an
- 10 additional indication was FDA approved, and
- 11 that's polyarticular juvenile idiopathic
- 12 arthritis.
- And actually, I'm going to pause here.
- 14 This is actually -- apologies -- this is
- 15 inaccurate. Juvenile idiopathic arthritis, and
- 16 it's accurate in your report, juvenile idiopathic
- 17 arthritis is not one of the indications; it's
- 18 juvenile psoriatic arthritis. And so, we can get
- 19 into that in future slides, but in your report,
- 20 it is accurate. Apologies for this. Okay, next
- 21 slide.
- Orphan drug status. So Enbrel is
- 23 classified by the World Health Organization
- 24 Anatomical (ATC) as a tumor necrosis factor alpha
- 25 (TNF) inhibitor. And the FDA granted orphan drug

- 1 for a bit, and then you all can kind of discuss
- 2 as you see fit.
- I will note that when it comes to
- 4 potential redlines to the report, the redlines
- 5 that I'll share on my screen and that you all
- 6 have in your folder, the redlines that we made 7 were really around pulling up data sources. So
- 8 we received some recommendations from Board
- 9 members individually to kind of highlight things
- 10 in appendices or to pull more data from source
- 11 materials that were already footnoted and cited,
- 12 so that's what today's redlines really focus on.
- Before next Friday, if you all are in a
- 14 space where you are ready to adopt the final
- 15 report, I will note that there are a number of
- 16 typos and grammatical errors that we do plan on
- 17 fixing that we've not redlined for you today.
- 18 But then also would encourage, if there are style
- 19 or tone changes that you all would like to see in
- 20 the final report, we will continue accepting
- 21 edits there.
- So these are for the therapeutic and
- 23 utilization profile view includes information
- 24 about Enbrel's clinical efficacy and the people
- 25 who use it. Information is provided regarding

- 1 designation in 1998 for polyarticular-course
- 2 juvenile rheumatoid arthritis, which is now
- 3 referred to as polyarticular juvenile idiopathic
- 4 arthritis.
- 5 BOARDMEMBER AMY GUTIERREZ: So, Lili,
- 6 just a comment. The orphan drug designation is
- 7 only for one indication.
- 8 LILA CUMMINGS: Correct.
  - BOARDMEMBER AMY GUTIERREZ: Not for all
- 10 of them.

9

- 11 LILA CUMMINGS: Correct. Next slide.
- 12 And then here is information on
- 13 utilization of Enbrel according to the All Payer
- 14 Claims Database from 2018 to 2022. And I will
- 15 note Appendix D, we've talked about kind of
- 16 considerations and limitations with APC data
- 17 before and further details are outlined in
- 18 Appendix B.
- 19 Next slide.
- 20 So we do have some utilization and All
- 21 Payer Claims Database about payer type, so you'll
- 22 see here information on utilization across
- 23 commercial markets, Medicaid and Medicare
- 24 Advantage, as reported in the APCD.
  - BOARDMEMBER CATHERINE HARSHBARGER: I

It said that the low-income people 3 are also not as likely to have access to this 4 drug as well. 5 LILA CUMMINGS: I don't know if we 6 necessarily had information specific to Enbrel on 7 access. I believe the research just pointed out 8 that access generally to medications (sound 9 glitch) across race and ethnicity. 10 BOARDMEMBER CATHERINE HARSHBARGER: 11 Thank you. 12 LILA CUMMINGS: All right, so we'll get 13 into therapeutic alternatives. So I will say you 14 all made a decision with previous drugs to I 15 guess I should just say this is the first time 16 that kind of a deeper dive into therapeutic 17 alternatives is before you all. 18 So here are the in-class therapeutic 19 alternatives brand name therapeutic 20 alternatives. You'll see them up there on the 21 screen. I will not read through them. 22 I will note in the affordability review 23 summary report, we did include additional

1	discussion a bit, then I'm going to show you my	1	its therapeutic targets over five years. So
2	screen and pull up the redlined information that	2	we'll just leave this up for a second.
3	was added. But we just wanted to acknowledge	3	BOARDMEMBER CATHERINE HARSHBARGER: I
4	that there is you know, that Humira and	4	think noticing that Humira is by far twice the
5	Remicade do have biosimilar products that have	5	amount of people are utilizing that versus
6	been introduced within the past five years.	6	Enbrel. I don't know this, but probably as
7	But then I'll also note that the	7	pharmacists you do, but is Humira maybe the first
8	utilization of those biosimilars, because of the	8	line or is there anything that's basically
9	lag in claims data, was very, very small, so	9	considered first line?
10	there was not an analysis done from the APCD data	10	CHAIR GAIL MIZNER: There really isn't,
11	of biosimilars.	11	Cathy, no. I mean, there's a huge armamentarium
12	BOARDMEMBER AMY GUTIERREZ: I'd like to	12	of rheumatoid arthritis and autoimmune drugs and
13	echo that. One of the things I noted, Humira was	13	there is no nothing that particularly says
14	not available in biosimilar form when this	14	that you should use one over another.
15	analysis was done, but it was done for our	15	BOARDMEMBER AMY GUTIERREZ: However,
16	neighbors fund release. And payers do have	16	when we look at some of the patient comments and
17	different from my experience, payers have	17	feedback we got in the report, there were some
18	different types of access depending on the drug.	18	comments where we had to go back to step therapy.
19	The other thing that strikes me as I	19	So my guess is given the fact that Humira is now
20	look at this is, most of these are probably	20	biosimilar, at least in today's market, that that
21	pharmacy benefit drugs with the exception of	21	may be a workhorse for a lot of payers just
22	Infliximab Remicade, which is an infusion. So as	22	because of the price comparison, and they may be
23	we start looking at copays and what the	23	using it as first line versus escalation.
24	they're under a different benefit structure than	24	I think Gail's right. There's a lot of
25	the pharmacy benefit, the regional pharmacy	25	inter-variability, but if you're newly diagnosed,
	Page 30		Page 32
1	benefit. So I think we need to keep that in mind	1	you got to stop somewhere, so I think they're
2	as we go down the road in looking at costs.		probably utilizing the biosimilars more.
3	CHAIR GAIL MIZNER: So, Amy, you feel	3	CHAIR GAIL MIZNER: I'm sure it depends
4	that Infliximab Remicade is sort of less	4	in part on which drugs will be approved by their
5	comparable because it requires in-house infusion.		insurance. You know, there's a simple difference
6	BOARDMEMBER AMY GUTIERREZ: It's		between Enbrel and Humira, which is that Humira
7	usually typical and Justin chime in but	7	is injected every two weeks normally and Enbrel
8	usually medical benefits and pharmacy benefits	8	injected every week normally, so few times having
	have different copay structures, so it's kind of	9	to inject yourself, you know. But there isn't a
10	different. It's really hard to compare them as		sort of this is what you start first, this is
11			what unless you're looking at methotrexate,
	insurance.		which has been traditionally what is often
13	BOARDMEMBER JAMES JUSTIN VANDENBERG:		started first, but that's not actually
	Most of the thinking along absolutely right,		necessarily current practice for I think many
15			rheumatologists.
16		16	BOARDMEMBER CATHERINE HARSHBARGER: And
17			I'm not sure totally on the cost, but I think in
18	. 1		the graphs that we saw in our report, Humira
19	subcutaneous has its own other access benefit.		cost-wise isn't cheaper, I guess is the way I'd
1			put it; it's very expensive as well.
20	So just keeping that in mind too as we move down.	20	a · · · · · · · · · · · · · · · · · · ·
	So just keeping that in mind too as we move down.  But, yeah, as far as the pay structure, it's	21	BOARDMEMBER AMY GUTIERREZ: Back in
	But, yeah, as far as the pay structure, it's	21	
21	But, yeah, as far as the pay structure, it's going to be very different.	21 22	2022, Cathy, yes. But after the it's kind of
21 22 23	But, yeah, as far as the pay structure, it's	21 22 23	2022, Cathy, yes. But after the it's kind of like whenever something goes biosimilar, it's
21 22 23 24	But, yeah, as far as the pay structure, it's going to be very different.  LILA CUMMINGS: Okay. I think we can	21 22 23 24	2022, Cathy, yes. But after the it's kind of

1 also have some good information for us. 1 manufacturers that come into the playing field. 2 So just that competition lowers the price. 2 So price and cost profile overview is 3 next. This profile includes information on why 3 That's kind of -- this is an unusual situation 4 different entities along the prescription drug 4 with this drug, given that the biosimilars didn't 5 supply chain or what do they charge for Enbrel, 5 become available until 2023. CHAIR GAIL MIZNER: And as you may 6 as well as what different entities pay. 7 Information is also provided regarding Enbrel's 7 recall, we actually decided not to do an 8 financial effects on health, medical, and social 8 affordability review on Humira because of those 9 biosimilars that had become available. 9 services costs. You'll see there's a number of 10 BOARDMEMBER CATHERINE HARSHBARGER: 10 appendices that this relies on. 11 Right, right, okay. I will just call out in particular 12 Appendix D, relative financial effects. Because 12 CHAIR GAIL MIZNER: It came out in the 13 Enbrel has, you know, six indications and five in 13 very expensive range as well, but that was the 14 particular that have had, you know, prior FDA 14 reason we did not decide -- we decided not to do 15 approval prior to this past October, there is a 15 an affordability review of it. BOARDMEMBER CATHERINE HARSHBARGER: 16 lot of detailed information from across a number 16 17 of national/international organizations, as well 17 Yeah, that's for that review. 18 LILA CUMMINGS: And they're just 18 as from the manufacturer themselves regarding the 19 relative financial effects of Enbrel. They are 19 echoing something that I believe Dr. Guttierez 20 not summarized in a table in the summary report. 20 said. We, in talking with patients and 21 Instead, we've encouraged Board members to go 21 caregivers and looking at the survey results, 22 read Appendix D in full because there's a lot of 22 formulary placement seemed to -- that was 23 great information there. So just noting that, 23 something we heard from patients that impacted 24 that that's the kind of one time we said please 24 them across Enbrel and therapeutic alternatives 25 go read this appendix. That's sounded a little 25 was the different formulary placements. Page 34 Page 36 1 BOARDMEMBER AMY GUTIERREZ: I think I 1 weird. I know you all read the appendices, but 2 read them saying that I was stabilized on Enbrel, 2 that one in particular has the information. 3 but because the insurance wanted me to go try 3 So next slide. 4 another agent again, I had to go do that before I 4 All right, so here is some summary 5 could get access to it. I think I recall reading 5 statistics regarding both price and cost per 6 that. 6 person statistics, as well as statewide price and 7 BOARDMEMBER CATHERINE HARSHBARGER 7 cost statistics as of January 1st, 2024. And 8 Yeah, that happens unfortunately. You know, it's 8 then I'll just note since Enbrel's introduction, 9 hard for patients and providers because they want 9 the WAC has increased over 1500 percent. So 10 to go with the drug they believe is going to be 10 we'll leave this up for a bit, see if there's any 11 the best one, but that cost factor comes into 11 questions, see if there's any clarifications that 12 play. 12 are needed. 13 LILA CUMMINGS: We can keep moving 13 BOARDMEMBER CATHERINE HARSHBARGER: I 14 along. So that kind of summarizes the 14 think the total -- yeah, I think the total out-15 therapeutic and utilization profile. There's 15 of-pocket costs we showed was annually about 16 more information in the report. And actually, 16 3,980, right, when you combined that with the 17 I'm thinking that maybe one of the structures 17 copays. 18 could be we'd go through all the slides for each 18 LILA CUMMINGS: Yes. We do have, like, 19 drug, I will share my screen because I just want 19 a deeper dive into out-of-pocket costs in a 20 to make sure everybody specifically sees the 20 couple of slides. And you're correct, so there 21 redlines that we've proposed so far. So we'll 21 are times where -- and this is noted in the 22 get through all the slides and then I'll verbally 22 report -- there are times where Medicaid patients 23 mention them as we go. And we'll come, I'll 23 out-of-pocket costs are included in a statistic 24 share my screen and show you the redlines that 24 and there are times when it is not. 25 we've made based on your input because you all 25 And we note that this is because Page 35 Page 37

1 Medicaid patients typically pay zero to \$3.00, so	1 histogram, which is very, very skewed to a lower
2 it could potentially, if you're trying to focus	2 dollar amount, but swings all the way out to some
3 in on what the average commercially insured	3 small number of individuals who paid that much.
4 patient is paying, if you include Medicaid data,	4 BOARDMEMBER AMY GUTIERREZ: The APCD
5 it's going to skew the results. And so, this	5 database, if they were getting manufacturer
6 average patient paid per person per year out of	6 patient assistance, would it show up still as a
7 pocket of \$2,295; that is including Medicaid	7 patient paid amount?
8 patients. But then later in the report, we do	8 KATE DAVIDSON: It depends on how the
9 specifically call out the average out-of-pocket	9 assistance comes across, but it's very possible
10 for just commercially insured patients and that	10 those individuals at the very high tail of that
11 is that number you were mentioning, Cathy.	11 were receiving some sort of assistance and that's
And then, Kate Davidson, correct me if	12 just not something that we're able to see in that
13 I'm wrong on any of this.	13 database.
14 KATE DAVIDSON: I do have a slight	14 BOARDMEMBER AMY GUTIERREZ: So the
15 correction. This is still not including Medicaid	15 survey information that Cathy referenced might be
16 for any average, we're not including Medicaid.	16 a better indicator of what's really happening
17 This is including the Medicare Advantage folks,	17 with patients.
18 and so that's why this is different than that	18 BOARDMEMBER CATHERINE HARSHBARGER: And
19 \$3900 number that you referenced, Cathy, which is	19 I guess I see too that if 57 percent have a zero
20 only commercially insured folks.	20 to \$50, that's nice, but then there's still a
21 BOARDMEMBER CATHERINE HARSHBARGER	21 huge amount of people that are paying more, you
22 Okay. Still a significant number. When I looked	22 know, there's still a significant number there.
23 at this, it said in the surveys that you did I	23 BOARDMEMBER AMY GUTIERREZ: Agreed.
24 believe it's the surveys, somebody can correct me	24 CHAIR GAIL MIZNER: As I recall in the
25 that zero to \$50 was paid by 57 percent of the	25 patient surveys, a significant number of patients
Page 38	Page 40
1 respondents, .3, and then the rest of it they	1 reported that the amount they had to pay was
2 paid between \$9,8 some were as high as \$9,850	2 problematic for them.
3 to almost \$10,000, 990, so those are significant	3 BOARDMEMBER CATHERINE HARSHBARGER:
4 variabilities in the cost to the patient that I	4 Yes, they said that. And they also said that
5 just wanted to bring up. Because total patient	5 sometimes they were going without other things
6 paid out, it was, like, \$9.8 million, significant	6 they needed in their lives to be able to afford
7 number. Oh, it's right there on that page, total	7 that medication in those patient surveys. In
8 patient paid. I find that significant.	8 fact, I actually put those numbers down: 52
9 BOARDMEMBER JAMES JUSTIN VANDENBERG:	9 percent of the people said they had to adjust for
	y percent of the people said they had to adjust for
10 What was the number of outliers again that had	10 cost of medications in their budgets basically,
10 What was the number of outliers again that had 11 this severe or, like, the very, very high out-	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as
	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to
11 this severe or, like, the very, very high out-	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned?	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER:	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication.
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila,	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila, 17 can you help me with that or is it the	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication. 18 CHAIR GAIL MIZNER: You mean it seems 19 worse in Colorado than it does nationally.
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila, 17 can you help me with that or is it the 18 difference?	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication. 18 CHAIR GAIL MIZNER: You mean it seems 19 worse in Colorado than it does nationally. 20 BOARDMEMBER CATHERINE HARSHBARGER:
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila, 17 can you help me with that or is it the 18 difference? 19 KATE DAVIDSON: So this is from the	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication. 18 CHAIR GAIL MIZNER: You mean it seems 19 worse in Colorado than it does nationally.
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila, 17 can you help me with that or is it the 18 difference? 19 KATE DAVIDSON: So this is from the 20 APCD claims and kind of just bucketing how many	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication. 18 CHAIR GAIL MIZNER: You mean it seems 19 worse in Colorado than it does nationally. 20 BOARDMEMBER CATHERINE HARSHBARGER: 21 Correct. 22 CHAIR GAIL MIZNER: Because that was 21
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila, 17 can you help me with that or is it the 18 difference? 19 KATE DAVIDSON: So this is from the 20 APCD claims and kind of just bucketing how many 21 people paid within a \$50 bucket. So it was 57	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication. 18 CHAIR GAIL MIZNER: You mean it seems 19 worse in Colorado than it does nationally. 20 BOARDMEMBER CATHERINE HARSHBARGER: 21 Correct.
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila, 17 can you help me with that or is it the 18 difference? 19 KATE DAVIDSON: So this is from the 20 APCD claims and kind of just bucketing how many 21 people paid within a \$50 bucket. So it was 57 22 percent of people paid between zero and \$50, and	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication. 18 CHAIR GAIL MIZNER: You mean it seems 19 worse in Colorado than it does nationally. 20 BOARDMEMBER CATHERINE HARSHBARGER: 21 Correct. 22 CHAIR GAIL MIZNER: Because that was 21
11 this severe or, like, the very, very high out- 12 of-pocket costs, Cathy, like what you had 13 mentioned? 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Well, there was 57.3 percent that were zero to 16 50, and then those that paid the 9850 Lila, 17 can you help me with that or is it the 18 difference? 19 KATE DAVIDSON: So this is from the 20 APCD claims and kind of just bucketing how many 21 people paid within a \$50 bucket. So it was 57 22 percent of people paid between zero and \$50, and 23 then a number of people that I can't tell you	10 cost of medications in their budgets basically, 11 and 21 percent said that they had medical debt as 12 a result of that, and that was compared to 13 nationally. Nationally, the 52 percent as 14 compared to 27 percent nationally, and 21 percent 15 medical debt in Colorado versus 13 nationally, so 16 a higher amount of people are actually in medical 17 debt as a result of this medication. 18 CHAIR GAIL MIZNER: You mean it seems 19 worse in Colorado than it does nationally. 20 BOARDMEMBER CATHERINE HARSHBARGER: 21 Correct. 22 CHAIR GAIL MIZNER: Because that was 21 23 out of 38, I believe.

1	it speaks to it, yeah.	1	CHAIR GAIL MIZNER: I think you may	
2	LILA CUMMINGS: We can actually keep	2	have that slide coming up, right, Lila?	
3	moving along because I think these slides will	3	LILA CUMMINGS: All right, so here is	
4	get into some of the survey results and patient	4	information. This is just a better breakdown of	
5	out-of-pocket response.	5	the average month. And so, in the average month,	
6	BOARDMEMBER CATHERINE HARSHBARGER:	6	what is someone paying across different types of	
7	Sorry about that, Lila.	7	out-of-pocket costs. Kate, before I speak,	
8	LILA CUMMINGS: Oh, no, please don't be	8	please remind me, is this commercial only or this	
9	sorry. Okay, so out-of-pocket estimates. So you	9	got commercial and Medicare Advantage?	
10	know, we've got the All Payer Claims Database, as	10	KATE DAVIDSON: I believe this is	
11	well as information from survey responses. Here	11	commercial only. Yes, this is commercial only.	
12	is one way to visualize differences between	12	LILA CUMMINGS: Okay.	
13	Enbrel and its in-class therapeutic alternatives	13	BOARDMEMBER AMY GUTIERREZ: W	hen we
14	across the average copay, average deductible, and	14	look at the out-of-pocket costs for Remicade,	
15	average total out-of-pocket cost.	15	given that it is an infusion, is that just the	
16	So there's a lot on this slide, so I'm	16	drug or is it the drug with the IV solution and	
17	just going to give a moment and turn it over to	17	all of that, or do we know?	
18	you all.	18	KATE DAVIDSON: I think it's	
19	BOARDMEMBER AMY GUTIERREZ: When I look	19	everything. So the claim itself will include all	
20	at this slide, this is what made me make that	20	of the costs associated with the infusion, so	
21	comment about the Remicade being different	21	this is the copay associated with that medical	
22	because I think it's a different structure. When	22	distribution of the drug, if you will, so it does	
23	I look at the bottom, Enbrel, Humira, Cimzia, and	23	include that difference.	
24	Simponi, those are more the pharmacy benefit. I	24	DR. BEN ROME: Dr. Guttierez, this is	
25	see them kind of in the same benefit structure	25	Dr. Rome from PORTAL. We've looked at this	
	Page 42			Page 44
1	versus Remicade.	1	separately as separate claims in prior studies	
2	CHAIR GAIL MIZNER: So even if we take	2	and the cost of usually, you know, the out-of-	
3	out Remicade, we still are seeing that Enbrel, in	3	pocket cost is mostly for the drug claim, the	
4	terms of out-of-pocket costs is second only to	4	code that's for the drug; that includes the	
5	Humira, which of course, this is 2022, the most	5	administration of the drug too. But there is a	
6	recent data may be is likely changing given	6	separate code, an administration code, that's	
7	the biosimilars at least that people are	7	like a sort of generic administration of an IV	
8	accessing biosimilars of Humira. And so, Enbrel	8	solution for cancer or for non-cancer, and it	
9	does look relatively more expensive in terms of	9	depends on the time and how long it takes. So	
10	out-of-pocket costs for what patients in Colorado	10	those can generate additional out-of-pocket	
11	are paying.	11	costs, but they tend to be small relative to the	
12	BOARDMEMBER AMY GUTIERREZ: I agree	12	out-of-pocket costs of the drug itself.	
13	with you, Gail.	13	BOARDMEMBER AMY GUTIERREZ: It does	
14	CHAIR GAIL MIZNER: Any other comments	14	include the labor and everything for infusing;	
15	on this before Lila moves on? Kate, anything to	15	that's where I was kind of going with it.	
16	add?	16	DR. BEN ROME: Yeah. I mean, it	
17	BOARDMEMBER CATHERINE HARSHBARGER:	17	includes the storage and delivery of the drug;	
18	There was, on one of those surveys, it did	18	there is a separate administration cost there	
19	mention 10 patients, but, you know, we're talking	19	that, you know, healthcare facilities can bill to	
20	about 22 or 23 people that were surveyed, that	20	insurance company. Obviously, that might vary by	
21	they still had trouble paying for their	21	payer or how that's negotiated and whether	
22	, 2 1 3	22	they're allowed to bill that.	
23	significant too out of the total number that we	23	BOARDMEMBER AMY GUTIERREZ: Thanks.	
24	had well, almost half of the people were	24	BOARDMEMBER CATHERINE HARSHBARGE	ER: The
25	having trouble paying for it.	25	only comment I want to make on this is the	
	Page 43			Page 45

1 average total out-of-pocket per month is \$373, 1 I think 30 percent of them said they still had 2 and I always think that in relationship to what 2 trouble affording Enbrel, like paying their rent. 3 does it cost to have your house, what does it 3 And they would know about -- I mean, patient 4 cost to buy groceries every week, especially 4 manufacturer programs are out there, so we still 5 right now. And so, \$373 is a lot of out-of-5 have -- and that's a big percentage. To have 30 6 pocket per month, it really is a lot, especially 6 percent have to decide between paying their rent 7 if you start talking about single-parent families 7 or food or transportation versus their drug, it's 8 or any of that going on as well. 8 a big chunk. CHAIR GAIL MIZNER: And in this review BOARDMEMBER JAMES JUSTIN VANDENBERG: 10 of just commercial insurance, Enbrel is the most 10 Absolutely. 11 expensive of the therapeutic alternatives. 11 CHAIR GAIL MIZNER: And I think, you 12 BOARDMEMBER CATHERINE HARSHBARGER: 12 know, there were also patient comments about the 13 Right. 13 difficulty of having to be on the phone all day 14 CHAIR GAIL MIZNER: Any other comments 14 to access the patient assistance. It doesn't 15 on this before Lila moves on? 15 sound like the programs are particularly easy or LILA CUMMINGS: Okay. And so, this is 16 that they always cover enough. I mean, just 17 similar information shown in a different way, but 17 going back to one of the first slides, it's just 18 I will note this is annual. So this table shows 18 impressive that the WAC would have increased 1500 19 the annual change and the annual average out-of-19 percent; that is... 20 pocket amounts comparing Enbrel, which is in dark 20 BOARDMEMBER JAMES JUSTIN VANDENBERG: 21 purple, to its therapeutic alternatives. Each 21 Is that year over year or is that from when it 22 line is labeled with the name of the therapeutic 22 first came to... 23 alternative and then the percent change from 2018 23 CHAIR GAIL MIZNER: When it first came 24 to 2022, and Enbrel has the third highest 24 out, which was a long time ago. 25 increase in total out-of-pocket costs with a 77.8 25 BOARDMEMBER JAMES JUSTIN VANDENBERG: I Page 46 Page 48 1 percent increase. 1 just want to clarify on that one. I'm, like, did 2 it go from (crosstalk) and then it went up to BOARDMEMBER JAMES JUSTIN VANDENBERG: I 3 mean, it doesn't seem like the story has really 3 that? But still, long run, you know... 4 CHAIR GAIL MIZNER: Yeah. 4 changed much on each slide that we've gone to. 5 BOARDMEMBER AMY GUTIERREZ: And, Lila, 5 You know, I think any normal person, they're 6 are we going to have a slide -- I'll hold my 6 seeing Cimzia, like financial, you know, seem to 7 be problematic to that level of having to pay an 7 question then -- on rebates, because I know 8 out-of-pocket cost there. I think that's where 8 that's the next section on the report. 9 Amy was asking earlier about where does the copay LILA CUMMINGS: We do have a slide with 10 cards come in or any kind of patient assistance. 10 those confidential, so I'd be happy to kind of --11 if you all would like to go into executive 11 But even if it is adding in there, that's still -12 session. I will just reemphasize for folks. So 12 - well, I guess that's not reflective in this, so 13 we have rebate estimate data that we obtained 13 if it's showing that amount with that copay card, 14 through an organization called SSR Health. We 14 let's say if it was integrated, how much would 15 that bring that 77.8 percent down. 15 are not allowed to share that information 16 publicly. Board members cannot discuss if it is I think that's kind of where it's that 17 missing puzzle piece to see is that truly a large 17 a high or a low rebate drug. 18 18 impact, a sufficient impact to say that it's So Board members, you have access to 19 making a change or making a dent for patient 19 that information, but you can't give specific 20 percentages. Can't say if, in your opinion, it 20 access or ability to pay. I don't know, that's 21 is high or low. You can say if a rebate has 21 kind of some of the pieces I'm trying to look for 22 and tease out from the information here. 22 increased or decreased over time, so that can be 23 said publicly. But, unfortunately, I would have BOARDMEMBER AMY GUTIERREZ: I think 24 Cathy said it earlier and I agree with you. 24 to hop into executive session, which we

Page 49

Page 47

25 absolutely can do if you all would like.

25 Cathy said earlier that in the patient comments,

1 BOARDMEMBER AMY GUTIERREZ: Where I was	1 sort of some general comments and for context.
2 going with this had nothing to do with the amount	2 BOARDMEMBER AMY GUTIERREZ: And I just
3 of the rebate. It had to do with the	3 brought it up just because we got it as a public
4 manufacturer, a letter that we received, where	4 comment and I wanted to understand that. Thank
5 there was a contention that as the rebates go up,	5 you.
6 the drug price goes up. And I just wanted to see	6 CHAIR GAIL MIZNER: Do Board members
7 from Ben if there's any his thoughts on that.	7 feel the need to go into executive session to
8 Because it was a pretty I mean, they even had	8 discuss confidential information?
9 diagrams in there about, well, when the rebate	9 BOARDMEMBER CATHERINE HARSHBARGER: No.
10 goes up, we have to increase our price to keep up	10 BOARDMEMBER AMY GUTIERREZ: No.
11 or we're out of the market, so I just wanted to	11 CHAIR GAIL MIZNER: Good.
12 get the take, Ben, on what that comment was.	12 LILA CUMMINGS: We can keep moving
13 BOARDMEMBER CATHERINE HARSHBARGER: Is	13 along, but if you change your mind, just let us
14 that the letter with the PBMs piece in it; are	14 know.
15 you talking about that one, Amy?	All right, so here is information on
16 BOARDMEMBER AMY GUTIERREZ: Yeah, the	16 the relative financial effect. Not going to read
17 payers. What they were alleging is the payers	17 the slide but will leave it up for a little bit.
18 are getting or the PBMs are getting more of a	18 So there's really a couple of areas where we
19 rebate so they have to keep increasing the price.	19 gather this input: input from patients and
20 I just wanted to get some insight on that from	20 caregivers, input individuals with scientific and
21 our expert.	21 medical training, as well as review of different
22 DR. BEN ROME: Sure. I mean, without	22 national and international health technology
23 talking specifically about Enbrel, in general	23 assessment organizations that do both clinical
24 what we've seen over the last decade or two has	24 effectiveness research and summarization, as well
25 been that list prices for many brand-name drugs	25 as cost effectiveness, which we'll get to in a
Page 50	Page 52
1 have increased faster than inflation and rebates	1 second.
2 have gone up as well. There's been a widening	2 And then I'd also note too that we
3 gap, therefore, between sort of list and net	3 pulled information from the manufacturer,
4 prices. You know, it depends on the drug	4 voluntarily submitted manufacturer documents with
5 obviously in terms of what the net effect is on	5 information they provided on the health effects
6 sort of net prices or after rebates and	6 of Enbrel.
7 discounts. Although, you know, just to be clear,	7 I'll leave this up to just I was not
8 perhaps it's our health and all sorts of other	8 going to read through but really want to leave
9 estimates; this includes all sorts of discounts	9 time to highlight the input that was received
10 other than rebates as well and the supply chain.	10 from patients and caregivers on the health
So the net price is really the price	11 effects of Enbrel.
12 that's received by the manufacturer but doesn't	BOARDMEMBER AMY GUTIERREZ: Justin and
13 include sort of supply chain costs, of which	13 Gail, since you're the other clinicians on here,
14 there are always some supply chain costs to	14 what I recall reading is that Enbrel was the only
15 deliver a drug from the manufacturer to the	15 one that worked in juvenile, is that right, or
16 patient, including the pharmacy fees and other	16 the others were actually more for the adult
17 sort of costs that, you know, everyone I think	17 patients.
18 recognizes normal costs of doing business.	18 CHAIR GAIL MIZNER: I'm not sure it's
So that's just sort of some, like,	19 the only one that works in juvenile. I think
20 general comments as you're sort of reviewing the	20 it's the only one approved.
21 rebate data. You know, there are many examples	21 BOARDMEMBER AMY GUTIERREZ: Approved,
22 where the net prices have gone up despite	22 got it, okay.
23 increasing rebates, and, you know, just in other	23 CHAIR GAIL MIZNER: So it's not that
24 words, the increases and rebates did not fully	24 other drugs aren't used.
25 offset the increases in list prices; that's just	_
	25 BOARDMEMBER AMY GUTIERREZ: Are used
Page 51	25 BOARDMEMBER AMY GUTIERREZ: Are used Page 53

1 off label, yeah, got it.		1 received FDA approval for pediatric juvenile
2 CHAIR GAIL MIZNER	R: But I'm not a	2 idiopathic arthritis in 2020.
3 pediatrician, but that was my	understanding.	3 LILA CUMMINGS: Thank you, Dr. Rome.
4 LILA CUMMINGS: A		4 BOARDMEMBER CATHERINE HARSHBARGER:
5 dive into appendices if we wa	nt. In Appendix I,	5 Thanks, Ben.
6 input from individuals with sc	cientific and	6 LILA CUMMINGS: Okay, we can move on to
7 medical training, we highlight	ted what was heard	7 the next slide.
8 particularly around off-label u	isage.	8 So here is a summary of the information
9 BOARDMEMBER AM	MY GUTIERREZ: If you were	9 gained from individuals with scientific and
10 going to use	10	0 medical training, and we'll leave it up for a
11 CHAIR GAIL MIZNER	R: That's what I	1 while as well.
12 think.	12	2 BOARDMEMBER CATHERINE HARSHBARGER: The
13 BOARDMEMBER AM	IY GUTIERREZ: If you had 13	3 only thing is these are the same things we would
14 a patient with juvenile, the FD	OA approved 14	4 see in the other drugs as well, right, because
15 indication would be use Enbre	el. 15	5 this is the indications that they have for any of
16 LILA CUMMINGS: A	and I think a	6 them to be considered effective.
17 combination and be happy t	to pull these up a	7 LILA CUMMINGS: Go ahead, Chair Mizner.
18 combination of the therapeutic	_	8 Apologies.
19 appendix where it's listed which		9 CHAIR GAIL MIZNER: Detailing through
20 therapeutic alternatives are ap		0 the information, the appendices that have to do
21 specific indications, the six in	-	1 with this, I didn't feel we saw any evidence that
22 is approved for, and then that		2 Enbrel was less good or better than the
23 input from individuals with sc		3 therapeutic alternatives. Again, it's a good and
24 medical training.		4 effective drug.
25 I will say staff did not c		
	Page 54	Page 56
1 research to identify you know,	•	1 think there was one report where it said Enbrel
2 looked at each drug and its therap		2 was inferior to Humira, but then there was
3 alternative and what its FDA appr		3 another one that said it was superior to
4 were. We did not do an indication	-	4 Remicade, but it was only a small amount of
5 search where we looked at an indi		5 people, a small study, so there were still other
6 looked at which prescription drug	s were also	6 alternatives basically.
7 approved.	7	7 CHAIR GAIL MIZNER: Yeah. I think
		8 that's clear, there are a variety of
9 think you guys did a great job on	that section,	9 alternatives, both in just looking at TNF
10 so thank you for that. I feel pretty	good about 10	0 inhibitors and then looking at other kinds of
11 it.		
12 CHAIR GAIL MIZNER: I		1 (indiscernible) and biologics. But, you know,
12 CHAIR GAIL WIZIVER. 1		1 (indiscernible) and biologics. But, you know, 2 it's not a drug where I think we have to question

It's lumatologic 20 Dr. Rome. Just st your 21 22 23	2 it's not a drug where I think we have to question 3 that it's a worthwhile medication. 4 BOARDMEMBER CATHERINE HARSHBARGER: No, 5 not at all. 6 CHAIR GAIL MIZNER: It's an effective 7 medication. 8 BOARDMEMBER CATHERINE HARSHBARGER: 9 Absolutely. 0 LILA CUMMINGS: I think we can move to 1 the next slide because that 2 And then this is what I was mentioning
13 we have to spend a lot of time on 14 Enbrel is, it's clear Enbrel is an eff 15 from a number of indications. Th 16 patients who never find it effectiv 17 are other patients who find it extre 18 effective, and that's what the data 19 mean, it's not news. It's a good dr 20 part of the armamentarium of rhet 21 agents. 22 DR. BEN ROME: This is I 23 on Table 4 of the report, it does list	don't feel like health effects.  fective drug ere are a few le, but there emely shows. I rug. It's lumatologic  Dr. Rome. Just st your dications, as	2 it's not a drug where I think we have to question 3 that it's a worthwhile medication. 4 BOARDMEMBER CATHERINE HARSHBARGER: No, 5 not at all. 6 CHAIR GAIL MIZNER: It's an effective 7 medication. 8 BOARDMEMBER CATHERINE HARSHBARGER: 9 Absolutely. 0 LILA CUMMINGS: I think we can move to 1 the next slide because that 2 And then this is what I was mentioning 3 earlier. And Ms. Harshbarger, what you just
13 we have to spend a lot of time on 14 Enbrel is, it's clear Enbrel is an eff 15 from a number of indications. Th 16 patients who never find it effectiv 17 are other patients who find it extre 18 effective, and that's what the data 19 mean, it's not news. It's a good dr 20 part of the armamentarium of rheu 21 agents. 22 DR. BEN ROME: This is I 23 on Table 4 of the report, it does lis 24 therapeutic alternatives and the in	don't feel like health effects.  fective drug ere are a few le, but there emely shows. I rug. It's lumatologic  Dr. Rome. Just st your dications, as	2 it's not a drug where I think we have to question 3 that it's a worthwhile medication. 4 BOARDMEMBER CATHERINE HARSHBARGER: No, 5 not at all. 6 CHAIR GAIL MIZNER: It's an effective 7 medication. 8 BOARDMEMBER CATHERINE HARSHBARGER: 9 Absolutely. 0 LILA CUMMINGS: I think we can move to 1 the next slide because that 2 And then this is what I was mentioning 3 earlier. And Ms. Harshbarger, what you just 4 mentioned is exactly from this appendix. If

- 1 us to touch on, happy to pull it up if you need,
- 2 but we'll just leave this here for now.
- 3 We can keep moving on. I believe
- 4 financial effects is next.
- 5 So here is one of the -- I think the
- 6 full survey results from patients is found in
- 7 Appendix H. It's coming in at 285 pages with
- 8 kind of the full unedited answers. Something
- 9 that we were really appreciative of is there were
- 10 stakeholders that helped us get the word out when
- 11 we reopened the survey in January, and so, I
- 12 think we were pretty pleased with the response
- 13 rate. But we did notice that there were, you
- 14 know, a number -- there was a difference between
- 15 national and Colorado, and so we've pulled that
- 16 out here for a number of the questions.
- 17 I will say we got a suggestion to do
- 18 exactly what you did on your own, Ms.
- 19 Harshbarger, and put in percentages, so our plan
- 20 would be to do that kind of through the
- 21 appendices, as well as the report, to make it a
- 22 little easier particularly when comparing
- 23 national responses versus Colorado responses.
- 24 And when I pull up the edited version
- 25 of the report, you'll see Table 12 around

- 1 percentage.
- 2 BOARDMEMBER CATHERINE HARSHBARGER:
- 3 Right.
- 4 BOARDMEMBER JAMES JUSTIN VANDENBERG:
- 5 Speculation obviously. Do you think that has
- 6 more to do with just the higher cost of living?
- 7 Again, I mean, you know, like, the housing
- 8 market, et cetera has gone up, I mean,
- 9 exponentially to where you're comparing this
- 10 market to homes in California. And I'm just --
- 11 again, now we're getting into a different area,
- 12 but I'm just trying to think, like you said,
- 13 having a higher percentage here from the
- 14 responses to there, you know, what other factors
- 15 are coming into play, and that one just pops into
- 16 my mind immediately.

#### 17 BOARDMEMBER CATHERINE HARSHBARGER: I

- 18 think it's a good question. I think the biggest
- 19 thing that I would remark is that we tend to do
- 20 national markers against other metrics in
- 21 healthcare, and so this is just one more that we
- 22 take that national average basically and say
- 23 here's what we think. So there's states that are
- 24 higher and states that are lower, you know,
- 25 because California is always one that you can

Page 58

Page 60

- 1 utilization management, we've put in percentages.
- 2 And then we're going to go through and do that
- 3 for a number of -- any time there's a comparison
- 4 between national and Colorado, we'll put the
- 5 percentages in.
- 6 BOARDMEMBER AMY GUTIERREZ: I was going
- 7 to recommend that same thing, Lila, so good.
- 8 I've had both at my calculator and started doing
- 9 those.

#### 10 BOARDMEMBER CATHERINE HARSHBARGER: But

- 11 I have to tell you this information was very
- 12 helpful in the format that you gave, so I mean, I
- 13 just did a little math; that was all.
- 14 CHAIR GAIL MIZNER: And just to say
- 15 what we already said, that 20 out of 38 felt that
- 16 the cost of medication had caused them to have to
- 17 cut costs in other areas of their life is
- 18 significant I think.

#### 19 BOARDMEMBER CATHERINE HARSHBARGER: I

- 20 agree. And Coloradans struggle more so than even
- 21 the national level, so that to me was also
- 22 important to see.
- 23 CHAIR GAIL MIZNER: Right, even though
- 24 the national level is still, you know,
- 25 significant, but Colorado is even higher

- 1 look at, but there's other states that are high,
- 2 New York and those kinds of areas as well, and
- 3 yet we're still outpacing it in the wrong
- 4 direction.
- 5 CHAIR GAIL MIZNER: And our basic
- 6 charge is to decide whether this medication is
- 7 unaffordable for Coloradans, so that Colorado
- 8 data, I'm glad that you separated it out.

#### 9 BOARDMEMBER CATHERINE HARSHBARGER: I

- 10 like that we had a national one to look at as
- 11 comparison, absolutely very important.
- 12 BOARDMEMBER AMY GUTIERREZ: Even the
- 13 national one at 28 percent or 27 percent, it's
- 14 still a lot. It's like 50 percent in Colorado,
- 15 even though we are twice as high, it's still an
- 16 issue across the country.

### 17 BOARDMEMBER CATHERINE HARSHBARGER:

- 18 Right.
- 19 CHAIR GAIL MIZNER: Should we move on?
- 20 LILA CUMMINGS: Sorry, I was on mute.
- 21 But, yes, happy to.
- Okay, so then here is information from
- 23 individuals with scientific and medical training.
- 24 We'll leave it up for a moment for you all to
- 25 take a look at, and then also survey responses

Page 61

1 and summarize of meetings are in Appendix I as 1 is summarized, I believe, in Appendix K with 2 well. 2 rebate, discounts, and price concessions where we 3 BOARDMEMBER AMY GUTIERREZ: To me, 3 do a summary of manufacturer assistance programs. BOARDMEMBER CATHERINE HARSHBARGER: I 4 looking at this kind of confirms what we were 5 just talking about: there is affordability issues 5 think for me, today anyway, I don't know that 6 with this drug, given the amount of out-of-pocket 6 while that is important to note at some point, I 7 expenses, the difficulty in getting it, patient 7 don't know that it's going to get in the way of 8 assistance programs; it's kind of reiterating the 8 our decision today relative to Enbrel. And I say 9 same thing. 9 that because we still have statistics that show 10 CHAIR GAIL MIZNER: That last comment 10 that people that are United States citizens and 11 Coloradans are struggling. And so, for me, I see 11 is interesting to me. People who are 12 undocumented can access financial assistance 12 that as that's our core mission is to look at 13 programs despite not being a U.S. citizen. There 13 what is not affordable for people. 14 are -- certainly, there may be sometimes 340B 14 BOARDMEMBER AMY GUTIERREZ: And I agree 15 programs that assist those patients, not all. 15 with you, Cathy, especially if you look at that 16 And I really would be interested to know -- maybe 16 third bullet. Even if they aren't always aware 17 and they have difficulty navigating the process, 17 that's confidential information, I don't know, 18 for Enbrel; I don't think it should be 18 I would think that would be even more difficult 19 for someone that's not a U.S. citizen to have to 19 confidential. Some assistance programs require a 20 social security number and some do not, and that 20 try figure all that out. 21 actually is a piece of information I would like 21 CHAIR GAIL MIZNER: Oh yeah, 22 to know. 22 extraordinarily difficult. BOARDMEMBER JAMES JUSTIN VANDENBERG: 23 And, Lila, this was an individual with 24 You're right, Gail. Every program is completely 24 scientific and medical training who said that the 25 different. They can set whatever rules that they 25 annual maximum copay amount that's awarded Page 62 Page 64 1 want. I've seen it very specific, excludes a lot 1 decreased significantly in the last couple of 2 of areas; then I've seen some that are completely 2 years. 3 open. I mean, some of the easiest ones you just 3 LILA CUMMINGS: My screen is a 4 apply and essentially, you can get it, assuming 4 little... 5 you hit those little markers. 5 CHAIR GAIL MIZNER: Looking at the As far as what the requirements are, 6 fourth bullet there. 7 that is public knowledge to where we could ask BOARDMEMBER CATHERINE HARSHBARGER: 8 staff to look that up as far as for Enbrel, if 8 Annual maximum copay awarded. 9 that's important in our review at this point, or CHAIR GAIL MIZNER: So I would 10 would that be later on down the road. 10 summarize this input from individuals with CHAIR GAIL MIZNER: Well, I think it 11 scientific and medical training, essentially 12 does -- would tell us something about 12 we're talking about rheumatologists and 13 affordability. If Enbrel is one of the programs 13 pharmacists who work with rheumatologic meds that 14 that requires a social security number, 14 this is proving to be pretty costly for people. 15 therefore, requires you to be documented, that 15 BOARDMEMBER CATHERINE HARSHBARGER: I'm 16 does exclude a significant number of people who 16 guessing it's prohibited for some; some are even 17 might need it. So if that is information we can 17 there that would like to be on Enbrel. 18 get from staff, that would be very useful I 18 LILA CUMMINGS: Okay, we'll keep moving 19 think. It's probably something somebody could 19 along. It's still financial effects. So this is 20 look up very quickly just going on the Enbrel 20 a similar one around really taking a look at 21 site actually. 21 Appendix D for the specific cost effectiveness 22 LILA CUMMINGS: We pulled the 22 studies by indication. So if there's anything 23 information from Amgen's letter; they provided 23 there that you would like to talk about? 24 information tailored to us. We also looked at I would say the summary of it was 25 their website and what was publicly posted. That

Page 65

Page 63

25 pretty similar to Chair Mizner, what you've

1 already said that some situations where folks	1 may have something to say.
2 have found it, where institutions have found it	2 DR. BEN ROME: I was going to add just
3 more or less, kind of right there in the middle.	3 one thing, which is that I know this graph only
4 But if you have specific questions, I reference	4 shows this is WAC data for Enbrel. Congress
5 Appendix D.	5 has released, you know, a public investigation
6 We note this in the appendix. There's	6 comparing the WAC prices for Enbrel and Humira
7 more research on cost effectiveness for the	7 and shown that they increased sort of at the same
8 indications that utilize Enbrel more frequently,	8 rate, so this actually sort of stepwise increase
9 so rheumatoid arthritis and ankylosing	9 with those two drugs. I don't think they looked
10 spondylitis, those have kind of more research	10 at the other drugs, other therapeutic
11 where some of the smaller utilization populations	11 alternatives in the class. These are obviously
12 had less research.	12 the two most commonly used ones, but that gives
13 CHAIR GAIL MIZNER: Anybody need more	13 you context within the class.
14 information there?	14 I think your other question
15 BOARDMEMBER CATHERINE HARSHBARGER: No.	15 (indiscernible) outside of the class is this
16 LILA CUMMINGS: Next slide. So we've	16 abnormally high, and I think it is on the high
17 moving on to the third and final profile.	17 end. There's, again, pretty good data that sort
18 So this is the access to care profile,	18 of looks at average price increases and it tends
19 and it examines potential access concerns related	19 to be more in the, like, you know, 10 percent
20 to Enbrel and whether there's evidence that the	20 range per year on average for brand name drugs,
21 causes of access to care concerns may be related	21 so this is higher than average.
	22 LILA CUMMINGS: I do want to highlight
22 to Enbrel's price or cost. This profile includes	23 that in Appendix A for Enbrel, WAC, it's
23 an examination of potential relationships with	24 confidential, but there is information regarding
24 changes between utilization, price and costs, as	25 the specific wholesale acquisition costs change
25 well as information about safety net providers, Page 66	Page 68
1 utilization management requirements, and health	1 for Enbrel and all of its therapeutic
	1 for Enbrel and all of its therapeutic 2 alternatives, so you can access that information.
1 utilization management requirements, and health	
1 utilization management requirements, and health 2 benefit plan design. And these are the	2 alternatives, so you can access that information.
utilization management requirements, and health     benefit plan design. And these are the     appendices where that information is pulled from.	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows
utilization management requirements, and health     benefit plan design. And these are the     appendices where that information is pulled from.     Okay, next slide.	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the
<ol> <li>utilization management requirements, and health</li> <li>benefit plan design. And these are the</li> <li>appendices where that information is pulled from.</li> <li>Okay, next slide.</li> <li>All right, so we'll start here with</li> </ol>	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the 5 actual change in the wholesale acquisition cost.
<ol> <li>utilization management requirements, and health</li> <li>benefit plan design. And these are the</li> <li>appendices where that information is pulled from.</li> <li>Okay, next slide.</li> <li>All right, so we'll start here with</li> <li>price effect on access. So this is just simply</li> </ol>	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the 5 actual change in the wholesale acquisition cost. 6 BOARDMEMBER CATHERINE HARSHBARGER: My
<ol> <li>utilization management requirements, and health</li> <li>benefit plan design. And these are the</li> <li>appendices where that information is pulled from.</li> <li>Okay, next slide.</li> <li>All right, so we'll start here with</li> <li>price effect on access. So this is just simply</li> <li>showing the change in Enbrel's wholesale</li> </ol>	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the 5 actual change in the wholesale acquisition cost. 6 BOARDMEMBER CATHERINE HARSHBARGER: My 7 comment is it's high; that's what it is. It's
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the 5 actual change in the wholesale acquisition cost. 6 BOARDMEMBER CATHERINE HARSHBARGER: My 7 comment is it's high; that's what it is. It's 8 high and even comparing with Humira, they both
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation.	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the 5 actual change in the wholesale acquisition cost. 6 BOARDMEMBER CATHERINE HARSHBARGER: My 7 comment is it's high; that's what it is. It's 8 high and even comparing with Humira, they both 9 are high; that's my feedback from having read
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the 5 actual change in the wholesale acquisition cost. 6 BOARDMEMBER CATHERINE HARSHBARGER: My 7 comment is it's high; that's what it is. It's 8 high and even comparing with Humira, they both 9 are high; that's my feedback from having read 10 that appendix.
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all	2 alternatives, so you can access that information. 3 It doesn't show percentage change; it just shows 4 that's why it's confidential it shows the 5 actual change in the wholesale acquisition cost. 6 BOARDMEMBER CATHERINE HARSHBARGER: My 7 comment is it's high; that's what it is. It's 8 high and even comparing with Humira, they both 9 are high; that's my feedback from having read 10 that appendix. 11 BOARDMEMBER AMY GUTIERREZ: Oh, go 12 ahead, Cathy. 13 BOARDMEMBER CATHERINE HARSHBARGER: No,
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in 17 general looking at it, it seems astronomical.	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it  17 shouldn't be 1500 percent; that's what it
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in 17 general looking at it, it seems astronomical. 18 But I don't know, just seeing it, like I don't	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it  17 shouldn't be 1500 percent; that's what it  18 shouldn't be. What it should be is up for
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in 17 general looking at it, it seems astronomical. 18 But I don't know, just seeing it, like I don't 19 know how to say the right word to it, but just	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it  17 shouldn't be 1500 percent; that's what it  18 shouldn't be. What it should be is up for  19 debate, but it shouldn't be 1500 percent.
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in 17 general looking at it, it seems astronomical. 18 But I don't know, just seeing it, like I don't 19 know how to say the right word to it, but just 20 trying to put it into a better context. Is every	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it  17 shouldn't be 1500 percent; that's what it  18 shouldn't be. What it should be is up for  19 debate, but it shouldn't be 1500 percent.  20 BOARDMEMBER AMY GUTIERREZ: I seem to
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in 17 general looking at it, it seems astronomical. 18 But I don't know, just seeing it, like I don't 19 know how to say the right word to it, but just 20 trying to put it into a better context. Is every 21 single drug out there going up at 1500 since it	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it  17 shouldn't be 1500 percent; that's what it  18 shouldn't be. What it should be is up for  19 debate, but it shouldn't be 1500 percent.  20 BOARDMEMBER AMY GUTIERREZ: I seem to  21 recall reading somewhere they had something like
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in 17 general looking at it, it seems astronomical. 18 But I don't know, just seeing it, like I don't 19 know how to say the right word to it, but just 20 trying to put it into a better context. Is every 21 single drug out there going up at 1500 since it 22 came out or that have been out on the market this	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it  17 shouldn't be 1500 percent; that's what it  18 shouldn't be. What it should be is up for  19 debate, but it shouldn't be 1500 percent.  20 BOARDMEMBER AMY GUTIERREZ: I seem to  21 recall reading somewhere they had something like  22 36 price hikes over this time period too, I mean,
1 utilization management requirements, and health 2 benefit plan design. And these are the 3 appendices where that information is pulled from. 4 Okay, next slide. 5 All right, so we'll start here with 6 price effect on access. So this is just simply 7 showing the change in Enbrel's wholesale 8 acquisition costs since its introduction, as well 9 as the change, the percent change in inflation. 10 BOARDMEMBER JAMES JUSTIN VANDENBERG: I 11 guess I'm curious. It's a very large number, but 12 I'm curious to see what that compares to maybe 13 the class of (indiscernible). But, like, are all 14 of them doing that? Not saying it's right, but 15 is this setting apart a higher rate than its 16 competitors to where it seems I mean, just in 17 general looking at it, it seems astronomical. 18 But I don't know, just seeing it, like I don't 19 know how to say the right word to it, but just 20 trying to put it into a better context. Is every 21 single drug out there going up at 1500 since it 22 came out or that have been out on the market this 23 long? My guess probably no, but I don't know,	2 alternatives, so you can access that information.  3 It doesn't show percentage change; it just shows  4 that's why it's confidential it shows the  5 actual change in the wholesale acquisition cost.  6 BOARDMEMBER CATHERINE HARSHBARGER: My  7 comment is it's high; that's what it is. It's  8 high and even comparing with Humira, they both  9 are high; that's my feedback from having read  10 that appendix.  11 BOARDMEMBER AMY GUTIERREZ: Oh, go  12 ahead, Cathy.  13 BOARDMEMBER CATHERINE HARSHBARGER: No,  14 no. Ben's basically said that as well. I mean,  15 the question with that always is what should it  16 be, and the thing I keep saying to myself, it  17 shouldn't be 1500 percent; that's what it  18 shouldn't be. What it should be is up for  19 debate, but it shouldn't be 1500 percent.  20 BOARDMEMBER AMY GUTIERREZ: I seem to  21 recall reading somewhere they had something like  22 36 price hikes over this time period too, I mean,  23 in terms of increases. I'm trying to find it on

1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  1 alternatives. 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. 1 alternatives. 1 alternatives. 1 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. 9 alternatives. 9 alternatives deen and therapeutic 9 alternatives deen and therapeutic 1 utilization of Enbrel has stayed consistent from 1 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	2			
3 percentage. Oftentimes, on the commercial side, 4 if spoing off of AWP, not necessarily the WAC, 5 and it's a percentage of that. And I'm just 6 frying to think of - but I assume you're not 7 going to have an AWP than's below the WAC costs, 8 so I guess you would see it in some degree fall 10 up to then what's going to then translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: Fil bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER AMY GUTIERREZ: Because 16 (sound glitch) increase. 17 BOARDMEMBER CATHERINE HARSHBARGER: Is 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 don't 21 don't 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price is going to the product and 25 can certainly change depending on the product and 26 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are gost It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 15 Right, okay. I knew that. I just wasn't sure		Amy, I'm trying to think, Amy, for some of the	1	LILA CUMMINGS: One thing I want to
4 it's going off of AWP, not necessarily the WAC, 5 and it's a percentage of that. And I'm just 6 trying to think of - but I assume you're not 7 going to have an AWP that's below the WAC costs, 8 so I guess you would see it in some degree fall 9 in line with that. I'm just trying to match that 10 up to then what's going to then translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right, (way. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 27 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER CATHERINE HARSHBARGER: 14 that determines pharmacy reimbursements 15 tare set. It's AWP minus a certain percentage and 16 that the reports on the revious slide that a to the text and 17 to today, but then the figures are these five 1		tying this into patients out-of-pocket, if it's a	2	note too, and we can think about maybe at your
5 and it's a percentage of that. And I'm just 6 trying to think of but I assume you're not 7 going to have an AWP that's below the WAC costs, 8 so I guess you would see it in some degree fall 9 in line with that. I'm just trying to match that 10 up to then what's going to their translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, cokay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 acquisition, so that's going to be closer to what 27 you'l's eading the therapeutic 28 acquisition, so that's going to be loser at what 29 BOARDMEMBER AMY GUTIERREZ: It's also 30 set, Cathy, AWP is more than your wholesale 5 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER CATHERINE HARSHBARGER: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 13 turn goes to the patient.  5 glight, okay. I knew that. I just wasn't sure	3	percentage. Oftentimes, on the commercial side,	3	future meetings changing this, there's a lot of
6 see next meeting if you all would like us to just 7 going to have an AWP that's below the WAC costs, 8 so I guess you would see it in some degree fall 9 in line with that. I'm just trying to match that 10 up to then what's going to then translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: I's 20 AWP, isn't is something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 charging model, that can certainly change 27 charging model, that can certainly change 38 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER; 15 Right, okay. I knew that. I just wasn't sure	4	it's going off of AWP, not necessarily the WAC,	4	context that's in the reports that we're not
7 run through the report.  8 so I guess you would see it in some degree fall 9 in line with that. I'm just trying to match that 10 up to then what's going to then translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right, Vou're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 charging model, that can certainly change 27 charging model, that can certainly change 28 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition, so that's going to be closer to what 4 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Right, okay. I knew that. I just wasn't sure  17 unthrough the report. 10 different 1500 number was listed in the text and 10 in the graphic, and that's because, as is noted 10 in the report, one is analysis of change in WAC 12 to today, but then the figures are these five- 13 year lookbacks, and so, the analysis stopped in 14 the report, one is analysis of change in WAC 15 totady, but then the figures are these five- 13 pear lotady, but then the figures a least was listed in the text and 10 in the raphic, and that's because, as is noted 11 in the report, one is analysis of change in WAC 12 totoday, but then the figures and sub as the sub sub was the analysis stopped in 14	5	and it's a percentage of that. And I'm just	5	pulling out for these slides. So we can kind of
8 I'll note on the previous slide that a 9 in line with that. The just trying to match that 10 up to then what's going to then translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 10 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 4 typically AWP is more than your wholesale 5 acquisition, oso that's supplied in the text and 10 in the graphic, and that's because, as is noted 11 in the report, one is analysis of change in WAC 12 to today, but then the figures are these five- 13 year lookbacks, and so, the analysis stopped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in the WAC, and so 17 you'll see discrepancies like that. We footnote 18 them in the report, but feel free to ask us if 19 you've got any clarifications. 20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 depending on how your charging is working, the 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 26 day with your PowerPoints the way they are, just 27 for my feedback. 28 So Humira and Remicade, as we mentioned 29 the next slide. All right, so here is 29 So Humira and Remicade, as we mentioned 30 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUT	6	trying to think of but I assume you're not	6	see next meeting if you all would like us to just
9 different 1500 number was listed in the text and 10 up to then what's going to then translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 charging model, that can certainly change 27 everything. You go off of WAC or AWP, but 28 typically AWP is more than your wholesale 29 acquisition, so that's going to be closer to what 39 you're going to be selling it at. 99 different 1500 number was listed in the text and 10 in the graphic, and that's because, as is noted 11 in the report, one is analysis of change in WAC 12 to today, but then figures are these five- 13 year lookbacks, and so, the analysis stopped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in the WAC, and so 17 you'll see discrepancies like that. We footnote 18 them in the report, one is analysis of change is well as obtained. The figures are these five- 13 year lookbacks, and so, the analysis stopped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in huwary of this 16 year, there was an increase in huwary of this 16 year, there was an increase in well and the apertal is in the x20, with you'll see discrepancies like that. We footnote 18 them in the report, one is analysis of changes in Junary of this 19 you'll see discrepancies like that. We footnote 18 them in the report, one is analysis toped in 14 December of 2022. And so that'	7	going to have an AWP that's below the WAC costs,	7	run through the report.
10 up to then what's going to then translate to the 11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 the price is set by the manufacturer or no? 27 I depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 13 in the report, one is analysis of change in WAC 14 to today, but then the figures are these five 13 year lookbacks, and so, the analysis stopped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 pear lookbacks, and so, the analysis stopped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 pear lookbacks, and so, the analysis of change in the see discrepancies like that. We footnote 18 th	8	so I guess you would see it in some degree fall	8	I'll note on the previous slide that a
11 patients either out-of-pocket. 12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 everything. You go off of WAC or AWP, but 27 typically AWP is more than your wholesale 28 acquisition, so that's going to be selling it at. 29 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set of 2022. And so that's sopped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in the WAC, and so 17 you'll see discrepancies like that. We footnote 18 them in the report, one is analysis of change in WAC 12 to today, but then the figures are these five- 13 year lookbacks, and so, that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in the WAC, and so 17 you'll see discrepancies like that. We footnote 18 them in the report, one is analysis of change in what analysis topped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in the WAC, and so 17 you'll see discrepancies like that. We footnote 18 them in the report, observed an increase in the WaC, and so 17 you'll see discrepancies like that. We footnote 18 them in the report, observed an increase in the WaC, and so 18 them in the report, o	9	in line with that. I'm just trying to match that	9	different 1500 number was listed in the text and
12 BOARDMEMBER AMY GUTIERREZ: I'll bet if 13 we graphed AWP, Justin, I'll bet we'd see the 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 board Mary Justin Walton Meritage and 15 Right, okay. I knew that. I just wasn't sure 15 to today, but then the figures are these five. 13 yae lookbacks, and so, the analysis stopped in 14 December of 2022. And so that's why that number 15 year chere was an increase in the WAC, and so 17 you't see discrepancies like that. We footnote 18 them in the report, but feel free to ask us if 19 you've got any clarifications. 20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 9 alte	10	up to then what's going to then translate to the	10	in the graphic, and that's because, as is noted
13 year lookbacks, and so, the analysis stopped in 14 same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right, You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? 1 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition, so that's going to be lower and then 7 the wholesale price is going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient.  13 year lookbacks, and so, the analysis stopped in 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in har uncrease in har was an increase in January of this 16 year, there was an increase in January of this 16 year, there was an increase in January of this 16 year, there was an increase in January of this 16 year, there was an increase in January of this 16 you've got any clarifications.  20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for th	11	patients either out-of-pocket.	11	in the report, one is analysis of change in WAC
14 Same type. 15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition, so that's going to be lower and then 6 a caquisition, so that's going to be lower and then 7 the wholesale price is going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 December of 2022. And so that's why that number 15 is 1502, it's slightly because in January of this 16 year, there was an increase in the WAC, and so 16 year, there was an increase in the WAC, and so 17 you'l see discrepancies like that. We footnote 16 year, there was an increase in the WAC, and so 17 you'l see discrepancies like that. We footnote 18 them in the report, but feel free to ask us if 19 you've got any clarifications. 20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 28 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four othe	12	BOARDMEMBER AMY GUTIERREZ: I'll bet if	12	to today, but then the figures are these five-
15 BOARDMEMBER JAMES JUSTIN VANDENBERG: 16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition, so that's going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 15 Right, okay. I knew that. I just wasn't sure  15 Is is 1502, it's slightly because in January of this 16 year, there was an increase in the WAC, and so 17 you'll see discrepancies like that. We footnote 18 them in the report, but feel free to ask us if 19 you've got any clarifications. 20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 26 the next slide. All right, so here is 27 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe,	13	we graphed AWP, Justin, I'll bet we'd see the	13	year lookbacks, and so, the analysis stopped in
16 I'll bet you're right. You're right, okay. 17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER: Is 16 you'll see discrepancies like that. We footnote 18 them in the report, but feel free to ask us if 19 you've got any clarifications. 20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 dokay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic  Page 70  Page 70  1 alternatives. 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 h	14	same type.	14	December of 2022. And so that's why that number
17 BOARDMEMBER AMY GUTIERREZ: Because 18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER: In you're going to be selling it at. 15 Right, okay. I knew that. I just wasn't sure 17 you'll see discrepancies like that. We footnote 18 them in the report, but feel free to ask us if 19 you're got any clarifications. 20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic  Page 70  Page 70  1 alternatives. 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 202	15	BOARDMEMBER JAMES JUSTIN VANDENBERG:	15	is 1502, it's slightly because in January of this
18 (sound glitch) increase. 19 BOARDMEMBER CATHERINE HARSHBARGER: Is 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER: Is 15 life min the report, but feel free to ask us if 19 you've got any clarifications. 20 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 day with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Ehrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 25 o	16	I'll bet you're right. You're right, okay.	16	year, there was an increase in the WAC, and so
19 BOARDMEMBER CATHERINE HARSHBARGER: IS 20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and 26 rearring model, that can certainly change 27 expectations of WAC or AWP, but 28 typically AWP is more than your wholesale 29 acquisition cost because you're buying it for the 30 acquisition, so that's going to be closer to what 4 you're going to be selling it at. 4 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP minus a certain percentage and 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursements 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 25 ohumira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. Not his figure shows the monthly 8 number of utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	17	BOARDMEMBER AMY GUTIERREZ: Because	17	you'll see discrepancies like that. We footnote
20 AWP, isn't it something that is considered after 21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition, cost because you're buying it for the 6 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER: I'm 21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 26 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 depending on how your charging is working, the 2 Charging model, that can certainly change 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Embrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Embrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	18	(sound glitch) increase.	18	them in the report, but feel free to ask us if
21 the price is set by the manufacturer or no? I 22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and  Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient.  21 okay with your PowerPoints the way they are, just 22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 26 or my feedback. 27 the next slide. All right, so here is 28 information regarding the therapeutic 29 so Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  21 okay with your PowerPoints 22 for my feedback. 23 LILA CUMMINGS: 24 the next slide. All right, so here is 25 information regarding the therapeutic 24 the next slide. All right, so here is 25 information regarding the therapeutic 26 the next slide. All right, so here is 27 the next slide. All right, so here is 28 information regarding the therapeutic 29 before, ha	19	BOARDMEMBER CATHERINE HARSHBARGER: Is	19	you've got any clarifications.
22 don't 23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  22 for my feedback. 23 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 24 the next slide. All right, so here is 25 information regarding the therapeutic 26 the next slide. All right, so here is 27 the next slide. All right, so here is 28 information regarding the therapeutic 29 So Humira and Remicade, as we mentioned 30 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	20	AWP, isn't it something that is considered after	20	BOARDMEMBER CATHERINE HARSHBARGER: I'm
23 BOARDMEMBER JAMES JUSTIN VANDENBERG: 24 It's the average wholesale price, so I mean, it 25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be closer to what 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER; 15 Right, okay. I knew that. I just wasn't sure  2 LILA CUMMINGS: Then we can move on to 24 the next slide. All right, so here is 25 information regarding the therapeutic 24 the next slide. All right, so here is 25 information regarding the therapeutic 26 the next slide. All right, so here is 27 the next slide. All right, so here is 28 the next slide. All right, so here is 29 the next slide. All right, so here is 20 the next slide. All right, so here is 21 the next slide. All right, so here is 25 information regarding the therapeutic 2 the next slide. All right, so here is 25 information regarding the therapeutic 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 9 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	21	the price is set by the manufacturer or no? I	21	okay with your PowerPoints the way they are, just
24 th's the average wholesale price, so I mean, it 25 can certainly change depending on the product and  Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  24 the next slide. All right, so here is 25 information regarding the therapeutic 26 binformation regarding the therapeutic 27 alternatives. 28 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  15 slight dip towards the end and to the point that	22	don't	22	for my feedback.
25 can certainly change depending on the product and Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient.  25 information regarding the therapeutic Page 72  1 alternatives. 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	23	BOARDMEMBER JAMES JUSTIN VANDENBERG:	23	LILA CUMMINGS: Then we can move on to
Page 70  1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  1 alternatives. 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives and 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	24	It's the average wholesale price, so I mean, it	24	the next slide. All right, so here is
1 depending on how your charging is working, the 2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  1 alternatives. 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. 1 alternatives. 1 alternatives. 1 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. 9 alternatives. 1 alternatives. 1 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 9 alternatives. 1 alternatives. 1 before, have recent FDA approval by similar 4 products. So this figure shows the monthly 8 unmber of utilizers for Enbrel and therapeutic 9 alternatives. 1 alternatives. 1 before, have recent FDA approval by similar 4 products. So this figure shows the monthly 8 unmber of utilizers for Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point th	25	• • • •	25	
2 charging model, that can certainly change 3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure 2 So Humira and Remicade, as we mentioned 3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that		Page 70		Page 72
3 everything. You go off of WAC or AWP, but 4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER 15 Right, okay. I knew that. I just wasn't sure  3 before, have recent FDA approval by similar 4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	1	depending on how your charging is working, the	1	alternatives.
4 typically AWP is more than your wholesale 5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. It's AWP minus a certain percentage and 12 that determines pharmacy reimbursement, which in 13 turn goes to the patient. 14 BOARDMEMBER CATHERINE HARSHBARGER: 15 Right, okay. I knew that. I just wasn't sure  4 products. So while this affordability review 5 doesn't contain that information, we do have 6 information for the four other therapeutic 7 alternatives. So this figure shows the monthly 8 number of utilizers for Enbrel and therapeutic 9 alternatives. And you'll note that general 10 utilization of Enbrel has stayed consistent from 11 January 2018 to December 2022, and it's the 12 second highest utilized drug after Humira, which 13 has increased significantly within that 14 timeframe, though you'll see what could be a 15 slight dip towards the end and to the point that	1		2	So Humira and Remicade, as we mentioned
5 acquisition cost because you're buying it for the 6 acquisition, so that's going to be lower and then 7 the wholesale price is going to be closer to what 8 you're going to be selling it at. 9 BOARDMEMBER AMY GUTIERREZ: It's also 10 set, Cathy, AWP is how pharmacy reimbursements 11 are set. All carriers that cover Enbrel require prior authorization, and in total, 576 plans provide coverage for Enbrel. And the majority of carriers place Enbrel on the highest two formulary tiers, meaning a higher portion of the drug is paid by patients than prescription drugs on lower tiers until the out- of-pocket maximum is met.  BOARDMEMBER JAMES JUSTIN VANDENBERG: As far as, I guess as far as safety net, you know, the medication is not on some sort of

- 1 how much you would really gather from a safety 2 net component because they're not choosing it; 3 the payer plan is. If it's step therapy, like we 4 talked about before, you have to try X and fail 4 5 before you can try Y. But it would be going through the 7 provider would write the prescription for the 8 patient, it would go to the pharmacy, they would 9 process, it would adjudicate, and either the 10 claim would reject because it's not covered or 10 11 prior auth needed to go through, you know, 12 whatever the steps are, or it would go through 13 per the contract and then that's what then the 14 patient, if they had a copay, would have to pay 15 to pick up the medication. Does that make sense? 16 But it really is independent of what a safety net 17 or 340B would even be; that's not going to drive 18 it. 19 BOARDMEMBER AMY GUTIERREZ: I think 19 20 Justin's right. In fact, the governor I think in 21 2022 signed a bill that really removes payers 22 from paying 340B entities any differently than 23 anybody else, so it's a law that's on the books 24 right now. 25 BOARDMEMBER CATHERINE HARSHBARGER 25 that works on that paperwork to help that Page 78
  - 1 it and do it this way. That's not really what's 2 going to be driving it. It's the payer plan on 3 the prescription benefit. CHAIR GAIL MIZNER: Oh, I see. So if 5 it's a 340B entity, if the patient is insured at 6 least, the fact that they may be getting that 7 particular drug through a 340B with a 340B 8 discount doesn't really affect what the patient BOARDMEMBER JAMES JUSTIN VANDENBERG: 11 It's whatever is set with that contract or with 12 the payer, your copay is going to be X amount of 13 dollars, and that's what they're going to have to 14 pay regardless of that additional discount 15 potentially with 340B. CHAIR GAIL MIZNER: And if the patient 17 is uninsured, then what happens with most 340B 18 providers, do you know? BOARDMEMBER JAMES JUSTIN VANDENBERG: 20 Now you're going a different process, but yes. 21 So it's going to depend, but it could be --22 oftentimes, it's looking which one has a patient 23 assistance to where you could get it for free, 24 and there may be a team within pharmacy maybe Page 80

1 Yeah. I'm not surprised that came around. BOARDMEMBER JAMES JUSTIN VANDENBERG: 3 But that's probably why you didn't get anything 4 from a safety net was they probably didn't feel 5 like they had much to really offer, I guess. CHAIR GAIL MIZNER: Can you go over 7 that again, Justin? I'm not sure I'm following. BOARDMEMBER JAMES JUSTIN VANDENBERG: 9 Yeah. So, I mean, if you're at a safety net 10 versus a for-profit if you're looking at a 11 pharmacy, you're going to have your provider, 12 you're going to decide, okay, I want to start 13 this drug for this patient, it's a pharmacy 14 benefit. I'm going to send the prescription to 15 the pharmacy. They're going to fill it and run 16 it through the claims. It'll adjudicate, so 17 it'll go through the contract with the payer and 18 either the payer is going to reject it because 19 maybe it's not first line and it'll usually say 20 in the rejection, you know, patient needs to try 21 this or to call the plan, or it'll go through and 22 then the patient pays the specific copay. 23 But that's not going to drive a, you

24 can't have this drug for this reason because we

25 get a better price on it, we're going to change

1 patient; if they're not there, then it might be 2 medical assistant or even the patient themselves 3 that then completes that form to get approved 4 from the manufacturer to where then they can get 5 that for free or at a significant discount. 6 That's going to drive that component. 7 I know that with pharma, they're 8 changing the model a little bit to where if it's 9 a prescription benefit, they almost have these 10 cards, almost like an insurance card if you will 11 and it changes, but it's for the patient 12 assistance program. So even that is kind of 13 changing right now of how some of these are 14 covered, but that may drive. 15 So if you had three drugs, but one has 16 the copay assistance, well that's the only way 17 that the patient can pay for it, that's going to 18 be driving -- for the provider is going to be 19 driving not so much that, oh, well, this is the 20 most expensive, this is the cheapest. You know, 21 that could come down further down. But from a 22 prescription benefit, that's typically what these 23 newer and more expensive agents, the first 24 direction that the pharmacy would go so that the 25 patient could get it.

Page 79

21 (Pages 78 - 81)

1 what the changes were. Can you all see my 1 CHAIR GAIL MIZNER: So most 340B 2 screen? 2 entities are not -- for example, if they're 3 Okay. So looking at the changes to 3 getting Enbrel for very -- obtaining Enbrel for 4 just two portions of your report: one was the 4 very little money, they're not necessarily 5 summary report, and one was Appendix F, which is 5 passing that savings on to an uninsured patient 6 input from safety net providers. And so, in the 6 or an insured patient is what you're saying. 7 Enbrel report, summary report itself, so here is BOARDMEMBER AMY GUTIERREZ: I would 8 the information that was added about just 8 imagine that there are some clinics, Gail, that 9 acknowledging that there are biosimilar products 9 maybe serve a lot of uninsured that probably 10 available for both Humira and Remicade, and it 10 drive your formulary around the 340B savings. 11 includes the biosimilar's name, as well as the I think what Justin was referring to is 12 date that they began to be marketed. So we have 12 more the insured status. 13 information for another source around the date 13 BOARDMEMBER JAMES JUSTIN VANDENBERG: 14 that they were, again, to be marketed. So that 14 Yes. 15 information you have, we will post as well. 15 BOARDMEMBER AMY GUTIERREZ: For the 16 And then I'm scrolling through. I will 16 uninsured, I think it's going to be really 17 note you'll see some purple as I scroll, but we 17 different. 18 have taken out anything that needs to be redacted 18 CHAIR GAIL MIZNER: Yeah, got it. 19 so there's no information that is being BOARDMEMBER AMY GUTIERREZ: I know. I 19 20 disclosed. 20 used to be with the County of Los Angeles. 21 And then the only other change is 21 There's a lot of uninsured patients and our 22 towards the bottom of the report. Apologies for 22 formulary was all centered around 340B low priced 23 just the scrolling. And this is just we put in 23 drugs. 24 percentages, so we will go through. We put in 24 CHAIR GAIL MIZNER: Yeah. 25 percentages here and we're going to plan to go 25 BOARDMEMBER JAMES JUSTIN VANDENBERG: Page 82 Page 84 1 And that can change on a quarterly basis, which 1 through and do that for the remaining of the 2 makes it tough. So within a quarter, that 2 situations where we have both national response 3 discount that could be pretty good could go away 3 and Colorado response side by side, so we'll put 4 and then it goes up to a high -- and it might 4 in some percentages there. 5 have a marginal discount, so you're kind of 5 Then the next change that was made was 6 playing in that. 6 to Appendix F, impact on safety net providers. 7 And so, here, you will see where we've pulled the CHAIR GAIL MIZNER: Yeah, okay. Thank 8 information from HRSA's website. So we provide a 8 you both very much for that remedial lesson. In 9 any case, it sounds like we're just not going to 9 little information about the database that 10 know a lot. 10 exists, some summary statistics. And there are 11 LILA CUMMINGS: Drug-specific 11 108 unique active covered entity names in 12 information turns out to be a little tricky to 12 Colorado -- we did a filter by active -- with an 13 get, not because of some confidentiality 13 associated 535 unique addresses. We also note 14 components. But I'm actually going to share my 14 that there are approximately 2,974 approved and 15 screen in a second. We've got one more slide on 15 participating contract pharmacies. I will note 16 access to care and then I'll share my screen just 16 we did not do an assessment of if there were 17 to very publicly go over the redlines that were 17 duplicates to addresses; that's just the number 18 sent to you all. 18 that was listed on HRSA's website. So here was the results, very similar And then here we provide information, 20 of questions around utilization management that 20 again, not specific to Enbrel or dispensing 21 we received from patients and caregivers. I know 21 Enbrel, but information around the number by 22 some of this had already been discussed too. 22 entity type of 340B entities in Colorado, so 23 So with that, I am going to share my 23 you'll see the categories here. 24 screen, and I will just show you things that we 24 We also make a note of the due to the 25 have already discussed. I just want to show you 25 differences in form and manner in which

Page 85

CALLIE ANN SHELTON: Thank you. First 1 information is submitted to HRSA versus All Payer 1 2 Claims Database, we did not conduct an analysis 2 up, we have Bridget Serrett. Bridget, are you 3 of which of these. You know, it's nearly 3 here? 4 impossible to connect an analysis of which of 4 BRIDGET SERRETT: Yes, I'm here, I 5 these reported dispensing Enbrel in the APCD just 5 would like to sign up at the end for general 6 because the data sources are so different. 6 public comments. We did note here that, in accordance 7 CALLIE ANN SHELTON: Okay, thank you. 8 with HHS's 340B drug pricing program ceiling 8 And then, Jen (indiscernible), I have you signed 9 price, prescription drug manufacturers are only 9 up, but I'm assuming you want to go for Genvoya? 10 allowed to charge a penny for prescription drugs 10 That's before I put the other option. 11 when it's 340B ceiling price calculation results JEN: Correct, thank you. 11 12 in an amount that is less than a penny. This 12 CALLIE ANN SHELTON: Tiffany Westrich-13 penny pricing, as it is often referred to, occurs 13 Robinson. 14 when a manufacturer raises the price of a drug 14 TIFFANY WESTRICH-ROBERTSON: Yes, 15 substantially more quickly than the rate of 15 hello. Robertson, I'm here. 16 inflation. 16 CALLIE ANN SHELTON: You can go ahead, 17 And so, we'll note here, this is not 17 Tiffany. 18 information that has been disclosed to us, so we 18 TIFFANY WESTRICH-ROBERTSON: Okay, 19 just are calling out here the image that shows 19 thank you. Hello, and I am representing the 20 the change in inflation and the change in the 20 patient voice and also the International 21 WAC, and noting that Enbrel's WAC has risen 21 Foundation for Autoimmune & Autoinflammatory 22 significantly higher than inflation, though we 22 Arthritis, or AiArthritis for short. I'm also a 23 have not done an analysis on the rate of change, 23 person living with these diseases that can be 24 just the fact that it has risen higher than 24 treated by Enbrel. 25 inflation. So just kind of our two cents on the 25 I had a lot of planned comments, but Page 86 Page 88 1 I'm frankly going to change all of them and talk 1 penny policy. Apologies for that. 2 about what I heard today because I am extremely, BOARDMEMBER AMY GUTIERREZ: Lila, I 3 extremely concerned, more concerned than I was 3 would just add if you're going to put that in 4 there is put quarterly, 340B quarterly ceiling 4 coming in, based on the conversation that I 5 price calculation in that sentence. Because it 5 heard. 6 is -- it's not like it's a penny forever, it's 6 One of the things that I'm really 7 concerned about is that the data that was 7 calculated every quarter. I think Justin 8 presented was only based on a handful of people. 8 mentioned that earlier. 9 And on October 3rd of last year, AiArthritis had LILA CUMMINGS: Absolutely. Okay, so 10 submitted information that demonstrated that the 10 those are the redlines that have been made. I 11 will stop sharing my screen. And then I think 11 survey that you're citing today was severely 12 flawed, so the information that is being used is 12 we've got some, I believe public comment is up 13 next. 13 not even going to result in correct data. 14 CALLIE ANN SHELTON: We have three 14 For example, the question have you ever 15 skipped a dose, stretched out a dose due to 15 opportunities for public comment today: one for 16 affordability, that question is severely flawed. 16 Enbrel, one for Genvoya, and then general public 17 comment period at the end. So if you'd like to 17 I know because I was in the listening session for 18 provide comment, please fill out the form in the 18 Cosentyx, and I said I can't answer this because 19 it cost me zero dollars, but yes, I've skipped or 19 chat, and I have a couple of people already lined 20 up, so we'll get that started. 20 stretched. The affordability comes with step LILA CUMMINGS: And, Callie, will you 21 therapy. The affordability comes with being 22 switched by the insurance company, and then they 22 remind us if there's a limit on the number of 23 tell you you can pay more for it because it's on 23 people, correct? 24 a higher tier. None of that information was 24 CALLIE ANN SHELTON: Yes, 10.

Page 89

Page 87

25

LILA CUMMINGS: Okay, thank you.

1 concerned that that's even being cited today. 1 affording their medicine, and it was ever 2 The answer -- the other thing that I 2 affording their medicine. 3 just really wanted to say is the conversations, Can the Board explain the standard it 4 there were a lot of questions that were asked 4 applied with respect to these data and, more 5 that seemed to be conversations that should have 5 broadly, how they factor into a decision about 6 what constitutes affordability. For example, can 6 been having months ago. I really encourage the 7 Board, please pause, let's look back at these 7 you clarify what specific data has the Board 8 transcripts, publish them, give all of us an 8 reviewed and in what manner is that data being 9 opportunity to clarify the conversations that you 9 considered to support statements made today about 10 had and some of the points because they were not 10 formulary placement and its impact on patients. 11 clarified. They were not. Please, I'm asking 11 And then finally with regards to the 12 you, pause this decision until the transcripts 12 discussion today about patient assistance, which 13 can be out and we can come back and provide you 13 isn't reflected in the key claims data that's 14 with correct information and the potential to ask 14 been discussed. It's important to distinguish 15 more patients why it is unaffordable. Thank you. 15 between, one, copay card programs for which CALLIE ANN SHELTON: Thank you, 16 there's a streamlined access, it's online, it's 16 17 Tiffany. Brett Johnson. 17 very easy, and commercially insured patients with 18 BRETT JOHNSON: Hi, thank you. Brett 18 Enbrel are eligible, but generally not those 19 Johnson representing Amgen. Just to kick it off, 19 covered by federal programs. For these programs, 20 not a single Coloradan of the nearly 2,000 that 20 I just want to call your attention to the process 21 concerns that we've raised in our letters dated 21 applied last year were denied. 22 22 February 1st and December 4th, which include: And then the need-based safety 23 first, public comments by a member of the Board 23 programs, which are different, which I assume is 24 in multiple meetings regarding off-the-record 24 what was being referred to with some of the phone 25 conversations with unnamed persons regarding 25 waiting and other complications. But due to Page 90 Page 92 1 Enbrel's affordability; and second, the 1 these in-common insurance verification 2 inconsistency in standards and procedures applied 2 requirements, which are required by rules that 3 by the Board, including a lack of clarity about 3 can be a challenge to some patients; they must be 4 what those standards are and the inconsistent 4 U.S. residents and either uninsured or have 5 applications of what stated policies have been 5 Medicare Part D with affordability gaps and 6 adopted. 6 household incomes up to three times the federal 7 To this second point, assessing the 7 poverty line. 8 various reasons the Enbrel draft report posted 8 Even with this more thorough review 9 over the past week, at least three of which we 9 process, the current average wait time for 10 are aware, we're having trouble reconciling how 10 callers is 33 seconds. And through these 11 some of the data points have been treated among 11 programs, the Amgen Safety Net Foundation has 12 the different medicines reviewed in just this 12 provided approximately \$2.5 billion in medicines 13 first cohort. 13 just last year. 14 For instance, can you help us 14 So if there are any questions or 15 understand why the percentage of patients paying 15 anything we can provide further information on, 16 \$50 or less out-of-pocket per month feature so 16 please do use us as a resource and, you know, we 17 prominently in the Trikafta report at 51 percent 17 hope to be an aid to understanding some of these 18 but not in the Enbrel report at 57.3 percent, 18 key points that appear to be a point of 19 with the latter set focusing on the 19 misunderstanding based on today's discussion, so 20 aforementioned results of the survey, about which 20 thank you. 21 21 we also have very serious real questions CALLIE ANN SHELTON: Thank you, Brett. 22 concerning the instrument used and the 22 Hope Stonner, please. 23 methodology. And even with those survey results, 23 HOPE STONNER: Hello, my name is Hope 24 roughly half of the patients paying \$100 or below 24 Stonner. I'm the policy manager at the Colorado 25 out-of-pocket did not report trouble ever 25 Consumer Health Initiative. Appreciate this

	23	And I think that this is related to the		these important stakeholders.
		report's findings that members also called out	24	=
		that Enbrel's prices have increased a whopping 36		these engagement ideas and stand ready to share
		Page 94		Page 96
	1	times since its introduction, and we think that	1	them with our Colorado patients. Thank you for
	2	given this history and the fact that the last of	2	all that you do.
	3	Enbrel's patents are set to expire in 2039, the	3	CALLIE ANN SHELTON: Thank you, Steven
	4	Board had a really important opportunity and	4	I don't have anyone else signed up specifically
	5	authority to course correct today by deeming	5	for Enbrel, but I'll give you another moment.
	6	Enbrel unaffordable and initiating an upper	6	I'll put the link in the chat again, and again,
	7	payment limit process.	7	if you'd like to provide comments specifically on
	8	Thank you.	8	Enbrel. I'm not seeing any more. We can close
	9	CALLIE ANN SHELTON: Thank you, Hope.	9	this public comment period.
	10	Steven Newmark.	10	LILA CUMMINGS: Then we probably need
	11	STEVEN NEWMARK: Hi, how are you.	11	to go to the next slide.
	12	Sorry, give me a moment as I struggle with the	12	CALLIE ANN SHELTON: Somebody just
	13	unmute button.	13	signed up for Enbrel.
	14	Hello, I'm Steven Newmark and I'm the	14	LILA CUMMINGS: Oh, okay.
	15	policy director for the Global Healthy Living	15	CALLIE ANN SHELTON: Jerry Cunningham
	16	Foundation, a patient organization, that works to	16	Jerry, are you there?
	17	help chronically ill patients around the 50	17	JERRY CUNNINGHAM: Okay. Can you hear
	18	states, including Colorado. These patients are	18	me now?
	19	1 1 11 11 7 11 1 1 1	19	CALLIE ANN SHELTON: I can hear you
		chronically ill, as I said, and many rely on the		J
	20	medication such as Enbrel to live their lives.		now.
	21			-
	21	medication such as Enbrel to live their lives.	20 21	now.
	21 22	medication such as Enbrel to live their lives.  We have concerns over access issues to	20 21 22	now.  JERRY CUNNINGHAM: Okay, great. My
	21 22 23	medication such as Enbrel to live their lives.  We have concerns over access issues to these medications that the Board is and some	20 21 22 23	now.  JERRY CUNNINGHAM: Okay, great. My comment might be out of turn. Is Enbrel the
	21 22 23 24	medication such as Enbrel to live their lives.  We have concerns over access issues to these medications that the Board is and some of the considerations that the Board is	20 21 22 23	now.  JERRY CUNNINGHAM: Okay, great. My comment might be out of turn. Is Enbrel the potential replacement drug for Remicade, or was

1 identified therapeutic alternatives for Enbrel in 1 the way it should. 2 this affordability review. 2 My concerns with this are going to be JERRY CUNNINGHAM: Okay. So I suppose 3 the stakeholder process clearly. I don't feel 4 I could ask a question before I make public 4 like we are doing our best to engage stakeholders 5 comment because I don't want to speak out of 5 to get as much information. I feel like the data 6 turn. So I have a family member, actually it's 6 process, the questions are very flawed and don't 7 my brother, who uses Remicade. Is the Board 7 necessarily reflect why patients are having 8 considering Remicade as, you know, under its 8 trouble accessing Enbrel, and I do also want to 9 affordability -- you know, the umbrella or just 9 make sure that we make decisions that aren't 10 Enbrel? 10 going to hurt access for patients. There is 11 LILA CUMMINGS: This affordability 11 still nothing in this process that I can see that 12 review is specific to Enbrel. 12 is going to make these drugs more affordable for JERRY CUNNINGHAM: Okay. Well, if you 13 the end user, the patients, and I want to be sure 14 give me 30 seconds, I'll say what I was going to 14 that we keep that in mind as we go further into 15 say, and then I will go ahead and just listen to 15 this. 16 the rest of the public comments. 16 Thank you. 17 I really have paused, someone just 17 CALLIE ANN SHELTON: Thank you, 18 spoke earlier about how this meeting today has 18 Bridget, and happy healing. Take care of 19 really set them back, and that goes for me as 19 yourself. Anyone else would like to speak 20 well, and I spoke on this before. I just want to 20 specifically on Enbrel, maybe one more moment. 21 reiterate that when public comment notifies you 21 LILA CUMMINGS: And then we can move to 22 as professional individuals in the medical space, 22 the next slide. 23 23 being doctors, also having an oath to not do any CALLIE ANN SHELTON: Yeah, go ahead. 24 24 harm, I feel like there are smarter people than LILA CUMMINGS: Chair Mizner, we'll 25 me that you all have access to that you can ask 25 turn it back over to you. Page 98 Page 100 1 that if a small pharmacy in Yuma, Colorado 1 CHAIR GAIL MIZNER: Thank you, Lila, 2 decides not to carry Enbrel or Remicade for my 2 and thank you everyone for your comments. 3 brother and that information leads to, you know, 3 Is there any further deliberation about 4 legal action, I can't see the Board not 4 -- that the Board would like to undertake about 5 personally being liable because of the oath to do 5 Enbrel? Are you comfortable -- are Board members 6 no harm. 6 comfortable moving forward with determining 7 So I just caution all of you to please 7 whether Enbrel is unaffordable with the 8 speak to people that are way smarter than me 8 information presented? 9 because my brother already has a hard time BOARDMEMBER AMY GUTIERREZ: Yes. 10 getting Remicade because of the insurance 10 BOARDMEMBER CATHERINE HARSHBARGER: 11 loopholes and, you know, hoops that he has to 11 Yes. 12 jump through, and it is determined that someone 12 BOARDMEMBER JAMES JUSTIN VANDENBERG: 13 is making it difficult for him to get medicine 13 Yes. 14 that he believes is lifesaving, that's harmful, 14 CHAIR GAIL MIZNER: Any further 15 and I can't see that not being something that 15 deliberation? Lila, do you want to make any 16 people could come after everybody individually 16 comment about some of the issues that were raised

17 for. 18 That's all I will say. Thank you for 19 giving me my time and I will go back on mute. 20 CALLIE ANN SHELTON: Thank you, Jerry. 21 Bridget, have you changed your mind and you want 22 to speak on Enbrel specifically? If so, you can. 23 BRIDGET SERRETT: Yes. Sorry, you'll 24 have to forgive me. I'm fresh out of 25 neurosurgery, so the brain is not quite checking

17 about our outreach to stakeholders? 18 LILA CUMMINGS: Yeah, I'd be happy to. 19 I think, you know, there is a tension between 20 needing to treat all drugs equally and then 21 hearing from consumers that they would like 22 tailored surveys. And so, that's something that 23 I think, you know, we want to gather information 24 as consistently as possible across drugs. 25 I will say for surveys, we always left Page 101

1 an option open for patients to kind of provide	1 deliberation and having considered the evidence
2 any information they would like, and we did get	2 before us relating to each affordability review
3 specific feedback from patient groups on the	3 component. Do I have a motion regarding a vote
4 design of the survey, so our aim was to have a	4 on the unaffordability of Enbrel?
5 patient-friendly survey. That being said, we are	5 BOARDMEMBER CATHERINE HARSHBARGER:
6 you know, as we've talked about, we are open	6 I'll make the motion. My motion is that the use
7 to continued improvement. I think we feel	7 of Enbrel is consistent with the labeling
8 confident and we work to post the links so the	8 approved by the FDA or with standard medical
9 Board members, I know you all have listened to	9 practice and is deemed unaffordable for Colorado
10 the unedited audio from the public meeting with	10 consumers.
11 patients and caregivers for Enbrel.	11 BOARDMEMBER AMY GUTIERREZ: I will
12 And then we also posted unedited survey	12 second Cathy's motion.
13 replies, so I think we feel that as staff that is	13 CHAIR GAIL MIZNER: Okay. Then Ms.
14 accurate that you all have access to unedited	14 Harshbarger moved and Dr. Guttierez seconded that
15 information from us. I think we feel confident	15 we move that use of Enbrel consistent with the
16 in it and to the degree that in the future,	16 labeling approved by the FDA or with standard
17 processes might change; that is always the	17 medical practice is unaffordable to Colorado
18 conversation we're willing to have, but confident	18 consumers. Did I get that right, Cathy?
19 in what we've provided for Enbrel.	19 BOARDMEMBER CATHERINE HARSHBARGER:
20 CHAIR GAIL MIZNER: Thank you, Lila.	20 Yes, you did.
21 BOARDMEMBER CATHERINE HARSHBARGER: One	21 CHAIR GAIL MIZNER: Okay. Then I'm
22 little comment. Even though we didn't talk about	22 going to roll call a vote. Callie, are you going
23 the confidential information, we had access to	23 to call on people one by one?
24 that and read that, and I just want to emphasize	24 CALLIE ANN SHELTON: Yeah, we can do
25 that to the public. There's some things that we	25 that. Dr. Amy Gutierrez.
Page 102	Page 104
1 just knew what they had already said and so,	BOARDMEMBER AMY GUTIERREZ: Yes.
2 therefore, we didn't need to deliberate further	2 CALLIE ANN SHELTON: Cathy Harshbarger.
3 on it.	3 BOARDMEMBER CATHERINE HARSHBARGER:
4 BOARDMEMBER AMY GUTIERREZ: I have	4 Yes.
5 something I want to add on to Cathy's comment. I	5 CALLIE ANN SHELTON: Dr. Gail Mizner.
6 think the staff did a great job at putting this	6 CHAIR GAIL MIZNER: Yes.
7 report together. It was very comprehensive.	7 CALLIE ANN SHELTON: And Dr. Justin
8 There's a lot of information, a lot of work that	8 VandenBerg.
9 was done on outreach, so I feel very confident in	9 BOARDMEMBER JAMES JUSTIN VANDENBERG:
10 the work that they've done and I think we need to	10 Yes.
11 rely on that when we deliberate, make our	11 CHAIR GAIL MIZNER: Okay. Then, Lila,
12 decision.	12 please finalize the affordability review report
13 BOARDMEMBER CATHERINE HARSHBARGER:	13 for Enbrel by adding a high-level summary of our
14 Agreed.	14 deliberations today, our determination that use
15 CHAIR GAIL MIZNER: The staff did an	15 of Enbrel is unaffordable for Colorado consumers,
16 enormous amount of outreach and was able to get a	16 and correcting any clerical errors you all
17 lot more input on their second attempt from	17 identify. We will vote to approve the final
18 patients and caregivers, as well as to my	18 report at our next meeting.
19 understanding some of the medical experts.	19 LILA CUMMINGS: Absolutely. Thank you,
20 BOARDMEMBER CATHERINE HARSHBARGER: I'm	20 Chair Mizner. And I'll just note for the public,
21 comfortable with moving forward with a vote,	21 the next meeting will be posted to the website.
22 Gail, when you're ready.	22 The next meeting of the Board will be next
23 BOARDMEMBER AMY GUTIERREZ: So am I.	
DOMENIEMIDER MIT GUTTERREE, SU alli I.	23 Friday February 23rd at 10:00 a m So thank
24 CHAIR GAIL MIZNER: Then I need a Roard	23 Friday, February 23rd at 10:00 a.m. So thank 24 you and we will do that
24 CHAIR GAIL MIZNER: Then I need a Board 25 member to make a motion if there's no further	24 you, and we will do that.
24 CHAIR GAIL MIZNER: Then I need a Board 25 member to make a motion if there's no further Page 103	

1 will now break. I'm thinking we need to make	1 forward with deliberation.
2 this 15 minutes, Lila.	2 LILA CUMMINGS: Okay. Thank you, Chair
3 LILA CUMMINGS: Okay, absolutely.	3 Mizner.
4 CHAIR GAIL MIZNER: We'll now break for	4 I think my first question would be,
5 15 minutes, so be back at 2:39.	5 there were some more redline edits that were
6 LILA CUMMINGS: Okay, great. Thank	6 suggested, so both in the summary report for
7 you.	7 Genvoya, Appendix B, Appendix F, and Appendix M
8 (2:24:11 Break Begins)	8 with HCFA, so I'd ask would you like to do the
9 (2:39:37 Break Ends)	9 same thing where we showed them at the end or
10 CHAIR GAIL MIZNER: It's 3:39, but I'm	10 would you like me to show them at the top?
11 not sure I see Dr. Guttierez and Ms. Harshbarger	11 CHAIR GAIL MIZNER: You guys have any
12 back with us yet.	12 feelings about that?
13 BOARDMEMBER AMY GUTIERREZ: I'm here,	13 BOARDMEMBER CATHERINE HARSHBARGER: I
14 Gail.	14 don't have strong feelings either way.
15 BOARDMEMBER CATHERINE HARSHBARGER: I'm	15 LILA CUMMINGS: Okay. Then I might
16 here.	16 just show them at the top because they're
17 CHAIR GAIL MIZNER: Okay, great. Then	17 relatively small, but then that way so I'll
18 let's get started. Welcome back, everyone.	18 plan on showing them, but the we can maybe save
19 We're now going to turn to	19 them for discussion at the appropriate point
20 consideration of Genvoya. Board members	20 throughout. So I will share my screen first and
21 disclosed conflicts at the top of the meeting.	21 then I will hop back to the PowerPoint slides.
22 Dr. Diab is the only Board member with conflicts	22 So in the summary report itself, we did
23 and he will not participate in the deliberation.	23 pull out some information, and this is under the
24 Before we begin deliberation, I'd like	24 indication that Genvoya treats. So we pulled out
25 to note that all Board members were present at	25 some information from the clinical guidelines
Page 106	Page 108
1 the December 8th meeting when staff presented	1 which are cited in Appendix D, so we pulled out
2 draft evidence for the Genvoya affordability	2 information here.
3 review. I'd like to also note that the Board	3 And, Chair Mizner, this was kind of at
4 members were provided with the entire unredacted	4 your direction, so if you have any comments on
5 draft report on February 9th.	5 this, we welcome that.
6 To ensure that all Board members have	6 CHAIR GAIL MIZNER: Let me read it
7 had an opportunity to review the information in	7 quickly. Thank you.
8 the draft report, I'd like to ask if any Board	8 LILA CUMMINGS: And if you'd like to
9 member feels we do not have sufficient	9 save your comments for the appropriate spot in
10 information to deliberate regarding	10 the discussion, absolutely on that too.
11 unaffordability for Genvoya today. Does anyone	11 CHAIR GAIL MIZNER: Yeah. I think what
12 have concerns about that?	12 I was wanting to highlight is that Genvoya is not
13 BOARDMEMBER JAMES JUSTIN VANDENBERG: I	13 for patients who are na?ve to who have never
14 do not.	14 been on any retroviral therapy before, that there
15 BOARDMEMBER CATHERINE HARSHBARGER: No.	15 are a couple of other regimens that are
16 BOARDMEMBER AMY GUTIERREZ: No.	16 considered preferred, that Genvoya is included in
17 CHAIR GAIL MIZNER: So if there are no	17 the list of alternative regimens.
18 concerns, are there any objections to moving	18 BOARDMEMBER CATHERINE HARSHBARGER: So
19 forward with deliberation?	19 it's not first line; it's kind of like a
20 BOARDMEMBER JAMES JUSTIN VANDENBERG:	20 CHAIR GAIL MIZNER: Yeah, I mean, but
21 Not from me.	21 there are only two that are listed as the
22 BOARDMEMBER CATHERINE HARSHBARGER: No.	22 preferred and then, you know, there are others
23 BOARDMEMBER AMY GUTIERREZ: No	
	23 that follow and Genvoya is among the others that
24 concerns.	23 that follow and Genvoya is among the others that 24 follow, but I think that is important
24 concerns. 25 CHAIR GAIL MIZNER: Lila, let's move	,

1 is that Genvoya does, because of the cobicistat 1 regarding Ryan White. But we provided 2 in it, have more drug interactions, but those are 2 information from that HRSA database regarding 3 just, you know, pieces of information that I 3 covered entity types and number of unique 4 think are relevant. 4 addresses, again, not specific to Genvoya, but we As we've seen with the information 5 have this information in here as well. 6 presented, Genvoya is an effective medication And, Lila, let's add that quarterly on 7 there as well. 7 that is used by a number of patients still, even 8 though it's not listed among the preferred 8 LILA CUMMINGS: Great. 9 agents. 9 BOARDMEMBER CATHERINE HARSHBARGER: 10 BOARDMEMBER AMY GUTIERREZ: Gail, when 10 That's 340B. 11 you say preferred, it's by clinical evidence or 11 LILA CUMMINGS: There we go. Thank 12 you. Fantastic. 12 resistance patterns or... 13 CHAIR GAIL MIZNER: It's largely based And then the only other change here is 14 on the fact that the two preferred regimens 14 in information from the Department of Health Care 15 contained integrase inhibitors that have higher 15 Policy and Financing. We have pulled out that 16 barriers of resistance to viral mutation and, 16 there is a published report that mentions 17 therefore, a development of drug resistance. 17 Genvoya. That is something we work with our 18 BOARDMEMBER AMY GUTIERREZ: I don't 18 partners at HCFA to identify, and it had to do 19 (sound glitch) with this drug class with this. 19 with the fact that Genvoya is listed on potential 20 They just keep changing; they keep adding those 20 drugs for importation for the HCFA's Canadian 21 resistance to both. We add other drugs over time 21 Drug Importation Program. I'll note that that is 22 since HIV was first identified. 22 not approved yet by the FDA; it's an ongoing 23 23 conversation. CHAIR GAIL MIZNER: And the integrase 24 inhibitors are essentially the most recent widely 24 So we had information on there on 25 used category and are very, very effective and 25 Genvoya, but then Chair Mizner said are there any Page 110 Page 112 1 very beneficial for people, and Genvoya contains 1 other HIV drugs that are also on that list. So 2 we have pulled the information from the same 2 an integrase inhibitor. LILA CUMMINGS: And then the only other 3 source regarding the fact that there are other --4 change we made here, and we appreciate our 4 and it's on HCFA's website, it's drug category 5 partners at PORTAL, it was a tiny one -- you'll 5 HIV. We did not do further analytics in terms of 6 class or doses, but this is the information that 6 see it in the therapeutic alternatives appendix 7 as well -- a tiny, but important. 7 was presented there, and then we've cited the So here just clarifying the mechanism 8 source as well. CHAIR GAIL MIZNER: Thank you, Lila. 9 of action for Dovato we had written to is, in 9 10 LILA CUMMINGS: Yeah, absolutely. 10 fact, one, so that was the only other change. CHAIR GAIL MIZNER: I thought it was 11 Okay, so those are the redlines, so I will stop 12 sharing. Happy to come back to any of these if 12 one of the two drugs -- it's a two-drug regimen, 13 as opposed to a three-drug regimen, so I was just 13 you would like. But with that, we can proceed 14 wanting to make sure we were correct on that. 14 back to the slides. 15 LILA CUMMINGS: So now I will minimize 15 In the interest of time, I'm not going 16 to reread some of these. We'll start with 16 this. So in the therapeutic alternatives 17 appendix, you'll see just the same -- that last 17 therapeutic and utilization profile, and I think 18 change that we mentioned is also in there when 18 you all are familiar with the appendices where we 19 you scroll down to Dovato. So the only change 19 pull this information from. We can go to the 20 here is that corresponding change from two to 20 next slide. 21 one, so that's the only redline in this appendix. 21 So indication, Genvoya has one 22 22 indication, HIV-1, and so there's information up Then impact on safety net providers. 23 This is the same, very similar changes to what 23 here from the FDA's website. I'll pause. Any

Page 113

24 questions on indication? We can go to the next

Page 111

25 slide.

24 you've already reviewed, and I'd say there is

25 more information here that we'll get into

1 So here is utilization data for	1 encompassing term where specifically priority
2 Genvoya, and we've combined here two types of	2 populations are listed out; that's why we're
3 information. You've got the raw numbers, but	3 using that language and would just encourage
4 then you also have information based off of	4 folks to look at the rule if they want to know
5 utilization for just Genvoya; there is	5 specifically.
6 information on general utilization for Genvoya	6 But HIV disproportionately impacts
7 and its therapeutic alternatives. But for just	7 priority populations, particularly sexual
8 Genvoya, here's how utilization has changed since	8 minorities and communities of color. HIV
9 2018 across commercial, Medicaid, and Medicare	9 disparities persist and the number of new HIV
10 Advantage plans, as reported in the APCD.	10 diagnosis linkage to care and treatment and
11 BOARDMEMBER CATHERINE HARSHBARGER	
12 That's a significant reduction in utilization,	12 overview of health equity literature related to
13 isn't it? Is there we probably don't know why	13 HIV. We also heard from patients and caregivers
14 that is, or did somebody	14 that accessing HIV-related medications for people
15 CHAIR GAIL MIZNER: I think we kind of	15 living with HIV, there's a historical context.
16 do. It's that other medication combinations	That is important that we heard that
17 became available that were viewed as being either	17 and patients submitted information to that
18 better tolerated or more effective, so it's	18 context about particularly the disproportionate
19 basically that. As I mentioned before, Genvoya	19 impact they felt in health equity and accessing
20 does have cobicistat, which makes it so that you	20 prescription drugs in the past, and then kind of
21 cannot take a statin with it. And as HIV	21 persisting potential health equities. So there's
22 patients, age, cardiovascular disease becomes	22 a lot more information in the health appendix as
23 more and more of a concern, and so many people	23 well, as well as input from patients and
24 need to be on a statin, so that would be one	24 caregivers and individuals with scientific and
25 potential reason that someone might switch away Page 114	25 medical training and voluntarily submitted
rage 114	Page 116
1 from Genvoya.	1 information.
2 So there are, you know I hate to be	2 And then another thing too that I'll
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the	2 And then another thing too that I'll 3 note specific to Genvoya is that we heard a lot
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the 4 tendency is with newer regimens coming out,	2 And then another thing too that I'll 3 note specific to Genvoya is that we heard a lot 4 from patients and caregivers around stigma
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the 4 tendency is with newer regimens coming out, 5 people, for one reason or another, get switched.	2 And then another thing too that I'll 3 note specific to Genvoya is that we heard a lot 4 from patients and caregivers around stigma 5 associated with HIV and how that might impact
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the 4 tendency is with newer regimens coming out, 5 people, for one reason or another, get switched. 6 BOARDMEMBER CATHERINE HARSHBARGER	2 And then another thing too that I'll 3 note specific to Genvoya is that we heard a lot 4 from patients and caregivers around stigma 5 associated with HIV and how that might impact 6 access to medications and access to care.
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the 4 tendency is with newer regimens coming out, 5 people, for one reason or another, get switched. 6 BOARDMEMBER CATHERINE HARSHBARGER 7 Okay.	2 And then another thing too that I'll 3 note specific to Genvoya is that we heard a lot 4 from patients and caregivers around stigma 5 associated with HIV and how that might impact 6 access to medications and access to care. 7 We can go on to the next slide.
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the 4 tendency is with newer regimens coming out, 5 people, for one reason or another, get switched. 6 BOARDMEMBER CATHERINE HARSHBARGER 7 Okay. 8 LILA CUMMINGS: And I would say note	2 And then another thing too that I'll 3 note specific to Genvoya is that we heard a lot 4 from patients and caregivers around stigma 5 associated with HIV and how that might impact 6 access to medications and access to care. 7 We can go on to the next slide. 8 So here is a map of utilizers of
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the 4 tendency is with newer regimens coming out, 5 people, for one reason or another, get switched. 6 BOARDMEMBER CATHERINE HARSHBARGER 7 Okay. 8 LILA CUMMINGS: And I would say note 9 too that Chair Mizner, Dr. Mizner has been	2 And then another thing too that I'll 3 note specific to Genvoya is that we heard a lot 4 from patients and caregivers around stigma 5 associated with HIV and how that might impact 6 access to medications and access to care. 7 We can go on to the next slide. 8 So here is a map of utilizers of 9 Genvoya in 2022. You've seen this map before,
2 So there are, you know I hate to be 3 acting as the expert again, but that has been the 4 tendency is with newer regimens coming out, 5 people, for one reason or another, get switched. 6 BOARDMEMBER CATHERINE HARSHBARGER 7 Okay. 8 LILA CUMMINGS: And I would say note 9 too that Chair Mizner, Dr. Mizner has been 10 incredibly helpful. (Indiscernible) on here, they're in the claims database. There is no  CHAIR GAIL MIZNER: Okay.  LILA CUMMINGS: Thank you.  LILA CUMMINGS: All right. And then LILA CUMMINGS: All right. And then LILA CUMMINGS: All right. And then LILA CUMMINGS: are in-class single-dosage

1	form therapeutic alternatives. I'll leave it	1	of the patient out-of-pocket, it's about 2600 per
2	here for any discussion. I see on the slide it	2	year; is that how I'm interpreting this?
3	says two, not one, for Dovato. You've seen the	3	LILA CUMMINGS: Yes. Go ahead, sorry.
4	change in the report.	4	BOARDMEMBER AMY GUTIERREZ: That's over
5	BOARDMEMBER CATHERINE HARSHBARGER:	5	\$200 a month, that's quite a bit.
6	Biktarvy, I guess I keep thinking that that one's	6	BOARDMEMBER CATHERINE HARSHBARGER:
7	kind of a preferred starting point. I think it	7	Yeah, it quite a bit. Go ahead.
8	said that in the report for new HIV patients,	8	CHAIR GAIL MIZNER: Is this just
9	they tend to use that as their first choice.	9	commercial insurance or commercial plus Medicare?
10	CHAIR GAIL MIZNER: So the preferred	10	KATE DAVIDSON: Yeah, it's commercial
11	agents listed by DHHS are Biktarvy or the	11	plus Medicare Advantage.
12	combination of dolutegravir and tenofovir	12	LILA CUMMINGS: And then something that
13	emtricitabine called Descovy. And so, that	13	I will note, like, I think we were going to get
14	second combination is two pills taken just once a	14	to it in a few slides, but since you all are
15	day, which for many people isn't a big problem.	15	discussing out-of-pocket costs. So in Appendix
16	But that was not included in this just because	16	F, which is the impact on safety net providers,
17	it's two pills instead of one, so it wasn't felt	17	we spoke a couple of months ago with our peers at
18	to be quite comparable.	18	CDPHE who oversee the state drug assistance
19	But, you're right, Biktarvy came out	19	program, and they provided us with information on
20	more recently in 2018 and has been very popular.	20	how the programs run, as well as what services
21	It's a small pill that's easy to swallow, highly,	21	and what kind of assistance is available.
22	highly effective, everything in one, and so it	22	So a summary and I said state drug
23	has been quite popular and it is listed as one of	23	assistance program, or SDAP, Ryan White, the
24	the first line.	1	federal Ryan White HIV/AIDS Program is kind of
25	BOARDMEMBER CATHERINE HARSHBARGER: It	25	what that's referring to. Frequently, clinics
	Page 118		Page 120
1	has lower side effects too; is that correct?	1	are referred to as Ryan White Clinics, but
2	CHAIR GAIL MIZNER: What's that?		there's more information in Appendix F, and
3	BOARDMEMBER CATHERINE HARSHBARGER: It	1	specifically, I want to highlight information
4	has lower side effects.	1	about the state drug assistance program and the
5	CHAIR GAIL MIZNER: Probably it may	1	income eligibility chart that is there. And so,
	cause a little more weight gain for some patients	1	that is highlighting the certain kind of income
7	than, for example, Genvoya does. But generally,	1	eligibilities in which you can receive financial
8	really most of these drugs are very well	1	assistance to access drugs, including drugs like
9	tolerated at this point.	9	Genvoya.
10	BOARDMEMBER CATHERINE HARSHBARGER:	10	And I'll just note that there is
11	Okay, thank you.		assistance that is available for up to 500
12	LILA CUMMINGS: I've actually just		percent of the federal poverty line, and that is
13	moved forward to the next slide where we have		something so that access to that assistance is
			not reflected in claims data.
	Scribid, and Trimeq and total as well. Okay.	15	BOARDMEMBER AMY GUTIERREZ: Do we have
	Any questions on indication utilization or		any idea, Lila, how many of the commercially
	information about therapeutic alternatives and		insured patients have access to that federal
	their utilization?		poverty level limit?
19	All right, so price and cost profile.	19	LILA CUMMINGS: That is
20	I'll just leave this up here for a second, and we	20	BOARDMEMBER AMY GUTIERREZ: (Sound
21	can go on to the next slide.		glitch) in this.
22	Here are the WAC and cost statistics	22	LILA CUMMINGS: Yeah, that is not
	that you've seen a similar version before. We'll		something that we did an analysis of. Kate,
	leave it up for folks to discuss.		correct me if I'm wrong, I do not believe there's
25	BOARDMEMBER AMY GUTIERREZ: So in terms	25	any information in the APCD that could estimate
	Page 119	1	Page 121

1 income levels.	1 true that, like, half of patients are paying more
2 KATE DAVIDSON: That's correct.	2 than 2600, right. The mean tends to be driven by
3 BOARDMEMBER CATHERINE HARSHBARGER: We	3 some skews on the very high cost, so, you know,
4 probably wouldn't be able to get that because	4 there's going to be a range of patient out-of-
5 they probably do that on a one-on-one basis and	5 pocket costs when you analyze these data.
6 keep it pretty confidential, so I would imagine	6 LILA CUMMINGS: And I'd say we really
7 that would be hard to get.	7 appreciate the stakeholders that engaged in this
8 CHAIR GAIL MIZNER: So let me see if I	8 process because, particularly in voluntarily
9 can do a couple of clarifications. So that SDAP	9 submitted information, they pointed to very
10 program or ADAP/SDAP program is available whether	10 like, where assistance programs, you might not
11 the patient as long as the patient is enrolled	11 have full info like, in manufacturer
12 on the western slope, it's Western Colorado	12 assistance program, you might not have full
13 Health Network, so they can see a provider who's	13 information on utilization. But in the case of
14 not a Ryan White provider and still be prescribed	14 Genvoya in particular, there are federal and
15 medications and receive them under SDAP. I know	15 state level policies around copays, and we'll get
16 that because I'm not a Ryan White provider and	16 to that; that's in a few slides.
17 most of my patients receive their medications	The patients survey results I think
18 under SDAP.	18 tell we will get to those in a few slides
And that organization as well does an	19 tell their experience, and then the Ryan White
20 enormous amount to help get patients who can be	20 program. So there are a couple of very
21 on insurance on insurance and insurance that does	21 established, very transparent data in terms of
22 cover the medication.	22 what the rules and policies are that impact
So I am, based on my experience, which	23 patient out-of-pocket costs is what we heard from
24 is of approximately, must have taken care of at	24 stakeholders.
25 least 200 patients with HIV in the past three,	25 BOARDMEMBER JAMES JUSTIN VANDENBERG:
Page 122	Page 124
1 four, five years, I've never seen a patient have	1 And I think that's really important. What you're
2 to pay \$2,600, but I don't see wealthy patients	2 noting, Lila, here is you have state, you have
3 either. So I'm a little surprised by that out-	3 federal, you have patient assistance program.
4 of-pocket number is what I'm saying.	4 There's quite a few different pieces in there
5 I don't know, Kate, if you have	5 that are highlighting, as well as the
6 commentary on that.	6 stakeholders, of the ability to gain access to
7 KATE DAVIDSON: Just reiterating what	7 this medication.
8 Lila said, that this is what the claims says, not	8 BOARDMEMBER CATHERINE HARSHBARGER: You
9 necessarily what was experienced by the patient	9 did have a pretty big WAC increase that it's
10 with all of the funding.	10 noted on here.
11 BOARDMEMBER AMY GUTIERREZ: The reason	11 BOARDMEMBER JAMES JUSTIN VANDENBERG:
12 I asked the question, Gail, was out of that 2600	12 And I'm curious, looking at the graph that you
13 is the SDAP program available to them or are we	13 had before and seeing that trend, the downward
14 really looking at patients that are insured,	14 trend, I'm curious if we're almost catching this
15 because there are quite a bit of insured	15 on the back end of it almost sunsetting itself,
16 commercial patients on here. Is that what their	16 to some degree. As we were talking before, as
17 out-of-pocket is really 2600? That's why I asked	17 new agents are coming out, as there is resistance
18 that question.	18 and you're having to shift the medication, is it
19 CHAIR GAIL MIZNER: Yeah. And are they	19 naturally kind of going to continue to go down
20 getting somehow other assistance.	20 and then probably, you know, bottom out to some
DR. BEN ROME: Yeah. One point just	21 degree a little bit.
22 about the 2600 is a mean, just to remind you all	But as far as our data collection,
23 too, and I think we saw it with Enbrel and with	23 we're getting it on the tail end of this, so it
24 this drug too. Like most drugs, these costs are	24 encompasses here. But if were to, let's say, run
25 not distributed such that you know, it's not	25 this again in five years, my guess is Genvoya
Page 123	Page 125
	32 (Pages 122 - 125)

1 wouldn't be coming up to this coming on to our	1 along. Here is information in terms of a month,
2 radar as being one of the top medications would	2 what was paid in a month. But again, note that
3 be my guess looking at the trajectory that it's	3 this out-of-pocket costs for the month does not
4 going. Does that make sense?	4 take into account SDAP funding.
5 BOARDMEMBER CATHERINE HARSHBARGER	5 Okay, we will keep moving on but can
6 Yeah, it makes sense.	6 always come back.
7 CHAIR GAIL MIZNER: Yeah. So I think	7 So again, put a different way and we
8 what you're saying, Justin, is that it's likely	8 will get into this when we're getting into kind
9 that utilization is going to continue to decline	9 of patient and caregiver input, as well as
10 as new medications come out, et cetera. So that	10 individuals with scientific and medical training
11 total costs, you know, if we're looking at total	11 financial effects input. But again, this is
12 costs for the state, those costs should probably	12 information from the claims database around co-
13 go down for insurance carriers or whoever, just	13 insurance deductible and copayment amounts and
14 because of fewer numbers of patients.	14 total out-of-pocket costs, but does not include
15 I don't think we can predict that for	15 SDAP or any other assistance program but
16 sure. It might stabilize because there certainly	16 specifically calling that one out.
17 are people who have been on Genvoya a long time	17 BOARDMEMBER CATHERINE HARSHBARGER:
18 and it works well for them and they like it and	18 That's where the patient data becomes so
19 they want to stay on it. So I think it's hard to	19 important to what they say is going on for them,
20 predict, but certainly, we do see a trend	20 meaning the patient's feedback. I'm sorry, I
21 overall, but a tendency that as newer medications	21 said that kind of wrong, patient's feedback.
22 come out that have advantages, people get	22 CHAIR GAIL MIZNER: So the general
23 switched.	23 gestalt of this for me is that there's not a big
24 BOARDMEMBER CATHERINE HARSHBARGER	
25 Would I be making a wrong assumption to ask	25 years.
Page 126	Page 128
1 whether or not if people are on Canyova, is it	1 DOADDAENDED CATHEDDE HADGIDADCED
	I I BOARDMEMBER CATHERINE HARSHBARGER:
1 whether or not if people are on Genvoya, is it	1 BOARDMEMBER CATHERINE HARSHBARGER:
2 because they were potentially resistant to the	2 Correct.
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound	<ul><li>2 Correct.</li><li>3 LILA CUMMINGS: Okay, next slide. So</li></ul>
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know.	<ul> <li>2 Correct.</li> <li>3 LILA CUMMINGS: Okay, next slide. So</li> <li>4 we've got here health effects, this is from</li> </ul>
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? 2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has	<ul> <li>2 Correct.</li> <li>3 LILA CUMMINGS: Okay, next slide. So</li> <li>4 we've got here health effects, this is from</li> <li>5 Appendix D, so we have done some summarization</li> <li>6 here. There was one indication, so it was a</li> <li>7 little more concise, but also encourage you,</li> <li>8 Appendix D, H, I, and J are where the vast</li> <li>9 majority of these slides information come from.</li> </ul>
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch.	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER:	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses.
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you.	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila,	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line,
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking	2 Correct.  3 LILA CUMMINGS: Okay, next slide. So  4 we've got here health effects, this is from  5 Appendix D, so we have done some summarization  6 here. There was one indication, so it was a  7 little more concise, but also encourage you,  8 Appendix D, H, I, and J are where the vast  9 majority of these slides information come from.  10 And again, we have linked to the Zoom for the  11 public meeting for Genvoya with patients and  12 caregivers, as well as their survey responses.  13 I'm noticing a typo on here, so  14 apologies for that. I think the top line,  15 apologies, that is Enbrel, but I think that was  16 just something that wasn't deleted, that top
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area.
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22 19 patients you did. But you may already be	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for 19 patients and caregivers. The majority of
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22 19 patients you did. But you may already be 20 presenting that later.	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for 19 patients and caregivers. The majority of 20 patients aid their treatment goal was to remain
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22 19 patients you did. But you may already be 20 presenting that later. 21 LILA CUMMINGS: I believe that's one of	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for 19 patients and caregivers. The majority of 20 patients aid their treatment goal was to remain 21 undetectable and achieve overall physical health.
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22 19 patients you did. But you may already be 20 presenting that later. 21 LILA CUMMINGS: I believe that's one of 22 the slides or we can go to the report.	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for 19 patients and caregivers. The majority of 20 patients aid their treatment goal was to remain 21 undetectable and achieve overall physical health. 22 They spoke to the importance of whole person
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22 19 patients you did. But you may already be 20 presenting that later. 21 LILA CUMMINGS: I believe that's one of 22 the slides or we can go to the report. 23 BOARDMEMBER CATHERINE HARSHBARGER: We	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for 19 patients and caregivers. The majority of 20 patients aid their treatment goal was to remain 21 undetectable and achieve overall physical health. 22 They spoke to the importance of whole person 23 wellness, in addition to medical outcomes. And
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22 19 patients you did. But you may already be 20 presenting that later. 21 LILA CUMMINGS: I believe that's one of 22 the slides or we can go to the report. 23 BOARDMEMBER CATHERINE HARSHBARGER: We 24 can go to that part, yeah.	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for 19 patients and caregivers. The majority of 20 patients aid their treatment goal was to remain 21 undetectable and achieve overall physical health. 22 They spoke to the importance of whole person 23 wellness, in addition to medical outcomes. And 24 they discussed the differences in Genvoya and
2 because they were potentially resistant to the 3 other drugs available at the time and/or (sound 4 glitch) side effects? I don't know. 5 CHAIR GAIL MIZNER: Not so much because 6 it's not really, it's not a drug that you not 7 one of the ones you turn first when you have a 8 patient with drug resistance. When it first came 9 out, it was very popular, which like I say, has 10 worked well for some people, but other people had 11 reasons to switch. 12 BOARDMEMBER CATHERINE HARSHBARGER: 13 Okay, thank you. 14 BOARDMEMBER AMY GUTIERREZ: And, Lila, 15 are you going to go after Table H1, which talks 16 about out-of-pocket costs, because I was looking 17 at because 90 percent of the out-of-pocket costs 18 are under \$50, at least from the survey of 22 19 patients you did. But you may already be 20 presenting that later. 21 LILA CUMMINGS: I believe that's one of 22 the slides or we can go to the report. 23 BOARDMEMBER CATHERINE HARSHBARGER: We	2 Correct. 3 LILA CUMMINGS: Okay, next slide. So 4 we've got here health effects, this is from 5 Appendix D, so we have done some summarization 6 here. There was one indication, so it was a 7 little more concise, but also encourage you, 8 Appendix D, H, I, and J are where the vast 9 majority of these slides information come from. 10 And again, we have linked to the Zoom for the 11 public meeting for Genvoya with patients and 12 caregivers, as well as their survey responses. 13 I'm noticing a typo on here, so 14 apologies for that. I think the top line, 15 apologies, that is Enbrel, but I think that was 16 just something that wasn't deleted, that top 17 area. 18 So moving on to health effects for 19 patients and caregivers. The majority of 20 patients aid their treatment goal was to remain 21 undetectable and achieve overall physical health. 22 They spoke to the importance of whole person 23 wellness, in addition to medical outcomes. And

1 treats a communicable disease and interruptions 1 LILA CUMMINGS: All right, so here's 2 in treatment could lead to worries of a broader 2 some information on financial effects. And 3 public health issue. 3 again, all of this is in the appendices, so the For health effects, I'm not going to 4 information from surveys regarding the financial 5 read through this necessarily. I'll just leave 5 effects of the drug. Also, we've pulled some 6 it up there for folks to take a look at. 6 information from individuals with scientific and 7 CHAIR GAIL MIZNER: Any questions on 7 medical training appendix where they've provided 8 that, comments? I think we can move on. 8 information from their experiences on patient's LILA CUMMINGS: Okay. All right, so 9 ability to afford Genvoya. 10 here is a summary of the health effects of 10 BOARDMEMBER CATHERINE HARSHBARGER: I 11 Genvoya. It is both from -- we surveyed six 11 sit and ask myself the question about the 4 out 12 different or reviewed six different health 12 of 22 or 18 percent, that the medication reduces 13 technology assessment organizations. We also 13 the amount of time. Oh, wait, I'm talking about 14 noted if (sound glitch) was used in Appendix D, 14 due to the cost of this medication, they cut 15 but here's the summary from both Canada and 15 costs in other areas. 16 Germany. 16 And so, it makes me wonder if those are 17 I will note here that something we kind 17 people that are on insurance, for one, and 18 of consistently found in review was sometimes 18 secondly, do they not know about other program 19 there are head-to-head studies with different 19 because there's so many programs out there. I 20 drugs, but then kind of frequently, there were --20 don't know that answer, or maybe they don't 21 it was a comparison to a placebo. But those are 21 qualify for them. So even if they -- I don't 22 cited, so you can investigate as you see fit. 22 know what that is, but at least 18 percent of the 23 CHAIR GAIL MIZNER: So really HIV drug 23 people have some impact relative to having to cut 24 studies are not done in comparison to placebo 24 costs in their lives to afford the medication. 25 because that would be immoral; they're compared 25 LILA CUMMINGS: And something I will Page 130 Page 132 1 to other drugs and that's just the way it has to 1 add to say here that feedback we received that we 2 did discuss in December but we'll reiterate is, 2 be. 3 LILA CUMMINGS: And I think I just 3 we received feedback from a number of 4 organizations that are patient kind of focused 4 transcribed what I meant to say in my previous 5 organizations for people living with HIV. And we 5 statement. Sorry, yes, apologies. Thank you. BOARDMEMBER CATHERINE HARSHBARGER: The 6 heard that because of the historical and current 7 one thing to remember in all of this is the 7 stigma associated with HIV, that there were some 8 health effects, it seems like some of them are 8 concerns about responding to surveys, and so that 9 is something we've heard. 9 the norms for people if they're going to get it: 10 diarrhea, nausea, things that you can get treated 10 And I will note too that, you know, and 11 we reopened the surveys at your direction in 11 for, for the side effects if you wanted to. The 12 January, where we received a tremendous amount 12 one thing that's different about Genvoya is the 13 for other drugs. I will say for Genvoya, we did 13 effect it has on -- I don't know whether it's 14 liver or just on the fact that you can't have a 14 not receive any additional responses. 15 BOARDMEMBER CATHERINE HARSHBARGER: 15 statin if you needed it. 16 Which also makes me wonder how concerned they are 16 CHAIR GAIL MIZNER: It's the drug 17 interaction with the statin. It's complicated. 17 about it. I don't know that answer exactly. I BOARDMEMBER CATHERINE HARSHBARGER: 18 think the stigma definitely is part of the issue. 18 19 I'll trust you on that. 19 People just don't want to be associated 20 necessarily, have people associate them with LILA CUMMINGS: I think Chair Mizner, 21 their health issue in this case. 21 correct me if I'm wrong, that is what we pulled 22 BOARDMEMBER AMY GUTIERREZ: For the 22 up from the cited clinical guidelines into the 23 second bullet under there, Lila, where it says 23 body of the report.

Page 133

24 some participants highlighted IQVIA lab data.25 I'm not sure IQVIA has lab data. It's probably

Page 131

BOARDMEMBER CATHERINE HARSHBARGER:

25 Thank you.

1 more they're looking at qualities and	1 my screen if you would like.
2 affordability. Do we validate that, that 85	2 CHAIR GAIL MIZNER: Just want to
3 percent of people have a copay of less than or	3 clarify for people too that the ADAP coverage
4 equal to \$5.00?	4 includes undocumented, uninsured people, and this
5 LILA CUMMINGS: We did not. So any	5 is very important from a public health
6 voluntarily submitted information, we did not do	6 standpoint. You don't want people uninsured
7 an independent assessment of. And I will note	7 because I mean, untreated because they can
8 that IQVIA is a clearinghouse that also does	8 then transmit the virus; whereas, somebody who's
9 analytics, including claims-based analytics that,	9 well treated with an undetectable viral load will
10 to our understanding, is based on claims data	10 not transmit the virus.
11 they receive from a number of organizations, but	11 BOARDMEMBER CATHERINE HARSHBARGER:
12 not state All Payer Claims Databases. So no, we	12 Yeah, that's a social issue for sure.
13 did not; that's not something that we validated.	13 CHAIR GAIL MIZNER: And I have no
14 BOARDMEMBER CATHERINE HARSHBARGER: But	14 patients for whom I cannot get antiretroviral
15 this is from one of our scientific or medical	15 medication because of that excellent ADAP
16 trained people.	16 coverage and the excellent work of the Ryan White
17 LILA CUMMINGS: Something that they	17 programs.
18 provided, yup. And I believe this one in	18 BOARDMEMBER CATHERINE HARSHBARGER:
19 particular was the manufacturer who had	19 Yeah.
20 individuals with scientific and medical training	20 LILA CUMMINGS: I think we can move on
21 present at meetings.	21 to the next slide. All right, so there was just
22 BOARDMEMBER JAMES JUSTIN VANDENBERG:	22 one organization that had done kind of a summary
23 And didn't they just change this year. Sorry,	23 of the financial effectiveness of Genvoya.
24 this is bullet three, I'm jumping to the next	24 I will note, and we've noted this,
25 one. I thought they got rid of copays for	25 that, you know, no assessment was done on
Page 134	Page 136
1 Medicaid patients.	1 comparing the price Canada pays or the average
2 LILA CUMMINGS: Yes.	2 reimbursement to Colorado-specific data. So for
3 BOARDMEMBER JAMES JUSTIN VANDENBERG:	3 Canada, you'll see here that they said that
4 So that line is probably outdated.	4 Genvoya is similar in costs or less costly than
5 LILA CUMMINGS: So for particular, and	5 other single tablet or commonly used treatment
6 we'll touch on that in a little I believe it's	6 regiments for adolescents and adults in Canada.
7 on this slide; if it's not, we'll touch on it.	7 Okay, we can keep moving.
8 Yes, for individuals covered by who are	8 All right, so moving on to the access
,

10 by the State of Colorado, there is new 11 legislation that prevents copays for any HIV 12 medication. 13 BOARDMEMBER CATHERINE HARSHBARGER: Can 14 anybody tell me, because I don't know what it is 15 now, what's the federal poverty level this year; 16 does anybody know? 17 LILA CUMMINGS: The information on who 18 qualifies is in Appendix F for 2024. 19 BOARDMEMBER CATHERINE HARSHBARGER: 20 Okay, thank you. I don't remember seeing it. 21 LILA CUMMINGS: I've got a lot of tabs 22 open. 23 BOARDMEMBER CATHERINE HARSHBARGER:	9 to care profile. You've seen these appendices, 10 you've seen the description, so we can keep 11 moving. 12 All right, so here is the graphic that 13 shows change in WAC versus change in annual 14 inflation. And apologies, I think we've 15 Google Drive shut down on us this morning, so we 16 had some issues with saving some of the text 17 properly. And so, you'll see there that is 18 right, but on a previous slide, it was not, so 19 this is good for Genvoya. 20 CHAIR GAIL MIZNER: Any comment on 21 that? 22 BOARDMEMBER CATHERINE HARSHBARGER: No. 23 BOARDMEMBER JAMES JUSTIN VANDENBERG:
10 by the State of Colorado, there is new 11 legislation that prevents copays for any HIV 12 medication. 13 BOARDMEMBER CATHERINE HARSHBARGER: Can 14 anybody tell me, because I don't know what it is 15 now, what's the federal poverty level this year; 16 does anybody know? 17 LILA CUMMINGS: The information on who 18 qualifies is in Appendix F for 2024. 19 BOARDMEMBER CATHERINE HARSHBARGER: 20 Okay, thank you. I don't remember seeing it. 21 LILA CUMMINGS: I've got a lot of tabs 22 open.	9 to care profile. You've seen these appendices, 10 you've seen the description, so we can keep 11 moving. 12 All right, so here is the graphic that 13 shows change in WAC versus change in annual 14 inflation. And apologies, I think we've 15 Google Drive shut down on us this morning, so we 16 had some issues with saving some of the text 17 properly. And so, you'll see there that is 18 right, but on a previous slide, it was not, so 19 this is good for Genvoya. 20 CHAIR GAIL MIZNER: Any comment on 21 that? 22 BOARDMEMBER CATHERINE HARSHBARGER: No.

1 what you've seen in the report. We have change 1 BOARDMEMBER AMY GUTIERREZ: I think 2 in patient count, change in total paid, average 2 they key is too that 500 percent federal poverty 3 paid for person, total patient, then average out-3 level. Anyone above that will not apply. 4 of-pocket costs. CHAIR GAIL MIZNER: Right. That's a Okay. Any discussion here? 5 pretty generous amount, though, that it is 500 BOARDMEMBER CATHERINE HARSHBARGER: 6 percent above federal poverty level is inclusive 7 Well, the graph does show us from 2018 to 2022, 7 of quite a few people probably. 8 it's become I guess less costly for individuals, BOARDMEMBER AMY GUTIERREZ: I think I'm 9 you know, the Colorado consumer, as well as just 9 just looking it up, Cathy. I think it was 15,060 10 in 2023 FPL. 10 in general, the cost has gone down. CHAIR GAIL MIZNER: Well, the total 11 BOARDMEMBER CATHERINE HARSHBARGER: 12 paid has gone down, but the number of patients 12 Right, thank you. 13 LILA CUMMINGS: And I would just note 13 using it has gone down. 14 BOARDMEMBER CATHERINE HARSHBARGER 14 too that we don't have it on a slide, but in the 15 Yeah, sorry. Yeah, there's a correlation, sorry. 15 summary report, particularly I believe it's Page CHAIR GAIL MIZNER: So I'm still sort 16 -- or it begins on Page 25, there is information 16 17 on monthly utilization for Genvoya's therapeutic 17 of a little bit alarmed by that out-of-pocket 18 cost, but I also think that with this particular 18 alternatives. There's information for monthly 19 medication, we know that, whereas unlike with 19 total paid and average total paid. 20 some other medications where you simply -- it's 20 And then there's also information from 21 hard to know if there are patients who need it 21 the survey responses, acknowledging that there 22 and just simply aren't accessing it at all. 22 were only 22 survey responses regarding patient With this, because of the robustness of 23 self-reported out-of-pocket costs and any 24 the ADAP program with possibly a few exceptions 24 concerns with costs affecting access. And all 25 of patients who are afraid to -- have so much 25 patients reports that their out-of-pocket cost Page 138 Page 140 1 stigma that they're afraid to approach the 1 per month was zero to 50 or 50 to 100. 2 program or enter into care that people who need a And then there's also information on 3 drug are getting it. 3 cost effectiveness on access where the majority 4 Dr. Rome, what did you want to... 4 said that cost did not affect access, and that's 5 DR. BEN ROME: I was just going to add 5 Table 12 in the summary report. 6 one more thing, Gail, just as you're thinking CHAIR GAIL MIZNER: I'm at the F-3, 7 about that number. It includes copayments, 7 which is the Colorado State Drug Assistance 8 coinsurance, and deductibles. So, you know, many 8 Program income eligibility chart. So for a 9 patients do pay a deductible of a few hundred 9 single person family size of one, 500 percent of 10 dollars at the beginning of the year. And if the 10 federal poverty level is \$75,300. 11 person who has HIV but no other medical 11 BOARDMEMBER CATHERINE HARSHBARGER: Oh, 12 conditions, you know, the deductible will 12 my math is right; that's what I calculated. 13 probably go towards Genvoya if that's the 13 CHAIR GAIL MIZNER: And it goes up if 14 medicine they're using, and so, that also is 14 you have more in your family. Can we move on? 15 counted here. 15 LILA CUMMINGS: Yup, we sure can. So 16 So just as you're sort of 16 patients, caregivers, and clinicians provided 17 conceptualizing this number, that's another maybe 17 input that treatment for HIV may be received at a 18 reason why it might be a little higher than you 18 clinical provider's office who receives funding 19 were expecting because patients may not see that 19 from the Ryan White HIV/AIDS Program and that 20 as a cost, you know, as a specific barrier to 20 many, if not all, of these clinics are registered

23 where we list the different covered entity types,

I would say here that in the Appendix F

21 as covered entities.

24 some of the clinics or one of the -- some of the

25 covered entity types are specifically Ryan White

Page 141

Page 139

22

21 Genvoya. And obviously, the benefit design is

23 or their most expensive drug, it'll probably get

CHAIR GAIL MIZNER: Right. Thank you.

22 such that it isn't, but if that's their only drug

24 applied.

25

- 1 clinics or Ryan White adjacent. So that
- 2 information, while we didn't do an assessment of
- 3 was there utilization or couldn't do an
- 4 assessment of was there utilization of Genvoya at
- 5 those clinics, I think just due to the nature of
- 6 there's a specific category for these providers
- 7 under covered entities in the 340B programs is
- 8 notable.
- 9 Individuals also provided input that
- 10 these clinics receive funding in a number of
- 11 programs, including SDAP, to lower the cost of
- 12 prescription drugs. I won't read this. You've
- 13 already talked about it and discussed the
- 14 specific levels.
- But then do also want to note, and Dr.
- 16 VanderBerg, you mentioned this, so Colorado
- 17 Senate Bill 23-189 requires Medicaid and state
- 18 regulated commercial plans that cover health
- 19 services related to STIs to include coverage for
- 20 HIV prevention drugs or cover HIV treatment like
- 21 Genvoya without step therapy or prior
- 22 authorization requirements.
- 23 Additionally, at the federal level,
- 24 Medicare requires Part D plan sponsors to include
- 25 on their formulary all drugs in six categories,
  Page 142

- 1 I'm almost surprised it's not higher than that.
- 2 BOARDMEMBER AMY GUTIERREZ: I agree. I
- 3 think it's just -- that way, you at least don't
- 4 wait three months to find out they're not taking
- 5 their medication and you don't intervene, but I
- 6 agree.
- 7 LILA CUMMINGS: I believe this is the
- 8 last slide, so I'll pause here. And anything on
- 9 the slides or in the report, right, the slides
- 10 kind of touch on most areas. But if there's
- 11 anything you'd like to discuss from the report
- 12 through the appendices, I'm happy to do that.
- BOARDMEMBER AMY GUTIERREZ: Lila, the
- 14 report was well done.
- 15 BOARDMEMBER CATHERINE HARSHBARGER:
- 16 Yeah.
- 17 LILA CUMMINGS: Okay. Then with that,
- 18 I believe we can move on.
- 19 CHAIR GAIL MIZNER: Okay. Any more
- 20 comments before we move on then to public
- 21 comment? Any more comments from the Board or
- 22 deliberations from the Board?
- 23 BOARDMEMBER JAMES JUSTIN VANDENBERG:
- 24 Can't think of...
- 25 CHAIR GAIL MIZNER: Great. Then we

- 1 including antiretrovirals like Genvoya, and they
- 2 may not be subject to prior authorizations or
- 3 step therapy requirements.
- 4 BOARDMEMBER CATHERINE HARSHBARGER: But
- 5 probably would be subject to, like for Medicare,
- 6 their copays and things like that -- not copays,
- 7 their deductibles, right? Well, they can go to
- $8\,$  those programs as well, the Ryan White programs,
- 9 state programs.
- 10 LILA CUMMINGS: And then here are the
- 11 survey responses regarding utilization management
- 12 and requirements from patients and caregivers.
- 13 BOARDMEMBER JAMES JUSTIN VANDENBERG:
- 14 Amy, do you think the second-to-last one is
- 15 probably on there only offers 30-days. Was it my
- 16 understanding a lot of that has to do with
- 17 compliance and putting this into almost the
- 18 specialty bucket because of the high cost? So
- 19 they want to make sure there's adherence so
- 20 they're not just going to give a three-month
- 21 supply, and so they want to have a tighter check
- 22 in, I think was my understanding on there. Not
- 23 saying it's right. I'm just -- but I believe
- 24 that's the rationale behind that.
- 25 CHAIR GAIL MIZNER: It's pretty common.

- 1 will now take public comment regarding Board 2 deliberations on Genvoya only. Callie will put
- 3 the sign up form in the chat and we will take
- 4 comments from up to 10 people today and each
- 5 speaker will be given two minutes to speak. As a
- 6 reminder, this period of public comment is
- 7 limited only to comments related to the Board's
- 8 deliberations on Genvoya. A time for general
- 9 public comment will be available at the end of
- 10 the meeting.
- 11 CALLIE ANN SHELTON: The link is in the
- 12 chat. I have a few people signed up already, and
- 13 we'll start with Jen Laws.
- 14 JEN LAWS: Thank you, dear. I hope
- 15 your throat is doing all right. I'm going
- 16 through the same thing.
- 17 I'm Jen Laws, President and CEO of
- 18 Community and Access National Network. We
- 19 participated in small group meetings and really
- 20 tried to participate throughout this process.
- 21 We're a 27-year-old national patient advocacy
- 22 organization focused on HIV, Hepatitis C, and
- 23 substance use disorder.
- I, myself, am a transgender man living
- 25 with HIV, so this particular issue was very, very

- 1 important as we engaged on this, including
- 2 working with local partners over at CORA and a
- 3 Colorado-based HIV patient advocacy organization
- 4 as well.
- I do want to clarify a point that might
- 6 have been a little confusing for folks listening
- 7 when Lila was going over the first part of this,
- 8 saying that patients have sometimes run into
- 9 issues around prescription medications for HIV.
- 10 That is a historical health equity point because
- 11 prior to the ACA, our drugs weren't covered,
- 12 payers weren't required to do so, and we were
- 13 adamantly discriminated against. It's the entire
- 14 point of the AIDS Drug Assistance Program.
- 15 So that health equity and access piece
- 16 around medication influences a lot of what you
- 17 hear from patients around medication access and
- 18 HIV. A lot of us have been dealing with this for
- 19 a very, very long time before these protections
- 20 were made available, and so we're facing what
- 21 we're facing right now.
- 22 I do want to respond to what Dr. Rome
- 23 had to say about not seeing it because of the
- 24 deductible and everything else. I'm going to
- 25 keep myself well behaved right now. The SDAP

- 1 what you are going to have as a result is a
- 2 reduced ability for that program to serve people
- 3 in need, and when that comes to the ADAP
- 4 specifically, you are talking about your priority
- 5 population too. You're talking about people
- 6 living with HIV in marginalized communities,
- 7 people who are impoverished. It is hard. This
- 8 is a complicated process.
- 9 I believe in good faith that everyone
- 10 here is trying to make sure that there is
- 11 equitable access to care, not just poor people
- 12 living with HIV, but across the spectrum and this
- 13 is complicated. It is my sincere desire that as
- 14 you approach legislative report back, that what
- 15 you tell the legislature, so UPL is not the right
- 16 tool for the job.
- 17 Thank you. Thank you, Callie. I know
- 18 I went a little over.
- 19 CALLIE ANN SHELTON: Hey, Jen, I hope
- 20 you get to feeling better. Natalie Rose.
- 21 Natalie, you're muted.
- 22 NATALIE ROSE: Good gracious, that mute
- 23 button. Thank you for letting me know.
- 24 My name is Natalie Rose. I am speaking
- 25 as a medical value and evidence liaison with

Page 148

- 1 actually helps with premiums and deductibles, not
- 2 just as out-of-pocket costs, so that's a huge
- 3 piece on this.
- And I think this is the most important
- 5 part of when we talk about system costs, not just
- 6 that individual cost, because I'm going to tell
- 7 you right now there are not patients in Colorado
- 8 that meaningfully have an issue accessing Genvoya
- 9 based on cost. We deal with those things, and we
- 10 deal with those things nationally because HIV is
- 11 a public health issue.
- 12 So to that end, with regard to 340B-
- 13 based programs or 340B-covered entities,
- 14 including Ryan White Clinics and the AIDS Drug
- 15 Assistance Program itself and certain hospitals,
- 16 what a UPL would do there is not reduce the
- 17 ability for that entity to access the discounted
- 18 cost, but will reduce the value of the rebates in
- 19 which those entities are able to reinvest in
- 20 their communities.
- A UPL will dramatically increase issues
- 22 of health disparities because it reduces those
- 23 income availability, that program revenue
- 24 availability to reinvest in communities. If UPL
- 25 is instituted on any drug on an ADAP formulary, Page 147

- 1 Gilead Sciences. I respectfully ask that the 2 committee protect all HIV medications, not deem
- 3 them unaffordable, or place an upper payment
- 4 limit on them, including Genvoya.
- 5 The draft report affirms that
- 6 Coloradans with HIV have robust and affordable
- 7 access to Genvoya. In its review of payer data
- 8 and input from patients from stakeholders, the
- 9 report included many examples of how Genvoya is
- 10 affordable to Coloradans with HIV across all
- 11 payer types with a significant portion of
- 12 patients with low or even zero copays. We also
- 13 appreciate that the report acknowledges the
- 14 combined role of both federal and state safety
- 15 net programs to assist with access to
- 16 medications.
- 17 The affordability of Genvoya is further
- 18 underscored by its low abandonment rates.
- 19 Whereas, patient affordability or non-adherence
- 20 may be an indication of patient affordability
- 21 issues, the report found that three or fewer
- 22 respondents to the patient survey indicated that 23 the cost of Genvoya has ever affected adherence.
- 24 This finding comports with our understanding that
- 25 the abandonment rate for Genvoya is 50 percent

1 front range. 1 lower than rates seen across other specialty drug 2 Stigma is incredibly important as well, 2 classes in 2022. 3 as you've just heard from Jen. HIV not only Furthermore, the further affirms 4 impacts those who are in marginalized 4 Genvoya is accessible. The report found that of 5 the 10 carriers in the market, all 10 carriers 5 communities, but HIV itself is a marginalizing 6 disease. Many people living with HIV have not 6 covered this medication with unrestricted access, 7 and the majority of carriers placed Genvoya on 7 disclosed to their family and friends, they're 8 reticent to seek care in HIV-specific settings, 8 the middle-to-lower tier, meaning a lower portion 9 they're anxious as they go to Quest and LabCorp 9 of the drug is paid by patients. 10 Lastly, the report includes many quotes 10 that somebody might mention it out loud, and 11 they're reticent to go to a pharmacy to pick it 11 from respondents who attest to the wide 12 availability of assistance programs, and an 12 up and to have the pharmacist mention the 13 medication aloud. It's difficult for these folks 13 overwhelming majority of patients surveyed 14 to remain meaningfully engaged in care, and any 14 reported using an assistance program. As 15 affirmed here by the data presented in the 15 potential disruption of care can be harmful. 16 Board's affordability report, Genvoya is 16 The same stigma, as you've already 17 talked about, likely played an impact in the 17 affordable and accessible. Colorado can do its 18 number of respondents on the survey. On the 18 part to end the HIV epidemic. I respectfully ask that the Board not 19 website, it said that you all could not guarantee 20 anonymity to the survey and certainly, I suspect 20 find any HIV medication, specifically Genvoya, 21 that played a role in the few number of 21 unaffordable and not set an upper payment limit 22 within the HIV class. Thank you so much for your 22 respondents. 23 time today. I appreciate it. 23 Finally, as a public health doc, I 24 really have to mention -- that I would be remiss CALLIE ANN SHELTON: Thank you, 25 in not mentioning, I should say, the need for 25 Natalie. Mark Thrun. Page 152 Page 150 1 continuity of care. If someone stops their HIV 1 MARK THRUN: My name is Mark Thrun. I 2 medications, their viral load becomes detectable, 2 work with Natalie at Gilead Sciences. I direct 3 then they can transmit virus; whereas, if they 3 HIV strategy at the present moment for the United 4 States, but I'm a Coloradan. I am a public 4 remain on their medications continuously and 5 health infectious disease doc who's had 24 years 5 their virus is undetectable, there's zero 6 of experience providing HIV care in Colorado. I 6 likelihood of forward transmission to other 7 Coloradans. 7 used to direct the Sexual Health HIV Prevention 8 Services at Denver Health, long time advisor to For all these reasons, we at Gilead 9 support those in the community who have advocated 9 CDPHE, HCFA, and CDC mostly on matters related to 10 for treatment choice, allowing a patient and 10 sexual health and HIV. 11 And I wanted to touch on a couple of 11 provider to opt for the treatment regimen that 12 works best for them and allows for them to remain 12 the things that you all have already brought up, 13 and that is stigma and the importance of 13 on it without interruption. We at Gilead remain 14 continuity of care. As was shown in the 14 committed with all of you, based on your 15 comments, to ending the epidemic for everyone 15 affordability reports, HIV is increasingly being 16 everywhere, and we believe that access to 16 diagnosed in persons who might also have 17 appropriate tailored treatment regimens is 17 challenges accessing and persisting in care, 18 including disproportional new infections in 18 central to that. 19 Thank you for the opportunity to speak. 19 Black, Latino, and MSM populations. 20 As you all noted, 60 percent of people 20 Thank you, Lila, for opportunities previously to 21 share our insights with you. 21 on Genvoya are in counties that have an above

Page 151

22 average social vulnerability score. There remain

23 significant challenges to accessing ongoing HIV

24 care in a state in which most of the providers --25 Dr. Mizner, you excepted -- are actually in the

CHRISTOPHER ZIVALICH: Hello there, hi. 25 Thank you for letting me make comments today. My Page 153

23 Christopher Zivalich, please.

CALLIE ANN SHELTON: Thank you, Mark.

22

24

1 care needs. 1 name is Chris Zivalich, I use he and his 2 pronouns, and I'm speaking to you today as a 2 Thank you so much for the opportunity 3 community member with extensive experience in HIV 3 to speak today. 4 treatment and prevention, including my role as a CALLIE ANN SHELTON: Thank you, 5 volunteer co-chair for 5280 Fastrack Cities, a 5 Christopher. Sorry I did such a bad job 6 pronouncing your last name. 6 local HIV coalition. CHRISTOPHER ZIVALICH: That's okay, I'm 7 I want to stress that placing an upper 7 8 payment limit on Genvoya would render it less 8 used to that. 9 accessible, which puts a person living with HIV's CALLIE ANN SHELTON: Michael Deroche 10 please. 10 ability to self-direct their own care at risk. 11 As we've mentioned, 60 percent of people living 11 MICHAEL DEROCHE: Thank you for letting 12 with HIV taking Genvoya live in a county with 12 me speak today. I'm a person who's living with 13 high social vulnerability. My interpretation of 13 HIV for 37 years, I believe. I can't most of the 14 that is that many people taking this drug are 14 drugs because even though I'm always adherent 15 dealing with overlapping inequities and social 15 with my medications, it's a smart little bugger 16 determinants to health. So making something that 16 virus. 17 17 is stable in their life like Genvoya less I really think that HIV should not be 18 one of the disease categories for this program. 18 accessible could impact them more 19 disproportionately than a person living with HIV 19 I think it's great what you're doing, but I just 20 in a less vulnerable county. 20 think that you need to be hands off of HIV. You 21 Also being on a medication that really 21 know, a lot of drugs do help a lot of people in a 22 works for someone living with HIV helps them 22 lot of ways, but this drug is -- HIV drugs are 23 essential to stay alive. If I stop taking my 23 maintain their adherence and ultimately achieve 24 an undetectable viral load, which does eliminate 24 medication, it's just a matter of time until I'm 25 the possibility of HIV transmission, so this 25 going to get sick and die; it's as simple as Page 154 Page 156 1 really is a public health matter. 1 that. And I want to emphasize that a person's 2 I'm on this crazy regimen. By the way, 3 I just want to correct you. You can take 3 HIV medication should always be the byproduct of 4 a shared decision-making process between the 4 statins. I'm on a statin. I'm not on Genvoya 5 provider and the patient. 5 and I'm not on cobicistat, but I'm on Ritonavir, I'd also like to emphasize, just as 6 which is the same thing; it's a sensory A 7 someone who's enrolled people in the past in a 7 inhibitor, which boosts levels of my (sound 8 lot of these programs, that yes, Genvoya is 8 glitch) producing inhibitor. My prescription for 9 eligible for copay support, usually with or 9 Rosuvastatin is 10 milligrams instead of 20. If 10 without income limits; that will cover the entire

11 cost of the drug, so it will not place an

12 affordability burden on nearly all patients.

13 However, the burden of being forced to a new

14 drug, that could be a significant interruption.

15 So while therapeutic alternatives exist, that

16 switch really being forced on someone could be

17 pretty distressing and destabilizing and it's

18 very different when they choose to do that.

So I hope with this information you'll

20 recognize how Genvoya access is critical and that

21 decisions on this should really always center,

22 first and foremost, the autonomy of the person

23 living with HIV so they, you know, decide for

24 themselves in consultation with their doctor or

25 provider which drug is currently meeting their

10 I ever go off that drug, I'm going to have to go

11 back to 20 milligrams, so that just isn't really

12 correct. And then I also take it in the middle

13 of the day because I take my Ritonavir with

14 breakfast and with dinner, so I take my

15 (indiscernible) with lunch.

16 I just think it's really -- you know,

17 first of all, Genvoya is on the way out, it

18 really is; it's an older drug. And I'm a peer

19 educator, I'm involved in the AIDS Treatment

20 Activist Coalition and Treatment Education Net-

21 -- which is a national organization, and Treatment

22 Education Network, which is a local organization.

23 I'm a peer educator. We provide programs with

24 people with HIV.

You know, people will say, hey, what do 25

- 1 you think of blah, blah, blah, blah. They ask me
- 2 for advice because they know I stay up on
- 3 everything. And I say, well, why would you take
- 4 a drug that has cobicistat in that, which has
- 5 toxicities and it's not an antiretroviral, why
- 6 would you take that if you don't have to. You
- 7 know, I mean, Biktarvy, which is the same
- 8 manufacturer, is a great option, and really
- 9 Genvoya is on the way out.
- 10 It was interesting how well
- 11 (indiscernible), which was (indiscernible), is an
- 12 integrase inhibitor that wasn't even on your
- 13 comparator list. I just think it's so important.
- 14 If you need to have an HIV drug on your -- you
- 15 know, if you need to target one -- you need one
- 16 HIV drug to target, there's Crofelemer, which was
- 17 developed for people with HIV that have diarrhea;
- 18 it's a questionable drug, it's very expensive,
- 19 but you're not going to die if you don't take it.
- 20 There's also Egrifta, which is for sub-q hardened
- 21 belly fat, which I think isn't diagnosed
- 22 properly, but you know, it's really expensive but
- 23 it doesn't keep you alive.
- 24 I think that's all I have to say. I
- 25 know I was going to say other things, but you
  Page 158

- 1 And the stigma likely contributed to
- 2 the low response rate in the survey mentioned
- 3 where anonymity really couldn't be guaranteed,
- 4 and it highlights the challenges we have in
- 5 engaging this population in care and research.
- 6 And the ongoing dialogue, you know, it really
- 7 underscores the importance of 340B programs and
- 8 ADAP with a looming threat of UPLs potentially
- 9 reducing rebate values that's essential for
- 10 community reinvestment and it not exacerbating
- 11 health disparities.
- My personal journey as an HIV positive
- 13 individual, it underscores the necessity of
- 14 maintaining access to treatment so that I could
- 15 be here today to help speak after Dr. Mark Thrun
- 16 and emphasize that cost containment measures,
- 17 they impact patient wellbeing and the healthcare
- 18 ecosystem. And despite Colorado's healthcare
- 19 legacy and the Denver principles that are patient
- 20 centric where autonomy is a focus, the current
- 21 strategies risk making crucial medications like
- 22 this inaccessible and it undermines Medicare's
- 23 protections and all the 340B programs benefits.
- So I appreciate the conversations, and
- 25 it really does call for a broader stakeholder

- 1 know how your mind goes whatever. Thank you for
- 2 this opportunity.
- 3 CALLIE ANN SHELTON: Thank you,
- 4 Michael. Scott Bertani.
- 5 SCOTT BERTANI: Hey, thank you again.
- 6 Hey, I am Scott Bertani and the director of
- 7 advocacy for Health HIV. I'm the lead for the
- 8 National Coalition for LGBTQ Health, and a former
- 9 DG patient myself. And I mention the latter
- 10 because I'm so glad that Dr. Mark Thrun was on
- 11 there; in fact, he was my prescribing doc back in
- 12 the day. And I can't ever remember him saying to
- 13 my NP, Scott, oh yeah, switch his meds to meet my
- 14 cost profile needs. It's just a communicable
- 15 disease. Ignore that there are statutes on the
- 16 doctors too. Shared clinical decision making
- 17 just isn't that important.
- 18 So from that place, you know, facing
- 19 challenges long before current protections, we've
- 20 navigated the evolving landscape of healthcare
- 21 and particularly in Colorado where HIV treatment
- 22 access remains largely unimpeded by cost. It's
- 23 thanks to vital national public health efforts
- 24 and subsidies and patient programs that erase the
- 25 premiums and the deductibles.

- 1 engagement and a reevaluation of data
- 2 representation so that our healthcare decisions
- 3 align with our needs and there are equitable
- 4 access to treatments. So I appreciate the time,
- 5 thank you.
- 6 CALLIE ANN SHELTON: Thank you, Scott.
- 7 Dr. Mizner, that is everyone who signed up for
- 8 Genvoya comments.
- 9 CHAIR GAIL MIZNER: Great. Thank you
- 10 all. Are Board members comfortable moving
- 11 forward with determining whether Genvoya is
- 12 unaffordable with the information presented?
- 13 BOARDMEMBER CATHERINE HARSHBARGER:
- 14 Yes.
- 15 BOARDMEMBER AMY GUTIERREZ: Yes.
- 16 BOARDMEMBER JAMES JUSTIN VANDENBERG: I
- 17 am.
- 18 CHAIR GAIL MIZNER: Good. If there's
- 19 no further deliberation and having considered the
- 20 evidence before us relating to each affordability
- 21 review component, do I have a motion regarding a
- 22 vote on unaffordability of Genvoya?
- 23 BOARDMEMBER AMY GUTIERREZ: I'll make a
- 24 motion. The use of Genvoya consistent with the
- 25 labeling approved by the FDA or with standard

Page 161

	T
1 medical practice is not unaffordable for Colorado	1 present kind of these final draft affordability
2 consumers.	2 reviews taking into account changes and a summary
3 BOARDMEMBER JAMES JUSTIN VANDENBERG:	3 of your deliberations today and the vote, so for
4 Justin VandenBerg, I second that.	4 each of the drugs, there will be that.
5 CHAIR GAIL MIZNER: Thank you. Dr.	5 For Enbrel, you all will also be taking
6 Guttierez moved and Dr. VandenBerg seconded that	6 a vote on Friday on whether or not you would like
7 the use of Genvoya consistent with the labeling	7 to initiate the rulemaking process for
8 approved by the FDA or with standard medical	8 establishing an upper payment limit, so that is a
9 practice is not unaffordable for Colorado	9 decision that is before you next Friday. And
10 consumers.	10 then we will also come with a proposed timeline
I am going to call for a roll call vote	11 for what that could look should you all choose to
12 again. Callie, would you please call the names.	12 move forward with that.
13 CALLIE ANN SHELTON: Of course. Dr.	13 BOARDMEMBER CATHERINE HARSHBARGER
14 Amy Gutierrez.	14 Lila, I will be as I mentioned to you I think
15 BOARDMEMBER AMY GUTIERREZ: Yes.	15 before, I will be out of state and I was going to
16 CALLIE ANN SHELTON: Cathy Harshbarger.	16 attend via Zoom like we do anyway. I will do my
17 BOARDMEMBER CATHERINE HARSHBARGER:	17 very best to be there at that time. I'll let you
18 Yes.	18 know if I have any problems with it, okay?
19 CALLIE ANN SHELTON: Dr. Gail Mizner.	19 LILA CUMMINGS: Okay, we'll follow up.
20 CHAIR GAIL MIZNER: Yes.	20 Thank you.
21 CALLIE ANN SHELTON: And Dr. Justin	21 BOARDMEMBER CATHERINE HARSHBARGER
22 VandenBerg.	22 Thank you.
23 BOARDMEMBER JAMES JUSTIN VANDENBERG:	23 LILA CUMMINGS: Okay. So now we'll
24 Yes.	24 turn it over to general public comment.
25 CHAIR GAIL MIZNER: Thank you. Lila,	25 CALLIE ANN SHELTON: A few folks signed
Page 162	Page 164

16 CHAIR GAIL MIZNER: So I want to second	16 small group meetings that have happened with
17 that.	17 scientific and medical experts. At this time,
18 LILA CUMMINGS: And just something I	18 the current draft affordability review reports do
19 want to and I'll give my kind of closing	19 not include links to recordings of staff meetings
20 comments about timing, and then we'll turn it	20 with scientific and medical experts, and the
21 over to public comment.	21 draft reports also do not include a list of
22 So the next Board meeting will be next	22 scientific and medical experts with
23 Friday, February 23rd, from 10:00 to 11:00 a.m.	23 (indiscernible).
24 is what is scheduled, and there will be kind of a	24 What is going to be publicly shared
25 couple of actions that could take place. We will	25 about those meetings, which inform the
Page 163	

- 1 affordability review reports. We think these
- 2 meetings should be made visible to the public, so
- 3 I hope that we can get more insight into that
- 4 soon. Thank you.
- 5 CALLIE ANN SHELTON: Thank you. Mannat
- 6 Singh. Mannat, are you still here?
- 7 MANNAT SINGH: Hello. Sorry, my
- 8 microphone was being a little glitchy. Thank
- 9 you.
- 10 My name is Mannat Singh, and I am the
- 11 executive director of the Colorado Consumer
- 12 Health Initiative. I use she/her pronouns. As a
- 13 consumer advocacy organization, it's CCHI's
- 14 priority to make sure that Coloradans can access
- 15 the prescription drugs that they need.
- 16 The findings today illustrate that the
- 17 Board's work is very useful and very necessary.
- 18 We appreciate the Board's care in discussing the
- 19 complex and nuanced nature of access to Genvoya
- 20 in Colorado at this time.
- We're also encouraged by the
- 22 designation of Enbrel as unaffordable,
- 23 particularly the acknowledgement of racial health
- 24 disparities in discussing affordability. We hope
- 25 to see an upper payment limit process initiated

- 1 meetings so that those considerations raised in
- 2 public comment or questions, like some of those
- 3 that had been asked this afternoon, can be
- 4 deliberated or discussed by the Board at the
- 5 meeting.
- 6 We'd also like to ask that the Board
- 7 include a comment period at every meeting,
- 8 including their shorter meetings to finalize the
- 9 affordability reviews. At the meeting on 12/15,
- 10 the Board did not have public comment and under
- 11 PDAB's policies and procedures, the Board has
- 12 said that they'll provide an opportunity for
- 13 public comment at every meeting. It is really
- 14 one of the few ways I think that we've seen the
- 15 impact that stakeholders can really communicate
- 16 directly with the Board in real time and provide
- 17 input on deliberations. And so, we would greatly
- 18 appreciate your consideration of those two
- 19 suggestions.
- Thank you very much and have a great
- 21 weekend.
- 22 CALLIE ANN SHELTON: Thank you,
- 23 Katelin. And we have one more, Bridget Serrett.
- 24 BRIDGET SERRETT: Hello. First, I want
- 25 to thank you guys for all the work that you are

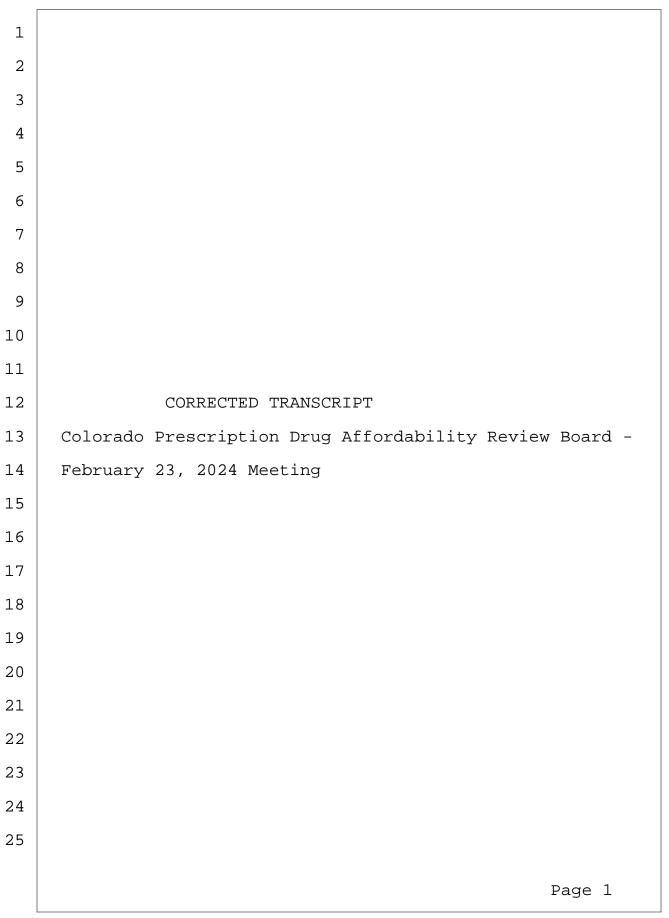

Page 168

- 1 for Enbrel so that patients can get the financial
- 2 relief that they deserve from this high-cost
- 3 drug.
- 4 Upper payment limits are the only tool
- 5 that Colorado has to address the root causes of
- 6 the high cost of prescription drugs. PDAB is a
- 7 really important opportunity to make meaningful
- 8 policy choices that promote health over profit.
- 9 CCHI remains optimistic about the Board's
- 10 potential to create long-overdue accountability
- 11 as one overall goal, to increase access to the
- 12 highest (sound drops) drugs in our state. Thank 13 you.
- 14 CALLIE ANN SHELTON: Thank you. And 15 lastly, Katelin Lucariello.
- 16 KATELIN LUCARIELLO: Good afternoon,
- 17 now evening, everyone. This is Katelin
- 18 Lucariello, deputy vice president of state policy
- 19 with pharma. First of all, thank you, of course,
- 20 for the opportunity to provide public comment.
- 21 We really appreciate that at this meeting, you've
- 22 made time for public comment following
- 23 deliberations and before votes on affordability.
- We'd like to ask that the general
- 25 comment period be moved to the beginning of your Page 167

- 1 putting into this. I definitely would not want 2 to be in your situation right now because I know
- 3 it's a very difficult task to balance
- 4 affordability and everything that's coming at
- 5 you.
- 6 First, I want to address maybe some
- 7 problems or some issues that I see with the
- 8 process. For instance, the upper payment limit
- 9 doesn't necessarily describe what this is. The
- 10 PDAB bill was sold and I quote, "This bill is
- 11 projected to save Coloradans up to 75 percent on
- 12 the most unaffordable drugs and will pave the way
- 13 for a more equitable healthcare system that
- 14 prioritizes the wellbeing of patients over
- 15 profits for the pharmaceutical industry."
- But the more that I am involved with
- 17 this process, I realize that upper payment limits
- 18 are reimbursement caps. We have not changed what
- 19 the manufacturer can charge for the medication,
- 20 and so that means our specialty pharmacies may
- 21 not be able to stock it if they can't get
- 22 reimbursed for what it costs for them to get it
- 23 and stock it.
- So this bill seems to be geared towards
- 25 shifting the process, rather than giving them

1 back to actual Coloradans, and I feel like	1	CERTIFICATION	
2 insurance companies and pharmacy benefit managers	2		
3 are going to be the biggest winners in this and		ya Ledanski Hyde, certify that the	
4 that is concerning.		ing transcript is a true and accurate	
5 I do want to also bring awareness to		of the proceedings.	
6 the transparency of this. The process is	6	WDW 4 2024	
7 incredibly rushed, and, while I absolutely		JUNE 1, 2024	
8 appreciate you guys reopening the surveys for	7		
9 Enbrel, we weren't given very much notice. And	8 9		
10 we had two and a half you know, we had four or	10		
11 five days to kind of rally everybody in only two	11	Sonya M. dedarki Hyd-	
12 and a half weeks for the surveys to be open, and	11	Sonya Ledanski Hyde	
13 that ultimately is not a long period of time,	12	Bonya Zedanski Tiyac	
14 especially when you're dealing with medically	13		
15 complex community members and this was over a	14		
16 holiday, which made it even more difficult to	15		
17 find people to take part in this.	16		
18 The data collection, the surveys don't	17		
19 actually prompt the patients to they answer	18		
20 questions about affordability and the value of	19		
21 the medication, but it doesn't ask about did you	20		
22 have less hospitalizations, were you able to work	21		
23 more, were you able to get off disability.	22		
24 LILA CUMMINGS: Bridget, I apologize.	23 24		
25 We're at the limit on the time.	25		
Page 170	23		Page 172
1 BRIDGET SERRETT: Oh, okay. Well,			
2 thank you very much. You guys have a good			
3 weekend.			
4 CALLIE ANN SHELTON: Thank you,			
5 Bridget.			
6 CHAIR GAIL MIZNER: Okay. I want to			
7 thank everyone for their participation today,			
8 staff, my fellow Board members, members of the			
9 public, experts. It's been quite an afternoon.			
The next PDAB meeting will be held at			
11 10:00 a.m. next Friday, February 23rd. And so,			
12 unless there is any objection, the meeting is now			
13 adjourned. Thank you all very much.			
14 LILA CUMMINGS: Thank you, Board			
15 members, and thank you to members of the public.			
16 BOARDMEMBER CATHERINE HARSHBARGER			
17 Thank you everyone.			
18 CALLIE ANN SHELTON: Lila, you cool if			
19 I end it?			
20 LILA CUMMINGS: Yup. Thank you.			
21			
22			
23

Page 171			

## **EXHIBIT B**

- 1 BOARD STAFF LILA CUMMINGS: I'm going
- 2 to shoot the other Board members a message just
- 3 to see if they're having any tech troubles. One
- 4 moment.
- 5 All right. Just heard from Dr. Diab.
- 6 He should be able to get in soon. He's having
- 7 some tech issues with his work computer, and then
- 8 still working on Ms. Harshbarger. So, Dr. Diab
- 9 should be here soon.
- 10 BOARDMEMBER DR. SAMI DIAB: Sorry I am
- 11 late.
- 12 BOARD STAFF LILA CUMMINGS: Thanks for
- 13 joining, Doctor.
- 14 CHAIR GAIL MIZNER: Lila, do you want -
- 15 should we wait for Ms. Harshbarger? Are we...
- 16 BOARD STAFF LILA CUMMINGS: I think we
- 17 can go ahead.
- 18 CHAIR GAIL MIZNER: I haven't heard
- 19 back from her.
- 20 BOARD STAFF LILA CUMMINGS: I think we
- 21 might want to -- I'll keep reaching out to her.
- 22 We could go out of order on the agenda if we want
- 23 to try and see if we can get her. Let me keep
- 24 calling. I'll give her a call again.
- 25 CHAIR GAIL MIZNER: Okay.

- 1 little early on some of the things where there's
- 2 a conflict, so we can work on that.
- 3 BOARDMEMBER DR. SAMI DIAB: Sounds
- 4 good. Thank you.
- 5 BOARD STAFF LILA CUMMINGS: So, we
- 6 will, I think what we can do is, we'll start out
- 7 with the, actually, last agenda item. So, we'll
- 8 do the Ad Hoc Work Group Meeting for General
- 9 Assembly Report, so we can give some background
- 10 on that and talk about a Board staff suggestion.
- 11 And then, kind of be going reverse order and talk
- 12 about the Cosentyx and Stelara and then, but back
- 13 go Enbrel and Genvoya.
- 14 CHAIR GAIL MIZNER: Okay. So, I'm
- 15 going to call the meeting to order. It is 10:10
- 16 AM. And the February 23, PDAB Meeting is called
- 17 to order. Callie, would you please call the
- 18 roll?
- 19 BOARD STAFF CALLIE ANN SHELTON: Of
- 20 course. Dr. Sami Diab?
- 21 BOARDMEMBER DR. SAMI DIAB: Present.
- 22 BOARD STAFF CALLIE ANN SHELTON: Dr.
- 23 Amy Gutierrez.
- 24 BOARDMEMBER AMY GUTIERREZ: Present.
- 25 BOARD STAFF CALLIE ANN SHELTON: We are

- 1 BOARD STAFF LILA CUMMINGS: So maybe we
- 2 could wait just a moment. And also, there are
- 3 some things on the agenda that could go first, if
- 4 she needs a little bit more time, so let me see
- 5 where she's at. One moment.
- 6 CHAIR GAIL MIZNER: Okay, thanks.
- 7 BOARDMEMBER DR. SAMI DIAB: And Madam
- 8 Chair, I have a patient in the room, so, can I
- 9 just -- I'm going to leave for five minutes.
- 10 I'll be right back.
- 11 CHAIR GAIL MIZNER: Okay. Thank you,
- 12 Sami.
- 13 BOARDMEMBER DR. SAMI DIAB: Madam
- 14 Chair, I am back.
- 15 CHAIR GAIL MIZNER: Great. Thank you.
- 16 Lila, should we proceed, and maybe change the
- 17 order of our agenda? Or do you want to wait a
- 18 few more minutes for Ms. Harshbarger?
- 19 BOARD STAFF LILA CUMMINGS: I was not
- 20 able to get in touch with her. But I might
- 21 propose we go a little out of order on the
- 22 agenda. We can do some of the updates first.
- 23 And then, Dr. Diab, we might be able to get you
- 24 in a situation where you can help, potentially,
- 25 vote where you can, and then you can leave a

- 1 still waiting on Cathy Harshbarger. Dr. Gail
- 2 Mizner?

Page 2

- 3 CHAIR GAIL MIZNER: Present.
- 4 BOARD STAFF CALLIE ANN SHELTON: And
- 5 Dr. Justin Vandenberg?
- 6 BOARDMEMBER JAMES JUSTIN VANDEBERG:
- 7 Here.
- 8 BOARD STAFF CALLIE ANN SHELTON: Thank
- 9 you. Madam Chair, we have a quorum.
- 10 CHAIR GAIL MIZNER: Thank you, Callie.
- 11 Okay, Lila, you want to move first to discuss the
- 12 Ad Hoc Work Group Meeting in preparation for
- 13 General Assembly Report?
- 14 BOARD STAFF LILA CUMMINGS: Yeah,
- 15 absolutely. And so, Sabrina, if you would scroll
- 16 to the end of the PowerPoint. There we go. Go
- 17 back one more. There we go.
- 18 So, it's kind of approaching time for
- 19 the Board's annual General Assembly Report. So,
- 20 you can see here on the screen that your statute
- 21 outline said on or before July 1, 2023, and every
- 22 July 1 thereafter, the Board shall submit a
- 23 report summarizing the activities of the Board
- 24 during the preceding calendar year to the
- 25 Governor, House Health & Insurance Committee, and

Page 5

1 Senate Health & Human Services Committee. And 2 so, this report that is coming out July 1 of this

3 year, will summarize your events from 2023,

4 including any work that you all conducted on

5 affordability reviews and upper payment limits.

We've outlined some potential goals

7 here. And really, on the next slide, we'll talk

8 about, I think, what we've heard from Board

9 members as well as from Advisory Council members,

10 of some extra thought that you might want to put

11 into the report. And it wasn't so much around

12 summarizing your activities; it was, there's a

13 section in the statute that says you all can make

14 policy recommendations.

15 And so, we've put together kind of a 16 potential timeline goal. On the next slide,

17 we'll revisit some of the policy recommendations

18 that you all have brought up in the past, and

19 then just want to open it up to discussion on

20 what Board members think the right cadence is,

21 between now and July 1, for drafting this report.

22 So, the staff proposal here is that

23 sometime, kind of in early April, we could help

24 facilitate an Ad Hoc Meeting, that would include

25 Board members, Advisory Council members; could

Page 6

1 regulatory policy changes to increase the 2 affordability of prescription drugs, and reduce 3 the effects of excess costs on consumers and

4 commercial health insurance premiums in the

5 state.

The Board had brought up some topics 6 7 last year that you said you might want to revisit 8 and continue to think through. So, one of these

9 was the role of group purchasing organizations

10 and the supply chain; research into prescription

11 drug costs and indications that may signal a

12 prescription drug is unaffordable. And then

13 potential ways to better understand topics that

14 are typically hard to know. So, prescription

15 drug challenges for the uninsured, impact of

16 utilization management and prior auth on

17 prescription drug access, and prescription drug

18 manufacture assistance programs, advertisement

19 discovered and utilization information.

20 So, those are some topics from last 21 year. And we anticipate that these work group

22 meetings would focus mainly on this component.

23 Board staff can work to summarize your

24 activities, and absolutely kind of clear that

25 with Board members and make sure we're

Page 8

1 also include members of the public, and a public

2 comment period, to discuss the report contents.

3 I will say we had three members from the Advisory

4 Council volunteer for, if there was an Ad Hoc

5 Work Group created, they volunteered to serve on

6 that. And so, that was -- the Chair, Dr.

7 Kimberly Jackson, Edward Dauer and Nathan Wilkes

8 So those three Advisory Council members

9 volunteered to help support in this discussion.

10 Then, if we have that meeting, Ad Hoc 11 meeting in early April, we could then bring to

12 the Board a kind of final draft, still in draft 13 form, of the report contents for your April 26

14 meeting. And then incorporate any changes you'd

15 like to see for, hopefully, at your June 7

16 meeting, a kind of finalization of the report.

17 And then we could send that off to the General 18 Assembly.

19 So, that's the general timeline that

20 we're looking at. And if we could go to the next

21 slide. So, what we anticipate this report and

22 this Ad Hoc Work Group, would really focus on the

23 space. So, there's space in the report for

24 recommendations the Board may have for the

25 General Assembly, concerning legislative and

1 summarizing it properly. But in our minds, this

2 Ad Hoc Work Group could really focus on drafting

3 these recommendations. And Board staff would

4 work you all as well, before the April 26 and

5 June 7 meetings, where we could bring kind of

6 final recommendations for discussion. And so I

7 think we can go to the next slide.

So, here we, I'd say, first, I would

9 love to hear from Board members on kind of what,

10 any questions about the General Assembly Report?

11 Do you like this idea of an Ad Hoc Work Group?

12 We've got this slide up here, if you'd like us to

13 kind of go that direction, but we'll pause here

14 for conversation.

15 CHAIR GAIL MIZNER: What does everyone

16 think? 17 BOARDMEMBER AMY GUTIERREZ: I think

18 it's a good idea to be able to provide some more

19 directed (indiscernible) on potential areas that

20 we could be looking into, to make sure that our

21 decision is, decisions that we make are as tight

22 as possible. So, I think it's a great idea.

23 BOARDMEMBER DR. SAMI DIAB: Yeah, Sami

24 here. I second that. I think it's really great

25 for discussion-generating ideas, you know, and

Page 9

1 really moving forward. So, I totally support 1 What are your thoughts? 2 that. 2 BOARDMEMBER AMY GUTIERREZ: I'd 3 CHAIR GAIL MIZNER: Justin? 3 volunteer too, but is it going to -- can all of BOARDMEMBER JAMES JUSTIN VANDEBERG: 4 us be on it or (indiscernible)? 5 No, I like that. I think where I'm thinking is, BOARDMEMBER JAMES JUSTIN VANDEBERG: 6 and maybe I'm putting the cart before the horse 6 That's why I was just keeping my mouth shut for a 7 as far as how often are they going to meet? Do 7 second, because I'm like -- see where it went so 8 we have a set number so that it gives them enough 8 that it wasn't, yeah, just turned into a full --9 full blown meeting thing. 9 time to produce a quality report and not just, 10 10 you know, we meet one afternoon and that's it. CHAIR GAIL MIZNER: Right, right. 11 But no, I think it's a great idea to be able to 11 BOARDMEMBER DR. SAMI DIAB: So, you 12 put more time and not thoughtfulness, but I think 12 know, if there's interest, I withdraw my name at 13 that time of being able to, you know, create a 13 this point, if somebody else wants to do it, 14 more robust report on that. I certainly agree. 14 since there's already a physician on it. That's 15 totally fine. 15 CHAIR GAIL MIZNER: I agree too. In 16 CHAIR GAIL MIZNER: Okay. Thank you, 16 fact, I think there may be ideas that arise from 17 board members or from PDAAC members that are not 17 Sami. All right. So, we need to formally 18 even listed by Lila, and that maybe we actually 18 delegate Board members to form an Ad Hoc Work 19 would need more than one meeting to discuss 19 Group to help prepare a draft for the General 20 those, Lila. Maybe we should even aim for the 20 Assembly. Let me -- so, it's sounding like Dr. 21 first meeting of an Ad Hoc Committee in March. 21 Gutierrez and I are the ones who would -- are 22 What do you think about that? 22 most keen on being on this Ad Hoc Group. Do I 23 BOARD STAFF LILA CUMMINGS: We can 23 have a motion to delegate Dr. Gutierrez and 24 build time for that. 24 myself, Dr. Mizner, to form an Ad Hoc Work Group 25 CHAIR GAIL MIZNER: Okay. 25 to help prepare a draft General Assembly Report? Page 10 Page 12 1 BOARD STAFF LILA CUMMINGS: And I'm 1 BOARDMEMBER DR. SAMI DIAB: I so move. 2 also wondering, and we could check with Dr. 2 CHAIR GAIL MIZNER: Thank you. Do I 3 Jackson. There is a PDAAC meeting scheduled for 3 have a second? 4 April 11. So, I'm also wondering if there might BOARDMEMBER JAMES JUSTIN VANDEBERG: 4 5 be some synergy, if we've got a March meeting of 5 Justin Vanderberg, I second. 6 an Ad Hoc work group, if we kind of -- if there's CHAIR GAIL MIZNER: Okay. Thank you. 7 some piggybacking we could do with the Advisory 7 Dr. Diab move and Dr. Vandenberg seconded. All 8 Council meeting. We can look into that. 8 those in favor of forming an Ad Hoc Work Group to CHAIR GAIL MIZNER: Okay. And Lila, do 9 help prepare a draft General Assembly Report, 10 we need to decide now which Board members would 10 raise your hand and say aye. 11 be on the Ad Hoc Committee? 11 BOARDMEMBER DR. SAMI DIAB: Aye. 12 BOARD STAFF LILA CUMMINGS: I think 12 BOARDMEMBER AMY GUTIERREZ: Aye. 13 that would be the hope, is which one of you would 13 BOARDMEMBER JAMES JUSTIN VANDEBERG: 14 like to volunteer to put extra meetings, to be on 14 Aye. 15 the Ad Hoc Committee? 15 BOARD STAFF LILA CUMMINGS: Aye. 16 CHAIR GAIL MIZNER: So it can be only 16 CHAIR GAIL MIZNER: Okay. I think 17 one person? 17 that's unanimous, with the exception of Ms. 18 BOARD STAFF LILA CUMMINGS: No, it can 18 Harshbarger, who's not here. Any opposed, say 19 be multiple. 19 nay. Okay. The motion passes. So, we will be 20 CHAIR GAIL MIZNER: Okay. Okay. 20 forming an Ad Hoc Work Group with some members of BOARDMEMBER DR. SAMI DIAB: Sami here. 21 the PDAAC, and with myself and Dr. Gutierrez as 22 I'm happy to volunteer, but if anybody else wants 22 the Board representatives, to help prepare a 23 to do it or, you know, happy to do that as well. 23 draft General Assembly Report. Great. Lila, CHAIR GAIL MIZNER: I'm also interested 24 where do we want to go next? 25 in being on the Ad Hoc Committee. Justin? Amy? 25 BOARD STAFF LILA CUMMINGS: I think

Page 13

- 1 next we can go Cosentyx and Stelara, though I am,
- 2 I think there might be kind of an emergency that
- 3 has taken Ms. Harbarger away, so we'll talk about
- 4 Cosentyx and Stelara, and then proceed, kind of
- 5 at the top of the agenda. And it looks like Ms.
- 6 Harshbarger might not be able to join.
- 7 So, (indiscernible), if you could go a
- 8 couple of slides -- thank you.
- 9 Okay, and so here, I do know that we
- 10 need the brief, Cosentyx and Stelara, the next
- 11 slide, conflict of interest disclosure.
- 12 CHAIR GAIL MIZNER: Okay, so are there
- 13 any Board members who have a conflict of interest
- 14 with either Cosentyx or Stelara? Should we do a
- 15 roll call on that?
- 16 BOARD STAFF CALLIE ANN SHELTON: Dr.
- 17 Diab?
- 18 BOARDMEMBER DR. SAMI DIAB: I believe I
- 19 have conflicts.
- 20 BOARD STAFF LILA CUMMINGS: And
- 21 actually, counsel, would you be able to help Dr.
- 22 Diab here with, I believe it's just one.
- 23 BOARD STAFF SARA STULTZ: Yes, no
- 24 problem. Dr. Diab, we believe, based on your
- 25 prior disclosures, you have a conflict of

- 1 responses. So, in an effort to gather more input
- 2 from, so two different groups.
- 3 So, first of all, input from
- 4 individuals with scientific and medical training.
- 5 So, staff plan to reopen the surveys for
- 6 individuals with scientific and medical training
- 7 for probably two to three weeks, as well as
- 8 outreach to physicians and pharmacists who are
- 9 actively prescribing and dispensing Cosentyx and
- 10 Stelara, for additional information on the health
- 11 and financial benefits of the drug. So, we'll
- 12 plan on doing that, unless there's any concern.
- 13 And then, for input from patients and caregivers,
- 14 we do plan to reopen the survey for the same
- 15 amount of time as the other surveys, to gather
- 16 additional input.
- 17 BOARDMEMBER AMY GUTIERREZ: Can I ask a
- 18 question? I know, in some of the comments,
- 19 public comments that we got, there was a question
- 20 about conflict of interest with professionals
- 21 that are providing us survey responses. Are we
- 22 planning on having individuals disclose those
- 23 when they do provide us with responses?
- 24 BOARD STAFF LILA CUMMINGS: That's a --
- 25 we can look into that. It's something where, in

Page 16

- 1 interest with Cosentyx. Does that still sound...
- 2 BOARDMEMBER DR. SAMI DIAB: Yeah,
- 3 nothing has changed. Thank you for the help.
- 4 BOARD STAFF SARA STULTZ: No problem.
- 5 BOARD STAFF CALLIE ANN SHELTON: Dr.
- 6 Gutierrez?
- 7 BOARDMEMBER AMY GUTIERREZ: No
- 8 conflicts.
- 9 BOARD STAFF CALLIE ANN SHELTON: Thank
- 10 you. Dr. Mizner?
- 11 CHAIR GAIL MIZNER: No conflicts.
- 12 BOARD STAFF CALLIE ANN SHELTON: And
- 13 Dr. Vandenberg?
- 14 BOARDMEMBER JAMES JUSTIN VANDEBERG: No
- 15 conflicts.
- 16 BOARD STAFF LILA CUMMINGS: All right.
- 17 We can go to the next slide. Okay, so here, and
- 18 we just want to check with you all to see if
- 19 there's any objections. I'm not necessarily
- 20 asking for a formal vote. But we just want to
- 21 see if there were any objections to us as staff,
- $22\,$  gathering additional information for Cosentyx and
- 23 Stelara, in the same way you all directed us to,
- 24 for Genvoya and Enbrel. And this was due to the
- 25 kind of lower survey and stakeholder engagement

- 1 policy documents, we encourage people to
- 2 disclose. But there's not a requirement that
- 3 individuals disclose. And because we haven't
- 4 required that disclosure previously, I think we
- 5 might have some hesitancy to do it now. But
- 6 there is this general, we encourage folks to
- 7 disclose. But that is something we could talk
- 8 about.
- 9 BOARDMEMBER AMY GUTIERREZ: Okay.
- 10 Thank you.
- 11 CHAIR GAIL MIZNER: Yeah, I agree with
- 12 you. Amy, I think that's important to know. And
- 13 you know, this -- what we're doing here is a
- 14 process, and we are trying to constantly improve
- 15 it. So, I would encourage us to require
- 16 disclosure on the part of medical professionals
- 17 about any connection to the manufacturer.
- I also realize that we have gotten some
- 19 public comment and feedback regarding the surveys
- 20 themselves. And I wonder whether we would want
- 21 to -- I know we've had expertise already, in
- 22 developing the surveys, but I wonder whether we
- 23 should take a second look; maybe get an outside
- 24 survey expert, if we can find the funds for that,
- 25 to just review before we send out those surveys,

Page 17

- 1 to make sure that they are as well developed as
- 2 possible, given the feedback that we've gotten.
- 3 I'm not saying the feedback is necessarily
- 4 correct, but I do think we should get somebody
- 5 with real expertise to take a second look at
- 6 that
- 7 BOARD STAFF LILA CUMMINGS: Okay, okay.
- 8 Something we can do -- I think we're just mindful
- 9 of wanting to have the surveys open for a number
- 10 of weeks, with enough time to take the results to
- 11 present. But I think that if we -- we can look
- 12 into both the conflict-of-interest disclosure
- 13 requirement, as well as kind of the -- somebody
- 14 looking at the surveys for potential edits. And
- 15 what we will do is we can get back to you with
- 16 answer on that for your next meeting; which means
- 17 that the surveys would not reopen till after
- 18 March 15. But we can look at that in an effort
- 19 to try and get answers to those questions. And
- 20 then, when you all are ready, we might be able to
- 21 kind of open the immediately after March 15,
- 22 because we want to ensure we can leave the open
- 23 while still having time to interpret the results.
- 24 So, we'll plan on gathering some of that
- 25 information for March 15.

1

- 1 CHAIR GAIL MIZNER: Okay, great. Thank
- 2 you, Sara. So, I would like to move to, that we
- 3 move into executive session to receive legal
- 4 advice on public comments received on Enbrel,
- 5 pursuant to section 24-6-402(3)(a)(III), CRS. Do
- 6 I have a second?
- 7 BOARDMEMBER AMY GUTIERREZ: I'll
- 8 second, thank you.
- 9 CHAIR GAIL MIZNER: Thank you, Dr.
- 10 Gutierrez. So, I, Dr. Mizer moved, and Dr.
- 11 Gutierrez seconded, that we move into executive
- 12 session to receive legal advice on public
- 13 comments received on Enbrel. All those in favor,
- 14 please raise your hand and say aye. Aye.
- 15 BOARDMEMBER AMY GUTIERREZ: Aye.
- 16 BOARDMEMBER JAMES JUSTIN VANDEBERG:
- 17 Aye.
- 18 CHAIR GAIL MIZNER: I think I heard Dr.
- 19 Gutierrez and Dr. Vandenberg. I'm not sure if
- 20 Dr. Diab --
- 21 BOARDMEMBER DR. SAMI DIAB: Aye.
- 22 CHAIR GAIL MIZNER: Okay, thank you.
- 23 The motion passes. The Board will convene in
- 24 executive session. The public is now excused.
- 25 [EXECUTIVE SESSION / NOT RECORDED]

Page 20

- Page 18
- 2 BOARD STAFF LILA CUMMINGS: Any other
- 3 discussion about the surveys or gathering
- 4 additional input? Great. Well, then I think --

CHAIR GAIL MIZNER: Great.

- 5 Chair, I think we can probably move to the top of
- 6 the agenda. It does look like Ms. Harshbarger
- 7 will not be able to join us today.
- 8 CHAIR GAIL MIZNER: Okay. That's too
- 9 bad. All right. Before we vote on the final
- 10 versions of the affordability review reports for
- 11 Enbrel and Genvoya -- actually, should we -- I
- 12 know there's some -- I would like to hold an
- 13 executive session for legal advice on public
- 14 comments that we've received on Enbrel. Do we,
- 15 should we do this conflicts of interest first, or
- 16 should we go straight into voting about whether
- 17 to do an executive session?
- 18 BOARD STAFF LILA CUMMINGS: Sara?
- 19 BOARD STAFF SARA STULTZ: Sure. We
- 20 should just go ahead and do the conflicts, and
- 21 then we can do executive session. Again, Dr.
- 22 Diab can still vote us into executive session,
- 23 but if he has a conflict with one of the drugs,
- 24 Enbrel, then he won't be able to go into the
- 25 session with us.

- 1 CHAIR GAIL MIZNER: Okay, the Board has
- 2 adjourned its executive session. The Board
- 3 received legal advice regarding public comments
- 4 received relating to Enbrel. The Board conducted
- 5 no formal business within the meeting.
- 6 And so, let's go back up our agenda.
- 7 So, next on the agenda would be to adopt the
- 8 affordability review report for Enbrel. Before
- 9 we vote, I'd like to note that all Board members
- 10 were present at the February 16 meeting, when the
- 11 Board voted that use of Enbrel is unaffordable
- 12 for Colorado consumers. To ensure that all Board
- 13 members have had the opportunity to review the
- 14 summary of deliberations and changes made by
- 15 staff from the draft report, I'd like to ask if
- 16 any Board member has objections to moving forward
- 17 with approval of the final report? None. Okay.
- 18 Do I have a motion to adopt the final
- 19 Affordability Review Report for Enbrel, with the
- 20 changes as discussed?
- 21 BOARDMEMBER AMY GUTIERREZ: So moved.
- 22 BOARDMEMBER JAMES JUSTIN VANDEBERG:
- 23 This is Justin Vanderberg. I second.
- 24 CHAIR GAIL MIZNER: Thank you. Dr.
- 25 Gutierrez moved and Dr. Vandenberg seconded. All

- 1 those in favor of adopting the final
- 2 Affordability Review Report for Enbrel raise your
- 3 hand and say aye.
- BOARDMEMBER AMY GUTIERREZ: Aye. 4
- 5 CHAIR GAIL MIZNER: Aye.
- BOARDMEMBER JAMES JUSTIN VANDEBERG: 6
- 7 Aye.
- 8 CHAIR GAIL MIZNER: That was the three
- 9 of us. All opposed say nay. The motion passes.
- 10 Staff, please publish a clean version of the
- 11 report.
- 12 We will now take public comment
- 13 regarding whether to select Enbrel for
- 14 establishment of an Upper Payment Limit. Callie
- 15 will put the sign-up form in the chat. We will
- 16 take comments from 10 people today. And each
- 17 speaker will be given two minutes to speak, only
- 18 two minutes please. So, say exactly what you
- 19 need to say.

1

- 20 As a reminder, this period of public
- 21 comment is limited only to comments related to
- 22 whether Enbrel should be selected for
- 23 establishment of (indiscernible). Okay, Callie,
- 24 I'm going to let you call the roll. Or I mean,
- 25 open the public discussion.

- 1 reports. I have approximately 40 pages
- 2 identifying flaws in the survey and listening
- 3 session question design. And we do appreciate
- 4 that that has been recognized. We did, some of
- 5 the highlights of that is during the
- 6 affordability deliberation that the Board did
- 7 view total numbers of the respondents of the 38;
- 8 actually 50 percent were on Medicare and
- 9 Medicaid, which significantly impacted the
- 10 results, because they were all analyzed together.
- 11 I wanted to mention that nine of the 17, the 53
- 12 respondents who reported that zero of 50 of out
- 13 of pocket was too expensive for Enbrel.
- 14 I want to make sure that it's clear
- 15 that as far as the UPL, that it is known that the
- 16 Colorado PDAB Upper Payment Limit Policy and
- 17 Procedures, document section 10-16-1407 CRS,
- 18 states that Medicare and Medicare programs are
- 19 not subject to the policies of the Board,
- 20 including a policy applying a UPL limit.
- 21 Therefore, half of the data that was analyzed is
- 22 being used to date to judge for that.
- 23 AiArthritis urgers the Board to vote
- 24 against a UPL for Enbrel. We believe a
- 25 restriction will only benefit payers and will not

Page 24

Page 22

- 2 Callie does that, I just want to check. I know
- 3 we're approaching time, and I assume that Board
- 4 members are okay if we run a little bit long, to
- 5 allow for public comment in the remainder of your
- 6 potential votes. Okay. Thank you. Okay, back
- 7 to you, Callie.
- BOARD STAFF CALLIE ANN SHELTON: First

BOARD STAFF LILA CUMMINGS: Before

- 9 up we have Tiffany Westrich-Robertson.
- TIFFANY WESTRICH-ROBERTSON: Hi. Can I
- 11 go ahead and start?
- 12 BOARD STAFF CALLIE ANN SHELTON:
- 13 Please.
- TIFFANY WESTRICH-ROBERTSON: Okay.
- 15 First of all, I just want to thank the Board and
- 16 Callie and Lila, for this opportunity to give
- 17 public comment. My name is Tiffany Westrich-
- 18 Robertson. I am a patient living with autoimmune
- 19 arthritis disease, and a person who couldn't use
- 20 Enbrel. I'm also with the International
- 21 Foundation for Autoimmune & Autoinflammatory
- 22 Arthritis, or AiArthritis, representing the
- 23 3,400-plus patients in Colorado using Enbrel.
- I just wanted to first mention that we
- 25 are the organization that submitted several

- 1 address any of the affordability expressed by
- 2 patients in Colorado. For those who Enbrel works
- 3 for, they should not lose access to it. For
- 4 those who are responding, it should be up to the
- 5 patient and their rheumatologist to decide to
- 6 switch or not to switch to a drug.
- Again, I wanted to thank you for this
- 8 opportunity, and in knowing that information
- 9 needs to render the unaffordability decision is
- 10 incorrect, or at least potentially incorrect,
- 11 moving forward, voting in favor of our UPL would
- 12 be premature.
- 13 Finally, I want to give public kudos to
- 14 Callie and Lila who have been absolutely amazing
- 15 in this process. Thank you.
- BOARD STAFF CALLIE ANN SHELTON: Thank 16
- 17 you, Tiffany. Brett Johnson, please.
- 18 BRETT JOHSNON: Thank you. Can you see
- 19 and hear me?
- 20 BOARD STAFF CALLIE ANN SHELTON: We
- 21 can, Brett.

Page 23

Veritext Legal Solutions

- BRETT JOHNSON: Okay. Yes, Brett
- 23 Johnson with Amgen. And I'm here to say that
- 24 we're here to urge your no vote on proceeding
- 25 with the UPL. Considering the very real

Page 25

7 (Pages 22 - 25)

- 1 potential consequences to patients and providers
- 2 who are concerned with the notion that you must
- 3 vote to pursue an Upper Payment Limit, in order
- 4 for us to understand what that might actually
- 5 look like in Colorado. For instance, there's
- 6 been discussion of methodology on how a UPL will
- 7 be developed, and no discussion of the scope of
- 8 application to the supply chain, among many other
- 9 fundamental aspects of a UPL policy. We should
- 10 have answers to these fundamental questions
- 11 before voting to move forward on such a policy.
- 12 Again, the prospect of not doing so could be very
- 13 real unintended consequences for patients and
- 14 provides in Colorado. And this is not just a
- 15 concern for Amgen. These concerns have been
- 16 shared by others in the patient and provider
- 17 communities.
- Based on what little we do know about
- 19 the intent for a UPL, we fail to see how this
- 20 will actually improve out-of-pocket affordability
- 21 for patients. And the focus really should be
- 22 about what patients are paying out of pocket.
- 23 For instance, we know those that pointed out and
- 24 submitted comments that substantial issues with
- 25 the patient survey process and the instrument

1 BOARD STAFF CALLIE ANN SHELTON: We're

- 2 at two minutes. Apologies.
  - BRETT JOHNSON: Okay. And we believe
- 4 that process starts here with a no vote. Thank
- 5 you.

6

- BOARD STAFF CALLIE ANN SHELTON: Thank
- 7 you, Brett. Corey Greenblatt.
- 8 COREY GREENBLATT: Hello everyone. Can
- 9 you hear me and see me today?
- 10 BOARD STAFF CALLIE ANN SHELTON: We
- 11 can, Corey, go on.
- 12 COREY GREENBLATT: Great. Hello. My
- 13 name is Corey Greenblatt. I'm speaking on behalf
- 14 of, today, of the Global Healthy Living
- 15 Foundation. We're a nonprofit patient
- 16 organization advocating for patients with chronic
- 17 pain and autoimmune disease. Many in our
- 18 community rely on medications like Enbrel and are
- 19 very worried that the decision to move forward
- 20 with UPL today will risk their access to the
- 21 medication that they rely on to live their lives
- 22 as pain free as possible.
- 23 I'd like to start today by simply
- 24 asking this Board to take a pause before making
- 25 any further determinations. As you debate

Page 28

- 1 itself, and the cost-sharing figures discussed by
- 2 the Board, and in the report, did not account for
- 3 assistance being provided to patients to reduce
- 4 out-of-pocket cost. As we've noted previously,
- 5 every eligible Coloradan, nearly 2,000 of whom
- 6 applied for copay card assistance last year were
- 7 approved. And more broadly, the Amgen Patient
- 8 Safety Net Foundation provided \$2.5 billion in 9 medicines last year, to the uninsured and those
- 10 experiencing Part D affordability gaps; for
- 11 roughly two-thirds of Enbrel prescriptions to
- 12 those with commercial coverage, including those
- 13 for whom a co-pay card was used, patients
- 14 ultimately paid \$10 or less per month, and only
- 15 14 percent of those prescriptions cost more than
- 16 \$100 per month.
- 17 Patients, instead, need reforms that
- 18 help lower the price patients pay for medicines,
- 19 such as making monthly costs more predictable,
- 20 ensuring cost-sharing assistance is applied to a
- 21 plan's out-of-pocket spending requirements, and
- 22 sharing the negotiated savings on medicines with
- 23 patients at the pharmacy counter. We're here to
- 24 help you and other policymakers work through what
- 25 these reforms might look like.
- Page 27

Page 26

- 1 whether to add an Upper Payment Limit to Enbrel,
- 2 I'd like to remind you that your stated purpose,
- 3 and the stated purpose of this Board, is to
- 4 reduce the cost of prescription medications. We
- 5 live in a world where there are many different
- 6 costs related to the medication, but to us as a
- 7 patient group, we believe the one that matters
- 8 most is the price that the patient pays. And in
- 9 this regard, Upper Payment Limits do nothing to
- 10 reduce the out-of-pocket costs for patients. In
- 11 fact, the term 'Upper Payment Limit,' is one of
- 12 many misnomers in healthcare, that sound
- 13 beneficial, but in reality, could really harm
- 14 patients. In practice, these limits often act as
- 15 a reimbursement cap. These caps will likely be
- 16 significantly lower than the list price and will
- 17 result in local pharmacies either stocking this
- 18 medication at a loss, or not stocking it at all,
- 19 which will drive patients to rely on national
- 20 specialty pharmacies, many of which are owned by
- 21 the insurance companies that use them, due to
- 22 vertical integration, which will further reduce
- 23 accessibility for patients.
- While there may be many other
- 25 medications that treat patients, similar to

- 1 Enbrel, it is not as easy for patients to switch
- 2 between biologics, as it is to simply switch
- 3 between a brand and a generic. Patients spend,
- 4 on average, over a year, to find a medication
- 5 that works for them. And if they suddenly lose
- 6 access to that medication, it could lead to a
- 7 windfall of unforeseen costs due to worsening
- 8 health.
- 9 Short of outright voting no today, I am
- 10 again asking this Board to take a pause and
- 11 evaluate what the impact on accessibility will be
- 12 on patients, should you continue to press
- 13 forward. Thank you for the opportunity to
- 14 comment today and have a good day.
- 15 BOARD STAFF CALLIE ANN SHELTON: Thank
- 16 you, Corey. Brian Warren?
- 17 BRIAN WARREN: Hi. Good morning, Board
- 18 members. Brian Warren with the Biotechnology
- 19 Innovation Organization. I would like to
- 20 reiterate our concern that rather than improving
- 21 access to medicines for patients, implementation
- 22 of an Upper Payment Limit will not save money,
- 23 most patients money, and it will create supply
- 24 chain problems that could impact all patients
- 25 needing medicine, subject to the UPL. The UPL

- 1 determined a medicine to be unaffordable, the UPL
- 2 is not the right tool at this time, because we
- 3 still do not really know how it will be
- 4 implemented, or how to prevent unintended
- 5 consequences on patient access. Thank you.
- 6 BOARD STAFF CALLIE ANN SHELTON: Thank
- 7 you, Brian. Emily Zadvorny.
- 8 EMILY ZADVORNY: Hi everyone. Thank
- 9 you for the opportunity to weigh in. Thanks to
- 10 the Board. I'm not here today to comment on
- 11 whether or not there should be an Upper Payment
- 12 Limit consideration for Enbrel specifically, but
- 13 just echoing some of the concerns that we have to
- 14 the Board for many years now. And I reference a
- 15 letter sent to the Board in January of '23. As
- 16 pharmacists, of course, we want nothing more than
- 17 patients to have access to their medications, and
- $18\,$  as affordably as they can. But I do implore you
- 19 to consider all the aspects of operationalizing
- 20 any drug that you might consider selecting for an
- 21 Upper Payment Limit. We don't need to look much
- 22 further than what's going on with EpiPens right
- 23 now, where, you know, the pharmacies are faced
- 24 with either losing money or not providing access
- 25 to a drug, and it's a real problem that we're

Page 32

- 1 will not improve affordability because it will
- 2 not change the most important factor in
- 3 determining what patients pay; their cost-sharing
- 4 as determined by insurance benefit design.
- 5 Instead, a UPL would likely have the biggest
- 6 impact on the first in-state purchaser of a drug.
- 7 In most cases, this would be a Colorado hospital, 8 clinic, or pharmacy, purchasing from a national
- 9 distributor or wholesaler. These entities would
- 10 be prohibited from paying more than UPL for their
- 11 product, even if their product is not available
- 11 product, even if their product is not
- 12 at that price.
- We've seen what happens when, for
- 14 example, pharmacies are required to purchase
- 15 drugs subject to a maximum allowable cost, which
- 16 is a maximum reimbursement amount. And
- 17 oftentimes, providers lose money as a result.
- 18 The UPL would theoretically function somewhat
- 19 similarly, and it would have the force of law.
- We know you did not design the law you
- 21 are tasked with implementing, or the concept of a
- 22 UPL. And perhaps you believe that other actions
- 23 could be taken that would have a more significant
- 24 impact on patient affordability. Now is your
- 25 opportunity to say, that even though you have

- 1 seeing actually happening right now in our state.
- 2 So, we simply just can't have a
- 3 situation that puts our frontline providers, as
- 4 pharmacists, or the pharmacies, at a disadvantage
- 5 financially, where they have to lose money or,
- 6 potentially, not have the financial support to
- 7 provide access to these medications.
- 8 Thank you so much for letting me be the
- 9 broken record on the record. Thanks so much.
- 10 BOARD STAFF CALLIE ANN SHELTON: Thank
- 11 you, Emily. Hope Stonner.
- 12 HOPE STONNER: Hi. My name is Hope
- 13 Stonner. I'm with the Colorado Consumer Health
- 14 Initiative, appreciate this opportunity for
- 15 public comment today. I would just like to say
- 16 that the Colorado Consumer Health Initiative,
- 17 which works to protect and promote access to
- 18 affordable and equitable healthcare in the state,
- 19 believes that the comprehensive process of the
- 20 affordability review, and the process outlined in
- 21 the statute for the UPL, has appropriate
- 22 guardrails in place to protect patient access,
- 23 because we believe, overall, that the goal of the
- 24 PDAB is to encourage access to drugs in the 25 state, that we know that folks may be struggling

Page 33

1 to, or cannot access at this time.	1 and discussion. So, that's kind of the that
2 We believe that the UPL process can	2 plan that's been outlined that I think is wise,
3 work alongside other policies that folks have	3 that we would not proceed rapidly.
4 called out in public comment, that are already	4 BOARDMEMBER AMY GUTIERREZ: Thanks
5 being implemented in the state, to meaningfully	5 Gail, for that clarification. Do you need a
6 lower drug costs for patients in the system. And	6 motion?
7 due to Enbrel's high cost to the to the	7 CHAIR GAIL MIZNER: Yes, I do, unless
8 healthcare system, particularly when the report	8 there's further deliberation.
9 stated that the drug remains out of reach or is	9 BOARDMEMBER JAMES JUSTIN VANDEBERG:
10 unaffordable for so many Coloradans, we believe	10 No, I think that clarification that you had set
11 that Enbrel is a perfect example of the need for	11 up was, I think, a good reminder as far as the
12 a PDAB in the first place, and an appropriate	12 process for, you know, everyone in the meeting.
13 candidate for a UPL. Thank you.	13 I'm good to let the motion to approve, to work on
14 BOARD STAFF CALLIE ANN SHELTON: Thank	14 establishing a Upper Payment Limit for Enbrel.
15 you, Hope. And I'll put the form in the chat,	15 CHAIR GAIL MIZNER: Okay.
16 and this is the last call for public comment.	16 BOARDMEMBER AMY GUTIERREZ: I'll second
17 Madam Chair, I'm not seeing any more public	17 the motion, Chair Mizner.
18 comments.	18 CHAIR GAIL MIZNER: Thank you. So, Dr.
19 CHAIR GAIL MIZNER: Okay, thank you,	19 Vandenberg moved and Dr. Gutierrez seconded. All
20 Callie. And thank you to everyone who gave us	20 those in favor of selecting Enbrel for
21 public comment, both written and the recent	21 establishment of an upper payment limit, raise
22 couple of comments you just gave. Is there any	22 your hand and say aye.
23 deliberation on the part of the Board on whether	23 BOARDMEMBER AMY GUTIERREZ: Aye.
24 to select Enbrel for establishment of an Upper	24 CHAIR GAIL MIZNER: Aye.
25 Payment Limit?	25 BOARDMEMBER JAMES JUSTIN VANDEBERG:
Page 34	Page 36
1 BOARDMEMBER AMY GUTIERREZ: Can I ask	1 Ave.
	1 Aye. 2 CHAIR GAIL MIZNER: That's the three of

I think the other thing to keep in mind 22 that has been outlined by staff is that we're 23 looking, we're not looking at making a decision 24 about a UPL in a month. We're looking at	2 CHAIR GAIL MIZNER: That's the three of 3 us. Opposed, say nay. The motion passes. As a 4 reminder, the Board establishes UPLs through a 5 rulemaking proceeding. Our vote today to 6 establish a UPL for Enbrel, initiates a 7 rulemaking process that will involve multiple 8 public hearings. Do I have a motion to direct 9 staff to initiate rulemaking, to establish a UPL 10 for Enbrel, with the Secretary of State, so that 11 we can hold our first rulemaking hearing at a 12 future meeting that accommodates the Board's 13 overall schedule? 14 BOARDMEMBER AMY GUTIERREZ: I move that 15 we direct staff to initiate rulemaking to 16 establish an Upper Payment Limit for Enbrel, with 17 the Secretary of State, so that we can hold our 18 first rulemaking hearing at a future meeting that 19 accommodates the Board's overall schedule. 20 BOARDMEMBER JAMES JUSTIN VANDEBERG: 21 This is Justin Vandenberg, I second. 22 CHAIR GAIL MIZNER: Thank you. Dr. 23 Gutierrez moved, and Dr. Vandenberg seconded. 24 All those in favor of directing staff to initiate
2 for a clarification? Because I thought we 3 already selected Enbrel. What is the action that 4 we're doing? 5 CHAIR GAIL MIZNER: We already 6 determined that Enbrel was unaffordable for 7 Coloradans. 8 BOARDMEMBER AMY GUTIERREZ: Got it. 9 Okay. 10 CHAIR GAIL MIZNER: Now what's before 11 us is whether, is to determine whether to 12 initiate the process of setting an Upper Payment 13 Limit for Enbrel. And I think I'd like to remind 14 the Board and the public that a vote to initiate 15 the UPL process, does not mean that we are bound 16 to complete the Upper Payment Limit process. So, 17 we could, at any point, if we, if the data 18 presented to us indicated to us that it wasn't 19 appropriate, to move forward with setting a UPL, 20 we could stop the process at any point in the 21 future. I think the other thing to keep in mind 22 that has been outlined by staff is that we're 23 looking, we're not looking at making a decision	2 CHAIR GAIL MIZNER: That's the three of 3 us. Opposed, say nay. The motion passes. As a 4 reminder, the Board establishes UPLs through a 5 rulemaking proceeding. Our vote today to 6 establish a UPL for Enbrel, initiates a 7 rulemaking process that will involve multiple 8 public hearings. Do I have a motion to direct 9 staff to initiate rulemaking, to establish a UPL 10 for Enbrel, with the Secretary of State, so that 11 we can hold our first rulemaking hearing at a 12 future meeting that accommodates the Board's 13 overall schedule? 14 BOARDMEMBER AMY GUTIERREZ: I move that 15 we direct staff to initiate rulemaking to 16 establish an Upper Payment Limit for Enbrel, with 17 the Secretary of State, so that we can hold our 18 first rulemaking hearing at a future meeting that 19 accommodates the Board's overall schedule. 20 BOARDMEMBER JAMES JUSTIN VANDEBERG: 21 This is Justin Vandenberg, I second. 22 CHAIR GAIL MIZNER: Thank you. Dr. 23 Gutierrez moved, and Dr. Vandenberg seconded.

1 Secretary of State, so that we can hold our first 1 round's affordability review process for Genvoya. 2 rulemaking hearing at a future meeting that 2 Staff, please publish a clean version of the 3 accommodates the Board's overall schedule, raise 3 report. Lila, did you want to now go through a 4 your hand and say aye. 4 UPL rulemaking timeline with us? BOARD STAFF LILA CUMMINGS: Yes. Yeah, 5 BOARDMEMBER AMY GUTIERREZ: Aye. 6 BOARDMEMBER JAMES JUSTIN VANDEBERG: 6 absolutely. We can go to the next slide. So, 7 Aye. 7 here is what we are going to propose and how 8 CHAIR GAIL MIZNER: Aye. The motion 8 we'll propose to proceed unless we hear 9 passes. Staff, please work with us in future 9 differently from you all in terms of kind of some 10 of the next steps for Upper Payment Limit 10 meetings regarding timing of the UPL rulemaking 11 hearings for Enbrel, and to initiate rulemaking 11 rulemaking. 12 to establish a UPL with the Secretary of State, 12 So, at your next meeting, on March 15, 13 in line with those discussions. 13 we will save a portion of the time, probably not 14 Okay. Now, we are scheduled to move 14 a large portion of the time, we're thinking maybe 15 onto Genvoya. Board members disclosed conflicts 15 half an hour, to just revisit and reacquaint 16 at the top of the meeting. Dr. Diab is the only 16 ourselves and everyone with the Upper Payment 17 Board member with a conflict of interest for 17 Limit rule and policy that already exists, that 18 Genvoya and will not participate in the 18 you all promulgated and adopted over a year ago. 19 19 deliberation. So, we'll spend some time just 20 Also, before we vote, I'd like to note 20 reacquainting ourselves with the rule and policy, 21 that all Board members were present at the 21 answering any questions that you all may have, 22 February 16 meeting, when the Board voted that 22 and then continue to save some time at your April 23 use of Genvoya is not unaffordable for Colorado 23 26 meeting as well, for continued kind of 24 conversation. So, not really looking at specific 24 consumers. To ensure that all Board members have 25 had the opportunity to review the summary of 25 data for Enbrel, just really looking at the rule Page 38 Page 40 1 and policy, answering any questions that you 1 deliberations and changes made by staff from the 2 might have, and just thinking about how you want 2 draft report, I'd like to ask if any Board member 3 some of the data gathered. 3 has objections to moving forward with approval of 4 Then, you'll see on here, there is a 4 the final report. BOARDMEMBER JAMES JUSTIN VANDEBERG: I 5 potential hold here for a meeting on May 3, but 5 6 we anticipate that would be, like today, really 6 do not 7 focusing, only if needed, on conversation about 7 CHAIR GAIL MIZNER: Do I have a motion 8 to adopt the Final Affordability Review Report 8 Cosentyx and Stelara. 9 Then, on June 7, would potentially be 9 for Genvoya with the changes as discussed? 10 the first rulemaking hearing for Enbrel. And BOARDMEMBER JAMES JUSTIN VANDEBERG: 11 then, that would be kind of that formal process 11 This is Justin Vanderberg. I motion to adopt the 12 with testimony, both written and verbal testimony 12 Final Affordability Review Report for Genvoya 13 provided, and then moving on. And we would 13 with the changes as discussed. 14 strongly recommend a second rule-making hearing, 14 BOARDMEMBER AMY GUTIERREZ: Amy 15 at a minimum, on July 19. 15 Gutierrez, second. 16 And so, if things are kind of moving 16 CHAIR GAIL MIZNER: Thank you. Dr. 17 this way, and we can start this way, but if 17 Vandenberg moved and Dr. Guitierrez seconded. 18 there's a time as you all mentioned, where you'd 18 All those in favor of adopting the final 19 like to slow down, or where you'd like to speed 19 affordability review report for Genvoya, raise 20 up, we can absolutely adjust as needed, but this 20 your hand and say aye. 21 is kind of how we propose at this point to 21 BOARDMEMBER AMY GUTIERREZ: Aye. 22 proceed. 22 BOARDMEMBER JAMES JUSTIN VANDEBERG: 23 And then the only other thing I'll note 23 Aye.

Page 41

24 is, in the past, any time you all have done

25 rulemaking, we have held separate stakeholder

Page 39

CHAIR GAIL MIZNER: Aye. Okay. The

25 motion passes. The Board's vote concludes this

1 meetings to gather input and really talk with	1 everyone. The next PDAB meeting will be held at
2 individuals and stakeholders directly to get	2 10:00 AM on Friday, March 15. And unless there's
3 their feedback, so we can converse with them	3 any objection, the meeting is now adjourned.
4 before the rulemaking hearing. We would plan on	4 Thank you all very much.
5 doing the same thing.	5 BOARDMEMBER DR. SAMI DIAB: Thank you
6 So, we don't exactly have a date yet	6 Board members.
7 for when those stakeholder meetings would be, but	7
8 we would anticipate sometime between April and	8
9 June, and heading even into the summer, as your	9
10 rulemaking continues, and your rulemaking hearing	10
11 continues. The staff hosts meetings with	11
12 stakeholders to answer questions. The Board	12
13 members would not need to attend, but that will	13
14 host those meetings so folks can ask questions.	14
15 Any kinds of concerns or thoughts or	15
16 comments on this proposed timeline for now?	16
17 We'll continue to check in at each meeting to	17
18 make sure kind of this is the right cadence.	18
19 Chair Mizner, you were on mute.	19
20 CHAIR GAIL MIZNER: My feeling is that	20
21 as long as we're able to slow down at any point	21
22 where we feel that we need to, to gather more	22
23 information, more input, whatever, I think that	23
24 makes sense. I want to be sure that both Board	24
25 has enough time for every meeting to read and	25
Page 42	Page 44
1 incorporate all the information gathered into	1 CERTIFICATION
2 their thinking, and also that we have enough time	2
3 for public comment and stakeholder meetings. I	3 I, Sonya Ledanski Hyde, certify that the
4 think those are just key. Amy and Justin, do you	4 foregoing transcript is a true and accurate
5 have other thoughts about this timeline?	5 record of the proceedings.
6 BOARDMEMBER JAMES JUSTIN VANDEBERG:	Date: May 31, 2024
7 No. I think you state it very well, just as far	7
8 as being able to I don't want to say	8
9 flexibility, but maneuverability, based on the	9
10 data as is presented.	10
11 BOARDMEMBER AMY GUTIERREZ: I agree as	11
12 well, Gail, with your comments. And I think it's	Sonya V. dedarki Hyd
13 going to be important on the flexibility because	12 Sonya Ledanski Hyde
14 it's the first time we've done this, so it will	13
15 be important to be flexible on some of the	14
16 timelines agreed.	15 16
17 CHAIR GAIL MIZNER: All right. Great.	17
18 BOARD STAFF LILA CUMMINGS: Great.	18
19 Then we'll proceed with this, but we'll check in	19
20 with you at every meeting, kind of, if this is	20
21 the right timeline. I believe that's all I have	21
22 and I think we did the next two agenda items at	22
23 the top, so I believe you're done.	23
24 CHAIR GAIL MIZNER: Okay. And I think	24
25 we are done with our work today. Thank you to	25
