Case No. 23-cv-2024

KEITH ELLISON,
in his official capacity as Attorney

**DECLARATION OF
KATRINA HOWARD**

Defendant.

INTRODUCTION

1. I am the Deputy Director of the Minnesota Board of Pharmacy (“Board”). The Board consists of nine members (6 pharmacists, and 3 members of the public), appointed by the Governor. Among other responsibilities, the Board regulates drug manufacturers and drug wholesale distributors, including by approving licenses for these businesses and imposing, when appropriate, disciplinary action.

2. The Board’s Practice Act, Minnesota Statutes Chapter 151, defines a drug manufacturer as any person engaged in “the production, preparation, propagation, conversion, or processing of a drug, either directly or indirectly, by extraction from substances of natural origin or independently by means of chemical or biological synthesis. Manufacturing includes the packaging or repackaging of a drug, or the labeling or relabeling of the container of a drug, for resale by pharmacies, practitioners, or other persons.” *See* Minn. Stat. § 151.01, subds. 14, 14a.

3. The Board licenses drug manufacturers annually in accordance with Minnesota Statutes section 151.252 and requires a separate license for “each facility located within the state at which drug manufacturing occurs and for each facility located outside of the state at which drugs that are shipped into the state are manufactured.” *See* Minn. Stat. § 151.252, subd. 1(g). Drug manufacturers must affirmatively renew their manufacturer license with the Board each year by filing a renewal application and paying a fee to the Board. Minn. R. 6800.1400.

4. Applicants for a manufacturer license or renewed manufacturer license agree to operate in a manner prescribed by federal law and Minnesota law. Minn. Stat. § 151.252, subd. 1(d).

5. It is unlawful for drug manufacturers to sell legend drugs—defined as drugs that are required by federal law to be dispensed only pursuant to the prescription of a licensed practitioner (Minn. Stat. § 151.01, subd. 17)—either directly or indirectly to anyone located in Minnesota except as provided by Minnesota Statutes Chapter 151, including Chapter 151’s above-referenced licensing requirements. Minn. Stat. § 151.252, subd. 2.

6. If a manufacturer is manufacturing generic drugs at an out-of-state facility that is not licensed by the Board, and then shipping those generic drugs into Minnesota, either directly or indirectly through a wholesale distributor, the manufacturer is operating in violation of Minnesota Statutes section 151.252 and Minnesota Administrative Rule 6800.1400, subpart 3.

7. Based on the Board's records, as of July 25, 2023, the Board has issued active manufacturer licenses to 973 drug manufacturing facilities pursuant to Minnesota Statutes section 151.252. Of these 973 active manufacturing licenses, 86 licenses are issued to manufacturing facilities located within Minnesota and the remaining 887 licenses are issued to manufacturing facilities located outside of the state at which drugs that are shipped into the state are manufactured. *See* Minn. Stat. § 151.252, subd. 1(g). Attached hereto as "Exhibit A" is a spreadsheet listing all drug manufacturer facilities licensed by the Board as of July 25, 2023.

8. Based on the Board's records, the Board has issued drug manufacturer licenses to the following 20 drug manufacturing companies for 38 facilities (located outside of Minnesota) at which drugs that are shipped into Minnesota are manufactured:
