

TEXT ORDER. The Court has reviewed the parties' Status Report (ECF No. 107 ). The parties dispute whether the Plaintiffs are entitled to extra-record discovery or limited record-completion discovery before proceeding to summary judgment briefing. The Court will order additional briefing on this issue. The Plaintiffs shall file their brief in support of discovery by August 3, 2026; Defendants shall file their opposition by August 17, 2026; and Plaintiffs may file a reply by August 24, 2026. Briefs shall not exceed 10 pages. The parties' briefs shall address: (1) whether the Plaintiffs are entitled to discovery on their non-APA constitutional and ultra vires claims; (2) whether the Administrative Record is complete, or whether record-completion discovery is warranted; and (3) if any discovery is appropriate, its proposed scope and limits. All other deadlines remain stayed pending the Court's resolution of the discovery question. So Ordered by District Judge Mary S. McElroy on 7/20/2026. (Potter, Carrie) (Entered: 07/20/2026)
