UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF RHODE ISLAND

STATE OF NEW YORK, et al., Plaintiffs, v. ROBERT F. KENNEDY, JR., in his official capacity as SECRETARY OF THE U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES, et al., Defendants.	Case No. 1:25-cv-00196

DECLARATION OF ANDRES IVAN NAVEDO

Pursuant to 28 U.S.C. § 1746, I, Andres Ivan Navedo, do hereby state:

1. I am an Assistant Attorney General in the Office of the Attorney General for the State of New York, and I appear on behalf of the State of New York in this action and am a member in good standing of the bar of the State of New York.

2. I am admitted to appear in the above-captioned case in the United States District Court for the District of Rhode Island pursuant to this Court's Text Order from May 6, 2025.

3. I submit this Declaration and its attached Exhibits in further support of Plaintiff States' First Motion for Discovery. ECF No. 122.

4. I make the following statements on the basis of my own knowledge or a review of files in my possession.

5. Attached as Exhibit A is a true and accurate copy of Plaintiffs' proposed First Set of Requests for the Production of Documents.

6. Attached as Exhibit B is a true and accurate copy of Plaintiffs' proposed First Set of Interrogatories.

7. Attached as Exhibit C is a true and accurate copy of Plaintiffs' Letter to Defendants dated June 22, 2026, and Exhibits 1–5 thereto.

8. Attached as Exhibit D is a true and accurate copy of Defendants' Letter to Plaintiffs dated July 2, 2026.

9. Attached as Exhibit E is a true and accurate copy of Plaintiffs' Letter to Defendants dated July 20, 2026.

10. Attached as Exhibit F is a true and accurate copy of Defendants' Letter to Plaintiffs dated July 31, 2026.

11. Attached as Exhibit G is a true and accurate copy of the Consolidated Agency File submitted by the U.S. Department of Health and Human Services on April 9, 2026, in proceedings before the Merit Systems Protection Board in a matter involving the April 1 RIFs. *HHS RIF FDA CDER Consolidation v. Department of Health and Human Services*, Docket No. CF-0351-26-0076-I-1.

12. Attached as Exhibit H is a true and accurate copy of emails to and from Dr. Debra Houry, then-Chief Medical Officer and Deputy Director for Program and Science at CDC, released by the Senate HELP Committee in June of 2026.

13. Attached as Exhibit I is a true and accurate copy of the transcript of a Rule 30(b)(6) deposition of the U.S. Department of Health and Human Services conducted on April 8, 2025. *Am. Fed'n of Lab. & Cong. of Indus. Organizations v. Dep't of Lab.*, No. 25-cv-00339, (D.D.C. Apr. 29, 2025), ECF No. 82-3.

14. Attached as Exhibit J is a true and accurate copy of the Administrative Record produced by Defendants on June 8, 2026.

15. Attached as Exhibit K is a true and accurate copy of the revised Document 12.1 of the Administrative Record produced by Defendants on July 2, 2026.

Dated: New York, New York
September 11, 2026

EXHIBIT A

UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF RHODE ISLAND

STATE OF NEW YORK, *et al.*, Plaintiffs, v. ROBERT F. KENNEDY, JR., in his official capacity as SECRETARY OF THE UNITED STATES DEPARTMENT OF HEALTH AND HUMAN SERVICES, *et al.*, Defendants.	Case No. 1:25-cv-00196

PLAINTIFFS' FIRST SET OF REQUESTS FOR THE PRODUCTION OF DOCUMENTS

Pursuant to Rule 34 of the Federal Rules of Civil Procedure and Local Civil Rule 34 of the United States District Court for the District of Rhode Island, Plaintiffs hereby serve upon Defendants the following first set of requests for the production of documents. Plaintiffs request that Defendants respond to these requests separately within thirty (30) days after service.

DEFINITIONS

1. "And/or," the conjunctions "and" and "or," shall be construed either disjunctively or conjunctively as necessary to bring within the scope of the request all responses that might otherwise be construed to be outside of its scope and are terms of inclusion, not exclusion.

2. "And" and "or" as used herein shall, unless the context does not permit, be construed to mean "and/or."

3. "Any" shall be construed as "any and all."

4. "Appropriated Funds" shall mean funds subject to an appropriation, or a statutory provision that grants budget authority.

5. "Communication" or "communications" shall mean the transmittal of information (in the form of facts, ideas, inquiries, or otherwise) in writing, by telephone, facsimile, email, through Documents, or other electronic means.

6. "Concerning" or "relating to" shall mean relating to, referring to, pertaining to, concerning, describing, regarding, evidencing, or constituting, the requested subject matter.

7. "Defendants" shall refer to the Department, its Employees, and the Secretary, collectively.

8. "Defined Search Term" shall refer to the search terms "RIF," "RIFs," "RIFed," "ARRP," "reorganization," "reduction," "layoff," "terminate," "termination," "eliminate," "eliminating," "elimination," "firing," "consolidate," "consolidation," "realign," "realignment," "shared services," "centralize," "centralized," "centralization," "competitive area," "merge," "merger," "merged," "abolish," "abolished," "delete," "deletion," "retain," "repurpose," or any other personnel or organizational action taken in conformance with or contemplated by the reorganization announced by the March 27 Communiqué.

9. "Department" or "HHS" shall refer to the U.S. Department of Health and Human Services and any employees, agents, representatives, or contractors working on behalf of the U.S. Department of Health and Human Services.

10. "Document" shall mean all written, recorded, and graphic materials of every kind, including all electronically stored information in your possession, custody, or control. The term "Document" includes each and every writing of whatever nature, whether an original, a draft, or a copy, however produced or reproduced, and each and every tangible thing from which information can be processed or transcribed, such as tape or other Communications. The term includes, but is not limited to, letters, emails, voicemail, text messages, ephemeral messages (including "Signal"

messages), memoranda, notes, instructions, reports, analyses, telegrams, facsimiles, diaries, calendars, studies, logs, journals, books, notebooks, plans, records, forms, charts, policies and procedures, audio recordings, visual recordings, digital recordings, photographs (positive prints and negatives), slides, work-sheets, customer checks, credit card charge slips, expense reports, computation sheets, computer printouts and programs, tapes, videotapes, diskettes and CD-ROMs, microfilm, microfiche, any comments appearing in margins on any document, and copies of documents which are not identical duplications of the originals (*e.g.*, because handwritten or "blind" copy notes appear thereon or are attached thereto). A draft or non-identical copy is a separate document within the meaning of this term.

11. "DOGE" shall refer to the United States Department of Governmental Efficiency, the United States DOGE Service, the United States Digital Service, the United States DOGE Service Temporary Organization, or any organization affiliated with Elon Musk.

12. "Employee(s)" and "staff" shall mean any person—past or present—carried on the payroll of the Department, either as a salaried or hourly employee, a full-time or part-time employee, a temporary, probationary, or permanent employee, employee on commission, independent contractor, or agent.

13. "Include" or "including" shall mean "include without limitation" and "including without limitation."

14. "Identify" or "identity," as applied to any natural person, shall mean their name, title(s), aliases, screen names, and contact information, and with respect to any entity, shall mean to provide the name, d/b/a names, if any, and the entity's contact information.

15. "March 27 Communiqué" shall mean the RIF and Reorganization announced by the Department on March 27, 2025. ECF Nos. 1-1, 1-2.

16. "Plaintiffs" shall mean the plaintiffs in the above-captioned matter.

17. "Policies" or "Procedures" shall mean any or all of the following: standard operating procedures; protocols; criteria; guidelines; standards of care; directives; policy statements; "best practices"; letter templates; form templates; matrices; stipulations in regulatory settlements; opinions; scripts.

18. "Reorganization" shall mean the restructuring of components of the Department, including the elimination of certain component agencies, announced by the Department on March 27, 2025, as described in the Amended Complaint. *See* ECF No. 94 ¶¶ 65–66.

19. "RIFs" shall mean the reductions-in-force announced by the Department on March 27, 2025 and implemented beginning April 1, 2025, as described in the Amended Complaint. *See* ECF No. 94 ¶¶ 75–79.

20. "Secretary" shall refer to defendant Secretary Robert F. Kennedy, Jr. and any employees, agents, representatives, or contractors working on behalf of Defendant Robert F. Kennedy, Jr.

INSTRUCTIONS

1. Unless otherwise indicated, these requests shall be construed to cover the time period from January 20, 2025, to the present.

2. Where a claim of privilege is asserted, the attorney asserting the privilege shall provide the information required by Rule 26(b)(5) of the Federal Rules of Civil Procedure, identify the privilege being invoked, and provide enough information about the document to justify invoking the privilege without revealing the content of the withheld or redacted information.

3. Pursuant to Federal Rule of Civil Procedure 26(e), these discovery demands are to be deemed continuing in nature, so as to require further and supplemental responses if the

Defendants receive or identify additional information after providing their initial responses to these requests.

REQUESTS

Request No. 1. All Documents relied upon by Defendants in their decision to implement the RIF. This includes but is not limited to all Documents Defendants relied upon in deciding the timing and scope of, as well as the specific employees affected by, the RIFs.

Request No. 2. All Documents relied upon by Defendants in their decision to implement the Reorganization. This includes but is not limited to all Documents Defendants relied upon in deciding the timing and scope of, as well as the specific employees affected by, the Reorganization.

Request No. 3. All meeting agendas and Documents distributed (in any format, including but not limited to PowerPoint slides) during meetings that included Defendants in which the decision to implement the RIFs and the Reorganization were discussed.

Request No. 4. All Communications between Defendants and the U.S. Office of Personnel Management and/or the Office of Budget Management relating to the RIFs and Reorganization, including but not limited to any and all Agency RIF and Reorganization Plans (also known as "ARRPs") submitted by the Department to the U.S. Office of Personnel Management. *See, e.g.*, Exhibit J at NYvK-AR-000009 ("Agency heads should collaborate with their [DOGE] team leads within the agency in developing competitive areas for ARRPs").

Request No. 5. All Communications sent or received by any of the individuals identified by HHS as "Individuals Who Made Decisions or Provided Input on the RIF," containing a Defined Search Term. *See HHS RIF FDA CDER Consolidation v. Dep't of Health and Human Servs.*, Docket # CF-0351-26-0076-I-1, Document Number 3900631 at 31–37 (attached as Exhibit

G). Those individuals include but may not be limited to: Robert F. Kennedy, Jr, Heather Flick Melanson, Scott Rowell, Thomas Nagy Jr., Shana Weir, Seth Shulman, Garey Rice, Clark Minor, Dr. Sara Brenner, Angel Hebert, Melanie Keller, Chantal Dawson, Jennifer Wade, and Robert Bettinger.

Request No. 6. All Communications sent or received by any of the individuals identified as a "DOGE Team Affiliate" in 30(b)(6) testimony given by HHS in *Am. Fed'n of Lab. & Cong. of Indus. Organizations v. Dep't of Lab.,* No. CV 25-339 (JDB), 2026 WL 879518 (D.D.C. Mar. 31, 2026) (ECF No. 82-3 at 11:21-12:9) (attached as Exhibit I), and containing a Defined Search Term. Those individuals include, but may not be limited to: Rachel Riley, Brad M. Smith, Luke Farritor, Edward Coristine, Marko Elez, Kyle Schutt, Conor Fennessy, Zach Terrell, Rachel Riley, Jeremy Lewin, and Aram Moghaddassi.

Request No. 7. All Communications sent or received by any of the individuals identified in the emails released by the Senate Health, Education, Labor, and Pensions Committee and collected from Dr. Debra Houry and containing a Defined Search Term. Those individuals include but are not limited to: Dr. John Howard, Matthew J. Buzzelli, Rachel Holloway, Sara S. Patterson, Pamela Protzel Berman, Kelley Durst, Nathan Wells, Debra E. Houry, Louis Blackshear.

Request No. 8. All Documents prepared by DOGE or its staff which were shared with Defendants that relate in any way to Defendants' decision to RIF and Reorganize.

Request No. 9. All Documents relied upon by the authors of the March 27, 2025, press release and fact sheet attached to the Complaint. ECF Nos. 1-1, 1-2.

Request No. 10. All Documents produced in litigation, including responses to interrogatories, document productions, deposition transcripts and associated exhibits,

administrative records, declarations, and exhibits related to the RIFs and Reorganization filed or served by or on behalf of HHS in the following cases:

a. *Am. Fed'n of Lab. & Cong. of Indus. Orgs. v. Dep't of Lab.,* No. 1:25-cv-00339 (D.D.C. filed Feb. 5, 2025)

b. *Am. Fed'n of Gov't Emps., AFL-CIO v. Trump*, 3:25-cv-03698 (N.D. Cal. filed April 28, 2025) (and related Cases: Nos. 25-cv-08302, 26-mc-80146).

c. *Jackson v. Kennedy*, No. 1:25-cv-01750 (D.D.C. filed June 3, 2025)

d. *Democracy Forward Found. v. Office of Mgmt. and Budget*, 1:25-cv-00858 (D.D.C. filed Mar. 23, 2025)

e. *Citizens for Resp. and Ethics in Washington v. U.S. Ctrs. For Disease Control and Prevention*, 1:25-cv-01020 (D.D.C. filed Apr. 4, 2025)

Request No. 11. All Documents produced by HHS in any proceeding before the Merit Systems Protection Board (MSPB) related to any RIF or Reorganization contemplated in the March 27 Communique, including but not limited to:

a. HHS RIF FDA CDER v. Department of Health and Human Services, MSPB Docket No. CF-0351-26-0076-I-1;

b. HHS RIF REGULATION REVIEW CONSOLIDATION v. Office of Personnel Management and Department of Health and Human Services; MSPB Docket No. CF-1205-26-0122-U-1;

c. Interested RIF Employees - HHS v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0031-U-1;

d. Interested RIF Employees - HHS II v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0036-U-1;

e. Interested RIF Employees - HHS III v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0037-U-1;

f. Interested RIF Employees - HHS IV v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0038-U-1;

g. Interested RIF Employees - HHS V v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0039-U-1;

h. Interested RIF Employees - HHS VI v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0040-U-1;

i. Interested RIF Employees - HHS VII v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0041-U-1;

j. Interested RIF Employees - HHS VIII v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0042-U-1;

k. Interested RIF Employees - HHS IX v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0043-U-1;

l. Interested RIF Employees - HHS X v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0044-U-1;

m. Interested RIF Employees - HHS XI v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0045-U-1;

n. Interested RIF Employees - HHS XII v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0046-U-1;

o. Interested RIF Employees - HHS XIII v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0047-U-1;

p. Prince v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0034-U-1;

q. Sheridan v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0032-U-1; and

r. Urich v. Office of Personnel Management and Department of Health and Human Services, MSPB Docket No. CB-1205-25-0051-U-1.

Request No. 12. All Documents the Defendants considered that showed the RIFs and Reorganization would be financially beneficial to the Department, the taxpayers, or any other

party, including but not limited to all Documents upon which Defendants relied when it claimed that the RIFs and Reorganization "will save taxpayers $1.8 billion per year," ECF No. 1-1 at 1.

Request No. 13. All Documents upon which Defendants relied when they claimed that the RIFs and Reorganization would "combat waste, fraud, and abuse in federal health programs," ECF No. 1-1 at 2, and any other Documents Defendants considered that showed the RIFs and Reorganization would limit or drive down waste, fraud, and abuse in federal health programs.

Request No. 14. All Documents upon which Defendants relied when they claimed that the RIFs and Reorganization would "improve American's experience with HHS by making the agency more responsive and efficient, while ensuring that Medicare, Medicaid, and other essential health services remain intact," ECF No. 1-1 at 2, and any other Documents Defendants considered that showed the RIFs and Reorganization would do the same.

Request No. 15. All Documents upon which Defendants relied when they implemented the March 27 Communiqué and which discuss whether the Department would be able to meet all of its statutory mandates after implementation of the Communiqué, including but not limited to any Documents describing the statutory tasks of individuals and component agencies and divisions of the Department impacted by the March 27 Communiqué.

Request No. 16. All Communications to Employees who received RIF notices regarding any instructions to ensure minimal interruption to the work of the Department. This includes, but is not limited to, Communications regarding the preservation of the Department's physical assets such as reagents, chemicals, reference specimens, live specimens, and animal test subjects; Documents and data used by the Department during its course of operations including but not limited to instructions to employees noticed for termination regarding sharing access to

any Documents with employees who were not noticed for termination; and Communications with Departmental partners including grantees, contractors, and similar individuals and companies.

Request No. 17. All Documents the Defendants considered regarding the impacts of the March 27 Communiqué on State public health agencies and laboratories at the time of deciding to implement the RIFs and Reorganization.

Request No. 18. All Documents related to Defendants' spending or failure to spend Appropriated Funds as a result of the RIFs and Reorganization.

Request No. 19. All Documents related to Defendants' decision to notice for termination all or nearly all employees certain subagencies: CDC laboratories, ECF No. 94 ¶ 101; National Institute for Occupational Health and Safety, ¶¶ 138–43; the Division for Reproductive Health, *id.* ¶ 181, the Office on Smoking and Health, *id.* ¶ 192; the Division for Viral Hepatitis, *id.* ¶ 207–09; the Center for Tobacco Products, *id.* ¶¶ 266–68; the Assistant Secretary for Planning and Evaluation, *id.* ¶ 317; the Office of Treatment Services responsible for studying substance abuse, *id.* ¶ 305.

Request No. 20. All Documents related to Defendants' decision to close regional offices in Boston, New York City, Chicago, San Francisco, and Seattle, ECF No. 94 ¶¶ 280, 325, but not in Atlanta, Dallas, Denver, Kansas City, MO, and Philadelphia. *Id.* ¶¶ 278, 322.

Request No. 21. Documents sufficient to show all factors considered by Defendants' when deciding to revoke any of the RIF notices issued pursuant to the March 27 Communiqué which includes, but is not limited to, notices sent to employees of: the CDC's laboratories testing for sexually transmitted diseases including gonorrhea, syphilis, and chlamydia; the World Trade Center Health Program; the National Institute for Occupational Safety and Health, *see* ECF No. 52-1 ¶¶ 3–7; the Office of the Director, the National Center for Environmental Health, the National

Center for HIV, Viral Hepatitis, STD, & TB Prevention, and the Global Health Center, *see* ECF No. 70-1 ¶¶ 3–4 (corrected at ECF No. 82-1 ¶¶ 3–5); "all staff in the Division of Safety Research in Morgantown, West Virginia," *see* ECF No. 88-1 ¶ 14; over 200 employees in the FDA's Center for Tobacco Products, *see* ECF No. 112-1 ¶¶ 7–13, 15; and seven employees of the Assistant Secretary for Planning and Evaluation, *see* ECF No. 112-2 ¶¶ 4–5.

Request No. 22. All Documents related to decisions to hire contractors to perform functions previously performed by employees who received RIF notices as a part of the March 27 Communiqué, including but not limited to employees working on the Pregnancy Risk Assessment Monitoring System, Center for Tobacco Products, and the Office on Smoking and Health.

Request No. 23. All Documents submitted by non-governmental organizations (including trade groups, lobbyists, for-profit companies, and any other entity), any State government or agency, or any other party with an interest in the operations of the Department, to the Defendants regarding any reduction-in-force or agency reorganization that was sent and/or received before April 1, 2025.

Request No. 24. All Documents submitted by non-governmental organizations (including trade groups, lobbyists, for-profit companies, and any other entity), any State government or agency, or any other party with an interest in the operations of the Department, to the Defendants regarding any reduction-in-force or agency reorganization that was sent and/or received after April 1, 2025.

EXHIBIT B

UNITED STATES DISTRICT COURT
FOR THE DISTRICT OF RHODE ISLAND

STATE OF NEW YORK, *et al.*, Plaintiffs, v. ROBERT F. KENNEDY, JR., in his official capacity as SECRETARY OF THE UNITED STATES DEPARTMENT OF HEALTH AND HUMAN SERVICES, *et al.*, Defendants.	Case No. 1:25-cv-00196

PLAINTIFFS' FIRST SET OF INTERROGATORIES

Pursuant to Rules 26 and 33 of the Federal Rules of Civil Procedure and Local Civil Rule 33 of the United States District Court for the District of Rhode Island, Plaintiffs hereby serve upon Defendants the following first set of interrogatories. Plaintiffs request that Defendants respond to these interrogatories under oath, separately and fully in writing, within thirty (30) days after service.

DEFINITIONS

1. "And/or," the conjunctions "and" and "or," shall be construed either disjunctively or conjunctively as necessary to bring within the scope of the request all responses that might otherwise be construed to be outside of its scope and are terms of inclusion, not exclusion.

2. "And" and "or" as used herein shall, unless the context does not permit, be construed to mean "and/or."

3. "Any" shall be construed as "any and all."

4. "Appropriated Funds" shall mean funds subject to an appropriation, or a statutory provision that grants budget authority.

5. "Communication" or "communications" shall mean the transmittal of information (in the form of facts, ideas, inquiries, or otherwise) in writing, by telephone, facsimile, email, or other electronic means.

6. "Concerning" or "relating to" shall mean relating to, referring to, pertaining to, concerning, describing, regarding, evidencing, or constituting, the requested subject matter.

7. "Defendants" shall refer to the Department, its Employees, and the Secretary, collectively.

8. "Department" or "HHS" shall refer to the U.S. Department of Health and Human Services and any employees, agents, representatives, or contractors working on behalf of the U.S. Department of Health and Human Services.

9. "Document" shall mean all written, recorded, and graphic materials of every kind, including all electronically stored information in your possession, custody, or control. The term "Document" includes each and every writing of whatever nature, whether an original, a draft, or a copy, however produced or reproduced, and each and every tangible thing from which information can be processed or transcribed, such as tape or other electronic data Communications. The term includes, but is not limited to, letter, emails, voicemail, text messages, ephemeral messages (including "Signal" messages), memoranda, notes, instructions, reports, analyses, telegrams, facsimiles, diaries, calendars, studies, logs, journals, books, notebooks, plans, records, forms, charts, policies and procedures, audio recordings, visual recordings, digital recordings, photographs (positive prints and negatives), slides, work-sheets, customer checks, credit card charge slips, expense reports, computation sheets, computer printouts and programs, tapes,

videotapes, diskettes and CD-ROMs, microfilm, microfiche, any comments appearing in margins on any document, and copies of documents which are not identical duplications of the originals (*e.g.*, because handwritten or "blind" copy notes appear thereon or are attached thereto). A draft or non-identical copy is a separate document within the meaning of this term.

10. "DOGE" shall refer to the United States Department of Governmental Efficiency, the United States DOGE Service, the United States Digital Service, the United States DOGE Service Temporary Organization, or any organization affiliated with Elon Musk.

11. "Employee(s)" and "staff" shall mean any person—past or present—carried on the payroll of the Department, either as a salaried or hourly employee, a full-time or part-time employee, a temporary, probationary, or permanent employee, employee on commission, independent contractor, or agent.

12. "Include" or "including" shall mean "include without limitation" and "including without limitation."

13. "Identify" or "identity," as applied to any natural person, shall mean their name, title(s), aliases, screen names, and contact information, and with respect to any entity, shall mean to provide the name, d/b/a names, if any, and the entity's contact information.

14. "March 27 Communiqué" shall mean the RIF and Reorganization announced by the Department on March 27, 2025. ECF Nos. 1-1, 1-2.

15. "Plaintiffs" shall mean the plaintiffs in the above-captioned matter.

16. "Policies" or "Procedures" shall mean any or all of the following: standard operating procedures; protocols; criteria; guidelines; standards of care; directives; policy statements; "best practices"; letter templates; form templates; matrices; stipulations in regulatory settlements; opinions; scripts.

17. "Reorganization" shall mean the restructuring of components of the Department, including the elimination of certain component agencies, announced by the Department on March 27, 2025, as described in the Amended Complaint. *See* ECF No. 94 ¶¶ 65–66.

18. "RIFs" shall mean the reductions-in-force announced by the Department on March 27, 2025 and implemented beginning April 1, 2025, as described in the Amended Complaint. *See* ECF No. 94 ¶¶ 75–79.

19. "Secretary" shall refer to defendant Secretary Robert F. Kennedy, Jr. and any employees, agents, representatives, or contractors working on behalf of Defendant Robert F. Kennedy, Jr.

INSTRUCTIONS

1. Each Interrogatory operates and shall be responded to independently, and unless otherwise indicated, no interrogatory limits the scope of any other interrogatory.

2. If an objection is made to any part of an interrogatory, the response shall state that there is an objection to the interrogatory and the legal and factual basis for such objection.

3. No part of an interrogatory shall be left unanswered merely because an objection is made to another part of the interrogatory.

4. If an interrogatory demands an answer that Defendants claim may be withheld due to privilege, work product, or any other privilege or immunity from disclosure, the Defendants shall answer any portion of the interrogatory that is not subject to such a claim, and shall indicate with specificity and particularity the basis of said withholding, including:

   a. The identity of the person(s) having knowledge of the information;

   b. The identify of all persons to whom the information was communicated or otherwise made available;

c. The job title or position of every person identified in response to subparagraphs (a) and (b);

d. The date on which the information was received or became known by each person having knowledge of its existence;

e. A brief description of the nature and subject matter of the information; and

f. The statute, rule or decision that is claimed to give rise to the privilege.

5. If the response to any interrogatory consists in whole or in part of an objection based upon undue burden, then with respect to such response: (a) provide such information as can be ascertained without undue burden; and (b) state with particularity the basis for such objection, including a description of the process or method required to obtain the response to the interrogatory and the estimated cost and time required to obtain the response to the interrogatory.

6. Unless otherwise indicated, the relevant time period for purposes of these Interrogatories is from January 20, 2025 to present.

7. The use of the singular form of any word should be construed to include the plural and vice versa.

8. The interrogatories are continuing in nature. In accordance with Rule 26(d) of the Federal Rules of Civil Procedure, the Defendants are required promptly to serve supplementary responses and produce additional documents if the Defendants obtain further or different information.

INTERROGATORIES

Interrogatory No. 1. Identify all individuals within HHS or other agencies who were involved in the decision-making process related to the March 27 Communiqué and their role in the decision-making process, including but not limited to:

(a) all individuals who had decision-making authority regarding the RIF, including but not limited to deciding whom to include in the RIF, when to commence the RIF, and each individual's role in that decision-making process;

(b) all individuals who had decision-making authority regarding the Reorganization, and each individual's role in that decision-making process;

(c) all individuals who were included in any communication about the decision-making process leading up to the RIF, including anyone who was consulted within or outside the Department, and each individual's role in the decision-making process;

(d) all individuals who were included in any communication regarding the decision-making process leading up to the Reorganization, including anyone who was consulted within or outside the Department, and each individual's role in the decision-making process;

(e) all individuals who were responsible for effectuating the RIF, specifying each individual's role in the effectuation of the RIF; and

(f) all individuals who were responsible for effectuating the Reorganization, specifying each individual's role in effectuating the Reorganization.

Interrogatory No. 2. Identify headcounts of full-time employees at all "28 divisions" identified in ECF No. 1-1 at 1 on January 1, 2025; February 15, 2025; March 31, 2025; April 2, 2025; and September 10, 2026. Responses should identify the "28 divisions" with the same level of detail specified in NYvK-AR-000107 (i.e., Department ID, Department Name, OpDiv Name, OpDive Pop, Sub Agency Code, Department ID Pop, Levels 1-4, and Geographic Area) and indicate how many employees are or were on administrative leave on each of the dates requested.

Interrogatory No. 3. Identify any staff members associated with or employed by DOGE who worked with Defendants on any aspect of the RIF and Reorganization and/or any aspect of the decision-making process leading up to the RIF and Reorganization.

Interrogatory No. 4. Describe what steps the Department took to identify which statutorily-mandated functions each employee within the Department fulfilled, when these steps were taken, and identify any Document(s), including any spreadsheet(s), concerning the information collected.

Interrogatory No. 5. Identify any alternatives Defendants considered to the RIFs that might have achieved Defendants' same goals and explain why each/any of those alternatives were abandoned.

Interrogatory No. 6. Identify any alternatives Defendants considered to the Reorganization that might have achieved Defendants' same goals and explain why each/any of those alternatives were abandoned.

Interrogatory No. 7. Identify any analysis, report, memorandum, human resources report, Inspector General report, or other source relied upon by the Defendants regarding whether the RIFs and Reorganization would save $1.8 billion per year, and would reduce chronic illness and disease. *See* ECF No. 1-1 at 2.

Interrogatory No. 8. Identify all artificial intelligence programs that were used as part of the decision-making process that led to the RIF and/or was used to effectuate the RIF and, for each artificial program used, describe how that program was utilized.

Interrogatory No. 9. Identify any artificial intelligence program that was used as part of the decision-making process that led to the Reorganization and/or was used to effectuate the Reorganization and, if an artificial program was used, describe how that program was utilized.

Date: September 11, 2026

Re: *New York v. Robert F. Kennedy, Jr.*, Case No. 1:25-cv-00196

Dear Mr. Dibblee,

Plaintiffs write regarding the Administrative Record that was produced on June 8, 2026 in the above-captioned case. The Administrative Record (A.R.) consists of a total of twenty documents, including: (1) Executive Order 14210 and an accompanying fact sheet; (2) guidance from the Office of Management and Budget (OMB) and Office of Personnel Management ("OPM") about implementing Executive Order 14210; (3) the press release and fact sheet announcing the reductions in force and reorganization; (4) an overview of the functions and work performed by the Food and Drug Administration ("FDA") and the Administration for Children and Families ("ACF"); (5) a series of emails between HHS and OPM seeking approval of designated competitive areas; (6) lists of employees who were laid off with columns redacted; and (7) sample materials provided to laid off employees. The Administrative Record is incomplete because it does not contain documents actually considered by Secretary Kennedy and the U.S. Department of Health and Human Services ("HHS") in its decision announced March 27, 2025 (the "March 27 Communiqué") to initiate large-scale reductions in force ("RIFs") and reorganize the Department's component agencies. Plaintiffs ask Defendants to review their records, conduct a thorough and proper search and collection, and produce a revised Administrative Record that corrects these deficiencies.

The APA requires the Court to conduct "plenary review of the Secretary's decision, . . . to be based on the full administrative record that was before the Secretary at the time he made his decision." *Citizens to Pres. Overton Park v. Volpe*, 401 U.S. 402, 420 (1971); *see also* 5 U.S.C. § 706 (in

evaluating agency action, "the court shall review the whole record"). To that end, "[a]n administrative record must consist of all documents and materials directly or indirectly considered by the agency decision-makers and includes evidence contrary to the agency's position." *Roe v. Mayorkas*, No. 22-CV-10808, 2024 WL 5198705, at *7 (D. Mass. Oct. 2, 2024) (citation modified).

As explained in detail below, the Administrative Record as produced is substantially incomplete because it fails to include the information upon which the agency relied in making its decision to issue and implement the March 27 Communiqué.

- The Administrative Record fails to provide documents relied upon in HHS's decision to announce and implement the March 27 Communiqué. The Administrative Record includes White House and OMB directives to executive agencies to issue RIFs, A.R. at NYvK-AR-000001 to -000002, -000014, but no information that the agency relied upon in reaching the decision to issue the specific RIFs at issue, when to issue them, which employees would be RIFed, or which divisions of the Department would be impacted by RIFs. The Administrative Record also does not contain documents that relate to the reorganization announced in the March 27 Communiqué, including any materials relied upon to decide which component agencies would be eliminated, reorganized, or created as new component agencies.

  We note that there is public reporting that these materials exist, and they may have already been produced in other proceedings. For instance, one of the emails seemingly produced as part of the 354+ page record in the HHS RIF FDA CDER matter before the Merit Systems Protection Board ("MSPB") (No. CF-0351-26-76-I-1) was a March 19, 2025 email from Jennifer Wade (HHS-FDA) to Rachel Riley (DOGE HHS Senior Advisor), attached as Exhibit 1, forwarding a "Draft Summary of Decisions" for FDA's "large-scale RIF" plans, including competitive area approach and reorganization actions post-RIFs. Ex. 1 at 56. In this email, Jennifer Wade stated the FDA was "conducting additional analysis based on this approach" and "we will continue to provide you lower-level recommendations for decisioning as we develop options for the future state." *Id.* Neither this email, nor its attachment, nor any of the referenced "analys[es]" or "recommendations" are in the Administrative Record that you produced.

  Similarly, we have seen indications that HHS developed "Future State Org Charts" that showed how agencies would exist following the RIFs announced in the March 27 Communiqué, but these appear to have been omitted from the Administrative Record. For instance, attached as Exhibit 2 is another email apparently produced in the MSPB proceeding identified above concerning "FDA Draft Future State Org Charts," detailing a proposed organizational chart for how the agency would be structured following the RIFs. Ex. 2 at 65. This email, apparently between HHS and FDA staffers, included an explanation that "[o]nce we have the final post-RIF staffing and positions identified, we will identify all of the positions for realignment based on function. This will inform the estimated size of organizations and associated structure." *Id.* at 66.

These emails, and emails like these, constitute communications upon which decisionmakers relied in the agency action here, but neither these materials nor any similar materials that may fall within the scope of the Administrative Record have been produced. Plaintiffs are therefore concerned that whatever scope and method you used to gather the Administrative Record was inadequate, insomuch as documents that have already been produced in parallel proceedings concerning the same RIFs at issue here should have been captured by a proper search and collection. We therefore request that you review the methodology used and take all necessary steps to ensure that the Administrative Record is complete as to both the RIFs and reorganization that are the subject of this litigation.

- The Administrative Record fails to identify the decisionmaker(s) of the March 27 Communiqué, whether any briefings occurred with these decisionmakers at which materials and information was provided, and how and when any decisions were made and communicated. The absence of this information from the Administrative Record strongly indicates that it is incomplete.

- Given references in the produced Executive Order 14210 and OPM memo to a "DOGE Team Lead" assigned to the agency for the purpose of implementing large-scale RIFs, A.R. at NYvK-AR-000001, -000009, and multiple public statements by Secretary Kennedy regarding Elon Musk and DOGE's involvement in the March 27 Communiqué,[1] a complete Administrative Record should contain documents recording communications with DOGE and materials prepared by DOGE and considered by HHS decisionmaker(s). *Authors Guild v. Nat'l Endowment for the Humans.*, No. 25-CV-3657 (CM), 2025 WL 3678097, at *6 (S.D.N.Y. Dec. 18, 2025) (holding that materials "generated by other agencies, offices, or officials" that were considered by agency decisionmakers "fall squarely within the scope of the administrative record regardless of where they are housed").

  The Administrative Record is devoid of anything related to DOGE. We have, again, seen evidence that such communications exist and some have already been produced in other matters. For instance, another email apparently produced in the FDA CDER MSPB matter is a March 17, 2025 email from Rachel Riley to Dr. Sarah Brenner titled "FDA Spreadsheet for Input," attached as Exhibit 3. This email references and attaches a "spreadsheet discussed at the meeting today" detailing nearly every office within the FDA (along with the number of employees working within them), and asking Dr. Brenner for "input" on which employees to "[d]elete." Ex. 3 at 157. Again, neither this email, this spreadsheet, or

[1] These include a statement during the March 24, 2025 Cabinet Meeting made by Secretary Kennedy describing a "partnership with DOGE and with Elon" to "identif[y] extraordinary waste in my department." Secretary Kennedy went on to say, "[w]e are, with Elon's help, eliminating the redundancies." *President Trump Meets with Cabinet*, C-SPAN (Mar. 24, 2025), https://www.c-span.org/program/white-house-event/president-trump-meets-with-cabinet/657594. Secretary Kennedy told a reporter that "at DOGE, we talked about this from the beginning, . . . we're going to do 80% cuts, but 20% of those are going to have to be reinstated, because we'll make mistakes." Alexander Tin, *RFK Jr., Says 20% of Health Agency Layoffs Could Be Mistakes*, CBS News (Apr. 3, 2025, 7:12 PM), https://www.cbsnews.com/news/rfk-jr-hhs-job-cuts-doge-mistakes/.

anything indicating it emerged from the March 17, 2025 reorganization "meeting" appear anywhere in the Administrative Record.

Another document apparently produced in the same MSPB matter, attached as Exhibit 4, is a March 22, 2025 email between Jennifer Wade and Rachel Riley detailing FDA's approach to External Affairs post-RIF, including recommendations of which offices to retain and which ones to cut.

These emails indicate that Rachel Riley, at least, was a key decisionmaker in the implementation of the March 27 Communiqué and the resulting layoffs and reorganization, which matches public reporting,[2] public statements from the federal government,[3] and discovery responses from HHS in other cases.[4] And yet, no documents or communications from or to Rachel Riley are in the Administrative Record that was produced earlier this month.

The same holds true for the number of other "DOGE-affiliated" employees HHS has already publicly acknowledged. In an April 8, 2025 30(b)(6) deposition, HHS confirmed that the following employees were "DOGE Team Affiliates:"

- Amy Gleason
- Brad Smith
- Luke Farritor
- Edward Coristine
- Marko Elez
- Kyle Schutt
- Conor Fennessy
- Zach Terrell
- Rachel Riley
- Jeremy Lewin

[2] Tim Röhn & Erin Schumaker, *DOGE Holdover Who Pushed for Deep Cuts at HHS Is Headed to the Navy*, Politico (Oct. 30, 2025, at 10:18 AM EDT), https://www.politico.com/news/2025/10/30/doge-holdover-who-pushed-for-deep-cuts-at-hhs-is-headed-to-the-navy-00629729 (identifying Rachel Riley as the "DOGE holdover" and "top adviser" at HHS who "pressed for thousands of job cuts").

[3] *See Dr. Rachel Riley*, Office of Naval Research, https://www.onr.navy.mil/about-onr/leadership/chief-naval-research (last visited June 22, 2026) ("Dr. Rachel Riley joins the Office of Naval Research from the Department of Health and Human Services, where she served as a Special Advisor to Secretary Robert F. Kennedy Jr. on a wide variety of topics related to operations and operational efficiency, including personnel, contracts and grants.").

[4] *See*, *e.g.*, *Am. Fed'n of Lab. & Cong. of Indus. Organizations v. Dep't of Lab.,* No. 1:25-cv-00339, 2026 WL 879518, at *3 (D.D.C. Mar. 31, 2026) (finding, from HHS's interrogatory responses, that "[i]n late January through mid-February, several other DOGE affiliates joined Farritor at HHS, including . . . Rachel Riley," further noting that "Riley was hired directly as an HHS employee").

Ex. A to Def's Mem. in Opp'n to Pl.'s Mot. for a Prelim. Inj. at 11:21-12:9, *Am. Fed'n of Lab. & Cong. of Indus. Organizations v. Dep't of Lab.,* No. 1:25-cv-00339, 2026 WL 879518 (D.D.C. Apr. 29, 2025), ECF No. 82-3. There are no communications to or from any of these individuals in the Administrative Record.

- Defendants have represented that the RIFs and restructuring announced in the March 27 Communiqué would increase efficiency while eliminating redundancies and reducing costs, ECF No. 52 at 8, 33, and combatting waste, fraud, and abuse, A.R. at NYvK-AR-000017. Of note, HHS asserts that the restructuring "will save taxpayers $1.8 billion per year . . . ." A.R. at NYvK-AR-000015. But the Administrative Record does not contain any documents upon which decisionmakers might have relied to reach these conclusions; Defendants have not produced financial or cost-saving analyses, redundancy analyses, analyses of reliance interests, or any other relevant materials that should be included in the Administrative Record.

  Again, we have reason to believe these documents and communications exist. Another document apparently produced in the FDA CDER proceeding before the MSPB, attached as Exhibit 5, is a March 20, 2025 HHS email about FDA's recommendation for "[s]hared [s]ervices" that could be accomplished with elimination of employee roles and elimination of redundancies, including an attachment titled "FDA's recommendation for Shared Services approach." Ex. 5 at 60, 62. Given that HHS included this document in the litigation record in parallel proceedings, we would have expected to see it (and documents like it) in the Administrative Record here. But neither this email exchange nor any version of its attachment are found in the Administrative Record.

- The Administrative Record contains documents that describe the statutorily mandated functions of only two component agencies of HHS: ACF and FDA. A.R. at NYvK-AR-000023 to -000101. Apart from these two documents, the Administrative Record contains no materials upon which decisionmakers might have relied to analyze which functions of any of the impacted component agencies of the Department were statutorily mandated despite Defendants' assertion that "[t]he Secretary's announcement does not contemplate the elimination of any statutorily mandated HHS programs or divisions." ECF No. 52 at 8. In addition, despite assertions by Defendants that the March 27 Communiqué would not affect certain departmental services including Medicare and Medicaid services, A.R. at NYvK-AR-000021, "drug, medical device, . . . food reviewers, . . . [and] inspectors" at FDA, *id.*, clinical trials conducted by NIH, Senator Patty Murray, *"NIH Cuts Will Hurt" RFK Jr. Admits When Pressed by Senator Murray on Harm to NIH Clinical Care*, YouTube (May 14, 2025), https://www.youtube.com/watch?v=uA_t_THg9fs, and the functions of NIOSH (despite most of NIOSH's employees being RIFed), Tr. Prelim. Inj. Hr'g (May 20, 2025) at 31:15-20, the Administrative Record does not contain *any* materials that decisionmakers considered in coming to those conclusions.

- The Administrative Record fails to include many communications between HHS and OPM including the Phase I and Phase II Agency RIF and Reorganization Plans ("ARRPs"). Defendants have represented that "the Department has submitted its Phase I and Phase II ARRPs" and that those ARRPs "are in the process of review and refinement but have not

yet been finalized for public release and implementation." ECF No. 52 at 8. These memoranda and related communications and responses from OPM must be included in the Administrative Record. *New York v. McMahon*, __ F.Supp.3d __, 2026 WL 622484 at *5 (D. Mass. Feb. 11, 2026).

- Defendants have represented that the March 27 Communiqué was intended to promote Secretary Kennedy's policy priorities including "ending America's epidemic of chronic illness by focusing on safe, wholesome food, clean water, and the elimination of environmental toxins." A.R. at NYvK-AR-000016. Nothing in the Administrative Record, however, addresses how the RIFs and reorganization announced in the Communiqué would accomplish those goals.

To the extent that any of the documents described in the bullet points above do not exist, please confirm that is the case in writing. Additionally, I want to emphasize that, to the extent that we have identified certain documents (including the exhibits to this letter) as missing from the Administrative Record, we are not seeking simply the addition of those omitted documents to the Administrative Record. Rather, our concern is that the omission of so many documents strongly indicates that, in this matter, the method used to gather documents for the Administrative Record was deficient.

Plaintiffs also request that Defendants: (1) reproduce Document 6 of the Administrative Record, beginning at NYvK-AR-000023, which appears to be missing page 3; (2) produce the missing spreadsheet referred to at NYvK-AR-000150 ("Please utilize the version attached above."); (3) produce HHS's original message and accompanying attachments approved by OPM in Document 13, beginning at NYvK-AR-000184; and (4) produce unredacted versions of Documents 17, beginning at NYvK-AR-000206, and 18, beginning at NYvK-AR-000366.

To the extent any documents are withheld on the basis of privilege, Plaintiffs request that Defendants produce a privilege log. We understood your position to be that you need not log materials withheld under deliberative process privilege. To the extent that is an accurate characterization of your position, please provide authority for not logging such material. Documents subject to the deliberative process privilege must be both "(1) 'predecisional,' that is, prior to the adoption of the agency policy, and (2) 'deliberative,' that is, related to the policy-making process." *McMahon*, 2026 WL 622484 at *4 (quoting *In re Pharm. Indus. Average Wholesale Price Litig.*, 254 F.R.D. 35, 39 (D. Mass. 2008)); *see also Texaco P.R., Inc. v. Dep't of Consumer Affairs*, 60 F.3d 867, 884 (1st Cir. 1995). We request that all documents withheld for any privilege be recorded in a privilege log. *See Exxon Mobil Corp. v. Mnuchin*, No. 17-cv-1930, 2018 WL 10396585, at *4 (N.D. Tex. June 26, 2018).

Finally, Plaintiffs object to the Certification of Administrative Record submitted with the June 8 production, executed by Christina V. Ballance, Executive Director, Human Capital Accountability, Office of Human Resources for the U.S. Department of Health and Human Services. After Defendants complete the record, Defendants must submit a certification from an individual with knowledge of the agency's search and collection of documents stating that the Department has submitted a *complete* administrative record. A certification that "the attached documents constitute

true and accurate copies of materials that were considered by the Department in connection with the actions challenged in the above-captioned matter" is insufficient.

Plaintiffs appreciate Defendants' consideration of these matters and, as stated at our meet and confer on June 18, would appreciate an update on the status of Defendants' response to this letter no later than Wednesday, June 24.

Sincerely,

Molly Brachfeld
Office of the N.Y. State Attorney General
Assistant Attorney General
molly.brachfeld@ag.ny.gov

Exhibit 1

From: Wade, Jennifer
To: Riley, Rachel (OS)
Subject: FW: Updated Draft Summary of Decisions (confidential)
Date: Tuesday, March 18, 2025 1:02:00 PM

Per our convo – draft as of last night

From: Wade, Jennifer
Sent: Monday, March 17, 2025 9:17 PM
To: Brenner, Sara <Sara.Brenner@fda.hhs.gov>; Traficant, Jim <Jim.Traficant@fda.hhs.gov>
Cc: Hebert, Angelique A. <Angelique.Hebert@fda.hhs.gov>; Keller, Melanie <Melanie.Keller@fda.hhs.gov>; Dawson, Chantal <Chantal.Dawson@fda.hhs.gov>
Subject: Updated Draft Summary of Decisions (confidential)

Good evening,
Sharing our summary of decisions based on today's discussion. We are conducting additional analysis based on this approach. Once the overview approach is set, we will continue to provide you lower-level recommendations for decisioning as we develop options for the future state (for example, how to break out OCMO). We look forward to your feedback.

Current FDA org chart if helpful for reference: FDA Overview Organization Chart | FDA

***

Summary of changes (as of 3/17/2025 afternoon):

FDA will first conduct a large-scale RIF and then realign functions and personnel to the new structure (implement on October 1, 2025).

- FDA's competitive area approach to RIFs:
  - Maintain the Human Foods Program and Drugs Center Office of Managements and execute a RIF for the remaining Office of Managements, including OC (impacting nearly all HR/human capital, HR/classification, procurement, budget/user fee management, financial management, training, travel, facilities and property management, and advisory committee management in the Centers);
  - Maintain the Drugs Center and Tobacco Center Office of Communications and execute a RIF for the remaining (impacting nearly all external communication, public engagement, web, strategic and internal communications, and select FOI/disclosure functions);
  - Reduce lower organization level administrative offices/divisions/staffs, including select parts of central IT (ODT);
  - Reduce the Office of Enterprise Transformation and Office of Performance, Evaluation, and Risk Management (undoing Biden reorg);
  - Maintain OPLIA, OEA, OHCM, OTS, OFEMS, OEI, OSPO, OCC, Office of the Comm Corps, Office of Exec Sec, OCE, OCMO, OMHHE, OWH without change; retain most of OFBA (except for reductions to procurement and payment services).
- FDA's reorganization actions post-RIFs:
  - Merge CDER, CDRH, CBER, animal drug functions from CVM and select functions from

the Office of the Commissioner (e.g., oncology) to establish a new Medical Products Program;

- Merge the Human Foods Program with animal food product functions from CVM to establish a new Foods Program;
- Establish a new Tobacco Products Program;
- Elevate the Office of Criminal Investigations to serve as a direct report to the Commissioner;
- Establish the new Investigations and Imports Program, by realigning FDA's sampling labs out of the Office of the Chief Scientist (undoing Biden reorg) and maintaining inspectorate and imports programs;
- Elevate the CFO and establish the Office of the Chief Financial Officer (OCFO) to report to the Commissioner and expand scope of the Office of Operations to cover non-CFO operational responsibilities (such as advisory committee management with ethics and expanded FDA-University);
- Realign select functions and resources from existing CDER and HFP Office of Managements and CDER and CTP Office of Communications to OO, OCFO, OEA, OPLIA and/or HHS to right-size functions;
- Realign select agency-wide policy and legislative functions and resources to OPLIA;
- Establish a new Office within the Office of the Commissioner to focus on children's health, women's health, rural health, and other crosscutting topics to advance MAHA focused goals, and demote the Office of Minority Health and Office of Women's Health within this new organization with a dotted line to the Commissioner where required by statute;
- Abolish Centers, Office of the Center Directors, select Office of the Commissioner offices, such as the Office of Enterprise Transformation (undoing Biden reorg) and OCMO (undoing Biden reorg) and abolish all office of management organizations agency-wide.

THANK YOU, all, SO much. I was on some calls late last night and have updates/thoughts to exchange today... looking forward to it.

Thank you again.

Good morning everyone. Jenn thanks so much for talking with us last night and working throughout the wee hours on this document. Your work is truly appreciated by ALL. Sara and Jim it is important to note that we are concerned about the last 400 targeted to cut and are worried that the agency will not be able to function correctly under your leadership. There are several tradeoffs that the team and I will be discussing early this morning before finalizing this morning for you to present. Consider the below still draft (almost there).

Thanks for your patience.

Angel

Subject: Updated analysis (confidential)

Good evening,
I'm sharing an update on our analysis.

We met with Rachel this morning to discuss the HHS shared services approach. Based on our discussion, we developed the attached document with recommendations about the future state for HR, Comms/Leg, and Procurement. The list of functions on the far left reflects what she communicated to us, and our recommendation is in blue on the right. We are ready to go through the data with her tomorrow on the workstreams.

Additionally, we revised our approach to meet the revised target of 14,655. The reductions include:

- Communications (-358)
- Targeted Immediate Offices of the Center Directors (-140)
- IT, including some of ODT and some centers (-93)
- Policy (SMEs) (-169)
- OM/crosscutting support functions such as non-SME policy and leg (-1,802)

Employees On Board (Source EHCM - Excluding EI)	Probation	NTE	DRP	VERA-VSIP	Losses	Employees On Board (After Probation, NTE, DRP, VERA-VSIP)	Comms	Center Directors	IT	OC/policy	OM	Losses	FDA Future State	Goal	Remaining
19078	-389	-170	-467	-846	-1872	17206	-358	-140	-93	-169	-1802	-2562	14644	14,661	-17

Please note that as we conducted our analysis, when we got to around 450 left to reduce, we needed to bring in additional areas that we had planned to preserve to support the function of the agency in the future state. For example, we had originally preserved all of CDER's project managers (~120) as they support CDER reviewers in tracking and managing user fee requirements such as ensuring that the agency is processing applications on time and in accordance with regulation. We also reduced what we had preserved from the HFP and CDER Office of Management to "right-size" the central FDA functions like operations and budget (~150) and reduced other executive program operations who coordinates SME work in the Centers. Finally, we had reviewed all policy/leg functions and organizations across FDA to identify which are SME-focused and which are more general regulation processing. Given the target, we still needed to reduce all Center policy teams to retain only a centralized function in ORLIA. This included, for example, reducing the specific policy functions related to foods (dairy safety policy, processed food and beverages policy, etc.) and drugs (compounding, generic drugs).

If helpful, we can provide you the options to finalize the priorities for the RIF competitive areas and identify these types of potential considerations given there are potential tradeoffs. We are meeting internally in the morning to review the geographic dimension based on our discussion with Rachel and that may also provide us an alternative approach to close the gap to the target.

We recognize we need to settle this ASAP and look forward to our discussion tomorrow.

Thanks,
Jen

Subject: RE: FDA Draft Future State Org Charts - Planning (confidential)
Date: Monday, March 31, 2025 3:43:20 PM
Attachments: FDA_proposed_2025.03.31_3.pdf

Hi Sara,

In follow up to our conversation, I'm sharing key points to support your conversation with HHS:

- Attached is a simple high-level future state chart. FDA may decide to change the titles shown (e.g., ODT), but this reflects is our understanding of what IOS agreed to for the future state structure.
- Key points regarding reorganization process:
  - FDA is fully committed to expediting a package to implement the future state as soon as we can, and we want to raise a few areas for consideration as we work to build the proposal and prepare the agency for implementation.
  - The typical reorganization development and clearance process is 6-18 months. Typically, we develop a proposal, clear it through FDA, HHS, and OMB and then formally notify Congress. After notification, we announce the new structure to staff.
  - HHS is required by statute to notify Congress regarding FDA's reorganization proposals prior to implementation. FDA has a 30-day waiting period, while most other HHS OPDIVs have a 15-day period. The notification package to Congress includes a letter from the Secretary, details of all changes (organizational charts) including FTE and funding realignments. NOTE: FDA has always waited to implement until the Appropriations Committees gave their 'approval' of the proposed changes.
  - To build the formal reorganization package, FDA will need to take several steps, including:
    - Building future state structure and confirming all policy decisions through the Commissioner;
    - Realigning employees to the future state organizations;
    - Assessing impact to FDA's budget, including potential impacts to user fee triggers, and building budget materials for the package to Congress; and
    - Developing detailed reorganization package materials for HHS/OMB review (package of this size will be 600+ pages).
  - At the same time, we also need to rewire our processes given the significant impact to our operations.

Thank you,
Jen

Subject: FDA Draft Future State Org Charts - Planning (confidential)

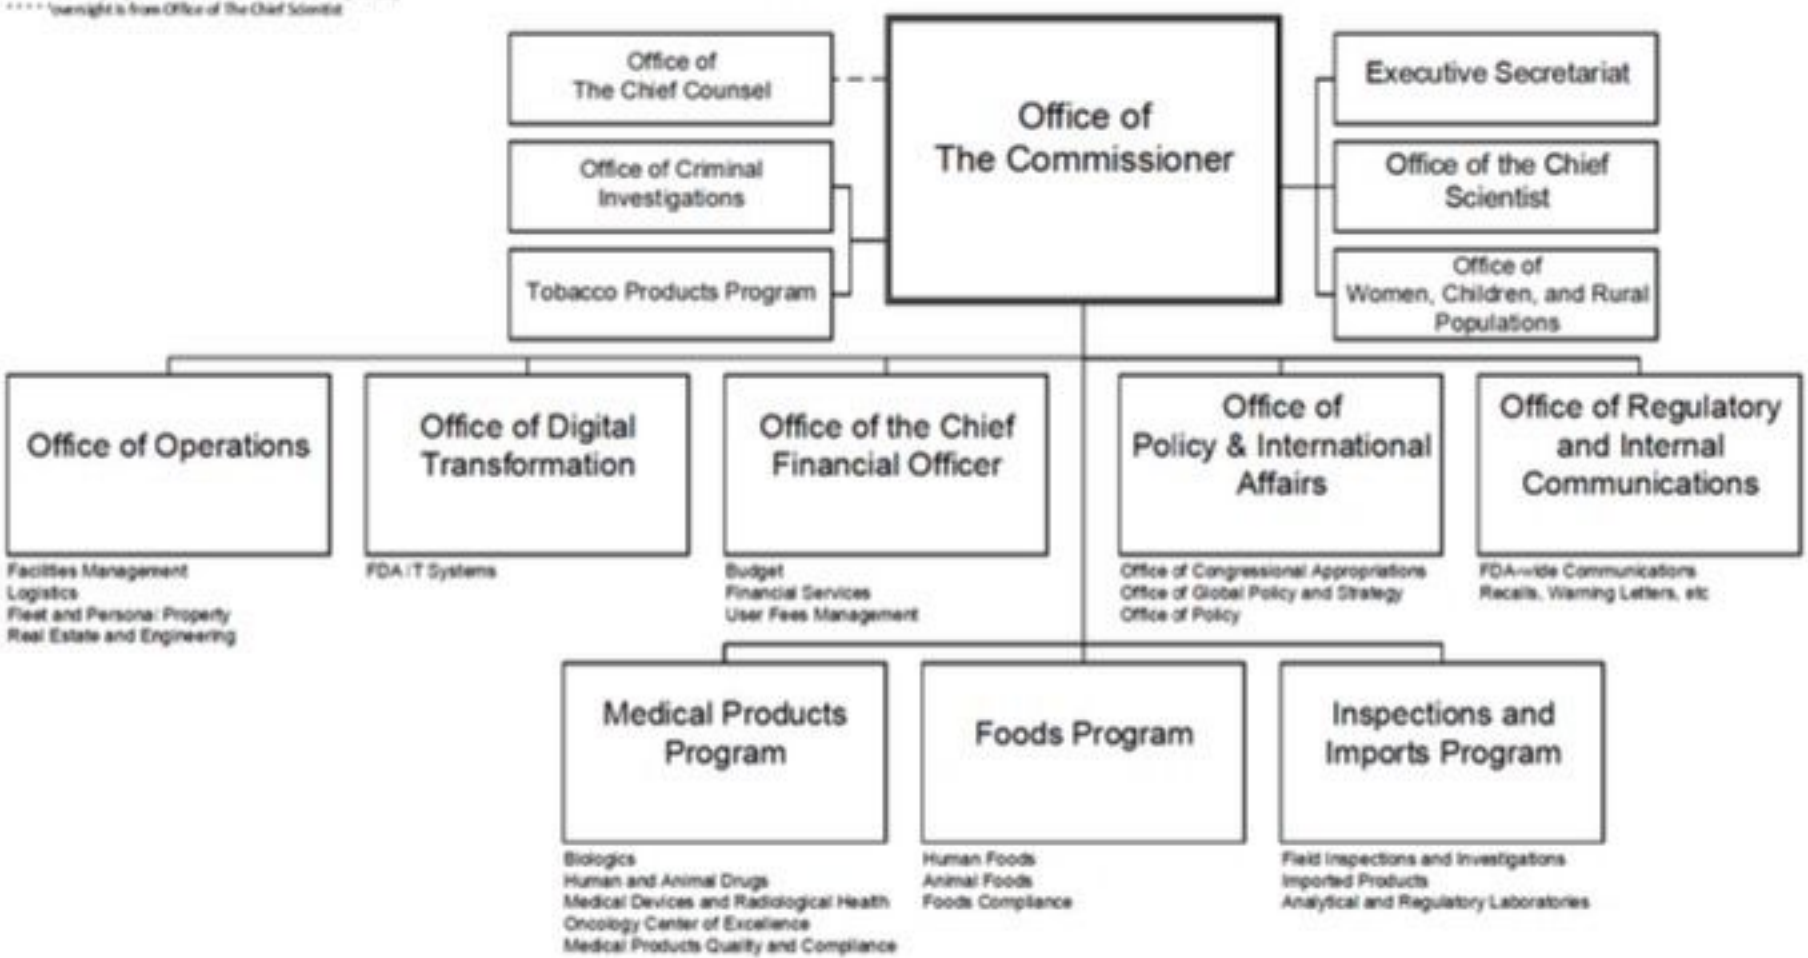
Good afternoon,

As requested, attached are the draft versions of the future state organizational charts.

The square text boxes capture key questions and ideas for additional discussion.

Once we have the final post-RIF staffing and positions identified, we will identify all of the positions for realignment based on function. This will inform the estimated size of organizations and associated structure.

Big thank you to Mike Gleason for his excellent work at pulling these drafts together so quickly.



Thanks,

Jen

Predecisional/Confidential Draft

Sara –

Please find the spreadsheet discussed in the meeting today attached. By Wednesday COB, can you please:

1) Review Tab "OpDivOverview", which summarizes every office and FTE count in your division. Please mark an X in Column G to identify any offices that you think could be reduced / eliminated not already identified on the "Programs" tab.

2) Review the five tabs below and please denote whether to "Delete" an individual in Column G if the FTE does other work in that area or "Add" an individual in Column G if an individual works in that area but is currently not listed on the tab; no action is needed if an employee is appropriately listed on a tab

a. Procurement (list based on all 1102 occs codes)

b. IT (list based on all 1530,1550,1560,2210 occs codes)

c. HR (list based on all 201 and 203 occs codes)

d. External Affairs (list based on office names; may be less accurate)

e. Policy (list based on office names; may be less accurate)

f. Regions (all FTE whose duty station is coded as Boston, NYC, Chicago, Seattle, or San Francisco) - Please denote in Column H any employees who are either not actually located in the region or who perform a critical function and should not be included in any future reduction in force

3) Let me know when you are free for 90 minutes WED to get your feedback on some of the initial, more detailed ideas around each of the shared services – we want to make sure we incorporate your advice and feedback into the plan for each

Thank you,

Rachel

Exhibit 4

From: Wade, Jennifer
To: Riley, Rachel (OS/ASA)
Cc: Keller, Melanie (FDA/OC); Brenner, Sara (FDA/OC); Hebert, Angelique A. (FDA/OC)
Subject: FDA External Affairs Review
Date: Saturday, March 22, 2025 9:18:02 PM

Hi Rachel,

I'm following up on behalf of Sara regarding the Communications Offices and FDA's proposed approach.

It looks like the list included in Paige's email reflects the organizations captured in the list we received regarding the shared services workstreams.

FDA proposes to realign the "OFC OF LEGISLATION" personnel to HHS to support the shared services congressional function. This is the Office of Legislation currently within the Office of the Commissioner. We identified staff within that tab in our submission to you.

For comms, FDA proposed to reflect a realignment of a combination of FDA SME communication personnel from our Centers along with the central OC communications office. We will have a continued and ongoing need to have that SME support for statutory functions related to recalls and product information alerts, so we recommend that HHS staff this office based on this ongoing statutory requirement and critical need to issue information to consumers. We had originally recommended right-sizing the comms function to ~50 total for FDA. The "OFC OF COMMUNICATIONS" on that list was from CDER, so it is not the organization we would propose to realign to HHS in full.

For FOI/disclosure/privacy, we had discussed retaining that function within FDA and not realign that function under the HHS umbrella. Through our plan, FDA will significantly reduce the number of FOI personnel across the agency, as many of these FTE are within the Office of Managements or the Office of Communications and will be impacted by the proposed RIFs. Given the need to coordinate directly with program staff and our general counsel's office our plan is for FDA to retain a smaller footprint of personnel, which would include the current OC FOI teams. If these functions were to shift to HHS for comms, please note that the volume of work is significant and will need SME expertise given the ongoing litigation and ongoing incoming requests from industry and other stakeholders for sensitive information about FDA's regulatory work.

Let us know if you have other questions.

Thanks,
Jen

Predecisional Internal Confidential

From: Decker, Paige <Paige.Decker@mail.house.gov>

Sent: Saturday, March 22, 2025 1:19 PM
To: Brenner, Sara <Sara.Brenner@fda.hhs.gov>
Cc: Riley, Rachel (OS) <Rachel.Riley@hhs.gov>
Subject: [EXTERNAL] FDA External Affairs Review

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon Sara,

I hope you're having a nice weekend. We are completing a final review of the offices outlined for the future state.

Below is the list of external affairs offices FDA supplied for review. The external affairs offices highlighted in green would be retained while the ones in yellow would not. Please confirm this path forward is a workable approach to maintain the streamlined functionality of FDA external affairs:

COMMUNICATIONS & OUTREACH STF
COMMUNICATIONS BR
CONSUMER EDUCN BR
DIV OF COMMUN & CONSMR AFFAIRS
DIV OF DIGITAL ONLINE COMMS
DIV OF EXT COMMUN & CONSMR EDU
DIV OF HEALTH COMMUNICATIONS
DIV OF WEB, VISUAL & VR COMMUN
EDUCATION & OUTREACH BR
EXTERNAL COMMUNICATIONS BR
FREEDOM OF INFORMATION BR
INTRNL COMMUN STF
OFC OF COM, OUTREACH & DEV
OFC OF COMMUNICATIONS
OFC OF LEGISLATION
POLICY & COMMUNICATIONS BR
PROACTIVE DISCLOSURE BR
PUB ENGAGEMENT BR
PUB INFO BR
SOCIAL MEDIA & ENGAGEMENT BR
STRTGC COMMUN BR
WEB BR

Most importantly, does what is included above meet the needs for the Office of the Director?

And finally, I am curious if FDA has additional FOIA divisions/branches than the ones provided

(comprised of a combined 34 FTEs between FOIA and the "Proactive Disclosure Branch")? If so, please let Rachel and I know how many individuals are in those respective offices at your earliest convenience—**having this information to review by today would be most preferable**. And finally, please let me know if I should *not* capture "Proactive Disclosure Branch" as a FOIA-related office.

Thanks so much for your quick feedback.

Chat soon,

Paige Decker
Deputy Staff Director
House Budget Committee Majority

Attachments: FDA Shared Services - Recommendation 2025.03.19.docx

---

Jen – question on this. We'd (NIH, CDC, FDA along with HHS) envisioned the below – what has changed/is different from the plan now (partly summarized in your attachment)?
Talking through may be faster… will find time to talk with you all this morning.
TY!

The following functions could be centralized in a **shared service model at the HHS level**:

- Ethics
- Privacy
- Freedom of Information
- Records Management
- Equal Employment Opportunity
- HR: Employee and Labor Relations
- HR: Training & Leadership Development, HR Operations (processing, benefits, retirements)
- Reasonable Accommodation and Conflict Prevention Services
- IRB → NIH services all
- Publication subscriptions, library functions (e.g. Medscape, peer-reviewed journals, WebMD) → NIH services all

The following functions could be consolidated agency-wide by eliminating duplicative functions and positions (currently replicated at the Center level) **at an OpDiv (Agency) level:**

- Budget Formulation & Execution (Budget Authority & User Fees)
- Travel
- Purchase Card
- Contracts and Agreements
- Grants
- Facilities
- Time Reporting
- Reorganizations
- Financial Management (Accounting, Financial Reporting)
- HR: Title 21 Hiring, Compensation & Operations
- HR: Executive Resources
- HR: Performance and Awards
- HR: Work/Life Programs
- HR: ITAS (Timekeeping) and Payroll
- Facilities Management
- Program Evaluation

Subject: Shared Services (confidential)

Hi Sara,

Angel mentioned that you wanted to see some of the additional background we have on the shared services topic. Attached is the internal summary document I had sent to you last night with minor changes based on our discussion today. The only change to our approach was related to security vetting to be realigned to HHS versus retained at FDA. Popping this to the top of your inbox in case it's helpful.

Also – I quickly reviewed the yellow highlights in the IT tab on the sheet to Rachel. We'll use that to develop an initial pass for IT and connect back with you on next steps.

Have a good evening,

Jen

FDA's recommendation for Shared Services approach

	Human Resources	FDA Current State*	FDA Proposed to Realign to HHS	FDA Proposed to Retain	Recommendations:
HHS-Level Roles	Employer of Record	-	-	-	
	HR Data System	10	-	10	HR Data System: Local systems coordination will be needed to facilitate 2025 reorganization realignment; future state FDA to repurpose personnel within OO.
	EEO	12	-	-	
	Reasonable Accommodations	11	-	11	
	Labor Relations	6	6	-	
	Security Vetting	12	12	-	
	Benefits & Retirement	10	-	10	
Division-Level Roles	Hiring	203	-	203	Division-Level: FDA Office of Talent Solutions and Office of Human Capital Management are already lean to service agency of 15K. FDA proposes to repurpose most of OTS and OHCM to service the agency in future state (~200).
	Customer Service	-	-	-	
	ITAS & Payroll (not system)	7	-	7	
	Training & Development (specific to Division)**	11	-	11	
	Travel	23	-	23	
	Performance and Reviews	7	-	7	

*Only OO shown for comparison. Does not include any collateral OM/administrative functions in the centers, as these functions will be eliminated.
**Showing OO central coordination only. FDA will retain select SME training expertise. Biggest driver of FTE count is inspectorate training and credentialing.
FDA could reallocate up to 10 HR liaisons from Centers to HHS level.

FDA's recommendation for Shared Services approach

	External Affairs	FDA Current State	FDA Proposed to Realign to HHS	FDA Proposed to Retain	Recommendations:
HHS-Level Roles	Employer of Record				
	Communications	400+	20	50	Congressional Relations: FDA to retain small legislative affairs team within OPLIA to serve as SMEs for ASL/ASFR on FDA programs on deliverables such as QFRs, testimony, and hearing prep Q&As (~25). FDA to retain small IGA footprint within OPLIA.
	Congressional Relations	100+	30	25	
	State & Local Outreach	4	-	4	
Division-Level Roles	Coordination with Division Leadership	*#s reflected above*			Communications: FDA to retain small communications footprint to coordinate with programs on statutory notification communications for topics such as recalls and facilitate clearance with ASPA (~40). FDA will retain right-sized FOI/records office within OO (~80) - this function is within some of the Center Comms Offices.
	Data Gathering				

*400 for communications is reflected twice on table

FDA's recommendation for Shared Services approach

	Procurement	FDA Current State	FDA Proposed to Realign to HHS	FDA Proposed to Retain	Recommendations:

Re: June 22, 2026 Letter regarding *New York, et al. v. Robert F. Kennedy, Jr., et al.*, No. 1:25-cv-196 (D.R.I.)

Dear Ms. Brachfeld:

On behalf of Defendants U.S. Department of Health and Human Services (HHS) and Robert F. Kennedy, Jr., in his official capacity, I write in response to your letter, dated June 22, 2026 (Letter), regarding the administrative record in *New York, et al. v. Robert F. Kennedy, Jr., et al.*, No. 1:25-cv-196 (D.R.I.). Defendants produced that record to Plaintiffs on June 8, 2026.

Defendants disagree that this administrative record must include all of the materials you have identified in your Letter. As you know, judicial review under the Administrative Procedure Act (APA) is "based on the full administrative record that was before the [agency] at the time [it] made [its] decision." *Citizens to Preserve Overton Park, Inc. v. Volpe*, 401 U.S. 402, 420 (1971). Critically, courts in the First Circuit have held that an agency's "designation of the Administrative Record, like any established administrative procedure, is entitled to a presumption of regularity." *Roe v. Mayorkas*, No. 22-cv-10808, 2024 WL 5198705, at *7 (D. Mass. Oct. 2, 2024) (quoting *Oceana, Inc. v. Ross*, 920 F.3d 855, 865 (D.C. Cir. 2019)). To rebut that presumption, plaintiffs must provide "clear evidence" that the administrative record is incomplete. *Id.* (citation omitted).

Courts in this circuit have also acknowledged that records protected by the deliberative process privilege are not properly part of the administrative record. *See Roe*, 2024 WL 5198705, at *9; *Sierra Club v. U.S. Army Corps of Eng'rs*, No. 2:20-cv-00396, 2022 WL 2953075, at *2 (D. Me. Jul. 26, 2022) ("Documents within the deliberative process privilege are ultimately not included within the version of the administrative record that a court examines during judicial review of agency action."); *see also, e.g.*, *Town of Norfolk v. U.S. Army Corps of Eng'rs*, 968 F.2d 1438, 1458 (1st Cir. 1992) (affirming exclusion from administrative record of letter that was covered by deliberative process privilege). A document is covered by the deliberative process privilege if it is (1) predecisional and (2) deliberative in that the document "reflect[s] advisory

opinions, recommendations, and deliberations comprising part of a process by which governmental decisions and policies are formulated." *U.S. Fish & Wildlife Serv. v. Sierra Club, Inc.*, 592 U.S. 261, 267 (2021).

Defendants followed those principles when compiling the administrative record in this case. Accordingly, the administrative record contains those materials "directly or indirectly considered by the agency decision-makers," *Roe*, 2024 WL 5198705, at *7, except those materials protected by the deliberative process privilege.[1] Plaintiffs' Letter questions that compilation and "whatever scope and method [Defendants] used" based on the absence of particular documents, but those documents demonstrate the deliberative nature of the additional information plaintiffs seek. For example, Exhibit 2 to Plaintiffs' Letter includes an email thread about "draft" future organizational charts for HHS that are predecisional and reflect mere recommendations. *See* Letter, Ex. 2. Similarly, Exhibit 4 reflects recommendations about a "proposed approach," a prototypical recommendation that would be protected by the deliberative process privilege. *See Ctr. for Pub. Integrity v. U.S. Dep't of Def.*, 486 F. Supp. 3d 317, 336–37, 346 (D.D.C. 2020) (finding reports "contain[ing] advice on actions that should be taken," and providing subordinate's "determination of which issues are most relevant and important for the department" covered by deliberative process privilege). That these documents and others like them were not included reflects that the Department appropriately included only non-deliberative materials in the administrative record. While Plaintiffs identify other categories of documents they wish to see in the record, such as "briefings" attended by agency decisionmakers, Letter at 4, "communications to or from" various DOGE personnel, *id.* at 5–6, or "financial or cost-saving analyses," *id.* at 6, Defendants have, to the best of their knowledge after a careful search and review, provided all non-deliberative materials that were considered in connection with the challenged action, *see Oceana*, 920 F.3d at 865 ("[P]redecisional and deliberative documents are not part of the administrative record.").

Plaintiffs are correct that some documents related to the actions challenged in this lawsuit were produced in proceedings before the Merit Systems Protection Board (MSPB) regarding the Reduction-in-Force (RIF) of employees in the Food and Drug Administration. In that proceeding, however, the agency was *ordered* to provide relevant documents through a court-administered process, and the agency explicitly noted that its provision of these documents to the Court did not constitute a waiver of the deliberative process privilege. Such circumstances do not constitute a waiver of the deliberative process privilege, and privileged documents produced after an order in the MSPB proceedings are still not part of this administrative record. *See Heffernan v. Azar*, 317 F. Supp. 3d 94, 120 (D.D.C. 2018) (waiver of deliberative process privilege occurs when disclosure is made to "unnecessary third parties").

Plaintiffs also request the Agency RIF and Reorganization Plans (ARRPs) for HHS, *see* Letter at 7, but those documents are also protected by the deliberative process privilege. The ARRPs are not final; they reflect the deliberations and thinking at the time regarding HHS's ongoing reorganization efforts. Although one single district court in the First Circuit has held that an ARRP for a different agency is not covered by the deliberative process privilege, *see New York v. McMahon*, Civ. A. Nos. 25-10601, 25-10677, 2026 WL 622484, at *4 (D. Mass. Feb. 11, 2026),

[1] Notwithstanding Defendants' production of the administrative record, they maintain that the March 27 press release that is challenged in this case is not a final agency action under the APA.

that decision involved a different timeline and action than the challenged action here, *see id.* (describing how that ARRP was issued after the Department of Education had announced its RIF).

In short, Plaintiffs have identified documents that are covered by the deliberative process privilege and that are not properly part of the administrative record.

Defendants also respond below to some specific alleged deficiencies raised in Plaintiffs' Letter:

- Defendants will prepare for production on July 2, 2026, the original message and accompanying attachments approved by the Office of Personnel Management in Document 13. Defendants will also file a new index reflecting this addition to the administrative record.

- Plaintiffs ask for reproduction of Document 6 based on an allegedly missing page. *See* Letter at 8. Defendants have reviewed that document, and the version in the administrative record is the same version that was considered by the relevant decisionmakers.

- Plaintiffs seek production of a spreadsheet referred to in NYvK-AR-000150. *See id.* That spreadsheet is covered by the deliberative process privilege and not appropriately part of the administrative record.

- Plaintiffs request that Defendants produce unredacted versions of Documents 17 and 18. *See id.* Those records contain confidential personnel records, including the names, email addresses, and ID numbers of agency employees. Such confidential personal information of agency employees is private, sensitive, and irrelevant to the substance of Plaintiffs' challenge. Plaintiffs challenge the decision to RIF employees in particular offices of HHS and, for that reason, Defendants have not redacted the organizational code associated with each entry in Documents 17 and 18. Those codes denote where each person was employed at the time of the RIF. The identity of these persons is wholly irrelevant to Plaintiffs' challenge. If Plaintiffs disagree, please provide further information or explication for Defendants' consideration, and we can consider it.

Plaintiffs also request that Defendants provide a privilege log for any documents withheld from the administrative record on the basis of privilege. *See* Letter at 8. A privilege log is not required here. As the D.C. Circuit has held, materials covered by the deliberative process privilege "are not required to be placed on a privilege log," "absent a showing of bad faith or improper behavior." *Oceana*, 920 F.3d at 865; *see also id.* ("[P]redecisional and deliberative documents are not part of the administrative record to begin with, so they do not need to be logged as withheld from the administrative record." (internal quotations omitted)). "Rather than submitting a privilege log, on APA review, the agency must submit a proper certification that the record is complete, which serves as formal representation by the agency that it duly evaluated all predecisional documents before excluding them from the record." *Id.* (alteration and citation omitted). The Ninth Circuit has similarly held that deliberative-process materials do not need to be included in a privilege log. *See Blue Mountains Biodiversity Project v. Jeffries*, 99 F.4th 438, 445 (9th Cir. 2024). At least one court in this circuit has similarly declined to require a privilege

log in an APA case because there was no "showing of bad faith or improper behavior" by the agency. *Roe*, 2024 WL 5198705, at *11. In addition, the obligation to provide a privilege log arises under the rules of discovery (Federal Rule of Civil Procedure 26(b)(5)(A)). Submitting an administrative record is not equivalent to engaging in discovery, and Defendants are not required to produce a log.

Lastly, Plaintiffs also assert that the certification provided by Defendants is insufficient. *See id.* at 9. Regarding the certification, Ms. Ballance is the Executive Director of the HHS Office of Human Capital Accountability and thus is an appropriate individual to certify an administrative record in litigation challenging agency personnel action—in reliance, of course, on the agency team responsible for the record-by-record review of potentially relevant materials. Defendants do not concede that the language of the original certification is deficient in any way—indeed, "no standard or pattern certification language has been established with respect to administrative records; all that is presently required is a proper certification that the record is complete." *Kiakombua v. McAleenan*, Civ. A. No. 19-cv-1872, 2019 WL 4051021, at *2 (D.D.C. Aug. 27, 2019) (Jackson, J.). The language of Ms. Ballance's certification is similar to language used to certify administrative records in other cases. *See id.* ("Likewise, the statement that, 'to the best of my knowledge, the attached documents constitute a true and correct copy of materials relating to the captioned case,' has been found to suffice."). Nevertheless, Defendants will file a revised certification from Ms. Ballance along with the new index in an effort to resolve this issue.

Sincerely,

/s/ Christian Dibblee

Re: *New York v. Robert F. Kennedy, Jr.*, Case No. 1:25-cv-00196 (D.R.I.)

Dear Mr. Dibblee,

I write on behalf of the plaintiffs in the above-captioned matter ("Plaintiffs" or the "Plaintiff States") in response to Defendants' letter dated July 2, 2026 ("Defendants' Letter"), which responded to Plaintiff States' letter, dated June 22, 2026, concerning deficiencies in the Administrative Record ("Plaintiffs' Deficiency Letter"). Given the extent of disagreement between the parties, Plaintiff States anticipate moving for discovery. However, in an attempt to avoid unnecessary motion practice, Plaintiff States are sending this letter to confirm their understanding of certain of Defendants' positions as described in Defendants' Letter.[1]

- Lack of Documents Relied Upon For RIFs: Plaintiffs' Deficiency Letter stated that "[t]he Administrative Record fails to provide documents relied upon in HHS's decision to announce and implement the March 27 Communiqué" because it contains "no information that the agency relied upon in reaching the decision to issue the specific RIFs at issue, when to issue them, which employees would be RIFed, or which divisions of the Department would be impacted by RIFs." Plaintiffs' Deficiency Letter at 2. Defendants' Letter stated

[1] Plaintiffs have not included in this letter requests to which Defendants gave a clear and specific response in Defendants' Letter. Plaintiff States reserve all rights to challenge those alleged deficiencies not addressed here and their omission does not imply that Plaintiffs accept or are in agreement with Defendants' responses to Plaintiffs' statements regarding those issues contained in Plaintiffs' Deficiency Letter.

that "the administrative record contains those materials 'directly or indirectly considered by the agency decision-makers,' except those materials protected by the deliberative process privilege." Defendants' Letter at 2. Plaintiffs understand this to mean that Defendants take the position that all documents relied upon, directly or indirectly, by agency decisionmakers regarding the RIFs at issue have been included in the Administrative Record, except those documents which Defendants contend are subject to the deliberative process privilege. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Lack of Documents Relied Upon for Reorganization: Plaintiffs' Deficiency Letter stated that "[t]he Administrative Record also does not contain documents that relate to the reorganization announced in the March 27 Communiqué, including any materials relied upon to decide which component agencies would be eliminated, reorganized, or created as new component agencies." Plaintiffs' Deficiency Letter at 2. Defendants' Letter did not explicitly address the agency reorganization aspect of the March 27 Communiqué (with the exception of a brief mention of Agency RIF and Reorganization Plans ("ARRPs"), Defendants' Letter at 2), stating only that "the administrative record contains those materials 'directly or indirectly considered by the agency decision-makers,' except those materials protected by the deliberative process privilege." Defendants' Letter at 2. Plaintiffs understand this to mean that Defendants take the position that all documents relied upon, directly or indirectly, by agency decisionmakers regarding the agency reorganization at issue have been included in the Administrative Record, except those documents which Defendants contend are subject to the deliberative process privilege. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Scope and Method of Collection: Plaintiffs' Deficiency Letter indicated "concern[] that whatever scope and method [Defendants] used to gather the Administrative Record was inadequate" and "request[ed] that you review the methodology used and take all necessary steps to ensure that the Administrative Record is complete as to both the RIFs and reorganization that are the subject of this litigation." Plaintiffs' Deficiency Letter at 3. Defendants did not respond substantively to Plaintiffs' concern regarding the scope and method of document collection, but, instead, took issue with the relevance of specific publicly available documents cited by Plaintiffs as examples supporting their contention that the scope and method of collection employed by Defendants in compiling the Administrative Record was deficient.[2] Defendants' Letter at 2. Plaintiff States understand Defendants to take the position that any apparent omissions from the Administrative Record are due to claims of deliberative process privilege, and therefore Defendants refuse

[2] Plaintiff States note that Plaintiffs' Deficiency Letter proactively addressed this possibility by stating that "to the extent that we have identified certain documents (including the exhibits to this letter) as missing from the Administrative Record, we are not seeking simply the addition of those omitted documents to the Administrative Record. Rather, our concern is that the omission of so many documents strongly indicates that, in this matter, the method used to gather documents for the Administrative Record was deficient." Plaintiffs' Deficiency Letter at 6.

to review the methodology used to gather the record. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Identities of Agency Decisionmakers: Plaintiffs' Deficiency Letter requested that Defendants amend the Administrative Record to identify the decisionmaker(s) of the March 27 Communiqué. Plaintiffs' Deficiency Letter at 3. Defendants' Letter did not address this request. Therefore, Plaintiff States understand that Defendants decline to identify the decisionmaker(s) of the March 27 Communiqué. If Defendants' position is materially different from Plaintiffs' understanding, please clarify Defendants' position in writing.

- Briefing Materials: Plaintiffs' Deficiency Letter stated that "[t]he Administrative Record fails to identify . . . whether any briefings occurred with [agency] decisionmakers at which materials and information was provided . . . ." Plaintiffs' Deficiency Letter at 3. Defendants did not answer Plaintiff States' question regarding whether or not any such briefings occurred. Nor did they indicate whether or not materials or information were provided at any such briefings. Instead, Defendants stated that "Defendants have, to the best of their knowledge after a careful search and review, provided all non-deliberative materials that were considered in connection with the challenged action." Defendants' Letter at 2 (citation omitted). Plaintiffs understand that Defendants are refusing to confirm or deny: (1) whether any such briefings occurred; and (2) if any such briefings occurred, whether they were accompanied by written materials. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.[3]

- DOGE Materials: Based on publicly available information suggesting close coordination between Secretary Kennedy, Elon Musk and DOGE personnel regarding the March 27 Communiqué, Plaintiffs' Deficiency Letter requested the inclusion of "documents recording communications with DOGE and materials prepared by DOGE and considered by HHS decisionmaker(s)." Plaintiffs' Deficiency Letter at 4. Defendants did not respond substantively to this request, but instead stated that "Defendants have, to the best of their knowledge after a careful search and review, provided all non-deliberative materials that were considered in connection with the challenged action." Defendants' Letter at 2 (citation omitted). Plaintiffs understand that Defendants are refusing to confirm or deny whether any such communications or materials exist. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Materials Concerning Efficiency, Costs, and Waste: Based on representations made by Defendants that the RIFs and restructuring announced in the March 27 Communiqué would increase efficiency while eliminating redundancies and reducing costs and combatting waste, fraud, and abuse, Plaintiffs' Deficiency Letter requested that Defendants produce "financial or cost-saving analyses, redundancy analyses, analyses of reliance interests, or any other relevant material" as part of the Administrative Record. Plaintiffs' Deficiency

[3] Plaintiff States reiterate their request that "[t]o the extent that any of the documents described in the bullet points [in the Deficiency Letter] do not exist, please confirm that is the case in writing." Plaintiffs' Deficiency Letter at 6.

Letter at 5. Defendants did not respond substantively to this request, but instead stated that "Defendants have, to the best of their knowledge after a careful search and review, provided all non-deliberative materials that were considered in connection with the challenged action." Defendants' Letter at 2 (citation omitted). Plaintiffs understand that Defendants are refusing to confirm or deny whether any such materials were created or received by the Department. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Materials Concerning Statutorily Mandated Services: Plaintiffs' Deficiency Letter stated that, apart from two documents (at NYvK-AR-000023 to -000101), "the Administrative Record contains no materials upon which decisionmakers might have relied to analyze which functions of any of the impacted component agencies of the Department were statutorily mandated . . . ." Plaintiffs' Deficiency Letter at 5. Defendants did not acknowledge this issue in their letter. However, based on Defendants' statement that "Defendants have, to the best of their knowledge after a careful search and review, provided all non-deliberative materials that were considered in connection with the challenged action," Defendants' Letter at 2 (citation omitted), Plaintiffs understand that Defendants are refusing to confirm or deny whether any such materials were created or received by the Department. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Materials Concerning Other Services Identified by the Department: Plaintiffs' Deficiency Letter stated that the Administrative Record contained no materials considered by decisionmakers regarding certain Departmental services (including Medicare and Medicaid services, food and drug reviews and inspections, clinical trials, and NIOSH functions) that the Department had stated publicly would not be affected by the March 27 Communiqué. Plaintiffs' Deficiency Letter at 5. Defendants did not acknowledge this issue in their letter. However, based on Defendants' statement that "Defendants have, to the best of their knowledge after a careful search and review, provided all non-deliberative materials that were considered in connection with the challenged action," Defendants' Letter at 2 (citation omitted), Plaintiffs understand that Defendants are refusing to confirm or deny whether any such materials were created or received by the Department. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Materials Concerning Secretary Kennedy's Policy Priorities: Plaintiffs' Deficiency Letter stated that "Defendants have represented that the March 27 Communiqué was intended to promote Secretary Kennedy's policy priorities" but "[n]othing in the Administrative Record [] addresses how the RIFs and reorganization announced in the Communiqué would accomplish those goals." Plaintiffs' Deficiency Letter at 6. Defendants did not acknowledge this issue in their letter. However, based on Defendants' statement that "Defendants have, to the best of their knowledge after a careful search and review, provided all non-deliberative materials that were considered in connection with the challenged action," Defendants' Letter at 2 (citation omitted), Plaintiffs understand that Defendants are refusing to confirm or deny whether any such materials were created or received by the

Department. If Defendants' position is materially different than Plaintiff States understand, please clarify Defendants' position in writing.

- Privilege Log: Plaintiffs' Deficiency Letter requested that Defendants log any documents withheld from the Administrative Record for any asserted privilege. Plaintiffs' Deficiency Letter at 6. Defendants' letter indicated both that (1) documents withheld for deliberative process privilege need not be logged absent a showing of bad faith or improper behavior, *and* (2) that Defendants need not produce a privilege log because this case arises under the APA. We ask that you confirm whether you are withholding documents solely on the basis of the deliberative process privilege, as your letter suggests.

Please respond to this letter by Monday July 27, 2026,

Sincerely,

Molly Brachfeld

Re: July 20, 2026 Letter regarding *New York, et al. v. Robert F. Kennedy, Jr., et al.*, No. 1:25-cv-196 (D.R.I.)

Dear Ms. Brachfeld:

On behalf of Defendants U.S. Department of Health and Human Services (HHS) and Robert F. Kennedy, Jr., in his official capacity, I write in response to your letter, dated July 20, 2026 (Letter), regarding the administrative record in *New York, et al. v. Robert F. Kennedy, Jr., et al.*, No. 1:25-cv-196 (D.R.I.). Defendants produced that record to Plaintiffs on June 8, 2026. Plaintiffs previously wrote Defendants on June 22, 2026, regarding the contents of the administrative record. Defendants responded on July 2, 2026.

Plaintiffs say in their letter that they wish to "confirm their understanding of certain of Defendants' positions" as conveyed in Defendants' July 2 letter. Letter at 1. Defendants stand on the positions expressed in their July 2 letter and do not agree with any characterizations in Plaintiffs' letter that go beyond or differ from what Defendants previously expressed. More broadly, Defendants maintain that the administrative record produced on June 8, as supplemented with one additional document on July 2, contains all non-privileged documents that the decisionmakers at the Department of Health and Human Services directly or indirectly considered before undertaking the actions challenged in this lawsuit.[1] Although Plaintiffs repeatedly state that they understand Defendants to be "refusing" to provide certain information or confirm the existence of certain materials, any materials protected by the deliberative process privilege are not part of the administrative record and need not be logged. Thus, Defendants maintain that the record is complete and that no acknowledgement of the existence of other materials is either required or appropriate in this context.

[1] Defendants again make clear their position that the March 27, 2025, press release is not a final agency action under the APA.

Defendants do wish to clarify their position as to Plaintiffs' request for a privilege log. Defendants reiterate the position expressed in their July 2 letter that materials protected by the deliberative process privilege are not required to be placed on a privilege log. *See* Defs.' July 2 Letter at 3–4. Defendants do not agree with Plaintiffs' characterization of their position to the extent inconsistent with the July 2 letter; in particular, Defendants did not take the position that a privilege log is not required "because this case arises under the APA." Letter at 5. Defendants further note that the administrative record also does not include documents protected by the attorney-client privilege and/or the work product doctrine. As with documents protected by the deliberative process privilege, documents protected by the attorney-client privilege are not part of the administrative record. *See Town of Norfolk v. U.S. Army Corps of Eng'rs*, 968 F.2d 1438, 1458 (1st Cir. 1992). Neither are documents protected by the work product doctrine. *See, e.g.*, *Sendra Corp. v. Magaw*, 1995 WL 434451, at *1 (D.D.C. July 13, 1995). Even if a log were generally required for attorney-client privileged or work-product documents, however, a log is not required here because to the best of Defendants' knowledge, all documents withheld by Defendants as attorney-client or work-product protected are also protected under the deliberative process privilege. Accordingly, Defendants would need to produce a privilege log as to those documents only upon a "showing of bad faith or improper behavior," which Plaintiffs have not made. *Roe v. Mayorkas*, No. 22-cv-10808, 2024 WL 5198705, at *11 (D. Mass. Oct. 2, 2024); *see also* Defs.' July 2 Letter at 3–4.

Other than the privilege question raised on page 5 of Plaintiffs' July 20 Letter, Defendants do not understand that Letter to be raising any new questions. However, to the extent Plaintiffs have any additional concerns, Defendants remain open to discussing them. If Plaintiffs still intend to move for extra-record discovery, Defendants would welcome the opportunity to confer about a briefing schedule for Plaintiffs' motion.

Sincerely,

/s/ Christian Dibblee

HHS RIF FDA CDER, **APPELLANT,** **v.** **U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES,** **AGENCY.**	**Docket No.: CF-0351-26-0076-I-1** **A.J.: Michael Perry** **Date: April 9, 2026**

AGENCY NARRATIVE RESPONSE

Pursuant to the Case Management Order issued by the Administrative Judge on March 20, 2026, the United States Department of Health and Human Services ("HHS," "Agency" or "Department") hereby respectfully submits the following narrative response to the HHS RIF Food and Drug Administration ("FDA") Center for Drug Evaluation and Research ("CDER") Consolidation Appeal. In this action, the Agency must establish that it undertook the reduction in force ("RIF") for a *bona fide* reason and that it properly applied the RIF regulations at 5 C.F.R. Part 351 to the Appellants. *Dante v. Nat'l Sci. Found.*, 16 M.S.P.R. 314, 316 (1983); *Schroeder v. Dep't of Transp.*, 60 M.S.P.R. 566, 569-70 (1994). In this case, the Agency can establish both.

I. The Agency Properly Invoked RIF Regulations by Conducting the RIF for a *Bona Fide* Reason.

Agencies may implement a RIF "because of lack of work; shortage of funds; insufficient personnel ceiling; reorganization; the exercise of reemployment rights or restoration rights; or reclassification of an employee's position d[u]e to erosion of duties." 5 C.F.R. § 351.201(a)(2). Here, the Agency's *bona fide* reason for the RIF is reorganization.

A. Under the RIF Regulations and Board Case Law, the Agency Need Only Establish that it Eliminated or Redistributed Functions or Duties in Order to Prove that a Reorganization Took Place.

To establish a reorganization under the RIF regulations and Board case law, the Agency need only show that it planned to, and did, eliminate or redistribute functions or duties in FDA. Under the RIF regulations, reorganization "means the planned *elimination*, addition, or *redistribution* of functions or duties in an organization." 5 C.F.R. § 351.203 (emphasis added).

The Board has consistently reached the same conclusion that the *elimination* or *redistribution* of functions or duties alone is enough to establish a reorganization. For example, the Board has found that an "agency's decision to eliminate an employee's position because the function can be performed by others" is sufficient evidence of a reorganization under the RIF regulations. *O'Connell v. Dep't of Health and Human Services*, 21 M.S.P.R. 257, 260 (1984) (RIF notice issued to appellant stated the agency was trying to achieve efficient staff use by eliminating unnecessary or duplicative resources); *see also Moran v. Dep't of Air Force*, 64 M.S.P.R. 77, 82-84 (1994) (agency invoked RIF regulations for a legitimate management reason where it abolished 42 civilian and 150 military positions and engaged in a major redistribution of functions). The Board has also found that a reorganization occurred under the RIF regulations where the agency separated employees and eliminated their positions solely for the purpose of engaging a private contractor to perform their duties. *Griffin*[1] *v. Dep't of Agriculture*, 2 M.S.P.B. 335, 336-37 (1980) (Board rejected employees' argument that since their janitorial and ground maintenance duties were being carried out by private sector personnel, the abolition of their agency positions could not properly be termed the result of a reorganization under 5 C.F.R. § 351.201(a)); *Local 2855,*

[1] In *Griffin*, the employees contended that the RIF was unlawful because it resulted from contracting out the services they had been performing, not from lack of work or funds or from an internal reorganization. *Griffin*, 2 M.S.P.B. at 335.

AFGE (AFL-CIO) v. U.S., 602 F.2d 574, 576, 583 (3rd Cir. 1979) (where employees performing stevedoring and terminal services, who were terminated in a RIF, alleged no reorganization took place because the Army engaged a private contractor to perform those services, Court held "reorganization means 'the planned elimination, addition, or redistribution of functions or duties in an organization,'" and "[e]limination of the plaintiffs' jobs through the decision to contract out resulted from just such a reorganization, and is thus not assailable on this ground"); *Streitfeld v. Railroad Retirement Board*, 20 M.S.P.R. 182, 183 (1984); *Kelley v. Railroad Retirement Board*, 20 M.S.P.R. 188, 189-90 (1984) (Where appellant alleged his separation from his chief medical officer position under a RIF was improper, the "presiding official correctly concluded that when an agency has invoked RIF regulations for one of the management reasons specified in 5 C.F.R. § 351.201(a) the Board lacks jurisdiction to review the managerial considerations underlying the agency's exercise of discretion. This is true even if the agency violated its own statutes in contracting out the function in question.").

Further, the Board has not required detailed or comprehensive reorganization plans in order to conclude that an agency undertook a reorganization. In fact, in *Holmes, supra*[2], the Board rejected an administrative judge's conclusion that an agency failed to establish it had invoked the RIF regulations due to a reorganization, where the administrative judge found the charts submitted by the agency to illustrate the reorganization provided insufficient detail regarding the reorganization because the charts did not establish when and if the reorganization took place or

[2] In *Holmes*, the appellant received a RIF notice on January 14, 1988, informing her that the position she occupied, General Accounting Supervisor, GS-10501-10, was being abolished and replaced by the newly established position of Pay and Examination Supervisor, GS-503-11. *Holmes*, 41 M.S.P.R. at 613. Effective March 27, 1988, appellant's position was abolished and she was demoted to Management Analyst, GS-0343-09. *Id.* Another employee was selected for the new GS-11 position. *Id.* The administrative judge concluded that the agency invoked the RIF regulations under the pretext of a reorganization to place another employee in appellant's position. *Id.* at 614.

whether the changes occurred while the appellant occupied the position that was abolished in the RIF.[3] *Holmes v. Dep't of Army*, 41 M.S.P.R. 612, 614-16 (1989), *aff'd*, 914 F.2d 271 (Fed. Cir. 1990). The Board faulted the administrative judge, stating, "The administrative judge has not explained, however, why this is relevant to a determination of whether a valid reorganization occurred." *Id.* at 615. Rather, the Board credited testimony that demonstrated the "restructuring was an ongoing process over the course of several years, not a dramatic change that happened on a particular date" and ultimately concluded that the evidence established that the Agency conducted the RIF due to a reorganization.[4] *Id.*

Therefore, as long as there is evidence of a change of substance, *i.e.*, the elimination or redistribution of functions or duties, the Board has consistently held that "'reorganization' is a term which is broad enough to cover a multitude of legitimate management considerations" to warrant its justification for a RIF. *Blalock v. Dep't of Agriculture*, 28 M.S.P.R. 17, 20-21 (1985).

B. The Agency's Evidence Establishes that Functions and Duties Within FDA Were Eliminated or Redistributed, Thereby Proving the Agency's *Bona Fide* Reason for the RIF, Reorganization

In this case, the Agency can establish its *bona fide* reason for the RIF – reorganization – because it can show that it planned to, and did, eliminate or redistribute functions and duties within FDA. On February 11, 2025, President Trump issued Executive Order 14210, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative"

[3] The administrative judge also found that four automated systems, cited by the agency as a reason for the reorganization, were in place in the appellant's branch as early as 1985. *Holmes*, 41 M.S.P.R. at 614. Further, the administrative judge found that although the evidence suggested that some portions of the appellant's office were reorganized in July and October, 1985, no structured reorganization was scheduled for appellant's location until Fiscal Year 1989, after appellant was demoted. *Id.*

[4] The Board also held, "The fact that work that the appellant previously performed continues to be done by others is not inconsistent with a finding that a reorganization occurred. The record does not show that her former GS-10 position continued after the reorganization." *Holmes*, 41 M.S.P.R. at 617.

(Workforce Executive Order). Agency File, Tab 2 (Exec. Order No. 14210, 90 Fed. Reg. 9669 (Feb. 11, 2025)). One subpart, titled "Reductions in Force," directs "Agency Heads [to] promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs." *Id.* § 3(c). Further, it directs that "[a]ll offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website." *Id*.

On February 26, 2025, the U.S. Office of Personnel Management ("OPM") and the Office of Management and Budget ("OMB") jointly issued a memorandum ("Workforce Memorandum") providing guidance for complying with the Workforce Executive Order. *See* Agency File, Tab 3 (OPM, Memorandum re: Guidance on Agency RIF and Reorganization Plans Requested by Implementing the President's "Department of Government Efficiency" Workforce Optimization Initiative, https://perma.cc/Q9NH-RV8Y). Under this guidance, agencies were directed to "focus on the maximum elimination of functions that are not statutorily mandated while driving the highest-quality, most efficient delivery of their statutorily required functions." *Id.* at 2. The Workforce Memorandum also identified certain "principles" agencies should consider in undertaking reorganization and reduction actions. Specifically, agencies should:

> seek to consolidate areas of the agency organization chart that are duplicative; consolidate management layers where unnecessary layers exist; seek reductions in components and positions that are non-critical; implement technological solutions that automate routine tasks while enabling staff to focus on higher-value activities;

> close and/or consolidate regional field offices to the extent consistent with efficient service delivery; and maximally reduce the use of outside consultants and contractors.

Id. at 2.

On March 27, 2025, Secretary Robert F. Kennedy, Jr., publicly announced the planned reorganization of certain components of the Agency. Agency File, Tab 5 (HHS Announces Transformation to Make America Healthy Again, Press Release, March 27, 2025, available at https://www.hhs.gov/press-room/hhs-restructuring-doge.html); Agency File, Tab 6 (Fact Sheet: HHS' Transformation to Make America Healthy Again, Department of Health and Human Services, available at: https://www.hhs.gov/press-room/hhs-restructuring-doge-fact-sheet.html). The announcement reflected that the Department's focus was on the reduction of wasteful spending, increased efficiency, and increased responsiveness to the needs of the American people. *Id.*

The announcement (and Fact Sheet) identified plans to, among other things, consolidate twenty-eight divisions; centralize shared services including information technology, external affairs, human resources, and procurement; and consolidate ten regional offices into five. The goal of the consolidation and streamlining of agency functions was to reduce redundancy and allow the Agency to perform its core functions more efficiently. As the announcement explained, the Department intends to accomplish its goals "without impacting critical services." [5] Agency File, Tab 5 at 1.

---

[5] Ultimately, as part of its reorganization and restructuring efforts, the Agency undertook a RIF not only in the CDER and throughout FDA, but also in the following HHS Operating Divisions and Staff Divisions: the Administration for Community Living ("ACL"); the Administration for Children and Families ("ACF"); the Administration for Strategic Preparedness and Response ("ASPR"); the Agency for Healthcare Research and Quality ("AHRQ"); the Centers for Disease Control and Prevention ("CDC"); the Centers for Medicare and Medicaid Services ("CMS"); the Food and Drug Administration ("FDA"); the National Institutes of Health ("NIH"); the Substance Abuse and Mental Health Services

Here, the Agency can establish its *bona fide* reason for its RIF, namely, reorganization, because it has set forth evidence that it eliminated and redistributed functions and duties within FDA and HHS. The Secretary's March 27, 2025 announcement of HHS's RIF and reorganization stated that 1) the overall staff across the Agency would be cut from 82,000 to 62,000, in order to save money and to make the organization more efficient, 2) the Agency would, in part, "centralize core functions such as Human Resources, Information Technology [IT], Procurement, External Affairs, and Policy," and 3) the "[r]egional offices [would] be reduced from 10 to 5." Agency File, Tab 5. FDA received additional guidance from the Department regarding implementing the RIF and reorganization which reflected a focus on consolidating these types of shared services. Agency File, Tabs 8(a), 8(b).[6] In addition, documents reflecting FDA's RIF planning similarly plan for the elimination of these same types of positions, and the centralization of these core functions. Agency File, Tabs 4(a) - 4(e).[7]

Consistent with the Secretary's announcement and the FDA draft RIF and reorganization planning documents, the Agency's evidence, including the FDA retention register and CDER organization charts[8], establish that the abolished competitive areas generally performed functions

("SAMHSA"), and the Office of the Secretary ("OS"), including the Office of the Assistance Secretary for Health ("OASH") and the Program Support Center ("PSC").

[6] The Agency is producing the documents found at Tabs 8(a), 8(b) pursuant to the Administrative Judge's March 20, 2026, Case Management Order and, in doing so, does not intend to waive the deliberative process privilege.

[7] The Agency is producing the documents found at 4(a) - 4(e) pursuant to the Administrative Judge's March 20, 2026, Case Management Order and, in doing so, does not intend to waive the deliberative process privilege.

The Department is prepared to produce the Phase 1 and Phase 2 Agency RIF and Reorganization Plans ("ARRPs") it submitted to the Office of Personnel Management, which included plans for FDA. However, before doing so, the Agency filed a Motion for Protective Order or, Alternatively, to File Documents Under Seal, which is currently pending before the Administrative Judge.

[8] FDA does not have post-RIF organizational charts that reflect the elimination of the components abolished in the RIF.

related to human resources, policy, procurement, communications and information technology. *See* Agency File, Tab 8(e).

The FDA retention register and the lists of the employment status, as of March 16, 2026, of the employees in the affected competitive areas reflect the elimination of these offices and the positions within them. Agency File, Tab 8(d). The lists of the FDA competitive areas that the Agency sent to OPM for approval also reflect the Agency's planned elimination of these organizational components and their functions. Agency File, Tabs 7a, 7d, 7g, 7h.

For these reasons, the Agency has put forth considerable evidence to establish that it planned and undertook a reorganization within FDA, including within CDER, as defined under 5 C.F.R. § 351.203 ("the planned *elimination*, addition, *or redistribution* of functions or duties in an organization"), and supported by Board case law. The Agency's evidence reflects that duties or functions within FDA, including CDER were eliminated or redistributed, thus establishing the Agency's *bona fide* reason for the RIF, *i.e.*, reorganization. Thus, the Agency conducted the RIFs subject to this consolidation appeal for a *bona fide* reason pursuant to 5 C.F.R. § 351.201(a)(2), namely, a reorganization.

II. In Conducting the RIF, the Agency Properly Applied the RIF Procedures Set Forth in 5 U.S.C. Part 351 and 5 C.F.R. Part 351 to Appellants.

The Agency properly complied with all applicable RIF regulations when abolishing positions and separating Appellants from the Federal Service. The Agency consulted with OPM for guidance on RIF procedures and that guidance was followed.

A. The Agency Properly Defined Competitive Areas

When conducting a RIF, an Agency must establish competitive areas. 5 C.F.R. § 351.402(a). The competitive areas must be "defined solely in terms of the agency's organizational

unit(s) and geographical location" and at minimum must be "a subdivision of the agency under separate administration within the local commuting area." 5 C.F.R. § 351.402(b).

On March 25, 2025, March 26, 2025, March 29, 2025, and March 31, 2025, the Agency sent requests to OPM requesting approval of its competitive areas. *See* Agency File, Tabs 7(a), 7(b), 7(d), and 7(f). The memoranda submitted with the requests set forth the Agency's explanation for how it defined its competitive areas. *Id.* The memoranda explained that the Agency would use Department IDs, described as "the core administrative organization field for all HHS HR data in our HR database" to establish competitive areas. *Id.* Specifically, the memoranda explained:

> Department ID meets the definition of a competitive area. A competitive area is defined in terms of an agency's organizational units and geographical location. 5 C.F.R. § 351.402(b). "A competitive area may consist of all or part of an agency." *Id.* And "[t]he minimum competitive area is a subdivision of the agency under *separate administration* within the local commuting area." *Id.* (emphasis added). Department IDs define organizational units within HHS that are under separate administration.
>
> OPM defines "separate administration" to means the unit has (1) "the administrative authority to take or direct personnel actions"; (2) "the organizational unit is separately organized and clearly distinguished from other organizational units within the same local commuting area in regard to operation, work function, staff, and personnel management." OPM's Workforce Reshaping Operations Handbook at 30. OPM recognizes "that individual organizational components may be under separate administration even though many agencies reserve final approval of certain personnel actions to a higher level in the agency." *Id.* Moreover, "separate administration" is often noted in an agency's organizational manual or in its delegations of authority. *Id.*
>
> Department ID defines units that are clearly distinguished in regard to operation, work function, and staff. They are separate administrative authorities. Employees are added or subtracted at the Department ID level. Usually, a Department ID will have its own decisionmaker. Other times, consistent with the OPM guidance referenced above, final approval of certain decisions is required above the Department ID level. But, overall, functions are organized by Department ID and hiring happens within these units.

Id. Included with these memoranda were lists of the proposed competitive areas, including but not limited to the following information for each competitive area: its alphanumeric code, the name of the organizational unit, the Operating Division within which it was housed, and the geographic

area it covered. *Id.* On March 27, 2025, OPM sent the Agency a letter approving its March 25, 2025, and March 26, 2025, requests for approval of its competitive areas. Agency File, Tab 7(c). OPM granted preliminary approval of the Agency's March 29, 2025 request via an email on March 29, 2025. Agency File, Tab 7(e). OPM sent the Agency a letter formally approving its March 29, 2025 and March 31, 2025 requests for approval of competitive areas on March 31, 2025. Agency File, Tab 7(f). On May 1, 2025, the Agency sent a request to OPM for approval of additional competitive areas, and OPM approved that request on May 2, 2025. Agency File, Tabs 7(h) and 7(i).

B. FDA CDER Competitive Areas Abolished

Employees released from their competitive level due to a RIF may be entitled to reassignment rights *only* within their competitive area. 5 C.F.R. § 351.701. Therefore, where an agency abolishes an entire competitive area, impacted employees within that competitive area do not have reassignment rights. Here, in each RIF action at issue in this consolidation appeal, the Agency abolished entire competitive areas. Therefore, Appellants did not have reassignment rights to another position.

The following FDA competitive areas are at issue in this consolidation appeal:

Office of Management:

DCDCA2: Acquisitions Support Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Cesstina Farmer ("Tina")
2. Alecia Harvey-Martin
3. Tiffany Lovelace
4. Kellie McDaniels

DCDCA3: Financial Accountability Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Ashunta May

DCDCA4: Budget Formulation Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Beena Alex
2. Linh Le
3. Jennie Lopez
4. Lillie McComb

DCDCB: Division of Management Services

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Danielle Brengle
2. Christina Cole
3. Angela Harris
4. Jacquita Johnson-House
5. Kathleen Keown
6. Brian Mahone
7. Mary Milline
8. Gary Paige
9. Saeed Rahimi

DCDCB1: Human Capital Management Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Adrienne Bailey
2. Cheryl Parker
3. Johnny Thomas
4. Stephanie Thomas
5. Jolita Young
6. LaKeeta Campbell

DCDCB2: Human Capital Programs Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Ebony Davis
2. Megan Foelber
3. Zina Freeman
4. Susan Hawk Prysock
5. Breanna Wells
6. Tessa Williams
7. Tanesia Wright
8. Kimberly Morse (Kimberly McPhaul)

DCDCB4: Property & Travel Services Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Bano Rai-Tyler
2. Charmaine Walker

DCDCB5: Leave & Performance Management Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Shawney Travers-Seibles

Office of New Drugs:

DCDGH: Office of Administrative Operations

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Connie Blue
2. Dwayne Keels
3. Amandeus Watkins

DCDGH1: Administrative Analysis Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Eric Jackson
2. Gretchen Kindle
3. Karen Koenick
4. Rochelle Lambert
5. Kyisha McNeil
6. Dominique Pugh
7. Andre Tisdale
8. Emmanuel Gomez

DCDGH2: Administrative Operations Staff 1

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Kathleen Benner

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI3 – Admin Operations Staff 2

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI5 – Admin Operations Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI6 – Financial Services Staff

Employment Status: All employees in this competitive area were separated. One employee in this competitive area was rehired to another office in February 2026.

Competitive Area: DCDLJ2 – Learning and Professional Development Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDM2 – Program Management and Analysis Staff

Employment Status: All employees in this competitive area were separated. One employee included on the retention register as being assigned to this competitive area was only

assigned to the competitive area while serving on a temporary promotion. This individual was returned to their position of record, in a competitive area that was not subject to the RIF and is still employed at the Agency.

Competitive Area: DCDM3 – Communications Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDM4 – Quality Management Staff

Employment Status: All employees in this competitive area were separated.

D. RIF Notices

Notices, dated March 31, 2025, were sent to impacted employees informing them that they would be affected by a RIF action and would be separated from Federal Service effective June 2, 2025. The RIF notices identified the information that would have been used to determine the employees' retention standing, such as civil service tenure group and subgroup, veterans' preference, performance ratings, and length of Federal service. However, as described above, no employee subject to this RIF in the FDA CDER had an opportunity for reassignment based on retention standing, because each impacted competitive area was abolished.

On May 22, 2025, a preliminary injunction was issued in *American Federation of Government Employees, AFL-CIO v. Trump*, Case No. 3:25-cv-03698 (N.D.CA), wherein the District Court enjoined the Agency (and other federal agencies) from "execution of any existing RIF notices (including final separation of employees)." As a result of the injunction, the Agency was unable to effectuate the impacted employees' separation from Federal Service on the expected date set forth in their notices. On July 8, 2025, the U.S. Supreme Court stayed the preliminary injunction. *Trump v. Am. Fed'n of Gov't Emps., AFL-CIO*, Docket No. 24A1174 (S.Ct. 2025). After the injunction was stayed, the Department separated most impacted employees in CDER from Federal Service with an effective date of July 14, 2025. The Department sent a notice, dated July 22, 2025, to impacted employees, informing them that they had been separated from Federal

service, effective July 14, 2025, and providing validated and updated information regarding the factors that would have been considered for retention standing had their entire competitive area not been abolished. This notice also included the employees' estimated amount of severance pay.

E. Retention Register

OPM created the retention registers for the Department's RIFs, including the retention register for FDA. OPM sent a copy of the FDA retention register to the Department on April 21, 2025. Agency File, Tab 8(c). The redacted FDA retention register is included herein at Tab 8(d). Unredacted portions of the retention register relevant to each individual appellant involved in this consolidation appeal have been, or will be uploaded to each Appellant's individual appeal file.

F. Individuals Who Made Decisions or Provided Input on the RIF [9]

The following individuals participated in decision-making or provided input on the HHS or FDA RIF:

Secretary Robert F. Kennedy, Jr.

1. Position During RIF Planning[10]: Secretary, Department of Health and Human Services since February 13, 2025.
2. Roles[11]: Briefed by senior leadership and approved high-level, Department-wide objectives of the RIF (e.g., general concept of consolidation of common, shared services,

[9] Additional individuals may be identified during the litigation of this matter.

[10] For all individuals on this list, "Position During RIF Planning" refers to the individual's position prior to April 2, 2025, as the first reduction in force notices were sent to employees on April 1, 2025.

[11] The roles listed for each individual do not necessarily include an exhaustive list of all possible activities they undertook regarding the RIFs.

reducing Department-wide staffing levels to pre-pandemic levels). Was not involved in deciding which specific competitive areas would be subject to the RIF.

3. Current Position: Secretary, Department of Health and Human Services.

Heather Flick Melanson

1. Position During RIF Planning: Chief of Staff to the Secretary, beginning January 2025.
2. Roles: Attended senior-level meetings during which high-level, Department-wide objectives of the RIF were discussed (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels).
3. Current Position: Not currently employed by the Federal Government.

Scott Rowell

1. Position During RIF Planning: Deputy Chief of Staff for Operations and Assistant Secretary for Administration ("ASA"), beginning January 2025.
2. Roles: Participated in some senior-level meetings during which high-level, Department-wide objectives of the RIF were discussed (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels). Provided input on RIFs within the ASA organization. Involved in at least one series of communications regarding the NIH RIFs.
3. Current Position: Mr. Rowell is no longer employed by the Department. The Department has no information to indicate that Mr. Rowell is currently employed elsewhere in the Federal Government.

Rachel Riley

1. Position During RIF Planning: Senior Advisor to the Secretary, beginning January 2025.

2. Roles: Participated in senior-level meetings on the high-level, Department-wide objectives of the RIF (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels). Drafted RIF plans across the Department in direct coordination with operating and staff divisions.
3. Current Position: Chief of Naval Research, Department of the Navy.

Brad M. Smith

1. Position During RIF Planning: Senior Advisor to the Secretary, beginning March 2025.
2. Roles: Participated in senior-level meetings and advised the Secretary on the high-level, Department-wide objectives of the RIF (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels). Oversaw RIF plans drafted by Rachel Riley in direct coordination with operating and staff divisions.
3. Current Position: Senior Advisor for the Bureau of Global Health Security and Diplomacy, Department of State.

Thomas Nagy Jr.

1. Position During RIF Planning: Deputy Assistant Secretary for Human Resources, beginning March 27, 2025.
2. Roles: Provided input regarding RIFs related to human resources functions. Mr. Nagy's office executed the RIF notifications and related correspondence, including rescinding RIF notifications, as necessary.
3. Current Position: Currently serves as Deputy Assistant Secretary for Human Resources.

Shana Weir

1. Position During RIF Planning: Principal Deputy Assistant Secretary for Administration, beginning January 2025.

2. Roles: Present at meetings regarding the RIF.
3. Current Position: Currently serves as Assistant Secretary for Administration.

Seth Shulman

1. Position During RIF Planning: Acting Director for the ASA Office of Human Resources Staffing, Recruitment and Operations Center, beginning January 2025.
2. Roles: Attended some initial meetings between Rachel Riley and leadership or senior staff of the Staff Divisions and some Operating Divisions regarding reducing staff to pre-pandemic levels. Other RIF-related involvement was after other Department officials made decisions concerning the RIF (e.g., OHR issued RIF notices and correspondence related to the RIF).
3. Current Position: Executive Director, Acting, ASA/OHR Human Capital Policy and Operations Directorate.

Garey Rice

1. Position During RIF Planning: On January 22, 2025, reported to HHS Immediate Office of the Secretary to support Deputy Chief of Staff Scott Rowell as a detail from the CDC where he served as the Budget Director. On April 6, 2025, he was permanently reassigned from the CDC Budget Director position to serve as the Senior Counselor to the HHS Chief of Staff.
2. Roles: At the direction of Rowell and Smith, developed a plan and input for the consolidation of procurement functions across the Department to increase economies of scale, improving the purchasing power of HHS as an HHS enterprise rather than multiple subcomponents. Not the final decision make on any RIFs nor did he implement RIFs.
3. Current Position: Senior Counselor to the Chief of Staff.

Zachary Terrell

1. Position During RIF Planning: Senior Advisor to the Secretary, beginning January 2025.
2. Roles: Technical support / member of technical staff. Running queries in OHR database, producing spreadsheets, generating PDFs, sending emails as directed by senior agency leadership. No policy or competitive area input or decision making.
3. Current Position: Chief Technology Officer.

Clark Minor

1. Position During RIF Planning: HHS' Chief Technology Officer, beginning February 13, 2025.
2. Roles: Attended some meetings regarding RIFs but had not decision-making roles at these meetings. Provided input regarding Department-wide IT-related RIFs, which involved discussions with divisions regarding their IT workforce and the divisions' recommendations regarding competitive areas to RIF. However, due to complications surrounding IT infrastructure, HHS leadership decided not to use this input. Once the RIF lists were final across the Department's divisions, provided technical assistance to leadership in sending out bulk notifications.
3. Current Position: HHS Chief Information Officer and Acting Chief AI Officer.

Sara Brenner

1. Position During RIF Planning: Acting FDA Commissioner
2. Roles: Provided overall direction and served as lead for FDA's engagement with Brad Smith and Rachel Riley.
3. Current Position: FDA Principal Deputy Commissioner

Angel Hebert

1. Position During RIF Planning: FDA Acting Chief Operating Officer
2. Roles: Provided Office of Operations direction on FDA's future plans for operational functions.
3. Current Position: No longer employed at HHS; retired on December 31, 2025.

Melanie Keller

1. Position During RIF Planning: FDA Chief Talent Officer, FDA Office of Talent Solutions and Office of Human Capital Management
2. Roles: Led FDA Human Resources and crosscutting coordination of the Office of Operation's response to requests for information.
3. Current Position: FDA Deputy Commissioner for Operations and Chief Operating Officer

Chantal Dawson

1. Position During RIF Planning: FDA Acting Deputy Chief Talent Officer
2. Roles: Led coordination with Office of Personnel Management on Human Resources RIF policies and procedures.
3. Current Position: Chief Talent Officer & Office Director, FDA Office of Talent Solutions and Office of Human Capital Management

Jennifer Wade

1. Position During RIF Planning: Associate Director, Office of Finance, Budget, and Acquisitions, FDA Immediate Office
2. Roles: Led reorganization planning.
3. Current Position: Associate Director, Office of Finance, Budget, and Acquisitions, FDA Immediate Office

Robert Bettinger

1. Position During RIF Planning: Data Scientist, Office of Finance, Budget, and Acquisitions
2. Roles: Led data analysis of FDA staffing in response to directives and requests.
3. Current Position: Data Scientist, Office of Finance, Budget, and Acquisitions

G. The Agency Requests Leave to Supplement the Agency File

On April 8, 2026, the Agency filed a Motion for Protective Order, or Alternatively, to File Documents Under Seal ("Motion for Protective Order") seeking relief for filing the Agency RIF and Reorganization Plans ("ARRPs") on the basis of the deliberate process privilege. Thus, after the Administrative Judge rules on the Agency's Motion for Protective Order, the Agency will file the ARRPs if ordered to do so by the Administrative Judge.

The Agency also requests leave to supplement the Agency File should any other additional information and/or documents become available.

III. Conclusion

The Agency's evidence establishes that it had a *bona fide* reason for the RIF, namely, reorganization, and that it properly applied the RIF regulations to Appellants. For the foregoing reasons, the Agency's separations of the affected Appellants in this consolidation appeal due to the RIF were proper and should be sustained.

Respectfully Submitted,

/s Douglas C. Elliott

Presidential Documents

Title 3—

The President

Executive Order 14210 of February 11, 2025

Implementing the President's ''Department of Government Efficiency'' Workforce Optimization Initiative

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered:

Section 1. *Purpose.* To restore accountability to the American public, this order commences a critical transformation of the Federal bureaucracy. By eliminating waste, bloat, and insularity, my Administration will empower American families, workers, taxpayers, and our system of Government itself.

Sec. 2. *Definitions.* (a) ''Agency'' has the meaning given to it in section 3502 of title 44, United States Code, except that such term does not include the Executive Office of the President or any components thereof.

(b) ''Agency Head'' means the highest-ranking official of an agency, such as the Secretary, Administrator, Chairman, or Director, unless otherwise specified in this order.

(c) ''DOGE Team Lead'' means the leader of the Department of Government Efficiency (DOGE) Team at each agency, as defined in Executive Order 14158 of January 20, 2025 (Establishing and Implementing the President's ''Department of Government Efficiency'').

(d) ''Employee'' has the meaning given to it by section 2105 of title 5, United States Code, and includes individuals who serve in the executive branch and who qualify as employees under that section for any purpose.

(e) ''Immigration enforcement'' means the investigation, enforcement, or assisting in the investigation or enforcement of Federal immigration law, including with respect to Federal immigration law that penalizes a person's presence in, entry, or reentry to, or employment in, the United States, but does not include assisting individuals in applying for immigration benefits or efforts to prevent enforcement of immigration law or to prevent deportation or removal from the United States.

(f) ''Law enforcement'' means:

(i) engagement in or supervision of the prevention, detection, investigation, or prosecution of, or the incarceration of any person for, any violation of law; or

(ii) the protection of Federal, State, local, or foreign government officials against threats to personal safety.

(g) ''Temporary employee'' has the meaning given to it in 5 C.F.R. part 316.

(h) ''Reemployed annuitant'' has the meaning given to it in 5 C.F.R. part 837.

Sec. 3. *Reforming the Federal Workforce to Maximize Efficiency and Productivity.* (a) *Hiring Ratio.* Pursuant to the Presidential Memorandum of January 20, 2025 (Hiring Freeze), the Director of the Office of Management and Budget shall submit a plan to reduce the size of the Federal Government's workforce through efficiency improvements and attrition (Plan). The Plan shall require that each agency hire no more than one employee for every four employees that depart, consistent with the plan and any applicable exemptions and details provided for in the Plan. This order does not affect the standing freeze on hiring as applied to the Internal Revenue Service. This ratio shall not apply to functions related to public safety, immigration

enforcement, or law enforcement. Agency Heads shall also adhere to the Federal Hiring Plan that will be promulgated pursuant to Executive Order 14170 of January 20, 2025 (Reforming the Federal Hiring Process and Restoring Merit to Government Service).

(b) *Hiring Approval.* Each Agency Head shall develop a data-driven plan, in consultation with its DOGE Team Lead, to ensure new career appointment hires are in highest-need areas.

(i) This hiring plan shall include that new career appointment hiring decisions shall be made in consultation with the agency's DOGE Team Lead, consistent with applicable law.

(ii) The agency shall not fill any vacancies for career appointments that the DOGE Team Lead assesses should not be filled, unless the Agency Head determines the positions should be filled.

(iii) Each DOGE Team Lead shall provide the United States DOGE Service (USDS) Administrator with a monthly hiring report for the agency.

(c) *Reductions in Force.* Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

(d) *Rulemaking.* Within 30 days of the date of this order, the Director of the Office of Personnel Management (OPM) shall initiate a rulemaking that proposes to revise 5 C.F.R. 731.202(b) to include additional suitability criteria, including:

(i) failure to comply with generally applicable legal obligations, including timely filing of tax returns;

(ii) failure to comply with any provision that would preclude regular Federal service, including citizenship requirements;

(iii) refusal to certify compliance with any applicable nondisclosure obligations, consistent with 5 U.S.C. 2302(b)(13), and failure to adhere to those compliance obligations in the course of Federal employment; and

(iv) theft or misuse of Government resources and equipment, or negligent loss of material Government resources and equipment.

(e) *Developing Agency Reorganization Plans.* Within 30 days of the date of this order, Agency Heads shall submit to the Director of the Office of Management and Budget a report that identifies any statutes that establish the agency, or subcomponents of the agency, as statutorily required entities. The report shall discuss whether the agency or any of its subcomponents should be eliminated or consolidated.

(f) Within 240 days of the date of this order, the USDS Administrator shall submit a report to the President regarding implementation of this order, including a recommendation as to whether any of its provisions should be extended, modified, or terminated.

Sec. 4. *Exclusions.* (a) This order does not apply to military personnel.

(b) Agency Heads may exempt from this order any position they deem necessary to meet national security, homeland security, or public safety responsibilities.

(c) The Director of OPM may grant exemptions from this order where those exemptions are otherwise necessary and shall assist in promoting workforce reduction.

Sec. 5. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

U.S. Office of Personnel Management

MEMORANDUM

TO: Heads of Executive Departments and Agencies

FROM: Russell T. Vought, Director, Office of Management and Budget; Charles Ezell, Acting Director, Office of Personnel Management.

DATE: February 26, 2025

RE: Guidance on Agency RIF and Reorganization Plans Requested by *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative*

I. Background

The federal government is costly, inefficient, and deeply in debt. At the same time, it is not producing results for the American public. Instead, tax dollars are being siphoned off to fund unproductive and unnecessary programs that benefit radical interest groups while hurting hard-working American citizens.

The American people registered their verdict on the bloated, corrupt federal bureaucracy on November 5, 2024 by voting for President Trump and his promises to sweepingly reform the federal government.

On February 11, 2025, President Trump's Executive Order *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (*Workforce Optimization*) "commence[d] a critical transformation of the Federal bureaucracy." It directed agencies to "eliminat[e] waste, bloat, and insularity" in order to "empower American families, workers, taxpayers, and our system of Government itself."

President Trump required that "Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law." President Trump also directed that, **no later than March 13, 2025**, agencies develop Agency Reorganization Plans.

The U.S. Office of Management and Budget ("OMB") and the U.S. Office of Personnel Management ("OPM") now submit guidance on these Agency RIF and Reorganization Plans ("ARRP"), along with the instruction that such plans be submitted to OMB and OPM.

II. Principles to Inform ARRPs

ARRPs should seek to achieve the following:

1. Better service for the American people;

2. Increased productivity;

3. A significant reduction in the number of full-time equivalent (FTE) positions by eliminating positions that are not required;

4. A reduced real property footprint; and

5. Reduced budget topline.

Pursuant to the President's direction, agencies should focus on the maximum elimination of functions that are not statutorily mandated while driving the highest-quality, most efficient delivery of their statutorily-required functions.

Agencies should also seek to consolidate areas of the agency organization chart that are duplicative; consolidate management layers where unnecessary layers exist; seek reductions in components and positions that are non-critical; implement technological solutions that automate routine tasks while enabling staff to focus on higher-value activities; close and/or consolidate regional field offices to the extent consistent with efficient service delivery; and maximally reduce the use of outside consultants and contractors. When taking these actions, agencies should align closures and/or relocation of bureaus and offices with agency return-to-office actions to avoid multiple relocation benefit costs for individual employees.

Agencies should review their statutory authority and ensure that their plans and actions are consistent with such authority.

Agency heads should collaborate with their Department of Government Efficiency ("DOGE") team leads within the agency in developing competitive areas for ARRPs. In addition, the agency should specifically identify competitive areas that include positions not typically designated as essential during a lapse in appropriations. When making this determination, agencies should refer to the functions that are excepted from the Antideficiency Act (ADA) in the Agency Contingency Plans submitted to OMB in 2019 as the starting point for making this determination.

III. Available Tools

In their ARRPs, agencies should employ all available tools to effectuate the President's directive for a more effective and efficient government and describe how they will use each. Such tools include:

1. Continuing to comply with the hiring freeze outlined in the January 20, 2025 Presidential Memorandum *Hiring Freeze* or (with approval of OPM and OMB) implementing the general principle that, subject to appropriate exemptions, no more than one employee should be hired for every four employees that depart;

2. Establishing internal processes that ensure agency leadership has visibility and/or direct sign-off on all potential job offers and candidates prior to extending offers;

3. Eliminating non-statutorily mandated functions through RIFs (Appendix 1 contains a sample timeline);

4. Removing underperforming employees or employees engaged in misconduct, and continuing to evaluate probationary employees;

5. Reducing headcount through attrition and allowing term or temporary positions to expire without renewal;

6. Separating reemployed annuitants in areas likely subject to RIFs; and

7. Renegotiating provisions of collective bargaining agreements (CBAs) that would inhibit enhanced government efficiency and employee accountability.

ARRPs should also list the competitive areas for large-scale reductions in force, the RIF effective dates (which may be a date prior to when the plan is submitted), the expected conclusion of the RIFs, the number of FTEs reduced, and additional impact of RIFs such as cancellation of related contracts, leases or overhead.

Agencies should also closely consider changes to regulations and agency policies, including changes that must be pursued through notice-and-comment rulemaking, that would lead to the reduction or elimination of agency subcomponents or speed up the implementation of ARRPs.

IV. Phase 1 ARRPs

Each agency will submit a Phase 1 ARRPs to OMB and OPM for review and approval **no later than March 13, 2025**. Phase 1 ARRPs shall focus on initial agency cuts and reductions. Each Phase 1 ARRP should identify:

1. A list of agency subcomponents or offices that provide direct services to citizens. Such subcomponents or offices should be included in ARRPs to improve services to citizens while eliminating costs and reducing the size of the federal government. But for service delivery subcomponents or offices, implementation shall not begin until certified by OMB and OPM as resulting in a positive effect on the delivery of such services.

2. Any statutes that establish the agency, or subcomponents of the agency, as statutorily required entities. Agency leadership must confirm statutes have not been interpreted in a way that expands requirements beyond what the statute actually requires. Instead, statutes should be interpreted to cover only what functions they explicitly require.

3. All agency components and employees performing functions not mandated by statute or regulation who are not typically designated as essential during a lapse in appropriations (because the functions performed by such employees do not fall under an exception to the ADA) using the Agency Contingency Plans submitted to OMB in 2019 referenced above.

4. Whether the agency or any of its subcomponents should be eliminated or consolidated; and which specific subcomponents or functions, if any, should be expanded to deliver on the President's priorities.

5. The specific tools the agency intends to use to achieve efficiencies, including, as to each, the number of FTEs reduced and any potential savings or costs associated with such actions in Fiscal Years 2025, 2026 and 2027:

    a. Continuation of the current hiring freeze;
    b. Regular attrition (e.g., retirement, movement between agencies and the private sector);
    c. Attrition through enhanced policies governing employee performance and conduct;
    d. Attrition through the termination or non-renewal of term or limited positions or reemployed annuitants;
    e. Attrition achieved by RIFs. Please refer to Appendix 1 for specific steps and timing. For purposes of the Phase 1 ARRP, the agency should include the following information:

        i. The competitive areas and organizational components that the agency has targeted or will target for initial RIFs, and
        ii. The agency's target for reductions in FTE positions via RIFs.

6. A list by job position of all positions categorized as essential for purposes of exclusion from large-scale RIFs, including the number per each job position and total by agency and subcomponent.

7. The agency's suggested plan for congressional engagement to gather input and agreement on major restructuring efforts and the movement of fundings between accounts, as applicable, including compliance with any congressional notification requirements.

8. The agency's timetable and plan for implementing each part of its Phase 1 ARRP.

V. Phase 2 ARRPs

Agencies should then submit a Phase 2 ARRP to OMB and OPM for review and approval **no later than April 14, 2025**. Phase 2 plans shall outline a positive vision for more productive, efficient agency operations going forward. Phase 2 plans should be planned for implementation by September 30, 2025. The Phase 2 plan should include the following additional information:

1. The agency's proposed future-state organizational chart with its functional areas, consolidated management hierarchy, and position titles and counts clearly depicted.

2. Confirmation that the agency has reviewed all personnel data, including each employee's official position description, four most recent performance ratings of record, retention service computation date, and veterans' preference status.

3. The agency's plan to ensure that employees are grouped, to the greatest extent possible, based on like duties and job functions to promote effective collaboration and management, and that the agency's real estate footprint is aligned with cross-agency efforts coordinated by GSA to establish regional federal office hubs.

4. Any proposed relocations of agency bureaus and offices from Washington, D.C. and the National Capital Region to less-costly parts of the country.

5. The competitive areas for subsequent large-scale RIFs.

6. All reductions, including FTE positions, term and temporary positions, reemployed annuitants, real estate footprint, and contracts that will occur in relation to the RIFs.

7. Any components absorbing functions, including how this will be achieved in terms of FTE positions, funding, and space.

8. The agency's internal processes that ensure agency leadership has visibility and/or direct sign-off on all potential job offers and candidates prior to extending offers.

9. The agency's data-driven plan to ensure new career appointment hires are in highest-need areas and adhere to the general principle that, subject to appropriate exemptions, no more than one employee should be hired for every four employees that depart. Until the agency has finalized its post-hiring-freeze plan, agencies should continue to adhere to the current hiring freeze.

10. Any provisions of collective bargaining agreements that would inhibit government efficiency and cost-savings, and agency plans to renegotiate such provisions.

11. An explanation of how the ARRPs will improve services for Americans and advance the President's policy priorities.

12. The framework and criteria the agency has used to define and determine efficient use of existing personnel and funds to improve services and the delivery of these services.

13. For agencies that provide direct services to citizens (such as Social Security, Medicare, and veterans' health care), the agency's certification that implementation of the ARRPs will have a positive effect on the delivery of such services. The certification should include a written explanation from the Agency Head and, where appropriate, the agency's CIO and any relevant program manager.

14. The programs and agency components not impacted by the ARRP, and the justification for any exclusion.

15. Plans to reduce costs and promote efficiencies through improved technology, including through the adoption of new software or systems, and elimination of duplicative systems.

16. Any changes to regulations and agency policies, including changes that must be pursued through notice-and-comment rulemaking, that would lead to the reduction or elimination of agency subcomponents, or speed up implementation of ARRPs.

17. The agency's timetable and plan for implementing each part of its Phase 2 ARRP, and its plan for monitoring and accountability in implementing its ARRPs.

Agencies should continue sending monthly progress reports each month on May 14, 2025, June 16, 2025, and July 16, 2025. All plans and reports requested by this memorandum should be submitted to OPM at tracking@opm.gov and OMB at workforce@omb.eop.gov; when submitting plans and reports, please ensure both OPM and OMB addresses are included on the message.

VI. Exclusions

Nothing in this memorandum shall have any application to:

1. Positions that are necessary to meet law enforcement, border security, national security, immigration enforcement, or public safety responsibilities;

2. Military personnel in the armed forces and all Federal uniformed personnel, including the U.S. Coast Guard, the Commissioned Corps of the U.S. Public Health Service, and the Commissioned Officer Corps of the National Oceanic and Atmospheric Administration;

3. Officials nominated and appointed to positions requiring Presidential appointment or Senate confirmation, non-career positions in the Senior Executive Service or Schedule C positions in the excepted service, officials appointed through temporary organization hiring authority pursuant to 5 U.S.C. § 3161, or the appointment of any other non-career employees or officials, if approved by agency leadership appointed by the President;

4. The Executive Office of the President; or

5. The U.S. Postal Service.

Finally, agencies or components that provide direct services to citizens (such as Social Security, Medicare, and veterans' health care) shall not implement any proposed ARRPs until OMB and OPM certify that the plans will have a positive effect on the delivery of such services.

cc: Chief Human Capital Officers ("***CHCOs***"), Deputy CHCOs, Human Resources Directors, Chiefs of Staff, and DOGE team leads.

Appendix 1- Sample RIF Timeline

This sample timeline is prepared in accordance with the U.S. Office of Personnel Management **Workforce Reshaping Operations Handbook.** RIF timing may vary based on agency-specific requirements, collective bargaining agreements, and workforce considerations. Agencies can accelerate these timelines through parallel processing, securing OPM waivers to policy, expediting process steps, and streamlining stakeholder coordination.

Step 1: Identification of Competitive Areas and Levels (by March 13, 2025 for Phase 1 ARRPs)

1. Identify competitive areas and levels and determine which positions may be affected. If applicable, seek OPM waiver approval to adjust competitive areas within 90 days of the RIF effective date.
2. For Phase 1 ARRPs, this step should be completed no later than March 13, 2025.

Step 2: Planning, Preparation & Analysis (up to 30 days)

1. Explore use of VSIP/VERA.
2. Conduct an impact assessment.
3. Review position descriptions for accuracy, validate competitive levels, and verify employee retention data (e.g., veteran preference, service computation dates).
4. Develop retention register.
5. Draft RIF notices and seek OPM waiver approval for a 30-day notification period.
6. Develop transition materials.
7. Notify unions (if required).
8. Prepare congressional notification (if required).

Step 3: Formal RIF Notice Period (60 days, shortened to 30 days with an OPM waiver)

1. Issue official RIF notices.
2. Provide employees with appeal rights, career transition assistance, and priority placement options.
3. Execute any required congressional notification and notice to the Department of Labor, state, and local officials, if applicable.

Step 4: RIF Implementation & Separation (Final Step)

1. Officially implement separations, reassignments, or downgrades.
2. Provide final benefits counseling, exit processing, and documentation.
3. Update HR systems and notify OPM of personnel actions.

From: Wade, Jennifer
To: Riley, Rachel (OS/ASA)

Subject: FDA External Affairs Review
Date: Saturday, March 22, 2025 9:18:02 PM

Hi Rachel,

I'm following up on behalf of Sara regarding the Communications Offices and FDA's proposed approach.

It looks like the list included in Paige's email reflects the organizations captured in the list we received regarding the shared services workstreams.

FDA proposes to realign the "OFC OF LEGISLATION" personnel to HHS to support the shared services congressional function. This is the Office of Legislation currently within the Office of the Commissioner. We identified staff within that tab in our submission to you.

For comms, FDA proposed to reflect a realignment of a combination of FDA SME communication personnel from our Centers along with the central OC communications office. We will have a continued and ongoing need to have that SME support for statutory functions related to recalls and product information alerts, so we recommend that HHS staff this office based on this ongoing statutory requirement and critical need to issue information to consumers. We had originally recommended right-sizing the comms function to ~50 total for FDA. The "OFC OF COMMUNICATIONS" on that list was from CDER, so it is not the organization we would propose to realign to HHS in full.

For FOI/disclosure/privacy, we had discussed retaining that function within FDA and not realign that function under the HHS umbrella. Through our plan, FDA will significantly reduce the number of FOI personnel across the agency, as many of these FTE are within the Office of Managements or the Office of Communications and will be impacted by the proposed RIFs. Given the need to coordinate directly with program staff and our general counsel's office our plan is for FDA to retain a smaller footprint of personnel, which would include the current OC FOI teams. If these functions were to shift to HHS for comms, please note that the volume of work is significant and will need SME expertise given the ongoing litigation and ongoing incoming requests from industry and other stakeholders for sensitive information about FDA's regulatory work.

Let us know if you have other questions.

Thanks,
Jen

Sent: Saturday, March 22, 2025 1:19 PM
To: Brenner, Sara <Sara.Brenner@fda.hhs.gov>
Cc: Riley, Rachel (OS) <Rachel.Riley@hhs.gov>
Subject: [EXTERNAL] FDA External Affairs Review

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon Sara,

I hope you're having a nice weekend. We are completing a final review of the offices outlined for the future state.

Below is the list of external affairs offices FDA supplied for review. The external affairs offices highlighted in green would be retained while the ones in yellow would not. Please confirm this path forward is a workable approach to maintain the streamlined functionality of FDA external affairs:

COMMUNICATIONS & OUTREACH STF
COMMUNICATIONS BR
CONSUMER EDUCN BR
DIV OF COMMUN & CONSMR AFFAIRS
DIV OF DIGITAL ONLINE COMMS
DIV OF EXT COMMUN & CONSMR EDU
DIV OF HEALTH COMMUNICATIONS
DIV OF WEB, VISUAL & VR COMMUN
EDUCATION & OUTREACH BR
EXTERNAL COMMUNICATIONS BR
FREEDOM OF INFORMATION BR
INTRNL COMMUN STF
OFC OF COM, OUTREACH & DEV
OFC OF COMMUNICATIONS
OFC OF LEGISLATION
POLICY & COMMUNICATIONS BR
PROACTIVE DISCLOSURE BR
PUB ENGAGEMENT BR
PUB INFO BR
SOCIAL MEDIA & ENGAGEMENT BR
STRTGC COMMUN BR
WEB BR

Most importantly, does what is included above meet the needs for the Office of the Director?

And finally, I am curious if FDA has additional FOIA divisions/branches than the ones provided

(comprised of a combined 34 FTEs between FOIA and the "Proactive Disclosure Branch")? If so, please let Rachel and I know how many individuals are in those respective offices at your earliest convenience—**having this information to review by today would be most preferable**. And finally, please let me know if I should *not* capture "Proactive Disclosure Branch" as a FOIA-related office.

Thanks so much for your quick feedback.

Subject: Updated Draft Summary of Decisions (confidential)

Good evening,
Sharing our summary of decisions based on today's discussion. We are conducting additional analysis based on this approach. Once the overview approach is set, we will continue to provide you lower-level recommendations for decisioning as we develop options for the future state (for example, how to break out OCMO). We look forward to your feedback.

Current FDA org chart if helpful for reference: FDA Overview Organization Chart | FDA

***

Summary of changes (as of 3/17/2025 afternoon):

FDA will first conduct a large-scale RIF and then realign functions and personnel to the new structure (implement on October 1, 2025).

- FDA's competitive area approach to RIFs:
  - Maintain the Human Foods Program and Drugs Center Office of Managements and execute a RIF for the remaining Office of Managements, including OC (impacting nearly all HR/human capital, HR/classification, procurement, budget/user fee management, financial management, training, travel, facilities and property management, and advisory committee management in the Centers);
  - Maintain the Drugs Center and Tobacco Center Office of Communications and execute a RIF for the remaining (impacting nearly all external communication, public engagement, web, strategic and internal communications, and select FOI/disclosure functions);
  - Reduce lower organization level administrative offices/divisions/staffs, including select parts of central IT (ODT);
  - Reduce the Office of Enterprise Transformation and Office of Performance, Evaluation, and Risk Management (undoing Biden reorg);
  - Maintain OPLIA, OEA, OHCM, OTS, OFEMS, OEI, OSPO, OCC, Office of the Comm Corps, Office of Exec Sec, OCE, OCMO, OMHHE, OWH without change; retain most of OFBA (except for reductions to procurement and payment services).
- FDA's reorganization actions post-RIFs:
  - Merge CDER, CDRH, CBER, animal drug functions from CVM and select functions from

the Office of the Commissioner (e.g., oncology) to establish a new Medical Products Program;

- Merge the Human Foods Program with animal food product functions from CVM to establish a new Foods Program;
- Establish a new Tobacco Products Program;
- Elevate the Office of Criminal Investigations to serve as a direct report to the Commissioner;
- Establish the new Investigations and Imports Program, by realigning FDA's sampling labs out of the Office of the Chief Scientist (undoing Biden reorg) and maintaining inspectorate and imports programs;
- Elevate the CFO and establish the Office of the Chief Financial Officer (OCFO) to report to the Commissioner and expand scope of the Office of Operations to cover non-CFO operational responsibilities (such as advisory committee management with ethics and expanded FDA-University);
- Realign select functions and resources from existing CDER and HFP Office of Managements and CDER and CTP Office of Communications to OO, OCFO, OEA, OPLIA and/or HHS to right-size functions;
- Realign select agency-wide policy and legislative functions and resources to OPLIA;
- Establish a new Office within the Office of the Commissioner to focus on children's health, women's health, rural health, and other crosscutting topics to advance MAHA focused goals, and demote the Office of Minority Health and Office of Women's Health within this new organization with a dotted line to the Commissioner where required by statute;
- Abolish Centers, Office of the Center Directors, select Office of the Commissioner offices, such as the Office of Enterprise Transformation (undoing Biden reorg) and OCMO (undoing Biden reorg) and abolish all office of management organizations agency-wide.

Good morning everyone. Jenn thanks so much for talking with us last night and working throughout the wee hours on this document. Your work is truly appreciated by ALL. Sara and Jim it is important to note that we are concerned about the last 400 targeted to cut and are worried that the agency will not be able to function correctly under your leadership. There are several tradeoffs that the team and I will be discussing early this morning before finalizing this morning for you to present. Consider the below still draft (almost there).

Thanks for your patience.

Angel

Subject: Updated analysis (confidential)

Good evening,
I'm sharing an update on our analysis.

We met with Rachel this morning to discuss the HHS shared services approach. Based on our discussion, we developed the attached document with recommendations about the future state for HR, Comms/Leg, and Procurement. The list of functions on the far left reflects what she communicated to us, and our recommendation is in blue on the right. We are ready to go through the data with her tomorrow on the workstreams.

Additionally, we revised our approach to meet the revised target of 14,655. The reductions include:

- Communications (-358)
- Targeted Immediate Offices of the Center Directors (-140)
- IT, including some of ODT and some centers (-93)
- Policy (SMEs) (-169)
- OM/crosscutting support functions such as non-SME policy and leg (-1,802)

Employees On Board (Source EHCM - Excluding EI)	Probation	NTE	DRP	VERA-VSIP	Losses	Employees On Board (After Probation, NTE, DRP, VERA-VSIP)	Comms	Center Directors	IT	OC/policy	OM	Losses	FDA Future State	Goal	Remaining
19078	-389	-170	-467	-846	-1872	17206	-358	-140	-93	-169	-1802	-2562	14644	14,661	-17

Please note that as we conducted our analysis, when we got to around 450 left to reduce, we needed to bring in additional areas that we had planned to preserve to support the function of the agency in the future state. For example, we had originally preserved all of CDER's project managers (~120) as they support CDER reviewers in tracking and managing user fee requirements such as ensuring that the agency is processing applications on time and in accordance with regulation. We also reduced what we had preserved from the HFP and CDER Office of Managements to "right-size" the central FDA functions like operations and budget (~150) and reduced other executive program operations who coordinates SME work in the Centers. Finally, we had reviewed all policy/leg functions and organizations across FDA to identify which are SME-focused and which are more general regulation processing. Given the target, we still needed to reduce all Center policy teams to retain only a centralized function in OPLIA. This included, for example, reducing the specific policy functions related to foods (dairy safety policy, processed food and beverages policy, etc.) and drugs (compounding, generic drugs).

If helpful, we can provide you the options to finalize the priorities for the RIF competitive areas and identify these types of potential considerations given there are potential tradeoffs. We are meeting internally in the morning to review the geographic dimension based on our discussion with Rachel and that may also provide us an alternative approach to close the gap to the target.

We recognize we need to settle this ASAP and look forward to our discussion tomorrow.

Thanks,
Jen

Attachments: FDA Shared Services - Recommendation 2025 03 19.docx

---

Jen – question on this. We'd (NIH, CDC, FDA along with HHS) envisioned the below – what has changed/is different from the plan now (partly summarized in your attachment)?
Talking through may be faster… will find time to talk with you all this morning.
TY!

The following functions could be centralized in a **shared service model at the HHS level**:

- Ethics
- Privacy
- Freedom of Information
- Records Management
- Equal Employment Opportunity
- HR: Employee and Labor Relations
- HR: Training & Leadership Development, HR Operations (processing, benefits, retirements)
- Reasonable Accommodation and Conflict Prevention Services
- IRB → NIH services all
- Publication subscriptions, library functions (e.g. Medscape, peer-reviewed journals, WebMD) → NIH services all

The following functions could be consolidated agency-wide by eliminating duplicative functions and positions (currently replicated at the Center level) **at an OpDiv (Agency) level:**

- Budget Formulation & Execution (Budget Authority & User Fees)
- Travel
- Purchase Card
- Contracts and Agreements
- Grants
- Facilities
- Time Reporting
- Reorganizations
- Financial Management (Accounting, Financial Reporting)
- HR: Title 21 Hiring, Compensation & Operations
- HR: Executive Resources
- HR: Performance and Awards
- HR: Work/Life Programs
- HR: ITAS (Timekeeping) and Payroll
- Facilities Management
- Program Evaluation

Subject: Shared Services (confidential)

Hi Sara,
Angel mentioned that you wanted to see some of the additional background we have on the shared services topic. Attached is the internal summary document I had sent to you last night with minor changes based on our discussion today. The only change to our approach was related to security vetting to be realigned to HHS versus retained at FDA. Popping this to the top of your inbox in case it's helpful.
Also – I quickly reviewed the yellow highlights in the IT tab on the sheet to Rachel. We'll use that to develop an initial pass for IT and connect back with you on next steps.
Have a good evening,
Jen

FDA's recommendation for Shared Services approach

	Human Resources	FDA Current State*	FDA Proposed to Realign to HHS	FDA Proposed to Retain
HHS-Level Roles	Employer of Record	-	-	-
	HR Data System	10	-	10
	EEO	12	-	-
	Reasonable Accommodations	11	-	11
	Labor Relations	6	6	-
	Security Vetting	12	12	-
	Benefits & Retirement	10	-	10
Division-Level Roles	Hiring	203	-	203
	Customer Service	-	-	-
	ITAS & Payroll (not system)	7	-	7
	Training & Development (specific to Division)**	11	-	11
	Travel	23	-	23
	Performance and Reviews	7	-	7

Recommendations:

HR Data System: Local systems coordination will be needed to facilitate 2025 reorganization realignment; future state FDA to repurpose personnel within OO.

Division-Level: FDA Office of Talent Solutions and Office of Human Capital Management are already lean to service agency of 15K. FDA proposes to repurpose most of OTS and OHCM to service the agency in future state (~200).

*Only OO shown for comparison. Does not include any collateral OM/administrative functions in the centers, as these functions will be eliminated.

**Showing OO central coordination only. FDA will retain select SME training expertise. Biggest driver of FTE count is inspectorate training and credentialing.

FDA could reallocate up to 10 HR liaisons from Centers to HHS level.

FDA's recommendation for Shared Services approach

	External Affairs	FDA Current State	FDA Proposed to Realign to HHS	FDA Proposed to Retain
HHS-Level Roles	Employer of Record			
	Communications	400+	20	50
	Congressional Relations	100+	30	25
	State & Local Outreach	4	-	4
Division-Level Roles	Coordination with Division Leadership			
	Data Gathering	*#s reflected above*		

Recommendations:

Congressional Relations: FDA to retain small legislative affairs team within OPLIA to serve as SMEs for ASL/ASFR on FDA programs on deliverables such as QFRs, testimony, and hearing prep Q&As (~25). FDA to retain small IGA footprint within OPLIA.

Communications: FDA to retain small communications footprint to coordinate with programs on statutory notification communications for topics such as recalls and facilitate clearance with ASPA (~40). FDA will retain right-sized FOI/records office within OO (~80) - this function is within some of the Center Comms Offices.

*400 for communications is reflected twice on table

FDA's recommendation for Shared Services approach

	Procurement	FDA Current State	FDA Proposed to Realign to HHS	FDA Proposed to Retain	Recommendations:
HHS-Level Roles	Employer of Record Contracting System/Data Policies & Procedures Enforcement and oversight IT Procurement Center of Excellence R&D Contracts Category Management Commodity Procurements	120	80	40	Procurement: FDA proposes to realign most of OAGS to HHS and retain a small footprint of expertise to service the program areas given the large volume of ongoing contract work for inspections and labs.
Division-Level Roles	Requirements Gathering Contract administration Mission procurement Contract audit and closeout	200+	-	10	Small footprint of acquisition liaisons will remain, but this function will primarily be serviced from within the programs or through the smaller OAGS shop.

Subject: RE: FDA Draft Future State Org Charts - Planning (confidential)
Date: Monday, March 31, 2025 3:43:20 PM
Attachments: FDA_proposed_2025.03.31_3.pdf

Hi Sara,
In follow up to our conversation, I'm sharing key points to support your conversation with HHS:

- Attached is a simple high-level future state chart. FDA may decide to change the titles shown (e.g., ODT), but this reflects is our understanding of what IOS agreed to for the future state structure.
- Key points regarding reorganization process:
  - FDA is fully committed to expediting a package to implement the future state as soon as we can, and we want to raise a few areas for consideration as we work to build the proposal and prepare the agency for implementation.
  - The typical reorganization development and clearance process is 6-18 months. Typically, we develop a proposal, clear it through FDA, HHS, and OMB and then formally notify Congress. After notification, we announce the new structure to staff.
  - HHS is required by statute to notify Congress regarding FDA's reorganization proposals prior to implementation. FDA has a 30-day waiting period, while most other HHS OPDIVs have a 15-day period. The notification package to Congress includes a letter from the Secretary, details of all changes (organizational charts) including FTE and funding realignments. NOTE: FDA has always waited to implement until the Appropriations Committees gave their 'approval' of the proposed changes.
  - To build the formal reorganization package, FDA will need to take several steps, including:
    - Building future state structure and confirming all policy decisions through the Commissioner;
    - Realigning employees to the future state organizations;
    - Assessing impact to FDA's budget, including potential impacts to user fee triggers, and building budget materials for the package to Congress; and
    - Developing detailed reorganization package materials for HHS/OMB review (package of this size will be 600+ pages).
  - At the same time, we also need to rewire our processes given the significant impact to our operations.

Thank you,
Jen

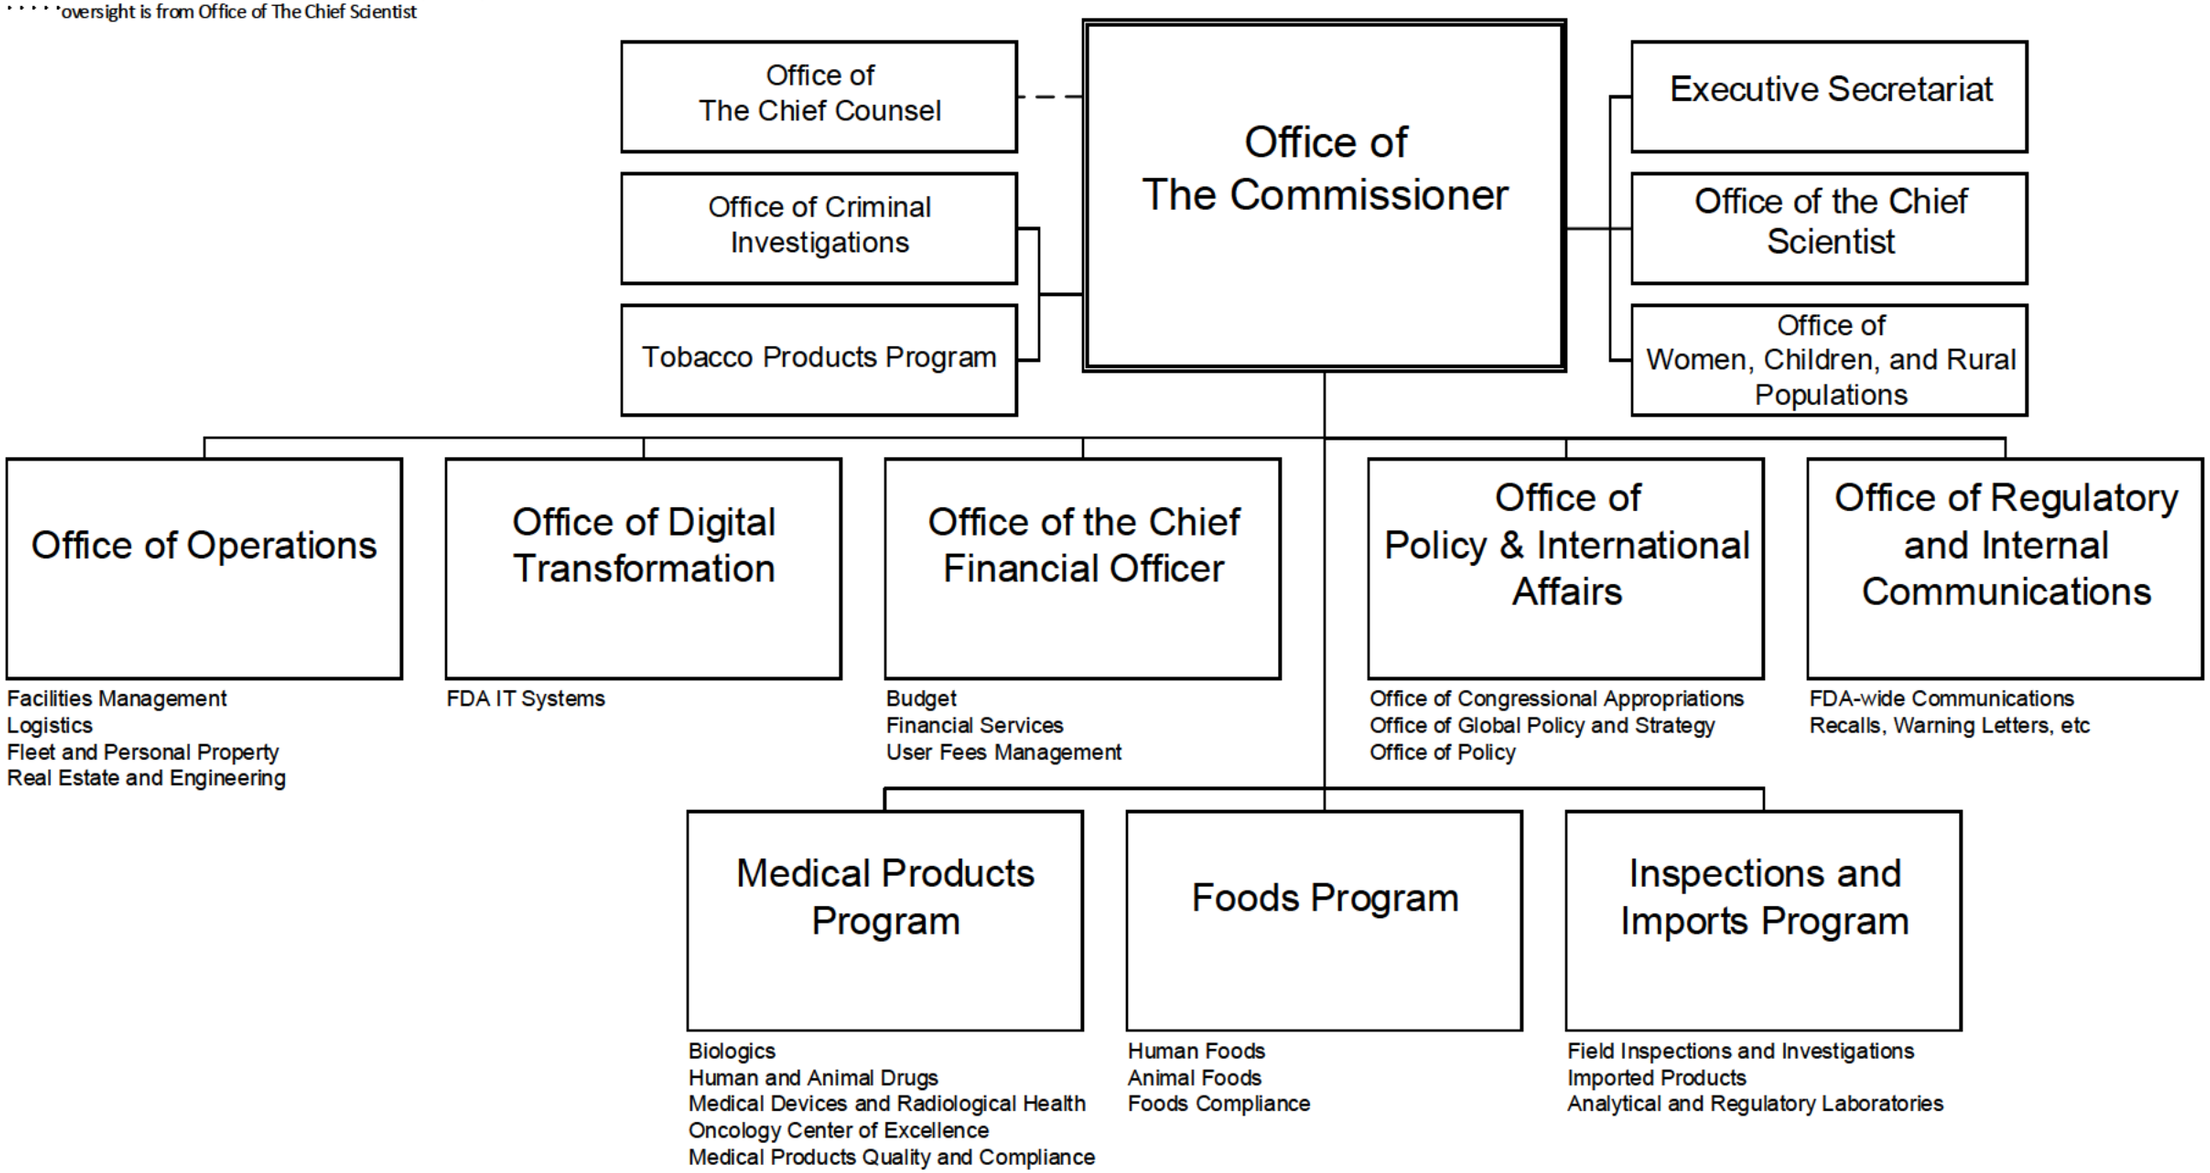
Subject: FDA Draft Future State Org Charts - Planning (confidential)
Good afternoon,
As requested, attached are the draft versions of the future state organizational charts.
The square text boxes capture key questions and ideas for additional discussion.

Once we have the final post-RIF staffing and positions identified, we will identify all of the positions for realignment based on function. This will inform the estimated size of organizations and associated structure.



Big thank you to Mike Gleason for his excellent work at pulling these drafts together so quickly.

Thanks,

Jen

HHS Announces Transformation to Make America Healthy Again

Washington, D.C. — March 27, 2025 — Today, the U.S. Department of Health and Human Services (HHS) announced a dramatic restructuring in accordance with President Trump's Executive Order, “Implementing the President’s ‘Department of Government Efficiency’ Workforce Optimization Initiative.”

The restructuring will address this and serve multiple goals without impacting critical services. First, it will save taxpayers $1.8 billion per year through a reduction in workforce of about 10,000 full-time employees who are part of this most recent transformation. When combined with HHS’ other efforts, including early retirement and Fork in the Road, the restructuring results in a total downsizing from 82,000 to 62,000 full-time employees.

Secondly, it will streamline the functions of the Department. Currently, the 28 divisions of the HHS contain many redundant units. The restructuring plan will consolidate them into 15 new divisions, including a new Administration for a Healthy America, or AHA, and will centralize core functions such as Human Resources, Information Technology, Procurement, External Affairs, and Policy. Regional offices will be reduced from 10 to 5.

Third, the overhaul will implement the new HHS priority of ending America’s epidemic of chronic illness by focusing on safe, wholesome food, clean water, and the elimination of environmental toxins. These priorities will be reflected in the reorganization of HHS.

Finally, the restructuring will improve Americans' experience with HHS by making the agency more responsive and efficient, while ensuring that Medicare, Medicaid, and other essential health services remain intact.

"We aren't just reducing bureaucratic sprawl. We are realigning the organization with its core mission and our new priorities in reversing the chronic disease epidemic," HHS Secretary Robert F. Kennedy, Jr. said. "This Department will do more – a lot more – at a lower cost to the taxpayer."

The specific contents of the restructuring plan that have been announced so far are as follows:

- Creation of the Administration for a Healthy America (AHA), which will combine multiple agencies — the Office of the Assistant Secretary for Health (OASH), Health Resources and Services Administration (HRSA), Substance Abuse and Mental Health Services Administration (SAMHSA), Agency for Toxic Substances and Disease Registry (ATSDR), and National Institute for Occupational Safety and Health (NIOSH) — into a new, unified entity. This centralization will improve coordination of health resources for low-income Americans and will focus on areas including, Primary Care, Maternal and Child Health, Mental Health, Environmental Health, HIV/AIDS, and Workforce development. Transferring SAMHSA to AHA will increase operational efficiency and assure programs are carried out because it will break down artificial divisions between similar programs.

- Strengthening the Centers for Disease Control and Prevention (CDC): the Administration for Strategic Preparedness and Response (ASPR), responsible for national disaster and public health emergency response, will transfer to the CDC, reinforcing its core mission to protect Americans from health threats.

- New Assistant Secretary for Enforcement: HHS will create a new Assistant Secretary for Enforcement to oversee the Departmental Appeals Board (DAB), Office of Medicare Hearings and Appeals (OMHA), and Office for Civil Rights (OCR) to combat waste, fraud, and abuse in federal health programs.

- Research and Evaluation for Health Policy: HHS will merge the Assistant Secretary for Planning and Evaluation (ASPE) with the Agency for Healthcare Research and Quality (AHRQ) to create the Office of Strategy to enhance research that informs the Secretary's policies and improves the effectiveness of federal health programs.

- Reorganization of the Administration for Community Living (ACL): Critical programs that support older adults and people with disabilities will be integrated into other HHS agencies, including the Administration for Children and Families (ACF), ASPE, and the Centers for Medicare and Medicaid Services (CMS). This reorganization will not impact Medicare and Medicaid services.

"Over time, bureaucracies like HHS become wasteful and inefficient even when most of their staff are dedicated and competent civil servants," Secretary Kennedy said. "This overhaul will be a win-win for taxpayers and for those that HHS serves. That's the entire American public, because our goal is to Make America Healthy Again."

Fact Sheet: HHS' Transformation to Make America Healthy Again

Return to the press release </about/news/hhs-restructuring-doge.html>.

The restructuring of HHS is proceeding in accordance with President Trump's Executive Order, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative." Over the past four years, during the Biden administration, HHS' budget increased by 38% and its staffing increased by 17%.

1. The plan combines personnel cuts, centralization of functions, and consolidation of HHS divisions, including:
    - The current 82,000 full-time employees will be reduced to 62,000
    - 28 divisions will be consolidated to 15
    - 10 regional offices will become 5
    - Human Resources, Information Technology, Procurement, External Affairs, and Policy will be centralized.

2. Regarding FDA, CDC, NIH, and CMS:
   - FDA will decrease its workforce by approximately 3,500 full-time employees, with a focus on streamlining operations and centralizing administrative functions. This reduction will not affect drug, medical device, or food reviewers, nor will it impact inspectors.
   - The CDC will decrease its workforce by approximately 2,400 employees, with a focus on returning to its core mission of preparing for and responding to epidemics and outbreaks. This includes moving ASPR under CDC to enhance coordination of response efforts. NOTE: The “CDC” decrease would only be 1,400 if you included the individuals coming over from ASPR (approx. 1,000 individuals).
   - The NIH will decrease its workforce by approximately 1,200 employees by centralizing procurement, human resources, and communications across its 27 institutes and centers.
   - CMS will decrease its workforce by approximately 300 employees, with a focus on reducing minor duplication across the agency. This reorganization will not impact Medicare and Medicaid services.
3. The consolidation and cuts are designed not only to save money, but to make the organization more efficient and more responsive to Americans’ needs, and to implement the Make America Healthy Again goal of ending the chronic disease epidemic.
4. No additional cuts are currently planned, but the Department will continue to look for further ways to streamline its operations and agencies.
5. A new Administration for a Healthy America (AHA) will consolidate the OASH, HRSA, SAMHSA, ATSDR, and NIOSH, so as to more efficiently coordinate chronic care and disease prevention programs and harmonize health resources to low-income Americans. Divisions of AHA include Primary Care, Maternal and Child Health, Mental Health, Environmental Health, HIV/AIDS, and Workforce, with support of the U.S. Surgeon General and Policy team.
6. HHS will have a new Assistant Secretary for Enforcement to provide oversight of the Departmental Appeals Board (DAB), Office of Medicare Hearings and Appeal (OMHA), and the Office for Civil Rights (OCR) to combat waste, fraud, and abuse.
7. HHS will combine the Assistant Secretary for Planning and Evaluation (ASPE) and Agency for Healthcare Research and Quality (AHRQ) into the Office of Strategy to conduct research that informs the Secretary’s policies and evaluates the effectiveness of the Department’s programs for a healthier America.
8. The critical programs within the Administration for Community Living (ACL) that support older adults and people of all ages with disabilities will be split across the Administration for Children and Families (ACF), Assistant Secretary for Planning and Evaluation (ASPE), and Centers for Medicare and Medicaid Services (CMS).

Subject: HHS Competitive Areas for Approval

OPM Memo (Final).pdf

OPM Competitive Area Grant (Fi...

HHS 25 MAR Competitive Are...

Dear Michael,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

Please note we will be sending one additional list of competitive areas tomorrow focused on CDC.

Sincerely,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer
Office of Human Resources
Mobil 202-531-5545

The U.S. Department of Health & Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

March 25, 2025

To: **Michael J. Mahoney, Office of Personnel Management**

From: **Tom Nagy, Human Capital Officer**

Subject: **Establishment of Competitive Areas**

This memorandum serves as the Department of Health & Human Services' (HHS) request to establish competitive areas and for an exception to the competitive area 90-day rule. Please find HHS's responses below with regards to our competitive areas.

1. Identification of the proposed competitive area, including the organizational segment, geographic location, and limits of the local commuting area.

Answer: Details of each proposed competitive area including the organizational segment and geographic location are included in the attached spreadsheet. Aligning with page 31 of OPM's Workforce Reshaping Operations Handbook, HHS defines local commuting areas as "any population center (or two or more neighboring centers) and the surrounding localities in which people live and can reasonably be expected to travel back and forth every day to their usual employment."

2. A description of how the proposed area differs from the one previously established for the same unit and geographic area.

Answer: To my knowledge, no competitive areas have been established by HHS for the units described in the attached spreadsheet. We have not found any documentation of previously defined or currently enacted competitive areas across HHS. The HHS Human Resources database (called Enterprise Human Capital Management or EHCM) contains a competitive area field; however, this field is blank for all employees.

3. An organizational chart of the agency showing the relationship between the organizational components within the competitive area and other components in the commuting area.

Answer: Organizational structure details for each competitive area are included in the attached spreadsheet.

4. The number of competing employees in the proposed competitive area.

Answer: The number of competing employees in each proposed competitive area is included in the attached spreadsheet.

5. A description of the operation, work function, staff, and personnel administration of the proposed area and, where appropriate, a description of how the area is distinguished from others in these respects.

Answer:

Overview. The Department of Health and Human Services (HHS) has a critical mission to enhance the health and well-being of all Americans, by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social services. Currently, HHS is not well structured to achieve this goal. HHS has too many divisions, offices, functions, programs, and research organizations, which are extremely difficult for leaders and stakeholders to navigate. This problem grew worse during the COVID pandemic; our budget ballooned by 38% and our staff grew by 17% over the past five years. Our Agency Restructuring and RIF Plan (ARRP) is aimed at solving these problems.

Plan. Accordingly, our proposal establishes new competitive areas based on "Department ID." Department ID is the core administrative organization field for all HHS HR data in our HR database. Department ID is the separate administrative unit used for managing all HR across HHS; positions are currently added and subtracted at the level of these Department ID administrative units.

Since our restructuring planning process began, HHS has not created any new Department IDs. To my knowledge, HHS has not moved any individuals between Department IDs since the restructuring planning began. And all functions of a Department ID are unique to the specific Department ID. Therefore, it makes sense to define every competitive area in terms of a single Department ID.

Legal basis. Department ID meets the definition of a competitive area. A competitive area is defined in terms of an agency's organizational units and geographical location. 5 C.F.R. § 351.402(b). "A competitive area may consist of all or part of an agency." *Id.* And "[t]he minimum competitive area is a subdivision of the agency under *separate administration* within the local commuting area." *Id.* (emphasis added). Department IDs define organizational units within HHS that are under separate administration.

OPM defines "separate administration" to means the unit has (1) "the administrative authority to take or direct personnel actions"; (2) "the organizational unit is separately organized and clearly distinguished from other organizational units within the same local commuting area in regard to operation, work function, staff, and personnel management." OPM's Workforce Reshaping Operations Handbook at 30. OPM recognizes "that individual organizational components may be under separate administration even though many agencies reserve final approval of certain personnel actions to a higher level in the agency." *Id.* Moreover, "separate administration" is often noted in an agency's organizational manual or in its delegations of authority. *Id.*

Department ID defines units that are clearly distinguished in regard to operation, work function, and staff. They are separate administrative authorities. Employees are added or subtracted at the Department ID level. Usually, a Department ID will have its own decisionmaker. Other times, consistent with the OPM guidance referenced above, final approval of certain decisions is required above the Department ID level. But, overall, functions are organized by Department ID and hiring happens within these units.

6. A discussion of the circumstances that led to the proposed changes less than 90 days before a proposed reduction.

Answer: HHS is responding to the executive order *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative*, dated February 11, 2025.

Mr. Tom Nagy
Human Capital Officer
Department of Health and Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy,

The Office of Personnel Management (OPM) approves the Department of Health and Human Services' (HHS) March 25, 2025, request for OPM approval of competitive areas which will be in effect less than 90 days prior to the proposed effective date of reduction of force (RIF). Your request indicates that competitive areas will be established according to HHS Department ID. Furthermore, a 90-day waiver is necessary due to the impact of the executive order titled, *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (February 11, 2025).

OPM approves your request in accordance with 5 C.F.R. 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. Divisions based on Department ID meet the definition of a competitive area. Department IDs appear to be the current organizational structure at HHS, and as described define organizational units that are under separate administration. *See* 5 C.F.R. 351.402(b).

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

NOTE ON GEOGRAPHIC AREA - *For any geographic area listed as nationwide, the competitive area will be further broken down into each local commuting area, as defined by OPM regulations. For geographic areas that have multiple locations (e.g., Boston, Chicago, New York), each local commuting area, as defined by OPM regulations, will be a unique competitive area.

OPM Competitive Area Grant (Fi...

HHS 25 MAR Competitive Are...

Dear Michael,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

Please note we will be sending one additional list of competitive areas tomorrow focused on CDC.

Sincerely,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer

Dear Michael,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

Please note we will be sending one additional list of competitive areas tomorrow focused on CDC.

Sincerely,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

March 27, 2025

Mr. Thomas J. Nagy, Jr.
Chief Human Capital Officer
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) March 25 and 26, 2025, requests for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your requests indicate that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

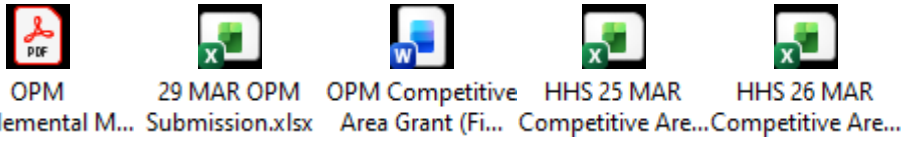
> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your requests in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your requests were not previously established. They comprise the groups mentioned in your requests including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:

- The organizational unit or subdivision is separately organized;
- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and

- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.



Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

Subject: OPM Submission - 3.29.2025

Good Afternoon Office of Personnel Management,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet (labeled 29 MAR OPM Submission) describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful. And finally, I have attached two spreadsheets with additional competitive areas OPM approved earlier this week.

V/r,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer
Department of Health and Human Services
Office of Human Resources
Mobil 202-531-5545

The U.S. Department of Health & Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

March 29, 2025

To: **Michael J. Mahoney, Office of Personnel Management**

From: **Tom Nagy, Human Capital Officer**

Subject: **Establishment of Competitive Areas**

This memorandum serves as the Department of Health & Human Services' (HHS) request to establish competitive areas and for an exception to the competitive area 90-day rule. Please find HHS's responses below with regards to our competitive areas.

1. Identification of the proposed competitive area, including the organizational segment, geographic location, and limits of the local commuting area.

Answer: Details of each proposed competitive area including the organizational segment and geographic location are included in the attached spreadsheet. Aligning with page 31 of OPM's Workforce Reshaping Operations Handbook, HHS defines local commuting areas as "any population center (or two or more neighboring centers) and the surrounding localities in which people live and can reasonably be expected to travel back and forth every day to their usual employment."

2. A description of how the proposed area differs from the one previously established for the same unit and geographic area.

Answer: To my knowledge, no competitive areas have been established by HHS for the units described in the attached spreadsheet. We have not found any documentation of previously defined or currently enacted competitive areas across HHS. The HHS Human Resources database (called Enterprise Human Capital Management or EHCM) contains a competitive area field; however, this field is blank for all employees.

3. An organizational chart of the agency showing the relationship between the organizational components within the competitive area and other components in the commuting area.

Answer: Organizational structure details for each competitive area are included in the attached spreadsheet. Two additional spreadsheets with the competitive areas previously approved by OPM are also attached for your reference.

4. The number of competing employees in the proposed competitive area.

Answer: The number of competing employees in each proposed competitive area is included in the attached spreadsheet.

5. A description of the operation, work function, staff, and personnel administration of the proposed area and, where appropriate, a description of how the area is distinguished from others in these respects.

Answer:

Overview. The Department of Health and Human Services (HHS) has a critical mission to enhance the health and well-being of all Americans, by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social services. Currently, HHS is not well structured to achieve this goal. HHS has too many divisions, offices, functions, programs, and research organizations, which are extremely difficult for leaders and stakeholders to navigate. This problem grew worse during the COVID pandemic; our budget ballooned by 38% and our staff grew by 17% over the past five years. Our Agency Restructuring and RIF Plan (ARRP) is aimed at solving these problems.

Plan. Accordingly, our proposal establishes new competitive areas based on "Department ID." Department ID is the core administrative organization field for all HHS HR data in our HR database. Department ID is the separate administrative unit used for managing all HR across HHS; positions are currently added and subtracted at the level of these Department ID administrative units.

Since our restructuring planning process began, HHS has not created any new Department IDs. To my knowledge, HHS has not moved any individuals between Department IDs since the restructuring planning began. And all functions of a Department ID are unique to the specific Department ID. Therefore, it makes sense to define every competitive area in terms of a single Department ID.

Legal basis. Department ID meets the definition of a competitive area. A competitive area is defined in terms of an agency's organizational units and geographical location. 5 C.F.R. § 351.402(b). "A competitive area may consist of all or part of an agency." *Id.* And "[t]he minimum competitive area is a subdivision of the agency under *separate administration* within

the local commuting area." *Id.* (emphasis added). Department IDs define organizational units within HHS that are under separate administration.

OPM defines "separate administration" to means the unit has (1) "the administrative authority to take or direct personnel actions"; (2) "the organizational unit is separately organized and clearly distinguished from other organizational units within the same local commuting area in regard to operation, work function, staff, and personnel management." OPM's Workforce Reshaping Operations Handbook at 30. OPM recognizes "that individual organizational components may be under separate administration even though many agencies reserve final approval of certain personnel actions to a higher level in the agency." *Id.* Moreover, "separate administration" is often noted in an agency's organizational manual or in its delegations of authority. *Id.*

Department ID defines units that are clearly distinguished in regard to operation, work function, and staff. They are separate administrative authorities. Employees are added or subtracted at the Department ID level. Usually, a Department ID will have its own decisionmaker. Other times, consistent with the OPM guidance referenced above, final approval of certain decisions is required above the Department ID level. But, overall, functions are organized by Department ID and hiring happens within these units.

6. A discussion of the circumstances that led to the proposed changes less than 90 days before a proposed reduction.

Answer: HHS is responding to the executive order *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative*, dated February 11, 2025.

NOTE ON GEOGRAPHIC AREA - *For any geographic area listed as nationwide, the competitive area will be further broken down into each local commuting area, as defined by OPM regulations.

Mr. Tom Nagy
Human Capital Officer
Department of Health and Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy,

The Office of Personnel Management (OPM) approves the Department of Health and Human Services' (HHS) March 29, 2025, request for OPM approval of competitive areas which will be in effect less than 90 days prior to the proposed effective date of reduction of force (RIF). Your request indicates that competitive areas will be established according to HHS Department ID. Furthermore, a 90-day waiver is necessary due to the impact of the executive order titled, *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (February 11, 2025).

OPM approves your request in accordance with 5 C.F.R. 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. Divisions based on Department ID meet the definition of a competitive area. Department IDs appear to be the current organizational structure at HHS, and as described define organizational units that are under separate administration. *See* 5 C.F.R. 351.402(b).

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

Subject: Re: OPM Submission - 3.29.2025

Thomas- given that this request has come through on a weekend and is consistent with a methodology for defining competitive areas that OPM has approved in the past, and given what I understand to be the extremely time- sensitive nature of the request (i.e. you are planning to send the notices today), OPM is granting preliminary approval of the request. Formal approval from WPI will be forthcoming next week.

Best,

Noah

Good Afternoon Office of Personnel Management,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet (labeled 29 MAR OPM Submission) describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful. And finally, I have attached two spreadsheets with additional competitive areas OPM approved earlier this week.

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

March 31, 2025

Mr. Thomas J. Nagy, Jr.
Chief Human Capital Officer
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) March 29, 2025, request for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your request indicates that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your request in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your request were not previously established. They comprise the groups identified in your enclosed request, including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:

- The organizational unit or subdivision is separately organized;
- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and

- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

Subject: OPM Submission - 3.31.2025

Office of Personnel Management,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet (labeled HHS 31 MAR) describing the details of each competitive area. I have also attached three spreadsheets with additional competitive areas OPM approved last week (HHS 25 and HHS 25) and preliminary approved over the weekend (29 MAR). We are seeking final approval on both the 29 MAR and 31 MAR spreadsheets. Finally, I have attached a proposed approval of the waiver, in case that is helpful.

Thank you.

V/r,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer
Department of Health and Human Services
Office of Human Resources
Mobil 202-531-5545

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

March 31, 2025

Mr. Thomas J. Nagy, Jr.
Chief Human Capital Officer
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) March 31, 2025, request for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your request indicates that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your request in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your request were not previously established. They comprise the groups identified in your enclosed request including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:

- The organizational unit or subdivision is separately organized;

- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and
- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

KIMBERLY HOLDEN Digitally signed by KIMBERLY HOLDEN

Subject:	HHS Competitive Areas Approval
Date:	Thursday, May 1, 2025 10:50:09 AM
Attachments:	30 APR Competitive Areas HHS.xlsx OPM Competitive Area Grant (Final).docx

Dear Michael and team,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

PREDECISIONAL

Mr. Tom Nagy
Human Capital Officer
Department of Health and Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy,

The Office of Personnel Management (OPM) approves the Department of Health and Human Services' (HHS) May 1, 2025, request for OPM approval of competitive areas which will be in effect less than 90 days prior to the proposed effective date of reduction of force (RIF). Your request indicates that competitive areas will be established according to HHS Department ID. Furthermore, a 90-day waiver is necessary due to the impact of the executive order titled, *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (February 11, 2025).

OPM approves your request in accordance with 5 C.F.R. 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. Divisions based on Department ID meet the definition of a competitive area. Department IDs appear to be the current organizational structure at HHS, and as described define organizational units that are under separate administration. *See* 5 C.F.R. 351.402(b).

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

May 2, 2025

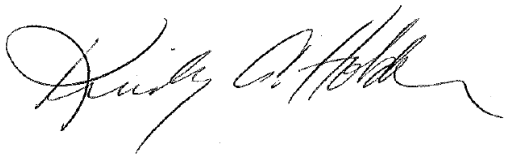
Mr. Thomas Nagy
Deputy Assistant Secretary for Human Resources
Chief Human Capital Officer
Department of Health and Human Services
200 Independence Ave., SW
Washington, DC 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) May 1, 2025, request for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your request indicates that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your request in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your request were not previously established. They comprise the groups identified in your enclosed request including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:



- The organizational unit or subdivision is separately organized;

- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and
- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Kimberly A. Holden
Principal Deputy Associate Director
Workforce Policy and Innovation

Predecisional/Confidential Draft

Sara –

Please find the spreadsheet discussed in the meeting today attached. By Wednesday COB, can you please:

1) Review Tab "OpDivOverview", which summarizes every office and FTE count in your division. Please mark an X in Column G to identify any offices that you think could be reduced / eliminated not already identified on the "Programs" tab.

2) Review the five tabs below and please denote whether to "Delete" an individual in Column G if the FTE does other work in that area or "Add" an individual in Column G if an individual works in that area but is currently not listed on the tab; no action is needed if an employee is appropriately listed on a tab

a. Procurement (list based on all 1102 occs codes)

b. IT (list based on all 1530,1550,1560,2210 occs codes)

c. HR (list based on all 201 and 203 occs codes)

d. External Affairs (list based on office names; may be less accurate)

e. Policy (list based on office names; may be less accurate)

f. Regions (all FTE whose duty station is coded as Boston, NYC, Chicago, Seattle, or San Francisco) - Please denote in Column H any employees who are either not actually located in the region or who perform a critical function and should not be included in any future reduction in force

3) Let me know when you are free for 90 minutes WED to get your feedback on some of the initial, more detailed ideas around each of the shared services – we want to make sure we incorporate your advice and feedback into the plan for each

Thank you,

Rachel

HHS RIF FDA CDER, **APPELLANT,** **v.** **U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES,** **AGENCY.**	**Docket No.: CF-0351-26-0076-I-1** **A.J.: Michael Perry** **Date: April 9, 2026**

AGENCY NARRATIVE RESPONSE

Pursuant to the Case Management Order issued by the Administrative Judge on March 20, 2026, the United States Department of Health and Human Services ("HHS," "Agency" or "Department") hereby respectfully submits the following narrative response to the HHS RIF Food and Drug Administration ("FDA") Center for Drug Evaluation and Research ("CDER") Consolidation Appeal. In this action, the Agency must establish that it undertook the reduction in force ("RIF") for a *bona fide* reason and that it properly applied the RIF regulations at 5 C.F.R. Part 351 to the Appellants. *Dante v. Nat'l Sci. Found.*, 16 M.S.P.R. 314, 316 (1983); *Schroeder v. Dep't of Transp.*, 60 M.S.P.R. 566, 569-70 (1994). In this case, the Agency can establish both.

I. The Agency Properly Invoked RIF Regulations by Conducting the RIF for a *Bona Fide* Reason.

Agencies may implement a RIF "because of lack of work; shortage of funds; insufficient personnel ceiling; reorganization; the exercise of reemployment rights or restoration rights; or reclassification of an employee's position d[u]e to erosion of duties." 5 C.F.R. § 351.201(a)(2). Here, the Agency's *bona fide* reason for the RIF is reorganization.

A. Under the RIF Regulations and Board Case Law, the Agency Need Only Establish that it Eliminated or Redistributed Functions or Duties in Order to Prove that a Reorganization Took Place.

To establish a reorganization under the RIF regulations and Board case law, the Agency need only show that it planned to, and did, eliminate or redistribute functions or duties in FDA. Under the RIF regulations, reorganization "means the planned *elimination*, addition, or *redistribution* of functions or duties in an organization." 5 C.F.R. § 351.203 (emphasis added).

The Board has consistently reached the same conclusion that the *elimination* or *redistribution* of functions or duties alone is enough to establish a reorganization. For example, the Board has found that an "agency's decision to eliminate an employee's position because the function can be performed by others" is sufficient evidence of a reorganization under the RIF regulations. *O'Connell v. Dep't of Health and Human Services*, 21 M.S.P.R. 257, 260 (1984) (RIF notice issued to appellant stated the agency was trying to achieve efficient staff use by eliminating unnecessary or duplicative resources); *see also Moran v. Dep't of Air Force*, 64 M.S.P.R. 77, 82-84 (1994) (agency invoked RIF regulations for a legitimate management reason where it abolished 42 civilian and 150 military positions and engaged in a major redistribution of functions). The Board has also found that a reorganization occurred under the RIF regulations where the agency separated employees and eliminated their positions solely for the purpose of engaging a private contractor to perform their duties. *Griffin*[1] *v. Dep't of Agriculture*, 2 M.S.P.B. 335, 336-37 (1980) (Board rejected employees' argument that since their janitorial and ground maintenance duties were being carried out by private sector personnel, the abolition of their agency positions could not properly be termed the result of a reorganization under 5 C.F.R. § 351.201(a)); *Local 2855,*

[1] In *Griffin*, the employees contended that the RIF was unlawful because it resulted from contracting out the services they had been performing, not from lack of work or funds or from an internal reorganization. *Griffin*, 2 M.S.P.B. at 335.

AFGE (AFL-CIO) v. U.S., 602 F.2d 574, 576, 583 (3rd Cir. 1979) (where employees performing stevedoring and terminal services, who were terminated in a RIF, alleged no reorganization took place because the Army engaged a private contractor to perform those services, Court held "reorganization means 'the planned elimination, addition, or redistribution of functions or duties in an organization,'" and "[e]limination of the plaintiffs' jobs through the decision to contract out resulted from just such a reorganization, and is thus not assailable on this ground"); *Streitfeld v. Railroad Retirement Board*, 20 M.S.P.R. 182, 183 (1984); *Kelley v. Railroad Retirement Board*, 20 M.S.P.R. 188, 189-90 (1984) (Where appellant alleged his separation from his chief medical officer position under a RIF was improper, the "presiding official correctly concluded that when an agency has invoked RIF regulations for one of the management reasons specified in 5 C.F.R. § 351.201(a) the Board lacks jurisdiction to review the managerial considerations underlying the agency's exercise of discretion. This is true even if the agency violated its own statutes in contracting out the function in question.").

Further, the Board has not required detailed or comprehensive reorganization plans in order to conclude that an agency undertook a reorganization. In fact, in *Holmes, supra*[2], the Board rejected an administrative judge's conclusion that an agency failed to establish it had invoked the RIF regulations due to a reorganization, where the administrative judge found the charts submitted by the agency to illustrate the reorganization provided insufficient detail regarding the reorganization because the charts did not establish when and if the reorganization took place or

[2] In *Holmes*, the appellant received a RIF notice on January 14, 1988, informing her that the position she occupied, General Accounting Supervisor, GS-10501-10, was being abolished and replaced by the newly established position of Pay and Examination Supervisor, GS-503-11. *Holmes*, 41 M.S.P.R. at 613. Effective March 27, 1988, appellant's position was abolished and she was demoted to Management Analyst, GS-0343-09. *Id.* Another employee was selected for the new GS-11 position. *Id.* The administrative judge concluded that the agency invoked the RIF regulations under the pretext of a reorganization to place another employee in appellant's position. *Id.* at 614.

whether the changes occurred while the appellant occupied the position that was abolished in the RIF.[3] *Holmes v. Dep't of Army*, 41 M.S.P.R. 612, 614-16 (1989), *aff'd*, 914 F.2d 271 (Fed. Cir. 1990). The Board faulted the administrative judge, stating, "The administrative judge has not explained, however, why this is relevant to a determination of whether a valid reorganization occurred." *Id.* at 615. Rather, the Board credited testimony that demonstrated the "restructuring was an ongoing process over the course of several years, not a dramatic change that happened on a particular date" and ultimately concluded that the evidence established that the Agency conducted the RIF due to a reorganization.[4] *Id.*

Therefore, as long as there is evidence of a change of substance, *i.e.*, the elimination or redistribution of functions or duties, the Board has consistently held that "'reorganization' is a term which is broad enough to cover a multitude of legitimate management considerations" to warrant its justification for a RIF. *Blalock v. Dep't of Agriculture*, 28 M.S.P.R. 17, 20-21 (1985).

B. The Agency's Evidence Establishes that Functions and Duties Within FDA Were Eliminated or Redistributed, Thereby Proving the Agency's *Bona Fide* Reason for the RIF, Reorganization

In this case, the Agency can establish its *bona fide* reason for the RIF – reorganization – because it can show that it planned to, and did, eliminate or redistribute functions and duties within FDA. On February 11, 2025, President Trump issued Executive Order 14210, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative"

[3] The administrative judge also found that four automated systems, cited by the agency as a reason for the reorganization, were in place in the appellant's branch as early as 1985. *Holmes*, 41 M.S.P.R. at 614. Further, the administrative judge found that although the evidence suggested that some portions of the appellant's office were reorganized in July and October, 1985, no structured reorganization was scheduled for appellant's location until Fiscal Year 1989, after appellant was demoted. *Id.*

[4] The Board also held, "The fact that work that the appellant previously performed continues to be done by others is not inconsistent with a finding that a reorganization occurred. The record does not show that her former GS-10 position continued after the reorganization." *Holmes*, 41 M.S.P.R. at 617.

(Workforce Executive Order). Agency File, Tab 2 (Exec. Order No. 14210, 90 Fed. Reg. 9669 (Feb. 11, 2025)). One subpart, titled "Reductions in Force," directs "Agency Heads [to] promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs." *Id.* § 3(c). Further, it directs that "[a]ll offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website." *Id*.

On February 26, 2025, the U.S. Office of Personnel Management ("OPM") and the Office of Management and Budget ("OMB") jointly issued a memorandum ("Workforce Memorandum") providing guidance for complying with the Workforce Executive Order. *See* Agency File, Tab 3 (OPM, Memorandum re: Guidance on Agency RIF and Reorganization Plans Requested by Implementing the President's "Department of Government Efficiency" Workforce Optimization Initiative, https://perma.cc/Q9NH-RV8Y). Under this guidance, agencies were directed to "focus on the maximum elimination of functions that are not statutorily mandated while driving the highest-quality, most efficient delivery of their statutorily required functions." *Id.* at 2. The Workforce Memorandum also identified certain "principles" agencies should consider in undertaking reorganization and reduction actions. Specifically, agencies should:

> seek to consolidate areas of the agency organization chart that are duplicative; consolidate management layers where unnecessary layers exist; seek reductions in components and positions that are non-critical; implement technological solutions that automate routine tasks while enabling staff to focus on higher-value activities;

> close and/or consolidate regional field offices to the extent consistent with efficient service delivery; and maximally reduce the use of outside consultants and contractors.

Id. at 2.

On March 27, 2025, Secretary Robert F. Kennedy, Jr., publicly announced the planned reorganization of certain components of the Agency. Agency File, Tab 5 (HHS Announces Transformation to Make America Healthy Again, Press Release, March 27, 2025, available at https://www.hhs.gov/press-room/hhs-restructuring-doge.html); Agency File, Tab 6 (Fact Sheet: HHS' Transformation to Make America Healthy Again, Department of Health and Human Services, available at: https://www.hhs.gov/press-room/hhs-restructuring-doge-fact-sheet.html). The announcement reflected that the Department's focus was on the reduction of wasteful spending, increased efficiency, and increased responsiveness to the needs of the American people. *Id.*

The announcement (and Fact Sheet) identified plans to, among other things, consolidate twenty-eight divisions; centralize shared services including information technology, external affairs, human resources, and procurement; and consolidate ten regional offices into five. The goal of the consolidation and streamlining of agency functions was to reduce redundancy and allow the Agency to perform its core functions more efficiently. As the announcement explained, the Department intends to accomplish its goals "without impacting critical services." [5] Agency File, Tab 5 at 1.

---

[5] Ultimately, as part of its reorganization and restructuring efforts, the Agency undertook a RIF not only in the CDER and throughout FDA, but also in the following HHS Operating Divisions and Staff Divisions: the Administration for Community Living ("ACL"); the Administration for Children and Families ("ACF"); the Administration for Strategic Preparedness and Response ("ASPR"); the Agency for Healthcare Research and Quality ("AHRQ"); the Centers for Disease Control and Prevention ("CDC"); the Centers for Medicare and Medicaid Services ("CMS"); the Food and Drug Administration ("FDA"); the National Institutes of Health ("NIH"); the Substance Abuse and Mental Health Services

Here, the Agency can establish its *bona fide* reason for its RIF, namely, reorganization, because it has set forth evidence that it eliminated and redistributed functions and duties within FDA and HHS. The Secretary's March 27, 2025 announcement of HHS's RIF and reorganization stated that 1) the overall staff across the Agency would be cut from 82,000 to 62,000, in order to save money and to make the organization more efficient, 2) the Agency would, in part, "centralize core functions such as Human Resources, Information Technology [IT], Procurement, External Affairs, and Policy," and 3) the "[r]egional offices [would] be reduced from 10 to 5." Agency File, Tab 5. FDA received additional guidance from the Department regarding implementing the RIF and reorganization which reflected a focus on consolidating these types of shared services. Agency File, Tabs 8(a), 8(b).[6] In addition, documents reflecting FDA's RIF planning similarly plan for the elimination of these same types of positions, and the centralization of these core functions. Agency File, Tabs 4(a) - 4(e).[7]

Consistent with the Secretary's announcement and the FDA draft RIF and reorganization planning documents, the Agency's evidence, including the FDA retention register and CDER organization charts[8], establish that the abolished competitive areas generally performed functions

("SAMHSA"), and the Office of the Secretary ("OS"), including the Office of the Assistance Secretary for Health ("OASH") and the Program Support Center ("PSC").

[6] The Agency is producing the documents found at Tabs 8(a), 8(b) pursuant to the Administrative Judge's March 20, 2026, Case Management Order and, in doing so, does not intend to waive the deliberative process privilege.

[7] The Agency is producing the documents found at 4(a) - 4(e) pursuant to the Administrative Judge's March 20, 2026, Case Management Order and, in doing so, does not intend to waive the deliberative process privilege.

The Department is prepared to produce the Phase 1 and Phase 2 Agency RIF and Reorganization Plans ("ARRPs") it submitted to the Office of Personnel Management, which included plans for FDA. However, before doing so, the Agency filed a Motion for Protective Order or, Alternatively, to File Documents Under Seal, which is currently pending before the Administrative Judge.

[8] FDA does not have post-RIF organizational charts that reflect the elimination of the components abolished in the RIF.

related to human resources, policy, procurement, communications and information technology. *See* Agency File, Tab 8(e).

The FDA retention register and the lists of the employment status, as of March 16, 2026, of the employees in the affected competitive areas reflect the elimination of these offices and the positions within them. Agency File, Tab 8(d). The lists of the FDA competitive areas that the Agency sent to OPM for approval also reflect the Agency's planned elimination of these organizational components and their functions. Agency File, Tabs 7a, 7d, 7g, 7h.

For these reasons, the Agency has put forth considerable evidence to establish that it planned and undertook a reorganization within FDA, including within CDER, as defined under 5 C.F.R. § 351.203 ("the planned *elimination*, addition, *or redistribution* of functions or duties in an organization"), and supported by Board case law. The Agency's evidence reflects that duties or functions within FDA, including CDER were eliminated or redistributed, thus establishing the Agency's *bona fide* reason for the RIF, *i.e.*, reorganization. Thus, the Agency conducted the RIFs subject to this consolidation appeal for a *bona fide* reason pursuant to 5 C.F.R. § 351.201(a)(2), namely, a reorganization.

II. In Conducting the RIF, the Agency Properly Applied the RIF Procedures Set Forth in 5 U.S.C. Part 351 and 5 C.F.R. Part 351 to Appellants.

The Agency properly complied with all applicable RIF regulations when abolishing positions and separating Appellants from the Federal Service. The Agency consulted with OPM for guidance on RIF procedures and that guidance was followed.

A. The Agency Properly Defined Competitive Areas

When conducting a RIF, an Agency must establish competitive areas. 5 C.F.R. § 351.402(a). The competitive areas must be "defined solely in terms of the agency's organizational

unit(s) and geographical location" and at minimum must be "a subdivision of the agency under separate administration within the local commuting area." 5 C.F.R. § 351.402(b).

On March 25, 2025, March 26, 2025, March 29, 2025, and March 31, 2025, the Agency sent requests to OPM requesting approval of its competitive areas. *See* Agency File, Tabs 7(a), 7(b), 7(d), and 7(f). The memoranda submitted with the requests set forth the Agency's explanation for how it defined its competitive areas. *Id.* The memoranda explained that the Agency would use Department IDs, described as "the core administrative organization field for all HHS HR data in our HR database" to establish competitive areas. *Id.* Specifically, the memoranda explained:

> Department ID meets the definition of a competitive area. A competitive area is defined in terms of an agency's organizational units and geographical location. 5 C.F.R. § 351.402(b). "A competitive area may consist of all or part of an agency." *Id.* And "[t]he minimum competitive area is a subdivision of the agency under *separate administration* within the local commuting area." *Id.* (emphasis added). Department IDs define organizational units within HHS that are under separate administration.
>
> OPM defines "separate administration" to means the unit has (1) "the administrative authority to take or direct personnel actions"; (2) "the organizational unit is separately organized and clearly distinguished from other organizational units within the same local commuting area in regard to operation, work function, staff, and personnel management." OPM's Workforce Reshaping Operations Handbook at 30. OPM recognizes "that individual organizational components may be under separate administration even though many agencies reserve final approval of certain personnel actions to a higher level in the agency." *Id.* Moreover, "separate administration" is often noted in an agency's organizational manual or in its delegations of authority. *Id.*
>
> Department ID defines units that are clearly distinguished in regard to operation, work function, and staff. They are separate administrative authorities. Employees are added or subtracted at the Department ID level. Usually, a Department ID will have its own decisionmaker. Other times, consistent with the OPM guidance referenced above, final approval of certain decisions is required above the Department ID level. But, overall, functions are organized by Department ID and hiring happens within these units.

Id. Included with these memoranda were lists of the proposed competitive areas, including but not limited to the following information for each competitive area: its alphanumeric code, the name of the organizational unit, the Operating Division within which it was housed, and the geographic

area it covered. *Id.* On March 27, 2025, OPM sent the Agency a letter approving its March 25, 2025, and March 26, 2025, requests for approval of its competitive areas. Agency File, Tab 7(c). OPM granted preliminary approval of the Agency's March 29, 2025 request via an email on March 29, 2025. Agency File, Tab 7(e). OPM sent the Agency a letter formally approving its March 29, 2025 and March 31, 2025 requests for approval of competitive areas on March 31, 2025. Agency File, Tab 7(f). On May 1, 2025, the Agency sent a request to OPM for approval of additional competitive areas, and OPM approved that request on May 2, 2025. Agency File, Tabs 7(h) and 7(i).

B. FDA CDER Competitive Areas Abolished

Employees released from their competitive level due to a RIF may be entitled to reassignment rights *only* within their competitive area. 5 C.F.R. § 351.701. Therefore, where an agency abolishes an entire competitive area, impacted employees within that competitive area do not have reassignment rights. Here, in each RIF action at issue in this consolidation appeal, the Agency abolished entire competitive areas. Therefore, Appellants did not have reassignment rights to another position.

The following FDA competitive areas are at issue in this consolidation appeal:

Office of Management:

DCDCA2: Acquisitions Support Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Cesstina Farmer ("Tina")
2. Alecia Harvey-Martin
3. Tiffany Lovelace
4. Kellie McDaniels

DCDCA3: Financial Accountability Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Ashunta May

DCDCA4: Budget Formulation Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Beena Alex
2. Linh Le
3. Jennie Lopez
4. Lillie McComb

DCDCB: Division of Management Services

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Danielle Brengle
2. Christina Cole
3. Angela Harris
4. Jacquita Johnson-House
5. Kathleen Keown
6. Brian Mahone
7. Mary Milline
8. Gary Paige
9. Saeed Rahimi

DCDCB1: Human Capital Management Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Adrienne Bailey
2. Cheryl Parker
3. Johnny Thomas
4. Stephanie Thomas
5. Jolita Young
6. LaKeeta Campbell

DCDCB2: Human Capital Programs Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Ebony Davis
2. Megan Foelber
3. Zina Freeman
4. Susan Hawk Prysock
5. Breanna Wells
6. Tessa Williams
7. Tanesia Wright
8. Kimberly Morse (Kimberly McPhaul)

DCDCB4: Property & Travel Services Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Bano Rai-Tyler
2. Charmaine Walker

DCDCB5: Leave & Performance Management Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Shawney Travers-Seibles

Office of New Drugs:

DCDGH: Office of Administrative Operations

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Connie Blue
2. Dwayne Keels
3. Amandeus Watkins

DCDGH1: Administrative Analysis Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Eric Jackson
2. Gretchen Kindle
3. Karen Koenick
4. Rochelle Lambert
5. Kyisha McNeil
6. Dominique Pugh
7. Andre Tisdale
8. Emmanuel Gomez

DCDGH2: Administrative Operations Staff 1

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Kathleen Benner
2. Serena Bledsoe
3. Keisha Charles
4. Esteban Mejia
5. Kara Milstein
6. Mariah Roberson
7. Dina Spruiell
8. Michael Stanfield
9. Priscilla Vinson
10. Lisa Wiederock
11. Jessica Guyton Barnes
12. Jasmine Zellner-Fing

DCDGH3: Administrative Operations Staff 2

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Kelly Benner
2. Shanice Brown
3. Coral Davis
4. Justin Gensicki
5. Fa-Ry Grant
6. Marsha Hampton
7. Tahna Horah
8. Kayla Smith
9. Ashley Verdine

DCDGH4: Administrative Operations Staff 3

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Gwendolyn Griffin
2. Garry Levere
3. Germain Palmer
4. William Thompson
5. Shanice Townsend
6. India Wilson

DCDGH5: Administrative Operations Staff 4

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Kendra Ball
2. Kaila Nowlin
3. Toni Walker
4. Neal Jones
5. Alexander Levillain
6. Keisha Moore

DCDGH6: Administrative Operations Staff 5

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Maya Adams
2. Aiyana Green-Odle
3. Kathleen Hall
4. Adrienne Mack
5. Cindy Mejia
6. Sabrina Smith
7. Sydney Tulloch Verdine
8. Kimberly Walker
9. Keya Whitaker

DCDGH7: Financial Services Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Chinyere Amaefule
2. Candis Brown
3. Mary Cortez
4. William Gable
5. Tracey Hampton
6. Tara Hobson
7. Diem-Chau Ngo
8. Nikisha Reid

DCDGKB: Division of Regulatory Policy

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Kelly Chiang
2. Lauren Ciurca
3. Chara Gunawardhana
4. Stella Kim

DCDGM1: Executive Operations Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Cheryl Campbell
2. Moon Hee Choi
3. Jody Garner

DCDGM2: Business Process & Analysis Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Lawrence Allan

DCDGM3: Learning & Talent Development Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished

Appellants from this Competitive Area:

1. Katlin Baker
2. Levis Francis
3. Michelle Frederick

DCDGM4: Program Development, Implementation, & Management Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Kalesha Grayson
2. Pinakini Patel
3. Lashawn Schnupp

Office of Communications:

DCDD: Office of Communications

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Morgan Jerrick
2. Maurice Johnson
3. Sarah Kim
4. Dana Lauterstein
5. Mario Navarro
6. Paula Rausch
7. Jill Settle
8. Matthew Walker
9. James-Denton Wyllie

DCDD1: Program Management & Analysis Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Brittany De Laine
2. Joann Eury
3. Tonya McGee
4. Chanta Riley

DCDD2: Professional Affairs and Stakeholder Engagement Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Maryam Baig
2. Christopher Melton

DCDDB: Division of Public Education and Outreach

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Kristen Booze
2. Aisha Coffey
3. Andrea Frydl
4. Adam Ghering
5. Vera Rosenthal
6. Alexandra Saint
7. Scarlett Salem

DCDDC2: Social Media and Engagement Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Danielle Cook
2. Gregory Cooke
3. Meghan Gattie
4. Daniel Min
5. Sara Roach

Office of Surveillance and Epidemiology:

DCDE3: Program Management and Analysis

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Toni Bullock
2. Nicole Clinkscales
3. Rolanda Inniss
4. Vivian Melara
5. Wallisha Simms
6. Michelle Smith
7. Linda Tran
8. Theresa Curran

Office of Compliance:

DCDF1: Program Management and Analysis Staff

Geographic Area: Nationwide

Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Tamika Clawson
2. Andrew Greenman
3. Romonte Johnson
4. Jason Lewis
5. Pysha Lewis
6. Talia Lewis
7. Philisca Mitchell
8. Daja Page
9. Angela Polonchuk
10. Xavier Singletary
11. Tyneisha Smith
12. Elmer Thomas

Office of Compliance:

DCDFA1: Manufacturing Guidance and Policies

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Vani Richards

Office of Strategic Programs:

DCDK1: Business Informatics Governance Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Mahmoud Abuelroos
2. Paula Atallah
3. Monica Bali
4. Tung Lam
5. Ranjit Thomas

DCDK2: Data Standards Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Ashley Caraway
2. Chenoa Conley
3. Jennifer Ginsberg
4. Gideon Scott Gordon
5. Helena Sviglin
6. Hao Wang

DCDKA4: Lean Management Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Pooja Cho

DCDKA6: Decision Support & Analysis Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Breanna Crane

Office of Pharmaceutical Quality:

DCDLCC: Division of Editorial and Project Management

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Rosebel Akhlaq
2. Dainelle Clark
3. John Gagnon
4. Lesa Jeanpierre
5. Ellen McLaughlin
6. Pratibha Rana
7. Syzette Reese
8. Brittany Swift
9. Shadonna Taylor

DCDLI: Office of Administrative Operations

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Kristin Burlas
2. Candee Chadwick
3. Anthony Ciavarella
4. Tiffany Johnson
5. Nadine Morris
6. Rachana Parmhans
7. Geoffrey Salyer

DCDLI1: Admin Analyst Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.

Appellants from Competitive Area:
1. Dominique Magassouba

DCDLI2: Admin Operations Staff 1

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Nancy Canas-King
2. Abigail Landaw

DCDLI3: Admin Operations Staff 2

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Melva Najiy
2. Keeshea Rosenboro

DCDLI5: Admin Operations Staff 4

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Brittney Cheatham
2. Tarnzetta Hampton
3. Brian McCray
4. Tiara Williams

DCDLI6: Financial Services Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Erika Molina

DCDLJ2: Learning and Professional Development Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:
1. Richard Austin
2. Karen Hollitt
3. Nicholas Humbert
4. Carol King Bolden
5. Vikki Kinsey
6. Jonathan Parker

Office of Generic Drugs:

DCDM2: Program Management and Analysis Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Sierra Brown
2. Ashley Corum- Lawson
3. Margaret Donahue
4. Natasha Jackson
5. Lissette Lownik
6. Naaba Ngandu
7. Ashlesh Panara
8. Trevelin Prysock
9. Deanna Smith

DCDM3: Communications Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Kathryn Amatrudo
2. Natasha Guerrier
3. Shardae Morris

DCDM4: Quality Management Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Christopher Barnes
2. Hector Beltran
3. Angel Wilson

DCDHAC: Division of Program Policy, Research, and Operations

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Kevin Betts
2. Suzanna Boyle
3. Christine Bradshaw
4. Dominic Cirincione
5. Alpita Popat

6. Shannon Sparklin
7. Helen Sullivan
8. Ebony Sweet
9. Michael Wade

DCDHB: Office of Medical Policy Initiative

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Leyla Desmond
2. Jamie Gamerman
3. Mark Lauda
4. Lauren Wedlake

DCDJE: Office of Administrative Operations

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Ammie Bell
2. Luna Bloomquist
3. Michelle DeNamur
4. Malcolm Dennis
5. Raya McCree
6. Samantha Salter
7. Ciara Williams

DCDJE2: Admin Operations Staff 1

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Joean James

DCDJE3: Admin Operations Staff 2

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Syeda Shoa Abbas
2. Olufunke Adeniji
3. Sadia Khan
4. Ronda Patterson

DCDJE4: Admin Operations Staff 3

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.

Appellants from Competitive Area:

1. LaQuandra Cooks
2. Tara Fisher
3. Zachary Mitchell
4. Maureen Sciannella

DCDJE5: Financial Services Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished.
Appellants from Competitive Area:

1. Ri Briscoe
2. Naomi Clay
3. Iris Cruz
4. Ita Hammond
5. Gloria Im
6. Khishawna Johnson

Office of Executive Programs:

DCDI1: Program Management and Analysis Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Lachiviontae Bugg
2. Kevin Christman
3. Desiree Conway
4. Cheryl Giganti
5. Mary Johnson
6. Jacquelyne Ngegba
7. Monique Massey (Monique Sumpter)
8. Foram Pathak

DCDI4: Special Projects Staff

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Tiana Barnes
2. Alexandra Lucas

DCDIA: Division of Learning and Organizational Development

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished

Appellants from this Competitive Area:

1. Traci Bryant
2. Elsy Diaz
3. Catherine Harrison
4. Darlise Henderson
5. Alexandra Martinez Faberlle
6. Sara Wood

DCDIA1: Scientific and Regulatory Education Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Rebecca Banton
2. Terri Dennis
3. Nicole Giganti
4. Roderick Mance
5. Jason Smith
6. Aline Waguespack Claytor

DCDIA2: Training Design and Delivery Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Carmen Abrams
2. Veronica Hocutt
3. Francis Lennon
4. Adam Bell

DCDIA3: Leadership and Organizational Development Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Shavonney Ahmad
2. Mia Salter
3. Marcie Schreibman
4. Christine Steger

DCDIB: Division of Advisory Committee and Consultant Management

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Byron Marshall

DCDIB1: Conflict of Interest Management Branch

Geographic Area: Nationwide
Abolishment Status: Entire competitive area abolished
Appellants from this Competitive Area:

1. Cynthia Abernethy
2. Chloe Kim
3. Michelle Lo
4. Emilija Milijkovic Renke
5. Deborah Rhee
6. Anh Vu
7. Derrice Ward Davis

C. Employment Status

The employment status, as of March 16, 2026, of the individuals in each competitive area relevant to this appeal has been or will be uploaded to each appellant's individual appeal file. The following describes the status of employees in each competitive area:

Competitive Area: DCDCA2 – Acquisitions Support Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDCA3 – Financial Accountability Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDCA4 – Budget Formulation Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDCB – Division of Management Services

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDCB1 – Human Capital Management Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDCB2 – Human Capital Programs Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDCB4 – Property & Travel Services Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDCB5 – Leave & Performance Management Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDD – Office of Communications

Employment Status: All employees in this competitive area are separated.

Competitive Area: DCDD1 – Program Management & Analysis Staff

Employment Status: Although, the Department intended to abolish this competitive and separate all employees in this competitive area, one employee in that competitive area is still employed and was inadvertently not terminated because of an administrative error. One employee in this competitive area was rehired to another office in March 2026.

Competitive Area: DCDD2 – Professional Affairs and Stakeholder Engagement Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDDB – Division of Public Education and Outreach

Employment Status: All employees in this competitive area were separated. One employee in this competitive area was rehired to another office in March 2026.

Competitive Area: DCDDC2 – Social Media and Engagement Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDE3 – Program Management and Analysis

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDF1 – Program Management and Analysis Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDFA1 – Manufacturing Guidance and Policies

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGH – Office of Administrative Operations

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGH1 – Administrative Analysis Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGH2 – Administrative Operations Staff 1

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGH3 – Administrative Operations Staff 2

Employment Status: All employees in this competitive area were separated

Competitive Area: DCDGH4 – Administrative Operations Staff 3

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGH5 – Administrative Operations Staff 4

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGH6 – Administrative Operations Staff 5

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGH7 – Financial Services Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGKB – Division of Regulatory Policy

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGM1 – Executive Operations Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGM2 – Business Process & Analysis Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGM3 – Learning & Talent Development Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDGM4 – Program Development, Implementation, & Management Staff

Employment Status: All employees in this competitive area were separated. One employee was later rehired in March 2026 to another competitive area.

Competitive Area: DCDHAC – Division of Program Policy, Research, and Operations

Employment Status: All employees in this competitive area were separated. One employee was later rehired in March 2026 to another competitive area.

Competitive Area: DCDHB – Office of Medical Policy Initiative

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDI1 – Program Management and Analysis Staff

Employment Status: All employees in this competitive area were separated. One employee was later rehired in February 2026 to another competitive area.

Competitive Area: DCDI4 – Special Projects Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDIA – Division of Learning and Organizational Development

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDIA1– Scientific and Regulatory Education Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDIA2 – Training Design and Delivery Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDIA3 – Leadership and Organizational Development Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDIB – Division of Advisory Committee and Consultant Management

Employment Status: Although the Department intended to abolish this competitive area and separate all employees in this competitive area, one employee in that competitive area is still employed and was inadvertently not terminated because of an administrative error.

Competitive Area: DCDIB1 – Conflict of Interest Management Branch

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDJE – Office of Administration Operations

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDJE2 – Admin Operations Staff 1

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDJE3 – Admin Operations Staff 2

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDJE4 – Admin Operations Staff 3

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDJE5 – Financial Services Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDK1 – Business Informatics Governance Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDK2 – Data Standards Staff

Employment Status: All employees in this competitive area were separated. One employee in this competitive area was later rehired in February 2026 to another competitive area.

Competitive Area: DCDKA4 – Lean Management Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDKA6 – Decision Support & Analysis Staff

Employment Status: Although the Department intended to abolish this competitive area and separate all employees in this competitive area, one employee is still employed and was inadvertently not terminated because of an administrative error..

Competitive Area: DCDLCC – Division of Editorial and Project Management

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI – Office of Administrative Operations

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI1 – Administrative Analyst Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI2 –Admin Operations Staff 1

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI3 – Admin Operations Staff 2

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI5 – Admin Operations Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDLI6 – Financial Services Staff

Employment Status: All employees in this competitive area were separated. One employee in this competitive area was rehired to another office in February 2026.

Competitive Area: DCDLJ2 – Learning and Professional Development Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDM2 – Program Management and Analysis Staff

Employment Status: All employees in this competitive area were separated. One employee included on the retention register as being assigned to this competitive area was only

assigned to the competitive area while serving on a temporary promotion. This individual was returned to their position of record, in a competitive area that was not subject to the RIF and is still employed at the Agency.

Competitive Area: DCDM3 – Communications Staff

Employment Status: All employees in this competitive area were separated.

Competitive Area: DCDM4 – Quality Management Staff

Employment Status: All employees in this competitive area were separated.

D. RIF Notices

Notices, dated March 31, 2025, were sent to impacted employees informing them that they would be affected by a RIF action and would be separated from Federal Service effective June 2, 2025. The RIF notices identified the information that would have been used to determine the employees' retention standing, such as civil service tenure group and subgroup, veterans' preference, performance ratings, and length of Federal service. However, as described above, no employee subject to this RIF in the FDA CDER had an opportunity for reassignment based on retention standing, because each impacted competitive area was abolished.

On May 22, 2025, a preliminary injunction was issued in *American Federation of Government Employees, AFL-CIO v. Trump*, Case No. 3:25-cv-03698 (N.D.CA), wherein the District Court enjoined the Agency (and other federal agencies) from "execution of any existing RIF notices (including final separation of employees)." As a result of the injunction, the Agency was unable to effectuate the impacted employees' separation from Federal Service on the expected date set forth in their notices. On July 8, 2025, the U.S. Supreme Court stayed the preliminary injunction. *Trump v. Am. Fed'n of Gov't Emps., AFL-CIO*, Docket No. 24A1174 (S.Ct. 2025). After the injunction was stayed, the Department separated most impacted employees in CDER from Federal Service with an effective date of July 14, 2025. The Department sent a notice, dated July 22, 2025, to impacted employees, informing them that they had been separated from Federal

service, effective July 14, 2025, and providing validated and updated information regarding the factors that would have been considered for retention standing had their entire competitive area not been abolished. This notice also included the employees' estimated amount of severance pay.

E. Retention Register

OPM created the retention registers for the Department's RIFs, including the retention register for FDA. OPM sent a copy of the FDA retention register to the Department on April 21, 2025. Agency File, Tab 8(c). The redacted FDA retention register is included herein at Tab 8(d). Unredacted portions of the retention register relevant to each individual appellant involved in this consolidation appeal have been, or will be uploaded to each Appellant's individual appeal file.

F. Individuals Who Made Decisions or Provided Input on the RIF [9]

The following individuals participated in decision-making or provided input on the HHS or FDA RIF:

Secretary Robert F. Kennedy, Jr.

1. Position During RIF Planning[10]: Secretary, Department of Health and Human Services since February 13, 2025.
2. Roles[11]: Briefed by senior leadership and approved high-level, Department-wide objectives of the RIF (e.g., general concept of consolidation of common, shared services,

[9] Additional individuals may be identified during the litigation of this matter.

[10] For all individuals on this list, "Position During RIF Planning" refers to the individual's position prior to April 2, 2025, as the first reduction in force notices were sent to employees on April 1, 2025.

[11] The roles listed for each individual do not necessarily include an exhaustive list of all possible activities they undertook regarding the RIFs.

reducing Department-wide staffing levels to pre-pandemic levels). Was not involved in deciding which specific competitive areas would be subject to the RIF.

3. Current Position: Secretary, Department of Health and Human Services.

Heather Flick Melanson

1. Position During RIF Planning: Chief of Staff to the Secretary, beginning January 2025.
2. Roles: Attended senior-level meetings during which high-level, Department-wide objectives of the RIF were discussed (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels).
3. Current Position: Not currently employed by the Federal Government.

Scott Rowell

1. Position During RIF Planning: Deputy Chief of Staff for Operations and Assistant Secretary for Administration ("ASA"), beginning January 2025.
2. Roles: Participated in some senior-level meetings during which high-level, Department-wide objectives of the RIF were discussed (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels). Provided input on RIFs within the ASA organization. Involved in at least one series of communications regarding the NIH RIFs.
3. Current Position: Mr. Rowell is no longer employed by the Department. The Department has no information to indicate that Mr. Rowell is currently employed elsewhere in the Federal Government.

Rachel Riley

1. Position During RIF Planning: Senior Advisor to the Secretary, beginning January 2025.

2. Roles: Participated in senior-level meetings on the high-level, Department-wide objectives of the RIF (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels). Drafted RIF plans across the Department in direct coordination with operating and staff divisions.
3. Current Position: Chief of Naval Research, Department of the Navy.

Brad M. Smith

1. Position During RIF Planning: Senior Advisor to the Secretary, beginning March 2025.
2. Roles: Participated in senior-level meetings and advised the Secretary on the high-level, Department-wide objectives of the RIF (e.g., consolidation of common, shared services, reducing Department staffing to pre-pandemic levels). Oversaw RIF plans drafted by Rachel Riley in direct coordination with operating and staff divisions.
3. Current Position: Senior Advisor for the Bureau of Global Health Security and Diplomacy, Department of State.

Thomas Nagy Jr.

1. Position During RIF Planning: Deputy Assistant Secretary for Human Resources, beginning March 27, 2025.
2. Roles: Provided input regarding RIFs related to human resources functions. Mr. Nagy's office executed the RIF notifications and related correspondence, including rescinding RIF notifications, as necessary.
3. Current Position: Currently serves as Deputy Assistant Secretary for Human Resources.

Shana Weir

1. Position During RIF Planning: Principal Deputy Assistant Secretary for Administration, beginning January 2025.

2. Roles: Present at meetings regarding the RIF.
3. Current Position: Currently serves as Assistant Secretary for Administration.

Seth Shulman

1. Position During RIF Planning: Acting Director for the ASA Office of Human Resources Staffing, Recruitment and Operations Center, beginning January 2025.
2. Roles: Attended some initial meetings between Rachel Riley and leadership or senior staff of the Staff Divisions and some Operating Divisions regarding reducing staff to pre-pandemic levels. Other RIF-related involvement was after other Department officials made decisions concerning the RIF (e.g., OHR issued RIF notices and correspondence related to the RIF).
3. Current Position: Executive Director, Acting, ASA/OHR Human Capital Policy and Operations Directorate.

Garey Rice

1. Position During RIF Planning: On January 22, 2025, reported to HHS Immediate Office of the Secretary to support Deputy Chief of Staff Scott Rowell as a detail from the CDC where he served as the Budget Director. On April 6, 2025, he was permanently reassigned from the CDC Budget Director position to serve as the Senior Counselor to the HHS Chief of Staff.
2. Roles: At the direction of Rowell and Smith, developed a plan and input for the consolidation of procurement functions across the Department to increase economies of scale, improving the purchasing power of HHS as an HHS enterprise rather than multiple subcomponents. Not the final decision make on any RIFs nor did he implement RIFs.
3. Current Position: Senior Counselor to the Chief of Staff.

Zachary Terrell

1. Position During RIF Planning: Senior Advisor to the Secretary, beginning January 2025.
2. Roles: Technical support / member of technical staff. Running queries in OHR database, producing spreadsheets, generating PDFs, sending emails as directed by senior agency leadership. No policy or competitive area input or decision making.
3. Current Position: Chief Technology Officer.

Clark Minor

1. Position During RIF Planning: HHS' Chief Technology Officer, beginning February 13, 2025.
2. Roles: Attended some meetings regarding RIFs but had not decision-making roles at these meetings. Provided input regarding Department-wide IT-related RIFs, which involved discussions with divisions regarding their IT workforce and the divisions' recommendations regarding competitive areas to RIF. However, due to complications surrounding IT infrastructure, HHS leadership decided not to use this input. Once the RIF lists were final across the Department's divisions, provided technical assistance to leadership in sending out bulk notifications.
3. Current Position: HHS Chief Information Officer and Acting Chief AI Officer.

Sara Brenner

1. Position During RIF Planning: Acting FDA Commissioner
2. Roles: Provided overall direction and served as lead for FDA's engagement with Brad Smith and Rachel Riley.
3. Current Position: FDA Principal Deputy Commissioner

Angel Hebert

1. Position During RIF Planning: FDA Acting Chief Operating Officer
2. Roles: Provided Office of Operations direction on FDA's future plans for operational functions.
3. Current Position: No longer employed at HHS; retired on December 31, 2025.

Melanie Keller

1. Position During RIF Planning: FDA Chief Talent Officer, FDA Office of Talent Solutions and Office of Human Capital Management
2. Roles: Led FDA Human Resources and crosscutting coordination of the Office of Operation's response to requests for information.
3. Current Position: FDA Deputy Commissioner for Operations and Chief Operating Officer

Chantal Dawson

1. Position During RIF Planning: FDA Acting Deputy Chief Talent Officer
2. Roles: Led coordination with Office of Personnel Management on Human Resources RIF policies and procedures.
3. Current Position: Chief Talent Officer & Office Director, FDA Office of Talent Solutions and Office of Human Capital Management

Jennifer Wade

1. Position During RIF Planning: Associate Director, Office of Finance, Budget, and Acquisitions, FDA Immediate Office
2. Roles: Led reorganization planning.
3. Current Position: Associate Director, Office of Finance, Budget, and Acquisitions, FDA Immediate Office

Robert Bettinger

1. Position During RIF Planning: Data Scientist, Office of Finance, Budget, and Acquisitions
2. Roles: Led data analysis of FDA staffing in response to directives and requests.
3. Current Position: Data Scientist, Office of Finance, Budget, and Acquisitions

G. The Agency Requests Leave to Supplement the Agency File

On April 8, 2026, the Agency filed a Motion for Protective Order, or Alternatively, to File Documents Under Seal ("Motion for Protective Order") seeking relief for filing the Agency RIF and Reorganization Plans ("ARRPs") on the basis of the deliberate process privilege. Thus, after the Administrative Judge rules on the Agency's Motion for Protective Order, the Agency will file the ARRPs if ordered to do so by the Administrative Judge.

The Agency also requests leave to supplement the Agency File should any other additional information and/or documents become available.

III. Conclusion

The Agency's evidence establishes that it had a *bona fide* reason for the RIF, namely, reorganization, and that it properly applied the RIF regulations to Appellants. For the foregoing reasons, the Agency's separations of the affected Appellants in this consolidation appeal due to the RIF were proper and should be sustained.

Respectfully Submitted,

/s Douglas C. Elliott

Presidential Documents

Title 3—

The President

Executive Order 14210 of February 11, 2025

Implementing the President's ''Department of Government Efficiency'' Workforce Optimization Initiative

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered:

Section 1. *Purpose.* To restore accountability to the American public, this order commences a critical transformation of the Federal bureaucracy. By eliminating waste, bloat, and insularity, my Administration will empower American families, workers, taxpayers, and our system of Government itself.

Sec. 2. *Definitions.* (a) ''Agency'' has the meaning given to it in section 3502 of title 44, United States Code, except that such term does not include the Executive Office of the President or any components thereof.

(b) ''Agency Head'' means the highest-ranking official of an agency, such as the Secretary, Administrator, Chairman, or Director, unless otherwise specified in this order.

(c) ''DOGE Team Lead'' means the leader of the Department of Government Efficiency (DOGE) Team at each agency, as defined in Executive Order 14158 of January 20, 2025 (Establishing and Implementing the President's ''Department of Government Efficiency'').

(d) ''Employee'' has the meaning given to it by section 2105 of title 5, United States Code, and includes individuals who serve in the executive branch and who qualify as employees under that section for any purpose.

(e) ''Immigration enforcement'' means the investigation, enforcement, or assisting in the investigation or enforcement of Federal immigration law, including with respect to Federal immigration law that penalizes a person's presence in, entry, or reentry to, or employment in, the United States, but does not include assisting individuals in applying for immigration benefits or efforts to prevent enforcement of immigration law or to prevent deportation or removal from the United States.

(f) ''Law enforcement'' means:

(i) engagement in or supervision of the prevention, detection, investigation, or prosecution of, or the incarceration of any person for, any violation of law; or

(ii) the protection of Federal, State, local, or foreign government officials against threats to personal safety.

(g) ''Temporary employee'' has the meaning given to it in 5 C.F.R. part 316.

(h) ''Reemployed annuitant'' has the meaning given to it in 5 C.F.R. part 837.

Sec. 3. *Reforming the Federal Workforce to Maximize Efficiency and Productivity.* (a) *Hiring Ratio.* Pursuant to the Presidential Memorandum of January 20, 2025 (Hiring Freeze), the Director of the Office of Management and Budget shall submit a plan to reduce the size of the Federal Government's workforce through efficiency improvements and attrition (Plan). The Plan shall require that each agency hire no more than one employee for every four employees that depart, consistent with the plan and any applicable exemptions and details provided for in the Plan. This order does not affect the standing freeze on hiring as applied to the Internal Revenue Service. This ratio shall not apply to functions related to public safety, immigration

enforcement, or law enforcement. Agency Heads shall also adhere to the Federal Hiring Plan that will be promulgated pursuant to Executive Order 14170 of January 20, 2025 (Reforming the Federal Hiring Process and Restoring Merit to Government Service).

(b) *Hiring Approval.* Each Agency Head shall develop a data-driven plan, in consultation with its DOGE Team Lead, to ensure new career appointment hires are in highest-need areas.

(i) This hiring plan shall include that new career appointment hiring decisions shall be made in consultation with the agency's DOGE Team Lead, consistent with applicable law.

(ii) The agency shall not fill any vacancies for career appointments that the DOGE Team Lead assesses should not be filled, unless the Agency Head determines the positions should be filled.

(iii) Each DOGE Team Lead shall provide the United States DOGE Service (USDS) Administrator with a monthly hiring report for the agency.

(c) *Reductions in Force.* Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

(d) *Rulemaking.* Within 30 days of the date of this order, the Director of the Office of Personnel Management (OPM) shall initiate a rulemaking that proposes to revise 5 C.F.R. 731.202(b) to include additional suitability criteria, including:

(i) failure to comply with generally applicable legal obligations, including timely filing of tax returns;

(ii) failure to comply with any provision that would preclude regular Federal service, including citizenship requirements;

(iii) refusal to certify compliance with any applicable nondisclosure obligations, consistent with 5 U.S.C. 2302(b)(13), and failure to adhere to those compliance obligations in the course of Federal employment; and

(iv) theft or misuse of Government resources and equipment, or negligent loss of material Government resources and equipment.

(e) *Developing Agency Reorganization Plans.* Within 30 days of the date of this order, Agency Heads shall submit to the Director of the Office of Management and Budget a report that identifies any statutes that establish the agency, or subcomponents of the agency, as statutorily required entities. The report shall discuss whether the agency or any of its subcomponents should be eliminated or consolidated.

(f) Within 240 days of the date of this order, the USDS Administrator shall submit a report to the President regarding implementation of this order, including a recommendation as to whether any of its provisions should be extended, modified, or terminated.

Sec. 4. *Exclusions.* (a) This order does not apply to military personnel.

(b) Agency Heads may exempt from this order any position they deem necessary to meet national security, homeland security, or public safety responsibilities.

(c) The Director of OPM may grant exemptions from this order where those exemptions are otherwise necessary and shall assist in promoting workforce reduction.

Sec. 5. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

U.S. Office of Personnel Management

MEMORANDUM

TO: Heads of Executive Departments and Agencies

FROM: Russell T. Vought, Director, Office of Management and Budget; Charles Ezell, Acting Director, Office of Personnel Management.

DATE: February 26, 2025

RE: Guidance on Agency RIF and Reorganization Plans Requested by *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative*

I. Background

The federal government is costly, inefficient, and deeply in debt. At the same time, it is not producing results for the American public. Instead, tax dollars are being siphoned off to fund unproductive and unnecessary programs that benefit radical interest groups while hurting hard-working American citizens.

The American people registered their verdict on the bloated, corrupt federal bureaucracy on November 5, 2024 by voting for President Trump and his promises to sweepingly reform the federal government.

On February 11, 2025, President Trump's Executive Order *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (*Workforce Optimization*) "commence[d] a critical transformation of the Federal bureaucracy." It directed agencies to "eliminat[e] waste, bloat, and insularity" in order to "empower American families, workers, taxpayers, and our system of Government itself."

President Trump required that "Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law." President Trump also directed that, **no later than March 13, 2025**, agencies develop Agency Reorganization Plans.

The U.S. Office of Management and Budget ("OMB") and the U.S. Office of Personnel Management ("OPM") now submit guidance on these Agency RIF and Reorganization Plans ("ARRP"), along with the instruction that such plans be submitted to OMB and OPM.

II. Principles to Inform ARRPs

ARRPs should seek to achieve the following:

1. Better service for the American people;

2. Increased productivity;

3. A significant reduction in the number of full-time equivalent (FTE) positions by eliminating positions that are not required;

4. A reduced real property footprint; and

5. Reduced budget topline.

Pursuant to the President's direction, agencies should focus on the maximum elimination of functions that are not statutorily mandated while driving the highest-quality, most efficient delivery of their statutorily-required functions.

Agencies should also seek to consolidate areas of the agency organization chart that are duplicative; consolidate management layers where unnecessary layers exist; seek reductions in components and positions that are non-critical; implement technological solutions that automate routine tasks while enabling staff to focus on higher-value activities; close and/or consolidate regional field offices to the extent consistent with efficient service delivery; and maximally reduce the use of outside consultants and contractors. When taking these actions, agencies should align closures and/or relocation of bureaus and offices with agency return-to-office actions to avoid multiple relocation benefit costs for individual employees.

Agencies should review their statutory authority and ensure that their plans and actions are consistent with such authority.

Agency heads should collaborate with their Department of Government Efficiency ("DOGE") team leads within the agency in developing competitive areas for ARRPs. In addition, the agency should specifically identify competitive areas that include positions not typically designated as essential during a lapse in appropriations. When making this determination, agencies should refer to the functions that are excepted from the Antideficiency Act (ADA) in the Agency Contingency Plans submitted to OMB in 2019 as the starting point for making this determination.

III. Available Tools

In their ARRPs, agencies should employ all available tools to effectuate the President's directive for a more effective and efficient government and describe how they will use each. Such tools include:

1. Continuing to comply with the hiring freeze outlined in the January 20, 2025 Presidential Memorandum *Hiring Freeze* or (with approval of OPM and OMB) implementing the general principle that, subject to appropriate exemptions, no more than one employee should be hired for every four employees that depart;

2. Establishing internal processes that ensure agency leadership has visibility and/or direct sign-off on all potential job offers and candidates prior to extending offers;

3. Eliminating non-statutorily mandated functions through RIFs (Appendix 1 contains a sample timeline);

4. Removing underperforming employees or employees engaged in misconduct, and continuing to evaluate probationary employees;

5. Reducing headcount through attrition and allowing term or temporary positions to expire without renewal;

6. Separating reemployed annuitants in areas likely subject to RIFs; and

7. Renegotiating provisions of collective bargaining agreements (CBAs) that would inhibit enhanced government efficiency and employee accountability.

ARRPs should also list the competitive areas for large-scale reductions in force, the RIF effective dates (which may be a date prior to when the plan is submitted), the expected conclusion of the RIFs, the number of FTEs reduced, and additional impact of RIFs such as cancellation of related contracts, leases or overhead.

Agencies should also closely consider changes to regulations and agency policies, including changes that must be pursued through notice-and-comment rulemaking, that would lead to the reduction or elimination of agency subcomponents or speed up the implementation of ARRPs.

IV. Phase 1 ARRPs

Each agency will submit a Phase 1 ARRPs to OMB and OPM for review and approval **no later than March 13, 2025**. Phase 1 ARRPs shall focus on initial agency cuts and reductions. Each Phase 1 ARRP should identify:

1. A list of agency subcomponents or offices that provide direct services to citizens. Such subcomponents or offices should be included in ARRPs to improve services to citizens while eliminating costs and reducing the size of the federal government. But for service delivery subcomponents or offices, implementation shall not begin until certified by OMB and OPM as resulting in a positive effect on the delivery of such services.

2. Any statutes that establish the agency, or subcomponents of the agency, as statutorily required entities. Agency leadership must confirm statutes have not been interpreted in a way that expands requirements beyond what the statute actually requires. Instead, statutes should be interpreted to cover only what functions they explicitly require.

3. All agency components and employees performing functions not mandated by statute or regulation who are not typically designated as essential during a lapse in appropriations (because the functions performed by such employees do not fall under an exception to the ADA) using the Agency Contingency Plans submitted to OMB in 2019 referenced above.

4. Whether the agency or any of its subcomponents should be eliminated or consolidated; and which specific subcomponents or functions, if any, should be expanded to deliver on the President's priorities.

5. The specific tools the agency intends to use to achieve efficiencies, including, as to each, the number of FTEs reduced and any potential savings or costs associated with such actions in Fiscal Years 2025, 2026 and 2027:

    a. Continuation of the current hiring freeze;
    b. Regular attrition (e.g., retirement, movement between agencies and the private sector);
    c. Attrition through enhanced policies governing employee performance and conduct;
    d. Attrition through the termination or non-renewal of term or limited positions or reemployed annuitants;
    e. Attrition achieved by RIFs. Please refer to Appendix 1 for specific steps and timing. For purposes of the Phase 1 ARRP, the agency should include the following information:

        i. The competitive areas and organizational components that the agency has targeted or will target for initial RIFs, and
        ii. The agency's target for reductions in FTE positions via RIFs.

6. A list by job position of all positions categorized as essential for purposes of exclusion from large-scale RIFs, including the number per each job position and total by agency and subcomponent.

7. The agency's suggested plan for congressional engagement to gather input and agreement on major restructuring efforts and the movement of fundings between accounts, as applicable, including compliance with any congressional notification requirements.

8. The agency's timetable and plan for implementing each part of its Phase 1 ARRP.

V. Phase 2 ARRPs

Agencies should then submit a Phase 2 ARRP to OMB and OPM for review and approval **no later than April 14, 2025**. Phase 2 plans shall outline a positive vision for more productive, efficient agency operations going forward. Phase 2 plans should be planned for implementation by September 30, 2025. The Phase 2 plan should include the following additional information:

1. The agency's proposed future-state organizational chart with its functional areas, consolidated management hierarchy, and position titles and counts clearly depicted.

2. Confirmation that the agency has reviewed all personnel data, including each employee's official position description, four most recent performance ratings of record, retention service computation date, and veterans' preference status.

3. The agency's plan to ensure that employees are grouped, to the greatest extent possible, based on like duties and job functions to promote effective collaboration and management, and that the agency's real estate footprint is aligned with cross-agency efforts coordinated by GSA to establish regional federal office hubs.

4. Any proposed relocations of agency bureaus and offices from Washington, D.C. and the National Capital Region to less-costly parts of the country.

5. The competitive areas for subsequent large-scale RIFs.

6. All reductions, including FTE positions, term and temporary positions, reemployed annuitants, real estate footprint, and contracts that will occur in relation to the RIFs.

7. Any components absorbing functions, including how this will be achieved in terms of FTE positions, funding, and space.

8. The agency's internal processes that ensure agency leadership has visibility and/or direct sign-off on all potential job offers and candidates prior to extending offers.

9. The agency's data-driven plan to ensure new career appointment hires are in highest-need areas and adhere to the general principle that, subject to appropriate exemptions, no more than one employee should be hired for every four employees that depart. Until the agency has finalized its post-hiring-freeze plan, agencies should continue to adhere to the current hiring freeze.

10. Any provisions of collective bargaining agreements that would inhibit government efficiency and cost-savings, and agency plans to renegotiate such provisions.

11. An explanation of how the ARRPs will improve services for Americans and advance the President's policy priorities.

12. The framework and criteria the agency has used to define and determine efficient use of existing personnel and funds to improve services and the delivery of these services.

13. For agencies that provide direct services to citizens (such as Social Security, Medicare, and veterans' health care), the agency's certification that implementation of the ARRPs will have a positive effect on the delivery of such services. The certification should include a written explanation from the Agency Head and, where appropriate, the agency's CIO and any relevant program manager.

14. The programs and agency components not impacted by the ARRP, and the justification for any exclusion.

15. Plans to reduce costs and promote efficiencies through improved technology, including through the adoption of new software or systems, and elimination of duplicative systems.

16. Any changes to regulations and agency policies, including changes that must be pursued through notice-and-comment rulemaking, that would lead to the reduction or elimination of agency subcomponents, or speed up implementation of ARRPs.

17. The agency's timetable and plan for implementing each part of its Phase 2 ARRP, and its plan for monitoring and accountability in implementing its ARRPs.

Agencies should continue sending monthly progress reports each month on May 14, 2025, June 16, 2025, and July 16, 2025. All plans and reports requested by this memorandum should be submitted to OPM at tracking@opm.gov and OMB at workforce@omb.eop.gov; when submitting plans and reports, please ensure both OPM and OMB addresses are included on the message.

VI. Exclusions

Nothing in this memorandum shall have any application to:

1. Positions that are necessary to meet law enforcement, border security, national security, immigration enforcement, or public safety responsibilities;

2. Military personnel in the armed forces and all Federal uniformed personnel, including the U.S. Coast Guard, the Commissioned Corps of the U.S. Public Health Service, and the Commissioned Officer Corps of the National Oceanic and Atmospheric Administration;

3. Officials nominated and appointed to positions requiring Presidential appointment or Senate confirmation, non-career positions in the Senior Executive Service or Schedule C positions in the excepted service, officials appointed through temporary organization hiring authority pursuant to 5 U.S.C. § 3161, or the appointment of any other non-career employees or officials, if approved by agency leadership appointed by the President;

4. The Executive Office of the President; or

5. The U.S. Postal Service.

Finally, agencies or components that provide direct services to citizens (such as Social Security, Medicare, and veterans' health care) shall not implement any proposed ARRPs until OMB and OPM certify that the plans will have a positive effect on the delivery of such services.

cc: Chief Human Capital Officers ("***CHCOs***"), Deputy CHCOs, Human Resources Directors, Chiefs of Staff, and DOGE team leads.

Appendix 1- Sample RIF Timeline

This sample timeline is prepared in accordance with the U.S. Office of Personnel Management **Workforce Reshaping Operations Handbook.** RIF timing may vary based on agency-specific requirements, collective bargaining agreements, and workforce considerations. Agencies can accelerate these timelines through parallel processing, securing OPM waivers to policy, expediting process steps, and streamlining stakeholder coordination.

Step 1: Identification of Competitive Areas and Levels (by March 13, 2025 for Phase 1 ARRPs)

1. Identify competitive areas and levels and determine which positions may be affected. If applicable, seek OPM waiver approval to adjust competitive areas within 90 days of the RIF effective date.
2. For Phase 1 ARRPs, this step should be completed no later than March 13, 2025.

Step 2: Planning, Preparation & Analysis (up to 30 days)

1. Explore use of VSIP/VERA.
2. Conduct an impact assessment.
3. Review position descriptions for accuracy, validate competitive levels, and verify employee retention data (e.g., veteran preference, service computation dates).
4. Develop retention register.
5. Draft RIF notices and seek OPM waiver approval for a 30-day notification period.
6. Develop transition materials.
7. Notify unions (if required).
8. Prepare congressional notification (if required).

Step 3: Formal RIF Notice Period (60 days, shortened to 30 days with an OPM waiver)

1. Issue official RIF notices.
2. Provide employees with appeal rights, career transition assistance, and priority placement options.
3. Execute any required congressional notification and notice to the Department of Labor, state, and local officials, if applicable.

Step 4: RIF Implementation & Separation (Final Step)

1. Officially implement separations, reassignments, or downgrades.
2. Provide final benefits counseling, exit processing, and documentation.
3. Update HR systems and notify OPM of personnel actions.

Subject: FDA External Affairs Review
Date: Saturday, March 22, 2025 9:18:02 PM

Hi Rachel,

I'm following up on behalf of Sara regarding the Communications Offices and FDA's proposed approach.

It looks like the list included in Paige's email reflects the organizations captured in the list we received regarding the shared services workstreams.

FDA proposes to realign the "OFC OF LEGISLATION" personnel to HHS to support the shared services congressional function. This is the Office of Legislation currently within the Office of the Commissioner. We identified staff within that tab in our submission to you.

For comms, FDA proposed to reflect a realignment of a combination of FDA SME communication personnel from our Centers along with the central OC communications office. We will have a continued and ongoing need to have that SME support for statutory functions related to recalls and product information alerts, so we recommend that HHS staff this office based on this ongoing statutory requirement and critical need to issue information to consumers. We had originally recommended right-sizing the comms function to ~50 total for FDA. The "OFC OF COMMUNICATIONS" on that list was from CDER, so it is not the organization we would propose to realign to HHS in full.

For FOI/disclosure/privacy, we had discussed retaining that function within FDA and not realign that function under the HHS umbrella. Through our plan, FDA will significantly reduce the number of FOI personnel across the agency, as many of these FTE are within the Office of Managements or the Office of Communications and will be impacted by the proposed RIFs. Given the need to coordinate directly with program staff and our general counsel's office our plan is for FDA to retain a smaller footprint of personnel, which would include the current OC FOI teams. If these functions were to shift to HHS for comms, please note that the volume of work is significant and will need SME expertise given the ongoing litigation and ongoing incoming requests from industry and other stakeholders for sensitive information about FDA's regulatory work.

Let us know if you have other questions.

Thanks,
Jen

Predecisional Internal Confidential

Sent: Saturday, March 22, 2025 1:19 PM
To: Brenner, Sara <Sara.Brenner@fda.hhs.gov>
Cc: Riley, Rachel (OS) <Rachel.Riley@hhs.gov>
Subject: [EXTERNAL] FDA External Affairs Review

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon Sara,

I hope you're having a nice weekend. We are completing a final review of the offices outlined for the future state.

Below is the list of external affairs offices FDA supplied for review. The external affairs offices highlighted in green would be retained while the ones in yellow would not. Please confirm this path forward is a workable approach to maintain the streamlined functionality of FDA external affairs:

COMMUNICATIONS & OUTREACH STF
COMMUNICATIONS BR
CONSUMER EDUCN BR
DIV OF COMMUN & CONSMR AFFAIRS
DIV OF DIGITAL ONLINE COMMS
DIV OF EXT COMMUN & CONSMR EDU
DIV OF HEALTH COMMUNICATIONS
DIV OF WEB, VISUAL & VR COMMUN
EDUCATION & OUTREACH BR
EXTERNAL COMMUNICATIONS BR
FREEDOM OF INFORMATION BR
INTRNL COMMUN STF
OFC OF COM, OUTREACH & DEV
OFC OF COMMUNICATIONS
OFC OF LEGISLATION
POLICY & COMMUNICATIONS BR
PROACTIVE DISCLOSURE BR
PUB ENGAGEMENT BR
PUB INFO BR
SOCIAL MEDIA & ENGAGEMENT BR
STRTGC COMMUN BR
WEB BR

Most importantly, does what is included above meet the needs for the Office of the Director?

And finally, I am curious if FDA has additional FOIA divisions/branches than the ones provided

(comprised of a combined 34 FTEs between FOIA and the "Proactive Disclosure Branch")? If so, please let Rachel and I know how many individuals are in those respective offices at your earliest convenience—**having this information to review by today would be most preferable**. And finally, please let me know if I should *not* capture "Proactive Disclosure Branch" as a FOIA-related office.

Thanks so much for your quick feedback.

To: Riley, Rachel (OS)
Subject: FW: Updated Draft Summary of Decisions (confidential)
Date: Tuesday, March 18, 2025 1:02:00 PM

Per our convo – draft as of last night

From: Wade, Jennifer
Sent: Monday, March 17, 2025 9:17 PM
To: Brenner, Sara <Sara.Brenner@fda.hhs.gov>; Traficant, Jim <Jim.Traficant@fda.hhs.gov>
Cc: Hebert, Angelique A. <Angelique.Hebert@fda.hhs.gov>; Keller, Melanie <Melanie.Keller@fda.hhs.gov>; Dawson, Chantal <Chantal.Dawson@fda.hhs.gov>
Subject: Updated Draft Summary of Decisions (confidential)

Good evening,
Sharing our summary of decisions based on today's discussion. We are conducting additional analysis based on this approach. Once the overview approach is set, we will continue to provide you lower-level recommendations for decisioning as we develop options for the future state (for example, how to break out OCMO). We look forward to your feedback.

Current FDA org chart if helpful for reference: FDA Overview Organization Chart | FDA

***

Summary of changes (as of 3/17/2025 afternoon):

FDA will first conduct a large-scale RIF and then realign functions and personnel to the new structure (implement on October 1, 2025).

- FDA's competitive area approach to RIFs:
  - Maintain the Human Foods Program and Drugs Center Office of Managements and execute a RIF for the remaining Office of Managements, including OC (impacting nearly all HR/human capital, HR/classification, procurement, budget/user fee management, financial management, training, travel, facilities and property management, and advisory committee management in the Centers);
  - Maintain the Drugs Center and Tobacco Center Office of Communications and execute a RIF for the remaining (impacting nearly all external communication, public engagement, web, strategic and internal communications, and select FOI/disclosure functions);
  - Reduce lower organization level administrative offices/divisions/staffs, including select parts of central IT (ODT);
  - Reduce the Office of Enterprise Transformation and Office of Performance, Evaluation, and Risk Management (undoing Biden reorg);
  - Maintain OPLIA, OEA, OHCM, OTS, OFEMS, OEI, OSPO, OCC, Office of the Comm Corps, Office of Exec Sec, OCE, OCMO, OMHHE, OWH without change; retain most of OFBA (except for reductions to procurement and payment services).
- FDA's reorganization actions post-RIFs:
  - Merge CDER, CDRH, CBER, animal drug functions from CVM and select functions from

the Office of the Commissioner (e.g., oncology) to establish a new Medical Products Program;

- Merge the Human Foods Program with animal food product functions from CVM to establish a new Foods Program;
- Establish a new Tobacco Products Program;
- Elevate the Office of Criminal Investigations to serve as a direct report to the Commissioner;
- Establish the new Investigations and Imports Program, by realigning FDA's sampling labs out of the Office of the Chief Scientist (undoing Biden reorg) and maintaining inspectorate and imports programs;
- Elevate the CFO and establish the Office of the Chief Financial Officer (OCFO) to report to the Commissioner and expand scope of the Office of Operations to cover non-CFO operational responsibilities (such as advisory committee management with ethics and expanded FDA-University);
- Realign select functions and resources from existing CDER and HFP Office of Managements and CDER and CTP Office of Communications to OO, OCFO, OEA, OPLIA and/or HHS to right-size functions;
- Realign select agency-wide policy and legislative functions and resources to OPLIA;
- Establish a new Office within the Office of the Commissioner to focus on children's health, women's health, rural health, and other crosscutting topics to advance MAHA focused goals, and demote the Office of Minority Health and Office of Women's Health within this new organization with a dotted line to the Commissioner where required by statute;
- Abolish Centers, Office of the Center Directors, select Office of the Commissioner offices, such as the Office of Enterprise Transformation (undoing Biden reorg) and OCMO (undoing Biden reorg) and abolish all office of management organizations agency-wide.

Good morning everyone. Jenn thanks so much for talking with us last night and working throughout the wee hours on this document. Your work is truly appreciated by ALL. Sara and Jim it is important to note that we are concerned about the last 400 targeted to cut and are worried that the agency will not be able to function correctly under your leadership. There are several tradeoffs that the team and I will be discussing early this morning before finalizing this morning for you to present. Consider the below still draft (almost there).

Thanks for your patience.

Angel

Subject: Updated analysis (confidential)

Good evening,
I'm sharing an update on our analysis.

We met with Rachel this morning to discuss the HHS shared services approach. Based on our discussion, we developed the attached document with recommendations about the future state for HR, Comms/Leg, and Procurement. The list of functions on the far left reflects what she communicated to us, and our recommendation is in blue on the right. We are ready to go through the data with her tomorrow on the workstreams.

Additionally, we revised our approach to meet the revised target of 14,655. The reductions include:

- Communications (-358)
- Targeted Immediate Offices of the Center Directors (-140)
- IT, including some of ODT and some centers (-93)
- Policy (SMEs) (-169)
- OM/crosscutting support functions such as non-SME policy and leg (-1,802)

Employees On Board (Source EHCM - Excluding EI)	Probation	NTE	DRP	VERA-VSIP	Losses	Employees On Board (After Probation, NTE, DRP, VERA-VSIP)	Comms	Center Directors	IT	OC/policy	OM	Losses	FDA Future State	Goal	Remaining
19078	-389	-170	-467	-846	-1872	17206	-358	-140	-93	-169	-1802	-2562	14644	14,661	-17

Please note that as we conducted our analysis, when we got to around 450 left to reduce, we needed to bring in additional areas that we had planned to preserve to support the function of the agency in the future state. For example, we had originally preserved all of CDER's project managers (~120) as they support CDER reviewers in tracking and managing user fee requirements such as ensuring that the agency is processing applications on time and in accordance with regulation. We also reduced what we had preserved from the HFP and CDER Office of Managements to "right-size" the central FDA functions like operations and budget (~150) and reduced other executive program operations who coordinates SME work in the Centers. Finally, we had reviewed all policy/leg functions and organizations across FDA to identify which are SME-focused and which are more general regulation processing. Given the target, we still needed to reduce all Center policy teams to retain only a centralized function in OPLIA. This included, for example, reducing the specific policy functions related to foods (dairy safety policy, processed food and beverages policy, etc.) and drugs (compounding, generic drugs).

If helpful, we can provide you the options to finalize the priorities for the RIF competitive areas and identify these types of potential considerations given there are potential tradeoffs. We are meeting internally in the morning to review the geographic dimension based on our discussion with Rachel and that may also provide us an alternative approach to close the gap to the target.

We recognize we need to settle this ASAP and look forward to our discussion tomorrow.

Thanks,
Jen

Attachments: FDA Shared Services - Recommendation 2025 03 19.docx

---

Jen – question on this. We'd (NIH, CDC, FDA along with HHS) envisioned the below – what has changed/is different from the plan now (partly summarized in your attachment)?
Talking through may be faster… will find time to talk with you all this morning.
TY!

The following functions could be centralized in a **shared service model at the HHS level**:

- Ethics
- Privacy
- Freedom of Information
- Records Management
- Equal Employment Opportunity
- HR: Employee and Labor Relations
- HR: Training & Leadership Development, HR Operations (processing, benefits, retirements)
- Reasonable Accommodation and Conflict Prevention Services
- IRB → NIH services all
- Publication subscriptions, library functions (e.g. Medscape, peer-reviewed journals, WebMD) → NIH services all

The following functions could be consolidated agency-wide by eliminating duplicative functions and positions (currently replicated at the Center level) **at an OpDiv (Agency) level:**

- Budget Formulation & Execution (Budget Authority & User Fees)
- Travel
- Purchase Card
- Contracts and Agreements
- Grants
- Facilities
- Time Reporting
- Reorganizations
- Financial Management (Accounting, Financial Reporting)
- HR: Title 21 Hiring, Compensation & Operations
- HR: Executive Resources
- HR: Performance and Awards
- HR: Work/Life Programs
- HR: ITAS (Timekeeping) and Payroll
- Facilities Management
- Program Evaluation

Subject: Shared Services (confidential)

Hi Sara,
Angel mentioned that you wanted to see some of the additional background we have on the shared services topic. Attached is the internal summary document I had sent to you last night with minor changes based on our discussion today. The only change to our approach was related to security vetting to be realigned to HHS versus retained at FDA. Popping this to the top of your inbox in case it's helpful.
Also – I quickly reviewed the yellow highlights in the IT tab on the sheet to Rachel. We'll use that to develop an initial pass for IT and connect back with you on next steps.
Have a good evening,
Jen

FDA's recommendation for Shared Services approach

	Human Resources	FDA Current State*	FDA Proposed to Realign to HHS	FDA Proposed to Retain
HHS-Level Roles	Employer of Record	-	-	-
	HR Data System	10	-	10
	EEO	12	-	-
	Reasonable Accommodations	11	-	11
	Labor Relations	6	6	-
	Security Vetting	12	12	-
	Benefits & Retirement	10	-	10
Division-Level Roles	Hiring	203	-	203
	Customer Service	-	-	-
	ITAS & Payroll (not system)	7	-	7
	Training & Development (specific to Division)**	11	-	11
	Travel	23	-	23
	Performance and Reviews	7	-	7

Recommendations:

HR Data System: Local systems coordination will be needed to facilitate 2025 reorganization realignment; future state FDA to repurpose personnel within OO.

Division-Level: FDA Office of Talent Solutions and Office of Human Capital Management are already lean to service agency of 15K. FDA proposes to repurpose most of OTS and OHCM to service the agency in future state (~200).

*Only OO shown for comparison. Does not include any collateral OM/administrative functions in the centers, as these functions will be eliminated.

**Showing OO central coordination only. FDA will retain select SME training expertise. Biggest driver of FTE count is inspectorate training and credentialing.

FDA could reallocate up to 10 HR liaisons from Centers to HHS level.

FDA's recommendation for Shared Services approach

	External Affairs	FDA Current State	FDA Proposed to Realign to HHS	FDA Proposed to Retain
HHS-Level Roles	Employer of Record			
	Communications	400+	20	50
	Congressional Relations	100+	30	25
	State & Local Outreach	4	-	4
Division-Level Roles	Coordination with Division Leadership			
	Data Gathering	*#s reflected above*		

Recommendations:

Congressional Relations: FDA to retain small legislative affairs team within OPLIA to serve as SMEs for ASL/ASFR on FDA programs on deliverables such as QFRs, testimony, and hearing prep Q&As (~25). FDA to retain small IGA footprint within OPLIA.

Communications: FDA to retain small communications footprint to coordinate with programs on statutory notification communications for topics such as recalls and facilitate clearance with ASPA (~40). FDA will retain right-sized FOI/records office within OO (~80) - this function is within some of the Center Comms Offices.

*400 for communications is reflected twice on table

FDA's recommendation for Shared Services approach

	Procurement	FDA Current State	FDA Proposed to Realign to HHS	FDA Proposed to Retain	Recommendations:
HHS-Level Roles	Employer of Record Contracting System/Data Policies & Procedures Enforcement and oversight IT Procurement Center of Excellence R&D Contracts Category Management Commodity Procurements	120	80	40	Procurement: FDA proposes to realign most of OAGS to HHS and retain a small footprint of expertise to service the program areas given the large volume of ongoing contract work for inspections and labs.
Division-Level Roles	Requirements Gathering Contract administration Mission procurement Contract audit and closeout	200+	-	10	Small footprint of acquisition liaisons will remain, but this function will primarily be serviced from within the programs or through the smaller OAGS shop.

Date: Monday, March 31, 2025 3:43:20 PM
Attachments: FDA_proposed_2025.03.31_3.pdf

Hi Sara,

In follow up to our conversation, I'm sharing key points to support your conversation with HHS:

- Attached is a simple high-level future state chart. FDA may decide to change the titles shown (e.g., ODT), but this reflects is our understanding of what IOS agreed to for the future state structure.
- Key points regarding reorganization process:
  - FDA is fully committed to expediting a package to implement the future state as soon as we can, and we want to raise a few areas for consideration as we work to build the proposal and prepare the agency for implementation.
  - The typical reorganization development and clearance process is 6-18 months. Typically, we develop a proposal, clear it through FDA, HHS, and OMB and then formally notify Congress. After notification, we announce the new structure to staff.
  - HHS is required by statute to notify Congress regarding FDA's reorganization proposals prior to implementation. FDA has a 30-day waiting period, while most other HHS OPDIVs have a 15-day period. The notification package to Congress includes a letter from the Secretary, details of all changes (organizational charts) including FTE and funding realignments. NOTE: FDA has always waited to implement until the Appropriations Committees gave their 'approval' of the proposed changes.
  - To build the formal reorganization package, FDA will need to take several steps, including:
    - Building future state structure and confirming all policy decisions through the Commissioner;
    - Realigning employees to the future state organizations;
    - Assessing impact to FDA's budget, including potential impacts to user fee triggers, and building budget materials for the package to Congress; and
    - Developing detailed reorganization package materials for HHS/OMB review (package of this size will be 600+ pages).
  - At the same time, we also need to rewire our processes given the significant impact to our operations.

Thank you,
Jen

Subject: FDA Draft Future State Org Charts - Planning (confidential)

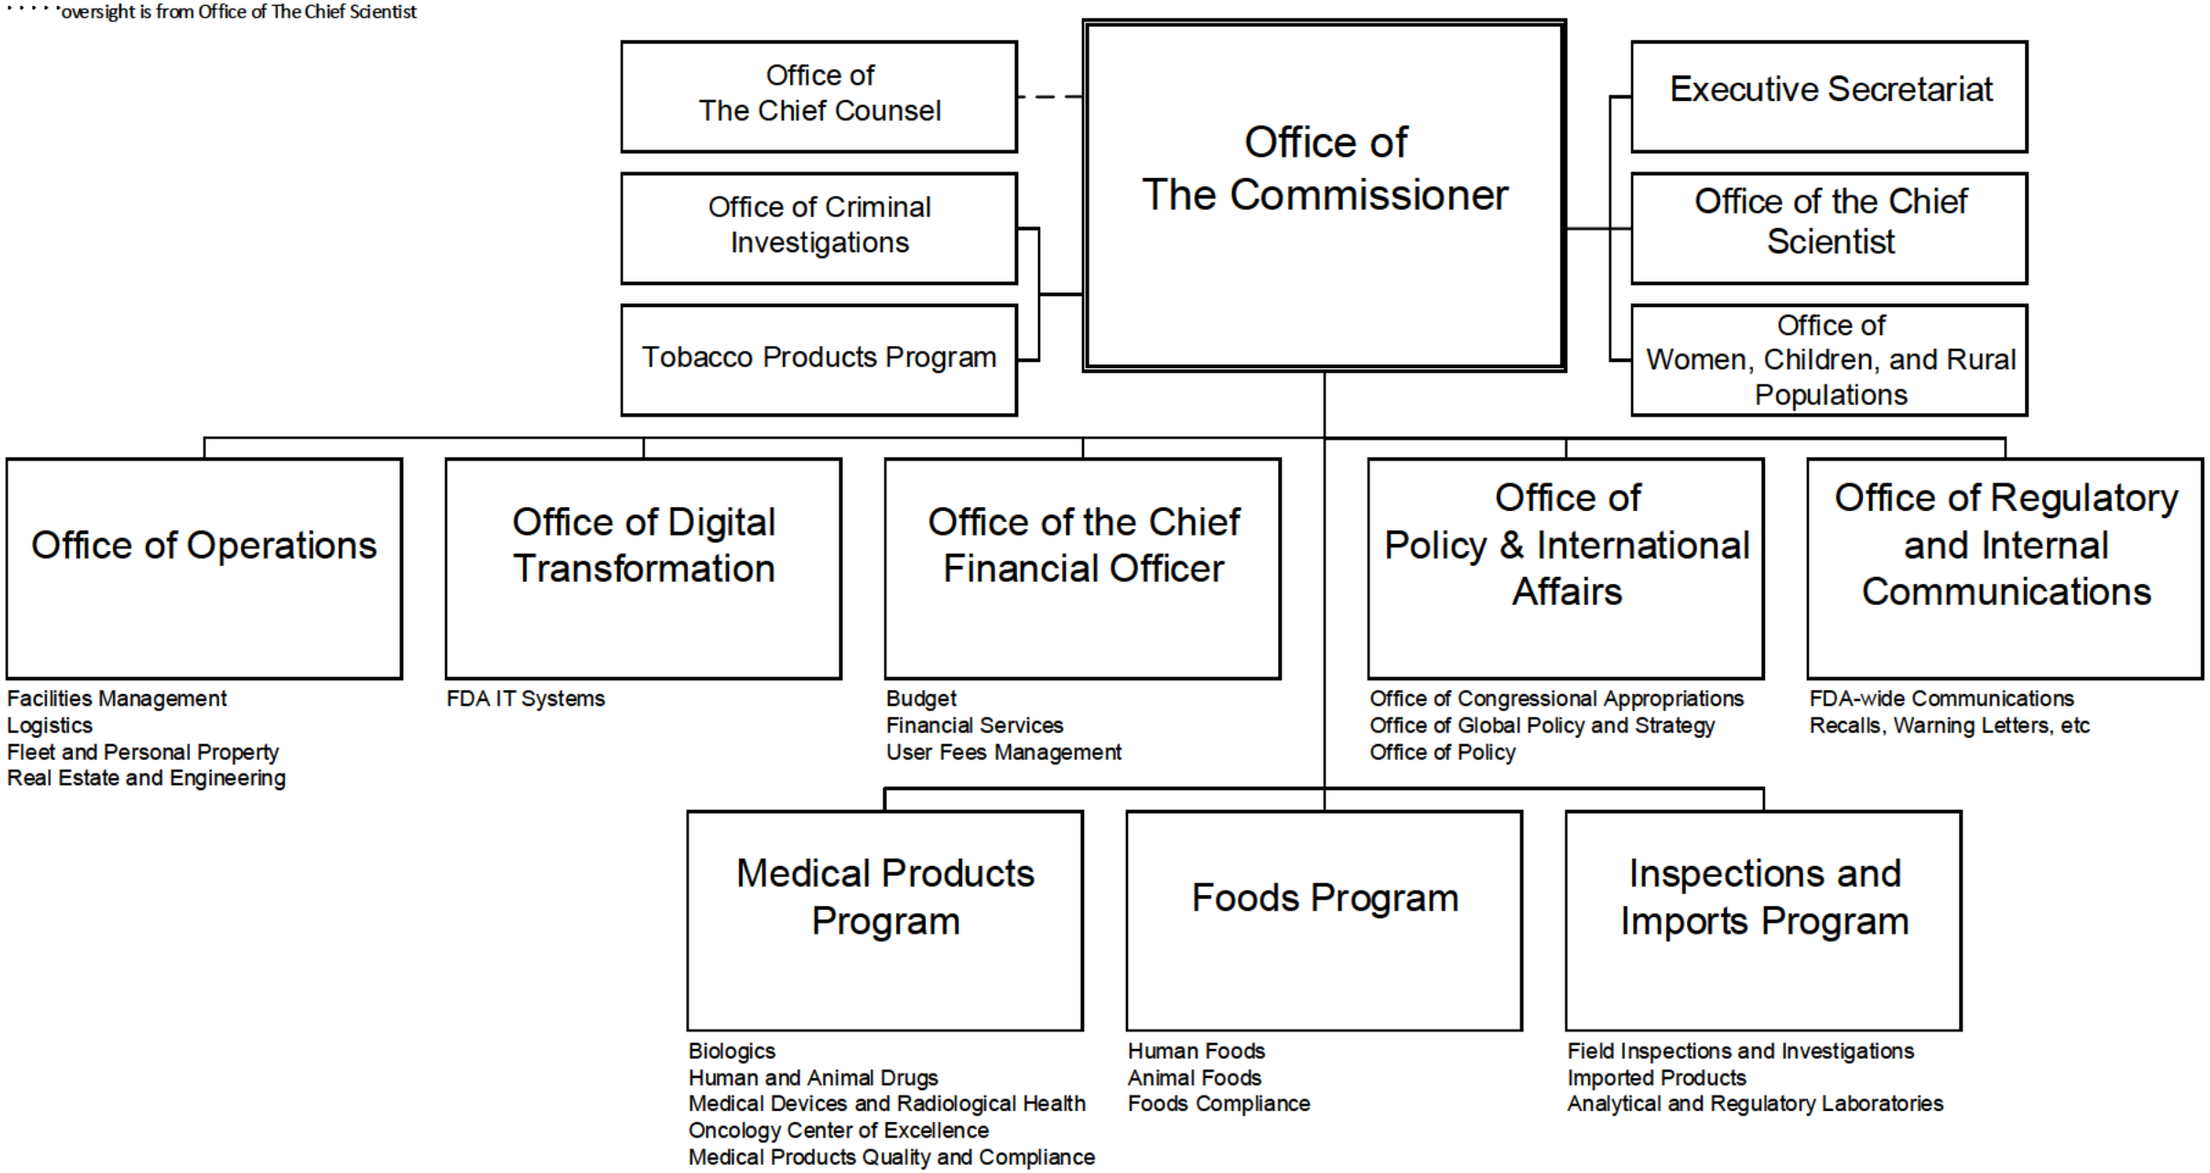
Good afternoon,

As requested, attached are the draft versions of the future state organizational charts.

The square text boxes capture key questions and ideas for additional discussion.

Once we have the final post-RIF staffing and positions identified, we will identify all of the positions for realignment based on function. This will inform the estimated size of organizations and associated structure.

Big thank you to Mike Gleason for his excellent work at pulling these drafts together so quickly.



Thanks,

Jen

HHS Announces Transformation to Make America Healthy Again

Washington, D.C. — March 27, 2025 — Today, the U.S. Department of Health and Human Services (HHS) announced a dramatic restructuring in accordance with President Trump's Executive Order, “Implementing the President’s ‘Department of Government Efficiency’ Workforce Optimization Initiative.”

The restructuring will address this and serve multiple goals without impacting critical services. First, it will save taxpayers $1.8 billion per year through a reduction in workforce of about 10,000 full-time employees who are part of this most recent transformation. When combined with HHS’ other efforts, including early retirement and Fork in the Road, the restructuring results in a total downsizing from 82,000 to 62,000 full-time employees.

Secondly, it will streamline the functions of the Department. Currently, the 28 divisions of the HHS contain many redundant units. The restructuring plan will consolidate them into 15 new divisions, including a new Administration for a Healthy America, or AHA, and will centralize core functions such as Human Resources, Information Technology, Procurement, External Affairs, and Policy. Regional offices will be reduced from 10 to 5.

Third, the overhaul will implement the new HHS priority of ending America’s epidemic of chronic illness by focusing on safe, wholesome food, clean water, and the elimination of environmental toxins. These priorities will be reflected in the reorganization of HHS.

Finally, the restructuring will improve Americans' experience with HHS by making the agency more responsive and efficient, while ensuring that Medicare, Medicaid, and other essential health services remain intact.

"We aren't just reducing bureaucratic sprawl. We are realigning the organization with its core mission and our new priorities in reversing the chronic disease epidemic," HHS Secretary Robert F. Kennedy, Jr. said. "This Department will do more – a lot more – at a lower cost to the taxpayer."

The specific contents of the restructuring plan that have been announced so far are as follows:

- Creation of the Administration for a Healthy America (AHA), which will combine multiple agencies — the Office of the Assistant Secretary for Health (OASH), Health Resources and Services Administration (HRSA), Substance Abuse and Mental Health Services Administration (SAMHSA), Agency for Toxic Substances and Disease Registry (ATSDR), and National Institute for Occupational Safety and Health (NIOSH) — into a new, unified entity. This centralization will improve coordination of health resources for low-income Americans and will focus on areas including, Primary Care, Maternal and Child Health, Mental Health, Environmental Health, HIV/AIDS, and Workforce development. Transferring SAMHSA to AHA will increase operational efficiency and assure programs are carried out because it will break down artificial divisions between similar programs.

- Strengthening the Centers for Disease Control and Prevention (CDC): the Administration for Strategic Preparedness and Response (ASPR), responsible for national disaster and public health emergency response, will transfer to the CDC, reinforcing its core mission to protect Americans from health threats.

- New Assistant Secretary for Enforcement: HHS will create a new Assistant Secretary for Enforcement to oversee the Departmental Appeals Board (DAB), Office of Medicare Hearings and Appeals (OMHA), and Office for Civil Rights (OCR) to combat waste, fraud, and abuse in federal health programs.

- Research and Evaluation for Health Policy: HHS will merge the Assistant Secretary for Planning and Evaluation (ASPE) with the Agency for Healthcare Research and Quality (AHRQ) to create the Office of Strategy to enhance research that informs the Secretary's policies and improves the effectiveness of federal health programs.

- Reorganization of the Administration for Community Living (ACL): Critical programs that support older adults and people with disabilities will be integrated into other HHS agencies, including the Administration for Children and Families (ACF), ASPE, and the Centers for Medicare and Medicaid Services (CMS). This reorganization will not impact Medicare and Medicaid services.

"Over time, bureaucracies like HHS become wasteful and inefficient even when most of their staff are dedicated and competent civil servants," Secretary Kennedy said. "This overhaul will be a win-win for taxpayers and for those that HHS serves. That's the entire American public, because our goal is to Make America Healthy Again."

Fact Sheet: HHS' Transformation to Make America Healthy Again

Return to the press release </about/news/hhs-restructuring-doge.html>.

The restructuring of HHS is proceeding in accordance with President Trump's Executive Order, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative." Over the past four years, during the Biden administration, HHS' budget increased by 38% and its staffing increased by 17%.

1. The plan combines personnel cuts, centralization of functions, and consolidation of HHS divisions, including:
    - The current 82,000 full-time employees will be reduced to 62,000
    - 28 divisions will be consolidated to 15
    - 10 regional offices will become 5
    - Human Resources, Information Technology, Procurement, External Affairs, and Policy will be centralized.

2. Regarding FDA, CDC, NIH, and CMS:
   - FDA will decrease its workforce by approximately 3,500 full-time employees, with a focus on streamlining operations and centralizing administrative functions. This reduction will not affect drug, medical device, or food reviewers, nor will it impact inspectors.
   - The CDC will decrease its workforce by approximately 2,400 employees, with a focus on returning to its core mission of preparing for and responding to epidemics and outbreaks. This includes moving ASPR under CDC to enhance coordination of response efforts. NOTE: The "CDC" decrease would only be 1,400 if you included the individuals coming over from ASPR (approx. 1,000 individuals).
   - The NIH will decrease its workforce by approximately 1,200 employees by centralizing procurement, human resources, and communications across its 27 institutes and centers.
   - CMS will decrease its workforce by approximately 300 employees, with a focus on reducing minor duplication across the agency. This reorganization will not impact Medicare and Medicaid services.
3. The consolidation and cuts are designed not only to save money, but to make the organization more efficient and more responsive to Americans' needs, and to implement the Make America Healthy Again goal of ending the chronic disease epidemic.
4. No additional cuts are currently planned, but the Department will continue to look for further ways to streamline its operations and agencies.
5. A new Administration for a Healthy America (AHA) will consolidate the OASH, HRSA, SAMHSA, ATSDR, and NIOSH, so as to more efficiently coordinate chronic care and disease prevention programs and harmonize health resources to low-income Americans. Divisions of AHA include Primary Care, Maternal and Child Health, Mental Health, Environmental Health, HIV/AIDS, and Workforce, with support of the U.S. Surgeon General and Policy team.
6. HHS will have a new Assistant Secretary for Enforcement to provide oversight of the Departmental Appeals Board (DAB), Office of Medicare Hearings and Appeal (OMHA), and the Office for Civil Rights (OCR) to combat waste, fraud, and abuse.
7. HHS will combine the Assistant Secretary for Planning and Evaluation (ASPE) and Agency for Healthcare Research and Quality (AHRQ) into the Office of Strategy to conduct research that informs the Secretary's policies and evaluates the effectiveness of the Department's programs for a healthier America.
8. The critical programs within the Administration for Community Living (ACL) that support older adults and people of all ages with disabilities will be split across the Administration for Children and Families (ACF), Assistant Secretary for Planning and Evaluation (ASPE), and Centers for Medicare and Medicaid Services (CMS).

Subject: HHS Competitive Areas for Approval

OPM Memo (Final).pdf

OPM Competitive Area Grant (Fi...

HHS 25 MAR Competitive Are...

Dear Michael,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

Please note we will be sending one additional list of competitive areas tomorrow focused on CDC.

Sincerely,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer
Office of Human Resources
Mobil 202-531-5545

The U.S. Department of Health & Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

March 25, 2025

To: **Michael J. Mahoney, Office of Personnel Management**

From: **Tom Nagy, Human Capital Officer**

Subject: **Establishment of Competitive Areas**

This memorandum serves as the Department of Health & Human Services' (HHS) request to establish competitive areas and for an exception to the competitive area 90-day rule. Please find HHS's responses below with regards to our competitive areas.

1. Identification of the proposed competitive area, including the organizational segment, geographic location, and limits of the local commuting area.

Answer: Details of each proposed competitive area including the organizational segment and geographic location are included in the attached spreadsheet. Aligning with page 31 of OPM's Workforce Reshaping Operations Handbook, HHS defines local commuting areas as "any population center (or two or more neighboring centers) and the surrounding localities in which people live and can reasonably be expected to travel back and forth every day to their usual employment."

2. A description of how the proposed area differs from the one previously established for the same unit and geographic area.

Answer: To my knowledge, no competitive areas have been established by HHS for the units described in the attached spreadsheet. We have not found any documentation of previously defined or currently enacted competitive areas across HHS. The HHS Human Resources database (called Enterprise Human Capital Management or EHCM) contains a competitive area field; however, this field is blank for all employees.

3. An organizational chart of the agency showing the relationship between the organizational components within the competitive area and other components in the commuting area.

Answer: Organizational structure details for each competitive area are included in the attached spreadsheet.

4. The number of competing employees in the proposed competitive area.

Answer: The number of competing employees in each proposed competitive area is included in the attached spreadsheet.

5. A description of the operation, work function, staff, and personnel administration of the proposed area and, where appropriate, a description of how the area is distinguished from others in these respects.

Answer:

Overview. The Department of Health and Human Services (HHS) has a critical mission to enhance the health and well-being of all Americans, by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social services. Currently, HHS is not well structured to achieve this goal. HHS has too many divisions, offices, functions, programs, and research organizations, which are extremely difficult for leaders and stakeholders to navigate. This problem grew worse during the COVID pandemic; our budget ballooned by 38% and our staff grew by 17% over the past five years. Our Agency Restructuring and RIF Plan (ARRP) is aimed at solving these problems.

Plan. Accordingly, our proposal establishes new competitive areas based on "Department ID." Department ID is the core administrative organization field for all HHS HR data in our HR database. Department ID is the separate administrative unit used for managing all HR across HHS; positions are currently added and subtracted at the level of these Department ID administrative units.

Since our restructuring planning process began, HHS has not created any new Department IDs. To my knowledge, HHS has not moved any individuals between Department IDs since the restructuring planning began. And all functions of a Department ID are unique to the specific Department ID. Therefore, it makes sense to define every competitive area in terms of a single Department ID.

Legal basis. Department ID meets the definition of a competitive area. A competitive area is defined in terms of an agency's organizational units and geographical location. 5 C.F.R. § 351.402(b). "A competitive area may consist of all or part of an agency." *Id.* And "[t]he minimum competitive area is a subdivision of the agency under *separate administration* within the local commuting area." *Id.* (emphasis added). Department IDs define organizational units within HHS that are under separate administration.

OPM defines "separate administration" to means the unit has (1) "the administrative authority to take or direct personnel actions"; (2) "the organizational unit is separately organized and clearly distinguished from other organizational units within the same local commuting area in regard to operation, work function, staff, and personnel management." OPM's Workforce Reshaping Operations Handbook at 30. OPM recognizes "that individual organizational components may be under separate administration even though many agencies reserve final approval of certain personnel actions to a higher level in the agency." *Id.* Moreover, "separate administration" is often noted in an agency's organizational manual or in its delegations of authority. *Id.*

Department ID defines units that are clearly distinguished in regard to operation, work function, and staff. They are separate administrative authorities. Employees are added or subtracted at the Department ID level. Usually, a Department ID will have its own decisionmaker. Other times, consistent with the OPM guidance referenced above, final approval of certain decisions is required above the Department ID level. But, overall, functions are organized by Department ID and hiring happens within these units.

6. A discussion of the circumstances that led to the proposed changes less than 90 days before a proposed reduction.

Answer: HHS is responding to the executive order *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative*, dated February 11, 2025.

Mr. Tom Nagy
Human Capital Officer
Department of Health and Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy,

The Office of Personnel Management (OPM) approves the Department of Health and Human Services' (HHS) March 25, 2025, request for OPM approval of competitive areas which will be in effect less than 90 days prior to the proposed effective date of reduction of force (RIF). Your request indicates that competitive areas will be established according to HHS Department ID. Furthermore, a 90-day waiver is necessary due to the impact of the executive order titled, *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (February 11, 2025).

OPM approves your request in accordance with 5 C.F.R. 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. Divisions based on Department ID meet the definition of a competitive area. Department IDs appear to be the current organizational structure at HHS, and as described define organizational units that are under separate administration. *See* 5 C.F.R. 351.402(b).

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

NOTE ON GEOGRAPHIC AREA - *For any geographic area listed as nationwide, the competitive area will be further broken down into each local commuting area, as defined by OPM regulations. For geographic areas that have multiple locations (e.g., Boston, Chicago, New York), each local commuting area, as defined by OPM regulations, will be a unique competitive area.

OPM Competitive Area Grant (Fi...

HHS 25 MAR Competitive Are...

Dear Michael,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

Please note we will be sending one additional list of competitive areas tomorrow focused on CDC.

Sincerely,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer

Dear Michael,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

Please note we will be sending one additional list of competitive areas tomorrow focused on CDC.

Sincerely,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer
Office of Human Resources

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

March 27, 2025

Mr. Thomas J. Nagy, Jr.
Chief Human Capital Officer
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) March 25 and 26, 2025, requests for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your requests indicate that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

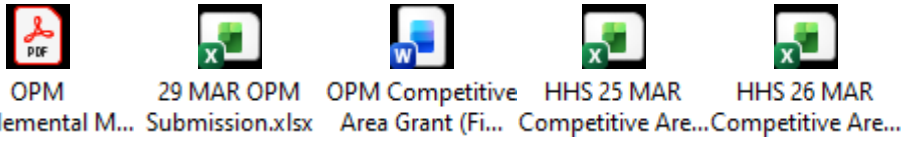
> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your requests in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your requests were not previously established. They comprise the groups mentioned in your requests including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:

- The organizational unit or subdivision is separately organized;
- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and

- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.



Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

Subject: OPM Submission - 3.29.2025

Good Afternoon Office of Personnel Management,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet (labeled 29 MAR OPM Submission) describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful. And finally, I have attached two spreadsheets with additional competitive areas OPM approved earlier this week.

V/r,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer
Department of Health and Human Services
Office of Human Resources
Mobil 202-531-5545

The U.S. Department of Health & Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

March 29, 2025

To: **Michael J. Mahoney, Office of Personnel Management**

From: **Tom Nagy, Human Capital Officer**

Subject: **Establishment of Competitive Areas**

This memorandum serves as the Department of Health & Human Services' (HHS) request to establish competitive areas and for an exception to the competitive area 90-day rule. Please find HHS's responses below with regards to our competitive areas.

1. Identification of the proposed competitive area, including the organizational segment, geographic location, and limits of the local commuting area.

Answer: Details of each proposed competitive area including the organizational segment and geographic location are included in the attached spreadsheet. Aligning with page 31 of OPM's Workforce Reshaping Operations Handbook, HHS defines local commuting areas as "any population center (or two or more neighboring centers) and the surrounding localities in which people live and can reasonably be expected to travel back and forth every day to their usual employment."

2. A description of how the proposed area differs from the one previously established for the same unit and geographic area.

Answer: To my knowledge, no competitive areas have been established by HHS for the units described in the attached spreadsheet. We have not found any documentation of previously defined or currently enacted competitive areas across HHS. The HHS Human Resources database (called Enterprise Human Capital Management or EHCM) contains a competitive area field; however, this field is blank for all employees.

3. An organizational chart of the agency showing the relationship between the organizational components within the competitive area and other components in the commuting area.

Answer: Organizational structure details for each competitive area are included in the attached spreadsheet. Two additional spreadsheets with the competitive areas previously approved by OPM are also attached for your reference.

4. The number of competing employees in the proposed competitive area.

Answer: The number of competing employees in each proposed competitive area is included in the attached spreadsheet.

5. A description of the operation, work function, staff, and personnel administration of the proposed area and, where appropriate, a description of how the area is distinguished from others in these respects.

Answer:

Overview. The Department of Health and Human Services (HHS) has a critical mission to enhance the health and well-being of all Americans, by providing for effective health and human services and by fostering sound, sustained advances in the sciences underlying medicine, public health, and social services. Currently, HHS is not well structured to achieve this goal. HHS has too many divisions, offices, functions, programs, and research organizations, which are extremely difficult for leaders and stakeholders to navigate. This problem grew worse during the COVID pandemic; our budget ballooned by 38% and our staff grew by 17% over the past five years. Our Agency Restructuring and RIF Plan (ARRP) is aimed at solving these problems.

Plan. Accordingly, our proposal establishes new competitive areas based on "Department ID." Department ID is the core administrative organization field for all HHS HR data in our HR database. Department ID is the separate administrative unit used for managing all HR across HHS; positions are currently added and subtracted at the level of these Department ID administrative units.

Since our restructuring planning process began, HHS has not created any new Department IDs. To my knowledge, HHS has not moved any individuals between Department IDs since the restructuring planning began. And all functions of a Department ID are unique to the specific Department ID. Therefore, it makes sense to define every competitive area in terms of a single Department ID.

Legal basis. Department ID meets the definition of a competitive area. A competitive area is defined in terms of an agency's organizational units and geographical location. 5 C.F.R. § 351.402(b). "A competitive area may consist of all or part of an agency." *Id.* And "[t]he minimum competitive area is a subdivision of the agency under *separate administration* within

the local commuting area." *Id.* (emphasis added). Department IDs define organizational units within HHS that are under separate administration.

OPM defines "separate administration" to means the unit has (1) "the administrative authority to take or direct personnel actions"; (2) "the organizational unit is separately organized and clearly distinguished from other organizational units within the same local commuting area in regard to operation, work function, staff, and personnel management." OPM's Workforce Reshaping Operations Handbook at 30. OPM recognizes "that individual organizational components may be under separate administration even though many agencies reserve final approval of certain personnel actions to a higher level in the agency." *Id.* Moreover, "separate administration" is often noted in an agency's organizational manual or in its delegations of authority. *Id.*

Department ID defines units that are clearly distinguished in regard to operation, work function, and staff. They are separate administrative authorities. Employees are added or subtracted at the Department ID level. Usually, a Department ID will have its own decisionmaker. Other times, consistent with the OPM guidance referenced above, final approval of certain decisions is required above the Department ID level. But, overall, functions are organized by Department ID and hiring happens within these units.

6. A discussion of the circumstances that led to the proposed changes less than 90 days before a proposed reduction.

Answer: HHS is responding to the executive order *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative*, dated February 11, 2025.

NOTE ON GEOGRAPHIC AREA - *For any geographic area listed as nationwide, the competitive area will be further broken down into each local commuting area, as defined by OPM regulations.

Mr. Tom Nagy
Human Capital Officer
Department of Health and Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy,

The Office of Personnel Management (OPM) approves the Department of Health and Human Services' (HHS) March 29, 2025, request for OPM approval of competitive areas which will be in effect less than 90 days prior to the proposed effective date of reduction of force (RIF). Your request indicates that competitive areas will be established according to HHS Department ID. Furthermore, a 90-day waiver is necessary due to the impact of the executive order titled, *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (February 11, 2025).

OPM approves your request in accordance with 5 C.F.R. 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. Divisions based on Department ID meet the definition of a competitive area. Department IDs appear to be the current organizational structure at HHS, and as described define organizational units that are under separate administration. *See* 5 C.F.R. 351.402(b).

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

NOTE ON GEOGRAPHIC AREA - *For any geographic area listed as nationwide, the competitive area will be further broken down into each local commuting area, as defined by OPM regulations. For geographic areas that have multiple locations (e.g., Boston, Chicago, New York), each local commuting area, as defined by OPM regulations, will be a unique competitive area.

Thomas- given that this request has come through on a weekend and is consistent with a methodology for defining competitive areas that OPM has approved in the past, and given what I understand to be the extremely time- sensitive nature of the request (i.e. you are planning to send the notices today), OPM is granting preliminary approval of the request. Formal approval from WPI will be forthcoming next week.

Best,

Noah

Good Afternoon Office of Personnel Management,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet (labeled 29 MAR OPM Submission) describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful. And finally, I have attached two spreadsheets with additional competitive areas OPM approved earlier this week.

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

March 31, 2025

Mr. Thomas J. Nagy, Jr.
Chief Human Capital Officer
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) March 29, 2025, request for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your request indicates that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your request in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your request were not previously established. They comprise the groups identified in your enclosed request, including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:

- The organizational unit or subdivision is separately organized;
- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and

- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

Enclosure

NOTE ON GEOGRAPHIC AREA - *For any geographic area listed as nationwide, the competitive area will be further broken down into each local commuting area, as defined by OPM regulations.

Subject: OPM Submission - 3.31.2025

Office of Personnel Management,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet (labeled HHS 31 MAR) describing the details of each competitive area. I have also attached three spreadsheets with additional competitive areas OPM approved last week (HHS 25 and HHS 25) and preliminary approved over the weekend (29 MAR). We are seeking final approval on both the 29 MAR and 31 MAR spreadsheets. Finally, I have attached a proposed approval of the waiver, in case that is helpful.

Thank you.

V/r,

Thomas J. Nagy Jr., MLER
Deputy Assistant Secretary for Human Resources/ Chief Human Capital Officer
Department of Health and Human Services
Office of Human Resources

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

March 31, 2025

Mr. Thomas J. Nagy, Jr.
Chief Human Capital Officer
U.S. Department of Health and Human Services
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) March 31, 2025, request for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your request indicates that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your request in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your request were not previously established. They comprise the groups identified in your enclosed request including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:

- The organizational unit or subdivision is separately organized;

- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and
- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

KIMBERLY HOLDEN Digitally signed by KIMBERLY HOLDEN

Dear Michael and team,

HHS is requesting OPM approval of competitive areas which will be in effect less than 90 days prior to a proposed effective date of a reduction of force, in accordance with 5 CFR 351.402(c). Please find attached a memorandum supporting HHS's request as well as a spreadsheet describing the details of each competitive area. I have also attached a proposed approval of the waiver, in case that is helpful.

NOTE ON GEOGRAPHIC AREA - *For any geographic area listed as nationwide, the competitive area will be further broken down into each local commuting area, as defined by OPM regulations.

Mr. Tom Nagy
Human Capital Officer
Department of Health and Human Services
Hubert H. Humphrey Building
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Nagy,

The Office of Personnel Management (OPM) approves the Department of Health and Human Services' (HHS) May 1, 2025, request for OPM approval of competitive areas which will be in effect less than 90 days prior to the proposed effective date of reduction of force (RIF). Your request indicates that competitive areas will be established according to HHS Department ID. Furthermore, a 90-day waiver is necessary due to the impact of the executive order titled, *Implementing The President's "Department of Government Efficiency" Workforce Optimization Initiative* (February 11, 2025).

OPM approves your request in accordance with 5 C.F.R. 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. Divisions based on Department ID meet the definition of a competitive area. Department IDs appear to be the current organizational structure at HHS, and as described define organizational units that are under separate administration. *See* 5 C.F.R. 351.402(b).

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Veronica E. Hinton
Associate Director
Workforce Policy and Innovation

UNITED STATES OFFICE OF PERSONNEL MANAGEMENT
Washington, DC 20415

May 2, 2025

Mr. Thomas Nagy
Deputy Assistant Secretary for Human Resources
Chief Human Capital Officer
Department of Health and Human Services
200 Independence Ave., SW
Washington, DC 20201

Dear Mr. Nagy:

The U.S. Office of Personnel Management (OPM) approves the U.S. Department of Health and Human Services (HHS) May 1, 2025, request for approval of a competitive area which will be in effect less than 90 days prior to the proposed effective date of a reduction in force (RIF). Your request indicates that a RIF is necessary in the HHS due to the impact of an Executive Order titled, "Implementing the President's 'Department of Government Efficiency' Workforce Optimization Initiative" (February 11, 2025). Section 3(c) of the EO states:

> (c) Agency Heads shall promptly undertake preparations to initiate large-scale reductions in force (RIFs), consistent with applicable law, and to separate from Federal service temporary employees and reemployed annuitants working in areas that will likely be subject to the RIFs. All offices that perform functions not mandated by statute or other law shall be prioritized in the RIFs, including all agency diversity, equity, and inclusion initiatives; all agency initiatives, components, or operations that my Administration suspends or closes; and all components and employees performing functions not mandated by statute or other law who are not typically designated as essential during a lapse in appropriations as provided in the Agency Contingency Plans on the Office of Management and Budget website. This subsection shall not apply to functions related to public safety, immigration enforcement, or law enforcement.

OPM approves your request in accordance with 5 CFR 351.402(c). This provision requires OPM approval when a competitive area will be in effect less than 90 days prior to the effective date of a RIF. The competitive areas proposed in your request were not previously established. They comprise the groups identified in your enclosed request including their various divisions, offices, and units. HHS must confirm and document that any competitive area established meets the definition for separate administration:

- The organizational unit or subdivision is separately organized;

- It is clearly distinguished from other units with regard to operation, work function, staff, and personnel management; and
- It has the authority to take or direct personnel actions (e.g., establish or abolish positions).

Also, please note, a RIF cannot be effectuated until 60 days from the date an employee receives their notice. HHS should also review all applicable collective bargaining agreements for any additional requirements necessary to effectuate a RIF.

Please contact Katika Floyd by email at katika.floyd@opm.gov or phone at 202-606-9531 should you or staff have any questions with this response.

Sincerely,

Kimberly A. Holden
Principal Deputy Associate Director
Workforce Policy and Innovation

Attachments: fda.xlsx

Predecisional/Confidential Draft

Sara –

Please find the spreadsheet discussed in the meeting today attached. By Wednesday COB, can you please:

1) Review Tab "OpDivOverview", which summarizes every office and FTE count in your division. Please mark an X in Column G to identify any offices that you think could be reduced / eliminated not already identified on the "Programs" tab.

2) Review the five tabs below and please denote whether to "Delete" an individual in Column G if the FTE does other work in that area or "Add" an individual in Column G if an individual works in that area but is currently not listed on the tab; no action is needed if an employee is appropriately listed on a tab

a. Procurement (list based on all 1102 occs codes)

b. IT (list based on all 1530,1550,1560,2210 occs codes)

c. HR (list based on all 201 and 203 occs codes)

d. External Affairs (list based on office names; may be less accurate)

e. Policy (list based on office names; may be less accurate)

f. Regions (all FTE whose duty station is coded as Boston, NYC, Chicago, Seattle, or San Francisco) - Please denote in Column H any employees who are either not actually located in the region or who perform a critical function and should not be included in any future reduction in force

3) Let me know when you are free for 90 minutes WED to get your feedback on some of the initial, more detailed ideas around each of the shared services – we want to make sure we incorporate your advice and feedback into the plan for each

Thank you,

Rachel

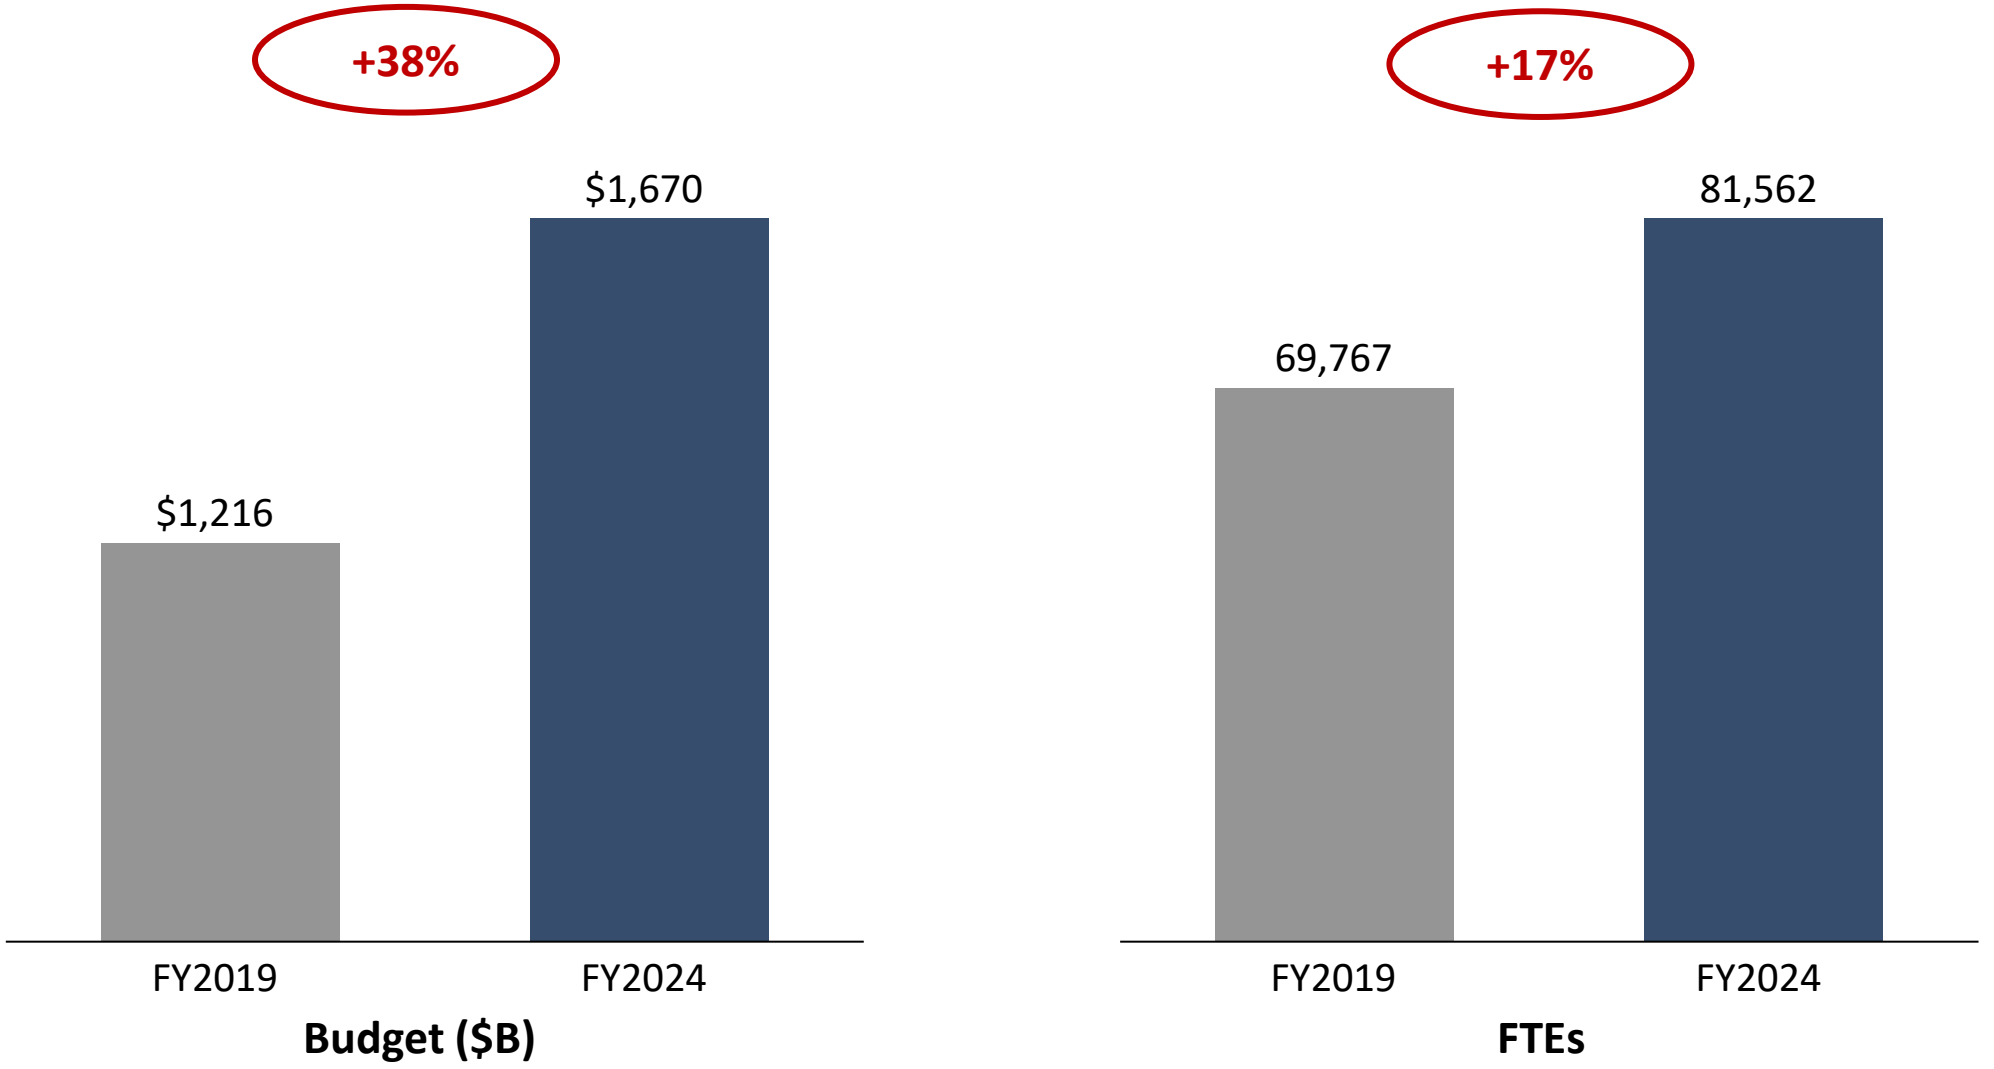
Reorganization Priorities



- Transform HHS into a unified, streamlined, and easier to manage organization
- Reduce redundancies and duplication
- Centralize functions where appropriate
- Return to pre-COVID levels of staffing
- Create organizational focus on Making America Healthy Again

28 → 17 divisions

82K → 64K FTEs

ARPA-H → MAHA

HHS's budget has grown 38% and # FTEs has grown 17% since FY 2019

SOURCE: HHS FY2020 and FY2025 Budget in Brief; Workforce Highlights Reports (January 2019 and December 2024)

HHS Has Significant Duplication & Inefficiencies

Redundancies in Shared Services

- **40+** Chief Information Officers
- **9+** Human Resource Departments
- **8+** Senior Finance Officials

Redundancies in Program Areas

- **HIV / AIDS**: CDC, HRSA, OGA
- **Translational Research**: APRA-H, CDC, ASPR, NIH
- **Women's Health**: HRSA, OASH, NIH

Redundancies in Regional Offices

- **ACL**: 10 regions
- **CMS**: 10 regions
- **FDA**: 220+ field offices
- **IHS**: 12 regional offices + 170 clinics
- **HRSA**: 10 HHS regions
- **OIG**: 10 HHS regions

Inefficiencies in Procurement

- **IT**: Competing systems (e.g., Teams and Zoom) and unused licenses
- **Staffing**: Multiple vehicles and rates for similar staffing / administrative services
- **Professional Services**: Multiple vehicles and rates for large contractors

Reduce HHS Offices by 39% from 28 to 17

Staff Divisions

- Immediate Office (IOS)
- Asst Secretary for Administration (ASA)
- Asst Secretary for Financial Resources (ASFR)
- Office of Chief Information Officer (OCIO)
- Assistant Secretary for Technology Policy (ASTP / ONC)
- General Counsel (OGC)
- Asst Secretary for Legislation (ASL)
- Asst Secretary for Public Affairs (ASPA)
- Intergovernmental / External Affairs (IEA)
- Asst Secretary for Planning & Evaluation (ASPE)
- Global Affairs (OGA)
- Assistant Secretary for Health (OASH)
- Departmental Appeals (DAB)
- Civil Rights (OCR)
- Medicare Hearings/Appeals (OMHA)

Operating Divisions

- Children and Families (ACF)
- Community Living (ACL)
- Healthcare Research/ Quality (AHRQ)
- ARPA-H
- Strategic Preparedness & Response (ASPR)
- Toxic Substances/Disease (ATSDR)
- Centers for Disease Control (CDC)
- Centers for Medicare and Medicaid (CMS)
- Food & Drug Administration (FDA)
- Health Resources & Services (HRSA)
- Substance Abuse & Mental Health (SAMHSA)
- Indian Health Service (IHS)
- National Institutes of Health (NIH)

Potential New HHS Organization Structure

Staff Divisions

- Immediate Office (IOS / ARPA-H)
- Chief Operating Officer (ASA)
- Chief Financial Officer (ASFR)
- Chief Technology Officer (OCIO / ASTP)
- General Counsel (OGC)
- Chief Medical Officer (OASH / ATSRD)
- Chief Strategy Officer (ASPE / AHRQ)
- Appeals (DAB / OCR / OMHA)
- External Affairs (ASL / ASPA / IEA)

Operating Divisions

- Children and Families (ACF)
- Strategic Preparedness & Response (ASPR)
- Centers for Disease Control (CDC / OGA)
- Centers for Medicare and Medicaid (CMS)
- Food & Drug Administration (FDA)
- Health Resources & Substance Abuse (HRSA / SAMHSA)
- Indian Health Service (IHS)
- National Institutes of Health (NIH)

Returning to 90% of FY 2019 staffing levels would result in a 12K RIF
