15 *Attorneys for Defendants*  
Radiology Partners, Inc.; Sonoran Radiology, Ltd

17 **UNITED STATES DISTRICT COURT**  
18 **DISTRICT OF ARIZONA**  
19 **PHOENIX DIVISION**

20 United Healthcare Services, Inc.;  
21 UnitedHealthcare Insurance Company;  
and UMR, Inc.,

22 Plaintiffs,

23 v.

24 Radiology Partners, Inc.; and Sonoran  
25 Radiology, Ltd.,  
26 Defendants.

Case No. 2:25-cv-02862-PHX-GMS

**DEFENDANTS RADIOLOGY  
PARTNERS, INC. AND SONORAN  
RADIOLOGY, LTD.'S MOTION TO  
TRANSFER, STAY, OR DISMISS  
UNDER THE FIRST-TO-FILE RULE,  
OR, ALTERNATIVELY, DISMISS  
PURSUANT TO F.R.C.P. 12(b)(6)**

[Filed Concurrently with Certification of  
Conferral and Request for Judicial Notice]

1           **NOW INTO THE COURT**, through undersigned counsel, comes Defendants  
2 Radiology Partners, Inc. (“RP”) and Sonoran Radiology, Ltd. (“Sonoran”) (collectively,  
3 “Defendants”), which respectfully file this Motion to Transfer, Stay, or Dismiss Under the  
4 First-to-File Rule, or Alternatively, to Dismiss for Failure to State a Claim Under FRCP  
5 12(b)(6), and moves this Honorable Court transfer, stay, or dismiss Plaintiffs’ Complaint  
6 against Defendants with prejudice, or, alternatively, to dismiss United’s Complaint.

7           This Motion is made pursuant to the first-to-file rule and FRCP 12(b)(6) for the reasons  
8 set forth in this motion, and the concurrently filed memorandum of points and authorities,  
9 which are incorporated herein. In brief, the Court should transfer, stay, or dismiss Plaintiffs’  
10 Complaint pursuant to the first-to-file rule because this lawsuit overlaps with a complaint that  
11 one of the Plaintiffs filed against one of the Defendants more than two years ago in the Central  
12 District of California. The reason that Plaintiffs filed this lawsuit rather than amend their  
13 pleadings in the Central District of California appears to be that the California lawsuit is stayed  
14 pending resolution of related arbitrations.

15           In the alternative, if the Court reaches the merits of Plaintiffs’ Complaint, Defendants  
16 move to dismiss the Complaint with prejudice for failure to state a claim because United’s  
17 factual allegations fail to plausibly allege fraud. Radiologists are permitted to switch radiology  
18 group entities or be affiliated with multiple radiology group entities. Further, United has not  
19 pled any facts making plausible, rather than merely possible, that Sonoran is not the radiology  
20 group providing services at the locations affiliated with the services Sonoran bills. The fact  
21 that radiologists and locations switched from other radiology group entities to Sonoran is just  
22 as consistent with hospitals choosing Sonoran as the contracted radiology group entity as  
23 anything that United alleges. Thus, United’s Complaint fails to state a claim and should be  
24 dismissed with prejudice.

25           This Motion is based on the accompanying Memorandum of Points and Authorities, the  
26 Exhibits hereto, the accompanying Request for Judicial Notice, the accompanying  
27 Certification of Conferral, all the pleadings and other documents on file in this action; and any  
28 further argument or evidence that may be received by the Court.

    5. Count 12: Declaratory Relief..... 30

V. CONCLUSION..... 30

## I. INTRODUCTION

1  
2 Sonoran Radiology, Ltd. (“Sonoran”) is a Radiology Partners, Inc. (“RP”) affiliated  
3 radiology group entity that has provided professional radiology services to patients at Arizona  
4 facilities, including Banner Health and HonorHealth systems, which contracted with Sonoran  
5 to staff their radiology departments since about 2020. Since commencing operations in 2019,  
6 Sonoran has obtained contracts with certain major healthcare insurers at times, such as Blue  
7 Cross and Blue Shield of Arizona,<sup>1</sup> but has not accepted any below market offer from United.  
8 Resultingly, Plaintiffs (collectively, “United”) have concocted this lawsuit and its  
9 inflammatory allegations as part of United’s national business strategy to use lawfare against  
10 RP to advance United’s anticompetitive goals.

11 First, United hopes to pressure Sonoran to accept the low ball offers for an in-network  
12 agreement that Sonoran has previously refused.

13 Second, United seeks to get out of paying awards adjudged under the federal No  
14 Surprises Act<sup>2</sup> (“NSA”) Independent Dispute Resolution (“IDR”) process, because the  
15 independent IDR entities (“IDREs”) have repeatedly determined that the fair reimbursement  
16 owed to Sonoran was significantly higher than the low-ball initial Qualifying Payment Amount  
17 (“QPA”) United initially allowed and paid. Indeed, United spends much of its Complaint  
18 grumbling about its repeated losses to Sonoran in the IDR process. But this reflects that  
19 objective independent reviewers overseen by CMS have found United substantially  
20 underpaying Sonoran for radiology services.

21 Third, United wants to blame Sonoran for the higher costs that United has thrust upon  
22 its self-funded employer customers by United’s refusal to reach an in-network agreement with  
23 Sonoran at sustainable rates, and therefore avoid the unnecessary administrative costs of the  
24 NSA. United harms its employer customers by both charging them administrative fees for the  
25 avoidable NSA expenses and passing to them the expenses of its NSA losses against Sonoran.

26  
27 <sup>1</sup> <https://www.radpartners.com/2023/05/sonoran-radiology-and-blue-cross-and-blue-shield-of-arizona-reach-new-contract-agreement/>.

28 <sup>2</sup> 42 U.S.C. §§ 300gg-111-12, et seq.

1 Fourth, United's affiliate Optum has been expanding its own radiology business  
2 through the acquisitions of medical groups with radiologists. The United conglomerate is now  
3 reported to employ and contract with more doctors than any other company in the nation,  
4 making it both an existing and growing competitor of RP. These bogus lawsuits by United's  
5 health plan side benefit United's competing provider side.

6 This is not the first time United has pursued these inflammatory theories as part of its  
7 lawfare against RP and its medical groups. The same fraud theories were rejected in a  
8 counterclaim in a Texas arbitration between United and a different RP-affiliated medical group  
9 (the "Texas Arbitration"). In fact, United is still pursuing these same theories currently in a  
10 lawsuit against RP in the Central District of California (the "CA Lawsuit") that alleged a  
11 national scheme and is stayed pending the resolution of related arbitrations in Florida, North  
12 Carolina, and Colorado. All of those cases, like this one, involve the same theory by United  
13 that RP-affiliated groups billed for providers from other RP affiliated medical groups. Of  
14 course, that theory ignores that the facilities pick the staffing radiology group, not United.

15 The CA Lawsuit is still pending, and if United wanted to try to re-engage the federal  
16 court system, then United should have asked the California Court for permission to do so.  
17 Instead, United improperly filed this copycat lawsuit, in a blatant attempt at forum shopping.  
18 This Court should either transfer this duplicative lawsuit to the Central District of California  
19 based on the first to file doctrine, and/or dismiss and/or stay it. While United has dressed up  
20 this new filing by arguing that it involves the NSA, the same underlying argument about which  
21 medical group has the right to bill permeates here as everywhere. United assumes that  
22 radiologists must remain affiliated with and continue to provide services on behalf of radiology  
23 group entities of United's choice, rather than on behalf of the radiology group entity contracted  
24 to staff a facility. In short, United believes that it, not the hospitals, radiology groups, or  
25 doctors, gets to control who renders services at the facilities, and for whom the doctors work.

26 Alternatively, the Court should dismiss United's Complaint entirely. United's  
27 complaint is premised on implausible foundations. As United recognized in its pleadings in  
28 the California lawsuit, the facility determines which group staffs its radiology department, and

1 the chosen radiology group has the right to bill for the services rendered on its behalf for both  
2 its employees and contractors. United’s Complaint here does not allege that Sonoran lacks the  
3 staffing contract for the facilities where it bills, nor that United undertook any inquiry to ask  
4 the facilities before launching this latest legal salvo. Rather, United assumes that doctors  
5 cannot switch medical groups or simultaneously be affiliated with multiple medical groups.<sup>3</sup>  
6 Judicially noticeable government data, from the Medicare Revalidation List published by the  
7 Centers for Medicare & Medicaid Services (“CMS”), reflects that Sonoran’s radiologists,  
8 including those radiologists who United claims are not affiliated with Sonoran, have very often  
9 reassigned their right to bill CMS to other entities in addition to Sonoran. In other words, CMS  
10 data reflects that doctors affiliate with and provide services on behalf of multiple entities, who  
11 can each bill for those services.

12 The fact that radiologists switched to provide services on behalf of Sonoran rather than  
13 another legal entity does not mean Sonoran billed for services provided by the other entity, nor  
14 make Sonoran a “sham” entity, as United pejoratively contends. United’s own Optum affiliates  
15 buy and consolidate medical groups under the Optum brand all the time.

16 Furthermore, United cannot meet the extremely high standard required to vacate NSA  
17 IDR awards for “fraud,” as United could have – but did not – raise eligibility challenges to the  
18 NSA IDREs. Resultingly, this Court can dismiss United’s Complaint if the lawsuit is not  
19 transferred, stayed, or dismissed pursuant to the first-to-file rule.

## 20 **II. BACKGROUND**

### 21 **A. The Parties**

22 **Defendant RP**, along with its owned and/or managed radiology practices, is a leading  
23 physician-owned and physician-led national radiology practice for radiologists, radiology  
24

---

25 <sup>3</sup> In modern radiology practice diagnostic radiologists often read scans remotely and are  
26 more likely than all other types of physicians to affiliate with and provide services on behalf  
27 of multiple radiology groups, as only the radiology group entity staffing a facility can  
28 provide services there. *See* [https://radiologybusiness.com/topics/healthcare-  
management/medical-practice-management/radiologists-increasingly-affiliating-multiple-  
practices-trend-most-pronounced-among-young-rads](https://radiologybusiness.com/topics/healthcare-management/medical-practice-management/radiologists-increasingly-affiliating-multiple-practices-trend-most-pronounced-among-young-rads).

1 practices, hospitals, health systems, patients, and families.<sup>4</sup> Currently, RP and its affiliated  
 2 practices “employ[] more than 4,000 radiologists at 3,400 sites in all 50 states.” Compl. ¶ 51.  
 3 Radiologists lead RP’s affiliated practices, consistent with RP’s philosophy to operate as one  
 4 practice, locally led, where local radiology practices both realize the benefit of RP’s scale and  
 5 maintain clinical autonomy. RP’s board of directors includes practicing radiologists and other  
 6 doctors.<sup>5</sup> RP provides services to its affiliated radiology practices including billing, financial,  
 7 and management support. *Id.* ¶63.

8 **Defendant Sonoran** is an RP affiliated radiology group entity formed in 2019 that  
 9 obtained its National Provider Identifier (“NPI”) in 2020. *Id.* ¶¶67-68. Sonoran “provides  
 10 radiology services in Arizona,” through a “diverse and cohesive team of radiologists  
 11 consist[ing] of fellowship-trained, board certified radiologists from the country’s top academic  
 12 training programs.”<sup>6</sup> The court can take judicial notice that Sonoran filed for the following  
 13 trade names, which, under Arizona law are similar to a “doing business as” name and not  
 14 legally required, in 2019: (1) Radiology Partners SMIL, (2) RP SMIL, (3) Radiology Partners  
 15 Valley, (4) RP Sol, (5) Radiology Partners Saguaro, (6) RP Saguaro, and (7) RP Sol. The court  
 16 can also take judicial notice that the Medicare Revalidation List on the CMS website reflects  
 17 that 1,094 providers have assigned to Sonoran those physician’s right to receive benefits for  
 18 services rendered to patients covered by Medicare.<sup>7</sup> This means that these physicians have  
 19 submitted paperwork / applications to the government representing that they are employed by  
 20 or contracted with Sonoran, such that Sonoran may receive payment for those physician’s  
 21 services. Notably, the number of providers who have reassigned benefits to Sonoran – 1,094 –  
 22 is not the same as the number of providers who have reassigned benefits to Southwest  
 23 Diagnostic Imaging, LLC – 231, nor Associated Valley Radiology, Ltd. – 303.

24 **Plaintiffs United** are, collectively with their affiliated entities, including without limit  
 25

26 <sup>4</sup> *Radiology Partners* available at <https://www.radpartners.com/about-us/our-practices/>.

27 <sup>5</sup> <https://www.radpartners.com/about-us/our-team/>

28 <sup>6</sup> <https://sonoranradiology.radpartners.com/>

<sup>7</sup> <https://data.cms.gov/tools/medicare-revalidation-list>.

1 Optum, the largest health insurance and benefits company in the United States. United’s  
2 corporate parent, United Health Group (“UHG”) is one of the largest companies in the world.  
3 UHG is Number 3 on the 2025 Fortune 500 list. United’s annual profits have increased over  
4 the last decade from \$5.6 billion to \$20.1 billion. Through its United and Optum subsidiaries,  
5 UHG operates as both a payor for and a provider of healthcare services, including radiology.  
6 United/Optum affiliates now are the nation’s largest employer and contractor of physicians on  
7 the provider side, with more than 70,000 physicians, including radiologists.<sup>8</sup> Thus, United has  
8 become an actual and growing competitor of RP and its affiliated medical groups. United’s  
9 huge size on both sides of the payor-provider span helps it to exert outsized leverage in  
10 negotiations, and sometimes leads it to launch untenable lawsuits, like this one, to try to  
11 pressure doctors, medical groups, and their agents, into submission.

12 **B. Prior Disputes Between the Parties and Their Affiliates**

13 United falsely contends that it “only recently uncovered the scheme and, in all respects,  
14 has acted with reasonable diligence to now promptly seek vacatur of the IDR awards at issue.”  
15 Compl. ¶ 258. But judicial notice confirms otherwise.

16 **C. United Filed A Federal Lawsuit With The Same Claims As Here**

17 On April 14, 2023, one of the United plaintiffs here, United HealthCare Services, Inc.,  
18 filed the same core theories against RP in the “CA Lawsuit”. That first federal court lawsuit  
19 paralleled counterclaims that United’s subsidiary United HealthCare of Texas, Inc.  
20 (“UHCTX”) had filed in an arbitration initiated by Singleton Associates, P.A. (“Singleton”),  
21 a RP-affiliated medical group in Texas, because United started paying Singleton at 75% below  
22 the parties’ contract, based on an alleged replacement contract that United unlawfully procured  
23 through United’s DocuSign spamming scheme the health plan launched during the 2020  
24 pandemic. A few months later, to try to circumvent RP’s motion to compel arbitration, United  
25 filed a First Amended Complaint, on August 2, 2025 (the “CA FAC”) that added allegations

26 \_\_\_\_\_  
27 <sup>8</sup>[https://radiologybusiness.com/topics/healthcare-management/mergers-and-](https://radiologybusiness.com/topics/healthcare-management/mergers-and-acquisitions/radiologists-unitedhealth-physician-practice-crystal-run)  
28 [acquisitions/radiologists-unitedhealth-physician-practice-crystal-run](https://radiologybusiness.com/topics/healthcare-management/mergers-and-acquisitions/radiologists-unitedhealth-physician-practice-crystal-run) (describing United’s  
purchase of a huge medical group in New York, including its radiologists).

1 of purported examples of the core alleged national scheme by adding references to RP  
2 affiliated groups in Florida and North Carolina.

3 In both the CA lawsuit and here, United’s core theory was and remains that, allegedly,  
4 “Radiology Partners, caused its affiliated medical groups to bill for services that they did not  
5 perform.” Compare RJN Ex. 1 CA Compl. ¶3 ; RJN Ex. 2 CA FAC *Id.* ¶3 with Complaint ¶71.  
6 Moreover, United also expressly alleged in California that the scope of the California Lawsuit  
7 was around the country, not limited to just the examples that United referenced in Texas,  
8 Florida, and North Carolina. *See, e.g.*, CA FAC, paragraph 88 (“On information and belief  
9 Radiology Partners engaged in its fraudulent billing scheme in several states **across the**  
10 **country**. The following are just a few examples of Radiology Partners’ scheme.”); *see also* ¶  
11 56 (“The examples provided below [regarding Texas, Florida, and North Carolina RP affiliated  
12 groups] are merely examples, and are not intended to limit the scope of this case.”).

13 **D. RP Compelled United To Arbitrate and the CA Lawsuit Remains Stayed**  
14 **and Subject to the California Court’s First In Time Jurisdiction**

15 Following United’s filing of the FAC, the California court compelled United to arbitrate  
16 its parallel claims against RP, pursuant to the arbitration provisions in contracts between the  
17 RP affiliated medical groups and United. RJN, Ex. 3. The California Court also stayed the CA  
18 Lawsuit, which stay avoided the risk of inconsistent results on the underlying core alleged  
19 wrongdoing. *Id.* (granting stay). And the California Court ordered the parties to provide  
20 periodic updates. *Id.*

21 On August 7, 2024, the Arbitration Panel in the Singleton arbitration issued a Final  
22 Award, which Singleton later confirmed as a final judgment. *See* RJN, Exs. 4, 5 (Application  
23 to Confirm Final Award; Agreed Final Judgment). The Final Award determined that neither  
24 party would recover from the other, including that “United [UHCTX] is not entitled to any  
25 recovery against Singleton.” Ex. 4 at p. 6.

26 The California Lawsuit remains stayed pending resolution of arbitrations pending  
27 between United and its affiliates and RP and its affiliates; and the parties continue to file status  
28 reports to the court in the California Lawsuit. Indeed, a recent update to the California Court

1 identified this new Arizona lawsuit, showing that United agrees there is an overlap between  
2 that earlier filed lawsuit and this one. See RJN, Ex. 6.

3 **E. United Admits That The Radiology Group Holding The Staffing Contract**  
4 **Is the Provider Who Rendered and Can Bill For The Services**

5 Radiology is a critical hospital specialty. CMS mandates that all hospitals must  
6 maintain or have access to radiological services 24/7, as a condition of participation in the  
7 Federal healthcare programs. See 42 C.F.R. § 482.26. The hospital provides the equipment to  
8 take the image (e.g., the PET, CT, or MRI machine), while the radiologists are needed to read  
9 and interpret those images. United admitted in its CA Lawsuit that radiology groups “staff[]  
10 the facility’s radiology department using the radiologists who are employed by or otherwise  
11 contracted with the medical group.” See RJN, Exhibit 2, ¶¶ 39-41. This shows United  
12 recognizes medical groups can get doctor services by contracting for them rather than  
13 employing them. United has not alleged there or here that Sonoran lacks contracts for services  
14 from the doctors who provide services on behalf of Sonoran.

15 Likewise, when facilities contract with radiology groups, the industry norm, which  
16 United has recognized in its pleadings in another lawsuit against RP, is for facilities to contract  
17 with “a single medical group to perform radiology services for that facility.” *Id.* ¶ 41. United  
18 also admits that “A medical group can only perform services at a given facility if it is  
19 contracted by that facility to provide services.” *Id.* Resultingly, United confirmed: “When a  
20 medical group is contracted with a facility to provide radiology services, the medical group  
21 whose physicians performed the services bills insurance companies using the medical group’s  
22 name and TIN[,]” because “[w]hen a medical group’s physician performs the service, the  
23 medical group is the provider who rendered the service and can, thus, bill for that service.” *Id.*  
24 As courts have recognized, only the group holding the contract to staff a radiology department  
25 can provide and bill for radiology physician services at a facility.<sup>9</sup>

26  
27 <sup>9</sup> See, e.g., *Morgan, Strand, Wheeler & Biggs v. Radiology, Ltd.*, 924 F.2d 1484, 1487 (9th  
28 Cir. 1991) (affirming summary judgment in favor of Arizona hospital and radiologist group  
defendants in antitrust action brought by competitor radiology group, noting that “hospitals

1 As applied here, the law and United’s admissions mean that only Sonoran can render  
 2 and bill the radiology services provided at the contracting facility if Sonoran holds the staffing  
 3 contract for that facility. But United’s lawsuit fails to allege that any other group hold the  
 4 staffing contracts, or even that it’s asked any of the hospitals.

5 **F. Since Jan. 1, 2022, the NSA Governs Sonoran’s Reimbursement from United**

6 Before the NSA became effective as of January 1, 2022, out-of-network radiology  
 7 providers such as Sonoran receive payments from United “calculated according to the terms  
 8 of each patient’s specific health plan.” Complaint. ¶¶23-27. Thus, historically, an insurer like  
 9 United could pay nothing to an out-of-network provider like Sonoran. If the insurer paid less  
 10 than the amount billed, a medical group could bill the patient for balance, a practice known as  
 11 “balance billing.” United’s business used this extra financial exposure faced by its members  
 12 to drive them to go in-network.

13 However, this changed once the federal NSA became effective as of January 1, 2022,  
 14 after which United could no longer leverage its members. So, United decided to just make  
 15 low ball payments to providers, forcing them to either take whatever United unilaterally  
 16 decided to pay, or pursue relief from the CMS overseen IDREs under the NSA.

17 1. The NSA Protects Patients Who Receive Out-Of-Network Care from Medical  
 18 Groups at In-Network Facilities

19 When a hospital chooses a medical group to staff a specialty department and gives that  
 20 group the right to bill, the medical group bills for the services provided by the doctor (the  
 21 professional component) and the hospital bills for the use of the facility involved in the service  
 22 (the technical component). *See, e.g., Daniel F. Shay, Physicians and Medicare Diagnostic*  
 23 *Testing: Untangling the Gordian Knots*, 11 J. Health & Life Sci. L. 1, 4 (2018) (diagnostic  
 24 tests are broken into a “technical component” and a “professional component”). This two-

25 \_\_\_\_\_  
 26 generally have contracts with radiologists to insure prompt and reliable image interpretations  
 27 when physicians order medical images. The contract might provide only that a radiologist be  
 28 available, **but might also provide a specific radiologist or group of radiologists an  
 exclusive obligation and right to interpret all medical images obtained in the hospital.**)  
 (emphasis added).

1 tracked billing system, and the fact that insurers may choose to contract with a hospital but not  
2 the staffing medical group, means that patients can receive services from out-of-network  
3 hospital-based specialists even when the hospital is in-network.

4 Congress enacted the NSA, in part, to protect patients from these types of “surprise  
5 medical bills.” Pub. L. No. 116-260, div. BB, tit. I, 134 Stat. 1182, 2758-2890 (2020). Under  
6 the NSA, United makes initial payments to out-of-network providers based on its median in-  
7 network rate, known as the Qualifying Payment Amount (“QPA”), followed by an IDR process  
8 for any payment disputes. 42 U.S.C. § 300gg-111(a)(1)(C)(iv), (b)(1)(C). Unresolved disputes  
9 are settled by a “baseball-style” arbitration under the supervision of CMS, the agency that  
10 oversees and vets IDREs. See generally 42 U.S.C. § 300gg-111. The NSA employs this  
11 process because reimbursement for out-of-network services, where payment can be uncertain  
12 and long delayed, typically is higher than the discounted rates that contracted providers extend  
13 in exchange for the benefits of being in-network and receiving timely payment. Congress just  
14 took the patients out of the middle.

15 2. United Does Not Allege it Challenged Whether any of Sonoran’s Bills were  
16 Eligible for IDR During the IDR Process, as Required by the NSA

17 The NSA IDR process includes deadlines for United to raise to the NSA IDR any  
18 contention that services Sonoran submits to the NSA IDR are not eligible for the NSA,  
19 including because the services are contracted in-network services with another medical group,  
20 as United now contends here.<sup>10</sup> United offers no contention or exhibit to its Complaint to  
21 establish it ever once made such an eligibility challenge in any of the “tens of” IDRE  
22 proceedings. (Compl. ¶¶ 7, 183.)

23 CMS has promulgated guidance regarding the NSA timelines, which provide for a 30-  
24 day period from the receipt of the claim for the health plan to make an initial payment<sup>11</sup> or

25 \_\_\_\_\_  
26 <sup>10</sup> See *Federal Independent Dispute Resolution (IDR) Process Guidance for Disputing*  
27 *Parties*, [https://www.cms.gov/files/document/federal-idr-guidance-disputing-parties-march-](https://www.cms.gov/files/document/federal-idr-guidance-disputing-parties-march-2023.pdf)  
28 [2023.pdf](https://www.cms.gov/files/document/federal-idr-guidance-disputing-parties-march-2023.pdf), (accessed Oct. 23, 2025) at p. 17, §5.5.

<sup>11</sup> This 30-day period gives Aetna a chance to ask for information on “whether the services are subject to the protections of the [NSA].” See *Guidance for Disputing*

1 issue a notice of denial of payment.<sup>12</sup> If a provider is dissatisfied with the health plan’s initial  
2 determination, it may send an “Open Negotiation Notice” to kick off a mandatory 30-day  
3 negotiation period regarding the payment amount. During this time, a provider must provide  
4 the TIN and provider name, and the parties may continue to communicate regarding the  
5 disputed claim.<sup>13</sup> Thus, for all the NSA IDR disputes with Sonoran, United knew full well the  
6 relevant individual providers and could have raised with the certified IDR entity whether those  
7 individual radiologist’s claims were NSA eligible. Only after the 30-day negotiation period  
8 may either party initiate the IDR process.

9 The IDR process after open negotiation also requires that “[i]f the non-initiating party  
10 believes that the Federal IDR Process is not applicable, the non-initiating party must notify the  
11 Departments ... as part of the certified IDR entity selection process. This information must be  
12 provided not later than **1 business day** after the end of the 3-business-day period for certified  
13 IDR entity selection....”<sup>14</sup> The IDRE is required to determine that the dispute is eligible for  
14 the IDR process, and if eligibility is challenged, the IDRE can ask for documents and/or an  
15 explanation justifying the parties’ respective positions.<sup>15</sup> Yet, United does not allege that it  
16

20 TIN as identifying the rendering provider. *See* 86 Fed. Reg. 55994 (“Items and services are  
21 billed by the same provider or group of providers or facility or same provider of air  
22 ambulance services if the items or services are billed with the same National Provider  
23 Identifier (NPI) or [TIN].”); *see also* 86 Fed. Reg. 56064 (“By allowing groupings of  
24 providers with the same TIN, this will allow group practices to batch together qualified IDR  
25 items or services.”).

26 <sup>14</sup> *See* Guidance for Disputing Parties, <https://www.cms.gov/files/document/federal-idr-guidance-disputing-parties-march-2023.pdf>, (accessed 10/23/2025) p. 17, § 5.5.

27 <sup>15</sup> *See* 45 C.F.R. § 149.510(c)(1)(v) (“[T]he certified IDR entity selected must review the  
28 information submitted in the notice of IDR initiation to determine whether the Federal IDR  
process applies. If the Federal IDR process does not apply, the certified IDR entity must

1 raised any such challenges with the IDREs. Furthermore, “CMS maintains an online portal  
2 through which providers may submit complaints regarding the IDR process.” *Guardian Flight,*  
3 *L.L.C., et al. v. Health Care Serv. Corp.*, 140 F.4th 271, 277 (5th Cir. 2025). United does not  
4 allege that it availed itself of that either.

5 3. United’s Allegations Rely On Information Always Available To United, Not  
6 Newly Discovered Information

7 The allegations and judicial notice show that all the facts United pleads in support of  
8 its fraud allegations were available to United at the time it paid Sonoran’s bills and engaged  
9 in the IDR process. United admits that the bills it received from Sonoran included industry  
10 standard, required information, including Sonoran’s TIN as the provider group billing the  
11 claim, the individual radiologist’s NPI who rendered the service, and location information  
12 indicating which hospital or facility the services were provided. (Compl. ¶¶ 73, 76, 89-91;  
13 RJN, Ex. 11 [NUCC Manual]. United relies on publications such as provider group websites  
14 and social media sites like LinkedIn to argue that Sonoran radiologists are also affiliated with  
15 RP or another provider group. (Compl., ¶¶ 91-95, 105-107, 125-127, 135-136). Additionally,  
16 United relies upon the bills submitted to United, which reflected that radiologists sometimes  
17 were providing services on behalf of Sonoran and other times on behalf of other radiology  
18 groups entities. (Compl. ¶ 76). But none of these allegations are contrary to the admissions  
19 that medical groups can and do use contractors as well as employees to staff hospitals.

20 **III. THIS COURT SHOULD TRANSFER, OR ALTERNATIVELY, DISMISS**  
21 **AND/OR STAY THIS CASE PURSUANT TO THE FIRST-TO-FILE RULE**

22 **A. The First-to-File Rule Factors Supports Transfer, Stay, or Dismissal**

23 United’s complaint is duplicative of the earlier CA Lawsuit United filed against RP and  
24 should be transferred, or in the alternative dismissed or stayed, pending the resolution of the

25 \_\_\_\_\_  
26 notify the Secretary and the parties within 3 business days of making that determination.”).  
27 The IDRE can ask for documents and explanation from the parties for eligibility  
28 challenges. *See* Technical Advice for Certified IDR Entities, August 2022, <https://www.cms.gov/files/document/TA-certified-independent-dispute-resolution-entities-August-2022.pdf>  
(accessed 10/23/25) at 10-11.

1 earlier lawsuit. The first-to-file rule is a “generally recognized doctrine of federal comity  
2 which permits a district court to decline jurisdiction over an action when a complaint involving  
3 the same parties and issues has already been filed in another district.” *Winters v. Quicken*  
4 *Loans Inc.*, 2021 WL 948767, at \*2 (D. Ariz. Mar. 12, 2021) (quoting *Pacesetter Sys., Inc. v.*  
5 *Medtronic, Inc.*, 678 F.2d 93, 94–95 (9th Cir. 1982)).

6 “When deciding whether to apply the first to file rule, district courts look to three  
7 factors: (1) chronology of the lawsuits; (2) similarity of the parties; and (3) similarity of the  
8 issues.” *Paparella v. Plume Design Inc.*, 2023 WL 2463778, at \*2–3 (D. Ariz. Mar. 10,  
9 2023). The rule “serve[s] the purpose of promoting efficiency” and “should not be disregarded  
10 lightly.” *Winters*, 2021 WL 948767, at \*2 (quoting *Kohn L. Grp., Inc. v. Auto Parts Mfg.*  
11 *Miss., Inc.*, 787 F.3d 1237, 1239 (9th Cir. 2015)). When the first-to-file rule applies, it allows  
12 the court to “transfer, stay, or dismiss the action.” *Slick Slide LLC v. Jokawiem Mfg. LLC*,  
13 2025 WL 904489, at \*1 (D. Ariz. Mar. 25, 2025). All three factors support transfer under the  
14 facts alleged here.

15 **B. Chronology of the Lawsuits Supports Applying the First-to-File Rule**

16 As described above, United filed the CA Lawsuit in 2023, more than two years before  
17 filing this lawsuit, with several arbitrations filed in between. Following RP’s Motion to  
18 Compel Arbitration, the court in the CA Lawsuit stayed the action pending the resolution of  
19 arbitration. *See United HealthCare Servs., Inc. v. Radiology Partners, Inc.*, 2023 WL 6908674  
20 (C.D. Cal. Sept. 27, 2023). Instead of adding its parallel allegations to the already pending TX  
21 Arbitration, where United had first launched these charges, United filed nothing against RP  
22 for more than a year. Then, several months after the TX Arbitration concluded in 2024, United  
23 initiated parallel arbitrations in Florida and North Carolina. The next year, 2025, United filed  
24 a parallel arbitration in Colorado. Now, with the CA Lawsuit and all these arbitrations still  
25 pending, United has filed this Arizona lawsuit, based on the same core alleged torts – i.e.,  
26 challenging that the RP affiliated group rendered the services.

27 Only on August 8, 2025, more than two years after filing the original CA Lawsuit, did  
28 United file this parallel Arizona lawsuit against RP, alleging the same core wrongdoing as to

1 Sonoran, rather than United seeking leave to amend the already pending CA Lawsuit. ECF  
2 No. 1. Thus, the chronology of the two lawsuits—the first factor—strongly weighs in favor  
3 of applying the first-to-file rule.

4 **C. Similarity of the Parties Supports Applying the First-to-File Rule**

5 The first-to-file rule considers “substantial similarity of parties” but does not need exact  
6 overlap between parties. *Kohn L. Grp., Inc.*, 787 F.3d at 1240–41; see *Slick Slide LLC*, 2025  
7 WL 904489, at \*2 (“As to the second factor—similarity of the parties—exact identity of the  
8 parties is not required.”). Indeed, “courts have routinely” applied the first-to-file rule when,  
9 comparing the two actions, there are additional defendants or plaintiffs. *Slick Slide LLC*, 2025  
10 WL 904489, at \*2.

11 For instance, in *Sprout Financial, LLC*, 2020 WL 1482627 (D. Ariz. Mar. 26, 2020)  
12 the District Court compared an initial action, which had two parties, with a subsequent action,  
13 which had five parties, and looked at the underlying relationships between the newly added  
14 parties. 2020 WL 1482627, at \*2–3. Those newly added parties, the court observed, were  
15 either “wholly owned” or otherwise had an ownership-related interest with the two parties  
16 from the initial action. *Id.* The court therefore found that the second factor of substantial  
17 similarity was met, reasoning that concluding otherwise “would essentially negate the policy  
18 underlying the first-to-file rule and allow gamesmanship” and allow parties “to circumvent the  
19 rule by adding other entities to the second action.” *Id.* In fact, United-related entities have  
20 made, and prevailed, on this exact point when United has sought to use the first-to-file rule to  
21 transfer other lawsuits when it is the defendant. *E.g., Gonzalez v. UnitedHealth Grp., Inc.*,  
22 2020 WL 2992174, at \*3 (W.D. Tex. June 3, 2020)(“As previously stated, all the defendants  
23 among the three suits are affiliates or subsidiaries of UnitedHealth Group. The Court  
24 determines that there are sufficient similarities between the parties that the invocation of the  
25 first-to-file rule is appropriate.”).

26 Here, as in the CA Lawsuit, United Healthcare Services, Inc. is a plaintiff and RP is a  
27 defendant. The other parties that United has added to this matter are subsidiaries and/or  
28 affiliates of each of them. UnitedHealthcare Insurance Co. and UMR, Inc. are both

1 subsidiaries of United, and all three are subsidiaries of non-party UnitedHealth Group Inc. *See*  
2 ECF No. 2. Sonoran is a subsidiary of RP. *See* ECF No. 19. Thus, the parties in the California  
3 Lawsuit and the parties here have “substantial similarity.” *Kohn L. Grp., Inc.*, 787 F.3d at  
4 1240–41. And if that were not enough, other *indicia* further underscore these similarities.  
5 United, for instance, has “employed the same counsel in both cases,” Which courts use in the  
6 first-to-file analysis. *See Slick Slide LLC*, 2025 WL 904489, at \*2.

7 **D. Similarity of the Issues Supports Applying the First-to-File Rule**

8 Courts, when evaluating the third factor, look at the similarities between the lawsuits—  
9 the factual circumstances and underlying claims—to determine if they contain “substantially  
10 similar” issues. *Kohn L. Grp., Inc.*, 787 F.3d at 1240. There is no requirement for the issues  
11 be “identical.” *Id.* All that need exist is a substantial overlap between issues in the two cases.

12 Specifically: “When analyzing if two lawsuits have substantially similar issues, the  
13 Court must determine whether there is ‘substantial overlap’ between the issues.” *Paparella*,  
14 2023 WL 2463778, at \*2–3; *Slick Slide LLC*, 2025 WL 904489, at \*2 (“[T]he Court finds that  
15 while there are some distinctions in the legal questions in the cases, there is substantial overlap  
16 between the factual issues in the cases such that transfer would be [appropriate].”).

17 Nor can a plaintiff avoid transfer by adding other claims. *See Sprout Financial, LLC*,  
18 2020 WL 1482627, at \*3 (there is substantial similarity between the issues raised in both  
19 actions because, even though the second action “brought several other claims,” but many of  
20 the alleged facts “directly relate[]” to the same key issues”).

21 United’s core theories in the CA Lawsuit and the present action are the same. *See supra*,  
22 section II.C.. Both alleged that RP and its affiliated medical groups engaged, in United’s own  
23 same words, a “classic form of healthcare fraud” called “pass-through billing” by causing “its  
24 affiliated medical groups to bill for services that they did not perform.” RJN, Ex. 2 (California  
25 Lawsuit), ¶ 3; Comp., ¶ 6. Moreover, both actions describe the same alleged scheme to bill  
26 for and receive reimbursements for services rendered at places where United allegedly did not  
27 contract with the groups for those locations, and supposedly United’s contracts with other  
28 groups applied to those locations. RJN, Ex. 2, ¶¶ 9-10, 131–41; Compl. ¶¶ 6, 84-111. And,

1 in both lawsuits, United fails to address which group holds the hospital staffing contract,  
2 making this a common flaw in its core theories.

3 Ultimately, United seeks to recover alleged overpayments caused by this same core  
4 alleged fact pattern, asserting the same causes of action in both the California Lawsuit and  
5 here: fraud; negligent misrepresentation and omission; money had and received; unjust  
6 enrichment; and RICO violations. RJN, Ex. 2, ¶¶ 130–211, Compl. ¶¶ 193–312. United  
7 adding arguments about the NSA do not change the underlying alleged theory that the services  
8 purported were not rendered by the RP affiliated medical groups. Thus, the third factor  
9 supports transfer too.

10 **E. Judicial Economy Supports Applying the First to File Rule**

11 Moreover, transferring, or in the alternative, dismissing or staying this matter would  
12 “maximize judicial economy, consistency, and comity.” *Kohn L. Grp., Inc.*, 787 F.3d at 1240.  
13 Allowing one court to resolve the issues related to the alleged disclosure will avoid  
14 “inconsistent judgments.” *C21FC LLC v. NYC Vision Cap. Inc.*, 2022 WL 2646168, at \*4 (D.  
15 Ariz. July 8, 2022); *RSC Equip. Rental Corp. v. Foster*, 2009 WL 10673090, at \*3 (D. Ariz.  
16 Aug. 3, 2009) (“There is a possibility of inconsistent judgments in the two cases, and the  
17 determination of the same issue in two different courts would unnecessarily burden the federal  
18 judiciary.”). These important considerations further tilt the balance in favor of concluding that  
19 the third factor is satisfied. *Pacesetter*, 678 F.2d at 95 (a court’s discretion in applying the  
20 first-to-file rule should be guided by “determinations concerning wise judicial administration,  
21 giving regard to conservation of judicial resources and comprehensive disposition of  
22 litigation” (internal quotation markets omitted)).

23 The apparent reason that United filed a new lawsuit here rather than seek to amend the  
24 CA Lawsuit is because that federal court correctly stayed that action. The Central District of  
25 California is more than capable of handling the substantially similar claims and issues  
26 presented here, including determining whether they overlap with the currently stayed CA  
27 Lawsuit, which United itself alleged there was not limited in scope to the RP-affiliated medical  
28 groups located in the states specifically referenced, i.e., Texas, Florida, and North Carolina.

1 RJN, Exhibit 2, ¶¶ 57–75.

2 Because the first-to-file rule should apply, the Court need not, and should not, proceed  
3 to the merits of this later filed lawsuit. Here, transfer to the Central District of California will  
4 best accomplish the first-to-file rule’s purpose to “promot[e] efficiency.” *Kohn L. Grp., Inc.*,  
5 787 F.3d at 1239; *Paparella*, 2023 WL 2463778, at \*3 (“Since the Court finds that dismissal  
6 without prejudice under the first to file rule is appropriate in this case, the Court does not reach  
7 the merits of Defendant’s other arguments.”).

8 **IV. ALTERNATIVELY, UNITED’S COMPLAINT SHOULD BE DISMISSED**  
9 **FOR FAILURE TO STATE A CLAIM**

10 If this Court were to evaluate the pleadings rather than transferring this case, then  
11 United’s complaint here must be dismissed, for both (a) failure to state a claim in general, and  
12 (b) failure to state a claim with the particularity required for the fraud-based theories.

13 **A. United’s Fraud-Based Complaint Must be Plausible and Plead with**  
14 **Particularity to Survive a Motion to Dismiss for Failure to State a Claim**

15 Rule 8(a) requires a complaint to contain “sufficient factual matter, accepted as true, to  
16 state a claim to relief that is plausible on its face” to survive a motion to dismiss. To survive a  
17 motion to dismiss, a complaint must “state a claim to relief that is plausible on its face.”  
18 *Ashcroft v. Iqbal*, 556 U.S. 662, 678 (2009). Plausible means something more than “possible”  
19 or “conceivable,” and requires pleading “factual content that allows the court to draw the  
20 reasonable inference that the defendant is liable” for the alleged misconduct. *Id.*; *Gonzalez v.*  
21 *Planned Parenthood of Los Angeles*, 759 F.3d 1112, 1115 (9th Cir. 2014) (“possible” but not  
22 “plausible” knowing submission of false claims not sufficient to survive motion to dismiss,  
23 given “obvious alternative explanation” of the submission of incorrect claims). Though factual  
24 allegations in a complaint are normally treated as true, the Court “need not ... accept as true  
25 allegations that contradict matters properly subject to judicial notice or by exhibit.” *Gonzalez*,  
26 759 F.3d at 1115.

27 Additionally, Rule 9(b) further requires fraud-based claims be plead with particularity,  
28 i.e., “accompanied by the who, what, when, where, and how of the misconduct

1 charged.” *Kearns v. Ford Motor Co.*, 567 F.3d 1120, 1124 (9th Cir. 2009) (internal quotations  
2 and citations omitted). “In order for a complaint to allege fraud with the requisite particularity,  
3 a plaintiff must set forth more than the neutral facts [such as time, place, and content] necessary  
4 to identify the transaction..., the plaintiff must set forth an explanation as to why the statement  
5 or omission complained of was false or misleading.” *Yourish v. California Amplifier*, 191 F.3d  
6 983, (9th Cir. 1999).

7 In evaluating plausibility, “courts must also consider an ‘obvious alternative  
8 explanation’ for defendant’s behavior,” such that [w]hen faced with two possible  
9 explanations, only one of which can be true and only one of which results in liability ...,  
10 [s]omething more is needed” than just facts which are consistent with both explanations, “such  
11 as facts tending to exclude the possibility that the alternative explanation is true.” *Eclectic  
12 Properties East, LLC v. Marcus & Millicap Co.*, 751 F.3d 990, 995-96 (9th Cir. 2014). The  
13 only “representation” complained of by United is that services of certain radiologists are billed  
14 by Sonoran instead of some alternate entity. United would have the Court infer a multi-person  
15 scheme being perpetrated by physicians, physician groups, venture capitalists, Sonoran, and  
16 RP, to defraud United. But cutting through its inflammatory language, the Complaint alleges  
17 nothing more than the ordinary business practice of certain radiologists affiliating with and  
18 providing services on behalf of Sonoran. United’s Complaint is devoid of any alleged facts  
19 that exclude the possibility of this ordinary business practice and does nothing to move its  
20 fraud-based accusations into the realm of “plausible.” Indeed, United’s alleged motivation for  
21 radiologists switching to provide services on behalf of Sonoran in late 2020 is obtaining more  
22 out-of-network reimbursement in the NSA IDR process, which did not even exist then.

23 **B. United Fails to Plead any Fraud or Misrepresentation (Count 1: Fraud**  
24 **and Count 2: Negligent Misrepresentation and Omission)**

25 United’s core fraud allegation, which United incorporates by express reference into all  
26 of United’s counts, is that Sonoran misrepresented that Sonoran performed the services being  
27 billed when United contends the services were performed by other medical groups. Compl. ¶  
28 195-196. Yet, United does not plead that any other radiology group besides Sonoran holds the

1 staffing contract at the facilities associated with Sonoran’s bills. United just insists as a  
2 conclusion that Sonoran is a “sham entity,” which is not the sort of factual contention that the  
3 Court must accept. *Id.* ¶ 5. Pejorative conclusory adjectives do not constitute particularity.

4 “To prove fraud in Arizona, a plaintiff must plead: ‘(1) [a] representation; (2) its falsity;  
5 (3) its materiality; (4) the speaker's knowledge of its falsity or ignorance of its truth; (5) the  
6 speaker's intent that it should be acted upon by the person and in the manner reasonably  
7 contemplated; (6) the hearer's ignorance of its falsity; (7) the hearer's reliance on its truth; (8)  
8 [the hearer's] right to rely thereon; and (9) the hearer's consequent and proximate injury.’ ”  
9 *Paz v. Arizona*, No. CV-14-02377-TUC-BPV, 2016 WL 7674582, at \*3 (D. Ariz. Dec. 5,  
10 2016). The alleged facts underlying these elements must satisfy Rule 8 plus Rule 9’s  
11 particularity requirement.

12 Likewise, to bring a claim of negligent misrepresentation, a Plaintiff must plead facts  
13 that show that “(1) the defendant provided false information in a business transaction; (2) the  
14 defendant intended for the plaintiff to rely on the incorrect information or knew that it  
15 reasonably would rely; (3) the defendant failed to exercise reasonable care in obtaining or  
16 communicating the information; (4) the plaintiff justifiably relied on the incorrect information;  
17 and (5) resulting damage.” *SPUS8 Dakota LP v. KNR Contractors LLC*, 641 F. Supp. 3d 682,  
18 696-97 (D. Ariz. 2022) (citations omitted).

19 **C. United’s Silence on Which Physician Group Holds the Hospital Staffing**  
20 **Contracts Means United Has Not Plausibly Pleaded That Sonoran Was Not**  
21 **the Rendering Provider**

22 United does not and cannot identify any false representation. The only “representation”  
23 United takes issue with is the identification of Sonoran as the medical group that performed  
24 and billed for the service. Compl. ¶ 195. But United’s Complaint does not plead facts that  
25 address (1) whether Sonoran was the radiology group that holds the staffing contracts at the  
26 facilities associated with the services billed, and (2) the ability of a doctor to perform work for  
27 more than one medical group. This failure means that United’s complaint does not cross the  
28 line from possible (i.e., the anything’s possible line) versus plausible (the facts required to

1 plead a cause of action).

2 The very examples of physicians referenced in United’s complaint are illustrative of  
3 the flaw in United’s theory. For example, United points to SMIL’s website, Dr. Howard  
4 Harvin’s LinkedIn profile, and a continuing education webinar to support its allegation that  
5 Dr. Harvin had or has an affiliation with SMIL – i.e., an entity that today “provides state-of-  
6 the-art diagnostic medical imaging and interventional radiology through out 17 outpatient  
7 centers” through “contracted radiology Physicians”<sup>16</sup> – and therefore cannot also have an  
8 affiliation with Sonoran. Compl. ¶ 125-127. But United ignores that a doctor having affiliation  
9 with one group does not exclude that doctor being affiliated with other entities.. Indeed,  
10 SMIL’s website and updated LinkedIn cited by United for Dr. Harvin do not mention that he  
11 also is a “clinical assistant professor at Stanford Health Care” – but United’s pleadings  
12 confirm that he works for Stanford too. Compl. ¶ 27 (“Howard Harvin is currently working as  
13 a clinical assistant professor at Stanford Health Care.”)<sup>17</sup> It is judicially noticeable that  
14 Stanford is located in Northern California, which is an entirely different state than Arizona.<sup>18</sup>  
15 Stanford also operates in the State where United already has the prior pending CA Lawsuit.

16 It is judicially noticeable that physicians can and often are affiliated with multiple  
17 physician groups. A physician’s affiliations are publicly available from government sources,  
18 one being the Medicare Revalidation List on the CMS website.<sup>19</sup> Section 6401(a) of the  
19 Affordable Care Act, enacted in 2010, established a requirement for Medicare providers to  
20 revalidate Medicare enrollment information on a regular basis. 42 CFR § 424.515. This  
21 revalidation information, which includes a list of the organizations with whom a physician is  
22 affiliated with and reassigned their right to bill CMS<sup>20</sup>, is publicly available. RJN, Exs. 12-  
23

24 <sup>16</sup> <https://www.esmil.com/>

25 <sup>17</sup> See also <https://stanfordhealthcare.org/doctors/h/howard-harvin.html>.

26 <sup>18</sup> <https://careers.stanfordhealthcare.org/us/en/locations>

27 <sup>19</sup> <https://data.cms.gov/tools/medicare-revalidation-list>.

28 <sup>20</sup> See 42 CFR § 424.80(b)(1)-(2) (Medicare pays entities pursuant to reassignment of benefits for employee doctors and “if there is a contractual arrangement between the entity and the supplier under which the entity bills for the supplier’s services.”)

1 18.<sup>21</sup> Dr. Harvin’s Medicare Revalidation List reflects that he is based in California, and has  
 2 assigned his right to bill CMS to five organization, including (1) Sonoran Radiology, Ltd. (2)  
 3 Stanford Health Care, (3) Southwest Diagnostic Imaging, LLC, (4) LPCH Medical Group Div  
 4 of Lucile, and (5) Radiologists of Cape Cod Hospital. RJN, Ex. 23. The same is true for the  
 5 other example physicians referenced in United’s Complaint. Compare Compl. ¶¶ 87-96, 99-  
 6 108, 134- 138, 143-155, with RJN, Exhs. 24-27 (Medicare Revalidation List results for Dr.  
 7 Slethaug, Dr. Lai, Dr. Diegnan, and Dr. Barclay-White, all listing “affiliation with Sonoran  
 8 Radiology Ltd” along with other physician groups).

9 United’s complaint reflects that Sonoran billed United under its TIN for services  
 10 rendered to United members by physicians affiliated with Sonoran under the physicians’ NPI.  
 11 But that is insufficient without factually pleading both (a) Sonoran lacked the staffing contract  
 12 at the hospital locations where Sonoran billed, and (b) Sonoran did not contract for their  
 13 services to fulfill Sonoran’s staffing rights and obligations at those hospitals.

14 United’s allegations fail to distinguish Defendants’ ordinary business conduct from  
 15 fraudulent activity, and thus, are insufficient under Rule 9(b). *In re Jamster Mktg. Litig.*, 2009  
 16 WL 1456632 at \*5 (S.D. Cal. May 22, 2009) (“Without the adjectives, the allegations allege  
 17 conduct consistent with ordinary business conduct and an ordinary business purpose. The  
 18 challenge for Plaintiffs is to set forth sufficient allegations to distinguish ordinary business  
 19 conduct [such as doctors being affiliated with more than one group] from fraudulent conduct.  
 20 Pleading by adjective does not comply with Rule 9(b).”).

- 21 1. RP and Sonoran have no duty or reason to state on *the* industry standard  
 22 billing claim form that the rendering provider might also be, or was, affiliated  
 23 with another physician group

24 United does not properly plead any fraudulent omission. “A defendant can only be  
 25 liable for fraud by omission if it failed to disclose facts that it had a duty to disclose.” *In re*  
 26

27 <sup>21</sup> The Court may take judicial notice of matters of public record on motion to dismiss. *U.S.*  
 28 *v. Corinthian Colleges*, 655 F.3d 984 (9th Cir. 2011); *Snyder v. HSBC Bank, USA, N.A.*, 913  
 F.Supp.2d 755 (D. Az. 2012).

1 *Arizona Theranos, Inc., Litigation*, 308 F.Supp.3d 1026, 1043. Likewise, a count for negligent  
2 misrepresentation requires a duty to disclose. *See Valley Pain Centers LLC v. Aetna Life*  
3 *Insurance Company*, 2023 WL 2759022, at \*7 (D. Az. Mar. 31, 2023) (affirming dismissal of  
4 negligent misrepresentation claim due to lack of allegation of fiduciary relationship giving rise  
5 to duty to disclose).

6 United admits that Sonoran does not have a participation contract with United.<sup>22</sup> United  
7 also does not, and cannot, allege that Sonoran has any fiduciary relationship with United, or  
8 any other duty to disclose on the standard claim form that the rendering provider belonged or  
9 also belongs to another physician group, or that RP previously acquired physician groups to  
10 which the rendering provider belonged. It is judicially noticeable that none of that information  
11 is required to be included on the industry standard billing form, the CMS-1500, or its electronic  
12 equivalent.<sup>23</sup> Indeed, the billing form, designed by CMS to include all sorts of other  
13 information, has no place to include whether the doctor was or is affiliated with other groups.  
14 This further shows that the dual affiliation United alleges is immaterial for billing. Moreover,  
15 United admits that its own claims data readily identifies that Sonoran’s providers have or had  
16 affiliations with other medical groups. Compl. ¶¶ 75-78. So, United’s conclusory alleged  
17 “ignorance” of the alleged omission or falsity is belied by the allegations in its Complaint.

18 2. United Also Has Failed To Plead Fraud with Particularity

19 As reflected on the judicially noticeable Medicare Revalidation List, Sonoran has  
20 provided radiology services through hundreds of radiologists. United has insisted that Sonoran  
21

---

22 <sup>22</sup> United’s counsel have also represented that their Complaint does not relate to any  
contracts, so United cannot rely on any contractual duty for what United claims was omitted.

23 <sup>23</sup> *See*, National Uniform Claim Committee (“NUCC”) 1500 Claim Form Reference  
24 Instruction Manual, available at [https://www.nucc.org/images/stories/PDF/](https://www.nucc.org/images/stories/PDF/1500_claim_form_instruction_manual_2024_07-v12.pdf)  
25 [1500\\_claim\\_form\\_instruction\\_manual\\_2024\\_07-v12.pdf](https://www.nucc.org/images/stories/PDF/1500_claim_form_instruction_manual_2024_07-v12.pdf) (“1500 Manual”) (RJN, Ex. 11).  
26 The 1500 Claim Form is the industry standard claim form used to submit billings for  
professional services, and is maintained by the NUCC. The NUCC Manual instructs that the  
27 identity and NPI of the rendering provider, e.g., the radiologist, be identified in box 24J (*id.*  
at 44) and the billing provider be identified by TIN in boxes 25 and 33 (*id.* at 49, 55).  
28 Nothing in the 1500 Manual, or 1500 form, requires identification of the rendering  
provider’s other affiliations. (*Id.*, RJN, Ex. 11.)

1 is a “sham” entity that operates only as a “façade” in a billing scheme, yet United’s Complaint  
 2 admits that Sonoran received an NPI from CMS, meaning the federal government recognizes  
 3 Sonoran as a real provider. The only “facts” pled in United’s Complaint are five radiologists  
 4 that United identified as members of other physician groups based on private websites. Not  
 5 only are these “facts” demonstrably misleading given the Medicare Revalidation List, but they  
 6 also ignore that doctors can be with multiple groups, and shows nothing about the hundreds of  
 7 other radiologists through which Sonoran provides services.

8 United also makes no effort to even tie the five specified radiologists to any specified  
 9 bill, let alone tie the hundreds of unidentified radiologists employed and contracted by Sonoran  
 10 to the “tens of thousands of” unidentified bills that United asserts were purportedly improper  
 11 (Compl, ¶ 183). This fails to meet the Rule 9(b) standard of pleading fraud with particularity.

12 **D. United Fails to Plead Sufficient Grounds to Support Vacating the NSA**  
 13 **IDR Awards Under 9 U.S.C. § 10 (Count Six)**

14 United’s Count 6, which seeks to vacate IDR awards, fails for the reasons set forth  
 15 above in Sections V.A and B, *i.e.*, United has not plausibly alleged even common law fraud,  
 16 let alone the level of fraud needed under the NSA to challenge IDR awards. The NSA only  
 17 provides for post-award review, and even then, it restricts judicial review to the very limited  
 18 circumstances for challenging awards under the Federal Arbitration Act (“FAA”). 42 U.S.C.  
 19 § 300gg-111(c)(5)(E)(i). United has not met these steep standards.

20 1. **An IDRE’s Award Can Only be Challenged if Procured by the Limited Types**  
 21 **of Fraud Adopted by the NSA by Reference to the FAA**

22 Here, United challenges the decisions under Section 10(a)(1) and 10(a)(4)<sup>24</sup> of the  
 23 Federal Arbitration Act (“FAA”) alleging all challenged awards were procured by fraud or  
 24 undue means and that the IDREs exceeded their powers. Vacatur of an arbitration award is

25 \_\_\_\_\_  
 26 <sup>24</sup> United relies on 9 USC 10(a)(2) as the second basis to vacate the IDR awards (see Compl.  
 27 ¶ 255), but section 10(a)(2) permits vacatur where “there was evident partiality or corruption  
 28 in the arbitrators.” United has alleged no facts to support this argument, and appears instead  
 to be arguing for vacatur under 9 USC 10(a)(4) on the grounds that the arbitrators exceeded  
 their powers.

1 very rarely afforded, and the review is narrow. *See, United States v. Park Place Assocs., Ltd.*,  
2 563 F.3d 907, 920 (9th Cir. 2009) (noting that “permissive grounds for vacatur” are limited to  
3 “four specific circumstances,” and that courts “have strictly interpreted this standard,  
4 emphasizing that review of the award itself is both limited and highly deferential.”) See also,  
5 *Gustin v. Kleen Concepts LLC*, No. CV-22-00525-PHX-DLR, 2022 WL 17361773, at \*2 (D.  
6 Ariz. Dec. 1, 2022) (“Under the FAA, courts may vacate an arbitrator's decision ‘only in very  
7 unusual circumstances. Neither erroneous legal conclusions nor unsubstantiated factual  
8 findings justify federal court review of an arbitral award under’ the Federal Arbitration Act.”)  
9 (citations omitted) Thus, “[a]n arbitration award will fall under § 10(a) only in ‘very unusual  
10 circumstances,” and “challenges . . . to NSA IDR awards may rarely succeed.” *Med-Trans*  
11 *Corp.*, 700 F. Supp. 3d at 1085.

12 Any non-fraud-based challenges raised in United’s Complaint fall outside the scope of  
13 Section 10. For example, United alleges that Sonoran purportedly initiated IDR “untimely” in  
14 two instances. (Comp., ¶¶ 161-163). But any such timeliness challenges had to be made to  
15 the IDRE no later than “not later than **1 business day** after the end of the 3-business-day period  
16 for certified IDR entity selection....,” and only the IDRE is empowered to decide them.  
17 Section 10 does not provide for judicial review of whether submission to the IDRE was timely.

18 2. United has not alleged the required type of fraud or undue means

19 United’s arguments under Section 10(a)(1) must satisfy Rule 9(b)’s particularity  
20 requirement for alleging fraud, as applied to the very narrow confines for pursuing fraud under  
21 the FAA that the NSA adopted. Federal courts have confirmed that application of the FAA  
22 standards to IDR challenges means “fraud or undue means” has “the same meaning in the NSA  
23 as in the FAA – nothing more.

24 Under the FAA, “[f]raud requires a showing of bad faith during the arbitration  
25 proceedings, such as bribery, undisclosed bias of an arbitrator, or willfully destroying or  
26 withholding evidence.” *Id.* at 620 (citations omitted). To survive a motion to dismiss, United  
27 must state the circumstances constituting this fraud with particularity. *Id.* at 622.

28 United cannot invoke fraud-based arguments to challenge arbitration awards without

1 alleging, with particularity, each of the following: (1) fraud “by clear and convincing  
 2 evidence,” (2) the fraud must be “not discoverable upon the exercise of due diligence prior  
 3 to the arbitration,” and (3) the fraud “fraud materially related to an issue in the arbitration.”  
 4 *A.G. Edwards & Sons, Inc. v. McCollough*, 967 F.2d 1401, 1404 (9th Cir. 1992).

5 Moreover, “Where fraud ... is not only discoverable, but discovered and brought to the  
 6 attention of the arbitrators, a disappointed party will not be given a second bite at the apple.”  
 7 *ABC Int'l Trades, Inc. v. Fun 4 All Corp.*, 79 F. App'x 346, 348 (9th Cir. 2003). Federal courts  
 8 have consistently held that one party allegedly misrepresenting facts to the arbitrator under the  
 9 NSA falls woefully short of alleging fraud. Instead, fraud in this context requires, “a showing  
 10 of bad faith during the arbitration proceedings, such as bribery, undisclosed bias of an  
 11 arbitrator, or willfully destroying or withholding evidence.” *Guardian Flight* at 673.

12 a) United Failed to Allege Sufficient Facts to Establish Fraud by  
 13 Clear and Convincing Evidence

14 As set forth above in Section V.B, United has not plausibly alleged fraudulent conduct  
 15 at all, let alone with particularity. Thus, United has failed to allege sufficient facts to establish  
 16 fraud by clear and convincing evidence, which is sufficient grounds to dismiss United’s Count  
 17 6 for failure to state a claim for relief that can be granted.<sup>25</sup>

18 b) United Cannot Show The Alleged Fraud Was Not  
 19 “Discoverable”

20 United asserts it “only recently” uncovered the fraudulent scheme and “could not have  
 21 discovered the fraud prior to or during the IDR process. (Compl. ¶¶ 254, 258). But United’s  
 22 own complaint, and the CA Lawsuit undercuts this argument.

23 \_\_\_\_\_  
 24 <sup>25</sup> The only additional allegation of any sort of misrepresentation by Sonoran concerns a  
 25 **single** bill (out of purportedly tens of thousands) where the IDRE pointed to a “prior  
 26 contract” rate that was “significantly higher than the QPA” paid and offered by United.  
 27 (Compl., ¶¶ 175-182.) But the alleged misrepresentation for this bill was not pled with  
 28 particularity and does not preclude that the IDRE was mistaken or that Sonoran was  
 referencing a contract other than a full participation agreement. The Complaint does not  
 indicate what, if anything, was submitted or told by Sonoran to the IDRE, what “contract”  
 the IDRE was referencing, when, or in what form.

1 First, United relies on its own claims data from early 2021 to show that billing volume  
2 shifted from contracted provider groups to Sonoran. (Compl. ¶ 76). This alleged shift, evident  
3 in United’s own data, was available more than a year before any IDR dispute could have been  
4 initiated. Moreover, by definition, United had access to its own claims data to identify the  
5 alleged fact that radiologists once affiliated with a contracted provider group were now  
6 identified on Sonoran claims. Also, United alleges these providers publicly identified  
7 themselves as being affiliated with contracted provider groups. (Compl., ¶¶ 91-95, 105-107,  
8 125-127, 135-136). All this information predates the NSA IDR disputes United lost and now  
9 seeks to overturn.

10 Second, if United lacked information to assess a provider’s network status, then due  
11 diligence requires United request additional information from Sonoran in the 30 days prior to  
12 making an initial payment, or in the 30-day NSA open negotiation period. United did not do  
13 so. Instead, United voluntarily paid as out-of-network for a year, participated in the IDR  
14 process for more than three years, and only cried “fraud” more than 4 years after Sonoran  
15 began operations – when United grew dissatisfied with its IDR results.

16 Third, the CA Lawsuit shows that the fraud United alleges was “discoverable” at least  
17 as early as April 14, 2023. RJN, Ex. 1. Yet it seeks relief for bills through today and prior  
18 restraint going forward.

19 3. United has not met the “high standard” for vacatur under Section 10(a)(4)

20 United argues that the IDREs overseen by CMS exceeded their powers by hearing  
21 ineligible disputes. But FAA § 10(a)(4) is a “high standard for vacatur” that affords courts  
22 only an “extremely limited review authority” warranted when an arbitration award exhibits a  
23 manifest disregard of law or is completely irrational. *HayDay Farms, Inc. v. FeeDx Holdings,*  
24 *Inc.*, 55 F.4th 1232, 1240–41 (9th Cir. 2022). “Manifest disregard ... requires something  
25 beyond and different from a mere error in the law or failure on the part of the arbitrators to  
26 understand and apply the law. To demonstrate manifest disregard, the moving party must show  
27 that the arbitrator understood and correctly stated the law, but proceeded to disregard the  
28 same.” *Id.* (citations omitted). The court must accept the arbitrator’s findings, and “[t]here

1 must be some evidence in the record, other than the result, that the arbitrators were aware of  
2 the law and intentionally disregarded it.” *Id.* “An arbitrator does not exceed its authority if the  
3 decision is a plausible interpretation of the arbitration contract.” *U.S. Life Ins. Co. v. Superior*  
4 *Nat. Ins. Co.*, 591 F.3d 1167, 1177 (9th Cir. 2010).

5 United cannot satisfy this high bar. United does not allege that the IDREs were  
6 presented with United’s basis for its eligibility challenges, but even if United did ever  
7 challenge the eligibility, “[i]t is not enough ... to show that the panel committed an error—or  
8 even a serious error.” *Stolt–Nielsen S.A. v. AnimalFeeds Int’l Corp.*, 130 S.Ct. 1758, 1767  
9 (2010). Moreover, this theory relies on the same allegations as United’s defective 10(a)(1)  
10 argument, and fails for the same reasons discussed above.

11 **E. United’s Other Counts Fail to State a Cause of Action Because United**  
12 **Does Not Allege any Fraudulent Conduct**

13 The remaining causes of action in United’s Complaint are derivative of, and based and  
14 reliant on United’s same meritless fraud allegations:

15 1. **Count 3: Civil Conspiracy:**

16 Civil conspiracy requires that two or more people “agree to accomplish an unlawful  
17 purpose or to accomplish a lawful object by unlawful means, causing damages.” *Wells Fargo*  
18 *Bank v. Ariz. Laborers, Teamsters & Cement Masons Loc. No. 395 Pension Tr. Fund*, 38 P.3d  
19 12, 36 (Ariz. 2002). Elements of the underlying tort must be satisfied to bring a civil  
20 conspiracy cause of action. *See Cervantes v. Countrywide Home Loans, Inc.*, 656 F.3d 1034,  
21 1041-42 (9th Cir. 2011) (affirming dismissal of civil conspiracy to commit fraud for failure to  
22 plead misrepresentation to bring underlying fraud cause of action). The only underlying wrong  
23 alleged by United to support its Civil Conspiracy cause of action is “the billing scheme  
24 described herein” (Compl. ¶¶ 222), i.e., the same alleged fraud underlying Count One,  
25 meaning this cause of action fails with Count One as well.

26 Moreover, United fails to plead with particularity any agreement between RP, Sonoran,  
27 and any of the other alleged participants (private-equity firms, medical groups) identified in  
28 United’s Civil Conspiracy count. This also defeats the conspiracy count.

2. Count 4: Money Had and Received and Count 5: Unjust Enrichment

A count for Money Had and Received is an equitable count that requires pleading that “the defendant has received or obtained possession of money of the plaintiff which in equity and good conscience he ought to pay over to the plaintiff.” *Copper Belle Mining Co. of W. Virginia v. Gleeson*, 14 Ariz. 548, 551, 134 P. 285 (1913). The general rule is that “a party cannot recover money voluntarily paid with a full knowledge of the facts.” *Copper Belle Mining Co. of W. Virginia*, 14 Ariz. at 554, 134 P. 285. The action is akin to an action for unjust enrichment. *Dream Team*, 2017 WL 3460806, at \*3. “To prevail on an unjust enrichment claim, a plaintiff must allege: (1) an enrichment; (2) an impoverishment; (3) a connection between the enrichment and the impoverishment; (4) absence of justification for the enrichment and the impoverishment; and (5) an absence of a remedy provided by law.” *Perez v. First Am. Title Ins. Co.*, 810 F. Supp. 2d 986, 991 (D. Ariz. 2011) (quoting *Freeman v. Sorchych*, 226 Ariz. 242, 245, 245 P.3d 927 (Ct. App. 2011)).

Both counts rely on the same alleged fraud that, for reasons stated above, are not properly pleaded. (See, Compl. ¶¶ 230, 240 (on Counts 4 and 5 alleging only that “the wrongful conduct of Sonoran and Radiology Partners as described herein” as the basis for money had and received and unjust enrichment; ¶ 238 (unjust enrichment count based on “claims to be submitted to United containing the misrepresentation that Sonoran, rather than the medical groups controlled by Radiology Partners, performed the services billed).

3. Count 7, 8, 10, 11: Violation and Conspiracy to Violate State and Federal RICO Statutes<sup>26</sup>

To state a plausible RICO claim, United must allege that the Defendants “participate[d] in (1) the conduct of (2) an enterprise that affects interstate commerce (3) through a pattern (4) of racketeering activity.” *Eclectic Props. E., LLC v. Marcus & Millichap Co.*, 751 F.3d 990, 997 (9th Cir. 2014) (citing 18 U.S.C. § 1962(c)). The pleadings must demonstrate the

<sup>26</sup> Arizona courts have interpreted the state law version of RICO “to mirror the federal RICO statute.” *Aviva USA Corp. v. Vazirani*, 632 Fed. App'x 885, 889 (9th Cir. 2015). The Arizona and Federal RICO claims should be dismissed for the same reasons.

1 “enterprise,” under element two, “has (A) a common purpose, (B) a structure or organization,  
2 and (C) longevity necessary to accomplish the purpose.” *Id.* (citing *Boyle v. United States*, 556  
3 U.S. 938, 946 (2009)).” *Valley Pain Centers LLC v. United Life Ins. Co.*, No. CV-19-05395-  
4 PHX-DJH, 2023 WL 2759022, at \*8 (D. Ariz. Mar. 31, 2023).

5 When based in fraud, these allegations must also be plead with particularity under Rule  
6 9(b) standards. (*Id.*; see also, *Chagby v. Target Corp.*, 358 Fed. Appx. 805 (9th Cir. 2009)  
7 (affirming dismissal of fraud-based RICO because the allegations were insufficient to “create  
8 an obvious inference of fraud,” and failed to meet 9(b) pleading standards).

9 The only predicate act of racketeering activity alleged by United for its federal RICO  
10 count is “the use of wires and mails to submit fraudulent claims to United.” Compl., ¶¶ 293.  
11 Likewise, the only alleged racketeering activity alleged by United under A.R.S. § 13-  
12 2301(D)(4) are the same defective allegations of a “scheme or artifice to defraud,” or “multiple  
13 acts of fraud” under the same theory advanced in its fraud count, the alleged misrepresentation  
14 “that Sonoran performed services actually rendered by other medical groups” Compl., ¶ 266.  
15 Thus, United’s RICO counts fail because United has not stated a plausible claim for fraud, let  
16 alone with any particularity.

17 Moreover, like with common law fraud, courts within the Ninth Circuit have rejected  
18 efforts to characterize ordinary business conduct and relationships as an actionable  
19 “enterprise” under RICO. *See, e.g., Shaw v. Nissan N. Am., Inc.*, 220 F. Supp. 3d 1046, 1054  
20 (C.D. Cal. 2016) (“[C]ourts have overwhelmingly rejected attempts to characterize routine  
21 commercial relationships as RICO enterprises.”); *In re Arizona Theranos, Inc., Litig.*, 308 F.  
22 Supp. 3d 1026, 1060 (D. Ariz. 2018) (same); *In re Toyota Motor Corp. Unintended*  
23 *Acceleration Mktg., Sales Pracs., & Prods. Liab. Litig.*, 826 F. Supp. 2d 1180, 1202 (C.D. Cal.  
24 2011) (stating “Plaintiffs merely allege that the Defendants are associated in a manner directly  
25 related to their own primary business activities, which is insufficient to state a claim under §  
26 1962(c),” the operative complaint alleged no more than defendants’ primary business activity  
27 was conducted fraudulently, which “is incompatible with the types of conduct RICO was  
28 enacted to prevent”).

1 Here, the allegations in United’s complaint are nothing more than United taking issue  
2 with RP and Sonoran’s ordinary organizational relationships and business activities amongst  
3 themselves. *See also, Gomez v. Guthy-Renker, LLC*, 2015 WL 4270042, at \*9 (C.D. Cal. July  
4 13, 2015) (noting the “widespread consensus among courts” that routine business relationships  
5 are insufficient to impose RICO liability); *In re Countrywide Fin. Corp. Mortgage-Backed*  
6 *Sec. Litig.*, 2012 WL 10731957, at \*8 (C.D. Cal. June 29, 2012) (“Parties that enter commercial  
7 relationships for their own gain or benefit do not constitute an enterprise.”) (internal quotations  
8 omitted). United failed to allege the requisite separate “enterprise,” and indeed, admits RP  
9 and Sonoran are affiliates. Thus, even if there had been a properly alleged fraud here – and  
10 there isn’t – United cannot elevate it into RICO.

11 Counts 8 and 11 for RICO Conspiracy also necessarily fail. “Because United has failed  
12 to adequately plead a substantive RICO violation, it cannot bring a Section 1962(d) conspiracy  
13 claim.” *Sanford v. MemberWorks, Inc.*, 625 F.3d 550, 559 (9th Cir. 2010); *Howard v. America*  
14 *Online Inc.*, 208 F.3d 741, 751 (9th Cir. 2000) (“the failure to adequately plead a substantive  
15 violation of RICO precludes a claim for conspiracy”). *Valley Pain Centers LLC v. United*  
16 *Life Ins. Co.*, No. CV-19-05395-PHX-DJH, 2023 WL 2759022, at \*9 (D. Ariz. Mar. 31, 2023).

17 4. Count 9: Aiding and Abetting a Tort

18 A claim for aiding and abetting a tort “requires proof of three elements: (1) the primary  
19 tortfeasor must commit a **tort** that causes injury to the plaintiff; (2) the defendant must know  
20 that the primary tortfeasor's conduct constitutes a breach of duty; and (3) the defendant must  
21 substantially assist or encourage the primary tortfeasor in the achievement of the breach.”  
22 *Wells Fargo Bank v. Arizona Laborers, Teamsters & Cement Masons Loc. No. 395 Pension*  
23 *Tr. Fund*, 201 Ariz. 474, 485, 38 P.3d 12, 23 (2002). Aiding and abetting requires that “the  
24 defendants must know that the conduct they are aiding and abetting is a tort.” “There must be  
25 some distinction between the primary tort and the aiding and abetting conduct. Aiding and  
26 abetting is derivative in the sense that absent a predicate primary tort, there can be no claim  
27 for aiding and abetting which is a secondary form of liability.” *Aguado v. XL Ins. Am.*, 721 F.  
28 Supp. 3d 811, 816 (D. Ariz. 2024).

1 The only alleged “tort” under this count are the derivative alleged “commission of torts  
2 against United, as set forth herein.” (Comp., ¶ 277.) United fails to plead Count 9 for the  
3 reasons it fails to plead the other asserted torts on which this count depends. Further, United  
4 makes no effort to describe any conduct that is distinct from the primary tort that would  
5 constitute aiding and abetting.

6 5. Count 12: Declaratory Relief

7 United’s declaratory relief count seeks nothing more than affirmation that it prevails on  
8 its other counts. As discussed herein, United cannot circumvent the NSA and the relief United  
9 seeks is superfluous to its other counts. Moreover, the Declaratory Judgment Act does not  
10 provide an independent cause of action. *City of Reno v. Netflix, Inc.*, 52 F.4th 874, 878–79 (9th  
11 Cir. 2022). See also *Ali v. Rumsfeld*, 649 F.3d 762, 778 (D.C. Cir. 2011) (“[T]he plaintiffs  
12 have not alleged a cognizable cause of action and therefore have no basis upon which to seek  
13 declaratory relief. Nor does the Declaratory Judgment Act ... provide a cause of action.”). Here,  
14 a declaratory judgement cannot stand without the other causes of action which fail for the  
15 reasons articulated above. Declaratory judgment will serve no useful purpose here, and nothing  
16 in the Complaint supports declaratory relief

17 **V. CONCLUSION**

18 The Court should transfer, or in the alternative dismiss and/or stay, United’s complaint.  
19 This health plan and competitor had no valid basis to file a new federal lawsuit alleging the  
20 same core wrongdoing already pending for over two years in the Central District of California.  
21 Moreover, facilities, not United, gets to choose the staffing radiology group entity.
