14 taking down everything that I say and everything you
15 say, and so I'm going to attempt to not talk over your
16 answers today, and I ask that you try to into the talk
17 over my questions so that Barbie can get down
18 everything that we're saying.

19 Is that fine?

20 A. Yes.

21 Q. She's also taking down words, and so she
22 can't record a shrug of the shoulders, an "uh-huh,"
23 "huh-uh," so all of your answers must be verbal.

24 Is that fair?

25 A. Yes.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 9

1 Q. At any time -- this is not an endurance
2 test, so if at any time you need to take a break, just
3 let me know, and at that point in time we will take a
4 break. The only caveat being that if there is a
5 question pending, I ask that you answer that question
6 before we steak a break.

7 Is that fine?

8 A. Yes.

9 Q. From time to time your lawyers may lodge an
10 objection to one of my questions. Unless your lawyer
11 instructs you not to answer, you need to answer that
12 question.

13 Is that fair?

14 A. Yes.

15 Q. I will from time to time ask bad questions.
16 If at any time you don't understand a question that
17 I've asked you, please ask me to rephrase it and I will
18 do my best. To the extent you answer that question,
19 we're going to assume you understood it for purposes of
20 the record.

21 Is that fine?

22 A. Yes.

23 Q. What did you do to prepare for your
24 deposition here today?

25 A. I worked with my counsel and reviewed

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 10

1 relevant documents to the case.

2 Q. How many times did you meet with your
3 counsel?

4 A. I would have to pull up my calendar and have
5 that to give an accurate number to quantify.

6 Q. More than five?

7 A. I can't quantify that number.

8 Q. Do you know how many hours approximately you
9 spent preparing for your deposition?

10 A. Again, I would need to look at my calendar.

11 Q. Do you recall any of documents you reviewed
12 in preparation for your deposition?

13 A. There were many documents we reviewed.

14 Q. Can you tell me any general categories of
15 documents that you reviewed?

16 A. We looked at quality documents, patient
17 experience scores. We looked at some of our other
18 regulatory accreditations and previous Leapfrog scores.

19 Q. Did you review any emails?

20 A. We did.

21 Q. Do you recall any specific emails you
22 reviewed in preparation for your deposition?

23 A. I would need the documents in front of me to
24 be able to tell you all the emails we reviewed.

25 Q. Did you review any board meeting minutes?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 11

1 A. We did.

2 Q. What about med exec meeting minutes?

3 A. Yes.

4 Q. Did you review any quality scorecards?

5 A. Yes.

6 Q. Do you know if you've produced those quality
7 scorecards in this litigation to your counsel?

8 A. I would need the documents in front of me to
9 see which quality documents we've given.

10 Q. But you can't recall as you sit here today
11 what quality documents specifically you reviewed?

12 A. No, because there was multiple documents so
13 I need them in front of me.

14 Q. Did you speak to anybody other than your
15 counsel about your deposition here today?

16 A. I did not.

17 Q. Have you reviewed the deposition transcript
18 of Sheri Montgomery in preparation of your deposition
19 here today?

20 A. I have not.

21 Q. Do you recall when the first -- I don't want
22 to know anything you talked about with your counsel.
23 I'm not allowed to know about that. But do you recall
24 when your first meeting was with your counsel to
25 prepare for your deposition?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 12

1 A. I need my calendar. I'm a CEO of a hospital
2 so I have so many meetings every day. I can't remember
3 all those off the top of my head.

4 Q. Do you know if it was within the last month?

5 A. We've had meetings in the last month, but I
6 don't know when the first one was. I need the
7 calendar.

8 THE VIDEOGRAPHER: The time is 9:17 a.m.

9 We're going off the record.

10 (A recess was taken from 9:17 a.m. to 9:18 a.m.)

11 THE VIDEOGRAPHER: The time is 9:18 a.m. We
12 are back on the record.

13 BY MS. BLAIR:

14 Q. Ms. Havericak, were you involved in
15 gathering documents to produce in this litigation?

16 A. I saw some of them.

17 Q. And I'm asking specifically about gathering
18 documents to provide to your lawyers to produce to the
19 other side. Were you involved in that process?

20 A. I was involved in some of that process.

21 Q. And what documents do you recall gathering
22 and producing to your lawyers in this litigation?

23 A. Emails that were relevant to the topic, some
24 of our committee minutes which we already talked about
25 which are med exec and governing board.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 13

1 And then other members of our team gathered
2 some of the quality data, which could be quality
3 scorecards or just quality dashboards and some of the
4 patient experience scores and some of the past Leapfrog
5 data.

6 Q. When you say "emails relevant to the topic,"
7 what do you consider the topic to be?

8 A. Relevant to Leapfrog scoring, relevant to
9 the Leapfrog process.

10 Q. And when you refer to the dashboards, what
11 does that refer to?

12 A. It can be a variety of things. We have
13 multiple quality dashboards that we utilize within the
14 hospital to help us gauge our performance on quality
15 and safety.

16 Q. Do you know do those dashboards have names?

17 A. There's a whole -- there's a variety of
18 dashboards, so you could have dashboards in the
19 cardiovascular space. You could have dashboards for
20 hand hygiene. You could have dashboards for the
21 unit-based measures. I mean, there's a whole variety
22 of them.

23 Q. And your understanding is that those
24 dashboards have been produced in this litigation?

25 A. Correct.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 14

1 Q. And is there a software that is associated
2 with those dashboards?

3 A. Most dashboards are just in an Excel file.

4 Q. Do you know what Trillient is?

5 A. I'm familiar with it.

6 Q. Does your hospital use Trillient to track
7 patient safety data?

8 A. I'm not certain that they use that to track
9 it.

10 Q. Do you know what your hospital uses
11 Trillient for?

12 A. I'm not familiar with what they use it for.

13 Q. Does your hospital engage in, do you know
14 what Vizient is?

15 A. I do know what Vizient is.

16 Q. Does your hospital engage in Vizient?

17 A. To my knowledge, we do not use Vizient.

18 Q. What about Premier, do you use premiere?

19 A. I'm not familiar that we use Premier.

20 Q. Does your hospital use any third-party
21 source like Vizient to track quality and patient safety
22 data?

23 A. We work with accrediting organizations, so
24 we are accredited by the Joint Commission. We also
25 have other accreditations with Joint Commission outside

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 15

1 of just our regulatory component. So we have hip, knee
2 and shoulder certification, which we voluntarily do, so
3 they come in and do validation visits with us.

4 We are a comprehensive stroke program
5 through DNV so they validate all of our data as well.

6 And then we have registries that we report
7 data to for all of our cardiovascular, so the Society
8 of Thoracic Surgeons, which is STS.

9 We have our TBT registry which is for our
10 TAVR program.

11 We have our PCI dashboards for our
12 cardiovascular programs.

13 We have our left atrial appenditure [sic]
14 closure dashboard, so all of those are through
15 different cardiology bodies.

16 And then we also have our trauma program
17 that's a level I trauma program that has a regulatory
18 component through the Department of Health, so there's
19 data that goes there.

20 And then we also are a Bariatric Center of
21 Excellence so we have data that goes through the
22 bariatric component as well.

23 Q. Okay. And earlier you mentioned a
24 hand hygiene dashboard. How is that kept?

25 A. So we do hand hygiene surveillance in each

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 16

1 unit each month. There's a tool that's used to collect
2 that data. And then those scores are populated on the
3 unit-based quality dashboard. And then that
4 information of that performance is reported out on a
5 monthly basis at our infection control meeting and at
6 our quality monthly meeting.

7 Q. Have you produced the unit-based quality
8 dashboard in this litigation?

9 A. I believe that those have been produced.

10 Q. And so you believe there are documents that
11 have been produced in this litigation that show the
12 surveillance of hand hygiene at Delray Medical Center?

13 A. Yes.

14 Q. And you -- to your -- to the best of your
15 knowledge, you've given those documents to your
16 attorneys to be produced in this litigation?

17 A. Our quality team has produced those
18 documents.

19 Q. Yeah, my apologies. By "you," I meant
20 Delray Medical Center, correct?

21 A. Yes.

22 Q. I'm going to show you what we'll mark as
23 Exhibit 2.

24 (Defendant's Exhibit Number 2 for i.d.)

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 17

1 Q. Ms. Havericak, I'm providing you with what
2 we've marked Exhibit 2 in this deposition. I'm trying
3 to short-circuit a long discussion about what your
4 background is.

5 And if you look at paragraphs two, three,
6 four and five of this document which is the declaration
7 of -- you know what? Let me start over.

8 This document is entitled the Declaration of
9 Heather Havericak, correct?

10 A. That's correct.

11 Q. And if we turn to the last page of this
12 document which has a Bates number of PBHN 2127, is that
13 your signature on this document?

14 A. That is my signature.

15 Q. And this was executed on May 14th, 2025,
16 correct?

17 A. That's correct.

18 Q. And if we look back at paragraphs two
19 through five of the Declaration of Heather Havericak,
20 does this accurately reflect both your education and
21 your professional background?

22 MR. MARCUS: Object to form.

23 A. It does.

24 BY MS. BLAIR:

25 Q. And as I note here, it talks about from 2002

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 18

1 to 2005 you worked at the Miami Children's Hospital,
2 correct?

3 A. That's correct.

4 Q. And then sometime in or around 2006 you went
5 to Broward, correct?

6 A. That's correct.

7 Q. And as I read this document, you were at
8 Broward until you took the job as the CEO at
9 Delray Medical Center in 2024?

10 A. That's correct.

11 Q. In terms of your education, you have a
12 master's degree from Indiana State University, correct?

13 A. Correct.

14 Q. Is there any other education or -- well, is
15 there any other education that's not listed in
16 paragraph three of Exhibit 2?

17 A. Well, there's the primary education that you
18 get to before you get a master's degree, yes.

19 Q. Good point. Where did you go to undergrad?

20 A. I went to College of DuPage in Glen Ellyn,
21 Illinois, and then I went to Florida International
22 University for my bachelor's of science in nursing.
23 And I did a couple years at North Central College as
24 well.

25 Q. Do you have any accreditations that are not

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 19

1 listed in this document?

2 A. No. I'm just a fellow of the American
3 College of Healthcare Executives.

4 Q. And what does that mean?

5 A. It's an advanced certification for
6 healthcare leadership that requires you to give back to
7 the community, doing community service hours, serving
8 on boards, passing a board of governors exam and then
9 doing ongoing continuing education.

10 Q. So you still are involved with that today?

11 A. Yes, it's required to be renewed every three
12 years.

13 Q. And so you take continuing education classes
14 to renew that?

15 A. I do.

16 Q. Are any of those continuing education
17 classes in patient safety?

18 A. Yes, I actually just renewed my fellowship,
19 and I did do some patient safety.

20 Q. I want to talk a little bit about your work
21 at Broward. How long -- did you start as a nurse at
22 Broward Health?

23 A. I started as a bedside nurse in pediatric
24 hematology oncology.

25 Q. And you became the permanent CEO starting in

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 20

1 August of 2019, correct?

2 A. That's correct.

3 Q. At any time -- well, and you were the -- you
4 were the acting CEO of Broward Health Medical Center
5 from 2019 to 2024?

6 A. No. I was acting from March of that year
7 until I became permanent in August. And then I was
8 permanent CEO from August until I left Broward actually
9 in July of 2023.

10 Q. And what did you do -- where did you go in
11 July of 2023?

12 A. I just took some time in between going to
13 Delray.

14 Q. Got it. About a year.

15 A. No, no. Just a couple of months.

16 Q. And you -- oh, you started at Delray in
17 January of 2024?

18 A. Yeah.

19 Q. When you were at -- where is Broward Health
20 Medical Center located?

21 A. It's in Fort Lauderdale, Florida.

22 Q. When you were the CEO of Broward, they
23 participated in the Leapfrog survey, correct?

24 A. That's correct.

25 Q. Did you ever in any of your time at Broward

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 21

1 for 17 years have any involvement in the completion of
2 the Leapfrog survey for Broward Medical Center?

3 A. I did.

4 Q. And can you just briefly tell me about what
5 your involvement was in completing the Leapfrog survey
6 while at Broward?

7 A. So we would be -- I would be involved in
8 just looking at the measures, looking at where we
9 potentially needed to have improvement strategies. And
10 then before any data was actually submitted, I would
11 review that.

12 I did have one year where I was coming in as
13 an interim where data had already been submitted, and
14 there was a data error in that submission to Leapfrog.
15 So during that period of verification when we're able
16 to verify and validate data that Leapfrog allows us, we
17 noticed that one of the self-reported measures was not
18 correct.

19 And we mitigate -- we asked them to change
20 that during that embargo period or whatever it's
21 called, but we weren't able -- we were not successful
22 in getting that changed. So, you know, moving forward
23 from there when I was in a permanent role, every time
24 that data was submitted, I sat with our quality
25 director to make sure every single component had

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 22

1 accuracy.

2 Q. Do you recall what the change was that you
3 asked Leapfrog to change during the verification
4 period?

5 A. I don't remember which measure it was. It
6 was either barcode medication scanning or CPOE. I
7 can't recall which one it was, but it did cause us to
8 get a D, as in dog.

9 Q. And do you recall the reason why they would
10 not change it?

11 A. We didn't get any rationale on why it wasn't
12 changed, from what I remember.

13 Q. Did you contact them through the help desk,
14 through the Leapfrog help desk?

15 A. Our -- the team did that was there.

16 Q. And at some point in time while you were the
17 CEO of Broward Health, Broward was an A, correct?

18 A. Broward -- Broward Health North was an A,
19 not Broward Health Medical Center, and I was at Broward
20 Health Medical Center, yes. It's part of a network of
21 hospitals.

22 Q. What is the highest grade Broward Health
23 Medical Center ever received from leapfrog while you
24 were associated with them?

25 A. I believe it was a B.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 23

1 Q. At any time that you were associated with
2 Broward Health Medical, did Broward ever purposely
3 misrepresent its survey results to Leapfrog?

4 A. Not to my knowledge.

5 Q. To your knowledge, at any time when you were
6 associated with Broward, did Broward manipulate its
7 Leapfrog survey results?

8 A. Not to my knowledge.

9 Q. At any time that you were associated with
10 Broward, do you believe that Broward's score -- that
11 Broward's scores on the Leapfrog survey were
12 overinflated because you were a participating hospital?

13 MR. MARCUS: Object to form.

14 A. I wouldn't say that -- say that, no.

15 BY MS. BLAIR:

16 Q. And as I understand your previous testimony,
17 at some point in time Broward was participating in the
18 Leapfrog survey and received a D?

19 A. That's correct.

20 Q. As a participant in the survey?

21 A. That's correct.

22 Q. And so do you have an understanding that the
23 Leapfrog survey is separate and distinct from the
24 Leapfrog hospital safety grade?

25 MR. MARCUS: Object to form.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 24

1 A. I wouldn't agree with that.

2 BY MS. BLAIR:

3 Q. Have you seen Leap -- you've seen Leapfrog
4 survey, correct?

5 A. Yes.

6 Q. Would you agree with me that not every
7 measure on the Leapfrog survey is part of the scoring
8 methodology for the hospital safety grade?

9 A. I wouldn't agree with that.

10 Q. So it's your testimony that every answer
11 from the Leapfrog Hospital Survey gets scored into the
12 Leapfrog hospital safety grade?

13 MR. MARCUS: Object to form.

14 A. I would say that every measure in that --
15 that survey matters, especially since 2024 when the
16 imputation model was changed. You're asking me about
17 Leapfrog, what -- and how it was before 2024, so when
18 that imputation model changed, that penalized
19 hospitals, because with us not submitting data, that
20 really takes those four measures and makes them about a
21 30 percent weight, so every measure matters in that
22 survey.

23 BY MS. BLAIR:

24 Q. And we'll talk about it in detail later on
25 today.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 25

1 At any time that you were associated with
2 Broward Medical Center, did Broward pay Leapfrog for
3 its grades?

4 MR. MARCUS: Object to form.

5 A. Not that I'm aware of.

6 BY MS. BLAIR:

7 Q. At any time that you were associated with
8 Broward Medical Center, did Broward pay to participate
9 in the survey?

10 MR. MARCUS: Object to form.

11 A. Not that I'm aware of.

12 BY MS. BLAIR:

13 Q. At any time that you were associated with
14 Broward, did Broward pay Leapfrog consulting fees to
15 get a better grade?

16 MR. MARCUS: Object to form.

17 A. Not that I'm aware of.

18 BY MS. BLAIR:

19 Q. At any time that you were associated with
20 Broward did you receive any solicitation from Leapfrog
21 to pay for consulting services from Leapfrog?

22 A. Not that I'm aware of.

23 Q. Can you just tell me a little bit about, to
24 the extent you know, the rebranding of the five
25 plaintiff hospitals in this litigation as Palm Beach

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 26

1 Health Network, what the purpose of that was?

2 A. That was really, from my understanding, to
3 just show how our hospitals that are all affiliated
4 with each other come together, so from a community
5 perspective and consumer perspective that all of those
6 hospitals are part of the Palm Beach Health Network.

7 Q. Do you consider any of the other four
8 hospitals that are plaintiffs in this litigation to be
9 competitors of Delray?

10 MR. MARCUS: Object to form.

11 A. No.

12 BY MS. BLAIR:

13 Q. And why not?

14 A. Because we work together as a health network
15 in a system to provide care to our community, and each
16 of us has slightly different services, and we need to
17 come together to provide those services holistically
18 for our community.

19 Q. Do you -- does Delray transfer patients to
20 the other four hospitals and vice versa?

21 A. Typically Delray does not have to transfer
22 patients because Delray typically takes more patients.
23 We're a level I adult and pediatric trauma center. We
24 have tertiary cardiovascular care and advanced
25 neuroscience, so the only thing that we typically need

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 27

1 to transfer out are women having babies or if there's
2 pediatric patients that have come that might need to go
3 to the children's hospital within the Palm Beach Health
4 Network or burn patients because we are not a burn
5 center.

6 Q. Does Delray have -- well, strike that.

7 Do these five hospitals have different or
8 separate budgets and financial statements?

9 A. We do each have separate budgets and
10 financial statements.

11 Q. And do each of these five hospitals keep
12 separate statistics on admissions?

13 A. We do.

14 Q. Do the five plaintiff hospitals share any
15 resources at the Palm Beach Health Network level?

16 A. We do.

17 Q. And what resources do you share?

18 A. Our group chief strategy officer is a
19 resource for the network. Our public relations is a
20 resource for the network. Our marketing is at a
21 network level. Gina West who's one of our quality
22 directors has a primary focus at a hospital but also
23 has network oversight. Our chief nursing officer
24 has -- we have one from one of our facilities that has
25 oversight. Our chief operating officer is at one of

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 28

1 the hospitals but has group oversight. Our chief
2 financial officer is at our center but then has group
3 oversight. There's a variety of positions that have
4 group oversight. We have an infection prevention
5 person for the group.

6 Q. Who's the infection prevention person?

7 A. Her name is Taylor.

8 Q. Taylor Pool?

9 A. Yes.

10 MS. BLAIR: That's P-o-o-l-e [sic].

11 BY MS. BLAIR:

12 Q. How much of the Delray budget goes into the
13 Palm Beach Health Network marketing budget?

14 MR. MARCUS: Object to form.

15 A. I would need -- I would need those numbers
16 in front of me. I can't tell you those.

17 BY MS. BLAIR:

18 Q. Am I right that Delray or all five hospitals
19 contribute money to the group marketing budget?

20 A. That would be correct.

21 Q. And do all five of these hospitals
22 contribute money to the quality budget?

23 A. We each have quality directors and quality
24 departments at our facilities, so I don't believe that
25 they're cost allocated over for the group people

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 29

1 because we have those locally.

2 Q. Okay. So Regina West, for example, she --
3 is she not the group chief quality officer?

4 A. She is the group chief quality officer, but
5 she also is the quality officer for St. Mary's Medical
6 Center.

7 Q. Okay. And so her -- she gets paid through
8 St. Mary's and not through group budget?

9 A. I think so. I'd have to look at it.

10 Q. Do you have any idea how much Delray's
11 marketing budget is?

12 A. I, again, would need the financial statement
13 in front of me to tell you.

14 Q. Is it a percentage of the overall budget?

15 A. Again, I need the numbers in front of me.

16 Q. What about what is Delray's quality budget?

17 A. Again, I need the numbers in front of me. I
18 have 1,600 employees. I can't tell you the number of
19 the budget of each department off the top of my head.

20 Q. I don't have the documents or I'd give them
21 to you.

22 Do you know what percentage of Delray's
23 budget goes to the quality budget for your hospital?

24 A. Not without looking at numbers.

25 Q. What type of document would I need to look

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 30

1 at to know -- strike that.

2 What type of document would you need to look
3 at in order to tell me the answers to what is the
4 marketing budget and what is the quality budget?

5 A. I would need the cost centers associated
6 with those budgets from the financial statements and
7 the FTE counts, the full-time equivalents from each of
8 those departments.

9 Q. Maggie Gill is the chief executive of
10 Palm Beach Health Network, correct?

11 A. She's the group president and chief
12 executive officer of the Palm Beach Health Network.

13 Q. And do the five hospitals that make up the
14 Palm Beach Health Network contribute to pay her salary?

15 A. I have not -- I'm not involved in how her
16 salary is paid.

17 Q. What is her role in the Palm Beach Health
18 Network?

19 A. She's our group president and all the CEOs
20 report directly to her.

21 Q. Do you know what her job duties are as the
22 group president?

23 A. I don't -- no, I'm not familiar with her
24 specific job duties. Those wouldn't necessarily be
25 shared with me.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 31

1 Q. Does she make decisions for Delray, any
2 decisions for Delray related to quality or patient
3 safety?

4 A. We make decisions together.

5 Q. Does she report directly to Tenet Healthcare
6 home office?

7 A. She reports to one of the members in the
8 home office.

9 Q. Do you know who she reports to?

10 A. Lisa Foo.

11 Q. That's F-o-o?

12 A. Yes.

13 Q. And what is Lisa Foo's title?

14 A. She's the chief operating officer of
15 Tenet Healthcare.

16 Q. What is Regina West's role, not at
17 St. Mary's but for Palm Beach Health Network?

18 A. So Regina is the group quality director, so
19 she will facilitate our monthly quality meetings, which
20 are called QMOR, so we have a balanced scorecard that
21 we meet together with on a monthly basis. She also
22 brokers meetings to facilitate standardization of
23 quality practices among the Palm Beach Health Network
24 with all the DQIs or the directors of quality at each
25 site, so she facilitates leadership within the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 32

1 directors of quality as well, so they have a dotted
2 line to Regina.

3 Q. And in terms of the balanced scorecard you
4 just talked about, is that a balanced scorecard for
5 each individual hospital, or is it for the Palm Beach
6 Health Network as a whole?

7 A. So the balanced scorecard is for each
8 individual hospital, and then there's a roll-up to the
9 Palm Beach Health Network of how we're doing
10 collectively.

11 Q. And are those physical reports that you
12 receive?

13 A. We receive them, but we also have a software
14 that we can pull them out of and look at them at any
15 time.

16 Q. And what is the name of that software, if
17 you know?

18 A. Kaleidoscope.

19 Q. What is QIPSC?

20 A. QIPSC is our quality monthly meeting where
21 all of our quality data from all the different
22 departments is filtered up into, so we meet on a
23 monthly basis. We have a physician chairing that with
24 our director of quality, and that's where the leaders
25 come together looking at our outcomes and how we're

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 33

1 performing in quality, patient safety.

2 And then that information goes up to the med
3 exec and then up on to the governing board so that that
4 dissemination of information is filtered up.

5 Q. Okay. So QIPSC is at the individual
6 hospital level?

7 A. Yes, yes.

8 Q. And what types of data does Regina West
9 track for the hospitals that make up the Palm Beach
10 Health Network?

11 A. So she -- we all have the same -- we have
12 the same balanced scorecard, so there's a large
13 component in there that's looking at our
14 hospital-acquired infections, which would be
15 catheter-based infections, central-line-based
16 infections, MRSA and then C. diff infections, so she
17 has a large component on that.

18 She also is looking at our mortality rates,
19 and then also looking at readmission rates and things
20 like that.

21 Q. Does she put together a hospital safety plan
22 for the group as a whole?

23 A. She doesn't put the plan together as a
24 whole. We do those individually at each of the
25 hospitals.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 34

1 Q. How often do you put -- do you do a hospital
2 safety plan?

3 A. Those have to be updated annually.

4 Q. And that's a regulatory requirement,
5 correct?

6 A. Correct.

7 Q. And do you know if the hospital safety plans
8 have been produced in this litigation for '23, '24 and
9 '25?

10 MR. MARCUS: Object to form.

11 A. I would need the documents in front of me to
12 see which years, but I know the safety plan has been
13 submitted.

14 BY MS. BLAIR:

15 Q. Is Regina West in charge of putting together
16 any patient safety improvement plans for any of the
17 individual hospitals?

18 A. She could have an influence on those when
19 we're putting them together because, again, if we have
20 a best practice at one of our hospitals that's working
21 from a patient safety perspective and it's evidence
22 based, we'd want to disseminate that to the other
23 facilities, but those are also worked on at the
24 facility level as well.

25 And I'd have to say that's one area that

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 35

1 Delray Medical Center has improved significantly on.
2 We today, as we sit here, are 270 days in our hospital
3 without a central-line-based infection.

4 We've made huge improvements in C. diff and
5 then also have made huge improvements in catheter-based
6 UTIs.

7 And those were all developed through our
8 quality teams with our physicians because we really put
9 in nurse-driven protocols to get Foleys out, which is a
10 best practice.

11 We were able to do conversions of our not
12 having PIC lines in and going to mid-lines which are
13 going to reduce the incidence of developing central
14 line-associated infections.

15 We identified that C. diff is very prominent
16 in our patient population, so getting testing done
17 early and often when the patients are coming in with
18 loose stool is very important.

19 And then because we serve a very elderly
20 population where the average age is in the 80s and some
21 are coming from skilled nursing facilities, they may be
22 living in, being at acute rehabs, there's a high
23 incidence of MRSA from the community onset, so we
24 developed protocols with our infection control champion
25 physician where we're able to do a Nozin® protocol and

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 36

1 able to get these patients tested appropriately on
2 admission. And it's just driven large improvements for
3 us in our patient safety and our outcomes for our
4 patients.

5 Q. Who is your infection control champion
6 physician?

7 A. Dr. Erritouni.

8 Q. Can you spell that?

9 A. I knew you were going to ask me that.

10 Q. Sorry.

11 A. It's -- I don't think I could spell it off
12 the top of my head. It's e-r-o-u-t-i-n-i [sic], I
13 think.

14 Q. And you talked a little bit about CAUTI,
15 right, that's UTI infections?

16 A. Yes.

17 Q. C. diff, correct?

18 A. Yes.

19 Q. MRSA, right?

20 A. Yes.

21 Q. These -- and CLABSI I think you spoke about,
22 correct?

23 A. Yes.

24 Q. And those are all infections that are
25 monitored by CMS, correct?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 37

1 A. Those are monitored by CMS, yes.

2 Q. In terms of the -- you mentioned earlier the
3 group chief strategy officer at Palm Beach Health
4 Network. Is that Derek Collins?

5 A. That is Derek Collins.

6 Q. Is he involved in decisions regarding
7 marketing of the hospitals?

8 A. Marketing reports directly to Derek.

9 Q. And is there a marketing director of Delray?

10 A. Our marketing director at Delray is also the
11 group marketing director.

12 Q. And who is that?

13 A. Lisa Cook.

14 Q. Oh, yes. I see.

15 And you talked about a chief nursing officer
16 for Palm Beach Health Network. Is that
17 Ricardo Ramirez?

18 A. That is.

19 Q. What hospital does he work at?

20 A. West Boca Medical Center.

21 Q. What about Shannon Wills, is she the
22 Palm Beach Health Network chief human resource officer?

23 A. She is, and she's also my chief human
24 resource officer at Delray.

25 Q. And as I read your interrogatory answers,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 38

1 there's no nurse union at Delray, correct?

2 A. We do not have a union.

3 Q. Has Delray, like other hospitals, had
4 trouble recruiting nurses in the last three, four
5 years?

6 A. From what I understand, because I came to
7 Delray in 2024, they did have some significant
8 challenges in years past, but we have done a wonderful
9 job developing a nurse extern program, so we have been
10 able to really build that pool up to 100 plus nurses
11 where we're able to recruit talent right out of that
12 nurse extern program. And we've gotten our retention
13 rates for the year down to below 15 percent. And
14 there's just been really a concerted effort on
15 recruiting the best talent we can. But that nursing
16 extern program has been really important for us.

17 Q. How long has that been in place?

18 A. That's been in place, I believe, for two and
19 a half or three years.

20 Q. There's a -- I think you -- well, I want to
21 go back to the rebranding of Palm Beach Health Network.
22 I understand that occurred in April of 2022. Does that
23 comport with your understanding?

24 MR. MARCUS: Object to form.

25 A. I'm not sure the exact date because I wasn't

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 39

1 in my capacity at the facility.

2 BY MS. BLAIR:

3 Q. Have you ever been told or come to find out
4 what the purpose or whether or not the purpose of the
5 rebranding was to compete with new hospitals or medical
6 facilities that were coming into the Palm Beach area?

7 MR. MARCUS: Object to form.

8 A. That's not my understanding of it.

9 BY MS. BLAIR:

10 Q. You've never read any newspaper articles
11 that have suggested that that was the purpose of the
12 rebranding of Palm Beach Health Network?

13 A. I have not.

14 MR. MARCUS: Object to form.

15 BY MS. BLAIR:

16 Q. You've mentioned the board at Delray. How
17 many members are on your board?

18 A. I believe right now we have seven.

19 Q. How long are their terms?

20 A. Their terms are anywhere from two to three
21 years and they can be renewed.

22 Q. Is there a chair of the board?

23 A. There is.

24 Q. Who is that?

25 A. Dr. Jeffrey Newman.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 40

1 Q. Is he a practicing physician?

2 A. He is.

3 Q. Where does he practice?

4 A. Delray Medical Center and Palm Beach
5 Gardens.

6 Q. And for the record, Palm --

7 A. And he has privileges at West Boca Medical
8 Center.

9 Q. And all three of those hospitals are
10 hospitals in this litigation, correct?

11 A. Correct.

12 Q. Do you know who Larry Ellison [sic] is?

13 A. Larry Edelson?

14 Q. Larry Edelson. I said that wrong.

15 A. Yes.

16 Q. Is he on the board?

17 A. He was a former board member.

18 Q. When did he stop being a board member?

19 A. He was off the board before I came, so I'm
20 not clear on the date that he rolled off.

21 Q. What about Steve Saltzman, is he a board
22 member?

23 A. No.

24 Q. Do you know who Steve Saltzman is?

25 A. I don't think I'm familiar with

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 41

1 Steve Saltzman.

2 Q. Does Delray Medical Center have any issues
3 recruiting for board membership?

4 A. We do not.

5 Q. Who -- how are board members recruited for
6 Delray?

7 A. We work just with our community stakeholders
8 to look at different people in the community that would
9 have good skill sets that could be of benefit for our
10 board and really just be a good addition to the board.
11 So we want a well-rounded board. We wouldn't want
12 everyone that's in the medical field. We have people
13 that are from the real estate sector, from the business
14 sector, from the government sector, from fire rescue
15 because we just want it to be well rounded.

16 Q. How many members are in your med exec?

17 A. Let me count them. So we have our chief of
18 staff. We have our vice chief of staff. We have our
19 treasurer. We have our department of medicine chair,
20 department of cardiology chair, department of surgery
21 chair. We have our two members at large. And then we
22 have our trauma director, our chief of vascular, our
23 chief of the emergency room and chief of radiology and
24 chief of pathology.

25 Q. Is there a chair of the med exec?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 42

1 A. There is.

2 Q. And who is that?

3 A. Dr. Lon Sadowsky.

4 Q. I'm from Chicago so these names aren't
5 making sense to me, but could you spell it for her?

6 A. Me, too.

7 S-a-d-o-w-s-k-y.

8 Q. And do the -- does the director -- well, let
9 me ask this.

10 Who is the director of quality for Delray?

11 A. Stephany Johnson.

12 Q. And who is Heather Wehmeyer?

13 A. She was the former director of quality.
14 Stephany started at or around October 3rd, 2024. She
15 transferred to us from St. Mary's.

16 Q. When did Heather Wehmeyer stop working at
17 Delray?

18 A. So she just works in a different capacity
19 now. She works in our cardiac quality team.

20 Q. Was that a demotion for her?

21 A. It was.

22 Q. Why was she demoted?

23 A. She just had been promoted into the wrong
24 role. That role was just a little too large for her.

25 Q. And when was she transitioned to the cardiac

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 43

1 quality team?

2 A. It was sometime around when Stephany was
3 starting. I don't have the exact date.

4 Q. Does the med exec get quality reports from
5 your quality director?

6 A. They do.

7 Q. And how often do they get those?

8 A. They get quality information every month in
9 the meetings which will be given by me or by Stephany.
10 We're both in the meeting.

11 Q. And who do you consider to be executive
12 leadership at Delray?

13 A. Our chief operating officer; our chief
14 nursing officer; our chief financial officer; our CHRO;
15 our ACNO; our ACFO; and our associate administrator.

16 Q. And who is the COO of Delray?

17 A. Aganette Parks.

18 Q. And how long --

19 Is that Mr. or Mrs.?

20 A. Mrs.

21 Q. Mrs. Parks. How long has Mrs. Parks been
22 the COO?

23 A. She was just promoted in December of 2024.

24 Q. Who was the COO before her?

25 A. I was.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 44

1 Q. Oh.

2 A. For just three months or four months.

3 Q. What about before you?

4 A. Maria Morales who is now the group COO and
5 she's at St. Mary's.

6 Q. Yes.

7 Is it common for executive leadership to go
8 from one of these five hospitals to the other?

9 A. Yeah, I think we've done a really good job
10 building a bench and identifying succession planning
11 where you're able to recruit that talent within and
12 give people opportunities. And that's common in the
13 healthcare overall.

14 Q. Who's the current CNO?

15 A. Jennifer Shoemaker.

16 Q. And when did she become the CNO?

17 A. I don't have her exact date either. It was
18 before I came. I think it was sometime in 2023.

19 Q. Who is the CFO currently?

20 A. Michelle Cartwright, and she's also the
21 group CFO.

22 Q. How long has she been the CFO?

23 A. I don't have her exact dates, but she's been
24 there as long as I've been there in my role.

25 Q. So prior to January '23 she would have been

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 45

1 the CFO?

2 A. I believe so.

3 Q. What about the CHRO for Delray?

4 A. I don't have her time either, but I believe
5 she's been there a long time.

6 Q. What's her name?

7 A. Shannon Wills. I'm sorry.

8 Q. No, that's fine. And is she --

9 A. She's group as well and ours.

10 Q. Perfect.

11 What are the job duties of the director of
12 quality at Delray?

13 A. So that person is directly responsible for
14 just the oversight of our quality and patient safety
15 programming. They also run all of our -- they have
16 oversight for all of our case review conferences, so
17 these teams report. Infection control reports up to
18 them. And really just collaboration with the
19 administrative team to ensure that that patient safety
20 plan is rolled out, adhered to and measured and
21 monitored.

22 Q. Does Delray have various quality committees?

23 A. We do.

24 Q. What quality committees do you have?

25 A. Some of them that I can think of right now,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 46

1 we have QIPSC. We have cardiac surgery improvement.
2 We have our STEMI work group improvement. We have a
3 monthly neuroscience for our stroke quality
4 improvement. We have monthly trauma quality
5 improvement. We have a patient experience or care
6 experience committee that meets monthly. There's a
7 variety of them. There's an EP quality improvement. I
8 mean, all the departments really have a lot.

9 Q. Well, let's talk about QIPSC. Who's on the
10 QIPSC committee for Delray?

11 A. So it's chaired, again, by our director of
12 quality and our -- one of our med exec members which is
13 Dr. Moussa, M-o-u-s-s-a.

14 Q. So that would be Stephany Johnson, correct?

15 A. Stephany Johnson and Dr. Moussa.

16 Q. Okay.

17 A. I sit on that committee. The CNO sits on
18 that committee. The COO sits on that committee.

19 And then we have our clinical directors that
20 are on that committee as well, so that would be our
21 nursing directors, our imaging director, our ED
22 director, I mean, all of those types of folks. And
23 then our infection prevention nurses are on there.

24 But I would need to give you the sign-in
25 sheet --

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 47

1 Q. No --

2 A. -- to show you, there's a lot of people that
3 are part of that committee.

4 Q. I appreciate it. It's not a memory test. I
5 appreciate that, though.

6 A. Okay.

7 Q. And how often does QIPSC meet?

8 A. Monthly.

9 Q. And what about the --

10 A. Oh, and I'm sorry. Our governing board,
11 Lori Vinikoor, sits on our board, too.

12 Q. Vinegar like --

13 A. No, Vinikoor, V-i-n-n-k-o-r [sic], I think.

14 Q. And what about the patient experience
15 committee, who chairs that?

16 A. I do.

17 Q. And how many members are on that committee?

18 A. Well, I just started -- I kind of
19 reinvigorated that committee in July, so I actually
20 have bedside care providers from many of the units, so
21 there's nurses, there's CNAs who are like patient care
22 techs. So I have about 20 people that sit on that
23 committee.

24 And then there's a grouping of some
25 managers, some clinical directors. And then we're

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 48

1 going to be rolling some physicians into that meeting
2 next month as well.

3 Q. Have you hired a patient experience
4 champion?

5 A. So I have a care experience -- I don't
6 really use "patient experience" as a word anymore, so
7 we use "care experience." And I have a care experience
8 coordinator. And it -- she was already within the
9 health network working at Delray Medical Center so we
10 just put her in a different capacity in a different
11 role.

12 Q. When was the position of care experience
13 coordinator started?

14 A. We put her in that role in April, I believe.

15 Q. April of 2025?

16 A. Yes.

17 Q. And what is her name?

18 A. Angelica, and I'm going to spell her last
19 name, it's L-i-g-a-s, Ligas.

20 Q. What does the patient ex -- do you call it
21 the patient experience committee, or do you call it the
22 care experience committee?

23 A. I call it the care experience committee.

24 Q. What does the care experience committee do?

25 A. So we -- this was a committee, again, that

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 49

1 was reinvigorated in July. But we are evaluating the
2 unit-based scores, the overall scores from the HCAHPS
3 for the hospital.

4 But we also are looking at our Google
5 reviews as well. So really part of that when we
6 started to look at our Google reviews back in September
7 of 2024, we were a 1.8 star-rated Google hospital. And
8 I'm happy to say that with all the process improvement
9 we've put in place we're a 4.5 so we're leading all of
10 Palm Beach County with Google reviews. So that's going
11 to be an early indicator, and then those HCAHPS will
12 start to follow.

13 So that committee is really looking at our
14 hardwired practices, looking at our scores, where we
15 can do things differently from the bedside, you know.

16 So if -- for example, we just had this
17 committee this past week, so we really were looking at
18 the bedside handoff that's happening between
19 practitioners, where we are doing well on it, where we
20 have opportunities.

21 We also developed recognition programs for
22 all the staff members as it relates to patient
23 experience so we've created a champion experience award
24 that's going to be rolled out this month. We have each
25 unit gets a care experience award if they're the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 50

1 champion of the month, so just developing different
2 awards and recognition programs and that they really
3 are ambassadors that are then going out into their
4 units, talking about scores, talking about best
5 practices in addition to everything that the leadership
6 team is doing to back that up.

7 Q. And those HCAHPS scores, they turn into star
8 ratings at CMS, correct?

9 A. They are a factor in the star rating.

10 Q. And what is the patient experience CMS star
11 rating currently for Delray?

12 A. It's a one-star.

13 Q. And do you anticipate that to go up as the
14 fixes -- my word -- that you put into place?

15 A. I expect them to go up, but that's going to
16 take time, because when you look at star ratings that
17 are reflective today, those -- that's data that's going
18 through, I believe, '21 to '23, so we're going to need
19 some time for those plans to mature and then that data
20 to come off so that we can start to see the fruits of
21 the labor.

22 Q. Right. And that's because the publicly
23 available CMS data lags, correct?

24 A. Correct.

25 Q. And we talked about just very briefly the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 51

1 nurse retention improvements that you've been doing at
2 Delray.

3 Is it fair to say based on your testimony
4 that currently you don't feel as if Delray has any
5 staffing retention issues?

6 MR. MARCUS: Object to form.

7 A. I think we've made large improvements in
8 staffing and retention. I would say there's probably
9 one or two departments that are more specialty specific
10 that have more challenges that might be above that
11 average, but I think we have a good plan in place where
12 we don't need to be concerned.

13 BY MS. BLAIR:

14 Q. Can you talk to me a little bit about
15 Delray's marketing plans? Do you have a marketing plan
16 for Delray?

17 A. So we have -- we do business planning every
18 year, so really you're building in your marketing plans
19 with that, but I do go over my marketing plan, you
20 know, for the year, and then I meet on a monthly basis
21 with my marketing and then my public relations team to
22 just make sure that we're staying on track with
23 everything. So we'll identify the key service lines
24 that we are going to be promoting. It may be related
25 to new capital equipment or new capital projects or

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 52

1 different innovative technologies that we're going to
2 be launching within that given year, and we have plans
3 that go along with all of that, but it's typically by
4 service line.

5 Q. And is most of the marketing for Delray
6 individual to Delray, or is it in the Palm Beach Health
7 Network group?

8 A. The marketing can -- the marketing can be a
9 combination of both. So, for example, if it's a shared
10 service line where Delray Medical Center, for example,
11 if it's cardiovascular services that we want to
12 promote, Delray Medical Center and Palm Beach Gardens
13 are both large cardiovascular hubs and destinations so
14 there may be something that we do together.

15 Q. Would you agree with me that the brand of
16 Delray has increased under your leadership?

17 A. I would agree.

18 Q. When you came to Delray in 2024 --

19 A. January '24.

20 Q. -- January 2024, what kind of brand
21 recognition did you believe Delray had?

22 MR. MARCUS: Object to form.

23 A. From the feedback, it's not what I believe,
24 but the feedback I received when spending time with
25 important community constituents and physicians was

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 53

1 that the reputation, they didn't know all the key
2 services and the quality outcomes, the superior quality
3 outcomes that we had achieved there. It was kind of a
4 hidden secret.

5 BY MS. BLAIR:

6 Q. And when you say "they," are you referring
7 to the community at large?

8 A. The community constituents and different
9 physicians I went out to talk to.

10 Q. And when you came on as the CEO of Delray,
11 was it one of your goals to improve the brand of
12 Delray?

13 A. That's always, as a CEO, you always want to
14 improve your brand and make sure the community
15 understand the services, the physicians are comfortable
16 with the services.

17 Q. Had there ever been any studies done for
18 Delray specifically comparing its brand, let's just
19 say, in 2023 versus today?

20 A. I don't think I've seen all those studies.

21 Q. I don't...

22 And I'm just trying to figure out is there a
23 way in which -- is there a way in which Delray measures
24 whether or not you're improving your brand within the
25 Palm Beach community?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 54

1 A. There are these monthly reports. I don't
2 recall exactly what the name of those reports are, but
3 those come out from Lisa Cook that just talks about the
4 consumer awareness as it relates to our various
5 hospitals.

6 Q. And what is your understanding of what those
7 reports are measuring?

8 A. It's just, from what I recall -- I need them
9 in front of me -- it's looking at like consumers'
10 understanding what Delray is or what any of the
11 hospitals are. It has the positive and negatives. It
12 captures, you know, how many times we've been in the
13 media from what I remember.

14 Q. Oh, I think I've seen those. Okay.
15 Other than those types of reports, are there
16 any other reports that you're aware of that would kind
17 of measure?

18 A. Not that I'm aware of.

19 Q. Are you aware of whether Tenet Health
20 systems, like the home office, puts out any -- does any
21 analysis of individual hospitals' brand awareness?

22 MR. MARCUS: Object to form.

23 A. I'm not aware of that.

24 BY MS. BLAIR:

25 Q. Are you aware or have you ever seen any

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 55

1 analyses of the brand of Tenet health systems as a
2 whole?

3 A. No.

4 Q. Are you aware of whether there's any reports
5 of the brand awareness of Palm Beach Health Network as
6 a group?

7 MR. MARCUS: Object to form.

8 A. Just the report I'm telling you about there,
9 but that's more at the local, that's the local level
10 not in the Tenet Healthcare.

11 BY MS. BLAIR:

12 Q. Right. But when you say it's at the local
13 level, is it for Delray individually or is it for Palm
14 Beach Health Network?

15 A. For Palm Beach Health Network. That's the
16 reports I'm explaining.

17 Q. Oh. Is there a report like that, like the
18 one you just described, from Lisa Cook for Delray
19 individually?

20 A. Well, Delray is included. It's just, it's
21 included in that report that Lisa Cook sends.

22 Q. Okay. So it's both on a group level and
23 then kind of breaks out on an individual level?

24 A. Correct.

25 Q. I just couldn't remember.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 56

1 A. Sorry.

2 Q. No, no.

3 And I assume that as the CEO of a
4 hospital -- well, you tell me.

5 As the CEO of the hospital, what is like the
6 most important thing that you want to achieve for your
7 hospital?

8 A. I want it to be a quality destination that
9 is safe for patients and that consumers feel confident
10 in and physicians.

11 Q. And so would you agree with me that
12 hospitals put a high importance on patient safety?

13 A. Yes.

14 Q. And would you describe patient safety as
15 reducing the risk of preventable harm?

16 MR. MARCUS: Object to form.

17 A. I think that's part of the recipe.

18 BY MS. BLAIR:

19 Q. What are the other parts?

20 A. You want to reduce patient harm. You want
21 to be being forward thinking, making sure you're having
22 evidence-based protocols in place so that you can
23 advance the care as well.

24 Q. And I assume part of what hospitals want to
25 do is make sure that patients leave a hospital in

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 57

1 better shape than they came in; is that fair?

2 A. You always want to strive for that, but
3 depending on the kind of patients you're taking care
4 of -- and remember we are situated as a level I trauma
5 center, a comprehensive stroke center, and we have an
6 elderly population, so sometimes you're not going to be
7 able to fulfill that, but you want to do your best to
8 get them back to the level they were at, but that's
9 sometimes is impossible based on your patient
10 populations.

11 Q. That's a good point.

12 And is it important to you as the CEO of
13 Delray that patients feel cared for while they're in
14 the hospital?

15 A. It's very important to me.

16 Q. And that would be those HCAHPS scores we
17 were talking about, correct?

18 A. That's a portion of it. That's their
19 perception, but we validate that on a daily basis
20 through rounding. So our leaders are rounding. I
21 actually go and round on patients every day. And
22 that's the goal for every staff member that works in
23 our hospital that patients and families are at the
24 center every day. So that's validated through our
25 rounding every day.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 58

1 Q. And would you agree with me that patients
2 deserve transparency with respect to patient safety in
3 a hospital?

4 A. Yes.

5 Q. Would you agree with me that patients
6 deserve to have information related to patient
7 experiences at a hospital?

8 A. Yes.

9 Q. And that they deserve to have up-to-date
10 information with respect to hospital-acquired
11 infections at any given hospital?

12 A. Yes.

13 Q. And would you agree with me that you strive
14 to provide your board with clear and accurate data with
15 respect to patient safety at Delray Medical Center?

16 A. Yes.

17 Q. And same with the med exec, you want to make
18 sure that they have clear and transparent information
19 related to patient safety at Delray?

20 A. Yes.

21 Q. And you would agree with me that that's the
22 same for your constituents, the patients of the
23 community as well, correct?

24 A. That's correct.

25 Q. In terms of other hospitals in the area who

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 59

1 do you consider the competitors of Delray hospital to
2 be?

3 A. So the Baptist Health system, which is
4 comprised of Boca Regional, Bethesda East and West,
5 JFK, those are going to be some of our more immediate
6 competitors.

7 Q. And how do you determine who your
8 competitors are?

9 A. So we look at our primary service areas that
10 we serve and just looking at where patients are going
11 within that primary service area and then hospitals
12 that are closest to us with some of same services. So
13 that's kind of how we gauge it, through those primary
14 service area maps.

15 Q. And how -- I'm not from Florida, so I
16 apologize.

17 How far is Baptist Health Bethesda east?

18 A. Bethesda East is probably, if I -- I don't
19 know, five, six miles. Bethesda West is maybe the
20 same.

21 Q. And what about Boca Raton?

22 A. Boca is probably about ten or less.

23 Q. What about HCA Florida?

24 A. That one's probably about 14, 15 miles.

25 Q. Do you consider Jupiter Medical Center to be

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 60

1 a competitor of Delray?

2 A. Not really.

3 Q. What about Wellington Regional Medical
4 Center?

5 A. For some services they could be but not
6 really.

7 Q. And then I have had Baptist Health Boca
8 Raton Regional?

9 A. That's Boca Regional that I told you. It's
10 the same.

11 Q. It's the same?

12 A. They're all part of Baptist now. Bethesda
13 East, West and Boca.

14 Q. Sorry. I had it...

15 And what about the Broward hospitals, do you
16 consider them to be competitors?

17 A. I mean, Broward Health North that's situated
18 on Sample Road has some similar services, so we do pull
19 some of theirs, but they're not a major area of concern
20 from competition.

21 Q. Does Baptist Health Bethesda transfer
22 patients to Delray?

23 A. They do.

24 Q. Is that a regular occurrence?

25 A. Yes, especially because we're a level I

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 61

1 trauma center, so those hospitals are not trauma
2 centers so they can't keep the trauma patients there.

3 Q. And have those transfers been relatively
4 consistent since you've been the president of Delray?

5 A. Yes.

6 Q. And what about Baptist Health Bethesda
7 Hospital West, do they transfer patients?

8 A. They do.

9 Q. Is that a regular occurrence?

10 A. It is, mostly for trauma patients, again.

11 Q. And have the transfer levels remained the
12 same since you've been president of Delray?

13 A. Yes.

14 Q. What about Baptist Health Boca Raton, do
15 they regularly transfer patients to you?

16 A. They will send us trauma patients. They
17 have more tertiary services, so trauma is the main
18 thing that they send us.

19 Q. And in terms of the level of transfers from
20 Baptist Health Boca Raton, have those maintained the
21 relatively same level since you've been the CEO?

22 A. Those have.

23 Q. And same questions with respect to
24 HCA Florida JFK, do they regularly transfer patients?

25 A. They do, again, mostly trauma patients

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 62

1 because of the services that they offer and psych
2 patients.

3 Q. Trauma and psych like psychology?

4 A. Psychiatry. We have a behavioral health
5 unit.

6 Q. And have the level of transfers from
7 HCA Florida JFK remained pretty level since you've been
8 the CEO?

9 A. They have.

10 Q. Do you consider -- well, are you aware, for
11 example, that Cleveland Clinic has come into the
12 Palm Beach area?

13 A. Yes.

14 Q. Do you consider them to be a competitor of
15 Delray?

16 A. In some limited services.

17 Q. In which limited services?

18 A. Colorectal surgery and cardiovascular
19 surgery but not to the Palm Beach hospital, like not to
20 those sites. It's pulling them down to the Weston site
21 for those services. I want to clarify that.

22 Q. Okay. And how far is Weston from Delray?

23 A. Oh, probably 30 plus miles. But they have
24 an outpost for Cleveland Clinic on the Coral
25 Springs/Parkland line where they have outpatient

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 63

1 colorectal surgeons going there, so that's where that
2 feeder is.

3 Q. Okay. And do you consider Delray to be
4 losing any patients to Cleveland Clinic Weston?

5 A. Just in those two categories that I
6 described.

7 Q. And for how long have you been competing
8 with Cleveland Clinic Weston in colorectal and
9 cardiovascular?

10 A. That has really come up in 2025 we've seen
11 that.

12 Q. And do you have any understanding of why
13 that's come up in 2025?

14 A. It has to do with the providers that they
15 put out there. They put regular GI providers and the
16 colorectal surgeons in that area and did a lot of
17 marketing around it.

18 Q. What about NYU Langone Health, do you
19 consider them to be a competitor?

20 A. No, we work very closely with them.

21 Q. And how do you work closely with them?

22 A. They have large practices in cardiology and
23 primary care that are located across the street from
24 our campus, and all of their cardiology patients are
25 admitted to Delray Medical Center.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 64

1 Q. So how long have they been admitting
2 patients -- and they, I mean, how long has NYU Langone
3 been admitting patients to Delray?

4 A. Since I've arrived they've already been
5 doing that, but we've seen a stronger collaboration.

6 Q. So those have been up since you've been a
7 CEO?

8 A. Um-hum.

9 Q. You have to say "yes."

10 A. Oh, yes, yes. Sorry.

11 Q. Do you see a decrease in patient admissions
12 at your hospital in the winter months due to the sort
13 of transient snowbird nature of the population of the
14 area?

15 MR. MARCUS: Object to form.

16 A. In the winter months, that's our season, so
17 we see them come up, so they go back to the colder
18 places in the winter -- in the summer months.

19 BY MS. BLAIR:

20 Q. Sorry.

21 A. But we actually, it's very -- we get a lot
22 more volume during those winters months.

23 Q. Okay. Yeah, I'm from Chicago so it's the
24 opposite. I apologize.

25 A. Yes.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 65

1 Q. So, for my record, so during the summer
2 months your volume goes down; during winter months, it
3 goes up here?

4 A. That's historically what it looks like.

5 Q. Are you finding that since you've become the
6 CEO of Delray in or around January of 2024, do you see
7 that to be still the case?

8 A. We've leveled it out a lot better, so we're
9 not seeing those ups and downs, but we've been very
10 strategic in what we're doing, so really building in
11 the right physicians. We've done a lot of recruitment.
12 We've done a lot of collaboration alignment with our
13 community physicians. And then we've really worked at
14 understanding where we needed different programs.

15 So, for example, we had never had women's
16 imaging on our campus at our outpatient imaging center,
17 and we understood that women, of course, needed
18 mammograms. And talking to the physician, talking to
19 the community, we put that women's imaging in place in,
20 you know, October of 2024.

21 And then we started breast oncology surgery,
22 which had never been at Delray, in January of '25, and
23 that's just been a success where we've served 2,000
24 women in our community since putting that in place.

25 So everything has been very strategic in

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 66

1 what we've done.

2 Q. And is that part of your strategic planning
3 as the CEO of Delray?

4 A. It is.

5 Q. And have you seen revenues go up since
6 you've become the CEO of Delray?

7 A. We have.

8 Q. Do you -- does Delray -- we just talked
9 about some of your competitors in the area, or maybe
10 all of your competitors in the area. Do you use -- do
11 you know if Delray uses Trilliant to measure your
12 competitive positions versus your competitors in the
13 area?

14 A. Our business development team has access to
15 Trilliant data.

16 Q. "Trilliant." I'm sorry.

17 A. Yes, Trilliant. And they -- they will
18 provide those reports to us. So we will sometimes look
19 at those for different service lines to understand just
20 some of referral patterns and where we need to, you
21 know, enhance our services to meet the community need.

22 Q. But, as I understand our discussion that we
23 just had, you are increasing your patient volume and
24 revenue versus your competitors' based on the strategic
25 planning that you've undertaken?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 67

1 A. I don't know what the competitors' revenue
2 has looked like. I just know what ours looks like and
3 we are increasing.

4 Q. So the Trilliant platform doesn't,
5 obviously, tell you what their revenue is, correct?

6 A. No, no, it just tells you like patient, how
7 many patients have gone where and for what services.
8 It doesn't give you revenue data.

9 Q. Can you tell your patient volume versus your
10 competitors when you look at Trilliant?

11 A. You can see it to some extent, but, again,
12 it's six -- it's about six months old so it's in the
13 rear.

14 Q. And are those reports produced to you like
15 in hard copy?

16 A. They typically would be something in hard
17 copy or the business development team would just show
18 them on a screen, but they come in -- you see the
19 reports like in an Excel file, the way that it's
20 exported.

21 Q. Do you know if it has a name on the top of
22 it?

23 A. Whatever it -- whoever is running the report
24 will put like a title on it, depending on what the
25 report is.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 68

1 Q. Do you know if they've been produced in this
2 litigation?

3 MR. MARCUS: Object to form.

4 A. I'm not aware that they were produced.

5 BY MS. BLAIR:

6 Q. Other than that Trilliant report that we
7 just discussed, do you know whether or not there's any
8 other market studies that are done for -- let's start
9 with for Delray at the individual level versus your
10 competitors?

11 MR. MARCUS: Object to form.

12 A. Not that I'm aware of.

13 BY MS. BLAIR:

14 Q. And what about on the Palm Beach Health
15 Network level, do you know whether or not, other than
16 the Trilliant we discussed, do you know whether or not
17 there are any other market studies that are done?

18 A. Not that I'm aware of.

19 Q. Are you aware of whether -- I think I might
20 have asked you this, so I apologize.

21 Are you aware of whether there's been any
22 brand analysis done for your hospital?

23 MR. MARCUS: Object to form.

24 A. Just those reports that I spoke to you
25 about.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 69

1 MR. MARCUS: Kim, we've been going a while.

2 Do you want to go off the record for a quick
3 break?

4 MS. BLAIR: Oh, yea. Yeah, we can go off
5 the record, absolutely.

6 THE VIDEOGRAPHER: The time is 10:26 a.m.
7 We're going off the record.

8 (A recess was taken from 10:26 a.m. to 10:43 a.m.)

9 THE VIDEOGRAPHER: This is media number two
10 in the deposition of Heather Havericak. The
11 time is 10:43 a.m. We are back on the record.

12 BY MS. BLAIR:

13 Q. Ms. Havericak, before we took a break we
14 were talking a little bit about -- well, you were
15 telling me earlier this morning about a lot of the
16 different accolades that your hospital has, correct?

17 A. Yes.

18 MS. BLAIR: And we can mark this as
19 Exhibit 3.

20 (Defendant's Exhibit Number 3 for i.d.)

21 MS. BLAIR: I have no clue where my copy is,
22 but I'll figure it out.

23 BY MS. BLAIR:

24 Q. Ms. Havericak, I've just handed you what
25 we've marked Exhibit 3 to your deposition. And if you

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 70

1 see on the bottom right hand of these documents, they
2 have what we call a Bates number. This is PBHN 8914
3 through 8917.

4 Have you seen this document before today?

5 A. I have.

6 Q. Do you know the date in which this one, this
7 particular one would have been created?

8 A. I don't have the exact date. This gets
9 updated as we have different things that are added to
10 it.

11 Q. And if I look on the second page, a lot of
12 the awards and distinctions by service line that are
13 listed appear only to go through 2024. Would you have
14 a more up-to-date one that would list 2025 accolades as
15 well?

16 A. We do have an updated one.

17 Q. And just kind of looking at the awards and
18 distinctions on the second page of what we've now
19 marked Exhibit 3, are there any accolades here -- I'm
20 sorry. Are there any accolades that are not listed
21 here that you know of?

22 A. Yes. So our 2025 Healthgrades® awards do
23 not appear to be listed in this document.

24 Q. And do you know off the top of your head
25 what they are?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 71

1 A. I don't know all of them off the top of the
2 head, but there's a variety of them in cardiovascular,
3 in pulmonary care, in critical care. And then we did
4 receive Healthgrades 250 Best Hospitals™ in 2025.

5 And then we have also recently been
6 accredited through the Joint Commission for our initial
7 accreditation as a certified hip, knee and shoulder
8 replacement center. We also were just accredited
9 through the SRC, which is the Surgical Review
10 Corporation, as a Robotics Center of Excellence.

11 Q. And in terms of Healthgrades®, is that a
12 paid-for service?

13 A. That's not a paid-for service. The data is
14 not an opt in or opt out. It comes from claims data
15 that pulls from both Medicare data and private
16 insurance companies. The only time payment comes into
17 play is when you're using the actual accreditation
18 marks that you have earned through the data that's been
19 verified.

20 Q. Do you pay for the accreditation marks for
21 Healthgrades®?

22 A. We do.

23 Q. And so if I look just on this document, like
24 under cardiac and vascular where it says Healthgrades®,
25 and it is microscopic, and I apologize, it looks like

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 72

1 it says an R and a circle. Do you see that?

2 A. I do.

3 Q. And that's, is that the accreditation mark
4 that you're referring to?

5 A. That's their trade -- trademark that you
6 have to pay to use --

7 Q. Okay.

8 A. -- based on the quality outcomes that we've
9 earned through claims data through Medicare and private
10 payers.

11 Q. And so Healthgrades® comes from CMS data?

12 A. Part of it comes from CMS data. The other
13 part comes from private claims, too, so commercial
14 payers as well.

15 Q. And do you have to provide that for private
16 claims data to Healthgrades®?

17 A. No.

18 Q. From what platform do they receive that?

19 A. I'm not sure what platform they'd get that
20 from.

21 Q. And so if we look at the bottom of this page
22 like that first row of logos that all say
23 Healthgrades®, is that the accreditation marks you are
24 referring to that you pay for?

25 A. On the top row?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 73

1 Q. Yes.

2 A. Yes, those are some of them. But these are
3 not reflective of what we earned in 2025.

4 Q. Good point.

5 And if we see on that bottom row to the
6 right side there's like these U.S. News trademarks?

7 A. I see those.

8 Q. What accolades do those refer to, if you
9 know?

10 A. Can I take my glasses out for a second?

11 Q. Oh, please, yes.

12 A. Because I don't think I can see that.

13 Actually, I don't think I brought them.

14 MR. MARCUS: You want mine?

15 THE WITNESS: No, that's okay.

16 A. It appears to be from 2020 to 2023 for high
17 performing hospitals for heart attack, heart failure
18 and stroke.

19 BY MS. BLAIR:

20 Q. And to the best of your knowledge, how do
21 hospitals earn these types of awards from U.S. News?

22 A. From the best of my knowledge, and I haven't
23 looked at U.S. News & World Report in quite sometime,
24 there's also data that's pulled from Medicare, CMS data
25 and from claims data from what I remember.

Heather Havericak

CONFIDENTIAL

Page 74

1 Q. Okay.

2 A. But we haven't been participating with
3 U.S. News & World Re -- U.S. News since I've been at
4 Delray.

5 Q. And going back to the Healthgrades®, do you
6 know whether Delray's participation in Healthgrades® is
7 approved by Tenet home office?

8 MR. MARCUS: Object to form.

9 A. It's, again, it's not an opt in or opt out,
10 so those, the data that they pull and the awards they
11 send to us, those are just there, and then we make the
12 decision to enter into the -- to use the trademark.

13 BY MS. BLAIR:

14 Q. Okay. I see. So you as a hospital don't
15 have to put any resources toward complying -- my
16 word -- complying with Healthgrades® in order to get
17 these awards out?

18 A. Can you rephrase that question?

19 Q. Sure. It was a bad question.

20 Delray hospital doesn't have to expend any
21 internal resources to provide data to Healthgrades® in
22 order for Healthgrades® to rank Delray?

23 A. Correct.

24 Q. And is that the same with respect to
25 U.S. News, to the best of your knowledge?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 75

1 A. From what I remember from my previous
2 employer, but I can't be certain on that because I
3 haven't looked at that in sometime.

4 Q. What about --

5 Okay. Let's just talk about this bottom row
6 of what I'm going to call -- strike that.

7 With respect to U.S. News, do you know
8 whether you have to pay to use that their logo that we
9 see on the bottom row to the right?

10 A. I'm not sure.

11 Q. Okay. And if we go to the left side of this
12 bottom row, it looks like this says --

13 A. A carotid care champion quality [sic]
14 award.

15 Q. Yeah, what is that?

16 A. So that is based on our -- we participate in
17 submitting data through our vascular program to the
18 Vascular Quality Initiative so we have to actually take
19 our data, we have someone that works in vascular
20 quality, they have to enter all the data, abstract it
21 from the medical records. And based on outcomes of the
22 VQI data we were awarded the Carotid Care Quality
23 Champion because our data is so good and outcomes are
24 so good for our patients. And there's no payment
25 involved in that.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 76

1 Q. No payment to use that logo?

2 A. Correct.

3 Q. And do you know whether or not -- and is
4 that one, then, the Carotid Care Quality Champion, that
5 is one that you, Delray would use internal resources to
6 pull data to report?

7 A. They're reporting it, they're reporting that
8 monthly, like in the registry, so that is our personnel
9 pulling data.

10 Q. And what is the registry?

11 A. The registry, so in order to participate --
12 we're part of the Vascular Quality Initiative because
13 we want to enhance our patient quality and safety for
14 quality care so we have to ept data into this platform
15 for the VQI so we have a full-time employee that does
16 that.

17 Q. Okay. And so that's like an FTE --

18 A. Correct.

19 Q. -- full time?

20 A. Correct.

21 Q. And his or her only job is doing this?

22 A. Is vascular quality. So they will do this
23 and do other things as well --

24 Q. Got it.

25 A. -- that relate to vascular quality.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 77

1 Q. And is participating in the Vascular Quality
2 Initiative tied to any contract or payment for the
3 hospital?

4 A. Not that I'm aware of.

5 Q. What is TCAR Center of Excellence?

6 A. That's also part of our vascular program, so
7 that's a procedure that we do where you work with the
8 carotid artery, and it's minimally invasive. And we're
9 the highest -- we've done the most procedures in the
10 country at our center. And that's based on our
11 outcomes, because in order to be part of the TCAR
12 program, you also have to enter your data on the
13 outcomes of those procedures.

14 Q. And would that be same --

15 A. Yes.

16 Q. -- person?

17 A. Yes.

18 Q. So their job is not only with the
19 Vascular Quality Initiative but also with respect to
20 TCAR, correct?

21 A. Yes, because TCAR is part of the vascular
22 program so she's responsible for all vascular items.

23 Q. Okay. And it looks like -- and I apologize.
24 I literally cannot read the next one AACVPR. Is that
25 also carotid or cardiovascular?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 78

1 A. No, this is cardiovascular, but it's
2 cardiovascular rehab. So we wanted to get our program
3 accredited in cardiopulmonary rehab, so that's one of
4 our outpatient departments in the hospital. So they
5 went through the accreditation process where they have
6 to meet all the standards, and then they had a
7 validation survey to show that they met all the
8 standards, their outcomes are appropriate, all the
9 staff had the appropriate proficiency training,
10 education to be able to validate that.

11 Q. And is that the same person from -- that
12 does the vascular quality?

13 A. No, that's a different -- that's a different
14 group of people.

15 Q. Okay. And then this looks like it's
16 Blue Cross/Blue Shield, the next two, Blue Distinction®
17 Center?

18 A. Yes.

19 Q. And so is -- I assume that's tied to a
20 payment program?

21 A. That's just -- that comes from the Blue
22 Cross/Blue Shield network. So they actually pull data
23 based on our outcomes. And there's a -- and I don't --
24 without having the document in front of me of all the
25 standards, it pulls on some quality outcomes,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 79

1 readmissions. And there's a price component in there
2 too.

3 Q. Okay.

4 A. From what I remember.

5 Q. And like legitimately I can't even read the
6 next one so I'm not going to ask.

7 A. Yeah, I was just trying. I don't -- I'm
8 sorry.

9 Q. No, no, it's totally fine.

10 And to the best of your knowledge, then, of
11 the ones we talked about --

12 A. Oh, I know what it is. It's a comprehensive
13 stroke center it's saying. It's our DNV Comprehensive
14 Stroke Center.

15 Q. Oh. What is that?

16 A. So DNV is another accrediting organization
17 similar to the Joint Commission. So in the State of
18 Florida you do, in order to call yourself a
19 comprehensive center, you do have to either be
20 accredited through Joint Commission or through DNV. So
21 the organization at Delray before I came started that
22 through DNV.

23 So they come every year for two days to
24 validate. We just had our DNV survey and we're
25 reaccredited. So they bring three surveyors on site

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 80

1 who are experts in stroke care, and they really trace
2 through the whole journey of patients looking at open
3 records, closed records. They'll start in the
4 emergency room. They go to the operating room. They
5 go to the units and really trace everywhere where a
6 patient is.

7 And then they meet with all of the
8 stakeholders. They review all the stakeholders' files,
9 from the physicians and the staff to make sure everyone
10 meets the training and educational levels that are
11 required to be part of that.

12 Q. Okay. Okay. Thank you. I couldn't read it
13 at all.

14 So to the best of your knowledge, we at
15 least know that -- and I'm going to call them like the
16 logos or I forget what you called them, accreditation
17 marks for Healthgrades®, those are paid for, but we --
18 you don't know for sure whether any on the bottom line
19 are paid for to use those logos, correct?

20 A. Correct.

21 Q. How do you track how Delray is doing in
22 terms of patient experience versus your competitors?

23 A. So for patient experience we use a vendor
24 called Press Ganey, so they administer our HCAHPS
25 surveys. And within there you won't be able to see,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 81

1 per se, the competitors, but it has you ranked in
2 that -- in that program. So all -- I have access to
3 Press Ganey. All the clinical managers have access,
4 the directors, the administrative team. So you can go
5 in and see how you rank at the state level and then at
6 the national level.

7 Q. And when you started at Delray, do you know
8 how Delray ranked at the state level for HCAHPS?

9 A. From what I recall, we were in a lower
10 percentile.

11 Q. And what about from a national average when
12 you started?

13 A. The same.

14 Q. But there are initiatives underway, correct?

15 A. Correct.

16 Q. Do you -- how do you track how Delray is
17 doing in hospital-acquired infections compared to
18 competitors? Is there a way to view that?

19 A. So for hospital-acquired infections we
20 report data into NHSN, so, again, it's not going to
21 tell us exactly how the competitor is doing, but it's
22 going to give us a SIR's rating, so what -- you know,
23 how many patients you have, what your expected
24 infection rate is going to be. And then it doesn't --
25 it doesn't really rank you like that way, the same way

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 82

1 the Press Ganey does.

2 Q. Okay.

3 A. So we really benchmark where we are like to
4 the SIR's rating, like the SIR's, and that's kind of
5 how we measure ourself.

6 Q. Okay. So --

7 A. And then how we did to prior year like
8 continuously looking to how we improve.

9 Q. And for us lay people when you say "SIR's,"
10 how do you spell that and what is it?

11 A. Sure, so it is the -- it's S-i-r-s. And
12 it's just, it is, again, just looking at the expected
13 model of how many patients you have, how many expected,
14 like what your expected infection rate should be based
15 on the patient population and the number of patients
16 you have.

17 Q. And when you started at Delray, do you
18 remember how Delray was doing on these, you know,
19 SIR's, I'm going to say ratings, but I don't know if
20 that's the right term?

21 A. Without -- without the data in front of me
22 from exactly when I started, I wouldn't be able to tell
23 you exactly where we were at. We had some
24 opportunities, but, again, I can't quote you where
25 those are.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 83

1 Q. Okay. But that data would be available in
2 the NHSN data for that time period, correct?

3 A. Yes.

4 Q. And that would be a report would have been
5 generated in or around that time at Delray advising
6 med exec or quality directors as to what those HAI's
7 were?

8 A. Yes.

9 Q. And is that the best place for me to look at
10 what they were?

11 A. The best place to look would be in that
12 monthly quality meeting.

13 Q. But just based on your recollection when you
14 took over as the CEO of Delray, were the HAIs good?
15 Bad? Average? Do you recall?

16 MR. MARCUS: Object to form.

17 A. They were -- they were average.

18 BY MS. BLAIR:

19 Q. Do you know whether or not Delray has ever
20 participated in the Lown, L-o-w-n, survey?

21 A. I'm not familiar with that.

22 Q. Are you aware that Delray did participate in
23 the Leapfrog Hospital Survey for sometime historically?

24 A. I am.

25 Q. And do you know when they started

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 84

1 participating in Leapfrog Hospital Survey?

2 A. I don't know the date that they actually
3 started, but I do know from some of the documents that
4 I've seen, it looks like they participated in 2018,
5 2019.

6 Q. Do you know what the last year was that they
7 participated?

8 A. I think it was somewhere around 2020.

9 Q. Do you know if when Delray participated in
10 the Leapfrog Hospital Survey it was ever charged to
11 participate in the hospital survey?

12 MR. MARCUS: Object to form.

13 A. I have seen some documents that show that a
14 licensing fee was executed in a contract to use the
15 letter grade.

16 BY MS. BLAIR:

17 Q. Right. And do you understand that that
18 licensing fee was to use logos just like the logo,
19 Healthgrades® logos we looked at in Exhibit 3?

20 MR. MARCUS: Object to form.

21 A. It looks similar.

22 BY MS. BLAIR:

23 Q. And so my earlier question was, do you know
24 if Delray ever paid to complete the survey?

25 A. To my knowledge, no.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 85

1 Q. Do you know if any hospital has ever paid
2 Leapfrog to participate in a survey?

3 MR. MARCUS: Object to form.

4 A. I'm not aware of any.

5 BY MS. BLAIR:

6 Q. Are you aware of any hospital has ever paid
7 Leapfrog for better grades?

8 MR. MARCUS: Object to form.

9 A. I'm not aware that any have paid Leapfrog
10 for better grades.

11 BY MS. BLAIR:

12 Q. Do you understand that the Leapfrog Hospital
13 Survey is voluntary?

14 A. While I understand it's voluntary, with the
15 change in the imputation model in 2024, it becomes a
16 punitive measure when you don't participate because of
17 a failing grade is assigned for some of those key
18 measures that are self-reported, and those end up
19 taking up about 33 percent when you look at the
20 weighted total and average.

21 Q. Right. And we're going to look at that.

22 But you are not required as a hospital to
23 participate in the Leapfrog Hospital Survey, correct?

24 MR. MARCUS: Object to form.

25 A. We are not required.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 86

1 BY MS. BLAIR:

2 Q. And Delray does not currently participate in
3 the Leapfrog Hospital Survey, correct?

4 A. We do not.

5 Q. Do you know whether or not Delray has ever
6 been approached by Leapfrog to pay for consulting
7 services?

8 A. Not to my knowledge.

9 Q. Do you know whether Delray was ever forced
10 to license these trademarks that we looked at from
11 Leapfrog in exchange for better grades?

12 MR. MARCUS: Object to form.

13 A. Not to my knowledge.

14 BY MS. BLAIR:

15 Q. What is the basis for the plaintiffs'
16 allegation that Leapfrog is a "brazen pay-to-play
17 scheme"?

18 MR. MARCUS: Object to form.

19 A. We have made the decision not to participate
20 in the Leapfrog survey, and with that, we have been
21 personalized. Because of that imputation model where
22 we did not submit data, rather than giving us a
23 not applicable or not grading us, Leapfrog falsely
24 assigned an F rating, which has shaken the community's
25 confidence in our ability to provide care. It's

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 87

1 reckless; it's dangerous; and it's deceptive because
2 all consumers see is an F rating, and that's not the
3 full picture --

4 BY MS. BLAIR:

5 Q. And what --

6 A. -- of how we are providing care from a
7 patient safety and quality perspective.

8 Q. And we'll get to that.

9 I'm asking specifically the allegation in
10 the Complaint that its "brazen pay-to-play," and your
11 answer didn't have anything about paying in it. And so
12 I'm just asking, with respect -- and we'll get to all
13 of those, and I understand your theory.

14 But what is the basis for the allegations
15 that Leapfrog is a brazen play-to-pay [sic] scheme?

16 MR. MARCUS: Object to form.

17 A. Because if you choose not to participate,
18 this is the downfall of the catastrophic impact it has
19 on our community and patients. It is almost forcing to
20 you participate in Leapfrog. But when you don't
21 participate, it's causing reputational damage and harm,
22 so that's what I mean by "pay to play."

23 BY MS. BLAIR:

24 Q. Okay. So by -- what you mean by "pay to
25 play" doesn't include any actual payment. It's just

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 88

1 participation in the survey?

2 MR. MARCUS: Object to form.

3 A. I, again, can repeat what I said.

4 BY MS. BLAIR:

5 Q. Right. And there was no -- in your answer
6 there was no discussion of money, correct?

7 A. There's no discussion of money.

8 Q. Do you have any reason to believe that
9 Delray's competitors that do participate in the
10 Leapfrog Hospital Survey manipulate their data?

11 A. I have no knowledge of that.

12 Q. Do you understand that's an allegation in
13 the Complaint?

14 MR. MARCUS: Object to form.

15 A. What is in the Complaint is that Leapfrog
16 does not come and do any validation of self-reporting
17 measures. That's different than saying a competitor
18 has manipulated data.

19 BY MS. BLAIR:

20 Q. Well, you say here, "Those hospitals inflate
21 their performance."

22 MR. MARCUS: Object to form.

23 BY MS. BLAIR:

24 Q. It says that in paragraph 55 of your
25 Complaint. And I'm asking do you have any evidence

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 89

1 that your competitors inflate their performance on the
2 Leapfrog Hospital Survey.

3 MR. MARCUS: Object to form.

4 A. I don't have evidence that they inflate, but
5 Leapfrog does not validate or verify any of the
6 self-reported measures that are submitted.

7 BY MS. BLAIR:

8 Q. And we'll get to that later, but my question
9 is about whether or not your competitors inflate their
10 performance on the Leapfrog hospital safety -- or
11 Leapfrog Hospital Survey. And you don't have any
12 evidence of that as you sit here today, correct?

13 A. I do not.

14 Q. Do you have any evidence that your
15 competitors that participate in the Leapfrog survey
16 manipulate their data on the survey?

17 MR. MARCUS: You're asking her personally,
18 right? Who's the "you"?

19 BY MS. BLAIR:

20 Q. Yes, I'm asking you personally.

21 A. I do not.

22 Q. And I think you told me earlier that when
23 Broward participated in the survey, they did not
24 manipulate their data, correct?

25 A. To my knowledge, no.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 90

1 Q. Do you understand that Delray has produced
2 documents in this litigation sufficient to simulate
3 what their responses would have been to the four
4 imputed measures, BCMA, CPOE, hand hygiene and
5 ICU physicians staffing?

6 A. Yes.

7 Q. And can we trust that the sufficient to
8 simulate data that has been produced by Delray in this
9 litigation was not manipulated, correct?

10 A. It was not manipulated.

11 Q. Do you know whether hospitals, and let's
12 just talk prefall of 2024. Prefall of 2024, so you --
13 well, strike that. Let me lay some foundation.

14 You understand that the Leapfrog methodology
15 was changed for the fall 2024 hospital safety grade,
16 correct?

17 A. Correct.

18 Q. And so I want to talk about prefall 2024 the
19 hospital safety grade. Do you, Ms. Havericak, have any
20 opinion, personal opinion about whether or not there
21 was any benefit in participating in the Leapfrog
22 Hospital Survey prior to fall of 2024?

23 A. I don't think there's a lot of value in
24 participating in that survey.

25 Q. And why not?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 91

1 A. I mean, just personally, there's other
2 certification and awards of quality and validations
3 that you can do where your data is actually being
4 validated, verified. And I just, I don't think that
5 this is a transparent full way of looking at quality
6 and safety. I think there's other organizations that
7 do that better.

8 Q. And when you use the word "transparent,"
9 what do you mean when you use that word?

10 A. Telling the whole story and being truthful.

11 Q. And, again, I'm talking about prefall of
12 2024. What about the Leapfrog hospital safety grade
13 was not truthful?

14 A. It still was assigning in some of those
15 measures just an average grade, so it's not giving a
16 full picture of validated performance.

17 Q. And do you understand that prefall of 2024
18 for the four imputed measures, nonparticipating
19 hospitals like Delray were receiving 100 percent for
20 the four measures at issue in this litigation?

21 MR. MARCUS: Object to form.

22 A. That's not what I understand it to be.

23 BY MS. BLAIR:

24 Q. You don't understand that prior to fall of
25 2024 Delray received 100 out of 100 points for CPOE,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 92

1 BCMA, hand hygiene and ICU physician staffing?

2 A. Yeah, I haven't seen a report that shows
3 that.

4 BY MS. BLAIR:

5 Q. Okay. And we'll look at that later.

6 If -- so I'm just making sure. Do you --
7 would you -- is it your position that if Delray in
8 spring of 2024 as a nonparticipating hospital was
9 receiving 100 out of 100 points for the four measures
10 that come from the hospital survey and are used in the
11 hospital safety grade, that would be inaccurate?

12 MR. MARCUS: Object to form.

13 A. I can't say if it would be inaccurate
14 without putting our actual data in it.

15 BY MS. BLAIR:

16 Q. Do you know whether any of the five
17 Palm Beach hospital network's hospitals complained
18 about the Leapfrog hospital safety grade methodology
19 prior to fall of 2024 in that nonparticipating
20 hospitals were being assigned the mean grade of their
21 cohorts for those four measures?

22 MR. MARCUS: Again, you're asking the
23 witness personally?

24 MS. BLAIR: Yeah.

25 A. I'm not aware.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 93

1 BY MS. BLAIR:

2 Q. Are you aware as the corporate
3 representative for Delray whether that's how the
4 methodology worked prior to fall of 2024?

5 A. Can you repeat that question?

6 Q. Sure.

7 A. That sounds like a different question.

8 Q. Sure. I just, I'm trying to get an
9 understanding of whether you understand the difference
10 between how nonparticipating hospitals were graded
11 prior to the fall 2024 hospital safety grade.

12 So why don't you just tell me, for those
13 four measures, BCMA, CPOE, hand hygiene and what we
14 call IPS or ICU physician staffing, how do you
15 understand nonparticipating hospitals were graded for
16 those four measures prior to fall of 2024?

17 A. From my understanding, they were given an
18 average on -- from the cohort of what was there, not
19 100 percent.

20 Q. Well, do you understand that they were given
21 achievement scores, full achievement scores for those
22 four measures based on the median from their cohorts?

23 MR. MARCUS: Object to form.

24 A. I do understand that.

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 94

1 Q. And if you look, it's 100 out of 100 for
2 achievement for those four measures.

3 MR. MARCUS: Object to form.

4 BY MS. BLAIR:

5 Q. Do you understand that to be the case?

6 A. Again, I need to see the data of what our
7 scores were for that time period.

8 Q. Okay. We'll look at that.

9 So do you have an understanding that for ICU
10 physician staffing prior to fall of 2024, a methodology
11 change had already occurred in 2023 that
12 nonparticipating hospitals would be receiving low
13 achievement for ICU physician staffing?

14 MR. MARCUS: Object to form.

15 A. I don't think I was aware of that.

16 BY MS. BLAIR:

17 Q. And what do you understand the change was
18 between spring of 2024 and fall of 2024 with respect to
19 the hospital safety grade methodology?

20 A. From what I understand, the imputation model
21 where we were not submitting data in those four
22 categories being barcode medication scanning,
23 computerized order entry, ICU physician staffing and
24 hand washing, those were now being assigned the lowest
25 possible score from the cohort if we did not submit

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 95

1 data; additionally, that those categories when you look
2 at the weighted side end up representing about
3 30 percent of the total score for the Leapfrog grade
4 being assigned.

5 Q. Do you understand that the lowest possible
6 score is the lowest score assigned to a participating
7 hospital?

8 A. Yes.

9 Q. Okay. So not from the cohort, correct?

10 A. From the lowest, yes.

11 Q. And that is the change that we are all here
12 about in this litigation, to your knowledge, correct?

13 MR. MARCUS: Object to form.

14 A. That is the change that we see issue with.

15 BY MS. BLAIR:

16 Q. Do you know why the five plaintiff hospitals
17 stopped participating in the Leapfrog Hospital Survey
18 in or around 2021?

19 MR. MARCUS: Object to form.

20 A. I wasn't here in those years, but from what
21 I've been told, we wanted to use our resources in other
22 areas. That was during COVID when resources were
23 scarce, and we wanted to put our resources in driving
24 our patient safety and quality and not putting those
25 resources directly towards the Leapfrog efforts.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 96

1 BY MS. BLAIR:

2 Q. Any other reasons that you can think of?

3 A. Not at this time.

4 Q. Do you know whether or not the decision to
5 stop participating in the Leapfrog Hospital Survey was
6 a directive from Tenet home office?

7 MR. MARCUS: Object to form.

8 A. I'm not aware of it being a directive.

9 MS. BLAIR: What are we on, 4 and 5?

10 THE STENOGRAPHER: This will be 4 and 5,
11 yes.

12 MS. BLAIR: 4 and 5.

13 (Defendant's Exhibit Number 4 for i.d.)

14 (Defendant's Exhibit Number 5 for i.d.)

15 MS. BLAIR: Sorry. Give me one sec.

16 BY MS. BLAIR:

17 Q. I'll start with 5.

18 Ms. Havericak, I have -- I am handing you
19 what we've now marked as Exhibit 5. Do you see this is
20 an email from Satyavani Nukala to Heather Wehmeyer,
21 CC'ing Stephany Johnson on November 4th, 2024?

22 A. Yes, I see that.

23 Q. And if you -- and just for the record if I
24 look at these Bates numbers at the bottom, it's
25 PBHN 11845 through 11849. Is that what you have in

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 97

1 front of you?

2 A. Yes.

3 Q. And you'll see if we go kind of to the first
4 email, all the way back on 11849, it starts on 11848.
5 This is an email from Satyavani Nukala to several
6 people. Do you see that email?

7 A. I do.

8 Q. And it says, "Good afternoon. The fall 2024
9 safety embargo period started today."

10 Who is Satyavani Nukala? "Nukala."

11 A. It appears she's a biostatistician of
12 clinical operations. I haven't worked with her.

13 Q. Okay. And she is in what we're calling the
14 Tenet Healthcare home office; is that correct?

15 A. She appears to be in the Dallas office, yes.

16 Q. Did you have an understanding in or
17 around -- well, do you have an understanding that Tenet
18 home office asked all of the hospitals in its system to
19 report their health -- their Leapfrog hospital safety
20 grades during the embargo period at each grading
21 period?

22 MR. MARCUS: Object to form.

23 A. Can you repeat that? I'm sorry.

24 BY MS. BLAIR:

25 Q. Sure. I've just seen a number of emails in

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 98

1 this litigation, and this is not the only one, where
2 someone from home office is saying, Good afternoon.
3 You know, the safety grade embargo period started
4 today. Please review your score and letter grade and
5 share it with me.

6 Do you see how she's asking that?

7 A. I do.

8 Q. Is that something that Tenet home office
9 does regularly, asks the hospitals to share their
10 Leapfrog score with home office?

11 MR. MARCUS: Object to form.

12 A. I'm not sure because I'm not on this email
13 and would naturally be a thread in this email. I'm not
14 sure. I don't have knowledge of that.

15 BY MS. BLAIR:

16 Q. Do you have knowledge, not with this email
17 specifically but just in your role as the president of
18 Tenet Healthcare that home office asks the hospitals to
19 run their Leapfrog grade every grading period and
20 report it back to them?

21 MR. MARCUS: Object to form.

22 A. I'm not aware that home office does ask them
23 to do that.

24 BY MS. BLAIR:

25 Q. Okay. And you'll see here there's like a

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 99

1 follow-up if we look at page 11847. This Mr. or
2 Mrs. Nukala is asking Stephany for an update. "Please
3 share the Leapfrog fall 2024 score and grade," correct?

4 MR. MARCUS: Object to form.

5 A. So it looks like on 887 -- or I'm sorry --
6 47 and 48, yes, it looks like there's a transition
7 between Heather and Stephany and she's asking her to
8 send the grade.

9 BY MS. BLAIR:

10 Q. And that was going to be my question. Is
11 this the transition in them in the role as quality
12 director for Delray?

13 A. It appears to be during that time frame.

14 Q. And then if we look at 11846, Heather is
15 updating home office that the Delray grade is going to
16 be an F, correct?

17 MR. MARCUS: Object to form.

18 A. It appears she sent an email to Bonnie that
19 the score is going to be an F for Delray.

20 BY MS. BLAIR:

21 Q. Okay. And then the email at the top of
22 11846 is "Thank you, Heather. I wonder why Delray's
23 grade is depriving year by year."

24 Do you see that email?

25 A. I do.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 100

1 Q. And if we look at 11845, which is where I
2 was trying to get to when I started this, Heather says
3 to Satyavani, "It is because we have not been
4 participating in Leapfrog per Tenet corporate's
5 instruction."

6 Do you see that?

7 A. I see that.

8 Q. Does that refresh your recollection that, in
9 fact, the reason that the hospital stopped
10 participating, at least one of them, was at the
11 direction of corporate?

12 MR. MARCUS: Object to form.

13 A. It doesn't. This is an email from
14 Heather Wehmeyer, and I wouldn't know who gave her that
15 direction because I've never been given that direction
16 personally.

17 BY MS. BLAIR:

18 Q. And we'll look at what we're going to mark
19 as Exhibit 4 or I've already marked as Exhibit 4. And,
20 for the record, this is PBHN 2072 through 2075.

21 A. Yes.

22 Q. And I want to focus on the second email on
23 the first page here, which is from you to
24 Stephany Johnson and Jennifer Shoemaker as well as
25 Nicole Jackson. Do you see that like about in the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 101

1 middle of the page?

2 A. I do.

3 Q. Who is Nicole Jackson?

4 A. My associate chief nursing officer.

5 Q. Okay. And you say, "This is unfortunate
6 because the public still looks at this. Does the PR
7 team have something prepared that talks about not
8 participating in this?"

9 Do you see that?

10 A. I do.

11 Q. Okay. And that is in response to, if we go
12 to 2073, Stephany Johnson's email to you dated
13 November 4, 2024 where she says, the Leapfrog score for
14 Delray has fallen from a D reported in the spring 2024
15 to an F. All scores across the market have fallen as
16 we were instructed by corporate to not participate in
17 data submission for the rating."

18 Do you see that?

19 A. I do.

20 Q. Does that refresh your recollection that, in
21 fact, the hospitals were instructed by corporate to not
22 participate in data submission for rating?

23 MR. MARCUS: Object to form.

24 A. I mean, I see it here, but, again, I have

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 102

1 Leapfrog. So I get a lot of emails every day. I
2 don't...

3 BY MS. BLAIR:

4 Q. Okay. And you don't recall, and you've not
5 in preparing for your deposition today, you've not come
6 to the conclusion that part of the reason that at least
7 the five hospitals that are plaintiffs in this
8 litigation stopped participating in the Leapfrog survey
9 because it was a directive from corporate?

10 MR. MARCUS: Object to form.

11 A. Again, I haven't been given that directive
12 from corporate.

13 BY MS. BLAIR:

14 Q. Still to this day you have not?

15 A. I have not.

16 Q. Are you aware of any emails from corporate
17 that advised at least the five plaintiff hospitals in
18 this litigation that participation in Leapfrog would
19 not be supported unless it was tied to a local
20 requirement, contract compliance or reimbursement?

21 MR. MARCUS: Object to form.

22 A. I don't recall seeing that email.

23 BY MS. BLAIR:

September 19, 2025

CONFIDENTIAL

Page 103

1 A. Yes.

2 Q. Who is Anna Gunod?

3 A. She is the infection prevention lead in the
4 home office.

5 Q. I don't have a copy of this, but I'll get
6 one later.

7 So it's your understanding -- is it your
8 understanding that the decision for the five plaintiff
9 hospitals to stop participation in the
10 Leapfrog Hospital Survey was the decision of the five
11 hospitals without any input from Tenet corporate?

12 MR. MARCUS: Object to form.

13 A. Again, I wasn't here when those decisions
14 were made, so I don't know every single person that was
15 involved in that. From what I have been told
16 secondhand is that it was during the time in transition
17 of COVID and that we were going to use our efforts to
18 improve our patient safety and quality and focus on our
19 other accreditations, and that's the information that I
20 have.

21 BY MS. BLAIR:

22 Q. And as the corporate representative of
23 Delray, is it the answer of Delray that the reason
24 Delray stopped participating in the Leapfrog Hospital
25 Survey in 2021 was because Delray itself made the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 104

1 decision that its resources would be better utilized in
2 patient care and patient safety and not in complying
3 with or participating in, excuse me, the Leapfrog
4 Hospital Survey?

5 MR. MARCUS: Object to form.

6 A. That is correct.

7 BY MS. BLAIR:

8 Q. Do you know whether or not there was any
9 objection by Delray executive staff in or around 2021
10 about staffing participation in the Leapfrog hospital
11 safety grade?

12 MR. MARCUS: Object to form.

13 A. I don't have knowledge of that. You're
14 talking about 2021. I wasn't there.

15 BY MS. BLAIR:

16 Q. Have you had any discussions with your
17 board, your governing board regarding Delray's decision
18 to stop participating in the Leapfrog Hospital Survey?

19 A. I did.

20 Q. And when were those discussions?

21 A. I believe, but without looking at minutes, I
22 can't be certain, I believe they were around the time
23 it would have been, I think, November of '24,
24 December '24 where we talked about those letter grades
25 coming out and that we would not -- we were not

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 105

1 participating.

2 Q. And what was the reaction from the board
3 about the letter grades?

4 A. They were concerned. Again, they asked a
5 lot of questions. And we took time to go through how
6 the scores are calculated, what the measures are and
7 then really talking about what our performance and
8 quality and safety looked like.

9 But they needed to be equipped with the
10 right information so they didn't just have the
11 deceptive information that they were seeing with an F
12 and what went into that F and what it meant because it
13 could be confusing for them when they're seeing, you
14 know, data that's happening right now that looks very
15 different than that.

16 Q. And do you recall what you told the board
17 about what goes into the safety grade?

18 A. Yeah, we went through the self-reported
19 measures; we went through the CMS star rating measures
20 and just kind of talked through all of those pieces.

21 Q. Did your board come to a consensus that the
22 right decision was to for the participate in the
23 hospital -- the Leapfrog Hospital Survey?

24 MR. MARCUS: Object to form.

25 A. I don't know that they came to a consensus.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 106

1 BY MS. BLAIR:

3 or not Delray should participate in the Leapfrog
4 Hospital Survey?

5 A. There was not a vote.

6 Q. Do you know whether or not you told the
7 board that home office would not allow participation in
8 the Leapfrog Hospital Survey unless it was directly
9 tied to payment --

10 MR. MARCUS: Object to form.

11 BY MS. BLAIR:

12 Q. -- or accreditation?

13 A. I don't remember saying that.

14 Q. Was there any discussion at the board level
15 about attempting to increase the Leapfrog hospital
16 safety grade for Delray by means other than
17 participating in the Leapfrog Hospital Survey?

18 A. We talked about enhancing our ratings, our
19 CMS ratings and some of the safety initiatives that go
20 along with that, so our hospital-acquired infections,
21 our patient experience, those are the things that we
22 talked about.

23 Q. And do you understand that there are
24 hospitals -- well, strike that.

25 Do you understand that Leapfrog grades

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 107

1 approximately 2,800 acute care hospitals across the
2 United States?

3 A. Yes.

4 Q. Do you understand that 80 percent of those
5 hospitals participate in the Leapfrog Hospital Survey?

6 MR. MARCUS: Object to form.

7 A. I don't know the numbers of who participates
8 and who doesn't.

9 BY MS. BLAIR:

10 Q. That's fair.

11 Do you have -- do you know that there are
12 hospitals that do not participate in the Leapfrog
13 Hospital Survey that receive A's?

14 A. I've never seen that.

15 Q. But you are aware that there are hospitals
16 that do participate in the Leapfrog Hospital Survey
17 that, for example, receive D's, like Broward did,
18 correct?

19 A. I'm aware of that before the imputation
20 model changed, yes.

21 Q. Are you aware that there are hospitals after
22 the imputation changed that received D's even though
23 they participate in the Leapfrog Hospital Survey?

24 A. Again, I would have to see all the hospitals
25 and what their scores are and if they participate or

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 108

1 not.

2 Q. You've never undertaken that analysis; is
3 that correct?

4 A. I have not.

5 Q. Do you know if any of the experts that
6 you've hired in this litigation have ever undertaken
7 that analysis?

8 MR. MARCUS: Object to form.

9 A. I don't know what they've done.

10 BY MS. BLAIR:

11 Q. Would you agree with statements that have
12 been made in this case that if you don't participate in
13 post fall of 2024, if you don't participate in the
14 Leapfrog Hospital Survey, you automatically receive a
15 failing grade?

16 A. Yes, I agree with that.

17 Q. So it is your position as the corporate
18 representative of Delray that if a hospital does not
19 participate in the Leapfrog Hospital Survey, they
20 receive an F?

21 MR. MARCUS: Object to form.

22 A. They have the potential to receive an F,
23 yes.

24 BY MS. BLAIR:

25 Q. Would you agree with me that any hospital

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 109

1 whether they participate or not, has the potential to
2 receive an F?

3 A. Not necessarily.

4 Q. What does that mean, "not necessarily"?

5 A. It depends on what the rest of their data
6 looks like.

7 Q. Correct.

8 A. But you are going to receive an F post with
9 that imputation model if 30 percent of your scores are
10 getting assigned to the lowest number that's available
11 from the submitting hospitals. Like there's just
12 mathematically no way to overcome that with 30 to
13 33 percent of the score being a failing grade.

14 So, yes, I think if you do not participate,
15 you are going to get a failing grade. And that is
16 my...

17 BY MS. BLAIR:

18 Q. Okay. Do you know how long it takes to fill
19 out the hospital survey? I'm sorry. The Leapfrog
20 Hospital Survey?

21 A. Yes, it's very laborious because it's not
22 just about filling out the survey, but it's about
23 validating your data and ensuring it's accurate. And
24 then it takes all the time on the units doing all of
25 the hand hygiene surveillance, making sure you're

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 110

1 validating all of those pieces. It can take upwards of
2 probably a good thousand hours to be able to do all of
3 those things appropriately.

4 Q. And so when you were the CEO of Broward, did
5 it take about a thousand hours a year to engage in the
6 Leapfrog survey?

7 A. It's about that.

8 Q. Have you --

9 A. There's teams of people that have to devote
10 time to that.

11 Q. Have you seen studies that suggest it's
12 40 to 80 hours a year to conduct and finalize the
13 Leapfrog hospital survey?

14 MR. MARCUS: Object to form.

15 A. I have not.

16 BY MS. BLAIR:

17 Q. Are you aware that your lawyers have taken
18 the position in this litigation that it takes between
19 40 and 80 hours a year to complete the Leapfrog
20 Hospital Survey?

21 MR. MARCUS: Object to form.

22 A. I am not.

23 BY MS. BLAIR:

24 Q. Do you know how many FTE's need to be
25 assigned to complete the Leapfrog Hospital Survey in a

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 111

1 year?

2 A. Again, it's not just about completing the
3 survey. It's all the things that go along with the
4 survey. So in my judgment, it would be about a half of
5 an FTE.

6 Q. A year?

7 A. Yes.

8 Q. And that's about a thousand hours?

9 A. Um-hum.

10 Q. Do you know how many hours your staff has
11 spent to date in connection with this lawsuit?

12 A. I do not.

13 MR. MARCUS: Object to form.

14 BY MS. BLAIR:

15 Q. Do you know whether or not the cessation of
16 hospitals participating in the Leapfrog Hospital Survey
17 coincided with Saum Sutaria -- if I'm saying his name
18 right -- of becoming the CEO of Tenet Healthcare at
19 large?

20 MR. MARCUS: Object to form.

21 A. I'm not aware of that.

22 BY MS. BLAIR:

23 Q. Do you have any understanding of how
24 compliance with the Leapfrog Hospital Survey was
25 handled by Delray in 2020, which was the last year that

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 112

1 they participated in the Leapfrog Hospital Survey?

2 A. No.

3 Q. Do you have any understanding of what the
4 budget was at Delray in 2020 to comply with the
5 Leapfrog Hospital Survey in 2020?

6 A. I don't. I'm sorry.

7 MR. MARCUS: Could we go off the record for
8 just one second?

9 THE VIDEOGRAPHER: The time is 11:48 a.m.
10 We're going off the record.

11 (A recess was taken from 11:37 a.m. to 11:39 a.m.)

12 THE VIDEOGRAPHER: The time is 11:39 a.m.
13 We're back on the record.

14 BY MS. BLAIR:

15 Q. And my follow-up question, Ms. Havericak,
16 was, do you know in the last year that Delray
17 participated in the Leapfrog Hospital Survey in 2020
18 how many FTE hours they committed to complying with the
19 Leapfrog Hospital Survey?

20 A. I'm not aware.

21 Q. And I want to start -- I want to talk just
22 about 2023 before we get to 2024 when all of the things
23 happened.

24 Do you know whether or not Delray was
25 monitoring CPOE in 2023?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 113

1 A. Again, I wasn't there in 2023 so I don't
2 know what they were monitoring.

3 Q. And, for the record, do you know what I
4 mean, by CPOE?

5 A. Yes, computerized order entry.

6 Q. Okay. And can you just describe briefly
7 what computerized physician order entry is?

8 A. That's where the physicians are
9 electronically entering their order into our medical
10 records, which Cerner. You want to make sure that
11 they're entering those orders from a patient safety
12 perspective and that you're really limiting telephone
13 orders that are going in where a nurse or allied health
14 professional would be entering those orders for them.

15 Q. And you have a CPOE policy in place at
16 Delray, correct?

17 A. We do.

18 Q. Do you know if there was one in place in
19 2023?

20 A. I wasn't here in '23, but I -- from what I
21 understand in looking at our policy, it looks like it
22 was in place at that time.

23 Q. So that would be a "yes" to 2024 as well?

24 A. Yes. Yes.

25 Q. Okay. Do you know how -- and do you know

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 114

1 how Delray was monitoring CPOE compliance prior to,
2 well, let's just say, in 2023?

3 A. I don't know how they were monitoring it in
4 '23.

5 Q. What about in '24, do you know how they were
6 monitoring CPOE compliance in 2024?

7 A. When I came, we are monitoring it through
8 the monthly meetings with all of our hospitalists.
9 That's the largest group of patients that admits
10 patients into the hospital. So on a monthly basis
11 we're pulling their CPOE compliance by provider. And
12 that's shared with the providers in a monthly meeting
13 just to ensure that they're meeting the thresholds and
14 then understanding if people are below the threshold
15 what we need to do, do they need more training, do they
16 understand how to put in the orders, do they understand
17 the CPOE policy.

18 So that's how that is monitored.

19 Q. Okay. And when you say "provider" for this
20 record, that's a physician?

21 A. Physician, yes.

22 Q. Because sometimes we say "health care
23 providers." So we're talking about physicians,
24 correct?

25 A. Physicians.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 115

1 Q. Do you know in 2023 whether Delray was
2 monitoring barcode medication compliance?

3 A. Again, I don't know what they were doing in
4 '23.

5 Q. What about in '24, do you know what they
6 were doing in '24?

7 A. Yes, our chief nursing officer in
8 collaboration with the directors in each of the units
9 and the divisions are looking at the barcode medication
10 scanning on a monthly basis. And then, again, if
11 there's fallouts, doing interventions to understand why
12 there's fallouts, were there issues with the computers
13 or the tools and equipment or was there user error,
14 people not following policy and procedure.

15 Q. And prior to fall of 2024 how would you
16 describe Delray's compliance with BCMA procedures?

17 A. It's excellent.

18 Q. And same question with respect to CPOE --
19 how would you describe prior to fall of 2024, how would
20 you describe Delray's compliance with CPOE, compliance
21 with CPOE?

22 A. Correct. We're excellent, too. We're
23 meeting the thresholds.

24 Q. And when you say "we're meeting the
25 thresholds," who puts into place those thresholds?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 116

1 A. We put those in place at the organization.

2 Q. And is that at the Palm Beach Health Network
3 level?

4 A. We all have the same within our policies.

5 Q. And do you know what the threshold is? Is
6 it a percentage?

7 A. Yeah, it's a percentage. So CPOE
8 compliance, we like the physicians to be 90 percent or
9 greater, and then barcode medication scanning, I
10 believe, is 85 or 90. I don't remember off the top of
11 my head.

12 Q. And in -- let's talk about hand hygiene. In
13 2023, do you know how Delray was monitoring hand
14 hygiene?

15 A. I do not.

16 Q. What about in 2024?

17 A. Yes.

18 Q. How was Delray monitoring hand hygiene in
19 2024?

20 A. So there are -- were unit-based tracers that
21 are done that the managers are responsible for
22 submitting to the infection control department every
23 month, and then those are shared in the infection
24 control committee and then in the quality committee.

25 We have increased those observations just

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 117

1 based on some of the data we were seeing.

2 Nationally you see that hand hygiene when
3 you look at the Journal of the American Medical
4 Association, you see, you know, when you're looking at
5 self-reported measures, we need to make sure people are
6 validating. So there are actually tracers that are
7 going on in all of the units when people don't know
8 they're being watched for hand hygiene, so, you know,
9 we're performing well there and identifying where the
10 gaps are.

11 So, you know, in some trends when we look at
12 the data we see, for example, maybe the food and
13 nutritional services folks that are delivering trays
14 aren't using hand hygiene every time, we're able to go
15 then and do tailored education to them, teach them
16 about hand hygiene and why it's important, and then
17 we'll do extra tracers on those units that aren't
18 meeting the targets.

19 MR. MARCUS: And, Kim, I don't want to
20 interrupt, but just we'll have a standing
21 objection if you -- to the phrasing that, "do
22 you understand your lawyers are taking
23 positions"?

24 MS. BLAIR: Oh, sure.

25 MR. MARCUS: You said that a couple times.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 118

1 MS. BLAIR: Yeah. Twice. I just said it
2 twice.

3 MR. MARCUS: All right.

4 MS. BLAIR: That's all right.

5 MR. MARCUS: We object to that.

6 BY MS. BLAIR:

7 Q. Ms. Havericak, when you use the word
8 "tracers," what does that mean?

9 A. It's going out and validating in realtime
10 when our clinicians are in practice, you know, what
11 they're doing. So for hand hygiene tracers we have a
12 hand hygiene tool that they look at when they're
13 tracing to see when the -- if it's a physician, if it's
14 a nurse, any bedside care provider that goes into the
15 room, are they washing their hands before they're going
16 in, after they're caring for the patient are they
17 washing their hand. We want to make sure that all of
18 those moments of hand hygiene are met.

19 Q. So is it like -- I'm sorry for --

20 A. It's a form.

21 Q. Oh, it's a form.

22 A. It's a form that they fill out, and then we
23 just calculate the totals and the data from all of
24 those different tracer forms.

25 Q. Okay.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 119

1 A. Different people are doing them at different
2 times so we can capture an accurate reflection of our
3 practices.

4 Q. Okay. So it's not electronic in some way?

5 A. No, it eventually all goes into an
6 electronic form, but they're paper form so that we can
7 have access for everyone.

8 Q. Okay. And then ICU physician staffing, do
9 you have a -- I know your interrogatory answers say you
10 have 24/7 ICU physician staffing, correct?

11 A. We do.

12 Q. And that is -- is that like pursuant to a
13 contract?

14 A. So we have two different contracts. Our
15 trauma patients are covered under the trauma contract
16 for trauma ICU, and then our cardiac ICU and neuro ICU
17 is under another contract for our intensivists so
18 they're staffed 24/7 on site.

19 Q. Is that both physicians and nurses?

20 A. So they, the trauma contract is all just
21 physicians. The other ICU contract outside of trauma
22 has physicians and then allied health professionals
23 which could be a physician assistant or an advanced
24 registered nurse practitioner.

25 Q. Do you know whether in 2024 Delray was

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 120

1 monitoring the Leapfrog measures for all four of these
2 CPOE, BCMA hand hygiene and ICU physician staffing even
3 though it wasn't participating in the hospital survey?

4 MR. MARCUS: Object to form.

5 A. We were monitoring. You don't need to
6 monitor the ICU staffing because we have a contract in
7 place, so that wouldn't change from month to month, but
8 there are processes to monitor all three of the other
9 self-reported measures, yes.

10 MS. BLAIR: Okay. Can you mark this as
11 Exhibit 6.

12 (Defendant's Exhibit Number 6 for i.d.)

13 BY MS. BLAIR:

14 Q. I marked this as Exhibit 6. And that
15 handwritten 5 at the bottom comes from someone else's
16 deposition.

17 Ms. Havericak, I've now handed you what
18 we've marked as Exhibit 6 to your deposition, which, if
19 you look, it is entitled the Leapfrog Hospital Survey
20 Hard Copy."

21 Do you see that?

22 A. Yes.

23 Q. Have you ever seen this document before?

24 A. Yes.

25 Q. And when is the last time you saw this

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 121

1 document?

2 A. I don't recall exactly what date it was.

3 Q. Was it while you've been a CEO at Delray?

4 A. Yes.

5 Q. And for what purpose did you review this
6 document?

7 MR. MARCUS: Object to form.

8 A. I reviewed it in the case that we would
9 potentially be going back to Leapfrog reporting. I
10 wanted to understand all the measures.

11 MR. MARCUS: Kim, is there a Bates number
12 for this Exhibit?

13 MS. BLAIR: No, you used it as Exhibit 5 to
14 Karen Jupiter's deposition. I just took it from
15 what you used.

16 MR. MARCUS: Okay.

17 MS. BLAIR: I think they printed it from the
18 website, which is why it doesn't have a Bates
19 number.

20 BY MS. BLAIR:

21 Q. And so, Ms. Havericak, when you tell me
22 that --

23 Are you okay? You want to take a break?

24 A. Yeah, I'm okay.

25 Q. I'm sorry.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 122

1 When you tell me that you looked at it in
2 case the hospital would go back to the Leapfrog
3 hospital's --

4 I'm sorry. Strike all of that.

5 When you tell me that you looked at it
6 because Delray was considering potentially restarting
7 its participation in the Leapfrog Hospital Survey, was
8 that after the fall of 2024 safety grade had been
9 published?

10 A. It was.

11 Q. And did you specifically -- well, strike
12 that.

13 Do you understand that this document which
14 we've now marked as Exhibit 6 is about 350 pages long,
15 I think?

16 A. Yeah, it appears to be 353.

17 Q. And do you understand that this survey
18 contains many different areas of questions, not all of
19 which go into the hospital safety grade?

20 A. Yes, I understand that.

21 Q. And do you understand that a hospital
22 completing this survey can still complete the survey
23 without completing all nine sections of the survey?

24 MR. MARCUS: Object to form.

25 A. Yes, I understand that.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 123

1 BY MS. BLAIR:

2 Q. And if we look specifically at the four
3 measures that are at issue in this litigation, I would
4 direct your attention to page 57, which is Section 2
5 Medication Safety.

6 Are you there?

7 A. Um-hum.

8 Q. And if we look at page, for example, 59,
9 which is 2A, "Computerized Physician Order Entry,"
10 CPOE, is that the CPOE standard that we've been
11 discussing in this deposition that is one of the
12 measures that you understand to be part of the Leapfrog
13 hospital safety grade?

14 MR. MARCUS: Object to form.

15 A. Yes.

16 BY MS. BLAIR:

17 Q. Okay. And if we go to page 69 of this
18 document, do you see where it says, Section 2,
19 "Medication Safety Reference Information. What's new
20 in the 2025 survey and the CPOE evaluation tool."

21 Do you see that section?

22 A. I see that section.

23 Q. And if we juxtapose of that page 59, I
24 apologize, that we were just on, at the very bottom of
25 page 59, it says, "If yes to question number 2 and you

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 124

1 are an adult or general hospital, use the take CPOE
2 tool button on the survey dashboard to access the CPOE
3 evaluation tool."

4 Do you see that?

5 MR. SIMMONS: Object to form.

6 A. I see that.

7 BY MS. BLAIR:

8 Q. Do you have any understanding what the
9 CPOE evaluation tool is in the Leapfrog Hospital
10 Survey?

11 MR. MARCUS: Object to form.

12 A. I mean, I'm not an expert in the CPOE tool,
13 no.

14 BY MS. BLAIR:

15 Q. Okay. Do you understand that there's there
16 is a specific and proprietary test that Leapfrog has
17 for hospitals to test whether or not their CPOE system
18 is accurate?

19 MR. MARCUS: Object to form.

20 A. I am aware of that.

21 BY MS. BLAIR:

22 Q. And when Delray was providing documents in
23 this litigation sufficient to simulate, do you know
24 whether or not Delray undertook the CPOE evaluation
25 tool to make a determination as to what its score would

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 125

1 have been in the fall of 2024 had it participated in
2 the survey?

3 MR. MARCUS: Object to form.

4 A. I'm not sure if they used that.

5 BY MS. BLAIR:

6 Q. Do you know whether they could have used it?

7 MR. MARCUS: Same objection.

8 A. I'm not sure.

9 BY MS. BLAIR:

10 Q. In putting together documents in this
11 litigation sufficient to simulate -- not my word --
12 sufficient to simulate, did Delray fill out this
13 portion of the Leapfrog survey to make a determination
14 as to what its score would have been for CPOE in the
15 fall of 2024?

16 MR. MARCUS: Object to form.

17 A. From the simulated one at Delray, I do
18 believe they inputted the score that would be there.

19 BY MS. BLAIR:

20 Q. Okay. And do you know how they got to what
21 the score would be?

22 A. I'm not sure how they got there. The
23 quality team did that.

24 Q. Do you know whether there are any documents
25 that were generated from the quality team doing that

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 126

1 sufficient to simulate that were produced in this
2 litigation?

3 MR. MARCUS: Object to form.

4 A. I haven't seen those documents.

5 BY MS. BLAIR:

6 Q. And don't put that away.

7 A. Okay.

8 MS. BLAIR: Can you mark this as 7?

9 (Defendant's Exhibit Number 7 for i.d.)

10 BY MS. BLAIR:

11 Q. Ms. Havericak, I am now handing you what
12 we've marked as Exhibit 7 in this litigation. And this
13 is Bates labeled PBHN 10582 through 10590.

14 Have you seen this document before?

15 A. I have seen this.

16 Q. And can you just briefly describe what this
17 document is?

18 A. This is the medication administration policy
19 for Delray Medical Center.

20 Q. Would this include -- does medication
21 administration include CPOE?

22 A. I'd have to read through it to tell you.

23 Q. Okay.

24 A. Okay. What was your question again? I
25 apologize.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 127

1 Q. As I read this document that we've marked as
2 Exhibit 7, it appears to include what I would consider,
3 but I want to know your view, both CPOE and BCMA
4 requirements. Is that an accurate reflection of this
5 document?

6 A. It has components of both of those in here.

7 Q. Are there any other documents at Delray that
8 govern the policies and procedures for CPOE at Delray?

9 A. The rules and regs and the bylaws would have
10 information.

11 Q. The Delray bylaws?

12 A. The Delray rules and regs.

13 Q. So the Delray rules and regulations --

14 A. Um-hum.

15 Q. -- have specific information related to
16 CPOE?

17 A. They would have information about order
18 entry for physicians.

19 Q. Do you know whether or not the Delray rules
20 and bylaws have been produced in this litigation?

21 MR. MARCUS: Object to form.

22 A. I don't know if they've been produced.

23 BY MS. BLAIR:

24 Q. Do you know if the Delray rules and bylaws
25 that contain information related to CPOE or BCMA differ

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 128

1 in any way from the document that we've now marked as
2 Exhibit Number 7?

3 A. The rules and regs and bylaws will look
4 different, but they would have the same meaning and the
5 same interpretation --

6 Q. Okay.

7 A. -- as it relates to computerized order
8 entry.

9 Q. So I'm going to ask it just another way so I
10 make sure I understand.

11 There's nothing in these bylaws and rules
12 that would not otherwise be contained in this document
13 that we marked as Exhibit 7 as it relates to CPOE or
14 BCMA?

15 MR. MARCUS: Object to form.

16 A. Well, CPOE would have -- it would be in
17 rules and regs. Like barcode medication scanning is
18 more of a nursing piece in the hospital. That wouldn't
19 be incorporated into rules and regs.

20 BY MS. BLAIR:

21 Q. Okay.

22 A. Just the CPOE part would.

23 Q. Excellent. Thank you.

24 And so, sorry, to ask it a different way, in
25 order to get a full understanding of Delray's CPOE

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 129

1 policies and procedures, I don't need to also look at
2 the bylaws and regulations; is that a fair statement?

3 A. That's a fair statement.

4 Q. Would you --

5 Okay. So I've gotten myself lost.

6 So we agree that this covers both CPOE and
7 BCMA?

8 A. It does.

9 Q. Okay. Are there any other documents I
10 should be aware of that Delray has with respect to BCMA
11 compliance that are not otherwise contained in
12 Exhibit 7?

13 MR. MARCUS: Object to form.

14 A. Yes, this is just the policy, the
15 compliance. If you're looking for the data from the
16 compliance, you would need reports on BC, barcode
17 medication scanning.

18 BY MS. BLAIR:

19 Q. Okay. And those barcode compliance reports
20 exist in what form?

21 A. Our chief nursing officer and the unit
22 directors have those. They pull those on a monthly
23 basis.

24 Q. Is that part of the QIPSC reporting?

25 A. They do report that off their QIPSC.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 130

1 Q. Is there a compliance -- are there
2 compliance reports with respect to CPOE?

3 A. At those monthly hospitalists meetings. So
4 I have two groups of hospitalists, and we go over those
5 on a monthly basis, and those are embedded in the
6 monthly reports.

7 Q. And what is entailed in a CPOE compliance
8 report?

9 A. So it's just for that it's in a slide deck
10 for those meetings and those presentations, so there's
11 different elements that we look at from a quality and
12 safety perspective for each provider within the
13 hospitalist group.

14 So for CPOE, it's all based on just their
15 name and what their actual compliance is for their
16 overall CPOE for that given month. And we look at it
17 month over month.

18 Q. Okay. Does Delray ever perform any testing
19 on its CPOE system to make sure it's operating in the
20 way in which it should?

21 A. I don't have all that knowledge, but we have
22 teams of people that work on that. We have clinical
23 informatics and our pharmacy teams that may do that
24 that I'm not aware of.

25 Q. So have you ever seen any documents that

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 131

1 show that testing is done on the CPOE system to make
2 sure it's functioning properly?

3 A. I haven't personally seen those documents.

4 Q. And if I wanted to get those documents, I
5 would need to ask clinical informatics?

6 A. Clinical informatics is where I think those
7 would come from, yes.

8 Q. And would you agree with me that both CPOE
9 and BCMA are important to patient safety?

10 A. They are both important to patient safety,
11 yes.

12 Q. In preparing for this litigation, did you
13 have the occasion to compare Exhibit Number 7 against
14 the questions and requirements in the Leapfrog Hospital
15 Survey that we've marked as Exhibit 6?

16 MR. MARCUS: Object to form.

17 Have you produced Exhibit 6 in the
18 litigation?

19 MS. BLAIR: Yes.

20 MR. MARCUS: But you don't know the Bates
21 number?

22 MS. BLAIR: I don't, no. I just use the
23 Exhibits. I'm traveling between places so...

24 MR. MARCUS: No, it's okay. I'm just
25 asking.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 132

1 A. Can you repeat that question one more time?

2 I'm sorry.

3 BY MS. BLAIR:

4 Q. Sure.

5 Have you ever done a comparison of your --
6 sorry -- of Exhibit 7, which is the policies and
7 procedures for medication administration at Delray with
8 the questions and requirements on the Leapfrog Hospital
9 Survey for CPOE and BCMA?

10 MR. MARCUS: Object to form.

11 A. I have not.

12 BY MS. BLAIR:

13 Q. If we could turn in Exhibit 6 to page 219,
14 do you see that 219 is Section "6C: Hand Hygiene"?

15 A. Yes, that's what I have on 219.

16 Q. Perfect. And when you were describing
17 earlier that in or around November or December of 2024
18 when you were reviewing Exhibit 6, because there might
19 be the possibility that Delray would go back to
20 participating in the Leapfrog hospital survey, did you
21 review the hand hygiene standard in the Leapfrog
22 Hospital Survey?

23 A. I do remember vaguely going over that.

24 Q. And for purposes of my record, it looks like
25 the hand hygiene survey questions go from 219 through

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 133

1 224. Is that your view of this as well?

2 A. Yes.

3 Q. And is it your position as the CEO of Delray
4 that complying with the Leapfrog hand hygiene -- the
5 questions for hand hygiene on the Leapfrog Hospital
6 Survey is onerous?

7 MR. MARCUS: Object to form.

8 A. I do believe the way in which they have it
9 set up looks onerous, but hand hygiene is the most
10 important thing we can do to prevent patient safety
11 issues, so we just developed a tool appropriately for
12 us at Delray.

13 MS. BLAIR: And I'll mark this as Exhibit 8,
14 and it is a group Exhibit.

15 (Defendant's Exhibit Number 8 for i.d.)

16 BY MS. BLAIR:

17 Q. Ms. Havericak, I am now handing you what's
18 been marked as group Exhibit 8. And I'll submit to you
19 that it is PB -- the Bates numbers are PBHN 10530 to
20 10547, and then there is an extra page at the end which
21 is PBHN 10735.

22 Do you have that?

23 A. Um-hum.

24 Q. Can you briefly describe for the record what
25 this document or group Exhibit is?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 134

1 A. It's the infection prevention and control
2 hand hygiene policy.

3 Q. And that last document in this group
4 Exhibit, what is that?

5 A. That's the hand hygiene tracer observation
6 tool.

7 Q. And I think you testified earlier -- but
8 correct me if I'm wrong -- these are the documents that
9 are filled out regularly by staff with respect to hand
10 hygiene, correct?

11 A. These are the tracer observation tools used
12 by staff and leaders to do hand hygiene observations.

13 Q. So are they like hanging in a room and
14 people just fill them out or how does it work?

15 A. No, we have them in each of the units, so we
16 have them in little binders and folders so they have
17 them. And then they have a certain amount of these
18 that they have to do every month, and they have to be
19 turned in by a certain time.

20 Q. Okay. And so -- I just don't understand how
21 it works so I apologize for these questions.

22 But so is there like, I'm watching Kevin
23 wash his hands and I denote Kevin washed hands? Like
24 who is validating?

25 A. Yeah so, for example, if I was the manager

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 135

1 on the unit, and I'm in the intensive care unit, and I
2 see the doctors rounding and the nurses rounding, I'll
3 go through and just be watching people as they go.

4 So, say, Kevin is a registered nurse, I'd
5 mark that he was a registered nurse and then what he
6 did with hand hygiene, did he do the hand hygiene; did
7 he not do the hand hygiene.

8 And then in addition to that, if there was
9 an opportunity where you didn't see hand hygiene, you
10 would politely stop them and give them realtime
11 education so that they knew to do the hand hygiene, so
12 you stop it in the chain when it's happening.

13 Q. Got it. And so like what would be put into
14 these little boxes on each of these columns?

15 A. So this is just telling you what kind of
16 workforce member is so that you can get data trends on
17 all the different disciplines because we want to look
18 at hand hygiene across the whole spectrum of all the
19 different employees that work in the hospital.

20 So the tracer, you may one day do a lot of
21 tracers on nurses just because that's who's on your
22 unit, but then you want to be able to get some of these
23 other folks, too, because you may have the lab coming
24 in and drawing blood on patients, and we want to make
25 sure they're following the same practices. Physical

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 136

1 therapy and occupational therapy may be coming into the
2 units. We need to make sure they're doing hand
3 hygiene. So that's why you have a legend of all the
4 different specialties that work in the hospital.

5 Q. So do -- thank you for that.

6 A. Um-hum.

7 Q. And so do they write like a "yes" or "no"?

8 A. They write a "yes" or "no," and then they
9 usually have some like additional notes on the side
10 that we're able to then compile because then this all
11 gets turned into the infection prevention manager, and
12 she compiles all the data by department. So these are
13 all turned in by department so we can see the trends
14 throughout the hospital.

15 Q. Okay. So just so I know what it should
16 looked at filled out --

17 A. Yeah.

18 Q. -- if I'm watching and I see a nurse, so
19 let's just take column one, washing their hands, do I
20 put a check mark under nurse in row one and then I
21 write "yes" over --

22 A. That's exactly what you would do.

23 Q. Okay.

24 A. And that would show compliance.

25 Q. Okay. And these get turned into a report

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 137

1 somewhere?

2 A. Yes, they get turned into a report that the
3 infection control team produces every month.

4 Q. Do you know whether or not those reports
5 have been produced in this litigation?

6 MR. MARCUS: Object to form.

7 A. I'm not sure. I think they have. I can't
8 be certain. I haven't seen this.

9 BY MS. BLAIR:

10 Q. And so based on what I -- do you -- strike
11 that.

12 Do you know is this a requirement for all
13 five hospitals in the Palm Beach Health Network?

14 MR. MARCUS: Object to form.

15 A. I can only speak for Delray Medical Center.

16 BY MS. BLAIR:

17 Q. And we talked earlier about, though, there
18 is some quality control that overarches all five
19 hospitals, correct?

20 A. That's correct.

21 Q. And so I'm just asking in your involvement
22 with the Palm Beach Health Network, do you know if this
23 was a tool that's developed for Delray, or is it a tool
24 that was developed by Palm Beach Health Network for all
25 five hospitals?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 138

1 A. I just know that it's our Delray tool.

2 Q. And so if I've not seen something similar to
3 this for another one of the plaintiffs in this
4 litigation, that could be because this is something
5 that Delray has individually and the other four
6 hospitals don't have?

7 A. That's correct.

8 MR. MARCUS: Object to form.

9 BY MS. BLAIR:

10 Q. Do you know in connection with the
11 sufficient to simulate production that has been made in
12 this litigation, do you know whether documents related
13 to these logs that we just talked about, the hand
14 washing logs, were reviewed in order to make a
15 determination as to how Delray would have scored on
16 hand hygiene in fall of 2024?

17 MR. MARCUS: Object to form.

18 A. I do believe that they inputted the hand
19 hygiene scores into that simulated model.

20 BY MS. BLAIR:

21 Q. And do you know whether there was a document
22 that was created after they inputted the hand hygiene
23 scores into the Leapfrog survey model?

24 MR. MARCUS: Object to form.

25 A. What kind of document are you referencing?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 139

1 BY MS. BLAIR:

2 Q. Well, so I thought you said that you do
3 believe that they inputted the hand hygiene score into
4 that simulated model, correct?

5 A. That's correct.

6 Q. And so was there like something that was
7 generated from that simulated model so we would know
8 how Delray would have performed on the hand hygiene in
9 the fall of 2024?

10 MR. MARCUS: Object to form.

11 A. So from what I remember there -- it looks
12 like kind of how the Leapfrog score comes out. They
13 created kind of a simulated model that looks like that.
14 I think it's an Excel spreadsheet, though.

15 BY MS. BLAIR:

16 Q. And so if you had to comply with just the
17 hand hygiene section of the Leapfrog survey, based on
18 the work that you're already collecting, how onerous
19 would that be?

20 MR. MARCUS: Object to form.

21 A. The hand hygiene part is already something
22 that's integrated into our daily practice.

23 BY MS. BLAIR:

24 Q. So not onerous for that part?

25 A. Correct.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 140

1 Q. And you don't know whether any of the other
2 four plaintiff hospitals do hand hygiene in the same
3 way that Delray does, correct?

4 A. Correct.

5 Q. Do you know whether CMS measures CPOE?

6 A. I'm not familiar with CMS measuring CPOE.

7 Q. Do you know if there's any other regulatory
8 agency that governs CPOE?

9 MR. MARCUS: Objection.

10 BY MS. BLAIR:

11 Q. Or I'm sorry. That measures CPOE?

12 MR. MARCUS: Object to form.

13 A. Not that I'm aware of.

14 BY MS. BLAIR:

15 Q. Do you know whether the Joint Commission
16 looks at CPOE?

17 A. They will look at, yeah, they look at it
18 when they come in to make sure that we're working
19 according to our policy and that physicians, where
20 appropriate, are putting in CPOE orders and not using
21 verbal or telephone orders.

22 Q. Does the Joint Commission perform a test on
23 a hospital's CPOE system to make sure it is performing
24 correctly?

25 MR. MARCUS: Object to form.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 141

1 A. They don't perform testing. They actually
2 come in and validate your practice every three years.

3 BY MS. BLAIR:

4 Q. In terms of BCMA, is that a measure that CMS
5 measures?

6 A. It's not necessarily a measure CMS measures,
7 but, again, Joint Commission does look at our barcode
8 medication scanning as part of our patient, proper
9 patient ID policy and our medication administration
10 policy.

11 Q. Do you know whether Healthgrades® has
12 anything where it comes in and verifies your BCMA data?

13 A. Not that I'm aware of.

14 Q. Does the Florida Department of Health
15 measure BCMA compliance?

16 A. Not that I've seen.

17 Q. Does the Florida Department of Health
18 measure CPOE in any way?

19 A. Not that I've seen.

20 Q. Does -- well, does CMS measure ICU staffing?

21 A. Not that I've seen.

22 Q. What about NHSN?

23 A. No, NHSN just looks as hospital-acquired
24 infections and surgical site infections and preventable
25 harm in hospitals.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 142

1 Q. What about Joint Commission, do they look at
2 your ICU staffing?

3 A. That is something they look at when they
4 come in for their validation surveys, yes.

5 Q. And what are they looking at, to the best of
6 your knowledge?

7 A. To ensure that the model is there that we
8 have the appropriate coverage and that credentialing
9 files that they have the proper training, board
10 certifications and education and that their DOPs are
11 appropriate and that they're going through ongoing OPPE
12 and FPPE where appropriate.

13 Q. What is OPPE?

14 A. It's Ongoing Professional Practice
15 Evaluation, and then the other is Focused Peer Practice
16 Evaluation.

17 Q. Thank you. Do you know whether CMS measures
18 hand hygiene?

19 A. Not that I've seen.

20 Q. Do you know whether Joint Commission
21 measures hand hygiene?

22 A. Yes, they do.

23 Q. And in what way?

24 A. They -- so when they come in for their
25 validation surveys, they have a whole session where we

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 143

1 go through all of our data for the last three years,
2 all of our infection control committee minutes. They
3 look at our infection prevention plan. And then that's
4 part of what they do when they go out on to the units.

5 In a hospital our size because we're
6 536 beds, typically three to four surveyors come at a
7 time and stay for four days with us, and they'll watch
8 the hand hygiene episodes on every single unit while
9 they're tracing patients.

10 Q. Do you know if the Florida Department of
11 Health reviews your hand hygiene compliance?

12 A. They sure do. So they come in, and they do
13 a site visit. And they do the same thing where they go
14 around and trace in different areas to look at
15 physicians and staff members, how they're taking care
16 of patients and utilizing hand hygiene. Then they look
17 at our hand hygiene data and look at our infection
18 control practices as well.

19 Q. And would you agree with me that none of the
20 data that the Joint Commission collects is publicly
21 available to patients?

22 MR. MARCUS: Object to form.

23 A. Joint Commission only shows whether a
24 hospital is accredited or not.

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 144

1 Q. Right. So they, Joint Commission, does not
2 publicly share, for example, how a hospital does on
3 hand hygiene even though they may be evaluating
4 policies, correct?

5 MR. MARCUS: Object to form.

6 A. That's correct.

7 BY MS. BLAIR:

8 Q. And what about the Florida Department of
9 Health, do they share publicly how a hospital does, for
10 example, on hand hygiene?

11 A. They do not.

12 Q. What about does the Joint Commission
13 share -- well, they don't -- they only share publicly
14 that you are accredited, right?

15 A. That's correct.

16 Q. So CPOE information they don't share,
17 correct?

18 MR. MARCUS: Object to form.

19 A. Correct.

20 BY MS. BLAIR:

21 Q. And same question with respect to BCMA, the
22 Joint Commission does not share any BCMA-specific
23 information with the consuming public, correct?

24 MR. MARCUS: Object to form.

25 A. That is correct.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 145

1 MS. BLAIR: So it's 12:15.

2 MR. MARCUS: I was going to say, is this a
3 good time for a break?

4 MS. BLAIR: How do you feel? Yeah.

5 THE WITNESS: I'm okay. Whatever you want
6 to do.

7 MS. BLAIR: Yeah. It's really up to you.

8 (A discussion was held off the record.)

9 THE VIDEOGRAPHER: This is the end of media
10 two. The time is 12:20 p.m.

11 (A recess was taken from 12:19 p.m. to 1:05 p.m.)

12 THE VIDEOGRAPHER: This is media number
13 three in the deposition of Heather Havericak.
14 The time is 1:06 p.m. We are back on the
15 record.

16 BY MS. BLAIR:

17 Q. Ms. Havericak, I just want to talk a little
18 bit about Delray and the Leapfrog grade for the spring
19 of 2024, so this would have been prior to the
20 methodology change. And I just have a few Exhibits I
21 want to go over somewhat quickly. So we are on 9.

22 (Defendant's Exhibit Number 9 for i.d.)

23 BY MS. BLAIR:

24 Q. This will be Exhibit 9.

25 Ms. Havericak, do you have in front of you

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 146

1 what we've marked as Exhibit 9 which is an email from
2 Heather Wehmeyer to Andrea Nunez dated March 7th, 2024?

3 A. Yes.

4 Q. And this document has -- bears the Bates
5 range of PBHN 13590 through 13593.

6 Did you see this document -- have you seen
7 this document before today?

8 A. No.

9 Q. Okay. And just for purposes of the record,
10 in or around March of 2024, Heather Wehmeyer would have
11 been the director of quality for Delray?

12 A. Yes, she would.

13 Q. So this would have been before
14 Stephany Johnson, correct?

15 A. That is correct.

16 Q. And if you look at the last page of this
17 document, which is 13592. Oh, sorry. No, it's not.

18 15 --

19 13593, again, this is the email or the email
20 from Bonnie to lots of people. And she says, "Hello,
21 everyone. Good morning. Leapfrog has released the
22 hospital's preliminary numerical score for 2024 spring
23 safety grade. Please share your preliminary numerical
24 score."

25 Do you see that?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 147

1 A. I do.

2 Q. And we saw an Exhibit earlier this morning
3 where Bonnie was asking for this type of information
4 from an earlier period in 2023, correct?

5 A. That's correct.

6 Q. And does this refresh your recollection in
7 any way that someone from Tenet home office asked for
8 the Leapfrog scores on a regular basis?

9 MR. MARCUS: Object to form.

10 A. I can see through these emails that someone
11 has asked for it.

12 BY MS. BLAIR:

13 Q. Okay. But you have no recollection that
14 that's what happens on every grading period?

15 A. No, I do not.

16 Q. Do you know if in spring of 2025 you
17 received, you being Delray, received an email like this
18 from Tenet home office asking for the preliminary
19 Leapfrog scores?

20 A. I don't remember if I did.

21 Q. And if we look at this, then Regina West
22 sends it out, correct, to Andrea Nunez and
23 Heather Wehmeyer, among others?

24 I'm sorry. This is 13592.

25 Do you see that?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 148

1 A. Yes, it looks like Gina sent it out to
2 Andrea, Heather, Taylor and Kathleen, yes.

3 Q. And she say, "Hi, quality warriors. It's
4 time again."

5 Do you see that?

6 A. I do see that.

7 Q. And she's asking for these quality directors
8 to send preliminary Leapfrog scores to Regina West,
9 correct?

10 A. Yes, that's what the request looks like.

11 Q. Okay. And then if you look at the top of
12 13591, Gina West says to Heather Wehmeyer, "Just a
13 heads-up that you may fall to a D if they use the same
14 calculation methodology."

15 Do you see that?

16 A. I do.

17 Q. And this would have been before the fall
18 2024 methodology change, correct?

19 MR. MARCUS: Object to form.

20 A. Well, based on this email that I'm seeing
21 that I have in front of me, it looks like it would be
22 because it was March of 2024.

23 BY MS. BLAIR:

24 Q. Right. And for the record, and that's
25 probably why I got an objection, do you understand that

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 149

1 the spring -- the spring grades for Leapfrog are
2 released at the end of April each year?

3 A. Yes.

4 Q. Okay. So if we're talking in the March of
5 2024 time frame, this would have been prior to the
6 spring 2024 Leapfrog grades being released, correct?

7 A. Correct.

8 Q. And the methodology change that we're
9 talking about here today did not occur until fall of
10 2024, correct?

11 A. That is correct.

12 Q. And is it your memory that, in fact, for
13 spring of 2024 Delray received a D grade from the
14 Leapfrog hospital safety grade prior to the change in
15 the methodology in the fall of 2024?

16 A. I believe it did based on the score that's
17 in front of me.

18 Q. Okay. And when you say "based on the score
19 that is in front of you," are you referring to the
20 third page of this document, the 2.2946?

21 A. Correct.

22 Q. Okay.

23 MS. BLAIR: I'll mark this one as 10.

24 (Defendant's Exhibit Number 10 for i.d.)

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 150

1 Q. Ms. Havericak, I am now handing you what
2 we've marked as Exhibit 10, which is an email from
3 Monica Stillman-Vormittag dated March 26, 2024 to
4 Regina West and CC'ing Heather Wehmeyer.

5 Do you see that?

6 A. I do.

7 Q. And this is talking about SIR benchmarks, do
8 you see that?

9 A. Yes.

10 Q. And I believe earlier you referred to them
11 as SIR's benchmarks, correct?

12 A. Correct.

13 Q. What does SIR's stand for?

14 A. It's your predicted model of what kind of
15 infections you're going to say based on your patient
16 population and your number of patients.

17 Q. Okay. And if we look at the first line --

18 Well, first of all, who is Monica Vormittag
19 in or around March of 2024?

20 A. She was in that time and still is our
21 manager of infection prevention.

22 Q. Okay. So her title at the bottom of this
23 email remains the same?

24 A. Correct.

25 Q. And she says, "Hi, Gina. Please see the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 151

1 following items to meet Leapfrog SIR benchmarks."

2 Do you see that?

3 A. I do.

4 Q. Why were -- why was Delray benchmarking
5 itself with respect to the Leapfrog benchmarks if it
6 wasn't participating in any way with Leapfrog?

7 MR. MARCUS: Object to form.

8 A. I'm not sure.

9 BY MS. BLAIR:

10 Q. Were you the president of Delray in March of
11 2024?

12 A. I was not.

13 Q. Okay. You became -- were you associated in
14 any way with Delray in March of 2024?

15 A. I was the chief operating officer.

16 Q. And so this type of benchmarking would not
17 have been within your purview in March of 2024?

18 A. It would not.

19 Q. Who was the acting CEO in or around March of
20 2024?

21 A. Daniel Listi, L-i-s-t-i.

22 Q. Did you take over the job from Daniel Listi?

23 A. I did.

24 Q. Did -- during the transition between
25 Mr. Listi and yourself, did he provide you with any

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 152

1 information related to Delray benchmarking itself
2 against the Leapfrog SI -- SIR's as we're calling them?

3 A. He did not.

4 Q. Okay. So have you seen this document before
5 today?

6 A. No.

7 Q. And in looking at these scores, I don't know
8 what they mean, so when you see it says "CLABSI
9 predicted 13, infections eight. SIR equals 6.15," do
10 you see that?

11 A. Yes.

12 Q. Is that an above average score, below
13 average score, do you know?

14 A. I have to see it in relation to the
15 benchmarks. Like this doesn't tell me anything with
16 this information the way it's presented.

17 Q. Okay. And that was going to be my question.
18 Who would have set the benchmarks that you need to look
19 at it against?

20 A. They would pull those benchmarks out of
21 NHSN, like I mentioned earlier.

22 Q. Okay. So this -- is it your
23 understanding -- and if you don't know, I understand --

24 A. Sure.

25 Q. -- but so this .615 refers to an NHSN number

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 153

1 or a Leapfrog number?

2 MR. MARCUS: Object to form.

3 A. I can't make out what it's referencing in
4 this document in the way in which it's presented. Like
5 I need more context to this.

6 BY MS. BLAIR:

7 Q. Okay. Fair enough. And is it surprising to
8 you as you sit here today to know that the infection
9 prevent manager and the director of quality were
10 benchmarking hospital-acquired infections against
11 Leapfrog SIR's benchmarks?

12 MR. MARCUS: Object to form.

13 A. Yes, it's surprising because Leapfrog and
14 SIR's benchmarks are different things.

15 BY MS. BLAIR:

16 Q. Right. I thought so, too, so that's why I'm
17 trying to understand this email. But you don't
18 understand what they're doing here?

19 A. I don't understand what's presented in front
20 of me, no.

21 (Defendant's Exhibit Number 11 for i.d.)

22 BY MS. BLAIR:

23 Q. Ms. Havericak, I've just handed you what
24 we've marked Exhibit 11, which is an email from
25 Heather Wehmeyer. Her title, per her signature block

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 154

1 at that time, was director of clinical quality
2 improvement dated April 17th, 2023 to Regina West,
3 Andrea Nunez, Carola Kuret, K-u-r-e-t, Taylor Pool and
4 Kathleen McDonald.

5 Do you see that?

6 A. I do.

7 Q. And if we turn to the second page of this
8 document, which is Bates labeled PBHN 12146 -- and I
9 specifically want to look at this email, it starts in
10 the middle of the page from Regina West dated
11 April 17th at 3:40 p.m.

12 Do you understand that April 17th, 2023
13 would have been before the Leapfrog spring 2023 grades
14 would have been released, correct?

15 A. Can you repeat that?

16 Q. Sure.

17 A. Sorry.

18 Q. So I showed you Exhibit 9 and 10 were right
19 before the spring 2024 grades were released in April of
20 2024. This document, though, is from April of 2023, a
21 year earlier, correct?

22 A. That's what it appears to be, yes.

23 Q. And so do you have an understanding that the
24 Leapfrog spring hospital safety grade would have been
25 released at the end of April 2023?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 155

1 A. Yes.

2 Q. Okay. And if we look at Regina's email, she
3 says, "Hello, fellow quality leaders."

4 Do you see that?

5 A. Yes.

6 Q. And she says, "I completed an analysis of
7 our Leapfrog scores for spring 2023."

8 Do you see that?

9 A. Yes.

10 Q. Does this refresh your recollection at all
11 that, in fact, Palm Beach Health Network was monitoring
12 its Leapfrog hospital safety grades in or around 2023?

13 MR. MARCUS: Object to form.

14 A. From the email I'm looking at, it appears
15 they were, but I wasn't with the company then.

16 BY MS. BLAIR:

17 Q. Understood.

18 And if we go down, it says, the second
19 bullet point -- well, the first bullet point says, "All
20 five hospitals scored at a C level."

21 Do you see that?

22 A. Yes.

23 Q. Do you know what Delray's Leapfrog hospital
24 safety grade was in the spring of 2023?

25 A. I do not.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 156

1 Q. Okay. And it says, the second bullet point,
2 "the largest opportunity continues to lie in patient
3 experience."

4 Do you see that?

5 A. Yes.

6 Q. And patient experience, is that the HCAHPS
7 that we've been discussing today?

8 A. It's measures taken from the HCAHPS, yes.

9 Q. Have you as the president of Delray, had an
10 opportunity to go back and look at Delray's historic
11 performance on patient experience?

12 A. I have.

13 Q. Would you agree that in or around April of
14 2023, there was a large opportunity for Delray to
15 improve in patient experience?

16 A. I would say there's always opportunity to
17 improve in patient experience.

18 Q. And then you see she goes on to say, "West
19 Boca would need to participate in the fall 2023 survey
20 and change their BCMA and IPS performance as well."

21 Do you see that?

22 A. I see that.

23 Q. Do you know how performing in the fall 2023
24 Leapfrog Hospital Survey would have impacted
25 West Boca's BCMA and IPS performance if it was already

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 157

1 being based on the cohort median?

2 MR. MARCUS: Object to form.

3 A. I don't know what would have impacted West
4 Boca.

5 BY MS. BLAIR:

6 Q. Okay. And so we talked a little bit earlier
7 about your understanding of the Leapfrog hospital
8 safety grade methodology prior to 2024. Do you recall
9 that discussion earlier today?

10 A. Yes.

11 Q. And I'm going to bring you back to another
12 Exhibit if I can find it. I think it's either
13 Exhibit 4 or 5. Can you get those out in front of you?

14 A. The 4 and 5 we already looked at?

15 Q. Yes. And it's 4, I believe. That is your
16 Exhibit 4 from Stephany Johnson dated November 4th,
17 2024.

18 A. Yes.

19 Q. Okay. Making sure I have the right number.
20 If we go to Bates number, in that Exhibit if
21 you go to Bates number PBHN 2074, it's a chart.

22 A. Yes.

23 Q. And for the record, I will submit to you
24 that this chart and the scores come from the fall 2024
25 safety grade, but I just want to ask about the measures

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 158

1 themselves.

2 A. Okay.

3 Q. So if we look at the first column of the
4 measures, do you know whether or not these were the
5 same measures that were being evaluated to come up with
6 Delray's spring 2024 hospital safety grade?

7 MR. MARCUS: Object to form.

8 A. Can you repeat that question?

9 BY MS. BLAIR:

10 Q. Sure. So do you understand that there are
11 22 measures that make up the Leapfrog hospital safety
12 grade?

13 A. I do.

14 Q. Do you -- do you believe that the measures,
15 not the scores but the measures were the same in spring
16 of 2024 as they were in fall of 2024?

17 MR. MARCUS: Object to form.

18 A. Yes.

19 BY MS. BLAIR:

20 Q. And looking at this list, and if you look
21 one page before, this is sent to you by
22 Stephany Johnson, correct?

23 A. That is correct.

24 Q. And she's attaching this list for you, is
25 that --

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 159

1 A. It looks like this was an attachment, yes.

2 Q. Okay. And so we look at all these different
3 measures. And of these measures, you'll see the third
4 column here, and, again, this is PBHN 2074, has the
5 data source links. Do you see that?

6 A. The reporting period or, I'm sorry, the
7 second column data source links.

8 Q. Oh it's the third column for me.

9 A. Oh, mine is -- mine is -- oh, yeah, I guess
10 it is --

11 Q. Oh, okay.

12 A. -- the third if you look at the name.

13 Q. Yeah.

14 A. Sorry.

15 Q. No, no, I just want to make sure for the
16 record.

17 And so the computerized physician order
18 entry on the third column, right, data source/links it
19 says, "Assigned score due to missing." "Due to
20 missing," correct? You see that?

21 A. Yes.

22 Q. And we see here that the assigned score, if
23 we go all the way to the last column, is 15 for CPOE,
24 correct?

25 A. That is correct.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 160

1 Q. And what is your understanding of how CPOE
2 was measured prior to -- well, let's just say how it
3 was measured in spring of 2024?

4 A. Just with that like median score of all the
5 different cohorts, like it was just being assigned that
6 way.

7 Q. And do you understand that this 15, and
8 we'll just stick with CPOE, do you understand that this
9 score of 15 is a limited achievement score --

10 MR. MARCUS: Object to form.

11 BY MS. BLAIR:

12 Q. -- for CPOE?

13 A. I understand it to be the lowest ranked
14 score that can be assigned, yes.

15 Q. Do you have an understanding that whether it
16 be spring 2024 or fall 2024, the numerical score
17 assigned for the measure for CPOE fell into four
18 different categories --

19 MR. MARCUS: Object to form.

20 Q. -- which is achievement, considerable
21 achievement, somewhat achievement and limited
22 achievement?

23 MR. MARCUS: Same objection.

24 BY MS. BLAIR:

25 Q. Did you have any understanding of that prior

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 161

1 to fall of 2024?

2 A. Yes.

3 Q. Okay. And did you have an understanding
4 that any hospital that fell within limited achievement
5 would get a 15 whether they participated in the survey
6 or not?

7 A. No, I didn't realize that that's exactly
8 what the number was.

9 Q. Okay. Did you have an understanding -- do
10 you have an understanding that if a hospital's
11 numerical score fell into the highest category,
12 achievement, that they would get 100 points out of
13 100 points?

14 A. Yes.

15 Q. Do you understand that Delray in the spring
16 of 2024 received 100 points out of 100 points for CPOE
17 because its cohort median fell within highest
18 achieving?

19 MR. MARCUS: Object to form.

20 A. Again, I need to see results of that.

21 BY MS. BLAIR:

22 Q. Okay.

23 A. I don't recall the numbers off the top of my
24 head.

25 Q. And I don't have that Exhibit here today.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 162

1 A. Okay.

2 Q. But I've seen it. If that were the case,
3 would you have any reason to dispute it?

4 MR. MARCUS: Object to form.

5 A. Again, I have to see the document.

6 BY MS. BLAIR:

7 Q. Sure.

8 Do you know how many points total Delray was
9 getting for the four imputed measures in spring of
10 2024?

11 A. I don't know the total without having it in
12 front of me.

13 Q. So you don't know that it was 100 points out
14 of -- 400 points out of 400 at that time?

15 MR. MARCUS: Object to form.

16 A. I would need the document in front of me. I
17 don't know the numbers.

18 BY MS. BLAIR:

19 Q. Sure. I guess I'll pull it up at a break.

20 All right. And let's look at barcode
21 administration, which is the second row on this chart.

22 You see here that if we look at the third
23 column again, data source/links, it says, "Assigned
24 score due to missing."

25 Do you see that?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 163

1 A. I do.

2 Q. And do you agree with me that that is what
3 Leapfrog did, they just assigned you a score for that?

4 MR. MARCUS: Same objection.

5 A. Can you repeat that?

6 BY MS. BLAIR:

7 Q. Sure. Would you agree that in -- well, do
8 you agree with the denotion [sic] here in this third
9 column for BCMA for fall of 2024 that Delray was simply
10 assigned a score due to missing information and didn't
11 actually earn that score?

12 MR. MARCUS: Object to form.

13 A. I agree that we were given a score and we
14 didn't submit data.

15 BY MS. BLAIR:

16 Q. Okay. So you agree that that statement for
17 BCMA in that third column assigned score due to missing
18 is accurate?

19 MR. MARCUS: Object to form.

20 A. I don't agree with the score being assigned
21 because there's no data that can be validated to
22 provide that score.

23 BY MS. BLAIR:

24 Q. I understand you disagree with the fact that
25 they assigned you a score, but I'm just asking if you

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 164

1 agree with the fact that that's, in fact, what
2 happened, they just assigned you a score?

3 A. That score --

4 MR. MARCUS: Same objection.

5 A. That appears from this document to be what
6 they did in assigning us that score.

7 BY MS. BLAIR:

8 Q. And the next row on this sheet is
9 ICU physician staffing. And do you see that it says
10 "data source" there, "CMS cost report"?

11 A. I do.

12 Q. Do you know what the CMS cost report is?

13 A. I know about the CMS cost report.

14 Q. Can you just tell me what the CMS cost
15 report is?

16 A. I mean, I'm not involved. The CFO does all
17 the CMS cost report, but that's just taking into
18 account all of the different components from the
19 hospital operations on a yearly basis.

20 Q. Do you have any understanding of whether or
21 not the CMS cost report contains any information
22 regarding ICU physician staffing for Delray?

23 A. I am not aware of that.

24 Q. Did you understand that in 2023 Leapfrog had
25 changed its imputation model such that nonreporting

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 165

1 hospitals were going to get a 5 if they had an ICU but
2 did not report any data?

3 MR. MARCUS: Object to form.

4 A. I did not know that.

5 BY MS. BLAIR:

6 Q. And then if we go down to seventh column,
7 hand hygiene, are you there?

8 A. I am.

9 Q. And you see where it says "assigned" -- oh,
10 sorry -- third column, "Assigned score due to missing"?

11 A. Yes.

12 Q. And do you understand that Delray was
13 assigned a score of 15 because there was no data based
14 on the fact that Delray had not participated in the
15 survey?

16 A. Yes.

17 Q. And if we look at the fourth column for all
18 four of these measures, the first three columns in
19 that -- or, sorry -- the first three rows in the
20 seventh row, it says "reporting period." And do you
21 see where it says "not applicable"?

22 A. Yes.

23 Q. Do you understand that under the prefall
24 2024 methodology if a hospital had an annual survey
25 within the last four rounds, that hospital score would

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 166

1 have been used to calculate this score?

2 MR. MARCUS: Object to form.

3 A. I don't know all the inner workings of the
4 Leapfrog definitions.

5 BY MS. BLAIR:

6 Q. Okay. And then if we look at the three
7 measures that are kind of in the middle of the four we
8 just discussed, so that would be column four, five --
9 I'm sorry -- row four, five and six, if we go, if we
10 follow those rows all the way across to the last
11 column, each one of them say "declined to report."

12 Do you see that?

13 A. I do.

14 Q. Do you have any understanding as to
15 Leapfrog's methodology and why these three measures say
16 "declined to report"?

17 A. I do not.

18 Q. For the remaining measures, so now I'm going
19 to talk about the -- and it is 22 measures,
20 22 additional rows underneath.

21 No, no, I'm sorry. Forget that.

22 So we have this seven, correct, the seven we
23 just talked about?

24 A. Yes.

25 Q. And then below that there are 25 measures

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 167

1 below those rows, correct? It goes on to PBHN 2075.

2 Do you see that?

3 A. Yes.

4 Q. Okay. And for those measures, each one of
5 them it says the data source links for each one of
6 those measures is CMS, correct?

7 MR. MARCUS: Object to form.

8 A. That's correct.

9 BY MS. BLAIR:

10 Q. Do you have any understanding as to whether
11 or not the CMS data that Delray had provided to CMS for
12 the dates that are listed in the reporting period in
13 the second to last column was accurate?

14 MR. MARCUS: Object to form.

15 A. I believe it was accurate.

16 BY MS. BLAIR:

17 Q. And this CMS data that is listed, that is
18 publicly reported data, correct, from CMS?

19 A. That is correct.

20 Q. And we talked about earlier that the CMS
21 data, the publicly available CMS data lags in terms of
22 what the public has access to, correct?

23 A. That's correct.

24 Q. And so this table that Heather Wehmeyer --
25 I'm sorry -- that Stephany Johnson had provided to you,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 168

1 it's showing for some of these CMS data that goes all
2 the way back to 2020, correct?

3 MR. MARCUS: Object to form.

4 A. They go back to 2020, yes.

5 BY MS. BLAIR:

6 Q. And that's because the publicly available
7 data from CMS was only available from that time period
8 to Leapfrog, correct?

9 MR. MARCUS: Same objection.

10 A. That's correct.

11 BY MS. BLAIR:

12 Q. Do you know or can you tell by looking at,
13 let's just take H-COMP 1, nurse communication do you
14 see how there was a score for 78, of a 78?

15 A. I do see that.

16 Q. Do you know whether that score was above the
17 average, average or below the average for Leapfrog in
18 or around November of 2024?

19 A. I wouldn't be able to tell you that without
20 the comparison data because that is constantly changing
21 depending on how hospitals are improving or not
22 improving.

23 Q. Right, because Leapfrog grades on a standard
24 deviation, correct?

25 MR. MARCUS: Object to form.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 169

1 A. I don't know if Leapfrog does that on a
2 standard deviation. You asked me about the HCAHPS
3 scores and CMS.

4 BY MS. BLAIR:

5 Q. Right. And I guess my question is, do you
6 know -- yeah, that was a bad question. They're not all
7 winners.

8 So if we look at the H-COMP 1 score, that
9 78, do you know if that's how you're scored by CMS on
10 H-COMP 1? In other words, do they give you a numerical
11 score like that?

12 A. They give you a numerical score, yes. But I
13 can't tell you in context if it was average, above
14 average without looking at other data with it.

15 Q. Okay. And in or around November of 2024, do
16 you know what Delray's overall CMS star rating was?

17 A. Yes.

18 Q. What was it?

19 A. A 1.

20 Q. Do you know in or around November of 2024
21 what Delray's patient experience star rating at CMS
22 was?

23 A. It was a 1.

24 Q. And do you know in or around November of
25 2024 what Delray's Google ratings were?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 170

1 A. Which month in '24? I'm sorry.

2 Q. November.

3 A. We were -- we were climbing. In September
4 of 2024, we were a 1.8, but we really had been working
5 on patient experience, so it was probably around a
6 2. something because we're at a 4.5 now.

7 Q. That's what I was going to ask you. You're
8 a 4.5 now?

9 A. We're a 4.5 now.

10 Q. Did you ever have any discussions with Tenet
11 home office about your CMS star ratings?

12 MR. MARCUS: Object to form.

13 A. Not that I recall with the home office.

14 BY MS. BLAIR:

15 Q. Do you recall any discussions at the
16 Palm Beach Health Network level about Delray's star
17 ratings?

18 A. Yes, we had discussion about our star
19 ratings in our group CEO meeting.

20 Q. And do you recall when or around what time
21 that was?

22 A. I don't recall the exact date just because
23 we have so many meetings, but we had that discussion, I
24 think, towards the end of '24 and we've had that
25 discussion, you know, throughout this year as well.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 171

1 Q. Prior to the end of 2024, do you recall any
2 discussions at the Palm Beach Health Network level
3 regarding the hospitals' -- and I'm using them, the
4 plural -- CMS star ratings?

5 A. I only started going to the group meetings
6 in July of '24 so I remember us talking about those
7 probably towards the end of the year in '24.

8 Q. Okay.

9 A. But they could have been before my time.

10 Q. What was said at the meeting about the
11 hospitals' -- again, plural -- CMS star ratings to what
12 you can recall?

13 A. We had discussion about the lagging in the
14 data so it wasn't an accurate reflection of where we
15 were at and just the need to really focus on improving
16 our publicly -- publicly reported scores and then more
17 recently just some of the tools we created to help us
18 be a predictor of where we were going to land as
19 different data rolls off.

20 Q. And were additional tools put in place in or
21 around the end of 2024 to improve scores?

22 A. Not at the end of '24, no.

23 Q. What about the beginning of 2025?

24 A. No.

25 Q. What about the middle of 2025?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 172

1 A. Yeah, I would say the middle more recently
2 in the last couple of months.

3 Q. Do you know what -- how much of Delray's
4 budget has been committed to these improvements that
5 began in the middle of 2025 to increase scores?

6 MR. MARCUS: Object to form.

7 A. There aren't any additional dollars that I'm
8 aware of.

9 BY MS. BLAIR:

10 Q. Any additional staff?

11 A. No.

12 Q. Do you have any understanding as to why
13 Leapfrog made the change to its methodology for fall of
14 2024?

15 A. I'm not familiar with why.

16 Q. Did you have any discussions at the med exec
17 level about Delray's CMS star ratings?

18 A. Yes.

19 Q. When did those start?

20 A. I've had those a couple of times in 2025.

21 Q. Did you have any discussions with the
22 med exec about Delray's CMS star ratings prior to
23 Leapfrog issuing its fall 2024 safety grade?

24 A. We talked. It wasn't specifically to CMS
25 star ratings, but we talked about the quality measures

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 173

1 that feed up into those star ratings and the care
2 experience scores.

3 Q. Okay.

4 A. So that's -- in '24, we definitely did that
5 too.

6 Q. Okay. And then, I think you said you did
7 have some med exec meetings regarding the CMS star
8 ratings after the Leapfrog grade came out, correct?

9 A. Yes. And I actually went one by one through
10 every single one of the CMS measures that make up the
11 star rating and the weighted category to show where we
12 were doing well, where we had opportunities and just
13 looking at, you know, which ones we already had
14 improvement plans in place and how we were performing
15 based on our predictive model.

16 Q. Did you have that same sort of going through
17 each measure with respect to the Leapfrog hospital
18 safety grade with the med exec?

19 A. I don't think we went into it as much
20 detail. We talked about a lot of the self-reported
21 measures and then just the CMS measures that went into
22 it.

23 Q. And the CMS, do you understand that -- have
24 you ever seen the Leapfrog scoring calculator?

25 A. Yes.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 174

1 Q. And do you understand that 50 percent of the
2 grade is outcome measures?

3 MR. MARCUS: Object to form.

4 A. I do.

5 BY MS. BLAIR:

6 Q. And would you agree with me that of those
7 outcome measures, all of them come from publicly
8 reported CMS data?

9 A. Yes.

10 Q. And then there are twelve measures that make
11 up the structural/process measures that Leapfrog
12 reviews in putting together its hospital safety grade,
13 correct?

14 A. That's correct.

15 Q. And for a nonreporting hospital, do you
16 understand that five of those twelve measures come from
17 CMS data?

18 MR. MARCUS: Object to form.

19 A. That's not my full understanding.

20 BY MS. BLAIR:

21 Q. Okay. What is your understanding?

22 A. That four of those measures actually come
23 from self-reported data.

24 Q. Oh, yeah. So I said it the opposite.

25 A. Okay.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 175

1 Q. So there are twelve measures in the
2 process/structural, correct?

3 A. Uh-huh.

4 Q. Of those twelve measures, four come from --
5 are the imputed measures that we've been talking about,
6 correct?

7 A. Correct.

8 Q. And those measures are BCMA, CPOE, hand
9 hygiene and ICU physician staffing, correct?

10 A. That's correct.

11 Q. And three of those measures that make up the
12 50 percent structural process measures are declined to
13 report, and a nonparticipating hospital does not get
14 graded on them, correct?

15 A. That is correct.

16 Q. So we have the four imputed measures that
17 we've been referring to, the three decline to report
18 measures, and so there are five additional measures
19 that make up the 50 percent of the structural process
20 measures, correct?

21 A. So there's --

22 MR. MARCUS: Object to form.

23 A. -- there's the five other measures, but I'm
24 not -- without having the calculator in front of me,
25 because the percentage changes when you extrapolate out

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 176

1 the three decline to report measures.

2 BY MS. BLAIR:

3 Q. Understood.

4 A. So I don't know that that actually is
5 50 percent.

6 Q. So and I just want to talk about -- I'm not
7 talking about weights. I'm just talking about the
8 measures themselves.

9 A. Okay.

10 Q. I want to make sure we understand.

11 So there are five other measures. Other
12 than the imputed measures we talked about and other
13 than the three measures that -- so I don't want to talk
14 about the weight. I just want to talk about what
15 measures are.

16 You understand there are five additional
17 measures, or five additional process and structural
18 measures in the Leapfrog hospital safety grade
19 methodology, correct?

20 A. That's correct.

21 Q. I was asking the question about weight, so I
22 apologize.

23 And those five measures, they come from CMS
24 data, correct?

25 A. Correct.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 177

1 Q. So if we were to look at the methodology
2 itself without respect to weights, because I do
3 understand your position there, you have ten outcome
4 measures plus five structural and process measures that
5 come from CMS data, correct?

6 A. That's correct.

7 Q. 15 total, then, 5 plus 10, correct?

8 A. Yes, correct.

9 Q. Do you have an understanding of how the
10 weights and the z-scores are redistributed in the
11 methodology for a nonparticipating hospital when those
12 three measures are taken out?

13 MR. MARCUS: Object to form.

14 A. I have the understanding that more weight is
15 placed on those self-reported measures. So if, for
16 example, they were initially weighted at a 6, they're
17 going to be weighted to an 8.5 or a 9. It makes them
18 carry more weight in your survey.

19 BY MS. BLAIR:

20 Q. Okay.

21 A. In your results.

22 Q. Not mine, but, okay.

23 A. Yeah, in the survey. I apologize.

24 Q. Thank you. I'm teasing.

25 So your understanding is that the weight

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 178

1 that would have been attributed to those three decline
2 to report are distributed evenly across the remaining
3 nine measures?

4 A. I know that they're redistributed. I don't
5 know if it's evenly amongst those four measures, but it
6 makes them carry more weight collectively.

7 Q. How did you first come to learn that the
8 methodology was changing for fall, the Leapfrog
9 methodology for the hospital safety grade was changing
10 for the fall of 2024?

11 A. At Delray because we were going through a
12 transition with quality I think it came closer to the
13 time that the grades were coming out.

14 Q. And is that transition the transition of
15 Heather Wehmeyer to Stephany Johnson?

16 A. Correct. That's what I'm referencing.

17 Q. Are there -- no other transitions?

18 A. No.

19 Q. Okay. And so were you ever told as the CEO
20 of Delray that Leapfrog had put out in May of 2024 a
21 request for public comment to hospital about the change
22 in their methodology?

23 MR. MARCUS: Object to form.

24 A. Leapfrog sends those emails out to
25 healthcare leaders. I mean, we get a lot of emails,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 179

1 and I don't know that I opened them all and looked at
2 them.

3 BY MS. BLAIR:

4 Q. And no one at Delray provided any comment to
5 Leapfrog regarding Leapfrog's request for public
6 comment on the change in methodology, correct?

7 MR. MARCUS: Same objection.

8 A. Not that I'm aware of.

9 BY MS. BLAIR:

10 Q. And what about at the Palm Beach Health
11 Network level, are you aware of whether or not anyone
12 at the group level provided any feedback to Leapfrog's
13 request for public comment to the 2024 methodology?

14 MR. MARCUS: Object to form.

15 A. I'm not aware that anyone did.

16 BY MS. BLAIR:

17 Q. When do you recall first discussing the
18 Leapfrog fall 2024 methodology change?

19 A. I can't recall exact dates, but if I recall,
20 it's around November. It's going to be in the November
21 time frame.

22 Q. November of 2024, correct?

23 A. Correct.

24 Q. And you understand that the grades, the fall
25 safety grades are released on November 20th, 2024?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 180

1 A. I recall that being the case.

2 Q. What do you recall the discussions were
3 about the methodology change in or around November of
4 2024?

5 A. Just like the emails that we've looked at
6 that Stephany provided that our score was going to be
7 impacted because we declined to report those measures.

8 Q. And what was your reaction as the
9 president -- I'm sorry -- as the CEO of Delray Medical
10 to Stephany's conversation with you about the change in
11 the methodology?

12 A. Just like it says. I mean, it's
13 unfortunate. I was concerned because the public
14 doesn't understand all these scoring models, and all
15 they were going to see is the failing grade.

16 Q. And which Exhibit are you referring to when
17 you say "it's unfortunate." Are you referring to
18 Exhibit 4?

19 Sorry. There's a lot.

20 A. Yes.

21 Q. Okay. But Exhibit 4 -- okay. So that's the
22 November 2024 time frame, correct?

23 A. Correct.

24 Q. Okay. So were you -- you then say in this
25 Exhibit 4, you say, "Does your" -- "does our PR team

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 181

1 have something prepared that talks about not
2 participating in this, hence" -- "in this, hence, the
3 low rating?"

4 Who is the PR team you're referring to then?

5 A. So that would be Shelly Weiss.

6 Q. And Shelly Weiss, is she at the group level?

7 A. She's the group level.

8 Q. And is Lisa Cook involved in this at all?

9 A. They work together.

10 Q. Lisa Cook reports to Shelly Weiss?

11 A. Lisa Cook reports to Derek Collins.

12 Q. Do you know whether or not -- well, then if
13 we look at Exhibit 4, Stephany says to you, to your
14 question about the PR team, she says, "not that I have
15 been made aware of but will inquire about it since this
16 will go public in less than two weeks."

17 Do you see that?

18 A. I do.

19 Q. What do you recall the discussions were
20 regarding how the PR -- how PR was going to react to
21 the safety grade going from a D to an F?

22 MR. MARCUS: Object to form.

23 A. Can you repeat part of that question?

24 BY MS. BLAIR:

25 Q. Sure, sure.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 182

1 So we're now at the November 4th, 2024 time
2 frame per Exhibit 4, correct?

3 A. Um-hum, correct.

4 Q. What do you call your discussions as the CEO
5 of Tenet Healthcare were with PR team, as you say in
6 Exhibit 4, around what the PR was going to be when the
7 F grade was released later in November of 2024?

8 A. So from what I recall, I actually went right
9 to our group president so that she would be aware of
10 what this letter grade was going to look like in case
11 she wasn't aware. And then I just asked what kind of
12 talking points we were going to have available so the
13 community could have more accurate information on why
14 we were receiving an F grade and that they could
15 understand it better.

16 Q. And was there a group meeting at the
17 Palm Beach Health Network level between all five
18 hospitals regarding what everybody's grade was going to
19 be in light of the methodology change?

20 A. We have one every month so there would have
21 been one on there.

22 Q. Are they regularly scheduled meetings?

23 A. Our CEO group meetings, yes.

24 Q. Are they the first of the month or last of
25 the month?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 183

1 A. They sometimes fluctuate based on if
2 someone -- like Maggie is over a couple of markets, so
3 sometimes her schedule changes, but typically they're
4 in the middle of the month.

5 Q. So do you recall whether discussions were
6 had with the other five hospitals at your regularly
7 scheduled CEO meeting or whether there was a specific
8 meeting called for the Leapfrog grade issue?

9 A. I'd have to look at my calendar. I know we
10 would have talked about it at a monthly meeting, but I
11 don't remember the additional meetings.

12 Q. And your understanding was that under the
13 new methodology all nonparticipating hospitals were
14 going to receive an F, correct?

15 A. Correct.

16 Q. But Good Samaritan got a D; isn't that true?

17 A. I don't know exactly what their score was.

18 Q. Do you know how many hospitals in the fall
19 of 2024, how many hospitals in the entire country
20 received failing grades?

21 A. I don't.

22 MS. BLAIR: We can mark this as Number 12.

23 (Defendant's Exhibit Number 12 for i.d.)

25 Q. Ms. Havericak, I just handed you what we've

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 184

1 marked as Exhibit 12, which is PBHN 10789, which is an
2 email from Andrew Lofholm to several people.

3 Have you ever seen this email before?

4 A. Well, it looks like I would have gotten it,
5 yes.

6 Q. Okay. Do you recall seeing it?

7 A. I don't. I get so many emails every day,
8 hundreds of them.

9 Q. I feel that.

10 And who is Andrew Lofholm?

11 A. He is another one of our communications and
12 PR folks that works on the team for the network.

13 Q. Okay. And he's at the group level, correct?

14 A. Correct.

15 Q. And this email says, "Hello, everyone.
16 Becker's put out a list this morning naming the 14
17 F-ranking hospitals until the country."

18 Do you see that?

19 A. I see that.

20 Q. So does this refresh your recollection that
21 there were only 14 F's in the whole country?

22 MR. MARCUS: Object to form.

23 A. Based on this email and what Becker's put
24 out, I guess it does.

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 185

1 Q. And so do you understand that there are
2 hundreds of hospitals that don't participate in the
3 Leapfrog Hospital Survey?

4 A. I don't know what hospitals haven't
5 participated.

6 Q. And if you see here it says, PBGMC, GCMC and
7 Delray -- I guess I was wrong -- are all on the list.
8 Do you see that?

9 A. I do.

10 Q. And PBG is Palm Beach Gardens, correct?

11 A. Palm Beach Gardens Medical Center, yes.

12 Q. And GSMC, Good Samaritan Medical Center?

13 A. That's correct.

14 Q. And Delray is your hospital, correct?

15 A. That is correct.

16 Q. And so of the -- I was wrong what I said
17 earlier. So there were two hospitals that got a D,
18 which were West Boca -- of your health network, which
19 would have been West Boca and St. Mary's, correct?

20 MR. MARCUS: Object to form.

21 A. That's correct.

22 BY MS. BLAIR:

23 Q. So does this refresh your recollection that
24 it's not the case that all nonparticipating hospitals
25 receive a failing grade?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 186

1 MR. MARCUS: Same objection.

2 A. No, a D is a failing grade as well.

3 BY MS. BLAIR:

4 Q. Oh. Okay. So of the hundreds of hospitals
5 that don't participate in the Leapfrog survey, is it
6 your understanding all of those hospitals in fall of
7 2024 that did not participate in the Leapfrog Hospital
8 Survey received a D or an F?

9 MR. MARCUS: Object to form.

10 A. I have to see the list of everyone who
11 participated and not participated and see their grades.

12 BY MS. BLAIR:

13 Q. Okay. But you filed the lawsuit in this --
14 you are a plaintiff in this lawsuit that we're here for
15 today, correct?

16 A. That's correct.

17 Q. And you've seen the Complaint that's been
18 filed?

19 A. I have.

20 Q. And did you see it before it was filed?

21 A. Yes.

22 Q. And do you understand that one of the
23 allegations is that under the new scoring method that
24 was put into place in fall of 2024, all
25 nonparticipating hospitals receive a failing grade?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 187

1 Are you aware that's one of the allegations?

2 MR. MARCUS: Object to form.

3 A. I am.

4 BY MS. BLAIR:

5 Q. What did you do to investigate whether or
6 not that allegation was true before the Complaint was
7 filed?

8 MR. MARCUS: Is it, the "you" is referring
9 to her personally?

10 MS. BLAIR: Delray Medical Center.

11 A. We worked with our counsel.

12 BY MS. BLAIR:

13 Q. Okay. Delray Medical Center didn't perform
14 any independent analysis to confirm that the
15 allegations contained in the Complaint were true prior
16 to it being filed?

17 MR. MARCUS: Object to form.

18 A. We worked with our counsel.

19 BY MS. BLAIR:

CONFIDENTIAL

Page 188

1 A. We relied on them.

2 Q. If you looked at that document I just showed
3 you, the F one, is that Exhibit 11? I apologize. 12.
4 I apologize. 12, is that a two-page document that I
5 handed you?

6 A. It was a one-page.

7 Q. Oh. Sorry, everybody. I had two pages.
8 I'm my own assistant today.

9 A. Thank you.

10 Q. And this will be a group Exhibit because
11 they did not come together, but it was meant to be a
12 group. We can mark this 13.

13 MR. MARCUS: Okay. This is a separate?

14 MS. BLAIR: Can you mark that Exhibit 13.

15 MR. MARCUS: What was it supposed to go
16 with?

17 MS. BLAIR: 12.

18 MR. MARCUS: The Bates.

19 MS. BLAIR: No, no, it was just going to be
20 a group Exhibit.

21 MR. MARCUS: They're not related. The Bates
22 numbers are very different, right?

23 MS. BLAIR: Correct.

24 MR. MARCUS: Just two separate documents.

25 MS. BLAIR: Okay. So we'll mark this as 13

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 189

1 so there's no confusion.

2 (Defendant's Exhibit Number 13 for i.d.)

3 BY MS. BLAIR:

4 Q. Before we get to that, though, real quick,
5 in November of 2024, after you learn about the
6 methodology change but before the grade comes out, did
7 you have a meeting with the governing board of Delray
8 to discuss that the grade was going to mostly likely be
9 an F?

10 A. We did it, I think, at our regularly
11 scheduled governing board member meeting because we
12 have a governing board meeting every month.

13 Q. And do you recall what the conversations
14 were with your board of -- your governing board about
15 the fact that Delray was going to be an F in the
16 Leapfrog hospital safety grade for fall of 2024?

17 A. We talked through the measures, talked about
18 not participating and what those consequences of not
19 participating looked like. And then we went over where
20 we were not performing as well in the CMS measures and
21 the time frame of when those measures had been
22 accounted for because, again, like a lot of them are
23 lay people on that board, and they are used --
24 accustomed to seeing quality data every month, so it
25 looks very different than what they're seeing every

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 190

1 month because we've made a lot of improvements. So we
2 just went through the methodology, went through the
3 measures and then really talked a little bit, I think
4 we did have talking points at that point that they
5 would be able to use when they were out in the
6 community as well.

7 Q. Was there anybody on the board at that
8 meeting in November of 2024 that expressed that they
9 believed that Delray should participate in the Leapfrog
10 Hospital Survey?

11 A. I don't recall anyone speaking up directly
12 to say that.

13 Q. Do you know whether or not the board was
14 told at that November 2024 meeting that all hospitals
15 that don't participate receive a failing grade?

16 A. I don't recall what I said during that
17 meeting.

18 Q. Do you recall whether or not at that meeting
19 you advised your board of directors that Leapfrog was a
20 brazen play-to-pay [sic] scheme -- pay-to-play scheme?

21 MR. MARCUS: Object to form.

22 A. I don't recall the language that I used in
23 the meeting.

24 BY MS. BLAIR:

25 Q. Do you recall making any statements to your

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 191

1 board that hospitals that pay Leapfrog -- that
2 hospitals can pay Leapfrog for better grades?

3 A. I don't recall making that statement.

4 Q. Did you make any statements to your board
5 that Leapfrog -- that hospitals can pay Leapfrog
6 consulting fees in exchange for better grades?

7 A. I don't recall discussing that with the
8 board.

9 Q. After you learn about the methodology change
10 for the 2024 Leapfrog hospital safety grade but before
11 the grade comes out, did you have a meeting with the
12 med exec about the change, the anticipated change in
13 Delray's grade?

14 A. Well, our med exec is the week before
15 governing board, so we definitely talked about it that
16 same month.

17 Q. Do you recall what the discussions were at
18 the med exec board?

19 A. It was the same discussions that I was
20 having at the governing board level, but it was just a
21 little bit more clinical.

22 Q. Do you recall anybody on the med exec
23 expressing a desire to participate in the Leapfrog
24 Hospital Survey?

25 A. There was feedback from some of the med exec

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 192

1 members -- I don't remember which ones they were --
2 that why would we not just do it so we don't have to go
3 through having an F because we knew kind of where we
4 would be positioned and it wouldn't be an F.

5 Q. And what was your position as the
6 president -- or I'm sorry -- as the CEO of Delray about
7 participating in the Leapfrog Hospital Survey in or
8 around that time?

9 A. What I shared with the group was that we
10 were just focusing our attention on our patient safety,
11 on our care experience and on our other accreditations
12 that we felt there was no value in.

13 Q. Did you tell either the med exec or the
14 governing board that home office did not support
15 participating in the Leapfrog Hospital Survey?

16 MR. MARCUS: Object to form.

17 A. I don't recall telling them that.

18 BY MS. BLAIR:

19 Q. Do you recall knowing that in or around
20 November of 2024?

21 MR. MARCUS: Same objection.

22 A. No.

23 BY MS. BLAIR:

24 Q. Do you recall receiving any email to that
25 effect in or around November of 2024?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 193

1 A. Again, I mean, I get hundreds of emails a
2 day, so I don't know when I would have received an
3 email that's a corporate office except for the ones
4 you've shown me today.

5 Q. Going back to Exhibit 13 that we previously
6 marked, these are the Delray Medical Center Leapfrog
7 key messages. Do you see that?

8 A. I do.

9 MR. MARCUS: Before you ask a question about
10 the document can -- do you have the email, the
11 apparent email?

12 MS. BLAIR: I don't.

13 MR. MARCUS: Okay. Because I'm pretty sure
14 this is not a standalone document.

15 MS. BLAIR: Well, then I'll just ask a some
16 foundational questions.

17 BY MS. BLAIR:

18 Q. Have you seen this document before today?

19 A. Yes.

20 Q. Okay. Do you recall who would have sent it
21 to you?

22 A. It would be either Lisa or Shelly.

23 Q. Lisa being Lisa Cook?

24 A. Lisa Cook or Shelly Weiss.

25 Q. Okay. And do you know who put together

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 194

1 these talking points?

2 A. I don't know who puts them together, but I
3 typically get talking points from Lisa Cook or
4 Shelly Weiss.

5 Q. Do you know if they're approved by home
6 office?

7 MR. MARCUS: Object to form.

8 A. I don't know who approves them because I'm
9 not involved in that process.

10 BY MS. BLAIR:

11 Q. And you see one, two, three, four, five, six
12 bullet points down it says, "CMS does still assign us a
13 score, but it is relying on limited public available
14 data from secondary sources that haven't been
15 verified."

16 What does that refer to?

17 MR. MARCUS: Object to form.

18 A. That's referring to the CMS data. So CMS
19 data is just taking a subset of a population that is
20 the Medicare patient population, and you have to
21 remember at Delray Medical Center we're caring for an
22 elderly population so we're going to have a higher
23 number of complex patients, so, I mean, that's a
24 limited number. That's not all that we take care of.
25 So this CMS star rankings doesn't take into account any

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 195

1 of our commercial payers or patients that are outside
2 of that Medicare population, so it is a limited data
3 source.

4 Q. Okay. And when you say CMS still assign --
5 not you but Delray. When Delray says, "CMS does still
6 assign us a score," is that referring to the star
7 rating?

8 MR. MARCUS: Well, object to form. How do
9 you know that Delray is saying this?

10 MS. BLAIR: Because it says "Delray Medical
11 Center Leapfrog key messages." Is this not -- I
12 guess I should ask.

13 MR. MARCUS: Do you know the author of the
14 document?

15 MS. BLAIR: She just said it was either
16 Lisa Cook or Shelly Weiss.

17 BY MS. BLAIR:

18 Q. Were these Delray Medical Center Leapfrog --

19 MR. MARCUS: She actually said that she gets
20 talking points from them. She didn't identify
21 these specifically.

22 BY MS. BLAIR:

23 Q. Are these talking points that you would have
24 gotten from Palm Beach Health Network?

25 A. They look like it, but, again, like the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 196

1 email that goes with it would be helpful so we could
2 see.

3 Q. Sure. I don't have it.

4 So I'm just asking, does CMS assign you a
5 score, or is that referring to the star rating, do you
6 know?

7 A. I don't know what they're referring to here.
8 In my opinion, CMS gives us a star rating.

9 Q. Okay. And then I understand when you say
10 limited public available data, you believe it's limited
11 because it would only be the Medicare or Medicaid
12 population, correct?

13 A. Correct.

14 Q. And then it says "from secondary sources."

15 Do you know what secondary sources are that
16 CMS relies on?

17 A. I'm not aware.

18 Q. And then it says "that haven't been
19 verified."

20 Do you know what that's referring to in
21 these talking points?

22 MR. MARCUS: Object to form.

23 A. I don't know what their interpretation was
24 here.

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 197

1 Q. And then if you look at the bottom bullet
2 point, it says, "Recent quality awards we have won
3 include..."

4 Are those awards that Delray held in or
5 around November, December of 2024?

6 Well, excuse me. Strike that.

7 Do you see here they refer to awards that
8 you have received in 2025, correct?

9 A. Those are awards that we've had in '25, yes.

10 Q. And those are Delray awards, to the best of
11 your knowledge?

12 A. Delray has all of those awards, yes.

13 Q. And then you see the third bullet point it
14 says, "Due to the use of outdated data for this report,
15 we have made the decision not to submit or participate
16 in the annual Leapfrog Hospital Survey."

17 Correct?

18 A. I see that line, yes.

19 Q. Is the outdated data that it's referring to
20 the CMS data?

21 MR. MARCUS: Object to form.

22 A. I don't know what it's referring to.

23 BY MS. BLAIR:

24 Q. We talked a little bit about Larry Edelson
25 previously. Do you recall that?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 198

1 A. Yes.

2 Q. And he was a previous board member for
3 Delray, correct?

4 A. He was.

5 Q. And he was not -- he has not been on the
6 board since you've been the CEO of Delray, correct?

7 A. That's correct.

8 Q. And do you know when he first got off the
9 Delray board?

10 A. I'm not sure because it was before I came.

11 Q. Do you deal with him regularly?

12 A. Yes.

13 Q. In what capacity do you deal with him since
14 he's not on the board?

15 A. He's a strong community advocate for us in
16 the community, and he still works in the healthcare
17 space at the Proton Institute that's on our campus.

18 (A discussion was held off the record.)

19 (Defendant's Exhibit Number 14 for i.d.)

20 MR. MARCUS: So 14.

21 MS. BLAIR: 14.

22 BY MS. BLAIR:

23 Q. Ms. Havericak, I've just handed you what
24 we've marked Exhibit 14 for your deposition. And this
25 is a series of, it looks like a series of emails, but

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 199

1 there are two, it's a group Exhibit, I think. Is it
2 two pages, what you have?

3 A. Mine are two pages, but they look like two
4 separate emails.

5 Q. I think they're two separate emails. But
6 they both, if you read that, both have to do with
7 Larry Edelson.

8 A. Yes, that's correct.

9 Q. Okay. And so I want to start with the
10 second page of this which is later in time which is the
11 December 17th, 2024 email from you to Lisa Cook and
12 Maggie Gill, the subject being Larry E.

13 If or around this time, December 17th, 2024,
14 what is Larry E's job?

15 A. He's just a community advocate.

16 Q. Okay.

17 A. And his job, though, he does consulting for
18 the South Florida Proton Institute.

19 Q. So say it -- the South Florida Proton --

20 A. The South Florida Proton Institute.

21 Q. What is the South Florida Proton Institute?

22 A. We have a proton beam institute on our
23 campus. It's a radiology oncology center.

24 Q. Got it.

25 Okay. So is he a business advocate?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 200

1 A. No, he does some business consulting for
2 them. He's just an advocate in our community for our
3 hospital.

4 Q. And when you say for your hospital, is that
5 like he markets Delray?

6 A. On his own, yes. He's just very connected
7 in the community. He's a key constituent in our
8 community, very influential and a big supporter of
9 Delray.

10 Q. Do you know what he did before he consulted
11 with the South Florida Proton Institute?

12 A. Yeah, he's an entrepreneur. He started like
13 1-800 Contacts. He's had a whole bunch of start-up
14 companies that he's developed and sold.

15 Q. Okay. And in this email, and I want to
16 focus on like the last sentence of the first full
17 paragraph, he's -- well, he says, "He likes to bring up
18 how things were five, ten years ago, and I reminded him
19 this is new era."

20 Do you know what he's referring to five, ten
21 years ago. I know you were not the CEO of Delray, but
22 do you have any memory of what he was talking about?

23 A. He just brings up historic things where
24 there were different leaders there that weren't always
25 focused on patient safety and quality.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 201

1 Q. Okay. And so is he focused on patient
2 safety and quality?

3 A. Very much so.

4 Q. Got it. And so he's not speaking about the
5 finances of the hospital. He's speaking about patient
6 safety and quality?

7 A. Correct.

8 Q. So would it be fair to say that he is
9 interested in the types of ratings Delray gets from
10 hospital reviewers like Leapfrog?

11 A. Yes.

12 Q. And then you said, "And I reminded him this
13 is a new era."

14 What do you mean by that?

15 A. That we just are looking at things very
16 differently, that I, you know, that's the year I came
17 in as the new CEO, and I have different focus than the
18 previous CEOs. I'm a clinical person by background,
19 and our top focus and priority is always going to be
20 patient safety, care experience and just recruiting the
21 top talent that we can on the physician side and the
22 staff side.

23 Q. So your, as I understand your testimony here
24 today, your mission would align with Larry's mission to
25 put patient quality first, correct?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 202

1 A. Correct.

2 Q. Okay. So when he's talking about how things
3 worked five, ten years ago, is he saying they were bad
4 five, ten years ago, or is he saying that they were
5 good five, ten years ago?

6 A. That they were bad.

7 Q. Got it.

8 Okay. And does he like regularly have
9 meetings with you about patient safety?

10 A. He just calls. He calls me a lot, so I make
11 time for him.

12 Q. How old is Larry?

13 A. Almost 80 maybe or late 70s.

14 Q. Okay. And then if we go to the first page
15 of group Exhibit 14, there's an email from Shelly,
16 "Good afternoon. Attached please find some of T" --
17 "some TPs for Leapfrog."

18 Do you see that?

19 A. Yes.

20 Q. Do you understand the acronym for TPs would
21 be talking points?

22 A. That's what I would interpret it as.

23 Q. And then Lisa --

24 MR. MARCUS: Is there an attachment to the
25 document?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 203

1 MS. BLAIR: No, the way you guys produced
2 emails, you Bates labeled the emails, and all
3 the attachments were in native so I had to go
4 try to figure that out, so, no. If there is, I
5 couldn't find it.

6 BY MS. BLAIR:

7 Q. And then Lisa Cook says, "Thanks, Shelly.
8 Heather, let me know if it's okay to send to Larry."

9 Is this type of document you would send to
10 Larry to sort of quell his concerns about patient
11 safety?

12 A. So just personally, I don't like to just
13 send documents to people, especially someone like him
14 because he's -- he likes to understand all the details,
15 so that's why I wouldn't trust him with it. I'd want
16 to sit down and explain it to him rather than just
17 sending him a piece of paper that he might not
18 understand.

19 Q. Fair enough.

20 A. Because he's very thorough.

21 Q. And I only have one of these, and it is not
22 Bates labeled, but it comes from one of those native
23 productions, so I will show this to you before I mark
24 it. And I will find the other -- find another copy for
25 you, but it comes from your production from the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 204

1 natives.

2 MR. MARCUS: Who created it?

3 MS. BLAIR: I don't know. It's not --
4 obviously I don't have this document. It's not
5 a big deal, but... my only question with that
6 document is going to be who is Steve Saltzman.

7 Did you just write on it?

8 MR. MARCUS: Did you just introduce it?

9 MS. BLAIR: I'm going to mark it. I only
10 have one copy.

11 MR. MARCUS: Oh. I put on "15" for you.

12 MS. BLAIR: Thank you.

13 Could you mark this as 15?

14 MR. MARCUS: We'll object if it turns out it
15 wasn't produced. How's that?

16 MS. BLAIR: Yeah. If I had found this
17 somewhere, that would be interesting.

18 (Defendant's Exhibit Number 15 for i.d.)

19 BY MS. BLAIR:

20 Q. Ms. Havericak, I'm handing you now what
21 we've marked as Exhibit 15. You'll see you're not on
22 this email. But it's in a man named Steve Saltzman to
23 Larry Edelson, the infamous.

24 I asked you earlier in this deposition if
25 you knew who Steve Saltzman was. In reading this

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 205

2 who he is?

3 A. No. I don't -- I'm not familiar with him.

4 MS. BLAIR: Okay. That's the last of my
5 Larry Edelson questions so we can take a break
6 at this point. Thank you.

7 THE VIDEOGRAPHER: This is the end of media
8 three. The time is 2:16 p.m. We're going off
9 the record for a media change.

10 (A recess was taken from 2:15 p.m. to 2:31 p.m.)

11 THE VIDEOGRAPHER: This is media number four
12 in the deposition of Heather Havericak. The
13 time is 2:32 p.m. We are back on the record.

14 BY MS. BLAIR:

15 Q. Ms. Havericak, I just wanted to talk briefly
16 about your understanding of how, if at all, in your
17 words, Leapfrog verifies survey data reported to it.
18 Do you have any understanding what Leapfrog does to
19 verify data?

20 MR. MARCUS: Object to form.

21 A. In my understanding, Leapfrog doesn't come
22 on site and verify practices or data. I have never
23 seen that done in my experience.

24 BY MS. BLAIR:

25 Q. Okay. Do you know whether or not Leapfrog

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 206

1 requests documents from hospitals to verify data?

2 MR. MARCUS: Object to form.

3 A. In my experience they've never requested
4 documents.

5 BY MS. BLAIR:

6 Q. Are you aware from your time as the CEO at
7 Broward at least that hospitals have to sign an
8 attestation when they submit their survey results?

9 A. I am.

10 Q. Are you aware that that attestation tells
11 the hospitals that Leapfrog can perform an audit of the
12 hospital on their survey data responses?

13 A. I don't remember exactly what the
14 attestation says.

15 Q. But as you sit here today, you don't know of
16 any hospital that have ever been audited, onsite
17 audited by Leapfrog?

18 A. Correct.

19 Q. And as you sit here today you're unaware of
20 any hospitals that have been requested to provide
21 documentation to verify their survey responses?

22 A. Correct.

23 Q. Are you aware that after a hospital provides
24 its answers to the Leapfrog Hospital Survey Leapfrog
25 does perform algorithmic review of that data set to see

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 207

1 if it is accurate?

2 MR. MARCUS: Object to form.

3 A. I'm not aware of what Leapfrog does on their
4 side.

5 BY MS. BLAIR:

6 Q. You had stated earlier -- and we'll just
7 mark this as 16. And this is the last one.

8 (Defendant's Exhibit Number 16 for i.d.)

9 BY MS. BLAIR:

10 Q. Ms. Havericak, earlier in your discussions
11 at this deposition you told me that you reviewed that
12 358-page [sic] hospital survey because you thought
13 there might be the possibility that your hospital would
14 be reverting to the Leapfrog Hospital Survey. Do you
15 remember that?

16 A. Yes.

17 Q. And I just now have handed you what we've
18 marked as Exhibit 16, which is an email from you to
19 Jennifer Shoemaker, Nicole Jackson on December 11, 2024
20 entitled "Leapfrog Standards."

21 Do you see that?

22 A. Yes.

23 Q. And you say, "Sending this to you both as a
24 prep. We might be going back to Leapfrog and want you
25 both to review the Leapfrog criteria guide."

Heather Havericak
September 19, 2025

Page 208

1 Do you see that?

2 A. Yes.

3 Q. And if you look at the attachments, and I
4 specifically didn't attach, do you see attached was the
5 2024 hospital survey scoring algorithm?

6 A. Yes.

7 Q. And do you have an understanding that that
8 is the method -- you provided them with the Leapfrog
9 scoring methodology for 2024?

10 A. Yes.

11 Q. And you go on to say here, "It will show you
12 the standard" -- "what the standard is, where you can
13 meet, achieve or not meet."

14 Do you see that?

15 A. Yes.

16 Q. Does that refresh your recollection in any
17 way that there are certain scores assigned with meet,
18 achieve or not meet?

19 A. Yes.

20 Q. But you still don't recall whether or not
21 for those four imputed measures in spring of 2024 that
22 an achievement was 100 out of 100 points?

23 MR. MARCUS: Object to form.

24 A. I don't remember the exact numerical number
25 associated with those achievements.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 209

1 BY MS. BLAIR:

2 Q. So this doesn't refresh your recollection?

3 A. It just refreshes that there's the achieve,
4 does not meet or meet.

5 Q. Got it.

6 And then you go on to say, "Nothing has been
7 decided at this time. Just wanted to send it so you
8 all had some time to review and think about some areas
9 where we can really excel."

10 Do you see that sentence?

11 A. Yes.

12 Q. What is your understanding in or around
13 December 11, 2024, what was happening so that you could
14 relay to these women that nothing has been decided at
15 this time?

16 A. Well, that goes back to what we talked about
17 earlier, that we had had discussion of if we were to
18 potentially go back to reporting to Leapfrog.

19 Q. And do you recall who was having that
20 discussion about report to go Leapfrog?

21 A. That was the discussion that I mentioned
22 earlier we were having at our group, Palm Beach group
23 CEO meeting.

24 Q. Did you have an understanding that
25 Maggie Gill was going to ask Tenet home office

Heather Havericak

Page 210

1 whether -- for an exception for the hospitals in the
2 Palm Beach Health Network to participate in the
3 Leapfrog Hospital Survey?

4 A. There was some discussion to potentially
5 getting an exception to participate because of the
6 damage that it was causing reputationally for us.

7 Q. And do you recall what the outcome of
8 Maggie Gill's discussion was Tenet home office was
9 about getting that exception?

10 A. I just know the outcome as a whole we talked
11 about at the group level at the network level was that
12 we were not going to participate.

13 Q. So your memory is you made the decision at
14 the group level not no participate regardless of what
15 home office had said?

16 A. I recall us having a discussion about it at
17 the group level.

18 Q. Do you recall at a group level coming to the
19 consensus that you were not going to participate in the
20 Leapfrog Hospital Survey regardless of home office's --
21 home office giving you an exception or not?

22 MR. MARCUS: Object to form.

23 A. I don't -- I don't recall like what the
24 final decision was on the exception. I just recall us
25 speaking about is it as a group and that we were --

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 211

1 still believed it was not adding value and we were not
2 going to participate.

3 BY MS. BLAIR:

4 Q. Okay. So it's your testimony on behalf of
5 Delray in your corporate capacity that the decision not
6 to participate in the Leapfrog Hospital Survey in or
7 around December of 2024 was a decision made at the
8 group level?

9 A. Correct.

10 Q. Are you aware that Maggie Gill went to home
11 office to ask for an exception for these five hospitals
12 to participate in the Leapfrog Hospital Survey?

13 MR. MARCUS: Object to form.

14 A. I'm aware that there was discussion about
15 it. I don't know what she actually went back and asked
16 for.

17 BY MS. BLAIR:

18 Q. Okay. And you don't recall whether or not
19 there was an email from home office, an email from
20 Anna Gunod to Regina West reporting back to -- also
21 CC'ing Andrea Nunez, Heather Wehmeyer,
22 Kathleen McDonald or Taylor Pool that where Anna Gunod
23 says, "It's a no from home office. Facilities who need
24 an exception due to Leapfrog participation being tied
25 to a local requirement, contract compliance or

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 212

1 reimbursement need to submit their case for review by
2 Dr. Franklin," you don't recall that?

3 MR. MARCUS: Object to form. You want to
4 show her the email or?

5 MS. BLAIR: I only have one with my markings
6 on it, so, sorry.

7 I'll show it to you. It has my highlight on
8 it.

9 This was previously marked as
10 Sheri Montgomery's deposition, but we can mark
11 this as 17.

12 (Defendant's Exhibit Number 17 for i.d.)

13 BY MS. BLAIR:

14 Q. I'm not trying to be tricky. I just don't
15 fly with all the copies.

17 we've marked as Exhibit 17, which was previously -- I
18 don't have copies -- which was previously shown to
19 Sheri Montgomery.

20 MR. MARCUS: Can I just see it?

21 MS. BLAIR: And I'll submit for the record
22 that those highlights are my highlights.

23 BY MS. BLAIR:

24 Q. Have you seen this email before today?

25 A. I don't believe I have.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 213

1 Q. Okay. And you'll see it's dated
2 September of 2024, correct?

3 A. Correct.

4 Q. And do you see that sentence where -- first
5 of all, who is Anna Gunod?

6 A. She is the corporate director of
7 infection -- or I'm sorry -- national director of
8 infection prevention, so she's over infection control
9 for the whole Tenet corporation.

10 Q. Okay. And do you see where she says it's a
11 no from home office?

12 A. I see the statement, "It's a no from home
13 office."

14 Q. And what does it go on to say? What's the
15 next sentence?

16 A. "Facilities who need an exception due to
17 Leapfrog participation being tied to a local
18 requirement, contract compliance or reimbursement need
19 to submit their case for review by Dr. Franklin."

20 Q. Okay. And do you know whether or not the
21 five hospitals that are plaintiffs in this litigation
22 submitted a request for review to Dr. Franklin?

23 A. I don't know if they did. I know I didn't
24 personally submit an exception to Dr. Franklin.

25 Q. Okay. And if we look at Exhibit 16, that is

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 214

1 an Exhibit from December of 2024, correct?

2 A. That's correct.

3 Q. And at that time you're telling your staff
4 that you may be going back to Leapfrog in that December
5 email, correct?

6 A. That's correct.

7 Q. And so as you sit here today, do you have
8 any understanding of whether or not between the
9 September 2024 time frame that I've marked as
10 Exhibit 17 and the December 2024 time frame that's
11 marked as Exhibit 16 there were ongoing discussions
12 about potentially participating in Leapfrog?

13 A. Just the discussions I told you about that
14 we talked about at the network level at our CEO
15 meetings.

16 Q. But you have no memory of being told about
17 Anna Gunod's email where she says "it's a no from home
18 office"?

19 A. No, this is the first time I'm hearing about
20 this.

21 Q. Okay.

22 A. Do you need this one back?

23 Q. No. It's going to be part of the record
24 now.

25 And then you say in this email, I'm going

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 215

1 back to 16, Exhibit 16, I'm sorry, you say, "There are
2 many measures we can position" -- "we can be positioned
3 in the top achievement."

4 Do you see that sentence?

5 A. Yes.

6 Q. Do you recall what measures in December of
7 2024 you believed you could be positioned in the top
8 achievement?

9 A. Like I explained earlier, our improvements
10 in our hospital-acquired infections.

11 Q. Ultimately the five plaintiff hospitals did
12 not participate in the Leapfrog Hospital Survey,
13 correct?

14 A. That is correct.

15 Q. And still to this day do not participate in
16 the Leapfrog Hospital Survey, correct?

17 A. That's correct.

18 Q. And are you aware that in January of 2025,
19 there was a cease and desist letter sent by the five
20 plaintiff hospitals to Leapfrog demanding that they
21 cease and desist from grading these five hospitals for
22 the spring 2025 hospital safety grade?

23 A. That's correct.

24 Q. What involvement, if any, did -- and I don't
25 want to know any conversations you had with your

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 216

1 counsel. But what involvement did you have, if any, in
2 making the decision to send the cease and desist letter
3 to Leapfrog?

4 A. I just reviewed the letter that was prepared
5 by counsel.

6 Q. Was the cease -- was the plan to send the
7 cease and desist letter discussed at any Palm Beach
8 Health Network meetings outside the presence of your
9 lawyer?

10 A. Not that I can recall.

11 Q. Did the Palm Beach Health Network have to
12 take a vote to make the decision to send the cease and
13 desist letter?

14 A. Not that I recall.

15 Q. Did the Palm Beach Health Network have to
16 get the permission of Tenet home office to send the
17 cease and desist letter?

18 MR. MARCUS: Object to form.

19 A. I wouldn't be involved in that discussion,
20 so I'm not sure what approvals were necessary.

21 BY MS. BLAIR:

22 Q. Who would be involved in that discussion on
23 behalf of Palm Beach Health Network?

24 A. Our group president, Maggie Gill.

25 Q. Anyone else?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 217

1 A. I think that would be it.

2 Q. Do you know whether or not at the time the
3 cease and desist letter was sent in January of 2025 the
4 five plaintiff hospitals had already made the decision
5 to file suit against Leapfrog?

6 MR. MARCUS: Object to form.

7 A. I'm not sure.

8 BY MS. BLAIR:

9 Q. Do you know who all -- and, again, I don't
10 want to know about any conversations you had with your
11 lawyers, but do you know who all on behalf of
12 Palm Beach Health Network was involved in the drafting
13 of the cease and -- the January cease and desist
14 letter?

15 MR. MARCUS: Object to form.

16 A. It, again, was worked on with counsel.

17 BY MS. BLAIR:

18 Q. Did you have any meetings with your
19 governing board advising them that the plan was to send
20 a cease and desist letter to Leapfrog about your
21 hospital safety grade?

22 A. I don't believe I had a conversation with
23 them about the cease and desist letter.

24 Q. Did you ever report the cease and desist
25 letter to the governing board?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 218

1 A. We talked about everything holistically when
2 the lawsuit was coming out so that they were aware.

3 Q. So your governing board did not take a vote
4 as to whether or not a cease and desist letter should
5 be sent to Leapfrog?

6 A. They did not take a vote.

7 Q. Did you go to your med exec about the fact
8 that you were sending a cease and desist letter in
9 January of 2025 to Leapfrog?

10 A. I believe we did discuss that in January at
11 the med exec meeting.

12 Q. What do you recall about that discussion?

13 A. Just that the cease and desist was going to
14 go out so that the letter grade could potentially be
15 retracted and not publicly reported.

16 Q. Was the expectation that the fall 2024 grade
17 would be retracted?

18 MR. MARCUS: Object to form.

19 A. I don't know what the expectation was. Just
20 we talked about the letter.

21 BY MS. BLAIR:

22 Q. And what was the outcome of discussion at
23 the med exec meeting about the sending of a cease and
24 desist letter?

25 A. They were supportive of that.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 219

1 Q. Do you recall any specific statements that
2 were made in support of sending the cease and desist
3 letter?

4 A. I don't remember the specifics.

5 Q. Do you recall whether any of the members of
6 the med exec were supportive of sending a cease and
7 desist letter because they believed that Leapfrog was a
8 pay-to-play scheme?

9 MR. MARCUS: Object to form.

10 A. I don't know what they each believed.

11 BY MS. BLAIR:

12 Q. Were they told that?

13 MR. MARCUS: Same objection.

14 A. I don't remember exactly what we talked
15 about.

16 BY MS. BLAIR:

17 Q. Did they see the cease and desist letter
18 before it was sent?

19 A. I did not personally share a cease and
20 desist letter.

21 Q. Do you know when the decision was made to
22 send the cease and desist letter?

23 MR. MARCUS: Object to form.

24 A. I don't know the exact dates.

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 220

1 Q. Do you know who made the decision that a
2 cease and desist letter would be sent?

3 A. No.

4 Q. Do you know whether the decision to send the
5 cease and desist letter was the decision of the Palm
6 Beach Health Network or of Tenet Healthcare home
7 office?

8 MR. MARCUS: Object.

9 A. I don't know.

10 MS. BLAIR: Can you mark this as 18?

11 (Defendant's Exhibit Number 18 for i.d.)

12 BY MS. BLAIR:

13 Q. Ms. Havericak, I'm now handing you what
14 we've just now marked as Exhibit 46 [sic] to your
15 deposition. Do you have in front of you an email,
16 microscopically, dated December 13th, 2024?

17 A. Yes.

18 Q. And it's from Maggie Gill to
19 Teresa Urquhart, U-r-q-u-h-a-r-t, correct?

20 A. That's correct.

21 Q. And also Mohammad Aslam, correct?

22 A. Yes.

23 Q. Who is Teresa Urquhart?

24 A. She's the market president in the Carolinas,
25 I believe, in South Carolina for the two hospitals

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 221

1 there, and Maggie is over that territory as well.

2 Q. Who is Mohammad Aslam?

3 A. I'm sorry. I don't know Mohammad.

4 Q. And Shelly Weiss is CC'd on this?

5 A. She is CC'd, yes.

6 Q. Okay. And if we go down to the first email
7 in this string, which would be the last email here but
8 the first time-wise, from Maggie Gill to Regina West,
9 Ricardo Ramirez, he's chief nursing officer for the
10 group, correct?

11 A. For our group in Palm Beach Health Network,
12 yes.

13 Q. Okay. And then we have Teresa Urquhart and
14 Mohammad Aslam again. And do you see Maggie Gill is
15 saying, "Please send me request, reintroduce Leapfrog
16 reporting. Include rationale, imputed score and
17 clippings of negative press/community and MD feedback."

18 Do you see that?

19 A. I see it.

20 Q. And then she goes on to say, "I will request
21 an exception for PBHN and PMC to start next reporting
22 period."

23 Do you see that?

24 A. I see that.

25 Q. Do you know what PMC is?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 222

1 A. Piedmont Medical Center in the Carolinas.

2 So there's Fort Mill and Piedmont.

3 Q. Got it.

4 A. Those are Teresa's hospitals.

5 Q. And then Maggie reports back but not to you,
6 she dropped some people off this, and she says, "I have
7 spoken with several members of ELT about this issue."

8 Do you see that?

9 A. Yes.

10 Q. Is ELT an acronym that's regularly used at
11 Tenet?

12 A. I don't use that. I don't know.

13 Q. Do you know whether that refers to executive
14 leadership team?

15 A. I don't know what she's referring to because
16 it's not my email.

17 Q. Okay.

18 A. And I'm not on any strings of this email.

19 Q. Understood. And you've never seen this
20 email before?

21 A. No.

22 Q. Okay. So when she says, "There are efforts
23 underway to address Leapfrog's ability to score us even
24 though we don't participate," you don't know what that
25 means?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 223

1 A. No.

2 Q. Okay. Do you know whether or not PMC sent a
3 cease and desist letter to Leapfrog?

4 A. I'm not aware of what they've done.

5 Q. Do you know whether or not PMC has filed
6 suit against Leapfrog?

7 A. I'm not aware that they've filed suit.

8 Q. Have you had any discussions either at the
9 Palm Beach Health Network level or with home office
10 level about any other hospitals in the Tenet Healthcare
11 system filing suit against Leapfrog based on their
12 nonparticipation in the Leapfrog Hospital Survey?

13 A. I haven't been part of any of those
14 discussions.

15 Q. Ultimately a lawsuit was filed and that's
16 what we're here for today, correct?

17 A. Correct.

18 Q. What -- and, again, I don't want to know
19 about any discussions you had with your lawyers, but
20 what discussions did you have at the Palm Beach network
21 health level -- Palm Beach Health Network level
22 regarding the decision to file suit against Leapfrog?

23 A. We just had discussion about the
24 reputational harm that had been done to all of our
25 facilities and how it had shaken the confidence of a

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 224

1 community that trusts us to provide healthcare and had
2 given the impression, the false impression that we
3 don't provide high value, high quality care, and that's
4 where that decision came from.

5 Q. Did you have any discussions about the fact
6 that filing a lawsuit and going on a PR campaign would
7 further publicize your Leapfrog grades to the
8 community?

9 A. Which question do you want me to answer
10 because there was two questions in there?

11 Q. Sure. Did you have any discussions at the
12 Palm Beach Health Network level about the fact that
13 filing suit would further publicize your Leapfrog
14 safety grades?

15 A. I don't recall having specific conversation
16 about it further publicizing, but that was a risk that
17 existed.

18 Q. And, in fact, are you aware that the
19 Palm Beach Health Network did, in fact, publicize the
20 lawsuit in the local media?

21 A. I'm aware of a statement that went out.

22 Q. Are you aware that lawyers from Gibson Dunn
23 were on TV talking about the grades that your hospital
24 received?

25 A. I am aware.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 225

1 Q. And are you aware that there were several
2 articles written that displayed the fact that Delray
3 received an F as a result of the filed litigation?

4 A. I'm aware of those.

5 Q. And were there any discussions outside the
6 purview of your lawyers at the Palm Beach Health
7 Network level prior to the filing of the lawsuit that
8 the further publicization of your grades could have a
9 further harmful impact on the community's view of the
10 hospitals?

11 MR. MARCUS: Object to form.

12 A. I don't recall exactly what that
13 conversation may be. It was a risk that I think
14 everyone was aware of.

15 BY MS. BLAIR:

16 Q. Okay. Did you have a conversation -- do you
17 recall a conversation generally about that risk?

18 A. Yeah, a general conversation about that.

19 Q. Okay. And what do you recall?

20 A. Just that it could have more attention
21 around it.

22 Q. Do you know whether it did or did not have
23 more attention around it?

24 A. I can't say if it did or didn't.

25 Q. Do you know -- in all of your time as a CEO

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 226

1 of a hospital, which has been decades, how many times
2 have you had discussions with patients about Leapfrog?

3 A. I've had them a lot recently because
4 consumers are looking at Leapfrog because of the way
5 that things are marketed.

6 Q. Well, let's talk about prior to November of
7 2024. How many conversations had you had with patients
8 about Leapfrog?

9 A. I don't think prior to 2024 I had a lot of
10 conversations with patients about Leapfrog.

11 Q. And you-- what about prior to -- and I think
12 I asked prior and I want to make sure. Prior to
13 November of 2024, how many conversations had you had
14 with patients about Leapfrog?

15 A. I mean, if I -- probably very limited.

16 Q. And that's true even when Delray's grade was
17 a D in the spring of 2024, correct?

18 A. That's correct.

19 Q. And you testified earlier that you consider
20 a D to be a failing grade, correct?

21 A. Correct.

22 Q. What discussions did you have with your
23 board about the decision to file a lawsuit against
24 Leapfrog?

25 A. We just informed them that we were moving

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 227

1 forward with a lawsuit against Leapfrog.

2 Q. Did the board have to vote to approve a
3 lawsuit against Leapfrog?

4 A. They don't have to vote to approve that.

5 Q. Did the board have any questions about how
6 expensive a suit against Leapfrog would be?

7 A. They didn't, that I remember, ask questions
8 about the cost.

9 Q. And you understand that one of things you're
10 asking for in this lawsuit is for my client to pay
11 attorney's fees that are associated with this lawsuit,
12 correct?

13 MR. MARCUS: Object to form.

14 A. I don't -- I don't know all the things that
15 are being asked for your client.

16 BY MS. BLAIR:

17 Q. Do you know how much in fees Delray has
18 spent to date in prosecuting this lawsuit?

19 MR. MARCUS: Object to form.

20 A. I do not. I would need our financial
21 statements to be able to show you that.

22 BY MS. BLAIR:

23 Q. Do you have any idea if it's over a million
24 dollars?

25 MR. MARCUS: Same objection.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 228

1 A. I don't know. I need the financial
2 statements.

3 BY MS. BLAIR:

4 Q. Was the med exec told that a lawsuit was
5 going to be filed against Leapfrog before the filing of
6 the lawsuit?

7 A. Yes.

8 Q. Did the med exec have to approve the filing
9 of the lawsuit?

10 A. They do not.

11 Q. Who has to approve the filing of the
12 lawsuit?

13 A. I mean, we were -- we're able to do that
14 with our Palm Beach Health Network, and I would assume
15 probably our corporate office also has to approve that.

16 Q. Did any of the CEOs of the hospitals that
17 make up the Palm Beach Health Network object to filing
18 the lawsuit against Leapfrog?

19 A. Not that I recall.

20 Q. Do you recall that the lawsuit in this
21 action was filed on April 30th, 2025?

22 A. That date sounds correct.

23 Q. And did you review the Complaint before it
24 was filed?

25 A. I did.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 229

4 Q. Was there anything in that Complaint that
5 you disagreed with?

6 MR. MARCUS: Object to form.

7 A. I reviewed it with my counsel.

8 BY MS. BLAIR:

9 Q. Okay. And so outside of any discussions
10 with your counsel did you make any changes to the
11 Complaint that you can recall?

12 A. I don't recall making changes.

13 MS. BLAIR: Can we mark this as 18?

14 THE STENOGRAPHER: 19.

15 MS. BLAIR: 19.

16 (Defendant's Exhibit Number 19 for i.d.)

17 BY MS. BLAIR:

18 Q. Ms. Havericak, I am providing you with a
19 document that we've now marked as Exhibit 19. And I'll
20 submit to you that you'll see the Bates number down
21 here is Boca News Now. And it is a response to a
22 subpoena that I sent to Boca News Now. And they
23 produced back to us a press release from
24 Rebecka.Henrikson@scalestrategy.com. Do you see that
25 on page 2 of this document?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 230

1 A. I see that.

2 Q. Do you know who Rebecka Henrikson is?

3 A. I do not know Rebecka.

4 Q. Do you know who scalestrategy.com is?

5 A. I do not.

6 Q. And do you recognize this document that is
7 at Boca News Now 2 through 4?

8 MR. MARCUS: Object to form.

9 A. I mean, I don't know if I have seen this,
10 this particular one before.

11 BY MS. BLAIR:

12 Q. Okay. And if you look at Rebecka is writing
13 to Andrew, and she says, "I'm reaching out on behalf of
14 the Palm Beach Health Network."

15 Do you see that?

16 A. Yes.

17 Q. And your hospital is part of the Palm Beach
18 Health Network, correct?

19 A. That's correct.

20 Q. And do you see that this is at the bottom
21 right before her signature, she says, "You can read
22 more about the filing in the press release below."

23 Do you see where she says that?

24 A. Yes.

25 Q. Looking at this, did you see this press

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 231

1 release before it was issued to the news on April 30th?

2 A. I don't remember if I saw this press release
3 before it went out.

4 Q. Is this something that someone in the
5 marketing department at Delray hospital would have seen
6 before it went out?

7 A. Yes.

8 Q. Do you see on page 3 of this press release
9 it says, "The legal action comes after repeated efforts
10 by the hospitals to engage with the Leapfrog Group"?

11 A. Yes, I see that.

12 Q. Do you know what the repeated efforts are
13 that are being referred to in the press release that
14 was put out on behalf of your hospital through
15 Palm Beach Health Network?

16 A. I don't know exactly what they're
17 referencing here, but I would imagine it follows the
18 cease and desist letter.

19 Q. Okay. So you believe the repeated efforts
20 being referred to are the cease and desist letter?

21 A. That's what I would believe it to be.

22 Q. Okay. And then if you look at the end, the
23 last sentence of that paragraph says, "Leapfrog did not
24 punish the plaintiff hospitals for the past four years
25 that they did not respond to its voluntary data request

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 232

1 until last year when they changed their criteria to
2 deliberately fail nonparticipating hospitals."

3 Do you see that?

4 A. Yes.

5 Q. What is that based on?

6 A. That's based on the measures we've been
7 talking about today, the four self-reported measures.

8 Q. And is that based on what you told me today
9 that you believe that non -- all nonparticipating
10 hospitals fail if they don't participate in the survey?

11 MR. MARCUS: Object to form.

12 A. I believe that's consistent with what I've
13 told you.

14 BY MS. BLAIR:

15 Q. And you believe that Leapfrog just
16 deliberately fails nonparticipating hospitals, correct?

17 A. Correct.

18 Q. And so as you sit here today, you have done
19 no research to inform yourself as to whether or not
20 there are non -- there are hospitals that do not
21 participate in the Leapfrog Hospital Survey that
22 receive A's, B's and C's in their hospital safety
23 grade, correct?

24 MR. MARCUS: Object to form.

25 A. I have been going on the advice of counsel.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 233

1 BY MS. BLAIR:

2 Q. And you see if we go one, two, three, four,
3 five paragraphs down, it starts with "Leapfrog's
4 so-called grades."

5 Do you see that?

6 A. Yes.

7 Q. You say "Leapfrog's so-called grades are not
8 grounded in credible science or independent analysis."

9 Do you see that?

10 A. I see that.

11 Q. What is that based on?

12 A. I'm not sure. I didn't write this.

13 Q. But do you understand that that's an
14 allegation of the Complaint that was filed on behalf of
15 your hospital?

16 MR. MARCUS: Object to form.

17 A. Yes.

18 BY MS. BLAIR:

19 Q. And before filing that Complaint, did you do
20 any research to come to the conclusion as to whether or
21 not it is true that the Leapfrog grading methodology
22 is, quote, not grounded in credible science or
23 independent analysis?

24 A. I relied on counsel.

25 Q. Do you understand that Leapfrog has

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 234

1 13 independent voluntary expert panels who advise on
2 the hospital -- both the hospital survey and the
3 hospital grading methodology?

4 MR. MARCUS: Object to form.

5 A. I do know they have experts.

6 BY MS. BLAIR:

7 Q. Do you understand that the analysis that
8 goes into the hospital safety grade methodology is
9 fully available on the LeapfrogGroup.org website?

10 MR. MARCUS: Object to form.

11 A. I do.

12 BY MS. BLAIR:

13 Q. Have you ever looked to see who the experts
14 are that make up the Leapfrog hospital safety grade
15 expert panel?

16 A. I have not.

17 Q. Do you have any understanding of whether
18 they are qualified to provide guidance to Leapfrog on
19 the issues of patient safety?

20 A. I would need to study each of their CVs and
21 resumes to understand if they're qualified to be an
22 expert.

23 Q. Okay. And you've not done that as we sit
24 here today, correct?

25 A. I have not.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 235

1 Q. And you say in this same sentence, and when
2 I say "you," I mean, the press release from Palm Beach
3 Health Network that was sent on behalf of all five
4 hospitals, including yours, you say that "they," being
5 the grades, "are riddled with falsehoods," and then you
6 say "distorted by undisclosed financial incentives."

7 What are the undisclosed financial
8 incentives that you believe Leapfrog bases its grades
9 on?

10 MR. MARCUS: Object to form.

11 A. It has to do with the reputational harm that
12 caused -- that is caused as a result of not
13 participating. It's not necessarily an exchange of
14 money.

15 BY MS. BLAIR:

16 Q. Okay. But do you believe that Leapfrog gets
17 a financial incentive?

18 A. They do get a financial incentive, and
19 they're causing harm to us.

20 Q. So what's the financial incentive that
21 Leapfrog gets from its methodology?

22 A. So it's not a financial incentive from the
23 methodology. It's the failure to participate that
24 causes financial harm to those hospitals that choose
25 not to participate.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 236

1 Q. So you're referring, though, to the
2 financial harm to the hospitals, so you don't believe
3 this refers to Leapfrog getting a financial incentive?

4 A. I believe it refers to the financial damage
5 to the hospitals.

6 Q. Okay. So you don't believe that Leapfrog is
7 motivated financially to giving failing grades to
8 hospitals, but this refers, rather, to financial issues
9 caused to the hospitals that don't participate?

10 MR. MARCUS: Object to form.

11 A. I think it has a major impact on reputation
12 and harm which is going to impact financials as well.

13 BY MS. BLAIR:

14 Q. Okay. The next paragraph of this press
15 release says, "Leapfrog aggressively pushes hospitals
16 to pay for its consulting services."

17 Do you see that?

18 A. I see that.

19 Q. What consulting services are you referring
20 to in this press release?

21 MR. MARCUS: Object to form.

22 A. Again, I didn't write this press release so
23 I don't know exactly which consulting services they're
24 referencing.

25 BY MS. BLAIR:

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 237

1 Q. As you sit here today, are you aware of any
2 consulting services that Leapfrog provides to
3 hospitals?

5 services that they provide, but I do know that Leapfrog
6 does provide consulting services.

7 Q. You believe that Leapfrog provides
8 consulting services for a fee to hospitals?

9 A. Yes.

10 Q. And what do you believe these consulting
11 services do?

12 A. They -- from what I understand, they are
13 for -- to help improve patient safety and quality in
14 hospitals.

15 Q. And who told you that?

16 A. I have heard that several times through some
17 of my professional connections from colleagues.

18 Q. Which colleagues have told you that?

19 A. I don't remember which colleagues. I have
20 colleagues from all over the country.

21 Q. Do these colleagues tell you that they pay
22 Leapfrog for the consulting services?

23 A. I have heard that you can pay Leapfrog to
24 have consulting services.

25 Q. You've heard it from colleagues, but you

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 238

1 don't know which colleagues, correct?

2 A. Correct.

3 Q. Okay. But you can't tell me as you sit here
4 today what those consulting services are?

5 A. No, I don't have the specifics of those.

6 Q. And then you say "and professional
7 licenses."

8 Do you see that?

9 A. I do.

10 Q. Are you referring to the fact that if you
11 want to use the Leapfrog logos, you have to pay for use
12 of their trademark?

13 MR. MARCUS: Object to form.

14 A. Again, I didn't write this, but that's what
15 it would appear to me.

16 BY MS. BLAIR:

17 Q. So that would be just like Healthgrades®,
18 correct?

19 A. Correct.

20 Q. And then you say here this whole sentence,
21 "Leapfrog aggressively pushes hospital to pay for its
22 consulting services and promotional licenses in
23 exchange for better grades."

24 Do you see that?

25 MR. MARCUS: Object to form. And the use of

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 239

1 "you."

2 A. I see that. That's a --

3 BY MS. BLAIR:

4 Q. Do you have any evidence that hospitals pay
5 Leapfrog in exchange for better grades?

6 A. I don't have evidence.

7 Q. If we look at what I think I marked
8 previously as Exhibit -- well, wait. Hold on. -- if
9 we look at what I previously marked as Exhibit 2, which
10 is your declaration, did you draft this declaration
11 yourself?

12 MR. MARCUS: Object to form.

13 A. I did not draft it. I worked with my
14 counsel on it.

15 BY MS. BLAIR:

16 Q. And I don't want to know about any
17 discussions you had with your counsel about this
18 document so I'm just going to ask you a few questions
19 about...

20 Number 15 of your -- paragraph 15 of Exhibit
21 2 which is your declaration, you say, "When the medical
22 center stopped participating in Leapfrog's -- or in
23 the -- I'm sorry -- in TLG's hospital survey, we
24 expected TLG would simply omit the medical center from
25 its hospital safety grades."

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 240

1 Do you see that?

2 A. Yes.

3 Q. Why was that the expectation?

4 A. Because we're not -- it's a voluntary survey
5 and we're not giving data so we shouldn't be scored on
6 anything.

7 Q. And you weren't at Delray in 2021 when they
8 stopped participating, correct?

9 A. I was not.

10 Q. How do you know that in 2021 Delray expected
11 that TLG would omit Delray from the hospital safety
12 grade when it stopped participating in the survey?

13 A. Can you repeat that?

14 Q. Sure.

15 You weren't at Delray in 2021 when the
16 decision was made to stop participating in the Leapfrog
17 Hospital Survey. And I'm asking how do you know today
18 or in May of 2025 when you signed this declaration that
19 the expectation of Delray in 2021 was that they would
20 no longer be graded?

21 A. I don't -- I don't think that's relevant to
22 what we're talking about.

23 Q. Well, you say "when the medical center..."
24 which is Delray, correct?

25 A. Correct.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 241

1 Q. "...stopped participating in the hospital
2 survey..."

3 It says that, correct?

4 A. It says that, yes.

5 Q. And we know that they stopped participating
6 in 2021, correct?

7 A. Correct. But this document is talking about
8 2024 and 2025.

9 Q. Oh, okay. But I just read it to say like
10 when you stopped participating, which was 2021, you
11 expected to be omitted from the safety grade.

12 A. That's a reasonable expectation.

13 MR. MARCUS: Object to form.

14 BY MS. BLAIR:

15 Q. And my question is, who did you talk to at
16 Delray to come to the conclusion that that was their
17 expectation in 2021 when the medical center stopped
18 participating in TLG's hospital survey?

19 MR. MARCUS: Objection. Mischaracterizes
20 the testimony.

21 A. I didn't talk to anyone about 2021. It
22 doesn't -- that's not what the interpretation of that
23 paragraph is.

24 BY MS. BLAIR:

25 Q. Okay. If we go to paragraph 18, the second

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 242

1 sentence, you say, "It shows that if you participate in
2 its pay-to-play time-consuming hospital survey, TLG
3 assigns you a better grade."

4 Do you see that?

5 A. I do.

6 Q. What is that based on?

7 A. It's based on the facts of what we're
8 talking about today. If we had participated and put in
9 the data, we would have had a nonfailing grade.

10 Q. What's the evidence for the pay-to-play part
11 of that sentence?

12 A. We've talked about this on several occasions
13 today on the pay-to-play. It has to do with the
14 reputational damage and harm Leapfrog has caused to us
15 from not participating in the survey.

16 Q. Do you think that the regular reader of the
17 Palm Beach post thinks that when you say Leapfrog is a
18 play -- pay-to-play scheme, it's understanding that it
19 has to do with the rep -- that statement has to do with
20 the reputational harm that's being caused to Delray?

21 MR. MARCUS: Object to form.

22 A. I don't know what the readers of the Palm
23 Beach Post, how they're going to interpret it.

24 BY MS. BLAIR:

25 Q. But that's how you meant it, correct?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 243

1 A. That's how we meant it.

2 Q. Is it your position that simply by virtue of
3 participating in the Leapfrog Hospital Survey, a
4 hospital gets a better grade?

5 MR. MARCUS: Object to form.

6 A. Yes.

7 BY MS. BLAIR:

8 Q. If we could go to Paragraph 22 but on PBHN
9 2124, so Paragraph 22, it starts on page 2123, PBHN
10 2123. It says, "When the user clicks on view full
11 score, she sees inaccurate and misleading information
12 about the medical center."

13 Do you see that statement?

14 A. I do.

15 Q. And then I assume if we go to the next page,
16 PBHN 2124, this is the page that you are stating shows
17 "inaccurate and misleading information about the
18 medical center," correct?

19 MR. MARCUS: Object to form.

20 A. That is correct.

21 BY MS. BLAIR:

22 Q. Okay. And if we look at this, you'll see
23 here the hospital score is listed here as a 15,
24 correct?

25 A. That's correct.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 244

1 Q. And there's an asterisk. Do you see the
2 asterisk?

3 A. I do.

4 Q. And the asterisk corresponds to
5 footnote four on this page. Do you see that?

6 A. Yes.

7 Q. And I understand on this page, this is a
8 reproduction of the Web page. But would you agree with
9 me that this footnote four is in bold and red ink?

10 A. I don't remember if it's in bold red ink
11 here. It looks bold here in the font, but I can't
12 recall the color of the ink.

13 Q. Okay. You don't recall looking at it on the
14 Web page?

15 A. I did look at it, but I don't recall the
16 what the color of it was.

17 Q. That's just my question --

18 A. Yeah.

19 Q. -- you don't know if it's red.

20 Okay. And I read this footnote. "The
21 hospital declined to report their performance on this
22 measure."

23 Do you see that?

24 A. Yes.

25 Q. Is that a true statement that Delray

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 245

1 declined to report their performance on the measure?

2 A. That's correct.

3 Q. And then it goes on to say, "So a score was
4 assigned."

5 Do you see that?

6 A. I do.

7 Q. Would you agree with me that Leapfrog just
8 assigned a score, it's not part of any sort of
9 mathematical calculation?

10 MR. MARCUS: Object to form.

11 A. They assigned a score, yes.

12 BY MS. BLAIR:

13 Q. Okay. And it says, "So a score was assigned
14 to reflect the lack of information available."

15 Correct?

16 A. Correct.

17 Q. And if we go back up here, it says, "the
18 worst hospital score" -- do you see that -- is 15."

19 Do you see that, "This hospital score is
20 15*"?

21 A. Yes.

22 Q. Best hospital score is 100, correct?

23 A. Correct.

24 Q. The average hospital score is 80.23, do you
25 see that?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 246

1 A. Yes.

2 Q. And then it says the worst hospital score is
3 15, correct?

4 A. Correct.

5 Q. And is it accurate to say that Delray was
6 assigned the worst hospital score?

7 A. Correct.

8 MR. MARCUS: Object to form.

9 BY MS. BLAIR:

10 Q. Do you know how big the font is actually on
11 footnote 4?

12 A. I don't.

13 Q. And I think I asked you this probably four
14 times, but you are unaware as you sit here today
15 whether or not there are any hospitals out of the 3,000
16 hospitals that Leapfrog grades that receive an A and
17 yet don't participate in the hospital survey, correct?

18 MR. MARCUS: Object to form.

19 A. Correct.

20 BY MS. BLAIR:

21 Q. And I've asked you this a thousand times,
22 but you are unaware as you sit here today that when
23 Delray had a D in the spring of 2024, it actually
24 received 100 out of 100 points for all four imputed
25 measures, correct?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 247

1 MR. MARCUS: Object to form.

2 BY MS. BLAIR:

3 Q. You're unaware of that?

4 A. I was unaware. I just need to see the
5 document.

6 Q. Did you ever get -- did your board -- did
7 any member of your board ever get inquiries from
8 patients about Delray's Leapfrog grade when it was a D
9 in the spring of 2024?

10 A. Not that I can recall.

11 Q. What about med exec, did they ever get
12 inquiries from patients when Delray's grade was a D in
13 the spring of 2024?

14 A. Not that I can recall.

15 Q. So I want to talk about the damages in this
16 case. Do you understand --

17 Well, let me, real fast, Exhibit 2, have you
18 ever been told that your declaration has been withdrawn
19 in this litigation?

20 MR. MARCUS: Object to form.

21 A. No.

22 BY MS. BLAIR:

23 Q. Did you ever withdraw your declaration in
24 this litigation?

25 MR. MARCUS: Are you testifying this

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 248

1 declaration has been withdrawn?

2 MS. BLAIR: I'm testifying Lee Crain has
3 said it multiple times.

4 BY MS. BLAIR:

5 Q. Are you aware whether or not your
6 declaration is still in -- is accurate?

7 A. It's been amended.

8 Q. Your declaration has been amended?

9 A. The declaration?

10 Q. Number 2, yeah, that that's what we're
11 reading.

12 MR. MARCUS: Not the Complaint.

13 BY MS. BLAIR:

14 Q. Not the Complaint.

15 A. Oh. No, no, my declaration is still as is.

16 Q. Okay. Thank you.

17 MS. BLAIR: But you are right, the Complaint
18 has been amended.

19 A. Yes.

20 BY MS. BLAIR:

21 Q. And if we talk about the Complaint, are you
22 aware that Delray Medical as well as the other
23 plaintiffs in this action have withdrawn their request
24 for monetary damages?

25 A. I am aware of that.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 249

1 Q. And do you understand as you sit here today
2 that Delray and the other plaintiffs are only
3 requesting injunctive and declaratory relief against
4 Leapfrog?

5 A. Yes.

6 Q. And what do you understand the injunctive
7 relief is that's being requested in this litigation?

8 A. To withdraw the letter grades.

9 Q. Is it to withdraw past letter grades or not
10 grade in the future?

11 MR. MARCUS: Object to form.

12 A. Both. Both from what I understand.

13 BY MS. BLAIR:

14 Q. I want to talk about --

15 Well, what are the types of damage that
16 Delray has suffered as a result of its Leapfrog
17 hospital safety grades post fall of 2024?

18 A. We have patients that have a less, a lesser
19 confidence in our medical center. I go out on the
20 units every single day in our hospital and do rounding
21 on patients and families, and every day we get
22 feedback.

23 We have people in there that say, "Oh, I was
24 scared to come to Delray because of that Leapfrog score
25 that we see, and I was pleasantly surprised. This is a

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 250

1 wonderful hospital. We've had incredible care, great
2 nurses and just have been well taken care of."

3 I deal with that every single day.

4 We've had patients that don't want to come
5 for elective procedures because they're nervous about
6 that score that they've seen. We've had physicians
7 that are concerned about coming to the medical center
8 when they have choices and are on staff at multiple
9 places. And then we continue to have community members
10 that tell us, you know, people are still talking about
11 these failing grades.

12 And, you know, I can even be out in the
13 community for dinner, and I can tell you two occasions
14 out with friends, one who's a prominent business person
15 in the community saying, you know, "You have our, one
16 of our only trauma centers in the community, and it
17 makes me nervous to have to go there with that Leapfrog
18 score" and then another whose elderly parents live very
19 close to the medical center and say "We're scared if we
20 have a heart attack or stroke because we have to be
21 taken to Delray and look at that score."

22 I mean, and there's so much -- that's only a
23 little bit of what we know. There's so much damage
24 that we can't even quantify.

25 Q. So these conversations that you've had,

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 251

1 you've had with patients when you're rounding, when did
2 they occur?

3 A. I do those every single day. Typically
4 around 2:00 p.m. I go and do my rounds.

5 Q. Yeah. So it was a bad question. I
6 apologize.

7 Did you have those conversations in
8 November of 2024?

9 A. Yeah, I've always done rounding on patients.

10 Q. Oh, okay. So my questions are bad. I
11 apologize.

12 So I want to break that down a little bit.
13 Okay. So let's talk about the patients that you said
14 are nervous to come to Delray. And I want to talk
15 about specifically about conversations you have had,
16 you personally have had with patients. When is the
17 first time you started having conversations with
18 patients about the Leapfrog grade?

19 A. After the grade came out.

20 Q. Which grade?

21 A. The fall 2024 F.

22 Q. So would that have been in November of 2024?

23 A. It was towards the end of November,
24 beginning of December.

25 Q. Approximately --

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 252

1 The end of November, early December 2024?

2 A. And they continue.

3 Q. I understand.

4 A. I mean, they've happened last week, this
5 week.

6 Q. So between the end of November 2024 and
7 April 30th, 2025, how many patients did you speak to
8 that had concerns that were stemming from the Leapfrog
9 hospital safety grade?

10 A. I don't have the number of patients. I
11 don't keep track of those. I mean, it's just on a
12 daily basis I've been talking to patients.

13 Q. Every day?

14 A. Yes, every day, through the workweek Monday
15 through Friday.

16 Q. Okay. So Monday through Friday at least one
17 patient a day talks to you about the Leapfrog hospital
18 safety grade?

19 A. Correct.

20 Q. And these are all patients that are
21 currently in Delray?

22 A. Yes.

23 Q. So they're still coming to Delray?

24 A. They're come to go Delray, but they had
25 apprehension and anxiety about coming to Delray.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 253

1 Q. How many conversations have you had between
2 November of 2024 and April of 2025 with patients who
3 refused to come to Delray?

4 A. I had to intervene on a couple in the
5 elective surgical space.

6 Q. "A couple" is two?

7 A. Probably two or three, yeah.

8 Q. And for the record, what is the elective
9 surgical space?

10 A. So patients that were coming for elective
11 surgical procedures.

12 Q. And they did not want to come to Delray?

13 A. They did not.

14 Q. Did they ultimately come to Delray?

15 A. Yes.

16 Q. And then you said -- so there were patients
17 and then you said doctors.

18 A. Um-hum.

19 Q. You talked to doctors about the Leapfrog
20 safety grade?

21 A. Yes.

22 Q. And what are those conversations with
23 doctors?

24 A. That they're concerned to bring patients
25 here, and patients are complaining to them about the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 254

1 Leapfrog grade and just being nervous about the quality
2 that Delray is providing to the community based on that
3 grade.

4 Q. How many doctors have you talked with about
5 the Leapfrog grade?

6 A. Probably 15, 20.

7 Q. And these are all doctors that have
8 privileges at Delray?

9 A. Correct.

10 Q. Has any doctor revoked his privileges at
11 Delray?

12 A. Not that I am aware of related to this.

13 Q. When you talk to these doctors about the
14 Leapfrog grade, are they concerned at all about the
15 HCAHPS score?

16 A. They are, but they know that we're working
17 on a plan to improve those that they're a part of.

18 Q. Are they worried at all about the CMS star
19 rating?

20 A. They -- especially the medical staff
21 leadership, and then we talk about that at the
22 department level, they are, but, again, that's old
23 data, and they know about all the improvement plans in
24 place and what the data looks like today.

25 Q. And when you talk to these doctors about the

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 255

1 Leapfrog safety grade, are they also worried about the
2 PSI 90 score of Delray?

3 A. Yeah, because that goes into the whole
4 patient safety component.

5 Q. Correct.

6 A. And we go over all of those components as
7 well.

8 Q. And when you talk to -- you told me earlier
9 that most of the patients that Delray services are
10 Medicare patients, correct?

11 A. There's a large population of Medicare,
12 managed Medicare and commercial. We don't do a lot of
13 Medicaid or underinsured.

14 Q. Do any of the patients that you talk to on a
15 daily basis about the Leapfrog hospital safety grade
16 also have concerns about the CMS star rating?

17 A. They do. They ask about it. Not all of
18 them, but some of them are more savvy than others.

19 Q. And then you said community members talk to
20 you as well, correct --

21 A. Yes.

22 Q. -- about the Leapfrog hospital safety grade?

23 A. Yes.

24 Q. Who are these community members?

25 A. Two are just personal friends and business

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 256

1 associates. One works in healthcare; one does not.

2 Larry Edelson is constantly talking about
3 those things. And then we have other community members
4 that I've talked to just in circles from chamber
5 members and things like that.

6 Q. And your personal friend that's also in
7 healthcare, does she have an opinion about the Leapfrog
8 safety grade?

9 A. He.

10 Q. He. I'm sorry.

11 A. He. I mean, he understands it, but in
12 trying to explain that to elderly parents, it sometimes
13 sounds like you're trying to make excuses, so, you
14 know, it's a difficult story to explain.

15 Q. When you explain to these patients or
16 community members that aren't in healthcare so don't
17 really understand it, how do you explain to them the
18 fact that Delray has 1, they're a one-star CMS
19 hospital, but the Leapfrog safety grade is inaccurate?

20 A. I just go through the measures and explain
21 based on our patient population, based on the limited
22 number, because, again, CMS star ratings are not a full
23 picture of every patient we take care of. It's a
24 snapshot of CMS patients, so it's a snapshot, a piece
25 of our patient population. So I have to explain all

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 257

1 these measures and explain that that's how we were
2 performing up until 2023. And then I pair that with
3 the data and how we're performing with our performance
4 improvement measures today because the data looks very
5 different. So it's just being able to tell that story
6 and get them to understand all those measures.

7 Q. And do you explain to them that 75 percent
8 of the Leapfrog grade is based on that same CMS data
9 that goes into the one-star rating?

10 MR. MARCUS: Object to form.

11 A. I wouldn't say it's 75 percent based on the
12 calculations I see with the weighting, but they do know
13 that the CMS star rating goes into the Leapfrog and has
14 an impact on it, yes, I explain that.

15 BY MS. BLAIR:

16 Q. Do you feel that you're fairly successful
17 when you have those conversations with patients or
18 community members in explaining to them how the
19 Leapfrog grade and/or the CMS star ratings are not
20 indicative of patient safety at your hospital?

21 A. To some extent I do.

22 Q. And, in fact, I think you told me earlier
23 that you've really not seen admissions decline after
24 the safety grade came out, correct?

25 A. We didn't see admissions decline. But I

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 258

1 will say in August there was -- in late July there was
2 a viral video that went out that was certainly targeted
3 at our hospitals within the Palm Beach Health Network.
4 Although it didn't reference Leapfrog, it had all the
5 letters assigned to the safety grades. And we did see
6 a significant dip in admissions in the month of August
7 and a dip in people coming for elective procedures in
8 both our cardiac cath lab, electrophysiology lab and
9 our surgical procedures.

10 Q. Is this viral video, this TikTok video from
11 USA Maps?

12 A. It went on to TikTok. It went to Instagram.
13 It went to Facebook. It went everywhere. And that's
14 where there was a lot more feedback from numbers all
15 over.

16 Q. Speaking of Facebook, have you ever gone on
17 Facebook and looked at what people on Facebook say
18 about Delray in the community regardless of the TikTok
19 video?

20 A. Yes.

21 Q. And how --

22 A. We actually -- and that gets monitored so we
23 can see those comments on a realtime basis, and then we
24 can intervene when we need to, and we do.

25 Q. Would you agree with me that there have been

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 259

1 some less than stellar reviews of Delray on Facebook in
2 2023 and 2024?

3 MR. MARCUS: Object to form.

4 A. I don't know that I've seen the 2023 ones.
5 I can say in 2024 there have been. And there -- those
6 would hold true at hospitals all over. People, it's
7 just their perception.

8 BY MS. BLAIR:

9 Q. I agree.

10 Have you done any comparison, any empirical
11 data review to make a determination as to whether or
12 not there has been an actual impact on the reputation
13 of Delray as a result of the Leapfrog hospital safety
14 grade?

15 MR. MARCUS: Object to form.

16 A. We didn't feel we needed to do that. We
17 knew based on the feedback of all of the impact that
18 this was already having. And although the numbers were
19 strong, they were strong for a reason because we had
20 strategically put out a very aggressive strategic plan
21 that we were executing on, like I said, bringing in new
22 physician, elevating quality and service, creating new
23 access points. But we can't even quantify the
24 additional damage because we could have been performing
25 even better than we were performing had this bad press

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 260

1 not hit us and this grade not been assigned.

2 BY MS. BLAIR:

3 Q. Have you done any quantitative analyses of
4 the impact of the fact that your publicization -- I
5 don't know if that's a word -- of the lawsuit, what
6 impact that had on patient constituents in the
7 community now seeing your grades that they wouldn't
8 have seen previously?

9 MR. MARCUS: Object to form.

10 A. We have not.

11 BY MS. BLAIR:

12 Q. Okay. But you would agree with me, you
13 didn't just file this lawsuit. You also went on a
14 PR campaign --

15 MR. MARCUS: Object to form.

16 Q. -- about the lawsuit, correct?

17 MR. MARCUS: Same objection.

18 A. I wouldn't agree we went on a PR campaign.

19 BY MS. BLAIR:

20 Q. You would not?

21 A. No.

22 Q. Do you know how many stories the Palm Beach
23 Health Network pitched to local media regarding the
24 lawsuit?

25 MR. MARCUS: Object to form.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 261

1 A. They pitched stories to tell our side of the
2 story, but I don't think that's a PR campaign. I think
3 it's a defensive strategy to be able to protect the
4 market and give consumers accurate information when
5 they need to have healthcare which is very important
6 and critical for them.

7 BY MS. BLAIR:

8 Q. Do you think that filing the lawsuit and
9 planting these stories in the local news emphasized the
10 F grade at Delray in any way?

11 MR. MARCUS: Object to form.

12 A. I do not.

13 BY MS. BLAIR:

14 Q. Have you had any difficulty retaining
15 doctors as a result of your Leapfrog hospital safety
16 grade?

17 A. Not that I'm aware of.

18 Q. And we talked about nurses. You're not
19 experiencing any nurse retention issues, correct?

20 A. Not at this time except in those key niche
21 departments I talked about earlier.

22 Q. Are there any documents that you produced in
23 this litigation that directly link a decline in
24 admissions to the Leapfrog hospital safety grade?

25 MR. MARCUS: Object to form.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 262

1 A. Not that I'm aware of.

2 BY MS. BLAIR:

3 Q. Are there any documents that you're aware of
4 that directly link any decline in revenue to the
5 Leapfrog hospital safety grade?

6 MR. MARCUS: Object to form.

7 A. Not that I'm aware of.

8 BY MS. BLAIR:

9 Q. How does Delray measure its goodwill?

10 A. We look at all of the services that we have
11 provided to the community. We look at the charity care
12 that's been provided and how we've given back to the
13 community. There's a report that is put together. Our
14 chief strategy officer works on it. And how we've
15 served on boards, how we've served our community to
16 give back.

17 Q. Do you quantify in any way, like quantify
18 monetarily in any way what the goodwill of Delray is?

19 A. That's in that report.

20 Q. Oh, it is in that report?

21 A. Yes.

22 Q. Do you know the name of that report?

23 A. I don't. It's one that -- I don't know the
24 name of that one.

25 Q. And you said it's done by the group 2

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 263

1 strategy officer?

2 A. Group chief strategy officer kind of
3 oversees everything with it.

4 Q. Okay. And that would be Derek?

5 A. Yeah, Derek. It gives you the local impact
6 and how we've served the community and the impact we've
7 had.

8 Q. And you believe that report puts a specific
9 dollar amount on the goodwill of Delray?

10 A. It might not give specifically goodwill, but
11 it gives just the total impact that Palm Beach Health
12 Network has had.

13 Q. Do you understand like when you value a
14 company, let's just say like to sell it, one of the
15 things that goes into that is not only like revenues
16 but also a value for goodwill? Do you understand
17 that's how companies value?

18 A. Yes.

19 Q. Do you know what that monetary value for
20 goodwill of Delray was prior to the fall of 2024?

21 MR. MARCUS: Object to form.

22 A. I do not.

23 BY MS. BLAIR:

24 Q. And do you know what that value associated
25 with Delray's goodwill is today?

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 264

1 MR. MARCUS: Object to form.

2 A. I do not.

3 BY MS. BLAIR:

4 Q. But do you know whether it would be in this
5 report that the group chief strategy officer puts out?

6 MR. MARCUS: Same objection.

7 A. It may have the information that you're
8 asking for.

9 BY MS. BLAIR:

10 Q. Do you know as we sit here today whether
11 that number, that monetary valuation of goodwill for
12 Delray has decreased as a result of the Leapfrog
13 hospital safety grade?

14 MR. MARCUS: Object to form.

15 A. I'm not sure. I'd have to look at the
16 reports.

17 MS. BLAIR: Can we just take five minutes?

18 MR. MARCUS: Sure.

19 MS. BLAIR: Thank you.

20 THE VIDEOGRAPHER: The time is 3:39 p.m.

21 We're going off the record.

22 (A recess was taken from 3:39 p.m. to 3:46 p.m.)

23 THE VIDEOGRAPHER: The time is 3:48 p.m. We
24 are back on the record.

25 MS. BLAIR: Ms. Havericak, I am going to

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 265

1 mark one more Exhibit today. This is 20. I

2 want to round it out with an even number.

3 (Defendant's Exhibit Number 20 for i.d.)

4 BY MS. BLAIR:

5 Q. I'm handing you now what we've marked
6 Exhibit 20, and it is entitled Plaintiff Delray Medical
7 Center Inc.'s Amended and Supplemented Responses and
8 Objections to Defendant Leapfrog Group's First Set of
9 Interrogatories to Delray Medical Center.

10 And if we turn to the very last page -- it
11 should be like grayed out -- is that your signature?

12 A. That is my signature.

13 Q. And you signed these interrogatories,
14 correct?

15 A. I did.

16 Q. And my one question is with respect to
17 interrogatory number 20 which says, "State and describe
18 the results of any market analyses, competitive
19 analysis or consumer perception surveys you have
20 conducted or commissioned regarding your competitors
21 from 2020 to present."

22 Do you see that?

23 A. Yes.

24 Q. And if we turn to the next page, the first
25 full paragraph starts "As agreed, during the parties'

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 266

1 meet and confer on September 3rd, 2025, plaintiff will
2 produce documents showing the results of studies or
3 surveys plaintiff has conducted or commissioned related
4 to internal market analysis, competitive analysis or
5 consumer perception."

6 Do you see that?

7 A. Yes.

8 Q. And then it goes on to say, "Plaintiff will
9 identify the documents responsive to this interrogatory
10 by Bates number in plaintiff's production cover
11 letter."

12 Do you see that?

13 A. Yes.

14 Q. My question is, do you know whether or not
15 you were able to find and/or have produced studies or
16 surveys that Delray has conducted or commissioned
17 related to internal market analysis, competitive
18 analysis or consumer perception?

19 A. I'm not sure if we've been able to produce
20 that yet.

21 MS. BLAIR: Okay. Thank you.

22 And that is all the questions I have for you
23 today.

24 THE WITNESS: Oh, okay.

25 MS. BLAIR: Thank you.

Heather Havericak
September 19, 2025

CONFIDENTIAL

Page 267

1 THE WITNESS: Thank you.

2 MS. BLAIR: I will not order the video. I
3 will order the rough plus regular delivery of an
4 eTran with the Exhibits attached. And I'm not
5 sure if you'll read or --

6 MR. MARCUS: We're going to -- the witness
7 will read. We're also going to designate the
8 transcript as confidential.

9 MS. BLAIR: And I will reserve all rights to
10 assert any objections over portions of this
11 transcript which do not fall within the
12 confidentiality order.

13 MR. MARCUS: And we'll also take a copy.

14 THE VIDEOGRAPHER: The time is 3:51 p.m.
15 This concludes the deposition of
16 Heather Havericak.

17 THE STENOGRAPHER: Do you need regular
18 delivery if I give you a rough tonight, or do
19 you need expedited?

20 MR. SIMMONS: Expedited.

21 THE STENOGRAPHER: When do you need it? You
22 tell me when, and that's when you'll get it.

23 MR. SIMMONS: If you're able to get the
24 final by the end of day Monday, that would be
25 helpful.

9 IN RE: GOOD SAMARITAN vs. THE LEAPFROG GROUP
10 CASE NO.: 9:25-CV-80526-DMM

11 Please take notice that on the 19th day of September
12 2025, you gave your deposition in the above cause. At
13 that time you did not waive your signature.

14 The above-addressed attorney has ordered a copy of this
15 transcript and will make arrangements with you to read
16 their copy. Please execute the Errata Sheet, which can
17 be found at the back of the transcript, and have it
18 returned to us for distribution to all parties.

19 If you do not read and sign the deposition within 30
20 days, the original, which has already been forwarded to
21 the ordering attorney, may be filed with the Clerk of
22 the Court.

23 If you wish to waive your signature now, please sign
24 your name in the blank at the bottom of this letter and
25 return it to the address listed below.

Very truly yours,

21 Barbie Gallo, RMR-CRR
22 Lexitas Legal
23 fl.production@lexitaslegal.com

24 I do hereby waive my signature.

P R O C E E D I N G S

9:05 a.m.

THE VIDEOGRAPHER: Good morning. We are going on the record at 9:05 a.m. on September 5, 2025. Please note that the microphones are sensitive and may pick up whispering and private conversations. Please mute your phones at this time. Audio and video recording will continue to take place unless all parties agree to go off the record.

This is media unit one of the video-recorded deposition of Ms. Karen Jupiter, in the matter of Good Samaritan Medical Center, Inc. et al, versus the LeapFrog Group, filed in the United States District Court for the Southern District of Florida, West Palm Beach Division, case number 9:25-CV-80526-DMM.

My name is Orson Braithwaite, representing Veritext Legal Solutions, and I'm the videographer. The court reporter is Laurie Donovan from the firm Veritext Legal Solutions.

Counsel will now state their appearances and affiliations for the record, beginning with the

Page 9

1 noticing attorney.

2 MR. CHUNG: Daniel Chung, Gibson Dunn and
3 Crutcher, Washington, D.C., for plaintiffs.

4 MR. DELWICHE: Noah Delwiche, Gibson Dunn
5 and Crutcher, Washington, D.C., for plaintiffs.

6 MS. BLAIR: Kim Blair, Wilson Elser LLP,
7 appearing pro hac vice from Chicago.

8 MS. WOOD: Courtney Wood, Wilson Elser,
9 appearing pro hac vice on behalf of defendant
10 LeapFrog.

11 THE VIDEOGRAPHER: Thank you.

12 Will the court reporter please swear in the
13 witness.

14 * * * * *

15 Whereupon,

16 KAREN JUPITER,
17 having been first duly sworn, testified
18 upon her oath as follows:

19 EXAMINATION BY COUNSEL FOR PLAINTIFFS

20 BY MR. CHUNG:

21 Q Good morning, Ms. Jupiter. Could you please
22 state your full name for the record.

23 A Karen Leah Jupiter.

24 Q Have you gone by any other names?

25 A No.

1 Q And do you understand that the court
2 reporter is taking down everything that's being said
3 during today's deposition?

4 A Yes.

5 Q Okay.

6 Now, just before, before we go on to the
7 substance, I just want to go over some very common
8 deposition ground rules that are important, largely to
9 make sure that our court reporter keeps sane
10 throughout this process.

11 The first is, this is kind of a question and
12 answer process here, so it's important that we not
13 talk over each other, so I ask that you wait for me to
14 finish my question before you start your answer, and
15 of course, I'll do my best to wait for you to finish
16 your answer before I proceed with the, with the
17 following question.

18 Do you understand that ground rule?

19 A Yes.

20 Q Okay. It's also important, because the
21 court reporter is taking everything down, that your
22 responses are audible, so instead of an "uh-huh" or an
23 "huh-uh," yes or no, we ask that you answer in audible
24 words, right, for the court reporter to take down.

25 You also understand you were just put under

1 oath by the court reporter, and you understand that by
2 taking that oath, you're promising to answer my
3 questions honestly and to the best of your
4 recollection.

5 Do you understand that?

6 A Yes.

7 Q Again, that's under penalty of perjury. Do
8 you understand that?

9 A Yes.

10 Q All right. Are you taking any medications
11 or under the influence of any substance or really
12 anything that, that impairs your ability to understand
13 my questions or to answer truthfully and to the best
14 of your recollection today?

15 A No.

16 Q All right.

17 Now, if you under- -- if you do not
18 understand one of my questions, I'll ask you to ask me
19 to clarify questions. It's important that you
20 understand the question before you answer it.

21 And from time to time, I would expect that
22 your attorney -- Ms. Blair, I understand -- will --
23 may lodge objections or voice objections during the
24 proceeding. Unless Ms. Blair instructs you not to
25 answer, despite her objection, you should answer, you

1 should answer the question.

2 Do you understand that?

3 A Yes.

4 Q All right.

5 Now, it's totally up to you if and when you
6 want to take a break. One ground rule in terms of
7 breaks: We have to make sure that, that there's no
8 question pending when you take a break, so that,
9 that's just one thing. We're going to make sure you
10 have an answer to the question before we take any
11 break.

12 Do you understand that?

13 A Yes.

14 Q Okay.

15 So just some -- we'll start with some
16 background, but before we get to the background, I
17 want to ask you: Have you ever had your deposition
18 taken before?

19 A I have not.

20 Q So this is your first time?

21 A Yes.

22 Q Okay. Did you prepare for your deposition
23 today?

24 A Yes.

25 Q And how did you go about preparing for

1 today?

2 A I met with my lawyer. I went over our
3 website, looked at . . .

4 Q Okay, and by your lawyer, is it Ms. Blair?

5 A Correct.

6 Q And Ms. Wood?

7 A Correct.

8 Q Is that right? Okay, and approximately how
9 many times did you meet with them?

10 A Twice.

11 Q Okay. In addition to meeting with your
12 attorneys, did you speak to anyone else about -- in
13 preparation for your deposition today?

14 A No.

15 Q Okay. Did you speak to any of your
16 colleagues at the LeapFrog Group to prepare for your
17 deposition today?

18 A We've talked about the case in general.

19 Q Okay, and who in particular?

20 A I would say Missy Danforth and Leah Binder.

21 Q Okay, and this is in preparation for your
22 deposition today?

23 A We didn't specifically talk about the
24 deposition.

25 Q Okay.

1 A We talked about the case in general.

2 Q Okay, and what did you discuss with them?

3 MS. BLAIR: And I'm going to just object to
4 form, and to the extent your counsel was present
5 at the time, those conversations are protected by
6 the attorney/client privilege, but if you had
7 conversations that did not involve us, you need
8 to answer his question.

9 BY MR. CHUNG:

10 Q Right.

11 A Can you repeat the question. Sorry.

12 Q So putting aside any conversations you had
13 with Ms. Binder and Ms. Danforth that were in the
14 presence of counsel, right, what did you -- can you
15 describe the conversations that you had with
16 Ms. Binder and Ms. Danforth about the case?

17 A I mean Missy said "you'll do great," and I
18 said "thanks." I mean that was the extent of it.

19 Q Okay, and how about with Ms. Binder?

20 A Similar.

21 Q Okay.

22 Did you discuss with either or both of them
23 potential questions or issues that may, that you may
24 be asked in your deposition?

25 A Not without counsel.

1 Q Okay.

2 You testified just a moment ago that in
3 preparation for your deposition, you reviewed the
4 website, right? Which website are you referring to?

5 A Hospitalsafetygrade.org and
6 leapfroggroup.org.

7 Q Okay. So it's two websites --

8 A Correct.

9 Q -- that you reviewed?

10 Did you review any, any other websites in
11 preparation for your deposition?

12 A No.

13 Q Did you review any documents or other
14 materials in preparation for your deposition?

15 A I looked through emails around the safety
16 grade.

17 Q Okay. These are your LeapFrog emails --

18 A Correct.

19 Q -- relating to the safety grade issue?

20 A Correct.

21 Q Okay.

22 Did you -- and was this -- did you review
23 those documents with your counsel or kind of on your
24 own time?

25 A With counsel.

1 Q Okay. Did you do anything else -- so we've
2 gone over the two websites, right, emails relating to
3 the safety grade, and then discussions with counsel to
4 prepare for your deposition.

5 Did you do anything else besides those items
6 to prepare for today's deposition?

7 A Not that I recall.

8 Q Okay. Let's go over your background. Let's
9 start with your education.

10 Where did you go -- can you just go over
11 your educational history.

12 A Sure. I went to the College of William &
13 Mary. Got a bachelor of arts.

14 Q And a degree, am I right, in public policy?

15 A Correct.

16 Q All right. Do you have any professional
17 degrees?

18 A I have a -- well, I have a -- no, no
19 professional degrees. I have a certification --

20 Q And is that --

21 A -- for --

22 Q And is that the Certified Fundraising
23 Executive?

24 A Correct.

25 Q And you got that in 2015?

1 A Sounds right.

2 Q Okay.

3 A I don't know exactly, but yes.

4 Q Yeah, we know the answers to some of these
5 questions.

6 So that certification, the Certified
7 Fundraising Executive, what did you do to earn that
8 certificate? Let's start with that.

9 A You take a class, review ethics issues
10 around fundraising and rules around fundraising, and
11 then you take an exam.

12 Q And then that -- what does that certificate
13 allow you to do? What, what are the benefits or what
14 comes out of that certificate?

15 A It shows that you know what you're doing in
16 terms of fundraising and ethics around fundraising.

17 Q Okay, and let's start with generally
18 speaking. You mentioned that part of the education
19 before you get the certificate has to do with the
20 ethics of fundraising.

21 In general, what is that, generally
22 speaking?

23 A So you're being very clear with donors, when
24 you're soliciting donations, what those donations are
25 going to. I mean that's a big part of it is making

1 sure that you are following donor wishes and being
2 very accurate in what you're saying to donors and
3 advertising to donors.

4 Q Okay. So to put it another way, the ethics
5 that you described in obtaining the certificate has to
6 do with transparency to donors, that the money that
7 they're donating is going to a particular aim or
8 cause?

9 A Correct.

10 Q And that it's not -- that cause is not
11 against our wishes, or --

12 A Correct.

13 Q Okay.

14 Any other education? We went over the
15 bachelor of arts from William & Mary and then the
16 certificate in fundraising executive. Any other
17 education, certificates and the like that go toward
18 kind of what you do for a living?

19 A No.

20 Q All right.

21 Within the, kind of the fundraising area, do
22 you have a specialty in any particular area, or is it
23 more generalized?

24 A More generalized.

25 Q Okay.

1 Let's go into your employment history. Can
2 you just walk me through your employment history,
3 let's say after you got your degree from William and
4 Mary.

5 A Sure. I've always worked in fundraising for
6 nonprofits since college. My first job was with the
7 Massachusetts Horticultural Society as a development
8 assistant. I did that for about a year.

9 Then I worked at the Boston Symphony
10 Orchestra, doing their annual giving, for about two
11 years.

12 Then I worked at the Museum of Science in
13 Boston doing their fundraising.

14 And then I worked for Good Shepherd Housing
15 and Family Services, which is an affordable housing
16 nonprofit, as their director of development for 13
17 years.

18 And then I worked at the Conquer Cancer
19 Foundation for about six years, and then I was at
20 LeapFrog.

21 Q Okay. So LeapFrog, as I understand it, you
22 started there in, in or about 2021 --

23 A Correct.

24 Q -- is that right? Okay, and what -- when
25 you joined in 2021, what was your title with the

1 organization?

2 A Vice president of development.

3 Q All right, and is that your title now?

4 A Yes.

5 Q Okay.

6 So how did you get the job at LeapFrog? How
7 did that come about?

8 A Through a recruiter. I can't remember if
9 they reached out to me or I reached out to them, but I
10 saw an ad for the position and then applied.

11 Q Okay, and just to be clear, are you based --
12 where are you based geographically?

13 A In D.C.

14 Q In D.C.

15 A I mean Alexandria. I live in Alexandria.

16 Q Alexandria. Okay. I just saw a lot of
17 Boston --

18 A Yeah, I used to live in Boston. I moved
19 back here.

20 Q Okay, and then so it started out through, it
21 sounds like, an employment recruiter, right?

22 A Correct.

23 Q Can you just describe the process by which
24 you eventually got the job.

25 A Sure. I interviewed with the recruiter a

1 couple times to make sure that it was a good fit for
2 me, and then I interviewed with Leah Binder, who is
3 the CEO, and I interviewed with Christie Travis, who
4 was one of the board members, and then I interviewed
5 also with Missy Danforth and Erica -- I can't remember
6 her last name. She's not at LeapFrog anymore.

7 Q Okay.

8 Was there -- were you, were you taking over
9 for someone in the, in the vice president of
10 development position, or was this a new role?

11 A There was no one in that role.

12 Q Okay, and what was your understanding as to
13 why this new role was coming about that you were
14 applying for?

15 A LeapFrog just wanted to increase the
16 resources that they had and also, you know, make more
17 connections like in the healthcare industry, et
18 cetera.

19 Q Okay, and have you -- had you had experience
20 in the healthcare industry?

21 A Yes. I was at a cancer charity previously.

22 Q This was Conquer Cancer; is that right?

23 A Correct.

24 Q Okay.

25 When you, when you started out at the job,

1 what did you understand your roles and
2 responsibilities to be?

3 A I mean overseeing fundraising and developing
4 a fundraising plan for the organization.

5 Q All right, and when we talk about
6 fundraising, what does that encompass?

7 A Donations, so donations from individuals,
8 from corporate entities, foundations, events.

9 Q Okay, and I'm just reading this from the,
10 the LeapFrog website underneath, and am I correct, as
11 vice president of development, you are a member of
12 what's called the executive staff?

13 A Correct.

14 Q All right, and what does -- what is the
15 executive staff?

16 A Those are the CEO and the vice presidents.

17 Q All right, and who are the vice presidents?

18 A Me, Missy Danforth, Ralph Johnson, and we
19 actually just had a -- we have a new vice president of
20 finance who just started.

21 Q Okay. I do see -- I think for the most
22 part, you have vice presidents under the executive
23 staff, but I do see that there are a handful of
24 directors --

25 A Right. They're not -- they're --

1 Q I'm going to ask you to wait for me to
2 finish my question. That there are a number of
3 directors at least listed under the executive staff on
4 the website.

5 Are they members of the executive staff?

6 A We would consider them members of the
7 management team.

8 Q Okay. So there's some I guess overlap
9 between management and executive staff; is that right?

10 A Right.

11 Q All right.

12 When you started out as vice president of
13 development in 2021, who did you report to?

14 A Leah Binder.

15 Q Anyone else that you reported to?

16 A No.

17 Q Okay, and who reported to you?

18 A When I started, no one reported to me.

19 Q All right, and can you tell us kind of how
20 that changed over time to the present.

21 A Sure. Um, I, I'm trying to remember exactly
22 how it all happened. I took over the management of
23 Jill Berger, who was -- who is our director of
24 employer and payor relations.

25 And then I took -- we had someone leave, and

1 so I sort of took over -- the communications teams
2 answered to me. That was supposed to be temporary,
3 but I still, I still oversee them.

4 And then our corporate partnership group and
5 efforts were growing, so we hired people to do
6 corporate partnerships, and so I got two staff that
7 way.

8 Q Okay.

9 So when you started out, your
10 responsibilities had to do -- focused on, on donors
11 and giving, but am I right that over time, the role
12 has expanded to encompass communications, for one, and
13 then kind of other areas having to do with kind of the
14 financial well-being of the organization; is that
15 right?

16 A I wouldn't say the financial well-being of
17 the organization. That's more broad.

18 Q How would you describe it then?

19 A In terms of donations to the organization.
20 I mean there's other financial things I have nothing
21 to do with.

22 Q Okay. How is it that communications kind of
23 came under your ambit?

24 A Because the person who was overseeing
25 communications left, and so I took it over.

1 Q And so you're still overseeing that?

2 A Correct.

3 Q But I understand that there is a director of
4 communications --

5 A Right.

6 Q -- is that right?

7 A Correct.

8 Q And that's Lauren Bailey?

9 A Correct.

10 Q So she reports to you; is that right?

11 A Correct.

12 Q All right, and so as we sit here today,
13 you've got Lauren Bailey, Ms. Bailey reporting to you
14 as director of communications.

15 Who else is reporting to you?

16 A Nicholas Cantacuzene, who is our membership
17 coordinator, Andrea Clay, who is our director of
18 corporate giving, and Jill Berger, who is our director
19 of employer and payor relations.

20 Q Okay.

21 So just reading from what looks like your
22 profile from the website, it says that you "lead the
23 organization's fundraising strategy, donor relations,
24 special events and overall communications."

25 The "special events," what is that referring

1 to?

2 A We have an annual meeting every year, so
3 overseeing that.

4 Q Anything else?

5 A No.

6 Q Okay.

7 Overall communications -- you've already
8 testified that you oversee communications, but what
9 does "overall communications" mean?

10 A So Lauren Bailey really is our expert in
11 communications, and she reports up to me, so I work
12 with her on overall strategy, but she's really the
13 day-to-day person.

14 Q Okay. Does, does communications encompass
15 interactions with the press?

16 A Yes.

17 Q Okay. So though I understand that
18 Ms. Bailey is the director of communications and
19 reports to you, do you have involvement and
20 interactions with the press?

21 A I don't interact with the press.

22 Q Okay. Does overall communications include
23 the websites that you just referenced earlier?

24 A Yes.

25 Q So you have -- you oversee the content of

1 that website and how it's run?

2 A I don't oversee the content of the site.

3 Q So what is your kind of responsibility or
4 oversight with respect to the, the websites?

5 A If Lauren has sort of questions, she would
6 come to me, or she would ask me to, you know, possibly
7 review pages or review messages.

8 Q What do you mean by "review pages or review
9 messages"?

10 A If she says, you know, "can you look at
11 this, do things make sense here," then I would do
12 that.

13 Q Are we talking about the content of the
14 websites themselves?

15 A What do you mean by "content"?

16 Q I'm just trying to get at --

17 A Right.

18 Q -- what reviews --

19 A I mean like can you tell clearly on this
20 home page that there is information there about our
21 diabetes program, that sort of thing. Does it make
22 sense that the diabetes program is at the top of the
23 page or is at the bottom of the page.

24 Q Okay. So kind of format and placement of
25 substance on the, on the webpage?

1 A Right, but not, not every webpage, every
2 site.

3 Q Okay. Are there particular parts of the
4 web, of the webpages that, that you oversee? You
5 testified not every page or site or every single
6 little thing on the webpage, but are there particular
7 aspects of the web pages that you, that you oversee in
8 particular?

9 A No.

10 Q Okay. The profile goes on that, that
11 you're -- in your role, you're responsible for
12 "shaping and executing LeapFrog's development
13 efforts," which you testified to and we'll get into,
14 "while also overseeing the organization's external
15 messaging, branding, media relations and digital
16 communications."

17 What does, what does "organization's
18 external messaging" mean?

19 A Messages to external stakeholders.

20 Q Okay. Is that -- and who are the external
21 stakeholders?

22 A The general public, hospitals, donors, ASCs.

23 Q Okay, and what types of messaging are
24 involved here?

25 A That, you know, our main message at LeapFrog

1 is clear and transparent, and transparency saves
2 lives. In everything we do, we try and make sure it
3 says that.

4 Q Okay.

5 THE REPORTER: We try and make sure to what?
6 Make that?

7 THE WITNESS: Everything we do, we make sure
8 that we are transparent about, and that our goal
9 is to save lives, and that's why we exist.

10 BY MR. CHUNG:

11 Q Okay. Branding? What does the branding
12 encompass here?

13 A Making sure our logo is being used
14 appropriately.

15 Q So this is almost like an intellectual
16 property issue?

17 A Right.

18 Q Media relations. So you testified earlier
19 that you yourself don't interact with the, the press,
20 at least, but what -- can you, can you go over kind of
21 your responsibility with respect to media relations?

22 A I oversee Lauren, who does our media
23 relations.

24 Q Okay, and digital communications; what does
25 that encompass?

1 A Emails that we send out. Newsletters.

2 Q Okay.

3 So in terms of -- does, does the LeapFrog
4 executive staff -- do you have regular -- regularly
5 scheduled meetings?

6 A Yes. We -- the executive staff meets
7 biweekly. I think it's biweekly, depending on travel
8 and schedules, but approximately.

9 Q Okay, and just to be clear, the executive
10 staff that you're referring to that participates in
11 these biweekly meetings are the vice presidents; is
12 that correct?

13 A Correct.

14 Q Those meetings do not include the directors?

15 A We have a management meeting monthly, and
16 that includes directors.

17 Q Okay, but the biweekly executive staff
18 meeting is just vice presidents and Ms. Binder,
19 presumably?

20 A Correct.

21 Q Okay. What is the purpose of those biweekly
22 meetings?

23 A To communicate with each other and
24 understand what each other is working on.

25 Q Okay. Is there an agenda kind of preset for

1 each of those biweekly meetings?

2 A If we have agenda items, we say "I want to
3 make sure we talk about X."

4 Q Okay, and is there anyone or any folks on
5 the executive staff or maybe outside the executive
6 staff that put together those agendas?

7 A Right now it's Daran, our new CFO, but he's
8 only been there a few weeks.

9 Q Okay, and then previously who was in charge
10 of putting together the agendas for those executive
11 staff meetings?

12 A I mean we had a CFO a year ago, and he put
13 them together based on -- he would send them an email
14 saying "does anyone have any agenda items."

15 Q Okay. All right. So we'll come back to
16 that later.

17 You mentioned that as part your deposition
18 preparation, you looked at emails or materials related
19 to hospital safety grade, which I'm sure you
20 understand is one of the issues in, in the matter --
21 in this matter.

22 What is the hospital safety grade?

23 A We give hospitals a grade based on their
24 safety -- patient safety efforts.

25 Q Okay, and that is from -- it's basically

1 kind of like a school report card grading system,
2 right, A to F; is that right?

3 A Correct.

4 Q All right, and is it focused -- is it a --
5 are those ratings, are those grades focused
6 exclusively on patient safety, or are there other
7 issues that that grade is supposed to rate?

8 A So --

9 MS. BLAIR: Objection to form. Go ahead.

10 THE WITNESS: Solely patient safety.

11 BY MR. CHUNG:

12 Q All right, and how is patient safety defined
13 in this context?

14 MS. BLAIR: Objection to form.

15 THE WITNESS: I don't know how to answer
16 that.

17 BY MR. CHUNG:

18 Q Okay. What, what does patient safety
19 encompass within this grading system?

20 A If a hospital is safe for a patient.

21 Q Okay. Do you know who came up with the
22 idea, what the genesis for the hospital safety grade
23 was?

24 A I think it was Leah Binder. That was before
25 my time, well before my time.

1 Q Okay.

2 So why does -- do you have an understanding
3 as to why LeapFrog assigns a single letter grade to a
4 hospital rather than using another form of rating,
5 like a numerical rating or a percentage rating?

6 A We wanted to make it as clear and
7 transparent as possible for the public.

8 Q And how does using a letter grade system, A
9 through F, achieve that?

10 A People understand, like you had said, report
11 cards and what that means.

12 Q Okay.

13 Do you know how the cutoff for each grade is
14 decided, meaning the cutoff between one grade to the
15 next, like A to B, B to C?

16 A I don't.

17 Q Okay. Who would know how that cutoff for
18 each grade is decided?

19 A Missy Danforth.

20 Q Does LeapFrog intend for consumers to rely
21 on the hospital safety grades when making a decision
22 about which hospital to go to?

23 MS. BLAIR: Objection to form.

24 THE WITNESS: We explain that the safety
25 grade is one piece of information that they can

1 use when deciding where to go for their care.

2 BY MR. CHUNG:

3 Q Okay, and how is that, that particular
4 explanation, that the hospital safety grade is one
5 piece of information in their decision-making, where,
6 where is that made clear to, to consumers?

7 A I have seen that on the website. When we
8 give media interviews, we say this is one piece of
9 information to use when choosing where to go for your
10 care.

11 Q Okay.

12 How is it determined which hospitals are
13 assigned a hospital safety grade?

14 MS. BLAIR: Objection to form.

15 THE WITNESS: This is not my expertise. I'm
16 not on the ratings team, so I don't really deal
17 with this -- that part of it.

18 BY MR. CHUNG:

19 Q Understood. Even if it's not within your
20 area --

21 A Okay.

22 Q -- of expertise, it's based on kind of what
23 you know, right?

24 So based on what you know, how is it
25 determined which hospitals are assigned hospital

1 safety grade?

2 A I believe all hospitals are assigned safety
3 grade except pediatric hospitals and I think a couple
4 other types of hospitals, but again, that's not my
5 expertise.

6 Q Okay. Are there a particular -- let's look
7 at it another way. Are there a particular type or set
8 of hospitals that receive a hospital safety grade?

9 A We say acute care hospitals.

10 Q Okay. Does -- so within -- let's take
11 within the, kind of that universe of acute care
12 hospitals. Are all acute care hospitals given a
13 hospital safety grade?

14 MS. BLAIR: Objection to form.

15 THE WITNESS: To my knowledge.

16 BY MR. CHUNG:

17 Q Okay. So whether -- we'll get into this,
18 but there is a hospital survey, right, that LeapFrog
19 issues to hospitals. Are all hospitals, whether --
20 acute care hospitals, whether they respond to the
21 survey or not, are all those hospitals given a
22 hospital safety grade?

23 A Yes.

24 Q Does LeapFrog have a certain requirement for
25 the minimum amount of data that it needs to issue a

1 hospital safety grade?

2 A That's not my expertise.

3 Q Do you have any sense?

4 A Can you clarify?

5 Q Sure. Are there -- in order to issue,
6 right, a safety grade to a particular hospital, is
7 there a minimum amount or a minimum type of data that
8 LeapFrog needs in order to issue a health [sic] safety
9 grade to that hospital?

10 A I don't know.

11 Q Okay. Do you know who does know that?

12 A Missy Danforth.

13 Q All right. Do you know who sets minimum
14 data requirements?

15 A No.

16 Q All right. Do you -- if LeapFrog does not
17 have enough data for a particular hospital, do you
18 have a view on whether it should be graded or not?

19 A No.

20 Q Okay. How often does LeapFrog release
21 hospital safety grades?

22 A Twice a year.

23 Q And why is that? Why is it twice a year?

24 A To make sure that the information we provide
25 is as up-to-date and accurate as possible.

1 Q Has it always been like that, at least
2 during your tenure since 2021?

3 A During my tenure. I can't speak before
4 that.

5 MR. CHUNG: Okay. I want to go next into
6 scoring methodology, and we'll have our first
7 exhibit here behind tab 41.

8 So we'll mark this Exhibit 1.

9 (Exhibit 1 was marked for
10 identification.)

11 BY MR. CHUNG:

12 Q Okay. You have in front of you,
13 Ms. Jupiter, a scoring methodology from, from LeapFrog
14 from the Spring 2025 Safety Grade, and you'll see that
15 there's Bates numbers on the lower right-hand corner.
16 Those are stamps provided by LeapFrog just to kind of
17 numerically identify the documents here.

18 Are you familiar with -- have you seen this
19 document before?

20 A Yes.

21 Q Okay, and are you familiar with LeapFrog's
22 scoring methodology behind the safety grades?

23 A Not intimately.

24 Q Okay, but this is, this is a document, this
25 particular version, that you've seen before, correct?

1 A I think so.

2 Q Okay.

3 Do you have any part in -- do you have any
4 input into LeapFrog's scoring methodology?

5 A No.

6 Q All right. Do you have any kind of role,
7 any part in implementing that scoring methodology?

8 A No.

9 Q All right. Do you have any role in applying
10 it to specific hospitals?

11 A No.

12 Q Okay. Who is -- who has that role in terms
13 of design? Let's start with first the design of the,
14 of the scoring methodology.

15 MS. BLAIR: Objection to form.

16 THE WITNESS: I think it's our expert
17 panelists.

18 BY MR. CHUNG:

19 Q Okay, and who are those expert panelists?

20 A I don't know.

21 Q All right, and those are, those are not
22 members of the executive staff; is that right?

23 A Right.

24 Q Are they employees of, of LeapFrog?

25 A No.

1 Q All right. So these are kind of outside
2 experts that, that, that designed the scoring
3 methodology; is that right?

4 A Correct.

5 Q Is there anyone on the -- are there any
6 LeapFrog employees that are involved in designing the
7 scoring methodology?

8 A I know that Missy Danforth works with the
9 expert panelists.

10 Q Okay. Does Missy Danforth have folks
11 that -- have LeapFrog employees that report up to her?

12 A Yes.

13 Q Okay, and how many?

14 A Eight, maybe. I don't know exactly.

15 Q Okay, and are those individuals involved in
16 the design of, of the scoring methodology?

17 A I don't know.

18 Q Okay.

19 How about the, the implementation of the
20 scoring methodology? Who, who is, who is involved in
21 that process?

22 A I believe that's our ratings team.

23 Q Okay, and who is in charge of the ratings
24 team?

25 A Missy Danforth.

1 Q Okay. Is the, is the expert -- are the
2 expert panelists involved in the implementation of the
3 scoring methodology?

4 A I don't know.

5 Q Okay.

6 How about the application of the scoring
7 methodology to specific hospitals; who is in charge of
8 that?

9 A Repeat the question.

10 Q Sure. The -- who is in charge of applying
11 the scoring methodology to specific hospitals?

12 A I think that's our ratings team.

13 Q Okay, and that's also Ms. Danforth's team?

14 A Correct.

15 Q Okay.

16 So are you familiar, generally speaking,
17 with the types of measures that LeapFrog uses in its
18 scoring methodology?

19 A Generally.

20 Q Okay. Tell us, tell us what you know.

21 A We get information from CMS, and that is
22 part of our grading of hospitals, and then we have
23 different measures around hand hygiene, nurse
24 staffing. That's what I can recall.

25 Q Okay. So if I understand correctly, your

1 testimony is that certain -- that the measures are
2 based on, on CMS data; is that right?

3 MS. BLAIR: Objection to form.

4 THE WITNESS: Some of the information is
5 based on CMS data.

6 BY MR. CHUNG:

7 Q Okay. Do you know which measures are based
8 on CMS data?

9 A I don't know them all.

10 Q Yeah, just based on your memory, what do you
11 understand?

12 A HCAHPS, so patient experience reports.

13 THE REPORTER: You said "HCAHPS"?

14 THE WITNESS: HCAHPS.

15 Infection data I think is part of it.

16 That's all I can remember.

17 BY MR. CHUNG:

18 Q Okay, so -- but it's just some of the
19 measures are based on CMS data, correct?

20 A Correct.

21 Q And there are other measures that go into
22 the health [sic] safety grade that are not based on
23 CMS data; is that right?

24 A That's not the -- that's not called a health
25 safety grade.

1 Q I'm sorry.

2 A You said "health safety grade." We don't
3 have a health safety grade.

4 Q I'm sorry. Hospital safety grade?

5 A Correct.

6 Q Okay, and what are those measures that are
7 not based on CMS data?

8 A The one I can think of is the hand hygiene
9 measure.

10 Q Okay, and what, what kind of data is the
11 hand hygiene measure based on?

12 A Can you clarify?

13 Q Sure. So you testified that the hand
14 hygiene measure is not based on CMS data, so what type
15 of data is the hand hygiene measure based on?

16 A How clean people's hands are.

17 Q Okay. Is that -- is there certain data that
18 measures that that LeapFrog relies on, on scoring the
19 hand hygiene measure?

20 MS. BLAIR: Objection to form.

21 THE WITNESS: I assume so.

22 BY MR. CHUNG:

23 Q Okay.

24 Are you familiar with -- are you aware that,
25 among the measures, right, that go into the scoring

1 methodology, that there are what are called "process
2 measures" and "structural measures"? Are you familiar
3 with that terminology?

4 A Yes.

5 Q Okay, and what's the -- what is the
6 distinction between the two?

7 MS. BLAIR: Objection to form.

8 THE WITNESS: So a process measure is are
9 things in place to make sure -- I'm trying to
10 think of the best way to describe it. Are there
11 processes in place, are there processes in place,
12 and then the other measures I recall are outcome
13 measures, so it's how -- what is the result of
14 something that's happened.

15 BY MR. CHUNG:

16 Q Okay, and who at LeapFrog decides which of
17 these measures to include in assessing a particular
18 hospital?

19 A I believe that's our expert panel.

20 Q Okay. So I want to go through at least some
21 of the measures that are involved in the scoring
22 methodology.

23 Are you familiar with the "Computerized
24 Physician Order Entry" measure or the "CPOE"?

25 A I've heard of it.

1 Q Okay. What is it, based on your
2 understanding?

3 A It measures how well the computerized order
4 entry system is at a hospital.

5 Q Okay, and how does a hospital score well on
6 this CPOE measure?

7 MS. BLAIR: Objection to form.

8 THE WITNESS: I don't know.

9 BY MR. CHUNG:

10 Q Okay. How does CPOE reflect the safety of a
11 hospital?

12 A I don't know.

13 Q Okay. Does CMS measure CPOE?

14 A I don't know.

15 Q All right. Do you know, for this particular
16 CPOE measure, what kind of data LeapFrog relies on?

17 A I don't know.

18 Q Okay. The next measure is the "Barcode
19 Medication Administration" measure or the "BCMA."

20 Have you heard of that?

21 A Yes.

22 Q And what is that?

23 A It's when you -- I believe when you are at a
24 hospital and you have a medication, then they scan the
25 barcode on the medication and scan your wristband and

1 make sure that you are getting the correct medication
2 you're supposed to get.

3 Q Okay, and how does a hospital score well on
4 this BCMA measure?

5 MS. BLAIR: Objection to form.

6 THE REPORTER: What was the answer? I'm
7 sorry.

8 THE WITNESS: I don't know.

9 BY MR. CHUNG:

10 Q All right, and how does this measure, the
11 BCMA, reflect the safety of a hospital?

12 A I don't know.

13 Q All right. Does CMS measure BCMA?

14 A I don't know.

15 Q Okay. Do you know -- for this particular
16 measure, do you know what type of data LeapFrog uses
17 or relies on in its scoring methodology?

18 A I don't know.

19 Q Okay.

20 Next, the "ICU Physician Staffing" measure
21 or the "IPS," are you familiar with that measure?

22 A I've heard of it.

23 Q And what, what is it?

24 A I don't know.

25 Q Okay. Do you know -- same questions. How

1 does a hospital score well on this IPS measure?

2 A I don't know.

3 Q All right. Do you know how the IPS measure
4 reflects the safety of a hospital?

5 A I don't know.

6 Q Do you know whether CMS measures IPS?

7 A I don't know.

8 Q Do you know the type of data that LeapFrog
9 relies on in scoring on this IPS measure?

10 A I don't know.

11 Q Okay. The, the next measure is the "Safe
12 Practice 1: Culture of Leadership Structures and
13 Systems" measure.

14 Are you familiar with this measure?

15 A I've heard of it.

16 Q Okay, and what is it?

17 A I've heard of it.

18 Q Okay.

19 A I couldn't tell you more about it.

20 Q You don't have an understanding as to what
21 it means or what it is?

22 A No.

23 Q Okay. Do you know how a hospital scores
24 well on this particular measure?

25 A No.

1 Q Okay. Do you know how this particular
2 measure, the Culture of Leadership Structures and
3 Systems, reflects the safety of a hospital?

4 A I don't.

5 Q Do you know whether CMS measures cultural
6 leadership structures and systems?

7 A I don't.

8 Q The next measure is safe -- what's called
9 "Safe Practice 2," and we're taking this from the
10 scoring --

11 A Sure.

12 Q -- methodology.

13 "Safe practice 2: Culture Measurement,
14 Feedback and Intervention." Are you familiar with
15 this particular measure?

16 A I'm not.

17 Q You haven't heard of it?

18 A I may have heard of it. I don't --

19 Q Okay.

20 A -- know anything about it.

21 Q And same questions. Do you know how a
22 hospital can score well on this particular measure?

23 A I don't.

24 Q All right, and do you know how this measure
25 reflects the safety of a hospital?

1 A I don't.

2 Q Okay. Do you know whether CMS measures this
3 particular measure?

4 A I don't.

5 Q All right. The next is the "Total Nursing
6 Care Hours per Patient Day" measure, which I think you
7 had mentioned a bit earlier.

8 Are you familiar with this particular
9 measure?

10 A I've heard of it.

11 Q Okay, and what is it?

12 A It measures total nursing care hours per
13 patient day.

14 Q Okay.

15 THE REPORTER: Per patent "per day," or did
16 you say "day"?

17 THE WITNESS: I said "day."

18 THE REPORTER: Okay.

19 BY MR. CHUNG:

20 Q How does this total nursing care hours per
21 patient day reflect the safety of a hospital?

22 A I don't know.

23 Q All right. Do you know how a hospital
24 scores well on this particular measure?

25 A I don't.

1 Q All right. Does CMS measure total nursing
2 care hours per patient day?

3 A I don't know.

4 Q Okay. Next, the "Hand Hygiene" measure,
5 which you've talked about already; are you familiar
6 with the Hand Hygiene measure?

7 A Yes.

8 Q Okay, and what is that?

9 A It measures how well hospital staff have
10 hygienic hands.

11 Q Okay, and how does a hospital score well on
12 hand hygiene, according to the scoring methodology?

13 A I don't know.

14 Q All right, and how does hand hygiene, this
15 particular measure, reflect the safety of a hospital?

16 A I mean the cleaner someone's hands are, the
17 safer they are when they touch a patient.

18 Q Okay. Do you know whether CMS measures hand
19 hygiene in any way?

20 A I don't.

21 Q Okay, and what, what data does LeapFrog rely
22 on in scoring hand hygiene for a particular hospital?

23 A I don't know.

24 Q Okay.

25 Next is, according to the scoring

1 methodology, what's called "H-COMP-1: Nurse
2 Communication."

3 Are you familiar with that particular
4 measure?

5 A No.

6 Q Okay. Do you know how the H-COMP-1 Nurse
7 Communication measure reflects the safety of a
8 hospital?

9 A I don't.

10 Q Okay. Do you know whether CMS measures this
11 particular area?

12 A I don't.

13 Q Okay.

14 Next is "H-COMP-2: Doctor Communication."
15 Are you familiar with that measure?

16 A No.

17 Q Okay. Same questions. Do you know how this
18 particular measure reflects the safety of a hospital?

19 A I don't.

20 Q Do you know whether CMS measures doctor
21 communication?

22 A I don't.

23 Q Okay. "H-COMP-3" is the next measure,
24 "Staff Responsiveness," again, according to the
25 scoring methodology.

1 Are you familiar with this measure?

2 A No.

3 Q Okay. Do you know how this measure reflects
4 the safety of a hospital?

5 A I don't.

6 Q All right. Do you know what -- do you know
7 whether CMS -- do you know whether LeapFrog relies on
8 CMS data for this particular measure?

9 A I don't.

10 Q The next is "H-COMP-5" -- there are a few
11 more of these -- "Communications About Medicines."

12 Have you heard of or are familiar with this
13 particular measure?

14 A I've heard of it.

15 Q Okay, and what is it?

16 A How well hospital staff communicates around
17 medications.

18 Q Okay, and how does a hospital score well on
19 this H-COMP-5 Communication About Medicines measure?

20 A I don't know.

21 Q Okay, and how does this measure reflect the
22 safety of a hospital?

23 A I don't know.

24 Q Okay. Do you know whether CMS measures
25 communication about medicines?

1 A I don't.

2 Q Okay. Next is "H-COMP-6: Discharge
3 Information" measure.

4 Have you heard of or are familiar with this
5 measure?

6 A I've heard of it.

7 Q And what is it?

8 A How well a hospital communicates information
9 to a hospital -- or to a patient, upon discharge.

10 Q Okay, and how does a hospital score well
11 based on LeapFrog's scoring methodology on H-COMP-6,
12 Discharge Information?

13 A I don't know.

14 Q Okay, and how does this measure reflect the
15 safety of a hospital?

16 A I don't know.

17 Q Okay. Do you know whether CMS measures
18 discharge information in the same way that, that
19 LeapFrog does?

20 A I don't.

21 Q Okay.

22 Do you know whether -- we've gone through
23 what measures that are currently in the scoring, the
24 scoring methodology, at least according to Exhibit 1.

25 Are you aware of any process or structural

1 measures that LeapFrog used to include in its scoring
2 methodology that it no longer includes?

3 MS. BLAIR: I'm going object to form.

4 Misstates Exhibit 1. You can answer.

5 THE WITNESS: I'm not aware.

6 BY MR. CHUNG:

7 Q Okay. Do you know whether LeapFrog
8 currently is considering any different or additional
9 process or structural measures to include in its
10 scoring methodology?

11 A I don't know.

12 Q Okay. So we went over a number of process
13 and structural measures. We're going to go over now a
14 handful of "outcome measures."

15 Have you heard of that terminology before?

16 A Yes.

17 Q Okay, and I know you went into it a bit
18 earlier, but can you describe for us, based on your
19 understanding, what outcome measures are.

20 A It's a result of something that happens in a
21 hospital.

22 Q Okay. Why does LeapFrog call them "outcome
23 measures"?

24 A I don't know.

25 Q Okay, and do you know who decides which

1 outcome measures to include in the scoring
2 methodology?

3 A I think it's our expert panel.

4 Q Okay. So before we get into each of the
5 outcome measures, how does the expert panel go about
6 deciding which measures, whether they're structural,
7 whether they're process or outcome, which measures to
8 include in scoring methodology? Is there a --

9 MS. BLAIR: Objection.

10 BY MR. CHUNG:

11 Q Is there a, a process by which -- that that
12 expert panel follows in deciding or assessing which
13 measures to include in its scoring methodology?

14 MS. BLAIR: Objection to form.

15 THE WITNESS: I don't know.

16 BY MR. CHUNG:

17 Q Okay. Is it -- is this process ever
18 discussed during the, the biweekly executive staff
19 meetings that you described earlier?

20 A Not that I recall.

21 Q So let's start with the, in terms of these
22 outcome measures, the "Foreign Object Retained"
23 measure.

24 Have you heard of that one?

25 A Yes.

1 Q And what is that?

2 A Where you're in surgery and something is
3 left inside you.

4 Q Okay. How does a hospital score well on the
5 foreign object retained measure?

6 A I don't know.

7 Q Okay, and how does foreign object -- how did
8 this particular measure reflect the safety of a
9 hospital?

10 A I would assume that if something is left
11 inside you during surgery, it's not very safe.

12 Q Okay. Do you know whether CMS measures the
13 foreign object retained, basically the substance of
14 this measure?

15 A I don't know.

16 Q Okay. Do you know whether LeapFrog relies
17 on CMS data for this particular measure?

18 A I don't know.

19 Q Okay. The next is the "Air Embolism"
20 measure. Are you familiar with that?

21 A No.

22 Q Okay. Do you know how the air embolism
23 measure reflects the safety of a hospital?

24 A I don't.

25 Q Okay. Do you know whether CMS has data for

1 air embolism?

2 A I don't.

3 Q Next is the "Falls and Trauma" measure. Are
4 you familiar with that measure?

5 A I've heard of it.

6 Q And what is that?

7 A I think it's how often a patient -- how
8 patients fall.

9 Q Okay, and how does a hospital score well on
10 this falls and trauma measure?

11 A I don't know.

12 Q Do you know how falls and trauma, this
13 particular measure, reflects the safety a hospital?

14 A I don't.

15 Q Okay. Do you know whether LeapFrog relies
16 on CMS data for this particular measure?

17 A I don't.

18 Q Okay. How about the C-L-A-B-S-I measure,
19 the "CLABSI" measure?

20 A What's the question?

21 Q Are you familiar with that particular
22 measure?

23 A Yes.

24 Q And what is that?

25 A I believe it's a type of infection.

1 Q Okay. Do you know anything more specific
2 about it?

3 A I don't.

4 Q All right. Do you know how a hospital
5 scores well on the CLABSI?

6 A I don't.

7 Q Okay. Do you know how this particular
8 measure reflects the safety of a hospital?

9 A I don't.

10 Q All right.

11 Do you know whether LeapFrog uses CMS data
12 or measures for this particular measure?

13 A I don't.

14 Q Okay.

15 Are you familiar with C-A-U-T-I? I'll call
16 it the "CAUTI" measure.

17 A I've heard of CAUTI.

18 Q Okay, and what is that?

19 A Also a type of infection.

20 Q Okay. Do you know what kind of the
21 difference between CAUTI and CLABSI is?

22 A I'm thinking.

23 Q Yep.

24 A I think CAUTI has to do with catheter
25 urinary tract infections.

1 Q Okay. Do you know how a hospital scores
2 well on this CAUTI measure?

3 A I don't.

4 Q And how does CAUTI reflect the safety of a
5 hospital?

6 A I don't know.

7 Q Okay. Do you know whether LeapFrog uses CMS
8 data for this particular measure?

9 A I don't.

10 Q How about the -- the next is the "SSI:Colon"
11 measure. Are you familiar with that particular
12 measure?

13 A No.

14 Q Okay. Do you know how it reflects the
15 safety of a hospital?

16 A No.

17 Q All right. Do you know whether CMS measures
18 this particular area?

19 A I don't.

20 Q Okay. How about the M-R-S-A or the "MSRA"
21 measure; are you familiar with that?

22 A I've heard of it.

23 Q And what is that?

24 A It's another infection.

25 Q Okay. Do you know how a hospital scores

1 well on MRSA?

2 A I don't.

3 Q Do you know how it reflects the safety of a
4 hospital?

5 A I don't.

6 Q All right. Do you know how -- whether
7 LeapFrog relies on or uses CMS data for this
8 particular metric?

9 A I don't.

10 Q Okay. How about -- are you familiar with
11 the "C. diff," C, D-I-F-F, measure?

12 A I've heard of C. diff.

13 Q Okay, and what is that?

14 A Another type of infection.

15 Q Okay. Do you know how a hospital scores
16 well on C. diff?

17 A I don't.

18 Q All right. Do you know how it reflects the
19 safety of a hospital?

20 A I don't.

21 Q Okay. Do you know whether LeapFrog relies
22 on CMS data for this particular measure?

23 A I don't.

24 Q Okay. How about -- are you familiar with
25 the "PSI 4 death rate among surgical inpatients with

1 serious treatable complications" measure?

2 A No.

3 Q You haven't heard of that?

4 A No.

5 Q Okay. Do you know how that particular
6 measure, this PSI 4 measure, reflects the safety of a
7 hospital?

8 A No.

9 Q Do you know whether LeapFrog relies on CMS
10 data for this particular measure?

11 A I don't.

12 Q Okay. How about -- have you heard of the
13 "CMS Medicare PSI 90: Patient Safety and Adverse
14 Events Composite" measure?

15 A I've heard of it.

16 Q Okay, and what is that?

17 A I don't really know.

18 Q Heard of it, but don't know what it is?

19 A I've heard of it, but I don't know.

20 Q Okay. Do you know how it reflects the
21 safety of a hospital?

22 And I can repeat the whole thing, if you'd
23 like.

24 A No.

25 Q Do you know whether LeapFrog relies on CMS

1 data for this particular measure?

2 A I don't know.

3 Q Are there any -- the same question as we had
4 with the process and the structural measures. Are
5 there any outcome measures that you're aware of that
6 LeapFrog used to include in its scoring methodology
7 that it no longer includes?

8 A Not that I'm aware of.

9 Q Okay.

10 Do you know whether LeapFrog is currently
11 considering any, considering any different or
12 additional outcome measures?

13 A Not that I'm aware of.

14 Q So we've gone over a number of measures,
15 some of which you are familiar with and some of which
16 you are not.

17 Are these measures weighted differently
18 before LeapFrog arrives at a safety grade for a
19 particular hospital?

20 MS. BLAIR: Objection to form.

21 THE WITNESS: I don't know.

22 BY MR. CHUNG:

23 Q Okay. Are you familiar with -- are you
24 familiar with kind of the concept of weighting among
25 the measures?

1 A I'm familiar with the concept of weighting.

2 Q Okay. Is this something that's been
3 discussed -- that you've discussed with Ms. Danforth
4 or others?

5 A No.

6 Q Okay. Do you know how LeapFrog weighs the
7 various measures, at least generally?

8 A No.

9 Q Okay. Do you know whether the, the way or
10 the manner in which LeapFrog has weighted the various
11 measures has changed over time?

12 A I don't know.

13 Q Okay. We're going to go next into the
14 hospital survey, LeapFrog's hospital survey.

15 Are you familiar with the hospital survey?

16 A Yes.

17 Q Okay, and, and what is it?

18 A That is the -- how we survey hospitals on
19 their patient safety.

20 Q Okay, and how often does -- how, how often
21 is the survey administered?

22 A I believe it's annually.

23 Q All right, and in this survey, what, what is
24 LeapFrog seeking from hospitals?

25 A Information about their patient safety.

1 Q Okay. Have you had or do you have any role
2 in the design of the hospital survey?

3 A I don't.

4 Q Okay. Have you ever reviewed the hospital
5 survey?

6 A I have not.

7 Q Okay. Well, we'll put it in front of you
8 anyway.

9 A Sure.

10 MR. CHUNG: We'll mark this as Exhibit 2.
11 (Exhibit 2 was marked for
12 identification.)

13 BY MR. CHUNG:

14 Q So Ms. Jupiter, you have in front of you
15 what's been marked as Exhibit 2. It is, as we
16 understand it, a copy of LeapFrog's most recent
17 hospital survey that was taken directly from
18 LeapFrog's website. It's available on LeapFrog's
19 website.

20 Have you at least seen this particular
21 version of the survey?

22 A No.

23 Q Okay. Have you at any point during your
24 time at LeapFrog reviewed or leafed through any
25 version of the hospital survey?

1 A I've looked at certain pieces of the survey,
2 but I'm not well-versed in the survey.

3 Q Okay. What certain pieces have you looked
4 at?

5 A The hand hygiene piece. Pieces of the hand
6 hygiene piece.

7 Q Okay, and why the hand hygiene pieces in
8 particular?

9 A I oversee our partners advisory committee,
10 and that includes solution providers around hand
11 hygiene.

12 Q Okay. What do you mean by "solution
13 providers"?

14 A They are vendors who work with hospitals
15 around hand hygiene.

16 Q Okay. So who is -- who at LeapFrog is
17 responsible for the design or the content of the
18 hospital survey?

19 A I think that's our expert panel.

20 Q Okay. Is this the same expert panel, as you
21 understand, that, that's involved in the design of the
22 scoring methodology?

23 A Yes.

24 Q All right, and currently who is on that
25 expert panel?

1 A I don't know.

2 Q Do you know any members of the expert panel
3 currently?

4 A I think Matt Austin.

5 Q Okay. Anyone else?

6 A I don't know.

7 Q Generally speaking, how many members are
8 there on this expert panel?

9 A I don't know.

10 Q Okay. Do you have any interaction? Do you
11 ever communicate with members of the expert panel,
12 whether it's Matt Austin or others?

13 A I sometimes communicate with Matt Austin.

14 Q Okay, and what are -- why do you communicate
15 with Matt Austin?

16 A If we've had him speak before at our
17 partners advisory committee meeting.

18 Q Okay, and so what do you discuss with him?

19 A For example, he would talk about a new hand
20 hygiene measure or a hand hygiene measure and explain
21 it more.

22 Q Okay. Is there -- so you mentioned the
23 expert panel is involved in the design of the hospital
24 survey. Is there anyone at LeapFrog, any LeapFrog
25 employees that are involved in the design of the

1 hospital survey?

2 A Missy Danforth.

3 Q Okay, and what is her -- what's her role
4 with respect to the hospital survey?

5 A She is the vice president of our ratings
6 team.

7 Q Okay. So that's on the rating side, but how
8 is, how is she involved with the survey itself?

9 A I think she, she works -- she's the staff
10 liaison for the expert panel.

11 Q Okay.

12 Now, do you have any role in reviewing
13 responses, so hospitals' responses to this hospital
14 survey?

15 A No.

16 Q Okay. Do you know who at LeapFrog is
17 responsible for reviewing hospital responses to the
18 survey?

19 A I don't.

20 Q Is it the expert panel; do you know?

21 A I don't know.

22 Q Okay. Ms. Danforth?

23 A I don't know.

24 Q Don't know? So you have no idea who within
25 LeapFrog or anyone affiliated with LeapFrog that

1 handles or reviews the responses to the survey?

2 A I don't know.

3 Q So you'll see that the, the survey itself --
4 and feel free to pick it up, look through it -- is
5 over 350 pages long.

6 Does that look right to you?

7 A Yes.

8 Q Okay, and you -- how often, do you
9 understand it, is this survey issued to hospitals?

10 A I believe it's annually.

11 Q Annually? Okay. The scoring -- but, but
12 the hospital safety grades are issued twice a year,
13 correct?

14 A Correct.

15 Q All right. So the survey is sent out once a
16 year, but the health [sic] safety grades are issued
17 twice a year; is that right?

18 A It's not health safety grade.

19 Q Hospital safety grade. I will get that
20 right.

21 A That's okay. I just don't want to --

22 Q No, I -- you're, you're --

23 A -- talk about the wrong thing.

24 Q No, you're exactly right.

25 So the survey is sent out to hospitals once

1 a year, but the hospital safety grades are issued or
2 published twice a year, right?

3 A Correct.

4 Q Okay.

5 Have you received -- do you know whether
6 LeapFrog has received any feedback or heard how long
7 generally it takes for hospitals to complete the
8 survey?

9 A What's the question?

10 Q The question is: Have you heard or gotten
11 any feedback from hospitals about how long it takes
12 for a hospital to fill out or complete this survey?

13 A Yes.

14 Q Okay. Can you tell us about that, what
15 you've heard in that vein or the feedback?

16 A I've heard that it takes 40 to 80 hours a
17 year to do the survey.

18 Q Okay, and where, where are you hearing this
19 from? What's kind of the source of the information?

20 A I've heard it from LeapFrog staff.

21 Q Has -- do you know whether LeapFrog has
22 conducted any studying or collected data relating to
23 how long it takes hospitals to complete the survey?

24 A I don't know.

25 Q Okay. So the 40- to 80-hour number is just

1 kind of based on anecdotally what you've heard from
2 LeapFrog staff; is that right?

3 A That's what I've heard. I don't know what
4 it's based on.

5 Q Okay. Do you, do you know how generally
6 hospitals gather data in order to fill out the survey
7 or respond to the survey?

8 A I don't.

9 Q All right. Have you heard -- so you've
10 heard about generally the number of hours hospitals --
11 that it takes for hospitals to fill out the survey.

12 Have you heard of or seen any feedback or
13 complaints from hospitals about how long it takes to
14 fill out the survey?

15 A I haven't, no.

16 Q Okay. So you've heard no complaints from
17 any hospitals about the length of time or the amount
18 of resources it takes to respond to the survey?

19 A I haven't.

20 Q Okay. Do you know whether others have
21 within LeapFrog?

22 A I don't know.

23 Q Okay. Have -- kind of a similar question.
24 Have hospitals expressed concerns or complained about
25 the content or the, the fairness of the questions or

1 the requests in the hospital survey?

2 A Not to my knowledge.

3 Q Okay. So none, no hospitals have given such
4 feedback to you; is that right?

5 A I don't really talk to hospitals.

6 Q Okay. Do you know whether others among your
7 colleagues at LeapFrog have received that type of
8 feedback?

9 A I don't know.

10 Q Okay. How does LeapFrog use the data
11 collected through the hospital survey?

12 MS. BLAIR: Objection to form.

13 THE WITNESS: Can you clarify?

14 BY MR. CHUNG:

15 Q Sure. Is there a process by which LeapFrog
16 uses -- takes, takes the data from the hospital
17 surveys, right, from the various hospitals, and, and
18 uses it? Is there kind of a set process?

19 MS. BLAIR: Same objection.

20 THE WITNESS: I don't know.

21 BY MR. CHUNG:

22 Q Okay.

23 Do you know whether every section of the
24 hospital survey is used to generate hospital's safety
25 grade?

1 A I don't know.

2 Q Okay. How does LeapFrog verify the accuracy
3 of the information submitted by hospitals in the
4 survey?

5 A I don't know the full way they do it, but I
6 know we do document request information, and then I
7 know we work with a vendor who goes into the hospitals
8 and reviews, measures.

9 Q Okay. So let's start with the first one,
10 the document requests.

11 So are these document, document requests
12 separate from what's requested in the survey?

13 A I believe the document requests are in
14 addition.

15 Q Okay. So they're follow-ups after -- are
16 they follow-up document requests after a hospital has
17 responded to the survey?

18 A To my knowledge.

19 Q Okay, and who is in charge or who oversees
20 that process?

21 A I don't know.

22 Q How do you know this?

23 A I've heard that we do document requests.

24 Q Okay. Generally speaking or from what
25 you've heard, what types of documents are, are

1 encompassed in these document requests?

2 A The one example I can think of is when
3 someone says that they provide translated services, so
4 we would ask for a sample of a translated document.

5 Q Okay.

6 The second item that you mention or that you
7 mentioned were a vendor that goes on site; is that
8 correct?

9 A Correct.

10 Q Can you, can you explain more kind of what
11 that entails? Number one, who is the vendor?

12 A I don't know.

13 Q Okay. Can you describe, tell us more about
14 what, what those on-site visits entail?

15 A I can't.

16 Q Okay. Are these audits?

17 A I don't know.

18 Q Okay. Are these, are these on-site -- is
19 the purpose of these on-site visits to confirm,
20 through observation, what's been submitted by the
21 hospital in the survey?

22 A To my knowledge.

23 Q Okay, and what, what types of issues or
24 items are, are confirmed based on these on-site
25 visits? What are the kind of -- what are the issues

1 that these on-site visits are meant to look at?

2 A I don't know.

3 Q Okay. What -- does LeapFrog, through the
4 vendor, conduct an on-site visit for all hospitals
5 that respond to the survey?

6 A No.

7 Q How does it go about determining which
8 hospitals to do an on-site visit for?

9 A I don't know.

10 Q Does a hospital face any consequences for
11 submitting inaccurate information in its survey?

12 A I don't know.

13 Q Okay. Does a hospital face any consequences
14 for submitting an incomplete survey?

15 A I don't know.

16 Q Okay.

17 Do you know whether hospitals can update or
18 correct their survey responses after their initial
19 response?

20 A Yes.

21 Q Okay. What is that, what is that process?

22 A I know that we have a period of time after
23 they submit that they can make corrections.

24 Q Okay, and how long is that -- curative time,
25 you called it? What is the -- did you say curative

1 time?

2 Oh, period of time. What is that period of
3 time?

4 A I don't know.

5 Q Okay. Do you know whether there are any
6 kind of set deadlines?

7 A There are. I don't know what they are.

8 Q Okay. Are there any kind of penalties or
9 consequences to hospitals for not sending their
10 updates or the corrections in time?

11 A I don't know.

12 Q Okay.

13 How often does LeapFrog amend or make
14 changes to their hospital survey?

15 A I don't know.

16 Q Do you know whether LeapFrog has made
17 changes to its hospital survey during the time you've
18 been there, since 2021?

19 A Yes.

20 Q Okay. How do you know that?

21 A I've heard that we've had changes to the
22 survey.

23 Q Okay. What, what are the changes that have
24 been made?

25 A I know that there's changes in methodology.

1 Q Okay. What do you mean by that?

2 A In the way the survey is done. I'm not an
3 expert on the survey, so . . .

4 Q No. Okay. Even if you're not an expert on
5 the survey, you testified that there have -- number
6 one, that there have been changes, right, to the
7 hospital survey since you started at LeapFrog in 2021.

8 So my question is, again: Based on your
9 recollection, what have those changes been?

10 A I don't recall.

11 Q Okay.

12 Have there been any -- do you know whether
13 there -- or do you know or recall whether there have
14 been any changes to the categories of information that
15 the survey seeks from hospitals?

16 A I don't know.

17 Q Okay.

18 So this will tie back to kind of our, our
19 discussion about the various measures that are in the
20 scoring methodology, but I want to ask you some
21 questions about kind of the information that LeapFrog
22 obtains through the survey versus information that
23 LeapFrog obtains through CMS data, which you testified
24 to earlier.

25 Does LeapFrog use responses to its survey as

1 the primary data source over CMS data for some of its
2 measures?

3 A I don't know.

4 Q Okay. Well, just more specifically, do you
5 know whether -- for the CPOE measure that we discussed
6 earlier, do you know whether LeapFrog uses the
7 hospital's survey responses or CMS data as its primary
8 data source?

9 A I don't know.

10 Q Okay. How about for BCMA?

11 A I don't know.

12 Q Okay. How about for IPS?

13 A I don't know.

14 Q And for hand hygiene; do you know?

15 A I don't know.

16 Q Okay. So you don't know for each of those
17 four measures or metrics whether LeapFrog uses the
18 survey responses or CMS data as a primary data source?

19 A Correct.

20 Q Okay.

21 We're going to move on to kind of a related
22 topic, and it has to do with imputed metrics, which
23 you probably understand is, you know, part of the case
24 before us as well.

25 Are you familiar with LeapFrog's imputation

1 model in its scoring methodology?

2 A I'm familiar that LeapFrog has an imputation
3 model.

4 Q Okay. Based on that familiarity, what is
5 the imputation model?

6 A That I don't know.

7 Q Okay. Do you know generally what, what it's
8 meant to achieve or what its purpose is?

9 A I don't.

10 Q Okay. Do you know which metrics, which
11 metrics or measures use an imputation model?

12 A No.

13 Q Okay.

14 Do you know why LeapFrog chooses -- do you
15 know why LeapFrog has an imputation model in the first
16 place?

17 A Yes.

18 Q And why is that?

19 A If we don't have information, we need some
20 way to come up with the data.

21 Q Okay. So "if we don't have the information,
22 we need some way to come up with the data," so as --
23 I'm just trying to understand your, understand your
24 response here.

25 Under what circumstances would LeapFrog not

1 have information?

2 A If a hospital doesn't fill out the survey.

3 Q Okay. So we're talking about situations
4 where a hospital doesn't participate or respond to the
5 survey, correct?

6 A Correct.

7 Q Okay, and that's -- for those hospitals,
8 the -- LeapFrog would use this imputation methodology;
9 is that correct?

10 A Correct.

11 Q All right, and is it, and is it correct that
12 the reason that LeapFrog would use its imputation
13 methodology for these nonparticipating hospitals is
14 that -- what? What's, what is the reason?

15 MS. BLAIR: Objection to form.

16 THE WITNESS: Can you clarify?

17 BY MR. CHUNG:

18 Q Sure. So I'm just trying to use some
19 building blocks here, right, just given your
20 familiarity with the, with the concept overall.

21 So what is -- why does, why does LeapFrog
22 use an imputation methodology with respect to
23 hospitals that don't respond to its survey?

24 MS. BLAIR: Objection to form.

25

1 BY MR. CHUNG:

2 Q Let's start with that question.

3 A It's standard practice in measurement, if
4 you don't have a measurement, you need to figure out
5 how to use that information.

6 Q What do you mean by "standard practice"?

7 A My son is a mathematician, and he was
8 talking about imputation models as something that he
9 does in his research.

10 Q Okay. So this is standard -- in what field
11 is it standard practice as you understand it?

12 A Data science.

13 Q Okay, and this is based on -- and your
14 understanding is based on your discussion with your
15 son?

16 A And in general.

17 Q And in general. Okay.

18 So is it your under- -- is it your testimony
19 that an imputation model is a standard practice for --
20 an imputation model to be used where there is an
21 absence of data?

22 MS. BLAIR: Objection to form.

23 THE WITNESS: Correct.

24 BY MR. CHUNG:

25 Q All right, and so what does -- what does

1 an -- what does an imputation model do to address that
2 absence of data?

3 A It helps to fill in the data.

4 Q Okay, and in the, the -- in the circumstance
5 that we're describing here, where a hospital does not
6 respond to the survey, and therefore LeapFrog does not
7 have data that they normally would get through a
8 survey, how does the imputation methodology generate
9 the data that LeapFrog doesn't have?

10 MS. BLAIR: Objection to form.

11 THE WITNESS: I don't know.

12 BY MR. CHUNG:

13 Q Okay.

14 Do you have an understanding as to what
15 LeapFrog's current imputation model is?

16 A No.

17 Q Okay. Do you know which, among the various
18 measures and metrics that we've been -- that we've
19 discussed, that there are -- do you know that there
20 are four metrics where LeapFrog uses its imputation
21 methodology?

22 A I don't know.

23 Q Okay. Are you familiar -- do you know that
24 CPOE -- that LeapFrog uses its imputation methodology
25 with respect to CPOE, BCMA, IPS and hand hygiene?

1 Have you heard of that or are familiar with that?

2 A What's the question?

3 Q Do you know or have you heard that LeapFrog
4 uses its imputation methodology with respect to four
5 metrics? Those four metrics are CPOE, BCMA, IPS and
6 hand hygiene.

7 A I know that we use an imputation model. I
8 don't know the specific measurements it's for.

9 Q Okay. So you don't know the specific
10 metrics where LeapFrog uses the imputation
11 methodology; is that right?

12 A Correct.

13 Q Okay.

14 Do you have an understanding as to -- well,
15 actually, during your time at LeapFrog, has LeapFrog
16 always used some form of imputation, imputation
17 methodology?

18 A I don't know.

19 Q Okay. Do you know whether LeapFrog has
20 always used the same imputed metrics during your time
21 there?

22 A I don't know.

23 Q Okay. Have you or others received any
24 complaints or concerns about LeapFrog's imputation
25 model?

1 A I have not.

2 Q Okay. Do you know whether there are any
3 plans to revise or update the imputation model in the
4 future?

5 A I don't.

6 Q Okay. Let's go over -- so you should
7 have --

8 MS. BLAIR: Dan, we've been going about 90
9 minutes.

10 THE WITNESS: I was going to say can I use
11 the restroom.

12 MR. CHUNG: Absolutely. Yes.

13 THE VIDEOGRAPHER: The time is 10:26 a.m.

14 This ends unit 1. We're off the record.

15 (Whereupon, a short recess was taken.)

16 THE VIDEOGRAPHER: The time is 10:41 a.m.

17 This begins unit number 2. We're on the record.

18 BY MR. CHUNG:

19 Q All right, Ms. Jupiter. Before the break,
20 we were discussing the LeapFrog imputation model. Are
21 you aware that there was a change in the imputation
22 model in fall 2024 that's at issue in this lawsuit?

23 A I'm aware there was a change. I don't know
24 exactly when.

25 Q Okay. What was that change?

1 A I don't know.

2 Q Okay. Do you have a -- can you give us a
3 general idea of what you understand the change to be?

4 A I know we changed how we imputed data.

5 Q Okay, and how -- what, what exactly was that
6 change? How did -- how -- what was the change in how
7 LeapFrog imputed data?

8 A I don't know.

9 MR. CHUNG: Well, let's take a look at --
10 we're going to put another exhibit in front of
11 you, give you kind of a comparative exercise
12 here.

13 This will be Exhibit 3.

14 (Exhibit 3 was marked for
15 identification.)

16 BY MR. CHUNG:

17 Q And what we put in front of you as Exhibit 3
18 is the prior version of LeapFrog's scoring
19 methodology, prior to the version you had, that you
20 saw as Exhibit 1. Exhibit 1 is from, at least
21 according to the cover page, from spring of 2025.
22 That's after this change in the methodology, and then
23 Exhibit 3 is the preceding one, at least based on the
24 cover, from spring of 2024.

25 And I'm going to direct your attention to

1 page 14 of Exhibit 3, so the earlier imputation
2 methodology.

3 A Page 14 of which one?

4 Q Of Exhibit 3, okay, and you'll see there,
5 there is a section, "Imputation Method for CPOE, BCMA,
6 IPS and Hand Hygiene."

7 Do you see that?

8 A Yes.

9 Q Okay, and you testified earlier that you are
10 familiar to some extent with those four measures,
11 correct?

12 A I've heard of those measures.

13 Q Okay, and according to this earlier
14 methodology, there is -- you'll see that there are two
15 steps to the imputation method.

16 Do you see that?

17 A Yes.

18 Q Okay, and in step one, it says "to use" --
19 this is -- kind of the preamble to the section is that
20 "The LeapFrog Hospital Survey is voluntary" -- I'm
21 reading from the top of the page -- "is voluntary, and
22 as such, hospitals may choose not to submit a Survey,"
23 and "To address this gap in available data, the Safety
24 Grade methodology utilizes secondary data when
25 available," right?

1 Now, this is what I believe you were
2 testifying to earlier, correct?

3 A What's the question?

4 Q That it is -- does this reflect what you
5 testified to earlier about the purpose of the
6 imputation methodology being to address situations
7 where a hospital has not submitted a survey response?

8 MS. BLAIR: Objection to form.

9 THE WITNESS: Yes.

10 BY MR. CHUNG:

11 Q Okay. So according to this earlier
12 methodology, step one is -- and I'm just reading off
13 the document -- "Use a hospital's most recent score on
14 the measure."

15 Do you see that?

16 MS. BLAIR: I'm sorry. Where are you
17 reading from?

18 BY MR. CHUNG:

19 Q Step one.

20 A Yes. It says "use a hospital's most recent
21 score on the measure."

22 Q Okay, and then step two reads, "Use the mean
23 of the scores assigned to other similar hospitals in
24 the U.S. (applies to CPOE, BCMA and Hand Hygiene
25 only)."

1 Do you see that?

2 A Yes.

3 Q Okay. So does this reflect -- refresh your
4 recollection or understanding to what the imputation
5 methodology was before this change in 2024?

6 A I don't work with the imputation model. I
7 mean I'm reading this now. What you say is what it
8 says, but I don't really -- I'm not familiar with
9 this.

10 Q Okay. Well, have you had discussions with
11 stakeholders about this lawsuit and what this lawsuit
12 is about?

13 A We've discussed the lawsuit, yes.

14 Q Okay, and have they -- have you discussed --
15 as part of those discussions, have you become familiar
16 with what this lawsuit is about?

17 A With the general concept, yes.

18 Q Okay, and what do you understand the general
19 concept to be?

20 A That we changed how we impute data.

21 Q Okay, and beyond that, you have no kind of
22 sense or idea or understanding as to what that change
23 entailed?

24 A I know there was a change. I'm not a data
25 scientist.

1 Q Okay. Do you have -- do you have a sense or
2 an idea as to why that change precipitated this
3 lawsuit?

4 A Can you clarify?

5 Q Sure. Do you have an understanding as to
6 why that change in the imputation methodology
7 contributed, right, to the hospitals here, my client,
8 in bringing this lawsuit against LeapFrog?

9 A I know that your client didn't -- doesn't
10 like the imputation model change.

11 Q Okay, and do you know what -- do you know
12 what about the change in the imputation, imputation
13 methodology the hospitals didn't like?

14 A No.

15 Q Okay, so -- so we just went over the two
16 steps. I read around the two steps in the older
17 methodology. We're going to compare that to the
18 imputation methodology in, in the current methodology
19 document, so if you could flip to -- and this is in
20 Exhibit 1, starting at page 15.

21 Okay. Just let me know when you're there.

22 A Okay.

23 Q It says again, for "Imputation Method for
24 CPOE, BCMA, IPS and Hand Hygiene," it says "Step One:
25 Use hospital's -- Use a hospital's most recent score

1 on the measure (applies to CPOE, IPS and Hand Hygiene
2 only)," and you'll see that that generally is the same
3 as the prior methodology.

4 Do you see that?

5 A Yes, but it doesn't include BCMA.

6 Q Right. It doesn't include that
7 parenthetical, right?

8 THE REPORTER: It doesn't include what?

9 BY MR. CHUNG:

10 Q It doesn't include that parenthetical,
11 correct?

12 A Well, one says "CPOE, IPS and Hand Hygiene,"
13 and the other one says "CPOE, BCMA and Hand Hygiene."

14 Q Right. So in this later, the current
15 methodology, this step one has been expanded to
16 include IPS; is that right?

17 MS. BLAIR: Objection to form.

18 THE WITNESS: And what was your question
19 again?

20 BY MR. CHUNG:

21 Q Right. The -- just to be clear, the -- in
22 the current model, so in Exhibit -- the current
23 methodology in Exhibit 1, the parenthetical there has
24 been expanded to apply to IPS, right, in addition to
25 CPOE and hand hygiene -- or actually, they have

1 actually subtracted --

2 A No.

3 Q No? They have replaced, basically, some of
4 the metrics that are included here, correct?

5 MS. BLAIR: Objection; form.

6 BY MR. CHUNG:

7 Q All right. We can move on.

8 If we look to step two in Exhibit 1, you'll
9 see it says "use imputation point assignment,"
10 correct?

11 A Correct.

12 Q All right, and here it details that "if the
13 hospital does not have historical data from the last
14 two rounds of the Safety Grade" -- so referring to the
15 step one -- "the hospital is assigned a point value
16 that is equivalent to receiving Limited Achievement
17 for this measure on the LeapFrog Hospital Survey,"
18 okay?

19 Do you know -- do you have an -- what does
20 "limited achievement" mean in this context?

21 A I don't know.

22 Q Okay. Do you have an understanding that --
23 is it correct that, according to this new imputation
24 methodology, right, so step two, for any hospitals
25 that don't -- that haven't responded to the survey,

1 right, and do not have historical scores, right, on
2 this measure, that they will be automatically assigned
3 what's called this "Limited Achievement" score on
4 these metrics?

5 A That's what this says, yes.

6 Q Okay, and do you understand limited
7 achievement basically to be the lowest available score
8 on these four metrics?

9 A I don't.

10 Q Okay, but this is --

11 THE REPORTER: Are you saying "limited
12 achievement" or "limit of achievement"?

13 MR. CHUNG: Limited achievement.

14 THE REPORTER: Okay.

15 BY MR. CHUNG:

16 Q But you understand step two, step two
17 basically to be an automatic assignment of this
18 limited achievement score to these hospitals that
19 haven't responded to the survey and don't have
20 historical grades on these metrics?

21 A Yes.

22 Q Okay, and that's an automatic assignment of
23 this limited achievement score without the benefit of
24 any data, whether it's from the hospital survey or
25 from CMS or any other source; is that right?

1 MS. BLAIR: Objection to form.

2 THE WITNESS: I don't know where that comes
3 from.

4 BY MR. CHUNG:

5 Q What do you mean "where that comes from"?

6 A What's your question again?

7 Q So the question is -- I mean you testified
8 that this is basically, according to step two, any
9 hospital that does not -- that hasn't responded to the
10 survey, right, and doesn't have historical scores,
11 right, on these, on these metrics, that they're
12 automatically assigned a limited achievement score,
13 correct?

14 A Correct.

15 Q Right, and that is -- and that limited
16 achievement score is automatically assigned to the
17 hospital in the absence, right, without any
18 consideration by LeapFrog to any data relevant to
19 those metrics; is that right?

20 MS. BLAIR: Objection to form.

21 THE WITNESS: I, I don't have an answer to
22 that.

23 BY MR. CHUNG:

24 Q You don't know or you don't know the answer
25 to that?

1 A I don't know if it's not based on any data
2 whatsoever.

3 Q Okay, but if it's -- but if the limited
4 achievement score is automatically assigned, right,
5 what -- how could it be -- how could it be that any
6 other -- that other data sources are considered if
7 it's automatically assigned?

8 A I don't know. I'm not familiar with where
9 the numbers come from.

10 Q Okay. Which numbers are you referring to?

11 A Limited achievement measure score 15, 25; I
12 don't know where those numbers come from.

13 Q Okay. So you have no familiarity -- again,
14 you're referring to page 16 of Exhibit 1, correct?

15 A Correct.

16 Q All right.

17 Do you know what -- do you have an
18 understanding that limited achievement is the lowest
19 score for each of these metrics?

20 A I don't.

21 Q Okay. Do you have an understanding that
22 limited achievement basically equates to an F on each
23 of those metrics?

24 A I don't.

25 Q Okay.

1 Does LeapFrog's -- I asked you earlier. I'm
2 going to kind of reask it in a different way. Why
3 does LeapFrog use an imputation model?

4 A When we don't have -- I mean when we're
5 lacking information from them, we go to secondary
6 data.

7 Q Okay, and is it correct, according to
8 Exhibit 1, the current imputation methodology, that
9 when you don't have secondary data, that LeapFrog
10 automatically assigns this limited achievement grade
11 to the hospital, correct?

12 A Yes.

13 Q All right. Does LeapFrog's imputation model
14 basically allow it to give more hospitals safety
15 grades?

16 A I don't know.

17 Q Okay, but it's -- without the imputation
18 model, is it possible to give nonparticipating
19 hospitals a safety grade?

20 A I don't know.

21 Q Okay.

22 So in this change that we went over between,
23 between the two imputation methodologies, why did
24 LeapFrog decide to use, automatically use a limited
25 achievement score for the imputed metrics instead of

1 the average hospital score, as it had in the past?

2 MS. BLAIR: Objection to form.

3 THE WITNESS: I don't know.

4 BY MR. CHUNG:

5 Q Okay. You weren't -- were you -- did you
6 discuss kind of the reason for this change at all
7 during your meetings with the executive staff?

8 A I don't recall.

9 Q Okay. So you have no knowledge as to why
10 this change was made?

11 A No.

12 Q And is it correct that the use of the
13 limited achievement score -- automatically-assigned
14 limited achievement score instead of the average
15 hospital score lowers nonparticipating hospitals'
16 grades?

17 A I don't know.

18 Q Okay. Do you have any -- was that ever
19 discussed in executive staff meetings?

20 A Not to my knowledge.

21 Q Okay.

22 Was the purpose of this change in
23 methodology, in assigning limited achievement scores
24 to nonparticipating hospitals, to penalize
25 nonparticipating hospitals?

1 A I don't know.

2 Q Okay. Was that, was that ever discussed in
3 executive staff meetings?

4 A Not to my knowledge.

5 Q Okay. Do you have an understanding as to
6 how a nonparticipating hospital could get a better
7 safety grade under the new methodology?

8 A I don't know.

9 Q Was LeapFrog trying to encourage hospitals
10 to participate in the survey by implementing this
11 imputation method -- change in imputation methodology?

12 A We want hospitals to participate in the
13 survey.

14 Q Okay. I understand that kind of as a
15 general --

16 A Right.

17 Q -- matter, but my question is: Was that at
18 least part of the purpose for changing this, the
19 imputation methodology?

20 A I don't know.

21 Q Okay. Were there -- had you heard of or --
22 had you heard of or were you aware of any complaints
23 or feedback from hospitals that participated in the
24 survey that nonparticipating hospitals were unfairly
25 benefiting from the safety grades?

1 A Can you repeat the question.

2 Q Yes. Have had heard of any -- did you get
3 any feedback or did any of your colleagues get any
4 feedback or hear from any hospitals that did
5 participate in the survey that they thought or they
6 believed that nonparticipating hospitals were somehow
7 benefiting from the safety grades?

8 A I haven't received any feedback about that.

9 MR. CHUNG: Okay. All right. We're going
10 to move on to the next document. This is behind
11 tab 5. This will be Exhibit 4.

12 (Exhibit 4 was marked for
13 identification.)

14 BY MR. CHUNG:

15 Q All right. Ms. Jupiter, I've put in front
16 of you what's been marked as Exhibit 5 [sic]. It is
17 an email from Leah Binder to a Paul Alper, copying
18 you, on July 15 of last year, July 15 of 2024.

19 Do you recognize this email or this
20 document? Just take your time going through it.

21 A I don't remember the specific email.

22 Q Okay.

23 So what -- who is Paul Alper?

24 A He is a consultant for LeapFrog.

25 Q Okay, and what does he consult on?

1 A He works with our partners advisory
2 committee.

3 Q And do you work -- do you work with him?

4 A I work with him.

5 Q Okay, and how do you work with Mr. Alper?

6 A We discuss the partners advisory committee
7 and sponsorships for LeapFrog.

8 Q Okay. So is it that he advises just on the
9 partners advisory committee, or does he advise on
10 other things?

11 A He focuses on the partners advisory
12 committee.

13 Q Okay, and just going through this, this
14 email, what's being discussed?

15 (Witness peruses document.)

16 THE WITNESS: Slides that Paul was making.

17 BY MR. CHUNG:

18 Q Okay, and what were those slides about?

19 A I don't know exactly what the slides were
20 about.

21 Q Well, let's focus just on the last bullet
22 point in Ms. Binder's email, which reads, "We did
23 change the methodology for Fall 2024 so that hospitals
24 that don't report to the LeapFrog Survey this year or
25 last year will be imputed with the lowest score on

1 hand hygiene. I'm sure the survey team has a slide on
2 that, but please be sure you thoroughly understand
3 this change and the talking points around it if you do
4 decide to use it -- it's a very big deal to hospitals
5 (and a major incentive to report to the Survey), and
6 you could easily get a question on it," right?

7 So she -- Ms. Binder writes here that the
8 change in the methodology for fall 2024 is "a very big
9 deal to hospitals and a major incentive to report to
10 the survey."

11 Do you agree with her characterization of
12 the methodology change here?

13 A I'm not a methodology expert. I don't know.

14 Q Not talking about the methodology itself,
15 right, but do you agree with her characterization that
16 this change in the methodology is "a very big deal to
17 hospitals and a major incentive to report to the
18 survey"?

19 A I don't really have an opinion on it.

20 Q Okay. Do you have an understanding as to
21 what she's -- what she is -- what she's, what she's
22 discussing here?

23 A I know that she thinks it's a big deal to
24 hospitals.

25 Q Okay, and how is it a big deal to hospitals?

1 A I don't know.

2 Q Okay. Do you have an understanding --
3 you're, you're copied on this email, correct?

4 A Correct.

5 Q Right. Do you have an understanding as to
6 what she means by the change being "a major incentive
7 to report to the survey"?

8 This dovetails with some of my questions
9 earlier.

10 A I don't know what she means.

11 Q Okay. Doesn't she mean that if, if through
12 this new imputation methodology, a nonparticipating
13 hospital is automatically assigned the lowest score on
14 hand hygiene, that that would be a major incentive for
15 the hospital to, to respond to the survey?

16 MS. BLAIR: Objection to form.

17 THE WITNESS: What's the question?

18 BY MR. CHUNG:

19 Q So the question is: Do you -- is that your
20 understanding of what she means by this change in the
21 methodology being "a major incentive" to hospitals?

22 A Is my understanding what?

23 Q Is it your understanding -- is it your
24 understanding that if hospitals, if, if they don't
25 respond to the survey, they will basically get a

1 flunking grade on hand hygiene, automatically get a
2 flunking grade on hand hygiene, that that would
3 constitute a major incentive for them to respond to
4 the survey, whether they want to or not?

5 A I'm still not clear on exactly what your
6 question is.

7 Q So the question, I'm asking you whether it's
8 a fair -- let's put it this way, right?

9 Is it fair to say that if a hospital that,
10 that didn't participate, right, in the survey is faced
11 with the prospect of getting a flunking grade on hand
12 hygiene, right, because it didn't participate, that
13 that would be a major incentive for the hospital to
14 actually participate in the survey?

15 A I don't know -- I don't know that it's a
16 flunking grade. I'm not as familiar with --

17 Q Okay.

18 A -- the imputation, that it means a flunking
19 grade.

20 Q Well, let's say "with the lowest score on
21 hand hygiene," just to use Ms. Binder's words. If
22 that were the case, wouldn't that be a major incentive
23 for the hospitals to respond to the survey?

24 MS. BLAIR: Objection; form.

25 THE WITNESS: I'm not clear on what you're

1 asking me. I am not very familiar with that. I
2 can see that's what Leah says, yes.

3 BY MR. CHUNG:

4 Q Okay. So you have no -- and you're not
5 familiar what she's referring to here in terms of how
6 the change in the imputed, imputation methodology
7 constitutes a major incentive for hospitals to
8 actually participate in the survey?

9 A What's the question?

10 Q The question is: Do you have an
11 understanding of what she's, what she's referring to
12 here?

13 A I have a general understanding of what she's
14 referring to.

15 Q Okay. So let's start with that general
16 understanding. What is, what is your general
17 understanding?

18 A That we've changed the way we impute the
19 score when a hospital doesn't fill out the survey.

20 Q Okay, and what is, what is that change
21 exactly?

22 A That they're being assigned lowest
23 achievement if they don't fill out the survey.

24 Q Okay. Lowest achievement if they don't fill
25 out the survey, and what is Ms. -- what do you

1 understand Ms. Binder to be saying in terms of what
2 that means to nonparticipating hospitals?

3 MS. BLAIR: Objection to form.

4 THE WITNESS: I don't understand the
5 question.

6 BY MR. CHUNG:

7 Q Well, what are you understanding Ms. Binder
8 to be saying here when, because of that assignment of
9 the lowest, lowest achievement, right, just based on
10 your testimony, that -- how does that, how does that
11 affect whether -- how does that affect whether
12 hospitals will participate in the survey?

13 A She's saying it's an incentive for them to
14 report to the survey.

15 Q Okay, and how? Why, why is it an incentive?

16 MS. BLAIR: Objection; form.

17 THE WITNESS: I don't know.

18 BY MR. CHUNG:

19 Q Okay.

20 Are you aware of any criticisms from
21 hospitals about this change in the imputation
22 methodology?

23 A I mean we're in the middle of this lawsuit.

24 Q Well, apart -- let's say apart from the
25 plaintiff hospitals here, right? Have you been privy

1 to any criticisms from hospitals about the change in
2 the imputation methodology?

3 A I haven't.

4 Q Okay. So zero kind of feedback from other
5 hospitals about, about the imputation methodology?

6 A I don't talk to hospitals about the
7 imputation methodology.

8 Q Okay.

9 So just going back to Ms. Binder's, the last
10 bullet here, isn't another way of putting this is that
11 the purpose of this change, right, by assigning
12 hospitals the lowest score on hand hygiene, wasn't the
13 purpose here to basically penalize nonparticipating
14 hospitals into participating in the survey?

15 MS. BLAIR: Objection; form.

16 THE WITNESS: I don't know.

17 BY MR. CHUNG:

18 Q Okay. Wasn't it the purpose of the change
19 of this methodology to make nonparticipating hospitals
20 into participating hospitals?

21 A I don't know.

22 Q Wasn't that the incentive that -- you
23 testified about this just a moment ago, but wasn't
24 that the incentive that Ms. Binder was describing
25 here, to basically convert those nonparticipating

1 hospitals into, into participating hospitals?

2 MS. BLAIR: Objection; form.

3 THE WITNESS: It says it's "an" incentive.

4 It doesn't say it's "the" incentive or "major"
5 incentive. It doesn't say that that's the
6 reason. It's "an" incentive.

7 BY MR. CHUNG:

8 Q Okay. It's a major incentive to report to
9 the survey, correct?

10 A Correct.

11 Q Okay. So what do you understand that to
12 mean?

13 MS. BLAIR: Objection; form.

14 THE WITNESS: That it is an incentive to
15 report to the survey, but there, for all I know,
16 there could be hundreds of incentives to report
17 to the survey, and this is one of them.

18 BY MR. CHUNG:

19 Q Okay.

20 So just using Ms. Binder's words in this
21 email, with the change in the imputation methodology,
22 a nonparticipating hospital "will be imputed with the
23 lowest score on hand hygiene," right? And this is --
24 this -- correct? And this is in a scenario where the
25 hospital hasn't submitted any data with respect to

1 hand hygiene; is that correct?

2 A What's the question?

3 Q My question is: The scenario here that
4 Ms. Binder is describing is the hospital has not
5 submitted any data, has not responded to the survey at
6 all, correct?

7 A I don't see that here.

8 Q Okay. Well, she says that hospitals -- this
9 applies to "hospitals that don't report to the
10 LeapFrog survey"; is that right?

11 MS. BLAIR: Objection to form.

12 BY MR. CHUNG:

13 Q It's in the first line of that bullet.

14 A So what's the question?

15 Q The question is, right, is she describing
16 here hospitals that haven't reported or haven't filled
17 out the LeapFrog survey?

18 A Yes.

19 Q Okay, and so that means in this, in this
20 scenario, LeapFrog does not have any data from the
21 hospital about hand hygiene, correct?

22 A Correct.

23 Q All right. So what she's describing -- am I
24 correct that what she's describing is that these
25 nonparticipating hospitals will get the lowest score

1 on hand hygiene, even though LeapFrog hasn't seen any
2 data from the hospital on hand hygiene, correct?

3 MS. BLAIR: Objection; form.

4 THE WITNESS: Correct.

5 BY MR. CHUNG:

6 Q Okay, and LeapFrog is assigning the lowest
7 score for -- on hand hygiene for a nonparticipating
8 hospital without having looked at or having been able
9 to assess the hospital's safety practices around hand
10 hygiene; is that right?

11 MS. BLAIR: Objection; form.

12 THE WITNESS: I don't know the specifics of
13 it. I mean this just says they don't report to
14 the survey.

15 BY MR. CHUNG:

16 Q Correct, but it also says that the, these
17 nonparticipating hospitals will be imputed with the
18 lowest score on hand hygiene, right?

19 A Correct.

20 Q Okay. Does it say anything about -- is
21 Ms. Binder -- does Ms. Binder say anything here about
22 that, that lowest score on hand hygiene being assigned
23 after reviewing any data relating to hand hygiene?

24 A No, but she also doesn't mention that we
25 have CMS data also. I mean I can't say all the things

1 that she doesn't say.

2 Q Okay, but she -- they -- it says that they
3 will be imputed with the lowest score on hand hygiene,
4 correct?

5 A Yes.

6 Q All right, and that's -- and I think your
7 testimony earlier was that the purpose of the
8 imputation methodology is to basically come up with a
9 score for a hospital where they haven't submitted data
10 on a particular metric?

11 MS. BLAIR: Objection to form.

12 THE WITNESS: Correct.

13 BY MR. CHUNG:

14 Q Right. So in this scenario, the imputation
15 methodology is being used to impute this lowest score
16 on hand hygiene, because LeapFrog doesn't have any
17 data on hand hygiene, correct? I mean that's the
18 whole purpose of the imputation methodology, correct?

19 MS. BLAIR: Objection to form.

20 THE WITNESS: I think so.

21 BY MR. CHUNG:

22 Q Okay. So just focusing on -- going back to
23 what she wrote here about this change of the
24 imputation being "a very big deal to hospitals and a
25 major incentive to report to the survey," was

1 Ms. Binder very focused on -- was she focused on
2 increasing hospital survey participation?

3 A I have no idea what Ms. Binder was focused
4 on.

5 Q Well, you, you report to her, correct?

6 A Yes.

7 Q Right? And you regularly have conversations
8 with her, correct?

9 A Yes.

10 Q Okay, and did you ever have any discussions
11 with her about the purpose of this change in the
12 imputation methodology?

13 A No.

14 Q Are hospitals -- are hospitals informed that
15 not participating in the survey can result in imputed
16 scores or lower ratings on the hospital safety grade?

17 A I don't know.

18 Q Okay. So you're not aware of any
19 disclosures or information to hospitals that -- of
20 that consequence, right, from not participating in the
21 survey?

22 A I don't know.

23 Q Okay. Has -- do you know whether LeapFrog
24 has conducted any studies or analysis that project the
25 safety grades of hospitals that haven't participated

1 in the survey?

2 MS. BLAIR: Objection; form.

3 THE WITNESS: Can you -- I don't understand
4 the question.

5 BY MR. CHUNG:

6 Q Sure. Do you know whether LeapFrog has
7 conducted any studies or analysis that look at what
8 the safety grades would have been for hospitals that
9 did not respond to the survey?

10 MS. BLAIR: Objection to form.

11 THE WITNESS: I, I don't know. I don't
12 understand the question.

13 BY MR. CHUNG:

14 Q You don't understand the question?

15 A Correct.

16 Q Okay. So the question is: Do you know
17 whether LeapFrog has studied or conducted any analysis
18 for, for hospitals that don't respond to the survey,
19 what their safety grades would have been if they had
20 responded to the survey?

21 A I don't know.

22 Q Okay.

23 Has LeapFrog received any feedback from
24 third parties, right -- so let's put aside the
25 hospitals -- third parties that includes insurers,

1 consumers -- regarding the reliability of the safety
2 grades for nonresponding hospitals?

3 A I don't know.

4 Q Nothing? Nothing along those lines?

5 A (Shakes head.)

6 Q Okay. In your kind of role overseeing
7 communications, right, have you -- do you get feedback
8 from third parties like insurers and consumers?

9 A Do we get feedback in general?

10 Q Yes.

11 A I'm sure we get feedback. I don't
12 personally get feedback.

13 Q I'm not talking about personally. Does
14 LeapFrog get feedback from these third parties?

15 A I assume so.

16 Q Why do you assume -- I mean you oversee
17 communications, so why is that based on an assumption?

18 A Because no one has given me feedback about
19 it.

20 Q Okay. Do you know whether the organization
21 itself receives feedback?

22 A I don't know.

23 Q Okay.

24 Has LeapFrog considered not grading
25 hospitals that don't respond to the survey?

1 A I don't know.

2 Q Okay. Has that ever been a kind of idea or
3 topic of discussion between you and Ms. Binder or any
4 of your other colleagues at LeapFrog?

5 A Not to my knowledge.

6 Q Okay. So that's never come up?

7 A I can't say it's never come up. I have no
8 memory of that coming up.

9 Q Okay.

10 What's your -- do you have a view or an
11 opinion as to whether LeapFrog should be grading
12 hospitals that don't respond to the survey?

13 A I don't have an opinion on that.

14 Q Okay. Where -- do you have an opinion as to
15 whether -- in instances where LeapFrog does not have
16 data, right, on certain metrics that contribute to the
17 safety grade, do you have an opinion as to whether
18 LeapFrog should be assessing or giving scores to
19 hospitals where they don't have that data?

20 A I don't have an opinion on that.

21 Q Okay. Do you think it's fair?

22 A I don't know enough about it.

23 MR. CHUNG: All right. Why don't we move on
24 to another topic. We'll go -- we'll do tab 7.

25 This will be Exhibit 5.

1 (Exhibit 5 was marked for
2 identification.)

3 BY MR. CHUNG:

4 Q All right. So, Ms. Jupiter, I put in front
5 of you what's been marked as Exhibit 5. It is titled
6 "LeapFrog Group and Affiliate, Consolidated Financial
7 Statements" from June 30, 2024, okay.

8 Are you, are you familiar with this
9 document?

10 A Yes.

11 Q Okay, and generally what is it?

12 A It's our financial statements from 2024.

13 Q Okay. Do you -- what role do you have in,
14 in assembling or putting together the financial
15 statements?

16 A I don't assemble or put together financial
17 statements.

18 Q Do you have any input?

19 A No.

20 Q Okay, but you are familiar with it?

21 A Yes.

22 Q All right, and in kind of what, what
23 capacity are you familiar with it?

24 A I've seen that we present them to the board.

25 Q Okay. So let's, let's go through some kind

1 of the line items here.

2 If you turn to page 5 of the document, and
3 you'll see kind of that the total revenue for LeapFrog
4 last fiscal year -- we're talking about 2024
5 basically -- was \$8.36 million; is that right? Eight
6 point -- \$8,357,319.

7 A Yes.

8 THE REPORTER: I'm sorry. Can you say it
9 again. Eight million --

10 MR. CHUNG: \$8,357,319.

11 BY MR. CHUNG:

12 Q Okay. In 2023, we see that, that LeapFrog
13 operated at, at a loss in fiscal year 2023.

14 Do you see that?

15 A Yes.

16 Q Okay, and what accounted for that loss?

17 A I don't know.

18 MR. CHUNG: Okay. We're going to move --
19 we're now going to move on to tab 9, which will
20 be Exhibit 6.

21 (Exhibit 6 was marked for
22 identification.)

23 BY MR. CHUNG:

24 Q All right. Do you recognize this document?

25 A Yes.

1 Q All right, and it's titled "LeapFrog
2 Long-Range Strategic Intent" for fiscal year 2026 to
3 2032.

4 Can you just describe what this document is.

5 A I mean it looks like goals for the next six
6 years for the organization.

7 Q Were you involved in drafting this document?

8 A No.

9 Q Who was?

10 A I believe it's a committee of the board.

11 Q Okay. Do you know whether anyone from the
12 staff or any LeapFrog employees contributed to it or
13 helped the board with putting it together?

14 A I don't know.

15 Q Okay. So you'll see on the first page of
16 the document, there are three, three objectives.

17 Do you see that, objectives 1, 2, and 3?

18 Is it fair to say that these are the kind of
19 most important goals for LeapFrog's long-range
20 strategy?

21 A Yes.

22 Q Okay, and the first objective or goal listed
23 is "scale resources to the capacity needed to make
24 giant leaps for patient safety and stop avoidable
25 death and suffering."

1 And within that first -- if we turn to the
2 next page, it breaks down that first objective, right?
3 Do you see up top the same kind of language there, and
4 in the table underneath, under the "Goal" column, it
5 says "expand revenue from existing sources."

6 Do you see that, Ms. Jupiter?

7 A Yes.

8 Q All right. So expanding or increasing
9 LeapFrog's revenue is -- it looks like the first, the
10 very first goal for the, for the top line objective,
11 right, for the, for the organization; is that right?

12 A Yes.

13 Q Okay. So under Objective 1, one of the
14 benchmark indicators here says that the goal is to
15 increase revenue to \$9 million by September 2025.

16 Do you see that?

17 A Yes.

18 Q And then 2028, the benchmark is \$12 million,
19 right?

20 A Yes.

21 Q And then 2031 is \$18 million; is that
22 correct?

23 A Correct.

24 Q Okay. Are these still kind of the
25 applicable goals, as you understand them?

1 A We have adjusted them, but essentially.

2 Q In what ways have you adjusted them?

3 A Do you know the date of these? I know we
4 adjusted them like . . .

5 Q Are we talking about adjust -- just looking
6 at kind of the revenue, right, that we just went over,
7 or are we talking about adjusting upwards, downwards,
8 in other ways?

9 A I think we adjusted them downwards a little
10 bit.

11 Q Okay. Do you have a sense of by how much,
12 what the ballpark numbers are?

13 A Not a huge amount.

14 Q Okay. How are these, how are these goals
15 determined?

16 A These are very aspirational goals that we
17 discussed with the management team and where we would
18 like the direction of the organization to go.

19 Q Okay, and are those -- are these goals --
20 and I'm including these kind of dollar amounts,
21 benchmarks; are they communicated to LeapFrog staff
22 working on the hospital grades or the hospital survey?

23 A I don't know. That's not my team.

24 Q Okay. Is -- I think you testified earlier
25 that Ms. Danforth and her team, right, oversee the

1 hospital grades and the hospital survey, along with
2 the expert panelists that you mentioned.

3 A Right. Hospital safety grade.

4 Q Hospital safety grade that you mentioned.
5 Are they -- is Ms. Danforth involved in putting
6 together the strategic objectives?

7 A Yes.

8 Q Okay. So let's go to -- moving on to
9 Objective 2, just going back to the first page, it
10 reads, "Drive ever higher standards for patient safety
11 and publicly rate acute care facilities on achievement
12 of those standards."

13 Actually, before we go there, let's go
14 through kind of the rest of the benchmark indicators
15 under Objective 1.

16 So we went through kind of the revenue
17 figures. Underneath those, in that cell, there's a
18 September 2025, "eight net new partners," and then
19 there's revenue targets, and it goes down the line,
20 right? 2028, 2031.

21 What is this? What is this describing?

22 A This is our partners advisory committee.

23 Q Okay. I was going to get to it later, but
24 what -- because you've mentioned it a few times
25 already. What is the partners advisory committee?

1 A The way our board is structured is we do not
2 have people on the board who are involved in
3 healthcare organizations, and don't get funding from
4 healthcare. We try and remain transparent and very
5 clear about that.

6 So our partners advisory committee are
7 solution providers that work with hospitals.

8 Q Okay. So what, what is the -- you started
9 kind of the explanation with the, kind of the role of
10 the board members. How, how does that -- how do kind
11 of the transparency, as you described it, with respect
12 to the board members relate to the partners advisory
13 committee? I'm not understanding the link there.

14 A Sure. So the partners advisory committee,
15 for example, a member of that is Purell, and we
16 wouldn't have Purell be on our board, because they --

17 THE REPORTER: You wouldn't have Purell
18 on, be on the board?

19 THE WITNESS: Be on our board, correct.

20 BY MR. CHUNG:

21 Q And why is that?

22 A Because, you know, Purell is someone that
23 would make money from hospitals, selling to a
24 hospital.

25 Q Okay, and am I understanding correctly that

1 because Purell might make money from a hospital as a
2 vendor, presumably, that a company like Purell could
3 benefit from basically the hospital safety grades?

4 A I don't really understand the question.

5 Q What I'm trying to understand is why
6 wouldn't, you know, because -- why wouldn't Purell, as
7 a company that makes money from hospitals, why an
8 executive or someone from Purell be an appropriate
9 member of the board?

10 A Because LeapFrog was founded for consumers
11 and payors, and that's who's on our board.

12 Q Is there some sort of conflict of interest
13 issue with respect to a company like Purell being on
14 the board?

15 A I mean we represent consumers and payors, so
16 that's who would be on our board.

17 Q Okay. So, for example, who are the kind of
18 consumers and payors that are represented on the
19 board?

20 A We have patient advocates on -- you know,
21 patient advocates are on the board, as well as, you
22 know, large employers who would pay for healthcare for
23 their employees.

24 Q Okay. So the patient -- am I understanding
25 it correctly that then the role or the purpose of the

1 patient advisory committee is for other parties, like
2 a Purell, right, that do make money from hospitals, to
3 have some sort role with respect to LeapFrog?

4 A No, they're not on the patient advisory
5 committee. They're on the partners advisory --

6 Q Partners advisory committee?

7 A Right.

8 Q Yeah, and so what is the purpose of the
9 partners advisory committee?

10 A To get information from them about trends in
11 healthcare and for them to hear from us about what's
12 going on with LeapFrog.

13 Q Okay, and so just going back to the
14 strategic document here under the first objective,
15 what is this describing? You mentioned that it has to
16 do with the partners advisory committee, but what is
17 this describing here?

18 A The number of members of the partners
19 advisory committee.

20 Q Okay, and, and when it's listing revenue, is
21 that revenue from basically membership fees that, that
22 members of the partners advisory committee pay to be
23 on the committee?

24 A Correct.

25 Q Okay, and so what, generally speaking, are

1 those fees?

2 A Members pay \$35,000 to be on the committee.

3 Q Okay, and what do they get from -- what do
4 they get in exchange for that payment?

5 A They show their support for patient safety.
6 That's really the big thing they get out of it.

7 Q How do they do that?

8 A So they would get -- they get, you know,
9 like a badge that says they're a member of the
10 partners advisory committee of LeapFrog, that shows
11 that they support patient safety, and they can say we
12 support patient safety by supporting LeapFrog.

13 Q Okay.

14 The -- so the next kind of table down is --
15 has to do with data licensing revenue, right? And it
16 shows the same kind of timeframes, September 2025,
17 2028, 2031.

18 What is that referring to?

19 A I don't work at all with data licensing.

20 Q Understood. That's fine, but what is it,
21 what is it referring to? What is data licensing?

22 A Revenues we receive from licensing our data.

23 Q Okay. To whom -- like what is kind of the
24 licensing -- how does LeapFrog -- what does LeapFrog
25 license?

1 A Data. I'm not familiar with our data
2 licensing.

3 Q Okay, and then the next table down is again
4 same timeframes from the annual meetings. Is this
5 kind of profit or revenue from fees, kind of
6 attendance fees for the annual meeting?

7 A Correct.

8 Q Okay.

9 So moving on to Objective 2, so if you could
10 turn to the page ending with LeapFrog -- it's the
11 Bates number ending with 796, I believe. It says
12 "Objective 2" up top, "Drive ever higher standards for
13 patient safety and publicly rate acute care facilities
14 on achievement of those standards."

15 What do you understand this objective to
16 mean?

17 A We want high standards for patient safety.
18 We want patients to be safe.

19 Q Okay.

20 Now, the -- if you go down to the fifth cell
21 or the fifth row in this table, the goal is to
22 "increase participation in LeapFrog's hospital and ASC
23 surveys," right?

24 A Yes.

25 Q What is the ASC survey?

1 A Ambulatory surgery centers.

2 Q Okay. Is that a -- that's a separate survey
3 from the hospital survey that we went over earlier?

4 A Correct.

5 Q Okay, and then in the column next to it, the
6 proposed metric, it reads "hospital numbers and
7 percentage of beds," and using the same timeframes, it
8 has by September of this year, this month, that the,
9 that the goal is 2,433 hospitals; is that right?

10 A Yes.

11 Q And that means 78 percent of inpatient beds?

12 A Yes.

13 Q Is that -- so that's 78 percent of the
14 inpatient beds at these -- at hospitals generally, or
15 what does that 78 percent of inpatient beds refer to?

16 A So we're not saying 78 percent of hospitals,
17 because hospitals are different sizes. So it's about,
18 if you take all the beds and all the hospitals,
19 78 percent of those.

20 Q Okay, and then the goal is, for 2028, to get
21 participation, so in terms of increasing participation
22 in the surveys, right, the hospital surveys and the
23 ASC surveys, why is that increase in participation the
24 metric? Why is the metric percentage of inpatient
25 beds?

1 A As opposed to --

2 Q As opposed to let's say percentage of
3 hospitals, right?

4 A Because hospitals are different sizes. You
5 have a hospital that has -- can take 50 patients, and
6 you have a hospital that can take 500 patients.

7 Q Okay, and so why is inpatient beds, right,
8 the number percentage of inpatient beds, the more --
9 the relevant measure, right, for increasing
10 participation in, in the surveys, because it's the --
11 again, as I understand it, it's the hospitals that are
12 responding to the surveys, right?

13 A Right.

14 Q So why is kind of the relevant, the metric
15 here the number of beds or the percentage of beds?

16 A Because a bigger hospital would have more
17 beds and a greater impact on patients.

18 Q Okay. So when we look at the metric or the
19 benchmark for 2031, when it says 90 percent of
20 inpatient beds, you're looking to increase
21 participation in the surveys to a point where you're
22 covering basically 90 percent of inpatient beds among
23 all hospitals, relevant hospitals; is that right?

24 A Correct.

25 Q Let's move on to Objective 3, which starts

1 at the bottom of that same page, "Build communities
2 that achieve the mission." It says here, the first
3 under -- under the "Goal" column, the first cell says
4 "The General Public: Create communication strategies
5 that make the Hospital Safety Grade and LeapFrog
6 itself household names," right, and the proposed
7 metric there is "annual website visits."

8 So is it correct that LeapFrog hopes to
9 increase annual traffic to its websites by 100 percent
10 by 2031?

11 A Yes.

12 Q Okay, and under -- if you go a few, three
13 cells down, it says "Purchasers/Employers: Enable
14 purchasers and their contractors to tie LeapFrog
15 ratings to payment decisions."

16 What does the, what does the document mean
17 here by "enable purchasers and their contractors to
18 tie LeapFrog ratings to payment decisions"?

19 A I don't really know.

20 Q You have no clue what that means?

21 A No.

22 Q Okay. Well, let's look over to the
23 "Proposed Metric" column. The benchmarks here are, by
24 September 2025, "Engage purchasers and influencers
25 around using LeapFrog data (i.e., tie ratings to

1 payment decisions for their employee population)," and
2 then there are additional benchmarks there.

3 I mean is it -- are they -- is the goal
4 here -- again, this is under "build communities that
5 achieve the mission," right? Is the goal here to
6 basically encourage or have purchasers and their
7 contracts to use LeapFrog ratings, including the
8 hospital safety grades, in making payment decisions
9 for hospitals or to hospitals?

10 A I don't work on this. I don't know.

11 Q Who does work on it?

12 A This would probably be a Leah Binder thing.

13 Q Okay. So she, she has sole responsibility
14 for carrying this out?

15 A No, but she would know the general plan
16 around it. I, I don't work on this, so I don't really
17 know.

18 Q Okay. What do you understand this to mean
19 here? What do you understand the purpose of this goal
20 to be?

21 A I really can't speak to it. I don't know
22 about it.

23 Q No clue whatsoever?

24 A No.

25 Q Okay. Has LeapFrog been -- how successful

1 has LeapFrog been in convincing purchasers to tie
2 LeapFrog's hospital safety grades payment decisions?

3 A I don't know.

4 Q Okay. If we go two rows down, it says
5 "Health Plans." Do you see that? "Health plans:
6 Pressure plans to tie LeapFrog ratings to payment
7 decisions."

8 Do you see that?

9 A Yes.

10 Q Okay. What does this mean?

11 A I don't know. I don't work on that.

12 Q Okay. Is LeapFrog trying to pressure health
13 plans to tie the hospital safety grades to payment
14 decisions?

15 A That's what that says, but I don't know any
16 more than what the words say there.

17 Q Okay. Is the, is the goal here to
18 discourage health plans or steer health plans away
19 from hospitals that do not participate in the hospital
20 survey?

21 A I don't --

22 MS. BLAIR: Objection to form.

23 THE WITNESS: I don't know.

24 BY MR. CHUNG:

25 Q Okay, and how -- do you know whether

1 LeapFrog has had success in pressuring plans to,
2 health plans to tie the hospital safety grade to
3 payment decisions?

4 A I don't know.

5 Q So you have no insight into --

6 A No.

7 Q -- that whatsoever? Okay.

8 So in looking at all of these objectives --
9 so we went through three of them, and the first one,
10 kind of the top line is "expand revenue from existing
11 sources," right, to kind of scale resources, and the
12 second one was to, to drive higher standards for
13 patient safety, and one of those goals included the
14 increase, increased participation in the surveys,
15 right? I think we went over that.

16 A (Nods.)

17 Q And then the third is included, enabling
18 purchasers and their contractors to basically use
19 LeapFrog ratings; is that right?

20 A Yes.

21 Q And then relatedly to pressure health plans
22 to basically use LeapFrog ratings as well, correct?

23 A Mm-hmm.

24 Q All right. Is it fair to say that in order
25 to basically achieve, right, these objectives, that

1 LeapFrog, that LeapFrog isn't -- has an incentive to
2 get as many hospitals to respond to the survey as
3 possible?

4 A Can you explain the question?

5 Q Sure. In order to achieve these objectives,
6 right, to raise revenue, to have purchasers and health
7 plans, right, tie the, the hospital safety grades to,
8 to payment decisions, that in order to achieve these
9 objectives, that LeapFrog needs more hospitals to
10 respond to the surveys, correct?

11 A Yes.

12 Q Because that will generate -- because by
13 increasing hospital participation, that will yield
14 more hospital safety grades, correct?

15 MS. BLAIR: Objection to form.

16 THE WITNESS: No.

17 BY MR. CHUNG:

18 Q No? Okay. Why not?

19 A Say again what you said.

20 Q Sure. So you agree that in order to achieve
21 these objectives, LeapFrog has to get more hospitals
22 to respond to the survey, right?

23 A Yes.

24 Q Isn't the reason for that that by increasing
25 hospital participation in the surveys, that that will

1 generate more hospital safety grades, right, for more
2 hospitals; is that right?

3 MS. BLAIR: Objection to form.

4 THE WITNESS: No.

5 BY MR. CHUNG:

6 Q No? Okay. Why not?

7 A Because you get a safety grade whether or
8 not you participate in the survey.

9 MR. CHUNG: Okay. Let's go to the next
10 document, tab 10.

11 This will be Exhibit 7.

12 (Exhibit 7 was marked for
13 identification.)

14 BY MR. CHUNG:

15 Q All right. You have Exhibit 7 in front of
16 you, Ms. Jupiter. It is a -- the title of it is
17 "Annual Review: Karen Jupiter, Vice President of
18 Development," dated from earlier this year,
19 January 29.

20 Do you recognize this document?

21 A Yes.

22 Q Okay, and what, what is it?

23 A It's my annual review.

24 Q Okay, and am I right that for the most part,
25 you drafted this document? Like what we're seeing; is

1 this --

2 A Yes.

3 Q -- a document that you drafted in the
4 first --

5 A Yes.

6 Q -- instance?

7 A Yes.

8 Q All right, and there is a, kind of a red
9 line, right, and are those -- is that red line from
10 Leah Binder?

11 A I don't see a red line. There's no red.
12 It's black and white.

13 Q The, the -- whatever you call it. The, the
14 black line.

15 A Yes.

16 Q Okay. Those are comments from Ms. Binder;
17 is that correct?

18 A Yes.

19 Q Okay. So under -- if you go to number 7 --
20 this is on the page with Bates stamp LeapFrog ending
21 in 508.

22 Just kind of for future purposes, whenever
23 you see two Bates numbers in the lower right-hand,
24 right-hand corner, I'm going to refer to the one on
25 top. Okay. I don't know why there were two.

1 So under "Strategic Intent," you wrote that,
2 "We have ambitious goals outlined in the new Strategic
3 Intent document. I have increased revenue year over
4 year, and my focus will remain on growing the revenue
5 side, specifically increasing Annual Meeting revenue,
6 the number of partners, and donations. More than
7 doubling our revenue in six years is an ambitious
8 target and will require both increased staff and
9 expertise."

10 So who set the goal of doubling the revenue
11 in six years?

12 A I don't know who specifically. That was --
13 I mean I think that comes from the Strategic Intent
14 document.

15 Q Okay, and I think you testified earlier the
16 board had -- was involved in that --

17 A Right.

18 Q -- with that -- in that setting.

19 A Right.

20 Q Based on just your, kind of your long
21 employment history, your experience with nonprofit
22 organizations, is this goal of doubling revenues in a
23 six-year period, is that kind of in line with what
24 you've seen or experienced with other nonprofits that
25 you've worked with?

1 A They're all different.

2 Q They're all different, but is it -- how, how
3 does it compare to kind of your previous -- the
4 organizations that you've worked with previously?

5 A I mean I worked at Good Shepherd Housing, an
6 affordable housing nonprofit, and we went, in six
7 years, from maybe \$10,000 to \$2 million.

8 Q Okay, and so here, when we're talking about
9 doubling, we're starting at a point of \$8 million,
10 right, or thereabouts, and doubling to \$16 million.

11 So how is that -- I understand your kind of
12 example with the Good Shepherd Housing, but what's
13 your view as to kind of the achievability, right, of,
14 of the doubling within six years kind of target here
15 with respect to LeapFrog?

16 A I would say it's an ambitious goal, but
17 that's -- the goals -- we wanted very ambitious goals.

18 Q Okay, and isn't revenue drawn from the
19 hospital safety grades and the hospital survey
20 critical to accomplishing that goal?

21 A Not to my goals.

22 Q Not to your goals --

23 A Right.

24 Q -- but the general goal, right, of achieving
25 that -- the doubling of the revenue, right?

1 I'll, I'll phrase it again.

2 So you've got your goals set aside kind of
3 thing, your own kind of review. It looks like kind of
4 a year-end review here, right?

5 A Mm-hmm.

6 Q But generally speaking, for the
7 organization's goals that were set out in Exhibit 6,
8 right, the doubling of the revenue, isn't revenue
9 drawn from the hospital safety grades and the, the
10 data from the hospital survey, aren't those critical
11 to accomplishing those revenue goals?

12 MS. BLAIR: Objection to form.

13 THE WITNESS: No.

14 BY MR. CHUNG:

15 Q No? Okay. So you're saying that -- is it
16 your testimony that without revenue from, drawn from
17 the hospital safety grades and survey, that the
18 organization would be able to achieve the, the, the
19 goals of doubling, doubling its revenue?

20 A I need you to ask it more specifically.

21 Q Okay. So do you have, do you have an idea
22 of what, ballpark, what percentage of LeapFrog's
23 revenue comes from what we call "accolade revenue"?

24 A I don't know the numbers --

25 Q Okay.

1 A -- no.

2 Q Well, what's your understanding of what the
3 accolade-based revenue is? What, what does that
4 encompass?

5 A Hospitals can purchase an accolade for their
6 safety grade.

7 Q Okay, and if we go back to -- let's go back
8 to the financial statement, Exhibit 5, Ms. Jupiter.

9 So if you go to page 5 of that document,
10 right, under "Revenue and Support," the top line item
11 is "Accolade Licensing Revenue," right?

12 A Yes.

13 Q And the total from there is \$3,288,926 for
14 2024, and just a tick less, basically \$3.2 million for
15 2023, correct?

16 A Correct.

17 Q So that is -- would it be fair to say that
18 that is significantly kind of the biggest component of
19 revenue at least for 2024 and 2023?

20 A Yes.

21 Q Okay. So just going back to the question I
22 asked earlier, is the accolade license -- let's call
23 it the accolade licensing revenue. Is that a kind of
24 integral or a critical component of, of LeapFrog
25 achieving its revenue goals?

1 A It's a part of achieving our revenue goals.

2 Q You say "a part of." What do you mean by
3 that?

4 A We have, you know, a dozen different ways we
5 achieve revenue, and that's one of them.

6 Q Okay, but would you say that -- fair to say
7 that without the accolade licensing revenue, it would
8 be impossible to achieve the goals, correct?

9 MS. BLAIR: Objection to form.

10 THE WITNESS: No, I wouldn't say it's
11 impossible.

12 BY MR. CHUNG:

13 Q Okay. So is it your testimony that -- which
14 among these line items on page 5 of the financial
15 statement would basically be able to kind of make up
16 for a loss in the absence of the accolade licensing
17 revenue?

18 A I mean any of the others. We can increase
19 partnership. We can increase events. We can increase
20 contributions.

21 Q Okay. Has there been any discussion of
22 getting rid of accolade licensing revenue?

23 A Not that I know of.

24 Q Okay. So let's go back to your -- the
25 annual review document.

1 So if we turn to the next page ending in
2 Bates stamp LEAPFROG 509, going on to 510, Ms. Binder
3 writes, "How does our public profile contribute to
4 these revenue sources? For instance, when we get a
5 lot of attention on Safety Grades, it generally leads
6 to some inquiries about our data."

7 Do you agree that the publicity surrounding
8 the hospital safety grades is basically an on-ramp for
9 LeapFrog to sell its data products?

10 A No.

11 Q Okay. Why don't, why don't you -- why do
12 you disagree with that?

13 A The hospital safety grade is to be -- to
14 give information to the public about patient safety,
15 and that's the goal of it. That's the goal of the
16 media around it. That's the goal of everything.

17 Q Okay, understood, but Ms. Binder here writes
18 that "how does our public profile contribute to these
19 revenue sources," right?

20 A Mm-hmm.

21 Q And then she continues, "For instance, when
22 we get a lot of attention on the Safety Grade, it
23 generally leads to some inquiries about our data,"
24 right?

25 So what do you take her to mean here?

1 A I don't take inquiries on the data. I don't
2 know anything about the data.

3 Q Understood, but she's saying that the public
4 profile contributes to revenue sources, correct?

5 A That's what she says.

6 Q And this is, this is kind of comments or
7 feedback she's giving you on your annual review,
8 correct?

9 So what's your takeaway here as it applies
10 to you?

11 A This isn't about me. I mean I don't take
12 inquiries for data.

13 Q Okay, but do you have -- but do you agree
14 that the more the public, right, hospitals and others,
15 are -- know about the hospital safety grades, right,
16 that that is an opportunity to basically sell or at
17 least market accolade licensing-related products to
18 those hospitals?

19 A I don't know.

20 Q Okay. You don't know -- I think you said
21 you disagreed with this proposition earlier. Is it
22 that you don't have a view on it, or you disagree with
23 what Ms. Binder is writing here --

24 MS. BLAIR: Objection.

25

1 BY MR. CHUNG:

2 Q -- on your, on your review?

3 MS. BLAIR: Objection to form.

4 THE WITNESS: I don't understand what you're
5 asking.

6 BY MR. CHUNG:

7 Q Well, what I'm asking is, you know, what --
8 Ms. Binder is saying in your review here that how does
9 LeapFrog's public profile, right, contribute? How
10 does it play into revenue, right, because there's a --
11 you know, earlier on the earlier page, you're
12 discussing how you were going to go about increasing
13 revenue, right, for the organization, and she's
14 writing that when there's a lot of attention on the
15 safety grade, LeapFrog will get questions or
16 inquiries, right, about the data that it collects
17 pursuant to the surveys, right?

18 So do you, do you agree or disagree with the
19 notion that, that the, the hospital safety grades,
20 right, publicity of the hospital safety grades
21 presents an opportunity for LeapFrog to basically sell
22 its accolade licensing or accolade-related products to
23 hospitals?

24 A I have nothing to do with accolade licensing
25 or data.

1 Q Okay. Let's go to just a couple -- the next
2 paragraph, at the end of the next paragraph of
3 Ms. Binder's feedback -- and this is on LeapFrog Bates
4 ending 510.

5 She writes, "Second, for you to develop a
6 dashboard of outcomes for all of your revenue streams
7 and monitor them with me and with your team
8 regularly."

9 Do you see that?

10 A Yes.

11 Q Okay. Do you know why she asks for this?

12 A No.

13 Q Okay. Did you -- have you followed that
14 request?

15 A No.

16 Q Okay.

17 A I just read them. I was like, oh, I should
18 probably get on that.

19 Q Okay. Did you follow up with her on why
20 she, why she was asking for this, for this dashboard?

21 A No.

22 Q Okay. Has Ms. Binder -- so kind of as part
23 of or separate from this annual review process, has
24 Ms. Binder asked you to generate ideas for raising or
25 increasing revenue?

1 A Yes.

2 Q Okay, and what, what have those -- have you
3 generated new ideas for raising revenue in response to
4 her questions?

5 A Yes.

6 Q Okay, and what are those new ideas?

7 A I work with our annual meeting, so
8 developing a sponsorship and benefits program around
9 our annual meeting.

10 Q Okay. Do you know whether Ms. Binder has
11 asked other of your LeapFrog colleagues to generate
12 ideas for raising revenue?

13 A I don't know.

14 Q Okay. So let's turn to -- let's go back to
15 the financial statement, yeah, Exhibit 5, and we were
16 looking at this just a few minutes ago on page 5.

17 Okay. Let's turn to kind of the individual
18 revenue sources. Let's start with "contributions and
19 honoraria," which for 2024 was about \$578,000; is that
20 right?

21 A Correct.

22 Q Okay, and is it fair to say that compared to
23 the revenue drawn from the hospital grades and the
24 hospital survey, that contributions in honoraria is
25 much -- is a much smaller revenue source; is that

1 right?

2 MS. BLAIR: Objection to form.

3 THE WITNESS: There's no line item for
4 hospital grades and hospital surveys.

5 BY MR. CHUNG:

6 Q Well, okay. I'll be more specific.

7 It is fair to say that contributions and
8 honoraria are smaller in terms of revenue source
9 compared to accolade licensing revenue and data
10 licensure? Is that correct?

11 A Yes.

12 Q Okay, and just to be clear, the accolade
13 licensing revenue, right, what are the -- is another,
14 another way to kind of characterize that is the
15 revenue obtained from licensing hospitals, for
16 example, licensing that help the hospital safety
17 grades?

18 MS. BLAIR: Objection to form.

19 BY MR. CHUNG:

20 Q Is that one form of the licensing?

21 A Those are different things.

22 Q Okay. So can you tell me what the accolade
23 licensing revenue refers to?

24 A Accolade licensing is when a hospital
25 licenses their safety grade.

1 Q When a hospital -- but -- okay. A hospital
2 is assigned a hospital safety grade, and the hospital
3 license -- it pays, right, for a license to basically
4 market or use that hospital safety grade from, from
5 LeapFrog, correct?

6 A Correct.

7 Q Okay. The data licensure is, similarly --
8 and tell me if this is correct -- is hospitals or
9 other parties obtaining or licensing data that
10 LeapFrog collects in response principally to the
11 hospital survey; is that correct?

12 A Correct.

13 Q All right. So basically, the hospitals and
14 other parties pay a licensing fee to LeapFrog to use
15 that data, correct?

16 A No, I don't think hospitals license the
17 data.

18 Q Okay. So which parties or what types of
19 organizations license the data?

20 A Again, it's not my --

21 Q Understood. Just based on what you know.

22 A Based on what I know, that would be solution
23 providers and health plans.

24 Q Okay. So just kind of to put this in
25 perspective, the -- would contributions and honoraria

1 alone cover LeapFrog's expenses?

2 A Well, if we didn't -- I mean you have to ask
3 it a different way. Ask it again.

4 Q My question is: Would contributions and
5 honoraria alone, just alone, would those cover
6 LeapFrog's expenses?

7 A But that's not really in a vacuum --

8 Q That --

9 A -- so that wouldn't really make sense.

10 Q I'm just asking you the question. Yes or --
11 yes or no. I mean would, would -- just looking here,
12 right, contributions and honoraria for at least 2024,
13 would those -- just standing alone, would they have
14 covered the organization's expenses?

15 A Well, if that's all we had, then all you
16 would be employing is me, and yes, it would cover my
17 expenses.

18 Q Okay. About how many donors made gifts to
19 LeapFrog in the last five years or so?

20 A A thousand.

21 Q Okay, and do you have a ballpark what
22 percentage of those donors are institutions, like
23 hospitals, versus individuals?

24 A Hospitals don't donate to LeapFrog.

25 Q Okay. So they're all individuals?

1 A They're individuals or foundations.

2 Q Okay, and how do those donors generally
3 learn about or find out about LeapFrog?

4 A We do mailings or at our annual meeting or
5 on our website or social media.

6 Q Okay, and do you host events for donors?

7 A You have to be more specific.

8 Q Are there like specific events, right, that
9 you organize that -- where donors attend?

10 A We have our annual meeting.

11 Q So it's just the annual meeting?

12 A Yes.

13 Q Okay, and donors are -- donors attend these,
14 these annual meetings?

15 A Some of them, yes.

16 Q Okay, okay. So for the donors, what, what
17 generally is the pitch to the donors to get their
18 donations? Like what's, what's kind of the general
19 proposition to pitch to them?

20 A Transparency galvanizes change.

21 Q Okay, and how -- all right. That's -- and
22 how does LeapFrog do that?

23 A We --

24 Q Or is, or is how LeapFrog, the way that
25 LeapFrog goes about doing that part of the, part of

1 the pitch?

2 A Ask it again.

3 Q Yeah. So do you -- as part of that pitch,
4 do you describe to donors or potential donors how
5 LeapFrog specifically goes about achieving that?

6 A We keep things very high level for donors.

7 Q Okay. What does that mean?

8 A I mean we have five seconds to have a donor
9 read something, so we wouldn't go into details about
10 it, but if a donor wants to support patient safety,
11 then they should support LeapFrog.

12 Q Okay. Do you, do you describe at all what,
13 what, what LeapFrog does?

14 A We tell donors that we provide the hospital
15 safety grades and information about how patients can
16 stay safe in the hospital.

17 Q Okay. Do, do you discuss the hospital
18 grading system with them? What, what about the
19 hospital grading system do you discuss with potential
20 donors?

21 A We don't discuss details like that with
22 donors.

23 Q Okay. Why not?

24 A Because you have a quick sound byte to talk
25 to donors, and you want them to understand the mission

1 of the organization, and that's what we talk about.

2 Q All right. Do you get inquiries from donors
3 as to kind of the details of how the organization
4 grades hospitals?

5 A No, I haven't.

6 Q Okay. No, no curiosity from donors about
7 how exactly LeapFrog goes about grading hospitals?

8 A No.

9 Q Okay. So going back to the other, the other
10 revenue sources, membership here is 1.14 -- about
11 \$1.14 million for 2024 at least.

12 What do you mean by -- what do we mean by
13 "membership" here?

14 A That's our partners advisory committee.

15 Q Okay. Data products and reports is about
16 \$314,000.

17 What does that refer to?

18 A I don't know.

19 Q Okay. Media partnership is \$11,775. What
20 is that?

21 A We had a media partnership in the past,
22 before me, and that is some sort of left, left -- you
23 know, a final payment for something about that.

24 Q Okay. What, what -- was it a partnership
25 with a particular media outlet? Like what, what is

1 this referring to?

2 A I don't know. It wasn't something I was
3 involved in, and it was years ago.

4 Q Okay, but still revenue -- you're, you're
5 still getting revenue from it --

6 A I -- that was --

7 Q -- in 2024?

8 A -- a final payment.

9 Q Okay, and then grants in the amount of
10 \$776,520. What does that refer to?

11 A Donations from foundations.

12 Q Okay, and then investment income of \$44,330.
13 What is this referring to?

14 A Investment income.

15 Q Okay. The -- are you familiar with the
16 LeapFrog Certified Coach Program?

17 A Yes.

18 Q Okay, and what is that?

19 A That's a program mainly for solution
20 providers to learn about the survey.

21 Q Okay. To learn about -- why is it -- why,
22 why was it called a "coach"?

23 A That's sort of a catchy name.

24 Q Okay. So how does, how does that kind of
25 program work?

1 A They -- Missy Danforth presents it, and she
2 goes through the survey and explains what each of the
3 things mean.

4 Q Okay. Does the coaching -- does this
5 program also guide or give advice to hospitals on how
6 they should respond to the survey?

7 A No. It's not for hospitals, and it's not
8 about responding to the survey.

9 Q Okay. So just to be specific, who is it --
10 who is this target toward?

11 A Solution providers.

12 Q What is a solution provider?

13 A Like a Purell.

14 Q Okay, and so -- but basically for, for what
15 purpose?

16 So the coach -- so let's just kind of go
17 back to --

18 A Sure.

19 Q What are the certified coaches -- what
20 exactly are these solution providers hoping to get
21 from the -- from, from the coaching?

22 A So, for example, a Purell would want to
23 understand the hand hygiene standard. You know, what
24 does it mean when it says we observe 200 hand hygiene
25 interactions? So it's basically just explaining what

1 the survey says. I mean they could get it for free.
2 I mean it's literally -- if you just opened this up
3 and read it, that's exactly what it is, but it's
4 summarized more.

5 Q So why would a solution provider, you know,
6 company like Purell be interested, right, and might
7 want to hire a coach, right, from this program to
8 understand, let's say, the hand hygiene measure in the
9 survey? Why, why would they be interested in that?

10 A Purell wouldn't hire a coach. They --
11 Purell would send one -- I mean it's not "send." It's
12 a webinar. Purell would have one of their employees
13 learn about the survey.

14 Q But why would they be interested in learning
15 about the survey? They're not the ones -- the
16 hospitals are the ones responding to the survey,
17 right?

18 A Right.

19 Q Not a company like Purell. So why would
20 they be interested?

21 A So they understand what LeapFrog is asking
22 hospitals.

23 Q Okay, and is this, is this linked to,
24 somehow, the solution providers being on the partner
25 advisory board?

1 A No. They're totally separate.

2 Q Okay. How many LeapFrog -- how, how many of
3 these companies have used a LeapFrog or paid for a
4 LeapFrog certified coach, or how successful has this
5 program been?

6 A We just started it. I think it's been about
7 a year. I think we have like maybe 50 coaches.

8 Q Okay, and so --

9 A Maybe.

10 Q -- these -- LeapFrog's certified coaches are
11 not used by the hospitals at all?

12 A No.

13 Q All right, and this is addressed to solution
14 providers, correct?

15 A Correct.

16 Q All right. Are there any programs like the
17 LeapFrog Certified Coaching Program that are addressed
18 to hospitals?

19 A I don't work with hospitals. I don't know.

20 Q Okay. So you're not aware of any kind of
21 program where LeapFrog offers coaching or advisors or
22 counselors to hospitals on, on how to respond to or
23 just reviewing the survey?

24 A No.

25 MR. CHUNG: Okay. Let's go to tab 11, which

1 will be Exhibit 8.

2 (Exhibit 8 was marked for
3 identification.)

4 BY MR. CHUNG:

5 Q Okay. So I'm -- before we look at the
6 document, Ms. Jupiter, the, the annual -- LeapFrog's
7 annual meetings that you organize or help organize,
8 what's the, kind of the principal purpose of these
9 annual meetings or the primary goal of these annual
10 meetings?

11 A Education.

12 Q Education about what?

13 A Patient safety.

14 Q Okay. Is another kind of primary goal to,
15 to raise revenue?

16 A I wouldn't -- it's not a primary goal.

17 Q Okay, and the annual meeting, it's just one
18 meeting per year, correct?

19 A Annually.

20 Q Yeah, okay, and what percentage of the --
21 and we went over the annual meeting revenue from the
22 financial document. What percentage of that revenue
23 is from ticket sales versus other sources?

24 A That's a good question. I'm trying to --
25 what percentage from ticket sales?

1 Q Yeah.

2 A 20 percent, maybe. I'd, I would have to
3 look at numbers.

4 Q Okay, but fair to say -- again, this, I know
5 this is just ballpark --

6 A Yeah.

7 Q -- that a bigger percentage comes from
8 sponsorships versus ticket sales?

9 A Let me think about the numbers. Let me
10 think.

11 Yeah, I would say more is from sponsorships.

12 Q Okay, and generally, where do these
13 sponsorships come from?

14 A Solution providers.

15 Q Okay. Anything from hospitals?

16 A No. Hospitals don't sponsor an annual
17 meeting.

18 Q Okay.

19 All right. So let's look at Exhibit 8
20 that's in front of you, and it is a -- it's taken from
21 Slack, Slack messaging between you and I think at
22 least one of your colleagues.

23 Is, is Slack kind of the, the main -- the
24 primary messaging tool that LeapFrog uses?

25 A It depends on the person.

1 Q Okay. So is -- what do you mean by that?

2 A Like Leah doesn't use Slack, so we don't
3 communicate with Leah on Slack.

4 Q What does she use?

5 A I think email. I mean I communicate with
6 her by email.

7 Q Okay. So no -- there aren't any kind of
8 messaging platforms, instant messaging platforms that,
9 that she uses --

10 A No.

11 Q -- to communicate with LeapFrog employees?

12 A No.

13 Q Okay, but this -- but the Slack platform is
14 one -- is it one that LeapFrog provides to, to you and
15 your colleagues?

16 A Yes.

17 Q Okay. Are there other messaging
18 applications that LeapFrog provides or uses?

19 A No.

20 Q Okay. So in this exchange -- first of all,
21 who is the other person on this exchange? There's an
22 "am-hopkins 15."

23 Who is that?

24 A She's our office administrator.

25 Q Okay, and what's her name?

1 A Angela.

2 Q All right. Angela. Is it Angela Hopkins or
3 Angela Ridley?

4 A She was -- it was Ridley. When she was
5 divorced, it was Hopkins.

6 Q Okay, and she's asking you "can you remind
7 of the registration fees for the AM."

8 Is she referring to the annual meeting?

9 A Yes.

10 Q Okay, and then for 2024, and then you write,
11 "Leah said we need to raise for 2025," and she says,
12 "Yes, sorry," and she asked, "Why? Just to make more
13 money?" And then you reply -- you reply, "Yes,"
14 right?

15 Is that, is that what Leah -- is that what
16 Ms. Binder told you, that the, that the fees for the
17 annual meeting needed to be increased to basically
18 generate revenue, to make more money?

19 A We were losing money on the annual meeting.
20 It was costing us more to put on the meeting than we
21 were selling tickets for.

22 Q Okay. So the question is: What did she --
23 did you have a conversation with Ms. Binder where she
24 said you need to raise the, basically the, the ticket
25 prices for the annual meeting in order to make more

1 money?

2 A I wouldn't say to make more money; I would
3 say to lose less money.

4 Q Okay. The -- is this -- are you having this
5 kind of Slack conversation or messaging with
6 Ms. Hopkins -- it's -- it looks like it's -- this is
7 happening while there's also a call or maybe a meeting
8 happening at the same time.

9 A I assume so, because I said it's "hard to
10 hear."

11 Q "It's hard to hear Leah."

12 A Mm-hmm.

13 Q Do you remember what that meeting was about,
14 kind of going on at the same time?

15 A I don't.

16 Q Okay, okay.

17 All right. Just to be clear, your testimony
18 was that, was that hospitals do not pay for any
19 sponsorships at the annual meeting?

20 A Hospitals do not sponsor.

21 Q At all? Okay.

22 A No.

23 Q Okay, and why is that?

24 A We don't solicit hospitals to sponsor the
25 annual meeting.

1 Q Okay, and, and why is that? Why, why
2 doesn't LeapFrog solicit hospitals for sponsorships
3 for the annual meeting?

4 A We're grading hospitals, so we're not going
5 to ask them to give us money.

6 MR. CHUNG: Okay. We'll now turn to tab 12.

7 (Off the record discussion about a
8 possible lunch recess.)

9 THE VIDEOGRAPHER: The time is 12:18 p.m.
10 This ends unit 2. We're off the record.

11 (Whereupon, the lunch recess was
12 taken.)

13 THE VIDEOGRAPHER: The time is 1:10 p.m.
14 This begins unit number 3. We're on the record.

15 MR. CHUNG: All right. Ms. Jupiter, we're
16 going to put in front of you a document marked
17 Exhibit 9.

18 (Exhibit 9 was marked for
19 identification.)

20 BY MR. CHUNG:

21 Q It is a 2025 sponsorship prospectus for the
22 LeapFrog annual meeting and awards dinner, and do you
23 recognize this document?

24 A Yes.

25 Q And just generally, can you describe what it

1 is?

2 A These are the information on our annual
3 meeting and sponsorships.

4 Q Okay, and this is looking ahead to the
5 annual meeting that is going to take place on
6 December 15 of this year?

7 A Yes.

8 Q Okay. On the, on the -- in -- if you look
9 at the third page ending with Bates number LEAPFROG
10 455, under "Why Sponsor," it reads, "The LeapFrog
11 Group gathers its key stakeholders and constituents
12 for a meeting each year to discuss urgent topics," and
13 so forth.

14 And it reads, "This event provides an
15 amazing opportunity for you to elevate your brand's
16 exposure and make unparalleled connection with
17 hospital and ASC leadership. LeapFrog supports your
18 strategic growth acceleration goals."

19 So who, who is this -- who is the audience
20 here? Who, who is this -- what, what -- this
21 statement about why, why to sponsor the event, who is
22 the audience here?

23 A Solution providers.

24 Q All right. So you're soliciting
25 sponsorships from solution providers, correct?

1 A Correct.

2 Q Right, and part of the pitch here is that
3 there will be representatives from hospitals and ASCs
4 at the, at the annual meeting, correct?

5 A Correct.

6 Q All right, and it's an opportunity basically
7 to network and for solution providers potentially to
8 gain business from hospitals and ASCs, correct?

9 A Correct.

10 Q Okay, but just to be clear, the, the
11 audience, in terms of sponsorships, does not include
12 hospitals?

13 A No.

14 Q Okay. If you turn to the next page, Bates
15 ending 456, you'll see here two 2025 sponsorship
16 opportunities, and what does this -- can you describe
17 what, what's being -- what's laid out here?

18 A These are the different levels of
19 sponsorships and the benefits you receive.

20 Q Okay, and are these, are these prices or are
21 these figures kind of accurate as of today?

22 A Yes.

23 Q Okay. So \$45,000 for a platinum exclusive,
24 and then down the line, right?

25 A Yes.

1 Q Okay, and how many sponsors I guess to date
2 have paid for the platinum exclusive sponsorship?

3 A One, because it's exclusive.

4 Q Okay, and how about the next level down, the
5 gold?

6 A I think we have two gold.

7 Q Okay. Already signed up?

8 A Yes.

9 Q Okay, and how many for silver?

10 A I'm trying to picture the thing. Maybe we
11 have three silver.

12 Q Okay, and bronze?

13 A Ten.

14 Q Okay. So these are just ballpark?

15 A Yes.

16 Q And champion?

17 A I don't think we have any champion at the
18 moment.

19 Q Okay. How much does LeapFrog expect to
20 raise in sponsorships, just sponsorships from the 2025
21 annual meeting?

22 A \$300,000.

23 Q Does LeapFrog expect to make profit off the
24 2025 annual meeting?

25 A If we do, it's very minimal.

1 Q Okay, but is that a goal, to make some --

2 A I'd have to --

3 Q -- some amount of profit from the meeting?

4 A I think the goal for this year is to break
5 even.

6 MR. CHUNG: Okay. Why don't we move on to
7 tab 13, which we'll mark as Exhibit 10.

8 (Exhibit 10 was marked for
9 identification.)

10 BY MR. CHUNG:

11 Q Okay, and it is an email chain from
12 August 25 of 2023. Just take a moment to review it.

13 (Witness peruses document.)

14 BY MR. CHUNG:

15 Q Have you had a chance to look through it?

16 A Mm-hmm.

17 Q Okay. Do you recognize what's being
18 discussed here?

19 A Yes.

20 Q Okay, and what's being discussed?

21 A Our keynote speaker was Joe Kiani, and he
22 works for Masimo.

23 Q And what is Masimo?

24 A That's a great question. A healthcare
25 company.

1 Q Okay, and so you emailed Ms. Binder on
2 August 25 of 2023 to reach out -- about reaching out
3 to Masimo's, to Masimo's potential sponsorship of the
4 LeapFrog's annual meeting that year; is that right?

5 A Correct.

6 Q And so why were you pursuing Masimo as a
7 potential annual meeting sponsor?

8 A Because we were looking for sponsors for the
9 annual meeting.

10 Q Okay, and you see at the top of the page I'm
11 looking at, the first page, Bates ending 180, that
12 Ms. Binder writes, "I don't want them to sponsor. It
13 would appear that our keynote is pay-to-play, and that
14 is the kiss of death for our credibility on a lot of
15 fronts."

16 Do you see that?

17 A Yes.

18 Q Okay. What did you take her to mean there?

19 A So the head of Masimo was our keynote
20 speaker, and so she didn't want to ask them for money,
21 because that would look suspicious.

22 Q Okay.

23 A So she said stay away from that.

24 Q Just to -- what, what did she mean -- why
25 would having -- was it the CEO of Masimo --

1 A I think so.

2 Q -- okay -- be the keynote at the annual
3 meeting, how, how would that be pay-to-play, as you
4 understand it?

5 A Well, it wasn't pay-to-play, because we --
6 she didn't want to do it.

7 Q Right, but if, if a sponsorship was obtained
8 from Masimo, what, what -- how did you understand that
9 would, that would be a pay-to-play?

10 A It would look like he was making a donation
11 to speak at our annual meeting.

12 Q Okay. Has anybody kind of inside or outside
13 LeapFrog expressed concerns about any perception that
14 these sponsorships are pay-to-play?

15 A No, and we're very clear that that is not
16 something -- you know, one of the -- we've had
17 sponsors email and ask if they can be on a panel or if
18 they can speak, and we say no.

19 Q Okay. Has anybody either inside or outside
20 LeapFrog expressed any concerns that any other part of
21 LeapFrog's operations is pay-to-play?

22 A No.

23 Q Okay. So in the, in the next sentence in
24 Ms. Binder's email, she writes she will "work through
25 Joe to get them to join as a partner; then we can work

1 on them for next year as a sponsor."

2 Do you see that?

3 A Yes.

4 Q So how did you understand that plan to fix
5 the concern that the keynote is a pay-to-play?

6 A I mean that she very much wanted to stay
7 away from pay-to-play, so we could talk to them about
8 being a part of the partners advisory committee
9 possibly in the future.

10 Q Okay, and so how would potentially having
11 Masimo on the partners advisory committee address,
12 address the concern, the suspicion that, that their
13 participation is pay-to-play?

14 A It's -- they're separate things.

15 Q How are they separate?

16 A I'll need you to rephrase the question.

17 Q Can you explain kind of how, how they're
18 separate things?

19 A I mean them being part of our partners
20 advisory committee has nothing to do with the annual
21 meeting or speaking at the annual meeting. We asked
22 them to speak at the annual meeting completely
23 independent of anything else.

24 Q Okay. So the, the proposal from Ms. Binder
25 that she will work to get them -- get Masimo to join

1 as a partner on the partners advisory committee, that
2 then that would allow, open the door to, to LeapFrog
3 to pursue them the following year as a sponsor; is
4 that correct?

5 A Possibly.

6 Q Okay. Would it address the concern that
7 having anyone from Masimo or an office for Masimo --
8 would it allow the CEO of Masimo to serve as a
9 keynote?

10 A They were already serving as a keynote.
11 That was long established, well before this.

12 Q Okay. Did -- do you know if Ms. Binder
13 followed through with this -- with the proposal?

14 A I don't know.

15 Q Okay. Do you know whether Masimo eventually
16 joined either as a partner on the --

17 A They did not.

18 Q -- on the PAC or --

19 A Nope.

20 Q -- or as a sponsor?

21 MS. BLAIR: Let him finish his question.

22 THE WITNESS: Sorry.

23 No, they're not a partner, nor a sponsor.

24 MR. CHUNG: Okay. So let's go to our next
25 document, tab 14.

1 This will be Exhibit 11.

2 (Exhibit 11 was marked for
3 identification.)

4 BY MR. CHUNG:

5 Q Okay. Another email chain, Ms. Jupiter,
6 this time from earlier this year, in May 2025. Just
7 let me know when you've had a chance to review it.

8 (Witness peruses document.)

9 THE WITNESS: Okay.

10 BY MR. CHUNG:

11 Q Okay. What's being discussed in this, in
12 this email discussion?

13 A Paul is approaching a potential PAC
14 sponsor -- a PAC member about becoming a PAC member
15 with LeapFrog.

16 THE REPORTER: P-A-C-K?

17 THE WITNESS: P-A-C.

18 BY MR. CHUNG:

19 Q PAC. Partners advisory committee, right?

20 A Correct.

21 Q And so if we look at the second page, Bates
22 ending LEAPFROG 974, Mr. Alper writes to Andrea Clay
23 and Nicholas Cantacuzene.

24 And so who is Ms. Clay, Andrea Clay?

25 A She's the director of corporate giving.

1 Q Okay, and, and you mentioned Mr. Cantacuzene
2 earlier, but what's his role?

3 A Membership coordinator.

4 Q Okay. He writes to the two of them, "I
5 think what we need coming out of this is a white paper
6 that illustrates how companies are using various
7 solutions and technologies to improve their LeapFrog
8 scores. Another selling tool or proof source, if you
9 will."

10 What is he -- what's he proposing here?

11 A Honestly, that's a great question. I --

12 Q What did you understand him to be proposing
13 here?

14 A He wants a white paper about how solution
15 providers' products can improve LeapFrog's scores.

16 Q Okay, and he's saying that this is a,
17 potentially, "a selling tool or proof source, if you
18 will."

19 Do you understand what he -- do you
20 understand what he's saying here?

21 A Yes.

22 Q What is he saying here?

23 A He's saying that if we can show solution
24 providers that hospitals use their tools, they could
25 get a better LeapFrog score.

1 Q Okay, and is the idea here -- just trying to
2 make the --

3 A Sure.

4 Q -- links here. Is the idea here that by
5 presenting this white paper, right, to a solution
6 provider like -- looks like the Wolters Kluwer
7 company, that it would convince them or encourage them
8 to pay and join the partners advisory committee,
9 because it would basically give them access to
10 hospitals, right, that, based on this white paper, use
11 solutions and technologies to improve their scores,
12 correct?

13 A That's his theory, yes.

14 Q That's the idea. Okay, and then eventually
15 this, this email chain reaches you on, on May 16,
16 2025. Andrea Clay writes, "It's a ridiculous
17 overreaction for sure." And I'm looking at the top
18 of --

19 A Yes.

20 Q -- Bates 973. "I also don't think we can
21 actually say how companies are using various solutions
22 and technologies to improve their LeapFrog scores."

23 What, what does she mean by, first, "It's a
24 ridiculous overreaction, for sure"?

25 A She meant it was an overreaction, because

1 this one prospect who we were somewhat talking to
2 asked a question, and that shouldn't lead to a whole
3 project and white paper.

4 Q Okay. So it would be a big undertaking --

5 A Huge undertaking for --

6 Q Okay, and Ms. Clay also writes, "I also
7 don't think we can actually say how companies are
8 using various solutions and technologies to improve
9 their LeapFrog scores," she continues, right? And
10 then you respond, "We cannot say that. Oy, Paul."

11 Why -- how -- why did you respond in that
12 manner?

13 A Because we're, we're not going to use
14 LeapFrog scores to sell products.

15 Q LeapFrog scores to sell -- but isn't that,
16 isn't that what -- when we talked about -- when we
17 went over the, the line items regarding the accolade
18 licensing, right, revenue, right, isn't that what,
19 isn't that what LeapFrog is doing with respect to the
20 hospital safety grades?

21 MS. BLAIR: Objection to form.

22 THE WITNESS: No. I mean what you're
23 saying --

24 BY MR. CHUNG:

25 Q Okay, so --

1 A -- doesn't make sense.

2 Q Isn't, isn't LeapFrog, by licensing,
3 right -- just this is my analogy. Isn't LeapFrog, by
4 licensing, giving licenses to hospitals to use their
5 hospital safety grades, right, isn't that using
6 LeapFrog products -- i.e., the hospital safety
7 grades -- to, to raise money?

8 MS. BLAIR: Objection to form.

9 THE WITNESS: That has nothing to do with
10 this. This isn't a Leap- -- he's not talking
11 about LeapFrog products.

12 BY MR. CHUNG:

13 Q Okay. So what is he referring to here, and
14 you're, and you're responding that he cannot say?

15 A He's saying like Purell.

16 Q Okay.

17 A Like that Purell could say to a hospital.
18 "If you use our product, you'll get a better grade."

19 Q That, that, you're saying, is improper?

20 A Yes.

21 Q Okay. Why is that improper?

22 A Because we're not in the business of selling
23 Purell.

24 Q Okay, but you are selling access to
25 hospitals, right --

1 A We are --

2 Q -- to, to solution providers that pay money
3 to join the partners advisory committee; is that
4 correct?

5 MS. BLAIR: Objection to form.

6 THE WITNESS: We're not selling access to
7 hospitals. We're providing hospitals with
8 information from other solution providers.

9 BY MR. CHUNG:

10 Q Right, but solution providers are paying
11 money, right, to be able to communicate, meet, right,
12 and interact, and pitch their products or solutions to
13 hospitals through this partners advisory committee;
14 isn't that a fair, a fair description of the purpose
15 of the partners advisory committee?

16 MS. BLAIR: Objection to form.

17 THE WITNESS: No, that's not what the
18 partner advisory committee is about.

19 BY MR. CHUNG:

20 Q Then why, why would solution providers pay
21 tens of thousands of dollars to join the partners
22 advisory committee?

23 A They can network with each other and hear
24 about things that are happening with LeapFrog. They
25 don't -- we don't -- they don't meet with hospitals.

1 Q They don't meet with hospitals as part of
2 the partners advisory --

3 A No.

4 Q -- committee? Okay. So there's no
5 interaction between solution providers and the
6 partners advisory committee?

7 A Solution --

8 Q Solution providers and hospitals at meetings
9 or events involving the PAC?

10 A If a solution provider were to buy a ticket
11 to the annual meeting, and a hospital is there, they
12 would talk to them.

13 MR. CHUNG: Okay. Let's turn to, let's turn
14 to tab 16, and this will be Exhibit 12.

15 (Exhibit 12 was marked for
16 identification.)

17 BY MR. CHUNG:

18 Q Okay. You have in front of you a Slack
19 discussion, similar to the ones we looked at before,
20 and it's with -- between you and Lauren Bailey.

21 Do you see that?

22 A Yes.

23 Q Okay, and it's from March 21 of 2024. What
24 is being discussed here?

25 A I don't know.

1 Q Okay. Do you see where Ms. Bailey says that
2 one of the common questions LeapFrog gets is that it
3 is pay-for-play?

4 Do you see that?

5 A I don't -- I see where she says
6 "pay-for-play." I don't, I don't have any context for
7 what she's talking about.

8 Q Okay. Well, let's maybe -- the line before,
9 she writes -- you write, "She's in a great mood. Had
10 a DR call."

11 What is the "DR" referring to?

12 A My son was having medical issues, and I
13 called his doctor.

14 Q Got it. Okay. So it's a doctor. All
15 right.

16 What is "she" talking about? Who is the
17 "she" that you're referring to?

18 A I don't know.

19 Q Okay. So Ms. Bailey writes, "She wants CURA
20 to be ready to ask and help staff answer common
21 questions we get."

22 What is or who is CURA?

23 A CURA is our public relations firm.

24 Q Okay, and what were they doing at this time
25 with respect to LeapFrog?

1 A I don't know.

2 Q Okay. What generally -- what generally do
3 they do with respect to LeapFrog?

4 A Public relations.

5 Q Okay. So do they interact with the press
6 on, on LeapFrog's behalf?

7 A They would set up interviews on LeapFrog's
8 behalf. We -- they don't speak to the press for us,
9 but they would make connections.

10 Q All right. Do you agree that it's a common
11 question LeapFrog gets, that it's pay-for-play?

12 A No.

13 Q No? So you've never heard that terminology
14 being used to describe or refer to any of LeapFrog's
15 operations?

16 A I have in this lawsuit.

17 Q Putting aside this lawsuit, right?

18 A No.

19 Q None at all?

20 A No.

21 Q Okay. How about the next, the next line
22 under Ms. Bailey? She writes, "or a hospital gets a
23 bad CMS star rating, but an A. Why," right?

24 Is that a, a common question that LeapFrog
25 gets from consumers or hospitals or from the public?

1 A It's not a common question.

2 Q Okay. Have you gotten that question at all
3 or any sort of concern or remark along those lines at
4 all?

5 A I haven't.

6 Q Okay. Not at all?

7 A No.

8 Q Okay. Is there a -- she writes, "I told her
9 they have the commonly asked questions that we give to
10 RLs, that's right."

11 Do you know what she's referring to here?

12 A RLs are our regional leaders, and we have an
13 FAQ document that we give to regional leaders, so I'm
14 assuming that's what that's about.

15 Q Okay. What's the purpose of the FAQ
16 document?

17 A To answer frequently asked questions.

18 Q Okay. Frequently asked questions coming
19 from where?

20 A I don't know. From -- I mean to regional
21 leaders. I don't know where from.

22 Q Okay. Are you involved in putting together
23 that FAQ or the, the commonly asked questions?

24 A No.

25 Q Okay. Who is in charge of that?

1 A The regional leader FAQ is from Jill Berger.

2 Q Okay, and does she report to you?

3 A Yes.

4 Q Do you have at least an oversight over the,
5 the FAQs, commonly asked questions?

6 A I've seen them.

7 Q Okay, and how often do they go out to
8 regional leaders?

9 A I think they're on the regional leaders
10 website, so whenever they look them up.

11 Q Okay. So it's not a document that's sent
12 out? It's on a, like an internet regional leaders
13 website?

14 A Right.

15 Q Okay. Let's go back to the hospital survey,
16 the, the big document, which I think was Exhibit 2.

17 Are, are you familiar with the requirement
18 that hospitals that participate or respond to the
19 survey are required to confirm or affirm that LeapFrog
20 may use the information they submit in the survey in a
21 commercial manner for profit?

22 A No.

23 Q You're not familiar with that clause at all?

24 A No.

25 Q Okay. Are you familiar with that concept at

1 all, that hospitals know that the data that they
2 submit in response to the survey can be used by
3 LeapFrog for commercial purposes?

4 A No.

5 Q Okay. Are you aware that LeapFrog does use
6 that data that hospitals submit for commercial
7 purposes?

8 A I know that we sell the data --

9 Q Okay.

10 A -- yes.

11 Q Can a hospital opt out of, of this
12 requirement that they affirm that LeapFrog can use
13 their data for commercial purposes?

14 A I don't know.

15 Q Don't know? Okay.

16 Do you know -- have you heard any feedback
17 or any complaints from hospitals about not being able
18 to opt out, opt out of this requirement?

19 A No. I don't communicate with hospitals.

20 Q Okay. Not necessarily -- not with, directly
21 with hospitals themselves, or have you heard --

22 A No.

23 Q -- at all of any complaints?

24 A No.

25 Q No? Okay. Okay.

1 The -- so let's talk about how LeapFrog uses
2 hospital survey information commercially for profit.
3 So can you describe -- we'll go kind of one by one of
4 the different ways as we understand it.

5 The hospital safety grades, how does
6 LeapFrog use the hospital safety grades in a
7 commercial manner?

8 A I don't know.

9 Q Okay. You're not aware of how LeapFrog uses
10 commercial safety grades to, to raise revenue?

11 A I am not.

12 Q All right. I think you testified earlier
13 you are aware that, that there's a licensing
14 program --

15 A Yes.

16 Q -- right?

17 A (Nods.)

18 Q So isn't that a way for -- isn't that a way
19 that LeapFrog uses the health [sic] safety grades to
20 raise revenue?

21 A It's not --

22 MS. BLAIR: Objection to form.

23 THE WITNESS: It's not "health" safety
24 grades.

25

1 BY MR. CHUNG:

2 Q Hospital safety grades.

3 A Right. I know that it exists. I don't know
4 anything about it.

5 Q But do you understand the hospital safety
6 grade licensing program, right --

7 A No.

8 Q -- to be a way for the, for the organization
9 to raise revenue?

10 A Repeat your question.

11 Q Right.

12 So I take your point, right, that you're not
13 intimately familiar with how the licensing program
14 works, right, but are you at least aware that
15 LeapFrog -- that the licensing, that the licensing of
16 the hospital safety grades, right, by hospitals is a
17 way that LeapFrog raises revenue?

18 A Yes.

19 Q Okay. How about the hospital survey data;
20 are you aware that LeapFrog licenses, right, the
21 hospital survey data to raise revenue?

22 A Yes.

23 Q Okay, and I think you testified earlier that
24 there are certain parties to whom this hospital survey
25 data is licensed, correct?

1 A Yes.

2 Q Again, who -- generally speaking, who are
3 these parties?

4 A I'm not very intimately involved, but I
5 think to solution providers and health plans.

6 Q Okay. How about the LeapFrog value-based
7 purchasing program; are you familiar with that?

8 A I know it exists.

9 Q Okay, and what is it?

10 A That I don't know.

11 Q Okay. Is it correct that LeapFrog licenses
12 the hospital safety grades to insurance companies?
13 Are you aware of that?

14 A Yes.

15 Q Okay. How many insurers have licensing
16 deals with LeapFrog?

17 A I don't know.

18 Q All right. Do you know any specific
19 insurance companies that have licensing arrangements
20 or deals with LeapFrog?

21 A I don't.

22 Q All right. Can you describe, can you
23 describe how those licensing deals work? How, how
24 is -- how are the insurance companies licensing the
25 hospital safety grades from LeapFrog?

1 A I have no idea.

2 Q Do you know what the insurance companies are
3 using the license hospital safety grades for?

4 A I don't.

5 MS. BLAIR: Object to form.

6 BY MR. CHUNG:

7 Q Does LeapFrog approach insurance companies
8 about, about these licensing deals?

9 A I don't know.

10 Q Okay. Do you know whether insurance
11 companies approach LeapFrog about licensing the
12 hospital safety grades?

13 A I don't know.

14 Q Okay. Who at LeapFrog is in charge or
15 oversees the licensing program?

16 A Kush Banerjee.

17 Q Okay. So understanding that you're not
18 intimately familiar, right, with the licensing
19 program, isn't, isn't LeapFrog -- doesn't it make
20 sense to have as many hospitals as possible
21 participate in the survey, so that LeapFrog can
22 convince insurance companies that the, the safety
23 grades have value?

24 MS. BLAIR: Objection to form.

25 THE WITNESS: The reason we want hospitals

1 to participate in the survey is because we want
2 to have transparency around hospital safety, and
3 we want to share that information with the
4 public.

5 BY MR. CHUNG:

6 Q Okay, but I'm asking about in the context of
7 these -- the licensing arrangements, right, with the
8 insurance companies, right?

9 In order to, in order to convince insurance
10 companies, right, that these, that these licenses have
11 value, I mean isn't LeapFrog incentivized to get as
12 many hospitals as possible to participate in the
13 survey?

14 A I have no idea how that works. I don't, I
15 don't know.

16 Q Okay. It's not so much whether you know how
17 it works; I'm just kind of asking for your view,
18 right?

19 A I don't have a view on that.

20 Q No view whatsoever?

21 A (Shakes head.)

22 Q Okay. Does -- are you aware that LeapFrog
23 licenses hospital survey data that it gets from
24 hospitals to researchers?

25 Are you aware of that?

1 A I'm aware.

2 Q Okay. Do you know generally how many
3 researchers or research institutions have these
4 licensing arrangements with LeapFrog?

5 A I have no idea.

6 Q Okay. Generally speaking, are these
7 researchers like at universities or medical schools?

8 A I have no idea.

9 Q Okay. Who oversees the, the licensing
10 program or the licenses with the researchers?

11 A Kush Banerjee.

12 Q Okay. Does LeapFrog approach researchers
13 about, researchers about these licensing deals, or is
14 it the other way? Do researchers approach LeapFrog?

15 A I have no idea.

16 Q Okay. Do you know how much revenue --
17 ballpark, right -- LeapFrog earns from these licensing
18 arrangements with researchers?

19 A I don't.

20 Q Okay, and a similar question than before,
21 in order to convince researchers to actually buy these
22 licenses, right, isn't LeapFrog incentivized to have
23 as many hospitals as possible participate in the
24 survey?

25 Again, just asking for your view, not

1 because you know a lot about these licensing --

2 A I don't have a view on that.

3 Q Okay. Are you also aware that LeapFrog
4 licenses the hospital survey data that it gets from
5 hospitals to various businesses? Are you aware of
6 that?

7 A Yes.

8 Q Okay. What types of businesses have these
9 licensing deals?

10 A Solution providers.

11 Q Okay, and do, do you have a ballpark idea of
12 how many businesses have these licensing deals?

13 A I don't.

14 Q Okay. Do you have kind of any examples of
15 solution providers that have entered into these
16 licensing deals?

17 A I think GOJO might be one.

18 Q What's GOJO?

19 A Purell.

20 Q Okay. All right. Any other companies or
21 businesses that you know have these licensing deals?

22 A I know BioVigil had one.

23 Q Any others?

24 A Those are the only ones I can think off the
25 top of my head.

1 Q How about hospitals? So just to be
2 specific, competitor hospitals buying like licenses to
3 the survey data of other hospitals?

4 MS. BLAIR: Objection to form.

5 THE WITNESS: That's -- as far as I know,
6 that's not something we do. I don't think you
7 can buy another hospital's data.

8 BY MR. CHUNG:

9 Q What, what makes you think that, that you,
10 that you can't do that?

11 A I've, I've never heard of that before.

12 Q Okay. Would it surprise you to learn that,
13 that competitor hospitals can buy -- can license
14 survey data of their competitor hospitals?

15 A I don't know if it would surprise me, but
16 I've never heard of that before.

17 Q Okay. The same question as earlier: In
18 order to convince the solution providers and other
19 businesses to license this hospital survey data,
20 isn't -- doesn't it make sense for LeapFrog to get as
21 many hospitals as possible to participate in the
22 survey?

23 MS. BLAIR: Objection to form.

24 THE WITNESS: I don't know what their
25 decisions are based on, their purchasing

1 decisions are based on.

2 BY MR. CHUNG:

3 Q Okay. Would it make sense for their
4 purchasing decision, right, specific to these
5 licenses, be based on, on their assessment of how
6 valuable these licenses are?

7 A I don't know enough about the data to have
8 an opinion on it.

9 Q Okay. So we've gone over a number of ways
10 that -- a number of revenue streams, right, arising
11 out of the hospital safety grades and the hospital
12 survey data.

13 It -- is it fair to say that the revenue
14 coming from -- these revenue streams are important to
15 LeapFrog's bottom line?

16 A Yes.

17 Q Okay, and is this -- are these revenue
18 streams based on licensing of the safety grades and
19 the, and the survey data? Are these, are these
20 revenue streams a focus of, of Ms. Binder when it
21 comes to raising revenue for the, for the, for the
22 organization?

23 A I don't know.

24 Q Okay. Is it, is it something that, that
25 you've discussed with her?

1 A No.

2 Q Okay. Not at all? Like it's not a topic
3 between you and Ms. Binder?

4 A No. I discuss fundraising.

5 MR. CHUNG: Okay. Let's go to tab 17, and
6 this will be Exhibit 13.

7 (Exhibit 13 was marked for
8 identification.)

9 BY MR. CHUNG:

10 Q Okay. We've put in front of you Exhibit 13.
11 It's a -- looks like a PowerPoint from TelAffects
12 entitled "The LeapFrog Group Fall 2024 Accolades
13 Campaign Recap."

14 Are you familiar with TelAffects?

15 A I've heard of TelAffects, yes.

16 Q And what or who are they?

17 A They're the vendor who does the sales of our
18 accolades.

19 Q Okay, and so the -- so what exactly are they
20 selling?

21 A They reach out to hospitals to sell their
22 safety grade license.

23 Q Okay. So this is, this is an area that, I
24 think you testified earlier, that Mr. Banerjee kind of
25 oversees; is that right?

1 A Yes.

2 Q And does -- so does he have -- does he
3 oversee TelAffects as the vendor --

4 A Yes.

5 Q -- that sells these licenses?

6 A Yes.

7 Q Okay, and how does TelAffects go about
8 selling or marketing the hospital safety grades to, to
9 various parties?

10 A I don't know.

11 Q Okay. Have you seen this document before?

12 A I have not.

13 Q I'll give you a chance -- have a chance to
14 flip through it.

15 (Witness peruses document.)

16 BY MR. CHUNG:

17 Q Okay. After just -- after flipping through
18 the document, do you recognize the document?

19 A No.

20 Q Haven't seen this before?

21 A No.

22 Q All right, but let's turn to -- it will be
23 page 17, Ms. Jupiter, Bates ending in LEAPFROG 758.
24 Okay, and this slide is entitled "Revenue by Fiscal
25 Year: HSG," which we understand to mean hospital --

Page 189

1 corresponding hospital safety grades.

2 Here, do you see that in the years covered
3 here, between 2017 and 2025, that LeapFrog, at least
4 according to Tel- -- according to this organization,
5 has made between \$1.5 million and over \$3.5 million
6 per fiscal year from the hospital safety grade
7 accolades?

8 MS. BLAIR: Objection to form.

9 BY MR. CHUNG:

10 Q Do you see that?

11 A Yes.

12 Q Okay, and is it fair to say that that is a
13 substantial part of LeapFrog's annual revenue?

14 A It's a part of LeapFrog's annual revenue.

15 Q Okay. Is it a small part of it?

16 A It's probably around a quarter of the
17 revenue.

18 Q A quarter? Okay, and is that, is that --
19 would you consider that substantial?

20 A I would consider it a quarter.

21 Q Okay, and this figure, what, what do you
22 understand this figure to include in terms of the --
23 in terms of revenue coming from the health [sic]
24 safety grades?

25 A It's not health safety grades.

1 Q Hospital safety grades. I'm sorry.

2 A What's your question?

3 Q What do you understand this revenue to
4 include in terms of the various products?

5 A It looks like this is accolade sales.

6 Q Okay. So what does that include? What
7 types of revenue sources or products does that
8 include?

9 A The accolade licensing.

10 Q Okay. Does it include the data licensing?

11 A I don't think so.

12 Q Okay. How about the top, any revenue from
13 top hospitals, the top hospitals program? Are you
14 familiar with that?

15 A I'm familiar with it. I don't know. I, I'm
16 assuming not, because it says "HSG," so I'm assuming
17 it's just hospital safety grade.

18 Q Okay. In terms of the marketing for the
19 health -- the hospital safety grades, are you aware
20 that LeapFrog's marketing focuses on the hospitals
21 that have received an A hospital safety grade?

22 A Yes.

23 Q Okay, and why is that?

24 A Because if you have a bad grade, you don't
25 want to advertise it.

1 Q Okay, and so another way to put it: Is it
2 fair to say that the focus on the marketing is on the
3 A hospitals because they're more likely or most likely
4 to agree to license their grades, correct?

5 A Yes.

6 Q Okay, and so going back to the, kind of the
7 change in the imputation methodology that we discussed
8 earlier, by penalizing nonparticipating hospitals by
9 assigning them the limited achievement grade, is it
10 fair to say that you're helping participating
11 hospitals earn their A grades more easily?

12 MS. BLAIR: Objection to form.

13 THE WITNESS: No. It's the opposite.

14 BY MR. CHUNG:

15 Q Okay. How is it the opposite?

16 A If we wanted to make more money from
17 licensing accolades, we would give more As, not less.

18 Q Okay. Let me ask another question, somewhat
19 related.

20 By penalizing nonparticipating hospitals by
21 giving, by automatically giving them the, the limited
22 achievement score, you are -- is it fair to say that
23 LeapFrog is encouraging them, these hospitals, or
24 inducing them to participate in the future in the
25 hospital survey?

1 MS. BLAIR: Objection to form.

2 THE WITNESS: I don't understand the
3 question.

4 BY MR. CHUNG:

5 Q Okay. I'll repeat it.

6 So by penalizing the nonparticipating
7 hospitals that don't submit responses to the survey,
8 right, is it fair to say that LeapFrog is trying to
9 encourage or induce these nonparticipating hospitals
10 to participate in the future?

11 MS. BLAIR: Objection to form.

12 THE WITNESS: We want as much information
13 about patient safety as possible, yes.

14 BY MR. CHUNG:

15 Q I'm not sure that's responsive.

16 So the question was: Is it fair to say that
17 you're basically trying to encourage, right, or induce
18 these nonparticipating hospitals to, to participate in
19 the future, right, by giving them the flunking grade;
20 is that correct?

21 MS. BLAIR: Objection to form.

22 THE WITNESS: Yes to the first part of your
23 question, that we are encouraging them to
24 participate; not by giving them a flunking grade.

25

1 BY MR. CHUNG:

2 Q Okay. I think we have the testimony.

3 So just looking at kind of the overall
4 financial picture, we looked at the revenues from
5 hospital grades and the hospital survey, both in the
6 financial statement we looked at earlier and then from
7 this TelAffects presentation.

8 Could LeapFrog cover -- let's start with
9 could cover its executive compensation costs if it did
10 not have the revenue from its hospital grades and
11 hospital survey?

12 A I don't know what the executive compensation
13 costs are.

14 Q Okay. Do you think that -- let's focus on
15 Ms. Binder first. If you didn't -- if LeapFrog did
16 not have the revenue from the hospital grades and the
17 hospital survey, right, the accolade licensing
18 revenue, would LeapFrog be able to pay Ms. Binder
19 \$760,000 a year in executive comp?

20 A I mean we raise more than that from annual
21 meetings and contributions that I raise.

22 Q Okay. So is it your testimony that without
23 the accolade licensing revenue, LeapFrog would be able
24 to pay Ms. Binder the \$760,000 in annual executive
25 compensation?

1 MS. BLAIR: Objection to form.

2 THE WITNESS: It's an imaginary scenario.

3 BY MR. CHUNG:

4 Q I'm just asking for your view. Do you think
5 so? I mean you're, you're familiar with the finances
6 of the, of the organization. It's part of your job to
7 be familiar with them, so -- and we've gone over in
8 detail, right, the revenue streams over time from
9 accolade licensing, right? And I think it's your
10 testimony it looks like approximately 25 percent of
11 the organization's revenue have come from those
12 revenue streams.

13 In your view, would, would the organization
14 be able to pay Ms. Binder's compensation of \$760,000 a
15 year if it didn't have that accolade licensing
16 revenue?

17 A Yes.

18 Q You think so?

19 A Yes.

20 MR. CHUNG: Okay. Let's go to tab 47. This
21 will be Exhibit 14.

22 (Exhibit 14 was marked for
23 identification.)

24 BY MR. CHUNG:

25 Q Okay. Ms. Jupiter, this is -- you have

1 Exhibit 14 in front of you. It's an email chain from
2 April of 2024, last year. Just spend some time
3 looking at it.

4 (Witness peruses document.)

5 BY MR. CHUNG:

6 Q Have you had a chance to review it?

7 A Yes.

8 Q So first, who, who is Ben Choi?

9 A He was our former CEO.

10 Q Former CFO, okay, and you mentioned that a
11 new CFO started very recently, correct?

12 A Yes.

13 Q Okay, and who is Josh Berlin?

14 A He is a consultant for LeapFrog.

15 Q Okay, but not an employee of LeapFrog?

16 A No.

17 Q Okay. Is he a consultant kind of on the
18 finance front, or --

19 A Overall in general.

20 Q Okay. Still, still consulting for LeapFrog,
21 or --

22 A Yes.

23 Q Okay.

24 A And Ben was our acting CFO. He wasn't an
25 employee of LeapFrog.

1 Q Okay. If we look at the first page Bates
2 ending LEAPFROG 278, Ms. Binder is responding to a
3 summary from Mr. Choi.

4 She writes, "If we move toward cost
5 reduction as the primary strategy, it will be much
6 more severe than this, but I'm not going there for
7 now. We can address incremental spending issues, but
8 let's not lose focus on what managers should be
9 thinking about 24/7, which is revenues."

10 Has -- she writes "what managers should be
11 thinking about 24/7, which is revenues," right? Is
12 this some -- is this kind of direction something that
13 Ms. Binder has expressed to you and your colleagues?

14 A Not this extreme, no.

15 Q Not this extreme. Okay. How has she
16 expressed this kind of concept or direction to you and
17 your colleagues?

18 A I mean my job at LeapFrog is to help raise
19 funds, and so we always talk about how I should be
20 working to raise donations.

21 Q Okay. I'm asking about her communications
22 to you in particular, and on, on a focus on raising
23 revenues, right, so what has she said to you? It
24 hasn't -- I think your testimony is that it hasn't
25 been as extreme as what she expresses here, but how

1 has she articulated it to you?

2 A My job is to raise revenues, and that's what
3 we talk about.

4 Q Is that what she says, "your job is to raise
5 revenues"?

6 A I mean if you read my job description,
7 that's my job.

8 Q I'm asking what Ms. Binder has said to you,
9 not your job description.

10 A What's your question?

11 Q That's exactly my question. What, what has
12 Ms. Binder said to you about raising revenues?

13 A "You should raise revenues."

14 Q Okay. Has she ever told you that you should
15 be thinking about revenues 24/7?

16 A No.

17 Q Okay, anything along those lines?

18 A No.

19 Q Okay. Have you heard her say anything along
20 those lines to any of your colleagues?

21 A No.

22 Q All right. Have you ever been concerned or
23 had a reaction that Ms. Binder is overly focused on
24 raising revenues for the organization?

25 A No.

1 Q Okay. There are a handful of bullet items
2 that reflects her thinking, just using her words in
3 this email.

4 The first bullet is, "We should look closely
5 at our archival reports on the Safety Grade as an
6 opportunity, and maybe have one of your marketing
7 folks at RO3 help us with that quickly before we
8 launch the grade on May 1."

9 Do you know what she's referring to here in
10 terms of the marketing of archival reports on the
11 safety grade?

12 A I don't.

13 Q Did she discuss this with you at all?

14 A No.

15 Q Okay. "I have a nuclear strategy for the
16 CPOE report sales which I will tell you about
17 tomorrow."

18 Does that ring a bell?

19 A No.

20 Q Are you aware that there are -- that
21 LeapFrog generates reports specific to the CPOE
22 measure?

23 A I'm -- I know that we generate reports. I
24 don't know about specific CPOE reports.

25 Q Okay. Do you know whether those reports,

1 generally speaking, maybe not specific to CPOE, are
2 sold or marketed to third parties for purchase?

3 A Yes.

4 Q Okay. What -- again, generally speaking,
5 what types of reports are these?

6 A I don't know.

7 Q Okay. Are they reports of data from
8 hospitals?

9 A Yes.

10 Q Okay. I mean are we talking about -- is she
11 referring to basically the licensing of hospital
12 survey data here?

13 A I think so.

14 Q Okay, but they're in -- but it sounds like
15 they're in a report form.

16 A I think so.

17 Q Okay, and it looks like there are at least
18 reports that are specific to the CPOE data; is that
19 right?

20 A Yes.

21 Q Okay. It says, "Paul could work on sales of
22 reports on CPOE and/or another report. Maybe we
23 develop a report on technology and patient safety,
24 which is a hot topic."

25 Has Ms. Binder -- does this ring a bell?

1 Has Ms. Binder ever discussed with you the development
2 of a report to license or to sell "on technology and
3 patient safety"?

4 A No.

5 Q Okay. Do you know whether such a report
6 exists for purposes of licensing?

7 A I don't.

8 Q Okay, but it does sound like these are maybe
9 new items, new types of reports that she's proposing?

10 A That's what it sounds like, yes.

11 Q Okay. "We should offer a special deal for
12 some form of AM" -- I think annual meeting --
13 "sponsorship if booked before June 30."

14 Do you see that?

15 A Yes.

16 Q Is that something you're familiar with?

17 A Yes.

18 Q Okay. Is that something that was
19 implemented?

20 A I think so. I think we offered a discount
21 if they committed before June 30.

22 Q Okay, and the purpose of that is to
23 basically get more sponsorships in terms of volume?

24 A In the fiscal year.

25 Q Okay. Understood.

1 A That's the date.

2 Q All right.

3 The next bullet is, "We should plan for
4 special discounts/sales pushes around accolade sales
5 to get more in late May and June."

6 Do you have an understanding as to why she
7 is making the push for special discounts or sales
8 around accolade sales to get more in this timeframe,
9 that May/June timeframe?

10 A The fiscal year ends June 30.

11 Q Okay. So to get more bookable revenue
12 before the end of the fiscal year; is that right?

13 A Correct.

14 Q Okay. "Expand marketing around the
15 certified coach program." What is she referring to
16 here?

17 A We did some more social media ads around the
18 coach program to try to sell more.

19 Q Okay, and then the final bullet here is
20 "There's a lot of attention to us around the Hospital
21 Safety Grade release. How do we harness that more for
22 marketing?"

23 What do you understand her to be saying
24 here?

25 A I don't know.

1 Q Okay.

2 We looked at a document earlier about -- I
3 think it was your, the year end review, right, about
4 her comment, her feedback to you about using the
5 publicity around the hospital safety grade for
6 basically commercial purposes, right?

7 Does this bullet point kind of refresh your
8 recollection as to what she might have been discussing
9 there in your annual review?

10 A This is around marketing. I don't know
11 marketing to what.

12 Q Okay. Is she, is she saying here that where
13 there's a lot of attention publicity around the
14 release, right, of the hospital safety grade, that at
15 the same time LeapFrog should be marketing more of its
16 accolade licensing products?

17 A I can't --

18 MS. BLAIR: Objection to form.

19 THE WITNESS: I can't say what she -- I
20 wasn't on this email. I've never seen it. I
21 have no idea what she was saying.

22 BY MR. CHUNG:

23 Q Okay. Is it, is it -- is what she's
24 referring to here, was it implemented; do you know?

25 A I have no idea.

1 Q Okay.

2 Does LeapFrog compete with any other
3 organizations or companies when it comes to the
4 grading of hospitals?

5 A Not that I know of.

6 Q Okay. So there are no other entities that
7 grade hospitals that LeapFrog sees as competitors?

8 A There are other places that -- I don't know
9 if they use specific grades, but measure hospitals,
10 but we solely focus on patient safety. There aren't
11 other organizations that focus on patient safety.

12 Q Okay. There are other organizations?

13 A Not that I'm aware of.

14 Q Okay, and what are those other organizations
15 that you're, that you're thinking about?

16 A U.S. -- Newsweek or U.S. News Report [sic].
17 I don't remember which one.

18 Q U.S. News and World Report, the magazine?

19 A Yeah, or Newsweek. I can't remember. One
20 of them puts out a hospital review list.

21 Q Okay. Any other organizations or
22 publications around this?

23 A Not that I'm aware of.

24 Q Do you view these other entities as
25 competitors?

1 A No, because we solely focus on patient
2 safety.

3 Q Okay.

4 I want to go into incentives for hospitals
5 to participate in the program. It's related somewhat
6 to what we discussed previously.

7 What incentives does LeapFrog offer to
8 hospitals that respond to its hospital survey?

9 A I don't know.

10 Q Okay. Does LeapFrog provide any form of
11 recognition, public recognition, such as awards or
12 distinctions, to hospitals that participate in the
13 survey?

14 A We give Top Hospital awards. I don't think
15 you have to participate to get one.

16 Q Okay, and what -- that Top Hospital award
17 program, what does it mean? What does it encompass?

18 A We say they are a top hospital.

19 Q And how is "Top Hospital" defined under this
20 program?

21 A One of the best hospitals in terms of
22 patient safety.

23 Q Okay, and is that based on the hospital
24 safety grade that LeapFrog issues to those particular
25 hospitals?

1 A I don't know how it's determined.

2 Q Okay. Are these -- is it as simple as being
3 an A-graded hospital by LeapFrog?

4 A I don't know.

5 Q Okay, and who oversees that program, the Top
6 Hospital program or those, those awards?

7 A Missy Danforth.

8 Q Okay.

9 Does LeapFrog ever engage with hospital
10 leadership or hospital administrations to encourage
11 survey participation?

12 A I don't know.

13 Q Okay. Do you know who would know that?

14 A Probably Missy Danforth.

15 Q Okay. Are there -- are you aware of any
16 resources or tool kits or support services that are
17 offered, offered or provided hospitals to help them
18 participate in the survey?

19 A We provide information on the survey. We
20 have a HelpDesk where we answer questions.

21 Q Okay. Are there any kind of specific paid
22 programs or consultants or coaches that the
23 organization offers to hospitals to help them
24 understand or fill out the survey?

25 A Not that I'm aware of.

1 Q Okay. Are there any partnerships or
2 arrangements with employers or insurance companies
3 that use LeapFrog participation as a criterion for
4 contracting or network inclusion?

5 THE REPORTER: Network --

6 MR. CHUNG: Inclusion.

7 THE REPORTER: Inclusion, okay.

8 THE WITNESS: Not that I know of.

9 BY MR. CHUNG:

10 Q Okay. Do you know who would know that?

11 A Probably Leah Binder.

12 Q Okay.

13 Does LeapFrog track or analyze survey
14 participation, participation rates over time?

15 A We track survey participation, survey
16 participation over time, yes.

17 Q Okay, and so based on that kind of tracking,
18 what has LeapFrog observed? What are the trends?

19 A Survey participation has increased over
20 time.

21 Q Okay, and what, what does LeapFrog attribute
22 that increase in participation to?

23 A Commitment from hospitals toward accuracy
24 and transparency.

25 Q Okay. Any other factors?

1 A That they want to show their commitment to
2 patient safety.

3 Q Okay, and how, and how is that -- how is
4 that factor tracked? How did you -- how, how does
5 LeapFrog -- how did LeapFrog determine or conclude
6 that that is the factor that led to increased
7 participation?

8 A That's our goal is to increase commitment to
9 patient safety.

10 Q Okay. I understand that that's LeapFrog's
11 goal, but how was LeapFrog -- how did LeapFrog
12 determine that that was the reason that a hospital --
13 that there's been an increase in hospital
14 participation in the survey?

15 MS. BLAIR: Objection to form.

16 THE WITNESS: I don't know.

17 BY MR. CHUNG:

18 Q Okay.

19 Do you know whether participation in the
20 survey increased after the fall 2024 changes to the
21 imputation methodology?

22 A I don't know.

23 Q Okay. Has LeapFrog conducted any studies or
24 analysis over whether survey participation improves a
25 hospital's safety grade?

1 A I don't know.

2 Q Okay. Not aware of any analyses or studies
3 to that effect?

4 A No.

5 MR. CHUNG: Okay. Why don't we take a quick
6 break here before going on to the next document.

7 THE VIDEOGRAPHER: The time is 2:15 p.m.

8 This ends unit 3. We're off the record.

9 (Whereupon, a short recess was taken.)

10 THE VIDEOGRAPHER: The time is 2:26 p.m.

11 This begins unit number 4. We're on the record.

12 BY MR. CHUNG:

13 Q Ms. Jupiter, earlier in the day you
14 testified that you have -- one of your
15 responsibilities is for overall communications,
16 including LeapFrog's websites, right?

17 A Yes.

18 Q Okay. We're going to go over the websites
19 now, and I think what we're going to do to kind of
20 facilitate this is we're going to provide you with a
21 laptop so we can kind of navigate, you know, through
22 the websites instead of relying solely on hard copies.
23 So Mr. Delwiche is going to put the laptop in front of
24 you.

25 We're also going to give you paper versions

1 of pages from the laptop that are marked Exhibit 15
2 and Exhibit 16.

3 THE REPORTER: Do you want me to mark those
4 right now?

5 MR. CHUNG: Yes, might as well.

6 (Exhibit 15 was marked for
7 identification.)

8 (Exhibit 16 was marked for
9 identification.)

10 BY MR. CHUNG:

11 Q So we'll put these in front of you and kind
12 of toggle between the computer and these paper
13 exhibits.

14 So there are -- you understand that there
15 are two websites that are relevant here. One is
16 www.leapfroggroup.org, and then
17 hospitalsafetygrade.org.

18 What, what's the purpose of the first one,
19 the leapfroggroup.org website?

20 A That's general information about LeapFrog.

21 Q About the organization, correct?

22 A Correct.

23 Q All right, and that's where the mission
24 statement is articulated, it shows who, who the staff
25 are and the board and that kind of information,

1 correct?

2 A Correct.

3 Q What is the purpose of the
4 hospitalsafetygrade.org website?

5 A That's where consumers can look up their
6 hospital's safety grades.

7 Q Okay, and so to put it another way, that
8 website, in contrast to the LeapFrog website, is, is
9 geared toward -- aimed at consumers to look up their
10 hospitals and see what the, the grade is for those
11 hospitals; is that right?

12 A Both are aimed at consumers, but the
13 hospital safety grade is where they would look up the
14 safety grade, yes.

15 Q Okay, and are they both operated by the
16 organization, by LeapFrog?

17 A Yes.

18 Q Okay.

19 Now, are you aware that upon a, kind of a
20 basic Google search of the term "hospital safety
21 grade," that these are the two website -- top website
22 hits that come up?

23 A Yes.

24 Q Okay. So why don't we just -- if we could
25 trouble you to look at the interactive deposition

1 here, a Google search of "hospital safety grade."

2 A Nothing is happening.

3 Q Just a Google search of "hospital safety
4 grade," Ms. Jupiter.

5 All right, and do you see that the -- what
6 is the first kind of website hit that comes up?

7 A Hospitalsafetygrade.org.

8 Q Okay. Got it. Let's look -- and the second
9 hit is what; leapfroggroup.org?

10 A Yes.

11 Q Okay. Can we go first to the
12 leapfroggroup.org website?

13 A Okay.

14 Q And then there should be a large orange box
15 titled "Search Hospital and Surgery Center Ratings."

16 Do you see that?

17 A Yes.

18 Q Make sure you're familiar with the website.

19 A Mm-hmm.

20 Q If you can search for "Delray." Delray is
21 one of the plaintiff hospitals here in Florida.

22 Okay. Have you done that search --

23 A Yes.

24 Q -- for Delray? And the first page we see
25 upon a search, do you see that there's a page that

1 pops up? There are four facilities in your search
2 that decline to --

3 A No. This is what pops up.

4 Q Okay. Got it. What does this mean? Okay.
5 Search Delray. Okay, and Delray pops up in -- okay.
6 Got it.

7 So you see the red box there that says
8 "Declined to Respond," correct?

9 A Correct.

10 Q All right, and it says that "Thousands of
11 hospitals nationwide report to the LeapFrog Hospital
12 Survey to help patients and purchasers make better
13 healthcare decisions," and then "This hospital did not
14 participate."

15 That's what the pop-up reads?

16 A Correct.

17 Q And am I right that you can't really see
18 what's behind the pop-out box until you click out of
19 that pop-out?

20 A Correct.

21 Q Okay. Can you click out of the pop-out for
22 us?

23 A Okay.

24 Q And just for the, just for the record, what
25 you saw earlier in terms of the pop-up is what we see

1 in Exhibit 15, correct?

2 A Correct.

3 Q All right.

4 Now, once you click out of the pop-up, do
5 you see that for all the measures that are listed
6 there, the webpage says that the hospital -- in this
7 case, Delray -- declined to respond, correct?

8 A Correct.

9 Q All right, and am I right that there's no
10 safety grade -- A, B, C, D, F -- anywhere present on
11 the page here?

12 A Correct.

13 Q All right, and then if you click to
14 "preventing patient harm" -- do you see that?

15 A Mm-hmm.

16 Q All right, and then there's a handwashing
17 metric, the website says "Declined to Respond"; is
18 that correct?

19 A Correct.

20 Q All right, and there's no score present on
21 the website, right?

22 A Correct.

23 Q No limited achievement score, no numerical
24 score on the website -- on this particular webpage,
25 correct?

1 A Correct.

2 Q Okay.

3 Now let's kind of -- let's go back and then
4 go to the other website, the first hit upon the Google
5 search, if you can do that for us. That's the
6 hospitalsafetygrade.org website.

7 A So that's where we were. We were on the
8 hospitalsafetygrade.org site.

9 MS. BLAIR: No, you were --

10 BY MR. CHUNG:

11 Q No, we were on LeapFrog --

12 A Okay.

13 Q -- earlier.

14 A You want me to go to
15 hospitalsafetygrade.org?

16 Q Correct.

17 This is the -- I think you testified
18 earlier, this is, this is the one that's directed
19 toward consumers where it's designed for them to
20 search for their hospitals, right?

21 A Correct.

22 Q Okay. So are you on the
23 hospitalsafetygrade.org website?

24 A Yes.

25 Q Okay, and if you can run a search again for

1 Delray Medical Center. You're probably more familiar
2 with this website than me, so . . .

3 A Okay.

4 Q All right. Are you seeing the page for
5 Delray Medical Center?

6 A Yes.

7 Q And it shows here, once you reach the search
8 result, that this hospital's -- the graphic is saying
9 "this hospital's grade is F."

10 Do you see that?

11 A Yes.

12 Q Okay, and from spring 2025 --

13 A Correct.

14 Q -- correct? Okay.

15 Now, in contrast, unlike on the
16 leapfroggroup.org website, this website does not
17 immediately show a pop-up box, right, indicating that
18 a hospital, like Delray, did not provide data to
19 LeapFrog, correct?

20 A Correct.

21 Q All right, and then when you go to see full
22 score, right, does this again show "this hospital's
23 grade is F," that same graphic?

24 A Yes.

25 Q All right, and above the fold on the screen,

1 am I correct that all we see again is the F grade?

2 A Correct.

3 Q Okay, and then when we click on the tab
4 "practices to prevent errors," so there are a number
5 of tabs, the fourth one, right, we see for "doctors
6 order medications through a computer," do you see that
7 this hospital score is a 15?

8 Do you see that?

9 A Yes.

10 Q All right, and is this -- again, knowing
11 that you're not intimately familiar with kind of the
12 measures, is it your understanding that this measure,
13 the doctors order medications through a computer,
14 corresponds to the CPOE measure?

15 A No. I mean I don't --

16 Q Not sure?

17 A No.

18 Q Okay, and then if we go to the next tab, the
19 "Safe Medication Administration," that yields a score
20 of 25, correct?

21 A Correct.

22 Q All right, and these are all limited
23 achievement scores, correct?

24 A I don't know that.

25 Q You don't know that? Okay, all right, and

1 do you know whether this, the safe medication
2 administration measure, is actually the BCMA measure
3 that we discussed earlier?

4 A I don't.

5 Q Don't know? Okay, and then when we go to
6 handwashing, that yields a 15, a score of 15, correct?

7 A Yes.

8 Q All right, and same question: Do you know
9 whether this corresponds to the hand hygiene measure
10 that we discussed earlier in the methodology?

11 A No.

12 Q Don't know for sure? Okay, and then under
13 the tab "Doctors, Nurses and Hospital Staff," kind of
14 the top level tab, there's a measure "Specially
15 Trained Doctors for ICU Patients."

16 Do you see that?

17 A Yes.

18 Q Okay, and what score does that yield?

19 A Five.

20 Q A five, okay, and do you know whether this
21 measure corresponds to the IPS measure that we saw in
22 the methodology?

23 A I don't know.

24 Q Don't know? All right, and with each of
25 these measures, you'll see on this website that there

1 are basically these "gas gauge" scores, and is it
2 your -- for the four metrics that we just went over,
3 right, going backwards, the handwashing, doctors,
4 nurses and hospital staff, the ICU patients metric,
5 the doctors order medications through a computer, and
6 the safe medication administration, those gas gauges
7 are set to the lowest possible value, correct?

8 A Correct.

9 Q All right. We just went through the four of
10 them. Rather than a question mark with a "Declined to
11 Report" icon --

12 A Correct.

13 Q -- correct? There are other measures,
14 however, on this very website where you'll see that
15 there is a "Declined to Report" icon, correct?

16 A Correct.

17 Q All right. Why are those, why are those
18 treated differently? Why for some of these, for some
19 of these metrics are -- we went over kind of the
20 imputed methodology, right, and the four metrics,
21 right, that are given imputed metrics, right, so
22 automatically assigned them the, the limited
23 achievement score.

24 Why are those metrics given kind of the low,
25 the lowest kind of signal on the gas gauge, right, but

1 for others, right, where the hospital didn't support
2 data, the website says that, that the hospital
3 declined to report? What's the distinction between
4 those two sets?

5 MS. BLAIR: Objection to form.

6 BY MR. CHUNG:

7 Q On the measures?

8 A I don't know.

9 Q Okay, but you are, as part of your role -- I
10 mean you have multiple roles, but your role with
11 respect to communications, am I correct that you're
12 familiar with and you have discussions about the
13 content of the website?

14 A Very high-level.

15 Q Okay, and is this not --

16 A This is more --

17 Q -- kind of high-level enough?

18 A This is not high-level enough. This is more
19 detail than I get involved in.

20 Q Okay, so -- and it's only -- so we, so we're
21 looking at kind of above the folds right now on the --

22 THE REPORTER: Above the, you said "folds"?

23 BY MR. CHUNG:

24 Q Above the fold, right, on the
25 hospitalsafetygrade.org website.

1 If we scroll to the bottom, the very bottom
2 of the page, do you see kind of in the smaller font
3 between the footnotes, a note that the hospital, in
4 this case, Delray, did not provide data to LeapFrog?

5 Do you see that?

6 A Yes.

7 Q And the footnote says, or one of the
8 footnotes says, "The hospital declined to report their
9 performance on this measure, so a score was assigned
10 to reflect the lack of information available,"
11 correct?

12 A Correct.

13 Q Okay. Does -- is there anywhere in that
14 footnote or anywhere on this page, that informs the
15 consumer how a score was assigned for these four
16 metrics?

17 A It says -- there's a -- "for details on
18 sources, click here."

19 Q Okay. On the web -- on this page itself, on
20 the search result, though, is there any explanation to
21 the consumer for how these limited achievement scores
22 were assigned?

23 A No.

24 Q Okay. So we've gone over kind of the
25 disclosures between, on the one hand, the

1 leapfroggroup.org website, right, where we saw the
2 pop-ups on Exhibit 15, where it shows clearly that, in
3 our case, Delray has declined to respond, correct, and
4 it doesn't show a grade, correct?

5 You've got to answer. Sorry.

6 A Yes.

7 Q But then on the Hospital Safety Grade's
8 website, almost immediately upon a search of "Delray,"
9 the F grade is prominently displayed; is that correct?

10 A Correct.

11 Q Okay.

12 So why doesn't LeapFrog use the same
13 disclosures for nonparticipating hospitals between
14 these two websites? Why is there -- why are there
15 these differences in the disclosures between the two
16 websites?

17 MS. BLAIR: Objection to form.

18 THE WITNESS: I don't know.

19 BY MR. CHUNG:

20 Q Okay.

21 Was there ever a concern at LeapFrog that
22 consumers who visited these two websites would be
23 confused about the scores for hospitals that did not
24 participate in the surveys?

25 A I don't know.

1 Q Okay. Any -- do you remember any discussion
2 about potential confusion by consumers visiting these
3 websites about what these metrics mean for
4 nonparticipating hospitals?

5 A Not that I recall.

6 Q Okay.

7 Has LeapFrog received any feedback or
8 questions or complaints from hospitals, let's start,
9 regarding confusion or inconsistencies between the two
10 websites?

11 A Not that I know of.

12 Q Okay. How about any feedback or questions
13 or complaints from patients or consumers about
14 inconsistencies between the two websites?

15 A Not that I know of.

16 Q How about insurance providers?

17 A Not that I know of.

18 Q Any patient advocacy groups? Hear from them
19 about the inconsistencies between the two websites?

20 A Not that I know of.

21 Q Okay.

22 Has LeapFrog ever conducted any user testing
23 surveys or studies to determine whether consumers
24 understand the disclosures on each of these websites?

25 A When we built the site, we dealt with low

1 literacy website experts.

2 Q Okay. When you say "dealt with low literacy
3 website experts," what do you mean by that, if you can
4 break that down for us?

5 A This was before my time, so I don't know,
6 but I know that when we built the site, we worked with
7 experts on website development and communications for
8 it to be clear for patients.

9 Q Okay. How about, when you say "low
10 literacy," what does that mean?

11 A There's a lot of words on the site, so we
12 want to make sure it's clear to people who can't
13 necessarily read all the information on the site;
14 hence, the gas gauges and more clear interpretations.

15 Q Okay, and so is, is it kind of the
16 assumption that the visitors to the site, right, or at
17 least some number of the visitors to the site are
18 illiterate or at low literacy levels?

19 A That's not -- I assume we, if they came to
20 the site, we wanted to make sure that they would
21 understand.

22 Q Okay. The, the -- so I think you testified
23 that you're aware that there were experts that were
24 retained to consult on three websites before I think
25 you joined --

1 A Correct.

2 Q -- before you joined the organization. Were
3 there -- were experts or any kind of outside parties
4 consulted or retained to advise on these versions of
5 the websites, particularly after the change in the
6 imputation methodology took place?

7 A Not that I know of.

8 Q Okay.

9 Who was -- who at LeapFrog was in charge of
10 basically conforming, right, or adjusting the website
11 as we see it now, after the change in the imputation
12 methodology in the fall of 2024?

13 A Lauren Bailey worked with the ratings team.

14 Q Okay. So Lauren was working on the website
15 with the ratings team; is that correct?

16 A Correct.

17 Q Okay, and so why Lauren in particular?

18 A She's our director of communications.

19 Q Okay, and as director of communications, she
20 has more direct oversight over how the websites are
21 run; is that correct?

22 A Yes.

23 Q Okay, and you kind of have more of a higher
24 level oversight; is that correct?

25 A Correct.

1 Q Okay.

2 Now, just based on kind of your looking at
3 the website, your familiarity with the website, and
4 again taking into account that, you know, that there
5 may be low literacy kind of consumers, right, on the
6 websites or visitors to the websites, do you think
7 it's realistic to think that visitors to the website
8 will read, toggle down to the footnotes and understand
9 the footnotes at the bottom of the page of the
10 hospital safety grade search results?

11 MS. BLAIR: Objection to form.

12 THE WITNESS: I can't predict what people
13 will do.

14 BY MR. CHUNG:

15 Q So you don't have a view on that?

16 A No.

17 Q Okay.

18 Based on what's presented on the hospital
19 safety grade website, and taking this Delray search
20 result as an example, does LeapFrog want visitors or
21 consumers to believe that the imputed metrics, right,
22 that we went over, the four metrics, are based on
23 actual data?

24 MS. BLAIR: Objection to form.

25 THE WITNESS: Can you repeat the question.

1 BY MR. CHUNG:

2 Q Yeah. Does LeapFrog -- does LeapFrog want
3 consumers or visitors to this particular website to
4 think that the imputed metrics are based on actual
5 data submitted by the hospitals?

6 A No.

7 Q No? Okay. Understood.

8 Has -- do you know whether LeapFrog has ever
9 considered standardizing or making consistent the
10 disclosures or just the overall presentation of
11 information between the two websites?

12 A I don't know.

13 Q Okay. Do you think Lauren Bailey would know
14 more about that?

15 A Probably, yes.

16 Q Okay.

17 All right. Just going back to one kind
18 of -- one point on the hospital safety grade website,
19 so just going down to the footnotes that we were just
20 looking at a few minutes ago, the Footnote 4, right,
21 reads, "The hospital declined to report their
22 performance on this measure, so a score was assigned
23 to reflect the lack of information available."

24 Do you see that particular footnote?

25 A Yes.

1 Q Am I right, though, that this footnote does
2 not inform the consumer what the resulting hospital
3 score means?

4 A I don't understand the question.

5 Q Okay. Does it disclose that -- does it
6 disclose that LeapFrog has automatically assigned the
7 lowest score possible for these imputed metrics?

8 A It says here, "so a score was assigned."

9 Q Right, "a score was assigned to reflect the
10 lack of information available," but it doesn't, it
11 doesn't say that the lowest possible score was
12 assigned, correct?

13 A It says that. It says, "This hospital score
14 is five," and it says "worst hospital score, five."

15 THE REPORTER: Say that again, please. I'm
16 sorry.

17 THE WITNESS: It says "this hospital score,
18 five," and it says "worst hospital score, five."

19 BY MR. CHUNG:

20 Q Okay. So that, that means the consumer
21 would have to basically read those two together to
22 deduce, right, that the -- that Delray got the lowest
23 hospital score?

24 A Yes.

25 Q Okay.

1 I have some questions about LeapFrog's
2 marketing, kind of overall marketing function, and you
3 mentioned earlier that CURA -- it's CURA Strategies
4 provides public relations consulting services; is that
5 right?

6 A Yes.

7 Q Okay. Are there any other kind of outside
8 contractors or consultants that provide marketing,
9 advertising, or PR services to LeapFrog?

10 A We have a Google grant for advertising the
11 safety grade.

12 Q Okay, and there's a -- is there a vendor
13 that advises on how to best use that Google grant?

14 A Yes.

15 Q Okay. When did LeapFrog start hiring CURA
16 Strategies?

17 A I think it was two years ago.

18 Q Okay. Do you know, just ballpark, how much
19 money LeapFrog spends on these outside consultants?

20 A CURA is about \$15,000 a month.

21 Q Okay, and how about the Google grants?

22 A That's really small. I think it's \$9,000 a
23 year.

24 Q Okay, and we're going to go into some
25 documents relevant to the regional leaders, but what

1 role do the LeapFrog's leaders play in the overall
2 communication strategy for the organization?

3 A The regional leaders we say are our "boots
4 on the ground," and they reach out to hospitals to
5 encourage them to do the survey.

6 Q Okay. So how do they go about doing that?
7 Boots on the ground, and they, they are the ones
8 responsible, going out to the hospitals to encourage
9 them to participate in the survey, correct?

10 A Correct.

11 Q So are there -- is there a particular kind
12 of process or protocol that these regional leaders are
13 supposed to follow in executing on that?

14 A Yes. They send letters to the hospitals
15 saying they represent the local employers who want
16 them to participate in the survey.

17 Q So they represent to the hospitals that they
18 themselves, the regional leaders of LeapFrog,
19 represent employers?

20 A Correct.

21 Q Right, and who are these employers that
22 they're purporting --

23 A So these are --

24 Q -- to represent?

25 A -- regional coalitions of employers, so

1 they're based on a region. So, for example, the
2 Greater Philadelphia Business Coalition is a regional
3 leader, and they represent employers in the greater
4 Philadelphia area.

5 Q Okay, and so do these employers, are they --
6 do they give kind of explicit permission to these
7 LeapFrog regional leaders to represent them vis-a-vis
8 the hospitals?

9 A The employers?

10 Q Yes.

11 A That's part of belonging to the coalition,
12 yes.

13 Q Does LeapFrog have kind of an overall
14 marketing strategy?

15 A Yes.

16 Q Okay, and so what is that overall marketing
17 strategy?

18 A I guess it depends who you're marketing to.

19 Q All right. Let's break it -- what's the
20 kind of the most immediate audience you think of?

21 A Consumers.

22 Q Okay, and so what is the overall market
23 strategy with respect to consumers?

24 A We want consumers to check their hospital
25 safety grade.

1 Q Okay, and what are, what are the other
2 audiences?

3 A Market to data purchasers, employers.

4 Q Okay. So the data purchaser potential kind
5 of licensees, correct?

6 A Correct.

7 Q And hospitals as well?

8 A Hospitals for, yes, accolades and survey
9 participation.

10 Q Okay, and what is the marketing strategy
11 with respect to the, the hospital, the hospitals for
12 purposes of the, the accolade licensing?

13 A I don't really know about that.

14 Q Okay. Who is -- who would know about that?
15 Is it Mr. Banerjee?

16 A Kush, yes.

17 Q Okay, and is it the same with respect to the
18 data licensing?

19 A Correct.

20 Q Let's go to another document, tab 22.

21 A Am I done with this?

22 Q Yes. You can close it.

23 (Exhibit 17 was marked for
24 identification.)
25

1 BY MR. CHUNG:

2 Q Ms. Jupiter, you have Exhibit 17 in front of
3 you. It's entitled "2025 Regional Leader
4 Communications Toolkit: Launching LeapFrog Surveys."
5 Feel free to look through it. Let me know if you
6 recognize it.

7 A Yes.

8 Q Okay. So what, what is this document?

9 A This is the information we provide to the
10 regional leaders on how to launch the survey.

11 Q Okay. How many regional leaders are they --
12 are there?

13 A 32.

14 Q Okay, and so these are like individuals,
15 these regional leaders?

16 A They're coalitions. There's an individual
17 who represents the coalition, but it's an employer
18 coalition.

19 Q Okay, and that was my next question. So
20 each of these coalitions that is a regional leader is
21 made up of a collection of employers within the
22 relevant region, correct?

23 A Correct.

24 Q Okay, and you said that there's a, a human
25 being, a representative, right, that acts for that

1 coalition/regional leader; is that right?

2 A Correct.

3 Q And who typically is that person?

4 A A staff member of the coalition.

5 Q Okay. Is it a, is it an employee of one of
6 the employers, or is it someone that's kind of
7 independent?

8 A The coalition has staff. It's a staff
9 member of the coalition.

10 Q Okay, and are they -- are these -- how are
11 these -- are these coalitions part of LeapFrog?

12 A No.

13 Q All right. What is the relationship with
14 LeapFrog?

15 A They're our regional leaders.

16 Q Okay, but they're --

17 A They're not employed by LeapFrog.

18 Q Okay.

19 A They have similar goals for patient safety,
20 and so they work with LeapFrog.

21 Q All right. So they are independent
22 entities?

23 A Yes.

24 Q All right. Can you give us an example, the
25 name of one of these coalitions that's a regional

1 leader?

2 A The Greater Philadelphia Business Coalition.

3 Q Okay, and were these coalitions put together
4 for the purpose of becoming regional leaders for
5 LeapFrog, or did they preexist?

6 A They preexist. LeapFrog was only a part of
7 what they do.

8 THE REPORTER: They what?

9 THE WITNESS: They preexist, and LeapFrog is
10 only a part of what they do.

11 BY MR. CHUNG:

12 Q So is it fair to say that this is a
13 document, looking at Exhibit 17, that instructs
14 regional leaders how to market the LeapFrog hospital
15 survey?

16 A To hospitals?

17 Q To hospitals.

18 A It's a document that helps regional leaders
19 in getting hospitals to fill out the survey.

20 Q Okay.

21 Now, if you look at page 33 of the document,
22 Bates ending LeapFrog 517, you'll see there there's
23 kind of a table, "Common Objections to Participating
24 in LeapFrog Surveys."

25 Do you see that?

1 A Yes.

2 Q And are you, are you familiar with this
3 chart or this table that runs a few pages long?

4 A I've seen it before.

5 Q Okay. The second objection, right, common
6 objection laid out here is "LeapFrog data is
7 self-reported and therefore unreliable."

8 Are you aware that that's a common objection
9 from hospitals that are being solicited to participate
10 in the survey?

11 A I would say that's less of an objection from
12 hospitals and more from other constituents.

13 Q So at least some hospitals have voiced this
14 objection?

15 A Not that I know of.

16 Q Okay. When you say -- but you said less so
17 from hospitals --

18 A Right.

19 Q -- or from other constituents, so what
20 informs that response?

21 A I don't -- again, I don't talk to hospitals,
22 so I don't know if hospitals have made this complaint.

23 Q Okay. You said "other constituents,"
24 though, have made this complaint or this objection.
25 Who are these other constituents?

1 A Like an employer might say that.

2 Q Okay, an employer. What have you heard kind
3 of along these lines from an employer?

4 A That if the hospital is filling out the
5 survey themselves, so how can you trust that data,
6 because I, if I was giving myself a report card, I
7 would give myself straight As.

8 Q Right, and so what's the -- I know that
9 they're kind of a response here laid out, right, but
10 just kind of based on your experience, what is the
11 response to that, that type of projection?

12 A We do a lot of data verification around the
13 self-reported data, so different data verification, we
14 would look through the survey data, and if there's
15 inconsistencies, we would dig deeper on that.

16 Q Okay. If we turn to the next page, the
17 fifth objection on down, "We believe something on the
18 Survey is not risk-adjusted adequately and/or
19 invalid/unscientific."

20 Do you see that objection?

21 A Yes.

22 Q All right, and is that an objection or a
23 concern that, that hospitals have voiced?

24 A Not that I know of.

25 Q Okay. Other constituents?

1 A I haven't heard this one.

2 Q So you're not familiar with this one?

3 A I'm not.

4 Q Okay, and then -- now, we've got this
5 document, which is pretty comprehensive. Is there --
6 does, does LeapFrog do training of regional leaders on
7 how to approach or try to convince hospitals to
8 participate in the survey?

9 A We have monthly meetings with the regional
10 leaders and talk to them about the hospital survey and
11 encouraging participation.

12 Q Okay. Is there kind of dedicated training
13 to that effect?

14 A Not that I'm aware of.

15 Q Okay, and during these meetings, do the --
16 have you heard from any of the regional leaders about
17 hospitals or other constituents voicing the objections
18 we just went over?

19 A I personally haven't.

20 Q Okay, and what's the -- so in terms of
21 convincing hospitals, these regional leaders
22 convincing hospitals to participate in the survey,
23 right, is there, is there -- kind of in addition to
24 what's laid out in these tables here in the training
25 materials, right, is there training of the regional

1 leaders on how to respond to these types of
2 objections? Earlier I asked more about general
3 training, but focused on dealing with these
4 objections.

5 A I don't know of anything beyond this sort of
6 toolkit.

7 Q Okay.

8 Does LeapFrog pay for -- so those are the
9 regional leaders. Does -- in terms of the other areas
10 of marketing, does LeapFrog view search engine
11 optimization for any of its websites? Are you aware
12 of that?

13 A We just, just started doing SEO optimization
14 in July.

15 Q Okay, and does -- do you pay for -- does
16 LeapFrog pay for SEO for both websites or just one of
17 the websites?

18 A I think it's both websites.

19 Q Okay. Does LeapFrog partner with any
20 journalists or media outlets in anticipation of
21 publishing hospital safety grades when they're
22 published?

23 A We -- I mean we work with our PR firm to
24 reach out to reporters about the safety grade.

25 Q Okay, and generally how many reporters get

1 this reach-out in anticipation of the release?

2 A I don't know an exact number.

3 Q Okay. Does -- as a condition of kind of
4 working with these journalists and media outlets, does
5 LeapFrog embargo the hospital grade results?

6 A We do.

7 Q Okay, and what's the purpose of that?

8 A So we reach out to journalists a few days
9 before the safety grades come out, so they -- and we
10 give them the safety grade and the information so they
11 can write their story and be ready, so it can be
12 released on the day the safety grades come out.

13 Q Okay.

14 The -- so in terms of marketing the hospital
15 safety grades to, to consumers, right, to patients,
16 does monitor -- does LeapFrog monitor web traffic to
17 determine what kind of language attracts or retains
18 the most visitors to the websites?

19 A I don't think we monitor that specifically.

20 Q Okay. In terms of the, not only the content
21 on the websites, right, but other marketing materials,
22 does LeapFrog try to convince patients or consumers
23 that its grading methodology is objective and
24 unbiased? Is that part of the, kind of the pitch to
25 consumers?

1 A Yes, we definitely tell consumers that our
2 information is accurate and transparent.

3 Q Okay. Relatedly, does LeapFrog try to
4 convince consumers that its hospital safety grades are
5 not influenced by a hospital's participation or lack
6 of participation in the survey?

7 A I, I need the question.

8 Q Sure. Does LeapFrog try to convince
9 consumers that the hospital grades are not influenced
10 by whether a hospital participates in the survey?

11 MS. BLAIR: Objection to form.

12 THE WITNESS: Too many negatives in there.

13 BY MR. CHUNG:

14 Q Too many negatives?

15 A I'm not clear on what the question is
16 exactly.

17 Q So do you think that -- is -- when it's
18 marketing to consumers, right, on the websites or in
19 other materials, does LeapFrog try to convince
20 consumers that the hospital grades, right, that it's
21 issuing, that whether a hospital participates in the
22 survey doesn't matter, it doesn't contribute to the,
23 to the hospital's grade?

24 MS. BLAIR: Objection to form.

25 THE WITNESS: We don't normally talk about

1 whether or not a hospital participates when we
2 are posting a safety grade.

3 BY MR. CHUNG:

4 Q Okay. I guess going back to the two
5 websites, why does, why does LeapFrog have two
6 websites, right, where you can search for your
7 hospital, right? Why is that?

8 A We are a very small nonprofit with a very
9 limited budget, and the original website we had didn't
10 have the capability to have the safety grades on it,
11 so we had to set up another website.

12 Q Okay. Does, does LeapFrog earn more revenue
13 by marking the grades on two separate websites? Is
14 this kind of an economies of scale thing?

15 A No.

16 MR. CHUNG: No? Okay. Let's go to another
17 document, tab 42. This will be Exhibit 18.

18 (Exhibit 18 was marked for
19 identification.)

20 BY MR. CHUNG:

21 Q Okay. So Ms. Jupiter, this is from the
22 hospitalsafetygrade.org website, right, that we just
23 looked at, and if you go to -- first of all, are you
24 familiar with this kind of section of the website,
25 "How to Use the Grade"?

1 A I'm familiar with it.

2 Q Okay, and what's the purpose of this
3 particular section?

4 A So that consumers know how to use the safety
5 grade.

6 Q Okay. Let's go to -- if you go to page 4 of
7 this particular PDF, under the "What about past
8 grades" question, there's a sentence in that second
9 paragraph, "Displaying past rates makes it clear which
10 hospitals consistently achieve high standards of
11 patient safety and which have demonstrated a steady
12 path of improvement." Then next is "patients should
13 always decide on where to receive care based on a
14 hospital's current Safety Grade."

15 Do you see that?

16 A Yes.

17 Q Okay. So is the message to consumers that
18 visit the site that a drop, right, a downgrade in a
19 hospital's safety grade means that they should not go
20 to that hospital?

21 A No.

22 Q Okay. What, what does, what does this mean
23 then?

24 A That you should decide on where you go based
25 on what the current safety grade is.

1 Q Okay, but if a consumer sees that a
2 hospital's safety grade has gone down, right, either
3 from year to year or over, over time, is LeapFrog
4 telling the consumer through these -- through the
5 website that the hospital's become more dangerous? Is
6 that part of the message here?

7 MS. BLAIR: Objection to form.

8 THE WITNESS: It's saying that the hospital
9 is less safe than it was the last time we issued
10 the higher safety grade.

11 BY MR. CHUNG:

12 Q Okay. That's the message that's intended
13 for the consumer, correct?

14 A Correct.

15 Q Okay. So does that -- does this language
16 and that message then signal to the consumer that they
17 should be more cautious about visiting a hospital
18 whose grade has gone down?

19 A It's not necessarily whether it's gone up or
20 down; it's what is the current grade.

21 Q Okay, but I think your earlier testimony --
22 your earlier response to my earlier question is that
23 if, if a hospital's grade has gone down, right, from
24 year to year over a period of time, it's the message
25 to consumers that it's become less safe, right?

1 A Correct.

2 Q Right. So my next question was: Does that
3 also mean that the consumer, if they see that pattern,
4 right, the downgrade pattern, should be more cautious
5 about visiting a hospital with that type of pattern?

6 A The safety grade is only a portion of what
7 you should look at when you're deciding what hospital
8 you should visit.

9 Q Okay, but the sentence here, again on this
10 website, is "patients should always decide on where to
11 receive care based on a hospital's current Safety
12 Grade," right?

13 A Correct.

14 Q "Always," and I'm focusing -- well, I don't
15 need to focus. The word is "always decide on where to
16 receive care based on a hospital's current safety
17 grade."

18 A The important part of that sentence is the
19 word "current."

20 Q Okay.

21 A That's what it's saying. This is about
22 past, present, so it's saying the current safety grade
23 is more important than a past safety grade.

24 Q Okay. Can you explain that further why the
25 "current," that that language is important here?

1 A If my son had an A in math last year and he
2 has a B in math this year, I'm more concerned about
3 the B this year, and he needs to work on his testing
4 this year. It doesn't matter that he had an A last
5 year. He has a B this year.

6 Q Okay.

7 A I'm not saying my son is more stupid than he
8 was last year.

9 Q Okay. You know what? We're not going to --
10 we're not going to work with that analogy. We're
11 going to -- why don't we move on to the next sentence,
12 the rest of the paragraph, right?

13 It continues, "However, past grades can tell
14 you a lot about that hospital's track record in
15 keeping its patients safe from errors, injuries,
16 accidents and infections," right? "Keeping an eye on
17 your local hospital's safety grades over time also
18 makes it easier to spot patterns -- whether a hospital
19 is working to improve or has allowed its focus on
20 safety to slip."

21 So is this -- is the messaging to consumers
22 here that they should basically monitor a hospital's
23 safety grade for whether it, whether it goes down over
24 a period of time?

25 A Yes. We want you to keep an eye on your

1 hospital's safety grade.

2 Q Okay, and if, over time, their hospitals or
3 the one they're looking at, their safety grade goes
4 down over a period of time, I think it was your
5 testimony earlier that they should be -- that should
6 be a signal to the consumer that that hospital is less
7 safe, correct?

8 MS. BLAIR: Objection to form.

9 THE WITNESS: Can you ask it a different
10 way?

11 BY MR. CHUNG:

12 Q Sure. Is it -- is the part of the messaging
13 here, right, that if a consumer observes a hospital's,
14 their particular hospital's safety grade going down
15 over time, that that should signal to them that that
16 hospital is less safe?

17 A Correct.

18 Q Okay.

19 Let's go to the previous page, page 3.

20 There's a section "What measures are most important?"

21 Do you see that?

22 A Yes.

23 Q And the first bullet point there is -- here
24 we see the handwashing again -- "Does your hospital
25 have a handwashing policy to ensure all staff members

1 are washing their hands before and after patient
2 contact?"

3 Do you see that bullet point there?

4 A Yes.

5 Q Okay, and I think we you saw earlier that,
6 in fact, handwashing or hand hygiene was one of the
7 imputed metrics, correct?

8 A Correct.

9 Q And this handwashing or hand hygiene was one
10 of the imputed metrics, where, if a hospital didn't
11 respond to the survey, they automatically would be
12 assigned the lowest grade possible for handwashing; is
13 that correct?

14 MS. BLAIR: Objection to form.

15 THE WITNESS: Correct.

16 BY MR. CHUNG:

17 Q Okay. So here on the website, LeapFrog --
18 is it correct that LeapFrog is telling consumers that
19 one of the most important measures they should
20 consider when choosing a hospital is handwashing,
21 correct?

22 A Correct. You want your doctor to have clean
23 hands.

24 Q Okay, but is it disclosing anywhere here
25 that LeapFrog automatically gives nonparticipating

1 hospitals the lowest grade possible for hand hygiene?

2 A It would be on that hospital's site, on
3 their safety grade site.

4 Q Okay, but it's not disclosing it here in
5 this section, correct?

6 A There's no reason to disclose it here.

7 Q But it's not is my question.

8 A It also doesn't say my son got an A in math
9 here either.

10 MR. CHUNG: All right. Why don't we move on
11 to tab 43. This will be Exhibit 19.

12 (Exhibit 19 was marked for
13 identification.)

14 MS. BLAIR: And none of these are
15 Bates-labeled. They're coming right off the
16 website. Is that why?

17 MR. CHUNG: That's right.

18 MS. BLAIR: Okay. Just making sure.

19 BY MR. CHUNG:

20 Q All right. You have Exhibit 19 in front of
21 you. This is also taken from the hospital safety
22 grade website. The section is entitled "Choosing the
23 Best Hospital."

24 Are you familiar with this section of the
25 website?

1 A No, but I, I don't -- we have hundreds,
2 thousands of pages. I don't know every page on the
3 website.

4 Q Okay. There are hundreds of thousands of
5 pages on the website?

6 A No. There's hundreds, comma, thousands.
7 I'm sure there's thousands of pages on our website.

8 Q Okay. So the -- this tells -- this section,
9 the second paragraph, tells consumers, right, that
10 choosing a hospital could be a life, "a life or death
11 decision."

12 Do you see that first sentence in the second
13 paragraph?

14 A Yes.

15 Q Okay. What is the purpose of that
16 particular message to the consumer?

17 A It's important the hospital that you choose.

18 Q Okay. Is the message -- is this message,
19 "your choice of hospital could be a life or death
20 decision," is it designed to scare consumers?

21 A Not to scare consumers, but for them to
22 understand that it's an important decision.

23 Q Okay. Does LeapFrog expect consumers not to
24 be scared when they read something like that?

25 MS. BLAIR: Objection to form.

1 THE WITNESS: We want them to know that it's
2 an important decision.

3 BY MR. CHUNG:

4 Q Okay. Is, is this messaging designed to
5 encourage consumers to use the hospital safety grades
6 when choosing a hospital?

7 A Yes.

8 MR. CHUNG: Okay. Let's go to tab 44, which
9 will be Exhibit 20.

10 (Exhibit 20 was marked for
11 identification.)

12 BY MR. CHUNG:

13 Q Okay. This also -- we're just continuing
14 with various sections from the hospital safety grade
15 website. This one is entitled "FAQs About the
16 LeapFrog Hospital Safety Grade."

17 Are you familiar with this, the FAQ section
18 of the website?

19 A Yes.

20 Q Okay, and now, if we look at page 2 of the
21 document, in that middle paragraph there, there's a
22 sentence, "Johns Hopkins Medicine researchers estimate
23 that patients are twice as likely to die of a
24 preventable problem at a C, D or F hospital than an A
25 hospital."

1 Do you see that?

2 A Yes.

3 Q Have you reviewed or seen any research from
4 Johns Hopkins Medicine researchers to this effect?

5 A I haven't, no.

6 Q Okay. Similar question: I mean is this
7 message designed to scare consumers away from visiting
8 hospitals with C, D or F safety grades?

9 MS. BLAIR: Objection to form.

10 THE WITNESS: It's to encourage hospitals
11 to attend -- patients to attend the safest
12 hospital possible.

13 BY MR. CHUNG:

14 Q What do you want by "safest hospital
15 possible"?

16 A We say that an A hospital is safer than an F
17 hospital.

18 Q Okay, and so by extension, this message is
19 to basically discourage consumers from going to a C, D
20 or F hospital, right, because the claim here is that
21 they're likely to die of a preventable problem if they
22 go to one of these hospitals, correct?

23 MS. BLAIR: Objection to form.

24 THE WITNESS: They're not likely to die;
25 They're more likely to die.

1 BY MR. CHUNG:

2 Q Right, but my question is: Is the message
3 designed here to discourage consumers from going to
4 these types of hospitals?

5 A To going to low-grade hospitals, yes.

6 Q Yeah, C,D, or F hospitals in particular,
7 correct?

8 A As opposed to an A or B hospital --

9 Q Yep.

10 A -- yes.

11 Q Okay. Does LeapFrog want consumers to think
12 that visiting a hospital with a C, D, or F grade could
13 seriously injure or even kill them? Is that part of
14 the message here?

15 A Yes.

16 Q Okay, and is the messaging here designed to
17 encourage consumers to use the hospital safety grades
18 when choosing a hospital?

19 A Yes.

20 Q So the -- if you look at the next page, so
21 page 3 of the same document, in bold it says here,
22 "Does a hospital get a better Safety Grade if it
23 reports to the LeapFrog Hospital Survey," right, and
24 part of the response there is "the Hospital Safety
25 Grade reflects how well a hospital does on safety, not

Page 253

1 whether they complete the LeapFrog Hospital Survey."

2 Do you see that?

3 A Yes.

4 Q Okay, but is that true?

5 A Yes.

6 Q Okay, but if a hospital does not complete
7 the survey, it automatically receives the lowest score
8 on the four imputed metrics, right?

9 A Correct.

10 Q Okay, and that's without the benefit of any
11 data on those four metrics, correct?

12 A Correct.

13 MS. BLAIR: Objection to form.

14 BY MR. CHUNG:

15 Q Okay. So how is this particular statement
16 true, that "The Hospital Safety Grade reflects how
17 well a hospital does on safety, not whether they
18 complete the LeapFrog Hospital Survey"?

19 A There are hospitals who don't complete the
20 survey that get As and Bs.

21 Q Okay. Well, we're not -- okay. So there
22 are that set of hospitals, but when we're looking at
23 the hospitals that don't participate in the survey,
24 right --

25 A Correct.

1 Q -- and are automatically downgraded to the
2 lowest possible score on the four imputed metrics,
3 does that -- does the resulting grade reflect how well
4 that hospital does on safety?

5 A Yes. Those four imputed metrics are only a
6 portion of the hospital safety grade.

7 Q Right.

8 A So you can still not complete the survey and
9 get an A if those other measures are good.

10 Q Okay. So you're saying that in -- there
11 are -- that hospitals somehow can make up for the
12 lowest score that they get on those -- the automatic
13 lowest scores that they get on those four imputed
14 metrics?

15 A The --

16 MS. BLAIR: Objection to form.

17 THE WITNESS: The four imputed measures are
18 only a portion of the score, so we have data for
19 the rest of that score. If your data on the rest
20 of the score shows that you're a safe hospital,
21 then you will get an A.

22 BY MR. CHUNG:

23 Q Right. You'll automatically get an A?

24 A Not automatically. It depends on how well
25 you perform. These hospitals we're talking about are

1 terrible hospitals. If you're a good hospital and a
2 safe hospital, you will get an A.

3 Q Okay, and what, what is that -- what is that
4 based on? What, what is your -- what, what is that
5 kind of conclusion based on, that if you're good and a
6 safe hospital, you will -- I think you said you will
7 automatically -- you will get an A. Not
8 automatically, you will get an A.

9 What is that, what is that based on?

10 A The hospital safety grade is based on
11 information from CMS, and then if we don't have that
12 information, we impute the score. If the information
13 we get from CMS shows that you are a safe hospital,
14 you will get a good grade.

15 Q I think you said that you'll get an A,
16 right?

17 A I said you can get an A.

18 Q Okay, but at least for those four imputed
19 metrics, right, that's -- the score given to those
20 hospitals on those four imputed metrics is without the
21 benefit of any data, correct? It's just an automatic
22 assigning of the lowest, of the lowest grade, correct?

23 A No, you're not getting graded on those four
24 metrics. Those metrics go into the grade. There's
25 one grade based on all this information.

1 Q Ms. Jupiter, how can you say that those
2 hospitals, those nonparticipating hospitals are not
3 being graded on those four imputed metrics when we saw
4 on the website, Delray being an example, right, that
5 they are -- that they're assigned the lowest possible
6 score on those four -- if you can let me finish -- on
7 those four imputed metrics?

8 A A score is not a grade. You get one grade
9 based on all the different metrics. You're not
10 getting a grade on hand hygiene. You're getting a
11 score on hand hygiene that rolls up into the grade.

12 Q I understand that, and I think, just as you
13 testified, it rolls up those four imputed metrics,
14 right? The scores on those imputed metrics roll up
15 to, they contribute, they factor into what ultimately
16 becomes the end product, the health [sic] safety
17 grade, correct?

18 A It's the hospital safety grade.

19 Q Hospital safety grade. I will eventually
20 get that right by the end. Hospital safety grade,
21 correct?

22 A Correct.

23 Q Okay. All right. Let's go into another
24 section here.

25 What -- are there any processes that

1 LeapFrog has in place for collecting or soliciting
2 consumer patient feedback regarding --

3 A Yes.

4 Q -- regarding its scoring methodology and the
5 safety grades?

6 A We have a patient and family caregiver
7 panel, and that's how we receive feedback from
8 patients.

9 Q Okay, and that is dedicated to patients or
10 patients' families; is that right?

11 A Correct.

12 Q All right.

13 Has LeapFrog received consumer or patient
14 feedback specifically criticizing or questioning the
15 accuracy or fairness of its safety grades?

16 A Not that I know of.

17 Q Okay. Does LeapFrog have any policies or
18 guidelines on how consumer feedback is considered or
19 incorporated into its scoring methodology?

20 A We -- I'm not an expert on the methodology.
21 I know we receive HCAHPS scores, we receive the HCAHPS
22 scores from CMS, which is patient feedback on
23 hospitals.

24 Q Has LeapFrog ever received any feedback from
25 patients or consumers that the safety grades are

1 misleading?

2 A Not that I know of.

3 Q Okay, or that they're confusing?

4 A Not that I know of.

5 Q Okay, or that they have led to negative
6 health or hospital selection decisions?

7 A Not that I know of.

8 Q Okay.

9 Are you aware of any instances in which
10 patients or members of the public have reported
11 delaying or just foregoing altogether necessary
12 medical care as a result of relying on the hospital
13 safety grades?

14 A Not that I know of.

15 Q Okay. Are you aware of any instances in
16 which patients or members of the public have
17 transferred to a hospital that they would have
18 previously avoided based on LeapFrog's safety grade?

19 A Transferred to a hospital they would have
20 avoided?

21 Q Well, let me put it another way. Have you
22 heard of any instances where patients or members of
23 the public have transferred to a hospital, right, made
24 a different -- transferred to a -- from one hospital
25 to another based on what they read in the hospital

1 safety grade?

2 A Transferred?

3 Q Yes.

4 A No.

5 Q Okay.

6 Has LeapFrog analyzed or conducted any
7 studies regarding increased travel time prompted by
8 safety grades, by hospital safety grades?

9 A Not that I know of.

10 Q Have you heard of any instances where,
11 because of a decision by a patient to get care or get
12 admitted to a hospital that's farther, right, from
13 their more -- from their most immediate hospital based
14 on a hospital safety grade as contributing to a
15 negative outcome?

16 A I don't understand the question.

17 Q Sure. Have you, have you heard of any
18 instances where a, a patient has traveled to a
19 hospital that's further away, right, than the hospital
20 that's closest to them because of the safety --
21 hospital safety grade they saw for the hospital that's
22 closer to them?

23 A Not a specific incident.

24 Q Okay.

25 Has LeapFrog ever issued a correction or a

1 clarification of a hospital safety grade after
2 learning that a specific grade may have misrepresented
3 a hospital's actual safety or quality of care?

4 A Not that I'm aware of.

5 Q Okay.

6 Has LeapFrog ever considered or studied any
7 potential public health risks from publishing hospital
8 safety grades for hospitals where it lacks sufficient
9 or reliable data?

10 A Not that I'm aware of.

11 MR. CHUNG: Let's go to tab 23. We'll mark
12 this as Exhibit 21.

13 (Exhibit 21 was marked for
14 identification.)

15 BY MR. CHUNG:

16 Q Ms. Jupiter, this is Exhibit 21 taken from
17 the LeapFrog HelpDesk. Just give it a read.

18 (Witness peruses document.)

19 BY MR. CHUNG:

20 Q Have you seen this kind of comment from the
21 HelpDesk before?

22 A No. I have nothing to do with the HelpDesk.

23 Q Okay. Who, who oversees the HelpDesk?

24 A Missy Danforth.

25 Q Okay, and is this a, is this like a portal

1 on one of the websites or some email address? How is
2 the HelpDesk accessed?

3 A I don't know.

4 Q All right. So we'll go into kind of
5 substance of, of the report here.

6 The commenter writes that they're
7 "disappointed with the 2024 proposed changes," that
8 they "will penalize hospitals that do not submit a
9 LeapFrog Survey," and "the public will not understand,
10 nor dig into the methodology of these grades," and
11 then "hospitals will be falsely represented with a
12 lower grade, because they chose to not complete a
13 survey."

14 Does this -- is this a feedback to the
15 change in the imputation methodology that you've heard
16 before, maybe not from the HelpDesk, from other
17 sources?

18 A Not outside this lawsuit.

19 Q Okay, so this is the first time -- again,
20 outside this lawsuit, this is the first time you're
21 seeing any sort of feedback along these lines?

22 A Yes.

23 Q Okay. The commenter goes on, "The survey is
24 extremely time-intensive, and, in a time when
25 hospitals are barely breaking even financially, they

1 do not have the resources to commit to this survey."

2 So there's -- this is a comment on the
3 resource and the time it takes to fill out the survey.

4 Is this a concern or feedback that you've
5 heard of before?

6 A I don't communicate with hospitals. I have
7 not heard that.

8 Q The, the question is: Have you heard of
9 the -- heard this feedback before?

10 A No.

11 MR. CHUNG: Okay. Let's go to tab 24, which
12 will be Exhibit 22.

13 (Exhibit 22 was marked for
14 identification.)

15 BY MR. CHUNG:

16 Q Okay. So this is dated -- it's a document,
17 at least across the top, "Planned Updates to the
18 LeapFrog Hospital Safety Grade Methodology for Fall of
19 2024," and this is from June 6 of 2024.

20 Do you recognize this document or at least
21 the format of the document?

22 A No.

23 Q Okay. Are you aware that in conjunction --
24 in the process of updating the, the safety grade
25 methodology, that there was public comment that was

1 collected?

2 A Yes.

3 Q Okay, and does this, does this look like
4 some of the public comment that was collected in
5 response to the --

6 A I didn't receive any of the public comment.

7 Q Okay. Well, let's go to the second page,
8 kind of the last piece of this document.

9 The commenter here, Alana Noble, writes that
10 that the "Fall 2024, the Step 2 imputation," right,
11 which we -- do you see the -- so it starts, "We
12 strongly disagree with the proposed Fall 2024 Step 2
13 imputation."

14 Do you understand what she's referring to
15 there?

16 A Yes.

17 Q Yes? Okay.

18 If LeapFrog is going to implement this
19 change, they need to offer hospitals an option to opt
20 out of being graded rather than penalize a hospital
21 for not submitting the resource-intensive survey,
22 okay?

23 So have you heard or seen this feedback --
24 again, outside of this lawsuit -- in connection with
25 what then was the proposed as the plan change in the

1 methodology?

2 A No.

3 Q No? So nothing? You've never heard of any
4 feedback that this imputation -- change in the
5 imputation methodology is going to unfairly penalize
6 nonparticipating hospitals?

7 A No.

8 Q Okay. The commenter goes on to write, "The
9 survey is very resource-intensive outside of existing
10 regulatory, quality operations, and quality
11 improvement efforts," and it goes on to say the
12 "hospitals who do not have the resources should not be
13 so adversely punished, especially in the post-COVID
14 area where resources are increasingly hard to come by
15 and retain."

16 Again, same question: Have you heard -- did
17 you hear of this type of feedback in conjunction with
18 the plan change in the methodology?

19 A No.

20 Q Okay. Again, taking your testimony that
21 you've never heard this, at least the substance of
22 this type of feedback before, what's your reaction
23 to -- let's start with the first sentence here, right,
24 that patients or nonparticipating hospitals are being
25 unfairly penalized by, by not responding to the

1 survey.

2 A What's the question?

3 Q What's your reaction to that feedback? Is
4 it a, is it a fair criticism or reaction or unfair?
5 Let's put it that way.

6 A We want hospitals to make a commitment to
7 accuracy and transparency, and so we encourage them to
8 fill out the survey so that we have that information,
9 and it might be work to them, but that's part of a
10 commitment to patient safety.

11 Q Okay, and the second part of the, the
12 comment here that the survey is very "resource-
13 intensive outside of existing regulatory, quality
14 operations, and quality improvement efforts," and it
15 goes on to say that hospitals don't have some of these
16 resources to do the survey annually.

17 Again, what is your reaction to it? Is it a
18 fair or unfair reaction to the, to the change in
19 methodology here?

20 A If a hospital is committed to patient safety
21 and saving lives, then they will make the resources to
22 fill out the survey.

23 Q Okay. So it is -- and if they don't fill
24 out the survey, they're not committed to patient
25 safety? Is that, is that the -- is that the message

1 here?

2 A Yes.

3 Q Okay, and that's your, that's your position
4 with respect to this feedback?

5 A Yes.

6 Q Okay, and that is, and that is -- even if
7 the hospital has world class patient safety programs
8 in place, your position is that if they're not
9 responding to the survey, they are not committed to
10 patient safety?

11 MS. BLAIR: Objection to form.

12 THE WITNESS: If a hospital has world class
13 patient safety programs in place, they are
14 filling out the survey.

15 BY MR. CHUNG:

16 Q And what's the basis for that statement?

17 A Because transparency is part of having a
18 world class patient safety program.

19 Q And is that, is that based on kind of your
20 observations? Like what is that -- what, what
21 evidence is that based on? Have you seen that from
22 hospitals generally?

23 A I have never heard of a hospital with world
24 class patient safety that does not fill out the
25 survey.

1 MR. CHUNG: Okay. Let's go to the next
2 document, tab 25. This will be Exhibit 23.

3 (Exhibit 23 was marked for
4 identification.)

5 BY MR. CHUNG:

6 Q Ms. Jupiter, the format of this is similar
7 to what we saw earlier. I'm going to ask you to focus
8 on really the end, the last few sentences of the
9 document from the commenter Zubin Momin, and -- Zubin
10 Momin, and under "Imputation Step 2 Model," the
11 commenter writes, "We feel like this model is
12 unnecessarily punitive. We often skip survey
13 submission because the responses provided for IPS,
14 Hand Hygiene, BCMA and CPOE are largely unchanged in
15 the two-year period that was allotted before
16 negatively impacting grades."

17 Is that a, kind of a comment or feedback
18 that you're familiar with in response to the change in
19 methodology?

20 A I don't know, no.

21 Q What is your reaction? Is that kind of a
22 fair or unfair reaction?

23 MS. BLAIR: Objection to form.

24 THE WITNESS: I don't have an opinion on it.
25

1 BY MR. CHUNG:

2 Q Okay. You had an opinion on the previous
3 comment. Why don't you have an opinion on this one?

4 A I don't know enough about survey submission
5 specifics for IPS, Hand Hygiene, BCMA or CPOE.

6 Q Okay. Well, if the -- if a hospital's
7 previous responses to the survey for these four
8 metrics, right, were largely unchanged in the
9 preceding two years, right, is this commenter's -- is
10 this commenter kind of being fair in saying that they
11 can often skip a submission?

12 A I don't know enough about the imputation.

13 Q You don't know enough about the -- I'm
14 sorry.

15 A The imputation model.

16 Q Okay, in order to assess whether this is a
17 fair reaction?

18 A Correct.

19 Q Okay. The, the commenter goes on, "The FTE
20 resource commitment to complete the survey is already
21 significant. There is no value added by completing a
22 survey every year or every other year when practices
23 in our hospitals have not changed."

24 The commenter is saying here, where the
25 practices at a hospital have not changed, right, and

1 where they have made submissions, where they responded
2 to the survey in previous years, that the change in
3 the imputation model unnecessarily punishes
4 nonparticipating, nonparticipating hospitals; do you
5 see that as a fair reaction to the change in the
6 imputation methodology?

7 MS. BLAIR: Objection to form.

8 THE WITNESS: I can't really comment on if
9 it's fair or unfair.

10 BY MR. CHUNG:

11 Q Okay. What additional information would you
12 need?

13 A I'd need to understand exactly what they
14 mean by how much time is significant. I don't
15 understand if they -- what they mean by it hasn't
16 changed, because things change over time. I don't
17 even know what hospital this is. I don't know what
18 their grades are. I don't know anything about their
19 survey submissions.

20 Q Okay, but I think in your responses to the
21 previous questions for the other comments, you said
22 that if a hospital is committed to patient safety,
23 they will respond to the survey, correct?

24 A Correct.

25 Q All right. So is there something about this

1 particular -- something about this comment that --
2 where you can't take the same position?

3 A I would take the same position. If this
4 hospital is committed to patient safety, they will
5 fill out the survey.

6 Q Okay. So your answer is here basically the
7 same as with the other comments, correct?

8 A Yes.

9 MR. CHUNG: Okay. Let's go to the next one,
10 26, tab 26.

11 (Exhibit 24 was marked for
12 identification.

13 BY MR. CHUNG:

14 Q All right. This is a letter comment from
15 basically the Ascension kind of network of hospitals
16 from June of 2024. It's submitted to LeapFrog
17 HelpDesk.

18 Are you familiar with -- have you seen this
19 particular document?

20 A No.

21 Q Okay, and you'll see -- I want to focus on
22 the bottom paragraph of the first page. It reads,
23 "Ascension cannot support LeapFrog's proposed update
24 and strongly encourages LeapFrog to refrain from
25 implementing it."

1 Are you familiar with Ascension?

2 A No.

3 Q Okay. "We fundamentally believe that the
4 Hospital Safety Grade and the Hospital Survey should
5 remain separate; the Survey should not affect the
6 grades," and "we believe that is not in the best
7 interest of public policy, as not all hospitals have
8 the information and/or capabilities to complete the
9 Hospital Survey. Further, we believe it is
10 unreasonable for an optional survey to have such a
11 significant impact."

12 What is your reaction to this comment?

13 A I don't know enough about how the survey
14 impacts the grade and what they mean by remaining
15 separate to understand this.

16 Q Well, Ms. Jupiter, I mean we've gone over
17 this. You do know and you have testified that, that
18 according to the change in the imputation methodology,
19 right, that nonparticipating hospitals now are
20 automatically assigned the lowest, lowest possible
21 grade for the four imputed metrics, correct?

22 A No, they do not get a grade for the metrics.

23 Q The scores, right? They get the lowest
24 possible scores for those four metrics, correct?

25 A Correct.

1 Q Okay, and isn't that what this commenter is
2 referring to?

3 A Isn't what? I don't understand the
4 question.

5 Q That, that the survey should not affect the
6 grades, that nonparticipation in the survey should not
7 affect the grades.

8 A That's what they're saying, yes.

9 Q Okay, and so when he writes that "this is
10 not in the best interest of public policy," what is
11 your reaction to that?

12 A I disagree.

13 Q Okay, and why do you disagree?

14 A Because we want hospitals to share their
15 patient safety information with consumers.

16 Q Okay, and the way to -- the way that
17 LeapFrog has determined to do that is to, is to punish
18 nonparticipating hospitals by assigning them the
19 lowest score possible on those imputed metrics,
20 correct?

21 MS. BLAIR: Objection to form.

22 THE WITNESS: I don't understand your
23 question.

24 BY MR. CHUNG:

25 Q Well, your testimony has been, and you've

1 repeated it a number of times, that, that hospitals --
2 if hospitals are committed to patient safety, they
3 will respond to the survey, correct?

4 A Correct.

5 Q We've read a number of comments and feedback
6 from -- in this case, a hospital -- that they think
7 that that change, the change of methodology is unfair,
8 correct?

9 A Correct.

10 Q Right, and that it unfairly penalizes
11 nonparticipating hospitals, correct?

12 A Correct.

13 Q All right, and so wasn't the purpose of
14 changing this methodology to basically encourage
15 hospitals to participate in the survey?

16 A Yes.

17 Q Okay, because if they did not participate in
18 the survey, they were in jeopardy of receiving a lower
19 overall hospital safety grade, correct?

20 A They would get a lower score on those
21 imputed metrics.

22 Q Right, which, in turn, would at least raise
23 the risk of getting a lower overall hospital safety
24 grade; would that be a fair characterization?

25 A Yes.

1 Q This final sentence on the comment in the
2 letter, "Further, we believe it is unreasonable for an
3 optional survey to have such a significant impact."

4 Do you agree with that statement?

5 A No.

6 Q Do you agree that this is an optional --
7 that the survey, LeapFrog's hospital survey is an
8 optional survey?

9 A Yes.

10 Q Okay. Has the change in the imputation
11 methodology -- would you agree that the change in
12 imputation methodology has basically converted
13 LeapFrog's survey from an optional one to a compulsory
14 one?

15 MS. BLAIR: Objection to form.

16 THE WITNESS: No.

17 BY MR. CHUNG:

18 Q No? Why not?

19 A What's the question?

20 Q The question is: How has -- so where, where
21 hospitals will receive, right, a lowest possible score
22 on the four imputed metrics -- and again we discussed
23 this earlier -- that raised the risk of getting a
24 lower overall health -- hospital safety grade, doesn't
25 this -- doesn't that change in methodology essentially

1 make the survey effectively a required one, one that
2 hospitals have to fill out?

3 A No.

4 MR. CHUNG: No? Okay. Let's go on to the
5 next document, tab 27. This will be Exhibit 25.

6 (Exhibit 25 was marked for
7 identification.)

8 BY MR. CHUNG:

9 Q All right, Ms. Jupiter, this is a similar
10 format to the feedback on the change to imputation
11 methodology. If I could direct your attention to the
12 last kind of message coming from a Susan Boardman at
13 the end here.

14 Do you see that?

15 A Yes.

16 Q Okay. I'm sorry about the size of the font
17 here.

18 "The proposed changes to the Imputation
19 Method would result in an inaccurate portrayal of the
20 actual status of the patient safety structures and
21 processes in place for the LeapFrog grade measures
22 CPOE, BCMA, IPS and Hand Hygiene at hospitals that
23 choose not to expend the resources to submit" the
24 hospital survey for both 2024 and 2023.

25 It goes on to describe what the Step 2 of

1 the imputation methodology prescribes, right?

2 What is your reaction to the first sentence
3 in this comment?

4 A I disagree.

5 Q Why do you disagree? Why do you disagree
6 that the change in the imputation methodology would
7 result in an inaccurate portrayal of the actual status
8 of the patient safety structures and processes at a
9 particular hospital?

10 A Because I don't think it's inaccurate.

11 Q Okay. Why don't you think it's inaccurate?

12 A Because LeapFrog data is accurate.

13 Q Because LeapFrog data is accurate?

14 A Correct.

15 Q I'm not understanding. What LeapFrog data
16 are you referring to?

17 A The hospital safety grade.

18 Q So the hospital, the hospital safety grade
19 is accurate?

20 A Correct.

21 Q Okay, and in the absence of -- and in the
22 absence of hospital survey data, right, how do you
23 explain that that hospital safety grade is accurate?

24 A It is based on the data that we have. The
25 imputed metrics are just a small portion of what goes

1 into the safety grade.

2 Q Okay.

3 Now, you've testified earlier kind of in the
4 first half of our deposition that you're not really
5 familiar with how the imputation methodology works,
6 and you're not familiar with how the hospital safety
7 grades are arrived at.

8 So how are you able to make these kind of
9 conclusory statements now that, number one, that the
10 hospital safety grades are accurate?

11 A I work for a nonprofit that's committed to
12 patient safety and saving lives. Obviously, I think
13 our data is accurate.

14 Q Okay, so by virtue of just being a member of
15 the organization, you're confident that the, that
16 the -- you're calling it the "data," but the hospital
17 safety grade is accurate?

18 A Correct.

19 Q Okay, and do you have any -- can you point
20 to any, anything empirical that supports that?

21 A That supports that LeapFrog's safety grades
22 are accurate?

23 Q Yes.

24 A Everything we do at LeapFrog is around
25 accurate data.

1 MR. CHUNG: Okay. This will be Exhibit 26.
2 (Exhibit 26 was marked for
3 identification.)

4 BY MR. CHUNG:

5 Q All right. This is an -- Exhibit 26 is an
6 email chain where I think you're at least copied from
7 October of 2023. Just take some time to review it.
8 Let me know if you recognize it.

9 A I don't recognize it.

10 Q Okay. Well, let's start with the first
11 email in the chain.

12 It comes from a Lula Hailesilassie at CURA
13 Strategies, the PR firm that you've testified about,
14 and she writes to the team here that she "wanted to
15 flag a story released this morning regarding
16 St. Luke's Hospital in Kansas City. An ex-employee
17 exposed the hospital's rusty and damaged equipment
18 that is being used on patients and how the hospital is
19 extremely dangerous," and that this article mentions
20 that St. Luke Hospital "received an A grade for the
21 spring 2023" cycle, and that "this is a similar issue
22 to Bayonet Hospital but without national press."

23 And then you'll see that Ms. Bailey, Lauren
24 Bailey writes, a couple emails above, "Just following
25 up that they are receiving an A again for Fall 2023,"

1 right, for this particular St. Luke Hospital.

2 After going through kind of this email, does
3 it jog your memory as to what's being discussed here?

4 A No. I don't remember the specific instance.

5 Q Okay. So, so basically this story is, is
6 about -- is, is describing an extremely dangerous
7 hospital, St. Luke's Hospital, that received an A
8 grade, right, for spring 2023, despite using rusty and
9 damaged equipment; is that correct?

10 MS. BLAIR: Objection to form.

11 THE WITNESS: Correct.

12 BY MR. CHUNG:

13 Q Okay, and then the CURA Strategies
14 representative writes that there's a "similar issue"
15 at another hospital, correct, at the Bayonet Hospital?

16 A Yes.

17 Q Okay. Does the Bayonet Hospital -- does
18 that ring a bell?

19 A It doesn't.

20 Q Okay. So it seems here that this is not a
21 one-off issue for certain hospitals getting high
22 grades for potential unsafe hospitals; is that fair to
23 say?

24 MS. BLAIR: Objection to form.

25 THE WITNESS: They're -- they talk about two

1 hospitals, yeah.

2 BY MR. CHUNG:

3 Q Okay, and then this hospital, the St. Luke's
4 Hospital, the extremely dangerous one, according to
5 the story, with the rusty and damaged equipment is,
6 according to Ms. Bailey, receiving an A again for this
7 next cycle in fall 2023, correct?

8 A Yes.

9 Q Okay. Do these sorts of -- do these sorts
10 of reports figure into the grading for, for hospitals?

11 A What sorts of reports?

12 Q The reports that we -- that are described in
13 this email chain.

14 A I don't see a report.

15 Q Well, a news article, this press coverage.

16 A I don't think press coverage fits into the
17 safety grade.

18 Q Okay. So health -- the hospital safety
19 grades are issued notwithstanding press reports like
20 these?

21 A Correct.

22 Q Are you aware of any situations where
23 LeapFrog's hospital safety grades have let -- have
24 conflicted with other ratings or accreditations or
25 even regulatory findings for certain hospitals?

1 A Our safety grades are focused solely on
2 safety in a hospital, and there's no other ratings
3 that focus solely on safety.

4 Q So my question is: Are you aware of any
5 situations or cases where LeapFrog's hospital safety
6 grades have conflicted with or are inconsistent with
7 ratings by other agencies or organizations or
8 accreditations or regulatory findings, government
9 findings?

10 A There's no apples-to-apples way to compare
11 that -- the safety grade versus a list of good
12 hospitals in D.C.

13 MR. CHUNG: Okay. Let's turn to 1029. This
14 is Exhibit 27.

15 (Exhibit 27 was marked for
16 identification.)

17 BY MR. CHUNG:

18 Q All right. So this is an email chain from
19 February of 2023, and if you look at the first in the
20 chain, it's from Elizabeth Harmon, who is listed here
21 as a senior communication specialist for LeapFrog.

22 And, number one, do you recognize this email
23 chain or familiar with the substance of it?

24 A No.

25 Q Okay. Basically the email thread is about a

1 reporter asking why a particular hospital in North
2 Carolina received a high LeapFrog grade, despite low
3 ratings from CMS for, for patient experience and for
4 reports of poor quality care.

5 Is this an example of a situation that I
6 asked you about before, where LeapFrog's safety grade
7 conflicts with, in this case, a CMS rating that, for
8 patient experience, that, that LeapFrog itself relies
9 on in issuing its safety grades?

10 A CMS is different -- CMS patient experience
11 is different from the patient safety grade.

12 Q Okay.

13 THE REPORTER: Patient safety grade?

14 THE WITNESS: Hospital safety grade.

15 BY MR. CHUNG:

16 Q Okay. In what sense? In what, in what ways
17 is it -- are the two -- the CMS star rating system,
18 right, that this is referring to, and LeapFrog's
19 hospital safety grade system different?

20 A I don't know enough about the CMS ratings to
21 say specifically how they're different, but I know
22 they're not the same.

23 Q You know that they're not the same?
24 Generally speaking, how are they different? I
25 understand that you might not know specific, but

1 generally.

2 A Because LeapFrog is solely focused on
3 patient safety, and there's, as far as I understand,
4 other factors in the CMS star ratings.

5 MR. CHUNG: Okay. All right. Why don't we
6 take a break now. Is that fine?

7 MS. BLAIR: Sure.

8 THE VIDEOGRAPHER: The time is 4:04 p.m.
9 This ends unit 4. We're off the record.

10 (Whereupon, a short recess was taken.)

11 THE VIDEOGRAPHER: The time is 4:21 p.m.
12 This begins unit number five. We're on the
13 record.

14 BY MR. CHUNG:

15 Q Ms. Jupiter, have you been involved in
16 LeapFrog's response to this lawsuit by the five
17 hospitals?

18 A What do you mean by "response"?

19 Q Have you been involved in any way in, in --
20 either from a, from a communications standpoint or in
21 relation -- or from a development standpoint,
22 responding to the lawsuit or dealing with the kind of
23 repercussions from this lawsuit?

24 A You need to be more specific.

25 Q Well, why don't we look at some documents.

1 A Okay.

2 Q But before we do, when did you first learn
3 about the plaintiff hospitals' concerns regarding the
4 hospital safety grades that LeapFrog assigned to them
5 after the imputation methodology changed?

6 A They sent a letter maybe around January.

7 Q And that's when you first learned?

8 A Yes.

9 MR. CHUNG: Okay. Let's go to tab 31, and
10 this will be Exhibit 28.

11 (Exhibit 28 was marked for
12 identification.)

13 BY MR. CHUNG:

14 Q And Ms. Jupiter, this is another set of
15 Slack messages, and I think it's just between you and
16 Ms. Bailey, so just spend some time getting familiar
17 with it. It's from May of this year, so not long ago.

18 A Okay.

19 (Witness peruses document.)

20 BY MR. CHUNG:

21 Q Have you had a chance to review it?

22 A Uh-huh.

23 Q So what is being discussed here between you
24 and Ms. Bailey?

25 A I mean there's a lot of things being

1 discussed.

2 Q Well, what's the principal kind of task here
3 being discussed?

4 A We were talking about messaging, ADA,
5 finance, the survey.

6 Q Is it -- is the focus or one of the focuses
7 here on messaging to be sent to regional leaders?

8 A That's one of the things we discussed, yes.

9 Q Is there also discussion about a statement
10 that Ms. Binder is going to put out? Is that also
11 part of the discussion?

12 A I don't remember seeing a statement she's
13 putting out.

14 Q Okay. Why don't you focus your attention on
15 Bates number ending in 9912, essentially the last
16 page.

17 A Okay.

18 Q Okay. So at the top there, let's start with
19 Ms. Bailey writing "I think we should link to results
20 for each hospital, too, so people can see their fully
21 transparent grades," and you respond, "The 5? I can
22 do that, yeah."

23 What are you discussing here with
24 Ms. Bailey?

25 A I'm assuming we're discussing the five

1 hospitals involved in the lawsuit.

2 Q Right. What is she referring to when she
3 thinks "we should link to results for each hospital,
4 too, so people can see their transparent grades," what
5 is the "link" referring to?

6 A I don't know.

7 Q But you respond "I can do that," right?

8 A Right.

9 Q So what did you do?

10 A I don't know.

11 Q Okay. Is this referring to a, a link to the
12 hospital safety grade results for the five hospitals
13 on another -- on a website?

14 A I assume so. I don't know where it's
15 talking about linking them. I mean because they're on
16 the website.

17 Q Okay.

18 A So I don't know what this is referring to.

19 Q Is it, is it linking of the results for each
20 of these hospitals on, on a, on the statement that
21 Ms. Binder is going to put out?

22 A I don't know.

23 Q Okay.

24 Now, you continue here, "Not sure we want to
25 link expert panel. We don't really want them

1 contacted."

2 Why is that? Why did you not want the
3 expert panel to be contacted?

4 A I don't remember this exact thing, but, you
5 know, our expert panel are very busy people with lots
6 of things on their plate.

7 Q Okay. I think that applies to a lot of
8 people, but why the expert panel in particular?

9 A I couldn't tell you. I mean this was months
10 ago. I don't know what it's referring to.

11 Q About four months ago, so relatively recent,
12 right? So what are, what are you referring to here
13 that you in particular do not want the expert panel to
14 be contacted?

15 A I have no idea.

16 Q Okay. Was there a desire here to insulate
17 the expert panel from the litigation?

18 A I don't know.

19 Q You don't know? What were you thinking when
20 you wrote that?

21 A What was I thinking when I wrote this four
22 months ago?

23 Q Yes.

24 A I have absolutely no idea.

25 MR. CHUNG: Okay. Let's move on to tab 32.

1 (Exhibit 29 was marked for
2 identification.)

3 (Exhibit 30 was marked for
4 identification.)

5 BY MR. CHUNG:

6 Q Ms. Jupiter, you'll have two documents in
7 front of you, Exhibit 29 and Exhibit 30. Let's look
8 at Exhibit 29 first, which is basically the cover
9 email, okay? It's from, again, May 2025. You're
10 addressing, it looks like, a group email to regional
11 leaders.

12 What's being discussed here?

13 A The lawsuit.

14 Q Okay. What about the lawsuit?

15 A Talking points around the lawsuit.

16 Q Okay, and why are there talking points on
17 the lawsuit being sent to the regional leaders?

18 A In case regional leaders get questions about
19 the lawsuit.

20 Q Okay. Let's take a look at the talking
21 points themselves, which are on, on Exhibit 30. Well,
22 actually, let's -- focusing on the email first,
23 Exhibit 29, you write that "please refer all" -- "as a
24 reminder, please be extremely careful about your
25 communications around this lawsuit. Please refer all

1 questions or concerns about the suit to me, Missy
2 Danforth, Leah Binder or Lauren Bailey."

3 So fair to say that you're a point of
4 contact with these regional leaders about this
5 litigation?

6 A Yes.

7 Q Okay, and "given the sensitivity, we would
8 appreciate your not commenting to the media about the
9 lawsuit. Also" -- in bold -- "please avoid
10 communicating with us in writing about this matter."

11 Why, why is that?

12 A Because the regional leaders don't have very
13 much information about this, and we don't know what
14 they're going to say.

15 Q Okay. What's the concern? What are you
16 afraid that they might say that you want to avoid
17 having in writing?

18 MS. BLAIR: Objection to form.

19 THE WITNESS: I don't know what they're
20 going to say, so I don't want them putting in
21 writing things that don't make sense.

22 BY MR. CHUNG:

23 Q Okay. Going to the talking points, which
24 are Exhibit 30, were these the talking points that
25 were sent to regional leaders?

1 A Probably. I mean if you say they were, I
2 would agree.

3 Q It's not my deposition, Ms. Jupiter. Are
4 these the talking points that were sent to regional
5 leaders?

6 A Well, if you want me to open my computer and
7 look and see what I sent, I can tell you.

8 Q Well, I'm going to ask you to look at this
9 carefully and see if it refreshes your recollection as
10 to whether these are the talking points sent to the
11 regional leaders.

12 A Most likely, yes.

13 Q Okay. Were there, were there different
14 versions of these talking points sent to regional
15 leaders?

16 A Not that I remember.

17 Q Okay. So what you remember is that there
18 was one kind of version that was eventually sent out
19 to the regional leaders?

20 A That's what I remember.

21 Q Did you get input from the regional leaders
22 on the, the content of these talking points?

23 A Not that I remember.

24 Q Okay. So the, one of the top line messages
25 in these talking points to regional leaders is "we

1 encourage you to" -- and this is in the top paragraph.
2 "We encourage you to focus on the very poor
3 performance of these hospitals on patient safety first
4 and foremost, while still countering the deliberate
5 falsehoods the hospitals are spreading."

6 The -- what is the -- what information did
7 you supply to the regional leaders, regional leaders
8 about this purported "very poor performance of these
9 hospitals"?

10 A Right here under the CMS, that they have
11 high infection rates, high rates of sepsis, patient
12 reported communication is poor.

13 Q Right. So you're referring to are what's in
14 the talking points themselves, correct?

15 A Correct.

16 Q Okay, and this is in the, kind of the bottom
17 half going onto the second page of the talking points?

18 A Yes.

19 Q And you're telling the regional leaders to
20 focus on basically these bullet points toward the
21 bottom half of the, of the first page, correct?

22 A Yes.

23 Q Who is their -- who is the audience for
24 these regional leaders that you're -- that you put
25 these talking points together for?

1 A They work with employers.

2 Q Okay. So they're -- so is the idea here
3 that these are the talking points that regional
4 leaders are supposed to use in, in talking with
5 employers?

6 A Correct.

7 Q Okay, and these are -- so these are kind of
8 proactive discussions? You're instructing regional
9 leaders to go to employers and spread, spread this
10 information or these, these allegations; is that
11 right?

12 MS. BLAIR: Objection to form.

13 THE WITNESS: No. We specifically asked
14 them not to talk to people about it, but we know
15 they're going to probably anyway, and so we're
16 giving them information.

17 BY MR. CHUNG:

18 Q Okay.

19 Now, turning to the second bullet point
20 under -- so if you go to the second page, there's a
21 section, "Countering False Claims," and then there is
22 "Hospital" -- that second bullet point, "Hospital
23 participation in the LeapFrog Hospital Survey has no
24 automatic up or down impact on a hospital's safety
25 grade."

1 Do you see that bullet point?

2 A Yes.

3 Q Okay. Doesn't declining to participate in
4 the survey automatically drop four of those imputed
5 metrics down to the limited achievement score?

6 A For those metrics, yes.

7 Q Right. So is it accurate to say that
8 hospital participation in the survey has no automatic
9 up or down impact on a hospital's safety grade?

10 A It doesn't have an automatic impact on the
11 safety grade.

12 Q Okay, but there is an automatic downgrade,
13 right, on those four imputed metrics to the lowest
14 possible score, correct, on those four imputed
15 metrics?

16 A The score is only a portion of the safety
17 grade, so like I said before, there are hospitals who
18 don't do the survey that still get an A, so that would
19 show that there is not an automatic up or down impact.

20 Q Okay. Doesn't at least -- do the imputed
21 metrics, right, being automatically assigned a limited
22 achievement raise, at least raise the risk, right, of
23 a hospital, a nonparticipating hospital getting a
24 lower hospital safety grade?

25 A It could raise the risk.

1 Q Okay. Is that disclosed anywhere in these
2 talking points?

3 A That's not one of our talking points.

4 MR. CHUNG: Okay. Let's go to the next one,
5 tab 34. This will be Exhibit 31, I think.

6 (Exhibit 31 was marked for
7 identification.)

8 BY MR. CHUNG:

9 Q Exhibit 31 is an email exchange, again from
10 May of 2025. Just take a minute to look at it.

11 (Witness peruses document.)

12 BY MR. CHUNG:

13 Q And you'll see here again the representative
14 from CURA Strategies is attaching "day one coverage
15 report from today's Hospital Safety Grade
16 announcement."

17 Do you see that?

18 A Yes.

19 Q Okay, and so is this -- so is this like --
20 this is media coverage that comes out like right
21 after -- that came out right after the release of like
22 the latest hospital safety grades?

23 A Correct.

24 Q Okay, and is this something that CURA
25 Strategies regularly does for, for LeapFrog?

1 A Yes.

2 Q Does it flag or collect press coverage every
3 day for LeapFrog?

4 A No, no.

5 Q On particular important dates like this one?

6 A Correct.

7 Q Okay, and then Ms. Bailey writes or forwards
8 this to -- or flags for Ms. Binder, "There hasn't been
9 anything new today on the lawsuit that we have seen in
10 press," right? And then Ms. Binder responds, "Thanks,
11 Lauren. This coverage is great. Let's make a goal to
12 have one story at minimum every three days about Tenet
13 or one of the hospitals."

14 Do you see that?

15 A Yes.

16 Q Okay. Do you know why Ms. Binder -- why,
17 why was Ms. Binder setting this "goal to have one
18 story at minimum every three days about Tenet or one
19 of the hospitals"? Presumably she's referring to the
20 five plaintiff hospitals, correct?

21 A Right.

22 Q Why was she making this direction?

23 A We were constantly being attacked by these
24 five hospitals saying falsehoods about us in the
25 press, and we are this tiny nonprofit, and this is how

1 we responded.

2 Q Okay. When you say that you were
3 "constantly being attacked" by, by the hospitals, what
4 do you mean by that? What, what was -- where were the
5 attacks? How frequent were they?

6 A Mary Beth Maloney was going on the news and
7 saying that we were a pay-to-play organization, that
8 we were just to raise money, that we were hired -- we
9 were selling our consulting fees, things that are
10 completely false about us.

11 Q Okay, and was this -- how many -- but you
12 said that you were constantly being accused. How many
13 times did this happen? How many press reports or, you
14 know, events of this nature occurred?

15 A I don't know exact numbers.

16 Q Okay. More than -- more than one?

17 A Oh, yes.

18 Q More than ten?

19 A Yes.

20 Q More than 20?

21 A They were shared around on social media and
22 other things, so yes.

23 Q Okay, and who were the -- you mentioned Mary
24 Beth Maloney. Who were the other kind of speakers or
25 voices behind these attacks?

1 A That's the one I remember most.

2 Q Okay, and so going back to the question, why
3 was Ms. Binder making a goal to have one story every
4 three days about Tenet or one of the hospitals?

5 A I don't know why specifically those numbers.
6 That's a question you'll have to ask Leah.

7 Q Okay. Was Ms. Binder -- did she want to
8 plant negative stories about Tenet and the plaintiff
9 hospitals?

10 A Not necessarily negative stories.

11 Q Positive stories?

12 A Just to keep in the news the truth to
13 counteract the falsehoods that Mary Beth Maloney was
14 saying about LeapFrog.

15 Q Okay, so what types of stories are we
16 talking about?

17 A I don't know.

18 Q You don't know? Okay.

19 Now, Ms. Bailey responds with an ellipsis,
20 dot, dot, dot, in Exhibit 31. What did you take her
21 response here to mean? I mean she, she forwarded you
22 her response with the ellipsis.

23 A I don't know. You'd have to ask Lauren.

24 Q Did you have any follow-up conversations
25 about this directive from Ms. Binder?

1 A Not that I recall.

2 Q Okay. Who executed on this?

3 A Well, we didn't get one story every three
4 days. You know, it wasn't . . .

5 Q The question is who executed on this?

6 A Executed on what?

7 Q On this goal to have one story, at minimum,
8 every three days about Tenet?

9 A We didn't.

10 Q You did not?

11 A No.

12 Q Okay. Who was -- well, who was tasked with
13 trying to execute on this?

14 A We would work with CURA Strategies, our PR
15 firm.

16 Q And when you say "we," it's you and --

17 A Lauren.

18 Q Okay. So how did you go about doing that
19 with CURA?

20 A We didn't.

21 Q You didn't at all?

22 A We didn't -- we were not planting one story
23 every three days.

24 Q Okay. Did you plant any stories?

25 A We didn't plant any stories.

1 Q Okay. So what did you do? Even if you
2 didn't achieve the exact goal of one story at minimum
3 every three days, what did you do to follow up on
4 this, this directive from Ms. Binder?

5 A I can't recall anything specific we did.

6 THE REPORTER: You said I can't think of --

7 THE WITNESS: Anything specific.

8 BY MR. CHUNG:

9 Q Okay. How did you work with CURA Strategies
10 to try, at least try to execute on this?

11 A I'm trying to remember.

12 If we saw an article that mentioned
13 falsehoods about LeapFrog, we would have CURA reach
14 out to them to provide accurate information.

15 Q Okay. So that is more -- what you're
16 describing is more kind of a reactive reach-out to
17 that particular media outlet?

18 A Right.

19 Q Okay. How about what I'll call "proactive"
20 reach-outs to the press; anything along those lines?

21 A You have to ask Lauren or CURA.

22 Q You were not involved in that effort?

23 A Not in outreach to the press.

24 Q Okay, but you were involved in the reactive
25 effort?

1 A I mean Lauren told me what was going on.
2 You know, we -- she would say here is that article
3 where Mary Beth Maloney is saying something false
4 about us. We're going to respond with correct
5 information.

6 Q Okay, and did you work with her and CURA to,
7 to -- in an effort to correct that information?

8 A That was what CURA did. I didn't. Lauren
9 didn't reach out to press.

10 Q Okay. So what exactly was your involvement
11 in -- I mean you said "we" earlier. What -- can you
12 describe your involvement in this overall press
13 strategy?

14 A It is what I told you, where if there was a
15 false story or a story about it, Lauren would bring it
16 to my attention and then say that we were going to be
17 giving correct information.

18 Q Okay, and so what was your -- again, so
19 Lauren brings it to your attention. What would, what
20 would you then do?

21 A Nothing.

22 Q Nothing?

23 A I don't work with the press.

24 Q Okay. I'm not asking you whether you work
25 with the press, but what would you -- did you yourself

1 interact with CURA to come up with a strategy on how
2 to respond to it?

3 A No.

4 Q So you just took in what Lauren was telling
5 you, did nothing with it; is that right?

6 A Right.

7 MR. CHUNG: Let's go to tab. This will be
8 Exhibit 32.

9 (Exhibit 32 was marked for
10 identification.)

11 BY MR. CHUNG:

12 Q So Exhibit 32 is an email chain from June of
13 2025. Tell me what's being discussed here.

14 A The PR strategy around the safety grade and
15 the lawsuit.

16 Q Okay. So Ms. Bailey is writing to you, and
17 it looks like this is being folded into a CEO report;
18 is that right?

19 A Correct.

20 Q Okay. That in the second set of bullet
21 points, "We've also been proactively pitching updates
22 around the Tenet Healthcare lawsuit to national and
23 local press to own the narrative."

24 Is this what you were testifying to earlier,
25 that there were proactive outreaches to, to media

1 outlets to, to issue stories about the Tenet lawsuit?

2 A This thing is about proactively pitching
3 updates, so when Mary Beth Maloney was saying false
4 things about LeapFrog, we were updating the press with
5 correct information.

6 Q Okay. So this is -- is this the reactive or
7 the proactive efforts that you were testifying to
8 earlier?

9 A Like I said, I didn't have anything to do
10 with this. This is just information I read. I can't
11 tell you specifics about what we did.

12 Q Okay. She writes that "we've [also] been
13 proactively pitching updates . . . to national and
14 local press to own the narrative," right? What does
15 she mean by "own the narrative"?

16 A You'd have to ask her.

17 Q Well, she's writing to you as part of this
18 update to fold into the CEO report.

19 What did you take her to mean?

20 A I copied this and I pasted it into the CEO
21 report.

22 Q I'm asking you: What did you take her to
23 mean, that this outreach was "to own the narrative"?

24 MS. BLAIR: Objection to form.

25 THE WITNESS: I didn't have an opinion on

1 it.

2 BY MR. CHUNG:

3 Q I'm not asking for your opinion. What did
4 you take it to mean?

5 A I didn't take it to mean anything.

6 Q This means -- you didn't take it to mean
7 anything?

8 A I read this. I didn't analyze it.

9 Q What do you, what do you understand "the
10 narrative" to be here?

11 A From what I understand, we were working to
12 combat falsehoods that the plaintiffs and Mary Beth
13 Maloney were saying about LeapFrog.

14 Q Right. I understand that, but what is the
15 "narrative" that's being referenced here?

16 A You'll have to ask Lauren Bailey.

17 Q Okay.

18 So is it your testimony that you, as a
19 member of the executive staff at LeapFrog, have no
20 idea or -- have no idea about what the organization's
21 narrative is here with respect to the press?

22 A I told you. The narrative is contradicting
23 the falsehoods that were put out about LeapFrog.

24 Q So how, how -- in that narrative, how
25 were -- how was LeapFrog seeking to contradict what

1 you're calling the falsehoods?

2 A Mary Beth Maloney liked to say that we were
3 raising all of this money, and we were being
4 deceptive, and that is not true.

5 Q Okay. What updates here -- so you're right.
6 She's "proactively pitching updates," right, "around
7 the . . . lawsuit to national and local press to own
8 the narrative."

9 What were the updates that LeapFrog was
10 pitching to these publications?

11 A Like when Mary Beth Maloney said that we
12 were raising all this money from providing consulting
13 services to hospitals, the update would be that that
14 is completely false.

15 Q Okay. So were the updates just flat
16 denials? This is completely false, this is completely
17 false?

18 A So far as I know, but I was not in charge of
19 this.

20 Q Okay.

21 Now, you -- again, going back to kind of the
22 first principle, you do oversee communications, right,
23 at LeapFrog?

24 A No. Lauren oversees communications, and
25 Lauren Bailey reports to me.

1 Q Right, as -- and we saw in the profile from
2 the website, that you do -- just looking at the
3 profile again -- that you are responsible for "shaping
4 and executing LeapFrog's development efforts, while
5 also overseeing the organization's external messaging,
6 branding, media relations, and digital
7 communications," correct?

8 A Correct.

9 Q Like does that encompass external messaging
10 and media relations relating to the lawsuit?

11 A On a very high level, yes, but it is not
12 something I work with day to day or are intimately
13 involved with.

14 MR. CHUNG: Okay. Let's move on to tab 36.
15 This will be Exhibit 33.

16 (Exhibit 33 was marked for
17 identification.)

18 BY MR. CHUNG:

19 Q Okay. In Exhibit 33 -- it's another email
20 chain from May 2025, and we see that Ms. Hailesilassie
21 from CURA is writing to you, Lauren Bailey and others,
22 with an agenda.

23 Do you see that?

24 A Yes.

25 Q Okay, and among the bullet points are "Tenet

1 lawsuit coordination, patient story," and "paid media
2 campaign."

3 Do you see that?

4 A Yes.

5 Q Okay. The "patient story" bullet point
6 under the "Tenet lawsuit coordination," what does that
7 refer to?

8 A We actually had a lot of patients reach out
9 to our info mailbox, telling us --

10 THE REPORTER: What mailbox?

11 THE WITNESS: Info, our email box, telling
12 us about terrible things that happened to them at
13 Tenet hospitals, since they had read about the
14 lawsuit, and we were exploring those stories.

15 BY MR. CHUNG:

16 Q So this is based on patients writing to -- I
17 think an info mailbox?

18 A It's our general mailbox.

19 Q Okay. Oh, so there's like a --

20 A Info@LeapFrog.org.

21 Q Got it. That's available on the, on the
22 website --

23 A Yes.

24 Q -- okay, that they can write to?

25 A Correct.

1 Q Okay, and can you give us a sense of how
2 many of these emails came in from patients?

3 A Maybe ten.

4 Q Ten? Okay, and so what was the patient
5 story here? What was this bullet point referring to?
6 What was kind of the task here?

7 A We were discussing the patients who reached
8 out to us and told us about how horrible Tenet
9 Hospital was and how a family member died or was very
10 sick at Tenet Hospital, and if we wanted to discuss
11 that with CURA Strategies and public relations.

12 Q Okay. So what came out of it?

13 A We didn't.

14 Q Okay. The -- when you say -- you said that
15 they were making these allegations with respect to
16 Tenet Hospital.

17 Which hospital is this?

18 A When we refer to "Tenet," we're referring to
19 the, the five hospitals.

20 Q Okay. So were these patients talking about
21 all five hospitals or specific hospitals?

22 A Specific hospitals.

23 Q Okay. So the Florida hospitals that are --

24 A Correct.

25 Q -- the plaintiffs in this case?

1 A Correct.

2 Q Okay. Right underneath there, we have a
3 bullet, "Paid media campaign." What is this referring
4 to?

5 A We had discussed possibly doing a paid media
6 campaign around the lawsuit and counteracting the
7 falsehoods that were out there.

8 Q Okay. So what -- can you describe what a
9 paid media campaign is under this -- in this context?

10 A Yes. I'll also tell you we didn't get far
11 and we didn't do this, because, as I said, we're a
12 tiny nonprofit, and we do not have money for that sort
13 of thing.

14 Q Well, what was being contemplated here in
15 this bullet?

16 A Putting out like Google ads and things on
17 socia media, counteracting the falsehoods that were
18 being said about LeapFrog.

19 Q Okay, and this would be -- how would it be
20 paid?

21 A You have to pay for an ad.

22 Q Okay.

23 You made mention a number of times already
24 that this is -- that you're a "tiny nonprofit," and
25 you have kind of a long history with a number of

1 nonprofits.

2 Is a nonprofit with about \$8 million in
3 annual revenue a tiny nonprofit?

4 A Very tiny. I mean I worked for a cancer
5 charity, and we -- I mean we were probably
6 \$500 million.

7 Q So relative to kind of to your, your
8 experience, it's relatively small just in terms of
9 kind of the dollar amounts being involved?

10 A And staff.

11 MR. CHUNG: Okay. Let's move on to the
12 next, 37, which will be Exhibit 34.

13 (Exhibit 34 was marked for
14 identification.)

15 BY MR. CHUNG:

16 Q Another Slack exchange, Ms. Jupiter, from
17 May 12 of 2025, and it's between you and Nate Longmore
18 and Lauren Bailey.

19 Who is Nate Longmore?

20 A He is our communications coordinator.

21 Q And does he report to you?

22 A To Lauren.

23 Q To Lauren, okay, who, in turn, reports to
24 you?

25 A Correct.

1 Q Okay.

2 Now, in the very first message in this kind
3 of string here, you write, "She has no clue how this
4 works."

5 What are you referring to?

6 A I don't know exactly what I was referring
7 to.

8 Q Okay. To whom are you referring?

9 And if you need to read through the whole
10 thing to get context, please do.

11 (Witness peruses document.)

12 BY MR. CHUNG:

13 Q So if we go down the line here, there's a
14 back-and-forth among you, Mr. Longmore and Ms. Bailey.
15 You write, "She has no clue how this works."
16 Mr. Longmore agrees. Ms. Bailey with an emoji. You
17 write, "Why, though? What would be the point? I
18 don't get it."

19 "Why," you continue to question.

20 Mr. Longmore sighs. Lauren Bailey writes, "I'm afraid
21 to ask." Then Mr. Longmore writes, "My wifi is super
22 unstable, so just to clarify, am I checking with Noah
23 on the specific hospital names as keywords?"

24 First of all, who is Noah?

25 A Noah is the vendor who works with our Google

1 grant.

2 Q Okay, and then he writes, "And displaying
3 their" hospital safety grade, "their HSG." Are you,
4 you, kind of the three of you referring to the five
5 hospitals here?

6 A Yes.

7 Q Okay, and then you -- or Ms. Bailey writes,
8 "Leah said she wants to know if we can do ads where,
9 if someone searches those five hospitals, it shows an
10 ad with their safety grade URL and says they have an X
11 grade," and Mr. Longmore writes that he understands,
12 and then Ms. Bailey writes, "So you could send him,"
13 presumably Noah, right, "the five URLs."

14 Do you understand kind of what's being,
15 what's being discussed here?

16 A Yes.

17 Q Okay. So what is being discussed?

18 A Having ads around the five hospitals,
19 showing their -- just linking to their safety grade.

20 Q Okay. Linking to their safety grade with --
21 upon search results in Google, like where the --
22 where's -- what's the proposal? Where are the links
23 appearing?

24 A If someone were to search "Delray Medical
25 Center" in Google, their -- it would link to their --

1 there would be an ad for their safety grade.

2 Q Okay, and so you write later on at
3 2:36 p.m., "So she just wants to harass them," right,
4 and Mr. Longmore writes, "I love that the strategy is
5 to become a Disney villain," right?

6 So is -- did Ms. Binder want to further
7 publicize the plaintiff hospitals' safety grades here?

8 A Yes.

9 Q Okay. Did you think that was a good idea?

10 A I don't think I had a particular opinion on
11 it. Just trying to understand it.

12 Q Okay. Well, I mean your reaction here, and
13 I think the collective reaction here from Mr. Longmore
14 and Ms. Bailey is -- you write, "Why, though? What
15 would be the point," right?

16 So are you questioning here what the point
17 of this strategy is?

18 A Trying to understand the strategy, yes.

19 Q Okay, and then you write "what for," right?
20 So are you still trying to figure out what the
21 strategy here is?

22 A Yes.

23 Q Okay. So what did you -- through this
24 exchange, what did you understand the strategy to be?

25 A That we wanted to publicize their F grades.

1 Q Okay. For what purpose?

2 A Because these hospitals had bad grades and
3 were not safe, and we want the public to know that.

4 Q Okay, but your reaction here is "so she just
5 wants to harass" the hospitals, correct? That's what
6 you believe, that this was just a harassing strategy?

7 MS. BLAIR: Objection to form.

8 BY MR. CHUNG:

9 Q Is that right?

10 A I was wondering if that's what she wanted to
11 do, yes.

12 Q Okay, and is that, in fact, what she was
13 wanting to do?

14 Let me phrase it another way.

15 Isn't that, in fact, what you thought
16 Ms. Binder wanted to do with this strategy?

17 A I was trying to understand what she was
18 trying -- what she wanted to do.

19 Q Okay, and in trying to understand that, you
20 were, you were wondering aloud whether she just wanted
21 to harass these hospitals, correct?

22 A Correct.

23 Q Okay. So did this come about?

24 A I think we did it for a very short amount of
25 time.

1 Q Okay.

2 Now, when Mr. Longmore responds, "I love
3 that the strategy is to become a Disney villain," I
4 mean did you agree with how he was characterizing this
5 strategy?

6 A No.

7 Q Why not?

8 A I mean he said it, I heard him say it --

9 Q Okay.

10 A -- or I read it, and that was it.

11 Q What does your -- what did you mean by the,
12 the emoji reaction to that comment about being a
13 Disney villain?

14 A What did I mean by a face?

15 Q By the emoji, yeah. I mean your -- I think
16 that emoji is -- you, you typed that emoji, right?

17 A Yeah, I couldn't tell you what that emoji
18 is. It was a . . .

19 MR. CHUNG: Okay. Let's go to tab 46, and
20 this will be Exhibit 35.

21 (Exhibit 35 was marked for
22 identification.)

23 BY MR. CHUNG:

24 Q All right. So another set of Slack
25 messages, Ms. Jupiter, also from May 12, 2025,

1 actually the same, same day as the one we just looked
2 at previously. So just take a minute to review it,
3 get familiar with it.

4 Actually, before -- can you remind us who --
5 so the participants in this are you and Nicholas
6 Cantacuzene?

7 A Cantacuzene, yes.

8 Q Okay.

9 A He is our membership coordinator.

10 Q Okay. Got it.

11 (Witness peruses document.)

12 BY MR. CHUNG:

13 Q Have you had a chance to review it?

14 A (Nods.)

15 Q Okay. Now, if you, if you look at this
16 exhibit, Exhibit 35, side by side with the previous
17 one, Exhibit 34, you'll see that much of the two
18 discussions are happening at the same time.

19 Do you see that?

20 A Yes.

21 Q Yes, so it looks like you have one Slack
22 discussion going on with Ms. Bailey, Mr. Longmore, and
23 then it looks like a separate one with
24 Mr. Cantacuzene; is that right?

25 A Yes.

1 Q So between -- am I correct that while you're
2 having these two Slack discussions, there is a meeting
3 going on with, with your colleagues?

4 A I think so.

5 Q Okay, and is it -- and during these
6 discussions that are happening at the same time, is
7 Ms. Binder describing this proposal that we've been,
8 that we've been discussing?

9 A I think so.

10 Q Okay.

11 So again, we see some of the same verbiage
12 here. If you look at the 2:08 p.m. message that you
13 send, it's at the bottom of Bates ending 264.

14 A Yes.

15 Q You write, "She has no clue how this works."
16 You write "no clue how this works" in the other
17 message, and what is -- what are you referring to
18 here?

19 A Leah doesn't know how the Google Ads work.

20 Q Okay, and so are you kind of wondering --
21 you're questioning whether her proposal, right, to
22 have the hospital safety grades kind of linked for
23 those five hospitals, whether it's, whether it's
24 workable?

25 A Correct.

1 Q Okay, and then you'll see on the next
2 page -- and again we're focusing just on Exhibit 35.
3 At around 2:22, there is a blowout here of an image
4 for Tenet Healthcare with general information and
5 "individuals," and there's a number there, 33,526, and
6 you write, "Wow!" Mr. Cantacuzene responds, "Make
7 sense to you?"

8 What is, what is that exchange about?

9 A We have a database where you can look up
10 companies and employees, and so he found that there
11 were 33,000 Tenet employees.

12 Q Okay, and your reaction to that is "wow"?

13 A Right.

14 Q Just the number, the sheer number of
15 employees?

16 A Right, because again, we're a 22-person
17 organization, and we have this huge organization
18 saying incorrect, false things about us.

19 Q And then we go down to 2:33 p.m. "What is
20 the point of this?" Mr. Cantacuzene responds, "I was
21 going to ask you the same thing."

22 What, what are you discussing here?

23 A I think it's still the -- we're trying to
24 understand what Leah wants.

25 Q Okay. So you're still wondering as she's, I

1 guess, discussing this, what the point of this
2 proposal is, correct?

3 A Correct.

4 Q Okay, and then we go on to the next page,
5 we're at 2:35 p.m. You write, "Just because she is
6 mad at them?"

7 I mean is this -- I mean what are you
8 expressing here?

9 A Leah was really mad at people saying all
10 these false things about LeapFrog.

11 Q Okay, and so you write just a couple lines
12 down, "What are you trying to do? So she just wants
13 to harass them," right? So it's the same language
14 here, and so, similar to what we saw in the other
15 discussion, you were -- your takeaway from this was
16 that Leah Binder was -- just wanted to harass Tenet
17 through this, this Google search result proposal?

18 MS. BLAIR: Objection to form.

19 BY MR. CHUNG:

20 Q Is that right?

21 A What's your question?

22 Q So the question is: Was it your takeaway
23 from this discussion that Ms. Binder just wanted to
24 harass Tenet with this proposal to link their health
25 [sic] safety grades to search results?

1 A I was trying to understand if that's what
2 she was trying to do, yes.

3 Q Okay, and this was your conclusion, that she
4 just wanted to harass them?

5 A I don't know if I ever came to that
6 conclusion. I was trying to understand the strategy.

7 Q Okay. What's your conclusion now?

8 A That she wanted to counteract the
9 falsehoods.

10 Q Okay.

11 Do you think now that by employing this
12 strategy that she wanted to harass Tenet?

13 A I think she wanted to counteract the
14 falsehoods.

15 Q "And not the decision-makers, all 33,000
16 people, I guess," Mr. Cantacuzene responds here, and
17 you write, "And their friends."

18 So what are you referring to here?

19 A I don't know what I meant by "and their
20 friends," but the 33,000 I think was we would be
21 serving those ads to the 33,000 Tenet Healthcare
22 employees.

23 Q Okay, and he writes, "That seems illegal."
24 What did you take him to mean there?

25 A Nicholas is 24 years old.

1 Q Well, what did you take him to mean?

2 A You'll have to ask Nicholas. I mean I
3 didn't even --

4 Q But this is your deposition. I mean what
5 did you take him to mean there?

6 A I have no idea what he meant there.

7 MR. CHUNG: Okay. Let's go to tab 39, which
8 will be Exhibit 36.

9 (Exhibit 36 was marked for
10 identification.)

11 BY MR. CHUNG:

12 Q So fast-forward about a month. This is
13 June 12 of this year, an email chain involving
14 "nonprofit megaphone."

15 Is this the vendor that you referenced
16 earlier about the one that kind of manages or helps
17 with the Google grant?

18 A Correct.

19 Q Is that right?

20 Okay, and can you just tell us again; what
21 exactly do they do for LeapFrog?

22 A They -- we tell them information that we
23 want to spend the Google grant on, and they craft the
24 ads for the grant and launch them.

25 Q Okay, and have you had a chance to look

1 through it? I know I just put it in front of you,
2 but . . .

3 A Okay.

4 Q Okay. So is what's being discussed here
5 the, basically the proposal that Ms. Binder was making
6 in the Slack messages?

7 A Correct.

8 Q All right. So this actually came to
9 fruition; is that right?

10 A It did.

11 Q Okay.

12 So did LeapFrog pay for ads so that the
13 plaintiff hospitals' LeapFrog grades would appear in
14 these Google search results?

15 A We don't pay for the ads. We have a grant.

16 Q Okay. So basically you would be expending
17 that grant on this proposal, correct?

18 A Correct.

19 Q Okay.

20 A And it's mortifying. We had five clicks in
21 30 days. I mean we are really bad at this. Sorry.

22 MR. CHUNG: Let's go to tab 40.

23 MS. BLAIR: And before we go, Daniel, do you
24 know how much longer you have?

25 MR. CHUNG: Can we maybe go off the record

1 for a moment.

2 THE VIDEOGRAPHER: The time is 5:15 p.m.

3 This ends unit 5. We're off the record.

4 (Whereupon, a short recess was taken.)

5 THE VIDEOGRAPHER: The time is 5:15 p.m.

6 This begins unit number 6. We're on the record.

7 MR. CHUNG: We're going to mark this Exhibit
8 37.

9 (Exhibit 37 was marked for
10 identification.)

11 BY MR. CHUNG:

12 Q Okay. So Ms. Jupiter, this is also from
13 June of, June of 2025. You're on these emails with
14 Ms. Binder, Ms. Bailey, and a Karen van Caulil.

15 Who is Ms. Van Caulil?

16 A She is the president and CEO of the Florida
17 Alliance for Healthcare Value.

18 Q Okay, and what is that alliance?

19 A That's our Florida regional leader.

20 Q And so she's the head of that particular --

21 A Yes.

22 Q Is she the representative for that regional
23 leader?

24 A I think Ashley Tate Dinger is a
25 representative for it, but she is the head of the

1 coalition.

2 Q Okay. So in this email chain, there's a
3 discussion about Ms. Binder potentially visiting a
4 Jupiter Medical Center; is that right?

5 A Yes.

6 Q And was she planning to do interviews on
7 this visit?

8 A If hospitals -- not hospitals. If media
9 wanted to speak with her while she was there, yes.

10 Q Okay, and was Ms. Binder planning to speak
11 about this lawsuit during this visit with the media
12 presence?

13 A Not at Jupiter, but while she was in
14 Florida, if there was someone who wanted to talk to
15 her about the lawsuit, yes.

16 Q Okay, and was part of the strategy here for
17 LeapFrog or Ms. Binder to -- do you know that the
18 Jupiter Medical Center here is a competitor of at
19 least one of the plaintiff hospitals?

20 A Yes.

21 Q Okay, and was part of the plan here to, to
22 basically highlight Jupiter Medical Center?

23 A As an A hospital.

24 Q As an A hospital?

25 A Yes.

1 Q And was it also a part of the plan to steer
2 patients or consumers away from the competitor
3 plaintiff hospitals?

4 A That wasn't part of the strategy for this.

5 Q Okay, but if -- was there going to be
6 messaging about the hospital safety grades that the
7 plaintiff hospitals received?

8 A No. This was solely about highlighting
9 Jupiter as an A hospital.

10 Q Okay. Did this visit ever happen?

11 A No.

12 MR. CHUNG: Okay. Let me ask that we go off
13 the record and take a short break, and then we'll
14 come back and finish up.

15 MS. BLAIR: Sure.

16 THE VIDEOGRAPHER: The time is 5:18 p.m.
17 We're off the record.

18 (Whereupon, a short recess was taken.)

19 THE VIDEOGRAPHER: The time is 5:24 p.m.
20 We're on the record.

21 BY MR. CHUNG:

22 Q Ms. Jupiter, LeapFrog is a 501(c)(3)
23 organization; is that right?

24 A Correct.

25 Q Okay, and has LeapFrog, to your knowledge,

1 ever been audited or investigated to determine whether
2 its activities comply with that status?

3 A As a 501(c)(3), we have to be audited every
4 year.

5 Q Okay. Has there ever been kind of a
6 discreet investigation of its activities?

7 A Not that I'm aware of.

8 Q Okay. Do you have any involvement in
9 responding to these audits?

10 A We don't respond to the audit.

11 Q Okay. Who conducts the audits for LeapFrog?

12 A We have an independent auditing firm.

13 Q Okay. Do you, do you have any involvement
14 in those audits?

15 A Sometimes we have to provide information for
16 the audit.

17 Q Okay. What type of information?

18 A Like if they say we got a donation from this
19 person, do you have a copy of the check.

20 Q Are there audits -- does the audit include
21 an examination of LeapFrog's revenue from the hospital
22 grades and hospital surveys?

23 A Yes. It's all of our finance.

24 Q Okay. Separate question: How does -- so
25 you're a member of the executive staff. How does

1 LeapFrog set executive compensation?

2 A I don't know.

3 Q Okay. Who determines that?

4 A I think Leah Binder.

5 Q Okay, and what are the, kind of the
6 components of your compensation in particular?

7 A I mean I have metrics and goals I have to
8 meet.

9 Q Okay, and what are those metrics and goals,
10 let's say for the current compensation year?

11 A I'm in charge of fundraising, so reaching
12 those fundraising goals.

13 Q Okay. Are there -- is your compensation
14 tied to overall revenue goals for the organization?

15 A Mine is not directly tied to our revenue
16 goals.

17 Q When you say "directly tied," is there any
18 kind of indirect tie to the overall revenue goals?

19 A You'd have to ask Leah.

20 Q Okay, but your understanding is that Leah
21 sets your executive compensation?

22 A Yes.

23 Q And I think we saw that actually in the
24 annual review, correct? I think at the end of, at the
25 end of the review, she awarded a bonus; is that right?

1 A Correct.

2 Q Do you know whether any of the other members
3 of the executive staff executive compensation is tied
4 to overall revenue goals?

5 A I don't.

6 Q Okay. Do you know whether any LeapFrog
7 executive's compensation is tied to the number of
8 hospitals that participate in the hospital survey?

9 A I don't.

10 Q Okay. Do you know whether any of LeapFrog's
11 compensation depends on the total amount of licensing
12 revenue drawn from the hospital grades and the
13 hospital survey?

14 A I don't.

15 Q Okay. Are you aware that Ms. Binder's total
16 compensation has increased from about \$300,000 in 2013
17 to about \$760,000 in 2024?

18 A I don't know her exact compensation.

19 Q Okay, but do these, do these numbers sound
20 correct to you? I know you don't know the exact
21 numbers, but that wasn't my question.

22 A What's your question?

23 Q The question is: Are you, are you aware
24 that her total compensation has increased from about
25 \$300,000 in '23 to \$760,000 in 2024?

1 MS. BLAIR: Object to form. I think you
2 said "in '23." It was --

3 BY MR. CHUNG:

4 Q 2013.

5 A I don't know her compensation.

6 Q Okay. Are you aware -- do you know that
7 she -- her compensation was \$760,000 in 2024?

8 A I did not know that.

9 Q Did not know that?

10 A No.

11 Q Okay. Does it surprise you that that's,
12 that that's her compensation?

13 A No.

14 Q No? It doesn't seem -- it's not -- it
15 doesn't seem high to you, relative to the size of the
16 organization, which I think you characterized as a
17 "tiny organization"?

18 A What's the question?

19 Q So it doesn't seem high or outsized relative
20 to the, to the size of the organization?

21 A No.

22 Q No? Okay.

23 Do you have any kind of benchmarks to
24 compare that to, that lead you to that conclusion?

25 A I know the CEO of my last job made over a

1 million dollars a year.

2 Q Okay, and what was the last job again?

3 A At the Conquer Cancer Foundation.

4 Q Okay, at that Conquer Cancer Foundation,
5 what were the overall revenues? I think you testified
6 about it earlier.

7 A The Foundation I think made around
8 \$40 million.

9 Q \$40 million? How about the, the overall
10 organization?

11 A ASCO, but that wasn't my CEO.

12 THE REPORTER: I'm sorry. "How about the
13 overall organization," and what was the answer?

14 THE WITNESS: The Foundation was a part of
15 the American Society of Clinical Oncology.

16 BY MR. CHUNG:

17 Q Okay. So, so for the Conquer Cancer
18 organization revenues of about \$40 million, your CEO,
19 your former boss made about a million dollars in
20 executive compensation?

21 A Over a million.

22 Q Over a million dollars. Okay, and then for
23 about -- for your current employer at LeapFrog,
24 revenue is about \$8 million, as we saw in the
25 financial statements. We see that Ms. Binder is

1 making \$760,000, correct?

2 A Yes.

3 Q Okay, and you don't see kind of a, a
4 disparity there or kind of a disparity between those
5 two figures?

6 A If you want good people to do a good job,
7 then you need to compensate them. If you want to pay
8 someone poorly, then you'll get someone who works
9 poorly.

10 Q Okay. I'm not sure that's responsive to the
11 question.

12 Do you see a disparity between those two,
13 those two scenarios that you just described?

14 A No.

15 MR. CHUNG: Okay. That's all I have.

16 MS. BLAIR: Excellent.

17 We will order, if you can, a rough as well
18 as an E-Tran.

19 MR. CHUNG: We're off the record.

20 THE VIDEOGRAPHER: The time is 5:30 p.m.
21 We're off the record.

22 THE REPORTER: And then, and then do you
23 want -- I was told that you want the final
24 transcript in just a couple of days?

25 MS. BLAIR: Yeah, see, I just want the --

1 yeah, I don't care about the final, but I would
2 like the rough as soon as you can get it. I can
3 take the final regular delivery, but whatever
4 they want it in that order.

5 MR. CHUNG: Yes, the rough as well as soon
6 as . . .

7 THE REPORTER: And as well the two-day?

8 MR. CHUNG: Right.

9 THE REPORTER: You don't want the two-day
10 expedite?

11 MS. BLAIR: Yes, I can. Yeah.

12 THE REPORTER: Okay.

13 (Signature having not been waived, the
14 video deposition of KAREN JUPITER was
15 concluded at 5:30 p.m.)

ACKNOWLEDGEMENT OF WITNESS

I, Karen Jupiter, do hereby acknowledge that
I have read and examined the foregoing testimony,
and the same is a true, correct and complete
transcription of the testimony given by me, and
any corrections appear on the attached Errata
sheet signed by me.

(DATE)

(SIGNATURE)

RETURN BY:

[illegible]

CERTIFICATE OF SHORTHAND REPORTER -- NOTARY PUBLIC

I, Laurie Donovan, Registered Professional Reporter, Certified Realtime Reporter, and notary public for the District of Columbia, the officer before whom the foregoing deposition was taken, do hereby certify that the foregoing transcript is a true and correct record of the testimony given; that said testimony was taken by me stenographically and thereafter reduced to typewriting under my supervision; and that I am neither counsel for, related to, nor employed by any of the parties to this case and have no interest, financial or otherwise, in its outcome.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my notarial seal this 9th day of September 2025.

My commission expires: July 14, 2027

A handwritten signature in cursive script, reading "Laurie Donovan", is written over a horizontal line.

LAURIE DONOVAN
NOTARY PUBLIC IN AND FOR
THE DISTRICT OF COLUMBIA

kimberly.blair@wilsonelser.com

September 9, 2025

Good Samaritan Medical Center Inc, Et Al. v. The Leapfrog Group

DEPOSITION OF: Karen Jupiter 7574617

The above-referenced witness transcript is available for read and sign.

Within the applicable timeframe, the witness should read the testimony to verify its accuracy. If there are any changes, the witness should note those on the attached Errata Sheet.

The witness should sign and notarize the attached Errata pages and return to Veritext at errata-tx@veritext.com.

According to applicable rules or agreements, if the witness fails to do so within the time allotted, a certified copy of the transcript may be used as if signed.

Yours,

Veritext Legal Solutions

Federal Rules of Civil Procedure

Rule 30

(e) Review By the Witness; Changes.

(1) Review; Statement of Changes. On request by the deponent or a party before the deposition is completed, the deponent must be allowed 30 days after being notified by the officer that the transcript or recording is available in which:

(A) to review the transcript or recording; and

(B) if there are changes in form or substance, to sign a statement listing the changes and the reasons for making them.

(2) Changes Indicated in the Officer's Certificate. The officer must note in the certificate prescribed by Rule 30(f)(1) whether a review was requested and, if so, must attach any changes the deponent makes during the 30-day period.

DISCLAIMER: THE FOREGOING FEDERAL PROCEDURE RULES ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF APRIL 1, 2019. PLEASE REFER TO THE APPLICABLE FEDERAL RULES OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

VERITEXT LEGAL SOLUTIONS

COMPANY CERTIFICATE AND DISCLOSURE STATEMENT

Veritext Legal Solutions represents that the foregoing transcript is a true, correct and complete transcript of the colloquies, questions and answers as submitted by the court reporter. Veritext Legal Solutions further represents that the attached exhibits, if any, are true, correct and complete documents as submitted by the court reporter and/or attorneys in relation to this deposition and that the documents were processed in accordance with our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted

fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions' confidentiality and security policies and practices should be directed to Veritext's Client Services Associates indicated on the cover of this document or at www.veritext.com.

1 Thereupon,
2 the following proceedings began at 9:08 a.m.:

3 * * *

4 THE VIDEOGRAPHER: We're now on the video
5 record and the time is 9:08 a.m. This is the
6 video deposition of Cynthia McCauley taken in
7 the matter of Good Samaritan Medical Center, et
8 al. versus The Leapfrog Group.

9 This deposition is being held at
10 515 North Flagler Drive, West Palm Beach,
11 Florida on September 24th, 2025.

12 The videographer is Benny Dorlouis, and the
13 court reporter is Barbie Gallo, both in
14 association with Lexitas.

15 Will counsel please announce their
16 appearances for the record.

17 MS. BLAIR: Kim Blair on behalf of
18 defendant, Leapfrog Group.

19 MS. MALONEY: Mary Beth Maloney on behalf of
20 St. Mary's, and I'm joined by my colleague,
21 Elizabeth Dabanka.

22 THE STENOGRAPHER: If you would, raise your
23 right hand, and I'll swear you in.

24 Do you swear or affirm that the testimony
25 you're about to give in this matter will be the

1 truth, the whole truth and nothing but the truth
2 so help you God?

3 THE WITNESS: I do.

4 THE STENOGRAPHER: Thank you.

5 THEREUPON,

6 CYNTHIA MCCAULEY,

7 Being by me first duly sworn to tell the whole truth,
8 as hereinafter certified, testified as follows:

9 DIRECT EXAMINATION

10 BY MS. BLAIR:

11 Q. Ms. McCauley, as you know, my name is
12 Kim Blair. I represent the defendant, Leapfrog Group,
13 in this matter.

14 Let the record reflect that your deposition
15 is being taken pursuant to the Federal Rules of Civil
16 Procedure as well as the local rules of the Southern
17 District of Florida.

18 Can you state and spell your name for the
19 record, please.

20 A. Um-hum. Cynthia, C-y-n-t-h-i-a; Albach,
21 A-l-b-a-c-h; McCauley, M-c-C-a-u-l-e-y.

22 Q. And, Ms. McCauley, have you ever had your
23 deposition taken before?

24 A. Yes.

25 Q. How many times?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 7

1 A. Once or twice.

2 Q. And were they in a professional or a
3 personal capacity?

4 A. Professional.

5 Q. And can you recall -- let's just start with
6 the first deposition you gave. Can you recall when
7 that was?

8 A. Oh, a long time ago. A long, long time ago.

9 Q. Were you working at St. Mary's at the time?

10 A. No.

11 Q. Where were you working at that point?

12 A. At that point, I worked for West Boca
13 Medical Center.

14 Q. And do you recall just generally what that
15 case was about?

16 A. It was an employee. I believe it was
17 Workers' Comp.

18 Q. And then the second matter that you were
19 deposed in, do you remember about when that was?

20 A. That was a couple years ago.

21 Q. And were you at St. Mary's then?

22 A. I was at St. Mary's.

23 Q. And do you recall like generally what that
24 case is about?

25 A. It was a case, I was being deposed as the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 8

1 CEO, although I wasn't the CEO at the time of the case,
2 so it was a case concerning a physician.

3 Q. Was it a med/mal case?

4 A. It was a defamation case.

5 Q. And was the physician claiming that the
6 hospital defamed him?

7 A. No.

8 Q. Was the hospital a defendant?

9 A. No. No, we weren't party to the case.

10 Q. Okay. So you were being deposed as a
11 third-party fact witness, not as a party?

12 A. Correct.

13 Q. I want to just go over a couple of ground
14 rules that you probably already know, but I'll just go
15 over them for the day.

16 As you know, Barbie is our court reporter.
17 She'll be taking down everything you say and everything
18 I say. Therefore, I'm going to try not to talk over
19 any of your answers if you could do the same for the
20 sake of the court reporter. Is that okay?

21 A. Yes.

22 Q. In addition, she's taking down everything
23 that we say, so all of your answers must be verbal.
24 She can't take down a shrug of shoulders, an "uh-huh,"
25 "huh-uh." Is that fair?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 9

1 A. I understand.

2 Q. If at any time you need to take break, just
3 ask. The only caveat would be that if there's a
4 question pending, I ask that you answer that question.
5 Is that fair?

6 A. Yes.

7 Q. From time to time I will ask some questions
8 that you don't understand. If at any time you need me
9 to rephrase those questions, please ask me to do so.
10 Otherwise, if I ask a question and you answer it, I'm
11 going to assume you understood the question. Is that
12 fair?

13 A. Yes.

14 Q. I want to just kind of briefly go over your
15 background.

16 Can you take me through your post high
17 school education?

18 A. After high school I got a bachelor's degree
19 in foreign language at Adelphi University. And after
20 that I got an MBA from Long Island University CW Post
21 Campus.

22 Q. What foreign language?

23 A. Oh, I speak Spanish, Italian, a little bit
24 of French.

25 Q. Oh, wow.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 10

1 And I see that you took a couple years off
2 between your undergrad degree and your MBA, correct?

3 A. Yes.

4 Q. What did you do in the interim?

5 A. I was working.

6 Q. Where did you work?

7 A. I believe at that time I was working for an
8 organization in Manhattan called the Population
9 Council.

10 Q. Was that a not-for-profit?

11 A. It was a not-for-profit.

12 Q. What did they do?

13 A. They did birth control studies and research
14 in third world countries. They partnered with the
15 Ford Foundation, the UNFPA to try to get funding to
16 study research on breast -- on birth control. They
17 held like sterilization days in India.

18 It was super interesting. They invented, or
19 their scientists invented the Norplant implant. It
20 was -- it was a super interesting job with amazingly
21 smart people.

22 Q. And what did you do there?

23 A. So I started back as an executive assistant,
24 and then I managed, from what I remember, I was
25 involved a lot with contracts.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 11

1 Q. And after you got your MBA -- well, did you
2 stick with that job while you were getting your MBA?

3 A. I might have left. I don't remember.

4 Q. And what was your first job after your MBA?

5 A. I worked for Manufacturer's Hanover Trust
6 Company as a financial analyst.

7 Q. That is not a not-for-profit?

8 A. That is not a not-for-profit.

9 Q. And as a financial -- you said you worked as
10 a financial analyst, correct?

11 A. Correct.

12 Q. And how long were you there?

13 A. I don't even think I could recall. A good
14 couple -- a good couple of years.

15 Q. And where did you go after the Hanover
16 Trust?

17 A. After Hanover Trust, I believe I left and
18 got a job closer to home working in an investment
19 company, a privately owned investment company that did
20 individual placements, but I don't recall staying there
21 for a particularly long time.

22 Q. And when you say "closer to home," what do
23 you mean by that?

24 A. So I -- so the Manny Hanny job was in
25 Manhattan, so I was a Long Island Railroad commuter,

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 12

1 hour and a half each way every day. So I, at that time
2 lived, on Long Island, and so I got a job that I could
3 commute to in half an hour.

4 Q. And after the investment company where did
5 you go?

6 A. I think -- I think after that, unless I have
7 them reversed, I moved to Florida.

8 Q. Do you remember what year you moved to
9 Florida?

10 A. '88.

11 Q. Okay. And what was your first job in
12 Florida?

13 A. I worked at, it was called the North Broward
14 Hospital District. I think now it's called Broward
15 Health. I was a financial analyst.

16 Q. Did you work with Heather Havericak?

17 A. I -- so not at the time, but I know Heather
18 worked at Broward Health.

19 Q. And what did you do? You were -- I'm sorry.
20 You told me --

21 A. I was the financial analyst.

22 Q. Financial analyst. And how long were you at
23 Broward Health?

24 A. I was at Broward Health Coral Springs for
25 11 years.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 13

1 Q. So that takes us to '99, correct?

2 A. Correct.

3 Q. And at that point, I think, then you,
4 according to your LinkedIn profile, then you go over to
5 Tenet Healthcare, correct, in 1999, correct?

6 A. Correct.

7 Q. And what was your first job at
8 Tenet Healthcare in 1999?

9 A. My first job at Tenet Healthcare was at
10 Delray Medical Center as the director of finance.

11 Q. And generally speaking, what were your job
12 duties as the director of finance at Delray?

13 A. The director of finance is responsible for
14 doing journal entries, accounts payable, payroll,
15 closing the books at the end of the month, doing
16 balance sheet reconciliations, so really a very finance
17 focused on making sure the details were correct.

18 Q. And at the time in 1999, Delray was not part
19 of the Tenet Healthcare system, correct?

20 A. We were.

21 Q. In '99?

22 A. (Nodding head).

23 Q. So as we go through your employment history
24 from 1999 to present, was that always within
25 Tenet Healthcare, then?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 14

1 A. Yes.

2 Q. And then I assume at some point you get
3 promoted out of financial analyst, correct?

4 A. I did. So I was at Delray as the director
5 of finance, and then I got promoted to chief financial
6 officer.

7 Q. And when was that promotion?

8 A. 2001.

9 Q. And that was the chief financial officer of
10 Delray?

11 A. At West Boca.

12 Q. At West Boca.

13 And how long -- okay. So take me through
14 that. You were at Delray, but then you got promoted to
15 the CFO at West Boca?

16 A. Correct.

17 Q. And that is between two different hospitals,
18 correct?

19 A. Correct.

20 Q. Okay. Walk me through how that works.
21 They, Tenet Healthcare, will take somebody from one
22 hospital and promote them in a position to a different
23 hospital?

24 MS. MALONEY: Objection.

25 A. Correct. So within Tenet I can apply to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 15

1 change facilities if there is a position that I'm
2 interested in.

3 BY MS. BLAIR:

4 Q. And that's -- is that anywhere within Tenet,
5 or do you have to stay within the Palm Beach Health
6 Network hospitals?

7 A. Any --

8 MS. MALONEY: Objection. Lacks foundation.
9 If you could give me a second to interpose my
10 objection before you answer, that would be
11 great.

12 THE WITNESS: Yes, ma'am.

13 MS. MALONEY: Just give yourself a pause.
14 Thank you.

15 A. Repeat that question.

16 BY MS. BLAIR:

17 Q. Sure. I'm just trying to figure out how it
18 works. So you're talking about you can apply for
19 positions that are opened, correct?

20 A. Correct.

21 Q. And it sounds like at some point a position
22 became open for a CFO at West Boca, correct?

23 A. Correct.

24 Q. And so you applied for that job?

25 A. Correct.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 16

1 Q. And is it correct that you then could apply
2 as a Tenet Healthcare employee for any open positions
3 that Tenet might have regardless of geographic area?

4 A. Correct.

5 Q. Okay. So in sometime in -- oh, in 2001, you
6 became the CFO of West Boca, correct?

7 A. Correct.

8 Q. And what were your job duties as the CFO of
9 West Boca?

10 A. So as the CFO the responsibilities included,
11 we had oversight over health information management,
12 which formerly known as medical records, health
13 information management, materials management, finance
14 and accounting, admitting.

15 Q. What does admitting mean?

16 A. Admitting, so the registrars.

17 Q. Got it. And did you oversee the budget of
18 West Boca at that time as the chief financial officer?

19 A. The chief financial officer has
20 responsibility for developing the budget.

21 Q. And in or around this time, 2001, were you
22 working in concert with the other hospitals that later
23 are rebranded as Palm Beach Health Network?

24 A. I don't know that I understand the question.
25 I mean, I worked for West Boca, and we all were a part

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 17

1 of Tenet, but so I'd have to understand what you mean
2 "work with them."

3 Q. Sure. I'll jump forward a little, then.

4 A. Okay.

5 Q. In 2022, I understand that the five
6 hospitals that are plaintiffs in this litigation, which
7 would be West Boca, St. Mary's, Good Samaritan,
8 Palm Beach Gardens -- which one am I missing --
9 St. Mary's, West Boca, Good Samaritan -- sorry -- West
10 Palm and Delray, all rebrand as Palm Beach Health
11 Network, correct?

12 A. I don't think that happened at that, in
13 2020 --

14 Q. Two?

15 A. So that's, 2022 is way after I'm at West
16 Boca.

17 Q. Correct. Right.

18 A. Correct.

19 Q. So that happens in 2022, correct?

20 A. Okay.

21 Q. And in 2001, you become the chief financial
22 officer of West Boca, correct?

23 A. Correct.

24 Q. And so my question is, prior to the
25 rebranding of these five hospitals in 2022, did these

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 18

1 five hospitals work together in 2001 in any way?

2 MS. MALONEY: Objection.

3 A. So the hospitals worked together, for
4 example, if we have a patient that needs -- so if I was
5 at West Boca that didn't offer cardiology services and
6 we had a patient that needed cardiology, we could work
7 to transfer that -- our patient to Delray for services,
8 so there was not -- so work together, I mean, without
9 specificity I'm not really sure --

10 Q. Sure.

11 A. -- you know.

12 Q. And so I understand today there's a
13 president of Palm Beach Health Network, Maggie Gill,
14 correct?

15 A. Correct.

16 Q. And the Palm Beach Health Network kind of
17 provides an overarching governance for the five
18 hospitals that are plaintiffs in this action, correct?

19 A. Define "governance."

20 Q. Well, as I understand it, there's a
21 president of Palm Beach Health Network, correct?

22 A. Correct.

23 Q. There's a chief strategy officer of
24 Palm Beach Health Network, correct?

25 A. Correct.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 19

1 Q. There's a chief quality officer, Gina West,
2 of Palm Beach Health Network, correct?

3 A. Yes, but Gina also serves as my quality
4 director --

5 Q. Correct?

6 A. -- so it's a dual role.

7 Q. Right.

8 A. Right.

9 Q. And I understand that. And so I'm just
10 trying to understand, were there any people back in
11 2001 that provided these sorts of overarching roles for
12 the five hospitals, or does that come later after the
13 rebranding?

14 MS. MALONEY: Objection.

15 A. No, those -- we did have a similar
16 structure.

17 BY MS. BLAIR:

18 Q. Okay. And so taking you way back to 2001,
19 and I know it's not a memory test, but can you tell me
20 just generally what the structure was back in 2001
21 between the five hospitals?

22 A. We had -- I don't recall specific titles of
23 people.

24 Q. Understood.

25 A. There was -- I don't even remember if -- let

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 20

1 me think what they might have been called. I can't
2 recall. They weren't called a CEO. They weren't
3 called a market president. I don't recall their title,
4 but there was somebody who would have had oversight or
5 responsibility we would have rolled up to at a local
6 Florida level.

7 MS. MALONEY: And, Counsel, I assume that
8 this portion of the deposition is in her
9 capacity as a fact witness --

10 MS. BLAIR: Yes.

11 MS. MALONEY: -- not as a 30(b)(6) witness,
12 and you'll make clear when you're examining her
13 in her capacity --

14 MS. BLAIR: Correct.

15 MS. MALONEY: -- as a 30(b)(6) witness; is
16 that right?

17 MS. BLAIR: Right.

18 BY MS. BLAIR:

19 Q. And so in 2001, how long did you stay as the
20 chief financial officer of West Boca?

21 A. This is a memory test. I believe, and I
22 reserve the right to be off a little on the dates
23 because it was a long time ago, I believe I was at
24 West Boca for about two years.

25 Q. Where did you go after West Boca?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 21

1 A. After West Boca I transferred to North Ridge
2 Medical Center as their CFO.

3 Q. And where is North Ridge Medical Center?

4 A. It is in -- I don't know -- I don't know
5 what city it's in. It's just over the Broward County,
6 the next county line. Tenet no longer owns that
7 hospital. It was sold.

8 Q. Okay.

9 A. It was sold. If I went there in -- 2003 or
10 '04 -- in 2006 or '07 it was sold. A long time ago.

11 Q. Okay. And so but when you were there, when
12 you were at North Ridge Medical Center, it was a
13 Tenet hospital?

14 A. Correct.

15 Q. And when did you leave them?

16 A. I believe I left there in 2007.

17 Q. Okay. And in 2007, where did you go?

18 A. In 2007, I transferred to Good Samaritan
19 Medical Center.

20 Q. And have you been at Good Samaritan -- oh,
21 no, how long were you at Good Samaritan?

22 A. I was at Good Samaritan Medical Center for
23 five years.

24 Q. And what was your position at
25 Good Samaritan?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 22

1 A. I was the chief financial officer.

2 Q. So that takes us to about -- oh, here, now I
3 can follow along.

4 Okay. So you were the chief financial
5 officer until about September of 2012, does that sound
6 right?

7 A. Correct.

8 Q. And after that, you become the CEO of one of
9 the Tenet hospitals?

10 A. Of the physician group.

11 Q. Okay. Oh, that's right. And tell me about
12 that. What is the physician group that you were the
13 CEO of?

14 A. So Tenet corporation employs physicians, but
15 they are not employed by the hospital. They are, all
16 the physicians are employed in a separate physician
17 group, so I became the chief executive officer over the
18 physician group.

19 Q. And how many physicians were in that group?

20 A. We had approximately 200 providers.

21 Q. And were they in a specialty?

22 A. Multiple specialties.

23 Q. Do you recall any of the specialties as you
24 sit here today?

25 A. Cardiology, neurosurgery. Oh, goodness. I

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 23

1 think -- I think we had one or two
2 obstetrician/gynecologists, primary care, orthopedic.

3 Q. Did they work, all work at a certain
4 hospital, or did they have privileges at multiple
5 hospitals?

6 MS. MALONEY: Objection.

7 A. So it would be unusual for them to all work
8 at all hospitals because of geography, so they could,
9 depending on the office, their office location, be
10 affiliated with one hospital or multiple hospitals.

11 BY MS. BLAIR:

12 Q. And how long were you with the physicians
13 group?

14 A. Seven years.

15 Q. And then at some point thereafter you become
16 the chief administrative officer at St. Mary's Medical
17 Center in the Palm Beach Children's Hospital?

18 A. Correct.

19 Q. And was that in or around October of 2019?

20 A. Correct.

21 Q. What is -- what does the chief
22 administrator -- administrative officer do?

23 A. So the chief administrative officer is
24 similar to the chief executive officer. However, the
25 component of nursing leadership had more solid

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 24

1 reporting to the group chief nurse.

2 Q. Okay. And who is the group chief nurse at
3 the time that you were the chief administrative
4 officer?

5 A. \$1,000, I couldn't tell you.

6 Q. And when you say "the group chief nurse,"
7 what do you mean by "group"?

8 A. So we have the Palm Beach Health Network, so
9 that group or the network has, as you referred earlier,
10 Gina was like the group quality, a group CNO.

11 Q. Got it.

12 And so your memory is that that group
13 structure was in place at least by October of -- or I'm
14 sorry -- at least in 2019 when you became the chief
15 administrative officer at St. Mary's?

16 A. Yes.

17 Q. And the Palm Beach Children's Hospital is a
18 separate hospital, correct?

19 A. It is not a separate tax ID.

20 Q. Correct. But it's a separate building?

21 A. It is a separate building that is attached
22 to the main campus.

23 Q. And it goes by Palm Beach Children's
24 Hospital?

25 A. That's correct.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 25

1 Q. And does it have different set of finances,
2 or does it have the same finances since it has the same
3 tax ID?

4 A. Same finances.

5 Q. Same budget?

6 A. Same budget, not a separate standalone
7 budget.

8 Q. Does it have separate director of quality?

9 A. No.

10 Q. Does it have a separate chief nursing
11 officer?

12 A. No.

13 Q. Does it have a separate chief financial
14 officer?

15 A. No.

16 Q. Okay. So is it fair to say that St. Mary's
17 and the Palm Beach Children's Hospital have the same
18 C-suite executives overseeing both?

19 A. Yes.

20 Q. And then it looks like at some point in time
21 you do become the chief executive officer at
22 St. Mary's?

23 A. Correct.

24 Q. And when does that happen?

25 A. I believe it was around May --

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 26

1 Q. Of what --

2 A. -- of 2020, but scripturally I'm a little
3 unsure.

4 Q. So right during COVID?

5 A. Correct.

6 Q. And you maintain that job to today, correct?

7 A. Correct.

8 Q. And I note on your LinkedIn, and maybe it's
9 a distinction without a difference, but you list chief
10 executive officer St. Mary's Medical Center and then
11 chief executive officer Tenet Healthcare full time. Is
12 that the same job?

13 A. Yes.

14 Q. Okay. And are there any other, that you can
15 think of, positions that you've held at St. Mary's that
16 we didn't go over today?

17 A. No.

18 Q. And how many direct reports do you have as a
19 chief officer -- chief executive officer, excuse me, of
20 St. Mary's?

21 A. Four directs.

22 Q. And who are your direct reports?

23 A. The CFO, the COO, the CNO and an executive
24 assistant.

25 Q. Okay. And who is the CFO currently?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 27

1 A. Currently the CFO is Romaine Layne.
2 Q. And the COO?
3 A. Maria Morales.
4 Q. And the CNO?
5 A. We have a new CNO starting Monday.
6 Q. Okay. And who was the CNO before that?
7 A. Before that, it was Jessica Miller.
8 Q. And we talked a little bit about
9 Regina West. What is her title at St. Mary's?
10 A. Director of quality.
11 Q. And who does she report to?
12 A. She, I believe, my educated guess is that
13 she reports to the group CNO.
14 Q. So she doesn't have a direct report within
15 St. Mary's?
16 A. I'm not a thousand percent certain of who
17 Gina reports to.
18 Q. Okay. And the group CNO, is that
19 Ricky Ramirez?
20 A. It is.
21 Q. And who do you report to?
22 A. I report to Maggie Gill.
23 Q. And do you know who Maggie Gill reports to?
24 A. I believe Maggie reports to Lisa Foo.
25 Q. And that's F-o-o, correct?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 28

3 A. I believe Lisa Foo reports to Saum Sutaria.

4 Q. And Saum Sutaria is the CEO of
5 Tenet Healthcare nationwide, correct?

6 A. Correct.

7 Q. What did you do to prepare for your
8 deposition today?

9 A. I read volumes of information, including
10 the -- refreshed my memory on the Complaint, the
11 interrogatories. I spoke with counsel. I did a lot of
12 reading.

13 Q. Do you recall any specific -- well, you
14 mentioned you --

15 A. Right, the interrogatories, the Complaint,
16 the cease and desist letter. Those I specifically
17 recall.

18 Q. Do you recall reviewing any emails?

19 A. With counsel, they showed me some emails,
20 yes.

21 Q. Do you recall what any of those emails were?

22 A. I recall an email that I had written to
23 Gina West asking, we had gotten a notice from Leapfrog
24 that our new grades were coming out, so I had asked
25 Gina, do we have an estimate of what our grade will be.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 29

1 Q. Do you remember essentially the time frame
2 of that? Would that have been related to the fall of
3 2024?

4 A. I think it was before then.

5 Q. Any other emails you recall?

6 A. From me, no.

7 Q. Well, any other emails you recall reviewing
8 in preparation for your deposition?

9 A. There were some emails from Gina, again,
10 about Leapfrog and potential grades.

11 Q. Did you review the Leapfrog Hospital Survey
12 in preparation for your deposition?

13 A. I did.

14 Q. Did you review the Leapfrog Hospital Safety
15 Grade methodology in preparation for your deposition?

16 A. Yes, I did.

17 Q. Did you review any financial documents in
18 preparation for your deposition?

19 MS. MALONEY: Objection. Vague.

20 A. Financial documents? Not that I recall
21 unless you ask me specifically, yeah.

22 BY MS. BLAIR:

23 Q. Sure.

24 How many times did you meet with your
25 lawyer?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 30

1 A. Four.

2 Q. Do you recall when the first one was?

3 A. A few months ago.

4 Q. And, again, I don't know want to know about
5 any meetings you had with your lawyers that weren't
6 related to your deposition. So those would have been
7 meetings related to your deposition?

8 A. Correct.

9 Q. And do you recall approximately how long
10 that initial meeting lasted?

11 A. A few hours.

12 Q. And you said you had four meetings, correct?

13 A. Correct.

14 Q. When was the last meeting you had with your
15 lawyers to prepare for your deposition?

16 A. Yesterday.

17 Q. And how long did that last?

18 A. Maybe five hours.

19 Q. Did you review any deposition transcripts in
20 preparation for your deposition?

21 A. No.

22 Q. Have you seen any of the depositions of the
23 other CEOs that have been taken in this case?

24 A. No.

25 Q. Have you reviewed any of the documents that

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 31

1 were shown to the other CEOs at their depositions in
2 preparation for your deposition?

3 A. I don't know if they've seen the same
4 documents, so I can't speak to that.

5 Q. Excellent point.

6 How long would you estimate -- all four of
7 these meetings, how long would you estimate you spent
8 preparing for your deposition?

9 A. Including my own weekend research?

10 Q. Yeah.

11 A. A lot of hours. I mean, easily, easily --
12 it's hard to give a number because a lot was on my own
13 evening and weekend time reading, so I would -- if I
14 had to give a number, it could easily be a week's worth
15 of time.

16 Q. I'll mark this as Exhibit 1.

17 (Defendant's Exhibit Number 1 for i.d.)

18 BY MS. BLAIR:

19 Q. Ms. McCauley, I'm handing you what we've now
20 marked as McCauley Exhibit 1. And this is called,
21 titled the Amended Notice of Taking in-Person

23 and pursuant to Rule 30(b)(6) to St. Mary's Medical
24 Center.

25 Have you seen this document before?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 32

1 A. Yes.

2 Q. Did you review it in preparation for your
3 deposition?

4 A. Yes.

5 Q. And do you understand that your deposition
6 here today is not only in your personal capacity but
7 also in your capacity as a corporate representative for
8 St. Mary's?

9 A. Yes.

10 Q. And if you will look at page -- sorry -- 6
11 of this document, it says "Matters For Examination."

12 And I will submit to you that this document
13 was the product of negotiation, meet and confer
14 negotiation between myself and your counsel relating to
15 these topics.

16 And if you wouldn't mind just taking a look
17 at the topics on six through eight, and let me know if
18 those are the topics that you are prepared to testify
19 to today.

20 MS. MALONEY: Counsel, it's my understanding
21 that there was further negotiation beyond this
22 final list and that certain of these have been
23 further revised through negotiation between
24 counsel.

25 MS. BLAIR: That is not my understanding.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 33

1 This was just sent out two days ago after
2 speaking with Lee Crain.

3 MS. MALONEY: Okay.

4 MS. BLAIR: If you want to tell me which
5 ones, I'm happy --

6 MS. MALONEY: This is dated September 17.
7 Let's see.

8 MS. BLAIR: And I'm happy --

9 MS. MALONEY: And today's date is September,
10 what is it, 24th?

11 MS. BLAIR: 24th.

12 THE WITNESS: Yeah.

13 MS. MALONEY: Well, if an issue arises,
14 we'll address it.

15 MS. BLAIR: Yes, that's fine.

16 BY MS. BLAIR:

17 Q. Have you seen this document before?

18 A. It appears to be.

19 Q. Excellent. And from time to time,
20 Ms. McCauley, we will refer to these matters of
21 examination. To the extent that I ask you questions
22 here today that cover these areas, I'm going to assume
23 that you're testifying in your capacity as a corporate
24 representative.

25 A. Okay.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 34

1 Q. Do you understand the documents -- that
2 St. Mary's has produced significant amount of documents
3 in this matter as production to me in this matter, do
4 you understand that?

5 A. I know we produced documents and submitted
6 them to counsel --

7 Q. Correct.

8 A. -- who I presume submitted them to you.

9 Q. Yes. And I want to ask you, do you -- can
10 you describe to me briefly what you did -- and by
11 "you," I mean, St. Mary's --

12 A. Okay.

13 Q. -- did to gather documents responsive to the
14 request?

15 A. So I know when the documents were requested,
16 the primary person who could pull the documents was my
17 quality director, so she would have worked to pull
18 those documents and provide them to counsel.

19 Q. And, again, for the record the quality
20 director would be Gina West, correct?

21 A. That is correct.

22 Q. And have you provided to your counsel all
23 documents that set forth how St. Mary's would have
24 performed on four of the measures in the hospital
25 safety grade, which would be CPOE, BCMA hand hygiene

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 35

1 and ICU physician staffing?

2 A. Yes.

3 Q. And do you recall any conversations you had
4 with Ms. West about what documents would be gathered to
5 provide documents sufficient to simulate how St. Mary's
6 would have performed on those four measures in the fall
7 2024 or spring '25 Leapfrog Hospital Safety Grade?

8 A. Not specifically.

9 Q. But Gina West would have been the individual
10 that prepared those documents for production, correct?

11 A. She would have pulled the reports or gone
12 and searched for the reports, correct.

13 Q. And in terms of since Gina has both this
14 dual role that you spoke about earlier, which was both
15 the director of quality for St. Mary's as well as
16 the -- is she the -- well, strike that.

17 Is she director of quality for the group?

18 A. I think her title is -- I don't know if it's
19 market quality or group. You'd have to look that up.

20 Q. Okay. To your knowledge, does Gina West
21 have essentially the same quality role for the group
22 that she does for St. Mary's?

23 MS. MALONEY: Objection.

24 A. So Gina is St. Mary's' quality director, and
25 the other facilities have quality directors focused on

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 36

1 their facility. And Gina has oversight over all five.

2 BY MS. BLAIR:

3 Q. Okay. That was a bad question.

4 So does she do, for the group, does she do
5 anything besides quality for the Palm Beach Health
6 Network group?

7 A. Not that I'm aware of, but that would be
8 more of a Gina question.

9 Q. And in her role as the quality person -- I
10 don't know her title -- for the Palm Beach Health
11 Network, does she report to Maggie Gill?

12 MS. MALONEY: Objection. Asked and
13 answered.

14 A. Yeah, I believe -- and I said earlier, I
15 believe she reports to the group chief nurse.

16 BY MS. BLAIR:

17 Q. Ricky Ramirez, correct?

18 A. Correct.

19 Q. So Gina would have been responsible at least
20 for, with respect to those four measures that we just
21 discussed, CPOE, BCMA, hand hygiene and I'll just call
22 it IPS, ICU physician staffing.

23 A. Okay.

24 Q. She would have been responsible for
25 gathering the documents related to those areas for

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 37

1 production in this litigation, correct?

2 A. For St. Mary's.

3 Q. For St. Mary's.

4 A. Correct.

5 Q. In terms of producing meeting minutes, was
6 Gina West involved in gathering those documents for
7 production in this case?

8 A. Which meetings -- which meeting minutes?

9 Q. St. Mary's, board meeting.

10 A. Governing board?

11 Q. Governing board.

12 A. No.

13 Q. Okay. Who gathered those documents?

14 A. So the governing board meetings would be
15 maintained by the CEO's executive assistant who would
16 have provided them to Gina to submit.

17 Q. Okay. And who is your executive assistant?

18 A. Her name is Michelle Getty.

19 Q. What about med exec, med exec board
20 meetings, who would have gathered those?

21 A. So med exec board minutes would have been
22 requested from the manager of medical staff.

23 Q. And who is the manager of medical staff?

24 A. Delia Cortes.

25 Q. And if I use the acronym QIPSC, do you know

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 38

1 what I mean when I say QIPSC?

2 A. Yes.

3 Q. What --

4 A. Quality patient infection control [sic].
5 QIPSC. It's quality patient safety and infection
6 control [sic].

7 Q. And in terms of QIPSC -- is there a QIPSC
8 committee specific to St. Mary's?

9 A. There is.

10 Q. And who sits on that committee?

11 A. It's chaired by a physician. Gina sits on
12 it. Most of the -- I believe most of the C's, if not
13 all the C's, we sit on it. And there has been
14 community participation, like from our board member.

15 Q. Is there a specific board member that sits
16 on the QIPSC committee?

17 A. Chief Darrel Donatto was sitting on it
18 through the end of 2024.

19 Q. And do you know who would have been
20 responsible for gathering the QIPSC information from
21 St. Mary's to produce in this litigation?

22 A. I believe that would have been Gina West.

23 Q. Does St. Mary's have a marketing director?

24 A. We have a marketing, maybe her title is
25 manager.

Cynthia McCauley
September 24, 2025

Page 39

1 Q. And who is the marketing manager?

2 A. Her name is Ashley Peterson.

3 Q. Do you know if Ashley Peterson was involved
4 in gathering documents to be produced in this
5 litigation?

6 A. I would venture to say no.

7 Q. And why would you venture to say no?

8 A. Because I don't think she has any
9 involvement with any -- I think that's so outside of
10 her role.

11 Q. Do you know who at St. Mary's would have
12 been involved in gathering documents related to the
13 hospital's brand for production in this litigation?

14 MS. MALONEY: Objection. Vague. Lacks
15 foundation.

16 A. I'm unaware of any documents for St. Mary's'
17 brand.

18 BY MS. BLAIR:

19 Q. Okay. Do you know what year St. Mary's was
20 purchased by Tenet?

21 A. 2001.

22 Q. And so when you started at Delray Medical
23 Center in '99, it -- oh, well, do you know if Delray
24 was owned by Tenet in 1999 when you started at Delray?

25 A. It was.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 40

1 Q. Okay. So it -- do you know which one of
2 these five plaintiff hospitals was the first hospital
3 purchased by Tenet?

4 A. No.

5 Q. Prior to 2001 do you know whether or not
6 St. Mary's was a not-for-profit hospital?

7 A. It was.

8 Q. And as I understand it, St. Mary's has been
9 in this community for quite a while, correct?

10 A. St. Mary's has been in the community since
11 1938.

12 Q. We talked about this a little bit already,
13 but do you know when these five hospitals rebranded as
14 the Palm Beach Health Network?

15 A. I believe they rebranded maybe two years
16 ago.

17 Q. Do you know what the purpose was for the
18 rebrand?

19 A. The hospitals -- as I understand it, the
20 hospitals that are part of the Palm Beach Health
21 Network, we are the largest provider of healthcare in
22 Palm Beach, so it was felt that it was important for
23 the community to know that we were tethered together
24 and if they needed care in Palm Beach County, they
25 could get it within our network.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 41

1 Q. Do you know what -- why that wasn't done
2 earlier?

3 MS. MALONEY: Objection.

4 A. I can't -- I can't opine. Not in my
5 purview.

6 BY MS. BLAIR:

7 Q. Do you recall being part of any
8 conversations in or around the time that Palm Beach --
9 or in or around the time St. Mary's and the other four
10 plaintiff hospitals rebranded as Palm Beach Health
11 Network?

12 MS. MALONEY: Objection. Vague.

13 BY MS. BLAIR:

14 Q. I'm sorry. It was vague.

15 Do you recall any meetings in or around the
16 time that these five hospitals rebranded as the
17 Palm Beach Health Network around why the rebranding was
18 occurring at that time?

19 MS. MALONEY: Objection. Vague.

20 A. I don't know that I recall any specific
21 meeting or conversation as to the why.

22 BY MS. BLAIR:

23 Q. Were there discussions in or around the time
24 that these five hospitals were rebranding about how
25 resources would be shared to fund those personnel that

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 42

1 were now going to be working as group employees?

2 A. Not that I'm aware.

3 MS. MALONEY: Objection.

4 Give me a chance.

5 A. Not that I'm aware of.

6 BY MS. BLAIR:

7 Q. Do you --

8 MS. BLAIR: Mark this as 2.

9 (Defendant's Exhibit Number 2 for i.d.)

10 BY MS. BLAIR:

11 Q. Ms. McCauley, I'm now handing you what has
12 been marked as McCauley Exhibit 2. And this is an
13 article from the Palm Beach Post dated April 22nd,
14 2022. Do you have that in front of you?

15 A. Yes.

16 Q. And you'll see the first sentence of this
17 article says, "Five Tenet Healthcare owned hospitals in
18 Palm Beach County are retooling their image to
19 emphasize ties to local physicians and communities."

20 Do you see that?

21 A. I do see that.

22 Q. Does this refresh your recollection that
23 that rebranding probably occurred in or around April of
24 2022?

25 A. It would appear that it should be timely, to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 43

1 my recollection.

2 Q. Okay. And the next sentence says, "This
3 move comes as more residents pour into the region and
4 rival medical providers vie for new and often wealthy
5 patients."

6 Do you see that?

7 A. I do.

8 Q. Does this refresh your recollection in any
9 way that one of the purposes of the rebranding of the
10 five hospitals into the Palm Beach Health Network was
11 to compete with new entrants into the Palm Beach
12 healthcare?

13 MS. MALONEY: Objection. Lacks foundation.

14 A. So from my perspective this is an article
15 written by a newspaper writer from the Post and
16 basically they can write it as they see it. It doesn't
17 necessarily need to be the reasons behind what we did.

18 But I -- so I would be opining on why
19 Ms. Alexandra Clough wrote what she wrote.

20 Q. Okay. Do you have any recollection of
21 discussing this article in or around the time it came
22 out?

23 A. No.

24 MS. MALONEY: Objection.

25 Objection. Lacks foundation and vague.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 44

1 A. I don't remember an article from three years
2 ago.

3 BY MS. BLAIR:

4 Q. And if we look at the bottom of this page,
5 it says, "Maggie Gill, chief executive of the Palm
6 Beach Health Network, said the hospital" -- "the
7 hospital company wants to showcase that it is a local
8 provider, especially to new residents who may not be
9 familiar with the Tenet brand."

10 Do you see that?

11 A. Yes.

12 MS. MALONEY: Objection. Not a quotation in
13 the article that you're reading from. Go ahead.

14 MS. BLAIR: I don't understand the
15 objection, but, okay.

16 MS. MALONEY: Mis -- well, I'll be clear.
17 It misrepresents it in that you said
18 "Maggie Gill said," which suggests this is a
19 quotation when, in fact, the article doesn't
20 quote from her.

21 BY MS. BLAIR:

22 Q. Okay. Let's do it again, then,
23 Ms. McCauley.

24 Do you see on page -- the bottom of page 1,
25 this article says, "Maggie Gill, chief executive of the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 45

1 Palm Beach Health Network, said the hospital company
2 wants to showcase that it is a local provider,
3 especially to new residents who may not be familiar
4 with the Tenet brand."

5 Do you see that sentence?

6 A. Yes, that is what's written.

7 Q. Do you disagree that the purpose of the Palm
8 Beach Health Network was "to showcase that it is a
9 local provider, especially to new residents who may not
10 be familiar with the Tenet brand"?

11 A. Maggie goes on where she is quoted to say,
12 "We want to share what we're doing. This is our home
13 base."

14 Q. Correct.

15 A. So I believe that it's important for
16 residents who are unfamiliar with our brand to
17 understand that we have a network here to care for
18 them.

19 Q. Okay. Yeah. And that's just my question.

20 A. Yeah.

21 Q. Do you agree that part of the reason that
22 the Palm Beach Health Network rebranding occurred was
23 to showcase that it is a local provider, especially to
24 new residents who may not be familiar with the Tenet
25 brand?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 46

1 MS. MALONEY: Objection. Asked and
2 answered.

3 Go ahead.

4 A. I believe it's important to show that we are
5 a network here in Palm Beach, we're a local -- you
6 know, we're local, we are here and create awareness of
7 the five hospitals, that we have five hospitals to who
8 can basically serve you wherever you are.

9 BY MS. BLAIR:

10 Q. And in April of 2022 as the CEO of
11 St. Mary's in or around that time, was it important to
12 you to showcase that St. Mary's was a local provider?

13 MS. MALONEY: Objection.

14 A. I can't recall '22 specifically as we were
15 coming out of COVID. And I do know that our community
16 is familiar with St. Mary's.

17 BY MS. BLAIR:

18 Q. Correct. Do you know if around April of
19 2022 whether the community was familiar with the Tenet
20 brand?

21 A. I am not confident that the community is
22 familiar with the Tenet brand or not.

23 Q. Do you recall whether or not in or around
24 2022 that the five hospitals that are plaintiffs in
25 this matter were spending money to upgrade facilities?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 47

1 If you look on page 2 of this article, it's
2 in bold, "Tenet spending 150 million to upgrade
3 facilities."

4 MS. MALONEY: Objection. She is here to
5 testify in the capacity as the CEO and corporate
6 representative of St. Mary's. This is beyond
7 the scope of the 30(b)(6) --

8 MS. BLAIR: Well, I'm asking her --

9 MS. MALONEY: -- because this is as to all
10 hospitals, if you would let me finish my
11 objection. She may answer to the extent she can
12 answer this question for St. Mary's.

13 BY MS. BLAIR:

14 Q. Well, I'm asking you in your individual
15 capacity.

16 MS. MALONEY: Then you need to clarify
17 because you had specified at the beginning that
18 all of these questions would be in her capacity
19 as a corporate representative, so if we're now
20 going to --

21 MS. BLAIR: Well, I said if it had to do
22 with the topic for which she has prepared, they
23 will be as corporate representative.

24 MS. MALONEY: You haven't specified whether,
25 for any of your questions whether they're as to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 48

1 a topic or not. So I'm happy to go through and
2 every time you ask a question, say --

3 MS. BLAIR: Sure.

4 MS. MALONEY: -- "is it as to a topic and
5 which one," and we can do it that way or we can
6 make sure we're clear with each question
7 whether it's in her personal capacity --

8 MS. BLAIR: I'll ask the question --

9 MS. MALONEY: -- or as a fact witness.

10 And if, again, you would allow me to finish
11 my statement on the record before you begin
12 speaking to my client.

13 MS. BLAIR: Are you finished?

14 MS. MALONEY: Go ahead. I am now.

15 BY MS. BLAIR:

16 Q. Ms. McCauley, in your capacity as an
17 individual --

18 A. Um-hum.

19 Q. -- were you aware in April of 2022 that
20 Tenet was spending money to upgrade its facility?

21 A. I'm aware that Tenet continually spends
22 money to upgrade our facilities. I can't speak to the
23 specifics of what we did in 2022, but I do know that we
24 continually invest in our facilities to upgrade them.

25 Q. And do you recall any upgrades that

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 49

1 St. Mary's was undergoing in or around April of 2022 to
2 upgrade its facilities?

3 MS. MALONEY: And, Counsel, is this in her
4 capacity as a fact witness or --

5 BY MS. BLAIR:

6 Q. Well, it's not one of those topics, so in
7 your capacity as a fact witness, but you were also the
8 CEO of St. Mary's, can you tell me what facility
9 upgrades were occurring at St. Mary's in 2022, if you
10 know?

11 A. Specifically, I don't have that off the top
12 of my head.

13 Q. If we go on here, and we're looking at
14 page 3 of this article, third paragraph -- second full
15 paragraph, says "The Tenet hospital improvement
16 program."

17 Were you aware as to whether or not there
18 was a Tenet hospital improvement program as the CEO?
19 In your individual capacity as the CEO of St. Mary's in
20 or around April of 2022, are you aware of whether or
21 not there was a Tenet hospital improvement program
22 underway in April of 2022?

23 A. I'm unfamiliar that there was anything
24 specifically called the "Tenet hospital improvement
25 program," but we do continually work to improve our

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 50

1 services and facilities.

2 Q. And if we look at page 4 of this article,
3 there is a bold sentence about two-thirds of the way
4 down that says, "Hospitals facing increased competition
5 for locals' out-of-state care providers."

6 Do you see that sentence?

7 A. Yes.

8 Q. As the CEO of St. Mary's in or around
9 April of 2022, was there increased competition for
10 healthcare in the Palm Beach area?

11 A. There is continued increased competition. I
12 can't recall if that was '22, '20, '25. You know,
13 there's continuing competition, you know, competition
14 in our market.

15 Q. We talked a little bit about the executive
16 leadership at St. Mary's. As the corporate
17 representative of St. Mary's, can you tell me in 2024
18 who was on the med exec committee?

19 A. I would have to pull that. So by person or
20 by title?

21 Q. Well, let's just start, who was the chair of
22 the med exec committee in 2024?

23 A. In 2024, the chair of med exec was
24 Dr. Holly Lenard.

25 Q. And what is her specialty?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 51

1 A. Orthopedic surgeon.

2 Q. How many members were there of the med exec
3 committee?

4 A. I would be guessing. I could pull that
5 data. It could be 15 plus, but I -- that is not a
6 scriptural number.

7 Q. Okay. Do you sit on the med exec committee?

8 A. I do.

9 Q. Do any of the other members of the C-suite
10 sit on the med exec?

11 A. So we attend. We're nonvoting members of
12 the med exec because it's a medical executive meeting,
13 so we are not voting, so the chief executive -- the
14 chief operating officer and the chief nursing officer
15 do attend med exec.

16 Q. What types of things does the -- in your
17 capacity as the corporate representative of St. Mary's,
18 what types of things do the med exec vote on at
19 St. Mary's?

20 A. So the med exec votes on, there are reports
21 that come from different committees. For example,
22 credentials committee would present the qualifications
23 of the physicians and allied health professionals that
24 are seeking to get on staff. They would present
25 doctors requesting reappointment, providers requesting

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 52

1 resignation, any requests for expedited privileges or
2 to start before the process works the process. There
3 are reports from the chairs of medicine, surgery,
4 perinatal and pediatrics on anything that happened in
5 peer review.

6 There is a report from their treasurer.
7 There's a report from the chair of QIPSC, the physician
8 chair of QIPSC. There is a report from the physician
9 chair utilization review. There is a chief of staff
10 report and then reports from each member of my team in
11 attendance.

12 Q. And who is the physician chair of QIPSC at
13 St. Mary's?

14 A. Currently QIPSC is -- there are one or two
15 physicians, and I'm trying to think which position each
16 physician is in. QIPSC, I believe, is Dr. Faris Azar.

17 Q. Can you spell that for me?

18 A. Faris is F-a-r-i-s. Azar is A-z-a-r.

19 Q. Does the med exec vote to approve safety
20 plans?

21 A. They do.

22 Q. How many members are on the St. Mary's
23 governing board?

24 A. Eight.

25 Q. And in 2024 who was the chair of the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 53

1 governing board?

2 A. Chief Darrel Donatto.

3 Q. And what is he the chief of?

4 A. He's the fire chief. He at that time was
5 the fire chief for Palm Beach.

6 Q. Do you know who else was on the governing
7 board in 2024?

8 A. We had some turnover, so I'm trying to
9 recall specifically. Dr. Chad Sanborn,
10 Dr. Sunny Kukreja, Dr. Dror Paley, Ms. Barbara Cheives,
11 Ms. Barbara Cipriano, Denise-Marie Nieman, I believe
12 Robby Journey (phonetic), Chief Charley Coyle and
13 perhaps Chief Sarah Mooney.

14 MS. MALONEY: Ms. Blair, what topic on your
15 30(b)(6) topics do these questions relate to? I
16 appreciate that she's been able to answer them,
17 but --

18 MS. BLAIR: I just said I was asking her in
19 her individual capacity.

20 MS. MALONEY: No, but -- but when --

21 MS. BLAIR: I did not ask her this question
22 as a 30(b)(6) witness.

23 MS. MALONEY: "Do you know who else was on
24 the governing board" you didn't ask as in her
25 personal capacity. And earlier than that when

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 54

1 you were going through -- I didn't know you
2 changed because when you were asking these
3 questions about the med exec committee, that was
4 specifically in her corporate capacity.

5 MS. BLAIR: Going forward, I'll ask her in
6 her corporate capacity if it's in her corporate
7 capacity.

8 MS. MALONEY: And I'd appreciate it --

9 MS. BLAIR: Okay. Fine.

10 MS. MALONEY: -- if you would also say what
11 topic it is because I --

12 MS. BLAIR: Okay. Fine.

13 MS. MALONEY: -- really don't know what
14 topic the medical exec committee related to.
15 And I just -- she did prepare a lot so I want to
16 make sure --

17 MS. BLAIR: Sure, that's fine.

18 MS. MALONEY: -- that there's no question as
19 to her being responsive to the topics that are
20 actually agreed to.

21 MS. BLAIR: And obviously if she answers a
22 question that's not on a topic, it cannot be in
23 her corporate capacity. I think we all agree
24 with that.

25 MS. MALONEY: Okay.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 55

1 BY MS. BLAIR:

2 Q. So I'm asking you these as the CEO of
3 St. Mary's in your factual capacity --

4 A. Okay.

5 Q. -- as a fact witness.

6 You listed three different doctors:

7 Dr. Sanborn -- I can't pronounce some of these names,
8 but are they doctors at St. Mary's or another facility?

9 A. They are at St. Mary's.

10 Q. And then Chief Coyle, what is he the chief
11 of?

12 A. He is -- he's in fire, so he is a fire
13 rescue chief in Palm Beach County.

14 Q. And Chief Sarah Mooney?

15 A. Mooney. She is the chief for the Palm Beach
16 School Board Chief of Police.

17 Q. How long is the term of a governing board
18 member for St. Mary's?

19 A. Three years.

20 Q. Do they -- are they staggered terms?

21 A. They're staggered terms.

22 Q. Are they like January to January for that
23 three-year period?

24 A. Yes.

25 Q. How many of the members of the governing

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 56

1 board came off the board in January of 2025?

2 A. I'd have to -- it's a pretty specific
3 question.

4 Q. Have you ever had trouble filling board
5 positions?

6 A. Never.

7 Q. In terms of marketing for St. Mary's, we
8 talked a little bit earlier about, and her name escapes
9 me, that there is a marketing director I want to say.

10 A. I think she's a manager.

11 Q. And who is the marketing manager again?

12 A. Ashley Peterson.

13 Q. And what are Ashley Peterson's job duties as
14 the marketing manager at St. Mary's?

15 A. So Ashley would help us if we're doing
16 community events. For example, if we're having a NICU
17 reunion, a trauma survivor reunion, she would plan,
18 coordinate.

19 She would assist us, for example, if we were
20 having -- during stroke awareness month, she would
21 assist to get a physician and the team to go present in
22 the community to educate on the warning signs for
23 strokes so that the population is aware. She could
24 help coordinate with clinical caregivers, Stop the
25 Bleed program so that the community can know how to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 57

1 provide immediate response in an event.

2 She does do social media posts on events at
3 the facility, for example the educational programs.
4 That's largely what she does. She would man if you had
5 a -- if we participated at a fair, let's say The Green
6 Market Fair and had a table, she would, you know, be at
7 the table and if people wanted information, they could
8 get it.

9 Q. Does she put out press releases for
10 St. Mary's?

11 A. No.

12 Q. Who puts out press releases for St. Mary's?

13 A. Press releases would come from a market, a
14 group individual.

15 Q. And when you say "a group individual,"
16 you're referring to the Palm Beach Health Network?

17 A. Correct.

18 Q. And do you know who that would be?

19 A. That would probably be Andrew Lofholm.

20 Q. And then we talked about the fact that
21 Regina West is the quality director for St. Mary's,
22 correct?

23 A. She is.

24 Q. What type of quality committees does
25 St. Mary's have?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 58

1 A. The most important meeting is the QIPSC, the
2 QIPSC meeting.

3 Q. And that's the most important meeting. Are
4 there other quality committees at St. Mary's?

5 A. On a monthly basis, we have a QMOR meeting,
6 a quality monthly operating report meeting.

7 Q. And who attends those meetings?

8 A. The directors, the C-suite. Gina would lead
9 that.

10 Q. And when you say "the directors," who are
11 you referring to specifically?

12 A. So a nursing director, a lab director, a
13 pharmacy director, so our leadership team.

14 Q. And does Gina put out agendas for those
15 meetings?

16 A. Yes.

17 Q. Do you approve the agendas?

18 A. No.

19 Q. Are there minutes that result from those
20 QMOR meetings?

21 A. QMOR, I'm not certain.

22 Q. And the QIPSC meetings at St. Mary's, are
23 there agendas that are put out for those meetings?

24 A. Yes.

25 Q. And are there minutes that come out of those

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 59

1 meetings?

2 A. Yes.

3 Q. Are there slide decks that are presented at
4 those meetings?

5 A. I believe I've seen PowerPoints.

6 Q. And how often are the QIPSC meetings at
7 St. Mary's?

8 A. I believe the QIPSC meetings are monthly.

9 Q. So we have monthly QMOR meetings and monthly
10 QIPSC meetings. Are there any other quality meetings
11 that you -- at St. Mary's that you're aware of?

12 A. Those are the two that I attend.

13 Q. And I know they're the two that you attend,
14 but are you aware of whether there's any others?

15 A. I'm not positive.

16 MS. MALONEY: If we're -- oh, sorry. If
17 we're -- I was just going to say if we could
18 take a break if you're at a good --

19 MS. BLAIR: Of course, yes.

20 MS. MALONEY: -- if you're within your
21 section, of course, but if you --

22 MS. BLAIR: No, no, no.

23 MS. MALONEY: -- if there's a good time for
24 a break.

25 MS. BLAIR: I have no sections. Yes, it's a

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 60

1 great time for a break.

2 THE VIDEOGRAPHER: Off the record, 10:13.

3 (A recess was taken from 10:13 a.m. to 10:21 a.m.)

4 THE VIDEOGRAPHER: Back on the record,
5 10:21.

6 BY MS. BLAIR:

7 Q. Ms. McCauley, I want to turn now just to the
8 Palm Beach Health Network and the organization of that.
9 And obviously I'll be asking you these questions in
10 your factual capacity as a witness here today. This is
11 not a 30(b)(6) topic.

12 Maggie Gill is the president of Palm Beach
13 Health Network, correct?

14 A. Correct.

15 Q. Do you know when she became the president of
16 the Palm Beach Health Network?

17 A. No.

18 Q. Was Maggie Gill involved -- well, we saw an
19 article earlier today that we marked as Exhibit 2 which
20 showed that in or around April of 2022 is when that
21 Palm Beach Health Network rebranded or Palm Beach
22 Health Network was branded, correct?

23 A. Correct.

24 Q. Do you know did Maggie Gill have any role
25 with respect to in any way with respect to St. Mary's

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 61

1 prior to April of 2022?

2 A. What was the question?

3 Q. Maggie Gill, did she have any role on any
4 sort of level with respect to St. Mary's prior to
5 April of 2022?

6 A. I believe prior to 2022 she was still in the
7 market as the group leader.

8 Q. Okay. So there was a group leader of these
9 five hospitals prior to the rebranding of these
10 hospitals as the Palm Beach Health Network, correct?

11 MS. MALONEY: Objection.

12 A. That's my -- that's my -- group leader may
13 not be her official title, but, yes, she was president
14 and had oversight.

15 BY MS. BLAIR:

16 Q. So I just want to sort of divide the time
17 between -- between prior to Palm Beach Health Network
18 becoming a brand and after that time, so I want to talk
19 about pre April of 2022. What type of support, if any,
20 did Maggie Gill provide to St. Mary's prior to April of
21 2022?

22 A. Can you define "support"?

23 Q. Yes. Well, you said you thought she was the
24 group leader, although that might not have been her
25 exact title --

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 62

1 A. Correct.

2 Q. -- prior to April of 2022. And so my
3 question is, what services did she provide to
4 St. Mary's prior to April of 2022 in her capacity as
5 group leader?

6 A. Prior to April 2022 for the two years that I
7 was there was predominantly COVID period, so Maggie
8 would have been instrumental in coordinating our
9 efforts in working through COVID protocols and
10 establishing pathways for patients, not from a clinical
11 perspective because she's not a nurse.

12 Q. Right. And so just talking about those
13 COVID protocols, would she have been involved in COVID
14 protocols that overarched all five hospitals?

15 A. So Maggie would have coordinated or called
16 us together to ensure that we were all moving in a
17 similar fashion.

18 Q. So prior to April of 2022 before Palm Beach
19 Health Network existed did the five CEOs of the five
20 plaintiff hospitals have regular meetings?

21 A. During COVID, meetings -- the topics were
22 primarily COVID, and we would group up, not in person,
23 to review -- to make sure if we had questions about how
24 to share supplies if somebody didn't have N95s. There
25 was a lot of communication amongst us to ensure sure we

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 63

1 could meet our patients' needs.

2 Q. Prior to April of 2022 did the five
3 hospitals coordinate their marketing efforts?

4 A. I don't recall.

5 Q. Prior to April of 2022 did the five
6 hospitals coordinate their quality efforts?

7 A. I don't recall.

8 Q. Prior to April of 2022 did the five
9 hospitals coordinate any of their financial efforts?

10 A. I don't know what that means.

11 Q. Did you share money in any way prior to
12 April of 2022?

13 A. Not that I'm aware of.

14 Q. And then post 2020 -- April of 2022 after
15 the rebranding of these five hospitals as the Palm
16 Beach Health Network did Maggie -- in your view as the
17 CEO of St. Mary's, did Maggie Gill's role change in any
18 way?

19 A. Not in my view.

20 Q. And how do you view Maggie Gill's role today
21 for the Palm Beach Health Network?

22 A. Maggie is responsible for the market.

23 Q. When you say "the market," what do you mean
24 by that?

25 A. I mean the five hospitals and the physician

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 64

1 group.

2 Q. And when you say she's responsible for them,
3 in what way?

4 A. She would be involved with ensuring that we
5 produce a budget and deliver on our budget.

6 Q. Other than the budget does she oversee your
7 hospital in any other way?

8 A. I'm not really sure what the question means.

9 Q. Yeah. So you said she makes sure that you
10 deliver a budget and you stick to the budget, correct?

11 A. Correct.

12 Q. What about marketing, does she oversee these
13 five hospitals' marketing efforts?

14 A. I can't speak to her involvement with the
15 group marketing person.

16 Q. And the group marketing person is Lisa Cook?

17 A. Correct.

18 Q. Does she oversee quality, oversee and/or
19 coordinate the quality of these five hospitals?

20 A. I suppose what is "oversee"? Does she --
21 what does "oversee" mean?

22 Q. Well, you tell me. What involvement does
23 Maggie Gill have in the patient safety and quality of
24 the five hospitals that are the plaintiffs in this
25 litigation?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 65

1 A. So Maggie equally participates in a group
2 quality -- quality, we call it QMOR, score --
3 presentation that Gina leads where she would review the
4 quality metrics for each facility.

5 Q. So there are QMOR meetings specific to
6 St. Mary's, and there are QMOR meetings of the five
7 hospitals as a group; is that correct?

8 A. Correct.

9 Q. And who attends the QMOR meetings of, we'll
10 just call it Palm Beach Health Network, the five
11 hospitals?

12 A. Certainly the five CEOs. The quality
13 directors from each facility, Maggie.

14 Q. Anyone else you can think of?

15 A. I invite my chief nurse. I can't speak to
16 who the others invite.

17 Q. Is Ricky Ramirez there?

18 A. Yes, I've seen Ricky there.

19 Q. Are there agendas that are circulated for
20 the Palm Beach Health Network QMOR meetings?

21 A. I'm not positive if there's a specific
22 agenda, but there is a standard slide deck.

23 Q. Okay. So it's your memory that there's a
24 slide deck for each of these monthly QMOR meetings?

25 A. Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 66

1 Q. Are there meeting minutes for the Palm Beach
2 Health Network QMOR meetings?

3 A. I'm not positive.

4 Q. Did you review any QMOR meeting minutes in
5 preparation for your deposition?

6 A. I reviewed a lot of documents. I can't say
7 specifically if I reviewed them for this depo.

8 Q. Does Maggie Gill communicate directly with
9 Tenet Healthcare home office on behalf of what we're
10 calling the market, these five hospitals?

11 A. I can't speak to who Maggie communicates
12 with.

13 Q. Do you have regular meetings with Tenet home
14 office related to St. Mary's?

15 A. No.

16 Q. And Maggie reports to Lisa Foo, correct?

17 A. Correct.

18 Q. And Lisa Foo is at Tenet home office,
19 correct?

20 A. Correct.

21 Q. We talked about Regina West already. Do you
22 know what types of data she tracks for Palm Beach
23 Health Network?

24 A. I know some of the data she tracks.

25 Q. What is some of it?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 67

1 A. I know she tracks infections.

2 Q. Anything else?

3 A. CMS reported data.

4 Q. So that would be HCAHPS, for example?

5 A. Correct.

6 Q. And when you say "infections," is that HAIs?

7 A. Correct.

8 Q. Any other data that you know of that she
9 tracks?

10 A. Gina would probably be better to respond to
11 everything she tracks.

12 Q. But to the best of your knowledge, that's
13 the type of thing she tracks for the Palm Beach Health
14 Network as a whole, correct?

15 A. Correct.

16 Q. Do you know whether or not Gina West in her
17 role as the quality director for the public -- or Palm
18 Beach Health Network produces an overall hospital
19 safety plan for the network?

20 A. I'm not certain.

21 Q. Do you know whether or not these five
22 plaintiff hospitals coordinate their hospital safety
23 plan in any way?

24 A. I'm not certain.

25 Q. When putting together the hospital safety

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 68

1 plan for St. Mary's, do you know whether or not
2 Gina West speaks to any of the quality directors at any
3 of the other four Palm Beach Health Network hospitals?

4 A. I do not know.

5 Q. Gina West would be the right person to ask?

6 A. Yes.

7 Q. Is Gina West responsible for collecting the
8 data that's reported to CMS on behalf of St. Mary's?

9 A. Not -- I don't believe she personally
10 collects it, no.

11 Q. Okay. And I guess I thought my question
12 was, but maybe it wasn't. Do you know if she's
13 responsible for the collection of data that gets
14 submitted to CMS on behalf of St. Mary's?

15 A. I know that the information goes through the
16 quality department. So is it Gina or one of her staff?
17 I don't know.

18 Q. Okay. Is Gina in charge of the quality
19 department for St. Mary's?

20 A. Yes.

21 Q. So regardless of who collects it, would you
22 consider Gina to be responsible for the submission of
23 the CMS data?

24 MS. MALONEY: Objection to form. Vague.

25 A. I guess it depends on what you mean by

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 69

1 "submission."

2 BY MS. BLAIR:

3 Q. Sure. Is data submitted to CMS regularly?

4 A. Yes.

5 MS. MALONEY: Objection to form. Vague.

6 Just can we make -- are you talking about

7 St. Mary's, or are you talking about --

8 MS. BLAIR: St. Mary's, yes. St. Mary's. I

9 thought that was in my earlier question.

10 MS. MALONEY: No.

11 MS. BLAIR: "Is Gina in charge of quality

12 for St. Mary's," so we're talking about

13 St. Mary's.

14 BY MS. BLAIR:

15 Q. As the CEO of St. Mary's, how does data get

16 submitted to CMS?

17 A. My understanding is that it's electronic

18 based off of claims data, but that is about as much as

19 I could answer.

20 Q. Okay. Do you know if Gina is responsible

21 for checking the accuracy for St. Mary's of the CMS

22 data that's submitted?

23 A. Gina's department would be responsible.

24 Q. Do you know if St. Mary's has ever had

25 issues with the data being submitted to CMS being

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 70

1 inaccurate?

2 A. That would be a better question for Gina.

3 Q. So you don't know as you sit here?

4 A. I don't want to give my opinion, not
5 factual, right?

6 Q. Yeah, I don't want an opinion. I'm just
7 asking, do you know whether CMS, there has ever been
8 issues -- so factually, not your opinion, do you know
9 if there's ever been issues with respect to the
10 accuracy of the data that St. Mary's has submitted to
11 CMS?

12 A. I am unaware.

13 Q. Derek Collins is the chief strategy officer
14 of Palm Beach Health Network, correct?

15 A. Correct.

16 Q. Do you know what his jobs are or his job
17 duties are? Excuse me.

18 A. Not fully.

19 Q. So what about generally?

20 A. So he would -- let me think what he would --
21 what Derek does. Derek would coordinate with
22 St. Mary's if we were looking to fill an unmet
23 community need for a physician, and he would help us
24 strategize whether we should relocate somebody or hire
25 someone, his team could pull the data on how many are

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 71

1 in the community so that we could determine how to meet
2 community need.

3 Q. Does he produce a business plan for the five
4 hospitals that make up Palm Beach Health Network?

5 A. I don't know that I've seen a business plan.

6 Q. Is he involved in any way in analyzing the
7 competitive position of St. Mary's as compared to
8 competitors in the area?

9 A. He may be.

10 Q. And when you say "he may be," I want to know
11 whether you know.

12 A. Yeah, if there's data, it's really old. A
13 lot of publicly available data lags a year, year and a
14 half.

15 Q. Do you know whether or not Derek Collins has
16 ever produced any market positioning reports for
17 St. Mary's?

18 A. Not that I'm aware of.

19 Q. Do you know whether he's ever produced any
20 marketing position reports for Palm Beach Health
21 Network?

22 A. I'm unaware.

23 Q. Do you know whether or not Derek Collins has
24 ever produced any brand recognition documents with
25 respect to St. Mary's?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 72

1 A. I'm not aware.

2 Q. Are you aware of whether anybody has
3 produced any brand recognition documents related to
4 St. Mary's?

5 A. I don't recall.

6 MS. MALONEY: Objection.

7 A. I don't recall having seen any.

8 BY MS. BLAIR:

9 Q. Does Derek Collins provide any reports
10 related to benchmarking of any of the five hospitals
11 that make up Palm Beach Network as it compares to their
12 competitors in the market?

13 MS. MALONEY: Objection. Vague. Lacks
14 foundation.

15 A. I don't recall having that conversation with
16 Derek.

17 BY MS. BLAIR:

18 Q. In terms of Ricky Ramirez, he is the group
19 chief nursing officer for Palm Beach Health Network,
20 correct?

21 A. Correct.

22 Q. And generally speaking, can you describe for
23 me what you believe his job duties are in that
24 position?

25 A. So my belief of what Ricky would do, so, for

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 73

1 example, I have a new chief nurse starting next week,
2 so I could pair my new chief nurse with Ricky so that
3 he could onboard her from a nursing executive

5 requirements in her nursing specific role.

6 Q. Okay. So I'm paraphrasing, but he would be
7 helpful in training a new chief nursing officer for
8 St. Mary's, correct?

9 A. Yes.

10 MS. MALONEY: Objection.

11 A. Yes.

12 BY MS. BLAIR:

13 Q. Does he have any involvement in the hiring
14 of nurse staffing for St. Mary's?

15 A. No.

16 Q. Does he have any involvement in creating any
17 plans for how to increase nurse retention at
18 St. Mary's?

19 A. Say the question again.

20 Q. Sure. Let me lay a little foundation.

21 Do you at St. Mary's, does St. Mary's have
22 any issues regarding retention of nurses?

23 MS. MALONEY: Objection. Lacks foundation
24 and vague.

25 A. We have a steady pipeline and a very robust

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 74

1 recruitment and externship program.

2 BY MS. BLAIR:

3 Q. So you don't have nurse retention issues; is
4 that fair?

5 MS. MALONEY: Objection. Vague.

6 A. I guess it would need more color to it.

7 BY MS. BLAIR:

8 Q. Sure. Do you have a nursing shortage
9 currently at St. Mary's?

10 A. I would not say we're in a nursing shortage.

11 Q. In the last three years has St. Mary's ever
12 had difficulty keeping nurses employed at St. Mary's?

13 MS. MALONEY: Objection.

14 A. I would say in the COVID, post, immediate
15 post COVID, every hospital struggled with nurse
16 retention.

17 BY MS. BLAIR:

18 Q. That's a good point. So let's take 2023 to
19 present, has St. Mary's had nurse retention issues?

20 MS. MALONEY: Objection.

21 A. We have a fairly high -- what's the word --
22 rate of keeping our nurses, especially newer nurses.
23 Like our newer nurses, we have a 95 percent retention
24 rate, success rate.

25

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 75

1 BY MS. BLAIR:

2 Q. And so Ricky Ramirez, getting back to
3 Ricky Ramirez, he doesn't really, at least for
4 St. Mary's, he doesn't have any involvement currently
5 in any nurse retention issues at St. Mary's; is that
6 fair?

7 A. Not overtly unless I included him within an
8 issue, which I don't recall.

9 Q. Do you know whether or not Ricky Ramirez has
10 dealings with nurse unions on behalf of St. Mary's?

11 A. I don't believe he does.

12 Q. Okay. And there is a nurse's union at
13 St. Mary's, correct?

14 A. There is.

15 Q. And what is the name of that union?

16 A. SEIU 1199.

17 Q. Does Palm Beach Health Network have an
18 overarching nurse training protocol for all five
19 hospitals?

20 MS. MALONEY: Objection. Lacks foundation.
21 Vague.

22 A. We have an education department that
23 provides ongoing education.

24 BY MS. BLAIR:

25 Q. And when you say "we," are you referring to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 76

1 St. Mary's?

3 Q. And so my question is, in terms of the
4 Palm Beach Health Network, do you know whether the Palm
5 Beach Health Network has an education program for
6 nurses that funnels down into St. Mary's?

7 MS. MALONEY: Objection.

8 A. We have a market education, nurse education
9 person.

10 BY MS. BLAIR:

11 Q. And who is that, if you know?

12 A. I'm trying to think of her last name. I
13 know it, but I can't think of it. I will think of her
14 name. I would be embarrassed if she knew I couldn't
15 remember her name.

16 Q. We won't tell her.

17 A. I can't think of her last name.

18 Q. That's all right.

19 And that person would be at the St. Mary's
20 level, at the local hospital level?

21 A. Her office is at St. Mary's.

22 Q. Okay. But she works on behalf of the
23 Palm Beach Health Network?

24 A. Correct.

25 Q. Shannon Wills is the group chief human

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 77

1 resources officer, correct?

2 A. Yes.

3 Q. Is Shannon Wills a man or a woman?

4 A. A girl.

5 Q. And is Shannon Wills involved in hiring of
6 nurses?

7 A. Not for St. Mary's.

8 Q. Okay. What do you understand Shannon Wills'
9 job responsibilities to be?

10 A. So she is the -- if I have a local chief HR
11 officer, if there is something that requires a next
12 level above with an employee issue, we could loop in
13 Shannon.

14 Q. Okay. And Shannon has nothing to do with
15 safety patient or quality; is that fair?

16 A. No, that's fair.

17 Q. And Lisa Cook is the marketing director for
18 Palm Beach Health Network?

19 A. Correct.

20 Q. And what do you understand Lisa Cook's
21 responsibilities to be?

22 A. My understanding is Lisa is primarily the
23 marketing person for Delray. I understand that Lisa
24 can also coordinate if there is an event that would
25 serve multiple hospitals to coordinate which marketing

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 78

1 person should be at that event.

2 Q. Do you know if Lisa Cook had any involvement
3 with respect to the press surrounding this lawsuit?

4 A. I would have no idea.

5 Q. So we've talked about in terms of the
6 organization, St. Mary's is part of this market group,
7 the Palm Beach Health Network, correct?

8 A. Correct.

9 Q. And then the Palm Beach Health Network is
10 part of Tenet Healthcare overall, correct?

11 A. Correct.

12 Q. Do you have -- do you know what influence,
13 if any, the Tenet health network, so the parent
14 company, has over the operations of St. Mary's?

15 MS. MALONEY: Objection. Lacks foundation.
16 Vague.

17 A. No.

18 BY MS. BLAIR:

19 Q. So you were at St. Mary's in 2021, correct?

20 A. Correct.

21 Q. And in 2021, St. Mary's stopped

24 Q. Do you know what -- why St. Mary's stopped
25 participating in the Leapfrog Hospital Survey?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 79

1 A. Yes.

2 Q. Why?

3 A. So Leapfrog is not a required or regulatory
4 survey. The facility does not participate in optional
5 surveys. It was also our feeling that Leapfrog, unlike
6 other surveys, that you apply and they come on site and
7 validate your responses, that, in our experience, is
8 not the method for Leapfrog. They -- you complete a
9 survey and submit it, and it's more of a trust but
10 verify.

11 Q. Okay. And I asked you that question in your
12 individual factual capacity. But in your corporate
13 capacity on behalf of St. Mary's why did St. Mary's
14 stop participating in the Leapfrog Hospital Survey in
15 or around 2021?

16 A. My answer would be the same. It's a very --
17 it's a 300-plus-page survey that takes a significant
18 amount of time to complete, and there is no onsite
19 validation by Leapfrog to validate that the person or
20 the facility submitting the survey -- there's no
21 validation, unlike a CARF survey or an ACS survey or a
22 Joint Commission survey.

23 Q. And Joint Commission, is that regulatory?

24 A. Joint Commission is -- the Joint Commission
25 for the accreditation on healthcare, they --

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 80

1 I'm feeling a little -- a little
2 lightheaded.

3 Q. Oh, okay. Do you want to stop? Let's stop.

4 MS. MALONEY: Yeah, let's...

5 MS. BLAIR: Yeah, we can --

6 THE WITNESS: Yeah, I have a little stomach
7 thing going on.

8 THE VIDEOGRAPHER: Off the record, 10:48.

9 (A recess was taken from 10:48 a.m. to 11:35 a.m.)

10 THE VIDEOGRAPHER: This is media unit number
11 two. The time is 11:35. We're back on the
12 record.

13 BY MS. BLAIR:

14 Q. Ms. McCauley, are you feeling better?

15 A. Much better.

16 Q. Excellent. Thank you.

17 And I did not realize you were feeling ill
18 earlier. But is there any reason that you can't answer
19 my questions clearly and completely and truthfully
20 today?

21 A. No.

22 Q. Okay. Excellent.

23 So before the break we were talking about
24 the decision by St. Mary's to stop participating in the
25 Leapfrog Hospital Safety Grade. Do you recall that?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 81

1 A. Yes.

2 Q. And I think you gave me a complete answer to
3 that question, but I just want to go back and make
4 sure.

5 A. Okay.

6 Q. I asked you in your capacity as the
7 corporate representative of St. Mary's what was the
8 reason that St. Mary's stopped participating in the
9 Leapfrog Hospital Survey?

10 A. So --

11 MS. MALONEY: Objection. It's been
12 answered.

13 MS. BLAIR: I know, but I wasn't sure if I
14 got a complete answer, so since we had to go off
15 the record I want to make sure.

16 A. So St. Mary's made the decision to not
17 continue with the Leapfrog survey largely due to the
18 fact that we do not participate in elective
19 nonregulatory surveys, and Leapfrog in and of itself is
20 a survey unlike CARF, ACS, Joint Commission, et cetera,
21 where you complete the survey, and they come on site to
22 validate that what you said -- you know, they come and
23 they observe firsthand what's accurate. So that's a
24 little deeper -- different than our experience with how
25 Leapfrog has worked.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 82

1 BY MS. BLAIR:

2 Q. And at least in '19, '20 and '21, St. Mary's
3 did participate in the safety grade, correct?

4 A. Yes, we did.

5 Q. Did Palm Beach Children's Hospital -- you
6 know what? That was a bad question.

7 At least '19, '20 and '21 St. Mary's
8 participated in the hospital survey?

9 A. That is correct.

10 Q. Did Palm Beach Children's Hospital
11 separately participate in the Leapfrog Hospital Survey?

12 A. It's not a separate tax ID, so, no, any of
13 the results from the Leapfrog, from the earlier
14 Leapfrog surveys would have represented both St. Mary's
15 and the Palm Beach Children's Hospital, which is a
16 little unusual because I thought Leapfrog didn't survey
17 children's hospitals or oncology programs. But the
18 data that was submitted earlier would have been
19 encompassing of that.

20 Q. And I think we're talking about two
21 different things. So there's the hospital survey,
22 correct?

23 A. You're talking the Leapfrog survey?

24 Q. The Leapfrog Hospital Survey.

25 A. Correct.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 83

1 Q. And then there's the Leapfrog Hospital
2 Safety Grade, correct?

3 A. So Leapfrog assigns a safety grade.

4 Q. Correct. And in terms of the survey,
5 participating in the survey, St. Mary's participated in
6 the survey, correct?

7 A. St. Mary's participated in the survey, but
8 it would have been inclusive of any information from
9 the Palm Beach Children's Hospital.

10 Q. Okay. So when St. Mary's responded to the
11 survey, at least in '19, '20 and '21 when you were the
12 CEO of St. Mary's, you would have included information
13 in your survey answers for both St. Mary's as well as
14 the Palm Beach Children's Hospital?

15 MS. MALONEY: Objection. Mischaracterizes
16 her testimony.

17 A. They're not separately reported so it would
18 have been aggregate.

19 BY MS. BLAIR:

20 Q. In the survey response, correct?

21 A. Correct.

22 Q. Did you understand in between 2019 and 2021
23 that Leapfrog offered a hospital survey, not the safety
24 grade, the survey for pediatric hospitals?

25 A. I don't know that I was aware of that.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 84

1 Q. And you understand that Leapfrog does not
2 provide safety grades to pediatric hospitals, correct?

3 A. Correct.

4 Q. As the CEO of St. Mary's in your individual
5 capacity but as a CEO, what is the most important
6 principle of an acute care hospital?

7 A. I think the most important aspect would be
8 patient safety and quality.

9 Q. Do you define "quality" separate and apart
10 from patient safety?

11 A. In my -- in my view, patient safety is a
12 part of quality.

13 Q. And how do you define patient safety?

14 A. Patient safety would encompass doing right
15 thing at the right time at the right place for the
16 patient.

17 Q. And how is, in your opinion, quality more
18 all-encompassing than patient safety?

19 A. Quality would include different components,
20 would also include infection control, and I think it's
21 a little bit more, it could be viewed as a little bit
22 more overarching, but certainly patient safety is the
23 building block for quality.

24 Q. Okay. And would you agree with me that as
25 the CEO of St. Mary's, you would want patients to leave

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 85

1 St. Mary's after being admitted in a better position
2 than they were when they came?

3 A. If that --

4 MS. MALONEY: Objection.

5 A. If that's medically possible, yes.

6 BY MS. BLAIR:

7 Q. Would you agree with me that it's important
8 to St. Mary's that the level of hospital-acquired
9 infections be as low as possible?

10 A. Agree.

11 Q. And when I say "hospital-acquired
12 infection," what do you mean that -- what do you think
13 I mean by that?

14 MS. MALONEY: Objection.

15 BY MS. BLAIR:

16 Q. Sure.

17 A. So when we -- when we refer to HAIs, that
18 would include CAUTI, CLABSI.

19 Q. C. diff?

20 A. C. diff, MRSA.

21 Q. SSI?

22 A. Yes.

23 Q. I just want to make sure. I'm saying
24 hospital-acquired infections, and I want to make sure
25 that we're understanding.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 86

1 And is it your understanding that that's how
2 CMS defines HAIs as well?

3 MS. MALONEY: Objection. Lacks foundation
4 and vague.

5 A. Scripturally, I don't know if that's how
6 they define it. I don't know that I've heard that
7 definition.

8 BY MS. BLAIR:

9 Q. Do you know if CMS provides empirical
10 reports with respect to CAUTI infections at hospitals?

11 MS. MALONEY: Objection.

12 A. Empirical reports?

13 BY MS. BLAIR:

14 Q. Yes.

15 A. I knew that we provide data to CMS.

16 Q. Correct.

17 A. Right.

18 Q. So CMS tracks data related to CAUTI,
19 correct?

20 A. Correct.

21 MS. MALONEY: Objection.

22 BY MS. BLAIR:

23 Q. And do you know as the CEO of a hospital
24 whether CMS tracks data on CLABSI?

25 MS. MALONEY: Objection.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 87

1 A. Yes.

2 BY MS. BLAIR:

3 Q. Same question with respect to SSI.

4 MS. MALONEY: Objection.

5 A. Yes.

6 BY MS. BLAIR:

7 Q. And what about C. diff, do you know as the
8 CEO of the hospital whether CMS tracks data related to
9 C. diff at St. Mary's?

10 MS. MALONEY: Objection.

11 A. I believe it's one of the data points.

12 BY MS. BLAIR:

13 Q. Do you know what I mean when I use the
14 expression "HCAHPS"?

15 A. Yes.

16 Q. And how do you, in your experience as the
17 CEO of a hospital, define HCAHPS?

18 A. HCAHPS is the patient's perception of the
19 care they received.

20 Q. And is it important to St. Mary's as the CEO
21 of St. Mary's, is it important to St. Mary's that
22 patients have high patient experience at St. Mary's?

23 A. Yes.

24 Q. And so to put it another way, patient
25 experience is important to St. Mary's, correct?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 88

1 A. Correct.

2 Q. Would you agree with me that it's important
3 that patients have information publicly available to
4 them related to HAIs at hospitals?

5 MS. MALONEY: Objection.

6 A. I believe the data is available to the
7 patients should they choose to go to the CMS website to
8 find it.

9 BY MS. BLAIR:

10 Q. And do you think it's important that
11 patients have access to that type of data?

12 A. Yes.

13 Q. And would you agree with me that it's
14 important that a governing board of a hospital have
15 information related to the hospital's HAIs?

16 A. Yes.

17 Q. And would you agree with me that it's
18 important to -- that a governing board of a hospital
19 have accurate and up-to-date information related to
20 HCAHPS for a particular hospital?

21 A. Yes.

22 Q. And would you agree with me that it's
23 important that the med exec have up-to-date and
24 accurate information related to HAI's?

25 A. Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 89

1 Q. And also important that the med exec have
2 accurate and up-to-date information related to HCAHPS
3 at a particular hospital?

4 A. Yes.

5 Q. Would you agree with me that hand hygiene is
6 important to a hospital?

7 A. Yes.

8 Q. Do you know what I mean when I say CPOE?

9 A. Physician order entry.

10 Q. And St. Mary's has a computerized physician
11 order entry system, correct?

12 A. Yes, we do.

13 Q. And would you agree with me that it's
14 important that the computerized physician order entry
15 be fully functioning at a hospital?

16 A. Yes.

17 Q. Would you agree with me that the number one
18 error at a hospital is a medication error?

19 MS. MALONEY: Objection to form. Lacks
20 foundation.

21 A. I don't know that I have the expertise to
22 weigh in on that.

23 BY MS. BLAIR:

24 Q. Do you know at St. Mary's -- well, strike
25 that.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 90

1 In terms of your competitors in the
2 Palm Beach area who do you consider to be a competitor
3 of Good Samaritan?

4 A. Of Good Samaritan?

5 Q. I'm sorry.

6 A. Of St. Mary's?

7 Q. St. Mary's.

8 A. I would say Jupiter Medical Center.

9 Q. And how far away is Jupiter Medical --
10 Jupiter Medical Center from St. Mary's?

11 A. Probably a 15-minute ride.

12 Q. So I'm not from Florida. Is a 15-minute
13 ride 15 miles?

14 A. Could be.

15 Q. And why do you consider Jupiter to be a
16 competitor of St. Mary's?

17 A. I would consider Jupiter a competitor
18 because we share a lot of product lines.

19 Q. And what do you mean by "product lines"?

20 A. We both offer maternity services. We both
21 offer orthopedic services.

22 Q. So essentially you consider them to be a
23 competitor because of the type of service lines that
24 they offer which are similar to St. Mary's?

25 A. Correct.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 91

1 Q. Do you consider Good Samaritan to be a
2 competitor of St. Mary's?

3 A. No.

4 Q. Why not?

5 A. Good Samaritan has different product lines
6 than St. Mary's.

7 Q. Which different -- do you know what
8 different product lines it has, Good Samaritan has than
9 St. Mary's?

10 A. For example, Good Samaritan has oncology,
11 adult oncology.

12 Q. And St. Mary's does not have adult oncology?

13 A. St. Mary's does not have adult oncology.

14 Q. Does St. Mary's have pediatric oncology?

15 A. St. Mary's has pediatric oncology.

16 Q. Other than adult oncology, are there any
17 other differences in the service lines?

18 A. St. Mary's -- Good Sam --

19 Q. Now you're doing it.

20 A. Thank you.

21 Good Sam has women's services, a breast
22 center and a -- a line under oncology, so if you think
23 of, right, breast cancer, so they have a big women's
24 services diagnostic center, and St. Mary's does not.

25 Q. Okay. So oncology and the breast center are

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 92

1 the differences?

2 A. Two of the key services that are different.

3 Q. Do you have services with Good Samaritan
4 that are the same?

5 A. Generic med/surg beds.

6 Q. How far away is Good Samaritan from
7 St. Mary's?

8 A. About three miles.

9 Q. Are there any other hospitals that you
10 consider a competitor of St. Mary's?

11 A. I mean, there's other hospitals in our
12 catchment area. Whether they're competitive, the
13 competitive nature more aligns with your product lines
14 that you share.

15 Q. And I've never heard that name, that phrase
16 before, so what do you mean by "catchment area"?

17 A. Catchment area is the population you serve.

18 Q. And how do you define St. Mary's' catchment
19 area?

20 A. So we define a PSA, a primary service area,
21 which is where 75 percent -- it's the zip codes from
22 which 75 percent of your patients come from.

23 Q. And are those the same zip codes where
24 Jupiter's population comes from?

25 A. There is definitively overlap.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 93

1 Q. And how do you know that?

2 A. Because some of our zip codes where our
3 patients come from is Jupiter --

4 Q. Okay.

5 A. -- and Palm Beach Gardens, like that area,
6 that geographic area.

7 Q. Well, do you consider Palm Beach Gardens to
8 be a competitor of St. Mary's?

9 A. Palm Beach Gardens Medical Center?

10 Q. Yes.

11 A. No.

12 Q. Why not?

13 A. Their -- again, their product line is
14 differently. Their principal product line is cardiac
15 and we don't have cardiac.

16 Q. Do you consider Baptist Health to be
17 competitor of your hospital?

18 A. No.

19 Q. What about HCA JFK?

20 A. HCA JFK, there's two of them. JFK main is
21 too far.

22 Q. What about the other?

23 A. JFK North, they are largely behavioral
24 health. We don't do behavioral health.

25 Q. What about Wellington, is that a competitor

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 94

1 of yours?

2 A. It's really far.

3 Q. Okay. What's "really far"? How far?

4 A. If I was to drive to Wellington, it would
5 take me 40 minutes, give or take.

6 Q. Got it. What about Broward?

7 A. Oh.

8 Q. Too far?

9 A. Way far.

10 Q. Okay. Do you consider NYU Langone to be a
11 competitor of St. Mary's?

12 A. They don't have a freestanding hospital
13 here, so, no.

14 Q. So, no?

15 What about Cleveland Clinic Martin North
16 Hospital?

17 A. They are not a competitor.

18 Q. And why do you say that?

19 A. One is they're way too far. They are over
20 an hour away.

21 Q. So is it fair to say, and I'll just mark
22 this as Exhibit 3 --

24 BY MS. BLAIR:

25 Q. So is it fair to say that Jupiter is the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 95

1 main competitor of Good Samaritan?

2 A. St. Mary's.

3 Q. St. Mary's.

4 A. Yeah.

5 Q. I'll do that all day.

6 St. Mary's.

7 And if you turn to page 20 -- first of all,
8 the document I just provided you is Plaintiff,
9 St. Mary's Medical Center, Inc.'s Amended and
10 Supplemented Responses and Objections to Defendant, The
11 Leapfrog Group's, First Set of Interrogatories to
12 St. Mary's Medical Center Inc.

13 Do you see that?

14 A. Yes.

15 Q. And I think if we turn to the very last page
16 of this document, which is the verification, is that
17 your signature on these documents?

18 A. That is.

19 Q. And if we turn to page 27, interrogatory 19,
20 this is one of the answers that was not amended. And
21 if you go to the very bottom where it says "answer,"
22 the question was, "Identify all hospitals, medical
23 centers or healthcare systems that you consider to be
24 your direct competitors within the relevant geographic
25 market."

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 96

1 Do you see that question up there and it
2 goes on?

3 A. Yes.

4 Q. And as I read your answer, it says, "Jupiter
5 Medical Center is plaintiff's competitor."

6 Do you see that?

7 A. Yes.

8 Q. And that's still true today, correct?

9 A. Yes.

10 Q. Okay. Do you keep track of how many
11 patients get transferred from Good Samaritan to -- or
12 I'm sorry -- from Jupiter to St. Mary's?

13 I'm going to do that all day. I apologize.

14 Do you keep statistics of how many patients
15 are transferred from Jupiter to St. Mary's?

16 A. Yes.

17 MS. MALONEY: Objection.

18 BY MS. BLAIR:

19 Q. And do you, as you sit here today, do you
20 know how many patients in 2024 were transferred from
21 Jupiter to St. Mary's?

22 A. Approximately -- yes, approximately 500ish.

23 Q. And that was in 2024, correct?

24 A. Correct.

25 Q. And in 2025, do you know how many patients

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 97

1 have been transferred to date from Jupiter to
2 St. Mary's?

3 A. I know we are estimating by year-end it
4 should be close to 600.

5 Q. And those are patients that have transferred
6 from Jupiter to St. Mary's, correct?

7 A. Correct.

8 Q. Does St. Mary's transfer patients to
9 Jupiter?

10 A. Unlikely.

11 Q. And why is that unlikely?

12 A. Because we have a very comprehensive medical
13 staff and can largely address the needs of the patients
14 presenting to St. Mary's.

15 Q. Do any of the other four hospitals that are
16 plaintiffs in this litigation regularly transfer
17 patients to St. Mary's?

18 A. I wouldn't have that knowledge.

19 Q. Why wouldn't you have that knowledge?

20 A. Because I don't research what my sister
21 facilities do.

22 Q. Okay. Does St. Mary's track how many
23 patients are transferred between the five hospitals
24 that make up Palm Beach Health Network?

25 A. We have -- we do have that data. I can't

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 98

1 say that I can speak to it.

2 Q. Do you know who at Palm Beach Health Network
3 would track that data?

4 A. Yes.

5 Q. And who is that?

6 A. We have a transfer center.

7 Q. And so that transfer center is part of the
8 Palm Beach Health Network?

9 A. I'm not sure if it's a health network or I'm
10 not sure whose entity it is.

11 Q. Okay. It could be Tenet Healthcare?

12 A. I'm not certain.

13 Q. Other than transfers from Jupiter -- well,
14 strike that.

15 Is Jupiter the largest -- does Jupiter have
16 the largest amount of transfers to St. Mary's in a
17 given year?

18 A. Yes.

19 Q. Other than Jupiter transferring patients to
20 St. Mary's, what other hospitals transfer, regularly
21 transfer patients to St. Mary's?

22 A. I'd have to explore, but there are a lot of
23 hospitals that transfer patients to St. Mary's.

24 Q. And have you seen a decline in those
25 transfers from 2024 to 2025?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 99

1 A. From?

3 transfer.

4 A. I don't know that I've looked at that.

5 Q. Are you aware that Universal Health Services
6 is building a hospital in Palm Beach?

7 A. Yes.

8 Q. Would you consider Universal Health Services
9 to be a competitor of, once it's built, of St. Mary's?

10 A. Hard to project, but we will share some
11 product lines.

12 Q. Which product lines will you share, to the
13 best of your knowledge?

14 A. They will have an obstetrical program.

15 Q. Anything else?

16 A. As a general med/surg hospital they'll have
17 med/surg, OR, ER.

18 Q. The hospitals in Port Lucie --
19 Port St. Lucie, do you consider those competitors of
20 St. Mary's?

21 A. I consider them too far away to be
22 competitors.

23 Q. My apologies. I don't know the geography.
24 Do you have any information -- or strike
25 that.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 100

1 Does St. Mary's keep any statistical
2 information about whether or not admissions in its
3 hospital are down in the summer months due to the
4 migratory nature of a lot of the population here?

5 A. In my experience --

6 MS. MALONEY: Objection. Lacks foundation.
7 Go ahead.

8 A. In my experience, St. Mary's isn't really in
9 an area that's impacted by the snowbirds --

10 BY MS. BLAIR:

11 Q. Okay.

12 A. -- or the migratory, we call them snowbirds.

13 Q. And is that because most of the people in
14 the zip code that St. Mary's services live in Florida
15 year-round?

16 A. It's hard to say that they all live there,
17 but it's fairly steady, our patient base. I don't --
18 there's not huge fluctuations in our admissions.
19 There's no wild fluctuations.

20 Q. Okay. Do you know whether or not Palm Beach
21 Health Network keeps statistics like that in terms of
22 fluctuations at various times of the years on admission
23 rates for the five hospitals?

24 A. I would imagine that if they -- I would
25 imagine there would be information that they could look

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 101

1 at admissions by month.

2 Q. But that's not something you regularly are
3 provided as the CEO of St. Mary's?

4 A. Not at all.

5 Q. Okay. How does St. Mary's benchmark itself
6 against its competitors in the area?

7 MS. MALONEY: Objection to form.

8 A. I think you'd have to describe for me what
9 "benchmark" means.

10 BY MS. BLAIR:

11 Q. Sure. Some of the other witnesses in this
12 litigation have talked about the fact that their
13 hospitals at least, I don't know about St. Mary's, use
14 Trilliant software to measure their competitive
15 positions relevant to various hospitals in the area.
16 Is that the same for St. Mary's?

17 A. I am less familiar with Trilliant.

18 Q. Do you know of any reports that are -- that
19 you are provided as the CEO of St. Mary's related to
20 the competitive positioning of St. Mary's?

21 A. If there are market comparisons, my
22 understanding is they're not timely, they lag six to
23 nine months, so in my perspective, I don't heavily rely
24 on them.

25 Q. And are those, the "them" that we're talking

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 102

1 about, are those reports that would be put out by
2 Palm Beach Health Network?

3 A. If it was a report potentially produced by
4 the Palm Beach Health Network.

5 Q. But as you sit here today, you don't have
6 any direct recollection of what those reports are?

7 A. Correct.

8 Q. And so as you sit here today, you don't have
9 any information about whether or not St. Mary's' market
10 share has decreased from 2024 to 2025?

11 A. I have knowledge in my role as a CEO that
12 certain metrics that we track, for example, births,
13 have declined by 2 percent.

14 Q. Any other metrics that have declined?

15 A. Pediatric outpatient therapy has declined.

16 Q. Do you know the percentage?

17 A. Outpatient pediatric outpatient therapy has
18 declined 17 percent.

19 Q. Any other declines?

20 A. Emergency room volume is down.

21 Q. By how much?

22 A. From recollection, so not scriptural, ten or
23 so patients a day.

24 Q. Ten per day. And what reports do you look
25 at that are giving you this information regarding the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 103

1 declining births, pediatric outpatient therapy and
2 emergency room?

3 A. So the volume for ER therapy, those are part
4 of our monthly close process when the books are, when
5 we close our financials and we look at volumes.

6 Q. And so that's a monthly report that's
7 generated?

8 A. It's monthly, correct.

9 Q. And is that put together by the CFO of
10 St. Mary's?

11 A. Correct.

12 Q. Do you know whether or not the Palm Beach
13 Health Network looks at the decrease in those volumes
14 as a group?

15 A. I do not know.

16 Q. What other volumes does the monthly close
17 report track other than births, patient, pediatric
18 out -- pediatric outpatient therapy and ER volume?

19 A. It tracks, we said, admissions.

20 Q. Yes.

21 A. Patient stays.

22 Q. Patient stays meaning?

23 A. Patient stays, that's head in the bed at
24 midnight.

25 Q. Anything else?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 104

2 Q. Um-hum.

3 A. Surgery, number of surgeries.

4 Q. Is that down or up, or do you know?

5 A. Outpatient surgeries are down.

6 Q. By what percent?

7 A. I think it's 2 percent, but I wouldn't --

8 I'm not a thousand percent confident on the number.

9 Q. Anything else that the monthly close report
10 tracks?

11 A. Outpatient referred visits.

12 Q. And are those the type of reports you rely
13 on in your position in this litigation that the
14 Leapfrog Hospital Safety Grade has impacted your
15 hospital?

16 A. Yes.

17 Q. Is there a year-end report?

18 A. There -- yes.

19 Q. So there would have been a year-end report
20 for 2024?

21 A. There is a monthly report, and there would
22 be one produced in December that would encompass the
23 year.

24 Q. Is there a midyear report?

25 A. Not per se.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 105

1 Q. And does St. Mary's' fiscal year run from
2 January 1st through December 31st?

3 A. Yes.

4 Q. Have there been declines in revenue at
5 St. Mary's from 2024 to present?

6 A. We'd be relying on my memory to recall
7 revenues, but revenues aren't purely related to volume.
8 They could be related to contracting or payer mix, so
9 it's not necessarily an indicator.

10 Q. Yeah, but my question is just do you know if
11 revenue is down?

12 A. I'm not aware that revenue is down.

13 Q. Are you aware of any documents that
14 specifically set forth what the community perception
15 was of St. Mary's in or around the summer of 2024?

16 MS. MALONEY: Objection to form.

17 A. No.

18 BY MS. BLAIR:

20 regarding the perception of St. Mary's' brand in or
21 around the summer of 2024?

22 A. Not that I'm aware of.

23 Q. Just anecdotally as a -- as the CEO of
24 St. Mary's, do you have any view of what St. Mary's'
25 brand was in or around the summer of 2024?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 106

1 A. What do you mean by the question?

2 Q. Well, do you have any opinions about how the
3 community perceived St. Mary's in or around the summer
4 of 2024?

5 A. I believe the community trusted St. Mary's'
6 medical care.

7 Q. As the CEO of the hospital of St. Mary's and
8 in your capacity as a corporate representative with
9 respect to reputational harm, what are the things that
10 go into St. Mary's' brand?

11 MS. MALONEY: Objection to form. Vague.

12 A. I am not --

13 MS. MALONEY: Lacks foundation.

14 A. -- an expert in --

15 THE STENOGRAPHER: Sorry. I didn't hear the
16 last objection.

17 MS. MALONEY: Vague and lacks foundation.

18 A. I'm not an expert on brand and brand
19 awareness. That's not my expertise.

20 BY MS. BLAIR:

21 Q. Do you have any understanding of the fact
22 that community perception is part of St. Mary's' brand?

23 A. I would as a general layperson believe that
24 community perception is going to influence brand.

25 Q. Okay. But for purposes of this deposition

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 107

1 and the -- you have no documents prior to fall of 2024
2 that show what the brand awareness was of St. Mary's?

3 A. Not that I'm --

4 MS. MALONEY: Objection.

5 A. -- personally aware of.

6 Can I run to the restroom?

7 Q. Of course.

8 MS. MALONEY: Yes.

9 (A recess was taken from 12:07 p.m. to 12:12 p.m.)

10 THE VIDEOGRAPHER: Back on the record,
11 12:12.

12 BY MS. BLAIR:

13 Q. Ms. McCauley, I want to go back to
14 St. Mary's' marketing budget quickly. I may have asked
15 you this before, so I apologize. Do you know what
16 St. Mary's' marketing budget is for St. Mary's?

17 A. The dollar?

18 Q. Yes.

19 A. No.

20 Q. Do you know is it a percentage of the
21 overall budget?

22 A. I don't believe so.

23 Q. Okay. Do you know if you share your
24 marketing budget with the other four hospitals that are
25 plaintiffs in this litigation?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 108

1 A. Each hospital stands independently.

2 Q. Do you know whether or not Palm Beach Health
3 Network has a separate marketing budget?

4 A. I don't know.

5 Q. Do you know prior to fall of 2024 whether
6 St. Mary's had any programs in place to increase its
7 patient experience scores?

8 A. We are continually trying to achieve our --
9 improve our patient experience scores.

10 Q. And why are you continually trying to
11 improve your patient scores?

12 A. Because I know we give an excellent clinical
13 outcome. We need the patients to feel that their
14 experience was as good as their clinical outcomes.

15 Q. Since January of 2025, have you -- has
16 St. Mary's put in any new programs to increase patient
17 experience scores?

18 A. What do you mean by "new programs"?

19 Q. Sure. For example, one of the hospitals has
20 hired a patient -- a patient experience champion. Has
21 St. Mary's done anything like that?

22 A. We've had a patient experience person, so,
23 no, we've not hired anyone new.

24 Q. Since your time at St. Mary's, you've always
25 had a patient experience person?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 109

1 A. Since before me.

2 Q. Do you know whether or not St. Mary's uses
3 Press Ganey in connection with its patient experience
4 scores?

5 A. Yes.

6 Q. Since January of 2025, do you know if
7 St. Mary's has involved Press Ganey any further in its
8 operations to increase patient experience scores?

9 A. I'm not certain that they've been -- that
10 they've done it further. Press Ganey has been a
11 patient satis -- the patients that send us surveys, and
12 we have access to them, so...

13 Q. Do you have any understanding that
14 Press Ganey offers consulting services for hospitals in
15 order to improve their patient satisfaction scores?

16 A. I'm not sure that I know that.

17 Q. And so is it fair to say you're not aware
18 that whether or not after January of 2025 St. Mary's
19 has engaged Press Ganey on any consulting services to
20 improve patient experience scores?

21 A. We have not.

22 Q. What is Dexur Insights, D-e-x-u-r, Insights,
23 do you know?

24 A. I have no idea.

25 Q. Does St. Mary's engage in any way with

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 110

1 Dexur Insights, D-e-x-u-r?

2 MS. MALONEY: Objection.

3 A. I have no idea who they are.

4 BY MS. BLAIR:

5 Q. I understand that St. Mary's participates in
6 several Healthgrades® programs, is that correct?

7 A. We have been the recipient of Healthgrades®
8 awards.

9 Q. Is there survey that's completed in order to
10 earn these various Healthgrades® awards?

11 A. Not to my knowledge.

12 Q. And does St. Mary's pay for the
13 Healthgrades® badge in order to be able to advertise
14 it's Healthgrades® awards?

15 MS. MALONEY: Objection.

16 A. I believe we do have to license it.

17 BY MS. BLAIR:

18 Q. Do you know how much you pay for that
19 license?

20 A. No.

21 Q. Does your hospital participate in any
22 registries?

23 MS. MALONEY: Objection.

24 A. I believe the answer is yes.

25

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 111

1 BY MS. BLAIR:

2 Q. Do you know which ones?

3 A. No.

4 Q. Do you know how much St. Mary's pays to
5 engage in those registries?

6 A. No.

7 MS. MALONEY: Objection. Lacks foundation.

8 BY MS. BLAIR:

9 Q. Do you know whether or not St. Mary's pays
10 for any accolades associated with those registries?

11 MS. MALONEY: Objection.

12 A. I'm unaware of which registries we may
13 participate in.

14 BY MS. BLAIR:

15 Q. Understood.

16 Does Palm Beach Health Network maintain any
17 metrics where it compares the five hospitals that make
18 up Palm Beach Health Network against each other in
19 areas related to patient safety?

20 A. Maybe. If that's the QMOR that I spoke
21 about. To the best of my knowledge, I haven't seen it
22 in a side-by-side comparison, but I have seen -- I can
23 see all five hospitals' data.

24 Q. Okay. And is there like a platform you go
25 on to see all five hospitals' data?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 112

1 A. As the CEO, I call my quality director who
2 produces it for me.

3 Q. Okay. And that quality director would be
4 Regina West, correct?

5 A. Right.

6 Q. Do you -- are you ever provided any reports
7 about how St. Mary's' patient experience scores compete
8 with Jupiter Medical Center?

9 A. Not to my knowledge.

10 Q. Do you track any metrics that compare
11 St. Mary's to Jupiter Medical Center?

12 A. No.

13 Q. Does St. Mary's in any way benchmark itself
14 against Jupiter in the area of patient safety?

15 A. No.

16 Q. Does St. Mary's use the Leapfrog Safety
17 Grade to benchmark itself against its competitors?

18 MS. MALONEY: Objection.

19 A. We don't utilize the Leapfrog Safety Grade
20 because we believe that it's misleading -- misguided
21 and unsafe and has particularly become more misguided
22 since they started imputing scores for the four -- four
23 particular metrics, CPOE, the barcode, intensive --
24 critical care and hand washing. So I don't believe
25 that there is validity in using that as a benchmark.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 113

1 BY MS. BLAIR:

2 Q. Okay. So is it your position as the
3 corporate representative of St. Mary's that St. Mary's
4 does not review its Leapfrog grades to benchmark itself
5 against its competitors?

6 MS. MALONEY: Objection. Vague. Lacks
7 foundation.

8 A. I do not use the Leapfrog score to bench
9 myself against the competitor because there's no way to
10 trust but verify that the data is a good and useful
11 tool since it's a self-survey without validation.

12 BY MS. BLAIR:

13 Q. And you understand that of the 22 measures
14 that are involved in the Leapfrog Hospital Safety Grade
15 for nonparticipating hospitals, four of those measures
16 come from the survey, correct?

17 A. There are four measures that are imputed and
18 another three that since we're not participating, those
19 scores get reallocated. So technically by not
20 completing the survey, there are seven metrics that we
21 are not responding to.

22 Q. Okay. Seven of the 22, correct?

23 A. Right. But somehow Leapfrog says if you
24 don't respond to six of them, we don't give you the
25 score. But we don't respond and we don't complete

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 114

1 those seven, but we still get a score.

2 Q. Okay. And setting aside the other seven
3 measures, would you agree with me that the remaining
4 measures come from CMS data?

5 A. They do come from CMS data which lags about
6 a year and a half.

7 Q. Right. And that's because the publicly
8 available data from CMS lags, correct?

9 A. Correct.

10 Q. And we talked a little bit earlier, and you
11 said that if a patient wanted to look at your
12 hospital-acquired infections rates, they could go on
13 CMS, correct?

14 A. Correct.

15 Q. And if a patient went on CMS today to look
16 at those hospital-acquired infection rates, the
17 information they would be looking at would be lagging,
18 correct?

19 A. Correct.

20 Q. Is your participation in Healthgrades® in
21 any way tied to a contract for the hospital?

22 MS. MALONEY: Objection to form and lacks
23 foundation.

24 A. Not that I'm -- not that I'm aware of.

25

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 115

1 BY MS. BLAIR:

2 Q. Does Healthgrades® visit your facilities
3 when it gives out these awards?

4 A. No, but I believe Healthgrades® pulls the
5 data from CMS or, right, from information that's
6 provided.

7 Q. And the data that Healthgrades® would be
8 pulling from CMS would also be that lagging CMS data
9 that we just discussed?

10 A. There is a better person who statistically
11 understands where exactly they're pulling their data.

12 Q. Okay. And who's that?

13 A. Gina West.

14 Q. Gina West.

15 Do you know whether or not the participation
16 in Healthgrades® by St. Mary's is approved by Tenet
17 home office?

18 A. Factually, no.

19 Q. What about not factually?

20 A. Well, Healthgrades® will give us awards, but
21 it's not as if we have to engage them to come and give
22 us an award.

23 Q. Okay. So tell me, in your -- what is your
24 understanding of how Healthgrades® works?

25 A. They pull data from publicly submitted data,

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 116

1 and they look across all the hospitals in the
2 United States and glean quality metrics and benchmark
3 the hospitals, and based on that, St. Mary's has for
4 11 years gotten awards for c-section, vaginal
5 deliveries, hip, knee, stroke, so I cannot speak to
6 their metrics or what's behind it other than, you know,
7 we provide good quality care.

8 Q. And do you know whether or not when
9 Healthgrades® looks at these awards, they speak
10 directly with patients to come to -- in coming to their
11 conclusions?

12 A. I'm not certain.

13 Q. Do you know whether or not Healthgrades®
14 speaks directly to physicians when it comes to its
15 conclusions as to who should receive an award?

16 A. I'm not certain.

17 Q. Do you know whether Healthgrades® gives out
18 an overall patient safety award to hospitals?

19 A. I'm not sure.

20 Q. Do you know whether or not St. Mary's'
21 participation in Healthgrades® is tied to any local
22 regulatory requirements for the hospital?

23 A. Not that I'm aware of.

24 Q. Does St. Mary's have any awards from
25 U.S. News & World Report?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 117

1 A. Yes.

2 Q. Do you know what those are?

3 A. I know it, but I can't pull it to the top of
4 my head.

5 Q. Do you know whether or not St. Mary's pays
6 U.S. News & World Report for its logos in order to
7 advertise its status as an award wing U.S. News & World
8 Report hospital?

9 A. I --

10 MS. MALONEY: Objection.

11 A. I believe that's one that we do have to pay.

12 BY MS. BLAIR:

13 Q. And same with Healthgrades®, correct, we
14 talked about earlier?

15 A. Yes.

16 MS. MALONEY: Objection.

17 BY MS. BLAIR:

18 Q. Do you know whether -- do you know what
19 U.S. News & World Report looks at in order to come to
20 its conclusion as to what hospital should get what
21 award?

22 A. No.

23 Q. Do you know whether or not U.S. News & World
24 Report comes on site and does any sort of inspection to
25 make its decision about its awards?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 118

1 A. I'm unaware that they come on site.

2 Q. Do you know whether or not they speak with
3 any patients when coming to the conclusion about its
4 rankings?

5 A. No, I do not know.

6 Q. And do you know whether or not U.S. News &
7 World Report speaks to any physicians with respect to
8 coming to the conclusion about its rankings?

9 A. I'm unaware.

10 Q. When you became the CEO of St. Mary's in
11 2009, I think we already established this, but
12 St. Mary's was participating in the Leapfrog Hospital
13 Survey, correct?

14 A. That is correct.

15 Q. When you came on board as the CEO of
16 St. Mary's, did you have concerns at that time in 2019
17 about St. Mary's continuing to participate in the
18 Leapfrog Hospital Survey?

19 A. Not at that time.

20 Q. And why not?

21 A. At that time, I believe our grade was a B,
22 and a B would not give the public perception that we
23 are not a safety facility.

24 Q. During your time as the CEO of St. Mary's
25 from 2019 to 2021, did Leapfrog ever charge St. Mary's

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 119

1 to participate in the survey?

2 A. My understanding is there's no fee to
3 participate in the Leapfrog survey.

4 Q. Between -- well, at any time since you've
5 been the CEO of St. Mary's from 2019 has St. Mary's
6 ever been approached by Leapfrog to pay for consulting
7 services by Leapfrog in exchange for better grades?

8 A. So during my time as the CEO at St. Mary's,
9 in regular email communication that we would get from
10 Leapfrog when they would announce their upcoming grade,
11 in my recollection, there is a portion of that email
12 that references that you can pay \$395 to get -- to go
13 to one of, I recall three different boot camps, and it
14 would discuss the survey, completing the survey and the
15 formulation of the grade. So those paid services are
16 available should you choose to avail yourself.

17 Q. Right. And do you have -- I understand how
18 you've described those services.

19 Were those services ever offered to you as
20 services to help you improve your safety score with
21 Leapfrog?

22 A. The offering does not specifically state
23 that, but there's no, you know -- a logical person
24 would not believe I'm going to pay 400, \$395 for these
25 services without an understanding that you would have a

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 120

1 better knowledge on how to take the tool and ultimately
2 get a better grade.

3 Q. I think you testified earlier that the
4 survey is a little over 400 pages, correct?

5 A. Yeah, I printed it and I think it was over
6 300.

7 Q. And, as I understand from your Complaint,
8 the allegation is that filling out the survey is
9 onerous, correct?

10 A. Yes.

11 Q. And would you agree with me that it's very
12 detailed?

13 A. Having looked at it, it appears very
14 detailed.

15 Q. And would you agree with me that there is --
16 it's pretty dense in terms of the information that's
17 provided?

18 A. It's a thick binder.

19 Q. And, in fact, for example, on hand hygiene,
20 there's a lot of discussion about having 200
21 observations, correct, in order to get an achievement
22 score, correct?

23 MS. MALONEY: Objection.

24 A. So the hand hygiene speaks to -- speaks to
25 having a protocol, and there is a question on do you

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 121

1 have -- do you have 200 observations. But, again, my
2 issue with the Leapfrog survey is nobody comes to
3 observe whether I actually do what I've said on the --
4 on the survey.

5 BY MS. BLAIR:

6 Q. Does your hospital fill out hand hygiene
7 observation logs on a monthly basis?

8 A. Yes.

9 Q. In terms of fees you just talked about, the
10 \$399 to go to a boot camp, you don't have any
11 understanding as to whether or not that is simply to
12 help guide first-time users in the survey through that
13 dense 385 process as opposed to paying for better
14 grades, correct?

15 MS. MALONEY: Objection to form. Lacks
16 foundation as to "first-time users."

17 A. The email that I recall does not
18 specifically say new to Leapfrog, need help, here's
19 what. It just is more of a blanket, attend one of our,
20 you can participate in one of our three boot camps, as
21 I recall, three --

22 I can't say if there's four, you know.

23 -- one of these three boot camps for \$395.

24 Here's how to reach us.

25

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 122

1 BY MS. BLAIR:

2 Q. Do you understand that Leapfrog offers free
3 town hall meetings for hospitals to help them complete
4 the hospital survey?

5 A. I did see that on the email.

6 Q. Do you have any understanding as to whether
7 or not the \$399 service that you just discussed is
8 essentially the same as the free town halls that are
9 offered to hospitals?

10 A. I've never attended the boot camp or the
11 free, so I can't speak to it.

12 Q. But you have no knowledge as you sit here
13 today whether or not Leapfrog exchanges better grades
14 for payment; is that fair?

15 A. It would seem to me that if I were going to
16 engage with a consultant that the end goal would be to
17 improve my scoring on the survey. I believe -- I don't
18 believe otherwise that somebody would pay a fee to an
19 organization to get the same result.

20 Q. And I want to make sure we're talking about
21 the same thing. The email that you just told me about,
22 does it say "consultant services"?

23 A. It said -- it specifically called it "boot
24 camp."

25 Q. Okay. It didn't call it coaching services?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 123

1 MS. MALONEY: Objection.

2 A. I believe it called it a boot camp, but we
3 could go back. I'm sure we could find the emails.

4 BY MS. BLAIR:

5 Q. Okay. And you understand that there are
6 allegations in this Complaint that hospitals that
7 participate in the hospital survey pay Leapfrog for
8 better grades. Do you understand that's an allegation
9 in the Complaint you filed?

10 A. Yes.

11 Q. What -- and as the corporate representative
12 of St. Mary's, what facts is that allegation based on?

13 A. So I believe that because you can pay for
14 consultive boot camp advice and guidance, I believe
15 that they are -- you pay -- I think that there is an
16 incentive because you pay to use your grade, that that
17 is an inducement or an attraction for a facility to
18 engage with those services of Leapfrog in an effort to
19 get a better grade.

20 Q. Okay. And so you started that answer with,
21 "I believe."

22 A. Um-hum.

23 Q. So my question is, what facts do you have
24 that, in fact, Leapfrog exchanges money for better
25 grades with hospitals that pay them for a coaching fee?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 124

1 A. I don't believe there's anything in the
2 email that I've seen that says, "If you pay us, you
3 will get a better grade."

4 However, I do believe that with coaching,
5 that is the nature of coaching, that that is the
6 intent.

7 Q. Are you aware that there are hospitals that
8 participate in the survey that get D's?

9 A. I am.

10 Q. And so is it your position that those
11 hospitals that participate in the survey and get D's
12 are ones that haven't paid for this consulting fee, is
13 that your position in this case?

14 A. I can't make a broad base on the percent of
15 hospitals that participate in Leapfrog.

16 Q. Okay. But other than the emails that you
17 saw about the boot camp, there are no facts that you
18 have that support your allegation in this case that
19 hospital -- that, I'm sorry -- that Leapfrog charges
20 hospitals consulting fees in exchange for better
21 grades, correct?

22 MS. MALONEY: Objection to form.

23 A. I believe that if a facility wanted to
24 improve their scores, they would engage with the
25 consultant or the boot camp to try to elevate their

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 125

1 scores.

2 BY MS. BLAIR:

3 Q. And I understand that's what you believe.

4 A. Right.

5 Q. I'm just asking about facts.

6 MS. MALONEY: Objection.

7 A. If -- do I believe that's written? No, I do
8 not believe that it's written.

9 BY MS. BLAIR:

10 Q. And have you ever looked at the boot camp
11 materials to make a decision, an educated decision
12 about whether that's actually what's happening, that
13 Leapfrog is taking consulting fees in exchange for a
14 better grade?

15 A. I have read the boot camp descriptions which
16 appear to go through the survey and speak to completing
17 the survey.

18 Q. Other than the descriptions that you
19 received in the emails, no other documents that you've
20 seen support the position that Leapfrog charges
21 consulting fees to hospitals for better grades,
22 correct?

23 A. Correct.

24 Q. In terms of when your hospital --

25 A. Can I ask a question?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 126

1 Q. Oh, no, I can't answer questions.

2 A. Can I clarify my answer?

3 Q. Oh, yes, of course.

4 A. Okay. Thank you.

5 I do know that for the hospitals that do
6 participate in Leapfrog, as we used to, that when I
7 provide my data to Leapfrog, I sign off saying that all
8 my data can be used by Leapfrog basically for whatever
9 commercial purposes they want, which could include
10 monetizing, increasing the financial performance of
11 Leapfrog, so there's like an attestation, you agree,
12 I'm going to give you all this data over to you and
13 use -- and you can use it however and for whatever you
14 want. And it does say that they -- they can -- they
15 can do with it as they want and they can monetize that.

16 Q. And the other thing that the attestation
17 says is that the information that you're providing to
18 the Leapfrog survey is true and correct, correct?

19 A. Correct.

20 Q. And at any time that you as St. Mary's
21 participated in the Leapfrog Hospital Survey, did you
22 ever provide incorrect data to Leapfrog?

23 A. We never provide incorrect data. But that
24 being said, the Leapfrog score imputes -- the Leapfrog
25 grade imputes scores, which I can say factually are

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 127

1 incorrect. Particularly for the four measures, we
2 scored 60 out of 400 points when if Leapfrog were to
3 come verify my hand washing, my CPOE, my BCMA and my
4 intensive care staffing, I would get full credit for
5 those. So I, if I were to complete the survey, would
6 complete it honestly and truthfully, but I don't know
7 that that's reciprocated by Leapfrog, particularly
8 since the fall of 2024, because they are creating a
9 fiction about how I scored on certain metrics without
10 having knowledge.

11 Q. Okay. And I appreciate that and we'll get
12 into that, but that was not my question. My question
13 was about the attestation that you were just
14 discussing. One of the attestations says is that the
15 information you're providing to Leapfrog is true and
16 correct, correct?

17 A. Yes.

18 Q. It's not just about monetizing information,
19 is it?

20 A. It's not solely about that, but you are, you
21 have to validate that, attest that your data is
22 correct.

23 Q. Correct. And in all the time that you were
24 the CEO of St. Mary's and St. Mary's participated in
25 the Leapfrog program, was your hospital ever forced to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 128

1 pay Leapfrog for accolades?

2 MS. MALONEY: Objection to form.

3 A. No, that is an optional program that
4 Leapfrog offers that if you want to pay for any
5 licensing, marketing fee, then you can use your grade
6 for your marketing purposes.

7 BY MS. BLAIR:

8 Q. So other than these consulting services that
9 you believe hospitals pay for in exchange for better
10 grades and this sentence in the attestation that
11 Leapfrog may use data for commercial purposes, are
12 there any other payments that you believe Leapfrog
13 takes in exchange for grades?

14 MS. MALONEY: Objection.

15 A. In exchange for grades? As I mentioned, you
16 can pay to utilize the grade to market it, and you can
17 pay to do a boot camp with, I would say, a Leapfrog
18 consultant to assist you.

19 BY MS. BLAIR:

20 Q. And the allegation in this Complaint is that
21 Leapfrog engages in a brazen pay-to-play scheme. What
22 do you understand the word "brazen" to mean as you
23 allege it in the Complaint?

24 A. Brazen is, to me, means bold, and it is --
25 it's a bold, aggressive tactic to incentivize hospitals

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 129

1 to pay to take the survey, engage in a boot camp by
2 their consultants and, in turn, pay to market their
3 grades.

4 You could pay, I think there's a leader
5 award you can pay to nominate your person, a person in
6 your facility to get a leadership award. You can pay
7 to sit on an advisory council -- to consult with
8 advisory council panel members four times a year. So
9 there's other opportunities that are pretty bold for
10 Leapfrog to earn revenues by a facility participating
11 in a voluntary unvalidated, you know, survey.

12 Q. Do you understand that HCA sits on -- you
13 refer to the advisory panel. Do you understand that
14 HCA sits on the advisory panel?

15 MS. MALONEY: Objection to form. Lacks
16 foundation.

17 A. And that's -- is -- is --

18 BY MS. BLAIR:

19 Q. Do you know that?

20 A. I don't know the members of the panel.

21 Q. Oh, okay. Okay.

22 Do you know how many hospitals sit on the
23 advisory, patient advisory committee for Leapfrog?

24 A. No.

25 Q. Do you know how much money Leapfrog makes

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 130

1 from hospitals that sit on the patient advisory
2 committee?

3 A. No.

4 Q. Do you know what the hospital safety grades
5 are of any of the hospitals that sit on the patient
6 advisory committee of Leapfrog?

7 A. No.

8 Q. Do you believe that only A hospitals would
9 pay to sit on the patient advisory committee of
10 Leapfrog?

11 A. I can't speak to what any other hospital
12 would do.

13 Q. And I think you told me just a minute ago
14 that during the time in which St. Mary's participated
15 in the Leapfrog Hospital Survey, St. Mary's did not
16 inflate its responses to the hospital survey, correct?

17 A. Absolutely not.

18 Q. Do you believe that your -- that your
19 competitors inflate their grades or their -- I'm
20 sorry -- their survey response to Leapfrog?

21 A. I can't speak to what a competitor does.

22 MS. BLAIR: I'll mark this as 4.

23 (Defendant's Exhibit Number 4 for i.d.)

24 BY MS. BLAIR:

25 Q. Ms. McCauley, I've handed you now what we've

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 131

1 marked as Exhibit 4. And this is the Amended Complaint
2 in this matter. Have you seen this before?

3 A. Yes.

4 Q. And you'll see at the very top here it was
5 filed on August 28th, 2025. Do you see that at the
6 top? It's like in this weird docket. It says docket
7 8-28-25 at the top.

8 A. Yes.

9 Q. And did you see this document before it was
10 filed?

11 A. Yes.

12 Q. And did you approve its filing as one of the
13 plaintiffs in this case?

14 A. Yes.

15 Q. And if we turn to paragraph 27 of this
16 Complaint, the second sentence, it says, "The data
17 provided by hospitals that do participate in the
18 TLG hospital survey is self-reported, biased and
19 subject to manipulation."

20 Do you see that?

21 A. Yes.

22 Q. And then it goes on, "Median responses for
23 hospitals that report their own scores show that those
24 hospitals inflate their performance."

25 Do you see that?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 132

1 A. Yes.

2 Q. And so is it your position in this
3 litigation that hospitals that do participate in the
4 survey inflate their performance?

5 A. It's my opinion that without a trust but
6 verify, someone coming to validate what I say, that you
7 can't -- you can't state that everyone is of the same
8 ethical beliefs as myself or my team that would report
9 our data accurately. I can't -- I can't speak. I do
10 believe when you take a self-test that no one is
11 checking, that it is subject to manipulation.

12 Q. This says, "Median responses for hospitals
13 that report their own scores show that these hospitals
14 inflate their performance."

15 And my question is, what facts do you have
16 that hospitals that participate in the Leapfrog survey
17 inflate their performance?

18 A. And my response to you is without a trust
19 but verify, an onsite validation, you can't validate
20 the inverse that they don't.

21 I believe that in a self-test people
22 typically will score themselves better generically than
23 perhaps the data would show.

24 Q. Okay. But you have no facts that hospitals
25 that report their own scores inflate their performance,

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 133

1 correct?

2 MS. MALONEY: Objection.

3 A. I cannot say hospital X definitively did Y
4 because it's never been validated.

5 BY MS. BLAIR:

6 Q. And the only hospital that you can be sure
7 of is your own hospital, and you did not inflate your
8 numbers when you participated in the survey, correct?

9 A. That is correct.

10 Q. And do you understand that the previous
11 methodology, the spring 2024 methodology, this is
12 before the methodology changed, did you understand that
13 the imputation model at that time gave St. Mary's the
14 median score of self-reporting hospitals for the four
15 measures that are at issue in this litigation?

16 A. Yes.

17 Q. So did you understand in the spring of 2024
18 for CPOE, BCMA, ICU physician staffing and hand
19 hygiene, St. Mary's received 100 out of 100, 400 points
20 for all of those measures, based on how the
21 self-reported hospitals who are participating in the
22 survey were doing, correct?

23 A. Yes.

24 Q. And so if your statement is true that these
25 hospitals were inflating their performance, then also

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 134

1 is it your position that the 400 out of 400 points that
2 St. Mary's was getting previously was overinflated as
3 well?

4 A. I would have to pull my data for those times
5 to respond.

6 But, for example, critical care staffing, I
7 know definitively we've had a critical care contract
8 with physicians for 24/7 coverage, so I can validate
9 factually that we should have gotten full credit for
10 that. I can't speak to the other three metrics off the
11 top of my head.

12 Q. Is it your position that to get 100 out of
13 100 points on ICU physician staffing on the Leapfrog
14 survey, you just have to have a contract in place?

15 MS. MALONEY: Objection.

16 A. We would have --

17 MS. MALONEY: Misstates her testimony.

18 A. We would have to go through the entire
19 manual on that section and see and add up every
20 question.

21 BY MS. BLAIR:

22 Q. And in order to provide information in this
23 litigation that your counsel refers to as "sufficient
24 to simulate," did you do that with respect to the ICU
25 physician staffing measure?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 135

1 A. Did I do what?

2 Q. Did you go through the survey and add up how
3 you did on each one of the survey questions?

4 A. I did review those survey questions. I did
5 not go and recalculate each score, no.

6 Q. And do you understand that in the fall 2024
7 methodology, we'll just stick with ICU physician
8 staffing, that hospitals that didn't participate were
9 now being given limited achievement scores for the four
10 measures that are at issue in this litigation?

11 A. Yes.

12 Q. And do you under --

13 MS. MALONEY: Objection. You.

14 Need to give me a second to object.

15 THE WITNESS: Yes, ma'am.

16 BY MS. BLAIR:

17 Q. Do you understand, do you have any
18 understanding of what "limited achievement" means in
19 the 2024 Leapfrog methodology?

20 A. Limited achievement is the lowest score
21 possible.

22 Q. Do you know -- so you don't know whether or
23 not limited achievement actually refers to the lowest
24 score that a participating hospital received for that
25 measure?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 136

1 MS. MALONEY: Objection. Misstates
2 testimony. Lacks foundation.

3 A. When I read, when I read through the myriad
4 of documents, what I saw was there, I believe, were
5 four categories that you could get. The lowest one was
6 limited.

7 BY MS. BLAIR:

8 Q. Correct.

9 A. Correct.

10 Q. But you could get a zero, would you not
11 agree with that?

12 MS. MALONEY: Objection.

13 A. I -- I don't know. What I saw in the
14 documents I read showed "limited."

15 BY MS. BLAIR:

16 Q. Okay. Do you know how, based on the
17 documents that you saw, that limited achievement score
18 is arrived at in terms of points assigned to it?

19 MS. MALONEY: Objection.

20 A. No.

21 BY MS. BLAIR:

22 Q. In the years that St. Mary's participated in
23 the Leapfrog Hospital Survey, did it --

24 And just the survey. I don't want to talk
25 about the hospital safety grade. Just the survey.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 137

1 -- did St. Mary's derive any benefit from
2 participating in the survey?

3 A. Hard for me to -- hard for me to assess,
4 especially during our COVID years which were the large
5 part of my early career.

6 Q. Prior to 2019 when you were the chief
7 administrative officer at St. Mary's, was St. Mary's
8 participating in Leapfrog Hospital Survey?

9 A. I believe so.

10 Q. Did you have any involvement with the
11 hospital survey, the Leapfrog Hospital Survey prior to
12 2019?

13 A. Not tangibly that I recall.

14 Q. What about intangibly?

15 A. I don't -- I don't recall it.

16 Q. Okay. Do you know whether or not at any
17 time that St. Mary's was participating in the Leapfrog
18 Hospital Survey it used the Leapfrog Hospital Survey to
19 benchmark itself?

20 MS. MALONEY: Objection. Asked and
21 answered.

22 A. Not that I'm aware of.

23 BY MS. BLAIR:

24 Q. Do you know whether or not St. Mary's'
25 decision to stop participating in the Leapfrog Hospital

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 138

1 Survey was a directive from Tenet home office?

2 A. It's my understanding it was not a directive
3 from the Tenet home office.

4 Q. Do you understand that -- well, strike that.

5 Did you have any discussions between 2019
6 and 2021 with anyone at Tenet home office about
7 St. Mary's' participation in the Leapfrog Hospital
8 Survey?

9 A. Not that I recall.

10 MS. MALONEY: Objection to form.

11 THE WITNESS: Sorry.

12 BY MS. BLAIR:

13 Q. During the time in which St. Mary's
14 participated in the Leapfrog Hospital Survey, how many
15 hours were spent in completing the survey annually?

16 A. In my understanding from my quality director
17 at the time, it took her more than a full calendar week
18 to complete the survey.

19 Q. Did she do it alone?

20 A. I can't validate that.

21 Q. Do you know how many FTE's worked on
22 completing the Leapfrog Hospital Survey during that
23 time?

24 A. I can't factually tell you that.

25 Q. When the decision was made in 2021 to stop

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 139

1 participating in the Leapfrog Hospital Survey, were
2 there any discussions with the St. Mary's' executive
3 team about the decision to stop participating?

4 Are you okay?

5 A. Um-hum.

6 Amongst -- did you say amongst the
7 St. Mary's.

8 Q. The St. Mary's team.

9 A. So amongst our team?

10 Q. Yes.

11 A. A limited amount of discussion, yes.

12 Q. And what do you recall about those
13 discussions?

14 A. I recall discussing, this was post COVID.
15 And as we were assessing the limited resources we have
16 and participating in a survey that's not required, not
17 regulated and not validated that we could better use
18 our staff's time towards other responsibilities.

19 Q. And when you say "not validated," what do
20 you mean by that?

21 MS. MALONEY: Objection.

22 A. Not validated is that no one comes on site,
23 like I said earlier, like in a CARF survey or ACS
24 survey to look at the survey and validate that what you
25 responded is true and accurate.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 140

1 BY MS. BLAIR:

2 Q. Okay. So when you say "validated," you mean
3 that there's no onsite review?

4 A. Correct.

5 MS. MALONEY: You want to take a break?

6 BY MS. BLAIR:

7 Q. You okay?

8 A. I'm okay.

9 Q. We'll get through it.

10 MS. MALONEY: Maybe at an appropriate time
11 we should take a lunch break.

12 MS. BLAIR: Yeah, do you -- yeah, maybe --

13 MS. MALONEY: So whenever you're ready in
14 terms of where you're going...

15 MS. BLAIR: We can do it now. Okay?

16 MS. MALONEY: Okay.

17 THE WITNESS: Yeah.

18 THE VIDEOGRAPHER: Off the record, 12:56.

19 (A recess was taken from 12:56 p.m. to 1:42 p.m.)

20 THE VIDEOGRAPHER: This is media unit number
21 three. The time is 1:43. We're back on the
22 record.

23 BY MS. BLAIR:

24 Q. Ms. McCauley, when you stopped, when
25 St. Mary's stopped participating in the Leapfrog

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 141

1 hospital survey, did anybody at St. Mary's, to your
2 knowledge, reach out to Leapfrog about whether or not
3 they would continue to be graded now that they've
4 stopped participating in the survey?

5 A. I'm unsure.

6 Q. Did you understand when you stopped
7 participating in 2021 that Leapfrog graded all adult
8 acute care hospitals across the country regardless of
9 participation in the survey?

10 A. I actually believe that when we stopped
11 participating, we would no longer receive a letter
12 grade.

13 Q. Okay. And what was that belief based on?

14 A. It was based on my understanding that if you
15 don't take a survey, somebody can't say how did you on
16 the survey.

17 Q. Okay. But you didn't read any literature
18 from Leapfrog that said if you don't participate in the
19 survey, we don't grade you, correct?

20 A. Not that I recall, no.

21 Q. In the last year that St. Mary's
22 participated in the Leapfrog Hospital Survey how was
23 compliance handled?

24 A. What's the question?

25 Q. Yes. So was there somebody that was in

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 142

1 charge of doing the survey and they would delegate
2 tasks to others underneath them? How was it
3 coordinated to respond to the survey?

4 A. So the survey was typically coordinated by
5 the director of quality. I can't speak to how she or
6 who she would have engaged or how she would have gotten
7 that task done.

8 Q. Okay. And then the last year that you
9 participated was 2021, correct?

10 A. Correct.

11 Q. Would that have been Gina West who was the
12 director of quality at that time?

13 A. No.

14 Q. Who would that have been?

15 A. It may have been Carola Kuret, but I'm not
16 positive if that's who was in the role at that time.

17 Q. And what year did Regina West become the
18 director of quality?

19 A. At St. Mary's, I believe Gina's been there a
20 year and a half.

21 Q. To date, she's been there a year and a half?

22 A. At St. Mary's.

23 Q. Okay. What about with Palm Beach Health
24 Network?

25 A. I'm not sure.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 143

1 Q. Do you know what hospital she was at before
2 she came to St. Mary's?

3 A. I believe Gina was at -- I'm not positive,
4 but if I venture a guess, she may have been at
5 Good Sam.

6 Q. But would you agree with me based on
7 documents that have been produced in this litigation
8 that Gina West was the director of quality in 2024?

9 MS. MALONEY: Objection. Lacks foundation.

10 A. If Gina has been there for a year and a
11 half, she should have been there in 2024. I don't
12 recall when she started.

13 BY MS. BLAIR:

14 Q. Do you recall how much St. Mary's budgeted
15 towards the Leapfrog completing the Leapfrog survey in
16 2021?

17 A. That's not how budgets are completed.

18 Q. Do you know how much -- well, how are
19 budgets completed, then?

20 MS. MALONEY: Objection.

21 A. So when you're completing a budget for a
22 department, you would budget for number of staff, not
23 for number of tasks.

24 BY MS. BLAIR:

25 Q. Was there -- after St. Mary's stopped

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 144

1 participating in the Leapfrog survey, was the number of
2 staff in the quality department reduced?

3 A. I do not believe so.

4 Q. Do you know if there was a number one, two,
5 three of staff that were dedicated to complying with
6 the Leapfrog survey?

7 MS. MALONEY: Objection. Asked and
8 answered.

9 Objection. Lacks foundation and vague.

10 A. I said before I don't -- I know who
11 ultimately was responsible, but I don't know who
12 completed the survey.

13 BY MS. BLAIR:

14 Q. Okay. So as you sit here today, you're
15 unaware of whether there was a dedicated FTE to
16 completing the Leapfrog survey in 2024?

17 MS. MALONEY: Objection. Asked and
18 answered.

19 A. A FTE would imply 2,080 hours, so there was
20 not a 2,080-person -- 80-hour person designated for
21 this one task.

22 BY MS. BLAIR:

23 Q. Between when you stopped participating in
24 the survey in 2021 through fall of 2024, did St. Mary's

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 145

1 participation in the Leapfrog Hospital Survey?

2 A. I can't recall.

3 Q. You have no recollection of a discussion?

4 A. I can't recall without looking at minutes.

5 Q. Between 2020 and the fall of 2024, what
6 discussions do you recall St. Mary's having -- and I'm
7 asking you this in your corporate capacity --

8 A. Um-hum.

9 Q. I'll ask this question as a corporate
10 representative. Between 2020 and 2024, what
11 conversations were had between St. Mary's and
12 Palm Beach Health Network regarding participating in
13 the Leapfrog Hospital Survey?

14 A. It's difficult to sit here and recount any
15 specific conversation from a year or five years ago.

16 Q. Okay. Are you aware that every safety --
17 every Leapfrog Safety Grade cycle, the Palm Beach
18 Health Network would ask each of the five hospitals for
19 their Leapfrog Hospital Safety Grades?

20 MS. MALONEY: Objection. Lacks foundation.

21 A. I'm not certain if I'm aware or not aware of
22 that.

23 BY MS. BLAIR:

24 Q. Okay.

25 MS. BLAIR: I'm going to hand you what we're

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 146

1 going to mark as Exhibit 4. I think this is 4,
2 right, Barbie?

3 THE STENOGRAPHER: This is 5.

4 MS. BLAIR: 5. Apologize.

5 (Defendant's Exhibit Number 5 for i.d.)

6 BY MS. BLAIR:

8 Ms. McCauley?

9 A. I am copied on the email, so I would say,
10 yes.

11 Q. Who is Carola Kuret?

12 A. Carola Kuret was the quality director at
13 that time.

14 Q. And that time, according to this email which
15 is Bates numbered PBHN 6927 through 6930, was April of
16 2023, correct?

17 A. Yes.

18 Q. And do you see that she's sharing the
19 subject is "Spring forward, spring 2023 letter grade
20 embargo period opens today," do you see that?

21 A. Yes.

22 Q. Does this refresh your recollection that
23 St. Mary's was keeping track of its Leapfrog Safety
24 Grades in 2023 at least?

25 A. This indicates that Carola was monitoring

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 147

1 the safety grade.

2 Q. Do you have any recollection that Tenet
3 health home office was asking that these safety grades
4 be monitored?

5 A. I don't have any knowledge -- any
6 recollection.

7 Q. Okay. We'll look at the next one, then.
8 This will be 6.

9 (Defendant's Exhibit Number 6 for i.d.)

10 BY MS. BLAIR:

11 Q. I'm now handing you what we've marked as
12 Exhibit 6 to the McCauley deposition. Do you see this
13 is an email from Satyavani Nukala to several people,
14 including yourself. The subject is spring 2023 letter
15 grade. Do you see that?

16 A. Yes.

17 Q. And if we look underneath, it's
18 Jennifer Hugh is sending an email to Bonnie, correct?

19 A. It appears that way.

20 Q. And she says "FYI"?

21 A. Yes.

22 Q. Who is Jennifer Hugh?

23 A. I have no idea.

24 Q. And Bonnie says to everybody, "Thank you for
25 forwarding the email, Jennifer." And the email is, in

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 148

1 fact, if we turn to the next page, that is, in fact,
2 the St. Mary's Leapfrog grade from 2023, correct?

3 A. Correct.

4 Q. And who is Bonnie Nukala, if I'm saying that
5 correctly?

6 A. I do not know.

7 Q. You don't know who she is?

8 A. No.

9 Q. Okay. And you see it's here it says below
10 her signature she's a biostatistician of clinical
11 operations at Tenet Healthcare, correct?

12 A. That's what it says.

13 Q. But you don't know who that is?

14 A. No.

15 MS. MALONEY: Objection.

16 (Defendant's Exhibit Number 7 for i.d.)

17 BY MS. BLAIR:

18 Q. Mrs. McCauley, I'm handing you now what
19 we've marked as Exhibit 7 to your deposition Bates
20 labeled PBHN 6838 through 6840.

21 That top email in the first page is from
22 Jessica Miller to Regina West and yourself.

23 Do you see that?

24 A. Yes.

25 Q. The subject is "Leapfrog Preview Reports,"

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 149

1 correct?

2 A. Yes.

3 Q. And it's dated October of 2023, correct?

4 A. Yes.

5 Q. And if you turn to the second page, you'll
6 see that there is score calculators from the Leapfrog
7 calculator attached, correct?

8 A. Yes.

9 Q. Did you ask Regina West to provide these
10 reports to you related to the Leapfrog Hospital Safety
11 Grade?

12 A. I don't recall asking Gina to do that.

13 Q. Okay. Did you look at these reports for any
14 particular purpose?

15 A. Not that I recall.

16 Q. If you see, who is Jessica Miller?

17 A. She was our CNO at the time.

18 Q. Okay. And the time being, again, October of
19 2023, correct?

20 A. Correct.

21 Q. And she's not the current CNO, correct?

22 A. She is not.

23 Q. And she -- if we look at Gina's email on the
24 bottom of the first page here, she says to Jessica and
25 yourself, "The Leapfrog fall 2023 preview reports are

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 150

1 available. We won't know our letter grade until closer
2 to November. Based on the spring 2023 distribution
3 we'll likely land in the C category."

4 Do you see that?

5 A. Yes.

6 Q. Do you have any recollection of any
7 discussions you would have had with Ms. West and/or
8 Ms. Miller in or around October 2023 regarding the
9 Leapfrog Hospital Safety Grade?

10 A. I do not recall.

11 Q. And you don't recall, again, why you would
12 have been asking for these -- this information -- or
13 I'm sorry. You don't recall if you were asking for
14 this information, correct?

15 A. That's correct.

16 Q. And if we look at Jessica's email back she
17 says, "Thank you, Gina. We have the directors getting
18 their teams and processes geared to a renewed focus on
19 patient experience as we have plenty of opportunity."

20 Do you see that?

21 A. I do.

22 Q. Do you know what she's referring to when she
23 refers to patient experience?

24 A. I didn't write the email so I can't opine as
25 to what Jes thinking at the time.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 151

1 Q. Would you agree with me that HCAHPS are
2 patient experience scores.

3 MS. MALONEY: Objection. Asked and
4 answered.

5 A. Yes.

6 BY MS. BLAIR:

7 Q. And if we turn to the second page, when you
8 look at the measures that are listed, at least we'll
9 take that, the middle of the second page, do you see
10 where it says H-COMP 1, H-Comp 2, H-Comp 3, 5 and 6?

11 A. Yes.

12 Q. Is it your understanding that those are
13 HCAHPS scores?

14 A. Yes.

15 Q. Do you recall in or around October 2023 any
16 discussions you would have had with your quality staff
17 related to the need to improve patient experience
18 scores?

19 A. Not specifically, no.

20 Q. And if we look again, you were not
21 participating in or around this time, October 2023, you
22 were not participating in the Leapfrog Hospital Survey,
23 correct?

24 A. Correct.

25 MS. MALONEY: Objection.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 152

1 BY MS. BLAIR:

2 Q. And if we look at, again, that same chart we
3 were looking at in the middle of page 2, that first
4 line, computerized first order entry, CPOE, do you see
5 that?

6 A. Yes.

7 Q. Would you agree with me that's one of the
8 four measures that is at issue in this litigation?

9 A. Yes.

10 Q. And do you see right next to it, St. Mary's
11 was receiving 100 out of 100 points for that measure?

12 A. Yes.

13 Q. And you were receiving that perfect score
14 even though you were not completing the survey,
15 correct?

16 A. Yes.

17 Q. And that would be the same if we go to the
18 second row for BCMA right below, correct?

19 A. Yes.

20 Q. And the same for physician ICU staffing
21 right below that, correct?

22 A. Yes.

23 Q. And then if we look at hand hygiene, which
24 is like four rows down, again, St. Mary's is getting
25 100 out of 100 points on the Leapfrog Safety Grade in

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 153

1 the fall of 2023 even though it's not participating in
2 the survey, correct?

3 A. Yes.

4 Q. And I asked you this earlier, but you don't
5 know as you sit here today how Leapfrog was calculating
6 that perfect score for St. Mary's in or around fall of
7 2023, correct?

8 A. That's correct.

9 MS. BLAIR: 8?

10 THE STENOGRAPHER: Yes.

11 (Defendant's Exhibit Number 8 for i.d.)

12 BY MS. BLAIR:

13 Q. Ms. McCauley, I'm now handing you what we
14 marked McCauley Exhibit 8. This is an email stream
15 with the Bates label PBHN 6765 through 6770. The first
16 email on the top is from Regina West to yourself dated
17 February 22nd of 2024. Do you see that?

18 A. Yes.

19 Q. And Regina says, the preview -- oh, I'm
20 sorry. The subject is "Hospital Safety Grade
21 Announcements." Do you see that?

22 A. Yes.

23 Q. And if you review this, does this document
24 reflect on page 6766 that she's referring to the
25 Leapfrog Hospital Safety Grade announcement?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 154

1 A. Yes.

2 Q. And if you look at the middle email from you
3 to Regina West, you say, "What do we estimate our grade
4 will be? Are we still a C or have we reclaimed our B?"

5 Do you see that?

6 A. Yes.

7 Q. Does this refresh your recollection that at
8 least in February of '24 you were monitoring your
9 Leapfrog Hospital Survey?

10 A. It indicates that I was curious what our
11 grade was.

12 Q. And then Gina responds to you in the first
13 email in this chain, correct, "Hi there. The preview
14 opens on the 26th, and we can see how we compare to the
15 current national averages to get an idea."

16 Do you see that?

17 A. Yes.

18 Q. And so does this refresh your recollection
19 that at least Gina was benchmarking St. Mary's'
20 performance against the current national averages?

21 A. I don't want to weigh in on what --

22 MS. MALONEY: Objection.

23 A. -- Gina may or may not have been focused on.

24 BY MS. BLAIR:

25 Q. Okay. Do you recall any conversation was

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 155

1 Gina West in or around this time about using Leapfrog's
2 hospital safety grade to benchmark St. Mary's against
3 other hospitals in the nation?

4 MS. MALONEY: Objection. Lacks foundation.
5 Misstates the document and misstates testimony.

6 A. No.

7 BY MS. BLAIR:

8 Q. Thank you.

9 (Defendant's Exhibit Number 9 for i.d.)

10 BY MS. BLAIR:

11 Q. Ms. McCauley, I'm handing you what the court
12 reporter has now marked as McCauley Exhibit 9, which is
13 a document Bates labeled PBHN 12734 through 12736. Is
14 that the document you have in front of you?

15 A. Yes.

16 Q. And it is an email, the first page is an
17 email from Gina West to Jessica Miller and yourself
18 dated March 7th, 2024, correct?

19 A. The front page has an email from --

20 Q. Yes.

21 A. -- from Gina to Jes and myself, yes.

23 2024 Leapfrog Hospital Safety Grade review period now
24 open," correct?

25 A. Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 156

1 Q. And Gina says, "We can't get too excited
2 about this. But if Leapfrog uses the same scoring as
3 fall 2023, SMMC is set to get an A this spring."

4 And then she says "What?!?!" et cetera.

5 Do you recall receiving this email in or
6 around March of 2024?

7 A. It's difficult to recall an email from a
8 year and a half ago.

9 Q. Does it refresh your recollection in any way
10 that St. Mary's was, in fact, monitoring the Leapfrog
11 Hospital Safety Grade?

12 MS. MALONEY: Objection --

13 A. No.

14 MS. MALONEY: -- to form. Lacks foundation.

15 BY MS. BLAIR:

16 Q. And then if we look at the email that starts
17 on the bottom of page PBHN 12735 and goes on to 12736,
18 this is an email, again, from Bonnie Nukala to several
19 people. And she says, "Hello, everyone. Good morning.
20 Leapfrog has released the hospital's preliminary
21 numerical score for 2024 spring safety grades. Please
22 share your preliminary score."

23 Do you see that?

24 A. I see that.

25 Q. Does that refresh your recollection in any

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 157

1 way that, in fact, Tenet home office was asking
2 hospitals to share their Leapfrog scores with home
3 office in or around this time?

4 A. No.

5 Q. So I take it regardless of all of the emails
6 that I may show you, you just don't have a recollection
7 that in or around 2023 through the -- well, prior to
8 the fall of 2024 that St. Mary's was in any way
9 monitoring its Leapfrog Safety Grade?

10 MS. MALONEY: Objection. Lacks foundation.
11 Mischaracterizes her testimony.

12 A. So I can't say personally that I was
13 monitoring it, but there are emails evidencing that it
14 was shared with me.

15 Q. Right. But did you, as the CEO of God -- of
16 St. Mary's in or around this time, '23 and '24, was it
17 important to you at all what the Leapfrog Hospital
18 Safety Grade was for St. Mary's?

19 A. I know that Leapfrog was not a survey we
20 participated in, so I would imagine I still was curious
21 that we were getting a score, so it would not seem
22 unusual for me to be curious how they were scoring us
23 on a survey we didn't participate in.

24 Q. Okay. But it was your position in or around
25 that time that the score that was being generated would

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 158

1 not have been accurate in terms of St. Mary's' actual
2 patient safety, correct?

3 MS. MALONEY: Objection.

4 A. At the time of this score, they were not
5 using imputed scores, so they were -- after the change
6 in methodology in the fall, the scores became grossly
7 inaccurate.

8 BY MS. BLAIR:

9 Q. Well, they were using imputed scores. They
10 were giving you 100 out of 100 for certain data,
11 correct?

12 MS. MALONEY: Objection.

13 A. They gave us 100 out of 100, but they did
14 not use a limited achievement for metrics that we are
15 achieving.

16 BY MS. BLAIR:

17 Q. Right. You got full achievement for those
18 measures that we're in litigation for before fall of
19 2024, correct?

20 A. It appears that way, yes.

21 Q. If we go back to the interrogatory answers
22 that I marked previously as an Exhibit, I think it's
23 number 2 perhaps, do you have that in front of you,
24 Ms. McCauley?

25 A. Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 159

1 Q. Before we get to that, in 2023, was
2 St. Mary's measuring its CPOE compliance?

3 MS. MALONEY: Objection to form. Vague.
4 Lacks foundation.

5 A. I can't attest yes. I can surmise that
6 we've been tracking and trending for quite sometime.

7 BY MS. BLAIR:

8 Q. Okay. And CPOE is one of four measures that
9 is at issue in this litigation, correct?

10 A. Correct.

11 Q. And barcode medication administration prior
12 to the fall of 2024, was St. Mary's tracking its
13 compliance with barcode administration internally?

14 MS. MALONEY: Objection.

15 A. To -- to the best of my knowledge, that is a
16 metrics that's tracked.

17 BY MS. BLAIR:

18 Q. And in 2020 -- or prior to the fall of 2024,
19 was St. Mary's measuring its compliance with its hand
20 hygiene policy?

21 MS. MALONEY: Objection.

22 A. To the best of my knowledge, yes.

23 BY MS. BLAIR:

24 Q. And if we turn to that Exhibit and
25 particularly the answer to interrogatory 13, which is

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 160

1 on page, starts on page 21, my apologies. And the
2 question is, "Describe any steps taken by your hospital
3 to improve any and all the patient safety measures
4 considered by Leapfrog's Hospital Safety Grade."

5 Do you see that?

6 A. Yes.

7 Q. And if I look at your answer, and I just had
8 a question about your answer, the amended answer,
9 excuse me, with after the objection starts, the last
10 paragraph on page 22, it says, "Plaintiff tracks three
11 of these metrics through its safety" -- "patient safety
12 plan or as part of its quality improvement."

13 Which three is that referring to?

14 A. It is referring to hand washing, barcode
15 administration and CPOE.

16 Q. Okay. And it's not referring to ICU
17 coverage because the last sentence says, "Plaintiff has
18 24/7 ICU coverage for its intensivists unit and has had
19 that coverage for several years," correct?

20 A. Correct.

21 Q. And so you still track that, though, right,
22 the ICU coverage?

23 MS. MALONEY: Objection.

24 A. Define what you mean "track that."

25

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 161

1 BY MS. BLAIR:

2 Q. Well, this says that there's a contract --
3 let's lay some foundation.

4 You have a contract in place, St. Mary's
5 does for 24/7 coverage for the ICU, correct?

6 A. Correct.

7 MS. MALONEY: Objection. You need to slow
8 down.

9 THE WITNESS: I'm sorry.

10 MS. MALONEY: Okay?

11 THE WITNESS: Thank you.

12 MS. MALONEY: Thank you.

13 BY MS. BLAIR:

14 Q. And I understand that. But is there some
15 way in which St. Mary's measures that, in fact, there
16 is a specialty intensivist at the unit 24/7?

17 A. So there is a calendar that identifies which
18 intensivist is on which day.

19 Q. Okay. And so there's some tracking that
20 that person is on and did come to work and was covering
21 the shift, correct?

22 MS. MALONEY: Objection. Asked and
23 answered.

24 A. It's a calendar that would say Dr. McCauley
25 is here on Thursday, right, 7:00 A or I forget if they

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 162

1 start 7:00 A or 8:00 A.

2 BY MS. BLAIR:

3 Q. So in terms of, so I want to start with
4 CPOE. How were you monitoring CPOE? And I'm asking
5 you this as the corporate representative of St. Mary's.
6 How was St. Mary's monitoring CPOE in -- or prior to
7 the fall of 2024?

8 A. The facility has a clinical informaticist, I
9 think is the title, that can run reports to track that
10 data.

11 Q. And who is the clinical informaticist of
12 St. Mary's, let's just say, from 2023 to present?

13 A. In 2023, it would have been
14 Barbara Greathouse, and mid 2023 to present is
15 Emily Fuentes.

16 Q. Do you know whether or not the informaticist
17 runs tests on the CPOE system to make sure that the
18 alerts are functioning properly?

19 A. I can't speak to that.

20 Q. Have you seen reports from your
21 informaticist regarding how many errors, if any, in
22 CPOE occur on a regular basis?

23 A. I can't recall reading that.

24 Q. Have you produced all documents in this case
25 to substantiate that St. Mary's was in compliance with

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 163

1 Leapfrog's CPOE standard?

2 MS. MALONEY: Objection.

3 A. We complied with all the requests for
4 documents to the best of my knowledge.

5 BY MS. BLAIR:

6 Q. And there is an agreement that the hospitals
7 that are plaintiffs in this litigation would produce
8 documents sufficient to simulate how they would score
9 on the Leapfrog survey from fall of 2024 had they
10 completed that survey. And my question is specific to
11 that. Do you -- have you produced all of the documents
12 in this case that are sufficient to simulate how
13 St. Mary's would have done on Leapfrog's CPOE standard?

14 A. I would have to go through all the document
15 production.

16 Q. But you're confident that the documents were
17 compiled by your office?

18 A. I'm confident that if the document exists
19 that we would have complied.

20 Q. Would you agree with me that CPOE is
21 important to patient safety?

22 MS. MALONEY: Objection.

23 A. Yes.

24 BY MS. BLAIR:

25 Q. Barcode medication administration, how is

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 164

1 that done at St. Mary's?

2 A. We have a computerized system, Omnicell,
3 where medications are secured.

4 Q. Is the BCMA system at St. Mary's linked such
5 that a nurse would scan a barcode on a medication, then
6 scan the wristband of a patient to make sure that they
7 were getting the right medicine at the right time?

8 MS. MALONEY: Objection. Lacks foundation.
9 Compound.

10 A. So I can speak higher level since I don't
11 perform that function, but, yes, there would be a
12 scanning of the patient's arm band and the scanning of
13 the drug. My understanding is when they scan the drug,
14 it speaks to the computer system that identifies that
15 that's a match. And then when they've identified that
16 that is the patient, the nurse would administer the
17 drug.

18 BY MS. BLAIR:

19 Q. Are there reports issued by St. Mary's that
20 set forth the rate of errors for BCMA at St. Mary's?

21 MS. MALONEY: Objection. Lacks foundation.

22 A. I am sure there are drugs [sic] that are
23 produced that monitor the safe administration of drugs.

24 BY MS. BLAIR:

25 Q. You said "drugs." I just want to clean that

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 165

1 up.

2 A. Medications, pharmaceuticals.

3 Q. Yeah, and I just want you to be able -- you
4 said, "I'm sure there are drugs that monitor the safe
5 administration of drugs."

6 A. Oh. Okay.

7 Q. And I assume you meant there are "reports,"
8 correct?

9 A. Correct.

10 Q. Okay. I just want to make sure that we're
11 clear.

12 Do you know what the names of any of those
13 reports are?

14 A. I do not.

15 Q. Do you know if those are reports that have
16 been produced in this litigation?

17 A. If those reports were requested, I'm
18 confident the team would have produced them.

19 Q. As you sit here today, do you know what the
20 percentage of errors are, let's just say, for the year
21 2024 for BCMA for St. Mary's?

22 MS. MALONEY: Objection.

23 A. If -- if I knew that number, I can't recall
24 it.

25

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 166

1 BY MS. BLAIR:

2 Q. Do you know whether or not St. Mary's
3 regularly runs tests on its BCMA system to make sure
4 that it is functioning appropriately?

5 A. I am confident that there are routine
6 protocols on how to ensure that our systems are working
7 appropriately.

8 Q. Do you know who runs those routine
9 protocols?

10 A. I could make a guesstimate.

11 Q. I don't want you to guess. Do you know how
12 often those routine protocols are run?

13 A. I do not know factually.

14 Q. Would you agree with me that proper barcode
15 medication administration is important to patient
16 safety?

17 A. Yes.

18 Q. Can you describe for me what St. Mary's'
19 hand hygiene policy was in 2024?

20 A. We don't have a unique hand hygiene policy.

21 Q. Okay. How was hand hygiene monitored in
22 2024?

23 A. In 2024, hand hygiene was monitored by
24 direct observation.

25 Q. And who's observing whom in that situation?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 167

1 A. A department director, a nurse leader can
2 observe. Members from infection control or quality
3 management can be involved in the team that's making
4 the observations.

5 Q. And how are those observations catalogued,
6 if at all?

7 A. They observe, and then they create there's a
8 paper where they mark if the individual followed the
9 World Health Organization procedure for hand washing
10 fully.

11 Q. And where are those logs stored?

12 A. I believe they're stored in a system called
13 AMP®.

14 Q. A-m-p?

15 A. I believe.

16 Q. Are there reports produced to you as the CEO
17 of St. Mary's regarding the outcome of those hand
18 hygiene observations?

19 A. I have seen a summarized report of
20 compliance.

21 Q. Do you know if that summarized report of
22 compliance has a name?

23 A. A specific name, no.

24 Q. How often do you get the summarized report
25 of compliance with hand hygiene as the CEO of

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 168

1 St. Mary's?

2 A. The report is produced monthly.

3 Q. And you said earlier that St. Mary's does
4 not have a unique hand hygiene policy. What did you
5 mean by that?

6 A. They are -- it's not a policy called hand
7 hygiene.

8 Q. Okay. Is there a policy called something
9 else that covers hand hygiene?

10 A. There's a patient safety plan.

11 Q. And the hand hygiene policy is within the
12 patient safety plan?

13 MS. MALONEY: Objection.

14 A. The standards would be nested in there.

15 BY MS. BLAIR:

16 Q. And is the patient safety plan unique to
17 St. Mary's or is it a patient safety plan for Palm
18 Beach Health Network?

19 A. It is a St. Mary's plan.

20 Q. Would you agree with me that hand hygiene is
21 important for patient safety?

22 A. Yes.

23 Q. We talked a little bit about ICU physician
24 staffing. And I know that you have, I've seen it, a
25 contract, correct, for ICU physician staffing for 24/7

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 169

1 coverage, correct?

2 A. Yes.

3 Q. And we talked about how you monitor, that,
4 in fact, there is actually a person on site, correct?

5 A. Yes.

6 Q. Have you produced that calendar that you
7 discussed that confirms that there is, in fact, an ICU
8 intensivist on staff 24/7 at St. Mary's in this
9 litigation?

10 A. I would have to check to see if that was a
11 document requested.

12 Q. What was your understanding of how the
13 prefall 2024 Leapfrog methodology scored
14 nonparticipating hospitals with respect to the four
15 measures that are at issue in this litigation?

16 A. Based on what I just reviewed with you,
17 they -- it appears that we received 100 in each of
18 those four categories.

19 Q. And I think we've already established this,
20 but you don't know how that 100 was calculated; is that
21 correct?

22 A. That's correct.

23 Q. And do you understand that three measures on
24 the Leapfrog Hospital Safety Grade nonparticipating
25 hospitals were not being graded on, they were just

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 170

1 declined to respond?

2 A. There are three that, right, we, are
3 reallocated to other questions.

4 Q. Did you have an understanding that prior to
5 fall of 2024, the ICU physician standard measure was
6 already -- well, strike that.

7 What is your understanding of how the ICU
8 physician staffing measure was applied to
9 nonparticipating hospitals in the spring of 2024?

10 A. Based on what I've seen in the documents, we
11 were given 100 points.

12 Q. Do you have any understanding that even in
13 the spring of 2024 for a hospital that did not have
14 four, a survey within four rounds, they were being
15 given a 5 for ICU physician staffing even in the fall
16 of 2024?

17 MS. MALONEY: Objection.

18 A. I'm unaware.

19 BY MS. BLAIR:

20 Q. What was St. Mary's' Leapfrog grade in the
21 spring of 2024?

22 A. I'd have to go back and see. I believe it
23 was a C.

24 Q. Did you believe the grades that St. Mary's
25 was receiving -- well, strike that.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 171

1 Did you believe, yeah, did you believe the
2 grades that St. Mary's was receiving prior to the fall
3 of 2024 accurately reflected the hospital's patient
4 safety?

5 A. I didn't put any credence in the score
6 because it was a survey we weren't participating in.

7 Q. Okay. So you didn't have a --

8 A. Didn't have sentiment.

9 Q. Okay. Do you have any understanding as to
10 why Leapfrog changed its methodology for the fall of
11 2024?

12 A. I'm not -- I'm not certain, but I believe
13 that there was a motivation to have nonparticipating
14 facilities receive a lower score to try to encourage or
15 increase participation by all facilities across the
16 United States.

17 Q. And what is your belief based on?

18 A. My belief is based on some of the discovery
19 documents that I have read, and I do believe
20 Ms. Binder (phonetic) had indicated that in one of her
21 communications that it would be beneficial to Leapfrog
22 to increase participation in the survey to have
23 nonparticipating facilities not receive full credit for
24 the four scores that we've been discussing.

25 Q. Okay. And you refer to documents that

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 172

1 you've seen in discovery in this case, correct?

2 A. Correct.

3 Q. So let me ask the question a little
4 differently.

5 Prior to filing the Complaint against
6 Leapfrog, what did you base your belief that the change
7 Leapfrog made in its methodology for the fall of 2024
8 was to increase participation by nonparticipating
9 hospitals?

10 A. Can you repeat that?

11 Q. Yeah. So your answer to me earlier was
12 based on documents you've seen in discovery in this
13 litigation, correct?

14 A. Yes.

15 Q. Did you hold that -- let me ask this. Did
16 you hold the same belief before you filed the
17 Complaint, that the reason for the change in the
18 Leapfrog methodology in fall of 2024 was to force
19 nonparticipating hospitals to participate in the
20 survey?

21 A. So prior to the fall of 2024 when we were a
22 C and prior to that a B, that was not -- would not have
23 the same perception of being viewed negatively by the
24 public as the majority of the hospitals in the market
25 were a C, so I didn't have to have as much concern

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 173

1 about a survey that we weren't participating in and,
2 you know, getting a B or a C for.

3 Q. Okay. So prior to filing the Complaint
4 against Leapfrog, prior to filing the Complaint against
5 Leapfrog what was your understanding as to why Leapfrog
6 changed its methodology for fall of 2024?

7 A. My understanding is that Leapfrog changed
8 its methodology to be punitive to nonparticipating
9 hospitals.

10 Q. And what is that based on?

11 A. That is based on my understanding and based
12 on something that I read, be it online, that there was
13 a move by Leapfrog to increase participation and
14 changing the score, changing the grading methodology,
15 they could get more hospitals to want to electively
16 participate.

17 Q. Do you know prior to the fall of 2024 how
18 many hospitals across the country were voluntarily
19 participating in the Leapfrog survey?

20 A. No. I believe 20 percent are
21 nonparticipating, about 20 percent are
22 nonparticipating, so math would say 80 percent.

23 Q. Okay. And do you recall, you said, "That is
24 based on my understanding and based on something that I
25 read, be it online, that there was a move by Leapfrog

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 174

1 to increase participation and changing the score..."

2 Do you recall what it was you read online?

3 A. I have read so many documents, I can't
4 recall specifically at this time.

5 Q. And I'm talking obviously prior to filing
6 the Complaint.

7 A. Um-hum.

8 Q. You read this prior to filing the Complaint?

9 A. Perhaps. I have read so many documents,
10 both in my role generically as the CEO. I read and
11 consume a lot of material, so it's very hard for me to
12 pinpoint a date on anything for you.

13 Q. Do you understand that in the summer of 2024
14 Leapfrog put out for public comment the changes it was
15 making -- it was going to be making to its methodology?

16 A. I don't recall that specifically.

17 Q. So you don't recall reading that prior to
18 filing the Complaint in this matter, correct?

19 A. I can't say if I do or I don't.

20 Q. But that isn't what you read that informs
21 your belief that there was a move by Leapfrog to
22 increase participation and changing the score, changing
23 the grading methodology they could get more hospitals
24 to want to electively participate?

25 A. I believe I said I can't remember tangibly

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 175

1 where I gleaned that from.

2 Q. And I want to make sure. I'm trying to
3 refresh your recollection. Was that based on the
4 request for public comment by Leapfrog, that is,
5 informing your belief as to the reasoning why the score
6 was being, the methodology was being changed? Excuse
7 me.

8 MS. MALONEY: Objection to form.

9 A. I can't say that it was.

10 BY MS. BLAIR:

11 Q. Have you heard -- well, strike that.

12 In '20 -- in fall of 2024 what was
13 St. Mary's' CMS star rating, overall star rating?

14 A. 1.

15 Q. And what was its perception -- I'm sorry --
16 patient experience CMS rating?

17 A. A 1.

18 Q. And when we talk about the CMS patient
19 experience star rating, do you understand that that's
20 based on HCAHPS?

21 A. Yes.

22 Q. Do you know whether or not the information
23 that St. Mary's submits to CMS is for the adult acute
24 care center or for both the adult acute care and
25 pediatric center?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 176

1 A. I believe there is two different surveys,
2 one more pediatrics and one for adults.

3 Q. So the CMS data is, in your view, the CMS
4 data is divided between pediatrics and adults?

5 A. Yes.

6 Q. In 2024, did you have any discussions with
7 your governing board regarding St. Mary's' CMS ratings?

8 A. I can't recall.

9 Q. Do you recall if, as we sit here today,
10 whether or not St. Mary's' CMS ratings are important to
11 the governing board?

12 A. You can ask the governing board. They -- I
13 don't know that I've specifically asked that question
14 to them, but I could surmise for them.

15 Q. Has anybody ever raised it at a board
16 meeting, to your knowledge?

17 A. Not that I recall.

18 Q. Would you agree with -- would you agree with
19 me that patient experience scores are something that
20 St. Mary's could improve upon?

21 A. Yes.

22 Q. Do you recall if you had any discussions at
23 the med exec level about St. Mary's' CMS rating?

24 A. I don't recall having a specific
25 conversation about CMS ratings.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 177

1 Q. Do you recall anybody on the med exec ever
2 asking questions about St. Mary's CMS' star ratings?

3 A. I don't recall that.

4 Q. Do you share information with the med exec
5 regarding the St. Mary's' CMS star ratings?

6 A. We share information with the med exec. I
7 just cannot recall if I've shared our CMS star ratings.

8 Q. Do you recall whether you've shared the CMS
9 star ratings with the governing board?

10 A. I can't recall.

11 Q. Do you recall whether you've had any
12 discussions about patient experience scores with the
13 governing board?

14 A. Yes.

15 Q. What do you recall about the discussions
16 you've had about patient experience with the governing
17 board?

18 A. We have had a lot of education with the
19 governing board about patient experience. We have our
20 children's hospital has a 4.5 or 4.6 Google star rating
21 indicating strong satisfaction with the facility. And
22 the main campus has a 3.6 overall Google score.

23 Q. And so you as a hospital look more at the
24 Google ratings than the CMS patient experience scores?

25 A. I have focused on the Google scores because

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 178

1 they are live real time every day available. If I
2 could expand --

3 Q. Of course.

4 A. -- the Press Ganey HCAHPS, we also
5 experience, it's sent to all inpatients within two days
6 of discharge. And unfortunately, we have a -- it's
7 done by mail in English or Spanish depending on the
8 patient's language. But we have an extremely high
9 return rate of undirected or misdirected mail because
10 many of our patients do not give us their correct
11 address.

12 Q. Okay. Do you know what percentage of
13 patient experience responses St. Mary's gets back?

14 A. Somewhere between 7, 8, 9 percent.

15 Q. And do you know what percentage of patients,
16 what percent of St. Mary's' patients leave Google
17 reviews?

18 A. I don't know if I could calculate -- I've
19 never attempted to calculate a percentage.

20 Q. So you don't know if it's higher or lower
21 than the percentage you're getting from CMS?

22 A. No, but I --

23 MS. MALONEY: Objection.

24 A. Yeah.

25 And I do think that the children's hospital,

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 179

1 they get a different survey. I'm going through my
2 mind. It may be encapsulated in that score. They
3 don't get a separate score. It is a different survey,
4 though, but I'm trying to think of the results I've
5 gotten. The children's hospital scores may be nested
6 in the aggregate score, it's just a different survey
7 tool.

8 BY MS. BLAIR:

9 Q. Okay.

10 A. Which is, I -- I would -- I believe that's
11 the case, but I will need to trust but verify. I think
12 I said -- I think I said the opposite earlier, and I
13 don't know that that's correct.

14 Q. Would the best place be to confirm that with
15 CMS itself?

16 A. Well --

17 MS. MALONEY: Objection.

18 A. I -- I could confirm that either with my
19 patient experience manager, or there's probably many
20 ways I could confirm that.

21 BY MS. BLAIR:

22 Q. Prior to the fall of 2024 as the CEO of
23 St. Mary's what area or areas would you have considered
24 to be in the most need of improvement in terms of
25 patient safety or quality?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 180

1 A. I believe our greatest area of opportunity,
2 especially where we've seen marked improvement, has
3 been in our CAUTI rate.

4 Q. And for the record, CAUTI, what does CAUTI
5 stand for?

6 A. It's a UTI infection.

7 Q. And do you know -- and that is a rate that
8 CMS measures, correct?

9 A. Correct.

10 Q. And the publicly available data related to
11 the CAUTI rate is lagging; isn't that correct?

12 A. Correct.

13 Q. And so the data that you have is -- I
14 already asked the question about in 2024, correct?

15 A. I don't recall.

16 Q. I don't recall either.

17 Okay. Let me ask it again.

18 Prior to -- prior to the fall of 2024 what
19 area or areas did St. Mary's consider to be in need of
20 most improvement?

21 A. Correct. Our CAUTI rate needed improvement.

22 Q. Okay. And that was true whether we were
23 looking at the publicly available CMS data that was
24 lagging as well as the current data that you had in
25 your hands?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 181

1 A. So the data certainly from the publicly
2 reported data, which is a year and a half old, since
3 that time we have seen an improvement between 50 -- a
4 reduction between 50 and 60 percent in our CAUTI rate.

5 Q. And what do you attribute that to?

6 A. Our reduction in device days, so catheters.
7 Our reduction in device days, additional reeducation
8 and training of the nurses about how to insert and pull
9 out a catheter. We are working with our physicians.
10 Again, we can be assisting in education, observation,
11 validating that the device is needed.

12 Q. Do you recall any discussions at the
13 Palm Beach Health Network level regarding St. Mary's'
14 CMS ratings?

15 MS. MALONEY: Objection. Lacks foundation.
16 Vague.

17 A. Not specifically focused on CMS star
18 ratings.

19 BY MS. BLAIR:

20 Q. Do you recall whether there was ever any
21 meetings regarding the five hospitals that make up
22 Palm Beach Health Network related to steps that could
23 be taken to improve CMS star ratings?

24 A. Not that I recall attending.

25 Q. Do you think the CMS rating for patient

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 182

1 safety is fair?

2 A. I mean, the patients -- the patient score,
3 it's based on our data, so it's not a -- it's not a
4 judgment. It's not subjective.

5 Q. But it's lagging, correct?

6 A. It is, at least for that time period.

7 Q. When is the first time that you learned that
8 the Leapfrog was changing its methodology related to
9 how it was going to score the four measures at issue in
10 this litigation?

11 A. I can't say when the first time was that I
12 learned about it. However, I'm sure I became more
13 acutely aware of it after our grades were published.

14 Q. After your grades were published?

15 A. After our grades were published.

16 Q. And are you aware that the fall, Leapfrog
17 fall safety grades for 2024 were published on
18 November 20th, 2024?

19 A. On or about.

20 Q. Were you involved in any -- were you,
21 Cynthia McCauley, involved in any discussions in or
22 around September of 2024 related to requests by
23 Gina West that the hospitals that make up the Palm
24 Beach Health Network be allowed by home office to
25 participate in the Leapfrog Hospital Survey for the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 183

1 fall of 2024 grading period?

2 MS. MALONEY: Objection to form.

3 A. I am aware that Gina has made that request,
4 had made that request.

5 BY MS. BLAIR:

6 Q. Were you aware of the request at the time it
7 was being made?

8 A. I'm not sure if I was aware at the time it
9 was made.

10 Q. So, and I'm just trying to -- if the first
11 time you came to understand that the methodology was
12 changed for fall of 2024 was after the grade came out,
13 what involvement did you have, if any, related to the
14 potential participation in the Leapfrog survey for fall
15 of 2024?

16 A. I don't believe that the participation or
17 nonparticipation in that was something that I said,
18 yes, participate or don't participate in that.

19 Q. Okay. Do you recall any conversations you
20 had with Gina West in or around September, October of
21 2024 about the fact that due to the change in
22 methodology St. Mary's' hospital safety grade would
23 more likely than not be lowered?

24 A. I don't recall any conversations, but if
25 there was email communication, then clearly I would

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 184

1 have seen it.

2 Q. Yeah, and I'm just asking if you have any
3 recollection of conversations.

4 A. It was a year ago.

5 Q. Was there any --

6 MS. BLAIR: We'll mark this as --

7 THE STENOGRAPHER: This will be 10.

8 (Defendant's Exhibit Number 10 for i.d.)

11 Exhibit Number 10, which is an email from Regina West,
12 where the top email is from Regina West to
13 Ricardo Ramirez dated September 7, 2024. Do you see
14 that?

15 A. Yes.

16 Q. And if we go to the last, we'll go all the
17 way to the back as to how it starts, so the second to
18 the last page is where the first email in this string
19 starts from August 23rd, and it's from Anna Gunod,
20 G-u-n-o-d.

21 Do you see that?

22 A. Yes.

23 Q. Do you know who Anna Gunod is?

24 A. She's the national director for infection
25 prevention.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 185

1 Q. Okay. So she works for Tenet home office?

2 A. She does.

3 MS. MALONEY: Objection.

4 BY MS. BLAIR:

5 Q. And this email says, "Good morning, quality
6 leaders, I am doing an annual check-in on Leapfrog
7 participation. Please respond to this email with
8 answers to the following questions."

9 Do you see that?

10 A. Yes.

11 Q. And there is the "to" line is only to
12 DL-DCQI only. Do you see that?

13 A. Yes.

14 Q. Do you know if Regina West falls into the
15 DL-DCQI only email?

16 A. Gina is a DCQI, so she should, but I can't
17 say that she -- you know, DLs change all the time.

18 Q. And if we look one email up from that email,
19 Regina West responds and she says, "The hospital and
20 PBHN are not participating," correct?

21 A. Correct.

22 Q. And her signature line here is both as
23 St. Mary's CMS and PBHN market quality director,
24 correct?

25 A. Correct.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 186

1 Q. And then if we go to the next page, there's
2 another email at the top from Regina West dated
3 September 25th. You are not on this email so I'm not
4 suggesting you are.

5 But you see here Gina West is asking
6 Anna Gunod -- if I'm pronouncing that correctly -- "If
7 we would like to participate in the next survey, are we
8 able?"

9 Do you see that?

10 A. Yes.

11 Q. And then she says, "We have done this in the
12 past so it would not be new participation. Because we
13 aren't participating, we default to imputed scoring."

14 Do you see that?

15 A. Yes.

16 Q. Do you -- does this refresh your
17 recollection in any way -- and I know you're not on the
18 email -- about whether or not you had any conversation
19 was Gina West in or around the September 25th time
20 frame about your Leapfrog Hospital Safety Grade?

21 MS. MALONEY: Objection.

22 A. Not -- not tremendously, no.

23 BY MS. BLAIR:

24 Q. Okay. And if we go to the page before that
25 Anna Gunod writes back to Regina CC'ing others, "Hi,

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 187

1 Gina, Leapfrog participation is not supported unless it
2 is directly tied to a payment/contract or local
3 regulatory requirement."

4 Do you see that?

5 A. Yes.

6 Q. Do you know, have you ever been told by
7 Tenet that participation in certain things is not
8 supported unless it is directly tied to
9 payment/contract or local regulatory requirement?

10 A. I don't know that I would ever be in a
11 position to have a conversation to ask that question.
12 That doesn't fall directly under my purview.

13 Q. Okay. And then if we go to the -- well,
14 then the next email at the top of that page Gina says,
15 back to Anna, "Although not supported, is it left up to
16 the lead" -- "to the local markets to decide or a
17 strict "'no' from HO?"

18 Do you see that?

19 A. Yes.

20 Q. And then on the front page Anna says, "It is
21 a no from home office."

22 Again, is it your understanding that whether
23 or not your hospital can participate in the Leapfrog
24 Hospital Survey is governed by Tenet home office?

25 MS. MALONEY: Objection.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 188

1 A. It's my understanding that it says, unless
2 it's tied to a payment contract or local regulatory
3 requirement, we are not participating.

4 BY MS. BLAIR:

5 Q. Okay. And then Regina West says to
6 Ricardo Ramirez, "Moving you in, HO is not allowing
7 participation in Leapfrog, but they continue to ask for
8 our scores."

9 Do you see that?

10 A. Yes.

11 Q. At any time did you have any conversations
12 with Ricky Ramirez regarding St. Mary's' request to
13 participate in the fall 2024 Leapfrog Hospital Survey?

14 A. Not that I recall.

15 Q. Do you know whether or not anyone on behalf
16 of St. Mary's or Palm Beach Health Network commented in
17 any way to the requests for public comment by Leapfrog
18 regarding the fall 2024 methodology change?

19 A. I do not believe anyone made public comment.

20 Q. So in light of fact that your memory as you
21 first came to understand the change in the fall 2024
22 methodology after the scores were issued, what is the
23 first conversation you recall having about the change

25 MS. MALONEY: Objection.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 189

1 A. I apologize. It's very difficult for me to
2 recall specific conversations that are over a -- over a
3 year old.

4 BY MS. BLAIR:

5 Q. Okay. Then tell me generally what do you
6 recall about the discussions you had after the fall
7 2024 Leapfrog Hospital Safety Grade was released
8 regarding the Leapfrog change in methodology?

9 MS. MALONEY: Objection.

10 A. So I can't recall a specific --

11 BY MS. BLAIR:

12 Q. Understood.

13 A. -- conversation, but if it -- I would
14 imagine, and it would just be truly like this is not a
15 good place to to be, because I don't recall sitting
16 down and having a meeting to discuss Leapfrog grades.

17 Q. Okay.

18 A. Okay. So that's probably my -- my most
19 truthful answer to you.

20 Q. When was the first time someone from the
21 med exec brought to your attention the Leapfrog
22 Hospital Safety Grade from fall of 2024?

23 MS. MALONEY: Objection. Lacks foundation.

24 A. I don't know if it was somebody from
25 med exec that brought that to my attention.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 190

1 BY MS. BLAIR:

2 Q. Did anyone from the St. Mary's governing
3 board bring to your attention that St. Mary's was now
4 receiving a D in the fall of 2024 Leapfrog Hospital
5 Safety Grade?

6 A. I don't recall.

7 Q. Do you recall if anybody from med exec
8 brought to your attention that St. Mary's was now
9 receiving a D in the fall 2024 Leapfrog Hospital Safety
10 Grade?

11 A. Again, it's so long ago I do not recall.

12 Q. Do you recall who the first person was that
13 brought to your attention that St. Mary's was now
14 receiving a D for the fall of 2024 Leapfrog Hospital
15 Safety Grade?

16 A. Factually, I do not recall.

17 Q. So is it fair to say you never had -- prior
18 to the fall of 2024 safety grade being issued, you had
19 no discussions that you can recall about St. Mary's
20 participating in the Leapfrog Hospital Survey for fall
21 of 2024?

22 MS. MALONEY: Objection.

23 A. What I said is I don't -- I can't recall
24 specific conversations.

25

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 191

1 BY MS. BLAIR:

2 Q. Right.

3 A. Right. I can't -- I cannot recall specific
4 conversations from a year ago.

5 Q. And I don't want to know about specific
6 conversations. I'm just asking time frame.

7 A. Um-hum.

8 Q. You don't recall any conversations with
9 anyone about participating in the Leapfrog Hospital
10 Survey for fall of 2024 prior to the fall 2024 grade
11 being issued, correct?

12 MS. MALONEY: Objection.

13 A. Your question is asking me to say, Cynthia,
14 did you and when was it, and I cannot in my mind, as I
15 sit here today, go back and say in August, in
16 September, in October, in whatever month I recall a
17 specific conversation.

18 BY MS. BLAIR:

19 Q. So we know that your grade fell to a D in or
20 around November 20th of 2024, correct?

21 A. Correct.

22 Q. We know that at least from the Exhibit we
23 just saw that Gina in September of 2024 was asking to
24 participate in the Leapfrog Hospital Safety -- Hospital
25 Survey for the fall 2024 grade, correct?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 192

1 A. Correct.

2 Q. And I'm just trying to get a generalized
3 time frame. Do you recall whether you had any
4 conversations prior to seeing that D grade about
5 potentially -- with anyone about potentially
6 participating in the Leapfrog Hospital Survey for the
7 fall 2024 grading period?

8 MS. MALONEY: Objection.

9 BY MS. BLAIR:

10 Q. Just generally.

11 MS. MALONEY: Objection.

12 A. And my response was, do I specifically
13 recall? No.

14 BY MS. BLAIR:

15 Q. Okay. So no recollection as we sit here
16 today?

17 MS. MALONEY: Objection. Asked and
18 answered.

19 A. No recollection that I can specifically
20 recall in my mind from a year ago a specific
21 conversation or a specific encounter.

22 BY MS. BLAIR:

23 Q. Okay. And then after the D grade comes out
24 in the fall of 2024 what is the first conversation you
25 recall having about the fact that St. Mary's received a

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 193

1 D on the 2024 Leapfrog Hospital Safety Grade?

2 A. My challenge with your question and
3 answering it honestly is that I can't -- I can't
4 factually say X was the first conversation after
5 anything that happened a year ago, so I apologize for
6 not being able to give you a granular response. There
7 is too much that goes on on a daily basis in the world
8 to recall, at least for me, specific conversation and
9 timeline off the top of my head.

10 Q. And I'm not asking for granular.

11 A. Okay.

12 Q. I'm just saying what is the first time you
13 remember talking about, not a date, just what's -- I
14 mean, somebody called me. Just in the most general
15 terms, when do you first remember hearing about the
16 fact that your hospital got a D? You filed a lawsuit
17 about that day.

18 A. Right.

19 MS. MALONEY: Objection. Argumentative.
20 Objection. You are being specific. This is not
21 generalized. You're asking for the first time.
22 Objection. She has answered this multiple times
23 now.

24 MS. BLAIR: There's been no answer.

25 MS. MALONEY: At this point this is and

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 194

1 argumentative to the witness.

2 BY MS. BLAIR:

3 Q. What is the first conversation? I don't
4 need to know granular.

5 MS. MALONEY: That is inherently a granular
6 question.

7 BY MS. BLAIR:

8 Q. You're here as a 30(b)(6) witness on this
9 topic, Ms. McCauley.

10 MS. MALONEY: Are you asking her as a
11 30(b)(6)?

12 MS. BLAIR: Yes.

13 MS. MALONEY: You certainly didn't establish
14 that either.

15 BY MS. BLAIR:

16 Q. As a 30(b)(6) witness when is the first time
17 St. Mary's had a conversation with anyone regarding the
18 D grade that they received in the Leapfrog fall 2024
19 hospital safety grade?

20 MS. MALONEY: Objection. Asked and
21 answered.

22 Objection. Argumentative.

23 BY MS. BLAIR:

24 Q. The answer is you don't know, right?

25 MS. MALONEY: Objection. Argumentative.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 195

1 A. I cannot factually tell you when, no.

2 There have been -- there has been a lot of
3 information, and I can't -- I can't factually recall
4 when and with whom, at what time, where. I don't have
5 that recall.

6 BY MS. BLAIR:

7 Q. Have you ever talked to your board about the
8 fact that Leapfrog -- that St. Mary's received a
9 D grade in fall of 2024 from Leapfrog?

10 A. Yes.

11 Q. Okay. What do you recall about the
12 conversations you had with your governing board about
13 the fact that St. Mary's received a D grade for the
14 fall of 2024?

15 A. So I recall presenting that we were scored a
16 D by Leapfrog.

17 I further went to educate them that this was
18 not a survey that we participated in, that
19 20 percent of the hospitals that across the states do
20 not participate in the Leapfrog survey.

21 I further educated the governing board that
22 it is a self-test. You complete it on your own, that
23 there is no validation, that there's no correlation to
24 the survey that we had in January by Joint Commission
25 or earlier in the year by ACF or by CARF or by any

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 196

1 other survey, accredited regulatory survey body. So I
2 explained to our governing board the difference between
3 the elective Leapfrog survey that imputes scores as
4 compared to a Joint Commission survey, which many of
5 them participated in because they sat on the
6 leadership, or the American College of Surgery
7 Pediatric Verification or the DNV neuro stroke
8 certification or the CARF accreditation.

9 So it was my job as the CEO to educate them
10 why this survey that we don't participate what the
11 grade means.

12 Q. When did that meeting occur?

13 A. Oh, we'd have to look at which month that
14 was. I don't recall.

15 Q. How often does the governing board meet?

16 A. They meet monthly.

17 Q. Would you have told them in the first
18 meeting after the D grade came out?

19 A. We'd have to go back to the minutes.

20 Q. What was the reaction of the governing board
21 once you had that conversation with them regarding the
22 D grade that St. Mary's received for fall of 2024?

23 MS. MALONEY: Objection.

24 A. My opinion is that the board was surprised,
25 and many of them were uneducated about how Leapfrog

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 197

1 imputes its scores.

2 BY MS. BLAIR:

3 Q. Did your governing board, to your knowledge,
4 did your governing board have an understanding of what
5 Leapfrog was prior to the meeting you had with them
6 educating them about the D grade that St. Mary's had
7 received?

8 A. I can't speak to individually what they know
9 or don't know.

10 Q. Prior to that meeting that you had with your
11 governing board where you explained to them the D grade
12 that St. Mary's had received, had you ever had any
13 other conversations at a governing board meeting about
14 Leapfrog Safety Grades?

15 A. In my six years, I would give you a definite
16 maybe.

17 Q. Do you have any specific recollection of any
18 conversations about Leapfrog?

19 A. No.

20 Q. Did you also have a meeting with your
21 med exec to talk about the D grade that St. Mary's had
22 received for fall of 2024?

23 A. Yes.

24 Q. Do you know when that meeting occurred?

25 A. I don't recall which month.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 198

1 Q. Do you recall what you told the med exec
2 about that?

3 A. I would have told the med exec similar to
4 what I just recounted that I would have told the
5 governing board.

6 Q. Do you recall whether you had any slides, a
7 slide deck prepared on this issue?

8 A. I would not have had a slide deck prepared
9 on Leapfrog.

10 Q. For either the med exec or the governing
11 board?

12 A. Correct.

13 Q. Do you need to take a break?

14 A. No. It's just a burp.

15 Q. Okay. And do you recall any meetings that
16 you would have had at the Palm Beach Health Network
17 level regarding the D grade that St. Mary's received
18 for the 2024 safety grade period?

19 A. I don't recall a meeting specifically
20 discussing St. Mary's' D grade.

21 Q. Did you ever have any telephone calls or
22 meetings with any of the CEOs of the other Palm Beach
23 Health Network hospitals to discuss the fall 2024
24 Leapfrog hospital safety grades?

25 MS. MALONEY: Objection to form.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 199

1 A. There may have been.

2 BY MS. BLAIR:

3 Q. Do you recall any?

4 A. Not factually.

5 Q. What do you mean when you say "not
6 factually"?

7 A. Because if you ask me that question, you
8 would then -- I would then say "When did that happen?"
9 And I would say, "I don't recall things from a year ago
10 without going back to my calendar and looking it up."

11 So -- so do I think it could have happened?
12 Yeah, I'm fairly confident. I'm fairly confident, not
13 maybe 100 percent but 99. I'm fairly confident there
14 must have been a conversation with the group where we
15 might have discussed it. But I can't recall
16 specifically that there was a meeting and an agenda
17 item and dialogue.

18 Q. Okay. So fairly confident there would have
19 been some discussions but no recollection of when,
20 where or with whom?

21 A. Right.

22 MS. MALONEY: Can we take a break pretty
23 soon at an appropriate time?

24 MS. BLAIR: Absolutely. We can take a break
25 now.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 200

1 THE VIDEOGRAPHER: Off the record at 2:59.

2 (A recess was taken from 2:59 p.m. to 3:42 p.m.)

3 THE VIDEOGRAPHER: Back on the record 3:43.

4 BY MS. BLAIR:

5 Q. Ms. McCauley, at some point in time are you
6 aware that these five hospitals sent a cease and desist
7 letter to Leapfrog?

8 A. Yes.

9 Q. And do you recall before that cease and
10 desist letter was sent there was some publicity about
11 the Leapfrog grades and these five hospitals?

12 A. I remember publicity by the news. I can't
13 recall the timing on both.

14 Q. Sure.

15 11.

16 (Defendant's Exhibit Number 11 for i.d.)

17 BY MS. BLAIR:

18 Q. Ms. McCauley, I'm handing you what we marked
19 McCauley Exhibit 11. It's Bates labeled PBHN 5141
20 through 5145.

21 Do you have that document in front of you?

22 A. Yes.

23 Q. And if you look at the first page of this
24 document, there's a letter -- or, I'm sorry -- an email
25 from Andrew Lofholm, do you see that?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 201

1 A. Yes.

2 Q. And for the record, again, who is
3 Andrew Lofholm?

4 A. He is the, let's see, the communications and
5 community relations manager.

6 Q. For the Palm Beach Health Network?

7 A. For the Palm Beach Health Network.

8 Q. Do you know is he associated with any
9 individual hospital as well?

10 A. Not uniquely, no.

11 Q. And his email is advising you and others
12 about a piece that was published in Stet news on the
13 Leapfrog rankings, correct?

14 A. Correct.

15 Q. And the date of this email is December 10th,
16 2024. Do you see that?

17 A. Correct.

18 Q. And the hospital safety grade was released
19 at the end of November of 2024, correct?

20 A. Correct.

21 Q. Does this refresh your recollection in any
22 way about any discussions you may have had with members
23 of the -- other members of the Palm Beach Health
24 Network regarding the Leapfrog Hospital Safety Grade in
25 or around this time?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 202

1 A. No.

2 Q. Do you recall any discussions specifically
3 about this Stet news article?

4 A. No.

5 Q. Do you recall any discussions you may have
6 had with the governing board of St. Mary's regarding
7 this Stet news article?

8 A. I don't recall raising this article
9 specifically to the governing board.

10 Q. Okay. Do you recall having any discussion
11 specifically about this article with the med exec of
12 St. Mary's?

13 A. I don't recall specifically presenting this
14 article.

15 Q. Okay. As you sit here today -- well, is
16 this one of the documents you reviewed prior to your
17 deposition to prepare for today?

18 A. There were a lot of documents. It could
19 have been in the binder.

20 Q. Do you recall seeing this article which is
21 entitled "Tenet Hospitals At Bottom of Local Safety
22 Grades" in or around December of 2024?

23 A. Not specifically.

24 Q. Okay. And I mentioned earlier the cease and
25 desist letter. Do you recall that that letter was

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 203

1 September in January of 2025?

2 A. Yes.

3 Q. Were you involved with the decision in
4 sending that cease and desist letter?

5 A. Yes.

6 Q. And I don't want to know about any
7 conversations you had with your attorneys, but I'm
8 going to ask you, do you recall any conversations
9 outside the presence of your attorneys that you had
10 with anyone regarding your decision to send a cease and
11 desist letter to Leapfrog?

12 A. Not that I recall.

13 Q. Okay. You have no recollection of
14 conversations with the other CEOs of the Palm Beach
15 Health Network regarding the cease and desist letter?

16 A. No.

17 Q. Did you ever have any personal conversations
18 with Maggie Gill regarding the decision to send the
19 cease and desist letter?

20 MS. MALONEY: Objection.

21 A. Not specifically that I recall.

22 BY MS. BLAIR:

23 Q. Okay. Do you recall having any
24 conversations with your governing board about sending a
25 cease and desist letter to Leapfrog in or around

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 204

1 January of 2025?

2 MS. MALONEY: Objection.

3 A. No, I believe my conversations, as I said,
4 with the governing board were more educational and
5 informative.

6 BY MS. BLAIR:

7 Q. Do you have -- do you recall having any
8 conversations with the med exec in or around January of
9 2025 regarding a decision to send a cease and desist
10 letter to Leapfrog?

11 A. No.

12 MS. MALONEY: Objection.

13 BY MS. BLAIR:

14 Q. Did you personally write this cease and
15 desist letter that was sent to Leapfrog?

16 A. No.

17 Q. Do you know if you made any edits to the
18 cease and desist letter that was written to Leapfrog?

19 MS. MALONEY: Objection. I think this is
20 getting into attorney-client privilege, this
21 question.

22 A. I don't --

23 MS. MALONEY: Before you answer, do you want
24 to recharacterize the question?

25 MS. BLAIR: Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 205

1 BY MS. BLAIR:

2 Q. Do you recall outside the presence of your
3 attorneys and without the input of your attorneys, did
4 you provide any personal, did you, Ms. McCauley,
5 personally provide any edits to the cease and desist
6 letter that was sent to Leapfrog in or around January
7 of 2025?

8 MS. MALONEY: Objection.

9 A. I --

10 MS. MALONEY: Objection. That calls for
11 privileged information to the extent those edits
12 were seeking legal advice. If they were only
13 factual in nature, you may answer to the extent
14 you know.

15 A. I don't recall the specific letter and
16 whether I made any factual edits or not.

17 BY MS. BLAIR:

18 Q. Okay. Did your governing board vote, have
19 to vote to agree to send a cease and desist letter to
20 Leapfrog?

21 A. No.

22 Q. What was your -- what was the expectation of
23 St. Mary's as the corporate representative of
24 St. Mary's about sending a cease and desist letter, the
25 effect of sending a cease and desist letter to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 206

1 Leapfrog?

2 A. The goal of the cease and desist letter
3 is -- was to have Leapfrog remove the hospitals in the
4 Palm Beach Health Network from their published grades
5 because we didn't participate in the survey. And we
6 didn't feel that it was an appropriate reflection of
7 our score given the imputed methodology that was
8 changed in the fall of 2024.

9 Q. Was it to remove just the fall 2024 hospital
10 safety grade or all previous hospital safety grades?

11 A. I believe -- I would have to refresh my
12 memory specifically, but I thought it was to remove us
13 from the times that we did not participate.

14 Q. And was the expectation that you would not
15 be graded going forward as well?

16 A. Yes.

17 Q. When did St. Mary's make the decision to
18 file a lawsuit against Leapfrog?

19 A. Timing wise, I can't recall specifically,
20 but it was after the response from Leapfrog that they
21 disagreed with the cease and desist.

22 Q. So after Leapfrog's response to the cease
23 and desist letter, correct?

24 A. Correct.

25 Q. Did the governing board of St. Mary's vote

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 207

1 to file a lawsuit against Leapfrog?

2 A. No.

3 Q. Is there a requirement that the governing
4 board vote to file a lawsuit against someone like
5 Leapfrog?

6 A. No.

7 MS. MALONEY: Objection.

8 BY MS. BLAIR:

9 Q. Was the governing board advised prior to the
10 filing of the lawsuit that the lawsuit was being filed?
11 Advised by you. I don't want to know about your
12 attorneys. Did you as the CEO of St. Mary's advise the
13 governing board of St. Mary's that the lawsuit was
14 going to be filed outside the presence of your
15 attorneys?

16 A. No.

17 Q. Why not?

18 MS. MALONEY: Objection.

19 A. There was no need for them to be advised in
20 advance.

21 MS. BLAIR: Am I on 12?

22 THE STENOGRAPHER: Yes.

23 (Defendant's Exhibit Number 12 for i.d.)

24 BY MS. BLAIR:

25 Q. Ms. McCauley, I'm now handing you what we've

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 208

1 marked as Exhibit 12, which is an email from
2 Maggie Gill dated December 13th, 2024 to you and, it
3 appears to be, the other CEOs of the four hospitals
4 that are plaintiffs in this litigation as well as
5 Tyler Sherrill, Ricky -- Ricardo Ramirez, and then
6 CC'ing Shelly Weiss, Lisa Cook, Derek Collins,
7 Maria Morales and Michelle Cartwright, and the subject
8 is "Leapfrog."

9 Do you have that in front of you?

10 A. Yes.

11 Q. Do you have any recollection of seeing this
12 document in or around December 13th of 2024?

13 A. I am on the email so I'm certain I received
14 it.

15 Q. But do you have any specific recollection of
16 this email in or around December of 2024?

17 A. Honestly, I get 200 emails a day. It's hard
18 to remember any specific.

19 Q. Understood.

20 And if you look at Maggie's email, the
21 second email on the first page, which is December 11th,
22 2024, at 3:34 p.m., and she says "CEOs, we have gotten
23 several media inquiries about Leapfrog."

24 Do you see that?

25 A. Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 209

1 Q. Had you in or around this time, December of
2 2024, you as the CEO of St. Mary's, had you received
3 several media inquiries about Leapfrog?

4 A. No.

5 Q. And if we look at the first email in this
6 string -- I'm sorry -- I guess it's the last email in
7 the string on PBHN 4565 she says, Maggie Gill says to
8 all of you, "All, I have spoken with several members of
9 ELT about this issue."

10 Do you see that?

11 A. Yes.

12 Q. Who is ELT?

13 A. Executive leadership team.

14 Q. And who do you understand makes up the
15 executive leadership team that she's referring to in
16 this email?

17 A. I would think Maggie would have to ask [sic]
18 who she spoke to.

19 Q. Okay.

20 A. Answer who she spoke to.

21 Q. Let me ask it another way.

22 Is ELT an acronym that you all use regularly
23 in Palm Beach Health Network?

24 A. I personally don't use ELT, but I can
25 translate what it means.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 210

1 Q. Okay. And I guess my question is ELT
2 referring to you as the executive leadership team or do
3 you know?

4 A. I'm not sure.

5 Q. Okay. And do you see the next sentence
6 says, "There are efforts underway to address Leapfrog's
7 ability to score us even though we don't participate."

8 Do you see that?

9 A. Yes.

10 Q. Do you know or have any recollection of what
11 Maggie Gill was referring to about the efforts underway
12 to address Leapfrog's ability to score us even though
13 we don't participate?

14 A. Specifically at that time, no.

15 Q. Okay. Do you recall asking her?

16 A. No.

17 Q. Do you recall if anyone that was on this
18 email responded to Maggie Gill's email?

19 A. I would imagine if anyone did, it would be
20 in the discovery. I'm sure I didn't.

21 Q. And do you see below again in the middle of
22 this page Maggie Gill, the email that's addressed to
23 CEOs, she says, "This is our statement. Feel free to
24 use it." And then it's in italicized. Do you see
25 that?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 211

1 A. Yes.

2 Q. Do you recall in or around December of 2024
3 whether you ever had occasion to use this statement
4 with respect to the publication of Leapfrog's 2024
5 hospital safety grades as it related to St. Mary's?

6 A. I can't recall if I ever had to use this.

7 Q. Do you know whether or not Regina West ever
8 had to use this statement with respect to inquiries
9 St. Mary's was receiving about its fall 2024 Leapfrog
10 Hospital Safety Grade?

11 A. I wouldn't know if Gina had to use it.

12 Q. If she had to use it, would she have CC'd
13 you on the email?

14 A. I don't know.

15 Q. Who is Heidi Zosiak?

16 A. Zosiak. She was my executive assistant.

17 Q. Okay. Outside the presence of your
18 attorneys, I don't want to know about any
19 communications you had with your attorneys or anything
20 they've done or shown you, but did you provide -- did
21 you have any discussions outside presence of your
22 attorneys with respect to the decision to ultimately
23 file the lawsuit on April 30th, 2025?

24 A. No.

25 Q. You don't recall any conversations you may

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 212

1 have had with any of the other CEOs that make up
2 Palm Beach Health Network regarding the filing of the
3 lawsuit?

4 A. No.

5 Q. And you don't recall any conversations you
6 may have had with Maggie Gill outside the presence of
7 your lawyers about the filing of the lawsuit on
8 April 30th, 2025?

9 A. Not that I recall.

10 Q. Do you recall any conversations you had with
11 Regina West outside the presence of your attorneys
12 about the filing of the lawsuit which occurred on
13 April 30th, 2025?

14 A. Not specifically.

15 Q. What about generally?

16 A. I can't say I did or I can't say I didn't.

17 Q. Are you aware that Palm Beach Health Network
18 issued a press release related to the filing of the
19 lawsuit in this matter?

20 A. Yes.

21 Q. Did you review the press release before it
22 was sent out?

23 A. I don't believe I did.

24 Q. Did you have any -- I might have just

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 213

1 involvement in drafting the press release that was sent
2 out?

3 A. No.

4 Q. Do you recall whether you had any inquiries
5 from anyone regarding the contents of the press release
6 after it was sent?

7 A. I don't recall.

8 Q. Do you recall if there was anything in the
9 press release that you disagreed with after you read
10 it?

11 A. Not that I recall.

12 Q. Do you know who drafted the press release?

13 A. Not specifically, no.

14 (Defendant's Exhibit Number 13 for i.d.)

15 BY MS. BLAIR:

16 Q. 13.

17 Ms. McCauley, I'm handing you what we've now
18 marked as Exhibit 13. And I'll submit to you that this
19 is a subpoena response from Boca News Now to a subpoena
20 that we issued in this litigation. And on the second
21 page of this Exhibit you'll see the heading "Palm Beach
22 Health Network Hospitals File Legal Complaint against
23 the Leapfrog Group."

24 Do you see that?

25 A. Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 214

1 Q. Do you know who Rebecka Henrikson is?

2 A. No.

3 Q. Do you know what Scales Strategy is?

4 A. No.

5 Q. And do you see she says, "Hi, Andrew, I'm
6 reaching out on behalf of Palm Beach Health Network."

7 Do you see that, the first sentence in her
8 email?

9 A. I see that in the first sentence.

10 Q. But as you sit here today you have no idea
11 what her affiliation is with Palm Beach Health Network,
12 if any.

13 A. No.

14 Q. She goes on to say that "The five hospitals
15 filed a legal Complaint against The Leapfrog Group
16 alleging its patient safety ratings are inaccurate."

17 Do you see that?

18 A. Yes.

19 Q. And we've talked a lot today about your
20 thoughts on how the methodology is inaccurate, correct?

21 A. Yes.

22 Q. And then next word is "corrupt," do you see
23 that?

24 A. Yes.

25 Q. In what way do you believe that The Leapfrog

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 215

1 Group is corrupt?

2 A. I believe it states that the Leapfrog safety
3 ratings are corrupt. I don't think it says that
4 Leapfrog is corrupt. But I think -- I believe that
5 what this statement says is that the patient safety
6 ratings are inaccurate, the patient safety ratings are
7 corrupt. The patient safety ratings are misleading.

8 Q. And in which way, in what ways are the
9 patient safety ratings corrupt?

10 A. The patient safety ratings, as we have
11 referenced, due to their imputed -- due to
12 nonparticipation, due to the assigning of scores to the
13 survey you haven't taken, I think they're corrupt
14 because they present a very fictitious representation
15 of hospital safety.

16 Q. So is that different than being inaccurate
17 or misleading?

18 A. I didn't -- I didn't write this article.
19 Ms. Rebecka did, so I guess you could ask Ms. Rebecka.

20 Q. And you think Ms. Rebecka wrote this?

21 A. Well, it says, "Hi, Andrew." "Best,
22 Rebecka."

23 Q. That's a good point.

24 But if we look down, though, it says, "You
25 can read" -- let's go right before it says "Best,

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 216

1 Rebecka," it says, "You can read more about the filing
2 in the press release below."

3 Do you see that?

4 A. Yes.

5 Q. And do you understand that the press release
6 was issued on behalf of your hospital and the other
7 four plaintiffs in this litigation?

8 A. Yes.

9 Q. And is it your testimony that this press
10 release was authorized by St. Mary's and the other four
11 members of Palm Beach Health Network when it was
12 issued?

13 A. I believe it was authorized by the market on
14 behalf of the five hospitals, yes.

15 Q. Okay. And so we'll talk about the use of
16 the word "corrupt" down below in the actual press
17 release. It says -- where it starts "Palm Beach,
18 Florida April 30th, 2025," do you see that, bottom?

19 A. April 30th, yes.

20 Q. And the very last sentence on this page,
21 again, it says, "The organization's hospital patient
22 safety ratings are inaccurate, corrupt and misleading."

23 Do you see that?

24 A. Yes.

25 Q. Okay. So in your own press release it uses

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 217

1 the word "corrupt." And you made a good point that up
2 above it is Rebecka's email, but here this is your
3 press release. So is "corrupt" different than
4 "inaccurate and misleading" in this sentence that's
5 contained in the please release your hospital issued?

6 A. I think each word individually has a
7 slightly different connotation.

8 Q. Okay. And "corrupt" has the connotation
9 that you described above with respect to
10 Ms. Henrikson's email, correct?

11 A. Yes.

12 Q. And then if we go to the second page, I want
13 to talk about the first full paragraph, the last
14 sentence, it says, "Leapfrog did not punish the
15 plaintiff" --

16 Are you there? Right here, this, the first
17 full paragraph at the top of the last sentence?

18 A. Okay. Yes.

19 Q. It says, "Leapfrog did not punish the
20 plaintiff hospitals for the past four years that they
21 did not respond to its voluntary data request until
22 last year when they changed their criteria to
23 deliberately fail nonparticipating hospitals."

24 Do you see that?

25 A. Yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 218

1 Q. Is it your position that all
2 nonparticipating hospitals get a failing hospital
3 safety grade?

4 A. I believe that all nonparticipating
5 facilities get imputed score which ultimately makes it
6 very difficult, if not impossible, to score an A
7 grading.

8 Q. But this says that "Leapfrog deliberately
9 fails nonparticipating hospitals."
10 Do you see that language?

11 A. Yes.

12 Q. Do you believe that nonparticipating
13 hospitals all receive failing grades?

14 A. I have not personally reviewed the grade for
15 every hospital in the United States, but I do believe
16 that the large preponderance of nonparticipating
17 facilities are unable to score an A.

18 Q. Okay. Are you aware that there are
19 nonparticipating hospitals that do receive an A?

20 A. I believe there could be, but I do not
21 believe that that is the norm.

22 Q. Okay. So the fact that this says that
23 Leapfrog deliberately failed nonparticipating
24 hospitals, that's not true, right?

25 MS. MALONEY: Objection.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 219

1 A. It doesn't say "deliberately failed all
2 nonparticipating hospitals."

3 BY MS. BLAIR:

4 Q. Okay. So the missing word is here, it
5 doesn't say "all"?

6 MS. MALONEY: Objection. Mischaracterizes
7 her testimony. Argumentative.

8 BY MS. BLAIR:

9 Q. If we go down to the fourth full paragraph,
10 it says, "Leapfrog's so-called grades are not grounded
11 in credible science or independent analysis."

12 Do you see that?

13 A. Yes.

14 Q. What is St. Mary's -- as the corporate
15 representative of St. Mary's, what are you referring to
16 regarding the methodology of Leapfrog and its not being
17 grounded in credible science or independent analysis?

18 A. I believe it's arbitrary. I believe there
19 was a statement from American Hospital Association that
20 indicated that people should not rely on Leapfrog's
21 safety grade to choose a facility, that there is no
22 strong correlation between that safety grade and a
23 high-performing facility. There have been several
24 different organizations that have reviewed and made
25 statements disputing the methodology of Leapfrog for

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 220

1 trying to promote their safety grades and adding
2 credibility to them.

3 Q. Okay. And so that's basis for the statement
4 that the methodology is not based on any credible
5 science or independent analysis?

6 MS. MALONEY: Objection.

7 A. That is my belief.

8 BY MS. BLAIR:

9 Q. Okay. Are you aware of the fact that
10 Leapfrog has an independent expert panel for its
11 hospital safety grade?

12 A. Yes.

13 Q. Have you ever looked at who the members are
14 of that independent expert panel?

15 A. Not recently, no.

16 Q. You go on to say in this sentence, "They are
17 riddled with falsehoods, distorted by undisclosed
18 financial incentives."

19 What are the undisclosed financial
20 incentives you're referring to here?

21 A. So the undisclosed financial incentives for
22 Leapfrog is the greater the participation, as we
23 discussed earlier, if I am participating and get a good
24 grade, I can pay a licensing fee to Leapfrog, so
25 there's a financial incentive to Leapfrog to get me to

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 221

1 participate, score, you know, perhaps take the boot
2 camp, get a good grade, and publish that.

3 There's incentives from Leapfrog to get me
4 to nominate one of my leaders for one of their leader
5 awards. There are financial incentives for -- by
6 Leapfrog for me to attend their quarterly advisory
7 chats.

8 So I don't think the public understands that
9 Leapfrog, although a not-for-profit, is a
10 revenue-generating organization that is certainly
11 motivated to increase revenues, generate revenues and
12 is not just a true credible science on what a safety
13 score for a hospital is.

14 Q. You worked at a not-for-profit at one point
15 in your career, did you not?

16 A. I did.

17 Q. Did that not-for-profit generate revenue?

18 A. They certainly did.

19 Q. So you don't have an issue with
20 not-for-profits generating revenue to keep their
21 mission going, do you?

22 A. No.

23 Q. And you keep talking about nominating
24 leaders for awards. What are you referring to there,
25 again?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 222

1 A. In some of the Leapfrog communications, in
2 one of the emails, they're very standard emails, they
3 talk about an award that you can nominate your -- a
4 team member for to get, I don't know if they call it --
5 I don't think it was called leader of the year, but I'd
6 have to go through the Leapfrog collateral. But they
7 have leader awards.

8 Q. And you believe you pay for those?

9 A. Um-hum.

10 Q. Are you aware of hospitals that receive A's
11 that don't do the boot camp that aren't on the advisory
12 council, that don't do these things and still receive
13 A's?

14 A. I, as I said earlier, have not looked at the
15 scores and investigated every hospital across the
16 country.

17 Q. You go on in this next paragraph, you say,
18 "Leapfrog aggressively pushes hospitals to pay for its
19 consulting services."

20 Do you see that?

21 A. Yes.

22 Q. How does it aggressively push hospitals to
23 pay for consulting services?

24 A. I believe on every quarterly information
25 that comes out, it encourages you to participate in one

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 223

1 of those boot camps or speak with one of, engage with
2 one of their consultants about the scores, you know,
3 about their programs.

4 Q. So let's put that boot camp aside. Are
5 there any other consulting services that you believe
6 Leapfrog is offering to hospitals?

7 A. Those are the ones I'm most familiar with.

8 Q. The ones or the one?

9 A. Well, there's at least three boot camps.

10 Q. Okay. Are they the same boot camp?

11 A. There was three distinct ones.

12 Q. Oh. Because there's three distinct
13 programs, correct?

14 A. We could probably go through and find it.

15 Q. No, we'll find it. I'm just trying to
16 understand what you're referring to.

17 Okay. So these boot camps, other than the
18 three boot camps, anything else that you characterize
19 as consulting services?

20 A. That's my primary recollection.

21 Q. And the aggressive nature of that, as
22 referred to here, is the fact that there are emails
23 that come out during safety grade time about the boot
24 camps?

25 A. I would say there's other communications

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 224

1 that come -- that comes from Leapfrog throughout the
2 year.

3 Q. Do you get calls from Leapfrog? Does
4 St. Mary's get calls from Leapfrog?

5 A. I personally don't, that I'm aware of.

6 Q. Do you know if anybody in your organization
7 gets calls from Leapfrog pushing these consulting
8 services for pay?

9 A. I'm unaware.

10 Q. And then you say here, this whole sentence
11 says, "Leapfrog aggressively pushes hospitals to pay
12 for its consulting fees and promotional licenses," and
13 then it says "in exchange for better grades." Do you
14 see that?

15 A. Yes.

16 Q. Is it your position in this litigation that
17 hospitals that participate in this boot camp get better
18 grades?

19 A. It is my belief if I attended one, two three
20 boot camps at \$395 a camp that ultimately the goal
21 would be to get a better grade.

22 Q. Well, isn't always the goal to improve your
23 patient safety?

24 A. Yes, but I believe that by learning how to
25 take the survey and answer it in a way that could drive

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 225

1 your grade up.

2 Q. Oh, okay. So you believe these boot camps
3 are kind of giving the hospitals a cheat sheet that
4 helps them get better grades?

5 A. I have not attended a boot camp so I can't
6 speak to it. But I believe that if you were to go and
7 take one of the boot camps, it specifically says that
8 it will teach you about the scoring and the survey.

9 Q. And the scoring is free to access on the
10 website for anyone, correct?

11 A. Correct.

12 Q. And the survey is also free to access for
13 anyone on the website, correct?

14 A. Correct. But it's 300 plus pages that
15 they -- that the average person is not going to glean
16 through.

17 Q. Okay. And that's what I'm trying to say.
18 This says in exchange for better grades. So is it a
19 quid pro quo if you go to the boot camp, Leapfrog gives
20 you a better grade?

21 A. Do I think that it's automatic guaranteed?
22 I don't think it's automatic guaranteed.

23 Q. But in your mind Leapfrog is pushing,
24 Leapfrog aggressively pushes hospitals to pay for its
25 consulting services and promotional licenses, and you

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 226

1 stand by that statement, right?

2 A. I believe there's a correlation.

3 Q. You believe there's a correlation.

4 So going to the next paragraph, it says
5 here, "The hospitals are taking legal action to expose
6 this scheme, protect patients and restore integrity to
7 the way healthcare information is shared in this
8 country," correct?

9 A. Correct.

10 Q. How is information related to patient safety
11 shared in this country?

12 A. The average consumer, educated consumer
13 could no to Medicare.gov.

14 Q. Does Medicare.gov have any statistics for
15 hospital's CPOE system?

16 A. I'm not certain.

17 Q. What about BCMA, does CMS have any
18 information on CMS?

19 A. I'm not certain.

20 Q. Do you know whether or not CMS shares any
21 information related to hand hygiene?

22 A. I'm not certain.

23 Q. Do you know whether or not CMS shares any
24 information related to ICU physician staffing?

25 A. I am sure it doesn't.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 227

1 Q. And so with respect to at least the four
2 measures that we're in this litigation about, how is --
3 how are we restoring integrity to the way we are
4 sharing patient safety information?

5 A. So Leapfrog holds itself out with a safety
6 score with imputed methods, imputed scores for
7 hospitals that do not participate, and it expressly
8 holds out that safety grade as a solid measure of a
9 hospital's safety.

10 So patients, the generic public, I believe,
11 is unaware, albeit the information could be buried
12 somewhere in the Leapfrog website, they are unaware of
13 what the metrics mean on the survey. They would be
14 unaware of the time frames. They would be unaware that
15 it's elective, that it's self-reported, that there's no
16 trust but verify and that somebody can complete the
17 survey, but no representative from Leapfrog comes to
18 validate that what the hospital has submitted or in the
19 case of a nonparticipating hospital what the true facts
20 are.

21 Q. In --

22 A. So there's not integrity. If you don't
23 trust but verify, there is no integrity.

24 Q. Are you aware of Leapfrog's verification
25 process?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 228

1 A. I can assure you they don't come on site to
2 trust but verify.

3 Q. And neither does Healthgrades®, right?

4 A. But Healthgrades® is getting publicly --
5 public information from CMS.

6 Q. Correct. And --

7 A. They are not imputing any scores. And they
8 are not going to defame our facility.

9 Q. Oh. So you believe this is a defamation
10 case?

11 MS. MALONEY: Objection. Calls for a legal
12 conclusion, mischaracterizes her testimony and
13 is argumentative.

14 BY MS. BLAIR:

15 Q. You used the word "defame." What did you
16 mean by "defame"?

17 A. Leapfrog is by saying that St. Mary's earned
18 a D is not a safe facility. That is the -- that is
19 what Leapfrog is promoting. And that is what other
20 hospitals who are participating when they use their
21 marketing license collateral to hold out that because
22 they're an A, they are better than a St. Mary's' D.

23 Q. And is there anywhere that you've seen on
24 the Leapfrog website where Leapfrog promotes that you
25 are a -- I want to use your word -- not a safe

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 229

1 hospital, unsafe hospital?

2 A. I would say by virtue of Leapfrog scoring us
3 a D, a D is not a high performance grade, so it would
4 give the false impression that we do not have the same
5 level or high quality.

6 Q. Would you agree with me that St. Mary's'
7 HCAHPS scores are below both the national average and
8 the Florida average?

9 A. Our patient safety satisfaction score?

10 Q. Correct.

11 A. Yes.

12 Q. Would you agree with me that your CMS score
13 is a 1 star which is the lowest available?

14 A. Yes, it is.

15 Q. Do you believe that consumers look at the
16 CMS star ratings when deciding what hospital to go to?

17 A. I'm not certain with a consumers look at.

18 Q. But do you believe they look at a Leapfrog
19 hospital grade?

20 A. I believe the Leapfrog hospital grade
21 because they are marketed and licensed are aggressively
22 marketed by competitor facilities.

23 Q. And you don't believe that your competitor
24 facilities aggressively market their five-star CMS
25 ratings?

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 230

1 A. I have not seen that as much now.

2 Q. And when you're talking about your
3 competitors, you're talking about Jupiter specifically?

4 A. Correct.

5 Q. And Jupiter, is Jupiter the only A-rated,
6 Leapfrog A-rated hospital in your geographic area?

7 A. Yes.

8 Q. Do you know how Jupiter's admissions rates
9 compare to those of St. Mary's?

10 A. No.

11 THE VIDEOGRAPHER: I'm sorry to interrupt,
12 Counsel.

13 MS. BLAIR: Yes. You need to change?

14 THE VIDEOGRAPHER: Yes. This is the end of
15 media unit three. We're going off the record
16 for a media change.

17 (A recess was taken from 4:20 p.m. to 4:22 p.m.)

18 THE VIDEOGRAPHER: This is media unit number
19 four. The time is 4:22. We are back on the
20 record.

21 BY MS. BLAIR:

22 Q. Ms. McCauley, in terms of the reputational
23 damage that's been allegedly suffered by St. Mary's in
24 connection with the Leapfrog Hospital Safety Grade that
25 it received in the fall of 2022 [sic], in your capacity

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 231

1 as a corporate representative can you describe for me
2 the reputational damage that has occurred?

3 A. So you did mean fall of 2024.

4 Q. Did I say it wrong? Probably.

5 A. Yes.

6 Q. Fall of 2024.

7 A. As indicated earlier, we have had a decline
8 in number of births delivered at our facility. We have
9 had a decline in outpatient pediatrician physical
10 therapy. We have had a decline in elective outpatient
11 surgeries. We have had a decline in volume in our
12 emergency department.

13 Q. And that you attribute all to the Leapfrog
14 grade?

15 A. I do attribute it to the Leapfrog grade.

16 And I can give an example where a patient
17 who came to the facility indicated to me that he was
18 nervous that his wife was brought to St. Mary's because
19 of what he has heard. This is fairly recent. But he
20 was pleasantly surprised at what an amazing experience
21 and outcome his spouse had at the facility. But that
22 reputation that's been developed because of the
23 Leapfrog grade has resulted in patients not selecting
24 St. Mary's as evidenced by our decreased elective
25 volumes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 232

1 Q. Okay. And when did you -- you personally
2 spoke to this patient?

3 A. It was a Google review, yes.

4 Q. It was a Google review.

5 And do you recall when the date of that
6 Google review?

7 A. I don't recall the date.

8 Q. You said it was relatively recently?

9 A. It's relatively recent.

10 Q. Was it after the filing of this lawsuit?

11 A. It was past couple months.

12 Q. And you spoke with him directly?

13 A. He posted it on social media.

14 Q. So it was a social media post, correct?

15 A. Correct.

16 Q. Does he specifically refer to Leapfrog in
17 the social media post?

18 A. Not that I recall.

19 Q. Have you produced that social media post in
20 this litigation?

21 A. I'm not certain.

22 Q. Other than this one social media post,
23 Google review that you just told me about, what -- how
24 are you making the connection to the decrease in
25 elective admissions at St. Mary's to the grade

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 233

1 St. Mary's received in the fall of 2024?

2 A. So heretofore prior to the fall of 2024

3 St. Mary's was successful in growing its volume. And

4 since the fall of 2024 and the published grades, we

5 have seen a degradation in elective volume.

6 Q. What documents do you look at in order to

7 determine that you've had a decrease in elective

8 volume?

9 A. So I recount telling you earlier today that

10 we on a monthly basis look at financials which include

11 volume data.

12 MS. BLAIR: Mark this as 14.

13 (Defendant's Exhibit Number 14 for i.d.)

14 BY MS. BLAIR:

15 Q. Ms. McCauley, I'm handing you now what we've

16 marked as Exhibit 14. And I'll submit to you this is

17 your declaration, but attached to it is only Exhibit 4

18 to your declaration for purposes of my Exhibit here

19 today.

20 If you could take a look at this document

21 and specifically turn to the last page of the

22 declaration. And my question will be, is this your

24 A. We're looking at --

25 Q. No, we're looking at --

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 234

1 A. Is this a different?

2 Q. Yes. They're a group Exhibit, and I only
3 attached Exhibit 4, not the whole thing.

4 A. So on 2234, that is my signature.

5 Q. Okay. And do you recall drafting this
6 declaration and signing it in or around May of 2025?

7 A. I wouldn't have personally drafted it.

8 Q. Fair enough.

9 Do you recall reviewing it and signing it in
10 or around May 13th of 2025 as indicated by the
11 signature and date line?

12 A. Yes.

13 Q. And when is the last time you have reviewed
14 this declaration?

15 A. I reviewed this over the past few days.

16 Q. And having reviewed it over just the past
17 few days, is everything in it still true and correct to
18 the best of your knowledge?

19 A. To the best of my knowledge.

20 Q. And I want to direct your attention to
21 Exhibit 4, this is Exhibit 4 to your declaration which
22 is a document. Well, you tell me what this document
23 is.

24 A. So this document shows key indicators fiscal
25 year '24 and year to date March '25 for each of the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 235

1 facilities on different metrics.

2 Q. Okay. And so if we look at the top kind of
3 box, and it looks like the total lines is "Admits Palm
4 Beach Market," do you see that?

5 A. Yes.

6 Q. Does that mean everything above this box is
7 all of the admissions at each of the individual
8 hospitals?

9 A. So is the first box -- correct, they're
10 summary, admits, Palm Beach Health, Palm Beach market.

11 Q. Okay. And is this the -- this would not be
12 just the electives, correct?

13 A. No, this would be everything.

14 Q. Okay. Is there somewhere on this page where
15 the electives show up?

16 A. I don't see that.

17 Q. Okay.

18 A. Well, at the bottom, total -- well, one up
19 from the bottom, total elective encounters, Palm Beach
20 market.

21 Q. Okay. Got it. And it looks like it's
22 shaded. But is it shaded because it's in the negative?

23 A. That's what it appears.

24 Q. Okay. And is this what you were talking
25 about, then? These are the electives that you look at

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 236

1 to make the determination that your Leapfrog Hospital
2 Safety Grade had a negative impact on the reputational
3 harm of St. Mary's?

4 MS. MALONEY: Objection.

5 A. So this is -- so this is the data for the
6 February 20 -- fiscal year '24 compared to the first
7 quarter of '25.

8 BY MS. BLAIR:

9 Q. Do you have this data for the second
10 quarter?

11 A. I'm sure it can -- do I have it? This
12 actually -- this data actually has all the market. I
13 wouldn't have all the market.

14 Q. Okay. That's a great point.

15 Does St. Mary's have the capability of
16 providing its numbers for these categories, admits,
17 total outpatient visits, total surgeries,
18 I/P surgeries, inpatient surgeries, outpatient
19 surgeries, total emergent encounters and total elective
20 encounters? Does St. Mary's have the ability to run
21 these numbers for Q2 of 2025?

22 A. Yes.

23 Q. And do they have the ability to run it in a
24 comparison type of table?

25 A. For 2024 to 2025, yes.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 237

1 Q. Correct. Yes.

2 And I suspect since next week will be end of
3 Q3, you will have Q3 numbers at that time, correct?

4 A. Mid October.

5 Q. Okay. Do you know -- when you told me
6 earlier about electives being down, were you referring
7 to these numbers, or were you referring to Q2 numbers?

8 A. I was referring to more year-to-date numbers
9 that I'm familiar with from participating in reviewing
10 month-end financials.

11 Q. Okay. So you're reviewing financials on a
12 monthly basis?

13 A. Correct.

14 Q. Okay. Have you ever looked at these --
15 other than what's in Exhibit 4 to your declaration,
16 have you ever looked at the quarterly, the June
17 quarterly comparisons for St. Mary's of these types of
18 numbers?

19 A. I'm not certain that I have or haven't
20 because I review our financials monthly.

21 Q. Okay. And when you're reviewing the
22 financials monthly, you can just tell by looking that
23 they're down from last year?

24 A. Correct.

25 Q. Okay. Does it show you that? I guess

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 238

1 that's what I'm saying.

2 A. It would have -- it could have fiscal year
3 '24 or prior year to current year.

4 Q. Okay. And you get those every month?

5 A. Correct.

6 Q. Now, you told me about -- so the way that
7 you are connecting the Leapfrog Hospital Safety Grade
8 from fall of 2024 to an effect of your reputational
9 harm is directly related to volume, correct?

10 A. To elective volume.

11 Q. Elective volume, which is the bottom box on
12 Exhibit D, correct?

13 A. One up from employees, yes.

14 Q. Yes.

15 Is there any other way that you are
16 measuring the reputational harm to St. Mary's as a
17 result of the Leapfrog fall 2024 Hospital Safety Grade?

18 A. The way a hospital would measure would be
19 based on volume and patients coming to a facility.

20 Q. Other than the Google review that you told
21 me about where the husband posted that he was nervous
22 to bring his wife to St. Mary's, are there any other
23 patient reviews that you're aware of that you believe
24 substantiate that the Leapfrog fall 2024 Hospital
25 Safety Grade was the cause of the downward trend in

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 239

1 elective volume at St. Mary's?

2 A. On a daily basis, I round and visit a lot of
3 patients, and in conversations with patients or
4 patient's family, there -- there have been concerns
5 mentioned about what they might have heard or a
6 sentiment from the media.

7 Q. Do they ever mention Leapfrog in those
8 conversations with you?

9 A. Not specifically that I recall.

10 Q. Do they ever tell you what specific media
11 they refer to, what specific media they're relying on?

12 A. I don't know that I -- that I pushed the
13 question.

14 Q. Prior to -- well, okay. So in your rounding
15 you'll talk to patients and patients' families about
16 their concerns about the reputation of what?

17 A. So I round on patients to find out how their
18 care is, how their nurse is, is there anything we can
19 do better. I thank them, if it was elective, for
20 choosing St. Mary's and try to understand, just to try
21 to get better sense for our patients.

22 Q. Okay. And it's during those conversations
23 that you've had conversations with patients and/or
24 patient's families about their concerns?

25 A. Correct.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 240

1 Q. Okay. So any -- so we have the Google
2 review, the rounding. How many patients would you say
3 since fall of 2024 have you talked to that have had
4 concerns about the reputation of St. Mary's?

5 A. It's hard to quantify.

6 Q. Prior to the fall of 2024 had you had any
7 conversations like that with any patients?

8 A. I don't recall specific conversation where
9 patients voiced concerns.

10 Q. In all your years as either a chief
11 administrative officer or chief executive officer of a
12 hospital, do you recall any conversations you had with
13 patients or patients' families regarding Leapfrog?

14 A. Not -- no, not specifically, no.

15 Q. So in the rounding with patients and the
16 Google reviews, are there any other discussions you've
17 had about that you feel establish that the cause of the
18 decrease in elective admissions --

19 A. Volume.

20 Q. -- volume, sorry, is directly linked to the
21 Leapfrog Hospital Safety Grade?

22 A. I mean, I recently received a letter from a
23 patient referring to our Leapfrog grade D, and the
24 patient advised me that we should no longer vaccinate
25 children because we were a Leapfrog D.

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 241

1 Q. Have you produced that document in this
2 litigation?

3 A. I'm not sure. It's a very recent letter so
4 I sent it to counsel.

5 Q. Did you reach out to that patient?

6 A. No, I didn't.

7 Q. Other than that letter, anything else that
8 you can think of?

9 A. That is the most recent and -- the most
10 recent one that comes to mind.

11 Q. And so have you told me, then, about all of
12 the discussions you've had with patients or anyone
13 else -- not discussions but reviews you've seen,
14 letters you've received, discussions you've had with
15 patients or patients' families or anyone else that of
16 inform your belief that the Leapfrog fall 2024 Hospital
17 Safety Grade is the cause of the down turn in elective
18 volume?

19 A. I believe based on declining volumes, which
20 is a new event for St. Mary's, that that is the
21 attributing factor.

22 Q. Right. And I'm just trying to make sure
23 I've covered all my bases.

24 A. Right.

25 Q. Like have you told me about all the

Cynthia McCauley
September 24, 2025

CONFIDENTIAL

Page 242

1 different categories of patients and Google reviews and
2 letters from patients? Is that everything you can
3 think of that informs your belief that Leapfrog is the
4 cause of the decline in elective volume?

5 A. At this moment, those are the things that
6 come to my mind.

7 MS. BLAIR: Can we take a quick break? I
8 think I'm almost finished if you don't mind.

9 THE VIDEOGRAPHER: Off the record. 4:38.
10 (A recess was taken from 4:38 p.m. to 4:57 p.m.)

11 THE VIDEOGRAPHER: Back on the record 4:57.

12 MS. BLAIR: Ms. McCauley, I have no further
13 questions for you?

14 THE WITNESS: Perfect. Thank you.

15 MS. BLAIR: Sorry you had to take that long
16 of a break.

17 MS. MALONEY: I'll designate the transcript
18 as confidential, please.

19 MS. BLAIR: And we'll reserve our rights to
20 dispute the confidential nature of certain parts
21 of that deposition.

22 I will order the usual, rough draft and an
23 eTran regular delivery with Exhibits.

24 MS. DABANKA: Same.

25 THE VIDEOGRAPHER: This marks the end of

8 IN RE: GOOD SAMARITAN vs. THE LEAPFROG GROUP
9 CASE NO.: 9:25-CV-80526-DMM

10 Please take notice that on the 24th day of September
11 2025, you gave your deposition in the above cause. At
12 that time you did not waive your signature.

13 The above-addressed attorney has ordered a copy of this
14 transcript and will make arrangements with you to read
15 their copy. Please execute the Errata Sheet, which can
16 be found at the back of the transcript, and have it
17 returned to us for distribution to all parties.

18 If you do not read and sign the deposition within 30
19 days, the original, which has already been forwarded to
20 the ordering attorney, may be filed with the Clerk of
21 the Court.

22 If you wish to waive your signature now, please sign
23 your name in the blank at the bottom of this letter and
24 return it to the address listed below.

25 Very truly yours,

26 Barbie Gallo, RMR-CRR
27 Lexitas Legal
28 fl.production@lexitaslegal.com

29 I do hereby waive my signature.

30 CYNTHIA MCCAULEY

1 Thereupon,
2 the following proceedings began at 9:09 a.m.:

3 * * *

4 THE VIDEOGRAPHER: We are now on the record
5 and the time is 9:09 a.m. This is the
6 video-recorded deposition of Sheri Montgomery
7 taken in the matter of Good Samaritan Medical
8 Center, Incorporated, et al. versus The Leapfrog
9 Group.

10 This deposition is being held in 515 North
11 Flagler Drive, West Palm Beach, Florida on
12 Monday, September 15, 2025.

13 The videographer is Ashley Taylor, and the
14 court reporter is Barbie Gallo with Lexitas.

15 Will counsel please announce their
16 appearances for the record.

17 MS. BLAIR: Kim Blair on behalf of
18 defendant, Leapfrog.

19 MR. MARCUS: Jeff Marcus of Marcus,
20 Rashbaum, Pineiro & Meyers.

21 I'm joined by Kevin Simmons of Gibson, Dunn
22 on behalf of plaintiffs.

23 THE STENOGRAPHER: And, if you would, raise
24 your right hand, I'll swear you in.

25 Do you swear or affirm that the testimony

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 7

1 you're about to give in this matter will be the
2 truth, the whole truth and nothing but the truth
3 so help you God?

4 THE WITNESS: I do.

5 THE STENOGRAPHER: Thank you.

6 MS. BLAIR: And let the record reflect that
7 this is both the fact witness deposition of
8 Sheri as well as the corporate representative
9 30(b)(6) deposition of Good Samaritan taken
10 pursuant to agreement of counsel. I do have a
11 notice coming, And I will introduce that as an
12 Exhibit shortly. This deposition is also taken
13 pursuant to the federal Rules of Civil Procedure
14 as well as the local rules for the Southern
15 District of Florida.

16 THEREUPON,

17 SHERI MONTGOMERY,

18 Being by me first duly sworn to tell the whole truth,
19 as hereinafter certified, testified as follows:

20 DIRECT EXAMINATION

21 BY MS. BLAIR:

22 Q. Ms. Montgomery, as I just announced, my name
23 is Kim Blair. I represent the defendant, Leapfrog in
24 this matter.

25 Could you please state and spell your name

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 8

1 for the record?

2 A. Sure. Sheri Montgomery, S-h-e-r-i;
3 Montgomery, M-o-n-t-g-o-m-e-r-y.

4 Q. And have you ever been deposed before?

5 A. I have.

6 Q. How many times?

7 A. I believe once only.

8 Q. And was that in connection with your
9 employment at Good Samaritan?

10 A. Yes.

11 Q. And so I'll just go over just a few ground
12 rules, probably things you've heard before.

13 As you know, the court reporter is taking
14 down everything I say and everything you say, so for
15 the convenience and sake of the court reporter, I will
16 try not to talk over you while you're answering. And I
17 ask that you try not to talk over me so that Barbie can
18 get down everything everyone is saying.

19 Is that okay?

20 A. Yes.

21 Q. Again, the court reporter can't take down a
22 shrug of the shoulders, an "uh-huh," "huh-uh" so all of
23 your answers must be verbal here today.

24 Does that make sense?

25 A. It does.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 9

1 Q. In addition, it's clearly not an endurance
2 test so if at any time you need to take a break, please
3 ask me. The only caveat is that if there's a question
4 pending I ask that you answer that question before we
5 take a break.

6 Is that fair?

7 A. Yes.

8 Q. If at any time you don't understand one of
9 my questions, and that will happen today, please ask me
10 to rephrase that question. If you answer a question I
11 ask, I'm going to assume you understood it.

12 Is that fair?

13 A. Yes.

14 Q. Can you describe for us your education
15 background, starting after high school?

16 A. I got my undergrad at FAU in business
17 administration, and then I went to Nova University for
18 my master's in business administration with a
19 concentration in finance.

20 Q. Do you hold any certificates or licensing?

21 A. I do not.

22 Q. What year did you graduate from Novo [sic]?

23 A. I think around 2010 or '11.

24 Q. And did you go straight through undergrad to
25 Novo [sic]?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 10

1 A. I did not.

2 Q. What did you do between FAU and Novo [sic]?

3 A. I was just working.

4 Q. Where did you work?

5 A. I believe Delray Medical Center at the time.

6 Q. What did you do at Delray Medical Center?

7 A. I was probably the controller at the time.

8 Q. So tell me a little bit about your
9 employment. So right out of FAU you began working at
10 Delray?

11 A. Yes. I was working at Delray prior to FAU.

12 Q. Okay. So did you go straight to college
13 from high school?

14 A. Probably. Palm Beach State, I was at Palm
15 Beach State for a while for my associate's degree and
16 FAU for my bachelor's.

17 Q. Okay. So when did you get your associate
18 from Palm Beach State?

19 A. I don't know.

20 Q. What about when did you graduate from FAU?

21 A. I'm not sure.

22 Q. You're not sure when you graduated?

23 A. Maybe three years prior to my master's
24 maybe.

25 Q. So in or around 2006, 2007, does that sound

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 11

1 about right?

2 A. Potentially.

3 Q. And so you started working at Delray. Did
4 you start working at Delray after you got your
5 associate's degree but before you finished at FAU?

6 A. Before. I was working probably at Delray by
7 the age of 19, you know, and going to school at the
8 same time throughout my whole career really.

9 Q. Okay. So let's start with your job at
10 Delray in or around the age of 19. What was your job?

11 A. I worked in central supply.

12 Q. And what did you do in central supply?

13 A. You know, stock supplies, things of that
14 nature.

15 Q. What was your next -- where did you -- how
16 long did you work at Delray?

17 A. Since '94, I believe.

18 Q. And at some point you left Delray?

19 A. I was at Delray for the majority of my
20 career, and then I went to Coral Gables as the CFO.

21 Q. Okay. So --

22 A. I was there probably 20 something years.

23 Q. At Delray 20 something years?

24 A. Yeah. My whole career has -- was at Delray,
25 Coral Gables and Good Sam.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 12

1 Q. And so you were at Delray prior to Delray
2 being purchased by Tenet, correct?

3 A. Yes.

4 Q. What was your last position at Delray prior
5 to going to Coral Gables?

6 A. ACFO.

7 Q. And what's the A stand for in the ACFO?

8 A. Assistant CFO.

9 Q. And can you briefly describe in or around
10 2004 when you were the assistant CFO at Delray what
11 your job duties entailed?

12 A. I don't think -- I wasn't the A -- did you
13 say "2004"?

14 Q. Well, I thought you told me you left Delray,
15 you were at Delray for about ten years, 1994 to 2004.
16 That was my math.

17 A. Oh, no --

18 Q. And then you got --

19 A. -- no, I said like 20 years was --

20 Q. Oh.

21 A. -- my whole career at Delray.

22 Q. I'm so sorry. My math is bad.

23 A. I went to Coral Gables in 2012.

24 Q. Okay. Got it. That was my math mistake.

25 Okay. So when you leave Delray in 2012, you

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 13

1 were the assistant CFO, correct?

2 A. (Nodding head).

3 Q. And what did your job duties entail in,
4 let's just use 2012, your last year at Delray as the
5 assistant CFO?

6 A. Right. Ensuring the financial statements
7 accurate, you know, working with the CFO, you know, was
8 training at the time for the next position, so I got
9 other responsibilities like departments, overseeing IT
10 maybe or case management, things like that.

11 Q. Did you have any responsibilities at Delray
12 for overseeing quality of the hospital?

13 A. No.

14 Q. So I asked a question before, and I think I
15 asked a bad question so I'm sorry.

16 So, as I understand it, Delray was purchased
17 by Tenet in 2007; is that correct?

18 A. I don't know the exact date.

19 Q. Do you recall if whether or not when you
20 were working at Delray they were owned by Tenet?

21 A. Originally when I was 19, no. It was like
22 AMI, I think, or, no, NME. They merged with AMI, so...

23 Q. By the time you leave are they owned by
24 Tenet?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 14

1 Q. Okay.

2 A. Yes.

3 Q. And was there any sort of shift at Delray
4 once Delray became purchased by Tenet in terms of how
5 the hospital was organized or operating?

6 A. I don't recall.

7 Q. Did your job duties change in any way when
8 Delray became affiliated with Tenet?

9 A. I don't recall. I don't even remember if I
10 was in accounting at that time or -- it was so long
11 ago.

12 Q. So you just don't really recall any -- no
13 changes come to mind?

14 A. No. I mean, as far as I'm concerned, I
15 worked for Tenet my entire career that I recall.

16 Q. Okay. So --

17 A. You know...

18 Q. -- as far as you're concerned, you worked
19 for Tenet your whole career?

20 A. Yeah, because it was so long ago when I
21 worked for NME, I don't even know if I was a supply
22 clerk at the time or -- it -- I don't remember the year
23 that that occurred, but it was a long time ago, so...

24 Q. And in your role as the assistant CFO at
25 Delray, did you report in any way to Tenet Healthcare's

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 15

1 home office in Dallas?

2 A. I wouldn't see it that way, but, I mean, I'm
3 sure our organization did, but, you know, I was working
4 for the CFO at the time or, you know...

5 Q. Do you recall having any direct contact with
6 the Tenet home office when you were at Delray in your
7 position as the assistant CFO?

8 A. Sure.

9 Q. And what kinds of oversight did
10 Tenet Healthcare have with respect to your functions as
11 the assistant CFO while you were at Delray?

12 MR. MARCUS: Object to form.

13 A. So the corporate office has departments like
14 revenue cycle, for example, that support us, a tax
15 department that supports us, so we would talk to them
16 about things like that, you know. Contract management
17 is done at the home office.

18 BY MS. BLAIR:

19 Q. Do you know whether or not Delray
20 participated in the Leapfrog survey while you were
21 associated with Delray?

22 A. I don't recall.

23 Q. Do you recall in your position as the
24 assistant CFO at Delray whether or not Delray paid any
25 monies to Leapfrog for participating in the survey?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 16

1 A. I don't recall.

2 Q. Would that have fallen within your ambit as
3 the assistant CFO?

4 A. Not necessarily.

5 Q. Would it have fallen within the ambit of the
6 CFO if payments were being paid to Leapfrog to
7 participate in the Leapfrog annual survey?

8 A. I mean, the way it works is whoever is
9 requesting, or someone could fill out a purchase order
10 that, you know, goes to, depending on the amount, it
11 might not ever reach the CFO so it really depends. You
12 know, it could be the ACFO. It could be the
13 controller. It depends on what the amount is. Since
14 there are so many payments that go through a hospital,
15 one might not know, if that makes sense.

16 Q. That makes sense.

17 A. If it's \$200,000, the CFO would know about
18 it.

19 Q. Do you have any -- let me ask it more
20 broadly.

21 Do you have any recollection of making any
22 payments to Leapfrog while you were -- strike that.

23 Do you have any recollection of Delray
24 making any payments to Leapfrog while you were the
25 assistant CFO of Delray?

Sheri Montgomery

Page 17

1 A. I do not.

2 Q. So after you leave Delray I think you told
3 me you went to Coral Gables, correct?

4 A. Yes.

5 Q. And that was sometime in 2012, right?

6 A. I believe that's correct.

7 Q. And you were the chief financial officer of
8 Coral Gables?

9 A. I was.

10 Q. How long were you the chief financial
11 officer of Coral Gables?

12 A. 18 months.

13 Q. And what were your job duties as the CFO of
14 Coral Gables?

15 A. Business planning, you know, ensuring
16 financial statements are accurate, contract management,
17 vendor management.

18 Q. Did you have any oversight while you were at
19 Coral Gables with respect to marketing?

20 A. No.

21 Q. Did you oversee the marketing budget in any
22 way?

23 A. I would say I was responsible ultimately
24 that they didn't overspend, yes.

25 Q. Do you recall whether or not the marketing

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 18

1 department at Coral Gables had a budget?

2 A. Yes.

3 Q. And same question with respect to your work
4 at Delray back when you were the assistant CFO at
5 Delray, did they have a marketing budget?

6 A. Yes.

7 Q. Do you recall whether or not the marketing
8 budget of Delray was a percentage of overall revenue?

9 MR. MARCUS: Object to form.

10 A. I don't recall anything like that, no.

11 BY MS. BLAIR:

12 Q. And same question with respect to CF -- with
13 Coral Gables, do you recall whether or not the
14 marketing budget was a percentage of the overall
15 revenue?

16 A. I do not.

17 MR. MARCUS: Same objection.

18 BY MS. BLAIR:

19 Q. How is -- just speaking generally, you
20 obviously have a lot of experience in a CFO role of a
21 hospital. How generally is the marketing budget come
22 to at a hospital?

23 A. Really based off history. So, you know, if
24 you spent a certain amount the previous year, if you
25 have some business plan initiative, there's -- you're

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 19

1 wanting to increase the budget, then obviously you
2 request for those reasons, but, honestly, it's really
3 based off history for the most part.

4 Q. And why did you leave Coral Gables after
5 18 months?

6 A. To go back to Delray Medical Center as the
7 CFO.

8 Q. Okay. So you go back to Delray. And what
9 year was that?

10 A. '14.

11 Q. And how long did you stay as the CFO of
12 Delray hospital?

13 A. I would say probably, I guess, six years
14 because, yeah, I went to Good Sam in 2020.

15 Q. What month did you start at Good Sam in
16 2020?

17 A. April.

18 Q. Right in the middle of the pandemic?

19 A. Yes.

20 Q. Prior to the Palm Beach Health Network being
21 formed in 2022, was there a connection between Delray
22 and Good Sam?

23 A. Yes.

24 Q. And what was that connection?

25 A. We were always a group, so five hospitals,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 20

1 we've always been a group.

2 Q. And what do you mean "always a group"? What
3 does that mean?

4 A. You know, working together, planning
5 together, having meetings together. There was group
6 leadership, you know, a CEO, a CFO, CHRO over the five
7 hospitals.

8 Q. And was that true even though -- Palm Beach
9 Gardens doesn't get owned by Tenet until 2017, so when
10 you say "always," I'm just curious.

11 A. Palm Beach Gardens. That doesn't make
12 sense.

13 Q. That doesn't make sense. Do you know when
14 Tenet -- maybe my research is wrong.

15 Do you know when Palm Beach Gardens was
16 purchased by Tenet?

17 A. I've always known them to be part of Tenet.

18 Q. Okay. So Palm Beach Health Network is
19 formed in 2022, April of 2022, correct?

20 A. That sounds about right.

21 Q. Okay. But before April of 2022, the five
22 hospitals that are the -- and when you say "the five
23 hospitals," I assume you're referring to the five
24 hospitals that are plaintiffs in this lawsuit, correct?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 21

1 Q. And those five hospitals are St. Mary's,
2 Good Sam, Palm Beach Gardens, West Boca and Delray,
3 correct?

4 A. Yes.

5 Q. Yes.

6 So tell me about prior to April of 2022 how
7 the hospitals functioned as a group.

8 A. Pretty much the same. I mean, the structure
9 is there's group leadership. The reason it's five is
10 that they were the five Tenet hospitals so there's
11 local leadership that you report up to that is over the
12 five.

13 Q. And prior to April of 2022 who was the local
14 leadership of these five hospitals?

15 A. Maggie Gill, Michelle Cartwright,
16 Shannon Wills for CHRO, Ricky Ramirez for the CNO.
17 That's changed over time so I don't know exact dates
18 because before I went to Good Sam, I was the
19 Michelle Cartwright of the group, the CFO.

20 Q. Okay.

21 A. And the CFO of Delray Medical Center.

22 Q. Got it. So prior to Palm Beach Health
23 Network being formed in April of 2022, was there a
24 formalized structure for these five hospitals?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 22

1 Q. From a --

2 Okay. And what did you call yourselves,
3 just were you just it was just part of Tenet?

4 A. Yeah, the Palm Beach group.

5 Q. And so if I'm understanding you correctly,
6 and please correct me if I'm wrong, there was a
7 functional group within Tenet overseeing these five
8 hospitals, and you were the functional group CFO at one
9 point, correct?

10 A. Correct.

11 Q. And prior to April of 2022, did Maggie Gill
12 work at one of the five hospitals?

13 A. Delray.

14 Q. And what was her title at Delray prior to
15 April of 2022?

16 A. So she was the CEO of Delray at sometime,
17 and then she was pulled up to not have a hospital at
18 all. I don't remember what year that was.

19 Q. Got it. So but until '20 -- April of 2022
20 when Palm Beach Health Network was formed, Maggie Gill
21 would not have been the CEO of Palm Beach Health
22 Network; is that fair?

23 MR. MARCUS: Object to form.

24 A. She was. She was at the Palm Beach group.

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 23

1 Q. Okay. Yeah, that was a terrible question.

2 So functionally she was the CEO of the Palm
3 Beach group prior to April of 2022, correct?

4 A. Correct.

5 Q. And in April of 2022, these five hospitals
6 of which you are the CEO of Good Samaritan rebranded as
7 the Palm Beach Health Network, correct?

8 A. Correct.

9 Q. Okay. And Michelle Cartwright, you said she
10 was the group -- or was the group CFO at one point?

11 A. She is.

12 Q. She is now. Does she come from one of these
13 five hospitals?

14 A. Correct, yes.

15 Q. Which one?

16 A. St. Mary's.

17 Q. And then what about Shannon Willis [sic],
18 was she at a hospital, one of these five hospitals as
19 well?

20 A. Yes. Her last name is Wills.

21 Q. Oh, I'm sorry. Wills.

22 A. That's all right.

23 Q. What hospital was she at?

24 A. Delray.

25 Q. And you said CHRO. What does that stand

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 24

1 for?

2 A. Chief human resource officer.

3 Q. And Ricky Ramirez, was he associated with a
4 specific hospital?

5 A. He's at West Boca, and he's the chief nurse
6 officer there.

7 Q. And he's still the chief nurse officer of
8 West Boca, correct?

9 A. Correct.

10 Q. And is Shannon Wills still the CHRO at
11 Delray?

12 A. She is.

13 Q. And is Michelle Cartwright still the CFO at
14 St. Mary's?

15 A. She's at Delray.

16 Q. She's currently at Delray?

17 A. Yes.

18 Q. And Maggie Gill, she -- I thought you just
19 said -- but if I'm wrong -- she no longer has any
20 responsibilities at a specific hospital; is that
21 correct?

22 A. Correct.

23 Q. Is there anyone else associated with the
24 Palm Beach Health Network that is not also associated
25 with one of the five hospitals specifically?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 25

1 A. That's not associated, no.

2 Q. Okay. So just Maggie Gill?

3 A. Right.

4 Q. And Maggie Gill reports directly to Tenet
5 hospital in Dallas, to the best of your knowledge?

6 A. Yes.

7 Q. Do you know who she reports to in Dallas?

8 A. Lisa Foo.

9 Q. Can you spell "Foo" for me?

10 A. F-o-o.

11 Q. And who is Lisa Foo?

12 A. She's the COO.

13 Q. Of Tenet hospitals?

14 A. Yes.

15 Q. Or I'm sorry. Tenet Healthcare?

16 A. Yes.

17 Q. Do you know who Lisa Foo reports to?

18 A. Saum Sutaria. He's the CEO.

19 Q. So with respect to your employment history,
20 in April of 2020, you become the CEO of Good Samaritan,
21 correct?

22 A. Correct.

23 Q. Can you describe for me briefly what your
24 roles are as the COO -- CEO, excuse me, of
25 Good Samaritan?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 26

1 A. Did you say "goals"?

2 Q. I'm sorry. Roles.

3 A. Roles.

4 Q. Yeah. Sorry.

5 A. My role is to oversee the strategy, business
6 initiatives, ensure that the hospital is, you know,
7 quality, financially sound.

8 Q. In terms of the corporate structure of
9 Good Sam, I assume if you're the CEO you're at the top,
10 correct?

11 A. Correct.

12 Q. How many direct reports do you have?

13 A. Really only the A-team, so that would be the
14 CHRO, COO, CNO and the CFO.

15 Q. Okay. And who is the CHRO?

16 A. Kevin Caracciolo. It's
17 C-a-r-r-i-c-c-l-o [sic] I think.

18 Q. And the COO?

19 A. Austin Champoux.

20 Q. The CNO?

21 A. Colleen Thielk.

22 Q. And the CFO?

23 A. Taylor Guittap.

24 Q. Is there a chief marketing officer for
25 Good Sam?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 27

1 A. No.

2 Q. Is there a chief quality officer?

3 A. No.

4 Q. Does the Palm Beach Health Network share a
5 chief quality officer?

6 MR. MARCUS: Object to form.

7 A. Not officers.

8 BY MS. BLAIR:

9 Q. Is there a chief quality director?

10 A. We would call them a group director.

11 Q. Who's the group director?

12 A. Gina West.

13 Q. And so her will title is the Palm Beach
14 Health Network group director?

15 A. Quality director.

16 Q. Okay. So she is the Palm Beach Health
17 Network group quality director?

18 A. Correct.

19 Q. And she oversees all five hospitals?

20 A. Yes.

21 Q. And are there quality personnel at Good Sam?

22 A. Yes.

23 Q. Who is in the quality department? My word.

24 I don't know if you call it the quality department, but
25 who's in charge for quality for Good Sam directly?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 28

1 A. Erin Britt.

2 Q. And what is her title?

3 A. The quality director.

4 Q. And who reports to Erin Britt?

5 A. Infection control; Lauren. I'm drawing a
6 blank on her last name. There's also an infection
7 control coordinator that reports to her.

8 Q. Does she only have one direct report?

9 A. Two. So there's two. There's the -- Lauren
10 who's really over infection control, and then there's a
11 coordinator as well, so there's two, I believe.

12 Q. Who is Taylor Pool?

13 A. She is the group infection control director.

14 Q. So Regina West, she's not associated with
15 any specific hospital?

16 A. I don't believe she is any longer.

17 Q. And what about Taylor Pool, is she
18 associated with any specific hospital?

19 A. I believe she's also the infection control
20 director at St. Mary's, but I'm not sure.

21 Q. So Gina West and Maggie Gill, they're direct
22 employees of Tenet Healthcare home office to the best
23 of your knowledge?

24 A. Gina West, no.

25 Q. Okay. What hospital is Gina West affiliated

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 29

1 with?

2 A. I believe she either might be on my books or
3 St. Mary's.

4 Q. Does she have an office at Good Samaritan?

5 A. St. Mary's.

6 Q. So in terms of the finances of these five
7 hospitals, do you share sort of the cost of Regina West
8 if she's overseeing quality for all five hospitals?
9 How does that work?

10 A. Yes.

11 Q. So is it the case that any -- well, strike
12 that.

13 Is that the same with Maggie Gill, then?

14 A. I don't believe so.

15 Q. Okay. But it is for Regina West, correct?

16 A. Yes.

17 Q. And in your role as CEO of Good Samaritan,
18 what oversight do you have with respect to quality?

19 A. Well, the CNO is -- has direct oversight,
20 and I have oversight of the CNO, so...

21 Q. So the CNO, does -- I think it's a
22 "she" report to you regularly?

23 A. Yes.

24 Q. And that's Colleen Thielk, correct?

25 A. Correct.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 30

1 Q. And what are Colleen Thielk's
2 responsibilities as the chief nursing officer as it
3 relates to quality and safety?

4 A. She has direct oversight of the clinical
5 operations of the hospital, safety risk, infection
6 control.

7 Q. Does she report to you regularly regarding
8 clinical operation, safety risk and infection control?

9 A. Yes.

10 Q. Do you have regularly scheduled meetings
11 with respect to that?

12 A. We do.

13 Q. How often do you meet?

14 A. Once a week.

15 Q. And, generally speaking, what are the
16 substance of these meetings?

17 A. All types of things, I mean, down to
18 recruitment, to culture, to what we're doing, patient
19 safety, mentorships.

20 Q. How much time does Colleen Thielk spend
21 on -- well, strike that.

22 Can you tell me what are Colleen Thielk's
23 duties as the chief nursing officer of Good Samaritan?

24 A. To oversee the clinical operations of the
25 building. I mean, to me that encompasses the things

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 31

1 that I mentioned before about risk, safety, infection
2 control, patient satisfaction, you know, all those
3 types of things.

4 Q. Does she oversee the nursing staff?

5 A. She has directors, of course, but, yes.

6 Q. And how many people report to
7 Colleen Thielk?

8 A. She probably has eight to ten direct report,
9 maybe ten direct reports, and then they have managers
10 that report to them.

11 Q. How many full-time nurses are employed by
12 Good Samaritan?

13 A. Probably about 370 maybe, 350.

14 Q. Are they unionized?

15 A. Yes.

16 Q. What union are they in?

17 A. 1199.

18 Q. Does Colleen have any direct interaction
19 with the union on behalf of the nursing -- the nurses?

20 A. Not typically. It's not very -- the union
21 there is not really active.

22 Q. What about the chief -- do you have a CHRO?

23 A. Yeah.

24 Q. You do. Kevin?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 32

1 Q. I can't pronounce it. Does he have direct
2 interaction with the unions?

3 A. Very little. A union rep might come to the
4 hospital like a couple times a year maybe.

5 Q. Why did the five hospitals decide to rebrand
6 as Palm Beach Health Network?

7 A. I think it was more of, you know, getting an
8 identity to show that we're an encompassing network of
9 hospitals that work together.

10 Q. Do you compete with each other these five
11 hospitals?

12 A. No.

13 Q. All five of these hospitals are acute care
14 hospitals, correct?

15 A. They are.

16 Q. And they're all in the general geographic
17 region, correct?

18 A. Yes.

19 Q. But you don't consider each other to be
20 competitors in any way?

21 A. No.

22 Q. Why not?

23 A. We support each other. We work on business
24 plans together. We're all specialized really in
25 different areas.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 33

1 Every hospital has, general surgery, for
2 example, so that's not really an identifier. So Delray
3 is a trauma hospital. St. Mary's is a trauma hospital.
4 They're very far from each other. They're the only two
5 trauma hospitals in the county.

6 Q. Do you have any -- do you keep any
7 statistics as to how many patients choose one of the
8 five hospitals over the other four?

9 A. No.

10 Q. Do you understand that one of the
11 allegations that's made in this case is that people are
12 bypassing Good Sam to go to other hospitals, correct?

13 A. Correct.

14 Q. Do you know whether they bypass Good Sam to
15 go to St. Mary's or Delray or Palm Beach Gardens? Have
16 you done a study as to that?

17 A. We have not, but I would gather not.

18 Q. Why would you gather not?

19 A. Because we all had failing grades.

20 Q. Well, there's a lot of other things that go
21 into choosing a hospital, wouldn't you agree with me?

22 A. Could you be more specific?

23 Q. Well, yeah. I mean, do you have any
24 understanding that a patient may choose another
25 hospital because they like the doctor at that hospital

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 34

1 better than another hospital?

2 MR. MARCUS: Object to form.

3 A. Sure.

4 BY MS. BLAIR:

5 Q. Right. And so I'm just sort of saying like
6 there are a lot of reasons people might choose one
7 hospital over another, correct?

8 A. Yes, but I would say with the failing
9 grades, it definitely people have chosen not to choose
10 our hospitals and would hinder people to actually
11 question their doctors to even come to our hospitals.

12 Q. Do you believe that's the same with respect
13 to a one-star CMS rating?

14 A. I do not.

15 Q. Why not?

16 A. So with CMS, in general, if you looked at
17 the Palm Beach County hospitals, there are many
18 one-star hospitals. It never hit the news. I was
19 never questioned from any patient, any doctor until we
20 were all F's and it was all over the news, which is, in
21 people's minds, obviously, a failing grade.

22 Q. So no one on your board of directors cared
23 that you're a one-star CMS hospital?

24 MR. MARCUS: Object to form.

25 A. They never said anything. They never really

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 35

1 looked that what's -- what is a star hospital and what
2 do the stars really mean.

3 In my opinion, in Palm Beach County, CMS
4 star ratings never made the news. It was not like that
5 everyone was looking at.

6 When it makes the news that you have a
7 failing red F, that's very, very different to people,
8 so you're a failing hospital. You failed. That's what
9 it looked like.

10 BY MS. BLAIR:

11 Q. But isn't it important to you as a CFO that
12 you have good marks for patient experience whether or
13 not it's in the news or not?

14 A. Yes, patient experience is important to us.

15 Q. And you have a one-star for patient
16 experience at Good Sam, correct?

17 A. I do.

18 Q. And you've looked at the HCAHPS scores from
19 CMS for patient experience, correct?

20 A. I have.

21 Q. And so whether it's in the news or not,
22 isn't that important to your board of directors, how
23 patient experience is at Good Samaritan?

24 A. Patient experience is important, yes.

25 Q. Okay. But it's only if it's in the news

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 36

1 that you think that should impact somebody's decision
2 to come to your hospital?

3 MR. MARCUS: Object to form.

4 A. That's not what I said at all.

5 BY MS. BLAIR:

6 Q. Okay. I just want to make sure I understand
7 what you said.

8 Patients have experiences at hospitals,
9 correct, when they're admitted?

10 A. Correct.

11 Q. And patients report on those experiences at
12 the hospitals, correct?

13 A. Some of them do.

14 Q. And that's what ultimately turns into the
15 HCAHPS scores that CMS looks at, correct?

16 A. That is correct.

17 Q. And so in your long history of working at
18 hospitals, do you have any opinion about whether or not
19 word of mouth from patients can affect whether or not
20 other patients want to go to a hospital?

21 A. Certainly.

22 Q. And have you ever looked at comments on
23 social media from patients about their experiences at
24 Good Samaritan?

25 A. I have.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 37

1 Q. Do you have any understanding as to
2 whether -- as to whether or not comments by patients on
3 social media impacts whether or not their friends and
4 neighbors might want to go to that hospital?

5 A. They could.

6 Q. And have you done any studies at
7 Good Samaritan to make a determination as to whether or
8 not patient experience at your hospital impacts your
9 brand?

10 A. A specific study, no.

11 Q. Getting back to the rebranding of the Palm
12 Beach -- the rebranding of these five hospitals as Palm
13 Beach Health Network, do you understand that occurred
14 in or around April of 2022?

15 A. I mean, I don't remember the exact date.

16 Q. I read a newspaper article from April of
17 2022, and it says, "Five Tenet hospital" -- "five
18 Tenet Healthcare owned hospitals in Palm Beach County
19 are retooling their image to emphasize ties to local
20 physicians and communities."

21 Does that comport with your recollection as
22 to why the rebranding occur?

23 A. I mean, local communities, yes. I'm not
24 really sure about the physician statement. I don't
25 recall that.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 38

1 Q. Okay. And that same article said, "The move
2 comes as more residents pour into the region."

3 In April of 2022, is it your recollection
4 that more residents were pouring into the region that
5 Good Samaritan services?

6 MR. MARCUS: Object to form.

7 A. I mean, the community has been growing for
8 quite sometime. I don't know if it had anything to --
9 in that time, April. I mean, the last several years,
10 yes, it would have been --

11 BY MS. BLAIR:

12 Q. Do you live in this community?

13 A. Yes, I do.

14 Q. And then it says -- so that sentence goes on
15 to say, "The move comes as more residents pour into the
16 region and rival medical providers vie for new and
17 often wealthy patients."

18 As the CEO of Good Samaritan in around April
19 of 2022, would you agree that rival medical providers
20 were coming to the area?

21 A. Yeah, I would definitely say so. There's
22 definitely been a movement in the Palm Beach County
23 with different organizations in healthcare.

24 Q. Does Palm Beach Health Network have a --
25 have someone that oversees marketing for these five

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 39

1 hospitals?

2 A. Yes.

3 Q. And who is that?

4 A. Lisa Cook.

5 Q. And is Lisa Cook affiliated with any of the
6 five hospitals?

7 A. Delray.

8 Q. Is there a reason why it appears the
9 majority of people that have responsibilities for the
10 Palm Beach Health Network as the group come from Delray
11 as opposed to the other hospitals?

12 MR. MARCUS: Object to form.

13 A. No. Ricky is at West Boca. And I did
14 forget to mention Maria Morales. She's COO.

15 BY MS. BLAIR:

16 Q. And where is she from?

17 A. St. Mary's.

18 Q. What are Lisa Cook's responsibilities for
19 marketing for the Palm Beach Health Network?

20 A. So the marketing managers at the hospitals
21 have, you know, a dotted line to her, so she helps
22 oversee them and their activities, you know, assisting
23 them with budgeting, assisting them with, you know,
24 branding. We work very well as a group, I would say.

25 Q. And who is the marketing manager for

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 40

1 St. Mary's -- or for Good Samaritan?

2 A. Nancy Morales.

3 Q. Is she related to Maria Morales?

4 A. She's not.

5 Q. What is the marketing budget for
6 Good Samaritan? Well, let's do it this way.

7 What was the marketing budget for
8 Good Samaritan in 2024?

9 A. I don't have a number.

10 Q. Is it a percentage of the overall budget?

11 A. No, it was based on whatever, honestly, we
12 spent last year.

13 Q. At any time from April of 2022 through
14 present, has Palm Beach Health Network encouraged the
15 hospitals to increase their marketing budget due to the
16 fact that rival hospitals were coming into the area and
17 competition was getting bigger?

18 A. No.

19 Q. So there was no effort to increase marketing
20 despite the fact that Cleveland Clinic and Langone and
21 other hospitals were coming to the area?

22 A. It doesn't really work like that. You know,
23 we would look at what our service lines are and that's
24 what we support. If there was something else
25 marketing-wise, a budget I'm not aware of, I'm not

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 41

1 aware of that.

2 Q. Was there any direction from
3 Tenet Healthcare home office to increase marketing
4 efforts in the South Florida region in light of the new
5 competition coming?

6 MR. MARCUS: Object to form.

7 A. Not that I recall. I mean, there could have
8 been.

9 BY MS. BLAIR:

10 Q. Do you recall having any conversations as
11 the CEO of Good Samaritan about increasing marketing
12 efforts in the South Florida region in or around or
13 between April of 2022 and present in light of the new
14 competition coming to the area?

15 A. I would say that the conversations I recall
16 were more around branding. And obviously there was a
17 budget put out there for branding, but it's not a
18 budget I'm really aware of.

19 Q. And when you say "around branding," are you
20 referring to branding Palm Beach Health Network?

21 A. Correct.

22 Q. And what do you recall about the efforts to
23 brand the Palm Beach Health Network?

24 A. You know, the creation of a logo, tag line,
25 commercials, videos, things of that nature.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 42

1 Q. Was part of Good Samaritan's budget
2 earmarked for that additional branding effort?

3 A. I'm not really sure. That's why I was
4 thinking that there's a different -- there was a
5 separate budget allocated that would really be separate
6 from what we would do with our budget at the hospital.

7 Q. Do you recall if there was a marketing
8 campaign to promote Palm Beach Health Network in or
9 around April of 2022 when the branding occurred?

10 A. Yeah, I don't recall the date, but I know
11 there was -- like I said, there's a commercial.
12 There's, you know, collateral, changing the logo,
13 things like that.

14 Q. What is collateral? I don't know what that
15 means.

16 A. Like anything about our network, our
17 hospital, whether it's something that you would mail
18 out to the community, things that you would hand out
19 that talk about your business.

20 Q. Are you now called like Good Samaritan, part
21 of the Palm Beach Health Network? I mean, is that how
22 you brand yourselves now?

23 A. Yep.

24 Q. And so as part of that branding effort, do
25 you consider Good Samaritan to be tied from a branding

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 43

1 perspective to the other four hospitals that are part
2 of the Palm Beach Health Network?

3 A. I consider us together, yes. And the whole
4 point is really to show that there are so many services
5 that we provided throughout the community.

6 Q. And when you say "so many services we
7 provide throughout the community," you're referring to
8 healthcare services?

9 A. Correct.

10 Q. Are there any other services that are
11 provided?

12 A. I mean, other than employment...

13 Q. Just want to make sure I understood.

14 We talked earlier a little bit about
15 Regina West. And she is -- I want to make sure I get
16 this right. She is the Palm Beach Health Network group
17 quality director, correct?

18 A. Yes.

19 Q. And there is no Palm Beach Health Network
20 group quality -- or, sorry -- Palm Beach Health Network
21 group chief quality officer, correct?

22 A. No.

23 Q. So she would be the highest ranking
24 individual with respect to quality at the Palm Beach
25 Health Network?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 44

1 A. Correct.

2 Q. What type of data does she track for the
3 network as a whole?

4 A. I'm not really sure what she does on her
5 day-to-day basis. I just know my interactions with her
6 with our quality meetings and going over our score
7 cards that have anything to do with infection,
8 mortality, things of that nature. I mean, I'm not sure
9 what she tracks on her day-to-day job.

10 Q. Does she produce quality and safety reports
11 for the network as a whole?

12 A. I mean, I'm not sure what she might send out
13 to chief nurse officers, but so we have monthly
14 meetings where we go over our, you know, score cards.
15 She normally, you know, chairs those types of meetings.

16 Q. And you -- when you refer to "score cards,"
17 what are you referring to?

18 A. So the quality balanced scorecard basically
19 is what it is.

20 Q. And what does that look like?

21 A. It has a bunch of different measures on it.
22 It has emergency room measures on it, how long a
23 patient is waiting. It has mortality. It has
24 infections, transfer acceptance rate.

25 Q. Are those called the quality reports?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 45

1 A. They're -- I would say they're the standard
2 score card that really gathers a lot of information on
3 one score card, but there are all types of quality
4 things that -- you know, data, other score cards, but
5 this is the main one that as leadership we review.

6 Q. Do you know if those documents were produced
7 in this litigation?

8 A. I'm not sure if the balanced scorecard was.
9 Probably.

10 Q. I'll show you some --

11 A. I'm pretty confident.

12 Q. I'll show you some document later today.

13 A. Okay.

14 Q. Maybe I've seen them and I'm just not
15 calling them the score card.

16 A. Okay.

17 Q. And speaking of documents, were you involved
18 in connection with gathering documents to produce in
19 this litigation?

20 A. Yes.

21 Q. And what did you do to gather documents to
22 produce?

23 A. I believe specifically for me it was mostly
24 emails and helping with like governing board minutes.

25 Q. Did you ask anyone else at the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 46

1 Good Samaritan organization to gather documents?

2 A. I did.

3 Q. Who were those people?

4 A. Amy Travland, who is the director of medical
5 staff. She keeps all the minutes for the Med Exec
6 Committee.

7 Q. Anyone else?

8 A. Laura Feak, she's my AA. She gathered like
9 governing board minutes because she's the one that
10 obviously does them. I had conversations with
11 Erin Britt who's the quality director.

12 Q. Did you ask Erin Britt to gather her emails?

13 A. Yes, it was emails, and I think there may be
14 was a request for like monthly QIPSC minutes or
15 something, so and then she started working with
16 Gina West and they gathered everything and had their
17 own thing they were doing.

18 Q. And for the record what is QIPSC?

19 A. It's Quality Improvement Patient Safety
20 Committee.

21 Q. And who is on the QIPSC?

22 A. Most leaders in the hospital, risk
23 management, infection control, CNO. I attend quite
24 often. There's a few doctors that are on it as well.
25 Our vice chief is on it. Nick Sama, director of

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 47

1 orthopedic services is on it. It's a good group of
2 people.

3 Q. How often do you meet?

4 A. Once a month.

5 Q. And do you go over the score card at these
6 meetings?

7 A. Yes, I think it's typically on there.

8 Q. What else do you do at these meetings?

9 A. Go over blood transfusions, falls,
10 infections. Risk management normally goes through her
11 like list of any like grievances. Infection control is
12 there so they'll go over their surveillances. You
13 know, there's a whole list of like Joint Commission
14 stuff that you have to review and then other stuff. If
15 they have a PI committee or something, they'll go over
16 things like that.

17 Q. Are there meeting minutes that are produced
18 from these QIPSC meetings?

19 A. There should be.

20 Q. Are there agendas for these QIPSC meetings?

21 A. Yes.

22 Q. What types of -- and I'm really focused on
23 like patient safety type of documents, infection
24 control.

25 What type of documents in the area of

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 48

1 patient safety or patient quality are shared at these
2 QIPSC meetings?

3 A. All of them, like down to SSIs, any
4 infection, incident reports, grievances from patients.
5 I would essentially say that mostly everything that's
6 reviewed there is around patient safety. I look at all
7 of this as patient safety, every measure.

8 Q. And what did you do to prepare for your
9 deposition here today?

10 A. I had some meetings with my attorneys,
11 reviewed -- reviewed documents that we discussed.

12 Q. Do you recall what documents you reviewed?

13 MR. MARCUS: Objection. I'm going to
14 instruct the witness not to answer that.

15 MS. BLAIR: You're going to instruct the
16 witness not to answer about documents --

17 MR. MARCUS: Documents.

18 MS. BLAIR: -- she reviewed in
19 preparation --

20 MR. MARCUS: She can talk generally, yeah.

21 MS. BLAIR: -- for her deposition?

22 MR. MARCUS: Well, she's talking about
23 conversations with her attorney.

24 MS. BLAIR: I don't know want to know about
25 conversations with your attorney.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 49

1 MR. MARCUS: Well, that's what she just
2 said, so...

3 MS. BLAIR: Oh. I'll rephrase the question.

4 BY MS. BLAIR:

5 Q. What documents did you review in preparation
6 for your deposition?

7 A. I reviewed quality documents. Mostly
8 quality documents. Actually, they all encompass things
9 to do with patient safety, quality, CMS.

10 Q. So CMS documents?

11 A. Yeah.

12 Q. And what kind of --

13 A. Data.

14 Q. Oh, CMS data.

15 A. Yeah.

16 Q. Do you remember for what years?

17 A. What's out there now and where we are today
18 because, as you know, it's a lagging indicator. It's
19 some of data is three years old.

20 Q. And when you say "quality documents," what
21 do you mean by "quality documents"?

22 A. Like QIPSC, tracking of infection control
23 documents.

24 Q. When you say "QIPSC," are you referring to
25 agendas or minutes?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 50

1 A. Yeah, like maybe looking at one of the
2 months.

3 Q. Did you look at any emails?

4 A. I did, yes.

5 Q. Do you recall any specific emails you
6 reviewed?

7 A. Anything that I was supposed to give really
8 to the attorneys that related to Leapfrog.

9 Q. And I don't want to know any discussions you
10 had with your attorneys, but so your memory is that in
11 preparation for your deposition you reviewed emails
12 that had to do with Leapfrog?

13 A. Mine.

14 Q. Your emails?

15 A. Yeah.

16 Q. Any emails stand out in your mind that you
17 reviewed in preparation for this deposition?

18 A. What do you mean by "stand out" in my mind?

19 Q. Can you recall any specific email that you
20 reviewed?

21 A. Oh, that I -- I mean, yes.

22 Q. Which ones?

23 A. An email about getting statements out or
24 like to governing board members.

25 Q. And those would have been statements about

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 51

1 your Leapfrog grade was going to be an F or a D?

2 A. Well, more like there are emails to me about
3 the F.

4 Q. Any other emails that you can recall that
5 you reviewed in preparation for your deposition?

6 A. Other than some emails that I reviewed with
7 the attorneys.

8 Q. I'm going to mark this as Exhibit 1 now that
9 I have a copy.

10 (Defendant's Exhibit Number 1 for i.d.)

11 BY MS. BLAIR:

12 Q. Ms. Montgomery, I've handed you what we've
13 now marked as Montgomery Exhibit 1, which is titled --
14 and it's long -- "Amended Notice of Taking in Person
15 Videotaped Deposition of Sheri Montgomery, Individually
16 and Pursuant to Rule 30(B)(6) to Good Samaritan Medical
17 Center, Inc."

18 Do you see this?

19 A. I do.

20 Q. And full disclosure, this was just updated,
21 I think, over the weekend with your attorneys. So can
22 you just take a look at this? And I'm going to ask if
23 you've seen this version before, which you may not
24 have.

25 A. Okay.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 52

1 Q. My first question is, do you understand
2 you're here today to testify not only individually but
3 also in your capacity as the corporate representative
4 of Good Samaritan Medical Center?

5 A. Yes.

6 Q. And while we made -- do you understand that
7 your attorneys and I have had multiple conversations
8 about limiting what your testimony would be here today
9 in your capacity as the corporate representative of
10 Good Samaritan?

11 A. Yes.

12 Q. Okay. And do you understand that this
13 document is a result of the negotiations that your
14 counsel and I have had with respect to the limitations
15 that would be on your testimony as the corporate
16 representative of Good Samaritan?

17 A. Okay.

18 Q. And I understand you've seen a document like
19 this previously, correct?

20 A. Correct.

21 Q. Okay. And you are prepared to testify on
22 the topics that you just read through here today?

23 A. Yes.

24 Q. And when we talked about your preparation,
25 how many times did you -- I don't want to know what you

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 53

1 said with your attorneys, but how many times have you
2 met with your attorneys to prepare for your deposition?

3 A. Probably five times maybe.

4 Q. And when was the first time?

5 A. Maybe a couple months ago maybe. I don't
6 know.

7 Q. Okay. You can set that aside. I just want
8 to make sure for the record we all understand you're
9 here both in your individual capacity and on behalf of
10 Good Samaritan. And I will try to make sure that my
11 questions are clear. Right now I'm just asking you
12 questions as Sheri Montgomery.

13 But from time to time I might -- may ask you
14 to clarify your question both in your individual
15 capacity and in your capacity as the corporate
16 representative for Good Samaritan?

17 Is that okay?

18 A. Yes.

19 Q. And if at any time you have a question about
20 whether or not I'm asking that in your capacity as an
21 individual or as a corporate representative of
22 Good Sam, please ask me for that clarification.
23 Otherwise, for purposes of this record, I will try to
24 make that clear.

8 MS. BLAIR: Oh, sure, yeah, go ahead.

9 MR. MARCUS: Can we go off the record?

10 THE VIDEOGRAPHER: We're going off the
11 record. The time is 10:16 a.m.

12 (A recess was taken from 10:16 a.m. to 10:25 a.m.)

13 THE VIDEOGRAPHER: We are back on the

15 BY MS. BLAIR:

16 Q. Ms. Montgomery, before we went off the
17 record, we were talking about what I've now marked as
18 Exhibit A [sic].

19 And for the record, I just want to be clear,
20 and counsel reminded me of this, that late last night I
21 had an agreement with Mr. Lee Crain from Gibson Dunn
22 that I would withdraw topic number 10, and so that will
23 be stricken from Exhibit Number 1.

24 I know there's no question, but I wanted to
25 put that on the record.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 55

2 Q. No question. I just wanted you to know that
3 and counsel to know that.

4 Going back to Regina West, does she create
5 hospital safety plans for Good Samaritan?

6 A. I mean, she may be involved with that piece
7 of it. I'm not sure.

8 Q. Does Good Samaritan have a hospital safety
9 plan?

10 A. It does.

11 Q. And how often is that hospital safety plan
12 created?

13 A. Annually.

14 Q. And, to your knowledge, who creates that for
15 Good Samaritan?

16 A. I think it's really reviewed -- this is my
17 thoughts -- you know, at the corporate level and then
18 the local level and for all hospitals so that we all
19 have similar structures.

20 Q. Is there a hospital safety plan specific to
21 Good Samaritan?

22 A. Yes.

23 Q. And to the best of your understanding as you
24 sit here today, that safety plan is first reviewed at
25 the corporate level and then at the local level?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 56

1 A. Definitely at the local level, so they're
2 similar or, if not, the same because. We try to
3 operate as a network and have similar structures.

4 Whether the corporate office is part of
5 that, that's a possibility.

6 Q. Okay. It's a possibility, but you don't
7 know for sure?

8 A. I'm not a hundred percent.

9 Q. Do you know whether Good Samaritan's
10 hospital safety plan has been produced in this
11 litigation for 2003 [sic], 2004 [sic] and 2005 [sic]?

12 MR. MARCUS: Object to form.

13 A. I'm not 100 percent, to be honest. I
14 believe so.

15 MR. MARCUS: Did you mean 2023, 2024, 2025?

16 MS. BLAIR: Oh, see, I should be reading
17 this realtime. I'm too old for that. Yeah, let
18 me rephrase the question. I'll just go one by
19 one.

20 BY MS. BLAIR:

21 Q. Do you know whether the Good Samaritan 2023
22 hospital safety plan has been produced in this

24 A. I'm not 100 percent.

25 Q. And same question with respect to the 2024

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 57

1 Good Samaritan Hospital safety plan.

3 Q. And same question with respect to 2025.

4 A. I'm not 100 percent.

5 MS. BLAIR: Thank you, Counselor. I
6 appreciate that.

7 BY MS. BLAIR:

8 Q. In your conversations as the CEO of
9 Good Samaritan, have you ever had any discussions with
10 Ricky Ramirez regarding nurse retention?

11 A. I'm sure we have.

12 Q. Can you tell me just generally about the
13 market for nursing in South Florida?

14 A. You mean as regards to what exactly?

15 Q. Yeah. Is it difficult to hire nurses in
16 South Florida?

17 A. I mean, I would say that in today's
18 environment it's better than it was, you know, but it's
19 still a challenge. There's a lot of nurses wanting to
20 do remote work, for example, and not be in a hospital,
21 so, you know, when individuals leave an organization
22 oftentimes, it's for that type of balance or work from
23 home. There's more of that these days, so...

24 Q. With respect to Derek Collins, he's the
25 chief strategy officer for Palm Beach Health Network?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 58

1 A. Yes.

2 Q. And is he affiliated with a specific
3 hospital?

4 A. No.

5 Q. As the chief strategy officer, do you know
6 what his duties are?

7 A. He's just really with market analysis,
8 business planning, you know, service line development
9 and things of that nature.

10 Q. Does he provide reports to the hospitals
11 that make up Palm Beach Health Network regarding the
12 competitive position of the hospitals in the South
13 Florida market?

14 A. He supplies market share data.

15 Q. And what is that market share data that he
16 supplies?

17 A. Essentially it's our primary service area
18 for all five hospitals, and then it will show by, like
19 service line, and it will show like all the hospitals
20 in that area that may have -- are in our PSA that what
21 their volumes are by service line, what the population
22 is, things of that nature.

23 Q. And when you say "PSA," what do you mean by
24 PSA?

25 A. Primacy service area.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 59

1 Q. And what is the primary service area for
2 Good Samaritan?

3 A. It's like 14 different zip codes. It's by
4 zip codes.

5 Q. Okay. And so he creates, if I am
6 understanding, he creates a document that will show by
7 service lines all the hospitals in the area and the
8 different volumes by service line?

9 A. (Nodding head).

10 Q. Okay. So --

11 A. I mean, he doesn't do it personally.

12 Q. Understood. He's got people, right?
13 What --

14 A. Or a system or whatever.

15 Q. What does that document look like?

16 A. Essentially it's a, I want to say like a bar
17 graph or whatever that shows, you know, various years,
18 and then it will show neurology, for example. And it
19 will show over those years, you know, what the volume
20 and market share is of that population in the PSA
21 basically.

22 Q. Does it compare your hospital to, let's say,
23 your competitors in terms of volume and market share?

24 A. I mean, all the hospitals are there if they
25 have volume in that service line, you know, so you can

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 60

1 compare.

2 Q. Does this document that he or his people put
3 out, does it have a name?

4 A. I believe it's just, you know, we all just
5 know it as the market share data.

6 Q. Do you know whether or not that document has
7 been produced in this litigation?

8 A. I don't know.

9 Q. Did you review that document in preparation
10 for your deposition today?

11 A. I did not.

12 Q. Does he put out -- other than this document
13 that you know as the market share data, does he put out
14 any other documents analyzing your competitive position
15 in the geographic area?

16 A. Most of it is that market share data. I
17 mean, if you individually ask him for something, he'll
18 produce that data to you. If you ask for a specific,
19 you know, service line for your hospital, they can
20 produce that data for you.

21 But, for the most part what he sends out is
22 market share data which has all the hospitals on it.

23 Q. Do you know what system he uses to get the
24 data that shows the market share?

25 A. I think it's called Trilliant potentially.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 61

1 Q. Do you know what Good Sam's marked share was
2 in 2024 -- well, strike that.

3 Do you know what Good Sam's market share was
4 in 2023 for its primary service lines?

5 A. In 2023? Not off the top of my head. I'd
6 have to look at a document.

7 Q. I'd show you one if I had it.

8 Do you know what Good Sam's market share was
9 for its primary service lines in 2024 for the South
10 Florida area?

11 A. I really don't because they're like -- the
12 document that's provided, I'd have to say just for
13 Good Samaritan, not for the Palm Beach Health Network,
14 so for the Palm Beach Health Network, that would be
15 lower than if I looked at just primary service area for
16 Good Sam, to be honest. I look at data that's more
17 specific to Good Sam, my own volume at Good Samaritan.

18 Q. Okay. And when you look at the volume at
19 Good Samaritan, what documents are you looking at?

20 A. They're produced documents that are out of
21 the financial system that we have called S2K or an
22 Excel document that's produced by like the CFO.

23 Q. So at any time did you do a comparison of
24 Good Sam's market share for 2024 versus 2025?

25 A. I'm sure it was probably produced for

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 62

1 business planning or something.

2 Q. As you sit here today, do you know what the
3 difference was in market share for Good Samaritan's
4 primary service lines between the -- the difference
5 between 2024 and 2025?

6 A. In 2025. Actually, the '25, probably is not
7 available.

8 Q. Okay. Then do you know -- that's a good
9 point.

10 Do you know what the difference is -- did --
11 do you know what the difference in the market share is
12 for Good Samaritan between 2024 and 2023 as you sit
13 here today?

14 A. So I believe it was down, and I know that
15 it's down in my financials 5 percent.

16 Q. Okay. So it's down from -- I want to make
17 sure I understand. So your memory is that when you
18 looked at 2023 compared to 2024, the market share is
19 down?

20 A. I -- no, '23 to '24? No, should not be down
21 because my financials are up. But, again, I don't have
22 the report. So it should be up. But '25 from what I
23 have on my financials, which we don't have, market
24 share data because I think it's six months in a lag, I
25 am down 5 percent.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 63

1 Q. And when you say "I am down 5 percent" --

2 A. Good Samaritan is down 5 percent and
3 admissions and OBS year over year, year to date.

4 Q. 5 percent in admissions and OBS?

5 A. Observations cases, which is essentially a
6 patient and you're in the hospital that stays two to
7 three days. Under observation it's called.

8 Q. Okay. That makes sense.

9 And you said Good Samaritan is down 5
10 percent and admissions and OBS year over year to date?

11 A. Yes.

12 Q. What's the "year over year" mean?

13 A. So looking at last year, year to date
14 compared to this year, year to date.

15 Q. Got it.

16 A. Through August.

17 And in emergency room visits, 2 percent.

18 Q. 2 percent emergency room visits are down?

19 A. Yes. Yes.

20 Q. Do you have any understanding of Palm Beach
21 Health Network as a whole, whether admissions are down?

22 A. Admissions specifically? I'm not sure.

23 Q. What about emergency --

24 A. I believe so.

25 Q. You believe so?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 64

1 A. I believe.

2 Q. And same thing with OBS, you believe those
3 are down?

4 A. Yes, observations.

5 Q. Have you seen any documents showing you that
6 the -- all five hospitals which make up the Palm Beach
7 Health Network are down?

8 A. So we get monthly statements that have
9 financials for the network and then -- or the group and
10 then volume. I mean, I don't necessarily hone in on
11 all of the other hospitals. We're all in the same
12 report. But from conversations and closed calls I know
13 that admits and OBS are -- have been down and, you
14 know, a lot of the hospitals have been struggling. I
15 personally know mine, obviously, at Good Samaritan
16 because that's where I'm living my day to day.

17 Q. And so these market share data reports,
18 they're monthly?

19 A. The market share data, no.

20 Q. Okay. How often does the market share data
21 report come out?

22 A. Every six months. Don't hold me to that,
23 but it should be every six months. Now did I receive
24 it every six months? It might be seven months or eight
25 months, but because the data is available every six

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 65

1 months because I think it's claims data that it pulls
2 from, so it's not out there as soon as you want it to
3 be.

4 Q. And then the report you talked about that
5 you look at every month about admits and OBS --

6 A. Yes.

7 Q. -- who creates that report?

8 A. Michelle Cartwright.

9 Q. And what -- do you know where the data comes
10 from that monthly report that Michelle Cartwright puts
11 out?

12 A. Yep, the financial system.

13 Q. That's the S2K?

14 A. Yes.

15 Q. Do you know whether or not those monthly
16 reports regarding revenue were produced in this
17 litigation?

18 A. I'm not sure.

19 Q. And am I right that you look at -- well, I
20 don't want to ask if I'm right.

21 Are you looking at revenue to determine that
22 admits and OBS, observations are down, or are you
23 looking at actual numbers of admits and observations?

24 A. Actual numbers.

25 Q. And when you were talking about the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 66

1 5 percent, is that revenue is down by 5 percent or the
2 numbers of admits and observations are down?

3 A. The volume.

4 Q. In the documents or monthly reports that
5 Michelle Cartwright puts out, does that show you, since
6 it comes from the financial system, is that showing you
7 financially whether the numbers are down or, again,
8 just the number of visits?

9 A. There's a tab for EBITDA and there is a tab
10 for volume.

11 Q. Okay. And is it your understanding for
12 Good Sam -- not your understanding.

13 Is Good Sam's EBITDA down for 2020 -- year
14 to date 2024 to 2025?

15 A. It is not.

16 Q. Is revenue down year to date for
17 Good Samaritan year to date 2024 to 2025?

18 A. It is not.

19 Q. What about does Ricky Ramirez provide you
20 with any monthly reports regarding nursing retention?

21 A. It doesn't really come from him, but we do
22 have group meetings where he'll go over various things
23 in the group meeting, and I believe retention is one of
24 them, but it would really be the CHRO.

25 Q. Do you do -- well, do you know if

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 67

1 Good Samaritan's human resource office does exit
2 interviews for nurses that are leaving?

3 A. They do.

4 Q. And do you retain that information on the
5 exit interviews?

6 A. Yes.

7 Q. Do you know if any reports are produced by
8 Good Samaritan that sort of breaks down the reasons why
9 nurses are leaving?

10 A. Yes.

11 Q. And who produces those reports?

12 A. The CHRO, Kevin.

13 Q. Kevin whose last name I cannot pronounce.

14 A. Me neither. I struggle.

15 Q. Have you ever had to as the CEO of
16 Good Samaritan raise the issue of nurse retention to
17 the corporate level?

18 A. No, I wouldn't ever. It's not really the
19 structure.

20 Q. Do you have any understanding as to whether
21 or not nurse retention has gone down from year to date
22 from 2024 to 2025?

23 A. You mean turnover?

24 Q. Yes, I guess that's what I mean, turnover.
25 I guess turnover would be up, right?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 68

1 A. Right, if it's...

2 We have initiative now for retention
3 essentially, so I would say year to date we're doing
4 better because we're highly focused on that indicator
5 for sure.

6 Q. And Shannon Wills, she's the human -- she's
7 the group chief human resources officer for Palm Beach
8 Health Network, correct?

9 A. Correct.

10 Q. Do you know if she keeps any metrics on
11 nurse turnover -- much better word -- of the network as
12 a whole?

13 A. Definitely.

14 Q. Do you get those reports?

15 A. Yes.

16 Q. And what do those reports look like?

17 A. We'll cover like total turnover for total
18 employees, nursing turnover and then first-year
19 turnover, first-year RN turnover.

20 Q. First-year RN.

21 Do you know if turnover has increased from
22 2024 to 2025 year to date for the health network as a
23 whole?

24 A. I don't know 100 percent.

25 Q. But these reports that Shannon Wills puts

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 69

1 out may be able to tell me, correct?

2 A. Definitely.

3 Q. Would you characterize Good Samaritan as
4 having issues relating to difficulty retaining nurses?

5 A. "Issues." I would say that turnover is a
6 focus for us. I think turnover is difficult in this
7 industry, period, for the reasons earlier that I was
8 discussing. People --

9 And here's a perfect example. For the
10 operating room, we're 24/7. You have to take call.
11 You may get called in at 2:00 o'clock in the morning
12 for emergency service or emergency room, or I mean, an
13 operating room procedure.

14 We have nurses now that want to go work for
15 a surgery center that's Monday through Friday, they're
16 done at 5:00. So all of those, you know, stressors of
17 working in a hospital, it's very different than working
18 in a surgery center, and there are surgery centers
19 popping up everywhere, so that's a good example of how
20 people are wanting to move to things that are not
21 necessarily a hospital environment, so...

22 Q. Lisa Cook does marketing, correct?

23 A. Yes.

24 Q. And she does marketing for Good Samaritan
25 specifically?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 70

3 with specific things for Good Sam, but she normally
4 works with the manager.

5 Q. And who is the manager?

6 A. Nancy Morales.

7 Q. And what kind of marketing initiatives does
8 Good Sam have?

9 A. I would say it's mostly service line
10 specific, you know, our bariatric service line or, you
11 know, orthopedics, you know, the various, you know,
12 accolades that we receive, we make sure that we get
13 that out in the community so they understand the
14 quality.

15 Q. What about Erin Britt? She was recently
16 identified in Good Samaritan's amended Answers to
17 Interrogatories. And I know you talked about her
18 previously. She's an -- on the quality side?

19 A. Yes, she's the quality director.

20 Q. Okay. And she reports -- who does she
21 report to?

22 A. Colleen Thielk.

23 Q. And do you know why she was recently
24 identified in Good Samaritan's Amended Answers to
25 Interrogatories?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 71

1 A. I'm not really sure I understand the
2 question. So what do you mean by she was identified as
3 the amended?

4 Q. Sure. I can just mark that if I can find
5 it?

6 MS. BLAIR: Can you mark this as Exhibit 2?
7 (Defendant's Exhibit Number 2 for i.d.)

8 MR. MARCUS: Just on the Exhibits, the first
9 Exhibit you had marked as 1 and then I think you
10 referred to it as A.

11 MS. BLAIR: Oh, I did?

12 MR. MARCUS: We're going to go with numbers?

13 MS. BLAIR: Yes, numbers. Yes. I even have
14 my own chart here. I apologize if I did that.

15 MR. MARCUS: No worries.

16 BY MS. BLAIR:

17 Q. Ms. Montgomery, I've now put in front of you
18 what we've marked as Exhibit 2 to this deposition,
19 which are Good Samaritan's Amended Answers to
20 Interrogatories, do you have that in front of you?

21 A. I do.

22 Q. And if we look at page 4. Or I'm sorry. It
23 starts on 4 and goes to 5. And it actually starts on 3
24 so, I apologize.

25 The question on 3 is interrogatory number 2.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 72

1 And you see it says, "Identify every individual not
2 identified in your Rule 26(a) disclosures with
3 knowledge of your Complaint," et cetera.

4 Do you see that?

5 A. Oh, yeah.

6 Q. And then the original answer is on page 4,
7 and the amended answer starts at the bottom of page 4.
8 Do you see where it says "amended answer"?

9 A. Yes.

10 Q. And in the amended answer we'll see on
11 page 5, Erin Britt is identified as the quality
12 director. Do you see that?

13 A. Yes.

14 Q. And so she was not identified in the
15 original Answers to Interrogatories. I'm just curious
16 as to why she's coming up now, if you know.

17 A. I believe Gina was the quality director at
18 Good Sam at one time. Now, Erin is.

19 Q. And do you know when Gina was the director
20 at Good Sam, when she stopped being?

21 A. My thoughts are probably three years ago --

22 Q. Okay.

23 A. -- four years, somewhere around there, three
24 years.

25 Q. So just so I understand like the structure

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 73

1 here, Erin Britt reports to Colleen Thielk, right?

2 A. Right.

3 Q. And three years ago did Regina West have the
4 same job as Colleen Thielk does now?

5 A. No.

6 Q. Okay. Did Regina West ever have the same
7 job at Colleen Thielk?

8 A. No.

9 Q. So three years ago -- and, again, I'm not
10 holding you to the three years, but at some point
11 Regina West was the quality director at Good Samaritan?

12 A. Correct.

13 Q. And now she is just at the network level; is
14 that fair?

15 A. That's fair.

16 Q. And how long has Erin Britt been --

17 A. I believe.

18 Q. How long has Erin Britt been in this
19 position of quality director at Good Samaritan?

20 A. I'm going to go with six months.

21 Q. Okay.

22 Do you know was Erin Britt employed by
23 Good Samaritan prior to six months ago?

24 A. Yes.

25 Q. And what was her position six months ago, if

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 74

1 you know?

2 A. She was the director of surgical -- two
3 south, a nursing unit.

4 Q. Okay.

5 A. A surgical nursing unit.

6 Q. Is Erin Britt's background nursing?

7 A. Yes.

8 Q. She's an RN?

9 A. Yes.

10 Q. Okay. Is Colleen Thielk a former nurse as
11 well?

12 A. She is.

13 Q. And what about Regina West, is she also a
14 nurse?

15 A. Yes. Where, I'm not sure. I think I've
16 always known her in a quality capacity.

17 Q. And how long has Colleen Thielk been at
18 Good Samaritan?

19 A. About maybe going on two years, I think,
20 maybe.

21 Q. And did she come from another Palm Beach
22 Health Network hospital?

23 A. She did not.

24 Q. Is there any like prohibition about going
25 between hospitals with your job?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 75

1 A. No.

2 Q. Okay. I just noticed several of you have
3 worked at different ones. I was just curious.

4 So I want to talk a little bit about how the
5 board works for each of these hospitals. Does
6 Good Samaritan have its own board of directors?

7 A. We do.

8 Q. Is there a board of directors for the
9 Palm Beach Health Network?

10 A. There is not.

11 Q. And each -- to your knowledge, do each of
12 the five hospitals -- I'm struggling over here.
13 Sorry.

14 To your knowledge, do each of the five
15 hospitals have their own board of directors?

16 A. They do.

17 Q. And is the board of director position at
18 Good Samaritan a paid position?

19 A. They receive a stipend for the meetings.

20 Q. Do you know what the stipend is?

21 A. I think like \$200 or something minimal.

22 Q. So not significant?

23 A. Um-hum.

24 Q. How are board members selected for
25 Good Samaritan's board of directors?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 76

1 A. Really myself and the board members get
2 together and try to make sure there's diversity amongst
3 the board and, you know, from attorneys to fire rescue
4 people to, you know, Palm Beach Atlantic president. So
5 as their terms come up, we think about people in the
6 community that could add a value to our board. And,
7 you know, it's a collaborative meeting, so they like to
8 give a lot of input.

9 Q. How many -- how many board members are
10 there?

11 A. I think there's twelve, something like that.

12 Q. Twelve?

13 A. I think so.

14 Q. Is there a chairman of the board?

15 A. Yes.

16 Q. Are there any other positions on the board?

17 A. Like there's a treasurer, but I'd say it's
18 mostly the chairman and a treasurer.

19 Q. Are there subcommittees on the board?

20 A. Not really.

21 Q. Is there a quality patient subcommittee of
22 the board?

23 A. Not a subcommittee. It's all reviewed in
24 our board meetings.

25 Q. How long are the terms of your board

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 77

1 members?

2 A. Two years.

3 Q. Are they staggered terms? Do you know what
4 I mean when I say that?

5 A. Yeah, I know what you mean, but I'm thinking
6 they're not. I'm not sure. I'll have to get back to
7 you on that.

8 Q. That's fine. You don't have to get back to
9 me. If you don't know, you don't know. Sounds like a
10 true CEO.

11 A. Yeah.

12 Q. Do you know, are there term limits for
13 sitting on your board?

14 A. You can go off the board for a year. Like
15 the chamber, I'm on the board of Chamber. I go off for
16 a year, but I can come back if, you know, they want me
17 to come back.

18 Q. So after two years your board members cycle
19 off the board?

20 A. Right.

21 Q. Who was on the board in 2024? Well, strike
22 that.

23 Who was the chairman of the board in 2024?

24 A. Patrick Franklin.

25 Q. And what is Patrick Franklin's background?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 78

1 A. He's the CEO of the Urban League.

2 Q. And who were there twelve members of board
3 in 2024?

4 A. I don't know. I'd have to go and look.

5 Q. Are the members that were on the board --
6 well, let me ask this.

7 Is the board annually like from January 1 to
8 December 31?

9 A. Yes.

10 Q. In 2024, were there certain members of the
11 board that were more active than others?

12 A. No, I'd say they're all very active and they
13 attend the meetings. It's very rare for them to miss
14 meetings.

15 Q. How often do they meet?

16 A. Once a month.

17 Q. Do you report to the board?

18 A. I would say there's a more of a
19 collaborative thing but I guess in some ways.

20 Q. What type of reports do you give to your
21 board regarding patient safety?

22 A. There's the risk plan. Risk does a whole, I
23 think probably every quarter I think they report; so
24 does quality, go over our report card, how we're doing.
25 Compliance is every quarter he presents to the board.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 79

1 Q. When you say --

2 A. Which would include --

3 Q. Oh, I'm sorry.

4 A. -- down to like HIPAA compliance things,
5 ethics calls, you know, any outliers in contract
6 compliance, as you can imagine, all the compliance
7 stuff.

8 Q. When you say "report card," what are you
9 referring to?

10 A. The balanced scorecard.

11 Q. And the balanced scorecard is what we talked
12 about earlier when you were talking about the score
13 card?

14 A. Correct.

15 Q. So the board sees that every month, the
16 balanced scorecard?

17 A. I think every quarter.

18 Q. And when you said "risk plan," what are you
19 referring to?

20 A. All the risk indicators. Like, you know,
21 every quarter they'll report. The Joint Commission has
22 a requirement, too, whether it's, you know, falls,
23 grievances, how many grievances you've had, things of
24 that nature, any behavioral issues that you may have
25 with physicians. They get all the medical staff. They

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 80

1 have to approve all the MEC medical staff
2 credentialings. They see the financials.

3 We bring employees that, you know, that we
4 like to recognize, you know, whether it's a Tenet hero
5 or a good catch employee, we'll bring employees
6 sometimes to the governing board as well to allow them
7 the opportunity to thank the employees.

8 Q. The board has no control over the
9 compensation of any of the directors of Good Samaritan,
10 do they?

11 A. They do.

12 Q. Are you involved in the search for board
13 members when it occurs?

14 A. Yeah, I would say there's -- we have a
15 committee that gets together with some of the board
16 members, and we talk about, you know, people in the
17 community who we think would maybe add value, and then
18 we, you know, interview and meet with them.

19 Q. Have you ever had any trouble recruiting
20 board members for the Good Samaritan board?

21 A. Well, recently one of the board members
22 that, you know, she's part of helping recruit, you
23 know, as we have new board members, you know, had
24 concerns about recruiting new board members because of
25 our safety rating and F.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 81

1 Q. And I'll show you that document because I
2 think I have it.

4 preparation for your deposition today?

5 A. It is.

6 Q. I'll mark this as 3.

7 (Defendant's Exhibit Number 3 for i.d.)

8 BY MS. BLAIR:

9 Q. Ms. Montgomery, I am handing you what we've
10 now marked as Exhibit 3. And this is an email.
11 Obviously the oldest email is on the bottom from
12 Judy Goodman to you dated December 10th, 2024 at
13 9:46 a.m. Do you see that in front of you?

14 A. Yep.

15 Q. And in or around December 10th, 2024, your
16 email address was sheri.montgomery@tenethealth.com,
17 correct?

18 A. Yes.

19 Q. And I'm not going to ask you that for every
20 email I say to you today. Is it okay for purposes of
21 this deposition that if that email address
22 sheri.montgomery@tenethealth.com is on an email, is it
23 safe to say that was your email in or around that time?

24 A. Yes.

25 Q. Okay. And that first email, first tell me

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 82

2 A. She's a member of the board.

3 Q. And what is her background?

4 A. She's a retired attorney.

5 Q. Do you know what firm she worked at?

6 A. I don't.

7 Q. And if you look at her email, it looks like
8 she's talking about Kara Coniglio McClure, Gail's
9 granddaughter. Do you see that?

10 A. Yes.

11 Q. Who is Gail?

12 A. I'm not -- I'm not sure who Gail is.

13 Q. Okay. She also mentions the name
14 Ted Cooney. Do you see that?

15 A. Yes.

16 Q. And then another name is Christina Matthews
17 McFarland. Do you see that?

18 A. Yes.

19 Q. And those three names in looking at this
20 email, does that refresh your recollection that she was
21 providing names of potential future board members for
22 Good Samaritan?

23 A. Yes.

24 Q. And then she says, this line here, she says,
25 "However, it's hard to recruit right now when this

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 83

1 story appeared this morning."

2 Do you see that?

3 A. I do.

4 Q. And she's referring to a story in the
5 Stet's -- that's all caps, S-t-e-t -- Stet blog,
6 correct?

7 A. Correct.

8 Q. Are any of these three people that are
9 mentioned in this email, Kara McClure, Ted Cooney or
10 Christina McFarland, are they currently on the
11 Good Samaritan board?

12 A. They are not.

13 Q. Did the -- did new members of the
14 Good Samaritan board come on to the board in January of
15 2025?

16 A. No. It was all last year, the year before.

17 Q. 2023?

18 A. No. You said 2025, right?

19 Q. No, 2024.

20 A. Oh, I thought you said January 2025.

21 Q. Oh, I think I did say 2025, or at least
22 Barbie wrote it down that way so I apologize. Yes. So
23 I guess let's go back.

24 Were you recruiting in December of 2024 for
25 a new board to start in January of 2025?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 84

1 A. No.

2 Q. Okay. So what is the -- when were the new
3 board members, if any, going to start on the
4 Good Samaritan board?

5 A. It would be next -- it would be in January.

6 Q. Of '26?

7 A. Yes.

8 Q. Okay. So is this email from Judy Goodman
9 sort of like an early email discussing who might fill
10 open positions in January of 2026?

11 A. Right, because we all talk about it, and
12 throughout the year they think about who would be good
13 and then let's try to see if we can meet with them,
14 who's going to come off the board, that kind of stuff,
15 so...

16 Q. Got it.

17 A. Yeah.

18 Q. So the board as constituted in December of
19 2024 is the same board for Good Samaritan as we sit
20 here today, same board members?

21 A. Correct.

22 Q. Okay. Have you spoken to Kara McClure,
23 Ted Cooney or Christina McFarland about potentially
24 serving on the board?

25 A. I have not.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 85

1 Q. Do you know if Judy Goodman has?

2 A. I'm not sure if she has, honestly.

3 Q. Other than this email, which we've now
4 marked as Exhibit 3, are you aware of any other emails
5 from a board member about difficulties in recruiting
6 for the Good Samaritan board?

7 A. I am not.

8 Q. Do you anticipate difficulties in recruiting
9 for the Good Samaritan board for January of 2026?

10 A. Potentially, but my true thoughts are I have
11 a really solid board, and they could probably explain
12 to the new candidates that the F is not -- it's a false
13 grade and explain what we have explained to them about
14 the survey. And there could be potential that it
15 wouldn't be a problem.

16 Q. And new board members could look at this
17 lawsuit as well, right, and make their own conclusions?

18 A. They could.

19 Q. I've seen emails in this -- and I'm going to
20 show you some later today, but I've seen emails in this
21 litigation that refer to H/O. Is that referring to
22 Tenet home office?

23 A. Probably. I'd have to see the email.

24 Q. Okay.

25 A. I mean, it could be another acronym, but not

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 86

1 one I can think of right now.

2 Q. Okay. I've also seen references to the
3 acronym ELT. Do you know what that refers to?

4 A. My guess would be executive leadership team.
5 I would have to see the email. That's what I know that
6 acronym could be, but it could -- if it was a quality
7 email, it could be something related to quality or
8 clinical.

9 Q. And I'll show you those emails as well. And
10 that was my understanding.

11 So is executive leadership team a phrase
12 that is used at Tenet Healthcare?

13 A. I think so. I think it's -- yeah.

14 Q. And in your mind as the CEO of
15 Good Samaritan, who would comprise the executive
16 leadership team of Tenet Healthcare?

17 A. Of Tenet Healthcare?

18 Q. Of Tenet Health.

19 MR. MARCUS: Object to form.

20 A. Lisa -- you know, the officers, I guess, you
21 know, Lisa Foo, Saum, Judy Chabot and Ernest Franklin.

22 BY MS. BLAIR:

23 Q. Who is Judy Chabot?

24 A. She's the chief nurse officer.

25 Q. And who is Ernest Franklin?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 87

1 A. Chief medical officer.

2 Q. Anyone else -- and Saum is the CEO we
3 discussed earlier, right?

4 A. Right.

5 Q. And Lisa Foo is the CFO?

6 A. No, COO.

7 Q. COO. Is there a CFO of Tenet Healthcare?

8 A. Yeah, Sun. Something Sun.

9 Q. Do you know if there's a chief quality
10 officer of Tenet Healthcare at large?

11 A. I don't know if there would be a chief but
12 maybe like a vice president of quality or something,
13 but they would report to Ernest probably.

14 Q. Do you know who the director, if that's the
15 right phrase, would -- of quality at Tenet Healthcare
16 would be that reports to Dr. Franklin?

17 A. No. I know there's someone that Gina speaks
18 to and reaches out to, so I don't -- I don't know.

19 Q. Do you know if there's anybody at
20 Tenet Healthcare that oversees hospital ratings issues?

21 MR. MARCUS: Object to form.

22 A. I don't know.

23 BY MS. BLAIR:

24 Q. Is there anybody at Good Samaritan that
25 oversees hospital ratings like Healthgrades™ or

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 88

1 Leapfrog or anything like that?

2 A. Not really.

3 Q. Do you know whether or not there is a
4 quality department at Tenet Healthcare corporate?

5 A. I mean, I'm sure -- there's a lot of people
6 on our quality call, so I'm assuming there is like
7 infection control people, quality people that our group
8 people report up to, but the way our structure is, is
9 we're really on the group level, so I have issues, it's
10 Maggie. Maggie is the person that has a connection to
11 corporate.

12 Q. Got it.

13 A. I'm not saying the corporate people aren't
14 involved on a quality call like the CMO, but our group
15 leads kind of interact, if that makes sense.

16 Q. That makes sense.

17 A. So they would know the structure a little
18 more than I probably would at the corporate level.

19 Q. And is Tenet divided into regional
20 divisions, if you know?

21 A. Yes.

22 Q. And what division does the Palm Beach Health
23 Network fall into?

24 A. I guess in the eastern division.

25 Q. And judging by --

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 89

1 A. I don't get division reports anymore, so I'm
2 not a group person, so I don't really get all that
3 information anymore.

4 Q. Well, that answers my next question, so
5 thank you.

6 Are there any documents that are put out by
7 Tenet home office about -- well, strike that.

8 Does Tenet Healthcare on the corporate level
9 have a mission statement for its hospitals?

10 MR. MARCUS: Object to form.

11 A. Yes.

12 BY MS. BLAIR:

13 Q. And is that mission statement reproduced to
14 the hospitals like either in email form or written form
15 to the various hospitals that are Tenet hospitals?

16 A. I mean, I don't really know if it's verbatim
17 over the years. I mean, I'm not really sure. I can't
18 answer that question.

19 Q. If you had to summarize the Tenet mission
20 statement, what would you say it is?

21 A. To provide quality care treating every
22 patient the same essentially but to provide quality
23 care.

24 Q. And as the CEO of Good Samaritan hospital,
25 what would you say is the most important principle for

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 90

1 Good Samaritan?

2 A. To provide quality care to all patients in
3 our community.

4 Q. So consistent with the Tenet Healthcare
5 mission, correct?

6 A. Yes.

7 Q. In your mind as the CEO of Good Samaritan
8 hospital, do you make a distinction between quality and
9 patient safety?

10 A. To me, patient safety encompasses the
11 quality, risk management, infection control. It is all
12 the same because at the end of the day zero harm is our
13 goal. They're all intertwined and related to one
14 another.

15 THE VIDEOGRAPHER: Can we go off the record
16 for a media change?

17 MS. BLAIR: Sure.

18 THE VIDEOGRAPHER: This ends media one.

19 We're going off the record. The time is 11:17.

20 (A recess was taken from 11:17 a.m. to 11:17 a.m.)

21 THE VIDEOGRAPHER: We're back on record.

22 The time is 10:17 a.m. -- 11:17 a.m.

23 BY MS. BLAIR:

24 Q. Ms. Montgomery, right before the break for
25 the video change you said that "Zero harm is our goal,"

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 91

1 correct?

2 A. Correct.

3 Q. Is that the goal of the Palm Beach Health
4 Network as well, or is that just Good Samaritan's goal?

5 A. I'm sure, but it should be every hospital's
6 goal, so...

7 Q. And when you say "zero harm," does that
8 include reducing preventable errors?

9 A. Everything.

10 Q. So that's "yes" --

11 A. Yes.

12 Q. -- it would include that as well?

13 A. (Nodding head).

14 Q. And so would you agree with me that patient
15 safety is the most important principle for a hospital?

16 A. Yeah, the quality, yes.

17 Q. Well, you said "the quality," and I want to
18 make sure. I thought I wrote down you said, patient
19 safety equals quality plus risk management plus
20 infection reduction, correct?

21 A. Yes, they're all quality. So we would put
22 it under an umbrella of safety if...

23 Q. That's fair.

24 A. Some others may not interpret that the same
25 way.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 92

1 Q. Right. But this is how you --

2 A. It's a personal thing, yes.

3 Q. But you as the CEO of Good Samaritan
4 interpret it that way?

5 A. Correct.

6 Q. And so do you see patient safety more
7 encompass -- more encompassing than quality?

8 MR. MARCUS: Object to form.

9 A. They're all intertwined, so...

10 BY MS. BLAIR:

11 Q. Yeah, and I don't disagree. I'm just trying
12 to understand.

13 So I thought patient safety includes -- so
14 I'm just in my mind.

15 A. Yeah.

16 Q. Patient safety includes quality, risk
17 management and infection control, correct?

18 A. Yeah. I could be missing a piece or two,
19 but, yes.

20 Q. Of course.

21 A. Yes.

22 Q. But patient safety is the umbrella under
23 which you would put quality, risk management and
24 infection control?

25 A. I would.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 93

1 Q. And would you agree with me that patient
2 experience is an important factor for a hospital to
3 consider?

4 A. It is.

5 Q. And would you agree with me that it's
6 important for a hospital to prevent hospital-acquired
7 infections?

8 A. I would agree with that.

9 Q. And would you agree with me that it's
10 important that patients have positive outcomes when
11 they leave a hospital?

12 A. Yes, I agree.

13 Q. And would you agree with me that it's
14 important that hospitals have processes in place to
15 make sure that patients suffer zero harm at a hospital?

16 A. Yes.

17 Q. And would you agree with me that it's
18 important that patients be free from medication errors
19 at a hospital?

20 A. Yes.

21 Q. And do you consider that to be part of
22 patient safety, freedom from medication errors?

23 A. I would.

24 Q. And is it important to a hospital that its
25 patients feel as if they were receiving high quality

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 94

1 care from the hospital staff while they were admitted
2 to the hospital?

3 A. Say that again.

4 Q. Yeah. Would you agree with me that it's
5 important to a hospital that the patients receive high
6 quality care from the hospital staff while they're
7 admitted at a hospital?

8 A. Yes.

9 Q. And that's part of the patient experience
10 that we talked about earlier, correct?

11 A. Patient experience, obviously, is important,
12 right.

13 What -- another piece of what's important is
14 trying to get the patients to complete a survey so you
15 have a true understanding of what all the patients
16 experience is or at least a good amount of patients.
17 And that's where, I think, a lot of hospitals struggle
18 is getting patients to complete surveys so we truly
19 understand what they think.

20 Q. Does the hospital, Good Samaritan, go and
21 look at Facebook comments, TikTok comments, Instagram
22 comments, social media comments, Yelp reviews, Google
23 reviews outside of the CMS patient safety surveys to
24 determine what the patient experience really is at
25 Good Samaritan?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 95

1 A. Yes, currently we're rolling out and have,
2 we hired a patient experience liaison for a couple
3 things: One, to push Google reviews as well because if
4 you can get a patient to give feedback on the spot,
5 they normally are more willing to do that, so you can
6 capture a lot more than the mailed surveys that do go
7 to the patient.

8 And our percentage has been low so we're
9 trying to move it to where more patients will fill out
10 the HCAHPS survey to improve our overall results.

11 But our Google reviews, I think, is at a 4.0
12 right now. But I get emails on all of them, so I
13 review them.

14 Q. So when did you hire the patient experience
15 liaison?

16 A. Probably six months ago or so.

17 Q. Prior to hiring the patient experience
18 liaison who at Good Samaritan was reviewing social
19 media posts related to patient's experiences at
20 Good Samaritan?

21 A. I think it goes to the CNO. There's a team
22 that monitors patient experience stuff or social media
23 posts, so it goes to a group of people.

24 Q. Do you know that team that monitors social
25 media posts about patient experience, who do they

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 96

1 report to at Good Samaritan?

2 A. They don't report to anyone at
3 Good Samaritan.

4 Q. At what level is this team operating?

5 A. I don't know.

6 Q. Is it at the Palm Beach Health Network
7 level?

8 A. I don't know if it's a Tenet Healthcare that
9 they hired someone or, you know, it's -- it probably
10 is, I would say. So I'm not sure who they report to.
11 I just know we're notified so we can follow up, one, if
12 it's a patient grievance, you know, so it goes to risk
13 management or just so we're aware.

14 Q. Do you get reports from this team about
15 social media posts regarding patient experience at
16 Good Samaritan?

17 A. Not -- no, they're just emails of, you know,
18 a review or a post.

19 Q. So someone would email someone at
20 Good Samaritan and say, Here's what's being posted
21 about Good Samaritan right now?

22 A. Yeah. And it could just be something
23 positive that we want to, you know, tell the staff that
24 we received this positive review or something of that
25 nature or if it's something we want to follow up on.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 97

1 Q. Do you know if those documents have been
2 produced in this litigation?

3 A. I have no idea.

4 Q. Are those documents shared with the board as
5 they relate to Good Samaritan, are they shared with the
6 board?

7 A. No. Patient experience is shared with the
8 board but not like emails of, you know, say, we get a
9 Google review, we have five-star Google reviews
10 employees get, like I mentioned before, we take those
11 employees to the governing board. We've had employees
12 that got five-star reviews to the governing board so
13 they're aware and they have opportunity to thank the
14 staff.

15 Q. And you used a phrase "governing board." Is
16 that what you refer to --

17 A. The board.

18 Q. The Good Samaritan board?

19 A. Yeah, they're called the governing board.

20 Q. And if I've seen emails where it just says
21 "GB," is that referring to governing board, emails from
22 you?

23 A. Probably. I don't know what else I would
24 use GB for. I'd have to see the email, but...

25 Q. Sure. I'm just trying to interpret some of

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 98

1 things I saw.

2 A. Yeah, I would say GB is governing board.

3 Q. And if I see a reference in emails to
4 governing board, that would -- that you've written --

5 A. Yeah, normally I type governing board out,
6 so that's why it's throwing me a little.

7 Q. And governing board is the Good Samaritan
8 board of directors, the one that we discussed that
9 Judy Goodman is on, correct?

10 A. Correct.

11 Q. Okay. Does Good Samaritan believe in being
12 transparent with its patients about its safety record?

13 A. Yes.

14 Q. And as the CEO of Good Samaritan, do you
15 believe that's important to be transparent with
16 patients about Good Samaritan's safety record?

17 A. I do.

18 Q. Do you agree with me that it's important
19 that the governing board have transparent data about
20 Good Samaritan's patient safety?

21 A. I do.

22 Q. What is the Med Exec?

23 A. They really govern the medicine of the
24 hospital. It's physicians that are leaders in the
25 organization, chief of surgery, chief of orthopedics,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 99

1 you know, chief of medicine, chief of anesthesia.
2 They're all like basically chairs of certain service
3 lines or committees like things, you know.

4 And they review peer review things. They
5 review all the credentialing information so that the
6 chair of credentialing reports out an MEC. They really
7 govern the medicine and bylaws of, you know, the
8 medical staff essentially.

9 Q. Are they interested in patient safety data?

10 A. They are.

11 Q. And are they provided patient safety data?

12 A. They are.

13 Q. And the Med Exec, is there one for each
14 hospital, or does it sit over the whole Palm Beach
15 Health Network?

16 A. Each hospital has their own.

17 Q. And is there one for the Palm Beach Health
18 Network?

19 A. No.

20 Q. How often does the Med Exec meet?

21 A. Monthly.

22 Q. And who chairs the Med Exec?

23 A. Keith Meyer.

24 Q. And who is Keith Meyer?

25 A. He is a cardiologist at the hospital, but he

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 100

1 is also chief of cardiology at the hospital.

2 Q. And when you say "at the hospital," you mean
3 Good Samaritan?

4 A. Good Samaritan.

5 Q. What specific reports related to patient
6 safety are provided to the Med Exec on a regular basis?

7 A. Everything to do with falls to grievances
8 to, I mean, there's a quality report, which is the
9 score card which goes over mortality, infections,
10 lending of stay in the emergency room. Risk management
11 reports out to the MEC. I mean, they review a lot, and
12 they're on par to -- you know, they're on committees.
13 Some of them attend QIPSC, for example. They're pretty
14 involved on a lot of things. Surgery committees.
15 Chair of surgery goes to the surgery committees.
16 There's committees after committees.

17 Q. Do they interact with the governing board?

18 A. They do. So Dr. Meyer is -- attends
19 governing board. All the chairs of the MECs are
20 nonvoting members of the governing board. The
21 vice chair attends as well the governing board.

22 Q. The vice chair of the Med Exec?

23 A. (Nodding head).

24 Q. And who is the vice chair?

25 A. Dr. George Gurdock.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 101

1 Q. Can you spell his last name?

2 A. G-u-r-d-o-c-k.

3 Q. What sort of things does the board vote on?

4 A. I mean, they basically reports -- all
5 reports come through them, whether it's the safety
6 plan, emergency management plan, you know, the quality
7 plan.

8 Q. Do they vote on filing lawsuits on behalf of
9 Good Samaritan?

10 A. They do not.

11 Q. Who makes the decision on whether or not
12 Good Samaritan should file a lawsuit?

13 MR. MARCUS: Object to form.

14 A. Maybe someone at the corporate office. I'm
15 not sure.

16 BY MS. BLAIR:

17 Q. I want to talk a little bit about your --
18 what Good Samaritan views as its competitors in the
19 South Florida region. And I will refer you to that
20 Exhibit 2 and specifically interrogatory 19, which is
21 on page 27.

22 And you'll see that question says, "Identify
23 all hospitals, medical centers or health systems that
24 you consider to be your direct competitors within the
25 relevant geographic market during the time period

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 102

1 covered by the Complaint."

2 Do you see that?

3 A. Okay. Yes.

4 Q. And the answer, after all of the objection,
5 appears on page 28. And we have to read both the
6 answer and the supplemental answer.

7 And if you see the answer there, it says,
8 "HCA Florida JFK Hospital," correct?

9 A. Yes.

10 Q. And where is HCA Florida JFK Hospital
11 located?

12 A. Physically? Like Congress Avenue. I
13 mean --

14 Q. Oh, no, like what town.

15 A. Oh. I think they're considered Lake Worth,
16 I think.

17 Q. Lake Worth. How far is Lake Worth from
18 Good Samaritan?

19 A. Not far. HCA is probably, I don't know,
20 five miles. I'm guessing.

21 Q. Oh, five miles?

22 A. I'm just guessing.

23 Q. And the next one here is HCA Florida Palms
24 West Hospital. Do you see that?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 103

1 Q. Where is that located, town-wise?

2 A. It might be considered Palms West. I'm not
3 really sure.

4 Q. Oh, is that a town?

5 A. It's probably Loxahatchee, but there might
6 be a little section that's considered Palms West.

7 Q. And forgive me. I'm not from here so I
8 don't know.

9 A. That's okay.

10 Q. How far is Loxahatchee from Good Samaritan?

11 A. Ten miles maybe? I mean, I'm just really
12 guessing.

13 Q. Yeah, I understand. I'm just trying to
14 guess a sense of the region here.

15 What about Jupiter Medical Center, where is
16 that located?

17 A. In Jupiter.

18 Q. How far is Jupiter from Palm Beach?

19 A. I'd say Jupiter is 11 miles.

20 Q. And then the next one here is Wellington
21 Regional Medical Center. What town is that located in?

22 A. In Wellington.

23 Q. And how far is Wellington?

24 A. Maybe eight miles, maybe ten. I'd say
25 they're all around ten.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 104

1 Q. And then if you look at the supplemental
2 answer, you talk about Cleveland Clinic, correct?

3 A. Yes.

4 Q. Now, in looking through, do you know if
5 that's Cleveland Clinic Martin South Hospital or
6 Cleveland Clinic Martin North Hospital that you're
7 referring to here?

8 A. So Cleveland Clinic -- well, one, they're
9 building a hospital in West Palm, but, two, they have
10 outpatient imaging centers in West Palm. They have
11 physicians' offices in West Palm, so does NYU Langone.

12 Q. In your supplemental answer you're referring
13 to the West Palm Cleveland Clinic facilities?

14 A. Correct.

15 Q. Okay. And then the same with NYU Langone,
16 you're referring to whatever facilities Langone
17 currently has here?

18 A. Yes, right. But Cleveland Clinic can, you
19 know, now that they are local, see patients and send
20 patients to Cleveland Clinic Weston, so that's how they
21 capture our market, I would say.

22 Q. Okay. Cleveland Clinic Weston?

23 A. Yeah.

24 Q. Where is that located in?

25 A. In Weston.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 105

1 Q. How far away is that?

2 A. An hour probably. Or probably, maybe an
3 hour and a half, but so they have a hospital there that
4 they send patients, you know, and they're wanting to
5 build a hospital, obviously, in West Palm.

6 Q. Okay. I just want to run through a few
7 hospitals to make sure. And we talked about this
8 earlier. You don't consider any of the other four
9 hospitals in the Palm Beach Health Network to be
10 competitors of Good Samaritan?

11 A. I don't.

12 Q. So if a patient chooses to go to Delray over
13 Good Samaritan, you don't consider that to be competing
14 with Good Samaritan, correct?

15 A. Not really. I mean, I don't think that a
16 patient would do that. I mean, they probably, they're
17 really out of my PSA, Delray, so I wouldn't really look
18 at them as a competitor.

19 Q. Are any of the other four hospitals that are
20 plaintiffs in this litigation within your PSA?

21 A. Yes.

22 Q. Which ones?

23 A. St. Mary's.

24 Q. So same question, then, if a patient chooses
25 to go to St. Mary's over Good Samaritan, do you

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 106

1 consider that to be competition with Good Samaritan?

2 A. No. And they have like very different
3 service lines than we do, so they don't have an
4 oncology hospital. They're trauma. I'm not trauma.
5 They have, you know, a level III NICU and RIPIT clinic.
6 I don't. So they're very different service lines than
7 what we have.

8 Q. Does Jupiter medical have different service
9 lines than what you have?

10 A. Yeah, like -- well, they only have
11 open-heart that we don't have, but essentially we have
12 the same service lines.

13 Q. And same question with HCA Florida JFK
14 Hospital, do they have different service lines than you
15 have?

16 A. Did you say JFK North?

17 Q. JFK -- oh, HCA Florida JFK Hospital.

18 A. Okay.

19 Q. Am I not saying that right?

20 A. No. That's okay. I thought you said
21 "north."

22 So JFK has open-heart. We do not. So there
23 are some differences, right, but...

24 Q. Okay. What about Wellington Regional
25 Medical Center, do they have the same service lines as

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 107

1 you do?

2 A. Pretty much.

3 Q. Do you consider Kindred Hospital to be a
4 competitor?

5 A. No, that's a long-term acute care hospital.

6 Q. Okay. What about Baptist Health Bethesda,
7 do you consider them to be a competitor?

8 A. Baptist Health Bethesda, they're really
9 removed from my PSA for the most part. They could be a
10 competitor to Delray Medical Center.

11 Q. How are they removed from your PSA for the
12 most part?

13 A. Because, you know, their zip code is not in
14 my PSA.

15 Q. Got it. What about Baptist Health
16 Boca Raton, is that in your PSA?

17 A. It is not.

18 Q. What about Broward?

19 A. No.

20 Q. This is probably my lack of geography, and I
21 apologize.

22 Holy Cross Hospital, is that within your
23 PSA?

24 A. It is not.

25 Q. What about HCA Florida Woodmont, is that

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 108

1 within your PSA?

2 A. I've never heard of them, so I'm thinking
3 no.

4 Q. Okay. What about Florida Medical Center?

5 A. They are not in my PSA.

6 Q. What about Universal Health Services, the
7 Alan B. Miller Medical Center, do you consider that to
8 be a competitor?

9 A. So it hasn't opened yet.

10 Q. Will you consider that to be a competitor
11 when it opens?

12 A. Yes, probably because I think it's only --
13 it's probably in my PSA. I'd have to really look at
14 their zip code but a slight competitor.

15 Q. Okay. What about Florida Coast Medical
16 Center in Port St. Lucie?

17 A. It's not a competitor.

18 Q. Okay. Would you agree with me that the
19 population of Palm Beach has at least a significant
20 portion of which are what we call snowbirds?

21 A. Well, some of the snowbirds we've been
22 seeing are staying actually and not going away as much,
23 but there are definitely a good amount of snowbirds in
24 Palm Beach County.

25 Q. Has Good Samaritan performed any studies

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 109

1 about the transient nature of the Palm Beach population
2 when it comes to healthcare services --

3 MR. MARCUS: Object to form.

4 BY MS. BLAIR:

5 Q. -- in light of --

6 MS. BLAIR: Sorry.

7 BY MS. BLAIR:

8 Q. -- in light of what I'm calling the snowbird
9 nature of the population?

10 MR. MARCUS: Same objection.

11 A. So Good Sam is a little different, I would
12 say. The transient nature would be Palm Beach Island,
13 not necessarily West Palm.

14 So in the summer are we a little slower than
15 we are in the winter? Yes, you know. But it would
16 maybe be more impactful, that analysis, to like a
17 Delray Medical Center.

18 But we do have the impact of snowbirds. I
19 think we all do. You can get into a restaurant now.
20 When we're in season, it's a challenge.

21 BY MS. BLAIR:

22 Q. And what about have you done any -- would
23 you agree that the wealth of many of the residents in
24 Palm Beach County, at least, allows them to travel for
25 elective health services?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 110

1 MR. MARCUS: Object to form.

2 A. I would say a small amount of people have
3 that wealth.

4 BY MS. BLAIR:

5 Q. Have you performed any studies to see
6 whether or not people in your area, geographic area
7 choose to go, let's just say, back to New York if
8 they're from New York, for elective procedures as
9 opposed to stay in the Palm Beach area for them?

10 A. I have not done any study.

11 Q. Do you know if Tenet Healthcare has?

12 A. I don't know.

13 Q. Do you know if Palm Beach Health Network
14 has?

15 A. I don't know.

16 Q. What were the discussions at Palm Beach
17 Health Network in or around the summer of 2024
18 regarding all of these new entrants into the healthcare
19 arena in Palm Beach County?

20 A. The end of the summer of '20 --

21 Q. Just generally the summer of 2024.

22 A. What was the discussion of the Palm Beach
23 Health Network about?

24 Q. Yeah. Might be a terrible question.

25 So I assume there were some -- well, you're

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 111

1 aware that in -- we just talked about, for example,
2 Universal Health Services hasn't even opened in Palm
3 Beach, correct?

4 A. Correct.

5 Q. And as I understand the newspaper articles
6 I've read, it appears that in the summer of 2024
7 NYU Langone is coming, Cleveland Clinic is starting to
8 come. Were there discussions from a branding
9 perspective and/or marketing perspective at the
10 Palm Beach Health Network about combating a potential
11 decrease in market share as a result of new healthcare
12 facilities coming into the geographic area?

13 A. They've been here for a while, not just in
14 2024, so all the -- the not-for-profits have been in
15 Downtown West Palm for a long time because of
16 Palm Beach Island.

17 Q. Okay. And so am I wrong that NYU Langone
18 came in 2022?

19 A. I thought you said 2024.

20 Q. I was asking about 2024.

21 A. Oh. Yeah, it might be. But they've had
22 doctors, NYU Langone has had physicians here since I
23 remember, like a good period of time.

24 Q. From 2022 to 2020 --

25 A. Mount Sinai as well.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 112

1 Q. Mount Sinai as well, correct.

2 From 2022 to 2024, did the hospitals in the
3 Palm Beach Health Network perform any studies to
4 determine whether or not these new healthcare
5 facilities like Cleveland Clinic, like Langone, like
6 what's going to be the Universal Health Services, did
7 you do any studies to discuss what impact that might
8 have on your market share?

9 A. I would say that we have -- so Cleveland
10 Clinic announced they're going to build a hospital,
11 right, so clearly we are looking at more data now of
12 how that could impact you. But, you know, UHS
13 obviously, opening another hospital, the more beds that
14 come into a community, obviously, is going to affect a
15 hospital.

16 I don't think there was a specific analysis
17 that was done that looked at these not-for-profits that
18 I'm aware of and how it's going to impact us because
19 the not-for-profits have been here for a long time.

20 Q. Do you recall any discussions -- well, you
21 keep saying "a long time." I want to make sure we
22 understand. What's a long time to you?

23 A. Well five plus years, not like they just
24 showed up in the last year or two.

25 Q. Do you recall any discussions at any time

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 113

1 with the other hospitals that make up the Palm Beach
2 Health Network about the potential impact of these new
3 healthcare facilities coming to Palm Beach, whether it
4 was five years ago, three years ago, yesterday? Do you
5 recall any conversations with the other hospitals about
6 the potential impact of those new entrants into the
7 healthcare market here?

8 A. Of course, yes.

9 Q. And what do you recall about those
10 discussions?

11 A. I'll just give you an example. Erik, the
12 CEO of Gardens, and I discussed UHS, them opening and
13 what impact it may have on our staff that live in that
14 area. So his hospital, Palm Beach Gardens is very
15 close to that hospital.

16 I have staff that live north of
17 Good Samaritan, Port St. Lucie, Jupiter, so if they're
18 opening a brand new hospital and they need 300 nurses,
19 how that would impact us.

20 Q. What about any discussions about competing
21 for patients with those hospitals?

22 A. I mean, not specifically about patients. I
23 mean, we have really solid service lines and what we
24 do. That hospital is not offering a service line that
25 our hospitals don't offer. I would say it's really

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 114

1 more about the employees, physicians.

2 Q. Do all of the -- since you guys are a health
3 network, do all of the physicians at Good Samaritan
4 also have privileges at the other four hospitals and
5 vice versa?

6 A. No.

7 Q. Why not?

8 A. Because they're -- we have all different
9 governing bodies and different MECs and bylaws. Every
10 hospital has their own bylaws.

11 Q. Do you know if there's any overlap between
12 privileges at different hospitals?

13 A. Yes.

14 Q. And do you have any understanding of what
15 the percentage is of that overlap, how many doctors
16 have privileges at one or more hospitals in the
17 Palm Beach Health Network?

18 A. I don't. I don't know.

19 Q. Would you say it's more than 50 percent?

20 MR. MARCUS: Object to form.

21 A. No.

22 BY MS. BLAIR:

23 Q. No, you would not know or, no, you --

24 A. No, it would not be more than 50 percent, in
25 my opinion.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 115

1 Q. Okay. Do you know if it would be more than
2 25 percent?

3 MR. MARCUS: Object to form.

4 A. I would be guessing.

5 BY MS. BLAIR:

6 Q. I don't want you to guess.

7 Was there ever a written strategic plan at
8 any time, a written strategic plan for Palm Beach
9 Health Network about how they were going to compete
10 with the new entrants into the healthcare system in
11 Palm Beach?

12 A. The new entrants of --

13 Q. These other hospitals that we've been
14 talking about.

15 A. All right. There's only one, but, I mean,
16 absolutely. I'm sure that Erik, because of Gardens, is
17 the one that would be impacted more because of the
18 geographical location.

19 Q. I want to make sure. So I understood from
20 articles I've read, and please tell me if I'm wrong,
21 that in April of 2022 your five hospitals rebranded as
22 Palm Beach Health Network, correct?

23 A. Correct.

24 Q. And these articles -- and I know you weren't
25 quoted, but these articles talk about part of the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 116

1 reason for this rebranding was because of -- this is
2 not my words -- new entrants into the healthcare
3 market.

4 MR. MARCUS: Object to form.

5 BY MS. BLAIR:

6 Q. Do you have any memory of discussions with
7 the other five hospitals in or around April of 2022
8 about that was the purpose of organizing under the
9 umbrella of Palm Beach Health Network?

10 A. Absolutely not.

11 Q. Okay. What did you believe the purpose of
12 rebranding under Palm Beach Health Network was?

13 A. To show our identity and that we have all
14 these hospitals, we're the largest employer in Palm
15 Beach County, so, one, we want to demonstrate that. We
16 have the most -- you know, we see the most patients in
17 Palm Beach County. We wanted to put our network out
18 there that how we work together.

19 As you mentioned before, we have people that
20 are moving from one hospital to another hospital
21 because they're training at one hospital and being
22 promoted and going to the next hospital, so it's good
23 for recruitment for people to see that we have a really
24 solid organization where you have opportunities to
25 maybe start out at Delray Medical Center as a nurse and

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 117

1 end up as the CNO or something at another one of our
2 hospitals. So it's about showing our quality, all the
3 things that we can provide in a network. We have two
4 trauma hospitals. You know, giving us an identity that
5 we're all connected. Like Baptist Health, you know,
6 they do the same thing. It's a -- it's what
7 organizations do, so...

8 Q. Right.

9 A. It wasn't like there's new entities coming
10 in, we need a brand.

11 Q. Right. And as I understand our discussion
12 earlier today, all five of these hospitals have been
13 part of Tenet system for almost over a decade by 2022,
14 correct?

15 A. Yes.

16 Q. And this situation with people training at
17 one hospital and going to a different hospital, that
18 had been happening for at least a decade, correct?

19 A. Sure.

20 Q. So I guess my question is, why in April of
21 2022 was the decision made to rebrand as Palm Beach
22 Health Network?

23 A. Like the reasons that I mentioned. And we
24 have more of a structure now, now that Maggie is there,
25 so she's a lot of the reason. She came in. She has a

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 118

1 lot of great ideas. And we really became more Palm
2 Beach. We were part of ten hospitals at one time, all
3 in Broward and in Miami. So when we became a group, it
4 just, it ended up, I guess, fostering into that. We
5 have become more of a group now --

6 Q. Okay.

7 A. -- where we hadn't really in the past.

8 Q. So the timing of it was coincidental?

9 MR. MARCUS: Object to form.

10 A. I would say the article you read was
11 probably from the Palm Beach Post and it's the editor's
12 thoughts of why that happened. I am not aware that
13 this idea came from, we need to combat, you know, the
14 Cleveland Clinics and things like that. It's just
15 advancing and developing our brand and our network.

16 BY MS. BLAIR:

17 Q. Okay. And so in or around April of 2022, to
18 your knowledge, was there a strategic plan for
19 marketing the Palm Beach Health Network? So April of
20 2022 when you rebranded, was there a written strategic
21 plan for marketing the health network that you were
22 part of?

23 A. I don't recall it, but there probably, you
24 know, was because, you know, we have commercial, so
25 obviously funding has to go to that. You know, there

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 119

1 was the logo, like I said, so obviously there had to
2 have been money set aside. I just don't recall like it
3 being reviewed with me or something.

4 Q. Okay. But you're sure that there was no
5 discussion about, We're doing this in order to compete
6 with new healthcare entities that are coming into the
7 market?

8 A. This is what I would say. Could there have
9 been a discussion when we're discussing all of the
10 positive reasons that branding can, you know, your
11 awareness of your institutions that are out there? I
12 can't say three years ago if that was not talked about.
13 I just cannot.

14 Q. So in 2024, is your view as the CEO of
15 Good Samaritan that the brand in 2024 is really the
16 Palm Beach Health Network as opposed to Good Samaritan
17 as an individual hospital?

18 MR. MARCUS: Object to the form.

19 A. It's Good Samaritan, part of the Palm Beach
20 Health Network.

21 BY MS. BLAIR:

22 Q. Do you believe that the patients in this
23 geographic area think of Good Samaritan as part of the
24 Palm Beach Health Network brand or as Good Samaritan
25 standing alone?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 120

1 MR. MARCUS: Object to form.

2 A. I'm not really sure. It could be both. You
3 know, the Palm Beach Health Network is still getting
4 out there. It takes a long time for a brand to stick
5 or for people to start understanding. And you know, it
6 takes a long time.

7 BY MS. BLAIR:

8 Q. That's fair.

9 Do you know if anyone at the Palm Beach
10 Health Network level has done any studies to see if the
11 Palm Beach Health Network brand is sticking with the
12 residents of this area?

13 A. I may have just recently saw a document.

14 Q. And what is your memory of -- well, what is
15 this document you may have recently saw?

16 A. I mean, I reviewed it with the attorneys.

17 Q. Did you review it in preparation for your
18 deposition here today?

19 A. Yes.

20 Q. What was it?

21 A. I had not seen the document before, but it
22 was maybe like a Net Promoter Score. I didn't have all
23 the details behind like who did the study or -- and I
24 think it was like Palm Beach Health Network awareness
25 maybe.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 121

1 Q. Okay.

2 A. Like maybe a year over year.

3 Q. Maybe a year over year, is that what you
4 said?

5 A. Right, correct.

6 Q. And what is your memory in reviewing that
7 document of what the Net Promoter Score was of
8 Palm Beach Health Network?

9 A. My memory, when I looked at it for literally
10 one minute, all I can say is that there was more
11 awareness.

12 Q. More awareness than the year before?

13 A. Correct.

14 Q. And was that document that you looked at
15 granted only for a minute or more, comparing 2025 to
16 2024 or 2024 to 2023, do you recall?

17 A. I don't recall.

18 MR. MARCUS: Is this a good time to take a
19 break, Counsel?

20 MS. BLAIR: Sure, yeah.

21 THE VIDEOGRAPHER: We're going off the
22 record. The time is 11:57 a.m.

23 (A recess was taken from 11:57 a.m. to 12:43 p.m.)

24 THE VIDEOGRAPHER: We are back on record.

25 The time is 12:43 p.m.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 122

1 BY MS. BLAIR:

2 Q. Ms. Montgomery, I want to just talk a little
3 bit about -- and we touched on this earlier, about how
4 Good Samaritan benchmarks itself against its
5 competitors. Do you understand what I mean by
6 "benchmark"?

7 A. Well, why don't you tell me. That way we're
8 on the same page.

9 Q. Sure. Do you ever -- does Good Samaritan
10 have any data or analysis where it looks like, for
11 example, its CAUTI scores versus the hospitals that you
12 consider to be your competitors or your HCAHPS scores
13 with CMS, do you have any -- how do you do that? Or
14 let me strike that.

15 Do you do that? Do you have data where you
16 benchmark how is Good Samaritan doing in different
17 patient safety categories versus your competitors in
18 the area?

19 A. So the balanced scorecard, I believe it's on
20 there. It might be all of Tenet or the national
21 average, whatever the goals are. And you have access
22 to all the data, so if I wanted to look at 70 plus
23 hospitals or whatnot, I could.

24 I personally don't go out there and look at
25 Good Samaritan to, you know, many other hospitals other

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 123

1 than, you know, the tools that are provided to me.

2 Q. And when you say you could, for example,
3 look at 70 other hospitals, are those the 70 Tenet
4 hospitals?

5 A. Correct.

6 Q. And when you say the tools -- you could if
7 you looked at the tools that are provided to you, what
8 tools would those be?

9 A. That's what I'm saying is it's mostly, you
10 know, like the report card that has the 70 hospitals on
11 it. But I personally haven't gone out there to go look
12 at Good Sam and compare it to other hospitals, per se,
13 or did some analysis.

14 Q. Do you know if Tenet Healthcare does that?

15 A. I don't know. I mean, I'm --

16 Q. Do you know if Palm Beach --

17 A. I don't know.

18 Q. I'm sorry.

19 Do you know if Palm Beach Health Network
20 looks at how the five hospitals in the Palm Beach
21 Health Network compare to the competitors in various
22 areas of patient safety?

23 A. I'm not really sure.

24 Q. And you mentioned Trilliant earlier. Is
25 that where the score card comes from?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 124

1 A. No, that's more like market share data.

2 Q. The score card, is that generated from
3 internal Tenet data?

4 A. I don't know exactly where it pulls from.
5 It's called Kaleidoscope is where we get the
6 information from. Where it pulls from, you know, the
7 background, I'm not sure.

8 Q. Okay. Kaleidoscope just like the word?

9 A. Is the tool.

10 Q. Are you familiar with Vizient?

11 A. No.

12 Q. Do you know if Good Samaritan has ever had a
13 contract with Vizient?

14 A. Not that I'm aware of.

15 Q. What about Premier, do you know what Premier
16 is?

17 A. No.

18 Q. So I guess the follow-up question is, do you
19 know if Good Samaritan has ever had a contract with
20 Premier?

21 A. Not that I'm aware of.

22 Q. What about Healthgrades™, does
23 Good Samaritan have a contract with Healthgrades™ to

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 125

1 Q. And is that an annual contract?

2 A. I'm not really sure if it's annual or not.

3 I don't really do that piece at all.

4 Q. Who does do that piece?

5 A. I would say the group level.

6 Q. And by group level, you mean Palm Beach
7 Health Network?

8 A. Right.

9 Q. Would Gina West know about that?

10 A. Yeah, she would probably know more about it,
11 but the contracting would, you know -- she wouldn't
12 sign a contract, per se.

13 Q. Who would sign the contract at the group
14 level?

15 A. Probably Michelle Cartwright.

16 Q. So is it your understanding that any
17 contract with Healthgrades™ would be at the group level
18 and not at the Good Samaritan level?

19 A. I really don't know if it's individual or
20 how it works.

21 Q. Do you know how much Good Samaritan pays for
22 its contract with Healthgrades™?

23 A. I don't.

24 Q. Do you know how much Palm Beach Health
25 Network pays for its contract with Healthgrades™?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 126

1 A. I'm not sure, but I think they pay for -- I
2 think Healthgrades™ has the data for everybody, I'm
3 sure. When I was the group CFO, I want to say it might
4 have been like 50,000 to 100 or something of that
5 nature.

6 Q. Okay. But that's a guesstimate, my word?

7 A. Yeah, I mean, yeah.

8 Q. But to the best of your knowledge, the --
9 Good Samaritan either individually or through the Palm
10 Beach Health Network still participates in
11 Healthgrades™ via contract?

12 A. Yes.

13 Q. What about are there any other services that
14 you know of that Good Samaritan contracts for to
15 provide data related to quality or patient safety?

16 A. That provides data specifically?

17 Q. Correct.

18 A. Not that I can think of right now.

19 Q. Does Good Samaritan engage in any contracts
20 with any vendors to provide consulting services with
21 respect to improvement of patient safety or quality?

22 A. Not that I can think of.

23 Q. Does the Palm Beach Health Network engage in
24 any contracts with vendors to provide consulting
25 services for patient safety or quality?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 127

1 A. I mean, if they do, I'm not really sure. I
2 can't think of anything right now.

3 Q. Do you know if -- you mentioned earlier a
4 patient experience champion that you were looking to
5 hire or did hire. Do you recall that?

6 A. Right.

7 Q. Is that a consultant or is that a direct
8 employee of Good Samaritan?

9 A. No, she's an employee.

10 Q. I've seen references in some of documents to
11 Press Ganey. Are you familiar with what Press Ganey
12 is?

13 A. I am.

14 Q. Does Good Samaritan utilize the services of
15 Press Ganey?

16 A. We do.

17 Q. Do you pay for those services?

18 A. I'm not really sure. I mean, they do all
19 our patient satisfaction HCAHPS distribution and
20 reports. I would think there would be a payment, but I
21 don't know.

22 Q. And I understand -- and my understanding may
23 be wrong because I'm not in the healthcare field -- but
24 that CMS does not allow -- or strike that.

25 I understand CMS requires hospital to have a

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 128

1 third-party vendor to collect HCAHPS data; is that
2 true?

3 A. I mean, I don't know if it's a requirement,
4 but it could be.

5 Q. Okay.

6 A. Sounds right.

7 Q. Does Press Ganey provide any services to
8 Good Samaritan outside of collecting data relating to
9 the HCAHPS?

10 A. They recently were at our hospital. One of
11 the representatives came and met with the CNO. And
12 this champion I was telling you about, I think, did
13 some rounding and, you know, probably gave
14 recommendations of how to get higher participation
15 rates and things of that nature.

16 Q. Do you know -- strike that.

17 We talked a little bit about the hospital's
18 brand before the lunch break as well as the brand of
19 Palm Beach Health Network. Do you recall that?

20 A. Yes.

21 Q. I was told in this litigation that your
22 attorneys would be producing brand marketing documents.
23 Do you know, can you describe for me what type of brand
24 documents exist?

25 MR. MARCUS: Just object to form.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 129

1 A. Brand marketing like as in the Palm Beach
2 Health Network?

3 BY MS. BLAIR:

4 Q. Or Good Samaritan. I don't know what they
5 are, so I'm just trying to ask you, do you know what
6 brand documents would exist?

7 A. I mean, my thoughts would be the rollout of
8 our brand, the Palm Beach Health Network. It could
9 encompass a lot of things related to the brand and our
10 impact on the community, things like that.

11 Q. Your -- you, Good Samaritan and the other
12 plaintiffs, have produced an expert report from a man
13 named Mr. Chakurda. Have you read this expert report?

14 A. I have not.

15 Q. Have you ever spoken with Mr. Chakurda
16 regarding what his expert opinions were going to be in
17 this matter?

18 A. I have not.

19 Q. Do you understand that Mr. Chakurda is a
20 brand marketing expert?

21 A. I don't know that.

22 Q. Did you have an understanding before you
23 came here for your deposition today that you had hired
24 a brand marketing expert to opine in this litigation?

25 A. I read it somewhere in a document. That was

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 130

1 just --

2 Q. And I don't want to know what you read
3 because it's probably through your attorney.

4 A. -- to the best of my knowledge.

5 Q. And in that report Mr. Chakurda says,
6 "Hospital systems have dedicated marketing
7 departments."

8 Would you agree with that statement?

9 A. Correct.

10 Q. And does Good Samaritan have a dedicated
11 marketing department?

12 A. Yes.

13 Q. Okay. And he says that, "The marketing
14 departments are responsible for advertising website and
15 digital communications, competitive intelligence,
16 patient outreach and media relations."

17 So my question is, I'm going to break that
18 down, do you know whether or not the Good Samaritan
19 marketing department is responsible for advertising for
20 Good Samaritan?

21 A. They are.

22 Q. And do you have specific advertisements for
23 Good Samaritan that are separate and apart from
24 Palm Beach Health Network?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 131

1 Q. Does your marketing department oversee the
2 website for Good Samaritan?

3 A. Yes.

4 Q. And same question with respect to digital
5 communications. Does Good Samaritan have a department
6 that oversees digital communications?

7 A. Yes.

8 Q. And what do you understand the digital
9 communications to be for Good Samaritan?

10 A. Like anything that's digital and social
11 media and all of those things.

12 Q. Does Good Samaritan have social media pages?

13 A. Yes.

14 Q. And do you know who at Good Samaritan
15 oversees the social media pages?

16 A. Marketing.

17 Q. But who specifically, do you know?

18 A. Nancy --

19 Q. Morales?

20 A. -- Morales.

21 Q. Is Nancy Morales in charge of overseeing the
22 website as well?

23 A. Yes.

24 Q. How many direct reports does Nancy Morales
25 have?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 132

1 A. She doesn't have any.

2 Q. What about competitive intelligence? Is the
3 Good Samaritan marketing department in charge of
4 overseeing competitive intelligence?

5 A. I would have to have that really explained
6 to me of what that entails to answer that
7 appropriately.

8 Q. Do you have any understanding as you sit
9 here today how you, Sheri Montgomery, understand the
10 term "competitive intelligence"?

11 A. Yeah, I would say really understanding our
12 environment, our competitors, what they are doing, kind
13 of understanding their market that they're going after
14 as well, I would say.

15 Q. And as I understand our conversation earlier
16 this morning, that's done at the Palm Beach network
17 level, competitive intelligence; is that fair?

18 A. Well, I would say that information is shared
19 from the marketing, group marketing person with the
20 marketing managers. They meet all the time.

21 What I'm referring to, the marketing manager
22 is expected to know those things that I just referred
23 to.

24 Q. And who's the Good Sama marketing manager?

25 A. Nancy.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 133

1 Q. Okay.

2 A. Yeah. Morales.

3 Q. That's her title?

4 A. Yes.

5 Q. And there's a marketing manager at each of
6 the five hospitals, correct?

7 A. Yes.

8 Q. What about patient outreach, does the
9 marketing department at Good Samaritan engage in
10 patient outreach?

11 A. They do.

12 Q. How do they engage in patient outreach?

13 A. Many different ways. I mean, one could be
14 like direct mail or, say, we're having a health fair.
15 We just recently had one at one of our emergency rooms
16 where you're doing blood pressure screening, things
17 like that. She reaches out to patients and
18 communities.

19 Q. Does she reach out for patient experience
20 feedback outside of the HCAHPS process?

21 A. She'll do like patient testimonials, so I
22 would say, yes.

23 Q. Do you know how she figures out which
24 patients she would reach out to for a patient
25 testimonial?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 134

1 A. Sometimes it's a Google review. Sometimes
2 it's a physician that has said, "This patient had a
3 great outcome."

4 Q. What about media relations, does the
5 Good Samaritan marketing department engage in media
6 relations?

7 A. Yes.

8 Q. And what does that mean to you?

9 A. I would say that she really works -- we
10 actually have a media relations person, and they work
11 together on anything that's to do with releases, like
12 new technology at the hospital, you know. If we're
13 first in the community to offer a new technology, she's
14 going to be part of writing that release along with the
15 public relations individual.

16 Q. Okay. And who's your public relations
17 individual?

18 A. Andrew Lofholm.

19 Q. And I've seen his name in several of the
20 documents that have been introduced with this. So he
21 was also involved with the press releases surrounding
22 the filing of the lawsuit that we're all here for today
23 as well, correct?

24 A. Yes.

25 Q. And that would be part of his job as the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 135

1 media relations person?

2 A. Yeah.

3 Q. And would you agree that Mr. Chakurda's
4 statement where he says, "Hospital systems have
5 dedicated marketing departments responsible for
6 advertising, website and digital communication,
7 competitive intelligence, patient outreach and media
8 relations" -- I can't talk today -- "all with the aim
9 of increasing, enhancing a hospital's patient outreach
10 and media relations all with the aim of increasing and
11 enhancing a hospital's brand."

12 That's a mouthful.

13 MR. MARCUS: Object.

14 BY MS. BLAIR:

15 Q. My question is, do you agree that your
16 marketing department engages in all of these efforts to
17 increase and enhance the hospital's brand?

18 A. I'd agree with that.

19 Q. And we talked about this before. You don't
20 know as you sit here today what Good Samaritan's
21 marketing budget is, correct?

22 A. I do not.

23 Q. Do you know if Palm Beach Health Network has
24 a separate marketing budget?

25 A. I'm not quite sure. I'm not quite sure.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 136

1 Q. Prior to January of 2025, did Good Samaritan
2 have any programs in place to increase patient
3 experience scores?

4 A. I mean, yes.

5 Q. And what programs did you have in place
6 prior to January of 2025 to increase patient experience
7 scores?

8 A. Leadership rounding, which includes, you
9 know, we even include our ancillary directors and
10 leadership rounding, which is non, non-nurses basically
11 in the leadership rounding. The CNO actually does
12 leadership rounding. It interviews patients to see
13 what their experience has been.

14 Q. So to the layperson I don't know what
15 leadership rounding is. Can you explain that to me?

16 A. Yeah. Essentially leaders in the
17 organization, like your nurse managers or your nurse
18 directors, we will pair them up with an ancillary
19 individual, which an ancillary person is the imaging
20 director, for example, and we have them go out and
21 round on patients not in their unit, so obviously
22 outside of their units because you really want, you
23 know, unbiased, I guess, you know, and sometimes other
24 people can see things that you wouldn't see, so we have
25 them go out and round on patients, get their feedback.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 137

1 All of that is logged. And if there are things that
2 they're bringing up, you know, patients are bringing
3 up, say it's food related, you know, my breakfast was
4 cold this morning, following up on all those types of
5 things, so...

6 Q. And how would --

7 A. And that's a huge thing to do.

8 Q. How are they logged, these rounding? You
9 said they're logged.

10 A. Yeah, they log them. They go around and
11 they have their notepad. It's not electronic. I don't
12 know if they put it in an Excel spreadsheet. We have
13 them do that on Stoplight Reports now, and they follow
14 up on all of those items.

15 Q. Is there some sort of document that's
16 generated from all of this leadership rounding from the
17 logging of notes?

18 A. There is now what we call it a Stoplight
19 Report, a leadership Stoplight Report. So and I
20 believe patient experience is on there along with
21 employee rounding that is on the Stoplight Reports, but
22 it's an Excel opportunity.

23 Q. And you said there is now. When did that
24 first go into place?

25 A. Probably -- probably six months ago

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 138

1 probably.

2 Q. Okay. So nothing from before November of
3 2024, fair enough?

4 A. It might have been because we had a rollout
5 on -- it might have been in November that we started
6 looking at turnover for staffing and then came up with
7 this whole, we should have a Stoplight Report where
8 we're logging trends and, you know, build like log
9 trends for employees and bring it to us so we can start
10 taking action on things.

11 Q. Are these stoplight reports something that
12 would have been discussed at a board meeting?

13 A. A governing board meeting?

14 Q. Yes. Is there another kind?

15 A. No, I guess not.

16 Q. Okay.

17 A. I don't think so. I don't know. We might
18 have mentioned, Hey, that we're starting to do this,
19 you know, to address turnover and things of that
20 nature. It could have been.

21 Q. Do you know whether or not those Stoplight
22 Reports have been produced in this litigation?

23 A. I don't know.

24 Q. Would these Stoplight Reports have been
25 discussed at a Med Exec meeting?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 139

1 A. I'm not sure.

2 Q. I'm just trying to figure out where's the
3 best place for me to figure out when these Stoplight
4 Reports started document-wise?

5 A. They probably started around November when
6 we started talking about Stoplight Report. I would say
7 it was probably November.

8 Q. Of 2024?

9 A. Yeah.

10 Q. Okay.

11 A. Um-hum. But, you know, there's also with
12 patient experiences there's Press Ganey provides
13 comments like actual comments that patients will leave,
14 so that's reviewed. You know, and the team works
15 towards where some of the common themes, say if
16 temperature for food is one of them, you know, working
17 with our dietary team to find out, you know, when are
18 you delivering it; what's wrong with the warmers,
19 things of that nature.

20 Q. Do you ever look at complaints from the
21 nursing staff about issues related to patients in terms
22 of evaluating patient experience?

23 A. Give me an example. What do you mean
24 exactly?

25 Q. Well, we've had a document produced in this

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 140

1 litigation which is from SEIU1199 that lists out, you
2 know, different complaints nurses have given to their
3 union. And I'm just curious, do you look at those in
4 the context of not the nurse complaint but in the
5 context of patient experience?

6 A. I mean, I don't know really of employees
7 coming back -- other than the employees that are
8 involved in the meetings and improved patient
9 experience what you're really referring to.

10 Q. Sure. And I guess from a hypothetical
11 standpoint, let's say a nurse says, "I started my
12 shift, and I realized this patient hadn't been toileted
13 in, you know, four hours, and that's a problem."

14 Is that kind of complaint from the nurse
15 then translated into a discussion about patient
16 experience?

17 MR. MARCUS: Object to form.

18 A. I mean, depends on who it was -- who that
19 information was given to. If it was a leader of a
20 department, then it would be. If it was, you know, an
21 incident report that's investigated, why did that
22 happen.

23 BY MS. BLAIR:

24 Q. And Press Ganey, they provide -- do you know
25 what the document looks like when they provide you

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 141

1 actual comments or common themes related to the patient
2 experience outcomes?

3 A. I do.

4 Q. What's --

5 A. They're called verbatims.

6 Q. They're called verbatims. Do you know if
7 the verbatims have been produced in this litigation to
8 date?

9 A. I do not.

10 Q. How often do you get verbatims from
11 Press Ganey?

12 A. I'm not really sure. They're not sent to me
13 personally, so I'm not sure.

14 Q. Do you know who they would be sent to?

15 A. Maybe the CNO, patient experience
16 coordinator.

17 Q. Do these verbatims get turned into any sort
18 of comprehensive report, to your knowledge?

19 A. Not to my knowledge.

20 Q. Are these verbatims shared in any way with
21 the governing board?

22 A. Not to my knowledge.

23 Q. Are these verbatims shared in any way with
24 the Med Exec Committee?

25 A. No, not to my knowledge.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 142

1 Q. You mentioned --

2 A. The patient experience scores are.

3 Q. Of course?

4 A. Right. Verbatims is like a way to actually
5 get a comment and dig down.

6 Q. But they -- I thought you told me, and I
7 want to make sure, that they are somehow summarized
8 into some sort of report that goes somewhere.

9 A. They're not summarized by like a theme.
10 They're just here is verbatims for a certain nursing
11 floor, for example.

12 Q. Got it. But those are summarized in some
13 way and provided maybe to the chief nursing officer or
14 the patient experience coordinator, correct?

15 A. Correct.

16 Q. You mentioned earlier that you,
17 Good Samaritan had recently had a health fair at one of
18 its emergency rooms, correct?

19 A. Yes.

20 Q. Does Good Samaritan regularly engage in
21 community sponsorships and philanthropy?

22 A. Sponsorships of what exactly? What do you
23 mean?

24 Q. Well, you know, sometimes hospitals will go
25 and they will sponsor a charity event or something else

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 143

1 in the community, a soccer team, I don't know, a little
2 league team. Do you do things like that?

3 A. I'm trying to think of an example of a
4 sponsorship that we've done. I mean, we do a lot of
5 community events. A sponsorship. I'm trying to think
6 of one. I know that there are some out there. I just
7 can't think of one off the top of my head.

8 Q. Okay. And Tenet Healthcare is a for-profit
9 institution, correct?

10 A. Yes.

11 Q. Do you know if they have any charitable arm
12 of Tenet Healthcare?

13 A. No, not that I'm aware of.

14 Q. And then you talked about community events.
15 What type of community events is Good Samaritan
16 involved in?

17 A. Health fairs like I spoke about.

18 You know when there's events downtown West
19 Palm, you know, the, like the Susan G. Komen Race,
20 there's a sponsorship right there. We sponsor that,
21 and obviously we attend the race and are there just for
22 giving water and things of that nature, but, yes.

23 Q. What about physician relations, do you
24 engage in physician relations at Good Samaritan?

25 MR. MARCUS: Object to form.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 144

1 A. Yeah, relationships with physicians?

2 BY MS. BLAIR:

3 Q. Yes, do you -- for example, does
4 Good Samaritan, for example have visits to referring
5 physician offices to sort of promote Good Samaritan and
6 try to increase referrals to Good Samaritan?

7 MR. MARCUS: Object to form.

8 A. I would say that we visit their offices to
9 let them know about our services.

10 BY MS. BLAIR:

11 Q. How often are you going to referring
12 physician offices?

13 A. I am not really sure, but it's not, you
14 know, really -- I'm not going out to the physician
15 offices, so...

16 Q. Do you know who would be?

17 A. Holly --

18 Q. Who is Holly?

19 A. -- Wadownsky (phonetic). That's another
20 long one. She's a -- she works for the business
21 development team, so she works for Derek.

22 Q. What's Derek's last name?

23 A. Collins.

24 Q. And that's the business development team?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 145

1 Q. I think I had it listed as something else.

2 Okay. And the business development team,
3 what kind of business are they trying to development?

4 A. You know, they'll go and visit physicians to
5 say, you know, Hey, did you know Good Samaritan has a
6 bariatric program, that it's accredited, that type of
7 stuff, let them know about the orthopedic service
8 lines, those types of things.

9 Q. Do they go to employers and ask employers to
10 engage with Good Sam on behalf of their employees?

11 A. I know that there's been meetings like that.
12 I mean, that's more Derek's umbrella.

13 Q. Do you know if Derek's team engages with
14 health insurers to try and promote Good Samaritan?

15 A. I'm not aware of that, no.

16 Q. Prior to 2020 -- well, strike that.

17 You talked to me earlier about
18 Healthgrades™, correct?

19 A. Yes.

20 Q. And as I understand it, Good Samaritan has
21 accolades with respect to Healthgrades™ as well,
22 correct?

23 A. Yes.

24 Q. Does Good Samaritan have to purchase
25 accolades in order to be able to use the Healthgrades™

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 146

1 logo to promote the its award?

2 MR. MARCUS: Object to form.

3 A. I don't really know the details behind the
4 contract. You know, marketing and the CFO probably
5 would be able to explain that a little better than I
6 could.

7 MS. BLAIR: We're going to mark this as
8 Exhibit 4; is that correct?

9 THE STENOGRAPHER: Yes.

10 Can we go off the record for just a second?

11 MS. BLAIR: Yes.

12 THE VIDEOGRAPHER: We're going off the
13 record. The time is 1:14 p.m.

14 (A recess was taken from 1:14 p.m. to 1:16 p.m.)

15 THE VIDEOGRAPHER: We are back on the
16 record. The time is 1:16 p.m.

17 (Defendant's Exhibit Number 4 for i.d.)

18 BY MS. BLAIR:

19 Q. Ms. Montgomery, I've handed you what we've
20 just marked Montgomery Exhibit 4. It's a document. At
21 the top it says "Palm Beach Health Network." Do you
22 see that?

23 A. Yes.

24 Q. Do you know when this document was produced?
25 I don't -- that's a terrible word because I don't mean

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 147

1 "produced" in a legal sense.

2 Do you know when this document was created?

3 A. I do not.

4 Q. In looking at this document, do you have any
5 recollection of seeing this before?

6 A. This first page doesn't look familiar to me.

7 Q. What about the second page?

8 A. Yes.

9 Q. Okay. And, for the record, this document --
10 and we refer to this, Ms. Montgomery at the bottom
11 right-hand corner as Bates labels, so, for the record,
12 this is PBHN followed by five zeros 8923 through 8924.
13 Do you see those numbers on the bottom?

14 A. 8923, yes.

15 Q. Okay. And if I turn to this -- well, let me
16 ask this.

17 Does it refresh your recollection in any
18 way? Was this the brand rollout document for
19 Palm Beach Health Network in or around April of '22?

20 MR. MARCUS: Object to form.

21 A. I mean, I don't recall.

22 BY MS. BLAIR:

23 Q. And I'll just tell you -- I'm not trying to
24 be tricky. If we look at 8924, 8924, which is the
25 second page of your Exhibit, if you look at

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 148

1 Good Samaritan, at the bottom -- I think I answered my
2 own question -- of the Good Samaritan on the left-hand
3 side it says, "Healthgrades™ Top 10 Percent in the
4 Nation For Spine Surgery 2025."

5 Do you see that?

6 A. I do.

7 Q. So obviously this was after April of 2022,
8 correct?

9 A. I would definitely recollect that that's
10 probably a fact.

11 Q. And in looking at these awards and accolades
12 under the Good Samaritan heading, on page 8924, does
13 this accurately describe the accolades that
14 Good Samaritan currently has?

15 A. I think there's potentially more, but I'd
16 have to look at my updated list.

17 Q. Okay. And if we look at that first
18 bullet -- well, let's look under -- do you see that
19 it's all caps, it says "services"? Do you see that
20 right above "awards and accolades"?

21 A. Yes.

22 Q. Is this your -- you referred earlier in the
23 deposition to like lines of service. Is this the
24 description of your lines of service?

25 A. Right.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 149

1 Q. Okay. And then going to the award and
2 accolades, you say, "Designated Breast Imaging Center
3 of Excellence By the American College of Radiology,"
4 correct?

5 A. Correct.

6 Q. Do you pay for anything related to the
7 American College of Radiology for this designation?

8 A. I believe we do. Typically any accrediting
9 body that comes into your organization, one, they're
10 bringing in their expertise and their pathways that
11 they're sharing with you, and, two, they're coming into
12 your organization for like three or four days and going
13 through all your pathways and making sure that
14 everything that, you know, to be accredited that that
15 is happening. So I would say in many of these there is
16 a fee to get accredited because it's a lot of
17 information they're giving to us, and then they're
18 coming and verifying all of that and working with us
19 and our organization.

20 Q. How much -- and let's just take this first
21 bullet point, for example. How much time does
22 Good Samaritan have to dedicate to the accreditation
23 from the American College of Radiology for this
24 designation?

25 A. How much time?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 150

1 Q. Time.

2 A. I don't really know about the time, per se,
3 for imaging, but for, you know, bariatrics and
4 orthopedics, I mean, it's a ton of time, a lot of
5 people, a lot of resources.

6 Q. How many -- oh, sorry.

7 A. Go ahead.

8 Q. How many FTEs do you have dedicated to
9 engaging in these types of accreditation reviews?

10 A. I wouldn't say that really it is that
11 because it's an entire team, but for, say, orthopedics,
12 it's a large undertaking. We had an FTE assigned to
13 tracking everything and kind of organizing all the
14 meetings and things of that nature.

15 For those large accreditations, you do
16 assign a point person, but I wouldn't necessarily say
17 that, oh, one person is assigned to just doing
18 accreditations. So it's many FTE's involved in the
19 process.

20 Q. Okay. So is there like a person in the
21 marketing department, let's say, that kind of oversees
22 the coordination of these accreditations?

23 A. In the marketing, no.

24 Q. Who generally would be involved? I know
25 it's a team, but who generally are the types of FTE's

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 151

1 that you would dedicate to -- and I understand they're
2 not full time, but dedicate to an accreditation
3 process?

4 A. So for bariatrics we have a bariatrics
5 coordinator. She is a full-time individual that does
6 everything for the bariatric program and does the
7 accreditation.

8 For orthopedics, we have a service line
9 individual that does all of those things. There's
10 always like a clinician involved in all of those, you
11 know, duties that need to be done, but there's always
12 one person assigned to kind of be the gatekeeper of
13 everything.

14 Q. Okay. And for the bariatric accreditation,
15 let's just stick with that, do you have any just
16 general understanding of how many hours go into the
17 accreditation process for your bariatric accreditation?

18 I'm trying to find which one it is here. I
19 apologize. I don't see it on here maybe?

20 A. Yeah, it might be not on here. Let's see.
21 You could go into breast. We have bariatrics.

22 But, you know, for breast or bariatric, so
23 many hours by so many people, including physicians, to
24 get accredited for COC, for our breast center, for
25 bariatrics. I mean, data has to be submitted to them.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 152

1 There's registries like for bariatrics that you have to
2 log all the data and send them all the results. It
3 takes a tremendous amount of hours to implement all the
4 standards to become accredited. I can't even give you
5 an amount of the hours but a very long time.

6 Just for orthopedics it took us probably a
7 year to prepare.

8 Q. Like one person every day to prepare?

9 A. Yeah. Always doing something for it,
10 pathways, having meetings. There's just -- it's an
11 undertaking for sure.

12 Q. Okay. And that would be sort of the same
13 for all of those accreditations, including like let's
14 look at just like the first one on here, Healthgrades™
15 five-star rated for colorectal surgery, do you see that
16 one, the third bullet point?

17 A. Yes.

18 Q. Is that the same, you would dedicate
19 somebody for a whole year to get ready for that, or is
20 that different than an accreditation?

21 A. That's different than an accreditation.

22 Q. Okay. How long do you think it would take
23 for the -- to complete and engage in the Healthgrades™
24 rating for colorectal surgery, for example?

25 A. So the way I would -- I look at it a little

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 153

1 differently, the two. But Healthgrades™ I would say
2 that it's not really an accreditation, but it's our
3 outcomes so ensuring our best practices are there so
4 that our colorectal surgery patients have the best
5 outcomes. So I can't really say that it's
6 Healthgrades™ is saying, Hey, you have to meet all
7 these standards like a Joint Commission would.

8 Q. Okay. So --

9 A. They don't give accreditations. They give
10 awards based on outcomes.

11 Q. So the designated Breast Imaging Center of
12 Excellence by the American College of Radiology, that's
13 more like an accreditation process; is that fair?

14 A. That's correct.

15 Q. Okay.

16 A. But it's outcomes too or they wouldn't give
17 you their accreditation.

18 Q. Okay. I just -- I'm just learning as I go.

19 So like bullet point two talks about
20 accredited by the American College of Surgeons, but
21 bullet point one just says designated. I'm trying to
22 figure out which ones of these would fall into the
23 category of accreditations that you just described that
24 are like a year-long difficult process and which ones
25 don't?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 154

1 A. I would say they all fall under an
2 accreditation except Healthgrades™.

3 Q. Okay. And even like the second to the last
4 bullet point", Only Hospital in South Florida to Be
5 Recognized With the America's 100 Best For Spine and
6 Outpatient Orthopedic Excellence Awards," that's like
7 an accreditation?

8 A. That's Healthgrades™.

9 Q. Oh, that is Healthgrades™?

10 A. Um-hum.

11 Q. The second to last bullet point?

12 A. Yeah.

13 Q. Okay. So going back to Healthgrades™, if
14 you look at that bullet point again on Exhibit 4, it
15 says Healthgrades™. Do you see that, like every time
16 it says "Healthgrades," it says "™"?

17 A. Yes, I see it. It's very little.

18 Q. Do you know whether or not you have to pay
19 Healthgrades™ in order to use its trademark in your
20 promotional materials like this?

21 A. I think so.

22 Q. Okay. In reviewing the Palm Beach Health
23 Network Web page, it had these various patient review
24 portals. And one of them they talk about is vitals.
25 Are you familiar with vitals?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 155

1 A. So it was a patient review?

2 Q. It has a Web page saying "Patient Review
3 Portals." And, again, this is on the Palm Beach Health
4 Network website, not on Good Samaritan?

5 A. Okay.

6 Q. Are you familiar with the Palm Beach Health
7 Network Web page for patient review portals?

8 A. The only thing -- the portals that I am
9 aware of that my website now links Palm Beach Health
10 Network is like either where you can get your patient
11 record. Is that what you're --

12 Q. No, I'll just tell you. It lists Vitals,
13 WebMD, Rate MDs, doctor.com, Healthgrades, Google,
14 Yelp. So these are, as I see them, places that
15 Palm Beach Health Network is encouraging patients to go
16 to to review its services?

17 A. Oh, I see. Okay.

18 Q. Are you familiar with that page?

19 A. It's not ringing a bell.

20 Q. All right. Okay. And I didn't see it on
21 the Good Samaritan Web page so I just was curious
22 whether you knew anything about that.

23 A. Doesn't ring a bell.

24 Q. Do you understand that Healthgrades™ has a
25 patient review portal that patients can go to to rate

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 156

1 hospitals and/or doctors?

2 A. Not really.

3 Q. Do you know whether Healthgrades™ provides
4 Good Samaritan or Palm Beach Health Network with
5 metrics regarding patient satisfaction?

6 A. I am not aware of that.

7 Q. You mentioned earlier the Google reviews for
8 Good Samaritan, do you recall that?

9 A. Yes.

10 Q. And I think you told me Good Samaritan
11 currently has four-star Google review, correct?

12 A. Correct.

13 Q. Do you pay for any Google analytics to be
14 run so that you can see how patients are interacting
15 with your Web page?

16 A. I'm not sure if they do that at the group
17 level or marketing or something.

18 Q. Do you know whether or not Good Samaritan
19 pays for Google ads for Good Samaritan?

20 A. No.

21 Q. I noticed on some of the -- all of the
22 Google reviews, I think, there were responses to each
23 and every one on behalf of Good Samaritan. Do you know
24 who responds to those Google reviews?

25 A. It's the same entity that was really hired

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 157

1 to notify us, so I'm not really sure. I think it's our
2 business center that we have.

3 Q. So it's not a third-party contractor?

4 A. I'm not really sure, to be honest.

5 Q. If Good Samaritan gets a bad Google review,
6 does that get elevated to you as the CEO of
7 Good Samaritan?

8 A. It does.

9 Q. And what do you do with bad Google reviews?

10 A. Well, there's many people on the email,
11 including the CNO, but -- and risk management. They
12 investigate all of them.

13 Q. And how does -- what form does the
14 investigation take?

15 A. It depends. I mean, if it's something where
16 it's a billing complaint, for example, then the
17 director of revenue analysis will be notified. She
18 will do her investigation, reach back out. They close
19 the loop if you can identify who the patient is.
20 Sometimes you can't.

21 Q. Do you -- does Good Samaritan use Google
22 reviews to compare itself to its competitors?

23 A. We really use the Google reviews to get
24 immediate feedback from the patients. Like I stated
25 before, it's, you know, difficult to get participation

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 158

1 in a paper survey, so we encourage the patients to give
2 us their feedback realtime.

3 I wouldn't say that I go out and say, Hey,
4 I'm this and someone else is that. I want to be
5 five-star, so that's our goal.

6 Q. Is there one platform that Good Samaritan
7 believes is the most important platform to consumers
8 when evaluating patient experience?

9 A. Evaluating patient experience. There's so
10 many ways you can get information these days to
11 evaluate things. People, you know, sometimes use -- my
12 point is like 10 percent of people, I think, or maybe
13 it's 12 percent, fill out the survey for us. That's
14 not where I want it to be. I'd rather -- you know,
15 statistically it's better when you have 25 to 35
16 percent.

17 You know, experts will even tell you that
18 you get a more solid feel, I think, of an organization.
19 Typically people don't fill out surveys unless they're
20 not happy, at least immediately, you know. Even
21 restaurant reviews, if you look at them, you know,
22 normally you leave a restaurant and it was wonderful.
23 No one goes out and, "Oh, this restaurant was
24 wonderful." It's that "The service was horrible and
25 the meal was cold" or something that somebody wants to

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 159

1 put out a review, unfortunately.

2 So we try to encourage everyone to give the
3 feedback, you know, positive or negative because we do
4 want to know.

5 Q. But there's not one rating system, WebMD or
6 doctors.com or Google that you look at more than any
7 others?

8 A. No. I mean, HCAHPS is important to me, so
9 if I'm going to look at anything, our efforts are to
10 increase our participation in HCAHPS. That is the goal
11 so we can really get a solid understanding of our
12 opportunities.

13 Q. And HCAHPS, just for the record, that's
14 through CMS, correct?

15 A. Yes.

16 Q. And that, as we talked earlier, Press Ganey
17 is the vendor for CMS that Good Samaritan has to
18 collect those HCAHPS scores?

19 A. Yes.

20 Q. To you as the CEO of Good Samaritan, what is
21 the most important patient ratings service available?

22 MR. MARCUS: Object to form.

23 A. Important? What is important to me is that
24 we improve our HCAHPS and get our patients to respond
25 to HCAHPS.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 160

1 BY MS. BLAIR:

2 Q. Okay. This is going to be a group Exhibit
3 so it's going to take me a minute.

4 MS. BLAIR: Can you mark this as group
5 Exhibit 5? Thank you.

6 (Defendant's Exhibit Number 5 for i.d.)

7 BY MS. BLAIR:

8 Q. Ms. Montgomery, I am handing you what we've
9 now marked as group Exhibit 5. And I'll submit to you
10 what is before you now are printed out as of
11 9-13-2025 -- you can see that in the top left corner --
12 the CMS scores for Good Samaritan Medical Center. And
13 this first page, two pages -- well, one through four
14 you'll see at the bottom left, is the overall star
15 rating and patient survey ratings.

16 Do you see that?

17 A. Yes.

18 Q. And then the second is the breakdown of the
19 overall star ratings. And then the third is the
20 breakdown of the patient survey ratings. Do you have
21 all three of those in front of you?

22 A. I do.

23 Q. Okay. And I just want to make sure for my
24 record I understand when you're talking about HCAHPS,
25 is that the patient survey rating that we see in this

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 161

1 group Exhibit 5?

2 A. Yes.

3 Q. Okay. And that would be the third document
4 in my group Exhibit, correct?

5 A. Yes.

6 Q. And the patient survey rating as of
7 9-13-2025 was one star, correct?

8 A. Correct.

9 Q. And the number of completed surveys is 822,
10 correct?

11 A. Yes.

12 Q. And do you understand is that 822 in a year?

13 A. That is my understanding.

14 Q. And the survey response rate was 15 percent,
15 correct?

16 A. Yes.

17 Q. Looking at this document, and, again, I'm
18 talking about the third document in group Exhibit 5
19 which is the patient survey rating, do the numbers and
20 percentages that you see on here comport with your
21 understanding of Good Samaritan's current patient
22 survey rating?

23 A. Actually, we have improved because I think
24 these are from maybe 2023. So there has been some
25 improvement in some of these questions.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 162

1 Q. And I think you testified earlier that the
2 reason some of this data I printed out just on
3 September 13th, 2025 is lower is because of publicly
4 available CNS data lags, correct?

5 A. It does lag.

6 Q. So the data that you may have at
7 Good Samaritan internally as of September 13th, 2025
8 would be more up to date than what I, the layperson, is
9 able to pull off of CMS, correct?

10 A. Correct.

11 Q. Do you have --

12 A. And I think this is only Medicare patients,
13 too, unfortunately not all patients, but --

14 Q. Correct.

15 A. -- yeah.

16 Q. But these were the HCAHPS scores that you
17 were just --

18 A. Right.

19 Q. -- testifying about, correct?

20 And would you agree for me for at least
21 patient scores, it appears that Good Samaritan lags in
22 both the national average and the Florida average in
23 every category except one where it is even with the
24 Florida average?

25 MR. MARCUS: Object to form.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 163

1 A. That's what it appears.

2 BY MS. BLAIR:

3 Q. And do you know what the publicly available
4 CMS data was for -- I'm sorry. That's a terrible
5 question.

6 Do you know what the publicly available
7 patient survey rating was for Good Samaritan in or
8 around June of 2024?

9 A. Do I actually know the scores you're saying
10 in June?

11 Q. No, the stars. I apologize.

12 A. Oh, okay. The patient safety -- or, I mean,
13 patient experience, is that what you said?

14 Q. Patient survey rating as it's described.

15 A. Okay. In 2024? Similar, I believe.

16 Q. And if we turn to the second --

17 A. I don't know.

18 Q. -- document in my group Exhibit,
19 Good Samaritan Medical Center, the overall star rating,
20 that's the page you have in front of you, right, it's
21 one of two pages?

22 A. Okay.

23 Q. This is the CMS overall star rating,
24 correct?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 164

1 Q. And it's one star, correct?

2 A. Yes.

3 Q. And do you know whether or not in June of
4 2024 Good Samaritan's overall CMS star rating was
5 one star?

6 A. I believe so.

7 Q. And if you look at the first page of my
8 group Exhibit, it says here at the bottom of the first
9 page, "The overall star rating is based on how well a
10 hospital performs across different areas of quality,
11 such as treating heart attacks and pneumonia
12 readmission rates and safety of care," correct?

13 A. Yes.

14 Q. And if you turn to the next page, it says
15 here that, "The patient survey rating measures
16 patient's experiences of their hospital care. Recently
17 discharged patients were asked about important topics,
18 like how well nurses and doctors communicated, how
19 responsive hospital staff were to their needs and the
20 cleanliness and quietness of the hospital environment."

21 Do you see that?

22 A. I do.

23 Q. And is that your understanding of what the
24 CMS patient survey rating is rating?

25 A. Yes, that is some of the questions for sure.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 165

1 Q. And just for the record, is one star the
2 best or the worst?

3 A. The worst.

4 Q. And if we turn to the back of first document
5 in this group Exhibit page 4 of 4, you'll see this on
6 the back, "Consider this when choosing a hospital," do
7 you see that?

8 A. I do.

9 Q. And do you see under that it says, "Guide to
10 Choosing a Hospital PDF," do you see that?

11 A. I do.

12 Q. Have you ever read that document?

13 A. I have not.

14 Q. Do you have any understanding of whether or
15 not CMS instructs patients to review these star ratings
16 before they choose a hospital?

17 A. I don't know. I'd have to read the "Guide
18 to Choosing a Hospital."

19 Q. Would it surprise you if CMS tells patients
20 to look at their star ratings before choosing a
21 hospital?

22 MR. MARCUS: Object to form.

23 A. No.

24 BY MS. BLAIR:

25 Q. Have you ever had any discussions with

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 166

1 Tenet Healthcare corporate home office about improving
2 Good Samaritan's CMS ratings?

3 MR. MARCUS: Object to form.

4 A. With corporate, I have not.

5 BY MS. BLAIR:

6 Q. Have you had any discussions with Palm Beach
7 Health Network about improving Good Samaritan's CMS
8 star ratings?

9 A. Yes.

10 Q. When did those discussions occur?

11 A. I would say specific discussions with CMS
12 star ratings, more recently. However, we have
13 discussions about everything that's on Medicare's CMS.
14 You know, there's like five domains, I believe, in CMS.
15 And those are things we work towards all the time. And
16 most of those domains are already on our balanced
17 scorecard. So, yes, we strive for CMS, but some of
18 those domains are already on our balanced scorecard
19 anyways. It's not like we don't strive to do those
20 things already.

21 Q. What is the highest CMS star rating
22 Good Samaritan has ever received?

23 A. I've only been there five years, so two
24 stars.

25 Q. And in what year was Good Samaritan a

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 167

1 two-star CMS rated hospital?

2 A. I believe '21 and '22 maybe.

3 Q. Do you have any understanding of why the CMS
4 star rating declined in 2023, 2024, 2025?

5 A. So my understanding -- I haven't done a
6 complete analysis -- is patient experience was a big
7 driver. I'd have to look at what years are encompassed
8 in those patient experience. It's always a struggle
9 with CMS is everything is so lagging. We're always
10 trying to look at our current data and continue to
11 improve, but it takes a while as you improve to change
12 this.

13 Q. And would you agree with me that the CMS
14 data that is publicly available is that lagging data
15 that you were just discussing?

16 A. Is it lagging data?

17 Q. Yeah, so the publicly available CMS data
18 would be that lagging data that you were just
19 discussing, correct?

20 A. I'm almost positive most of it is lagging.

21 Q. And the only way for anyone other than CMS
22 to have access to current CMS data would be directly
23 from the hospitals themselves, correct?

24 A. I'm sure they can get a lot of the
25 information from CDC. I'm not sure why Medicare is

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 168

1 lagging. It's not like the information is not there,
2 you know, so, you know, if a patient wanted to get --
3 it depends on what you're talking about out of the five
4 categories. There's a lot. There are 62 measures or
5 something in CMS score card.

6 Q. Right. And you would agree with me that CMS
7 evaluates things other than patient safety as well,
8 correct?

9 A. Correct.

10 Q. Do you know whether Good Samaritan tracks
11 its -- tracks how it's doing in hospital-acquired
12 infections as compared to competitors?

13 A. So on the balanced scorecard there's
14 targets. I believe those targets are national averages
15 or something. I'm not quite sure. I didn't develop
16 the scorecard, so...

17 Q. Who did develop the scorecard that we keep
18 talking about?

19 A. I'm not really sure.

20 MS. BLAIR: I'm going to show you a document
21 that we'll mark as Exhibit 6.

22 (Defendant's Exhibit Number 6 for i.d.)

23 BY MS. BLAIR:

24 Q. Ms. Montgomery, I've handed you now what
25 we've marked as Montgomery 6 to this deposition. This

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 169

1 is a document that was produced in discovery just a
2 couple of days ago.

3 A. Okay.

4 Q. Is this the scorecard you keep talking
5 about?

6 A. No, but this data goes into the scorecard.

7 Q. Okay. What is this document that we're
8 looking at that we've now marked as Exhibit 6?

9 A. This is probably something from -- these
10 might be quality updates. Yeah, these are the quality
11 updates that are sent out to the CNO and myself.

12 Q. Okay.

13 A. I'm not sure who else gets it as well.

14 Q. And if you look at like the bottom of the
15 first page of this Exhibit, for I think it's the bullet
16 point C, and just below there's this chart that's sort
17 of grayed out?

18 A. Um-hum.

19 Q. And it says, "the BSC target." What's BSC
20 stand for?

21 A. Balanced scorecard.

22 Q. Okay. So that's a reference to the
23 scorecard that you've been talking about today?

24 A. Correct.

25 Q. Okay. And the target is 15 or less C. diff

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 170

1 infections for the year; is that correct?

2 A. Correct.

3 Q. And this looks like through for 2024 you had
4 15, correct?

5 A. Correct.

6 Q. Okay. So that's how I read that.

7 So the BSC that you've been referring to
8 today, that would have targets for patient safety and
9 quality?

10 A. Yes.

11 Q. And then who puts together these quality
12 updates?

13 A. Erin Britt.

14 Q. Okay. And who is she preparing this for?

15 A. Myself, the CNO. I'm not sure if it's
16 Gina West.

17 Q. And do you see them in this form when they
18 come to you?

19 A. You mean like this?

20 Q. Yes.

21 A. Yes.

22 Q. Okay. And if you look at the last page of
23 this document, it refers to PROMs data collection.
24 What's PROMs?

25 A. It's the new standard that you have to have

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 171

1 for orthopedic patients. I think it was rolled out by
2 Medicare. It's a bunch of different data you have to
3 submit. It's new. Wasn't anything you had to do
4 before.

5 Q. Okay. And above that, the bullet point,
6 what's "GBC extraction"?

7 A. Global business center.

8 Q. Okay. And then the third indented bullet
9 point says "PCI." What's PCI?

10 A. It's a medical term. You'd have to Google
11 it. I don't know the --

12 Q. Okay.

13 A. It's -- where is it at on here?

14 Q. It's under "GBC extraction," and it's the
15 third indented bullet point, "PCI, no cases extracted
16 since Q4 '23," "P" as in "Paul"?

17 A. I know. What page are you on?

18 Q. The very last page, quality.

19 A. Oh, sorry. I was totally on the wrong page.

20 THE STENOGRAPHER: Just read it to yourself
21 or out loud, one or the other.

22 THE WITNESS: Okay. I'll read it to myself.

23 A. I'm not quite sure.

24 BY MS. BLAIR:

25 Q. That's okay. Again, not a memory test. I'm

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 172

1 just trying to understand documents that I have.

2 So this is not the scorecard that you keep
3 talking about, correct?

4 A. It is not.

5 Q. Okay. Thank you.

6 Is -- in order to get the accolade you get
7 for Healthgrades™, is there a survey that has to be
8 completed?

9 A. I don't believe so. I believe they pull
10 everything from the outcomes and data. I don't believe
11 so.

12 Q. And do you know whether or not participation
13 in Healthgrades™ is tied to any contract or payment
14 from Good Samaritan?

15 MR. MARCUS: Object to form.

16 A. Is it tied to any contract meaning?

17 BY MS. BLAIR:

18 Q. Healthcare contract or employer contract
19 or --

20 A. Oh.

21 MR. MARCUS: Same objection.

22 A. Not to my knowledge.

23 BY MS. BLAIR:

24 Q. Is it tied to any payment -- or I'm sorry.
25 Strike that.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 173

1 Is it tied to any local regulatory
2 requirement?

3 MR. MARCUS: Object to form.

4 A. Not to my knowledge.

5 BY MS. BLAIR:

6 Q. Is participation in Healthgrades™ approved
7 by Tenet home office?

8 A. I'm not sure.

9 Q. Do you know whether or not participation in
10 Healthgrades™ needs to be improved by Tenet Healthcare
11 home office?

12 A. I don't know that either.

13 Q. Is engagement -- is positive -- strike that.

14 Are accolades given to Good Samaritan from
15 Healthgrades™ tied to your compensation in any way?

16 A. No.

17 Q. Do you know whether or not Good Samaritan
18 participates in U.S. News & World Report hospital
19 rankings?

20 A. I'm not sure.

21 Q. Do you know whether or not the hospital
22 participates in the Lown Hospital, L-o-w-n, hospital
23 rating system?

24 A. I'm not aware of that.

25 Q. Have you ever heard of that before I said it

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 174

1 to you?

2 A. I have not.

3 Q. Is your compensation tied in any way to how
4 well Good Samaritan does on its CMS star ratings?

5 A. No.

6 THE VIDEOGRAPHER: Can we go off record for
7 a media change?

8 MS. BLAIR: Sure.

9 THE VIDEOGRAPHER: This ends media two.

10 We're going off the record. The time is
11 1:56 p.m.

12 (A recess was taken from 1:56 p.m. to 2:11 p.m.)

13 THE VIDEOGRAPHER: This begins media three.

14 We're back on the record. The time is 2:11 p.m.

15 BY MS. BLAIR:

16 Q. Mrs. Montgomery, right before the break I
17 was asking about your compensation, whether your
18 compensation was tied to participation in certain types
19 of -- or on performance with respect to the hospital
20 ratings.

21 Do you recall that?

22 A. Yes.

23 Q. And if you could turn to what we previously
24 marked as Exhibit 2 and specifically interrogatory
25 number 18 on page 27, now I'm curious if whether the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 175

1 word "not" is missing in this answer is going to be my
2 question.

3 Once you get there, let me know.

4 So you see at the top of the page?

5 A. 27?

6 Q. Yes, at the top of page interrogatory 18
7 says, "State whether the compensation of your chief
8 executive officer" -- which would be you -- "or any
9 other executive level leadership officer is tied to or
10 related in any way to your hospital's performance on
11 patient safety, union worker contracts or your
12 hospitals's ratings by third-party ratings
13 organization, ratings publications."

14 Do you see that?

15 A. I do.

16 Q. And the amended answer says, "Plaintiffs'
17 performance on patient safety union worker contracts or
18 ratings by third-party ratings publications is related
19 in some way to the compensation of the plaintiff's
20 chief officer or other executive level officers."

21 Do you see that?

22 A. Yes.

23 Q. Is that a true statement?

24 A. Yes.

25 Q. Okay. So it may, then, be that your

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 176

1 previous answer was that it's not related to ratings by
2 third-party ratings organization; is that true?

3 A. I think you asked me is my compensation
4 related to CMS star rating, I think, is what you said.

5 Q. So let me ask it more general. Thank you.
6 Let me ask it in a more general and I'll break these
7 down because there are multiple things here.

8 Is your compensation, your compensation tied
9 to patient safety in any way?

10 A. Yes.

11 Q. How?

12 A. The balanced scorecard.

13 Q. All right.

14 A. So there's patient safety things on the
15 balanced scorecard.

16 Q. Okay. What about union worker contracts, is
17 it tied to that?

18 A. No.

19 Q. What about ratings by third-party ratings
20 organizations?

21 A. No.

22 Q. Okay. So the -- and this question was not
23 only with respect to your compensation but other
24 executive leadership officers. Do you see that?

25 A. Or any other executives, yes, I do.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 177

1 Q. Are there any other executive level
2 leadership officers whose performance is tied to the
3 balanced sheet, the balanced scorecard you mentioned?

4 A. Right, yes, my administrative team.

5 Q. And who's on your administrative team?

6 A. The CNO, CFO, COO, CHRO.

7 Q. Anyone else?

8 A. No.

9 Q. And so just so my record is clear, the
10 answer to this question relates solely to patient
11 safety and specifically the balanced scorecard that
12 we've been discussing here today, correct?

13 A. Yes.

14 Q. And that balanced scorecard that I've not
15 seen, can you tell me what -- again, you may have
16 already, and I apologize -- what is on that balanced
17 scorecard?

18 A. There are a lot of measures on it, but
19 HCAHPS HAI's, HAI's are on there, transfer acceptance
20 rate is on there, ODE ratio is on there. There's an ED
21 indicator on there. It might be -- I'm not sure which
22 one it is but something related to the emergency
23 department. Might be left without being seen or
24 something of that nature.

25 What else is on there?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 178

1 I think SSI is on there. Adjusted
2 admissions is on there. EBITDA. I think that's the
3 majority.

4 Q. Okay. And I know what -- for the record,
5 HAI's are hospital-acquired infections, correct?

6 A. Yes.

7 Q. Transfer acceptance rates, what are those?

8 A. We have a transfer center for our network
9 accepting -- the goal is 85 percent accepting of the
10 transfers.

11 Q. Okay. I don't even know what that means so
12 I'll try to break it down.

13 There's a transfer center for your network?

14 A. Yeah. So basically the transfer from any
15 other hospital into our organization, you know, they
16 manage that whole process and reaching out to us to see
17 if we have the services, can we accommodate the
18 patient, things like that.

19 Q. And is that transfer acceptance from within
20 these five hospitals only or other hospitals as well?

21 A. It can be, yeah, it's everyone.

22 Q. Does Good Samaritan accept transfers from
23 Jupiter?

24 A. Yeah, we have.

25 Q. Do you accept transfers from any of the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 179

1 other four hospitals in the Palm Beach Health Network?

2 A. I mean, we can. It just depends, you know,
3 if you have a certain service and someone else doesn't
4 have it.

5 Q. Would that, if you transferred, let's just
6 say a patient from Delray into Good Samaritan, would
7 that be part of the 85 percent transfer rate you're
8 trying to get to?

9 A. Internal? Yeah, it is.

10 Q. Okay. And can you not accept patients? Is
11 that --

12 A. Yes.

13 Q. I guess I'm --

14 A. Yes.

15 Q. So it's measuring whether or not
16 Good Samaritan has put into place processes that it can
17 accept patients from other hospitals, is that what that
18 rate is measuring?

19 A. Yes. And that we, you know, we're making
20 sure that we have the coverages for services. You
21 know, sometimes it's the patient -- might be a patient
22 request to, and it might not have anything to do with
23 the service, for example, that they request a different
24 hospital, so that would be part of transfers. But it's
25 just making sure that when we're requested to take a

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 180

1 patient that we're making every effort to ensure we can
2 accommodate a patient being transferred.

3 Q. And are you -- is Good Samaritan a level I
4 trauma center?

5 A. It is not.

6 Q. Okay. So that doesn't count like accepting
7 patients, going on bypass, for example?

8 A. Trite. Trauma centers are different.
9 They're the only two in the county, so...

10 Q. When you talk about O to E ratios, what does
11 "O to E" stand for?

12 A. Expected over observed, length of stay.

13 Q. Got it. And so is that measure measuring
14 whether or not you are discharging patients in a timely
15 manner?

16 A. You could look at it that way. It's really
17 just a measure of Medicare gives you an amount of time
18 a patient should be in a hospital, you know, for a
19 certain DRG, and are we meeting that.

20 Q. Got it. The ED indicator, emergency
21 department, correct?

22 A. Yes.

23 Q. And that, what is that measuring, to the
24 best of your knowledge?

25 A. I think it's the left without being seen,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 181

1 WL -- or LWBS, I think, is what's on the balanced
2 scorecard or it might be how long it took to see a
3 patient once they hit the emergency room --

4 Q. Got it.

5 A. -- you know, like the length of stay. It's
6 one of two of those measures.

7 Q. And SSI, what does that stand for?

8 A. Surgical site infection.

9 Q. And that's different than HAI, right?

10 A. Yes.

11 Q. Adjusted admission, what does that mean?

12 A. It takes admissions plus outpatient, the
13 volume and -- it's a calculation, put it that way.

14 Q. Okay.

15 A. Basically it's admissions and outpatient
16 visits combined together but equating an outpatient
17 visit to an admission, so it's relatable.

18 Q. That makes sense. And then HAI is your, I
19 assume you're looking at CAUTI and CLABSI?

20 A. Yes.

21 Q. Anything else?

22 A. C. diff, MRSA.

23 Q. And those are all things that are on our --
24 are measured by the CMS as well, correct?

25 A. Correct.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 182

1 Q. And I want to talk briefly about prior to
2 2020 -- prior to 2020, Good Samaritan participated in
3 the Leapfrog survey, correct?

4 A. I wasn't there, but I believe the network
5 did before 2020.

6 Q. And --

7 A. I don't --

8 Q. I'm sorry. Go ahead.

9 A. Go ahead.

10 Q. Do you have any understanding of whose
11 decision it was for the network to participate in the
12 Leapfrog survey?

13 A. To participate?

14 Q. Correct.

15 A. I don't know.

16 Q. And who was the CEO of Tenet Healthcare
17 prior to 2020?

18 A. Saum. He was still the CEO.

19 Q. He was?

20 A. Um-hum.

21 Q. He did not become the CEO in 2021?

22 A. I don't -- no, because I went to Good Sam in
23 2020 and he was the CEO then.

24 Q. Do you know when Saum became the CEO of
25 Tenet Healthcare?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 183

1 A. Probably in 2019, '18. I'm not sure.

2 Q. Okay. And so while Saum was the CEO of
3 Tenet Healthcare, your understanding is that these five
4 hospitals participated in the Leapfrog survey, correct?

5 A. I believe so.

6 Q. And do you have an understanding that the
7 Leapfrog survey is separate and distinction from the
8 hospital ratings program?

9 MR. MARCUS: Object to form.

10 A. What do you mean?

11 BY MS. BLAIR:

12 Q. Well, do you understand there's a survey --
13 Well, let's go back to the beginning.

14 There is a Leapfrog Hospital Survey,
15 correct?

16 A. Correct.

17 Q. Have you seen that survey before?

18 A. I have.

19 Q. And it's like three, 400 pages, correct?

20 A. Yes.

21 Q. And lots of different types of hospitals can
22 engage in the Leapfrog Hospital Survey. Do you have an
23 understanding of that?

24 A. You mean many hospitals participate in the
25 survey, is that what you mean?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 184

1 Q. No, I mean -- yes, that was a terrible
2 question.

3 Like children's hospitals can do the survey,
4 correct?

5 A. I don't know that.

6 Q. Okay. So there's the hospital survey on the
7 one hand, and then there's the hospital safety grades
8 on the other hand. Do you understand that?

9 A. The safety grades as in the F?

10 Q. Correct.

11 A. (Nodding head).

12 Q. You understand that?

13 A. I do.

14 Q. Do you have an understanding of how many
15 measures on the hospital safety grade exist?

16 A. 22.

17 Q. And do you understand that not all of those
18 measures come from the Leapfrog survey?

19 A. I understand that.

20 Q. So with that understanding, I'm talking
21 about just participating in the survey, because do you
22 understand that all hospitals are graded whether they
23 participate in the survey or not?

24 MR. MARCUS: Object to form.

25 A. I am aware.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 185

1 BY MS. BLAIR:

2 Q. Okay. Now, I was focusing just on
3 Good Samaritan. Do you know when Good Samaritan
4 started participating in the Leapfrog Hospital Survey?

5 A. I don't.

6 Q. Do you know whether or not when
7 Good Samaritan did participate in the Leapfrog Hospital
8 Survey, whether it ever had to pay a fee to participate
9 in the survey?

10 A. I don't know.

11 Q. Do you know whether or not hospitals today
12 that are participating in the Leapfrog Hospital Survey
13 pay a fee to participate in the survey?

14 A. Pay a fee to Leapfrog?

15 Q. Correct.

16 A. To take the survey?

17 Q. Correct.

18 A. No.

19 Q. Do you know whether or not hospitals pay a
20 fee -- well, strike that.

21 Do you know whether or not hospitals, all
22 acute care hospitals, whether they fill out the survey
23 or not, have access to the information contained in the
24 survey?

25 A. Do they have access, like to the survey?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 186

1 Q. Correct.

2 A. Yes.

3 Q. And to the best of your knowledge, Leapfrog
4 does not charge any hospital in the United States of
5 America to access its survey materials, correct?

6 MR. MARCUS: Object to form.

7 A. Not to my knowledge, but...

8 BY MS. BLAIR:

9 Q. Is there a "but" there?

10 A. Not to my knowledge.

11 Q. Do you have an understanding that the
12 Leapfrog Hospital Survey is publicly available on the
13 leapfroggroup.org website to anybody that wants to
14 download it?

15 A. Yes.

16 Q. Do you know whether or not Good Samaritan
17 has ever paid any money to Leapfrog for anything?

18 A. I don't know if they have in the past.

19 Q. Do you have an understanding that at some
20 point in the history of Good Samaritan it received an A
21 grade from Leapfrog?

22 A. Not to my knowledge.

23 Q. To your knowledge, in the history of
24 Good Samaritan hospital has Good Samaritan ever been
25 approached by Leapfrog or solicited by Leapfrog to pay

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 187

1 for consulting services provided by Leapfrog?

2 A. I don't know if that has ever occurred. I'm
3 not aware of it.

4 Q. Do you know whether or not Leapfrog has
5 consulting services that a hospital can purchase?

6 A. That is my understanding.

7 Q. How did you come to that understanding?

8 A. I don't recall. It's just a general that
9 you can pay Leapfrog for, you know, consulting fees to
10 help you with your grade.

11 Q. Have you --

12 A. I don't recall who told me that. I don't
13 know.

14 Q. Have you ever done any independent
15 investigation into whether or not that statement is
16 true?

17 A. I have not.

18 Q. And as the corporate representative of
19 Good Samaritan, do you have any idea as to whether or
20 not the statement that Leapfrog charges for consulting
21 services is true?

22 A. Yes.

23 Q. And what is that?

24 A. I would say some of that is true.

25 Q. What is that based on?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 188

1 A. Well, I didn't see a document myself, but in
2 conversations with individuals that would know, like
3 quality directors.

4 Q. Which quality director told you that
5 Leapfrog charges for consulting services?

6 A. Gina West.

7 Q. So when I take Gina West's deposition, she's
8 going to testify that she indicated to you that
9 Leapfrog charges hospitals for consulting services?

10 MR. MARCUS: Object to form.

11 A. I would say, yes.

12 BY MS. BLAIR:

13 Q. Do you --

14 A. There's definitely been conversations with
15 her about the payment to Leapfrog and how it works.

16 Q. What is your understanding of the payment to
17 Leapfrog and how it works?

18 A. You could pay Leapfrog for consulting to
19 help you with your grades. You have to pay Leapfrog if
20 you want to advertise your grade. That is my
21 understanding.

22 Q. And your understanding comes solely from
23 conversations with Gina West?

24 A. I mean, it might not have just been Gina.
25 It's been a general conversation and knowledge that

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 189

1 people have.

2 Q. And you've done nothing to investigate
3 whether or not that's true?

4 A. What, to go try to find a contract from
5 Leapfrog or something and ask them for their fees?

6 Q. Well, have you ever even looked at their
7 website to see if consulting services are offered?

8 A. I didn't go to look to see if consulting
9 services were offered. I had no reason to doubt what
10 was being -- the general idea of what everybody knows
11 to be. Just never had a doubt.

12 Q. But you signed a declaration under oath
13 that, in fact, Leapfrog charges for consulting services
14 for hospitals to get better grades, correct?

15 A. That's what I was told.

16 MR. MARCUS: Object to form.

17 BY MS. BLAIR:

18 Q. And that sworn statement under oath is based
19 on what you were told, correct?

20 A. Correct.

21 Q. And you were told that by Regina West,
22 correct?

23 A. She is one of the individuals.

24 Q. Who were the others?

25 A. I don't know exactly who they were, but I

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 190

1 know we've had conversations about how Leapfrog
2 generates revenue.

3 Q. And you believe the answer to the question
4 as to how Leapfrog generates revenue is by charging for
5 consulting services to help hospitals get better
6 grades?

7 MR. MARCUS: Object to form.

8 A. One of them.

9 BY MS. BLAIR:

10 Q. I want to focus on the consulting services.
11 You testified that you believe the consulting services
12 are that you can pay Leapfrog to help you get better
13 grades. Are there other consulting services,
14 consulting services that you believe Leapfrog charges
15 for?

16 A. I mean, other than helping you with,
17 obviously, all the things that are in the Leapfrog
18 survey, I don't know.

19 Q. And so as you sit here today, you believe
20 that Leapfrog has a program where it will help
21 hospitals get a better grade?

22 MR. MARCUS: Object to form.

23 A. I wouldn't say the motivation is just to get
24 a better grade, but whatever is part of the survey, you
25 know, anything that they can help in those areas, yes,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 191

1 that's what I believe.

2 BY MS. BLAIR:

3 Q. And you believe that based on just general
4 conversations you've had with Regina West and others?

5 A. Correct.

6 Q. And other than Regina West, can you name
7 another person that you've had that conversation with?

8 A. I mean, I'm going to say, no, for now
9 because I can't identify necessarily a person. They're
10 just conversations.

11 Q. Okay. Did you ever tell the governing board
12 that Leapfrog charges for consulting services to
13 hospitals so that they can get a better grade?

14 A. I don't believe so.

15 Q. Are you aware that there's an allegation in
16 this Complaint that Leapfrog is a "brazen play [sic] to
17 pay [sic] scheme"?

18 A. I'm aware of that, yes.

19 Q. And what is the "brazen pay to play scheme"
20 in your opinion?

21 A. Well, the pay really is your participation
22 and sharing of data and information.

23 To play is, you have to participate. If you
24 don't participate, you will be failed and receive a
25 failing grade.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 192

1 Q. So it's your belief that if you don't
2 participate in the Leapfrog Hospital Survey, you will
3 be failed?

4 A. Yes. There are seven measures that are not
5 provided -- information is not provided, and it's
6 35 percent, so you're already starting out with a very
7 bad grade.

8 Q. Are you aware that in the State of Florida
9 there are only ten hospitals that did not participate
10 in the Leapfrog Hospital Survey, and the only Fs that
11 were given were four of the hospitals that are
12 plaintiffs in this litigation?

13 MR. MARCUS: Object to form.

14 A. No.

15 BY MS. BLAIR:

16 Q. Are you aware that there are hospitals that
17 do not participate in the Leapfrog Hospital Survey that
18 received A's?

19 MR. MARCUS: Object to form.

20 A. No.

21 BY MS. BLAIR:

22 Q. Have you undertaken any investigation before
23 filing this lawsuit to determine whether or not that's
24 true?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 193

1 Q. And you don't believe there are any
2 hospitals that don't participate in the Leapfrog
3 hospital surveys that receive anything but an F?

4 MR. MARCUS: Object to form.

5 A. Or a D. It would be highly statistically
6 impossible. Maybe you could get a C, but I highly
7 doubt it.

8 BY MS. BLAIR:

9 Q. If I --

10 A. Mathematically it doesn't work.

11 Q. If I produced to you evidence that there are
12 hospitals in the United States of America that do not
13 participate in the Leapfrog Hospital Survey that
14 receive an A, would you disagree with that?

15 A. I would be incredibly shocked that that's
16 possible.

17 Q. Okay. If I produced to you -- have you read
18 any of the expert reports from defendants in this
19 matter?

20 A. What do you mean?

21 Q. Well, do you understand that my clients have
22 experts that have produced reports in this matter?

23 A. Oh, okay.

24 Q. Do you dispute there are ten hospitals in
25 the State of Florida that did not participate in the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 194

1 Leapfrog hospital safety grade in fall 2024?

2 A. I wouldn't know.

3 Q. Do you dispute that five of those hospitals
4 of the ten received grades of C or better?

5 MR. MARCUS: Object to form.

6 A. So five of the hospitals that did not
7 participate --

8 BY MS. BLAIR:

9 Q. In the State of Florida.

10 A. -- received an A or a B?

11 Q. No, I said a C or better.

12 A. Oh, a C or better.

13 MR. MARCUS: Same objection.

14 A. Like I stated before, it could be
15 statistically possible to get a C. You would have to
16 be next to perfect of a hospital. I don't know how it
17 would be possible to get an A statistically.

18 BY MS. BLAIR:

19 Q. But if evidence is produced in this
20 litigation that hospitals that don't participate in the
21 Leapfrog Hospital Survey receive A's, you would have no
22 reason to dispute that, correct?

23 MR. MARCUS: Object to form.

24 A. What I would say is that us not
25 participating produced an F and would not have had we,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 195

1 so, to me, that's what's really important to me.

2 BY MS. BLAIR:

3 Q. But I thought you said earlier that if you
4 don't participate, you get an F. Is that your belief?

5 MR. MARCUS: Object to form.

6 A. That is my belief that is what happened to
7 our five hospitals.

8 BY MS. BLAIR:

9 Q. And I don't want to talk about just your
10 five hospitals.

11 Do you believe that under the Leapfrog
12 rating methodology as it stands today that if a
13 hospital does not participate in the Leapfrog Hospital
14 Survey, it receives an F?

15 MR. MARCUS: Object to form.

16 A. I didn't say an F. A failing grade. And
17 what I did say earlier is it could be possible that you
18 could get a C if you were a perfect hospital. I don't
19 know how you would get an A. But the bottom line is I
20 would have been a C. I'm an F because I didn't
21 participate.

22 There are seven indicators in there. That's
23 35 percent of the grade that -- and it's a voluntary
24 survey -- that we didn't participate and we got a
25 failing grade.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 196

1 BY MS. BLAIR:

2 Q. And we'll get to that.

3 When Leapfrog -- or I'm sorry.

4 When Good Samaritan did participate in the
5 Leapfrog Hospital Survey, do you have any reason to
6 dispute that it accurately reported to the Leapfrog
7 survey?

8 MR. MARCUS: Object to form.

9 A. What do you mean exactly?

10 BY MS. BLAIR:

11 Q. Well, if we look at -- and I'll just mark
12 this now, I guess, Exhibit 7.

13 (Defendant's Exhibit Number 7 for i.d.)

14 BY MS. BLAIR:

15 Q. Ms. Montgomery, I've just now handed you
16 what we've marked as Exhibit 7 which is a copy of the
17 Amended Complaint in this matter.

18 As you'll see at the top of this document,
19 it was filed on August 28th, 2025. Have you seen this
20 document before today?

21 A. I believe so. I've seen so many that look
22 familiar like this. I mean, I think. I've seen so
23 many documents. I can take the time to read through
24 this whole thing.

25 Q. Oh, that's okay.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 197

1 A. I don't know if I've seen this exact
2 document. A lot of the language looks the same, so I'm
3 not sure if I read through this whole document.

4 Q. Sure. And let me just go back a little
5 ways. You understand that there was a Complaint filed
6 against Leapfrog on April 30 of 2025, correct?

7 A. Right.

8 Q. Did you have any involvement -- and, again,
9 I don't want to know about any direct communications
10 you had with any of your attorneys, but did you have
11 involvement with reviewing and filing the Complaint
12 before it was filed?

13 A. I think I reviewed things specific to like
14 me and things that I had to approve on, sign off on
15 that was for Good Samaritan. This seems like a larger
16 document than I recall.

17 Q. Okay. And just for the record, there was a
18 Complaint filed on April 30 of 2025. After some
19 discussions between the lawyers and a court appearance,
20 there was an amendment to the Complaint on August 28th.
21 And I want to direct your attention specifically to
22 paragraph 27 of the Amended Complaint.

23 And before I got this Complaint out, I asked
24 you about whether or not Good Samaritan accurately
25 reported its data to the Leapfrog Hospital Survey when

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 198

1 it participated. And specifically looking at paragraph
2 27 of the Amended Complaint, which, for the record, is
3 identical to former paragraph 55 of the original
4 Complaint, it says "Another way TLG's deceptive methods
5 punish nonparticipating hospitals is by rewarding
6 participating hospitals with grade inflation."

7 Do you see that sentence?

8 A. I do.

9 Q. And then it goes on to say, "The data
10 provided by hospitals that do participate in the TLG
11 Hospital Survey is self-reported, biased and subject to
12 manipulation."

13 Do you see that?

14 A. I do.

15 Q. The next sentence, "The plaintiffs in this
16 case say median responses for hospitals that report
17 their own scores show that those hospitals inflate
18 their performance."

19 Do you see that?

20 A. I do.

21 Q. And so my question is, is it your position
22 that Good Samaritan inflated its performance when it
23 engaged in the Leapfrog Hospital Survey?

24 MR. MARCUS: Object to form.

25 A. It says, "...median responses for hospitals

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 199

1 that report their own scores showed that those
2 hospitals inflate their performance."

3 Well, I'm pretty confident we didn't inflate
4 our performance.

5 BY MS. BLAIR:

6 Q. Okay. Do you have any evidence that -- any
7 evidence of a hospital inflating its performance on the
8 hospital, Leapfrog Hospital Survey?

9 A. I do not.

10 Q. And so there are no specific competitors of
11 yours that you are accusing of manipulating the data
12 that they've reported to the Leapfrog Hospital Survey?

13 A. I am not.

14 Q. One of the things that your attorneys agreed
15 to produce in this litigation was documents sufficient
16 to simulate responses for the four measures on the
17 Leapfrog Hospital Survey that we are referring to in
18 this litigation as the imputed measures. Do you have
19 an understanding that that information was requested of
20 Good Samaritan?

21 A. By who? I'm sorry.

22 Q. Your attorneys.

23 A. Okay. Yes.

24 Q. Okay. And when I say "the imputed measures"
25 for purposes of this deposition, I'm referring to four

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 200

1 measures that are on the Leapfrog Hospital Survey.

2 They are CPOE, BCMA, IPS, which is ICU staffing, and
3 hand hygiene. Do you understand those are the four
4 imputed measures at issue in this litigation?

5 A. I do.

6 Q. And, for the record, CPOE, what does that
7 mean to you?

8 A. Physician order entry.

9 Q. Computerized?

10 A. Computerized.

11 Q. BCMA, what does that mean to you?

12 A. Barcode administration.

13 Q. Hand hygiene, what do you understand that to
14 mean in the context of Leapfrog Hospital Survey?

15 A. Hand washing, hand washing policies,
16 et cetera.

17 Q. And what about IPS or ICU staffing, what
18 does that mean to you in the context of Leapfrog
19 Hospital Survey?

20 A. Critical care trained physicians being in
21 the hospital in your ICU.

22 Q. And what types of -- on behalf of
23 Good Samaritan, what types of information did you
24 provide to be produced in this litigation "sufficient
25 to simulate responses" for those four measures?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 201

1 MR. MARCUS: Object to form.

2 A. Those four measures.

3 BY MS. BLAIR:

4 Q. What documents did you produce sufficient to
5 simulate?

6 A. I believe that quality produced the
7 documents. But I also did answer based on quality they
8 have systems that track this stuff, CPOE for example.

9 Q. Okay. And when you say quality produced
10 these documents, would that be Regina West?

11 A. Yes, or Erin Britt.

12 Q. Did you attempt to rerun -- did you attempt
13 to -- well, strike that.

14 What did you do as the CEO of Good Samaritan
15 to ensure that the document responses that have been
16 provided in this litigation for those four measures
17 was, in fact, accurate and sufficient to simulate
18 responses to the Leapfrog Hospital Survey from fall of
19 2024?

20 A. I saw them myself.

21 Q. You saw the documents yourself?

22 A. Right.

23 Q. Did you take the survey and match it up to
24 make sure there was sufficient information to answer
25 all the questions on the survey?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 202

1 A. Did I take the survey? What do you mean?

2 Q. Yeah, so your hospital gathered documents
3 that are sufficient to simulate, correct?

4 A. Yes.

5 Q. For each of these four measures, correct?

6 A. That is my understanding.

7 Q. And I think you just testified then you
8 reviewed those documents before you provided them to
9 your attorneys, correct?

10 A. Yeah, the CPOE percentage, hand washing
11 percentage, those documents I looked at.

12 Q. Okay. And in trying to figure out whether
13 or not Good Samaritan was producing sufficient
14 information to simulate the responses to the Leapfrog
15 Hospital Survey, did you compare the documents to the
16 questions on the survey itself?

17 A. I did not.

18 Q. When Leapfrog -- I'm sorry.

19 When Good Samaritan participated in the
20 Leapfrog Hospital Survey, do you know whether or not
21 Good Samaritan derived any benefit from participating
22 in the survey?

23 MR. MARCUS: Object to form.

24 A. Not to my knowledge.

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 203

1 Q. Do you know whether or not Good Samaritan
2 has ever used at any time the Leapfrog Hospital Survey
3 as a benchmarking tool?

4 A. Not to my knowledge.

5 Q. Do you know whether or not Good Samaritan
6 has ever used the Leapfrog Hospital Survey to inform
7 its own patient safety plan?

8 A. To inform its own? I don't know what you
9 mean by that.

10 Q. Sure. So Good Samaritan has a patient
11 safety plan. We talked about it earlier today,
12 correct?

13 A. Correct.

14 Q. And I think you told me that there would be
15 somebody in the quality department that would -- that
16 would first corporate and then on a local level put
17 together that patient safety plan; is that fair?

18 A. That's fair.

19 Q. Do you know whether or not anyone either at
20 corporate or on the local level looks at the Leapfrog
21 Hospital Survey to figure out what should be in the
22 patient safety plan?

23 A. I mean, not to my knowledge. If that
24 occurs, I'm not aware or I don't recall.

25 Q. Who would know that?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 204

1 A. I would say quality.

2 Q. And quality would be Regina West?

3 A. Yes.

4 Q. And the others you've talked about today
5 that are in quality?

6 A. Right.

7 Q. Would you agree with me that the CPOE
8 measure is distinct to the Leapfrog Hospital Survey?

9 MR. MARCUS: Object to form.

10 A. No, I'm pretty confident that it was rolled
11 out originally by like Medicare, and there's -- they
12 want you to be, I think, 85 percent or something. I
13 can't recall, but...

14 BY MS. BLAIR:

15 Q. Are you aware that to comply with the
16 Leapfrog CPOE standard there is a testing of the system
17 that has to be undergone in realtime?

18 MR. MARCUS: Object to form.

19 A. A testing of the CPOE system?

20 BY MS. BLAIR:

21 Q. Correct.

22 MR. MARCUS: Same objection.

23 A. Like testing it how? What do you mean?

24 BY MS. BLAIR:

25 Q. Well, there's a two-hour test that is

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 205

1 required to comply with the Leapfrog CPOE standard in
2 which a physician, a quality person and a nurse must be
3 present at, and they give you prompts to test the CPOE
4 system.

5 A. Oh.

6 Q. Are you aware of that?

7 A. No.

8 MR. MARCUS: Object to form.

9 BY MS. BLAIR:

10 Q. Are you aware of whether or not
11 Good Samaritan attempted to complete that test in order
12 to provide sufficient to simulate responses for the

14 MR. MARCUS: Object to form.

15 A. I am not.

16 BY MS. BLAIR:

17 Q. According to your declaration -- well,
18 strike that.

19 You understand that you signed a declaration
20 in this litigation on May 15th, 2025, correct?

21 A. Yes.

22 Q. And that declaration was attached to a
23 motion for preliminary injunction, correct?

24 A. This is a lot of legal --

25 Q. Oh, sorry.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 206

1 A. You know, you'll have to talk hospital
2 language my way.

3 Q. That's fine. I'm trying to learn the
4 hospital language.

5 For what purpose -- for what purpose do you
6 understand your declaration was drafted and signed?

7 MR. MARCUS: And, again, don't refer to any
8 conversations with counsel.

9 MS. BLAIR: Sure.

10 MR. MARCUS: I'm not sure she can answer
11 that question.

12 BY MS. BLAIR:

13 Q. Okay. Do you have an understanding of
14 whether or not your declaration was produced in this
15 litigation?

16 A. Do I have an understanding whether it was?

17 Q. Correct.

18 A. Yes.

19 Q. And do you know whether that declaration was
20 attached to any motions that have been filed in this
21 litigation?

22 A. That is my understanding.

23 Q. Okay. What is your understanding of which
24 motion it was attached to?

25 A. There were so many documents, honestly, that

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 207

1 I had to review back and forth that, I mean, I would
2 have to see it.

3 Q. Okay. And I can show it to you.

4 Has anybody ever told you that your
5 declaration has been withdrawn in this litigation?

6 MR. MARCUS: And, again, not -- when she
7 asks you that, she's not talking about
8 attorneys.

9 BY MS. BLAIR:

10 Q. Correct, I'm not talking about attorneys.

11 A. Not talking about attorneys meaning what?

12 Q. I don't want to know about anything your
13 attorneys have told you or not told you.

14 A. Oh, Jesus.

15 Q. I can't know that.

16 A. Right.

17 No.

18 Q. Okay. And so as far as you know, that
19 declaration that you signed under oath on May 15th,
20 2025 is still part -- as far as you know, is still part
21 of this litigation, correct?

22 A. That's my understanding.

23 Q. When did Good Samaritan stop participating
24 in the Leapfrog Hospital Survey?

25 A. I think it was 2021, I think.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 208

1 Q. Why did Good Samaritan stop participating in
2 the Leapfrog Hospital Survey?

3 A. The first conversations, you know, after
4 COVID about what quality was spending time on and, you
5 know, either the Leapfrog survey was brought up, and it
6 was talked about that it was time-consuming and, you
7 know, there was, you know, didn't really add much
8 value, it wasn't like an accrediting body and that we
9 wanted to spend our time more doing surveys where, you
10 know, Joint Commission, for example.

11 Q. Do you know how much time Good Samaritan was
12 spending in, let's just say the last year it engaged in
13 the Leapfrog survey, in responding to the Leapfrog
14 survey?

15 A. I don't know, but looking at it, it looks
16 time-consuming, you know.

17 Q. Was there ever an FTE assigned to responding
18 to a Leapfrog survey?

19 A. I wouldn't say it's like an FTE. It would
20 be quality, so...

21 Q. Okay. And quality, are they physicians?

22 A. No.

23 Q. And so if you started at Good Samaritan as
24 the CEO in April of 2020, was there one year in which
25 you were the CEO of Good Samaritan in which

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 209

1 Good Samaritan participated in the Leapfrog Hospital
2 Survey?

3 A. One solid year?

4 Q. Yes.

5 A. Well, if we stopped in '21, I would say
6 there wasn't a solid year probably.

7 Q. Let me ask it a different way because it was
8 a bad question.

9 Do you understand that the Leapfrog Hospital
10 Survey is annual?

11 A. Yes.

12 Q. Do you have a recollection of whether or not
13 when you were the CEO of Good Samaritan whether
14 Good Samaritan completed a Leapfrog Hospital Survey in
15 that year?

16 A. No. It's all kind of muddy. It was a long
17 time ago. I don't remember really. I just remember
18 the subject coming up and it being time-consuming, not
19 adding value, and we were going to spend our time doing
20 other things.

21 Q. Okay. So that's the reason why
22 Good Samaritan stopped engaging in the Leapfrog
23 Hospital Survey, correct?

24 A. Yes. It was a voluntary survey, and after
25 COVID, you know, quality was, as you can imagine, busy

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 210

1 and needed to do a lot of things so we wanted to spend
2 our energy on like getting certified for orthopedics
3 with Joint Commission and things like that.

4 Q. Okay. And just to make sure, that is
5 also -- is that also the answer for Good Samaritan, as
6 the corporate representative of Good Samaritan the
7 reason why Good Samaritan stopped participating in the
8 Leapfrog Hospital Survey?

9 A. Yes.

10 Q. Was there a directive from Tenet home office
11 to stop participating in the Leapfrog Hospital Survey?

12 MR. MARCUS: Object to form.

13 A. I don't recall that.

14 BY MS. BLAIR:

15 Q. Do you recall whether you were involved in
16 any meetings at the Palm Beach Health Network group
17 level about all five hospitals ceasing participation in
18 the Leapfrog Hospital Survey in or around 2021?

19 A. So these, the conversations was with the
20 group CNO, Libby, about, you know, what we needed to
21 spend the time on in quality, so that would be a group
22 decision.

23 Q. Okay. And did you say Libby?

24 A. Yes.

25 Q. Who is Libby?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 211

1 A. Philippe owe. Libby Flipppo, she was the
2 group CNO at that time.

3 Q. So that would be before Ricky Ramirez?

4 A. Right.

5 Q. When does Ricky Ramirez enter the picture
6 for the group?

7 A. When Libby left, which was probably two and
8 a half, three years ago, somewhere around there.

9 Q. Where does Libby work now?

10 A. She's semi-retired. That's my
11 understanding.

12 Q. Do you have a recollection as to whether or
13 not the reasoning -- as to whether or not
14 Tenet Healthcare home office indicated to the
15 Palm Beach Health Network hospitals in or around 2021
16 that participation in the Leapfrog survey would not be
17 supported unless it was tied to a local requirement or
18 payer reimbursement?

19 MR. MARCUS: Object to form.

20 A. I recently read an email stating that.

21 BY MS. BLAIR:

22 Q. And do you have any recollection as to
23 whether that was the position back in 2021 when the
24 five Palm Beach Health Network hospitals stopped
25 participating?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 212

1 A. No, I don't know anything about that.

2 Q. Do you have an understanding of what home
3 office means about "being tied directly to," "being
4 tied directly to payment or contract"?

5 MR. MARCUS: Object to form.

6 A. I don't. I don't know what else it means to
7 them.

8 BY MS. BLAIR:

9 Q. But you still participate in Healthgrades™
10 even those it's not connected to payment or contract,
11 correct?

12 A. Correct.

13 Q. What was the reaction -- and I'm talking
14 about in 2021 -- when the five Palm Beach Health
15 Network hospitals made the decision to stop
16 participating in the Leapfrog Hospital Survey? What
17 was the reaction internally at the Palm Beach Health
18 Network to that decision?

19 A. You mean like my hospital?

20 Q. Yes. Were people upset that you weren't
21 going to participate? Were they fine with it? Were
22 they glad? Do you have any memory?

23 MR. MARCUS: Object to form.

24 A. I don't recall it ever being -- there really
25 wasn't a lot of -- what's the word -- focus on Leapfrog

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 213

1 at all, so I feel like it was a nonevent that I recall.

2 BY MS. BLAIR:

3 Q. Would you agree with me that not a lot of
4 patients know what Leapfrog is?

5 MR. MARCUS: Object to form.

6 A. I would not agree with you, no. I think
7 they're very well aware now.

8 BY MS. BLAIR:

9 Q. Right now today?

10 A. Yes.

11 Q. I would agree with that.

12 Prior, in 2021, do you believe patients were
13 well aware of what Leapfrog is?

14 MR. MARCUS: Object to form.

15 A. I don't really know. I mean, quite frankly,
16 I would say that Leapfrog is out there more in the last
17 two years than they previously have been. You know,
18 you see advertisement for it, you know, a lot more than
19 you did in the past.

20 BY MS. BLAIR:

21 Q. And you would say that's like within in the
22 last two years?

23 A. I would say, last, yeah, couple years.

25 stopped participating in the Leapfrog Hospital Survey

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 214

1 and September of 2024, had there been any internal
2 discussions at the Palm Beach Health Network group
3 level about rejoining the Leapfrog Hospital Survey
4 participation?

5 A. I don't recall other than that email that I
6 just recently saw a discussion about participating. I
7 don't recall any. I mean, if it did, I just don't
8 recall.

9 Q. And it wasn't important to you as the CEO of
10 Good Samaritan, the Leapfrog hospital safety grade?

11 A. No, it was not. Our focus is more on the
12 accrediting agencies than the survey.

13 Q. Do you know how much a hospital needs in its
14 budget to comply with the Leapfrog Hospital Survey?

15 MR. MARCUS: Object to form.

16 A. How much they need to budget to complete the
17 survey?

18 BY MS. BLAIR:

19 Q. Correct.

20 A. I don't know. I mean, it looks very
21 time-consuming. I'm sure it would take a few weeks
22 probably to complete, involving a lot of other
23 individuals.

24 Q. Does it take more or less time, in your
25 opinion, than those -- than the work that you talked

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 215

1 about earlier with respect to the accreditations?

2 A. If I had to guess what takes more or less
3 time? The accreditations would take more resources.
4 I've never completed the Leapfrog survey myself, so...

5 Q. And you don't recall whether it was
6 completed during your time as the CEO of Good Samaritan
7 in April of 2020?

8 A. I don't know when it's really due. So if it
9 was due during my tenure there, then it was completed.
10 But I just, I don't recall. That was five years ago.

11 Q. Right. And you just don't have a memory of
12 how long that took at that time; is that fair?

13 A. Yes, correct.

14 MS. BLAIR: Can you mark this as Exhibit 8?
15 (Defendant's Exhibit Number 8 for i.d.)

16 BY MS. BLAIR:

17 Q. Ms. Montgomery, I'm now handing you what
18 we've marked as Exhibit 8 to this deposition. And,
19 again, I'm going to refer to this Bates number at the
20 bottom right-hand corner, PBHN, four zeros, 11358. Do
21 you have that in front of you? It's at the bottom
22 right-hand corner.

23 A. Yes.

24 Q. I just want to make sure we're reading the
25 same thing.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 216

1 This is an email from Maggie Gill to you
2 dated December 11, 2024. Do you see that?

3 A. I do.

4 Q. And I want to focus on the email from you to
5 Maggie Gill right underneath that top email dated
6 Tuesday, December 10th, 2024 at 8:10 p.m.

7 Do you see that?

8 A. Yes.

9 Q. And you said, "Thank you. I appreciate it.
10 Also, Gina did say they could handle without adding
11 resources as well."

12 Do you see that sentence?

13 A. Yes.

14 Q. And if we look down at the very bottom of
15 this page, the first email in this sequence is from
16 Maggie Gill to Regina West, Ricky Ramirez,
17 Teresa Urquhart and Mohammad Aslam, correct?

18 A. Yes.

19 Q. And it has a CC to Shelly Weiss?

20 A. Um-hum.

21 Q. Who is Teresa Urquhart, U-r-q-u-h-a-r-t?

22 A. She was the CEO at Palm Beach Gardens at the
23 time.

24 Q. Okay. And what about Mohammad Aslam, who is
25 he?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 217

1 A. I have no idea who that is. I don't know.
2 I'm drawing a blank there.

3 Q. What about Shelly Weiss?

4 A. She's PR for the group.

5 Q. For the group?

6 A. Yes.

7 Q. Does she work at a specific hospital in
8 addition to her group duties?

9 A. No.

10 Q. And you'll see Maggie Gill is saying to you,
11 "Please send me a request to reintroduce Leapfrog
12 reporting, including rationale, imputed score and
13 clippings of negative press and MD feedback."

14 Do you see that?

15 A. I do.

16 Q. And she says, "I will request an exception
17 for PBHN and PMC to start reporting next period,"
18 correct?

19 A. Yes.

20 Q. What's "PMC"?

21 A. I wonder if that's another group she has.
22 PMC. Palm Beach Health Network and I'm not sure.

23 Q. Okay. And so in response to that email, you
24 say, "And Gina did say they could handle it without
25 adding resources as well."

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 218

1 Do you see that?

2 A. Yes.

3 Q. Is that referring to that Gina said they
4 could handle the Leapfrog Hospital Survey without
5 adding additional resources?

6 A. Adding additional FTE's is what that means
7 really, yeah.

8 Q. Okay. So suffice it to say, is your email
9 saying that you don't have to hire a new person in
10 quality to complete the Leapfrog Hospital Survey?

11 A. Correct.

12 Q. Okay.

13 A. That's what I mean.

14 Q. Between 2020 -- or I'm sorry. Between 2021
15 when Good Samaritan stopped participating and the fall
16 of 2024, do you recall having any meetings with the
17 governing board about participating in the Leapfrog
18 Hospital Survey? With the understanding this is from
19 December of 2025. So I'm asking from 2021 to the fall
20 of 2024 before this email, do you recall any
21 discussions with the governing board about
22 participating in the Leapfrog survey?

23 A. I don't.

24 Q. Okay. And same question with respect to
25 discussions with Palm Beach Health Network. Between

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 219

1 2021 when you stopped participating to the fall of
2 2024, do you recall any conversations with Palm Beach
3 Health Network, whoever that may be, about
4 participating in the Leapfrog survey?

5 A. So essentially after we stopped
6 participating and prior to the ratings coming out in
7 that period is what you're --

8 Q. Correct.

9 A. Do I remember talking to them about
10 participating again? I don't recall ever having that
11 conversation.

12 Q. And it wasn't important to you about
13 participating in the Leapfrog Hospital Survey during
14 that time frame?

15 A. No.

16 Q. Prior -- during the same time period, 2021
17 through the fall of 2024 when the fall of 2024 hospital
18 safety grades came out, do you recall having any
19 conversations with Tenet health system home office,
20 I'll call it, about participating in the Leapfrog
21 survey?

22 A. I don't. I don't recall anything.

23 Q. Do you understand that in that time period,
24 2021 to fall of 2024, the quality personnel at
25 Good Samaritan were monitoring Good Samaritan's

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 220

1 Leapfrog grades?

2 MR. MARCUS: Object to form.

3 A. Were they monitoring? I mean, I know they
4 would get emails of what the grade was going to be, so,
5 I mean, like Gina, I think, specifically would get
6 emails about what the grade is going to be and things
7 like that. Is that what you mean?

8 BY MS. BLAIR:

9 Q. Yes.

10 And do you understand that every score --
11 well, do you understand that the Leapfrog -- now, I'm
12 not talking about the survey anymore. Now we're going
13 to talk about the safety grade for a minute.

14 Do you understand that the Leapfrog hospital
15 safety grade comes out twice a year?

16 A. Spring and fall.

17 Q. Correct. So you have that understanding?

18 A. I do.

19 Q. Do you have an understanding that twice a
20 year before the Leapfrog hospital safety grade comes
21 out Leapfrog provides a calculator to each and every
22 hospital so that they can calculate their own score?

23 A. They send them a calculator?

24 Q. Correct.

25 A. I don't recall that, but...

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 221

1 Q. Okay. Do you have an understanding that at
2 all times since 2021 and before, but at least since
3 2021 that Leapfrog publishes its current scoring
4 methodology on its website for everybody to review?

5 A. I do not.

6 Q. Okay. I want to talk about
7 Good Samaritan's -- I want to focus now a little bit on
8 2023, so this would be the time period before the
9 change in the Leapfrog hospital safety grade
10 methodology. And I think you testified a little bit
11 earlier that Good Samaritan does monitor its CPOE
12 performance regularly, correct?

13 A. Yes.

14 MS. BLAIR: I'll mark this as Exhibit 9 as a
15 group Exhibit.

16 (Defendant's Exhibit Number 9 for i.d.)

17 BY MS. BLAIR:

18 Q. Mrs. Montgomery -- and before we get to this
19 document, I assume Good Samaritan monitors CPOE because
20 it's important to patient safety?

21 A. It is.

22 Q. And can you describe just as a CEO of a
23 hospital how CPOE is important to patient safety?

24 A. Errors. It reduces errors, you know. If
25 the physician is entering an order instead of telephone

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 222

1 order telling someone who is now going to go, another
2 person go and enter an order, you know, they do it
3 directly into the system and don't do telephone orders
4 or tell the nurse what to put into it, so it obviously
5 should be more accurate for sure. It helps with
6 medication errors, too.

7 Q. Okay. And looking at this group Exhibit,
8 and it's several different CPOE, emails about CPOE, you
9 can just kind of flip through it. I think each one is
10 maybe one or two pages, and they all sort of look the
11 same, and they should be in chronological order.

12 And for my record, can you look at the first
13 page of this starts January 6th of 2023, correct?

14 A. Yes.

15 Q. And I think the last email -- and it's
16 miniature. I apologize. That's how it was produced to
17 me -- is from April 3rd, 2024 the very last one.

18 MR. MARCUS: What's the Bates number of the
19 page we're looking at?

20 MS. BLAIR: PBHN, four zeros, 11428 maybe.
21 I'm not sure if my glasses are strong enough
22 here.

23 MR. MARCUS: Okay. Because I don't have a
24 28.

25 MS. BLAIR: You don't have this tiny page?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 223

1 MR. MARCUS: The last -- oh, okay. Yeah.

2 MS. BLAIR: Yes, sorry. It's like
3 impossible to read.

4 MR. MARCUS: Yes. It jumps from 32 to 28?

5 MS. BLAIR: Yeah.

6 MR. MARCUS: Okay.

7 BY MS. BLAIR:

8 Q. And that last one in the sequence,
9 Ms. Montgomery, is that from April of 2024?

10 A. It is.

11 Q. Okay. And are these the documents that
12 Good Samaritan compiled in connection with the request
13 for documents related to CPOE sufficient to simulate?

14 A. I don't know.

15 Q. Okay. If we look at, and we can just look
16 at the first one, I think they're all sort of the same,
17 but the very first one is from Rachael Farahmandfar,
18 F-a-r-a-h-m-a-n-d-f-a-r, correct?

19 A. Yes.

20 Q. Who is she?

21 A. Clinical informatics. She's not with the
22 organization any longer.

23 Q. Was she at the home office level or was she
24 at the Palm Beach network level?

25 A. I'm not sure if she was a group person at

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 224

1 all. I think she was a group lead for informatics, but
2 I'm not 100 percent sure on that.

3 Q. And you see the first line here it says,
4 "Attached is the December CPOE report," correct?

5 A. Yeah.

6 Q. And if we look at the chart that's at the
7 bottom of this page which is Bates number 11534, you
8 see where it says "metric"?

9 A. Yes.

10 Q. And then it's "CPOE percentage all
11 encounters," correct?

12 A. Um-hum.

13 Q. "CPOE percentage inpatient overall,"
14 correct?

15 A. Um-hum.

16 Q. And then the "CPOE percentage inpatient only
17 meds Leapfrog," do you see that?

18 A. I do.

19 Q. What was this measuring with respect to
20 Leapfrog?

21 A. That's a good question.

22 Q. Okay.

23 A. I don't know.

24 Q. And would you agree with me if we turn to
25 the next page, we see that again in the chart at the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 225

1 bottom of page 11477, right? It says, "CPOE percentage
2 inpatient meds Leapfrog," correct?

3 A. Yes.

4 Q. And, again, you don't know what this is
5 measuring?

6 A. I'm not sure.

7 Q. And I will submit to you, and you can look
8 at these, but, again, on page 11457 you've got, again,
9 a reference to Leapfrog and on and on.

10 A. Um-hum.

11 Q. Do you have any understanding as you sit
12 here today what that -- how that CPOE percentage was
13 being calculated as it relates to Leapfrog?

14 A. No.

15 Q. Do you know whether or not the -- whoever
16 was running this in informatics was running the test
17 that Leapfrog puts out in its survey to get to this
18 percentage?

19 A. I can't speak to it.

20 Q. Okay. Do you know who I would need to ask
21 to get an answer about what this reference to CPOE
22 percentage inpatient meds Leapfrog refers to?

23 A. Gina West would probably be able to answer
24 that.

25 Q. Okay. And you can set that aside. I'll

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 226

1 mark this as Exhibit 10.

2 (Defendant's Exhibit Number 10 for i.d.)

3 BY MS. BLAIR:

4 Q. Ms. Montgomery --

5 Are you freezing?

6 A. I'm freezing in here.

7 THE WITNESS: But I didn't realize you're --
8 that's so nice of you to write it down for me,
9 the Exhibit Number.

10 BY MS. BLAIR:

11 Q. I've just handed you what we've now marked
12 as Exhibit 10, which is Bates number PBHN, four zeros,
13 11460. And it's sort of weirdly -- oh, and to 46 --
14 461, is that what you have in front of you?

15 A. 11460.

16 Q. Yes?

17 A. And 11461, yes.

18 Q. Perfect. If we look at this, it's from
19 Regina West to you and others, correct, dated
20 June 13th, 2023.

21 Do you see that?

22 A. Yes.

23 Q. And it's also to Taylor Pool, and we talked
24 about her earlier, correct? She's in the quality
25 department?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 227

1 A. She is.

2 Q. And then it's also CC'd to Ashley Barquin,
3 B-a-r-q-u-i-n. Who was Ashley Barquin?

4 A. She was the ACO at that time at Good Sam.

5 Q. Okay. And if you look on the -- the subject
6 of this is "Stet Media Group releases today this data
7 from Medicare compare on death rates outcomes by
8 hospital."

9 Do you see that subject line?

10 A. I do.

11 Q. What is Stet Media Group?

12 A. I don't know exactly what they are. I just,
13 you know, know that they're a media, local media group
14 is my understanding.

15 Q. Okay. And if you look on the next page
16 11461, Judy Goodman is writing to you June 13th, 2023,
17 and she says, "Dear, Sheri, Stet Media Group, all
18 former Post investigative reporters, are digging
19 through Medicare compare info and pulled out these
20 comparisons about staff vaccination rates, death rates,
21 outcomes, et cetera."

22 Do you see that?

23 A. Um-hum.

24 Q. Does this refresh your recollection of what
25 this Stet Media Group article was?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 228

1 A. No, I really would have to read what I said
2 to really --

3 Q. Okay. And Judy Goodman, for the record, she
4 was a board member in or around June of 2023?

5 A. Yes.

6 Q. Okay. And then your response to Judy is --
7 or I'm sorry. Maybe not to Judy.

8 So if we look at the bottom of 11460, you
9 send an email to Regina West, Taylor Pool and, again,
10 Ashley Barquin, right?

11 A. Right.

12 Q. And the substance of your email is on 11461,
13 and you say, "Check out the death rate for patients
14 with serious treatable complications after a surgery.
15 We are higher than the national average and the
16 majority of our peers."

17 Do you see that?

18 A. I do.

19 Q. Do you recall any conversations you had with
20 the governing board regarding the fact that your death
21 rates for patients with serious treatable complications
22 after surgery was higher than the national average and
23 the majority of your peers?

24 MR. MARCUS: Object to form.

25 A. I don't.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 229

1 BY MS. BLAIR:

2 Q. Do you recall whether Taylor Pool or
3 Ashley Barquin got back to you about your question, "Do
4 you know what is driving this? And do we track
5 mortality rates for surgical patients?"

6 A. Well, it looks like that they responded in
7 the email, right?

8 Q. Right. But do you recall conversation?

9 A. I mean, no. I'm sure we had them.

10 Q. Okay. Do you have any specific
11 recollection -- I might have just asked this so I
12 apologize -- of talking to the governing board about
13 this issue?

14 MR. MARCUS: Object to form.

15 A. I don't recall.

16 BY MS. BLAIR:

17 Q. What about any conversations you may have
18 had with Med Exec regarding the issue raised by
19 Judy Goodman in this email and this Stet news report?

20 A. I don't recall.

21 Q. Okay. Do you know if there was any measures
22 put in place at Good Samaritan to address this issue
23 after June of 2023?

24 A. So I would say we constantly, we review all
25 our mortalities all the time, every one of them and

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 230

1 look for opportunities. A lot of mortalities, like as
2 referenced in here, and things that we have worked on
3 is documenting things that are present on admissions
4 even with infections, for example.

5 So I would say it's obviously a high
6 priority to us all the time any time there is a
7 mortality. And everyone goes through the chart. We
8 have like a three-level review of mortalities.

9 Q. Okay.

10 A. So was it implemented specifically because
11 of this? Not necessarily. We're looking at mortality
12 all the time.

13 I'm sure I was asking what specifically
14 about surgical patients were we an outlier in.

15 Q. Okay. And that would be the job of
16 Regina West, Taylor Pool and their team to sort of
17 monitor that kind of quality information?

18 A. Yeah. I mean, yeah, any mortality, all of
19 them are reviewed immediately by an entire time, so...

20 Q. Okay. And, again, we're still in 2023. And
21 we were talking about that period between 2021 and when
22 the fall safety grades came out in 2024 and about
23 Good Samaritan's position on the Leapfrog Hospital
24 Survey and safety grades during that time. And I want
25 to show you some Exhibits.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 231

1 MR. MARCUS: Do you want to take a break
2 before you get into an new Exhibit?

3 MS. BLAIR: Sure, yeah.

4 MR. MARCUS: Let's do that.

5 THE VIDEOGRAPHER: We're going off the
6 record. The time is 3:28 p.m.

7 (A recess was taken from 3:28 p.m. to 3:51 p.m.)

8 THE VIDEOGRAPHER: We're back on record.
9 The time is 3:51 p.m.

10 BY MS. BLAIR:

11 Q. Ms. Montgomery, right before the break we
12 were talking about how, if at all, Good Samaritan
13 monitored Leapfrog survey measures prior to the fall of
14 2024. And let me show you what we're now going to mark
15 as Exhibit 11.

16 (Defendant's Exhibit Number 11 for i.d.)

17 BY MS. BLAIR:

18 Q. Ms. Montgomery, for purposes of my record,
19 Exhibit 11 is PBHN 11442 at the bottom on the first
20 page. And it ends, this might be -- I can't tell if
21 it's double-sided for you or not, but the last document
22 should be PBHN 11446. Do you have that in front of
23 you?

24 They might be out of order.

25 A. 446? Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 232

1 Q. Yes. And if we look at the first page of
2 this Exhibit, it's from Taylor Pool to you dated
3 November 8th, 2023, correct?

4 A. Yes.

5 Q. And the subject is "Quality Weekly Update."
6 Do you see that?

7 A. Yes.

8 Q. And you get quality -- did you -- do you
9 still get quality weekly updates from Taylor Pool?

10 A. No. She is in a different role now.

11 Q. Do you get them from anyone?

12 A. Yes.

13 Q. Who do you get them from now?

14 A. Erin Britt.

15 Q. Okay. You told me that. Sorry. And if we
16 look at this, document specifically starting at 11442,
17 she says, second full sentence, "GSMC scored a C, as
18 did all other hospitals in PBHN."

19 Do you see that?

20 A. Yes.

21 Q. And she says here, "I've attached a Leapfrog
22 calculator that shows our hospital score."

23 Do you see that?

24 A. Um-hum.

25 Q. And I think if you turn to maybe the last

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 233

1 page of your Exhibit is the calculator itself. Mine
2 might be out of order.

3 Do you see that there?

4 A. Yes.

5 Q. And I had asked you a question earlier about
6 whether or not you knew that Leapfrog freely provides a
7 calculator to every hospital whether they participate
8 in the survey or not for them to calculate their grade.
9 Does this refresh your recollection that, in fact,
10 Leapfrog does provide that calculator?

11 A. So I'm not really sure if I was necessarily
12 aware this calculator was from Leapfrog, but, yes, I
13 understand.

14 Q. And if you see here the last sentence of
15 that or the second to last sentence of that first full
16 paragraph Taylor says, "Most of the measures include
17 data from 2020 through 2022."

18 Do you see that?

19 A. Yes.

20 Q. Do you understand that to be a reference to
21 the fact that the CMS data that we discussed earlier
22 today is lagging?

23 A. Yes.

24 Q. And then you see here she says, "Our biggest
25 opportunities for Leapfrog reporting period are as

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 234

1 follows:"

2 And she has one, two, three, four, five,
3 six, seven bullet points, correct?

4 A. Yes.

5 Q. And then right below this bullet point she
6 says, "The measures with the greatest negative impact
7 on our grade are PSI 90."

8 Do you see that?

9 A. Um-hum.

10 Q. What do you understand PSI 90 to be?

11 A. It is a composite score of like 10 or 11
12 measures. I think they're all the PSIs added together
13 and there's a composite score is my understanding.

14 Q. And the PSI comes from CMS, correct?

15 A. Correct.

16 Q. All right. And she then says, "I put all of
17 the outcome quality measures at the mean, and it was
18 not enough to move us to a B."

19 Do you see that?

20 A. Yes.

21 Q. What do you understand her to mean "the
22 outcome quality measures"?

23 A. "Of all the outcome quality measures..."

24 "Of all the outcome quality measures..."

25 I would say it's putting all the quality

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 235

1 measures in the scorecard at the mean.

2 Q. Okay. And did you understand or do you
3 understand as you look at this Exhibit here today that,
4 in fact, the -- these bullet points that Taylor has
5 listed, the, what did I say, seven points, were below
6 the mean?

7 A. I don't know, but she's saying our biggest
8 opportunity are these areas.

9 Q. And if we look at the calculator that is
10 attached, and I believe it's the last page of your
11 Exhibit, if we look at, do you see where it says
12 "Process Structural Measures" on left column?

13 A. Yes.

14 Q. And if you look at the first three of those
15 measures, computerized -- it's CPOE, BCMA and IPS, ICU
16 physician staffing. Do you see that?

17 A. I do.

18 Q. And at this point in time Good Samaritan was
19 given 100 points out of 100 points for those measures,
20 correct?

21 A. Okay.

22 Q. Did you understand that these three measures
23 came from the hospital survey?

24 A. On this scorecard?

25 Q. Correct.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 236

1 A. I'm sure at the time I would say, yes, if
2 that's what she provided when we had the C.

3 Q. Okay. And, well, in fact, in 2023, you were
4 not -- you were not engaging in the Leapfrog Hospital
5 Survey, correct?

6 A. Right, we weren't.

7 Q. Right. And my question was very inartful so
8 I apologize.

9 Do you understand that of these measures
10 that are listed on the calculator several of them come
11 from CMS; whereas, others would come from the Leapfrog
12 Hospital Survey?

13 A. Yes.

14 Q. And so my question is, do you understand
15 that the first three measures listed here, CPOE, BCMA
16 and ICU physician staffing, would, if Good Samaritan
17 had participated in the survey, have come from
18 Good Samaritan survey results?

19 A. Right.

20 Q. And do you understand that Good Samaritan
21 was getting 100 out of 100 points on those measures
22 even though it wasn't participating, correct?

23 MR. MARCUS: Object to form.

24 A. For 2023?

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 237

1 Q. Correct.

2 A. It looks that way if this is the report
3 card, yes.

4 Q. And then we look a few lines down, do you
5 see hand hygiene?

6 A. Yes.

7 Q. And, in fact, Good Samaritan was getting
8 100 percent on hand hygiene on this scorecard, correct?

9 A. Yes.

10 Q. And in '23, Good Samaritan was not
11 participating in the Leapfrog Hospital Survey, correct?

12 A. That's right.

13 Q. And you understand, though, that
14 Good Samaritan was, nevertheless, receiving a perfect
15 score for hand hygiene, even though it didn't
16 participate in the survey?

17 A. They were what?

18 Q. Receiving a perfect score for hand hygiene,
19 correct?

20 A. Yes.

21 Q. Do you understand how that score was being
22 calculated in November of 2023 with respect to CPOE,
23 BCMA, ICU physician staffing and hand hygiene to give
24 Good Samaritan a 100?

25 A. Do I understand what Leapfrog did?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 238

1 Q. Correct.

2 A. My understanding is, from what I was -- what
3 was told to me is that they took previous information
4 and carried it forward maybe for several years. That's
5 my understanding, but...

6 Q. Have you ever been told that the way that
7 score was being calculated at a perfect score for
8 nonparticipating hospitals was by assigning
9 nonparticipating hospitals the mean score of its
10 cohorts?

11 MR. MARCUS: Object to form.

12 A. Tell me that again. Say it again.

13 BY MS. BLAIR:

14 Q. Sure. Did you ever have an understanding
15 that the way this grade was being calculated was that
16 Leapfrog would look at Good Samaritan's cohorts, like
17 hospitals, hospitals like Good Samaritan and then
18 assign Good Samaritan as a nonparticipating hospital
19 the median score -- or I'm sorry -- the mean score of
20 that cohort in order to calculate its score for the
21 four imputed measures?

22 MR. MARCUS: Object to form.

23 A. So for the imputed measures, not here?

24 BY MS. BLAIR:

25 Q. Well, those are the imputed measures,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 239

1 correct, we just talked about them, the first three?

2 A. Yeah, but -- yeah, but that's not what the
3 scores are now. So in this scorecard, you're saying --
4 because there's a difference now --

5 Q. Correct.

6 A. -- than here.

7 Q. Right. So I want to stick with in 2023 --

8 A. Right.

9 Q. -- did you understand that those perfect
10 scores, the 100s, were being generated by giving
11 nonparticipating hospitals the mean score for their
12 cohorts?

13 "Cohorts."

14 A. No, that was not my understanding.

15 Q. Okay. So your understanding was that that
16 score was coming from past surveys?

17 A. That's what I was told at one point.

18 Q. Did you ever have a conversation with
19 Taylor Pool as to how you were getting -- or how
20 Good Samaritan was getting 100s for those four imputed
21 measures in or around 2023?

22 A. I mean, I don't recall.

23 (Defendant's Exhibit Number 12 for i.d.)

24 MS. BLAIR: We'll mark this one as 12.

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 240

1 Q. Ms. Montgomery, I'm now handing you what
2 we've marked as Montgomery Exhibit 12. And if we look
3 at this, this is, again, an email from Taylor Pool to
4 you. This one is dated April 29th, 2024, subject line,
5 "Weekly Quality Update."

6 Do you see that?

7 A. Yes.

8 Q. And, again, if we read this first full
9 paragraph, the second -- or, I'm sorry -- the third
10 sentence says, "Additionally, preliminary Leapfrog
11 grades have been released. We will remain a C."

12 Do you see that?

13 A. Yes.

14 Q. Does this refresh your recollection that
15 Good Samaritan was monitoring its Leapfrog grades and
16 monitoring them closely, correct?

17 MR. MARCUS: Object to form.

18 A. Yeah, as I stated before, I believe they
19 send emails to the quality directors informing them or,
20 you know, that the grades are coming out in the fall
21 and spring, I believe.

22 BY MS. BLAIR:

23 Q. Okay. And Taylor says to you here, the last
24 sentence of this, of the first full paragraph, "The top
25 five measures that had the greatest negative impact on

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 241

1 our Leapfrog grade as follows:"

2 And the first four are all patient
3 experience measures, and the last is outcome falls and
4 trauma.

5 Do you see that?

6 A. Yes.

7 Q. And then she says in the first full, or
8 second full paragraph, "Moving these five measures to
9 the national mean would increase our letter grade to a
10 B."

11 Do you see that?

12 A. I do.

13 Q. Do you recall whether or not in around April
14 of 2024 you were interested in moving Good Sam's
15 Leapfrog safety grade up?

16 A. I don't recall honestly.

17 Q. Who is Michelle Thoman, T-h-o-m-a-n. I've
18 not seen her name before.

19 A. She was the COO at Good Sam.

20 Q. Okay. And she is not still the COO at
21 Good Sam?

22 A. No.

23 MS. BLAIR: Can you mark this one as 13?

24 (Defendant's Exhibit Number 13 for i.d.)

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 242

1 Q. Ms. Montgomery, again, I've handed you what
2 we've now marked as Exhibit 13, which is PBHN 11409
3 through 11411. Again, this is an email from
4 Taylor Pool. And this is just days later after what
5 we've marked as Exhibit 12 to you, "Subject: Weekly
6 quality update."

7 And she writes, "In order to reach the mean
8 in patient experience measures, we'd need to improve
9 the following by the following percentage points."

10 Do you see that?

11 A. Yes.

12 Q. And, in fact, this is a response from you --
13 this is a response to your email at the bottom of this
14 page from May 1st where you say, "Thank you for the
15 info on Leapfrog. How many percentage points would we
16 need to move to get to national mean?"

17 Do you see that?

18 A. I do.

19 Q. Does this refresh your recollection as to
20 whether or not you as the CEO of Good Samaritan in or
21 around May of 2024 were -- did care about your Leapfrog
22 Hospital Survey grades?

23 A. I would say if the quality director sends
24 me, Hey, this is what it would take to be a B, I would
25 naturally ask, Hey, what percentage points is that to

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 243

1 be a B, because at this point we weren't responding,
2 so...

3 Q. Right.

4 MS. BLAIR: Can you mark this one as
5 Exhibit 14?

6 (Defendant's Exhibit Number 14 for i.d.)

7 BY MS. BLAIR:

8 Q. Mrs. Montgomery, I've now handed you what
9 we've marked as Exhibit 14. My question about this one
10 is, the --

11 Well, for the record, it's PBHN 11398
12 through 40 -- 11401, correct? Is that what you have in
13 front of you?

14 A. 98.

15 Q. To 401.

16 A. Yes.

17 Q. Okay. And do you see how it says,
18 "Subject - America's Best Hospitals Ranked"?

19 A. Yes.

20 Q. Do you know what that refers to?

21 A. I'm not really sure, but...

22 Q. Yeah, and if we look at 11400, PBHN 11400,
23 it looks like you initiated this email string by
24 forwarding something. And I don't have the what you
25 forwarded, and I'm just curious if you have this. It

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 244

1 refers to Jim Zisson on the last page.

2 A. Right. He must have sent "America's Best
3 Hospitals Ranked" to me, some article.

4 Q. And who is Jim Zisson, Z-i-s-s-o-n?

5 A. He's just, you know, he's been a patient at
6 the hospital, been in the community a long time.

7 Q. He doesn't sit on the board?

8 A. No, he doesn't, huh-uh.

9 Q. And who is Dr. Ray Sekula, S-e-k-u-l-a?

10 A. I'm not sure who that is.

11 Q. What about Dr. Simovitch, S-i-m-o-v-i-t-c-h?

12 A. He is an orthopedic surgeon.

13 Q. Is he at Good Samaritan?

14 A. Yes, and Jupiter. And he is employed by
15 HSS.

16 Q. What's HSS?

17 A. Hospital for Special Surgeries.

18 Q. Okay. And he's got, that's .edu. Is that
19 an educational foundation or something?

20 A. HSS is -- address is that, I think that they
21 have like GME or orthopedic surgeons training at their
22 hospital in New York. That's probably why it's a
23 .edu, I'm guessing.

24 Q. Okay. And then there is Raul Rosenthal. Do
25 you know who he is?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 245

1 A. I do not.

2 Q. Do you have any understanding of why
3 Mr. Zisson would be sending this to all of you?

4 A. I mean, he was -- Jimmy has always been
5 engaged with Good Sam, and, you know, his parents many,
6 many years ago donated money to Good Samaritan, so he's
7 just tied in the community and would come in the
8 hospital a lot to visit kind of deal.

9 Q. Got it. And if you look at PBHN 11399,
10 looks like Taylor Pool is putting together some sort
11 of, quote, really quick breakdown of the different
12 publicly reported scores for hospital in Palm Beach
13 County.

14 Do you see that chart?

15 A. I do.

16 Q. Did you ask her to put that together?

17 A. I don't recall doing that. I probably just
18 sent her this article and...

19 Q. And the top message on the first page of
20 this Exhibit, Colleen Thielk says, "Thank you for
21 putting this together. We are going to be moving
22 up!!!!!"

23 Do you see that?

24 A. I do.

25 Q. Do you know what she's referring to? Moving

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 246

1 up how?

2 A. I don't want to speculate.

3 Actually, she's not on the email, is she,
4 originally, Taylor?

5 "Moving up" to me would be continuing to
6 improve on our scores is what the CNO, I'm sure, is
7 referring to.

8 Q. Okay. But you don't know as you sit here
9 today whether that specifically refers to Leapfrog?

10 A. I do not.

11 MS. BLAIR: Can we mark this one as 15?

12 (Defendant's Exhibit Number 15 for i.d.)

13 BY MS. BLAIR:

14 Q. Mrs. Montgomery, I've now handed you what
15 we've marked Exhibit 15. Can I just see yours real
16 quick, the first page of that?

17 Okay. Good. This is the first page is
18 PBHN 11018, correct?

19 A. Yes.

20 Q. Excellent.

21 And you see the subject is "CI scope of work
22 and associated transition"?

23 A. Yes.

24 Q. And do you have any understanding, what does
25 "CI" refer to?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 247

1 A. I'm thinking -- CI. CI could be clinical
2 informatics. Let me see.

3 (A discussion was held off the record.)

4 BY MS. BLAIR:

5 Q. And I'll just explain to you,
6 Ms. Montgomery, as you look through this document, the
7 first page of this, which is like literally impossible
8 for me to read, what I did was blow it up two times, so
9 this is how it was produced to me, this first page.

10 A. Okay.

11 Q. The second page I'm blowing it up a little
12 more.

13 A. Um-hum.

14 Q. And then this is a cut of this top part, and
15 I really want to specifically -- I have two questions
16 for you about this document. One, what does "CI" refer
17 to, if you know?

18 MR. MARCUS: Before you ask her a
19 question --

20 MS. BLAIR: Yes.

21 MR. MARCUS: -- just to clarify the
22 record --

23 MS. BLAIR: Yes.

24 MR. MARCUS: -- because there's no Bates
25 number --

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 248

1 MS. BLAIR: Right.

2 MR. MARCUS: -- I assume that these were
3 provided to you in native form --

4 MS. BLAIR: In native.

5 MR. MARCUS: -- as an Excel, right?

6 MS. BLAIR: Correct. And I can tell you
7 that the native, it is PBHN 000011020. And so
8 these are just zoomed-in versions of the same
9 document so somebody could read it.

10 MR. MARCUS: For the record, are you
11 representing, so the last page is a zoomed
12 version of which, because there's two pages in
13 front of it?

14 MS. BLAIR: They're all the same. So the
15 first page is how it was produced, like the
16 microscopic. The second page, I blew it up a
17 little more. And the third page goes to -- and
18 you can see it -- one, two, three, four, five,
19 six, seven rows. It's just the first seven rows
20 of this giant spreadsheet.

21 MR. MARCUS: Right. But not the rest.
22 Okay.

23 MS. BLAIR: But not the rest. Yeah, so I
24 was just kind of making sure everybody could
25 read it.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 249

1 BY MS. BLAIR:

2 Q. So my first question, Ms. Montgomery, is, do
3 you know what "CI" refers to?

4 A. Clinical informatics.

5 Q. Okay. And clinical informatics is what?

6 A. It's really a position that we have at the
7 hospital that they're responsible for, you know, all
8 the Cerner training and Cerner training for physicians
9 and staff, that type of stuff.

10 Q. Okay. And if we turn to the very last page
11 of this document, which, for the record, is
12 PBHN 000011020. It's not on your document, but it's
13 the native that was produced. And I've blown up the
14 last several rows on that spreadsheet so you could read
15 it.

16 And I really just want to focus on this last
17 line here.

18 Do you see where it says "Audit Quality
19 Metrics Leapfrog testing"?

20 A. Yes.

21 Q. Do you know what that's referring to?

22 A. I don't.

23 Q. And if we go to the third column, it says
24 "Deployment Assignment Quality Pharmacy Administration
25 Sponsor." Do you know what that refers to?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 250

1 A. No.

2 Q. And the last, "approximate time, two hours,"
3 do you see that?

4 A. Yeah.

5 Q. Do you have any idea what that refers to?

6 A. No.

7 Q. And then the last column says, "Approved
8 yes/no," and it says "yes," correct?

9 A. Correct.

10 Q. Do you know what that refers to?

11 A. Based on this email from Ram, attached is
12 approved list of work that will be transitioned back to
13 the hospital staff who currently report through CEO,
14 CFO and CNOs.

15 Q. And so at some point do you understand,
16 then, that Tenet home office was monitoring Leapfrog?

17 MR. MARCUS: Object to form.

18 A. My understanding of this email is they, the
19 CIs were, "Thank you for your patience as we've worked
20 through the CI scope of responsibility with our Tenet
21 executives and identified work that is considered
22 hospital operations."

23 This email is just stating, Hey, we're not
24 going to have the CIs do this any longer. We're going
25 to transition it to hospital operators.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 251

1 BY MS. BLAIR:

2 Q. Okay. But in terms --

3 A. That's what I understand it to mean.

4 Q. In terms of that last sheet, you really
5 don't understand what that relates to as it relates to
6 Leapfrog, correct?

7 A. I do not.

8 Q. And who would be the best person to ask what
9 that means?

10 A. You go to Gina or you could go to there's a
11 group clinical informatics. I can't recall his name.

12 Q. Okay.

13 A. We could provide that name.

14 Q. I don't --

15 A. That's who I would -- or Ram.

16 Q. Yeah, he's on there.

17 A. Ram probably knew it very well it sounds
18 like.

19 Q. I want to transition a bit to these
20 pay-to-play allegations that we discussed earlier.
21 Would you agree with me that you've been pretty
22 outspoken in the media that, in fact, Leapfrog is a
23 pay-to-play organization?

24 MR. MARCUS: Object to form.

25 A. Yes, I have made a statement.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 252

1 BY MS. BLAIR:

2 Q. And I think we talked a little bit earlier
3 that the genesis of that statement is based on
4 conversations you had with other people related to
5 payments that you believe Leapfrog takes in order to
6 influence grades, correct?

7 MR. MARCUS: Object to form.

8 A. No, I mean, my -- the statement for pay to
9 play is really, in my words, having to participate.
10 And the participation really is your payment, and as a
11 result, you won't be penalized because essentially we
12 were penalized for not playing --

13 BY MS. BLAIR:

14 Q. Got it.

15 A. -- with the imputed scores.

16 Q. So you weren't referring to -- you were not
17 referring to this consulting situation where hospitals
18 could pay or you believe hospitals could pay Leapfrog
19 consulting fees to get better grades?

20 A. I mean, the payment I was referring to was
21 participating.

22 Q. Oh, okay.

23 And so would you agree with me that there is
24 no fee to participate in the survey?

25 A. Correct.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 253

1 Q. And did you tell me that you currently
2 utilize Press Ganey in connection with the review of
3 your HCAHPS scores?

4 A. Yes.

5 Q. And do you know who at Press Ganey
6 specifically you deal with?

7 A. No. It's normally the CNO would be
8 communicating with the Press Ganey individuals.

9 MS. BLAIR: And I'll mark this as 16.
10 (Defendant's Exhibit Number 16 for i.d.)

11 BY MS. BLAIR:

12 Q. Ms. Montgomery, I'm handing you a document.
13 The Bates labels on these are PBHN 5827 through 5829.
14 Is that the document you have in front of you?

15 A. Yes.

16 Q. Oh, wait. It looks like you have two
17 documents.

18 A. Do I have 5829? Oh, I have two copies.

19 MS. BLAIR: I have an extra copy if you want
20 it.

21 BY MS. BLAIR:

22 Q. Sorry.

23 And this is an email, the top email in this
24 chain is Naomi Seymour to Kathleen McDonald. Do you
25 see that?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 254

1 A. Yes.

2 Q. Who are these people?

3 A. Naomi is the CNO of Palm Beach Gardens
4 Medical Center.

5 Q. Okay. And if we look at two emails below
6 that, you've got Ricky Ramirez on this email chain as
7 well, correct?

8 A. Yes.

9 Q. And the subject line of that Ricky Ramirez
10 and of all these emails is "Recommendation: Tenet Palm
11 Beach Group Improvement Strategy." Do you see that?

12 A. I do.

13 Q. What is your understanding in or around
14 January 7th of 2025 as to the "Tenet Palm Beach Group
15 Improvement Strategy"?

16 A. My understanding from reviewing this is that
17 Press Ganey individual maybe called it the Tenet Palm
18 Beach Group Improvement Strategy."

19 Q. Okay. And do you know whether or not
20 Palm Beach Health Network reached out to Press Ganey
21 for an improvement strategy?

22 A. Well, Colleen, my CNO, reached out to
23 Press Ganey to have them come and do a visit.

24 Q. Okay. And if we look at the last page of
25 this Exhibit, 5829, and the second full paragraph,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 255

1 Maika, M-a-i-k-a, Joiner of Press Ganey says,
2 "Good Sam's outreach is very timely. The Leapfrog
3 Group released its fall 2024 hospital safety grade
4 which evaluates hospitals' ability to prevent medical
5 errors and accidents and infections. The Leapfrog
6 hospital safety grade is the only hospital ratings
7 program focused exclusively on preventing medical
8 errors and patient harm. It is fully transparent, free
9 to the public."

10 Do you see that?

11 A. I do.

12 MR. MARCUS: Object to form.

13 BY MS. BLAIR:

14 Q. Did you have any reservations about engaging
15 with Press Ganey with respect to an improvement
16 strategy in light of the fact that they were taking the
17 position that the Leapfrog group's safety grade is
18 fully transparent and free?

19 MR. MARCUS: Object to form.

20 A. I mean, I wasn't on this email, to my
21 knowledge.

22 BY MS. BLAIR:

23 Q. But Taylor Pool had told you before this
24 that it was free, correct?

25 A. That, what, that Press Ganey?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 256

1 Q. That Leapfrog was free.

2 A. Oh. Doing the survey, yes.

3 Q. Correct.

4 Did you have any understanding around
5 January of 2025 that Press Ganey was, in fact, going to
6 be giving Palm Beach group an improvement strategy?

7 MR. MARCUS: Object to form.

8 A. No.

9 BY MS. BLAIR:

10 Q. Have you had any conversations with
11 Press Ganey as we sit here today about Leapfrog?

12 A. No.

13 Q. Do you have any reason to believe that
14 Press Ganey's statements that the Leapfrog survey is
15 transparent and free to the public?

16 MR. MARCUS: Object to form.

17 A. Do I have what? Say that again. What's the
18 question?

19 BY MS. BLAIR:

20 Q. Do you have any reason to believe that
21 Press Ganey's statements in this -- in this document
22 that say the Leapfrog hospital safety grade -- I said
23 survey before -- but safety grade is the only hospital
24 ratings program focused exclusively on preventing
25 medical errors and patient harm? It is fully

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 257

1 transparent, free to the public and updated by annually
2 in the fall and spring."

3 Do you have any reason to believe that
4 Press Ganey's statement in that regard is in error?

5 MR. MARCUS: Same objection.

6 A. I do.

7 BY MS. BLAIR:

8 Q. And what is that?

9 A. It is not fully transparent.

10 Q. What is not transparent about it?

11 A. There -- the survey is voluntary, and a
12 grade was given to my hospital, Good Sam, without
13 completing a survey, and there are seven measures that
14 equate to 35 percent of the score that we did not
15 provide, and then we were given really low scores for
16 those seven measures because we probably didn't have
17 access to the measures, and that's not transparent to
18 me.

19 Q. Well, do you understand that for three of
20 those seven measures you didn't -- it was just not
21 applicable, and they didn't score you on those
22 measures?

23 A. Which also changes the weighting of
24 everything else.

25 Q. Do you understand that in all of the years

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 258

1 you weren't participating from 2021 to 2024 you were
2 receiving a grade?

3 MR. MARCUS: Object to form.

4 A. I'm aware.

5 BY MS. BLAIR:

6 Q. And, in fact, we -- and you weren't
7 participating in the survey during that time, correct?

8 A. We were not.

9 Q. And we just saw several Exhibits where
10 Good Sam was monitoring its hospital safety grade,
11 correct?

12 MR. MARCUS: Object to form.

13 A. I would say that we know when the grades are
14 coming out and communication about the grades is
15 obviously in those emails.

16 BY MS. BLAIR:

17 Q. Okay. And you were looking for ways to
18 improve your Leapfrog score, correct?

19 MR. MARCUS: Object to form.

20 BY MS. BLAIR:

21 Q. You saw those emails earlier?

22 A. Right.

23 Q. And at no time did anybody from
24 Good Samaritan reach out to Leapfrog and say, "We
25 should not be graded because we're not participating in

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 259

1 your hospital survey," correct?

2 A. Not to my awareness.

3 Q. And I want to provide you with what we're
4 now going to mark as Exhibit 18.

5 THE STENOGRAPHER: 17.

6 MS. BLAIR: 17, yes, you're correct.

7 (Defendant's Exhibit Number 17 for i.d.)

8 BY MS. BLAIR:

9 Q. There is an email from you, Ms. Montgomery,
10 to Colleen Thielk dated May 1st, 2025. Do you see
11 that?

12 A. Yes.

13 Q. It is Bates labeled PBHN 1188 through 1191,
14 correct?

15 A. Yes.

16 Q. Your email says, "This went to GB and
17 medical staff," dot, dot.

18 Do you see that?

19 A. I do.

20 Q. And "GB" would be the governing board,
21 correct?

22 A. Correct.

23 Q. And as we discussed earlier today, the
24 governing board is Good Sam's board of directors,
25 correct?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 260

1 A. Yes.

2 Q. And would the medical staff be the medical
3 staff of Good Samaritan?

4 A. Yeah, I believe it went to the medical
5 staff.

6 Q. And attached to this email is a document
7 that says, "Palm Beach Health Network filed legal
8 Complaint against Leapfrog," correct?

9 A. Correct.

10 Q. And that message, if we turn to 8190...

11 THE VIDEOGRAPHER: Can I change the tape
12 while you do that?

13 MS. BLAIR: Yeah, sure.

14 THE VIDEOGRAPHER: This ends the media unit
15 three. We're going off the record 4:31 p.m.

16 (A recess was taken from 4:31 p.m. to 4:31 p.m.)

17 THE VIDEOGRAPHER: We are back on the
18 record. The time is 4:31 p.m.

19 BY MS. BLAIR:

20 Q. Okay. Ms. Montgomery, I was just asking you
21 about this attachment to your email, which is --
22 appears to be authored by Maggie Gill, group president.

23 Do you see that?

24 A. Yes.

25 Q. Did you have any hand in drafting this

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 261

1 before you sent it to the governing board and the
2 medical staff?

3 A. I don't recall doing that, no.

4 Q. But you did, in fact, send it to the
5 governing board and medical staff per your cover email,
6 correct?

7 A. Yes.

8 Q. And if we look at the third full paragraph,
9 this document says, "Beginning last year, Leapfrog" --
10 "Leapfrog began actively punishing hospitals that did
11 not pay to participate in its flawed survey."

12 Do you see that?

13 A. I do.

14 Q. That's not true, is it?

15 MR. MARCUS: Object to form.

16 A. Well, depends on how you want to look at it.
17 You're thinking money to directly to Leapfrog. Our
18 payment is the participation, and there's payment to
19 all of our staff that have to complete the survey. So
20 there is a form of payment. It's just not to Leapfrog.
21 BY MS. BLAIR:

22 Q. Okay. But you say here, "Punishing
23 hospitals that did not" -- you don't say "that did not
24 participate." You say "that did not pay to
25 participate," correct?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 262

1 MR. MARCUS: Object to form.

2 A. Correct.

3 BY MS. BLAIR:

4 Q. And you expect the reader to understand that
5 that means you didn't pay in terms of resources to
6 complete the survey, and they should not take that to
7 mean monetary payment?

8 MR. MARCUS: Same objection.

9 A. I didn't expect the readers to -- I wasn't
10 trying to do anything here.

11 BY MS. BLAIR:

12 Q. What do you think your governing board
13 thought when they read that you did not pay to
14 participate in the flawed survey?

15 A. My governing board knows exactly what it's
16 about, and they now how it works, and they know it's a
17 voluntary survey.

18 Q. So the word "pay," the rider is supposed to
19 believe that that is referring to the resources and
20 time to fill out the survey, correct?

21 MR. MARCUS: Object to form.

22 BY MS. BLAIR:

23 Q. That's your testimony?

24 A. That is the payment that I consider a
25 payment.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 263

1 Q. And if we start the sentence that starts on
2 the -- at the end of 8189, "In essence, Leapfrog,
3 issues a zero score."

4 Do you see that, where it says "zero score"
5 on the top of 8109?

6 A. Yes.

7 Q. "...for any survey fields left blank."
8 Is that true?

9 A. Actually, if you look at it, I guess three
10 of the areas are zero, which are -- well, they're N/A,
11 and the other four are, I would not say they were zero.

12 Q. Okay. And you understand that the Complaint
13 that was filed in this action also claims that there
14 are -- there was payment by hospitals to participate in
15 this survey. Do you understand that allegation is made
16 in this Complaint?

17 MR. MARCUS: Object to form.

18 A. I'd have to re-review the document.

19 BY MS. BLAIR:

20 Q. As you sit here right now, do you know
21 whether or not that allegation is made in the
22 Complaint?

23 MR. MARCUS: Same objection.

24 A. I don't recall. I'd have to see the form.

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 264

1 Q. Would you agree with me, though, as we sit
2 here today that there is no money exchanged between
3 hospitals that participate in the survey and Leapfrog
4 for the hospitals' participation in the survey?

5 MR. MARCUS: Object to form.

6 A. A payment to Leapfrog --

7 BY MS. BLAIR:

8 Q. Correct.

9 A. -- just to complete the survey?

10 Q. Correct.

11 A. I would agree with that statement.

12 Q. And we went over this earlier, but have you
13 ever seen a single document in this litigation that
14 Leapfrog pressures hospitals to pay for consulting
15 services in exchange for better grades?

16 A. I think the pressure really is to complete
17 the survey.

18 MS. BLAIR: I'm going to mark this one as

19 18.

20 (Defendant's Exhibit Number 18 for i.d.)

21 BY MS. BLAIR:

22 Q. Ms. Montgomery, I'm handing you now what
23 we've marked Exhibit 18, which is PBHN 8116. It's an
24 email from Shelly Weiss to several people, including
25 yourself, and the subject line is "CBS 12 Leapfrog

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 265

1 Story."

2 And if we go down to the second to last full
3 paragraph at the end of the page, it starts, "The
4 hospital has accused Leapfrog," do you see that?

5 A. Okay. Yes.

6 Q. And the second sentence in that paragraph
7 says, "They allege Leapfrog pressures hospitals to pay
8 for consulting services in exchange for better grades."

9 It says, "...consulting services and
10 promotional licenses in exchange for better grades,"
11 but I want to focus on consulting services.

12 Have you seen any documents in this
13 litigation to substantiate the allegation by these
14 hospitals, these plaintiff hospitals that Leapfrog
15 pressures hospitals to pay for consulting services?

16 MR. MARCUS: Object to form.

17 A. I have not.

18 BY MS. BLAIR:

19 Q. And have you ever seen any evidence that
20 payment for consulting services would be in exchange
21 for better grades?

22 MR. MARCUS: Same objection.

23 A. Say that again.

24 BY MS. BLAIR:

25 Q. Have you ever seen any evidence in this --

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 266

1 produced in this litigation or anywhere else that
2 Leapfrog pressures hospitals to pay for consulting
3 services in exchange for better grades?

4 MR. MARCUS: Same objection.

5 A. Like I said before, I'd say the pressure is
6 completing the survey.

7 BY MS. BLAIR:

8 Q. That's not what this says. This says,
9 "pressures hospitals to pay for consulting services."
10 This isn't even related to the survey, is it?

11 MR. MARCUS: Object to form.

12 A. From what I'm reading.

13 BY MS. BLAIR:

14 Q. Okay. But have you ever seen any evidence
15 that hospitals pay Leapfrog for consulting services in
16 exchange for better grades?

17 A. I have not.

18 Q. And we talked a little bit about the
19 methodology prior to fall of 2024, and you would agree
20 with me that the seven measures that you keep
21 discussing consists of three measures for which a
22 nonparticipating hospital gets an N/A and four measures
23 for which there is an imputed score, correct?

24 A. Correct.

25 Q. And I asked you this before, but do you have

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 267

1 an understanding as to how the imputed score for those
2 four measures was decided prior to fall of 2024?

3 A. No.

4 Q. Okay. Do you believe that under the prefall
5 of 2024 grading system it was deceptive of Leapfrog not
6 to tell consumers that Good Samaritan was actually
7 earning 100 points for those four measures without
8 providing any data?

9 MR. MARCUS: Object to form.

10 A. Do I think it was deceptive of Leapfrog?

11 BY MS. BLAIR:

12 Q. Correct.

13 A. My thoughts is we should -- as long as we
14 weren't participating, we shouldn't have had a grading
15 period.

16 Q. Right. And so my question is, you did have
17 a grade, correct?

18 A. We did have a grade.

19 Q. And for those four measures that we call the
20 imputed measures, Good Samaritan was getting a perfect
21 score for those four measures prior to the fall of
22 2024, correct?

23 A. Correct.

24 Q. And do you have an understanding that the
25 grade that Good Samaritan was receiving prior to the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 268

1 fall of 2024 was based on how participating hospitals
2 were doing in those four measures on the Leapfrog
3 Hospital Survey?

4 MR. MARCUS: Object to form.

5 A. No.

6 BY MS. BLAIR:

7 Q. You don't understand that's how your scores
8 were being --

9 A. No, I did not.

10 Q. Okay. Do you think that's a fair way of
11 doing the methodology to give nonparticipating
12 hospitals a score based on how participating hospitals
13 were performing on those four measures?

14 A. No.

15 Q. And we saw several emails -- or, sorry,
16 several Exhibits which were emails, which I believe
17 were probably Exhibits 11, 12, 13, 14, about how
18 Taylor Pool was advising you regarding Leapfrog
19 measures in which Good Samaritan was lagging behind its
20 competitors.

21 Do you recall seeing those Exhibits?

22 MR. MARCUS: Object to form.

23 A. I recall seeing where she was saying where
24 the opportunities were, yes.

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 269

1 Q. And none of those measures were the four
2 imputed measures, correct?

3 MR. MARCUS: Same objection.

4 A. I don't recall. I don't think so.

5 BY MS. BLAIR:

6 Q. Okay. Do you believe that Good Samaritan
7 was gaming the system by riding the coattails of other
8 hospitals in their cohort to get 100 percent on the
9 four imputed measures prior to the fall of 2024?

10 A. We didn't give ourselves those grades so we
11 weren't gaming anything.

12 Q. But, in fact, you were getting the same
13 grades as other hospitals in your geographic area that
14 were participating in the survey, were you not?

15 A. That's what you're telling me.

16 Q. Do you believe the scores that
17 Good Samaritan was receiving on the four imputed
18 measures, BCNA, CPOE, hand hygiene and ICU physician
19 staffing, prior to the fall of 2024 accurately
20 reflected Good Samaritan's performance on those
21 measures?

22 MR. MARCUS: Object to form.

23 A. Well, from what you showed me on that report
24 card, if it's 100 percent on every measure, I don't
25 know. I'd have to look and see what everything is now.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 270

1 I mean, I would think most hospitals aren't perfect,
2 but depends on everything that the survey asks. I'd
3 have to go through it.

4 BY MS. BLAIR:

5 Q. Do you have any understanding as to why
6 Leapfrog implemented the scoring change in fall of 2024
7 with respect to those four measures?

8 A. No.

9 Q. Have you ever looked at the members of the
10 Leapfrog safety grade expert panel?

11 A. I don't believe so.

12 Q. So as you sit here today, you have no
13 understanding of whether or not the members of the
14 Leapfrog safety grade expert panel are qualified to
15 provide expert opinions about imputation modeling for
16 those four measures?

17 MR. MARCUS: Object to form.

18 A. I don't recall. I mean, I only remember
19 talking about their advisory board once, but I don't
20 think that, obviously, is the same people.

21 BY MS. BLAIR:

22 Q. Okay. Do you have an understanding that
23 there is an expert panel that volunteers for Leapfrog
24 that puts together the 22 measures, the weights, the
25 Z scores and the imputation model for its hospital

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 271

1 safety grade methodology?

2 MR. MARCUS: Object to form.

3 A. I mean, I do now.

4 BY MS. BLAIR:

5 Q. Did you before?

6 A. I don't know who they employ.

7 Q. Well, they don't employ anybody.

8 A. Who they volunteer, who they have helping
9 them with their survey.

10 Q. So you don't know today who those people
11 are, correct?

12 A. I don't.

13 Q. And so you don't have an opinion one way or
14 the other whether they're qualified to provide opinions
15 about grading hospitals on patient safety, correct?

16 A. I cannot comment on that.

17 Q. Have there ever been any discussions at the
18 Med Exec level about the fact that Good Samaritan has a
19 one-star CMS rating?

20 A. Not that I recall.

21 Q. Prior to January 2025, and we saw that email
22 where the hospitals in the Palm Beach Health Network
23 engaged Press Ganey to do an improvement plan. And
24 that was January 2025.

25 Prior to that were there any quality

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 272

1 improvement plans in place for Good Samaritan?

2 MR. MARCUS: Object to form.

3 A. Like in general?

4 BY MS. BLAIR:

5 Q. Yeah, in general.

6 A. I mean, we have quality improvement plans
7 all the time, on patient falls, you know, on HCAHPS,
8 pressure ulcers, all of those things.

9 Q. Did you understand that the improvement
10 plan -- I think it's Exhibit 16, but I could be wrong,
11 the improvement plan that was being discussed, yes, in
12 Exhibit 16, with Press Ganey was specific to CMS
13 measures?

14 MR. MARCUS: Object to form.

15 A. Would I say that that's what they were
16 referring to?

17 BY MS. BLAIR:

18 Q. Well, yes, I'm just trying to understand. I
19 understand you're a hospital so you have improvement
20 plans all the time. So why did you need a specific
21 Tenet Palm Beach group improvement strategy with
22 Press Ganey as opposed to the quality improvement plans
23 you already had in place?

24 MR. MARCUS: Same objection.

25 A. Colleen, from my understanding on this,

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 273

1 Colleen reached out to Press Ganey to have them come
2 and visit because we were looking at patient
3 satisfaction and wanting to improve it.

4 This headline that this person from
5 Press Ganey is saying, she's like, you know that we can
6 go visit your other hospitals.

7 BY MS. BLAIR:

8 Q. Um-hum.

9 A. I recommend conducting similar baseline
10 observations at Palm Beach Gardens, Delray Medical
11 Center, et cetera, et cetera.

12 So to me, this Tenet Palm Beach group
13 improvement strategy is something that Press Ganey, in
14 my thoughts, are, you know, saying, Well, we should go
15 out to all the other hospitals as well.

16 Q. Well, if I read last page of this Exhibit,
17 5829, Maika Joiner said to Kate Bergez "Good morning,
18 Kate. Colleen Thielk and Mellissa Heath, clinical ops
19 director from Good Sam, reached out last month to
20 improve HCAHPS performance."

21 Do you see that?

22 A. Correct.

23 Q. And HCAHPS, as I understand it, is a CMS
24 measures, correct?

25 A. Correct.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 274

1 Q. And those are, in fact, patient experience
2 measures, correct?

3 A. That's correct.

4 Q. So my question is, do you know whether or
5 not this improvement strategy was specifically related
6 to HCAHPS?

7 MR. MARCUS: Object to form.

8 A. This was, yes.

9 BY MS. BLAIR:

10 Q. Okay. Prior to this discussion in January
11 of 2025, had Good Samaritan had any specific quality
12 improvement strategies with respect to patient
13 experience/HCAHPS?

14 A. Yes. We talked about them earlier.

15 Q. Okay.

16 A. Leadership rounding.

17 Q. Yes, we did. Thank you. It's been a long
18 day. I forgot.

19 Prior to June of 2024 as the CEO of
20 Good Samaritan, what did you consider to be the areas
21 in most need of improvement for patient safety for
22 Good Samaritan?

23 A. Prior to June?

24 Q. Of 2024.

25 A. June 2024. It was back to the balanced

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 275

1 scorecard that really encompasses so much about patient
2 safety would be, you know, we would always try and
3 improve on our HCAHPS, anything related to patient
4 safety that we track, you know, fall, HAIs. To me if
5 you have more than one infection, that's one too many.
6 We want to have zero. So to me, it's a continuous, you
7 know, monitoring of all of those indicators in trying
8 to get to zero ultimately. So we're always going to
9 continue to make all of those things priorities and
10 continue to improve.

11 Q. Was there any measure that you thought was
12 way lower than the others that really needed some?

13 A. Well, if you look where you're not meeting
14 national averages, you obviously would focus on those
15 areas, too, but all mortalities are important to me;
16 all HCAHPS are important to me, whether we're meeting
17 the national average or not.

18 Q. Okay. Were you aware that in June of 2024,
19 Leapfrog put out a statement or a request for public
20 comment about the methodology change that was going to
21 occur in fall of 2024?

22 A. I don't recall.

23 Q. Do you know when the first time it was
24 brought to your attention that this methodology change
25 was going to occur?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 276

1 A. I don't.

2 (Defendant's Exhibit Number 19 for i.d.)

3 BY MS. BLAIR:

4 Q. If we look at, we'll mark this as
5 Exhibit 19. If you look at Exhibit 19, this is an
6 email string PBHN 5132 through PBHN 5137.

7 And if we go all the way to the back of this
8 document, you'll see there's an email on page 5136 from
9 Anna Gunod to DLDCQI only.

10 "Good morning quality leaders. I'm doing an
11 annual check-in on Leapfrog participation."

12 Do you see that?

13 A. Um-hum.

14 Q. Did you have any understanding that there
15 was an annual check-in on the Leapfrog participation?

16 MR. MARCUS: Object to form.

17 A. No.

18 BY MS. BLAIR:

19 Q. And Regina West responds, "PBHN are not
20 participating," correct?

21 A. Correct.

22 Q. And then if we go to PBHN 5134, and it
23 starts, Regina West email to Ann Gunod starts at the
24 bottom of that page and goes on to 5135, she says, "We
25 would like to participate in the next survey. Are we

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 277

1 able? We have done this in the past so it would not be
2 new participation. Because we aren't participating, we
3 default to imputing" -- "imputed scoring. This takes
4 SMMC from 100 points in each of the categories below to
5 limited achievement scores."

6 Do you see that?

7 A. I do.

8 Q. Does this comport with your understanding
9 that the first time this was brought to your attention
10 would have been in or around September of 2024?

11 A. I don't remember the date, but I'm sure at
12 some point it leveled up.

13 Q. And, to your knowledge, no one at
14 Good Samaritan or any of the PBHN hospitals provided
15 comment, public comment to Leapfrog's request for
16 public comment regarding the change in the scoring
17 methodology, correct?

18 A. I'm not aware of anything, no.

19 Q. And if you look at that same page, 5134,
20 Anna Gunod says to Regina West, and Taylor Pool is on
21 this email too. "Hi, Gina, Leapfrog participation is
22 not supported unless it was directly tied to a
23 payment/contract or a local regulatory requirement."

24 Do you see that?

25 A. Which one was that on?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 278

1 Q. Oh, I'm sorry. 5134.

2 A. I got it.

3 Q. Do you see that?

4 A. Yes.

5 Q. What is your understanding of what Anna
6 means by that comment?

7 A. I don't know.

8 Q. Did you have any understanding that your
9 hospital was not allowed to participate in this type of
10 event unless it was directly tied to payment contract
11 or local regulatory requirement?

12 A. No, that was not my understanding at all,
13 no.

14 Q. Okay. And then Regina says on 5133 to
15 Anna Gunod, and, again, Anna Gunod is at home office,
16 correct?

17 A. National director of infection prevention.
18 Looks that way, yes, I would say.

19 Q. And at the bottom of 5133 she responds, Gina
20 responds, "Although not supported, is it left up to the
21 local markets to decide or a strict no from HO?"

22 Do you see that?

23 A. Yes.

24 Q. Do you understand HO to mean home office?

25 A. Yes.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 279

1 Q. Okay. And then Anna writes at the top of
2 this page, "It is a no from home office. Facilities
3 who need an exception due to Leapfrog participation
4 being tied to a local requirement contract or
5 compliance or reimbursement needs to submit their case
6 for review by Dr. Franklin."

7 Do you see that?

8 A. I do.

9 Q. Do you know whether or not Good Samaritan or
10 any of the PBH hospitals submitted a request to
11 Dr. Franklin for participation?

12 A. I'm not aware.

13 Q. Okay. And at the bottom of 5132 Taylor Pool
14 writes to Colleen Thielk, "Sharing home office response
15 below about Leapfrog participation. The scoring system
16 now penalizes hospitals for not participating. We can
17 expect to be an F for the next reporting period due to
18 change."

19 And then Colleen sends that to you with an
20 FYI, correct?

21 A. Yes.

22 Q. What is your memory about any discussions
23 that were occurring in or around September of 2024
24 about the change in the Leapfrog methodology?

25 A. I don't recall it really being in September.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 280

1 Q. When do you recall it being?

2 A. I recall when a grade actually came out most
3 of the discussions, I mean, but I could be wrong.

4 Q. And do you know when the fall grade came out
5 for -- the fall of 2024 grades came out?

6 A. I think it was November.

7 Q. Right. And do you understand that Leapfrog
8 tells hospitals what their grades are going to be
9 before they come out?

10 A. Yes, I think there's like a short period of
11 time for some -- for what reason, I don't know, but...

12 Q. Do you understand that you can dispute your
13 grade with Leapfrog during that time period in which
14 the grades were under review?

15 MR. MARCUS: Object to form.

16 A. No.

17 BY MS. BLAIR:

18 Q. Okay. And for the fall 2024 grade, did
19 anyone at Good Samaritan reach out to Leapfrog to
20 object to the grade that they were going to receive?

21 MR. MARCUS: Object to form.

22 A. Not to my knowledge.

23 MS. BLAIR: Can you mark this as Exhibit 20?

24 (Defendant's Exhibit Number 20 for i.d.)

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 281

1 Q. Ms. Montgomery, I'm sharing with you now an
2 email from Taylor Pool dated 11-4-24 to you CCing
3 Colleen Thielk. On the first page of this, PBHN 5120,
4 Taylor writes, "A hospital onset C. diff case was
5 identified. This brings us 15 infections year to date.
6 We cannot have another C. diff infection through the
7 end of November in order to remain green on BSC."

8 Do you see that?

9 A. I do.

10 Q. What does "remain green on BSC" mean?

11 A. Meet your target.

12 Q. Okay. And then if we look down at the
13 bottom paragraph of this page, it says, "Home office
14 has identified issues with the data collection and
15 pulled the DCQIs across the enterprise together last
16 week."

17 Do you see that?

18 A. Yes.

19 Q. Is that referring specifically to PROMs, or
20 is that referring generally to issues with data
21 collection?

22 MR. MARCUS: Object to the form.

23 A. I don't know.

24 BY MS. BLAIR:

25 Q. Okay. And if we look at the last page or

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 282

1 the next page, I'm sorry, 5121, number three says,
2 "Leapfrog," correct?

3 A. Yes.

4 Q. And he says here, "Basically we were
5 used" -- "we used to receive 100 percent credit and we
6 now receive a negative score." I said "he." Her.

7 Do you see where it starts basically in the
8 middle of that paragraph?

9 A. Yes.

10 Q. Is it your understanding you received a
11 negative score for these four measures?

12 A. I think the negative means, you know, a
13 penalty. I'm not sure what the weighting of it says on
14 the right-hand side of the scorecard, but it's a
15 punitive negative.

16 Q. And Taylor goes on to say, "Additionally, we
17 received negative scores for all five patient
18 experience measures."

19 Do you see that?

20 A. Yes.

21 Q. And those patient experience measures would
22 have come from CMS data, correct?

23 A. Yes.

24 Q. And then Taylor goes on to say, "The top
25 five most negative scores are for PE discharge, PE

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 283

1 communications about medication, PE nurse
2 communication, PE staff response and CPOE."

3 Do you see that?

4 A. I do.

5 Q. And so while CPOE is one of the most
6 negative scores that Taylor puts out there, she
7 certainly is informing you that there are other very
8 negative scores on the Leapfrog survey that come from
9 CMS data, correct?

10 MR. MARCUS: Object to form.

11 A. Yes.

12 BY MS. BLAIR:

13 Q. Do you have any reason to believe that
14 Taylor Pool's discussion in that regard with respect to
15 the top five most negative scores was wrong in any way?

16 A. I don't.

17 Q. And, in fact, in the fall of 2024
18 Good Samaritan received a D, correct?

19 A. In the fall, yes.

20 Q. What do you recall about discussions, if
21 any, that occurred around the fact that Good Samaritan
22 received a D in the fall of 2024 on the Leapfrog
23 hospital safety grade?

24 A. I don't really recall any discussions.

25 Q. Do you recall there was a lot of activity in

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 284

1 December of 2024 around the Leapfrog safety grade that
2 had been published?

3 A. Yes.

4 Q. And, to the best of your memory, why was
5 there a lot of discussion about that?

6 A. The failing grades. That's why.

7 Q. Okay. How did it first come to your
8 attention that there were -- well, strike that.

9 Who complained to you about the failing
10 grades, if anyone?

11 A. Who complained to me?

12 Q. Um-hum.

13 A. I mean, many people complained to me.

14 Q. And who are the "many people"?

15 A. Do you have a couple hours? Probably mostly
16 governing board, physicians, you know, people in the
17 community, people that I know personally, just, I mean,
18 it was -- it was a big deal to have a failing grade.

19 Q. And you went from a C to a D, correct?

20 A. First we went from a C to an F and then from
21 an F to a D.

22 Q. Oh, okay. So your grade went up in spring
23 of 2025, correct?

24 A. Yes.

25 Q. Do you recall asking Andrew Lofholm in

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 285

1 December of 2024 to do research on articles critical of
2 Leapfrog?

3 MR. MARCUS: Object to form.

4 A. I don't recall exactly what -- I'm sure we
5 talked about a lot of things regarding Leapfrog.

6 BY MS. BLAIR:

7 Q. Once you were told by home office that it
8 was a no and the Palm Beach Health Network hospitals
9 could not participate in the Leapfrog survey, did you
10 as the president of Good Samaritan come up with another
11 strategy to combat the Leapfrog hospital safety grade?

12 MR. MARCUS: Object to form.

13 A. No, other than doing what we do every day
14 and provide great care, we continue to provide great
15 care and have our processes in place to show that we
16 are a quality hospital.

17 BY MS. BLAIR:

18 Q. In December of 2024, were you as the CEO of
19 Good Samaritan contemplating a lawsuit against
20 Leapfrog?

21 A. In December?

22 Q. Yes, in December of 2024.

23 A. So it was even brought up at my Med Exec
24 committee talking about that we should sue Leapfrog
25 after they understood how things worked, so there was

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 286

1 discussions around that time that, you know, that some
2 action should be taken.

3 Q. And when you say -- when you say the
4 Med Exec committee talking about what -- talking about
5 that we should sue Leapfrog after they understood "how
6 things worked," how did they understand things worked?
7 What are you referring to there?

8 A. When they realized that it was a voluntary
9 survey and that there are measures in there that
10 Leapfrog takes or imputes us and penalizes us for not
11 responding, so, in essence, the survey is not accurate.

12 Q. Was the Med Exec under the impression, as
13 we've seen in the press coverage and different emails
14 in this lawsuit, that other hospitals that participated
15 in the survey were paying Leapfrog for better grades?

16 MR. MARCUS: Object to form.

17 A. I don't know if that was their impression.

18 BY MS. BLAIR:

19 Q. Did you tell them that?

20 A. I did not.

21 Q. Do you know if anybody told the Med Exec
22 that the reason other hospitals were getting better
23 grades is because they were paying Leapfrog for those
24 grades?

25 A. I have no idea whether people said those

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 287

1 things. I have no idea.

2 Q. Do you know if anybody told the Med Exec
3 that hospitals were paying consulting fees to Leapfrog
4 in exchange for better grades?

5 A. No. No, not while I was present.

6 Q. So when you say "how things worked, when the
7 Med Exec figured how things work," you're referring
8 specifically to the imputation model?

9 A. Yes, the survey that, one, it's voluntary,
10 so there's measures that anybody could put whatever
11 they wanted; two, Leapfrog doesn't come and verify any
12 of those measures because they don't come into our
13 institution like Joint Commission does when you're
14 getting accredited; and, three, that we weren't
15 participating. Then they understood.

16 Q. You also understand that there's allegations
17 in this case that Leapfrog does nothing to verify the
18 survey responses of participating hospitals, correct?

19 MR. MARCUS: Object to form.

20 A. Correct.

21 BY MS. BLAIR:

22 Q. Do you believe that's true?

23 A. I've never seen Leapfrog in our hospitals.
24 I don't know how you would ever verify it unless you're
25 actually surveying hospitals and going live to their

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 288

1 hospitals on site. That's the only way you can verify
2 the information is accurate.

3 Q. But you don't -- but you don't participate
4 in the survey, correct?

5 A. Correct.

6 Q. So why would they come?

7 A. But we did.

8 Q. Why would they come to a hospital that
9 doesn't participate in a survey to verify something?

10 A. So hospitals that participate and when we
11 did participate, Leapfrog never came to the hospitals.

12 Q. Do you understand Leapfrog does, in fact,
13 remember verify survey data?

14 MR. MARCUS: Object to form.

15 A. I mean, there's data that's from Medicare
16 that's verified, but I don't -- no, no.

17 BY MS. BLAIR:

18 Q. I'm talking about survey data.

19 A. Right, but on the survey there is Medicare
20 data as well.

21 Q. Well, there's Medicare data on the safety
22 grade, correct?

23 A. Right, well, on the -- right.

24 Q. Right. So the survey is separate and
25 distinct from the grade, right?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 289

1 A. Yes.

2 Q. Have you done any research to inform
3 yourself about whether or not Leapfrog goes on site to
4 hospitals to verify data that hospitals report on their
5 survey?

6 A. Everyone that I have talked in the
7 organization and healthcare says no.

8 Q. Okay.

9 A. So I've not called the president of Leapfrog
10 and asked her, I guess.

11 Q. Are you aware that Leapfrog sends out
12 document requests for verification of survey results to
13 participating hospitals?

14 MR. MARCUS: Object to form.

15 A. Documents saying "send us documents," is
16 that what you're saying?

17 BY MS. BLAIR:

18 Q. Correct, correct.

19 A. I mean, that's part of the survey process?

20 Q. No, as part of the verification of the

23 A. I don't know.

24 BY MS. BLAIR:

25 Q. You've done nothing to figure out whether

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 290

1 that's true or not?

2 MR. MARCUS: Same objection.

3 A. If Leapfrog sends a verification form to a
4 hospital?

5 BY MS. BLAIR:

6 Q. Oh, no, no, no, no. I'm sorry. My question
7 might have been bad.

8 Are you aware that as part of the
9 verification process -- well, strike that.

10 Are you aware that hospitals must submit
11 their survey by June 30th, and a verification process
12 takes place between June 30th and when the survey
13 closes on August 31st --

14 MR. MARCUS: Object to form.

15 BY MS. BLAIR:

16 Q. -- every year?

17 A. I don't know the process no.

18 Q. Okay. And you're unaware of any of the
19 verification process that takes place in those 60 days,
20 correct?

21 MR. MARCUS: Same objection.

22 A. Yes.

23 BY MS. BLAIR:

24 Q. And, yet, you're confident that the
25 allegations in this lawsuit that Leapfrog does nothing

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 291

1 to verify survey results is true and accurate, correct?

2 MR. MARCUS: Same objection.

3 A. I would say they don't go into hospitals and
4 verify hand washing, for example.

5 BY MS. BLAIR:

6 Q. You don't know whether or not Leapfrog does
7 random audits of hospitals, onsite audits of hospitals,
8 do you?

9 A. I am not aware of that.

10 Q. And you've done nothing to inform yourself
11 as to whether or not that's true, do you, have you?

12 MR. MARCUS: Object to form.

13 A. Yeah, speaking to people in the industry
14 that say otherwise.

15 BY MS. BLAIR:

16 Q. Okay.

17 MR. MARCUS: Good time for a break?

18 MS. BLAIR: Sure. We've got to be almost
19 done. I'm almost done.

20 MR. MARCUS: You said that an hour and a
21 half ago.

22 MS. BLAIR: Again, if I didn't have to ask
23 about all the documents, we'd be done.

24 Off the record.

25 THE VIDEOGRAPHER: We're going off the

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 292

1 record. The time is 5:10 p.m.

2 (A recess was taken from 5:10 p.m. to 5:21 p.m.)

3 THE VIDEOGRAPHER: We are back on the
4 record. The time is 5:21 p.m.

5 BY MS. BLAIR:

6 Q. Ms. Montgomery, I want to move on to
7 Good Samaritan's claim in this litigation that it has
8 been harmed by the Leapfrog hospital safety grades.

9 By way of just orienting you to timeline,
10 the Complaint in this case was filed April 30th of
11 2025. Does that comport with your memory?

12 A. Yes.

13 Q. And as of April 30th, 2025, Good Samaritan,
14 for which you are the CEO, had suffered harm at that
15 point in time, correct?

16 A. Correct.

17 Q. And would you agree with me that on
18 April 30th, did they -- the day -- the day the
19 complaint was filed, the five plaintiff hospitals
20 undertook a media campaign to publicize their safety
21 grades that Leapfrog had provided them both in the fall
22 of 2024 and the spring of 2025?

23 MR. MARCUS: Object to form.

24 A. In April, is that what you said?

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 293

1 Q. Correct.

2 A. I thought we had gathered really that type
3 of information prior to then, but...

4 Q. Oh, yeah. I guess my question was more
5 specific. The Complaint is filed on April 30th, 2025,
6 correct?

7 A. Um-hum.

8 Q. And there are that same day press releases
9 going out from the five plaintiffs to media outlets
10 discussing the D's and F's that the five plaintiffs
11 hospitals had received from Leapfrog, correct?

12 MR. MARCUS: Object to form.

13 A. Okay.

14 BY MS. BLAIR:

15 Q. Do you recall that?

16 A. I don't recall at all.

17 Q. Okay. Do you recall any interviews you gave
18 to the media in or around late -- or April 30th to,
19 let's just say, the first week in May regarding these
20 five hospitals filing suit against Leapfrog?

21 A. I do recall questions coming up and Andrew
22 asking me questions, things of that nature for media
23 outlets.

24 Q. Did you ever sit down with a media outlet
25 and give an interview?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 294

1 A. I did not.

2 Q. Did you ever watch the interviews that were
3 done by your attorney, Mary Beth -- Mary Beth Maloney,
4 related to the filing of the lawsuit?

5 A. I do believe I saw them, one of -- yes, it
6 was on the news, I believe.

7 Q. Did you as the CEO of Good Samaritan have to
8 sign off on the talking points that Mary Beth Maloney
9 gave to the press --

10 MR. MARCUS: Object to form.

11 BY MS. BLAIR:

12 Q. -- and third parties?

13 MR. MARCUS: Same objection.

14 A. I signed off on -- I believe so. Normally
15 it comes through Andrew. Anything that goes out as a
16 press release, we review.

17 BY MS. BLAIR:

18 Q. And so all of statements that Mary Beth
19 Maloney gave regarding the brazen pay to play process
20 of the Leapfrog hospital safety grades, you would have
21 signed off on that?

22 MR. MARCUS: Object to form.

23 A. Not her. Not her specifically, no, but like
24 anything that is going to come through like
25 Good Samaritan.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 295

1 BY MS. BLAIR:

2 Q. Okay. Talking about -- have you done any
3 studies, Palm Beach Health Network, has Palm Beach

6 filing of the lawsuit in any way increased patient
7 knowledge of those five hospitals' Leapfrog hospital
8 safety grades?

9 MR. MARCUS: Object to form.

10 A. Was there an analysis done of the impact of
11 the media campaign, is that what you mean?

12 BY MS. BLAIR:

13 Q. Sure. Did anybody say, Well, X number of
14 people knew about our Leapfrog hospital safety grades
15 before we went to the press and did this media blitz,
16 and we've just publicized these grades to a much
17 farther reach after you engaged in the PR campaign?

18 MR. MARCUS: Object to form.

19 A. No, I'm not aware of one.

20 BY MS. BLAIR:

21 Q. Is there any way that you know of to make
22 the determination as to what the impact was to
23 Good Samaritan's reputation before the April 30th media
24 campaign that the plaintiffs engaged in regarding the
25 lawsuit and before?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 296

1 A. All the things that occurred from December
2 until then, most certainly.

3 Q. And I've seen documents that have been
4 produced in this litigation about doctors telling --
5 telling Good Samaritan that patients didn't want to
6 come to Good Samaritan hospital because of the Leapfrog
7 safety grade, correct?

8 A. Correct.

9 Q. Did you ever have any conversations -- did
10 you, Sheri Montgomery, ever have any direct
11 conversations with patients who told you they would not
12 go to Good Samaritan because of the Leapfrog hospital
13 safety grade?

14 A. No, the physicians did.

15 Q. Did the physicians ever provide you with the
16 names of the patients that they spoke to who allegedly
17 would not come to Good Samaritan because of
18 Good Samaritan's Leapfrog hospital safety grade?

19 A. No.

20 Q. Do you know how many patients refused to
21 come to Good Samaritan as a result of the Leapfrog
22 hospital safety grade?

23 A. I don't know how many.

24 Q. Are you contending that the Leapfrog
25 hospital safety grade had any impact on physician

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 297

1 retention at Good Samaritan?

2 A. I would say that it is in the fact that
3 other contracts we may have, like for hospital for
4 special surgery, for example, is, in my opinion, that
5 the Leapfrog rating has prompted those physicians to
6 get on staff at Jupiter Medical Center because their
7 patients are complaining to them that we are an F.
8 They are only on staff at Good Samaritan Medical
9 Center. The physicians have told me that they are
10 getting on staff at Jupiter and that their patients
11 have complained about us being an F hospital.

12 Q. How many doctors are getting on staff at
13 Jupiter Medical?

14 A. So our top surgeons, so there's three or
15 four of them, the orthopedic surgeons.

16 Q. Are they revoking their privileges at
17 Good Samaritan?

18 A. No.

19 Q. Okay. So they're just adding Jupiter as a
20 hospital, correct?

21 A. Correct.

22 Q. Have they said to you how many patients they
23 have to treat at Jupiter as a result of the Leapfrog
24 hospital safety grade as opposed to treating at
25 Good Samaritan?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 298

1 A. No.

2 Q. So you don't have any number?

3 A. I don't have a number.

4 Q. And how many of those doctors are -- I'm
5 sorry if I already asked you this.

6 How many doctors have told you that they
7 have to go seek privileges at Jupiter due to the
8 hospital safety grade?

9 A. So that's just HSS surgeons. We have other
10 surgeons that are called splitters, meaning they're
11 already on staff at Jupiter, like Dr. Goodman, who had
12 to reschedule a surgery and go to Jupiter Medical
13 because a patient refused to come to our hospital
14 because we were an F.

15 Q. One patient?

16 A. That I could know about and could provide
17 names.

18 Q. So one patient you know about and could
19 provide a name, correct?

20 A. Oh, I could provide more names for sure.

21 Q. Oh, you could?

22 A. For the HSS.

23 Q. Okay. So let's break that down. How many
24 patients of HSS -- they're surgeons, correct?

25 A. Yeah.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 299

1 Q. How many patients of HSS surgeons have
2 specifically refused to come to Good Samaritan for a
3 surgery because of the Leapfrog safety grade?

4 A. I do not have a number. I do not know.

5 Q. How many names can you think of?

6 A. No, I'm saying I can obtain the names.

7 Q. You can obtain the names?

8 A. Right.

9 Q. But you don't have them as you sit here
10 today?

11 A. No. I don't have any patient names.

12 Q. And you don't have any numbers of patients,
13 right?

14 A. No.

15 Q. And so my original question was, have any
16 doctors refused to become associated with
17 Good Samaritan as a result of the Leapfrog hospital
18 safety grades?

19 MR. MARCUS: Object to form.

20 A. The physicians that are already with us on
21 staff, is that what you're referring to?

22 BY MS. BLAIR:

23 Q. Well, I guess we could break it down. Let's
24 start with, are there any doctors that you were trying
25 to recruit that said, No, I looked at your Leapfrog

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 300

1 safety grade and I will not work with Good Samaritan?

2 A. Not that I'm aware of for Good Sam.

3 Q. Okay. And then let's talk about doctors
4 that are already on staff with you, have any of them
5 left Good Samaritan as a result of the Leapfrog
6 hospital safety grade?

7 A. No.

8 Q. And then there are those doctors that we
9 just discussed that sought privileges at Jupiter in
10 addition to Good Samaritan based on the Good Samaritan
11 hospital safety grade, correct?

12 A. Correct.

13 Q. In those discussions with the doctors that
14 are seeking privileges at Jupiter Medical Center, did
15 any of them express in any way dissatisfaction with
16 Good Samaritan's CMS star rating?

17 A. No.

18 Q. Only the Leapfrog hospital safety grade?

19 A. Yes, and the discussion was that this
20 physician wants to stay at Good Sam, loves Good Sam,
21 knows the quality of Good Sam, but HSS, they're not
22 sure if they're going to force them to do -- mostly go
23 to Jupiter or Jupiter completely.

24 Q. If home office will only allow you to
25 participate in the Leapfrog Hospital Survey if it's

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 301

1 connected to a contract or payment, and as we saw in an
2 Exhibit earlier today, you don't have to hire anybody
3 to comply, anybody additional to comply with the
4 hospital survey, why isn't the fact that HSS cares
5 about the Leapfrog Hospital Survey enough to get a
6 dispensation from home office to participate?

7 A. Because this all happened after our F,
8 right. So all of this horrible mass destruction
9 happened after the F. So asking to be part of Leapfrog
10 prior to that was before this occurred.

11 I'm confident that we're probably not going
12 to now that there is so much -- now that there's a
13 general understanding of how it works and what occurred
14 with the F, we're certainly not going to want to be a
15 part of it.

16 Q. Well, because you filed suit, correct?

17 MR. MARCUS: Object to form.

18 A. (No response).

19 BY MS. BLAIR:

20 Q. So you could participate in Leapfrog and
21 under your allegations of this Complaint increase your
22 Leapfrog safety grade and avoid the harm, but you're
23 choosing not to, correct?

24 MR. MARCUS: Object to form.

25 A. The harm is already done.

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 302

1 BY MS. BLAIR:

2 Q. So there's no continuing harm?

3 A. Yeah, it's going to continue. So you think
4 if all of a sudden we're going to participate and, Oh,
5 we're now a B that that's going to like -- it's just
6 not going to -- a lot of harm has already been done.
7 It's going to take a while to recover, but I wouldn't
8 want to really participate in the survey in the first
9 place because I really don't believe it does add the
10 value that the Joint Commission does, that the
11 accrediting bodies do that come and share best practice
12 with us, that meet with our leaders and go over things,
13 just like the Joint Commission when they were just in
14 our building, and we had the best emergency management
15 plan, but then they'll give us something another
16 hospital has that they think, Oh, you should -- maybe
17 you should look at this policy or doing it this way.
18 That's where we want to do a more of a collaboration
19 with than filling out the survey.

20 Q. Am I correct you're voluntarily choosing not
21 to perform in the Leapfrog Hospital Survey?

22 A. Well, it's a voluntary survey so we didn't
23 fulfill out the survey.

24 Q. And you have no intention of doing that
25 going forward, correct?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 303

1 A. At the end of the day, I wouldn't make that
2 decision.

3 Q. And we just discussed, even if it turns out
4 that your assumptions regarding the Leapfrog Hospital
5 Survey are wrong, you still don't want to participate
6 in that survey?

7 MR. MARCUS: Object to form.

8 A. Even if the assumptions of what?

9 BY MS. BLAIR:

10 Q. Even if the assumptions that you've made,
11 it's pay to play, you pay for consulting services to
12 get your grade, there's no science behind the
13 imputation methodology, even if all those things turn
14 out to be wrong, you still have no intention of
15 engaging in the hospital survey, correct?

16 MR. MARCUS: Object to form.

17 A. I don't make those decisions.

18 BY MS. BLAIR:

19 Q. Who does?

20 A. Tenet corporate.

21 Q. You're also requesting your attorney's fees
22 in this matter, correct? Do you understand that?

23 MR. MARCUS: Object to form.

24 A. Okay.

25 BY MS. BLAIR:

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 304

1 Q. Well, you read the Complaint, right?

2 A. Yeah.

3 Q. Do you have any understanding of how much
4 has been incurred in attorney's fees to date?

5 MR. MARCUS: Object to form.

6 A. Do I know?

7 BY MS. BLAIR:

8 Q. Um-hum.

9 A. I mean, I've seen some allocations, but I
10 don't know how much has been spent on attorney's fees.

11 Q. What are the allocations that you've seen?

12 A. There are allocations from the home office.
13 I think it's our financial statement.

14 Q. Okay. But I'm just asking about the
15 attorney's fees. What are the allocations of
16 attorney's fees for this action that you'll be seeking?

17 MR. MARCUS: Object to form.

18 A. The amount?

19 BY MS. BLAIR:

20 Q. Um-hum.

21 A. For Good Sam, a million, a million and a
22 half maybe.

23 Q. And is that then multiplied by five since
24 there are five plaintiffs? Are you splitting it
25 equally?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 305

1 A. I don't know.

2 Q. What about costs, do you have any
3 understanding of what the costs are?

4 A. What do you mean?

5 Q. Well, there's expert fees, for example. Do
6 you know what those are in addition to the attorney's
7 fees?

8 A. No.

9 MR. MARCUS: Object to form.

10 BY MS. BLAIR:

11 Q. Is Good Sam currently paying the attorney's
12 fees associated with this case?

13 A. I don't -- I don't think so. I mean, we
14 are. It's in our financial statement, but, honestly, I
15 don't know what happens in accounts payable and who's
16 handling all of that information.

17 Q. Okay. But you believe the projections are
18 that Good Sam's share of the attorney's fees in this
19 case will be 1.5 million, correct?

20 MR. MARCUS: Object to form.

21 A. That is my understanding.

22 BY MS. BLAIR:

23 Q. How much time have you and your staff
24 devoted to this lawsuit since it was filed on
25 April 30th, 2025?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 306

1 A. I have no idea.

2 Q. More than 100 hours?

3 A. I would not be able to tell you.

4 Q. Well, I know you've spent at least seven
5 hours because we've been here almost seven, correct?

6 A. Right.

7 Q. Have you ever been told by Tenet home office
8 that the goal of this lawsuit is to stop Leapfrog from
9 grading hospitals?

10 A. No.

11 Q. Do you have any understanding as to whether
12 the goal of this lawsuit is for Tenet to have none of
13 its hospitals across the country graded by Leapfrog?

14 MR. MARCUS: Object to form.

15 A. I don't know if that's the goal or it's a
16 just that we're, you know, we don't -- if we don't
17 participate, we're just not given a grade is my
18 understanding.

19 BY MS. BLAIR:

20 Q. Have you ever had discussions with other
21 nonparticipating hospitals outside of the Tenet Health
22 network about joining your lawsuit?

23 A. No.

24 Q. Have you had any internal discussions about
25 the consequence of this lawsuit being that your

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 307

1 competitors, like Jupiter, would look bad in the public
2 by promoting their safety grade previously?

5 competition for Good Samaritan in any way?

6 A. No.

7 Q. What is your understanding of the goal of
8 this lawsuit?

9 A. To if we don't participate that we're not
10 given a grade.

11 Q. My last question is, do you have any plans
12 of producing any additional documents -- well, strike
13 that.

14 To your knowledge, have you given your
15 attorneys all of the documents that you plan on
16 producing in this litigation?

17 MR. MARCUS: Are you asking her personally
18 or are you asking her as a corporate rep?

19 BY MS. BLAIR:

20 Q. As a corporate rep, are you done providing
21 document -- I don't have all the documents yet, and I
22 understand your attorneys are reviewing them, and I'm
23 not faulting them for that. But I'm asking you, as the
24 corporate representative of Good Samaritan, is it your
25 understanding that you now have provided your attorneys

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 308

1 with all of the documents, whether I have them or not,
2 you've provided them to your attorneys for production
3 in this matter?

4 A. Anything that I was asked, I produced.

5 MS. BLAIR: Excellent. I have no further
6 questions.

7 MR. MARCUS: Okay.

8 MS. BLAIR: Thank you.

9 THE VIDEOGRAPHER: Before we go off the
10 record, does anyone want to order the transcript
11 or the video?

12 MS. BLAIR: I will take a rough of the
13 transcript and then regular delivery of the
14 final in an eTtran. I do not want the video at
15 this time.

16 MR. SIMMONS: We do want the video.

17 MR. MARCUS: And the witness will read.

18 THE VIDEOGRAPHER: This concludes today's
19 deposition. We're going off the record. The
20 time is 5:41 p.m.

21 THE STENOGRAPHER: And, Counsel, do you need
22 to order the transcript?

23 MR. SIMMONS: Yes, please.

24 THE STENOGRAPHER: Do you need a rough draft
25 also?

Sheri Montgomery
September 15, 2025

CONFIDENTIAL

Page 309

1 MR. SIMMONS: Yes, please.

2 THE STENOGRAPHER: Regular delivery?

3 MR. SIMMONS: Yes.

4 (A discussion was held off the record.)

5 MR. MARCUS: We're designating the
6 transcript as confidential per the
7 confidentiality order that's in place.

8 MS. BLAIR: And we reserve our rights to
9 object to the confidential nature of certain
10 portions of the transcript.

11 MR. SIMMONS: Could we get a rush delivery
12 for the transcript?

13 THE STENOGRAPHER: Of course. When do you
14 need it?

15 MR. SIMMONS: Could we get it end of day
16 Wednesday?

17 THE STENOGRAPHER: Of course.
18 (Thereupon, the proceedings concluded at
19 5:45 p.m.)

20 (The witness did not waive signature.)

9 IN RE: GOOD SAMARITAN vs. THE LEAPFROG GROUP
10 CASE NO.: 9:25-CV-80526-DMM

11 Please take notice that on the 15th day of September
12 2025, you gave your deposition in the above cause. At
13 that time you did not waive your signature.

14 The above-addressed attorney has ordered a copy of this
15 transcript and will make arrangements with you to read
16 their copy. Please execute the Errata Sheet, which can
17 be found at the back of the transcript, and have it
18 returned to us for distribution to all parties.

19 If you do not read and sign the deposition within 30
20 days, the original, which has already been forwarded to
21 the ordering attorney, may be filed with the Clerk of
22 the Court.

23 If you wish to waive your signature now, please sign
24 your name in the blank at the bottom of this letter and
25 return it to the address listed below.

Very truly yours,

21 _____
22 Barbie Gallo, RMR-CRR
23 Lexitas Legal
24 fl.production@lexitaslegal.com

25 I do hereby waive my signature.

26 _____

1 SACRAMENTO, CALIFORNIA

2 TUESDAY, SEPTEMBER 23, 2025; 9:23 A.M.

3 ---oOo---

4 THE VIDEOGRAPHER: We are on the record at
5 9:23 a.m. on September 23rd, 2025. 0

6 This is Media 1 in the video deposition of
7 Patrick Romano in the matter of Good Samaritan Medical
8 Center, et al. versus The Leapfrog Group.

9 The location of this deposition is
10 1209 L Street, Sacramento, California, with an
11 appearance on Zoom.

12 My name is Nicholas Hemphill representing
13 Veritext. I'm the videographer.

14 Appearances will be noted on stenographic
15 record.

16 Would the court reporter please introduce
17 yourself for the record and then swear in the witness.

18 THE COURT REPORTER: Good morning. We're
19 going on the record.

20 My name is Kathryn Schmidt, CSR 13096, and I
21 will now swear in the witness.

22 ---oOo---

23 PATRICK ROMANO, M.D.,
24 called as a witness by the Plaintiffs, who, being
25 first duly sworn to tell the truth, the whole truth

Page 7

1 and nothing but the truth, was examined and testified
2 as follows:

3 THE WITNESS: I do.

4 THE COURT REPORTER: Thank you.

5 EXAMINATION BY MR. HVIDT

6 BY MR. HVIDT:

7 Q. Good morning, Dr. Romano.

8 This is Scott Hvidt, Gibson Dunn & Crutcher
9 here, and my colleague Monica Grover.

10 Can you state your full name for the record
11 again, please?

12 A. Patrick Scott Romano.

13 Q. And have you ever gone by any other names?

14 A. No.

15 Q. Okay. Today as we communicate with each
16 other, do you prefer that I call you Dr. Romano?

17 A. Sure.

18 Q. Okay. Are you employed, Dr. Romano?

19 A. I am.

20 Q. Where?

21 A. University of California at Davis.

22 Q. And what is your title there?

23 A. Professor.

24 Q. Professor in what?

25 A. Professor of internal medicine and

1 pediatrics.

2 Q. Do you have an affiliation with
3 The Leapfrog Group?

4 A. I do.

5 Q. And what is that affiliation?

6 A. I serve on The Leapfrog Group's hospital
7 safety grade expert panel.

8 Q. Thank you.

9 Do you understand that our court reporter is
10 taking down every question that I ask and every answer
11 you give?

12 A. I do.

13 Q. Okay. Have you been deposed before?

14 A. I have.

15 Q. So you understand the nature of how this
16 works. We just avoid giving answers that are "uh-huh"
17 or "uh-uh" or nodding or shaking of the head but
18 verbal communication.

19 Do you understand that?

20 A. I understand.

21 Q. Okay. And you understand that you are
22 testifying under oath today?

23 A. I do.

24 Q. Are you taking any medications or under the
25 influence of any substances that would impair your

1 judgment or your thinking today?

2 A. No.

3 Q. If you don't understand a question that I
4 ask, please ask that I clarify it because if you
5 answer it, we will assume that you understood the
6 question that I've asked.

7 Do you understand that?

8 A. I will do so.

9 Q. Okay. From time to time your attorney might
10 object to questions I ask. If you could give what I
11 often call a pregnant pause after I ask a question to
12 avoid us all speaking over each other, that would be
13 greatly appreciated.

14 Do you understand that?

15 A. I will do so.

16 Q. Okay. And happy to take breaks throughout
17 the day. But I just ask that you not ask for -- that
18 we not take any breaks during -- while a question is
19 pending.

20 Do you understand that?

21 A. Yes.

22 Q. Okay. So you mentioned that you had been
23 deposed.

24 What -- how many times have you been
25 deposed?

1 A. This is probably my seventh.

2 Q. Okay. And in what capacity have you been
3 deposed?

4 A. Three times as an expert witness on behalf
5 of the United States Federal Trade Commission in cases
6 involving hospital quality and antitrust.

7 Q. And can you tell me what those cases were?

8 A. The most recent case involved
9 Hackensack Meridian Health out of Hackensack,
10 New Jersey.

11 Two previous cases in Illinois: One
12 involved Evanston Northwestern Healthcare, I believe
13 now known as NorthShore Health in the Chicago area.
14 The other involved Rockford Memorial Hospital in
15 Rockford, Illinois.

16 Q. Were all three of those cases hospital
17 merger cases?

18 A. They were.

19 Q. And was your testimony regarding the quality
20 of the hospitals that were being acquired?

21 A. My testimony was based on an expert report
22 in each case. The specific topic of the expert report
23 varied slightly from case to case. In general terms,
24 the Federal Trade Commission asked me to opine on the
25 anticipated impact of the proposed acquisition on

1 hospital quality and safety.

2 Q. And you also mentioned that you've been
3 deposed in four other lawsuits.

4 What were those lawsuits?

5 A. I believe that -- so one case was a matter
6 of employment law related to an employee in our
7 research group at UC Davis Center for Healthcare
8 Policy and Research.

9 Another case was brought under the
10 Americans with Disabilities Act by a student who was
11 terminated from our medical school.

12 Q. Thank you.

13 And in the cases where you were providing
14 expert testimony, was your expert testimony ever
15 excluded from the record?

16 A. In one case there was a Daubert motion that
17 resulted in exclusion of a portion of my testimony.

18 Q. And --

19 A. Retention of the bulk of it.

20 Q. And what was the portion that was excluded?

21 A. It was a portion in which I was evaluating
22 the capacity of the hospital, in this case,
23 Hackensack University Medical Center. And I was
24 evaluating the availability of beds and the flow of
25 patients through those beds and the occupancy rate of

1 the hospital.

2 Q. And was the exclusion due to your
3 qualifications?

4 A. It was due to the belief that I was not
5 qualified to opine on the management of hospital bed
6 capacity. Correct.

7 Q. And do you understand that you're here today
8 being deposed in an ongoing lawsuit?

9 A. Yes.

10 Q. Do you know what lawsuit that is?

11 A. I can't cite the name of it, but I know that
12 it involves five hospitals owned by Tenet and
13 The Leapfrog Group.

14 Q. I'm going to mark this Exhibit 1,
15 Romano Exhibit 1 would be, if possible, a good way to
16 flag them so we can differentiate between the other
17 depositions.

18 (Exhibit 1 was marked for
19 identification.)

20 MR. BILLEK: I'm sorry. What was the
21 marking?

22 MR. HVIDT: One.

23 MR. BILLEK: Okay. Just one.

24 MR. HVIDT: Just one. It will be Romano
25 Exhibit 1, but she's going to mark the name on them

1 later --

2 MR. BILLEK: Okay. Thanks.

3 MR. HVIDT: -- for expedience purposes.

4 BY MR. HVIDT:

5 Q. Dr. Romano, I've handed you what's been
6 marked as Romano Exhibit 1.

7 Have you seen this document before?

8 A. Yes.

9 Q. Is this the Notice of Subpoena for your
10 deposition?

11 A. Yes.

12 Q. And do you see your name there under
13 "Deponent"?

14 A. I do.

15 Q. And you see today's date for the date and
16 time?

17 A. Correct.

18 Q. And the location has been adjusted due to
19 correspondence from your counsel yesterday.

20 Do you understand that we are not at
21 Magna Legal Services today?

22 A. Of course.

23 Q. And we are at the Hyatt Regency in
24 Sacramento on L Street.

25 Do you understand that?

1 A. I understand.

2 Q. And what is your understanding of the
3 lawsuit that's captioned here in this deposition
4 subpoena?

5 A. My understanding is that the plaintiffs are
6 dissatisfied with their Leapfrog Hospital safety
7 grades and they believe that they have a claim to
8 bring against Leapfrog Group related to the
9 methodology.

10 Q. And are you represented by counsel here
11 today?

12 A. I am.

13 Q. And who is your counsel?

14 A. Max, on behalf of -- well, I don't even know
15 the firm's name. But yes.

16 Q. Are you paying for your counsel's
17 representation of you?

18 A. I am not.

19 Q. And who is paying for your counsel's
20 representation?

21 A. I don't know.

22 Q. Do you have an understanding that your
23 counsel is being paid to represent you here today?

24 A. They are being paid to represent me here
25 today, yes.

1 Q. Do you think that it's The Leapfrog Group
2 that is paying for your representation?

3 A. I couldn't say specifically because I know
4 that Leapfrog has an insurance policy that covers
5 certain expenses. So I don't know the details of that
6 payment mechanism.

7 Q. Did you select your counsel to represent you
8 today?

9 A. I made the choice to accept this counsel.

10 Q. Okay. And did you prepare for your
11 deposition today?

12 A. I did a bit.

13 Q. And what did you do to prepare?

14 A. I reviewed some documents from
15 The Leapfrog Group website, and I viewed the documents
16 that I produced in response to the previous subpoena.

17 Q. Did you meet with your counsel to prepare
18 for your deposition?

19 A. I did.

20 Q. And how many times did you meet with your
21 counsel?

22 A. Once specifically to prepare for this
23 deposition.

24 Q. And which -- was it Max that you met with to
25 prepare for your deposition?

1 A. Max, together with his partner Kim.

2 Q. And when did you first meet with counsel?

3 A. And Courtney also from the same firm.

4 Q. Just want to make sure I wasn't talking over
5 you and that the court reporter was able to get that
6 down.

7 Did you -- how long did you meet with
8 counsel to prepare?

9 A. Two and a half hours.

10 Q. Did you review any documents with your
11 counsel in preparation for the deposition?

12 A. Yes.

13 Q. Did any of those documents refresh your
14 recollection as to the events you're going to be
15 testifying about?

16 A. Quite possibly. Yes.

17 Q. Do you remember which particular documents
18 those were?

19 A. There was a document about guiding
20 principles for our expert panel process and there were
21 some notes related to an in-person meeting that we
22 had, I believe back in 2013, that were shared with me
23 around that time.

24 Q. Do you have copies of those documents with
25 you today?

1 A. No.

2 Q. Dr. Romano, did you -- you can set that
3 aside.

4 Did you attend college?

5 A. Yes.

6 Q. And where did you attend college?

7 A. Princeton University.

8 Q. Wow. Me as well. Go Tigers.

9 A. Go Tigers.

10 Q. And when did you graduate Princeton?

11 A. 1979.

12 Q. All right.

13 MR. HVIDT: We'll mark this Exhibit 2.

14 (Exhibit 2 was marked for
15 identification.)

16 MR. HVIDT: Handing the witness what's been
17 marked Exhibit 2 to the Romano deposition.

18 BY MR. HVIDT:

19 Q. Dr. Romano, I'm handing you what is a
20 64-page document.

21 Can you tell me what is the document I've
22 handed you?

23 A. It looks like my CV, although I did not
24 produce this document, so I don't know its exact
25 source.

1 Q. Do you make your CV available on the
2 UC Davis website?

3 A. It's possible.

4 Q. Looking through this document, and if you
5 need a minute, does this document -- do you have any
6 reason to believe this document isn't your CV? And
7 you can let us know if there's anything in here that's
8 not accurate.

9 A. Looks reasonably accurate. Perhaps not
10 perfectly up to date, but reasonably accurate, yes.

11 Q. Okay. And do you have any professional
12 degrees?

13 A. I do.

14 Q. And what are those degrees?

15 A. I have a medical degree from
16 Georgetown University and a degree in public health
17 from University of California Berkeley.

18 Q. Following receiving those degrees, did you
19 have any medical training?

20 A. Yes. I had specialty training in internal
21 medicine and pediatrics.

22 Q. And where did you have that training?

23 A. That was at Case Western Reserve University,
24 University Hospitals of Cleveland.

25 Q. Did you get any certifications as well in

1 addition to receiving that -- the training that you
2 just mentioned at Case Western?

3 A. Yes. Yes. I'm licensed, of course,
4 originally by the State of Ohio and now by the
5 State of California for many years. I have board
6 certification in internal medicine, and I had board
7 certification in pediatrics for many years, but I've
8 allowed that to lapse.

9 Q. And can you walk me through briefly your
10 employment history from -- you know, first after
11 receiving your medical degrees to where you are
12 currently?

13 A. Right.

14 So I spent four years in Cleveland at the
15 University Hospitals of Cleveland.

16 I spent a few months as a locum tenens
17 employee with the Department of Veterans Affairs in
18 Cleveland, and then later with the Kodiak Area Native
19 Association in Kodiak, Alaska.

20 I started a fellowship in health services
21 research which was a joint program supported by the
22 U.S. Agency for Health Research and Quality at UCSF
23 and UC Berkeley.

24 I was in that fellowship program essentially
25 for three years and then transitioned to a faculty

1 role at UCSF. I remained at UCSF until -- until I
2 came to UC Davis. So that would have been in the
3 spring of 1992 I came to UC Davis. And I've been at
4 UC Davis ever since then.

5 Q. Wow. Remarkable.

6 And looking down at Exhibit 2, did you
7 prepare this or direct someone to prepare this?

8 A. I did.

9 Q. And if you look to page 3 of the document
10 that's printed double-sided, do you see where it says
11 "Peer Reviewed Publications"?

12 A. Yes.

13 Q. Okay. And if you were to flip through from
14 page 3 all the way through to page 22, are those all
15 peer-reviewed publications that you have contributed
16 to?

17 A. Yes.

18 Q. So it lists on here 245 articles for the
19 last 35 odd years.

20 Is that right?

21 A. That's correct. Technically a couple of
22 them are republications in different languages --

23 Q. Okay.

24 A. -- and may not be completely unique
25 articles. But, yes, they are all peer reviewed and I

1 contributed to all of them.

2 Q. Would you agree that's a fairly large body
3 of academic work?

4 A. I think so.

5 Q. And do your publications focus on particular
6 topics?

7 A. The primary theme of my publications is
8 related to the measurement and improvement of patient
9 outcomes and specifically healthcare quality and
10 safety.

11 Q. Does your work in developing and validating
12 quality measures, you know, using certain data, kind
13 of appear quite frequently in these peer-reviewed
14 publications as a topic, a theme?

15 MR. BILLEK: Just to note my objection to
16 the form of the question.

17 You can answer.

18 THE WITNESS: Could you clarify the
19 question, please?

20 BY MR. HVIDT:

21 Q. Yeah. Absolutely.

22 So within these articles, would you say
23 there's a fair amount of publications that deal with
24 the development and validation of quality measures to
25 be used through, you know, public reporting?

1 MR. BILLEK: Same objection.

2 You can answer.

3 THE WITNESS: Yes.

4 BY MR. HVIDT:

5 Q. Based on your work, do you consider yourself
6 to have a significant experience in the field of
7 healthcare quality and patient safety?

8 A. I do.

9 Q. Have you been disclosed as an expert, giving
10 expert opinion in this lawsuit?

11 A. Not that I know of.

12 Q. Were you contacted by counsel regarding the
13 possibility --

14 MR. BILLEK: Object to form.

15 Don't answer that question. I think that
16 imposes upon the attorney-client privilege.

17 MR. HVIDT: I'm not asking a question that's
18 designed to elicit attorney-counsel advice or reveal
19 any work product.

20 I am going to be presenting a document
21 that's been produced by Dr. Romano that will speak to
22 this.

23 MR. BILLEK: Fair enough. If we've produced
24 communications between my firm and Dr. Romano, then
25 you're fair to discuss them.

1 (Exhibit 3 was marked for
2 identification.)

3 BY MR. HVIDT:

4 Q. You can set your CV to the side.

5 I'm handing you what has been marked as
6 Exhibit 3 in the Dr. Romano deposition.

7 Dr. Romano, do you -- you work for
8 UC Davis Health Center.

9 Is that correct?

10 A. I work for UC Davis Health is the entity,
11 yes.

12 Q. Okay. And through your work with
13 UC Davis Health, do you have an e-mail associated with
14 that work?

15 A. Yes.

16 Q. And does that e-mail keep records of e-mails
17 you have sent in the past?

18 A. Of course.

19 Q. And they include timestamps as to when those
20 e-mails were sent or received?

21 A. Of course.

22 Q. And do you send e-mails in the course of --
23 in the regular course of your business?

24 A. Yes.

25 Q. Okay. And if you look here at the document

1 I've handed to you, if you could flip to the third
2 page, which is folded under Romano, the little one
3 says Romano 6 -- the one at the bottom of the page
4 says Romano 6, and then there's one just above it that
5 says Romano 43.

6 Do you see that?

7 A. Yes.

8 Q. Okay. So we're going to be using the little
9 one today due to the nature in which these documents
10 were produced.

11 So this document was produced as Romano 41
12 and we're looking now at Romano 43.

13 Do you see the e-mail from Missy Danforth to
14 you?

15 A. Yes.

16 Q. Okay. And what is Missy writing to you
17 about in this e-mail?

18 A. Well, she's writing me to remind me that
19 five Tenet hospitals have filed suit against Leapfrog
20 and that they were considering retaining me as an
21 expert.

22 Q. And what is the date of this e-mail?

23 A. August 12th.

24 Q. And did you discuss with counsel after Missy
25 sent you this e-mail?

1 A. Yes.

2 Q. If you flip over to the front of the page,
3 do you see where y'all are reaching out about the
4 timing of setting up that call?

5 A. Yes.

6 Q. And you can set that document to the side.
7 (Exhibit 4 was marked for
8 identification.)

9 MR. HVIDT: Thank you.

10 BY MR. HVIDT:

11 Q. I'm handing you what's been marked as
12 Romano Exhibit 4, which is Bates stamped Romano 3.

13 Looking at the top of the page, there's an
14 e-mail from Patrick Romano dated August 14th to
15 Kimberly Blair at Wilson Elser regarding Leapfrog
16 methodology.

17 Do you see that?

18 A. Yes.

19 Q. And if you look down at the e-mail, bottom
20 of the page, do you see where Ms. Blair is thanking
21 you for discussing the lawsuit with you -- with her?

22 A. Yes.

23 Q. She also attaches a copy of the Nicholson
24 report.

25 Do you see that?

1 A. Yes.

2 Q. Okay. And then she asked that you provide
3 her with your CV and rates for limited engagement as a
4 consulting expert.

5 Do you see that?

6 A. Yes.

7 Q. Did Leapfrog or Wilson Elser retain you as a
8 consulting expert?

9 A. No.

10 Q. And what transpired between this e-mail and
11 that decision?

12 A. Well, I think --

13 MR. BILLEK: Again, Doctor, it's my position
14 that he's not entitled to ask you about communications
15 with counsel. So if you can provide a response to him
16 that does not infringe upon those conversations, then
17 you're invited to do so, but please keep in mind that
18 limiting instruction.

19 THE WITNESS: I received a subpoena to
20 produce information and to appear at deposition as a
21 fact witness.

22 BY MR. HVIDT:

23 Q. And -- thank you.

24 And would you agree with me that before that
25 occurred, The Leapfrog Group and Wilson Elser were

1 interested in considering you to serve as a consulting
2 expert on behalf of Leapfrog in this matter?

3 A. They were interested but no decision had
4 been made.

5 Q. Do you have an understanding as to what they
6 considered you to have an expert opinion -- an
7 expert -- they considered you to be an expert in as it
8 related to the subject matter of this lawsuit?

9 A. I believe they considered me to be an expert
10 in hospital safety measures and specifically in the
11 process that Leapfrog Group has used to assess those
12 measures and incorporate them into the hospital safety
13 grade.

14 Q. And when you say Leapfrog's hospital safety
15 grade, what do you -- what is the Leapfrog hospital
16 safety grade, in your own words?

17 A. It is a composite score, which is mapped to
18 a grade from A to F that assesses the overall
19 performance of hospitals on a variety of structural
20 process and outcome measures related to healthcare
21 safety.

22 Q. Do you have an understanding of what the
23 purpose of assigning -- Leapfrog's purposes in
24 assigning hospitals a safety grade?

25 A. Yes.

1 Q. And what is your understanding of that
2 purpose?

3 A. I think their primary purpose is to drive
4 improvements in safety to help make healthcare safer
5 for all Americans, and particularly to use market
6 levers based on transparency and accountability to
7 drive that improvement.

8 Q. Does Leapfrog intend for consumers to rely
9 on the hospital safety grades when they're making
10 decisions about what hospital to go to?

11 A. I'm not in the best position to vouch for
12 Leapfrog's intent since I don't serve on Leapfrog's
13 board. I'm not their CEO. I think that it is one
14 piece of information that should be used in
15 combination with other information.

16 Q. As a member of Leapfrog's hospital safety
17 grade expert panel, do you -- in your advice and your
18 capacity of what you do for them, do you have a -- an
19 understanding that the work that you're doing for
20 them, the advice that you're giving to them, will
21 ultimately lead to a grade that consumers may rely on?

22 A. Can you explain what you mean by the term
23 "rely"?

24 Q. The consumer may look at the grade and make
25 a decision based on that grade.

1 A. Yeah. Decisions should always be made based
2 on multiple sources of information. But, yes, of
3 course, we expect that this will be one source of
4 information that consumers will use in their decision
5 making, as well as the employers, the purchasers that
6 are purchasing healthcare on behalf of consumers.

7 Q. Are all hospitals in the United States
8 assigned a Leapfrog hospital safety grade?

9 A. No.

10 Q. Which hospitals are assigned a hospital
11 safety grade?

12 A. Basically the hospitals that meet the
13 criteria of sufficiency of data. Generally, that
14 means hospitals that participate in the inpatient
15 prospective payment system, the Medicare payment
16 system, and this excludes certain types of hospitals,
17 very small hospitals, most critical access hospitals,
18 veterans affairs hospitals.

19 Q. You mentioned that the grade hospitals that
20 meet the criteria of sufficiency of data.

21 Does that mean that there are hospitals that
22 aren't graded if there's not sufficient data to grade
23 them?

24 A. Correct. Those are very small hospitals
25 that simply don't have enough patients in order to

1 generate estimates for the empirical data that we use,
2 the National Healthcare Safety Network standardized
3 instance ratios, the PSI values, so forth. Many of
4 those measures require a minimum volume of 20 cases,
5 30 cases, so forth. Very small hospitals either don't
6 meet those criteria or they're not obligated to report
7 their data because they're not paid through the
8 Inpatient Prospective Payment System.

9 Q. And that's -- when you mention the
10 Inpatient Prospective Payment System, that's the data
11 that goes to the center for Medicaid and Medicare
12 services which is often abbreviated to CMS.

13 Is that fair?

14 A. Correct.

15 Q. And does Leapfrog have a minimum data
16 requirement where, you know, if there's a certain
17 number of missing process measures, it won't give a
18 hospital a grade?

19 A. They do.

20 Q. And what is the -- that number of missing
21 measures?

22 A. I don't recall the detail offhand.

23 Q. Okay. Do you agree with the notion that if
24 Leapfrog does not have enough data for the hospital,
25 it shouldn't grade it?

1 A. No.

2 Q. You mention, though, that -- just now that
3 there are criteria that Leapfrog needs to have a
4 sufficient amount of data to grade a hospital.

5 So can you connect how -- why that is that
6 you think that Leapfrog -- you need sufficient amount
7 of data to grade it, but you don't agree with the
8 notion that if Leapfrog does not have enough data for
9 a hospital, it shouldn't grade it?

10 A. Well, yes. Because there are two reasons
11 why there may not be sufficient data; right?

12 One reason is the hospital is small and it
13 doesn't have adequate denominator volume, therefore it
14 can't possibly produce enough data.

15 The other possibility is when the hospital
16 deliberately withholds the data by refusing to
17 participate, that's a completely different problem.

18 Q. So you think that the reason for the fact
19 that the data is missing is significant to whether or
20 not Leapfrog should grade the hospital?

21 A. Of course.

22 Q. And when you say that the -- in your words
23 you said that the hospitals refuse to provide the
24 data, are hospitals required to provide Leapfrog with
25 data?

1 A. No. It's a voluntary program.

2 Q. Okay. How often does Leapfrog release
3 safety grades?

4 A. Twice a year.

5 Q. And would you agree that the reason that a
6 hospital doesn't provide Leapfrog with data could be
7 for a number of reasons?

8 MR. BILLEK: Object to form.

9 You can answer.

10 THE WITNESS: Yes.

11 BY MR. HVIDT:

12 Q. And the process through which Leapfrog gets
13 data from hospitals is one of the ways that Leapfrog
14 gets data through its hospital survey?

15 A. Correct.

16 Q. And what is Leapfrog's hospital survey?

17 A. It's an annual survey that incorporates a
18 variety of components addressing safe practices,
19 addressing computerized physician order entry systems,
20 bar code medication administration systems, hospital
21 volumes for various services, et cetera.

22 Q. Do you have a role in designing or reviewing
23 the hospital survey?

24 A. I do not have a direct role in designing and
25 reviewing the survey. I'm aware of some of the

1 contents, but I don't have a direct role.

2 Q. Do you have an indirect role?

3 A. As I say, I have an interest in the content
4 of the survey as a member of the hospital safety grade
5 expert panel, so I periodically review the survey, the
6 components of the survey. And of course I'm also
7 employed by a health system and so in that capacity as
8 well, I periodically review the survey.

9 Q. Have you ever completed the survey?

10 A. I have not personally completed the survey,
11 no.

12 Q. Do you know how long the hospital survey is?

13 A. It's long. I can't specify the exact number
14 of items.

15 Q. Do you know approximately how long it takes
16 a hospital to respond to a Leapfrog survey?

17 A. I imagine that it varies substantially
18 across different types of hospitals depending on their
19 size, the complexity, the number of service lines they
20 offer.

21 Q. So what would you -- do you have an estimate
22 of how long it would take for a complex hospital that
23 has a number of service lines to complete the survey?

24 MR. BILLEK: Object to form.

25 You can answer.

1 THE WITNESS: I would say, based on my
2 experience at UC Davis Health, that it might take
3 anywhere from 80 hours to 200 hours of staff time.

4 BY MR. HVIDT:

5 Q. And that time that you're estimating, is
6 that the actual process of completing the survey?

7 A. The actual process of people meeting to
8 discuss how to respond to the survey, yes. Typically
9 it's not one person who's doing all the work.

10 So I'm -- I'm just giving a ballpark
11 estimate based on the number of people I see involved
12 in the task and how the work is divvied up among team
13 members.

14 Q. I understand.

15 And is there time that's spent in terms of
16 implementing certain processes or procedures that the
17 hospitals need to do in order to answer the questions
18 as Leapfrog has set them up?

19 A. Could you clarify the question?

20 Q. Yeah.

21 So, I mean, if I'm answering questions on a
22 given test or before me, there's a time it takes for
23 me to answer those questions. Sometimes I might
24 actually need to do work to develop the answer to
25 those questions.

1 And so I'm asking is there time in addition
2 to the 80 to 200 hours that you estimated that is
3 required for a hospital to develop the information
4 necessary to answer the questions?

5 A. Well, I would say no. And that estimate
6 that I'm ballparking incorporates gathering the
7 evidence necessary to answer the question.

8 Now, if a hospital has systems in place to
9 respond to the survey, then they don't need to repeat
10 the efforts cycle after cycle; right? Because they
11 already have a system in place. They know exactly
12 what to expect for each component of the survey.

13 And so there's perhaps a higher cost in
14 terms of staff time with the first administration, and
15 then with each subsequent administration, they can
16 just rerun a little bit of the SAS code or Python code
17 and get the answers very quickly.

18 So it's quite different, I think, the first
19 time you do it versus subsequent times.

20 Q. Got it.

21 And so you're saying that the burden on the
22 hospital doing it the first time or the first time in
23 a few years is higher --

24 A. Yes.

25 Q. -- than doing it every year?

1 A. Correct.

2 Q. And have you ever heard of hospitals
3 expressing concern about how long it takes to complete
4 the hospital survey?

5 A. Yes.

6 Q. And in what capacity have you heard that?

7 A. In my own capacity as a faculty member who
8 is known to be involved in this at UC Davis Health, as
9 well as, you know, at professional meetings and so
10 forth.

11 Q. So just to break that down, are you saying
12 that your employer, UC Davis, has complained about the
13 burden of the length and time and resources needed to
14 complete the Leapfrog hospital survey?

15 MR. BILLEK: Object to form.

16 You can answer.

17 THE WITNESS: Yes.

18 BY MR. HVIDT:

19 Q. And you also mentioned in other professional
20 meetings.

21 Can you elaborate further on what those
22 professional meetings or in what capacity someone
23 communicated that there is a burden to completing the
24 Leapfrog hospital survey?

25 A. I'm not going to recall details because it

1 would be pre-pandemic when we went to meetings more
2 frequently. But of course it's been known for a while
3 that I've been involved in the Leapfrog process, so
4 periodically somebody might buttonhole me at an
5 academy health meeting or at a quality and safety
6 related meeting and sort of lobby me to...

7 Q. Reduce the burden?

8 A. To reduce the burden.

9 Q. Okay. And have you heard in your capacity
10 as a -- during the expert safety panel meetings for
11 Leapfrog's hospital safety grade, have you heard of or
12 discussed among that panel the burden that it takes to
13 complete the survey?

14 A. It has been discussed intermittently.

15 Q. Have you ever discussed with Leapfrog
16 personnel the burden it takes to complete the survey?

17 A. Yes.

18 Q. Have you ever communicated then your view
19 that they should reduce the burden to complete the
20 Leapfrog hospital survey?

21 A. I have suggested that, yes.

22 Q. So do you have any understanding to what
23 Leapfrog uses the data that it collects through the
24 hospital survey for?

25 A. That's a vague question.

1 Q. Yeah.

2 A. I have some understanding, yes.

3 Q. Okay. And what's your understanding?

4 A. Well, they -- there's a Safe Practices 1 and
5 Safe Practices 2 score that are derived from certain
6 components of the survey. And then there's a
7 component related to ICU physician staffing. There's
8 a component related to hand hygiene. And there are
9 components related to computerized physician order
10 entry and bar code medication administration.

11 Q. So is it fair to say that a portion of the
12 hospital's answers to the hospital survey are used as
13 a component in determining a hospital's safety grade?

14 A. Yes.

15 Q. Are there aspects to the hospital survey or
16 answers or information that are provided that go to --
17 that don't contribute to the hospital safety grade?

18 A. There are, yes.

19 Q. And does Leapfrog use the data it gets from
20 the hospital survey for purposes other than just
21 determining a hospital's safety grade?

22 A. They do.

23 Q. And what purposes do they use that data for?

24 A. Well, they have other transparency related
25 purposes. So if you go to the Leapfrog website, you

1 can find other information about hospitals that comes
2 from the survey that is not actually scored into the
3 hospital safety grade.

4 And of course they also make datasets
5 available to researchers and other members -- there
6 are members and other interested stakeholders.

7 Q. Do you have any understanding that Leapfrog
8 licenses its data for revenue?

9 A. Yes.

10 Q. And what is your understanding of their
11 licensing practices?

12 A. Well, I don't really know details about the
13 fees that they charge or the licensing mechanisms. I
14 know that they make the data available to researchers
15 at a very reasonable price.

16 Q. Mr. Romano, do you use e-mail regularly in
17 your professional capacity for -- as it relates to
18 your work with Leapfrog with an expert safety panel?

19 A. I do.

20 I just remind you, I'm a doctor.

21 Q. I'm so sorry, sir.

22 Dr. Romano, do you understand that people
23 rely on what you write in the e-mails that you provide
24 them?

25 A. Yes.

1 Q. And as a safety grade expert panelist, you
2 understand that Leapfrog takes seriously your
3 recommendations?

4 A. I hope they do.

5 Q. And you understand that Leapfrog might make
6 certain decisions based on what you recommend to them.

7 Is that fair?

8 A. Always in combination with other sources of
9 input, yes.

10 Q. And so when you are writing e-mails, do you
11 try to be accurate with the information that you're
12 providing to Leapfrog?

13 A. I try to be accurate.

14 Q. And you intend for your e-mails to be taken
15 seriously.

16 Is that fair to say?

17 A. I do. I sometimes may fail to achieve the
18 highest levels of accuracy, but I always endeavor to
19 be accurate.

20 Q. And you try to be clear and honest with
21 those communications with them.

22 Is that fair to say?

23 A. I do.

24 Q. We've talked a little bit about Leapfrog
25 safety expert panel.

1 How long have you served on the expert
2 panel?

3 A. I didn't review the full history. My guess
4 is since about 2013 or '14.

5 (Exhibit 5 was marked for
6 identification.)

7 BY MR. HVIDT:

8 Q. I'm handing you what the court reporter just
9 stamped as Exhibit 5.

10 A. I stand corrected.

11 Q. And that was not the purpose of this
12 introduction, as 2013 is a long time ago as well.

13 But I'm handing you a document that's
14 Bates labeled and produced in this litigation as
15 Leapfrog 3088977.

16 Dr. Romano, do you see the document I've
17 handed you?

18 A. I do.

19 Q. And if you look at it, do you see the title
20 page appears to be "Board Update Progress on Safety
21 Score" dated September 20, 2011? Do you see that?

22 A. Yes.

23 Q. Does this look familiar to you?

24 A. No.

25 Q. Do you understand that Leapfrog prepares

1 documents in the regular course of business?

2 A. Of course.

3 Q. Do you have any -- looking at this, do you
4 have any reason to believe that this is not a true and
5 accurate representation of the document that was
6 prepared before you?

7 A. I do not.

8 Q. Looking at the first page, it lists
9 Matt Austin, doctor Ph.D. as a survey director.

10 Do you see that?

11 A. Yes.

12 Q. Do you know who Matt Austin is?

13 A. Yes.

14 Q. Who is Matt Austin?

15 A. Matt Austin is a Ph.D. trained health
16 services researcher who is now at the Johns Hopkins
17 University Armstrong Institute for Patient Safety.

18 Q. Does he have any affiliation
19 with The Leapfrog Group?

20 A. Yes. His team is under contract with
21 The Leapfrog Group to perform many of the analyses
22 that go into the hospital safety score.

23 Q. So when you say he's under contract
24 with The Leapfrog Group, is that different than
25 serving on the expert panel?

1 A. Yes.

2 Q. Okay. So your service on the expert panel
3 is not pursuant to a contract.

4 Is that fair to say?

5 A. That's correct. I'm a volunteer.

6 Q. And do you communicate with Matt Austin?

7 A. I do.

8 Q. When was the last time you spoke with him?

9 A. Spoke with him?

10 Q. Yes.

11 A. A few months ago. I can't recall an exact
12 date.

13 Q. Have you ever communicated with him about
14 this lawsuit?

15 A. No.

16 Q. Let's look over to -- flip the page to the
17 Bates number ending in 7 -- 979. You're looking at
18 that page right now.

19 Do you see where it says "Safety Score
20 Expert Panel"?

21 A. I do.

22 Q. Is the -- what was listed as safety score
23 expert panel similar to the -- what's now referred to
24 today as the safety grade expert panel?

25 A. Yes.

1 Q. And looking down at that list, do you see
2 your name there?

3 A. Of course.

4 Q. Does this refresh your recollection that you
5 may have been on the expert safety panel dating back
6 to 2011?

7 A. Yes.

8 Q. Flipping over a few pages to the page ending
9 in 8994.

10 Do you see where it says at the top there
11 "Meeting for Missing Data"?

12 A. Yes.

13 Q. Was how to deal with missing data a topic
14 that Leapfrog was trying to -- in this expert panel,
15 was trying to figure out as far back as 2011?

16 A. Yes.

17 Q. And why -- you know, when you have missing
18 data, what's the challenge there? Like what -- can
19 you explain to me like what -- why does one need to
20 handle missing data when you are trying to grade, you
21 know, a set of, in this instance, hospitals?

22 A. Well, it's very important for the program to
23 be able to grade as many hospitals as possible to
24 serve the mission of meeting the needs of the
25 community.

1 So we always have to carefully consider how
2 to respond to missing data points, and there are a
3 variety of strategies for substituting values over
4 addressing missing data. But it's a very common
5 problem in a wide variety of context, research,
6 evaluation.

7 Q. And down below the title, it mentions that
8 there were three different strategies for handling
9 missing values.

10 Do you see that?

11 A. Yes.

12 Q. What's Option 1?

13 A. Basically to drop the measure entirely from
14 the algorithm so that it wouldn't be used for anybody
15 for any purpose.

16 Q. I understand.

17 So is that like a circumstance where if the,
18 you know, data on how many patients a hospital saw was
19 just not a data point that you could get for all the
20 hospitals, you just wouldn't grade them on the number
21 of patients that the hospitals see?

22 A. You would remove that entirely from the
23 grade, correct.

24 Q. Okay. And then what's the next strategy
25 that was outlined?

1 A. To drop the measure only for the facilities
2 that are missing data.

3 Q. And how would that work?

4 A. Well, in general, how that would work is
5 that you would take out those measures for the
6 hospitals that are missing data and then you would
7 redistribute the weight among all the other items in a
8 proportional way so that you would still generate a
9 score but it would be a score without those missing
10 measures.

11 Q. Does Leapfrog's current methodology utilize
12 that strategy for some missing data?

13 A. It does.

14 Q. And what missing data does Leapfrog apply
15 that strategy for?

16 A. I believe for the safe practices survey,
17 SP1, SP2.

18 Q. And does Leapfrog apply that strategy for
19 all missing data in its current methodology?

20 A. No.

21 Q. And if you look down to the third strategy
22 listed there, what's the third strategy there?

23 A. To impute an estimated score for those that
24 are missing data. That is, to substitute or replace
25 the missing value with an estimated value.

1 Q. And so when you impute, you're estimating a
2 value.

3 Is that fair to say?

4 A. Yes.

5 Q. You don't have actual data on them. You are
6 just estimating what the data would be had you had it?

7 A. Well, there are a variety of counterfactual
8 possibilities in that estimation. But, yes, it --
9 generally the term imputation implies an estimation
10 procedure.

11 Q. Got it.

12 Okay. So that would be a good starting
13 point.

14 What does impute mean to you? That's not a
15 term that I often come across. What does impute mean
16 to you?

17 A. Well, it means to substitute a numerical
18 value for the missing value.

19 Q. Got it.

20 And so you would only impute something if
21 you were missing the data that you need to get a score
22 for.

23 Is that fair?

24 A. In general. Obviously there are cases where
25 the reported data may be manifestly invalid, in which

1 case you might choose to ignore the reported value and
2 to impute a value instead.

3 For example, if the reported value were
4 outside the plausible range or manifestly inconsistent
5 with other information that you have, you might impute
6 a value even when there was a reported value.

7 Q. Got it.

8 So like if I said if I had a major league
9 baseball ERA of 0.02, we might impute the actual fact
10 that I just have never pitched for major league
11 baseball before?

12 A. Yeah.

13 Q. Okay. And if you look down at the -- below
14 those three options, it says, in a review of the
15 literature, it noted a number of thresholds for when
16 to drop the measure.

17 Do you see that?

18 A. Yes.

19 Q. Do you know what literature was being
20 referred to there?

21 A. I can't say exactly. Obviously Ashish Jha
22 is I think a respected leader in epidemiology and
23 health services research, so I'm confident that he did
24 a reasonable review of the literature.

25 Q. Got it.

1 Okay. And then noted that -- below the
2 literature, in order come up with the right process
3 for dealing with missing data, Leapfrog -- or one
4 should take into account two factors.

5 Do you see those?

6 A. Yes.

7 Q. Can you explain what those factors are?

8 A. Well, the first factor appears to be
9 referring to the extent of missing data versus the
10 pattern. In other words, if there were 70 percent
11 missing data versus 30 percent, that might be a
12 relevant consideration. And particularly if the
13 missing data are concentrated in certain geographic
14 regions. For example, if there is a clearly
15 identifiable pattern to the missing data, that might
16 affect the approach.

17 The second bullet refers to whether the -- a
18 random versus systematic pattern, a random error would
19 imply that some hospitals that perform well don't
20 report, some hospitals that perform poorly don't
21 report, and there's essentially a random distribution.

22 Systematic would imply that there's some
23 systematic pattern whereby hospitals that know their
24 scores would be poor, choose to fail to report.

25 Q. Got it. Okay. That's helpful.

1 So would you agree that -- strike that.

2 Flipping over to the next page, do you see
3 where it says at the top "Recommendation"?

4 And then --

5 Do you see that?

6 A. Yes.

7 Q. And then do you see down below for -- the
8 second outer bullet says "For hospitals not excluded,
9 we need an empirically driven approach to handling
10 missing data"? Do you see that?

11 A. Yes.

12 Q. And then it lists "Test different thresholds
13 for dropping the measure. And test three to four
14 different imputation methods."

15 Do you see that?

16 A. Yes.

17 Q. Did you agree with that recommendation?

18 A. Well, this is a board update. So I had no
19 role in the board meeting. I don't recall
20 specifically agreeing or disagreeing with the
21 recommendation.

22 Q. And do you see where it says "Test different
23 thresholds for dropping the measure"?

24 A. Yes.

25 Q. When you test the different thresholds, does

1 that imply that there would be some sort of difference
2 in how hospitals who are missing data might be
3 impact -- their grades might be impacted if you
4 dropped the measure?

5 A. Not exactly. I interpret that as -- for
6 example, you could say that if 50 percent of hospitals
7 are missing the measure, we'll drop it. If 40 percent
8 are missing, we'll drop it. If 60 percent are
9 missing, we'll drop it.

10 So I think when they're referring to
11 different thresholds, they're referring to the
12 percentage availability.

13 Q. Got it. That's helpful.

14 So looking down for the testing the three to
15 four different imputation methods, do you see the
16 subbullet there where it says "Examine how sensitive
17 hospital rankings are to each approach tested"? Do
18 you see that?

19 A. Yes.

20 Q. And so as it relates to that substance of
21 testing the imputation methods, do you interpret that
22 to mean whatever imputation method you might choose
23 might determine how sensitive the hospital rankings
24 are to an imputation that gives the hospitals a higher
25 versus a lower imputed score?

1 A. Yes. Different methods will yield different
2 results.

3 Q. Then one more slide on this document to look
4 at, if you could flip to the page ending in 89000.

5 A. "Outstanding Considerations"?

6 Q. Yes, sir.

7 Do you see there the second bullet? Can you
8 read that for me?

9 A. "How Leapfrog hospitals fair versus those
10 not participating in survey."

11 Q. What do you interpret that to mean?

12 A. Meaning there would be ongoing discussion to
13 monitor how hospitals that participate in the survey
14 compare with those that don't.

15 Q. Was the expert safety panel concerned that
16 there might be differences between how hospitals who
17 participate in the survey would be treated in the
18 grade versus those that didn't?

19 MR. BILLEK: Just note my objection to the
20 form of the question.

21 You can answer.

22 THE WITNESS: Yes. The panel was very
23 interested in that issue.

24 BY MR. HVIDT:

25 Q. And were you concerned with that issue?

1 A. Can you rephrase the question?

2 Q. Absolutely.

3 Did you have a concern or a view towards how
4 the Leapfrog safety grade should treat hospitals who
5 participate in the survey versus didn't participate in
6 the survey?

7 MR. BILLEK: And just to clarify, so I
8 understand the question, again, that's in connection
9 with this 2011 document and the data that went into
10 it?

11 MR. HVIDT: Yes.

12 BY MR. HVIDT:

13 Q. In 2011, around the time that we were
14 talking about the outset of the Leapfrog hospital
15 safety grade, did you have a concern or view to how
16 the Leapfrog safety grade should treat hospitals who
17 participate in this survey versus those that didn't
18 participate in the survey?

19 A. Well, I'm sure I had a view, but it was
20 14 years ago, and I'm not going to recall the details
21 of what my view was 14 years ago.

22 Q. Do you recall the views of the expert safety
23 panel at the time?

24 A. I -- again, all I recall was that it was a
25 topic of ongoing discussion throughout these 14 years.

1 And so the question has come up repeatedly, and it's
2 been addressed in different ways over the years.

3 Q. So throughout the last 14 years, there's
4 been questions of how to treat nonresponding --
5 hospitals who don't respond to the Leapfrog hospital
6 survey; correct?

7 A. Correct.

8 Q. And what is the issue that has been
9 discussed over the last 14 years as it relates to the
10 Leapfrog -- as it relates to the hospitals that don't
11 participate in the Leapfrog hospital survey?

12 A. Can you try that again? I'm sorry.

13 Q. Yeah.

14 So I'm trying to understand what's the --
15 what are the points of discussion around how to treat
16 hospitals who don't participate in the survey in the
17 Leapfrog safety grade?

18 A. Right.

19 Well, I would say in general terms -- and
20 please don't assign this view to any particular
21 meeting or any particular discussion -- but in general
22 terms, we started with the view that if a hospital
23 chose not to participate, that we should assign them
24 the best grade that we could based on other sources of
25 similar information about the hospital; right?

1 So we started with the counterfactual
2 perspective of what would this hospital have told us
3 if they had chosen to respond to the survey?

4 So in the early years, we tried to find the
5 best estimate of what hospitals would have told us if
6 they had chosen to participate in the survey.

7 Over time, that perspective changed for a
8 variety of reasons.

9 Q. When you say that you started with "the best
10 estimate," by "best," do you mean the closest to being
11 accurate?

12 A. Yes. I'm using "best" in the analytic term,
13 the best linear unbiased estimator of the true
14 parameter of interest. Yes.

15 Q. And so Leapfrog at the outset started off by
16 trying to impute for missing data for nonresponding
17 hospitals the most accurate imputed score that it
18 could under a counterfactual had that hospital
19 participated in the survey.

20 Is that fair?

21 A. Yes.

22 Q. And Leapfrog has changed from that starting
23 point since 2011.

24 Is that fair to say?

25 A. Yes.

1 Q. And how has it changed?

2 A. So it has adopted an approach for several
3 components of -- well, let me back up a second.

4 The primary data source that Leapfrog was
5 relying on to do that imputation was the
6 American Hospital Association survey. That's a survey
7 that is also voluntary but it enjoys an even higher
8 participation rate than the Leapfrog survey because
9 it's completed by most hospitals that belong to the
10 American Hospital Association.

11 The American Hospital Association survey
12 included some items related to computerized physician
13 order entry, clinical decision support systems,
14 et cetera. And so that survey allowed Leapfrog to
15 identify hospitals similar to nonresponding hospitals
16 and to use those survey estimates to generate imputed
17 estimates for the missing data.

18 Over the --

19 Q. Sorry. Go ahead.

20 Go ahead.

21 A. Well, I was going to say, and that worked
22 satisfactorily for several years. But then the
23 American Hospital Association chose, for reasons
24 unknown to me, no longer to make their survey data
25 available for this purpose. And so Leapfrog was

1 obligated to identify alternative approaches.

2 Q. And did -- fair that the American Hospital
3 Association data licensing arrangement, that that --
4 that stopped around 2020? Does that sound about
5 right?

6 A. Yes. Plus or minus a year, yes.

7 Q. But based on -- just trying to understand
8 that.

9 So before -- before the American Hospital
10 Association stopped serving as the basis for an
11 imputed score, Leapfrog would use the data that was
12 reported to -- by the hospitals to American Health
13 Association to impute a score for Leapfrog's safety
14 grade.

15 Is that fair?

16 A. American Hospital Association, yes.

17 Q. Yes. I'm sorry. So I said
18 American Health Association, and you're just saying
19 it's American Hospital Association.

20 But everything else in that prior --

21 A. Yes.

22 Q. -- question was correct. Okay.

23 A. Yes.

24 Q. And so after the American Hospital
25 Association stopped providing Leapfrog with the data,

1 how did Leapfrog's imputation methodology change?

2 A. So there -- there was a method that relied
3 heavily on previous scores for hospitals that had
4 responded to the survey in previous cycles. So I
5 think they went back to four rounds. I think that
6 would correspond to two previous years of the hospital
7 survey and used the most recent of those previous
8 responses. I think that was Step 1 in the process.

9 And there would then be a Step 2 that would
10 use information from similar hospitals that did
11 respond to the Leapfrog survey.

12 Q. And what years did Leapfrog follow that
13 general approach that you just described?

14 A. I couldn't testify to the exact years.

15 Q. Are they still following that current
16 imputation methodology?

17 A. No --

18 MR. BILLEK: Objection to form.

19 THE WITNESS: No. A further revision was
20 made more recently.

21 BY MR. HVIDT:

22 Q. Did you have any involvement in determining
23 or recommending the imputation methodology that
24 Leapfrog should use after the American Hospital
25 Association stopped providing data?

1 A. I did.

2 Q. What was your role?

3 A. As a member of the expert panel, it's been
4 an ongoing topic of discussion.

5 Q. Did you work with Mathematica in making a
6 recommendation to Leapfrog what imputation methodology
7 it should use a few years back?

8 A. Yes.

9 Q. And what is Mathematica?

10 A. Mathematica is a large employee-owned
11 consultancy that does a lot of work related to
12 healthcare quality and safety for a variety of public
13 and private clients.

14 Q. And do you have an understanding of what --
15 that Leapfrog entered into a consultant arrangement
16 with Mathematica?

17 A. Yes.

18 Q. And do you have an understanding of what
19 Leapfrog asked Mathematica to perform for them here?

20 A. I'm afraid I'm not privy to the details of
21 the consulting agreement.

22 Q. And we were talking about how the
23 methodology changed over time and you mentioned it
24 changed more recently.

25 How did Leapfrog's hospital safety grade

1 methodology change recently as it relates to the
2 imputation methodology?

3 A. Right.

4 So the Step 1 component was changed to
5 reduce the number of cycles of previous data that
6 would be used so that it now counts essentially only
7 one previous hospital survey. In other words, if a
8 hospital responded to a survey in the previous year
9 and skipped the most recent year, they would get
10 credit for that previous year.

11 If they didn't respond in either of these
12 two years, then the Step 2 method now assigns the
13 limited achievement value for three or four components
14 that are linked to the survey.

15 Q. And when you say "limited achievement
16 value," is that the lowest score that can be assigned
17 by the Leapfrog hospital safety grade methodology for
18 those measures?

19 A. That's correct.

20 Q. And going back to your answer several times
21 here, you mentioned that there were reasons that the
22 Leapfrog safety grade methodology has changed.

23 Can you, in your own words, describe for me
24 what you understand those reasons to be?

25 A. What aspect of the methodology are you

1 referring to?

2 Q. The imputation methodology, how Leapfrog is
3 handling missing data.

4 A. Yeah. Well, there are a variety of
5 considerations. So from the beginning, we've
6 maintained this 50/50 balance of structure and process
7 versus outcome measures. That's probably the only
8 thing that hasn't changed, aside from the A to F
9 scale.

10 Each year of course the survey changes in
11 various ways. In particular, I think some components
12 of the survey were retired or removed. Additional
13 measures become available. And so as those additional
14 measures become available, we have to decide how those
15 measures should be weighted and what should be done if
16 those measures are missing.

17 And then of course the decisions are made
18 about the overall distribution of the score and where
19 the specific cut points are drawn.

20 Our panel is not directly involved in
21 drawing the cut points that set the various grades,
22 but we are involved in all the steps prior to that.

23 Q. I understand.

24 So going back, you had mentioned that back
25 at the outset, around 2011 time frame, Leapfrog tried

1 to estimate through the imputed measure the most
2 accurate score for the nonresponding hospitals, and
3 that changed over time.

4 Is that correct?

5 A. Yes.

6 Q. And you mentioned that there were reasons
7 that Leapfrog changed how it treated nonresponding
8 hospitals and no longer trying to estimate the most
9 accurate score for those nonresponding hospitals.

10 Is that correct?

11 A. Yes.

12 Q. And can you describe for me what those --
13 you understand those reasons were for that change?

14 A. So we're now referring to the most recent
15 change, not the change that happened when the license
16 to AHA was lost?

17 Q. Correct.

18 A. Right.

19 So I think the most recent change was driven
20 by several factors.

21 One was by complaints from participating
22 hospitals that some nonparticipating hospitals
23 essentially were getting favorable treatment, that
24 they were getting rewarded for not participating.
25 Because the substitute values had shifted so far to

1 the right over time, so there was concern about
2 fairness towards participating hospitals.

3 There was also concern about the
4 sustainability of the program because of a decrease
5 in participation rates that was observed and reported
6 to our panel.

7 And I would say finally, there was some
8 concern about a worsening of a systematic bias whereby
9 some of the hospitals that were not participating were
10 clearly hospitals that were doing poorly on other
11 metrics and were probably worse than average
12 hospitals. So essentially by not participating, they
13 would get their score boosted in an unfair manner.

14 Q. So looking at those three reasons that you
15 mentioned, let's talk briefly about that first one.

16 Do you have an understanding that the -- the
17 imputed scores that were being provided under Step 2
18 for the Leapfrog imputation methodology were getting
19 better for -- for those nonparticipating hospitals?

20 Is that fair?

21 A. Yes.

22 Q. And is it fair to say that a reason that
23 those imputed scores might have been getting higher is
24 that the hospitals that were participating in the
25 survey were giving themselves higher grades, on

1 average?

2 A. No. That would be incorrect. They're not
3 giving themselves the grades. They're responding to
4 the survey. And the key components of the survey
5 essentially require auditing, you know. They require
6 a very standardized procedure that can be verified.

7 Q. The -- how many hospitals does Leapfrog
8 audit a year?

9 A. I don't know the exact number that they
10 audit.

11 Q. Is it fair to say it's a small percentage?

12 A. Yes.

13 Q. Is it possible that hospitals answer
14 questions to a Leapfrog survey in a favorable manner
15 that is designed to -- you know, that will lead to a
16 higher score on the Leapfrog hospital safety grade?

17 A. Aside from the SP1, SP2 component, I find it
18 implausible; right? Because, for example, the CPOE
19 component requires that you actually run some specific
20 patient information through your electronic health
21 records system and document the output of that.

22 So it would be difficult -- it would be more
23 difficult to lie than it would be to produce the true
24 information. I mean, you'd have to deliberately
25 manipulate your electronic health record system behind

1 the scenes to produce misleading information.

2 Q. For the CPOE one, is it fair to say that if
3 you have the tool for the software, that you just
4 simply need to use that tool to get a high score on
5 Leapfrog's safety grade?

6 A. Yes.

7 Q. For the hand hygiene score, Leapfrog imputes
8 that measure for nonresponding hospitals.

9 Is that right?

10 A. Yes.

11 Q. And does Leapfrog's questions on the survey
12 ask if every nurse and doctor washes their hands after
13 every patient interaction?

14 A. No. I think that component of the survey is
15 based on direct observation sample of employees and
16 encounters.

17 Q. And it simply asks if you have a policy to
18 use good hand hygiene practices.

19 Is that fair to say?

20 A. No. I think it asks if you do a particular
21 type of direct observation, to monitor and report that
22 adherence.

23 Q. And does Leapfrog audit how the observation
24 of the hand hygiene practices?

25 A. Not to my knowledge.

1 Q. The second rationale you mentioned was that
2 there had been a concern over the sustainability of
3 the program.

4 Do you recall that?

5 A. Yes.

6 Q. What was that concern?

7 A. Well, just as the -- if the participation
8 rates continue to drop, then the overall program
9 becomes less useful to consumers, to purchasers, and
10 other stakeholders.

11 Q. Was Leapfrog concerned that hospital
12 participation in its survey had dropped in 2024?

13 A. Yes.

14 Q. Was the hospital dropped in survey
15 participation one of the reasons that Leapfrog changed
16 its imputation methodology?

17 A. It was one of the factors, among the two
18 others I mentioned, yes.

19 MR. HVIDT: We've been going for about an
20 hour. Do you want to take a quick break?

21 MR. BILLEK: We can take a break.

22 THE VIDEOGRAPHER: Off the record 10:43 a.m.

23 (Break taken in proceedings.)

24 THE VIDEOGRAPHER: On the record 10:59 a.m.

25 MR. HVIDT: Dr. Romano, I'm handing you

1 what's been marked as Exhibit 6 and produced in this
2 litigation as Leapfrog 3046954. It's titled
3 "Hospital Safety Score Expert Panel Call Notes,
4 August 10th, 2012."

5 (Exhibit 6 was marked for
6 identification.)

7 BY MR. HVIDT:

8 Q. Do you see that?

9 A. Yes.

10 Q. Looking through this document, have you seen
11 this before?

12 A. I don't recall having seen it before.

13 Q. If you look at the attendees, do you see
14 your name listed there at the end of the first line,
15 carrying over onto the second?

16 A. Yes.

17 Q. Do you have any reason to dispute that you
18 were at that meeting?

19 A. No, I do not.

20 Q. If you look down to where it says "Goals of
21 the call," do you see that?

22 A. Yes.

23 Q. And goal No. 3 is to "Set out clear guiding
24 principles for Leapfrog to use."

25 Do you see that?

1 A. Yes.

2 Q. You mentioned those guiding principles
3 earlier, do you recall?

4 A. Yes.

5 Q. And if you look down under the category
6 "Debrief on first round of scores" on the bottom half
7 of the first page.

8 Do you see that section?

9 A. Yes.

10 Q. Around the fifth line of that large
11 paragraph, a few words in, it says "Patrick."

12 Do you see that?

13 A. Yes.

14 Q. Do you see that that "Patrick" is probably
15 referring to you when you look at the attendees there?

16 A. I'm sure it is.

17 Q. Okay. Can you read to me that sentence
18 beginning with "Patrick"?

19 A. "Patrick liked the idea of an
20 imputation approach that gives hospitals
21 an" quote, unquote "average score instead
22 of a low score."

23 Q. Do you recall liking that idea?

24 A. Yes.

25 Q. Can you explain what that idea really is

1 that you liked back in 2012? What did that mean?

2 A. Well, again, the idea was to use the best
3 counterfactual estimate of what the missing data would
4 have been if it were actually reported. So to use
5 empirical methods to estimate the missing data
6 typically based either on the same data from other
7 hospitals or other data elements from the same
8 hospital.

9 Q. Got it.

10 So in 2012 you liked the idea of using the
11 best counterfactual estimate of what the missing data
12 would have been had the hospital reported instead of a
13 low score.

14 Is that fair to say?

15 A. Yes.

16 Q. And as we were just discussing, that's not
17 the approach that Leapfrog uses today?

18 A. Correct.

19 Q. You can set that document to the side.

20 Thank you.

21 Bad place for a sticker. Don't want to
22 cover up any words.

23 (Exhibit 7 was marked for
24 identification.)

25 ///

1 BY MR. HVIDT:

2 Q. Doctor, I'm handing you what's been marked
3 as Exhibit 7. I'm so sorry.

4 Exhibit 7 has been produced in this
5 litigation as Leapfrog 3100665. Looking at the top,
6 it's described as an original article titled
7 "Safety in Numbers - the Development of Leapfrog's
8 Composite Patient Safety Score for U.S. Hospitals."

9 Do you see that?

10 A. Yes.

11 Q. And do you see up at the top the volume --
12 or down at the bottom, actually, is a date of
13 April 1st, 2013.

14 Do you see that?

15 A. Yes.

16 Q. And if you look at the authors that are in
17 italics underneath the title, are you one of those
18 authors?

19 A. I was, yes.

20 Q. And are the other authors of this article
21 the expert safety panel for Leapfrog as of 2013?

22 A. Well, I believe that Guy D'Andrea was not a
23 member of the expert panel, but I think -- and of
24 course Matt Austin was not. But from the third author
25 onward, yes, these were the members of our expert

1 panel.

2 Q. And so Matt Austin was -- would you have
3 described him as being involved in the Leapfrog safety
4 score?

5 A. Yes.

6 Q. But just not a member of the expert safety
7 panel?

8 A. Correct.

9 Q. His role is slightly different?

10 A. Yes. It's described in the disclosure at
11 the bottom of the page.

12 Q. Great.

13 Do you recall this publication?

14 A. As much as one might expect from a
15 publication that's 12 years old.

16 Q. And what's your understanding of the purpose
17 or what was done with this article?

18 A. Well, I think the purpose of the article was
19 full transparency, essentially, to describe the method
20 that we used to develop the composite patient safety
21 score and some of the key considerations in the
22 development process.

23 Q. So with this article, y'all were trying to
24 describe what Leapfrog did to create the hospital
25 safety grade methodology.

1 Is that --

2 A. Yes.

3 Q. -- fair to say?

4 A. Yes.

5 Q. And so with this article, y'all were trying
6 to be accurate with the information that you were
7 conveying about the underlying features that go into
8 the methodology?

9 A. Yes.

10 Q. If you look at the first sentence under
11 "Methods" there on the first page, on the left-hand
12 side, it says that "The expert panel assisted in
13 developing the safety grade."

14 Do you see that -- actually, I apologize.

15 We're going to go to the next page, so
16 strike that. The next page ending in Bates No. 666.

17 Do you see "Methods" halfway down on the
18 left-hand side?

19 A. Yes.

20 Q. Do you see where it says:

21 "The Leapfrog Group invited nine
22 national experts to serve on a panel to
23 develop a composite score to evaluate
24 patient safety in U.S. hospitals"?

25 A. Yes.

1 Q. Is that consistent with what you understood
2 your role to be on the expert safety panel?

3 A. Yes. It's been clear from the beginning
4 that The Leapfrog Group has the ultimate
5 responsibility for the design of the composite and the
6 safety grade, but we serve a very important advisory
7 role.

8 Q. And do you know who at The Leapfrog Group
9 has the ultimate responsibility for the design of the
10 composite and safety grade?

11 A. Well, currently it would be Missy Danforth.

12 Q. And what's Missy --

13 A. But obviously Missy reports to the CEO,
14 Leah Binder, and to the board. So ultimately the
15 board and the CEO have the authority.

16 Q. Does The Leapfrog Group board of directors,
17 from your understanding, approve of the -- approve
18 various aspects to the hospital safety grade
19 methodology?

20 A. To my knowledge, they don't get into the
21 details of the methodology. They opine on specific
22 controversial issues that may be brought to them by
23 the staff.

24 Q. So is it the staff that ultimately decides
25 the components of the methodology?

1 A. I think it's fair to say that the vast
2 majority of the decisions are made by staff, yes.

3 Q. And the staff that reports up to
4 Leah Binder.

5 Is that fair to say?

6 A. Yes.

7 Q. If you look down to the next column where --
8 at the bottom, the bolded portion says "Weighting of
9 individual members" -- excuse me -- "Weighting the
10 Individual Measures."

11 Do you see that?

12 A. Yes.

13 Q. And it says that -- going on to the next
14 page, "Measures" -- under "Strength of Evidence" says:

15 "Measures with stronger research
16 evidence carry higher weight than measures
17 with weaker evidence."

18 Do you see that?

19 A. Yes.

20 Q. What does that mean?

21 A. Well, there's a tradition in evidence-based
22 medicine of grading the quality of the evidence. So
23 if the evidence is based on experimental research,
24 that is, intervention research or large prospective
25 studies, that it's considered to be stronger evidence,

1 than if it's based on, for example, case reports or
2 conceptual rationale alone.

3 Q. Got it.

4 And so if you look down, there's a way -- or
5 a numerical value assigned to the strength of
6 evidence.

7 Do you see that?

8 A. Yes.

9 Q. And the first one is 1, and 1 is:
10 "Supported by either suggestive
11 clinical or epidemiological studies or
12 theoretical rationale."

13 Do you see that?

14 A. Yes.

15 Q. And then 2 is:

16 "Supported by experimental clinical
17 or epidemiological studies and strong
18 theoretical rationale."

19 Do you see that?

20 A. Yes.

21 Q. Do you understand what the difference is
22 between "theoretical rationale" and "strong
23 theoretical rationale"?

24 A. I'm not sure I can describe that difference.

25 The key difference in those two statements

1 is "or" versus "and."

2 So Level 1, a theoretical rationale alone
3 would be sufficient.

4 For Level 2, you have to have a strong
5 theoretical rationale in combination with empirical
6 data.

7 Q. Oh, interesting. Okay.

8 So with -- when Leapfrog is imputing a
9 measure, it is lacking evidence of the data for those
10 nonresponding hospitals.

11 Is that fair to say?

12 A. This has nothing to do with imputation.

13 Q. Is a score that is imputed assigned a weight
14 by Leapfrog's grading methodology?

15 A. The weight is determined -- the weight for
16 each component in the composite is determined by all
17 of these factors, but the weight is orthogonal. It's
18 unrelated to the issue of imputation.

19 Q. When a hospital submits a survey for hand
20 hygiene, it gets a -- there's a weight ascribed to the
21 score that Leapfrog assigns it for that hand hygiene.

22 Is that correct?

23 A. Yes.

24 Q. And does that weight for hand hygiene change
25 for that metric for nonresponding hospitals?

1 A. No.

2 Q. Does Leapfrog have more --

3 A. With one exception, which is that if the
4 data -- so the safe practices components, as we
5 mentioned, are not counted if the hospital didn't
6 respond in the survey. That shifts a little bit more
7 weight onto the -- all the other components, and
8 therefore, for example, the hand hygiene component
9 could get a little bit more weight for those
10 nonresponding hospitals.

11 Q. So --

12 A. But it's because of the shifting of weight
13 among the components.

14 Q. So when a hospital doesn't respond to the
15 survey, the hand hygiene score gets a higher weight
16 than it does for a hospital who does respond to the
17 survey due to the shifting of the weight because three
18 measures were taken out.

19 Is that fair to say?

20 A. Yes. I would need to be reminded about the
21 details of those three measures and how much weight
22 they have to redistribute. But in principle, yes.

23 Q. Understood.

24 And when Leapfrog -- when a hospital
25 responds to the survey for hand hygiene, does Leapfrog

1 have more evidence of how that hospital would perform
2 for the hand hygiene versus when a hospital doesn't
3 participate in the survey?

4 A. Yes.

5 Q. So even though Leapfrog has less evidence
6 how a hospital would respond -- how a hospital's
7 hand hygiene score would be if the hospital doesn't
8 respond to the survey, Leapfrog assigns a higher
9 weight to that score for the nonresponding hospital.

10 Is that fair?

11 A. Well, again, you're mixing up two completely
12 different things.

13 So what you're -- what we've been discussing
14 on page 3 of this paper, 3100667, is about the
15 strength of the evidence supporting the use of the
16 measure.

17 So that has nothing to do with the
18 determination of the imputation method or what we do
19 for missing data. It's two completely separate
20 issues.

21 Q. So I'm struggling to see how they're not
22 connected because the output of determining the weight
23 applied to a measure is actually applied to the score
24 that Leapfrog generates for hospitals.

25 Is that correct?

1 A. Try that again.

2 Q. So Leapfrog determined -- using this formula
3 of evidence and impact and opportunity, Leapfrog
4 determines a weight to apply for a metric that's
5 included in Leapfrog's hospital safety grade?

6 A. Yes.

7 Q. And that weight is actually used during the
8 scoring of a hospital.

9 Is that correct?

10 A. Yes.

11 Q. And this formula isn't changed for weighting
12 of a measure if a hospital doesn't participate in the
13 survey.

14 Is that correct?

15 A. Yes.

16 Q. And so the weight that's applied was -- one
17 of the factors that went into that weight is the
18 strength of the evidence of that weight.

19 Is that correct?

20 Strength of the evidence of that measure?

21 A. The strength of the evidence supporting the
22 use of that measure.

23 Q. And are you saying that this -- that the --
24 it is unrelated to whether or not to use that measure
25 if the evidence that's available to Leapfrog is

1 different for nonresponding hospitals?

2 A. Yes. That's unrelated to this question.
3 The strength of the evidence supporting use of the
4 measure is unrelated to the question of the data
5 reported by an individual hospital or not reported by
6 an individual hospital.

7 Q. And if Leapfrog has no evidence to -- of a
8 measure, would that justify changing the weight that's
9 applied to that measure?

10 A. Again, I may not be understanding your
11 question.

12 Obviously the weights have to add up to one.
13 That's a mathematical necessity.

14 So -- so it is necessary if you make the
15 decision to redistribute weights from missing data for
16 any reason, then by necessity the other measures get a
17 little bit more weight.

18 But that's a function of the need to
19 redistribute the weight, the mathematical problem that
20 the weights have to add up to one.

21 Q. Understanding that point, would you agree
22 that the strength of evidence of a hand hygiene score
23 for a hospital that doesn't report its hand hygiene is
24 lower than the strength of evidence for a hospital
25 that does report its hand hygiene answers?

1 A. No. No. Again, the strength of the
2 evidence is based on the literature. It's based on
3 all prior studies that have been done, as well as the
4 theoretical rationale underpinning the use of the
5 measure.

6 So the evidence applies to the entire
7 population. It doesn't pertain to any individual
8 hospital. The strength of the evidence is exactly the
9 same for every hospital in the country. There's no
10 way that I can say that certain hospitals don't have
11 to do hand hygiene. That's -- that's not plausible;
12 right?

13 The strength of the evidence is based on the
14 entire population.

15 Q. So are you saying that the evidence -- the
16 strength of the evidence is only considered in the
17 methodology as it relates to whether or not to use a
18 measure in the grading methodology at all?

19 A. Well, and whether to give it one point or
20 two points. So it gets more credit if it's considered
21 to be a measure that has stronger evidence based in
22 the population health literature.

23 Q. Turning to the next page, do you see where
24 it says on 668, "Dealing with missing data"?

25 A. Yes.

1 Q. And if you go down to the second paragraph,
2 it says that:

3 "The panelists discuss several
4 approaches for assessing hospital
5 performance when data is missing."

6 Do you see that?

7 A. Yes.

8 Q. And the options are numbered there below.

9 Do you see that?

10 A. Yes.

11 Q. Okay. Can you read the five options,
12 including the numerical paragraph number assigned to
13 them?

14 A. As you wish.

15 "1. Impute the hospital's performance
16 at the national median/mean.

17 "2. Impute the hospital's performance
18 on the missing measures using other
19 available data.

20 "3. Impute a score above or below the
21 median/mean, EG minus one standard
22 deviation.

23 "4. Give the hospital zero credit for
24 the measure, e.g., when the hospital chose
25 not to report data to Leapfrog.

1 "5. Exclude the measure and
2 recalibrate the weights for the affected
3 hospitals using only those measures for
4 which data are available."

5 Q. Do you recall the panel walking through each
6 of those options?

7 A. I don't recall the details of it, but I'm
8 sure that this is an accurate representation of the
9 panel's consideration.

10 Q. And if you look at the next paragraph,
11 again, this is back in 2013, the one that begins
12 "After conducting," the article states that the
13 expert's recommended Option 5, which was "excluding
14 the measure and recalibrating the weights for the
15 affected hospitals using only those measures for which
16 data are available."

17 Is that correct?

18 A. Yes.

19 Q. And then it specifically goes on to say
20 that -- strike that.

21 Why did the panel prefer that approach over
22 the others?

23 A. Well, as described in the paper, imputation
24 always rests on assumptions, and those assumptions are
25 always debatable. Depending on the assumptions, one

1 might yield different results.

2 So obviously No. 1, "Impute the hospital's
3 performance at the national median," the assumption
4 there is that the counterfactual, that
5 nonparticipating hospitals perform equal to the
6 national median or mean; right?

7 No. 2, "Impute the hospital's performance on
8 the missing measures using other available data."

9 Well, that requires that we have other
10 available data that we can use to generate such an
11 estimate.

12 No. 3 involves an assumption that the
13 hospitals that choose not to participate are, for
14 example, one standard deviation below the national
15 median or mean on their performance.

16 No. 4, give the hospital credit would
17 basically assume that the hospitals are at the floor
18 in terms of their performance on the measure.

19 So No. 5 involves the least assumptions in
20 that you're simply using the information that's
21 already available on the same hospital and
22 redistributing the weight.

23 Q. Got it.

24 So whenever you're using imputation, you're
25 making an assumption.

1 Is that correct?

2 A. Yes.

3 Q. Okay. And if you look here, the first
4 sentence on the top of the second column, it reads:

5 "We avoided making questionable
6 assumptions about the performance of
7 hospitals with missing data."

8 Do you see that?

9 A. Yes.

10 Q. Would you agree that by -- in 2013, that you
11 were avoiding -- that by choosing the exclusion of the
12 measure and the recalibration, you are avoiding making
13 questionable assumptions by imputing a score for the
14 hospitals?

15 A. This was a brand new program in 2013, so we
16 put a lot of emphasis on trying to encourage
17 participation and trying to minimize assumptions.
18 Yes.

19 Q. And if you look -- do you agree with that --
20 did you agree with that reasoning at that time in
21 2013?

22 A. Yes.

23 Q. Do you still agree with that?

24 A. In part. There -- when we talk about
25 missing data in epidemiology and biostatistics, there

1 are several types of missing data. We talk about
2 missing at random or MAR. We talk about missing
3 completely at random, MCAR. Or missing not at random,
4 MNAR.

5 And so without going into a full lesson, the
6 data of this type are almost always missing not at
7 random. In other words, people make deliberate
8 choices not to provide their data.

9 And so this needs to be considered over
10 time; right?

11 And so the assessment that we made in 2013
12 naturally would evolve over time because at this time
13 of course the hospital safety grade was brand new and
14 now of course it's very well established. And now
15 most hospitals, the majority of eligible hospitals,
16 have figured out how to participate year after year
17 and how to put their systems in place to manage the
18 burden of participation. And so our framework is
19 different.

20 So now we have a stronger a priori
21 assumption, if you will, that the hospitals that
22 consistently choose not to participate are almost
23 certainly worse than the average, whereas we didn't
24 have any particular a priori when this started in
25 2013, 2011.

1 Q. When a hospital chooses not to participate,
2 it could be for reasons other than the fact that it
3 has -- is a poor performing hospital.

4 Is that fair?

5 A. It could be.

6 Q. And when you are imputing the notion that it
7 is a poor performing hospital, you are making an
8 assumption that they are a poor performing hospital.

9 Is that fair?

10 A. You are.

11 Q. And in 2013, Leapfrog and the safety panel
12 rejected the idea of imputing a score, giving the
13 hospital zero credit for the measure to -- as it says
14 down here in that paragraph, "to avoid creating a
15 structural bias in favor of Leapfrog reporting
16 hospitals."

17 Do you see that?

18 A. Yes.

19 Q. Did you agree that that was why the third
20 and fourth approaches were rejected in 2013?

21 A. Yes.

22 Q. And why would Options 3 and 4 have created a
23 structural bias in favor of Leapfrog reporting
24 hospitals?

25 A. Well, because presumably if those hospitals

1 had reported, at least some portion of them would have
2 reported values greater than zero, and that would have
3 led to a higher score for those hospitals.

4 So therefore the score can only be increased
5 by participation. It can't possibly be decreased.

6 Q. And that dynamic creates a structural bias
7 in favor of responding hospitals versus nonresponding
8 hospitals.

9 Is that correct?

10 A. Yes.

11 Q. And so since today Leapfrog assigns the
12 lowest score possible for the imputed measures for
13 nonresponding hospitals that go to the Step 2 of the
14 imputed methodology, today there is a structural bias
15 in Leapfrog's methodology against nonresponding
16 hospitals.

17 Is that fair?

18 A. So, again, that structural bias applies to
19 the community of nonparticipating hospitals.
20 Obviously some of those nonparticipating hospitals are
21 exactly right on the mark because they would have
22 limited achievement, even if they had reported.

23 But when we talk about a structural bias or
24 a systematic bias, we're talking about the average,
25 and, yes, the average is biased.

1 Q. So because some hospitals who don't respond
2 to the survey are not pro-performing hospitals, those
3 hospitals receive a bias against them due to the fact
4 that they don't participate in the hospital survey.

5 Is that correct?

6 A. They do.

7 Q. If you look down at the bottom of that
8 paragraph, do you see where it says:

9 "By scoring hospitals on the
10 available data, the composite scores were
11 based on what was known about the
12 hospital's performance with no penalties
13 for missing data."

14 Do you see that?

15 A. Yes.

16 Q. Does assigning the lowest score for
17 nonresponding hospitals penalize hospitals for missing
18 data?

19 A. In aggregate, yes. And most of the
20 hospitals in that group are penalized. Again, we have
21 no way to know. Some of the hospitals are not
22 penalized, but we have no way to know which those are.

23 Q. But do you think most of the hospitals that
24 don't participate are penalized for that low score?

25 A. Yes.

1 Q. Do you have any data that goes -- underlies
2 your conclusion or your view that most hospitals who
3 don't participate in the survey are penalized by being
4 given the lowest score?

5 A. Well, when we talk about penalized, we're
6 talking about the numeric value of the score.
7 Obviously there are brackets for the great
8 assignments. And as we've explored over the years,
9 you know, the implications of various approaches, most
10 of the penalties still fall within the same grade
11 bracket so you could say, "Oh, yeah, you lost some
12 points, but your C would still be a C" or whatever.

13 But, yes, there are some hospitals that
14 would drop a grade.

15 Q. And do you have -- have you ever studied the
16 actual performance of the hospitals that don't
17 participate in the survey to understand the breakdown
18 of, you know, the hospitals that, you know, are
19 given -- by being given an imputed low score are being
20 penalized versus those that are actually low
21 performers, have you ever studied the data of those
22 nonresponding hospitals?

23 A. From time to time I think with Matt's help,
24 we've looked at their performance on other metrics,
25 and I think there have been one or two sort of

1 published empirical studies on that question as well.

2 Q. And as you're sitting here today, based on
3 the information that you are aware of -- you still --
4 you believe that most of the nonresponding hospitals
5 are penalized by being given a limited achievement
6 score because they would likely perform better than
7 that, had they participated in the survey.

8 Is that fair?

9 A. Just to be clear, they are penalized
10 numerically on the summary composite score. However,
11 most of them probably don't lose a grade point. So I
12 can't comment on what percentage actually drop a grade
13 point.

14 Q. But sitting here today, based on the
15 information you are aware of, you believe that most of
16 the nonresponding hospitals are penalized in the
17 numerical score that Leapfrog assigns them based on
18 their -- all the data before them and given the
19 limited achievement score for those imputed measures
20 because they likely would have performed better had
21 they participated in the survey?

22 A. Yes.

23 Q. You can set that article aside for a minute.

24 (Exhibit 8 was marked for
25 identification.)

1 BY MR. HVIDT:

2 Q. I am handing you what's been marked as
3 Exhibit 8 in the Romano deposition. This document has
4 been produced in this litigation as PBHN000009368.

5 And if you look up at the top, it is titled
6 "National Hospital Rating systems share few common
7 scores and may generate confusion instead of clarity."

8 Do you see that, Dr. Romano?

9 A. Yes.

10 Q. And if you look up at the authors, do you
11 see your name as one of the authors?

12 A. Yes.

13 Q. And is Matt Austin another one of the
14 authors?

15 A. Yes.

16 Q. And the other authors listed here, are they
17 also -- or were they members of the expert --
18 Leapfrog safety expert panel?

19 A. Yes.

20 Q. And what is the date of this article?

21 A. March 2015.

22 Q. And was this article peer reviewed?

23 A. It was.

24 Q. And what is the purpose of this article?

25 A. Well, I think the purpose of this article

1 was to explore consistency across different national
2 hospital rating systems, and to explore the
3 implications of the methods that were used by
4 different reporting entities.

5 Q. And if you look at the first sentence of the
6 article, it reads:

7 "Assessing the quality and safety of
8 care delivered in hospitals is
9 increasingly important for patients,
10 payors, and providers as evidenced by
11 increased public reporting of hospital
12 quality and safety data and by payment
13 changes that reimburse providers for value
14 rather than volume."

15 Do you see that?

16 A. Yes.

17 Q. Do you agree that hospital ratings and
18 grades affect consumer decisions?

19 A. Very slightly at the margin.

20 Q. Do you agree that ratings can affect
21 reimbursement decisions?

22 A. There are very limited levers, but, yes,
23 there are mechanisms by which payment may be
24 contingent on various rating systems.

25 Q. Do you agree that a negative rating can harm

1 a hospital's reputation?

2 A. It depends on the source of the rating, the
3 consistency of the rating, the severity of the rating,
4 et cetera.

5 Q. What if a hospital is assigned an F, do you
6 agree that could harm the hospital's reputation?

7 A. It could, yes.

8 Q. Looking down on page 1 still, it says
9 that -- and this is again 2015, it says "Relatively
10 little is known about what these rating systems
11 reveal" in that third sentence.

12 Do you see that?

13 A. Yes.

14 Q. And if relatively little is known about what
15 these ratings revealed, what value do you think that
16 they add for consumers, for example?

17 A. Well, there's tremendous concern and issues
18 related to hospital quality and safety, pending the --
19 the most widely cited estimates suggest that 44,000 to
20 98,000 Americans die every year as a result of
21 hospital harms, medical errors, or patient safety
22 issues that arise in hospitals. So that's a very
23 serious problem.

24 So, yes, a greater transparency and
25 accountability with respect to quality and safety

1 should help to inform the market and motivate
2 improvement efforts.

3 Q. Would you agree that there are multiple
4 ratings -- hospital ratings groups?

5 A. Of course.

6 Q. How many are you aware of?

7 A. Well, Consumer Reports has gotten out of the
8 business since this paper, but certainly at a minimum,
9 there's U.S. News, there's Healthgrades, there's
10 Leapfrog, and CMS itself. Some states have their own
11 programs. Some regional employer coalitions have
12 their own programs. But the major national programs
13 are those four.

14 Q. And back in 2015, with this article and the
15 study that y'all were doing, y'all were trying to
16 assess whether you can look at the ratings options
17 that were on the plate back then and assess any kind
18 of conclusions that could be made looking at all of
19 them in the aggregate.

20 Is that fair to say?

21 A. Yes.

22 Q. And is that because there were differences
23 across these various ratings?

24 A. Yes. I mean, part of it of course, since
25 this paper came from our expert panel, is that we

1 asked the question and were interested in exploring
2 the extent to which our Leapfrog grades were
3 correlated with other hospital rating programs, and
4 what we could learn from the similarities and
5 differences.

6 Q. And there were some that were high
7 performers on one ratings and low performers on the
8 other.

9 Is that fair to say?

10 A. Correct.

11 Q. If you look at the second column on that
12 page 1, if you flip back to 9368, the last sentence of
13 that paragraph that started on page 1, do you see
14 where it says:

15 "43 percent of hospitals classified
16 as having below average mortality by one
17 risk adjustment method were classified as
18 having above average mortality by
19 another"?

20 Do you see that?

21 A. Yes.

22 Q. Can you explain the significance of that
23 point?

24 A. Well, the point is simply -- I mean,
25 obviously this is citing to reference 11, which was a

1 paper done by some colleagues out of Harvard in 2010.
2 So the point they were making was that the results are
3 sensitive to the methodology and different methods may
4 result in different classifications.

5 So this is -- motivates the continuing
6 effort to improve the methods.

7 Q. So the methods that are used in assigning
8 these -- depending on what method is used and measures
9 that are affected, that can dramatically impact the
10 output of the methodology.

11 Is that fair?

12 A. It can, yes.

13 Q. If you flip over to the next page, the one
14 ending in 9370, the bottom of the column on the left
15 says "Approaches to Missing Data."

16 Do you see that?

17 A. Yes.

18 Q. And so these groups had different approaches
19 for missing data.

20 Is that fair?

21 A. Yes.

22 Q. And Consumer Reports and Healthgrades, how
23 did they handle missing data?

24 A. At this point I know nothing more than
25 what's described in the paper. We say in the paper

1 that they establish minimum data thresholds for a
2 hospital to receive a rating.

3 Q. So if a hospital -- if they don't have
4 enough data in the hospital, they don't report on it.

5 Is that correct?

6 A. Correct. But I have no recollection of what
7 their specific thresholds were or how they were
8 justified.

9 Q. If you turn now to page 5 of this paper
10 which ends in -- the top of the paper -- the top of
11 the page says "Study Results," and the Bates number
12 ending is 9372.

13 Do you see that?

14 A. Yes.

15 Q. And if you go down to the second paragraph,
16 it starts with "83 hospitals are rated by all four
17 rating systems."

18 Do you see that factor?

19 A. Yes.

20 Q. And "Of those 83, no hospitals were rated as
21 a high performer of all four."

22 Do you see that?

23 A. Yes.

24 Q. And it then goes on to say that -- the next
25 paragraph:

1 "No one hospital was rated as a low
2 performer on all three of the rating
3 systems that rated low performance."

4 Do you see that?

5 A. Yes.

6 Q. And with those data points, what was the
7 conclusion that y'all -- that you and your fellow
8 authors determined at that time?

9 A. Well, we determined there was a lot of
10 variation in how the different rating systems were
11 rating.

12 But I think it's important to recognize two
13 things here:

14 One is that health department grades doesn't
15 exactly rate all the hospitals. They only rate, you
16 know, hospitals that meet certain criteria. And so
17 therefore the number of hospitals that were rated by
18 all four rating systems is only 83 in the whole
19 country, so that particular analysis was limited to a
20 tiny subset of all the hospitals.

21 And then, of course, also Consumer Reports
22 abandoned their rating program. But the person who
23 was in charge of that rating program was George Peter
24 (phonetic) came over to Leapfrog's expert panel, so
25 she now helps us advise Leapfrog.

1 Q. Understood.

2 And if you continue on in the last full
3 paragraph here, of those 83 hospitals, there were
4 27 cases where a hospital was rated as a high
5 performer in one and a low performer in the other.

6 Do you see that?

7 A. Okay. The penultimate paragraph. Okay.

8 "We identify 27 cases of such extreme
9 cross-rating disagreement."

10 Right.

11 Just to be clear, that's not 27 of 83.
12 That's 27 of 1,559.

13 Q. Of the -- 27 of the 1,559, that's for the
14 three ratings as opposed to the --

15 A. Yes.

16 Q. -- other?

17 A. Correct. It's 27 of the 1,559 referenced in
18 the previous paragraph, not 27 of the 83 referenced in
19 the second paragraph.

20 Q. And do you think that the disagreement of
21 how the hospitals are rated across these various
22 ratings systems can impact how consumers make hospital
23 decisions, looking at the data that's in front of
24 them?

25 A. They could, of course. Consumers and

1 purchasers take multiple sources and information into
2 consideration, including we hope the Leapfrog score as
3 one source.

4 Q. Okay. You can set is that article aside for
5 now. We're going to go to 30...

6 A. This is just a review of my academic --
7 (Exhibit 9 was marked for
8 identification.)

9 BY MR. HVIDT:

10 Q. We have quite a -- there are 245
11 peer-reviewed articles.

12 We couldn't use all of them; correct?

13 A. Did you read them all?

14 Q. Not quite all of them, but we read a fair
15 amount of them.

16 I've handed you what has been marked as
17 Exhibit 9, which is an article that's called
18 "Impact of Reporting Hospital Performance."

19 And do you see that you are listed as a --
20 an author of this?

21 A. Yes.

22 Q. And if you look down at the bottom of the
23 page, it says there's a website for QSHC.com.

24 Do you see that?

25 A. The bottom of which page?

1 Oh, yes. I see, at the very bottom. Yes.

2 Q. Yes.

3 And so is this a peer-reviewed article that
4 you co-authored in 2005?

5 A. It's a commentary. Some journals
6 peer-review their commentary, some don't. I think
7 this probably was peer-reviewed.

8 Q. And on the first page the article frames an
9 issue, "Is public disclosure a cost effective way to
10 improve the quality of patient care?"

11 Do you see that?

12 A. Yes.

13 Q. What did you mean by that?

14 A. Well, at the time of this paper and in the
15 previous years, I was very interested in the question
16 of how information about hospital quality is reported
17 and how it's used in the market.

18 So this commentary long predates the
19 Leapfrog patient safety grade. I think this was from
20 2005.

21 So in the early stage of my career, I had a
22 couple of grants that allowed me to interview hospital
23 administrators, quality improvement managers,
24 purchasers, consumers, so forth, do a variety of data
25 analyses to kind of explore questions around how

1 hospital quality reports are used and how they can be
2 used more productively.

3 Q. And is it fair to say at that time, if you
4 look down to the third paragraph, it says in that
5 first sentence that you were having to search a little
6 harder for supportive evidence for the notion that
7 public disclosure was a cost effective way to improve
8 quality of patient care?

9 A. Can you pinpoint exactly? This is a 20-year
10 old paper.

11 Q. Absolutely.

12 So if you look down to that first sentence
13 in the third paragraph, it says:

14 "Those who look for more instrumental
15 reasons to justify the costly and complex
16 task of publishing performance information
17 have to search a little harder for
18 supportive evidence."

19 Do you see that?

20 A. Yes.

21 Q. And throughout the time, that's another way
22 of saying, like in 2005, the evidence was thin that
23 disclosure improves outcomes?

24 A. Right.

25 In other words, the argument that we're

1 making is that the primary basis for disclosure is
2 simply accountability; that it's mostly public money
3 that is going to support these institutions,
4 hospitals, and healthcare organizations. And so
5 accountability is a desirable goal in itself.

6 But if we're actually looking for empirical
7 data that publicly reporting this information drives
8 quality improvement, that's a little bit harder to
9 find. Yeah.

10 Q. Understood.

11 And if you look to the second to last full
12 paragraph on the far right column, do you see where
13 you wrote:

14 "It is difficult to judge from these
15 studies whether public disclosure is
16 something that only good hospitals are
17 willing to do or whether it actually leads
18 to improved performance"?

19 Do you see that?

20 A. Yes.

21 Q. And then if you go down to the sentence that
22 begins on the bottom of that page and carries forward
23 on to the next, do you see where you say:

24 "Despite the increasing commitment to
25 public disclosure of provider performance

1 data, there's still much that we do not
2 know about its cost effectiveness, impact,
3 and mechanisms of action"?

4 Do you see that?

5 A. Yes.

6 Q. And so at the time, you're saying that
7 there's still more that we need to understand about
8 whether public disclosure leads to improved
9 performance.

10 Is that fair?

11 A. Right.

12 I mean, as you can see, and as my memory is
13 refreshed, this was an invited commentary on a paper
14 that the same journal was publishing by Ito and
15 Sugawara. And so that paper was one more empirical
16 data point essentially evaluating the relationship
17 between accreditation disclosures -- between
18 accreditation scores and disclosure.

19 Q. And as you were saying earlier that most of
20 nonperforming Leapfrog hospital -- strike that.

21 As you were saying earlier, most of the
22 hospitals that do not participate in Leapfrog's
23 hospital survey are being penalized by being given
24 an imputed -- penalized in the numerical value of the
25 score they get by being assigned an imputed measure.

1 Is it fair to say that it's still not clear
2 that public disclosure to a particular group leads to
3 improved performance?

4 A. Oh, okay. So first let me just mind you
5 that there's a Step 1 to the imputation which is based
6 on prior reported performance by the same hospital.
7 So we're only talking now about hospitals that
8 consistently decline to participate in the survey.

9 And to your second point, I think it's fair
10 to say that the literature has evolved substantially
11 over the last 20 years. I'm not prepared here today
12 to opine on 20 years of evolution of the literature.
13 But clearly this has been studied by multiple
14 investigators over the subsequent time period in
15 different ways.

16 Q. Okay. You can set that aside.

17 I think this is the last old article that
18 we're going to look at for right now. But if we could
19 get, when you have a second, a sticker for...

20 (Exhibit 10 was marked for
21 identification.)

22 BY MR. HVIDT:

23 Q. I'm putting in front of you what has been
24 marked Exhibit 10 to the Romano deposition. This is
25 from February 1st, 2013 and it's an article on

1 Clinician.com titled "Leapfrog Safety Scores Spur
2 Debate - How Reliable Are They?"

3 Do you see that?

4 A. Yes.

5 Q. Have you ever seen this article before?

6 A. I don't recall ever seeing it.

7 Q. Do you have any reason to believe that the
8 information in this article isn't accurate?

9 A. I don't recall ever seeing it, so I'm not
10 going to comment without reading the article.

11 Q. If you turn to the last page of substance on
12 the article, on the third paragraph -- third full
13 paragraph it references "Patrick Romano MD, MPH."

14 Do you see that?

15 A. Yes.

16 Q. Okay. And flipping back -- is that you?

17 A. Must be me.

18 Q. Flipping to page 2, paragraph 2, second
19 sentence, it describes how "respected providers like
20 Mt. Sinai Medical Center in New York call Leapfrog
21 grade an incomplete and imperfect snapshot."

22 Do you see that?

23 A. Yes.

24 Q. And it goes on to say "Much of the analysis
25 is based on outdated information from disparate

1 sources."

2 Do you see that?

3 A. Yes.

4 Q. And in the next paragraph it talks about the
5 Cleveland clinic.

6 Do you see that?

7 A. Yes.

8 Q. And that it describes that they don't have
9 confidence in the Leapfrog system.

10 Do you see that?

11 A. Yes.

12 Q. And with Leapfrog's methodology, it uses
13 CMS data for some of the metrics in there; correct?

14 A. Yes.

15 Q. And the CMS data that's available for
16 Leapfrog to use is -- from then and now is from a few
17 years in the past.

18 Is that fair?

19 A. Yes.

20 Q. And if you roll forward to the last page, it
21 has quotes from Leah Binder.

22 Do you see that?

23 A. Yes.

24 Q. And then it goes on to say that -- then it
25 goes on to quote you later in the article.

1 Do you see that?

2 A. Yes.

3 Q. And in the article you are quoted as saying:

4 "It is understandable that a
5 hospital's internal data could paint a
6 different picture if it is more current
7 and complete than what was available to
8 Leapfrog."

9 Do you see that?

10 A. Yes.

11 Q. And you're then quoted as saying that:

12 "The Leapfrog Group is going to
13 assess the data and score your hospital
14 whether you participate or not. So it is
15 in your advantage to participate and help
16 us gather the most complete, accurate
17 picture of your safety experience."

18 Do you see that?

19 A. Yes.

20 Q. And so as it relates to that notion, why is
21 it that Leapfrog is going to score your hospital
22 whether you participate or not?

23 A. Well, because Leapfrog's mission is to drive
24 improvement in quality and safety. And so the
25 fulfillment of this mission requires that Leapfrog

1 score all the significant players in every hospital
2 market.

3 Q. But if Leapfrog is going to grade hospitals,
4 whether they participate or not, doesn't that create
5 kind of a pressure on the hospitals to participate,
6 even if they have valid reasons for not wanting to
7 participate unrelated to their performance?

8 A. Of course. There's nothing wrong with that.
9 The market creates lot of pressures.

10 Q. So you think that there's nothing wrong with
11 Leapfrog grading hospitals who don't participate in
12 the survey in encouraging -- in a way that is
13 structurally biased because -- strike that. I'll move
14 on.

15 All right. Why is there nothing -- no.

16 A. Perhaps we could take a lunch break soon?

17 MR. HVIDT: I'm happy to take a break right
18 now.

19 THE VIDEOGRAPHER: Okay.

20 MR. HVIDT: Off the record.

21 THE VIDEOGRAPHER: Off the record.

22 12:02 p.m.

23 (Break taken in proceedings.)

24 THE VIDEOGRAPHER: On the record.

25 12:52 p.m.

1 BY MR. HVIDT:

2 Q. Dr. Romano, earlier this morning you
3 testified that before your deposition, you had
4 reviewed Leapfrog's Expert Safety Grade Panel's
5 Guiding Principles.

6 Do you recall that?

7 A. Yes.

8 Q. I am handing you what's been marked as
9 Exhibit 11 in your deposition.

10 (Exhibit 11 was marked for
11 identification.)

12 BY MR. HVIDT:

13 Q. Looking at this document, which was
14 downloaded from Leapfrog's website, does this look
15 like those guiding principles that you looked at to
16 prepare for your deposition?

17 A. Yes.

18 Q. And what went into preparing these
19 principles?

20 A. It was a long time ago. I don't recall
21 specifically, but there were a couple of rounds of
22 discussion.

23 I think there was an earlier draft with some
24 revision, and this reflects the product of a couple of
25 rounds of discussion.

1 Q. Did you participate in those discussions
2 that led to this product?

3 A. Yes.

4 Q. And the document states at the top that:

5 "The expert panel reached a consensus
6 that the following principles will guide
7 the recommendations to Leapfrog for
8 calculating the grade."

9 Do you see that?

10 A. Yes.

11 Q. And does mean that the principles reflected
12 the consensus views of you and the rest of panel?

13 A. That's how I would interpret it, yes.

14 Q. And if you flip to the next page, do you see
15 where it says in bold italics "Scientific Soundness of
16 Measures"?

17 A. Yes.

18 Q. And did the panel prefer scientifically
19 sound measures be included in Leapfrog's safety
20 grades?

21 A. Yes.

22 Q. And the document also does note here that
23 there's a lack of existing research on scientific
24 soundness that did not automatically exclude a measure
25 from being included.

1 Is that correct?

2 A. Yes.

3 Q. Why did the panel allow inclusion of less
4 validated -- less scientifically sound measures in
5 some cases?

6 A. Well, because in some cases the evidence is
7 evolving, and so members of the panel may have a
8 strong view that a measure will be proven to be valid.
9 In the next year or two, they may have advanced
10 information essentially on the validity of a measure.
11 There may also be cases where a measure is thought to
12 be so important conceptually that it may outweigh
13 regarding the specific validity and reliability of
14 measurement.

15 Those would be limited scenarios, of course.

16 So in general, you know, we have a strong
17 preference for scientifically sound measures.

18 Q. Are there any measures on -- in the Leap --
19 included in the Leapfrog scoring methodology today
20 that you would characterize as not scientifically
21 sound?

22 A. I would say I'm not convinced that the
23 safe practices survey measure would meet reliability
24 and validity criteria in a current assessment. That's
25 not to say that they're not meaningful concepts. But

1 the reliability of the measurement is somewhat suspect
2 because of the fact that they're, you know,
3 self-reported responses to a series of questions
4 regarding safe practices that most hospitals have
5 already embedded in their system.

6 So it -- the reliability criteria in
7 particular, you know, requires that there be a certain
8 amount of what we call signal that is true variation
9 across hospitals. And so if that true variation has
10 decreased over time, then the measure may no longer
11 meet reliability criteria. That's just one example.

12 Q. And for the safe practices one, that's a
13 measure that participating hospitals get the benefit
14 of that inclusion in their score but nonparticipating
15 hospitals do not.

16 Is that correct?

17 A. Right. The weight is redistributed for
18 nonparticipating hospitals.

19 Q. And you mentioned that that was one example.
20 Are there other examples of measures,
21 including the Leapfrog safety grade methodology today
22 that you would also put in that category of not
23 scientifically sound?

24 A. Well, there are measures -- there are
25 measures of extremely rare events, such as

1 air embolism, for example, where there's, you know,
2 literally a few dozen of these events across the
3 country each year.

4 So these measures would not meet criteria
5 for reliability at the hospital level.

6 That is, you know, when we say that a
7 hospital's rate is, you know, one per 10,000, do we
8 really know it's one per 10,000 and not two per 10,000
9 or zero per 10,000?

10 Q. Or that that one per 10,000 is caused by
11 something relating to the quality or safety of the
12 procedures at the hospital.

13 A. No. That's not what I said.

14 I'm referring specifically to reliability as
15 a statistical concept, that is, the extent to which
16 the data are repeatable over time that they minimize
17 random error.

18 So there's a lot of random noise in
19 extremely rare events that some hospitals get hit by
20 one in one year and then they don't for two or
21 three years.

22 And so in any given reporting period, the
23 data may be unreliable. However, it is valid; right?
24 So the hospitals aren't lying to us. They actually
25 experience that event. It's an unfortunate event, a

1 true patient harm. And -- and so that's a case where
2 the measure might meet the validity criteria but not
3 the reliability criteria.

4 Q. I understand.

5 So when the one off event happens, it
6 impacts -- negatively impacts that hospital's
7 measure --

8 A. During that year.

9 Q. -- during that year.

10 But that outcome is not necessarily a
11 reliable indicator because it varies year to year
12 because of how rare the event is?

13 A. Correct.

14 Q. Looking further down on the same page, do
15 you see where it says "Imputing Missing Data"?

16 A. Yes.

17 Q. And in the first paragraph under "Imputing
18 Missing Data":

19 "The panel under the guiding
20 principles recommended that when data is
21 missing for a measure, the measure should
22 simply be ignored and the weights
23 recalibrated."

24 Is that correct?

25 A. Yes.

1 Q. And that's what Leapfrog does for three
2 measures in the current methodology.

3 Is that correct?

4 A. Yes.

5 Q. And is it correct that the panel also agreed
6 if too much data was missing, no grade should be
7 issued?

8 A. Where are you referring to?

9 Q. In the next paragraph still on page 2, under
10 "Imputing Missing Data."

11 Do you see where it says:

12 "In situations where a hospital does
13 not have data available from the primary
14 data source" --

15 Strike that.

16 If you go to the next page where it says:

17 "if a hospital is missing data for a
18 large number of performance measures, then
19 a grade cannot be reliably calculated."

20 Do you see that?

21 A. Yes.

22 Q. And it says, "In this situation, no grade
23 should be issued for the hospital."

24 Do you see that?

25 A. Yes.

1 Q. And was that the expert panel's consensus as
2 a guiding principle for how Leapfrog's hospital safety
3 grade should work for U.S. hospitals?

4 A. It was, contingent on the understanding that
5 the reason for missing data on a large number of
6 performance measures is that the hospital is too
7 small; that it doesn't meet the structural criteria
8 for participating, for example, in the inpatient
9 perspective payment system.

10 Q. Is reference to the hospital size included
11 in the guiding principles?

12 A. No. But as part of this discussion, it was
13 clear that this was the third sort of paragraph, if
14 you will, the fallback.

15 So we have the first paragraph, then we have
16 the second paragraph, and then in the remaining cases,
17 which basically is limited to the hospitals that are
18 so small or don't participate in CMS reporting, this
19 is the criterion that would apply.

20 Q. Do you understand the current methodology
21 that Leapfrog uses states that if a hospital is
22 missing six or more process measures, that that
23 hospital is not graded?

24 A. Yes.

25 Q. And do you understand that absent the

1 inclusion of imputed measures for nonparticipating
2 hospitals, that non- -- that Leapfrog would be missing
3 more than six measures for nonparticipating hospitals?

4 A. Can you repeat the question?

5 Q. Yeah.

6 So if a hospital doesn't participate in
7 Leapfrog's survey, there are the three measures for
8 the two safe practices and the nursing category that
9 Leapfrog doesn't grade those hospitals on. It simply
10 says that data is missing --

11 A. Right.

12 Q. -- and we'll redistribute the weight; right?

13 A. Mm-hm.

14 Q. And then -- sorry. Can I get an audible
15 answer to that?

16 A. Yes.

17 Q. Okay. And then if there are -- then there
18 are four measures for nonparticipating hospitals where
19 Leapfrog imputes a grade where it doesn't have the
20 data for the -- those hospitals.

21 Is that correct?

22 A. Yes.

23 Q. And so if you add those four imputed
24 measures and those three measures that Leapfrog
25 excludes, that equals seven measures.

1 Is that correct?

2 A. Why would you add them?

3 Q. Because -- can you -- my question is: If
4 you add four imputed measures --

5 A. Uh-huh.

6 Q. -- with three -- the three measures for the
7 safe practices in the nursing, does that equal seven
8 measures?

9 A. It does equal seven measures. But you're
10 ignoring the reason for missing this, which is
11 fundamental.

12 Q. The reason for missing this is not an aspect
13 that's stated in this paragraph here for the guiding
14 principles.

15 Is that fair?

16 A. No. Because it's implied. Because first we
17 go through the first paragraph, then we go through the
18 second paragraph.

19 And so at the time that this was written, we
20 had a secondary data source for all the hospitals that
21 were not participating. So we never got to the third
22 paragraph, you see.

23 So it was really the second paragraph that
24 guided the discussion about nonparticipating
25 hospitals. The third paragraph was inapplicable

1 because we didn't get there; right? Because that
2 issue was solved in the second paragraph.

3 Q. Leapfrog no longer has that secondary data
4 source for those four imputed measures.

5 Is that correct?

6 A. Yes.

7 Q. And this is -- the guiding principles that
8 we're looking at today are still the guiding
9 principles that apply to Leapfrog's scoring
10 methodology?

11 A. No.

12 Q. So --

13 A. Clearly not.

14 Q. Are you saying that there's an updated
15 version of the guiding principles?

16 A. No. I'm saying that we've had subsequent
17 discussions obviously in which we've migrated away
18 from some of the initial understandings as a result
19 of, for example, changes in the measures that are
20 used, the measures that are available, the market
21 context, so forth.

22 So this is a historical document but we
23 haven't -- we haven't specifically revisited and
24 revised this document in the last few years.

25 Q. So is Leapfrog's expert panel and Leapfrog

1 itself no longer following the guiding principles as
2 written here?

3 A. Well, I think it may be a question for
4 others. Obviously in recent meetings we have
5 acknowledged that, you know, we no longer have data
6 available from alternative or secondary data sources.
7 And so explicit discussion of that, you know, led to
8 some revisions. And obviously we may go back and
9 revise the guiding principles at some point. I mean,
10 these guiding principles are still guiding our general
11 approach, but obviously we can't necessarily follow
12 every detail as the circumstances change.

13 Q. Do you understand that this document is
14 linked on Leapfrog's safety grade website?

15 A. I was not aware of that actually until it
16 was pointed out, I guess, by counsel.

17 Q. And so if Leapfrog is presently linking this
18 document to users of the website that these are the
19 guiding principles underlying the methodology, is that
20 an accurate representation of the principles that are
21 guiding the current methodology if you're no longer
22 following them as written here?

23 MR. BILLEK: Object to form.

24 You can answer.

25 THE WITNESS: Well, these guiding

1 principles, if you'll notice they're guiding
2 principles on the development of the composite; right?

3 So, again, this is a historical document
4 that I don't think has been revised since -- whatever
5 date. I don't know how it's dated. But it's guiding
6 principles on the development. And I think, as we've
7 discussed, it is consistent with the development
8 process as described in our paper, internal patient
9 safety and elsewhere.

10 BY MR. HVIDT:

11 Q. Is Leapfrog still developing its principles
12 today?

13 A. I think the -- it's an ongoing process,
14 right, and so we meet typically twice a year and we
15 discuss at each meeting the possibility of bringing
16 new measures, making changes, considering the
17 weighting components, so forth.

18 So it's an ongoing evolutionary process.

19 Q. So if these principles no longer apply, what
20 principles do apply to how Leapfrog determines the
21 methodology that it uses?

22 MR. BILLEK: Object to form.

23 You can answer.

24 THE WITNESS: Well, I think that the --
25 you've probably reviewed the minutes, notes from our

1 meetings more carefully than I have. So I think you
2 could -- you could tell me and you probably have
3 documents to show how the principles have evolved over
4 time.

5 BY MR. HVIDT:

6 Q. So I'm asking you here today, as I'm not the
7 one being deposed and I wasn't involved in those and
8 you were.

9 What I'm trying to understand is are --
10 when Leapfrog's expert safety panel is meeting on
11 recommendations that they're making to Leapfrog, what
12 principles are they using to guide those
13 recommendations?

14 A. Well, I think that we're informed by the
15 principles that were used by development in the
16 development process as described here, but
17 fundamentally we're guided by the mission of the
18 organization to promote transparency and
19 accountability, and to drive the field towards
20 greater patient safety to reduce harm.

21 Q. And so are you saying that it's not
22 appropriate -- because this document was about the
23 development of Leapfrog's safety grade, it's not
24 appropriate to judge Leapfrog's current methodology
25 against these principles?

1 A. Yes. Clearly. Because as I've just
2 described, when this was written, we had alternative
3 data sources available as described in the second
4 paragraph here under "Imputed Missing Data."

5 So in the absence of that second paragraph,
6 if we had known at that time that there were no
7 alternative data sources, then we would have developed
8 an alternative second paragraph. But we don't have
9 that alternative second paragraph because that wasn't
10 necessary to develop an alternative second paragraph
11 at the time that this document was developed.

12 Q. And Leapfrog lost access to that secondary
13 data source about four or five years ago.

14 Is that correct?

15 A. Yeah. Mm-hm.

16 Q. And this document hasn't been updated since
17 then?

18 A. That's correct.

19 MR. BILLEK: Could we just take a break for
20 a second? This is not current any longer.

21 Is yours?

22 Off the --

23 MR. HVIDT: Go off the record.

24 THE VIDEOGRAPHER: Off the record 1:11 p.m. 0

25 (Break taken in proceedings)

1 THE VIDEOGRAPHER: On the record 1:16 p.m. 0

2 BY MR. HVIDT:

3 Q. Thank you, Dr. Romano.

4 We've been talking about the expert panel's
5 guiding principles document in front of you,
6 Exhibit 11.

7 If you go down to the last paragraph on
8 page 2 where it begins "In situations where a
9 hospital."

10 Do you see that?

11 A. Yes.

12 Q. And it reads:

13 "In situations where a hospital does
14 not have data available from the primary
15 data source for a particular performance
16 measure but an alternative data source is
17 available, data from the alternative or
18 secondary data source can be used in the
19 composite."

20 Do you see that?

21 A. Yes.

22 Q. And so that means that when there's
23 alternative data, instead of the data that comes in
24 through Leapfrog Hospital Safety Survey, Leapfrog
25 would prefer to use that alternative data in the first

Page 127

1 instance; correct?

2 A. Well, they would have preferred to use the
3 hospital reported data, but absent a hospital reported
4 data, then in the second instance, this becomes the
5 preferred option.

6 Q. And so that alternative or secondary data
7 means actual data about the hospital's performance but
8 that was data that was provided to another source, not
9 Leapfrog?

10 A. Well, it's not specific about the nature of
11 that alternative or secondary data source; right?
12 Conceptually that could be data previously reported by
13 the same hospital, it could be data reported by the
14 same hospital on other related measures, or it could
15 be data reported by similar hospitals on the same
16 measure.

17 All three of those would be alternative
18 sources.

19 Q. So you would consider data regarding a
20 similar cohort of hospitals that they are reporting to
21 be secondary data for -- for a nonresponding hospital;
22 that Leapfrog could use that to impute a measure for?

23 A. Yeah. An alternative source, yes. I think
24 that's the -- probably more precise is it's an
25 alternative data source.

1 Q. Got it.

2 But that data is not data from the actual
3 hospital. That's data from an alternative source?

4 A. Yes. It could be data from the same
5 hospital on the same measure at a previous time, it
6 could be data from the same hospital on other measures
7 that are related to the missing measure, or it could
8 be data from other hospitals similar to this hospital
9 on the same measure.

10 Q. Understood.

11 And if you look at the last sentence there
12 in that paragraph, the use there for when you're in
13 those three circumstances that you just walked
14 through, so if data is used from those sources, those
15 secondary data sources, it says there in quotes:

16 "Attempts should be made to provide a
17 grade that is equitable to what the
18 hospital would have earned had the data
19 been available from the primary data
20 source."

21 Do you see that?

22 A. Yes.

23 Q. And that was a -- that is a principle that's
24 included in the expert panel's guiding principles in
25 the development of the composite Leapfrog hospital

1 safety grade for U.S. hospitals; correct?

2 A. Correct. Again, obviously the situation has
3 evolved over time. These were guiding principles
4 related to the development of the composite in 2012,
5 '13, '14. And the situation has evolved.

6 Q. When you say it's evolved, are you referring
7 to how it has evolved because it's no longer an
8 assignment of providing an equitable grade to the
9 hospital, or how has it evolved?

10 A. Well, it's evolved in the sense that we are
11 less reliant in aggregate on the survey than we were
12 at the very beginning of this process, so there are
13 more measures that are now reported through CDC and
14 CMS. For example, I think the initial survey -- the
15 initial composite only had one hospital-acquired
16 infection, that is central line associated bloodstream
17 infections or CLABSI, C-L-A-B-S-I.

18 Since then additional measures have been
19 added to the program, including catheter-associated
20 urinary tract infections, clostridium difficile
21 infections, surgical -- certain surgical site
22 infections. So the PSI 90 composite measure.

23 So in aggregate, the program is now less
24 reliant on the survey than it was at the very
25 beginning. And so that means that we have to be sort

1 of less tolerant of hospitals that don't participate
2 in the survey because there's more data from other
3 sources that allow us to estimate a safety grade.

4 Q. What do you mean when you say you have to be
5 less tolerant of hospitals that don't participate in
6 the survey?

7 A. That equitability with respect to what the
8 hospital would have earned had the data been available
9 from the primary data source is no longer as strong a
10 consideration.

11 Q. So Leapfrog no longer considers the idea
12 that when it's imputing missing data, it needs to be
13 equitable to the nonparticipating hospital?

14 A. That's correct.

15 Q. So what is the principle guiding how
16 Leapfrog imputes missing data today?

17 A. Well, again, I think the preferred principle
18 is that we use -- Leapfrog uses data from previous
19 cycles of the survey so that the hospital may choose
20 that -- because the survey is burdensome, it doesn't
21 wish to participate every year. That may be a
22 reasonable choice, given the burden.

23 And so then Leapfrog would look back to the
24 previously reported performance by the hospital.

25 So that's the preferred option.

1 Q. And what's the option if Leapfrog doesn't
2 have the hospital's prior performance from the year
3 before?

4 A. Well, then it assigns the score that is
5 consistent with limited achievement.

6 Q. So is it fair to say that today, Leapfrog's
7 2025 methodology does not follow these principles?

8 A. Well, I think in general it does. I think
9 in general the guiding principles from 2012 or 2013
10 have stood the test of time. Obviously things -- some
11 of these guiding principles have evolved, yes.

12 Q. As it relates to imputing missing data, is
13 it fair to say that Leapfrog's current methodology
14 does not follow the guiding principles in Exhibit 11?

15 A. Specifically only for hospitals that
16 consistently decline to participate, yes.

17 Q. Thank you.

18 Earlier today we talked about your
19 participation in advising Leapfrog regarding how to
20 handle methodology changes following the loss of the
21 American Hospital Association data.

22 Do you recall that?

23 A. Yes.

24 Q. I'd like to mark as Exhibit 12, an e-mail
25 chain I'm handing you that's been produced in this

1 litigation as Leapfrog 01991528.

2 At the top of the page there's an e-mail
3 from Missy Danforth with Leapfrog to several
4 individuals, including Patrick Romano, dated
5 March 16th, 2021, regarding "Update on Leapfrog
6 hospital safety grade, new imputation approach."

7 (Exhibit 12 was marked for
8 identification.)

9 BY MR. HVIDT:

10 Q. Do you see that?

11 A. Yes.

12 Q. Have you seen this document before?

13 A. I must say I was asked to produce e-mails
14 from 2023 forward, so I have not seen this e-mail
15 train since it was originally sent in 2021. I have no
16 reason to doubt.

17 Q. You have no reason to doubt that this
18 document is an accurate business record regarding --
19 from Leapfrog's system, the e-mail that was produced?

20 A. No. I simply haven't seen it since 2021.

21 Q. Okay. And if we flip to the beginning of
22 the e-mail from a chronological standpoint, so the
23 last page where the Bates number ends in 1536.

24 Let me know when you are there.

25 A. Yeah.

1 Q. This chain begins with an e-mail from
2 Matt Austin dated January 13, 2021 and it's addressed
3 to the Leapfrog expert panel and some Leapfrog staff.

4 Do you see how you're included in that
5 e-mail?

6 A. Yes.

7 Q. And in that e-mail Mr. Austin is writing the
8 expert panel regarding the loss of data from
9 American Hospital Association.

10 Do you see that?

11 A. Yes.

12 Q. And do you see how the date of the loss of
13 the -- the -- when Leapfrog learned about the
14 American Hospital Association stopping the licensing
15 of its data was in September of 2020.

16 Do you see that?

17 A. Yes.

18 Q. And if you look in that e-mail,
19 Mr. Austin -- excuse me -- Dr. Austin said:

20 "Leapfrog had got ahead of it by
21 working with Mathematica to identify
22 possible alternative imputation
23 approaches" in that second paragraph.

24 Do you see that?

25 A. Yes.

1 Q. And still in that same e-mail, he wrote:
2 "With ongoing input of Patrick Romano
3 and Sara Singer, we worked with
4 Mathematica to develop a three-step
5 imputation approach."

6 Do you see that?

7 A. Yes.

8 Q. Is that different with how you would
9 characterize your role around that time in working
10 with Dr. Austin and Mathematica?

11 A. I think so. I was part of a subset of the
12 panel that was brought in to additional discussions
13 with Matt and Missy and Mathematica on this topic.

14 Q. Do you have an understanding as to why you
15 were selected among that subset of the panel to
16 participate in those additional discussions with Matt
17 and Missy and others regarding this new imputation
18 approach?

19 A. I don't know exactly what the
20 decision-making process was of those who invited me,
21 no.

22 Q. Is it fair to say that they value your
23 expert opinion in the methodology development in
24 including you to provide input?

25 A. I presume so.

1 Q. And that would probably be consistent with
2 the hundreds of articles you've written on the
3 subject.

4 Is that fair to say?

5 A. Perhaps so.

6 Q. They thought that you might know a thing or
7 two about how to help advise them on how to best
8 develop a methodology here.

9 Is that fair to say?

10 A. Yeah. Perhaps so.

11 Q. If you flip to the next page here, the
12 previous page, ending in 1535, there's an e-mail here
13 from Arjun Srinivasan.

14 Do you see that?

15 A. Yes.

16 Q. And is Dr. Srinivasan on the expert safety
17 panel?

18 A. Yes.

19 Q. And in this e-mail he writes -- he asks
20 whether Leapfrog should, quote, "consider assigning a
21 lower score to hospitals that are refusing to publicly
22 share this information."

23 Do you see that?

24 A. Yes.

25 Q. Okay. And then if you flip to the response

1 e-mail from Dr. Austin, it starts on page 1534 and
2 carries over on to the next.

3 Do you see where the second paragraph begins
4 "Leapfrog's leadership"?

5 A. Yes.

6 Q. And Dr. Austin responds:

7 "Leapfrog's leadership and board
8 continue to grapple with the decision of
9 how explicit Leapfrog wants to be with
10 penalizing hospitals that don't report to
11 the Leapfrog hospital survey."

12 Do you see that?

13 A. Yes.

14 Q. Did you participate at that time in
15 conversations with Dr. Austin or Leapfrog or
16 Dr. Singer about how explicit Leapfrog wanted to be in
17 penalizing hospitals that don't report to Leapfrog
18 hospital survey?

19 A. Well, I'm obviously not part of Leapfrog's
20 leadership or board. Certainly our expert panel
21 discussed the principles of imputation and I think
22 that's reflected in this e-mail train. But I don't
23 recall any specific discussion at this time of the
24 explicitness of a penalization approach.

25 Q. Have you ever had conversations with

1 Leapfrog about penalizing nonreporting hospitals?

2 A. Yes.

3 Q. What are those conversations?

4 A. Well, I think they're reflected in more
5 recent minutes and discussions.

6 Q. And can you tell me in your own words what
7 those conversations have entailed? Have you
8 recommended that Leapfrog penalize nonreporting
9 hospitals?

10 A. Well, as, you know, the situation has
11 evolved over time and various approaches have been
12 tested and retested, I think I came to the view --
13 which is probably reflected in documents that you'll
14 show me later this afternoon -- I came to the view
15 that Leapfrog might as well adopt a more explicit
16 approach of assigning the limited achievement score as
17 opposed to continuing to try different approaches that
18 may or may not be valid.

19 Q. And when you say Leapfrog might as well
20 adopt a more explicit approach of assigning a limited
21 achievement score, are you saying that Leapfrog might
22 as well be more explicit in its penalization --

23 A. Yes.

24 Q. -- of nonreporting hospitals?

25 A. Yes.

1 Q. In your conversations with Leapfrog, have
2 Leapfrog representatives communicated with you that
3 they are interested in penalizing nonreporting
4 hospitals the same way that you are?

5 A. Well, they've communicated that they don't
6 wish to reward hospitals for not participating.

7 So obviously the only way to avoid
8 completely rewarding hospitals for not participating
9 is to penalize them. There are flip sides of the same
10 coin, since we can't get exactly on the mark to know
11 what the counterfactual value of their reporting would
12 be.

13 Q. So it's kind of like a carrot-and-stick
14 approach, if you will.

15 MR. BILLEK: Object to form.

16 BY MR. HVIDT:

17 Q. Is that fair to say?

18 A. I don't think I know what you mean --

19 MR. BILLEK: Same objection.

20 THE WITNESS: -- by "carrot to stick."

21 BY MR. HVIDT:

22 Q. So the idea that there are ways to encourage
23 someone to do something and one approach is to use a
24 stick.

25 Is that fair to say?

1 A. One approach is to use a stick.

2 Q. One approach is to give someone a carrot?

3 A. Yes.

4 Q. And by penalizing the nonresponding
5 hospitals, Leapfrog is using a stick.

6 Is that fair to say?

7 MR. BILLEK: Object to form.

8 THE WITNESS: Let me back up.

9 So there's no neutral approach. So if
10 you -- if you remove nonparticipating hospitals,
11 you're rewarding them. If you assign the average
12 score, as that's shifted to the right, you're
13 rewarding them; right?

14 So the only alternative to those rewards is
15 to penalize.

16 BY MR. HVIDT:

17 Q. So you see there being three options.

18 You're either not grading them, which you
19 characterize as a reward.

20 Is that fair to say?

21 A. Yes.

22 Q. You are grading them through some sort of
23 imputation that assigns an average value and you're
24 characterizing that as a reward to the nonresponding
25 hospitals.

1 Is that correct?

2 A. Yes. In general, because it's a -- it's
3 migrated to a very high mean value that would, we
4 suspect, overestimate the true performance of those
5 hospitals.

6 Q. And the third option is to penalize the
7 hospitals?

8 A. Yes.

9 Q. And when you are penalizing the hospitals,
10 do you think that that is an accurate representation
11 of most of the nonresponding hospitals?

12 MR. BILLEK: Object to form.

13 You can answer.

14 THE WITNESS: Again, the penalty is a
15 numeric penalty in the -- how the composite safety
16 score is computed. In most cases that actually
17 doesn't translate to a change in the grade.

18 So, again, I'm not here to comment on how
19 often it actually eventuates in a grade change. But
20 the grade change is the actual penalty that is
21 experienced in the field.

22 BY MR. HVIDT:

23 Q. When you are --

24 A. So I'm just objecting to the word "most."

25 So I -- so most hospitals would suffer a

1 numeric penalty, but whether most hospitals actually
2 suffer a great penalty, I have no idea.

3 Q. And when that assignment of a penalty
4 occurs, is that an accurate -- is that penalty
5 accurate to how the hospital's performance actually
6 would be?

7 MR. BILLEK: Object to form.

8 THE WITNESS: Could you try that question
9 again?

10 BY MR. HVIDT:

11 Q. Yeah.

12 So when -- to use your words, when Leapfrog
13 assigns a penalty to the nonresponding hospitals, is
14 that penalty a fair and accurate representation of how
15 that hospital would have performed on that measure?

16 MR. BILLEK: Object to form.

17 THE WITNESS: Well, it's a penalty
18 essentially for opaqueness. It's a penalty for lack
19 of transparency and lack of accountability. So -- so
20 it's a penalty that has a specific purpose.

21 Its purpose is not accuracy. Its purpose is
22 ultimately to improve the program for everyone.

23 BY MR. HVIDT:

24 Q. And is the decision that was made that it is
25 preferred to assign the penalty to development of the

1 program and along the way, you might not be as
2 accurate for those nonresponding hospitals?

3 A. Correct. Those decisions are made every day
4 in public-reporting programs. I'm involved in other
5 public-reporting programs as well. Yes.

6 And so sometimes there are tradeoffs and so
7 decisions must be made to sacrifice accuracy at the
8 margin in order to achieve other programmatical...

9 Q. And going back to Exhibit 12, Dr. Austin
10 continues on the sentence that carries forward from
11 1534 to 1535 that "I don't doubt that any of them" --
12 meaning "them" in this, I believe, to refer to the
13 expert safety panel -- "would disagree with your
14 statement to Dr. Arjun" --

15 A. False. "Them" refers to Leapfrog's
16 leadership and board.

17 Q. Thank you. Thank you, Dr. Romano.

18 Okay. So going back to that sentence:

19 "I don't doubt that any of them,
20 Leapfrog's leadership and board, would
21 disagree with your statement to
22 Dr. Arjun Srinivasan that transparency is
23 likely a marker of a high-quality health
24 system. But I think they --", they being
25 Leapfrog leadership --" and board are

1 trying to balance that with a potential
2 hospital pushback; i.e., statements from
3 hospitals that Leapfrog is extorting
4 hospitals to participate in the survey."

5 Do you see that?

6 A. Yes.

7 Q. Have you heard statements from hospitals
8 that Leapfrog is extorting hospitals to participate in
9 the survey?

10 A. I can't vouch for that exact verb, but, yes,
11 I've heard statements to that effect.

12 Q. So statements from hospitals to the effect
13 that Leapfrog's methodology is pressuring them to
14 participate in the survey is there's consequences to
15 nonparticipating hospitals if they don't participate
16 in the survey.

17 Is that fair to say?

18 A. This statement is referring to potential
19 hospital pushback. And so this is part of the
20 balancing of considerations, obviously.

21 Q. And part of the balancing of considerations
22 that went into it is the possibility that hospitals
23 would push back on the penalty being assigned to them
24 for not participating; that that would be in their
25 view, those potential hospitals' view, as extortion.

1 A. Some hospitals might view it that way, yes.

2 Q. And if we carry forward in response to
3 Dr. Austin's e-mail, you have an e-mail beginning on
4 1533 dated January 19th, 2021.

5 Do you see that?

6 A. Yes.

7 Q. And in that e-mail, you say that:

8 "Dr. Austin's e-mail was very well
9 put. And we now have extensive amount of
10 data to address various what-if questions
11 as Mathematica has helped explore."

12 Do you see that?

13 A. Yes.

14 Q. And is it fair to say that in 2021, stepping
15 back, Leapfrog was still trying to come up with an
16 imputed methodology that would lead to a nonbiased
17 result for nonresponding hospitals?

18 A. Yes. Although, obviously there was active
19 debate and one of my colleagues on the expert panel
20 explicitly argued in favor of a penalty at that time.
21 So it's been an ongoing debate obviously for years.

22 Q. And as part of that ongoing debate in the
23 2021 time frame, Mathematica was involved in trying to
24 create the circumstance where Leapfrog is not
25 penalizing hospitals through giving them a low score

1 and not rewarding them by not grading them?

2 A. Mm-hm. Yes.

3 Q. And if you go on to the next page of your
4 e-mail, you start a sentence that says:

5 "It seems safe to assume that if a
6 hospital improves substantially, it would
7 want to highlight that improvement by
8 submitting another survey. Hence, using
9 the same hospital's most recent prior
10 survey result as the preferred alternative
11 seen, both conservative and proper."

12 Do you see that?

13 A. Yes.

14 Q. And that's consistent with what you said
15 today, that that's -- Leapfrog still today, with their
16 2024 or 2025 methodology, if they are missing data
17 from that hospital for that given year, their first
18 step is to use the hospital's survey responses from
19 the year before?

20 A. Yes.

21 Q. And the next sentence you say that:

22 "Previous responses by the same
23 hospital are clearly the strongest
24 predictor of subsequent performance" --
25 "subsequent responses, and it is

1 understandable that smaller hospitals
2 might find it burdensome to respond every
3 cycle."

4 Do you see that?

5 A. Yes.

6 Q. And we talked earlier about how you agree
7 that participating in the survey for hospitals can be
8 considered burdensome.

9 Is that correct?

10 A. Yes.

11 Q. And then you go on to say that:

12 "No imputation approach is truly
13 unbiased, given that missingness is not at
14 random."

15 A. Yes.

16 Q. Do you see that?

17 A. Yes. That describes what we call
18 nonresponse bias.

19 Q. And then you caution that:

20 "Imputing a worse score, then the
21 mode of responding hospitals would be
22 problematic to make that explicit
23 assumption without evidence."

24 Do you see that?

25 A. Well, it's not "and then." I think you went

1 backward.

2 My conclusion was that no imputation
3 approach is truly unbiased, giving that missingness is
4 not at random. That is MNAR.

5 Q. Apologies.

6 Earlier in the e-mail you write that "It
7 could be worse" -- excuse me.

8 Earlier in the e-mail you write that:
9 "It would be problematic to make
10 explicit assumptions without evidence."

11 Do you see that?

12 A. Okay. You're not capturing the theme of
13 this paragraph.

14 So Mathematica had done some prior work in
15 which they identified the hospitals that were part of
16 systems, multi-hospital systems.

17 And so the proposal that was on the table
18 was to say, okay, what if some hospitals in the system
19 participate in a Leapfrog survey and other hospitals
20 don't? Can we use the data from the hospitals in the
21 same system in this -- under the same ownership to
22 generate imputed estimates for the nonparticipants?

23 So that's the context for this paragraph.

24 So -- so I'm just observing, of course, that
25 this seems like it might be a reasonable assumption.

1 One would think that if a hospital in a system was
2 better than the average of the system, they would want
3 that to be known, and they would participate in the
4 survey and advertise that they're better.

5 But if they're worse, then of course they
6 might not choose to participate, and they might rely
7 on the average being better; right?

8 So then they would have an incentive -- if
9 they know that they're below the average in their
10 system, they would have an incentive not to
11 participate because their score would go up if they
12 didn't participate because we would be substituting
13 the average for that system.

14 Q. And your point is that you didn't
15 necessarily have evidence that would support the
16 notion that those nonresponding hospitals were worse
17 than their system average, and it would be problematic
18 if you didn't have that evidence to make that explicit
19 assumption.

20 Is that correct?

21 A. I think all I'm saying here in this
22 paragraph is that I'm endorsing the notion, the
23 hypothesis that hospitals within the same system are
24 more similar to each other than hospitals across
25 systems. And I'm saying that any individual hospital

1 could be either better or worse than the average for
2 that system.

3 And we have no basis for making an
4 assumption as to whether they're either better or
5 worse than the average of the system.

6 Q. And in the sentence that says it could be
7 worse, then what you're referring to there is it could
8 be worse than the system average of the responding
9 hospitals in its system, but it would be problematic
10 to make the assumption that it's worse than the system
11 average without evidence.

12 Is that a fair characterization of that
13 sentence?

14 A. Well, I think there's no proposal on the
15 table to assume that it would be worse. All I'm
16 saying is that it could be worse. But -- and I wasn't
17 prepared to assume that it was worse but that proposal
18 wasn't on the table, so I'm not voting or expressing
19 an opinion on something that wasn't on the table.

20 Q. In two e-mails prior, isn't Dr. Srinivasan
21 suggesting that the assignment of a lower score to a
22 hospital that's not participating in the system and...

23 Two e-mails prior, Dr. Srinivasan
24 suggests in saying --

25 A. Yes.

1 Q. -- "Hospitals that don't participate, a
2 lower score."

3 A. Yes.

4 Q. And then Dr. Austin responds how the
5 Leapfrog leadership and board considered how to --
6 considered the idea of penalizing nonresponding
7 hospitals and determined not to.

8 Is that correct?

9 A. Yes.

10 Q. And then in your e-mail, you're talking
11 about an explanation for, you know, we -- when you're
12 looking at a system and you're trying to assess how to
13 grade a nonresponding hospital that's part of a system
14 where there are respondents, you are providing your
15 view on that very point.

16 Is that fair to say?

17 A. No. Because I believe that Dr. Srinivasan
18 was speaking more generally about just automatically
19 penalizing all nonparticipating hospitals.

20 And I'm speaking very specifically about the
21 point of when we use a system average to help generate
22 imputed value. So I'm just saying use the system
23 average.

24 Q. So you're looking at a subset of that group
25 of nonrespondents --

1 A. Yes.

2 Q. -- and you're saying that without evidence
3 that the nonresponding hospital in the system is worse
4 than the system, it would be problematic to make that
5 assumption without that evidence.

6 Is that fair to say?

7 A. Within the very limited context of hospitals
8 that are part of multi-hospital systems where we have
9 an average that based on some participating hospitals
10 within this -- within the same multi-hospital system,
11 it's a very limited context. Yes.

12 Q. Okay. Thank you.

13 So following this exchange in 2021, Leapfrog
14 followed an imputation methodology that is different
15 than its methodology today.

16 Is that correct?

17 A. Yes.

18 Q. And that methodology involved imputing a
19 measure for nonresponding hospitals for those four
20 measures that -- that was consistent with the average
21 of a cohort mean for those who didn't have a Step 1
22 imputation option.

23 Is that fair?

24 A. Yes.

25 Q. You can put that document to the side for

1 now.

2 Did you have any role in discussions about
3 changing Leapfrog's imputation model in 2024?

4 A. Yes.

5 Q. And what was your role?

6 A. As a member of the expert panel, we had at
7 least one meeting, I think two meetings probably, at
8 which it was discussed. I think there was a meeting
9 in April perhaps that I was unable to attend because I
10 was in clinic seeing patients. And so I believe that
11 I had a separate meeting with Matt and Missy and
12 perhaps others.

13 Q. And --

14 A. And there were e-mails of course before and
15 after that meeting.

16 Q. Do you recall whether your meeting with --
17 as you mentioned with Dr. Austin and Missy Danforth at
18 Leapfrog, do you recall whether that was before the
19 April expert safety panel?

20 A. I think it was immediately before. Like
21 even maybe earlier the same day.

22 Q. Earlier the same day.

23 And do you recall the substance of that
24 discussion?

25 A. Well, I recall they previewed some slides

1 that they were planning to present at the meeting, and
2 some of those slides addressed this imputation issue.
3 And they put a proposal on the table for how to modify
4 the approach.

5 Q. And what was that proposal that they put in
6 front of you for how to modify that -- their approach?

7 A. Well, I may not recall details of that. If
8 you would like to share a document, I'd be happy to
9 look at the document to refresh my memory.

10 Q. Absolutely.

11 Before we get into that, though, do you
12 recall how you responded to their proposal?

13 A. I responded skeptically.

14 Q. Why?

15 A. Because they were proposing to eliminate the
16 Step 1 part of the imputation approach with the
17 reliance on previous scores.

18 And I felt pretty strongly that hospitals
19 should be able to skip around now and then if they
20 found it to be too burdensome, especially with the
21 recent history of the pandemic.

22 So -- so I responded skeptically,
23 particularly to dropping the Step 1 of the imputation
24 approach.

25 Q. Did you have any other reactions to the

1 other aspects of their proposal?

2 A. Yes.

3 Q. And what were those?

4 A. Well, I think that they were proposing in
5 Step 2 to adopt an alternative approach that relied
6 heavily on the mean value reported by hospitals in the
7 first year in which they had participated in the
8 survey.

9 Q. And what aspect to that proposal did you
10 have feedback on?

11 A. Well, I was skeptical about that approach
12 because it seemed like a backdoor way of penalizing
13 nonparticipation. Because we know, of course, that
14 hospitals improve over time and we know hospitals
15 focus particularly on the measures that are included
16 in the survey.

17 So empirically it's been demonstrated
18 multiple times that over the years, as a hospital
19 participates, its scores improve.

20 So imputing or claiming to impute the
21 hospital's current performance by looking at the mean
22 of a bunch of hospitals in the first year that they
23 reported, seemed like a backdoor way of penalizing
24 nonparticipation of assigning a lower score to
25 nonparticipating hospitals.

1 Q. So your criticism to that approach was that
2 by a backdoor penalization of the nonresponding
3 hospitals, it wouldn't be clear to those nonresponding
4 hospitals that they are being penalized?

5 A. Correct.

6 Q. By backdoor penalization of those
7 nonresponding hospitals, you're referring it might not
8 be clear to the consumers of the safety grades that
9 those nonresponding hospitals are being penalized
10 through that approach?

11 A. Correct.

12 Q. Do you understand that the same proposal
13 that they presented to you the morning of the expert
14 safety panel was the same proposal they had put forth
15 to the expert safety panel?

16 A. Of course.

17 Q. Is it fair to say that the approach that
18 Leapfrog ultimately adopted is not the approach that
19 was put forward to you or the expert safety panel on
20 April 12th, 2024?

21 A. Yes. That's correct.

22 (Exhibit 13 was marked for
23 identification.)

24 BY MR. HVIDT:

25 Q. I'm handing you what's been tagged as

1 Exhibit 13 and that has been produced in this
2 litigation as Leapfrog 00437361, which is a Zoom
3 invite from Dr. Matt Austin to the expert safety panel
4 of Leapfrog, including Leapfrog employees
5 Missy Danforth and Alexandra Campione regarding
6 Leapfrog Hospital Safety Grade Expert Panel Call.

7 Do you see that, Dr. Romano?

8 A. Yes.

9 Q. And do you see that you are a recipient?

10 A. Yes.

11 Q. And as we discussed, you did not attend this
12 call, you attended an earlier call with them.

13 Is that correct?

14 A. Yes.

15 Q. And do you see there's attachments to this
16 invite?

17 A. Yes.

18 Q. And if you look to the next page, do you see
19 that the document is entitled "Leapfrog Hospital
20 Safety Grade Expert Panel Meeting"? Do you see that?

21 A. Yes.

22 Q. And flipping through this, have you seen
23 this document before?

24 A. Yes.

25 Q. Did you review this document before your

1 deposition in preparation for it?

2 (Fire drill.)

3 MR. HVIDT: Can we go off the record?

4 THE VIDEOGRAPHER: Off the record 2:00 p.m. 0

5 (Break taken in proceedings.)

6 THE VIDEOGRAPHER: On the record 2:12 p.m.

7 BY MR. HVIDT:

8 Q. All right. Dr. Romano, before we broke for
9 the fire drill, the pending question was: Did you
10 review this document, Exhibit 13, before your
11 deposition?

12 A. Not immediately before.

13 Q. Did you review it in preparation for your
14 deposition?

15 A. Not specifically. I reviewed it as part of
16 the process of refreshing my memory on this imputation
17 issue as was discussed in 2024 previous to the
18 subpoena.

19 Q. And did reviewing this document refresh your
20 recollection?

21 A. Yes.

22 Q. And if you flip to Slide 4, which ends in
23 7366, do you see where it's -- it says "Re-evaluate
24 Imputation Methodology"?

25 A. Hold on a second.

1 Okay. Yes. Mm-hm.

2 Q. And if you flip to the next page, the title
3 of the slide is "Problem that we are working to
4 solve."

5 Do you see that?

6 A. Yes.

7 Q. And it goes through the history that we just
8 walked through, which is following the loss of the
9 American Hospital Association data, Leapfrog was
10 looking to -- for a way to respond to that loss of
11 data.

12 A. Yes.

13 Q. And then Leapfrog was seeking ways to
14 grade --

15 (Fire drill announcement.)

16 BY MR. HVIDT:

17 Q. Do you see that?

18 A. Yes.

19 (Fire drill announcement.)

20 MR. HVIDT: Do you need me to repeat that
21 question?

22 THE COURT REPORTER: Yes.

23 BY MR. HVIDT:

24 Q. And then underneath the "History" it says
25 "Leapfrog was also seeking for ways to grade

1 additional hospitals."

2 Do you see that?

3 A. Yes.

4 Q. And then the next bullet says "We are
5 currently facing these challenges."

6 Do you see that?

7 A. Yes.

8 Q. And the first subbullet reads:

9 "Imputed scores have crept up, making
10 imputation a more favorable choice for
11 lots of hospitals and it's de-incentivized
12 true transparency of performance."

13 Do you see that?

14 A. Yes.

15 Q. And the next bullet says:

16 "Hospitals are using Step 1
17 imputation" paren "(using their individual
18 hospital's historical data)" close paren
19 "as a reason to not report on the current
20 year's survey."

21 Do you see that?

22 A. Yes.

23 Q. So as it relates to that -- those items, do
24 both of those challenges kind of relate towards the
25 notion that there are less hospitals responding to the

1 Leapfrog hospital survey?

2 A. There was a drop in participation, yes.
3 These are two different potential explanations or
4 theories related to that drop.

5 Q. And there are potentially more theories to
6 explain a drop in hospital participation in the
7 Leapfrog survey.

8 Is that fair?

9 A. Yes.

10 Q. One could be the burden of responding to the
11 Leapfrog hospital survey.

12 Is that correct?

13 A. Well, every hospital evaluates that burden
14 against the potential benefits or consequences of not
15 participating.

16 Q. But it is the burden -- is the notion that
17 the burden of responding to the hospital outweighs the
18 benefit of responding to the hospital survey a reason
19 that some hospitals choose not to respond to the
20 Leapfrog hospital survey?

21 A. Yes.

22 Q. Flipping to the next page, do you see where
23 it says "Data sources and measure weights in the
24 process structural domain"?

25 A. Yes.

1 Q. And if you look at those rows that are gray,
2 those are the imputed -- the measures that are imputed
3 for nonresponding hospitals.

4 Is that fair to say?

5 A. Yes.

6 Q. And if you go to slide 7, the next slide --
7 I know that it's been printed in a...

8 The top of the slide reads "Current
9 Imputation Model."

10 Do you see that?

11 A. Yes.

12 Q. And is it your understanding that that was
13 explained on slide 7 as the approach that Leapfrog was
14 applying prior to the 2024 methodology change?

15 A. Yes.

16 Q. And you were involved in around 2020 and
17 2021 in advising Leapfrog regarding implementing that
18 imputation methodology.

19 Is that correct?

20 A. Yeah. To be precise, we supported the -- a
21 three-step imputation approach that also used
22 information on hospital systems. But I believe that
23 approach received too much pushback or criticism from
24 hospitals that claimed that their system affiliations
25 were out of date and that they were incorrect or

1 whatever.

2 And so I think Leapfrog board and Missy and
3 Leah made a decision to drop that step in the
4 imputation.

5 I don't recall how much we were involved in
6 that particular discussion about responding to the
7 feedback on the system issue.

8 Q. Understood.

9 So the current imputation methodology, as
10 reflected on slide 7, is -- does not include a step
11 that involved assigning a hospital a measure based on
12 how the system hospitals performed for a nonresponding
13 hospital that was part of a system --

14 A. That's correct.

15 Q. -- where there was some performance?

16 A. That's correct.

17 Q. Okay. And if you flip to slide 12, which
18 ends in 7374, do you see how the slide is titled
19 "Hospitals Eligible for Imputation"?

20 A. Yes.

21 Q. And if you look at the language underneath
22 that title, the second sentence, do you see where it
23 says:

24 "A slight dip in survey participation
25 occurred this past year as hospitals opted

1 to use past survey results in Step 1
2 imputation."

3 Do you see that?

4 A. Yes.

5 Q. Is that consistent with what we talked about
6 earlier where Leapfrog was concerned that there had
7 been a drop in hospital participation in its survey?

8 A. Yes.

9 Q. And that drop in hospital participation in
10 its survey led Leapfrog to consider changing its
11 imputation methodology.

12 Is that correct?

13 A. Among other factors that we've discussed,
14 yes.

15 Q. If you flip to slide 13 in the next slide,
16 it discusses the proposed future imputation
17 methodology.

18 Do you see that?

19 A. Yes.

20 Q. And consistent with what we were just
21 talking about before I showed you this exhibit, at --
22 going into the April 12th, 2024 expert safety panel
23 meeting, Leapfrog was recommending a new imputation
24 methodology where it would retire the Step 1 aspect
25 for imputing measures using the hospital's prior

1 year -- prior participation in the survey.

2 Is that correct?

3 A. Just to be clear, Matt Austin was leading
4 the presentation. I presume that he had vetted the
5 presentation previously with Missy. So when you say
6 Leapfrog was proposing this, I just want to make it
7 clear that it was Matt Austin and Missy Danforth who
8 were proposing this.

9 Q. Thank you.

10 The methodology change that was proposed in
11 this presentation, that was also the same methodology
12 change that was presented to you before the expert
13 safety panel call involved retiring the Step 1 of the
14 imputation methodology.

15 Is that correct?

16 A. Yes.

17 Q. And Step 1 of the imputation methodology was
18 using the hospital's prior grade -- prior survey
19 answers to determine its current grade?

20 A. Yes.

21 Q. And you talked how in your view that's the
22 preferred alternative data source is past
23 participation -- past data about that hospital might
24 be the best indicator of current metrics if you don't
25 have current metrics?

1 A. Yes.

2 Q. And instead, they -- in this proposal, their
3 proposal retiring that Step 1, and under Step 2,
4 adjusting the imputation to impute to an average of
5 how a hospital -- hospitals that respond in their
6 first year of participation.

7 Is that correct?

8 A. Yes.

9 Q. And the methodology that we're looking at
10 here on slide 13, that's not the methodology that
11 Leapfrog ends up using for 2024 forward; correct?

12 A. That's correct.

13 Q. In 2024, spring, up through June, was there
14 another -- an additional expert safety Zoom or meeting
15 where Leapfrog individuals like Missy Danforth or
16 Alex Campione met with the expert safety panel?

17 A. I don't recall an additional meeting. There
18 were certainly lots of e-mails.

19 Q. Aside from e-mail correspondence about the
20 next steps, there was no additional expert safety
21 panel with the whole -- or a quorum of the group
22 coming together to discuss a proposed methodology
23 change.

24 Is that correct?

25 A. That's my recollection. But you could

1 provide evidence that there was such a meeting. I
2 don't recall it.

3 Q. You've referenced e-mail correspondence and
4 so that is where we are going to turn to. We'll mark
5 this as Romano Exhibit 14.

6 (Exhibit 14 was marked for
7 identification.)

8 BY MR. HVIDT:

9 Q. And if we go to the last page of this -- or
10 the second to last page of this document --

11 Excuse me. Before we do that, Exhibit 14
12 has been produced in this litigation as
13 Armstrong_0008450. And at the top there is
14 communication from Patrick Romano dated May 15th, 2024
15 to Matt Austin, copying Missy Danforth and
16 Alex Campione, regarding Leapfrog proposed texts for
17 imputation change.

18 Do you see that?

19 A. Yes. I believe I also produced a version of
20 this.

21 Q. And do you believe there's differences
22 between the version you produced and then this
23 version?

24 A. I doubt it.

25 Q. And do you see that there's attachments

1 listed there to the e-mail, "AHSG, proposed imputation
2 change, fall 20240PSR.docx.

3 Do you see that?

4 A. I'm sorry.

5 Q. Underneath the subject of the e-mail,
6 there's a --

7 A. Yes.

8 Q. -- reference to "Attachments."

9 A. Yes.

10 Q. Do you see that?

11 A. Yes.

12 Q. And do you see at the end of that document
13 title, it says "PSR"?

14 A. Yes.

15 Q. Are those your initials?

16 A. They are.

17 Q. And have you seen this e-mail before?

18 A. Yes. Obviously my version doesn't have the
19 banner for external e-mail. Use caution. But yes.

20 Q. And if you flip to the beginning of this
21 e-mail chain, do you see a Bates number ending 8451
22 e-mail from Matt Austin dated May 7th, 2024?

23 A. Yes.

24 Q. Okay. And the e-mail is addressed to you.
25 Do you see that?

1 A. Yes.

2 Q. And Dr. Austin says:

3 "Since our conversation with you a
4 couple weeks ago about changing the
5 imputation approach used in Leapfrog's
6 hospital safety grade, we met with the
7 broader expert panel to hear their input
8 and have drafted the attached language to
9 share with hospitals about the proposed
10 changes."

11 Do you see that?

12 A. Yes.

13 Q. And in the next paragraph, Dr. Austin says:

14 "In the attached, I believe you will
15 see we found a path forward that still
16 uses the hospital's unique historical data
17 when available, although for a shortened
18 period of time. And when historical data
19 are not available, creates an incentive
20 for hospitals to share information about
21 their patient safety practices."

22 Do you see that?

23 A. Yes.

24 Q. And when he references "the path forward
25 that uses the hospital's unique historical data," is

1 that probably responsive to the conversation you had
2 with Dr. Austin and Missy and Alex before the
3 expert safety panel regarding your input on their
4 proposed change?

5 A. I believe so.

6 Q. And when it references an incentive for
7 hospitals to share information, was that also a
8 subject of your discussion with them from April?

9 A. Yes.

10 Q. And if we flip over to your e-mail response,
11 do you see again how there's an attachment there with
12 your -- under -- here on the first page, reference to
13 your initials?

14 A. Yes.

15 Q. If you look at the last page, you see how
16 it's in gray? It's kind of hard to see who did the
17 revisions.

18 A. Yes.

19 Q. Okay. I'm going to mark what is Exhibit 15.

20 (Exhibit 15 was marked for
21 identification.)

22 THE WITNESS: I believe if you have the
23 original document, there are a combination of
24 revisions by Matt Austin, MA, by Peter Pronovost, and
25 by me.

1 BY MR. HVIDT:

2 Q. And you'll see what I've handed you is a
3 color version of the e-mail that's included in
4 Exhibit 14 there where there's red edits and there are
5 blue edits.

6 I'll represent --

7 Do you see that?

8 A. Yes.

9 Q. And I'll represent to you that the blue
10 edits from the native -- the metadata are edits you
11 made, and that the red edits are edits that
12 Dr. Pronovost made.

13 Do you see those edits?

14 A. Yes.

15 Q. And if we're looking through your edits
16 here, why did you propose those changes?

17 A. To be more explicit of the intent of the new
18 approach to encourage survey participation and to
19 improve user's confidence in the data that are being
20 used to calculate scores.

21 Q. And did you think that that was an important
22 message that needed to be communicated to hospitals
23 and to the consumers of the safety grade as to why the
24 methodology change was occurring?

25 A. Yes. I also endorsed Dr. Pronovost's

1 recommendations. So as you can see, I could have
2 modified them, but did so only very slightly.

3 Q. Why did you feel that it was important to
4 include the intent behind the methodology change?

5 A. Well, the whole program is based on
6 transparency. So we want hospitals to be transparent.
7 Leapfrog also has to be transparent. So the
8 transparency works in both directions.

9 Q. And so you wanted Leapfrog to be more
10 transparent that it was trying to encourage hospital
11 participation through this methodology change?

12 MR. BILLEK: Object to form.

13 You can answer.

14 BY MR. HVIDT:

15 Q. Is that correct?

16 A. Yes.

17 Q. And going back, when you made these edits
18 to -- you can go back to the prior exhibit,
19 Exhibit 14, and then going to your e-mail at the front
20 page. Let me know when you are there.

21 When you sent these proposed edits to the
22 proposed imputation change, you included your view of
23 the proposed change.

24 Is that fair to say?

25 A. Yes.

1 Q. And you wrote back endorsing the change,
2 saying, "I like the simpler more direct approach
3 here."

4 Do you see that?

5 A. Yes.

6 Q. And that's consistent with what we talked
7 about in your recommendation before the expert safety
8 call that you didn't like the backdoor penalization
9 approach.

10 Is that correct?

11 A. Yes.

12 Q. And then you next state, quote:

13 "If the goal is to penalize
14 nonparticipants you, might as well do so
15 in a clear and unmistakable manner while
16 allowing for hospitals to manage their
17 burden and jump back on the bandwagon
18 after a year."

19 Do you see that?

20 A. The wagon. Yes.

21 Q. And is that an accurate statement of your
22 view towards what Leapfrog should have done in 2024?

23 A. It's slightly colloquial in a manner of
24 speech between people who have known each other for
25 many years, but yes.

1 Q. Do you agree with your characterization of
2 what -- do you agree your recommendation that you made
3 here sitting here today?

4 A. Yes.

5 Q. And when you say "if the goal is to penalize
6 nonparticipants," are you saying that if the goal is
7 to penalize nonparticipants because it was
8 communicated to you that that was a goal of the
9 imputation approach?

10 A. No. I don't think that's what I'm saying.

11 Q. Why do you reference then the goal of
12 penalizing nonparticipants?

13 A. Well, because, again, the contextual
14 considerations are at play. So we see a decline in
15 participation. We believe that participating in the
16 survey is itself beneficial because there's an
17 educational process for hospitals to convene their
18 staff and go through the survey and identify the gaps
19 in their care and figure out what to do to improve
20 their care in these domains.

21 So there's a strong shared desire to
22 encourage participation in the survey and to avoid a
23 situation where nonparticipants are riding on the
24 coattails of participants, as participants continue to
25 improve.

1 So in that context, we were discussing how
2 to motivate the greater participation.

3 Q. One of the ways to motivate greater
4 participation is so penalize nonrespondents.

5 Is that correct?

6 A. Yes.

7 Q. And is that described here, the penalization
8 of nonrespondents as a goal of Leapfrog?

9 A. In itself, that's not the goal. So that's a
10 colloquial statement to the problem; right?

11 The goal is to have more data available in
12 the marketplace of information to drive improvement in
13 patient safety. That's the goal. That's the mission.

14 So the penalization of nonparticipants is a
15 step, an intermediate step.

16 So my phrasing here is colloquial because
17 we're -- we're mindful of the real goal is reducing
18 harm and improving safety, saving lives. That's the
19 real goal.

20 Q. But here you say the goal is to penalize
21 nonparticipants.

22 Is that correct?

23 MR. BILLEK: Object to form.

24 THE WITNESS: Again, I think I've made clear
25 that the goal -- no. That's not the goal.

1 The goal is to improve patient safety, to
2 reduce hospital harm, to save lives.

3 So this was discussed as what you might call
4 a pathway towards that goal.

5 BY MR. HVIDT:

6 Q. In this sentence you do not say that the
7 goal is to save lives.

8 Is that correct?

9 A. But I think there's a shared understanding
10 that that is the goal of the program.

11 Q. Sir, I'm asking you on this page if there it
12 says that the goal is to save lives and increase
13 transparency? Or does it say the goal is to penalize
14 nonparticipants?

15 MR. BILLEK: Just note my objection to the
16 form of the question.

17 THE WITNESS: Again, I'm --

18 MR. BILLEK: It's certainly argumentative at
19 this point. Asked and answered a number of times.

20 THE WITNESS: Yeah. I'm going to say that
21 this is a colloquial phrasing.

22 We understood from the meeting and elsewhere
23 that the goal of the program is to save lives, to
24 improve patient safety, to reduce harm. So in this
25 particular wording, it's understood by both parties

1 who have known each other for many years that this is
2 simply an intermediate pathway towards that goal.

3 BY MR. HVIDT:

4 Q. And the intermediate pathway you're
5 identifying is that to get to that greater point, you
6 need to penalize nonrespondents in the first instance.

7 Is that correct?

8 A. Yes.

9 Q. And in the next sentence you go on to say
10 that "This approach is" -- "makes the consequences of
11 nonresponse more readily apparent."

12 Do you see that?

13 A. Yes.

14 Q. And do you think the consequences of
15 nonresponse would be more readily apparent to the
16 hospitals? Is that who you're referring to?

17 A. To everyone; to the hospitals to employers
18 that are represented by Leapfrog's board, to users who
19 look at the website and see that -- that a limited
20 achievement score was assigned in these cases.

21 Q. And do you think that it's apparent to a
22 viewer of the website that it's -- someone was
23 assigned a limited achievement measure because they
24 didn't participate in the survey and there's no data
25 for that?

1 A. I think it's pretty clear there's an
2 asterisk. There's red font. Yes.

3 Q. And so you think that the consumer looks
4 beyond just the letter grade up there, goes down to
5 the footnotes?

6 A. Well, an intelligent consumer should always
7 look behind the first panel, if you will, to
8 understand what goes into the grade, yes.

9 Q. Are all consumers intelligent?

10 MR. BILLEK: Object to form.

11 THE WITNESS: I believe that most consumers
12 that would end up on Leapfrog's hospital safety grade
13 page are intelligent, yes.

14 I cannot vouch for the Google analytics on
15 how many people click through to subsequent pages
16 and...

17 BY MR. HVIDT:

18 Q. Going down to the next paragraph, you go on
19 to talk about the Step B proposal.

20 That's referring to the Step B proposal in
21 that presentation we just looked at on the April 12th
22 expert safety panel.

23 Is that correct?

24 A. 2B, correct.

25 Q. And then you continue to say that:

1 "The underlying hypothesis behind"
2 your "proposed Step 2B approach was that
3 hospitals stop reporting because their
4 true performance deteriorated relative to
5 their cohort."

6 Do you see that?

7 A. Can you --

8 Q. If you go down to the fourth line, there's a
9 sentence there, "The underlying hypothesis."

10 A. Yes.

11 Q. And in that sentence, you're describing what
12 the hypothesis was behind the Step 2B approach that
13 Matt and whoever else was involved in putting together
14 that presentation, included in that presentation for
15 Step 2B?

16 A. Right.

17 So as we've discussed, imputations always
18 involve assumptions. The assumptions are usually
19 wrong in various ways. But obviously if you're using
20 the cohort mean for the first year in which the
21 measure was reported, then the underlying assumption
22 is that hospitals that are nonparticipating have sort
23 of deteriorated back to where hospitals would have
24 been in the first year. There are alternative
25 assumptions.

1 Q. Right.

2 And that was their hypothesis that they --
3 that went into their approach that you're describing;
4 correct?

5 A. I don't know that it was explicitly stated.
6 I'm just saying that it is the underlying assumption.

7 So part of my job as an academic is to help
8 clearly elucidate the assumptions that underlie
9 people's analysis.

10 Q. Totally understand.

11 And then can you read into the record the
12 next sentence beginning "My hypothesis"?

13 A. "My hypothesis by comparison was that
14 most hospitals stop reporting because it's
15 too burdensome and because they only find
16 market value in an A grade which proves
17 impossible to attain or maintain."

18 Q. And then you go on to say, "If my hypothesis
19 is correct, then the current Step 2 approach, current
20 cohort mean," there -- that's referring to not their
21 proposal but what Leapfrog is actually doing in its
22 imputation methodology up to this point?

23 A. Correct.

24 Q. And you say that the current Step 2
25 approach, quote, "would yield more accurate

1 imputations."

2 Do you see that?

3 A. Yes.

4 Q. Do you agree with that?

5 A. Under the condition that my hypothesis is
6 correct, I agree with that statement.

7 Q. And then you go on to say, quote, "But it
8 doesn't achieve your strategic objective of penalizing
9 nonparticipants."

10 Do you see that?

11 A. Yes.

12 Q. When you say "your strategic objective of
13 penalizing nonparticipants," are you referring to
14 Leapfrog's strategic objective there?

15 A. Yes. I'm referring to Leapfrog's desire to
16 address the concerns that we previously discussed,
17 including particularly complaints from participating
18 hospitals that nonparticipating hospitals were riding
19 on their coattails.

20 Q. But there you described the strategic
21 objective of penalizing nonparticipants.

22 Is that correct?

23 A. Yes. It needs to be clear that that -- it's
24 not an objective in itself. It's an objective towards
25 the goal of improving transparency, improving

1 accountability, and ultimately saving lives.

2 Q. And in this sentence, is it fair to say that
3 you're recognizing that the current Step 2 approach is
4 more accurate -- more accurate imputations than the
5 approach that Leapfrog is now proposing for the
6 imputation methodology?

7 A. Yes. More accurate in the sense that it is
8 more unbiased that it would lead to a mean for -- a
9 mean value for nonparticipating hospitals that would
10 be closer to the counterfactual mean value for the
11 same hospitals if they had chosen to participate.

12 Q. Understood.

13 And then can you read into the record the
14 last sentence -- the last two sentences of your e-mail
15 there beginning "In other words"?

16 A. "In other words, I wasn't keen on a
17 backdoor approach to penalizing
18 nonparticipation. If you want to penalize
19 nonparticipants, then don't pretend that
20 you're imputing missing values in a
21 statistically optimal way. Just be honest
22 about your goal."

23 Q. And you've referenced, as we've said a few
24 times, the notion of Leapfrog strategic objective of
25 penalizing nonparticipants that you've caveated in the

1 ways you have.

2 But when you say your strategic objective of
3 penalizing nonparticipants, was there a conversation
4 with Leapfrog that led you to -- to conclude that you
5 could describe their objective in that manner?

6 A. I don't recall because I was not at the
7 meeting in which this was discussed, and I didn't
8 listen to or review a transcript of the meeting. So I
9 can't say exactly how it was presented.

10 Q. But you wouldn't describe someone's
11 objective without having heard from them what their
12 objective was.

13 Is that fair to say?

14 A. In this context, their stated objective was
15 to incentivize participation, to motivate
16 participation. It's implicit that you motivate
17 participation by penalizing nonparticipation.

18 You've talked about carrots and sticks.

19 I'm saying that there are two sides of the
20 same instrument that, in effect, you can't motivate
21 participation without de-motivating or penalizing
22 nonparticipation.

23 So I'm stating it perhaps a little bit more
24 directly and bluntly than Leapfrog staff did.

25 Q. Aren't you also recommending that they state

1 it bluntly, if you will; you're recommending that they
2 be transparent about what they're trying to do.

3 Is that fair to say?

4 A. Right. And that's what motivated my
5 amendments to this release.

6 Q. And that's what motivated your last sentence
7 there about being honest about your goal.

8 Is that correct?

9 A. Yes. Yes.

10 Q. Do you understand that your proposed edits
11 to the messaging were removed in the final methodology
12 approach that was released?

13 A. I am not aware of what changes were made.

14 Q. Do you think that Leapfrog has been
15 sufficiently honest with its imputation change
16 explanation in the public-facing materials, that it is
17 encouraging nonparticipating hospitals to participate
18 in the survey by penalizing them through these imputed
19 measures?

20 A. I'm satisfied with the website presentation
21 of the information. I can't say that I've read every
22 document and report. I'm also satisfied with the
23 technical summary that they release with each cycle.
24 But if you have a document to share with me, I'd be
25 happy to comment on my satisfaction with it.

1 Q. Do they use the word "penalize" in their
2 public-facing documents about the limited achievement
3 score?

4 A. I can't say whether they do or not.

5 Q. Did you get a response to this e-mail from
6 Leapfrog saying that, you know, they disagree with how
7 you've characterized things?

8 A. I don't recall such a response, but I'd be
9 happy to review one if you have one.

10 (Exhibit 16 was marked for
11 identification.)

12 BY MR. HVIDT:

13 Q. I'm handing you what's been marked
14 Exhibit 13 in your deposition. It's also been
15 previously marked as an exhibit in other depositions
16 with Ms. Campione and Ms. Danforth.

17 MR. BILLEK: 13?

18 MR. HVIDT: 16. This is Exhibit 16.

19 It has been produced in this litigation as
20 Leapfrog 01081490. It's an e-mail from
21 Alexandra Campione to Patrick Romano dated May 15th,
22 2024 regarding "Leapfrog proposed text for imputation
23 change."

24 BY MR. HVIDT:

25 Q. Do you see that?

1 A. Yes.

2 Q. And who is Ms. Campione?

3 A. She's the lead analyst who works for
4 Missy Danforth.

5 Q. And she's the lead analyst for the
6 Leapfrog hospital safety grade.

7 Is that correct?

8 A. Yes. Yes.

9 Q. And how does she respond to the e-mail we
10 just looked at in Exhibit 15?

11 A. She says, "Thank you for your feedback. I
12 completely agree."

13 Q. Do you know if you ever received a response
14 from Missy Danforth to your e-mail?

15 A. I don't recall. I doubt that I saved this
16 particular e-mail since it was so short and
17 uninformative. I can't say whether Missy provided a
18 similar response or not.

19 Q. And did you ever receive a response from
20 Dr. Austin to this e-mail?

21 A. I don't recall offhand.

22 Q. So is it fair to say the recipients to your
23 e-mail below, you don't have any record or
24 recollection of them responding to your e-mail saying
25 they disagree with the characterization and the

1 communications that you have in your May 14th, 2024
2 e-mail?

3 A. It -- if they had expressed clear
4 disagreement, I probably would remember that, but I
5 have no such memory on this date.

6 Q. Thank you.

7 You can set that to the side.

8 (Exhibit 17 was marked for
9 identification.)

10 BY MR. HVIDT:

11 Q. I am handing you what has been marked
12 Exhibit 17 to the Romano deposition. It's been
13 produced in this litigation as Leapfrog 00261719. The
14 top e-mail is from Matt Austin dated June 26, 2024 to
15 several individuals, including Dr. Romano, regarding
16 "Final updates to the Leapfrog Hospital Safety Grade
17 Methodology for fall 2024."

18 Do you see that, Dr. Romano?

19 A. Yes.

20 Q. And do you see yourself among the
21 recipients?

22 A. Yes.

23 Q. And do you see how there's an attachment to
24 this e-mail?

25 A. Yes.

1 Q. And in this e-mail from Dr. Austin at the
2 top, does Dr. Austin reference in this e-mail that the
3 substance of the attachment puts forward a different
4 methodology than that presented at the April 12th,
5 2024 expert safety panel?

6 A. Well, he references that -- or he implies
7 that changes were made based on the expert panel's
8 thoughtful input and guidance, but clearly the text of
9 the e-mail is not explicit about those changes.

10 Q. And when -- with this being sent, is there
11 a, you know -- does it couple with a -- you know, a
12 vote among the expert safety panel, whether the group
13 or majority of the group agrees with a methodology
14 change like this? Is that how the process works?

15 A. No. We don't typically vote. Typically we
16 discuss and argue until we achieve some consensus,
17 some acceptable degree of consensus.

18 Q. And you weren't at the April 12th, 2024
19 meeting; correct?

20 A. Correct.

21 Q. And so as far as you're aware, there could
22 have been expert panelists at that meeting who were
23 concerned with an approach that penalized
24 nonresponding hospitals.

25 Is that fair?

1 A. Well, my understanding from separate
2 discussions -- I'm trying to recall maybe a telephone
3 call -- that my understanding was that other members
4 of the expert panel had independently expressed a
5 similar view as mine.

6 Q. And who were those discussions with?

7 A. I think with Matt.

8 Q. Were those before or after the methodology
9 change was implemented?

10 A. Well, before this, but after the April
11 expert panel meeting.

12 So I think Matt was just giving me a brief
13 update on what happened in the expert panel, and said
14 that there was more discussion and that other expert
15 panelists also favored sort of a more explicit
16 approach.

17 Q. Did he explain that there were any expert
18 panelists who did not favor a more explicit approach?

19 A. I didn't hear that if there were.

20 Q. Did he suggest that there was some expert
21 panelists who had concerns about that type of
22 approach?

23 A. I only heard that there was active
24 discussion.

25 Q. Had you heard that there were concerns from

1 expert panelists regarding penalizing nonrespondents,
2 would that have caused you to change your
3 recommendation or your view on how Leapfrog should
4 proceed?

5 A. Well, it's hard to say because that's a set
6 of hypotheticals. Obviously the expert panel includes
7 a variety of panelists who aren't shy. We're all
8 quite willing to share our opinions and perspectives.

9 And, you know, so could Peter Pronovost have
10 persuaded me differently, or Arnie Milstein, or
11 Sara Singer? It's possible.

12 Q. Have you ever seen a transcript of that
13 April 12th, 2024 expert safety panel discussion?

14 A. I think I saw some notes, but not a
15 transcript.

16 Perhaps they're the notes that Preeti refers
17 to here on May 15th.

18 Q. Right.

19 So you saw the notes, but you haven't seen a
20 transcript, per se --

21 A. No.

22 Q. Okay. And if you look to the attachment to
23 this e-mail here in Exhibit 17, do you see how this is
24 the updates to the methodology change that's designed
25 for public release of the change?

1 A. Yes.

2 Q. If you turn -- reading through this
3 document -- and please take your time. Can you let me
4 know if you see anything that suggests that the intent
5 behind this methodology change is to penalize
6 nonresponding hospitals and to encourage them to
7 participate?

8 A. Yes. Yeah.

9 Q. And where is that?

10 A. Well, so in the second paragraph on
11 page 1723, it describes the new approach, and there's
12 a subtle word change here, "but instead of imputing a
13 score based on the cohort mean, hospitals will be
14 assigned a point value that is equivalent to receiving
15 limited achievement for that measure on Leapfrog
16 hospital survey."

17 And then a sentence later:

18 "Hospitals that decline to complete
19 the survey should not inadvertently
20 benefit when compared to hospitals that
21 demonstrate through transparency that they
22 are on a pathway to achieve high standards
23 for patient safety."

24 So this I think clearly articulates that
25 we're not -- that the new method doesn't allow

1 hospitals to inadvertently benefit from
2 nonparticipation.

3 And then on page 1725, of course there's a
4 summary statement that says:

5 "Four commenters opposed penalizing
6 hospitals that choose not to devote
7 resources to completing a voluntary survey
8 each year and stressed that they be
9 allowed to opt out."

10 And then of course there's a response to
11 that from Leapfrog staff.

12 I don't know whether Matt Austin was
13 involved in that response. I wasn't personally. But
14 it clearly acknowledges the issue of penalizing
15 hospitals.

16 Q. And going back to the first instance that
17 you just talked about under the step -- new Step 2
18 imputation ending in 1723.

19 Do you see that paragraph?

20 A. Yes.

21 Q. Is that the same paragraph you just
22 referenced in your prior answer?

23 A. Yes.

24 Q. And in that paragraph, it doesn't say that
25 Leapfrog is penalizing nonparticipants in those words;

1 correct?

2 A. Not exactly in those words, right.
3 Obviously the only way to avoid any inadvertent
4 benefit is to penalize. They are flip sides of the
5 same coin.

6 Q. And if you go to the commentators that
7 oppose penalizing hospitals, does that mean that when
8 Leapfrog put this proposed methodology change out for
9 implementation and for comment on that, four
10 commentators objected to this change because they
11 feared that it would penalize hospitals that chose not
12 to participate in the hospital survey?

13 A. Well, I don't think they're describing a
14 fear. They're observing that the proposal penalizes
15 hospitals that choose not to devote resources, and
16 they're opposing that stance.

17 Q. Right.

18 So it hadn't been implemented yet. And so
19 they're just commenting on the idea that if you had
20 implemented that approach, it would penalize
21 nonresponding hospitals?

22 A. Yes.

23 Q. And even upon -- so that means that before
24 Leapfrog announced its change to its imputation
25 methodology in 2024, it had received feedback from

1 individuals that that change that they were proposing
2 would penalize nonrespondents.

3 Is that correct?

4 A. Yes.

5 Q. And they went forward with the proposed
6 change anyway.

7 Is that correct?

8 A. Yes. Because it was explicitly discussed
9 obviously prior to this date.

10 Q. And in looking at these responses to public
11 comments, how many comments do you see that were in
12 support of the methodology change?

13 A. It says "Four commenters supported the
14 change to the imputation methodology."

15 Q. And if you look at the bolded comments that
16 follow that, do you see where it says:

17 "One commenter expressed concerns
18 about public not realizing a score was
19 imputed on the hospital safety grade
20 website"?

21 Do you see that?

22 A. Yes.

23 Q. And do you see that the next bullet says:

24 "Two commentators expressed concerns
25 about Step 2 imputation misrepresenting

1 the current procedures or infrastructure
2 of the hospital to the public"?

3 Do you see that?

4 A. Yes.

5 Q. And then "Two commentators requested
6 that the proposed changes be delayed until
7 spring 2025 to allow hospitals time to
8 complete the Leapfrog hospital survey."

9 Do you see that?

10 A. Yes.

11 Q. "And four commentators opposed
12 penalizing hospitals that chose not to
13 devote resources to completing a voluntary
14 survey each year and suggested that they
15 be allowed to opt out of the hospital's
16 safety grade."

17 Do you see that?

18 A. Yes.

19 Q. So adding those up, there are nine
20 commentators who expressed concern within the 2024
21 methodology change --

22 A. I have no information that it's valid to add
23 up those numbers.

24 Q. Sir, may I complete my question first?

25 A. Oh, sorry.

1 Q. Using the numbers that are in this document,
2 the commentators, if you add up those ones we just
3 walked through, there are nine that -- commentators
4 that oppose -- that oppose the methodology change for
5 the reasons stated, and there were four commentators
6 who supported the methodology change?

7 MR. BILLEK: Object to form.

8 You can answer.

9 THE WITNESS: That's an invalid addition
10 because the commentators frequently make multiple
11 comments in the same letter. So it may have been the
12 same commenters who made the comment about Step 2
13 imputation misrepresenting current procedures and
14 opposing penalizing hospitals.

15 So I have no information. It may only have
16 been four commentators that actually had all of these
17 objections. I don't know. It could be anywhere
18 between four and nine.

19 BY MR. HVIDT:

20 Q. Anywhere between four and nine commentators
21 opposed the methodology change for various reasons
22 stated here.

23 Is that correct?

24 A. And to make a further correction, the two
25 commenters that requested the proposed changes be

1 delayed, in effect that comment was adopted because
2 hospitals were given an opportunity to submit a survey
3 before this change took effect.

4 So -- so that -- that comment essentially
5 was addressed. So the comments about imputation, so
6 you're down to one plus two plus four, so you're down
7 to seven at most.

8 Q. So in the first item, the hospitals were
9 given two more -- two months to complete the survey in
10 response to this methodology change that's being
11 announced around the same time as the typical deadline
12 to submit a survey.

13 Is that correct?

14 A. Yes.

15 Q. Okay. But it's not that they're given the
16 opportunity until spring 2025 to respond to the
17 survey, which is what the comment was.

18 A. Well, I think they explicitly said hospitals
19 that wish to have 2024 survey used will have until
20 November 30th to submit their survey. So they're
21 extending the time window.

22 Q. For the spring 2025 safety grade?

23 A. Yes.

24 And of course they are also allowing the
25 2023 data to be used for that 2025.

1 So in effect, they're addressing those two
2 comments completely.

3 Q. Have you seen the underlying comments that
4 were submitted here that --

5 A. I have not.

6 Q. -- go into this summary?

7 A. I have not.

8 Q. Do you have any understanding if these are
9 fair characterizations of the comments?

10 A. I can't speak to whether they're fair
11 characterizations. They certainly sound fair in that
12 they are honest descriptions of the -- of the nature
13 of the comments, yes. But I have not seen the
14 original comments.

15 Q. But is it fair to say even though Leapfrog
16 received comments from individuals that the
17 methodology change could misrepresent current
18 procedures, could not be realized by observers on the
19 website that a score was imputed, and that it could
20 penalize nonresponding hospitals, Leapfrog decided to
21 go forward with its methodology change even though it
22 received comments such as those?

23 MR. BILLEK: Object to form.

24 You can answer.

25 THE WITNESS: Again, Leapfrog responded to

1 the commenter concerned about the public display of
2 information, and they acknowledged that and said they
3 would add a denotation to this website to indicate
4 when a measure has been imputed or signed. And they
5 also clearly provided an extension and additional
6 opportunities.

7 So at the end of the day, this is not a
8 vote. This is -- I'm reminded of the Lake Wobegon
9 problem where every hospital thinks it's above average
10 and every hospital can't be above average.

11 So at the end of the day, obviously
12 Leapfrog Group, with input from its expert panel and
13 others, has to balance the comments and make the best
14 decision under the circumstances.

15 BY MR. HVIDT:

16 Q. Do you know how Leapfrog informs a visitor
17 to the website of The Leapfrog Safety Group --
18 The Leapfrog Group website where you go to see the
19 survey responses, that a hospital hasn't participated
20 in a survey?

21 A. I'm not sure because I think there's a
22 separate website for the hospital safety grade versus
23 the website for The Leapfrog Group per se and the
24 hospital survey.

25 So, I mean, I've been to both websites, but

1 I'm not familiar with the details of how things are
2 presented. But of course I've looked up certain
3 hospitals of interest, and so I see how the results
4 are displayed. Dashboard presentation.

5 Q. So you have no understanding whether there's
6 a difference on the one website where -- for how
7 Leapfrog communicates that a hospital hasn't completed
8 the survey, versus how Leapfrog communicates on the
9 safety grade website, how a hospital didn't complete
10 the survey?

11 Is that fair?

12 A. Well, I'm most familiar with the dashboard
13 presentation that shows the summary grade and then a
14 specific components in a series of tabs. If there's
15 another presentation, I'm not familiar with it.

16 Q. Thank you.

17 Do you think that it's reasonable for a
18 hospital to decide not to participate in the Leapfrog
19 survey?

20 A. Of course it's reasonable. It's
21 undesirable, but it's reasonable.

22 Q. Undesirable to who?

23 A. Undesirable from the standpoint of our
24 mutual interest in driving improvements in quality and
25 safety and reducing hospital harm, saving lives.

1 Q. Is there a direct correlation between
2 participating in the Leapfrog hospital survey and
3 improving quality at that hospital?

4 MR. BILLEK: Object to the form of the
5 question.

6 You can answer.

7 THE WITNESS: I believe that there is. But
8 obviously there are a variety of imperial analyses
9 that have come to a variety of conclusions.

10 BY MR. HVIDT:

11 Q. Do you have data to support that notion?

12 A. Not off the top of my head, no.

13 Q. You are affiliated through UC Davis with a
14 hospital.

15 Is that correct?

16 A. Yes.

17 Q. Does your hospital participate in the
18 Leapfrog -- did your hospital participate in the
19 Leapfrog hospital survey in 2024?

20 A. No.

21 Q. Do you know why your hospital chose not to
22 participate in the survey?

23 A. I think they felt it was too burdensome.
24 And there was some staff turnover in key quality and
25 safety office that could be responsible for completing

1 the survey.

2 Q. When you say there's "staff turnover,"
3 you're referring to the person who might be working
4 substantially on completing the survey, that that
5 person was no longer employed or shifted in
6 responsibilities?

7 A. Yes. There was a particular person who had
8 completed the survey over many cycles, let's say, at
9 least six cycles, who retired.

10 Q. And when -- in working with UC Davis, do you
11 have any interaction with folks at the hospital there?

12 A. Yes.

13 Q. In the administration?

14 A. Yes.

15 Q. And who do you have interactions with?

16 A. From time to time lots of people.

17 Q. And specifically as it relates to Leapfrog
18 or whether to participate in Leapfrog or aspects like
19 that, like who would you have conversations with?

20 MR. BILLEK: Just note my objection to the
21 form of the question. That's a totally different
22 question than the one you just asked.

23 MR. HVIDT: Okay.

24 THE WITNESS: I'll answer the last question.

25 Yes. So typically my first point of contact

1 would be the chief quality officer, who's
2 Greg Maynard, who happens to be a general internist
3 like me, or Brenda Inman who was his quality and
4 safety manager. She's now left UC Davis just
5 recently. They would typically be my first point of
6 contact.

7 BY MR. HVIDT:

8 Q. And do you know Bruce Hall?

9 A. Yes.

10 Q. And who is Bruce Hall?

11 A. He is a currently the interim
12 vice chancellor for -- for human health services,
13 human health sciences, which puts him in a position of
14 essentially overall responsibility for the clinical
15 enterprise. So he reports to the provost and the
16 chancellor of the university.

17 Q. And interacting with these folks that we
18 just mentioned involved at UC Davis Health
19 Administration, would you say that you think that
20 they're trying to act in the best interest of
21 UC Davis?

22 A. Yeah. So Bruce Hall's position has changed.
23 So he was recruited as the chief clinical officer and
24 then he was promoted to this interim vice chancellor
25 position. Obviously his primary responsibility is to

1 protect and advance the mission of the health system
2 as a business.

3 Q. And you have no reason to question that
4 that's their ultimate objective in the decisions that
5 they make.

6 Is that fair?

7 A. Yes.

8 Q. Similar to how UC Davis has a process of
9 keeping the business records of yourself, do you have
10 any understanding that UC Davis has an e-mail system
11 that makes a record of e-mails that are sent and
12 received by folks who work there?

13 A. Of course.

14 Q. And do you have an understanding that
15 UC Davis also received a subpoena in this litigation
16 to produce documents?

17 A. Yes.

18 Q. And have you seen any of those documents
19 that were produced by UC Davis?

20 A. I have not. Unless I happen to also produce
21 them.

22 Q. And would you have any reason to dispute the
23 underlying data that went into the production of the
24 UC Davis documents?

25 MR. BILLEK: Object to form.

1 You can answer.

2 THE WITNESS: You could show me a document
3 that looks visibly fraudulent, but I have no reason to
4 believe that there's a problem in our e-mail servers.

5 (Exhibit 18 was marked for
6 identification.)

7 BY MR. HVIDT:

8 Q. I'm handing you what I've marked as
9 Exhibit 18 in this litigation. This is a document,
10 Dr. Romano, I will highlight that you are not on. But
11 it's been produced in this litigation as UC Davis
12 TLG0000293.

13 Do you see that?

14 A. Yes.

15 Q. And do you see at the top e-mail is from
16 Bruce Hall at UC Davis --

17 A. Yes.

18 Q. -- to a David Lubarsky at WMC Health?

19 A. Yes.

20 Q. And if you go down to an e-mail from
21 David Lubarsky dated May 5th, 2025, do you --
22 regarding Leapfrog to Bruce Hall and a Joseph Galante.

23 Do you see that?

24 A. Yes.

25 Q. And David Lubarsky references that UC Davis

1 just got a D in Leapfrog.

2 Do you see that?

3 A. Yes.

4 Q. And when he asked, "Can you remind me again
5 why we choose not to participate?"

6 Do you see that?

7 A. Yes.

8 Q. And then if you go to Bruce Hall's e-mail
9 dated May 6, 2025, can you -- do you see where he
10 says:

11 "Although the decision to not
12 participate was immediately before I
13 joined UCD, we had made a similar decision
14 in St. Louis, based on lack of confidence
15 in several aspects of their methodology
16 and a very extortionist approach to
17 reporting if you choose not to
18 participate, we felt that a system didn't
19 need an ever increasing portfolio of
20 public ratings to chase."

21 Do you see that?

22 A. Yes.

23 Q. From your conversations with Bruce Hall and
24 the other individuals you reference at UC Davis, is
25 that consistent with your understanding of why

1 UC Davis chose to stop participating for a period of
2 time?

3 A. Well, I don't know because my understanding
4 was that the decision was made primarily because of
5 burden.

6 This e-mail doesn't reference that burden.
7 It references more of a philosophical opposition. And
8 if there was a philosophical opposition that was
9 motivating that, it wasn't explicitly discussed with
10 me at the time.

11 Q. And later in the e-mail, Bruce Hall
12 references in the last -- second to last sentence:

13 "So since it was going to be a
14 challenge to publicly justify
15 nonparticipation when all other UCs
16 participate, we decided to participate for
17 this April enrollment against our better
18 judgment."

19 Do you see that?

20 A. Yes.

21 Q. And so is it your understanding from this
22 e-mail or aside that you -- following the 2024 --
23 fall 2024 methodology change and grade release,
24 UC Davis has decided to start participating again in
25 2025?

1 A. That's correct.

2 Q. And then --

3 A. I will add I've had separate conversations
4 with Dr. Hall, both in person and probably by e-mail
5 on this point, so it's an ongoing discussion of
6 course.

7 Q. And can you tell me a little bit more about
8 those discussions in terms of the other rationales
9 that Dr. Hall has explained for their decision of
10 whether or not to participate in the Leapfrog hospital
11 survey?

12 A. Well --

13 MR. BILLEK: My objection is to the form of
14 the question. And I say that only because he's
15 discussing the decision that he made in St. Louis, and
16 saying that with regard to UC Davis, this predated his
17 involvement.

18 THE WITNESS: Right.

19 To be clear, my understanding of the
20 UC Davis decision was that it was driven primarily by
21 concerns about the burden. And perhaps --

22 MR. BILLEK: He's asking you about your
23 conversations with Mr. Hall.

24 MR. HVIDT: Excuse me. Excuse me. Excuse
25 me, sir.

1 MR. BILLEK: Yeah.

2 MR. HVIDT: Please limit your objections to
3 form.

4 MR. BILLEK: Okay.

5 MR. HVIDT: Thank you. No coaching the
6 witness.

7 MR. BILLEK: I'm not coaching the witness.

8 MR. HVIDT: I understand.

9 MR. BILLEK: You're mischaracterizing a
10 document.

11 MR. HVIDT: Sir, I am no longer talking
12 about a document. I'm asking about his conversations
13 with Dr. Hall about UC Davis' decision now.

14 MR. BILLEK: But your prior question was,
15 "Based upon this e-mail, tell me about what Dr. Hall
16 said about why UC Davis didn't participate."

17 And in this e-mail, Mr. Davis -- Mr. Hall
18 states that St. Louis didn't participate because of a
19 lack of confidence.

20 So it was a very misleading question, as
21 have many of your questions been today, and I haven't
22 objected or directed him. But this one was quite
23 blatant.

24 MR. HVIDT: Sir, please limit it to form,
25 and let's go back to the questioning.

1 BY MR. HVIDT:

2 Q. Okay. In your conversations with Dr. Hall
3 about the decision of UC Davis whether or not to
4 participate with Leapfrog's hospital survey, please
5 describe those conversations.

6 A. He and Dr. Maynard, who is our chief quality
7 officer, both expressed concern about burden and
8 concern about Leapfrog's imputation approach.

9 And I tried to provide further explanation,
10 clarification in my -- in these conversations.

11 Q. And you reference that Bruce Hall had
12 concerns about Leapfrog's imputation approach.

13 And is it fair to say that in Exhibit 18, he
14 is describing his concern about Leapfrog's imputation
15 approach as it applied to the decision he and those
16 with him at the hospital that he was at prior to
17 UC Davis made when they were in St. Louis?

18 A. I presume so.

19 Q. And he also expressed concern to you about
20 Leapfrog's imputation methodology approach as it
21 relates to the decision of whether UC Davis should
22 participate in Leapfrog's hospital survey or not.

23 Is that correct?

24 A. Yes.

25 Q. And was Dr. -- was Mr. Maynard that you

1 reference, was he --

2 A. Dr. Maynard.

3 Q. He's a doctor as well. Okay.

4 Was Dr. Maynard a -- at UC Davis in 2022 or
5 2023 when UC Davis made the decision to stop
6 participating in the Leapfrog hospital survey?

7 A. Yes.

8 (Exhibit 19 was marked for
9 identification.)

10 BY MR. HVIDT:

11 Q. Document No. -- Exhibit No. 19 was produced
12 in this litigation as UC Davis TLG0000763. It's an
13 e-mail chain between a Chad VanDenBerg at UC San Diego
14 and Gregory Maynard from UC Davis dated December 11th,
15 2024 regarding Leapfrog.

16 Do you see that, Dr. Romano?

17 A. Yes. Yes.

18 Q. And do you see that the e-mail originates
19 from Chad VanDenBerg? I don't know whether he's a
20 doctor or not.

21 A. He is, yes.

22 Q. Okay.

23 A. I believe he's the chief quality officer at
24 UC San Diego.

25 Q. Okay. And if you see below, he references

1 that they "had debated about submitting a survey for
2 they're newly acquired campus."

3 Do you see that?

4 A. Yes.

5 Q. And they ultimately decided to submit one
6 even though they had gaps.

7 Do you see that?

8 A. Yes.

9 Q. And then he asks Dr. Maynard why -- or he
10 asked Dr. Maynard regarding the decision of whether or
11 not to submit to the Leapfrog survey.

12 Do you see that?

13 A. Yes.

14 Q. And then Dr. Maynard responds in that first
15 paragraph:

16 "We made the potentially reversible
17 decision to stop participating about three
18 years ago and are actively revisiting that
19 decision based upon the bad look this
20 promotes to the public for UCDH. We think
21 they're continuing to rate us and giving
22 scores of zero in big ticket areas like
23 staffing is grossly unfair and punitive,
24 but probably to them is part of the
25 business of keeping participation high."

1 Do you see that?

2 A. Yes.

3 Q. Is that -- and then --

4 A. Of course technically they're not scores of
5 zero. They're scores of limited achievement but --

6 Q. And is the score of limited achievement the
7 lowest score you can receive?

8 A. Yes.

9 Q. And then if you go down to the next
10 paragraph, it says:

11 "My memory is that it was not a
12 detailed informed decision to stop
13 participating. Instead, it was a Gestalt
14 weighing all the effort required to submit
15 data every year when we are short staffed
16 versus our perception of the validity and
17 weight of their evaluation and ranking
18 methodology."

19 Do you see that?

20 A. Yes.

21 Q. And is that consistent with what Dr. Maynard
22 has described to you about UC Davis' decisions not to
23 participate in the survey for a few years?

24 A. Yeah. I think that better balances the
25 actual considerations at UC Davis that preceded

1 Dr. Hall's recruitment. It also reflects the fact
2 that this was a potentially reversible or temporary
3 decision, awaiting of recruitment of additional staff
4 and additional information.

5 It also reflects, to be honest, an
6 assessment of the market value of alternative grades.
7 So everybody wants an A grade, but if you know that
8 your grade is likely to be a B, and you're a major
9 academic medical center, you may choose not to
10 participate because you don't necessarily want a
11 B grade. So you want an A grade.

12 So if an A grade is out of reach during a
13 particular cycle, you may sit out that cycle.

14 Q. Would you consider a B grade hospital by
15 Leapfrog to be a poor-performing hospital?

16 A. No, not at all.

17 Q. And so that would be consistent with the
18 decision of some nonparticipating hospitals to not
19 participate and it doesn't have to do with their
20 having poor performance?

21 A. Yes.

22 Q. When you mention the value of it, you talked
23 about the value of an A grade from Leapfrog.

24 Does an A grade from Leapfrog help a
25 hospital in its reputation in the marketplace?

1 A. Yes. At the margin.

2 Q. And even if that hospital is already a good
3 hospital, you know, a major research medical center
4 that -- you know, top medical school with, you know,
5 high CMS scores, getting that A from Leapfrog could
6 still help its reputation.

7 Is that correct?

8 A. It could help its reputation, yes.

9 Q. And is it fair to say that a bad Leapfrog
10 grade, like a D that UC Davis had received in the fall
11 of 2024, can hurt the hospital's reputation?

12 A. I mean, Dr. Hall and Dr. Maynard would argue
13 that it hasn't hurt us that much; that our beds are
14 still full. We've had no discernible decrease in
15 patient volume. We're still -- we just opened a large
16 ambulatory surgery center, and we're not having any
17 difficulty filling it or filling our beds.

18 So I think they would argue that the D looks
19 bad, but it hasn't actually hurt us in any measurable
20 way.

21 Q. Here you'll note that Dr. Maynard references
22 that the D would have a bad look -- that "this causes
23 a bad look to the public for UC Davis Health."

24 Do you see that?

25 A. Yes.

1 Q. In 2024, did you communicate with UC Davis
2 about getting -- about getting participation in the
3 survey again when the methodology was going to change?

4 A. Time frame again?

5 Q. In 2024, when the methodology was going to
6 change, did you communicate with UC Davis Health about
7 participating in the Leapfrog survey?

8 A. I did.

9 Q. And did you encourage them to participate?

10 A. I did.

11 Q. And why?

12 A. Because I think participation is good. I
13 favor the overall goal of participation. And
14 specifically for my own academic health system, I
15 didn't want us to get a C or a D grade.

16 Q. Why did you think the hospital would get a
17 C or a D grade if it didn't participate in the survey?

18 A. Well, it was a rough estimate based on what
19 I knew from internal dashboards and from the most
20 recent cycle of reporting with imputed data.

21 (Exhibit 20 was marked for
22 identification.)

23 BY MR. HVIDT:

24 Q. I've put in front of you what I've marked as
25 Romano Exhibit 20, which has been produced in this

1 litigation as Leapfrog 00637922 which is an e-mail
2 chain among yourself, Matt Austin, Missy Danforth, and
3 Alexandra Campione, regarding agenda and slides for
4 Leapfrog Hospital Safety Grade Expert Panel Call.

5 Do you see that?

6 A. Yes.

7 Q. And if you go back to the beginning of this
8 chain, it starts off as that Zoom link for the expert
9 panel call.

10 Do you see that?

11 A. Yes.

12 Q. And then about two e-mails up from that,
13 starts on the very first page at the bottom, you send
14 an e-mail on May 2nd, 2024.

15 Do you see that?

16 A. Yes.

17 Q. It appears as though you may have copy and
18 paste a news article from the Sacramento Bee.

19 Do you see that?

20 A. That's correct.

21 Q. And it -- in this note it notes that
22 UC Davis Medical Center had received a C grade.

23 Is that correct?

24 A. Yes.

25 Q. And then you add at the top that, quote:

1 "Well, clearly my participation in
2 the expert panel has not led to any
3 benefit to my own academic hospital. Its
4 grade keeps dropping."

5 Do you see that?

6 A. Yes.

7 Q. And Matt Austin responds:

8 "Well, I guess one positive is that
9 the expert safety panel is not tilting the
10 grades for its own hospitals."

11 Is that fair to say?

12 A. Yes.

13 Q. And then you respond to that. It looks
14 like -- did you investigate further why your hospital
15 had gotten that grade?

16 A. Yes.

17 Q. And is it fair to say that before this
18 May 2nd, 2024, you didn't know your hospital had
19 stopped participating in the survey for the prior
20 two years?

21 A. That's correct.

22 Q. And do you recall who you spoke with or how
23 you learned about that nonparticipation in the survey
24 at this time?

25 A. I don't recall. It might have been in my

1 production. But most likely it was either
2 Brenda Inman or Greg Maynard.

3 Q. And you note that:

4 "They stopped responding after June?"
5 question mark "2022 due to what they
6 considered to be an unreasonable burden
7 greater than 1,000 hours and they decided
8 to accept the prospect of declining grades
9 over this" -- "over time as a reasonable
10 tradeoff."

11 Do you see that?

12 A. Yes.

13 Q. And is that a fair characterization of what
14 was communicated to you about the reason for UC Davis'
15 decision to stop participating?

16 A. Yes. And it's consistent with Dr. Maynard's
17 e-mail with his colleague at San Diego.

18 Q. And they communicated to you that
19 participating in the survey was an unreasonable burden
20 greater than 1,000 hours.

21 Do you see that?

22 A. Yes.

23 Q. And do you know what contributed to that --
24 their calculation that it would take greater than a
25 thousand hours to participate in the survey?

1 A. Well, I think they were dealing with the
2 fact that, again, the person who responded to the
3 survey over several cycles before had retired, and so
4 now they would have to bring a new person up to speed
5 with all the details of the survey. So they would
6 essentially be starting from scratch in terms of the
7 staffing process.

8 I earlier gave you an estimate. It was a
9 fairly broad estimate. Perhaps it didn't include a
10 thousand hours. But this was obviously based on their
11 understanding of starting from scratch.

12 Q. And so the hospital starting from scratch to
13 implement -- to implement the processes to complete
14 the Leapfrog hospital survey, it might take them a
15 thousand hours to do that.

16 Is that what --

17 A. It seems overstated in my view, especially
18 because there are people like me who they could bring
19 in to the discussion, to help them answer certain
20 items. So I thought the estimate was overstated.

21 Q. And do you think that that estimate, though,
22 is -- you know, that that was the estimate that they
23 communicated to you what they thought it would take as
24 of May 2024 to complete the survey.

25 Is that fair?

1 A. Yeah. I don't believe that I lied in this
2 e-mail. I just believe they overstated the actual
3 hours that it would take.

4 Q. And the hours that it would take to complete
5 the Leapfrog hospital survey would be a significant
6 time commitment.

7 Is that fair to say?

8 A. Yes.

9 Q. And there are other ratings agencies that
10 hospitals can choose to devote time commitment to
11 participating in their surveys.

12 Is that correct?

13 A. Well, yes and no.

14 Hospitals don't really have much choice on
15 the CMS side. They have to participate in HCAHPS, the
16 Hospital Consumer Settlement Survey. They have to
17 participate in certain CMS measures. They have to
18 participate in certain state requirements. In our
19 case, for example, coronary artery bypass graft
20 surgery reporting.

21 So there are many things that they are
22 required to participate in and under either federal or
23 state law.

24 There are other things that are required
25 under contracts with health plans, particularly on the

1 system side, the ambulatory care side.

2 So obviously managed care plans have models
3 in which primary care serves are capitated to
4 UC Davis Health, and through those models, we would be
5 required to report so-called NCQA or HEDIS, H-E-D-I-S,
6 measures.

7 So my point is that there are many things
8 that are required. There isn't anything quite like
9 the Leapfrog survey.

10 U.S. News is external. Hospitals have no
11 input into the U.S. News survey directly.

12 Healthgrades similarly.

13 Obviously hospitals can do things to try to
14 manipulate how they're rated by physicians in the
15 community but that is sort of a deliberate
16 manipulation process.

17 There's nothing quite like Leapfrog in the
18 market.

19 Q. You're describing a number of things that
20 hospitals are required to do.

21 One item that I -- along the list that I
22 didn't hear was hospitals that are accredited for
23 various things are required to participate in those
24 accreditation processes.

25 Is that correct?

1 A. That's correct. Yes. The joint commission
2 in our case.

3 Q. The joint commission in your case.

4 And there's also various accreditations or
5 credentials that hospitals might have for specialties.

6 Is that correct?

7 A. Correct. There are certifications and
8 accreditations in particular specialties.

9 Q. And there's a number of requirements that
10 they have to participate in to receive those in terms
11 of audits and submitting information.

12 Is that correct?

13 A. Correct. The cancer programs, for example,
14 are particularly important to our health system.

15 Q. And so is it fair to say that there's a lot
16 between CMS, between state requirements, between
17 accreditations, between all the number of things that
18 you listed that hospitals are required to do to
19 continue operating their business?

20 Is that correct?

21 A. Yes.

22 Q. And adding Leapfrog to the list of all
23 those -- Leapfrog's hospital survey to the list of all
24 those things they're required to do could be a
25 determination that that would be a step too far,

1 could -- that would be too much burden to add that to
2 what they're already doing for all those other things.

3 Is that fair?

4 A. Yes. That is a decision that some hospitals
5 make.

6 Q. And due to resource constraint, that was a
7 decision apparently that UC Davis made when it had
8 staff constraints.

9 Is that correct?

10 A. Yes.

11 MR. HVIDT: If we could take a quick break.
12 Now would be a good time.

13 THE VIDEOGRAPHER: Off the record 3:45 p.m. 0

14 (Break taken in proceedings.)

15 THE VIDEOGRAPHER: On the record 3:04 p.m.

16 4:03 p.m. 0

17 BY MR. HVIDT:

18 Q. Dr. Romano, I am marking Exhibit 21 to your
19 deposition, which has been produced in this litigation
20 as UC Davis TLG000635, which is an e-mail chain where
21 the top e-mail is from Patrick Romano dated May 3rd,
22 2024 to a number of individuals at UCDavis.edu
23 regarding "Theoretical question on PSI-15, accidental
24 puncture or laceration."

25 ///

1 (Exhibit 21 was marked for
2 identification.)

3 BY MR. HVIDT:

4 Q. Do you see that, Dr. Romano?

5 A. Yes.

6 Q. If you flip back in this e-mail chain, this
7 e-mail chain starts off with the e-mail from you --
8 e-mail from Leticia Dickinson to
9 Robert Jon Kucejko dated May 1st, 2024.

10 Do you see that on page 641 going over to
11 642?

12 A. I have a problem with this e-mail
13 production. It includes confidential patient
14 information that I don't think should have been
15 produced.

16 Q. Okay. We will not get into confidential
17 patient information on this -- in this examination.
18 And we are happy to go back and redact this as you or
19 your counsel would like. This was how it was produced
20 to us by UC Davis.

21 Are you okay with proceeding? If you think
22 that we're getting close to discussing confidential
23 patient information, then we will pause the
24 questioning.

25 A. Yeah. Page 642 must be removed.

1 Q. Page 642, I will not be referring to any
2 information on that page and we will propose redacting
3 it before it is published within the confidential
4 protective order parameters of this lawsuit.

5 Are you okay with that?

6 MR. BILLEK: Yeah. I think that's
7 appropriate. So --

8 THE WITNESS: Thank you.

9 MR. BILLEK: Last thing we want to do is
10 come back another day to talk about this document. So
11 that's the appropriate remedy for today.

12 Okay?

13 THE WITNESS: Thank you.

14 MR. BILLEK: Thanks.

15 BY MR. HVIDT:

16 Q. And you'll see -- and we'll get into the
17 e-mail on 640, going to 641, adds you to the chain.
18 I'm not going to get into the substance of that
19 e-mail, but that's how you were added to the chain.

20 Do you see that?

21 A. Yes.

22 Q. And then there's carryforward e-mails in the
23 subject of the e-mail exchanges where on Thursday,
24 May 2nd, 2024 at 6:38, do you see where you sent an
25 e-mail to several individuals at UC Davis regarding

1 the grade that UC Davis had received in spring of
2 2024 --

3 A. Yes.

4 Q. -- from Leapfrog?

5 And you write:

6 "Very sorry to see this story. As
7 you probably know, I serve on Leapfrog's
8 expert panel for hospital safety scoring."

9 Do you see that?

10 A. Yes.

11 Q. And you note:

12 "We used to get mostly As with an
13 occasional B. Never seen us get a C
14 before." Sad face.

15 Do you see that?

16 A. Yes.

17 Q. And then you ask, "What's driving this
18 decline?"

19 Do you see that?

20 A. Yes.

21 Q. And then Penny Jefferson adds Tami Gomez to
22 the discussion.

23 Do you see that?

24 A. Yes.

25 Q. And then in the follow-on e-mail, there's a

1 an analysis of how UC Davis performed on some measures
2 that are included in the Leapfrog scoring.

3 Do you see that?

4 A. Yes.

5 Q. And carrying forward to the first page,
6 which gets to the substance of where we're going to
7 focus the questions, Brenda Inman writes an e-mail
8 addressed to you at the bottom.

9 Do you see that?

10 A. Yes.

11 Q. And Brenda Inman was one of the individuals
12 that you said you would communicate with regarding --
13 at UC Davis Health regarding matters like
14 participation in Leapfrog.

15 Is that correct?

16 A. This looks like that communication, yes.

17 Q. Okay. And she writes:

18 "UC Davis no longer participates in
19 Leapfrog. The last data we submitted was
20 June 2022." And then she says, "I was the
21 one who submitted our data."

22 Do you see that?

23 A. Yes.

24 Q. And then carrying forward, she references
25 how she spoke with Leapfrog about their

1 discontinuation in their participation.

2 Do you see that?

3 A. Yes.

4 Q. And she communicates that she was told that
5 there would be a decline due to the lack of
6 self-reported data.

7 Do you see that?

8 A. An expected decline, yes.

9 Q. And --

10 A. Again, please understand that expectation
11 has a particular meaning, that is, not every facility
12 would decline because they might decline within the
13 bracket for a particular grade, so --

14 Q. Their grade might not drop but the
15 mathematical score that they will have will drop by
16 virtue of their nonparticipation?

17 A. Yes.

18 Q. On that note, are you aware how many
19 nonparticipating hospitals that had the step to
20 imputation methodology approach applied to them in
21 spring 2025 received an A grade?

22 A. I think a very small number. Maybe a
23 handful. Not zero, but less than 10, shall we say.

24 Q. Would the number 2 of 550 such
25 nonparticipating hospitals sound right to you?

1 A. It's possible. Not zero, less than 10.

2 Q. And two of 550 is a very small number of
3 nonparticipating hospitals that had Step 2 imputation
4 applied of 550.

5 Is that fair?

6 A. Yes.

7 Q. And are you aware that there are no
8 nonparticipating hospitals in Florida that received
9 an A grade?

10 A. I was not aware of that.

11 Q. And then moving forward back to this
12 document, you respond to -- is it Dr. Inman?

13 A. No.

14 Q. Ms. Inman.

15 And you know that "Yes, this is true
16 regarding the expected decline." And --

17 Do you see that?

18 A. Yes.

19 Q. And that's consistent with what you were
20 just describing about expected.

21 Is that fair?

22 A. Yes.

23 Q. And you then note that, quote:

24 "Leapfrog staff are exercised about
25 the fact that the response rate decreased

1 in 2023 after many consistent years of
2 increases."

3 Do you see that?

4 A. Yes.

5 Q. And in that communication regarding what the
6 Leapfrog staff are exercised about, do you reference
7 any other reasons why Leapfrog staff are interested in
8 changing the imputation methodology other than the
9 decrease in hospital participation rate?

10 A. As we discussed earlier, there's the concern
11 that the imputed scores are too high, as those imputed
12 scores have shifted upward, and that they allow
13 nonparticipating hospitals to ride on the coattails of
14 participating hospitals.

15 Q. And then you note that on those reasons that
16 you just detailed that they -- in the last sentence of
17 that first kind of carryforward paragraph, "they,"
18 Leapfrog staff, "are determined to more aggressively
19 penalize nonparticipants."

20 Do you see that?

21 A. Yes.

22 Q. And so do the Leapfrog staff communicate to
23 you that they are determined to more aggressively
24 penalize nonparticipants?

25 A. That's an overstatement for dramatic effect

1 in this e-mail. But, again, as we've discussed
2 previously, they did make clear that the goal was to
3 incentivize continued participation, and that
4 incentivization requires some penalization of
5 nonparticipants.

6 Q. Earlier we talked about when you are
7 communicating by e-mail, you try to be accurate in
8 what you are writing.

9 Is that fair?

10 A. Yes.

11 Q. And when you write a communication to your
12 employers or your fellow employees -- I don't know the
13 dynamic -- you try to be accurate in how you're
14 communicating what other people told you.

15 Is that fair?

16 A. Well, sometimes the choice of words, you
17 know, is intended to convey a message, not necessarily
18 the content.

19 So -- so nobody that I recall at Leapfrog --
20 I don't recall Missy Danforth, for example,
21 specifically saying that "We are determined to more
22 aggressively penalize nonparticipants."

23 However, it was clear from the discussion
24 that part of the shared goal was to penalize
25 nonparticipation.

1 So I'm stating a little bit more strongly
2 than what anybody at Leapfrog specifically said. I
3 just want to be clear.

4 Q. So your view here is that you're telling the
5 folks at UC Davis that Leapfrog staff are determined
6 to more aggressively penalize nonparticipants, but
7 Leapfrog -- you're telling us today that Leapfrog
8 staff did not actually communicate that to you?

9 A. I don't recall the specific use of those
10 terms that "we are determined to more aggressively
11 penalize nonparticipants." I never heard that.

12 Q. But you use those terms in communicating
13 what Leapfrog staff told you about the rationale for
14 the imputation change.

15 Is that fair?

16 A. This is a summary of the perspective that
17 was shared through the discussions. Obviously you
18 have a transcript of the meeting and you may have a
19 better idea than I do about what Leapfrog staff
20 actually said.

21 Q. But you weren't at that meeting; correct?

22 A. Correct.

23 Q. And you -- so your basis for referring to
24 how Leapfrog staff are more determined to aggressively
25 penalize nonparticipants is not based on a meeting

1 that you didn't attend.

2 Is that fair?

3 A. Right.

4 Q. It would be based on other communications
5 that you had with them.

6 Is that fair?

7 A. Right. Such as the e-mail chain that you
8 presented earlier that involved Alex Campione.

9 Q. Where in your e-mail you talked about how
10 the goal of the change is to penalize nonparticipants,
11 then you should be more forthright in doing so
12 directly; correct?

13 A. If the goal is to penalize nonparticipation
14 because it interferes with the larger goals of the
15 program, correct.

16 Q. And Ms. Campione responded to your e-mail
17 about penalizing nonparticipants, saying, "I
18 completely agree."

19 Is that correct?

20 A. Yes.

21 Q. And then the next paragraph of this e-mail,
22 you say, "They will never remove large hospitals from
23 reporting."

24 Do you see that?

25 A. Yes.

1 Q. Is the "they" in that clause Leapfrog?

2 A. Yes.

3 Q. And so what do you mean that Leapfrog will
4 never remove large hospitals from reporting?

5 A. Well, because we -- and here I'm speaking,
6 you know, collectively on behalf of the expert panel
7 that I seem to be representing, as well as Leapfrog,
8 that we could not allow a situation where hospitals
9 can remove themselves entirely from reporting simply
10 by refusing to participate in the survey.

11 So there always has to be an alternative
12 path to keep hospitals that are major players in major
13 markets in the program.

14 Q. Why would you not allow a situation where
15 hospitals are not graded?

16 A. Because it would undermine the goals of the
17 program to improve transparency and accountability and
18 to drive improvement in patient safety to save lives.

19 Q. And are achieving the goals of the Leapfrog
20 program more important than accurately grading
21 nonparticipating hospitals in a given cycle?

22 A. Well, I've devoted much of my professional
23 career to advancing the quality and safety measures,
24 and using measures to help inform markets and drive
25 improvement.

1 So I -- so I do believe that sometimes in
2 order to achieve that goal, it's necessary to
3 provide -- it's necessary to make certain assumptions
4 or imputations, if you will.

5 Q. So is it fair to characterize the Leapfrog
6 2024 methodology change as consistent with the notion
7 that the ends justifies the means?

8 A. Some ends justify some means. I think
9 that's an overly broad statement.

10 Q. But in this instance, what you're describing
11 is that because the ultimate goal of the nonprofit
12 Leapfrog is some good, some greater good, that getting
13 to that point is more important than if there are kind
14 of bumps and bruises along the way?

15 A. Yes. There are always bumps and bruises
16 along the way in any kind of public reporting or
17 accountability program.

18 Q. And so if getting to Leapfrog's goal --
19 nonprofit goal is achieved but hospital reputations
20 are negatively impacted based on inaccurate imputation
21 penalties, in your mind, that is a -- that is an okay
22 sacrifice that is -- you're willing to allow?

23 MR. BILLEK: Object to form.

24 You can answer.

25 THE WITNESS: Well, I've literally spent

1 34 years in this business, and it's frequently
2 necessary to make strategic choices to further the
3 overall goals of the program.

4 For example, we, for a number of years,
5 produced the reports on California cabbage outcomes
6 for the State of California for what's now known as
7 the California Healthcare Access -- Office of
8 Healthcare Access and Information.

9 And so we made decisions along the way about
10 particular data elements to include in our models, to
11 exclude from our models, based on the overall goals of
12 the program.

13 And those decisions may have harmed certain
14 hospitals. It may have benefited other hospitals.
15 But ultimately hospitals decide that it's worth
16 participating in the program, and they begin reporting
17 more accurate data.

18 So that's what we're looking for here as
19 well is a progressive movement towards more accurate
20 and transparent data reporting.

21 Hospitals that report inaccurate or
22 incomplete data are penalized implicitly or explicitly
23 in many different programs. Nothing unique about the
24 Leapfrog program here.

25 ///

1 BY MR. HVIDT:

2 Q. When a hospital is penalized for incomplete
3 data, do you recognize that that representation is not
4 an accurate assessment of that hospital for that given
5 cycle?

6 A. Yes.

7 MR. BILLEK: Object to form.

8 BY MR. HVIDT:

9 Q. And your point is that you're willing for
10 that inaccuracy of an assessment of a hospital to
11 occur if on a global scale that leads to more hospital
12 participation in Leapfrog's survey?

13 A. In the sense that we are always striving for
14 more accurate and complete information. And so the
15 only way to continue that movement towards more
16 accurate and complete information is to penalize
17 inaccurate and incomplete information.
18 Straightforward.

19 Q. What happens if a consumer relies on that
20 incomplete information and passes by a hospital while
21 facing an emergency and ends up getting seriously hurt
22 or more hurt; do they delay in receiving care?

23 A. Well, ambulances are generally required to
24 transport patients to the closest available facility
25 that has the --

1 Q. If it's not an ambulance. If I'm just
2 driving my wife who is hurt, and I look up the
3 hospital that's closest by and I see that it's gotten
4 an F grade, and when I look on Google, I'm on my
5 phone, I'm going fast, I don't have time to look at a
6 footnote while I'm driving, and I've gotta get her to
7 a hospital, I go, "Look, there's an A one 10 miles
8 down the road." And she gets more hurt due to the
9 delay in care there.

10 Is that an okay circumstance to occur just
11 simply because that F hospital didn't participate in
12 Leapfrog's hospital survey?

13 MR. BILLEK: Object to form.

14 THE WITNESS: You're posing a rather
15 implausible hypothetical because you're not going to
16 be searching for the Leapfrog hospital safety grade
17 while you're driving your wife to the hospital. Let's
18 be serious.

19 BY MR. HVIDT:

20 Q. Someone else might be in the -- her mother
21 might be in the car with us looking for that.

22 But if there's an emergency and I'm looking
23 and I need to figure out if a hospital is good or not,
24 and I see that there's an F grade, and I can't tell
25 until I go to a footnote three clicks in that the only

1 reason it's an F is because it didn't participate in
2 the survey --

3 A. It's --

4 MR. BILLEK: Same objection.

5 You can answer.

6 THE WITNESS: It's common sense that if
7 you're experiencing a true emergency, you get to the
8 closest hospital as quickly as you can. I would never
9 encourage anybody to look at Leapfrog hospital safety
10 grades while they're in the process of transporting a
11 patient to a hospital in an emergency.

12 BY MR. HVIDT:

13 Q. Do you think that that recommendation is
14 clear to consumers who look up a hospital on Google
15 and are directed to Leapfrog's page?

16 MR. BILLEK: Same objection.

17 You can answer.

18 THE WITNESS: I can't speak to -- one has to
19 go through several steps to find a hospital and a
20 particular hospital safety grade on the Leapfrog
21 website.

22 You don't just open up the website and get a
23 score for your closest hospital.

24 So the process of going through this website
25 is a process that people do in the comfort of their

1 homes. They don't do it while they're in the process
2 of transporting somebody for an emergency.

3 BY MR. HVIDT:

4 Q. Do you have any data to support the notion
5 that the clicks Leapfrog gets through its website come
6 from a computer as opposed to a phone?

7 A. I don't have information on that
8 specifically.

9 Q. Looking back at the exhibit in front of you,
10 one more question on this one. You note that:

11 "Unless we want to continue getting C
12 and potentially dropping to D, I would
13 advise to start participating again."

14 Do you see that?

15 A. Yes.

16 Q. What do you mean by "Unless we want to
17 continue getting C and potentially dropping to D"?
18 Like why would that occur for the hospital if they
19 don't participate?

20 A. Well, because speaking from my own hospital,
21 we have ongoing challenges related to some of these
22 measures, particularly -- we tend to do average or a
23 little bit above average on the survey based -- on the
24 consumer survey based measures, the HCAHPS measures.

25 But we often have higher-than-expected rates

1 of the hospital-acquired infections. In part, that
2 might be due to the nature of a patient population,
3 in part, it may be due to challenges in infection
4 control.

5 But I'm basically saying that from what I
6 know about the construction of the safety grade, as
7 well as our own internal data, that we would likely
8 continue getting a C if we continue not participating.

9 Q. And when you mention that the patient
10 population might be an impact to the infection rates
11 that the hospital receives, can you elaborate on that?
12 What patient population would that be?

13 A. Well, the CDC measures that come through the
14 National Healthcare Safety Network, those are the
15 measures of hospital-acquired infections, they're not
16 really well risk adjusted at the patient level.
17 They're essentially adjusted based on characteristics
18 of the unit or the hospital.

19 So therefore, for example, they don't fully
20 account for patients who are undergoing a stem cell
21 transplant who have literally zero immunity. And even
22 with the best infection control policies, many of
23 those patients develop healthcare-associated
24 infections.

25 So this is a struggle for some of the

1 hospitals that have the largest cancer programs.

2 Q. And so those hospitals that have large
3 cancer programs, they might have lower CMS measures on
4 those scores for reasons other than the quality or
5 safety at those underlying hospitals.

6 Is that fair?

7 A. I accept that. Yes. Right.

8 And we're also a major trauma center which
9 means that we get a lot of patients who have
10 penetrating trauma, meaning that a steering wheel has
11 penetrated into their chest or part of the dashboard
12 or windshield, and obviously these patients are very
13 high risk of an infection.

14 Q. Are you a Level 1 trauma center?

15 A. Yes.

16 Q. And so would you say Level 1 trauma centers
17 might have lower CMS scores for reasons other than the
18 quality or safety processes at those facilities?

19 Is that fair?

20 A. They might.

21 Q. And is it fair to say that cancer treatment
22 specialty centers might have lower CMS scores on some
23 of those measures for reasons other than the quality
24 and safety at those hospitals?

25 A. They might. Specifically for the

1 healthcare-associated infection measures that are not
2 adjusted statistically at the patient level.

3 Q. And would you say that -- we talked a little
4 bit about HCAHPS.

5 Do you recall that?

6 A. Yes.

7 Q. And are HCAHPS scores something that at a,
8 you know, Level 1 trauma center might be lower due to
9 the nature of the facility, everything going on at a
10 Level 1 trauma center?

11 A. I'm not aware of data on that point. It's
12 possible. And generally when patients recover from
13 major trauma, they're very happy to have recovered and
14 they often rate the hospital well because of their
15 recovery. But -- so I can't say specifically how
16 Level 1 trauma centers fare on HCAHPS.

17 Q. But sometimes like a busier hospital or an
18 all-comer hospital, there's a lot of patients and you
19 might have to share a room with someone when you're at
20 the hospital. That might lead to a lower HCAHPS
21 score.

22 Is that correct?

23 A. Room sharing is factor that may lead to a
24 lower HCAHPS score, yes.

25 Q. Is room sharing one of the recognized

1 contributing factors a low HCAHPS score? Like that's
2 one of the more common complaints?

3 A. In general terms, although I'll point out
4 that Leapfrog uses specifically measures that focus on
5 communication with nurses and physicians surrounding
6 medications, and surrounding the discharge process.
7 So those kinds of measures are less susceptible to the
8 patient population and perhaps more sensitive to just
9 whether the hospital has enough nurses on staff to
10 explain things to patients.

11 Q. So if there's a higher volume of patients
12 coming in and the nurses can't communicate as
13 regularly with the patient, that might impact an
14 HCAHPS score?

15 A. Higher volume relative to the nurse
16 staffing.

17 Q. Correct.

18 Is that fair to say, that a higher volume of
19 patients relative to the nurse staffing could impact
20 HCAHPS score which might not -- might not be an
21 indicator of whether it's a safe or quality hospital
22 standing alone.

23 Is that fair?

24 A. Not exactly. I mean, let me give an
25 example.

1 So I think we generally score at
2 UC Davis Health right about average on these measures.
3 Sometimes a little bit better, sometimes slightly
4 worse, but right about average. And that I think
5 reflects the fact that we have a challenging patient
6 population with a very high volume, but we also have
7 very robust nurse staffing.

8 A hospital that has a similar patient
9 population with poor nurse staffing will see lower
10 scores on these items. So the low scores on these
11 items particularly raise concerns about the adequacy
12 of nurse staffing.

13 Q. And that's volumetric of nurses.

14 Is that fair to say?

15 Not the quality of the individual nurse that
16 it's measuring against or --

17 A. No. When I talk about nurse staffing,
18 what's been shown I think repeatedly in the literature
19 is that the impact of nurse staffing on patient
20 outcomes is reflected both by what we refer to as the
21 skill mix, that is, how -- what proportion of the
22 nurses are baccalauréat trained, for example, or
23 better, as well as the amount that -- the number of
24 hours of nurses per patient day.

25 So it's standardized for volume, in other

1 words.

2 Q. Thank you.

3 You can put that one to the side.

4 (Exhibit 22 was marked for
5 identification.)

6 BY MR. HVIDT:

7 Q. I'm handing you what's been stickered as
8 Exhibit 22 to your deposition, which has been produced
9 in this litigation as UC Davis TLG0000683.

10 If you look at the top e-mail there, it's a
11 e-mail from Patrick Romano dated May 15th, 2024 to a
12 Bruce Hall, Gregory Maynard, and Brenda Inman,
13 regarding Leapfrog announcements for hospitals,
14 May 2024.

15 Do you see that?

16 A. Yes.

17 Q. Have you seen this document before?

18 A. Yes. I produced a version of this document,
19 I believe.

20 Q. And if you go back to the beginning e-mail
21 chain which starts on 684, do you see how it starts
22 out with an e-mail from The Leapfrog Group to
23 Patrick Romano regarding announcements to hospitals?

24 A. What page are you on?

25 Q. 684.

1 A. 684.

2 Q. It's the second page of the --

3 A. Yes. Got it.

4 Q. -- of the e-mail.

5 And there's a lot of images on the e-mail.

6 And if you -- it's really an announcement to
7 get started on the hospital survey with a few other
8 announcements.

9 Do you see that?

10 A. Yes.

11 Q. And you forward that announcement to
12 Brenda Inman and Gregory Maynard on May 15th, 2024.

13 Do you see that?

14 A. Yes.

15 Q. You note:

16 "Your opportunity to reconsider.

17 They are changing their imputation
18 approach so hospitals can get away with
19 responding in alternate years," close
20 quote.

21 By "can get away" there, did you mean "can't
22 get away"?

23 A. No. I meant can.

24 Q. They can get -- because they're still
25 allowing one year for Step 1 imputation of your past

1 year data, you can get away with responding alternate
2 years?

3 A. Correct.

4 Q. And then you note:

5 "But if you skip more than one year,
6 you will never get above a C. Might even
7 drop to a D."

8 Do you see that?

9 A. Yes.

10 Q. Is that correct?

11 A. It's correct in the context of my knowledge
12 of UC Davis Health's performance. In other words,
13 that we're starting with a B because we've had
14 difficulty achieving an A. So we're starting with a
15 B. And I'm anticipating that we'll be stuck with a C.
16 And it's conceivable under certain circumstances that
17 we might drop to a D.

18 It's not a generic statement. In other
19 words, about all hospitals. It's a specific statement
20 based on my knowledge of the entire dashboard of
21 metrics at UC Davis Health.

22 Q. Got it.

23 So you're saying that, you know, when
24 UC Davis participates in the hospital survey, it gets
25 a B.

1 Is that fair?

2 A. Yes.

3 Q. And then it decided in 2022 to stop
4 participating in the Leapfrog survey and when it lost
5 the benefit of that prior year data, it dropped to a
6 C.

7 Is that correct?

8 A. Yes.

9 Q. And with the imputation change, it might now
10 drop to a D.

11 Is that correct?

12 A. It -- I was just saying that people had to
13 be aware of the possibility.

14 Q. And didn't UC Davis drop to a D in fall 2024
15 after the imputation methodology changed?

16 A. It did.

17 Q. Okay. So the hospital that you work at was
18 a B when it participated in the hospital survey and
19 with the imputation methodology change in 2024, it
20 dropped to a D on the Leapfrog hospital safety grade.

21 Is that correct?

22 A. I can't say what its grade would have been
23 if it had participated in 2024. It's quite possible
24 that its grade would have been a C if it had
25 participated; right? Because the survey components

1 only correspond to about a quarter of the total grade;
2 right?

3 So the -- obviously the -- there's other
4 measures that represent at least three-quarters of the
5 total grade.

6 So those are the primary drivers; right?

7 So if those drivers have dropped to a C,
8 then nonparticipation would get us to a D. If those
9 drivers stayed at a B, then probably we would be a C.

10 But obviously I'm speaking in general terms,
11 probabilistic terms. I'm not specifically predicting
12 that UC Davis Health will drop to a D. I just wanted
13 people to be aware of that possibility.

14 Q. And when you note that 25 percent -- so a
15 quarter of the metric that goes into the
16 nonparticipating hospital are those imputed measures
17 that are assigned the lowest score that they can get.

18 Is that correct?

19 A. I'm not quoting the exact number. Shall we
20 say it's between 20 and 25 percent.

21 Q. But approximately a quarter of the grade
22 that a nonparticipating hospital will get is assigned
23 to the lowest value you can receive for those -- that
24 25 percent.

25 Is that correct?

1 A. Yes. Mm-hm.

2 Q. And that might cause a hospital who would
3 otherwise be a B, had it participated, to a D, if it
4 didn't participate.

5 Is that correct?

6 A. That could happen, yes. Much more common is
7 a one-grade shift, as we discussed.

8 Q. But there would be a grade shift
9 nonetheless.

10 Is that fair?

11 A. In most cases there would be a grade shift,
12 yes.

13 Q. So in most cases participation or lack
14 thereof leads to a grade shift in the Leapfrog
15 hospital safety grade.

16 Is that -- after this 2024 methodology
17 change.

18 Is that fair?

19 A. Again, you're not going to be able to pin me
20 down on exactly what that percentage of hospitals is
21 that saw a grade shift or would see a grade shift.
22 This is an internal communication within
23 UC Davis Health where I'm advising them that they
24 should expect a grade shift.

25 Q. You testified earlier in most cases you

1 would expect a grade shift if one did not participate
2 in the Leapfrog hospital survey due to the 2024
3 methodology change?

4 A. Well, I'm trying to clarify because I think
5 all I testified was that there would be a decrease in
6 the numerical score.

7 And I think I further testified that the
8 impact of that decrease in the numerical score on the
9 grade assignment is uncertain because it depends on
10 exactly where the grade thresholds are drawn and those
11 grade thresholds could change from year to year.

12 Q. Nonparticipation after 2024, with the
13 methodology change for Step 2, leads to an automatic
14 deduction in the numerical score that a hospital can
15 receive?

16 A. Well, it's not an automatic deduction.
17 There are some hospitals that in their response,
18 evidence limited achievement on all domains, and
19 obviously those hospitals would not see any decrease
20 in their score.

21 Q. Do you have any --

22 A. But I accept --

23 Q. -- data on how any of those hospitals exist
24 that would get a limited achievement on all four
25 scores?

1 A. I don't know how many there are.

2 Q. Do you know of one?

3 A. I don't personally know of any, no.

4 Q. So sitting here today, you can't think of a
5 hospital that's not participating in Leapfrog's
6 hospital survey that would achieve a limited
7 achievement score on all those imputed measures.

8 Is that fair?

9 A. Well, it's not my job to investigate the
10 individual situations of individual hospitals.
11 Obviously I'm familiar with my own hospital, and
12 occasionally I'm asked to opine on other hospitals or
13 to consider other hospitals in our local market, but I
14 have no knowledge of the entire universe of hospitals.

15 Q. Sitting here today, you can't think of a
16 hospital that would get limited achievement score on
17 all the imputed measures had it participated in
18 Leapfrog's hospital survey?

19 MR. BILLEK: Object to form.

20 BY MR. HVIDT:

21 Q. Is that correct?

22 A. I suspect that there is such a hospital, but
23 it's not within my scope to identify that hospital.

24 Q. You suspect there's one, but you don't know.
25 Is that fair?

1 A. I don't know. It's beyond my scope.

2 Q. When you say "scope," what scope are you
3 referring to?

4 A. I'm referring to the scope that our task as
5 an expert panel is to advise Leapfrog related to the
6 methodology as it applies to all hospitals and not to
7 review the individual situations of individual
8 hospitals that might be affected one way or the other.

9 Q. So communicating that your hospital might
10 drop to a D, were you trying to encourage them to
11 participate in the Leapfrog survey?

12 A. Of course.

13 Q. And if you look down to the response to the
14 e-mail we were just walking through on the bottom of
15 the first page of this document, do you see the e-mail
16 from Gregory Maynard?

17 A. Yes.

18 Q. And he says:

19 "Patrick, I have brought this up with
20 Dr. Hall. We are both ambivalent about
21 the value of Leapfrog, and I think that
22 ambivalence tilts even more negative when
23 our lack of participation guarantees a
24 lower grade which they still publish,
25 effectively blackmailing centers to

1 participate."

2 Do you see that?

3 A. Yes.

4 Q. Do you understand why Gregory Maynard might
5 think that Leapfrog is blackmailing nonparticipating
6 hospitals to participate by threatening a lower grade?

7 MR. BILLEK: Object to form.

8 THE WITNESS: I understand his viewpoint.

9 BY MR. HVIDT:

10 Q. Do you think it's an unreasonable viewpoint?

11 MR. BILLEK: Object to form.

12 THE WITNESS: Yes.

13 MR. BILLEK: You can answer.

14 BY MR. HVIDT:

15 Q. Why?

16 A. Well, as I articulated in my response.

17 Q. Are you referring to the one at the top of
18 the page?

19 A. Yes.

20 Q. So going to that, you note that "The value
21 of designation must be weighed against the cost."

22 Do you see that?

23 A. Yes.

24 Q. And then you say:

25 "I have been encouraging them to

1 reduce the cost, but that message" -- "but
2 not sure that message has been heard."

3 Do you see that?

4 A. Yes.

5 Q. And is that consistent with what we were
6 talking about earlier today where you had a
7 conversation with them about the burden associated
8 with completing the hospital -- them being Leapfrog
9 staff -- about the burden of completing the hospital
10 safety grade?

11 Is that correct?

12 A. Yes.

13 So I should emphasize that, first of all,
14 I'm not on the expert panel that actually designs the
15 survey.

16 And furthermore, there are components of the
17 survey that have been dropped over time, perhaps in
18 part in response to my criticisms. So I do believe
19 that they heard the message, but it's an ongoing
20 discussion, of course.

21 Q. But you said here that you're not sure that
22 they heard the message.

23 Is that fair to say?

24 A. That was as of May, yes. May 15th, 2024.

25 Q. And so you think that they've heard the

1 message since May '24.

2 Is that correct?

3 A. Yes.

4 Q. And you note in the next sentence,
5 responding to the blackmail point, "However, I will
6 push back on Greg's point a bit."

7 Do you see that?

8 A. Yes.

9 Q. And then can you read the remainder of that
10 paragraph for me, please?

11 "You can call it blackmail if you
12 want, but" quote "pay for reporting" close
13 quote "or" quote "penalty for
14 nonreporting" close quote "is a common
15 theme across many programs. Leapfrog has
16 no choice but to use the only carrots and
17 sticks available to them. This strategic
18 choice by Leapfrog is entirely rational
19 and should not trigger a more negative
20 response."

21 Q. Sitting here today, do you agree with what
22 you wrote in that response?

23 A. Yes.

24 Q. And so are you equating the notion of
25 penalty for nonreporting versus blackmail?

1 MR. BILLEK: Is that the whole question?

2 THE WITNESS: I'm not sure I understand.

3 MR. BILLEK: I didn't know if that was the
4 pregnant pause or if that was the end of question.
5 Sorry.

6 MR. HVIDT: Understood.

7 MR. BILLEK: I object to the form of the
8 question.

9 THE WITNESS: I'm not sure I understand the
10 question.

11 BY MR. HVIDT:

12 Q. Yeah.

13 You said you can call it blackmail, if you
14 want, and then you note that "but pay for reporting or
15 pay for penalty for nonreporting is a common theme
16 across many programs."

17 Is that what you said?

18 A. Yes.

19 Q. And so oftentimes when someone says you can
20 call it X or Y, you're equating X and Y.

21 Is that fair?

22 MR. BILLEK: Object to form.

23 THE WITNESS: No. Because -- because Dr. --
24 blackmail is illegal, and I know that Dr. Maynard is
25 not specifically accusing Leapfrog of violating the

1 law. He's stating his impression as a chief quality
2 officer that it feels like blackmail.

3 So I'm interpreting his context -- his
4 comment sort of knowing that he's not actually
5 accusing Leapfrog of violating the law. He's simply
6 describing how it feels to him on the front lines as a
7 chief quality officer.

8 BY MR. HVIDT:

9 Q. So as the chief quality officer of a
10 hospital, he is internalizing Leapfrog's 2024
11 methodology change as blackmail?

12 MR. BILLEK: Object to form.

13 BY MR. HVIDT:

14 Q. Is that fair?

15 A. No. He's -- he is using the adverb
16 effectively blackmailing, which I think expresses the
17 fact that it's really a feeling, it's not an
18 accusation of blackmail in the legal sense.

19 Q. And you respond to that by again
20 characterizing what Leapfrog is doing as penalty for
21 nonreporting.

22 Do you see that?

23 A. Yes.

24 Q. And you go on to note that "Leapfrog can
25 only use carrots and sticks available to them."

1 Do you see that?

2 A. Yes.

3 Q. And what do you mean by that?

4 A. I mean that Leapfrog has no authority over
5 hospitals. It's an independent nonprofit
6 organization. It's governed by its own board. It
7 doesn't have any legal or regulatory authority like
8 CMS does. It doesn't have the power of an accrediting
9 agency like the Joint Commission. So therefore it's
10 levers are more limited.

11 So effectively it could only use the grade
12 itself and the underlying score as part of its
13 mechanism to incentivize participation.

14 Q. And so when you say the "carrots" there,
15 that's a benefit.

16 Is that fair to say?

17 A. Technically it's a food, but yes.

18 Q. But you're using it here --

19 A. Metaphorically.

20 Q. -- metaphorically. It's a benefit versus a
21 stick being a consequence.

22 Is that fair?

23 A. Yes.

24 Q. And what does "pay for reporting" mean, as
25 you use it in this e-mail?

1 A. Pay for reporting is a -- an approach where
2 hospitals or healthcare providers get a bonus if they
3 agree to report certain measures. So, for example, my
4 team currently works on developing measures for a
5 program known as MIPS, M-I-P-S. Don't ask me to spell
6 it out, but it's a program that CMS operates where
7 physicians and physician organizations receive a small
8 bonus in their Medicare fee for service payment in
9 return for reporting quality measures.

10 So that would be a pay-for-reporting program
11 to give an actual bonus to organizations or entities
12 that agree to participate.

13 Q. And you are also kind of referring to a
14 carrot as maybe the grade that they could give. So if
15 you get a better grade, that could be considered a
16 carrot.

17 Is that fair to say?

18 A. Yes.

19 Q. And so would you consider a carrot as a
20 mechanism for Leapfrog as a lever it can pull being
21 that participating hospitals, those that are
22 participating in its survey, might get stronger grades
23 because they participated in the survey?

24 Is that fair?

25 A. Yes, they might.

1 Q. Moving down to the next paragraph, it says:
2 "From my perspective on their expert
3 panel, I am asking them and they have
4 agreed to be honest and transparent."

5 Do you see that?

6 A. Yes.

7 Q. And then you note:

8 "i.e., don't say you're imputing
9 missing scores. Just say that you are
10 penalizing nonparticipants by assuming
11 that they have limited achievement on
12 these domains."

13 Do you see that?

14 A. Yes.

15 Q. Has Leapfrog continued to use the term
16 "imputing missing scores" on its methodology
17 descriptions for nonparticipating hospitals since
18 May 2024?

19 A. I think they have changed the wording in
20 Step 2 to refer to assigning rather than imputing
21 scores.

22 So Step 1 is still an imputation because it
23 uses empirical data, in this case from previous
24 surveys.

25 But Step 2 is no longer an imputation. It's

1 an assignment. And I think that's the way it's
2 described in the technical report.

3 Q. What's the difference between assigning and
4 imputing?

5 A. Well, assigning makes it clear that the same
6 decision, the same value is being assigned to all
7 facilities in that situation, the same numerical score
8 values.

9 Q. So all steps to nonparticipating hospitals
10 are assigned the same value?

11 A. Correct.

12 Q. And how is that different than imputing a
13 value?

14 A. Well, in most imputation approaches,
15 different -- different missing data points would be
16 replaced with different values, not necessarily all
17 the same value.

18 So, again, as we described earlier, that
19 imputation could incorporate data on the same measure
20 from previous reporting cycles, it could use data on
21 other measures from the same reporting cycle, or it
22 could use data on the same measure from other
23 hospitals.

24 So there are a variety of ways of imputing.
25 But imputation implies that there's some variation in

1 the values that are assigned.

2 Q. So is it fair to say that post 2024
3 methodology for Leapfrog, that the values assigned for
4 those four measures, CPOE, BCMA, IPS, and hand
5 hygiene, are not imputed measures? Is that what
6 you're saying?

7 A. They're not imputed values, no. They are
8 assigned values.

9 Q. And they are assigned values at the lowest
10 amount.

11 Is that correct?

12 A. Correct.

13 Q. And when you're imputing measures, you're
14 trying to estimate what the missing data would have
15 been had it not been missing.

16 Is that fair?

17 A. Generally, yes.

18 Q. But when you are assigning data, you're no
19 longer trying to estimate what the value would have
20 been.

21 Is that fair?

22 A. Yes.

23 Q. And you think that by just using the term
24 "assigning" as opposed to "imputing," that it's clear
25 to observers of the methodology that Leapfrog is

1 penalizing nonparticipating hospitals?

2 A. Well, certainly I'm confident that all the
3 hospitals -- or all the hospitals that paid attention
4 understood what was happening. It's reflected in the
5 e-mails that we've shared today.

6 Whether -- you know, obviously there might
7 be some users in the website who might not drill down
8 to see that detail.

9 Q. So a consumer might not know the difference
10 between imputing and assigning as it's used on
11 Leapfrog's website.

12 Is that fair?

13 A. It's possible.

14 Q. Would it surprise you that I'd never known
15 what the word "imputing" was before this case?

16 MR. BILLEK: Object to form.

17 THE WITNESS: Nothing would surprise me.

18 BY MR. HVIDT:

19 Q. Okay. So UC Davis ended up not
20 participating in the 2024 hospital survey.

21 Is that correct?

22 A. Yes.

23 Q. And it received a grade from Leapfrog in
24 fall of 2024 applying the new 2024 methodology.

25 Is that correct?

1 A. Yes.

2 (Exhibit 23 was marked for
3 identification.)

4 MR. HVIDT: I'm handing you what's been
5 marked Exhibit 23 in the Romano deposition, which has
6 been produced in this litigation using the top
7 Bates number there as Romano 000208. The top
8 substantive e-mail is from Patrick Romano to
9 Bruce Hall, Gregory Maynard, Brenda Inman, and
10 Joseph Galante, "Re: Leapfrog announcements for
11 hospitals December 2024," dated December 11, 2024.

12 Do you see that?

13 A. Yes.

14 Q. And have you seen this document before?

15 A. Yes.

16 Q. Did you review this document in preparation
17 for your deposition?

18 A. No. Only as part of my production.

19 Q. Was your production just forwarding e-mails
20 that you identified?

21 A. Correct.

22 Q. And at the top of this e-mail says you
23 forwarded it to your counsel.

24 Is that correct?

25 A. It wasn't my counsel -- I guess it was my

1 counsel, yes.

2 MR. BILLEK: Excuse me.

3 THE WITNESS: This is -- yes. I mean, it
4 has a heading of "Confidential Attorney-Client
5 Privilege Internal Communications," but I suppose that
6 counsel forwarded it to you.

7 I was unclear at the time about whether this
8 e-mail was necessary to comply with your subpoena --
9 or with your firm's subpoena. So I sought advice from
10 counsel about whether these internal e-mails were
11 relevant to the subpoena or not.

12 BY MR. HVIDT:

13 Q. Understood.

14 I do not want to get into the communications
15 between you and your counsel on that notion. But I'll
16 note that below that forwarding, there is substance
17 that's unrelated to attorney-client communication.

18 Is that correct?

19 A. Correct.

20 Q. And if you go to what is the fourth page
21 which ends in Bates No. 211, do you see that the
22 e-mail starts with the announcement of the hospital
23 grades from Leapfrog to you?

24 A. Well, not exactly.

25 So this train is appended to the previous

1 train from May 15th. And then on December 11th, the
2 scores came out, and I'm cutting and pasting from
3 Google AI.

4 Q. I understand. Thank you for that
5 clarification.

6 So if you fast forward from the
7 communications we looked at earlier to your e-mail on
8 the Bates number ending 209 dated December 11th, 2024,
9 that's where you pick up with the communication you
10 just referenced of copying Google AI result into the
11 e-mail.

12 Is that correct?

13 A. Correct.

14 Q. And then above that copy you have a message
15 to Bruce Hall, Gregory Maynard, and Brenda Inman.

16 Is that fair?

17 A. Yes.

18 Q. And you write:

19 "Well, friends, we can now see the
20 consequences of our nonparticipation, a D
21 grade, in the same league as Oroville and
22 Manteca, which is embarrassing for an
23 organization that claims to be high
24 quality."

25 Do you see that?

1 A. Manteca. Yes.

2 Q. Apologies. Manteca.

3 And are Oroville or Manteca hospitals in the
4 general area?

5 A. Northern California, yes.

6 Q. And do they have reputation for not being
7 the best hospitals?

8 A. Yes.

9 Q. Is it fair to say that you don't think
10 UC Davis fits in the same category as those hospitals?

11 A. Yes.

12 Q. And you note that the reason you're being
13 put in that same category as those hospitals is the
14 consequences of our nonparticipation.

15 Do you see that?

16 A. Yes.

17 Q. And then if you look up to the e-mail
18 response, you get a response from Bruce Hall that
19 begins on the first page of this document and carries
20 forward on to the next.

21 Do you see that?

22 A. Yes.

23 Q. He starts off by thanking you for the work
24 that you do and all you've accomplished.

25 Do you see that?

1 A. Yes.

2 Q. And then he goes through the second
3 paragraph.

4 Do you see that?

5 A. I see the proverbial "but," yes.

6 Q. And Bruce Hall notes:

7 "With respect to Leapfrog
8 specifically, I think it is irresponsible
9 and reckless of them to deliver incomplete
10 assessments to the public."

11 Do you see that?

12 A. Yes.

13 Q. What do you think he means when he says
14 "incomplete assessment"?

15 A. Well, it's incomplete because it doesn't
16 include the survey data.

17 Q. And then he goes on to say:

18 "Despite that personal sense, I'm
19 asking Greg and Brenda to assemble more
20 information on what the resource burden
21 would be if we chose to participate."

22 Do you see that?

23 A. Yes. And he notes that we had planned to do
24 this for January 2025 anyway.

25 Q. Correct.

1 And so in response to receiving this and
2 they were planning to do so, had the discussion
3 anyways, they're considering participating again.

4 Is that fair?

5 A. Yes.

6 Q. And then you respond to Bruce Hall.

7 Do you see that?

8 A. Yes.

9 Q. And setting aside the appreciation, can you
10 read to me the second paragraph?

11 A. "Re Leapfrog, me thinks you folks are
12 too critical. Their decision to increase
13 the penalty for nonparticipation was a
14 simple business decision, just like our
15 decision not to participate. It's just
16 business, folks. Their business model, as
17 you know, depends on producing data that
18 add value for health plans and employers
19 and the data are not valuable if
20 participation is low."

21 Q. Do you -- did you agree with that when you
22 wrote it in December -- on December 11th, 2024?

23 A. I did, but I should clarify that when I'm
24 talking about adding value, I'm not talking about,
25 strictly speaking, adding monetary value or financial

1 value. I'm talking about adding value that supports
2 Leapfrog's mission; that is, to increase transparency
3 and to drive improvements in patient safety that save
4 lives.

5 So I'm taking a broad perspective on value.
6 I don't want that word to be misinterpreted.

7 Q. In that sentence, do you connect the word
8 "value" to -- a reference to their business model?

9 A. Yes.

10 Q. So when you're talking about business model,
11 you're not referring to any sort of financial
12 component to the value of the data?

13 A. Well, I'm referring to the mission of
14 Leapfrog as a nonprofit organization that has to have
15 a revenue stream to support its survival.

16 Q. But you don't use the word "mission" here;
17 right? You use the word "business model."

18 Is that fair?

19 A. Yes. But Leapfrog has a business model.
20 UC Davis Health has a business model.

21 So nonprofit organizations have to have
22 business models that allow them to continue to exist
23 and fulfill their mission.

24 Q. And part of that business model is
25 generating revenue to support the missions that it

1 has.

2 Is that fair?

3 A. Yes.

4 Q. And to generate revenue, Leapfrog licenses
5 the data it receives from the hospital survey.

6 Is that correct?

7 A. Leapfrog has multiple revenue streams. I'm
8 not familiar with the details of it, but they include
9 licensing the data. They also include obviously
10 advertising, branding, other revenue-generating
11 opportunities.

12 Q. And those advertising, branding,
13 revenue-generating opportunities relate to principally
14 hospitals who receive an A grade.

15 Is that correct?

16 A. An A grade or in some cases a B grade,
17 depending on the market.

18 Q. And if you look to the notion that -- for
19 the licensing of data, do you -- you represent here
20 that the data is not valuable if participation is low.

21 Do you see that?

22 A. No. I didn't say that. I'm referring to
23 the value of the data to all the entities that use the
24 data. I'm not referring to valuable in the monetary
25 sense.

1 Q. And this sentence begins with reference to
2 their business model.

3 Is that correct?

4 A. Yes.

5 (Exhibit 24 was marked for
6 identification.)

7 MR. HVIDT: Can we go off the record?

8 THE VIDEOGRAPHER: Off the record 5:08 p.m. 0

9 (Break taken in proceedings.)

10 THE VIDEOGRAPHER: On the record 5:11 p.m. 0

11 BY MR. HVIDT:

12 Q. Dr. Romano, I've handed you what's been
13 marked as Exhibit 24, what's been produced in this
14 litigation as UC Davis TLG000047. The top e-mail is
15 from Gregory Maynard dated December 11th, 2024, to
16 Patrick Romano, Bruce Hall, and Brenda Inman
17 "Re: Leapfrog announcements to hospitals
18 December 2024."

19 Do you see that?

20 A. Yes.

21 Q. And do you see that this e-mail is
22 responding to the same e-mail from yourself that we
23 were just looking at in Exhibit 2023 (sic) and earlier
24 on in the chain?

25 A. Yes.

1 Q. And so this would be what we might refer to
2 as like a different branch of that e-mail --

3 A. Yes.

4 Q. -- do you understand that?

5 A. Yes.

6 Q. And Dr. Maynard says, quote:

7 "Personally, I think it's
8 embarrassing to Leapfrog for nuking sites
9 that don't participate. They should just
10 rank not applicable. Anything else is not
11 an honest representation of the site in
12 question."

13 Do you see that?

14 A. Yes.

15 Q. Do you think Dr. Maynard's response is
16 within the range of a reasonable response that one
17 might have to having a hospital penalized for not
18 participating in the Leapfrog survey?

19 MR. BILLEK: Object to form.

20 THE WITNESS: Well, what I note is that his
21 response was at 10:24 p.m., so he was presumably
22 responding from home in what we might call a fit of
23 pique.

24 BY MR. HVIDT:

25 Q. What is a fit of pique?

1 A. P-i-q-u-e. It just -- a colloquial
2 communication that one might see between people who
3 know each other well after usual business hours.

4 Q. So do you think that he didn't think that
5 Leapfrog should just not rank hospitals that don't
6 participate in a survey?

7 MR. BILLEK: Object to form.

8 THE WITNESS: I'm referring to the use of
9 the verb "nuking." I don't think that he means by
10 that verb that we're actually using a nuclear weapon.

11 BY MR. HVIDT:

12 Q. Understand.

13 But would you agree that by using the word
14 "nuking," he is saying that this is hitting the sites
15 that don't participate pretty hard?

16 A. Yes.

17 Q. And his view is that they should just not
18 rank the hospitals that don't participate.

19 Is that fair?

20 A. Yes, that is --

21 MR. BILLEK: Object to form.

22 THE WITNESS: That is his -- that is his
23 view.

24 BY MR. HVIDT:

25 Q. And he thinks anything -- any other rating

1 would just not be an honest representation of the site
2 in question.

3 Is that fair?

4 A. That's his view.

5 Q. And he expressed that view to you after
6 receiving an e-mail regarding the facility that he
7 works at receiving a D from the Leapfrog hospital
8 survey after the fall 2024 grade release.

9 Is that correct?

10 A. Yes.

11 Now, this is a little complicated as you say
12 with the branching because he reports to Bruce Hall,
13 and Bruce Hall had already responded, I think, earlier
14 the same day. So it's a little bit confusing, you
15 know, how to interpret the set of responses. So he
16 may or may not have been aware of his boss' response.
17 I can't say.

18 Q. And you think his boss' response may have --
19 that he responded consistent with -- may have impacted
20 his communication?

21 A. It did --

22 MR. BILLEK: Object to form.

23 THE WITNESS: It's possible.

24 BY MR. HVIDT:

25 Q. Do you think that Dr. Maynard is -- that he

1 has studied the impact of, you know, how to be -- how
2 to run a hospital's quality department in a way to
3 improve its quality?

4 Do you think that he is studied in that
5 regard or qualified in that regard?

6 A. Yes. It doesn't mean that we always agree
7 but he's certainly qualified.

8 (Exhibit 25 was marked for
9 identification.)

10 BY MR. HVIDT:

11 Q. I'm handing you what's been marked as
12 Exhibit 25 in your deposition and produced in this
13 litigation by UC Davis as UC Davis TLG0000358, which
14 is an e-mail chain regarding Leapfrog announcements
15 for hospitals, December 2024, and it's among various
16 individuals at UC Davis.

17 Do you see that, Dr. Romano?

18 A. Yes.

19 Q. Do you see that you're on the e-mail at the
20 bottom of the first page?

21 A. I'm on it with respect to the e-mails that
22 we previously reviewed, but I'm obviously not on the
23 top two e-mails.

24 Q. Correct. That's exactly what I was getting
25 to.

1 But if you look at the e-mails from the
2 bottom of the page back, those are the e-mails that
3 we've been walking through in the last several
4 minutes.

5 Is that correct?

6 A. Correct.

7 Q. And so this chain carries forward after
8 you're dropped from it with an e-mail from Bruce Hall
9 dated December 15th, 2024.

10 Do you see that?

11 A. Yes.

12 Q. And is it fair to say that Bruce Hall in
13 this e-mail is trying to assemble his team to get
14 prepared to re-evaluate whether to participate in the
15 Leapfrog hospital survey?

16 A. Yes.

17 Q. And in response to that e-mail,
18 Gregory Maynard has an e-mail response back to
19 Bruce Hall and Brenda Inman and Joseph Galante.

20 Do you see that?

21 A. Yes.

22 Q. And in Gregory Maynard's e-mail, if you look
23 down to the second to last paragraph, do you see where
24 it says "Most agree"?

25 A. Yes.

1 Q. And he says:

2 "Most agree that Leapfrog
3 participation does not spur actual Q/S
4 improvement in their centers. And the
5 main reason to participate is the
6 reputational hit you take for poor scores
7 or not participating."

8 Do you see that?

9 A. Yes.

10 Q. Had Gregory Maynard ever shared that view
11 with you before?

12 A. I don't recall. I don't recall that
13 specifically.

14 Q. And when he says "Q/S," is that a common
15 abbreviation or an abbreviation one might use for
16 "quality/safety"?

17 A. Yes.

18 Q. And have you heard that view from others
19 other than Dr. Maynard, that Leapfrog participation
20 does not spur actual quality/safety improvement in
21 their facilities?

22 A. I don't recall a specific instance where I
23 actually heard that view. I can't say right here
24 today that I've never heard that view, but I don't
25 recall any instance hearing that view.

1 Q. And in this instance, Dr. Maynard's
2 communicating to the -- to Bruce Hall who is his boss;
3 correct?

4 A. Yes.

5 Q. That most agree that Leapfrog participation
6 doesn't spur actual quality/safety improvement in
7 their centers.

8 Is that correct?

9 A. Yeah. I have no idea what the "most" is
10 that he's referring to.

11 Q. But that what he communicates to his boss?

12 A. Yes.

13 Q. And he also communicates that:

14 "The main reason to participate is a
15 reputational hit you take for poor scores or not
16 participating."

17 Is that correct?

18 A. That's what he says.

19 Q. And that terminology that he uses could be
20 consistent with the notion that there's a penalty for
21 not participating that we've talked about today.

22 Is that correct?

23 A. Well, obviously I disagree with his
24 statement here, but I respect him. We're entitled to
25 disagree.

1 But, yes, what he says here is consistent
2 with other statements that we've reviewed.

3 Q. And you agree that a hospital could take a
4 reputational hit for poor scores.

5 Is that correct?

6 A. Yes.

7 I'm pleased to see that the actual estimates
8 of the labor needed to participate are much closer to
9 my original estimates than that thousand hours. I
10 don't know where that came from.

11 Q. It does appear that the data, if you add up
12 his data in that e-mail, that he gets close to around
13 200 hours.

14 Is that correct?

15 A. Yes.

16 Q. But that doesn't include whatever data polls
17 by Jeff's staff are required.

18 Is that correct?

19 A. Yeah.

20 Q. And --

21 A. Twenty hours, 40 hours there.

22 (Exhibit 26 was marked for
23 identification.)

24 BY MR. HVIDT:

25 Q. Dr. Romano, I'm going to hand you a document

1 that's been produced in this litigation as
2 UC Davis TLG0005346. I'll represent to you that you
3 are not on this e-mail chain.

4 Exhibit 26 at the top is an e-mail between
5 Robert Jon Kucejko, Gregory Maynard, and Brenda Inman
6 dated December 19, 2024 regarding responding to
7 patient questions about rankings.

8 Do you see that?

9 A. Yes.

10 Q. And we've talked about Gregory Maynard and
11 Brenda Inman today.

12 Is that correct?

13 A. Yes.

14 Q. And we've looked at a variety of e-mails
15 from December 2024 in the last bit.

16 Is that correct?

17 A. Yes.

18 Q. And who is Robert Jon Kucejko?

19 A. He is a colorectal surgeon on our faculty
20 who is I think just an assistant professor in
21 colorectal surgery. But he has a position as the
22 physician lead for clinical documentation improvement,
23 which means that he's given the task of reviewing all
24 of our patient safety indicator events and ensuring
25 that they've been investigated and that if there are

1 errors in our data reporting, that those errors are
2 corrected.

3 Q. I understand.

4 And if you flip to the next page, you see
5 how this document originated.

6 Do you see the e-mail from HS Ambulatory
7 Care Leadership to a list of unlisted UC Davis
8 recipients? Do you see that?

9 A. Yes.

10 Q. And then if you look up at the next e-mail,
11 there's the e-mail from Mohit Gulati to surgery
12 clinics.

13 Do you see that?

14 A. Yes.

15 Q. And who's Mohit Gulati?

16 A. I honestly don't know.

17 Q. And in his e-mail to surgery clinics, are
18 you -- would you have received that? Are you on the
19 list serve for surgery clinics?

20 A. No.

21 Q. And if you look down at the second paragraph
22 in Mohit Gulati's e-mail, do you see where it says
23 "the recent release"?

24 A. Yes.

25 Q. It says:

1 "The recent release from Leapfrog
2 results indicated a low quality score for
3 UCDH. As a result, unfortunately we have
4 seen some patients canceling appointments
5 and/or procedures."

6 Do you see that?

7 A. Yes.

8 Q. Do you have any reason to dispute that
9 UC Davis actually saw some canceled appointments and
10 procedures from -- due to the low Leapfrog score from
11 December 2024?

12 MR. BILLEK: Object to form.

13 THE WITNESS: It's possible. We still
14 appear to be quite full in our aggregate statistics,
15 but it's possible that a few patients canceled
16 appointments and/or procedures.

17 BY MR. HVIDT:

18 Q. So it's possible that the aggregate number
19 is just -- you know, there's a lot of factors that go
20 into that.

21 Is that correct?

22 A. Yes.

23 Q. And that a factor that may be pushing down
24 on that aggregate factor could be canceled procedures
25 from people looking at the Leapfrog score that

1 UC Davis received and choosing not to go there?

2 MR. BILLEK: Object to form.

3 THE WITNESS: At the same time, demand may
4 be going up because of increased referrals from other
5 sources, so we may not see any aggregate change.

6 BY MR. HVIDT:

7 Q. Got it.

8 So you could have patients choosing not to
9 go to the hospital due to receiving -- seeing that
10 Leapfrog score, but the aggregate data for the
11 hospital remains constant due to a variety of other
12 factors?

13 A. For what it's worth, I heard of one patient
14 who perhaps was one of the patients who are mentioned
15 here who scheduled another appointment with their
16 surgeon, and then was reassured by their surgeon and
17 proceeded with the planned procedure just a little bit
18 later.

19 Q. Looking back to the first page of this
20 document, do you see where Robert Kucejko sends an
21 e-mail to Brenda Inman and Gregory Maynard in response
22 to receiving the e-mail from Mohit Gulati?

23 A. Yes.

24 Q. And he notes that:

25 "This is probably a marketing issue

1 more so than an actual safety issue, but
2 interesting how we can see the direct
3 effects."

4 Do you see that?

5 A. Yes.

6 Q. And if you go up to Gregory Maynard's
7 response.

8 Do you see that?

9 A. Yes.

10 Q. And he notes that there's conversations
11 ongoing about this and they're reaching out to other
12 UCs.

13 Do you see that?

14 A. Yes.

15 Q. And then he notes the problem.

16 Do you see that?

17 A. Yes.

18 Q. He says:

19 "Participating in Leapfrog surveys is
20 time consuming but does not give us value
21 in terms of insight or driving
22 improvement. The benefit is strictly
23 limited to avoid taking the blackmail-like
24 reputational hits."

25 Do you see that?

1 A. Yes.

2 Q. And that's consistent with the communication
3 he shared with you regarding his feeling about
4 blackmail, if you will --

5 A. Yes.

6 Q. -- is that correct?

7 A. Blackmail-like again. Avoiding making a
8 legal accusation, yes.

9 Q. And in response seeing an e-mail referencing
10 blackmail, Robert Jon Kucejko responds.

11 Do you see that?

12 A. Yes.

13 Q. And he says:

14 "Yeah. I mean, I agree with all
15 that. It truly is marketing blackmail.
16 Can't we sue Leapfrog?"

17 Do you see that?

18 A. Yes.

19 MR. BILLEK: That's the question?

20 THE WITNESS: He asked me if I saw that.

21 MR. BILLEK: Yes.

22 THE WITNESS: I interpret that as -- that,
23 yes, I see that.

24 MR. BILLEK: Okay.

25 THE WITNESS: Clearly I don't agree with

1 suing Leapfrog.

2 MR. BILLEK: There's no question pending.

3 MR. HVIDT: I think we can go off the record
4 for a second.

5 THE VIDEOGRAPHER: Off the record 5:28 p.m. 0

6 (Break taken in proceedings.)

7 THE VIDEOGRAPHER: On the record 5:34 p.m. 0

8 MR. HVIDT: All right. At this time the
9 plaintiffs will reserve their time for further
10 questions and rest.

11 MR. BILLEK: No questions.

12 THE VIDEOGRAPHER: Still on the record.

13 Max, from you, can we get transcript
14 purchase order and video orders, please?

15 MR. BILLEK: By on the record, you mean you
16 want me to tell you that we're ordering it? Yes.

17 THE VIDEOGRAPHER: And is that for video as
18 well?

19 MR. BILLEK: Yes.

20 THE VIDEOGRAPHER: Synced?

21 MR. BILLEK: Synced meaning the video synced
22 with the audio?

23 THE VIDEOGRAPHER: Yeah. Synced to the
24 transcript.

25 MR. BILLEK: Okay. Have you been doing

1 these depositions up until this one? I'm not familiar
2 with how my office has been ordering them.

3 THE VIDEOGRAPHER: I'll put standing order.

4 This concludes today's testimony. Off the
5 record at 5:34 p.m. 0

6 THE COURT REPORTER: They gave me a standing
7 order for Gibson Dunn, but they didn't give me one for
8 Wilson Elser.

9 MR. BILLEK: So, yes, we'll order the same
10 means and methods of producing this as counsel does as
11 well.

12 (Whereupon, the deposition adjourned at 5:35 p.m.)

REPORTER'S CERTIFICATE

---o0o---

STATE OF CALIFORNIA)
) ss.
COUNTY OF YOLO)

I, KATY E. SCHMIDT, a Certified Shorthand Reporter in and for the State of California, duly commissioned and a disinterested person, certify:

That the foregoing deposition was taken before me at the time and place herein set forth;

That PATRICK S. ROMANO, M.D., M.P.H., the deponent herein, was put on oath by me;

That the testimony of the witness and all objections made at the time of the examination were recorded stenographically by me to the best of my ability and thereafter transcribed into typewriting;

That the foregoing deposition is a record of the testimony of the examination.

IN WITNESS WHEREOF, I subscribe my name on this 25th day of September, 2025.

Katy E. Schmidt, RPR, RMR, CRR, CSR 13096

Federal Rules of Civil Procedure

Rule 30

(e) Review By the Witness; Changes.

(1) Review; Statement of Changes. On request by the deponent or a party before the deposition is completed, the deponent must be allowed 30 days after being notified by the officer that the transcript or recording is available in which:

(A) to review the transcript or recording; and

(B) if there are changes in form or substance, to sign a statement listing the changes and the reasons for making them.

(2) Changes Indicated in the Officer's Certificate. The officer must note in the certificate prescribed by Rule 30(f)(1) whether a review was requested and, if so, must attach any changes the deponent makes during the 30-day period.

DISCLAIMER: THE FOREGOING FEDERAL PROCEDURE RULES ARE PROVIDED FOR INFORMATIONAL PURPOSES ONLY.

THE ABOVE RULES ARE CURRENT AS OF APRIL 1, 2019. PLEASE REFER TO THE APPLICABLE FEDERAL RULES OF CIVIL PROCEDURE FOR UP-TO-DATE INFORMATION.

VERITEXT LEGAL SOLUTIONS

COMPANY CERTIFICATE AND DISCLOSURE STATEMENT

Veritext Legal Solutions represents that the foregoing transcript is a true, correct and complete transcript of the colloquies, questions and answers as submitted by the court reporter. Veritext Legal Solutions further represents that the attached exhibits, if any, are true, correct and complete documents as submitted by the court reporter and/or attorneys in relation to this deposition and that the documents were processed in accordance with our litigation support and production standards.

Veritext Legal Solutions is committed to maintaining the confidentiality of client and witness information, in accordance with the regulations promulgated under the Health Insurance Portability and Accountability Act (HIPAA), as amended with respect to protected health information and the Gramm-Leach-Bliley Act, as amended, with respect to Personally Identifiable Information (PII). Physical transcripts and exhibits are managed under strict facility and personnel access controls. Electronic files of documents are stored in encrypted form and are transmitted in an encrypted

fashion to authenticated parties who are permitted to access the material. Our data is hosted in a Tier 4 SSAE 16 certified facility.

Veritext Legal Solutions complies with all federal and State regulations with respect to the provision of court reporting services, and maintains its neutrality and independence regardless of relationship or the financial outcome of any litigation. Veritext requires adherence to the foregoing professional and ethical standards from all of its subcontractors in their independent contractor agreements.

Inquiries about Veritext Legal Solutions' confidentiality and security policies and practices should be directed to Veritext's Client Services Associates indicated on the cover of this document or at www.veritext.com.

1 Thereupon,
2 the following proceedings began at 9:09 a.m.:

3 * * *

4 THE VIDEOGRAPHER: We're now on the video
5 record and the time is 9:09 a.m. This is the
6 video deposition of Regina West taken in the
7 matter of Good Samaritan Medical Center, Inc.
8 et al. Versus The Leapfrog Group.

9 This deposition is being held at 515 North
10 Flagler Drive West Palm Beach Florida on
11 September 25th, 2025. The videographer is
12 Benny Dorlouis, and the court reporter is
13 Barbie Gallo, both in association with Lexitas.

14 Will counsel please announce their
15 appearances for the record.

16 MS. BLAIR: Kim Blair on behalf of the
17 defendant, Leapfrog Group.

18 MR. TAKAGAKI: Marc Takagaki on behalf of
19 the plaintiffs and the witness, and I'm joined
20 by my colleague, Mary Beth Maloney.

21 THE STENOGRAPHER: If you would, raise your
22 right hand, and I'll swear you in.

23 Do you swear or affirm that the testimony
24 you're about to give in this matter will be the
25 truth, the whole truth and nothing but the truth

Gina West
September 25, 2025

Page 7

1 so help you God?

2 THE WITNESS: I do.

3 THE STENOGRAPHER: Thank you.

4 THEREUPON,

5 REGINA WEST,

6 Being by me first duly sworn to tell the whole truth
7 testified as follows:

8 DIRECT EXAMINATION

9 BY MS. BLAIR:

10 Q. Hi, Ms. West. As you know, my name is
11 Kim Blair. I represent the defendant, Leapfrog Group,
12 in this matter.

13 Could you please state and spell your name
14 for the record.

15 A. My name is Regina West, R-e-g-i-n-a,
16 W-e-s-t.

17 Q. And have you ever been deposed before?

18 A. Yes.

19 Q. How many times?

20 A. One time.

21 Q. Okay. And I'm going to go over just a few
22 ground rules with respect to your deposition, many
23 you've probably heard from your own lawyers. But
24 obviously this is a question and answer format, and,
25 therefore, Barbie is taking down everything I say and

Gina West
September 25, 2025

Page 8

1 everything you say, so I'm going to do my best not to
2 talk over your answers, and I'd ask that you not talk
3 over my questions for the sake of the court reporter.

4 Is that okay?

5 A. Yes.

6 Q. It's not an endurance test. If at any time
7 you need to take a break, just ask and we will take as
8 many breaks at whatever time you want. The only caveat
9 being that to the extent a question is pending I'm
10 going to ask that you answer that question before we
11 take a break.

12 Is that okay?

13 A. Yes.

14 Q. Again, Barbie is taking down everything that
15 you say and I say, and so all of your answers must be
16 verbal. She can't take down a shrug of shoulders, an
17 "uh-huh," "huh-uh."

18 Is that okay with you?

19 A. Yes.

20 Q. And from time to time your lawyer will make
21 an objection. Unless he instructs you not to answer,
22 I'm going to ask that you answer the question as asked.

23 Is that okay?

24 A. Yes.

25 Q. And I promise you that from time to time I

Gina West
September 25, 2025

Page 9

1 will ask questions that you might not understand. If
2 you don't understand those questions, please ask me to
3 rephrase them and I will do so. To the extent you've
4 answered any of my questions, I'm going to assume you
5 understood those questions.

6 Is that fair?

7 A. Yes.

8 Q. And I want to start by just kind of asking
9 you to go -- well, let's talk about the deposition you
10 just told me about. You've given testimony one time in
11 a deposition?

12 A. That's correct.

13 Q. Was that in your professional or personal
14 capacity?

15 A. Professional.

16 Q. And how long ago was that deposition?

17 A. Maybe 15, 20 years ago.

18 Q. Okay. And if you can recall from 15, 20
19 years ago, generally what was the type of case that it
20 was?

21 A. It was a med/mal case.

22 Q. And I assume you were not a party to that
23 case individually, correct?

24 A. Correct.

25 Q. And where were you working at the time you

Gina West
September 25, 2025

Page 10

1 gave that deposition?

2 A. In Woodville, Virginia.

3 Q. And I assume at a hospital, correct?

4 A. It was in a long-term care facility.

5 Q. All right. Can you tell me a little bit
6 about your education starting with after high school?

7 A. I received an associate's in nursing. I
8 received a bachelor's degree in healthcare
9 administration and a master's degree in healthcare
10 administration.

11 Q. In what year did you get your master's
12 degree in healthcare administration?

13 A. Approximately 2000.

14 Q. And in terms of your work history did you
15 ever work as a bedside nurse?

16 A. I worked as a home health nurse.

17 Q. And when did you work as a home health
18 nurse?

19 A. Between 1996 and 2002.

20 Q. Okay. So you worked as a home health nurse
21 while you were getting your education?

22 A. It was right after my education and in
23 between a long-term care facility position.

24 Q. Okay. So what year did you graduate with
25 your bachelor's degree?

Gina West
September 25, 2025

Page 11

1 A. 1997.

2 Q. Okay. So can you just describe to me your
3 work history beginning in 2000 after you got your
4 healthcare administration master's degree?

5 A. I served as a senior director of quality;
6 following that, a chief quality officer; an
7 administrative director of quality; and a market
8 director of quality.

9 Q. Okay. So the senior director of quality,
10 where was that at?

11 A. At Carilion New River Valley Medical Center.

12 Q. And where is that located?

13 A. In Christiansburg, Virginia.

14 Q. And how long were you at that job?

15 A. Approximately three years.

16 Q. And where did you go after Carilion?

17 A. I went to Genesis Healthcare System.

18 Q. And what was your title at Genesis?

19 A. Chief quality officer.

20 Q. And is Genesis an acute care facility?

21 A. Yes, it is.

22 Q. And Carilion I think you said? Am I saying
23 that right?

24 A. Is in Zanesville.

25 Q. Was that an acute care center as well?

Gina West
September 25, 2025

Page 12

1 A. Correct.

2 Q. And how long were you at Genesis?

3 A. Approximately six and a half years.

4 Q. And where did you go after Genesis?

5 A. To Tucson, Arizona.

6 Q. And where did you work in Tucson?

7 A. Northwest Medical Center.

8 Q. Again, is that an acute care facility?

9 A. It is.

10 Q. And how long were you at Tucson, in Tucson,

11 Arizona?

12 A. Approximately three years.

13 Q. And what was your job after Northwest

14 Medical Center?

15 A. Yuma, Arizona.

16 Q. It was in Yuma, Arizona?

17 A. In Yuma, yes.

18 Q. Okay. And what was the name of your

19 employer at Yuma?

20 A. Yuma Regional, Y-u-m-a.

21 Q. Oh, "Yuma." I'm not saying it right. Okay.

22 A. Regional Medical Center.

23 Q. And that was in Arizona?

24 A. Correct.

25 Q. And that was an acute care facility as well?

Gina West
September 25, 2025

Page 13

1 A. Correct.

2 Q. And where did you go after Yuma?

3 A. I came to the Palm Beaches.

4 Q. And what was your first job when you came to
5 the Palm Beaches?

6 A. Market director of quality.

7 Q. For what system?

8 A. For Palm Beach Health Network.

9 Q. And what year did you take on that job?

10 A. 2019.

11 Q. Have you had any other jobs for the
12 Palm Beach Health Network other than the market
13 director of quality?

14 A. I have covered individual hospitals as the
15 director of quality.

16 Q. Which individual hospitals have you covered?

17 A. Delray Medical Center, Good Samaritan
18 Medical Center, St. Mary's Medical Center.

19 Q. Those three?

20 A. Yes.

21 Q. And what years were you at Delray as
22 director of quality?

23 A. An approximate, this is an estimation,
24 between 2019, October 2019 through June of 2020.

25 Q. And did you go right from Delray to

Gina West
September 25, 2025

Page 14

1 Good Samaritan?

2 A. I did.

3 Q. So you started at Good Samaritan in 2020?

4 A. Yes.

5 Q. And when did you leave as director of
6 quality for Good Samaritan?

7 A. It was around July of 2023.

8 Q. And since July of 2023 have you been the
9 director of quality at St. Mary's?

10 A. Correct.

11 Q. And if we go back to 2023 when you were at
12 Carilion in Virginia -- was that the name of the
13 hospital?

14 A. Carilion.

15 Q. Carilion. I'm sorry. I can't read my own
16 handwriting.

17 Carilion. Was that the name of the
18 hospital?

19 A. Yes.

20 Q. Was it a system?

21 A. It was part of a system.

22 Q. And you were the senior director of quality
23 for that individual hospital, correct?

24 A. That's correct.

25 Q. Do you know whether or not Carilion when you

Gina West
September 25, 2025

Page 15

1 were there as the senior director of quality
2 participated in the Leapfrog Hospital Survey?

3 A. I don't recall.

4 Q. When you were at Genesis, was that the name
5 of hospital, Genesis?

6 A. Yes.

7 Q. Was that a healthcare system?

8 A. Yes, it was.

9 Q. And were you the chief quality of director
10 of the entire stem?

11 A. Yes.

12 Q. How many hospitals were in that system?

13 A. Originally there were two. That became one.

14 Q. And what were the name of those two
15 hospitals?

16 A. They were both Genesis Healthcare System.
17 They were on different campuses.

18 Q. Okay. And you were there for six and a half
19 years, so at any time during the six and a half years
20 you were with Genesis Healthcare Systems did either of
21 those hospitals participate in the Leapfrog Hospital
22 Survey?

23 A. I don't recall.

24 Q. And then after that you went to Northwest
25 Medical Center, correct?

Gina West
September 25, 2025

Page 16

1 A. Correct.

2 Q. And that's in Tucson, Arizona, correct?

3 A. Correct.

4 Q. And you were there for three years?

5 A. Yes.

6 Q. Northwest Medical Center, is that a
7 standalone hospital or part of a system?

8 A. It's part of a system.

9 Q. And you were the market director -- were you
10 the administrative director of quality, administrative
11 director of quality for that?

12 A. I was also the chief quality officer.

13 Q. For that individual hospital, Northwest
14 Medical Center, correct?

15 A. That's correct.

16 Q. Do you know whether or not Northwest Medical
17 Center participated in the Leapfrog Hospital Survey
18 while you were the chief quality officer?

19 A. I don't recall.

20 Q. And then you went to Yuma Regional Medical
21 Center, correct?

22 A. Yes.

23 Q. And while you were at Yuma -- well, is Yuma
24 Regional a standalone hospital?

25 A. Yes.

Gina West
September 25, 2025

Page 17

1 Q. When you were at Yuma, did Yuma Regional
2 Medical Center participate in the Leapfrog Hospital
3 Survey?

4 A. I don't recall.

5 Q. When you became the market director of
6 quality for Palm Beach Health Network for 2019, all
7 five of the hospitals that make up the Palm Beach
8 Health Network were participating in the Leapfrog
9 Hospital Survey, correct?

10 A. To my recollection, yes.

11 Q. What did you do to prepare for your
12 deposition here today?

13 A. I reviewed policies, looked at outcomes, I
14 looked at emails.

15 Q. Do you recall any of the emails you reviewed
16 in preparation for your deposition today?

17 A. I don't recall the content.

18 Q. Did you review the Leapfrog Hospital Survey
19 in preparation for your deposition here today?

20 A. I did not.

21 Q. Did you review the Leapfrog methodology in
22 preparation for your deposition today?

23 A. I did not.

24 Q. Did you review any news articles related to
25 this lawsuit in preparation for your deposition here

Gina West
September 25, 2025

Page 18

1 today?

2 A. I did not.

3 Q. Did you review any press releases that were
4 issued by Palm Beach Health Network in connection with
5 this lawsuit in preparation for your deposition today?

6 A. I did not.

7 Q. Did you review notes and minutes from QMOR
8 meetings in preparation for your deposition today?

9 A. I did not.

10 Q. Did you review meeting minutes from QIPSC
11 meetings in preparation for your deposition today?

12 A. I did not.

13 Q. And so when you talk about policies, what
14 policies do you recall reviewing in preparation for
15 your deposition here today?

16 A. I recall reviewing standard precautions,
17 medication administration. Those two stand out.

18 Q. And when you say "standard precautions," is
19 that a specific policy that you're talking about?

20 A. Yes.

21 Q. And when you say that you reviewed outcomes,
22 what are you referring to?

23 A. Reviewed outcomes for HAI prevention.

24 Q. Did you review the HCAHPS scores for any of
25 the hospitals in preparation for your deposition today?

Gina West
September 25, 2025

Page 19

1 A. I did not.

2 Q. Did you meet with your -- I do not want to
3 know anything you said with your lawyers, but did you
4 meet with your lawyers to prepare for your deposition?

5 A. I did.

6 Q. How many times did you meet with your
7 lawyers?

8 A. I met three times.

9 Q. When was the first time you met with your
10 lawyer?

11 A. I don't recall the exact date.

12 Q. Approximately how long did, combined, did
13 these three meetings last?

14 A. Approximately twelve hours.

15 Q. Did you review any deposition transcripts
16 from this litigation in preparation for your
17 deposition?

18 A. I did not.

19 Q. Did you review the Complaint that was filed
20 in this action in preparation for your deposition?

21 A. I did not.

22 Q. Did you speak with any of plaintiff's
23 experts in preparation for your deposition?

24 A. I did not.

25 Q. Did you speak with any of the CEOs from any

Gina West
September 25, 2025

Page 20

1 of the five Palm Beach Health Network hospitals in
2 connection with your deposition here today?

3 A. I did not.

4 Q. Did you speak with Maggie Gill in connection
5 with your deposition here today?

6 A. I did not.

7 Q. Did you speak with Ricky Ramirez in
8 connection with your deposition here today?

9 A. I did not.

10 Q. Were you involved in the gathering of
11 documents to be produced in this litigation?

12 A. Yes, I was.

13 Q. And what did you do to gather documents to
14 be produced in this litigation?

15 A. I --

16 MR. TAKAGAKI: I just want to object here
17 just to caution the witness not to reveal
18 certain privileged conversations that --

19 THE WITNESS: Okay.

20 MR. TAKAGAKI: -- you might have had with
21 counsel. She already said that, but I just want
22 to --

23 BY MS. BLAIR:

24 Q. Yes. I don't ever -- just to be clear for
25 this record, the whole time we're here today I don't

Gina West
September 25, 2025

Page 21

1 want to know anything about any discussions you've had
2 with any of your lawyers. So I'm asking about what you
3 did to gather documents responsive to my client's
4 document request in this matter.

5 A. Under the direction of counsel I gathered
6 certain documents and requested them from each
7 hospital. I gathered them for St. Mary's Medical
8 Center and then I uploaded into a share site for
9 counsel.

10 Q. Did you receive the requests for production
11 that were issued in this litigation?

12 A. I did not.

13 Q. And, again, I don't want to know anything
14 about what you said with your attorneys. So did you
15 gather meeting minutes -- well, strike that.

16 Did you gather materials related to QMOR
17 meetings for production in this case?

18 A. Yes, I did.

19 Q. Did you gather documents related to QIPSC
20 meetings in connection with this litigation?

21 A. Yes.

22 Q. Did you search through your emails to
23 produce documents responsive in this litigation?

24 A. No.

25 Q. Did you gather -- for example, we are told

Gina West
September 25, 2025

Page 22

1 that Delray keeps handwashing logs related to their
2 hand hygiene policy. Did you gather the completed hand
3 hygiene logs to be produced in this litigation?

4 MR. TAKAGAKI: Objection to form.

5 A. I did not.

6 BY MS. BLAIR:

7 Q. Did you have any discussions with anyone
8 else at Palm Beach Health Network about gathering
9 documents responsive to the document requests in this
10 litigation?

11 A. I spoke with other hospital leaders in
12 regards to what counsel had requested.

13 Q. And, again, I don't want to know about what
14 your counsel requested. But what other leaders did you
15 speak with in order to gather documents?

16 A. I spoke with CEOs and directors of quality.

17 Q. And did you rely on those CEOs and directors
18 of quality to gather documents specific to their
19 hospital to respond?

20 A. That is -- that is correct.

21 Q. I want to talk a little bit about your role
22 at Palm Beach Health Network specifically. So you were
23 hired in 2019, correct?

24 A. Correct.

25 Q. How did you come to get the job at

Gina West
September 25, 2025

Page 23

1 Palm Beach Health Network? Did you apply? Did you see
2 an ad? Were you recruited? How did that work?

3 A. I don't recall the exact methodology.

4 Q. But you relocated to get to -- from Arizona
5 to Palm Beach, correct?

6 A. Correct.

7 Q. And you don't recall if a recruiter reached
8 out or the hospital reached out?

9 A. I don't really recall.

10 Q. And Yuma Regional Medical Center, was that a
11 Tenet hospital?

12 A. It was not.

13 Q. And so was your employment with Palm Beach
14 Health Network the first employment you had with Tenet
15 hospital?

16 A. That's correct.

17 MR. TAKAGAKI: Objection to the form.

18 A. That's correct.

19 BY MS. BLAIR:

20 Q. Do you recall who you interviewed with at
21 Palm Beach Health Network when you were applying for
22 the job?

23 A. I remember interviewing with Libby Flipppo
24 and some of the other leaders.

25 Q. So let's start with Libby Flipppo. Who is

Gina West
September 25, 2025

Page 24

1 Libby Flipppo?

2 A. The market chief nursing officer.

3 Q. Is she still the market chief nursing
4 officer?

5 A. She is not.

6 Q. And when did she stop being the market chief
7 nursing officer?

8 A. I don't recall.

9 Q. And you said you spoke with Libby Flipppo and
10 other Palm Beach leaders. Who were the other leaders
11 that you recall interviewing with?

12 A. I don't recall.

13 Q. Do you recall whether or not you interviewed
14 with Maggie Gill?

15 A. Yes, I do recall.

16 Q. And was Maggie Gill the president of
17 Palm Beach Health Network in 2019?

18 A. Correct.

19 Q. Do you have any memory that Palm Beach
20 Health Network actually branded as Palm Beach Health
21 Network in 2022?

22 MR. TAKAGAKI: Objection to form.

23 A. I don't recall.

24 BY MS. BLAIR:

25 Q. Okay. But it's your memory that when you

Gina West
September 25, 2025

Page 25

1 began working in the Palm Beach area in 2019 you were
2 working for Palm Beach Health Network?

3 MR. TAKAGAKI: Objection to form.

4 A. That is correct.

5 BY MS. BLAIR:

6 Q. And were your paychecks written from
7 Palm Beach Health Network in 2019?

8 MR. TAKAGAKI: Objection to form.

9 A. I don't get a paycheck.

10 BY MS. BLAIR:

11 Q. Okay.

12 A. It goes direct deposit.

13 Q. Okay. Do you know who the payer is with
14 respect to -- who the payer was in 2019 that was direct
15 depositing your pay?

16 A. Delray Medical Center.

17 Q. And today in 2025 is that still the case?

18 A. That is not the case.

19 Q. Who is the payer of your direct deposit
20 today in 2025 for the pay that you get from your job?

21 A. Good Samaritan Medical Center.

22 Q. What are your job duties as the director of
23 quality for Palm Beach Health Network?

24 A. I'm the market lead.

25 Q. And what does that mean?

Gina West
September 25, 2025

Page 26

1 A. That means I coordinate with the other
2 directors of quality.

3 Q. And what do you coordinate?

4 A. Could be new measures that have been
5 introduced by CMS, meetings and reports.

6 Q. You said new reports?

7 A. Reports.

8 Q. Reports.

9 Do you put together patient safety plans for
10 the network?

11 A. I do not.

12 Q. Does each individual hospital have a patient
13 safety plan?

14 MR. TAKAGAKI: Objection.

15 A. To my knowledge.

16 BY MS. BLAIR:

17 Q. Does Tenet Healthcare home office have a
18 patient safety plan for the network overall that the
19 Palm Beach hospitals follow?

20 MR. TAKAGAKI: Objection to form.

21 A. I don't recall.

22 BY MS. BLAIR:

23 Q. Have you ever been involved in your role as
24 the director of quality at Palm Beach Health Network in
25 putting together patient safety plans for any of the

Gina West
September 25, 2025

Page 27

1 five hospitals?

2 A. I have not.

3 Q. Have you ever had the occasion as the market
4 lead for Palm Beach Health Network to review the
5 patient safety plans for each of the five hospitals?

6 A. Yes, I have.

7 Q. And what is your role in reviewing the
8 patient safety plans for each hospital?

9 A. I coordinate with the patient safety officer
10 to ensure that the plan has been reviewed and updated
11 annually and it has been approved through our governing
12 body.

13 Q. And when you say "our governing body," what
14 are you referring to?

15 A. The hospital's governing body.

16 Q. The individual hospital's governing body,
17 correct?

18 A. Correct.

19 Q. Palm Beach Health Network does not have a
20 governing body, correct?

21 A. Correct.

22 MR. TAKAGAKI: Objection to form.

23 A. That's correct.

24 BY MS. BLAIR:

25 Q. And who, for example, is the patient safety

Gina West
September 25, 2025

Page 28

1 officer at Delray?

2 A. Joe Gerasci.

3 Q. And do you know what the -- are you familiar
4 with what the job duties of the patient safety officer
5 is at each of the individual hospitals are?

6 A. At a very high level.

7 Q. And what is your understanding at a very
8 high level?

9 A. They mitigate risk. They are owners of the
10 patient safety plan. They manage the event recording
11 system. And they manage the complaint process.

12 Q. What is the complaint process?

13 A. If a patient has a concern, they can elevate
14 that to that department.

15 Q. Okay. And so these patient safety officers,
16 do they keep logs of the complaints they get from
17 patients?

18 MR. TAKAGAKI: Objection to form.

19 A. That is correct.

20 BY MS. BLAIR:

21 Q. And then who -- structurally do you know who
22 the patient safety officers for the individual
23 hospitals report to?

24 A. Yes.

25 Q. Who do they report to?

Gina West
September 25, 2025

Page 29

1 A. They report either to the chief nursing
2 officer or to the director of quality.

3 Q. And in the case of, let's just say, Delray,
4 Joe Gerasci, do you know who he report to?

5 A. Yes.

6 Q. Who does he report to?

7 A. Chief nursing officer.

8 Q. Do the patient safety officers put out
9 reports?

10 A. Yes.

11 Q. And do you know what the titles of those
12 reports are?

13 A. I don't recall the title.

14 Q. Do you know what the consistency of the
15 reporting is? Is it monthly weekly quarterly?

16 A. At least quarterly.

17 MR. TAKAGAKI: Objection to form.

18 BY MS. BLAIR:

19 Q. And to the best of your knowledge as the
20 market lead for quality for Palm Beach Health Network,
21 are these reports, at least quarterly reports put out
22 for all five of the hospitals by patient safety
23 officers?

24 A. That's correct.

25 Q. Do you recall whether you gathered those

Gina West
September 25, 2025

Page 30

1 documents in connection with the production request in
2 this matter?

3 A. I don't recall.

4 Q. So if we think about the structure and your
5 role at Palm Beach Health Network, you are the market
6 lead, correct?

7 A. Correct.

8 Q. And all five hospitals have a director of
9 quality, correct?

10 A. Correct.

11 Q. And underneath the director of quality do
12 you know how many reports or what type of reports
13 directors of qualities for each individual hospital
14 have?

15 MR. TAKAGAKI: Objection to form.

16 A. Could you clarify the question?

17 BY MS. BLAIR:

18 Q. Sure.

19 So at least in some circumstances you said
20 patient safety officers would report to the director of
21 quality for an individual hospital, correct?

22 A. Correct.

23 Q. But in the case of Delray he reports to the
24 chief nursing officer, correct?

25 A. Correct.

Gina West
September 25, 2025

Page 31

1 Q. Do you know what -- and let's just take
2 Delray. Let's just be specific so it's not too
3 confusing with all five.

4 With respect to Delray, do you know who,
5 titles, reports to the director of quality for Delray?

6 A. Yes.

7 Q. And who is that?

8 A. There is a quality coordinator, peer review
9 nurse, infection prevention manager. I think that's
10 it.

11 Q. Okay. And then in some cases, and not in
12 Delray, so in other hospitals the patient safety
13 officer would report to the director of quality?

14 MR. TAKAGAKI: Objection to form.

15 A. That only occurs in Palm Beach Gardens
16 Medical Center.

17 BY MS. BLAIR:

18 Q. Okay. And do you know why the patient
19 safety officer reports to the chief nursing officer in
20 the other four hospitals as opposed to the director of
21 quality?

22 MR. TAKAGAKI: Objection to form.

23 A. I don't know. It was set up like that when
24 I got there.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 32

1 Q. So that was not your decision, correct?

2 A. No.

3 Q. How often do you meet with the quality
4 directors at the five hospitals?

5 A. It depends on the need.

6 Q. Do you have any formal meetings like regular
7 formal meetings with the directors of quality at the
8 five hospitals?

9 A. I do.

10 MR. TAKAGAKI: Objection to form.

11 BY MS. BLAIR:

12 Q. Sorry. And how often do those occur?

13 A. Depends on the need. And we have started a
14 meeting with the group chief nursing officers and that
15 is monthly.

16 Q. Okay. And so when you say "we have started
17 meeting with the group of chief nursing officers," do
18 you mean you and the quality directors?

19 A. Correct.

20 Q. And what is the purpose of those meetings?

21 A. To share information, to problem solve if we
22 need to.

23 Q. And what type of information do you share?

24 MR. TAKAGAKI: Objection to form.

25 A. We share outcomes.

Gina West
September 25, 2025

Page 33

1 BY MS. BLAIR:

2 Q. And when you talk about outcomes, are you
3 talking about HAIs?

4 A. Could be one of the things.

5 Q. And what other outcomes could there be?

6 A. The structural measures.

7 Q. Any other type of outcomes?

8 A. There are. They just don't come to mind
9 right now.

10 Q. And when you say "structural measures," what
11 are you referring to?

12 A. New CMS measures.

13 Q. Can you be specific as to the new CMS
14 measures that you're referring to?

15 A. Yes.

16 Q. There are quite a few. What are you
17 referring to?

18 A. There's new age-friendly measure and a new
19 safety measure.

20 Q. Do you talk about outcomes as they relate to
21 like PSI 90s?

22 MR. TAKAGAKI: Objection to form.

23 A. We do that in our QIPSC meetings. Quality
24 improvement patient safety meeting.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 34

1 Q. What about any of the other PSIs, are those
2 discussed at these meetings that you're now having with
3 the directors of quality as well as the chief nursing
4 officers?

5 MR. TAKAGAKI: Objection to form.

6 A. No.

7 BY MS. BLAIR:

8 Q. Do you have any direct reports?

9 A. Yes.

10 Q. And who are your direct reports?

11 A. I have a quality coordinator.

12 Q. Who's the quality coordinator?

13 A. Michael Germain.

14 Q. Anyone else?

15 A. I have a quality manager.

16 Q. And who is that?

17 A. Erica Kerns (phonetic).

18 Q. Is that with K?

19 A. Yes.

20 Q. Anyone else?

21 A. Peer review nurse.

22 Q. And who is that?

23 A. Loraina Mills (phonetic).

24 Q. Anyone else?

25 A. Yes, cardiac program manager.

Gina West
September 25, 2025

Page 35

1 Q. And that is whom?

2 A. Heather Wehmeyer.

3 Q. Anyone else?

4 A. Vascular program manager.

5 Q. And who is that?

6 A. Sarah Saleh.

7 Q. With respect to really the quality
8 coordinator, Michael Germain what are his duties?

9 A. His duties are to coordinate the sepsis
10 bundle compliance, ensuring education and follow-up,
11 validation, making sure abstracted measures having been
12 completed, and he also completes validation of
13 Joint Commission audits.

14 Q. And what about the quality manager,
15 Erica Kerns?

16 A. One of her major duties is ensuring that
17 data has been collected for Joint Commission required
18 measures, the clinical contract measures, follow-up
19 with the dashboard measures and ensuring that that is
20 placed in a presentation, analyzed, recommendations are
21 made, reported up through QIPSC.

22 Q. And when you say "put into a presentation,"
23 is that a slide deck?

24 A. It's a slide deck.

25 Q. And is that slide deck then presented at

Gina West
September 25, 2025

Page 36

1 QIPSC meetings?

2 A. Yes.

3 MR. TAKAGAKI: Objection to form.

4 BY MS. BLAIR:

5 Q. And did you gather those slide decks from
6 '23 to 2025 to be produced in this litigation?

7 A. Yes.

8 Q. And you talked about dashboards a minute
9 ago. Can you tell me what are you referring to when
10 you refer to dashboards?

11 A. Joint Commission required data, clinical
12 contracts, KPIs and some other various department
13 measures.

14 Q. Yeah, my question was bad so I apologize.
15 Is the dashboard called anything?

16 A. It's called a dashboard.

17 Q. Okay. Is -- are there reports that are
18 printed out from the dashboard?

19 MR. TAKAGAKI: Objection to form.

20 A. There are no reports printed from the
21 dashboard.

22 BY MS. BLAIR:

23 Q. Other witnesses have talked about a
24 scorecard. Do you know what that refers to in terms of
25 what you do as the director of quality for Palm Beach

Gina West
September 25, 2025

Page 37

1 Health Network?

2 MR. TAKAGAKI: Objection to form.

3 A. Can you further clarify it?

4 BY MS. BLAIR:

5 Q. Yeah. I am told there is a quality
6 scorecard that exists. And I'm curious whether or not
7 in your role as the quality director of Palm Beach
8 Health Network you are responsible in any way for
9 scorecards?

10 MR. TAKAGAKI: Objection.

11 A. I'm responsible for quality management
12 operations report being given to senior leaders.

13 BY MS. BLAIR:

14 Q. So that's the QMOR report, correct?

15 A. That is correct.

16 MR. TAKAGAKI: Objection to form.

17 THE VIDEOGRAPHER: I'm sorry, Counsel.
18 Something happened to your microphone. I'm not
19 sure if it fell off.

20 MS. BLAIR: Oh, yeah, it's no longer
21 attached.

22 BY MS. BLAIR:

23 Q. So what -- in your area as the quality
24 director of Palm Beach Health Network, are you
25 unfamiliar with the term "scorecard"?

Gina West
September 25, 2025

Page 38

1 MR. TAKAGAKI: Objection to form.

2 A. I'm not unfamiliar with the term
3 "scorecard."

4 BY MS. BLAIR:

5 Q. In your capacity as the director of quality
6 for Palm Beach Health Network what is your
7 understanding of the term "scorecard" as it relates to
8 your job?

9 MR. TAKAGAKI: Objection to form.

10 A. That's broad.

11 BY MS. BLAIR:

12 Q. Okay. Does Palm Beach Health Network
13 produce scorecards for quality?

14 MR. TAKAGAKI: Objection to form.

15 A. If you could further clarify.

16 BY MS. BLAIR:

17 Q. I really can't. Are you familiar with the
18 term "scorecard" as it relates to Palm Beach Health
19 Network quality?

20 MR. TAKAGAKI: Objection to form.

21 A. We don't have a document that's called a
22 "scorecard."

23 BY MS. BLAIR:

24 Q. Okay. Have you ever heard anybody
25 associated in any way with Palm Beach Health Network

Gina West
September 25, 2025

Page 39

1 use the term "scorecard"?

2 MR. TAKAGAKI: Objection to form.

3 A. I haven't.

4 BY MS. BLAIR:

5 Q. Okay. So if people have testified about
6 reviewing scorecards, you don't know what they're
7 referring to, is that fair?

8 A. That's --

9 MR. TAKAGAKI: Objection to form.

10 A. That's correct.

11 BY MS. BLAIR:

12 Q. In terms of the peer review nurse or the
13 peer -- is it a peer review nurse that reports to you?

14 A. Yes.

15 Q. Ms. Mills, correct?

16 A. Yes.

17 Q. What are her job responsibilities?

18 A. She collects information after cases have
19 been referred to her. She completes a timeline, and
20 then she works with the medical director who chairs the
21 peer review committee to review the cases.

22 Q. And what kind of cases are referred to her?

23 A. It would be --

24 MR. TAKAGAKI: Objection.

25 A. It would be any type of request from any --

Gina West
September 25, 2025

Page 40

1 any really any staff member within the hospital to
2 review a case at the provider level.

3 BY MS. BLAIR:

4 Q. And when you say "the provider level," does
5 that mean the nursing level?

6 A. It's a physician or a mid level.

7 Q. And then the quality manager, Erica Kerns,
8 what are her responsibilities?

9 A. She oversees the dashboard and the measures
10 that go into that. She will complete -- she'll gather
11 the information, ensure that it's complete, develop
12 presentations for the Quality Improvement Patient
13 Safety Committee.

14 Q. And what measures go into the dashboard?

15 MR. TAKAGAKI: Objection to form.

16 A. Joint Commission required data, clinical
17 contract, key performance indicators. And there are
18 other ones as well.

19 BY MS. BLAIR:

20 Q. What are the key performance indicators that
21 are put into the dashboard?

22 MR. TAKAGAKI: Objection to form.

23 A. Some of those would include measures that
24 have been reviewed upon by the clinical contract
25 representative and the hospital. Information is

Gina West
September 25, 2025

Page 41

1 gathered and analyzed. Recommendations are made from
2 the data that's collected.

3 BY MS. BLAIR:

4 Q. Is CPOE one of the key performance
5 indicators that's on the dashboard?

6 A. It's not.

7 Q. What about BCMA, is that a key performance
8 indicator on the dashboard?

9 A. It's not.

10 Q. What about hand hygiene, is that a key
11 performance indicator that's on the dashboard?

12 A. It's not.

13 Q. Is CPOE on the dashboard in any capacity
14 even if it's not a key performance indicator?

15 MR. TAKAGAKI: Objection to form.

16 A. No.

17 BY MS. BLAIR:

18 Q. Same question with respect to BCMA, is it on
19 the dashboard in any capacity even if it's not a key
20 performance indicator?

21 A. No.

22 MR. TAKAGAKI: Objection.

23 BY MS. BLAIR:

24 Q. Do you in any way track hand hygiene on
25 behalf of the five hospitals?

Gina West
September 25, 2025

Page 42

1 MR. TAKAGAKI: Objection.

2 A. I don't personally.

3 BY MS. BLAIR:

4 Q. Does anybody that reports to you at
5 Palm Beach Health Network track hand hygiene for the
6 five hospitals?

7 MR. TAKAGAKI: Objection to form.

8 A. No one that reports to me.

9 THE STENOGRAPHER: I'm sorry. I didn't
10 hear.

11 A. No one that reports to me.

12 BY MS. BLAIR:

13 Q. What would you say your purpose as the job
14 as the quality director of Palm Beach Health Network
15 is?

16 MR. TAKAGAKI: Objection to form.

17 A. To ensure that the quality improvement plan
18 exists, that it's reviewed, updated and current, that
19 we're following it, that it's been standardized across
20 the market.

21 BY MS. BLAIR:

22 Q. And when you say "across the market," how do
23 you define "market"?

24 A. The five hospitals in the Palm Beach Health
25 Network.

Gina West
September 25, 2025

Page 43

1 Q. Would you agree with me that one of the
2 purposes of your job as the quality director for Palm
3 Beach Health Network is to ensure patient safety across
4 the five hospitals?

5 MR. TAKAGAKI: Objection to form.

6 A. It's all of our jobs to ensure patient
7 safety.

8 BY MS. BLAIR:

9 Q. Who do you directly report to?

10 A. I report to Ricardo Ramirez in the market
11 role and -- he's the market chief nursing officer.

12 Q. Correct.

13 A. And to the chief nursing officer at
14 St. Mary's Medical Center in my role at the hospital.

15 Q. Who is the chief nursing officer at
16 St. Mary's Medical Center?

17 A. Gerri DeStefano is the interim at the
18 moment.

19 Q. And I understand a new chief nursing officer
20 is about to be hired at St. Mary's, correct?

21 A. Correct.

22 MR. TAKAGAKI: Objection to form.

23 That's okay. Just take a breath so I can
24 object first.

25 MS. BLAIR: Yes. He's going to object to

Gina West
September 25, 2025

Page 44

1 every question.

2 MR. TAKAGAKI: Objection. Object to that.

3 MS. MALONEY: He's going to object to the
4 form of the questions.

5 BY MS. BLAIR:

6 Q. Maggie Gill is the president of PBHN?

7 A. That is correct.

8 Q. And does Ricky Ramirez report to
9 Maggie Gill?

10 A. I am not sure how that relationship is.

11 Q. Okay. Do you know who Maggie Gill reports
12 to?

13 A. Yes.

14 Q. Who does Maggie Gill report to?

15 A. Saum Sutaria.

16 Q. And who is Saum Sutaria?

17 A. President of Tenet.

18 Q. And when you say "president of Tenet," do
19 you mean Tenet health system, correct?

20 A. That's correct.

21 MR. TAKAGAKI: Objection.

22 BY MS. BLAIR:

23 Q. Do you oversee QMOR for Palm Beach Health
24 Network?

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 45

1 A. In some capacity.

2 BY MS. BLAIR:

3 Q. In what capacity do you oversee QMOR for
4 Palm Beach Health Network?

5 A. Once the report has been established I
6 create templates for all five hospitals. We follow a
7 Tenet script to report our outcomes. I schedule
8 meetings with the CEOs and the other senior leaders.
9 And we review the outcomes.

10 Q. Do you run the QMOR meetings?

11 MR. TAKAGAKI: Objection to form.

12 A. I run local meetings.

13 BY MS. BLAIR:

14 Q. And so for QMOR, is it right that there is a
15 QMOR -- and that's a committee. Let me ask this.

16 Is QMOR a committee?

17 A. It is not.

18 Q. Okay. How would you define QMOR?

19 A. As a report.

20 Q. Okay. Are there meetings that occur around
21 the QMOR report?

22 A. Yes.

23 MR. TAKAGAKI: Objection.

24 BY MS. BLAIR:

25 Q. And do those meetings occur at the

Gina West
September 25, 2025

Page 46

1 Palm Beach Health Network level?

2 MR. TAKAGAKI: Objection.

3 A. That's correct.

4 BY MS. BLAIR:

5 Q. And do the meetings around the QMOR report
6 also occur at the individual hospital level?

7 A. Not to my knowledge.

8 Q. And when you say you run the local meetings,
9 what are you referring to there?

10 A. I was referring to the market meetings.

11 Q. And, again, the market being the five
12 hospitals that make up Palm Beach Health Network,
13 correct?

14 A. That's correct.

15 Q. When you say you then have a Tenet script to
16 report the outcomes, what are you referring to when you
17 say "Tenet script"?

18 A. There are certain elements of investigation
19 that we have to go through and ensure that we have
20 reviewed all of the different areas.

21 Q. And does the Tenet script come from the
22 Tenet home office at the healthcare level?

23 MR. TAKAGAKI: Objection to form.

24 BY MS. BLAIR:

25 Q. I'm sorry. The health network level.

Gina West
September 25, 2025

Page 47

1 A. Would you mind repeating that?

2 Q. Sure. When you refer to a Tenet script, is
3 that something created at the Palm Beach Health Network
4 level, or is that something that comes from the home
5 office level?

6 MR. TAKAGAKI: Objection.

7 A. It comes from the home office level.

8 BY MS. BLAIR:

9 Q. And to the best of your knowledge, have you
10 produced all of the QMOR reports for this litigation
11 from 2023 through 2025?

12 MR. TAKAGAKI: Objection to form.

13 A. That is correct.

14 BY MS. BLAIR:

15 Q. And how often do the meetings around the
16 QMOR report occur?

17 MR. TAKAGAKI: Objection to form.

18 A. Mostly monthly.

19 BY MS. BLAIR:

20 Q. Every month?

21 A. Yes.

22 Q. And who is -- who attends the meetings
23 surrounding the QMOR report?

24 MR. TAKAGAKI: Objection.

25 A. Senior leadership.

Gina West
September 25, 2025

Page 48

1 BY MS. BLAIR:

2 Q. And when you say "senior leadership," are
3 you referring to the senior leadership of each of the
4 five hospitals?

5 A. Correct.

6 Q. Does the senior leadership of
7 Tenet Healthcare also attend?

8 MR. TAKAGAKI: Objection.

9 A. Correct.

10 BY MS. BLAIR:

11 Q. And who do you consider to be senior
12 leadership of each of the five hospitals?

13 A. The officers.

14 MR. TAKAGAKI: Objection.

15 A. The officers.

16 BY MS. BLAIR:

17 Q. And those would be any chief officers,
18 correct?

19 MR. TAKAGAKI: Objection. Are you asking
20 just in general who senior leadership is or the
21 ones who attend?

22 MS. BLAIR: I'm asking her in general.

23 MR. TAKAGAKI: In general.

24 BY MS. BLAIR:

25 Q. Who do you consider to be senior leadership

Gina West
September 25, 2025

Page 49

1 of the five hospitals?

2 A. The officers.

3 Q. And when you say "officers," are you
4 referring to anybody that holds a chief officer title?

5 A. Correct.

6 Q. And of those officers, which of those
7 officers attend the QMOR -- the meetings around the
8 QMOR report?

9 MR. TAKAGAKI: Objection.

10 A. They're all invited.

11 BY MS. BLAIR:

12 Q. Are there any regular attendees of these
13 meetings, these monthly meetings surrounding the QMOR
14 report?

15 MR. TAKAGAKI: Objection to form.

16 A. Yes.

17 BY MS. BLAIR:

18 Q. And who are they?

19 A. Maggie Gill, CEOs, the CNOs, CFOs and COOs.

20 Q. When you say "chief nursing officers," would
21 that also include Ricky Ramirez?

22 MR. TAKAGAKI: Objection to form.

23 A. Yes.

24 BY MS. BLAIR:

25 Q. And so just so I'm clear, it's not a

Gina West
September 25, 2025

Page 50

1 specific committee, the Q -- there's no QMOR committee,
2 correct?

3 MR. TAKAGAKI: Objection.

4 A. Correct.

5 BY MS. BLAIR:

6 Q. And QMOR, then, refers just to this report,
7 correct?

8 MR. TAKAGAKI: Objection to form.

9 Are you talking about how you've been
10 referring to it?

11 MS. BLAIR: Yeah, I want to make sure I'm
12 understanding her testimony.

13 BY MS. BLAIR:

14 Q. Right, there's no committee, there's no QMOR
15 committee?

16 A. Correct.

17 Q. But there's a QMOR report, correct?

18 MR. TAKAGAKI: Objection. Asked and
19 answered.

20 A. Correct.

21 BY MS. BLAIR:

22 Q. Thank you.

23 The QMOR report, does that get sent to Tenet
24 health home office?

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 51

1 A. It does not.

2 BY MS. BLAIR:

3 Q. Does the QMOR report get incorporated in any
4 way into the patient safety plans of the five
5 hospitals?

6 MR. TAKAGAKI: Objection. Calls for
7 speculation.

8 A. Not to my knowledge.

9 BY MS. BLAIR:

10 Q. In your view as the director of quality for
11 the market, what do you believe is the purpose of the
12 QMOR report?

13 A. It has strategic measures that hits targets
14 and our current performance to those targets.

15 Q. So is it fair to say that the QMOR report is
16 a way that these five hospitals benchmark themselves
17 against the targets that you have for them?

18 MR. TAKAGAKI: Objection to form.
19 Mischaracterizes her testimony.

20 A. Could you repeat the question?

21 BY MS. BLAIR:

22 Q. Sure. I thought you testified -- this QMOR
23 report has targets in it, correct?

24 A. Correct.

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 52

1 Q. And the QMOR report is an output about how
2 each of these five hospitals is doing with respect to
3 those targets, correct?

4 MR. TAKAGAKI: Objection.

5 A. Correct.

6 BY MS. BLAIR:

7 Q. And so would you agree with me that the QMOR
8 report is a way in which the hospitals are benchmarking
9 themselves as to how they're doing against those
10 targets that are set, correct?

11 MR. TAKAGAKI: Objection.

12 A. We're reviewing how well we're doing against
13 the targets.

14 BY MS. BLAIR:

15 Q. Thank you.

16 Now I want to talk a little bit about QIPSC.
17 What does QIPSC stand for?

18 A. Quality Improvement Patient Safety
19 Committee.

20 Q. So is that actually a committee?

21 A. Yes.

22 Q. And is that committee at the Palm Beach
23 Health Network level?

24 MR. TAKAGAKI: Objection to form.

25 A. It is not.

Gina West
September 25, 2025

Page 53

1 BY MS. BLAIR:

2 Q. So there is five separate QIPSCs for each of
3 the five hospitals that make up the Palm Beach Health
4 Network, correct?

5 A. That's correct.

6 Q. Do you participate in all five of those
7 QIPSC committees?

8 MR. TAKAGAKI: Objection.

9 A. I do not.

10 BY MS. BLAIR:

11 Q. Do those QIPSC committees put out reports
12 that are provided to you as the market lead of quality
13 for Palm Beach Health Network?

14 MR. TAKAGAKI: Objection.

15 A. They do not.

16 BY MS. BLAIR:

17 Q. Do you ever have the opportunity to review
18 reports from the local hospital QIPSC committees?

19 A. Yes.

20 Q. And for what purpose do you review the
21 reports from the local QIPSC committee?

22 MR. TAKAGAKI: Objection.

23 A. I review them at least annually to complete
24 an evaluation.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 54

1 Q. And what are you evaluating?

2 MR. TAKAGAKI: Objection. Are you asking
3 for each individual time she got it what she was
4 looking at?

5 MS. BLAIR: No, I'm asking generally.

6 BY MS. BLAIR:

7 Q. You review it annually, correct?

8 A. Do you mind repeating the question? I'm so
9 sorry.

10 Q. Sure.

11 You told me that you review the individual
12 QIPSC reports annually, correct?

13 A. At least annually.

14 MR. TAKAGAKI: Objection.

15 BY MS. BLAIR:

16 Q. And for what purpose do you review them
17 annually?

18 MR. TAKAGAKI: Objection.

19 A. I review outcomes.

20 BY MS. BLAIR:

21 Q. And when you talk about outcomes, are you
22 talking about HAIs?

23 A. It could be included in the report.

24 Q. Okay. What all outcomes are you referring
25 to when you say you review these for outcomes?

Gina West
September 25, 2025

Page 55

1 MR. TAKAGAKI: Objection.

2 A. We have a reporting calendar. All measures
3 within that reporting calendar gets reported up through
4 QIPSC. I review all the measures from that reporting
5 calendar.

6 BY MS. BLAIR:

7 Q. Do you, after you do your annual review of
8 the QIPSC information that you get, at least annually,
9 I'm not trying to put words in your mouth, do you
10 create any sort of output? Do you create a report
11 yourself based on your review of those reports?

12 MR. TAKAGAKI: Objection.

13 A. Yes, I do.

14 BY MS. BLAIR:

15 Q. And what kind -- what is the name of that
16 report that you put out?

17 MR. TAKAGAKI: Objection.

18 Could you be more specific in terms of what
19 year, which hospital, because this is a very
20 general question right now?

21 BY MS. BLAIR:

22 Q. Ma'am, do you do a report for each
23 individual hospital at least annually when you review
24 the QIPSC reports?

25 A. I do not do individual reports.

Gina West
September 25, 2025

Page 56

1 Q. Okay. So you do one omnibus report for all
2 five hospitals, correct?

3 A. That is correct.

4 MR. TAKAGAKI: Objection.

5 BY MS. BLAIR:

6 Q. And what -- does that report have a name
7 that you put out at least annually with respect, the
8 omnibus report with respect to all five hospitals?
9 Does it have a name?

10 A. It's the Performance Improvement Evaluation
11 for that current year.

12 Q. And that Performance Improvement Evaluation
13 for the current year is the Performance Improvement
14 Evaluation for all five hospitals in one report,
15 correct?

16 MR. TAKAGAKI: Objection.

17 A. That's correct.

18 BY MS. BLAIR:

19 Q. And did you produce the Performance
20 Improvement Evaluation that you did from -- for 2023,
21 2024 in this litigation for production?

22 MR. TAKAGAKI: Objection. Are you asking if
23 she produced it to the defendants in this case?

24 MS. BLAIR: I'm asking if she collected it.

25 BY MS. BLAIR:

Gina West

Page 57

1 Q. Did you collect the performance improvement
2 education [sic] report for '23 and '24 for production
3 in this litigation?

4 MR. TAKAGAKI: Objection.

5 A. I don't remember.

6 BY MS. BLAIR:

7 Q. What data, to the best of your knowledge as
8 the market lead for quality for Palm Beach Health
9 Network, what data are the local hospital QIPSC
10 committees monitoring?

11 MR. TAKAGAKI: Objection.

12 A. Joint Commission required data, clinical
13 contract, key performance indicators, infection
14 prevention indicators and service line reports.

15 BY MS. BLAIR:

16 Q. Do the QIPSC committees have targets for the
17 data that they're collecting? That might be a bad
18 question, so I don't know if -- let me ask it another
19 way.

20 You recall you told me about the QMOR report
21 and there's targets that are in those, in that document
22 about how the hospitals should be performing on certain
23 targets, correct?

24 MR. TAKAGAKI: Objection. Mischaracterizes
25 her testimony.

Gina West
September 25, 2025

Page 58

1 A. Can you repeat your question, please?

2 BY MS. BLAIR:

3 Q. Sure.

4 With respect to the QMOR report that we
5 talked about a little bit earlier, there are targets
6 you told me that are included within that report,
7 correct?

8 A. Correct.

9 Q. Are there targets included within QIPSC
10 reports?

11 A. Yes, that's a component.

12 Q. And who sets those targets?

13 MR. TAKAGAKI: Objection. Calls for
14 speculation.

15 A. Committees approve the targets.

16 BY MS. BLAIR:

17 Q. And when you say the committees, you're
18 referring to each of the five local QIPSC committees?

19 A. Correct.

20 Q. Does Tenet home office approve the targets
21 in any way for the QIPSC committees?

22 MR. TAKAGAKI: Objection. Calls for
23 speculation.

24 A. For the measures that carry over from the
25 quality management operations report.

Gina West
September 25, 2025

Page 59

1 BY MS. BLAIR:

2 Q. So that's a "yes" with respect to the
3 measures that carry over from the quality measures
4 operations report, correct?

5 A. Correct.

6 MR. TAKAGAKI: Objection.

7 BY MS. BLAIR:

8 Q. What about the measures that don't carry
9 over from the quality measures operation report, do you
10 know if Tenet health has any -- Tenet health on the
11 home office level has any involvement in setting those
12 targets?

13 MR. TAKAGAKI: Objection. Calls for
14 speculation.

15 BY MS. BLAIR:

16 Q. I'm asking if you know. I don't want you to
17 speculate.

18 A. Not to my knowledge.

19 Q. Thank you.

20 What types of reports -- as the market lead
21 for quality for Palm Beach Health Network, are you
22 familiar with the reports that the QIPSC committees put
23 out?

24 MR. TAKAGAKI: Objection.

25 A. Yes.

Gina West
September 25, 2025

Page 60

1 BY MS. BLAIR:

2 Q. Do you know what the names of those reports
3 are?

4 A. They vary by report.

5 Q. What are some of names of reports that you
6 can recall as you sit here today?

7 A. Infection prevention would be one. There
8 are more. They're just not popping to memory.

9 Q. It's not a memory test.

10 A. Okay.

11 Q. And we talked about you told me all of the
12 data that you believe they're tracking,
13 Joint Commission data, contract, KPIs, infection
14 prevention indicators, service lines.

15 Are there any other type of data that you
16 can think of that the local hospital QIPSC committees
17 are tracking that you haven't described?

18 MR. TAKAGAKI: Objection.

19 A. There are also risk management reports.

20 BY MS. BLAIR:

21 Q. The reports that are put out by the QIPSC
22 committees, are they all sent to you as the market lead
23 for -- of quality for Palm Beach Health Network?

24 MR. TAKAGAKI: Objection.

25 A. They're not sent to me.

Gina West
September 25, 2025

Page 61

1 BY MS. BLAIR:

2 Q. Do you know who they're sent to?

3 MR. TAKAGAKI: Objection.

4 A. Yes.

5 BY MS. BLAIR:

6 Q. Who are they sent to?

7 A. Erica Kerns.

8 Q. And who is Erica Kerns?

9 A. The quality manager.

10 Q. And Erica Kerns reports to you, correct?

11 MR. TAKAGAKI: Objection.

12 A. That's correct.

13 MR. TAKAGAKI: Are you saying "Eric" or
14 "Erica"? I just, I can't understand. I was
15 asking --

16 MS. BLAIR: I'm saying "Erica." Is it
17 "Eric"?

18 MR. TAKAGAKI: Oh, I thought you were
19 saying -- I thought you said "Eric."

20 BY MS. BLAIR:

21 Q. Oh, I thought it was Erica. It's Erica,
22 yes?

23 A. Yes.

24 Q. Okay. And what does Erica do with these
25 reports.

Gina West
September 25, 2025

Page 62

1 MR. TAKAGAKI: Objection.

2 A. She ensures that they're compiled
3 completely.

4 BY MS. BLAIR:

5 Q. Okay.

6 A. That they contain data analysis and
7 recommendations and that the full report is ready for
8 the quality improvement patient safety meetings.

9 Q. So when you say "the full report is ready
10 for the quality improvement patient safety meetings,"
11 you're referring to those local level meetings,
12 correct?

13 A. That is correct.

14 Q. So she will, Erica Kerns, reviews the data
15 in preparation for each of the individual hospitals for
16 preparation for the QIPSC committee meetings, correct?

17 MR. TAKAGAKI: Objection. Calls for
18 speculation.

19 BY MS. BLAIR:

20 Q. I thought that's what you just told me so I
21 want to make sure.

22 A. Can you repeat?

23 MR. TAKAGAKI: Objection.

24 BY MS. BLAIR:

25 Q. Sure.

Gina West
September 25, 2025

Page 63

1 Erica Kerns puts together -- reviews the
2 information from the QIPSC committees and you said to
3 ensure that a full report is ready for the quality
4 improvement patient safety meetings, correct, that's
5 what you said?

6 MR. TAKAGAKI: Objection.

7 A. Correct.

8 BY MS. BLAIR:

9 Q. And so I'm just trying to get a timeline.
10 So they, the quality -- the QIPSC committees for each
11 local hospital provides data to Erica Kerns that she
12 reviews prior to the local QIPSC meetings?

13 MR. TAKAGAKI: Objection. Calls for
14 speculation.

15 A. That is not correct.

16 BY MS. BLAIR:

17 Q. Okay. And I thought I was missing something
18 so I'm just trying to understand the process and how it
19 works.

20 For what purpose is Erica Kerns reviewing
21 the data from the local QIPSC meetings?

22 MR. TAKAGAKI: Objection. Calls for
23 speculation.

24 BY MS. BLAIR:

25 Q. Are you Erica Kerns' boss?

Gina West
September 25, 2025

Page 64

1 A. I am Erica Kerns' boss.

2 Q. Do you know why she's reviewing the data
3 that you told me about from the QIPSC meeting?

4 A. Yes, I do.

5 Q. Okay. And why is she reviewing that data,
6 for what purpose?

7 A. She coordinates it for St. Mary's Medical
8 Center.

9 Q. Got it.

10 So your involvement is with respect to
11 St. Mary's individually and not on the Palm Beach
12 Health Network level --

13 MR. TAKAGAKI: Objection.

14 BY MS. BLAIR:

15 Q. -- with respect to QIPSC meetings, correct?

16 MR. TAKAGAKI: Sorry.

17 Objection.

18 A. Correct.

19 MR. TAKAGAKI: We've been going for about an
20 hour.

21 MS. BLAIR: Sure, would you like a break?

22 MR. TAKAGAKI: You want to take a break?

23 THE WITNESS: Sure.

24 MS. BLAIR: Sure.

25 THE VIDEOGRAPHER: Off the record, 10:10.

Gina West
September 25, 2025

Page 65

1 (A recess was taken from 10:10 a.m. to 10:26 a.m.)

2 THE VIDEOGRAPHER: Back on the record 10:26.

3 BY MS. BLAIR:

4 Q. Ms. West, are you involved in any way,
5 whether at the Palm Beach Health Network level or at
6 the local level, in the hospital, the plaintiffs
7 hospitals' involvement in ratings for hospitals?

8 MR. TAKAGAKI: Objection.

9 BY MS. BLAIR:

10 Q. Do you know what I mean by "ratings"?

11 A. No. Can you clarify?

12 Q. So, for example, several of these hospitals
13 have awards from Healthgrades®, for example. Are you
14 aware of that?

15 A. Yes.

16 Q. And you're at -- in addition to your duties
17 at Palm Beach Health Network, you also are the quality
18 director for St. Mary's, correct?

19 A. Correct.

20 Q. Are you involved -- so we'll just take with
21 respect to St. Mary's, are you involved in any way in
22 St. Mary's' participation in Healthgrades®, for
23 example?

24 MR. TAKAGAKI: Objection.

25 A. Could you clarify "participation"?

Gina West
September 25, 2025

Page 66

1 BY MS. BLAIR:

2 Q. Sure.

3 Well, in terms of the awards that -- and I
4 want to talk -- we'll talk about St. Mary's
5 specifically.

6 In terms of the Healthgrades® awards that
7 are awarded to St. Mary's, do you as the quality
8 director of St. Mary's have to provide any information
9 to Healthgrades® in order to for St. Mary's to be
10 evaluated for those awards?

11 A. I do not.

12 Q. In connection with the awards, Healthgrades®
13 awards that are awarded to St. Mary's, does
14 Healthgrades® perform any onsite visits to St. Mary's
15 with respect to those awards, to your knowledge?

16 A. I can't speculate.

17 Q. Okay. So you don't know as you sit here
18 today whether that occurs?

19 A. I do not know.

20 Q. Have you ever personally been involved with
21 an onsite inspection by Healthgrades® in connection
22 with any awards that have been awarded to St. Mary's?

23 A. Can you clarify "onsite inspection"?

24 Q. Sure. Well, I don't know if one occurs.

25 But do you know whether Healthgrades® comes

Gina West
September 25, 2025

Page 67

1 to St. Mary's and performs any sort of onsite
2 verification when it is considering St. Mary's for a
3 Healthgrades® award?

4 MR. TAKAGAKI: Objection.

5 A. I don't have knowledge of that.

6 BY MS. BLAIR:

7 Q. Do you know whether or not St. Mary's
8 submits any information whatsoever to Healthgrades® in
9 order for Healthgrades® to evaluate St. Mary's with
10 respect to any of the awards it receives from
11 Healthgrades®?

12 A. I don't have knowledge of that.

13 Q. Do you know whether or not St. Mary's pays
14 Healthgrades® in any way with respect to the awards it
15 receives from Healthgrades®?

16 A. I don't have knowledge of that.

17 Q. Have you ever had any conversations with
18 anyone at St. Mary's related to the Healthgrades®
19 awards that St. Mary's receives?

20 A. Not that I recall.

21 Q. Are you involved in any way, and let's stick
22 with St. Mary's, with respect to any awards that
23 St. Mary's receives from U.S. News & World Report?

24 A. I am not.

25 Q. Are you aware of any -- are you aware of any

Gina West
September 25, 2025

Page 68

1 of the five hospitals that are plaintiffs in this
2 litigation, the Palm Beach Health Network hospitals,
3 engaging in any ratings that require completion of a
4 survey other than Leapfrog?

5 MR. TAKAGAKI: Objection.

6 A. Not that I recall.

7 BY MS. BLAIR:

8 Q. Are you aware of any ratings organizations
9 other than Leapfrog that rate hospitals specifically on
10 patient safety?

11 MR. TAKAGAKI: Objection.

12 A. Would you mind repeating your question?

13 BY MS. BLAIR:

14 Q. Yeah, let me go back.

15 As the director of quality for Palm Beach
16 Health Network and St. Mary's on a local level and
17 based on all your experience in the area of quality, is
18 there a distinction in your mind between quality and
19 patient safety?

20 MR. TAKAGAKI: Objection. Compound.

21 A. Could you further clarify?

22 BY MS. BLAIR:

23 Q. Sure. Would you agree with me that quality
24 and patient safety are not necessarily synonymous?

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 69

1 A. I guess I don't understand your question.

2 BY MS. BLAIR:

3 Q. Sure. What do you consider -- and you've
4 been in the quality area for a very long time, correct?

5 A. Correct.

6 Q. What do you consider to be quality when we
7 use that term as it relates to a chief quality officer
8 or director of quality? What does quality at a
9 hospital mean to you?

10 MR. TAKAGAKI: Objection.

11 A. Positive outcomes.

12 BY MS. BLAIR:

13 Q. Does it include patient safety?

14 MR. TAKAGAKI: Objection.

15 A. It can include patient safety.

16 BY MS. BLAIR:

17 Q. Does it include things other than patient
18 safety?

19 A. I don't understand your question.

20 Q. Okay. And so there have been a lot of
21 articles, peer-reviewed articles discussed by the
22 experts in this case that talk about the difference
23 between patient safety and quality. And I'm just
24 asking you generally as the director of quality, do you
25 see any distinction between quality and patient safety?

Gina West
September 25, 2025

Page 70

1 MR. TAKAGAKI: Objection. Lack of
2 foundation. I don't think you've established
3 with her that there are experts in this case
4 that they've reviewed articles as you've
5 testified to.

6 A. I haven't reviewed those articles.

7 BY MS. BLAIR:

8 Q. Understood.

9 A. We collaborate very well between patient
10 safety and quality, so there's -- there's high
11 collaboration.

12 Q. Understood.

13 And so, in your mind, are there members of
14 the local -- well, let's just talk about the patient
15 safety coordinator. So we talked about a patient
16 safety coordinator previously. Do you recall that?

17 A. I do not.

18 Q. Let's see. What did we call him? Patient
19 safety officer, do you recall that?

20 A. Yes.

21 Q. Okay. So the patient safety officer that is
22 at these hospitals, is he part of the quality team?

23 MR. TAKAGAKI: Objection. Are you talking
24 about each hospital or a single person?

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 71

1 Q. We'll talk about, you told me there's a role
2 called patient safety officer, correct?

3 A. Correct.

4 Q. And the patient safety officer in some cases
5 at Palm Beach Gardens reports to the director of
6 quality, correct?

7 A. That's correct.

8 Q. And in other cases the patient safety
9 officer for the other four hospitals reports to the
10 chief nursing officer, correct?

11 A. Correct.

12 Q. So in terms of Palm Beach Health Network,
13 the patient safety officer, is he considered to be part
14 of the quality team for that hospital that he works?

15 MR. TAKAGAKI: Objection.

16 A. Patient safety officer for the market is
17 Amy Buzzelli. It's a female.

18 BY MS. BLAIR:

19 Q. All right.

20 A. And she is a part of the Quality Improvement
21 Patient Safety Committee at St. Mary's Medical Center.

22 Q. And her name is Amy Buzzelli, correct?

23 A. Buzzelli.

24 MR. TAKAGAKI: Objection.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 72

1 Q. And she's the patient safety coordinator for
2 the market?

3 A. That is not correct.

4 MR. TAKAGAKI: Objection.

5 BY MS. BLAIR:

6 Q. Okay. What is her role?

7 A. She is the patient safety officer.

8 Q. Okay. She's the patient safety officer for
9 Palm Beach Health Network, correct?

10 A. That's correct.

11 Q. And who does she directly report to?

12 A. She directly reports to Ricardo Ramirez for
13 the market.

14 Q. Ricardo Ramirez is a chief nursing officer
15 for the market, correct?

16 A. Correct.

17 Q. So as the director of quality for Palm Beach
18 Health Network, do you make a distinction at all
19 between patient safety and quality?

20 MR. TAKAGAKI: Objection. Vague.

21 A. We work collaboratively together. We have
22 distinct tasks.

23 BY MS. BLAIR:

24 Q. As the director of quality, do you oversee
25 in any way the patient safety officer for the Palm

Gina West
September 25, 2025

Page 73

1 Beach Health Network?

2 A. I don't.

3 Q. Does the patient safety officer,
4 Amy Buzzelli, deal solely with patient safety issues?

5 MR. TAKAGAKI: Objection.

6 A. We collaborate.

7 BY MS. BLAIR:

8 Q. To the best of your knowledge, what are
9 Amy Buzzelli's job duties as the patient safety officer
10 of Palm Beach Health Network?

11 A. She manages the patient safety plan to
12 ensure that it has been maintained, reviewed and
13 approved annually. She manages the event reporting
14 system and she manages the complaint process.

15 Q. What is the event reporting system?

16 A. Anyone who finds an event that occurs
17 outside of what's expected can report it through that
18 system.

19 Q. And that's all five hospitals can report it
20 through that system?

21 A. Yes.

22 Q. And when you say "anyone who has an
23 event" -- "anyone who finds an event," anyone, what do
24 you mean by "anyone"?

25 A. Any staff member, any physician, anyone who

Gina West
September 25, 2025

Page 74

1 has access to the system.

2 Q. And when you talk about the fact that
3 Amy Buzzelli manages the complaint process, what are
4 you referring to? What is the complaint process?

5 A. Anyone can raise an issue to her department.
6 It gets investigated, and the person who may have filed
7 the issue gets a response back.

8 Q. And we talked earlier about the patient
9 safety officers. Is there -- let me ask this. Is
10 there a patient safety officer at each of the five
11 hospitals?

12 A. Yes.

13 Q. Does Amy Buzzelli, in addition to her duties
14 for the Palm Beach Health Network, is she a patient
15 safety officer for any specific hospital?

16 A. Yes.

17 Q. Which one?

18 A. St. Mary's Medical Center.

19 Q. But she is also patient safety officer for
20 the market, meaning the Palm Beach Health Network as
21 well, correct?

22 A. She is collaborator like I am for quality.
23 She does not have direct reports, such as the patient
24 safety officers don't report to her from the other
25 hospitals.

Gina West
September 25, 2025

Page 75

1 Q. And she reports to Ricky Ramirez, correct?

2 MR. TAKAGAKI: Objection.

3 A. That's correct.

4 BY MS. BLAIR:

5 Q. And so is there a separate complaint process
6 for the market separate and distinct from the complaint
7 process for each of the individual hospitals?

8 MR. TAKAGAKI: Objection.

9 A. There's not.

10 BY MS. BLAIR:

11 Q. So when you say she oversees the complaint
12 process, all complaints go to the Palm Beach Health
13 Network level?

14 MR. TAKAGAKI: Objection.

15 A. I'll clarify and say for St. Mary's Medical
16 Center.

17 BY MS. BLAIR:

18 Q. For St. Mary's Medical Center.

19 Okay. So she oversees the complaint process
20 for St. Mary's Medical Center, correct?

21 A. Correct.

22 Q. Does she oversee the complaint process for
23 the Palm Beach Health Network as a whole?

24 A. She does not.

25 Q. But she does have a position as the patient

Gina West
September 25, 2025

Page 76

1 safety officer for the Palm Beach Health Network as a
2 whole?

3 MR. TAKAGAKI: Objection.

4 A. She's the market lead.

5 BY MS. BLAIR:

6 Q. And what does it mean to be the market lead
7 for patient -- as the patient safety officer?

8 A. Other patient safety officers do not report
9 to her.

10 Q. So how does she lead the market as a patient
11 safety officer?

12 MR. TAKAGAKI: Objection.

13 A. She collaborates with the other patient
14 safety officers.

15 BY MS. BLAIR:

16 Q. Does she have any extra duties as the market
17 lead patient safety officer that the patient safety
18 officers at the local hospitals do not have?

19 A. Not to my knowledge.

20 Q. Are you aware that Leapfrog has a hospital
21 survey that it puts out for hospitals to complete?

22 A. Yes, I am.

23 Q. Are you aware of any other organization that
24 puts out a hospital survey related to patient safety
25 other than Leapfrog?

Gina West
September 25, 2025

Page 77

1 MR. TAKAGAKI: Objection.

2 A. Not anything that comes to mind today.

3 BY MS. BLAIR:

4 Q. And CMS -- are you involved in any way at
5 the market level for Palm Beach Health Network in
6 compiling data for CMS?

7 A. I am not.

8 Q. At the St. Mary's Medical Center level are
9 you involved in any way in compiling information for
10 CMS for St. Mary's?

11 A. I am not.

12 Q. Who at St. Mary's is involved in compiling
13 data for CMS for St. Mary's?

14 MR. TAKAGAKI: Objection.

15 A. Could you repeat your question?

16 BY MS. BLAIR:

17 Q. Sure. St. Mary's Medical Center -- or I'm
18 sorry.

19 CMS collects data for individual hospitals.
20 You're aware of that, correct?

21 MR. TAKAGAKI: Objection.

22 A. Yes.

23 BY MS. BLAIR:

24 Q. Are you aware of whether or not St. Mary's
25 is required to submit any data to CMS at CMS's request?

Gina West
September 25, 2025

Page 78

1 MR. TAKAGAKI: Objection.

3 BY MS. BLAIR:

4 Q. Okay. And are you aware of who at
5 St. Mary's collects the data to provide to CMS at CMS's
6 request?

7 A. I am not aware of who collects the data.

8 Q. Who would know who collects the data for --
9 at St. Mary's for CMS?

10 MR. TAKAGAKI: Objection.

11 A. Could you further clarify "data"?

12 BY MS. BLAIR:

13 Q. Sure.

14 For example, CMS collects data on HAIs,
15 correct? Are you aware of that?

16 A. Yes.

17 Q. CAUTI, correct?

18 A. Correct.

19 Q. And CLABSI, for example, correct, CMS
20 collects data, correct?

21 A. Correct.

22 Q. Do you know whether that data is collected
23 from claims --

24 MR. TAKAGAKI: Objection.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 79

1 Q. -- submitted by St. Mary's?

2 MR. TAKAGAKI: Objection.

3 A. I do know.

4 BY MS. BLAIR:

5 Q. Okay. And what do you know about that
6 process?

7 A. It is not collected from claims.

8 Q. How is it collected?

9 A. It's collected --

10 MR. TAKAGAKI: Objection.

11 A. It's collected through data entry into NHSN.

12 BY MS. BLAIR:

13 Q. And do you know who is responsible at
14 St. Mary's for ensuring that the data that is entered
15 for St. Mary's through NHSN is accurate?

16 A. Could you repeat that?

17 Q. Sure.

18 The data -- CMS you told us, you said CMS
19 collects data for St. Mary's through data that is
20 entered through HSN [sic], correct?

21 MR. TAKAGAKI: Objection. Misstates her
22 testimony.

23 BY MS. BLAIR:

24 Q. Let me ask another way.

25 You tell me. How, to your knowledge as the

Gina West
September 25, 2025

Page 80

1 market lead director of quality, does CMS get access to
2 St. Mary's' data that is entered in NHSN?

3 A. We enter it into NHSN.

4 Q. Right. And is there anybody responsible at
5 St. Mary's for doing some sort of audit or verification
6 to make sure that the data that's being entered by
7 St. Mary's into NHSN is accurate?

8 A. Yes.

9 Q. And who is that?

10 A. The market director of infection prevention.

11 Q. And who is the market director of infection
12 prevention?

13 A. Taylor Pool. She is also the director of
14 infection prevention at St. Mary's.

15 Q. She's currently at St. Mary's?

16 A. That's correct.

17 Q. Was she previously at Good Samaritan?

18 A. That is correct.

19 Q. And at Good Samaritan, she was the director
20 of quality, correct?

21 A. Correct.

22 Q. And when did she switch from being the
23 director of quality at Good Samaritan to being the
24 director of infection prevention at St. Mary's, do you
25 know?

Gina West
September 25, 2025

Page 81

1 A. Sometime around January of 2025.

2 Q. Do you know why she switched from being the
3 director of quality at Good Samaritan to being the
4 director of infection prevention at St. Mary's?

5 MR. TAKAGAKI: Objection.

6 A. I don't want to speculate.

7 BY MS. BLAIR:

8 Q. Have you ever had any conversations with her
9 about her move?

10 A. Yes.

11 Q. And what did she tell you about why she
12 moved from Good Samaritan to St. Mary's?

13 A. It was an advancement for her.

14 Q. Does Taylor Pool report to you in any
15 capacity now that she's the director of infection
16 prevention at St. Mary's?

17 A. She does not.

18 Q. Do you collaborate with her, though?

19 A. Yes, I do.

20 Q. So Taylor -- for St. Mary's -- is it -- to
21 the best of your knowledge, is it the case that the
22 directors of infection prevention at each of the five
23 hospitals are responsible for ensuring the accuracy of
24 data that is entered into the NHSN system?

25 A. That is correct.

Gina West
September 25, 2025

Page 82

1 Q. Do you have any involvement -- and let's
2 just start at the local level. Do you have any
3 involvement with respect to marketing for St. Mary's?

4 A. I do not.

5 MR. TAKAGAKI: Objection.

6 BY MS. BLAIR:

7 Q. Do you have any involvement in marketing at
8 the Palm Beach Health Network level?

9 MR. TAKAGAKI: Objection.

10 A. I do not.

11 BY MS. BLAIR:

12 Q. Do you have any involvement in public
13 relations at St. Mary's?

14 MR. TAKAGAKI: Objection.

15 A. I do not.

16 BY MS. BLAIR:

17 Q. Do you have any involvement in public
18 relations at the Palm Beach Health Network level?

19 A. I do not.

20 Q. You were at Delray Medical Center beginning
21 in 2019, correct?

22 A. Correct.

23 Q. And are you aware that Delray Medical Center
24 participated in the Leapfrog Hospital Survey in 2019?

25 A. I am not aware.

Gina West
September 25, 2025

Page 83

1 Q. Are you aware of any participation by Delray
2 in the hospital -- in the Leapfrog Hospital Survey?

3 A. Yes.

4 Q. And what is your knowledge of Delray's
5 participation in the Leapfrog Hospital Survey?

6 MR. TAKAGAKI: Objection.

7 A. I don't recall today outside of we
8 participated.

9 BY MS. BLAIR:

10 Q. Okay. When Delray participated, did you
11 have any involvement in gathering documents responsive
12 to the Leapfrog Hospital Survey?

13 A. I do.

14 Q. And can you tell me a little bit about what
15 your involvement was in compiling documents to respond
16 to the Leapfrog Hospital Survey when you were at
17 Delray?

18 MR. TAKAGAKI: Objection.

19 A. I don't recall.

20 MR. TAKAGAKI: Can you be a little more
21 specific as was she there during the survey
22 submission?

23 BY MS. BLAIR:

24 Q. Ma'am, you were at Delray from 2019 through
25 2020. Through 2020, correct?

Gina West
September 25, 2025

Page 84

1 A. Correct.

2 Q. And you understand that the Leapfrog
3 hospital survey is annual. Do you understand that?

4 A. I do.

5 MR. TAKAGAKI: Objection.

6 BY MS. BLAIR:

7 Q. And do you understand that the submission
8 for the Leapfrog Hospital Survey occurs in or around
9 June every year?

10 A. I do.

11 Q. And tell me, again, when did you start at
12 Delray, what month in 2019?

13 A. October.

14 Q. And so you would not have had any
15 involvement in the Leapfrog Hospital Survey in October
16 of 2000 -- or sorry -- in 2019 since the submission
17 would have already occurred before you got there,
18 correct?

19 A. Correct.

20 Q. And when did you leave Delray, what month?

21 A. On or around June of 2020.

22 Q. Okay. So there would have been only one
23 Leapfrog Hospital Survey while you were at Delray that
24 you were involved with, correct?

25 A. Correct.

Gina West
September 25, 2025

Page 85

1 Q. So with that foundation, what can you tell
2 me about your involvement in Delray's response to the
3 Leapfrog 2020 hospital survey in the time in which you
4 were at Delray?

5 A. Sitting here today, I do not recall the
6 involvement in the 2020 survey.

7 Q. Do you recall even in the most general sense
8 how long it took Delray to complete the Leapfrog
9 Hospital Survey?

10 MR. TAKAGAKI: Objection.

11 A. I don't recall.

12 BY MS. BLAIR:

13 Q. So is it fair to say if I asked you
14 questions, you really have no recollection of how
15 Delray compiled information to respond to the Leapfrog
16 Hospital Survey in 2020; is that correct?

17 A. That's correct.

18 MR. TAKAGAKI: Objection.

19 BY MS. BLAIR:

20 Q. And then you moved on to St. -- to Good --
21 let me make sure I got this right.

22 You moved on to Good Samaritan for 2020
23 through 2023, correct?

24 A. On or around June 2020 through on or around
25 July 2023.

Gina West
September 25, 2025

Page 86

1 Q. Okay. And so is it fair to say that you had
2 no involvement with Good Samaritan's participation in
3 the 2020 Leapfrog Hospital Survey?

4 A. Not that I recall.

5 Q. And you would not have been at
6 Good Samaritan until June of 2020, correct?

7 A. Correct.

8 Q. And do you understand as you sit here today
9 that the Complaint alleges the last year that any of
10 these five hospitals participated in the Leapfrog
11 Hospital Survey was 2021?

12 MR. TAKAGAKI: Objection.

13 A. I am not aware.

14 BY MS. BLAIR:

15 Q. Okay. Are you aware as you sit here today
16 of any participation by Good Samaritan Medical Center
17 while you worked at Good Samaritan Medical Center in
18 the Leapfrog Hospital Survey?

19 A. Yes, I am.

20 Q. And can you tell me what you recall about
21 Good Samaritan's involvement in the Leapfrog Hospital
22 Survey for the 2021 hospital survey?

23 MR. TAKAGAKI: Objection.

24 A. I recall participating, coordinating data
25 and entering data.

Gina West
September 25, 2025

Page 87

1 BY MS. BLAIR:

2 Q. Were you primarily responsible for
3 Good Samaritan's submission of the 2021 Leapfrog
4 Hospital Survey?

5 MR. TAKAGAKI: Objection.

6 A. Yes, that I recall.

7 BY MS. BLAIR:

8 Q. How many people did you have helping you
9 compile data to comply with the 2021 Leapfrog Hospital
10 Survey?

11 MR. TAKAGAKI: Objection.

12 A. I don't remember the exact number. I would
13 estimate around six.

14 BY MS. BLAIR:

15 Q. Do you recall just generally what types of
16 people these six people were that helped you compile
17 information for the Leapfrog Hospital Survey in or
18 around 2021?

19 MR. TAKAGAKI: Objection.

20 A. Yes.

21 BY MS. BLAIR:

22 Q. And who were they?

23 A. It would have been someone in finance,
24 someone in infection control, a contract administrator.
25 That's who I recall.

Gina West
September 25, 2025

Page 88

1 Q. Okay. And do you recall whether in or
2 around 2021 when you were participating for
3 Good Samaritan in the submission of the Leapfrog
4 Hospital Survey how many hours it took to comply with
5 the survey?

6 MR. TAKAGAKI: Objection.

7 A. Yes.

8 BY MS. BLAIR:

9 Q. And what is your recollection of how many
10 hours?

11 A. For myself, just me, between 40 and
12 60 hours.

13 For the other people that were involved,
14 such as contract administrator, it could have taken up
15 to two days, a few hours for the other people.

16 But I will say that in the other hospitals,
17 such as St. Mary's Medical Center, it took many more
18 hours. And it really varies by the person who's
19 completing it, how many times they've completed it
20 before, how quickly they can work. So that number is
21 representative of my time only.

22 Q. And you just talked a little bit about how
23 long it took St. Mary's. Do you know how long it took
24 St. Mary's in your role as the Palm Beach Health
25 Network director of quality?

Gina West
September 25, 2025

Page 89

1 MR. TAKAGAKI: Objection.

2 A. It was reported to me that it took hundreds
3 of hours.

4 BY MS. BLAIR:

5 Q. And who reported that to you?

6 A. The director of quality, market chief
7 nursing officer. We collaborated as a group to do an
8 analysis of the time that we were spending on the
9 survey.

10 Q. Okay. So who was the director of quality
11 for St. Mary's that reported to you the hundreds of
12 hours it took them to comply?

13 A. Carola Kuret.

14 Q. And who was the chief nursing officer at
15 St. Mary's that told you it took hundreds of hours to
16 comply?

17 A. Jessica Miller.

18 Q. And do you recall when this conversation
19 took place?

20 MR. TAKAGAKI: Objection.

21 A. It was during the same time that I completed
22 it for Good Samaritan Medical Center.

23 BY MS. BLAIR:

24 Q. What do you recall about that conversation?

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 90

1 A. I recall that I was told that it was
2 overwhelming, that she couldn't complete her other
3 duties and that we needed to have a conversation about
4 it.

5 BY MS. BLAIR:

6 Q. And when you say "she couldn't complete her
7 other duties," who was the "she" in that sentence?

8 A. Carola.

9 Q. Do you know why it was taking her hundreds
10 of hours? Did she ever say what the issue was on her
11 end at St. Mary's?

12 A. I don't recall.

13 Q. Do you know whether or not Carola told you
14 whether she called the Leapfrog help desk to get help
15 in completing the survey?

16 A. I don't recall.

17 Q. And you also said that you collaborated as a
18 group to do an analysis of the time that we were
19 spending on the survey. Who all was involved in that
20 collaboration?

21 MR. TAKAGAKI: Objection.

22 A. Chief nursing officers, the market chief
23 nursing officer, the directors of quality. And I know
24 that there was some involvement with the CEOs as well.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 91

1 Q. And in or around -- was this an in-person
2 meeting?

3 A. Yes, it was.

4 MR. TAKAGAKI: Objection.

5 THE WITNESS: Oh, sorry.

6 MR. TAKAGAKI: It's okay.

7 BY MS. BLAIR:

8 Q. Do you know when this in-person meeting
9 occurred?

10 A. I don't recall.

11 Q. Do you recall even generally the year it
12 would have occurred?

13 A. It was during the same time that I completed
14 Good Samaritan's --

15 Q. So 2021?

16 A. -- last Leapfrog survey.

17 Q. I didn't mean to cut you off. I apologize.

18 What do you recall specifically about the
19 conversation that occurred with the CNOs, the market
20 CNOs, the directors of quality and maybe some of the
21 CNOs in or around 2021 about continuing to engage in
22 the Leapfrog survey?

23 MR. TAKAGAKI: Objection.

24 And sorry. When you use conversation there,
25 are you speaking like generally over time, or

Gina West
September 25, 2025

Page 92

1 are you talking about a specific day?

2 BY MS. BLAIR:

3 Q. I thought you testified that you had a
4 meeting, correct?

5 MR. TAKAGAKI: Objection.

6 A. We did.

7 BY MS. BLAIR:

8 Q. Okay. I'm talking about that meeting. What
9 do you recall about the conversations that occurred at
10 that meeting in or around 2021 that involved the CNOs,
11 the market CNO, the director of quality and maybe some
12 of the CEOs with respect to continuing participation in
13 the Leapfrog survey?

14 A. Very broadly, I remember that there was
15 concern about the amount of time that it was taking.
16 St. Mary's in general was taking the longest. It was
17 taking some of the other directors of quality also like
18 long periods of time. And the concern was that it was
19 taking them away from other things that they would
20 coordinate, such as stroke surveys, some of the other
21 certification and accreditation tasks that we had.

22 Q. Anything else that you remember broadly
23 about the conversation that occurred at this meeting
24 sometime in 2021 regarding the decision to stop
25 participating in the Leapfrog Hospital Survey?

Gina West
September 25, 2025

Page 93

1 A. Not that comes to mind right now.

2 Q. When the meeting ended, was there a
3 consensus at the group about whether or not the five
4 hospitals that make up the Palm Beach Health Network
5 were going to continue to engage in the Leapfrog
6 Hospital Survey?

7 MR. TAKAGAKI: Objection.

8 A. In that meeting a recommendation was made.
9 It was supported. And a determination was made to stop
10 participating.

11 BY MS. BLAIR:

12 Q. Do you recall who made the recommendation?

13 A. The market chief nursing officer in
14 agreement with the other chief nursing officers and the
15 other directors of quality.

16 Q. So that the market chief nursing officer at
17 the time of this meeting in 2021, was that
18 Ricky Ramirez?

19 A. It was Libby Flipppo.

20 Q. Do you recall any -- anything that
21 Libby Flipppo said in connection with her recommendation
22 that the five hospitals that make up the Palm Beach
23 Health Network ceased participating in the Leapfrog
24 Hospital Survey?

25 A. I don't recall her exact words.

Gina West
September 25, 2025

Page 94

1 Q. Understood. I don't expect you to recall
2 her exact words.

3 Do you recall generally what -- anything
4 that Libby Flipppo said regarding her recommendation
5 that the five hospitals stop participating in the
6 Leapfrog Hospital Survey?

7 A. I don't recall.

8 Q. Do you recall whether the recommendation
9 that Ms. Flipppo was making was along the same lines
10 that you described that there was a concern about the
11 amount of time it was taking to do the survey and the
12 time that it was taking away from other things like
13 certifications? Was that the basis of her
14 recommendation based on your best memory?

15 A. It is.

16 MR. TAKAGAKI: Objection.

17 A. It is.

18 BY MS. BLAIR:

19 Q. Do you recall anything that anyone else said
20 at this meeting in or around 2021 regarding the
21 decision not to engage in the Leapfrog Hospital Survey?

22 A. Just very broadly --

23 Q. Yes.

24 A. -- I remember Carola discussing the hundreds
25 of hours that it was taking to complete it. And I

Gina West
September 25, 2025

Page 95

1 remember the other DCQIs discussing how long it was
2 taking them to complete it just in general.

3 Q. Understood. Anything else you remember?

4 A. No.

5 Q. Do you recall when you engaged in the
6 Leapfrog Hospital Survey for Good Samaritan in 2021
7 whether the HAIs for Good Samaritan in or around that
8 time, the CMS data for HAIs, was below the national
9 average for Good Samaritan?

10 A. I don't --

11 MR. TAKAGAKI: Objection.

12 A. I don't recall that time period.

13 BY MS. BLAIR:

14 Q. Do you recall whether in or around 2021 when
15 you were gathering data to respond to the Leapfrog
16 Hospital Survey, whether Good Samaritan had in place a
17 hand hygiene policy?

18 A. To the best of my recollection, yes.

19 Q. Do you recall when you were gathering
20 documentation for Good Samaritan to comply with the
21 2021 Leapfrog Hospital Survey whether Good Samaritan
22 had completed logs of observations related to hand
23 hygiene?

24 A. I don't recall.

25 Q. Do you recall when you were working on

Gina West
September 25, 2025

Page 96

1 responding to the 2021 Leapfrog Hospital Survey for
2 St. Mary's whether St. Mary's engaged in the CPOE test
3 required by the Leapfrog Hospital Survey?

4 A. Yes, I recall.

5 Q. And what do you recall about that test?

6 A. I recall that we completed that as a
7 multi-disciplinary team.

8 Q. Do you recall what the results were?

9 A. I recall that we passed.

10 Q. Do you recall how long it took to do the
11 CPOE test?

12 A. I don't recall.

13 Q. Do you recall that it was a two-hour test
14 required that -- do you recall that the test requires
15 an interdisciplinary team and it takes about two hours?

16 MR. TAKAGAKI: Objection.

17 A. I recall that it requires a
18 multi-disciplinary team, but I do not remember the time
19 span.

20 BY MS. BLAIR:

21 Q. Do you know whether today in your role as
22 the director of quality for Palm Beach Health Network
23 any of the five hospitals engage in an
24 interdisciplinary test of their CPOE systems on a
25 regular basis?

Gina West
September 25, 2025

Page 97

1 A. I don't have knowledge.

2 Q. Have you ever been involved in an
3 interdisciplinary test of St. Mary's CPOE system?

4 A. I have not.

5 Q. When -- and we'll just stick with
6 Good Samaritan since you remember the participation in
7 the Leapfrog hospital survey then.

8 Were you the quality director of
9 Good Samaritan when you were there from 2020 to 2023?

10 A. Correct.

11 Q. Do you -- in your role as the quality
12 director for Good Samaritan from 2020 to 2023, and I
13 want to specifically talk about 2020 through 2021, did
14 Good Samaritan derive any benefit from participating in
15 the Leapfrog Hospital Survey?

16 MR. TAKAGAKI: Objection.

17 A. Not to my knowledge.

18 BY MS. BLAIR:

19 Q. To your knowledge as the director of quality
20 for Palm Beach Health Network today, do you know
21 whether or not the five hospitals that make up
22 Palm Beach Health Network use Leapfrog standards for
23 benchmarking in any way?

24 MR. TAKAGAKI: Objection. Vague.

25 A. Not to my knowledge.

Gina West
September 25, 2025

Page 98

1 BY MS. BLAIR:

2 Q. Do you know as you sit here today whether
3 any of the five hospitals use or have used Leapfrog
4 standards for determining whether or not any of their
5 structural or process measures are operating
6 sufficiently for patient safety?

7 MR. TAKAGAKI: Objection. Vague.

8 A. Will you clarify your question, please?

9 BY MS. BLAIR:

10 Q. Sure.

11 Are you aware as you sit here today whether
12 any time prior to today any of the five hospitals that
13 make up Palm Beach Health Network have used the
14 Leapfrog standards to benchmark whether their patient
15 safety standards are good?

16 MR. TAKAGAKI: Objection. Vague. Asked and
17 answered.

18 A. Nothing comes to mind right now.

19 BY MS. BLAIR:

20 Q. Okay. Do you at any time that you have been
21 the quality director for Palm Beach Health Network,
22 have you become aware that Leapfrog charges for
23 consulting services?

24 A. Can you repeat it, please?

25 Q. Yes. Do you have any understanding as you

Gina West
September 25, 2025

Page 99

1 sit here today that Leapfrog charges for consulting
2 services?

3 A. Yes.

4 Q. And what consulting services do you believe
5 that Leapfrog charges for?

6 A. It's a voluntary service, but in order to
7 receive the consulting services, I understand that
8 there is a fee.

9 Q. And what consulting -- what do you -- what
10 do you understand the consulting services to be?

11 A. It would be a request for services to help
12 improve the grade. I understand that Leapfrog also
13 charges for webinars related to their grades. And I
14 understand there are other consultants on behalf of
15 Leapfrog that charge for consulting services.

16 Q. Do you know who these other -- do you know
17 who these other consultants on behalf of Leapfrog are
18 that charge for consulting services?

19 A. I can't give the name today because I don't
20 remember it, but I have known it in the past.

21 Q. Okay. And how much do you think these other
22 consultants on behalf of Leapfrog charge?

23 MR. TAKAGAKI: Objection.

24 A. I don't know how much they charge. So they
25 reach out to me, say, on behalf of Leapfrog, we can

Gina West
September 25, 2025

Page 100

1 consult with you to improve your grade.

2 BY MS. BLAIR:

3 Q. And you don't know who that is?

4 A. I don't recall.

5 MR. TAKAGAKI: Objection.

6 BY MS. BLAIR:

7 Q. Do they send you emails?

8 A. That is correct.

9 Q. Have you produced those emails in this
10 litigation?

11 MR. TAKAGAKI: Objection.

12 Again, are you asking if she has or the
13 plaintiffs have?

14 BY MS. BLAIR:

15 Q. I'm asking you, have you produced those to
16 your lawyers in this litigation?

17 MR. TAKAGAKI: Objection.

18 A. I have not personally that I recall.

19 BY MS. BLAIR:

20 Q. So you believe there are consultants that
21 send you emails telling you, on behalf of Leapfrog,
22 saying that they can help you improve your grade if you
23 pay them consulting fees?

24 MR. TAKAGAKI: Objection. Asked and
25 answered.

Gina West
September 25, 2025

Page 101

1 A. It was at least one consultant.

2 BY MS. BLAIR:

8 BY MS. BLAIR:

9 Q. Is there anything I could show you that
10 would refresh your recollection as to the name of the
11 consultant that sent you an email on behalf of Leapfrog
12 saying that in exchange for paying consulting services
13 they could help you improve your grade?

14 MR. TAKAGAKI: Objection.

15 A. You have the email.

16 BY MS. BLAIR:

17 Q. With respect to the services that you
18 believe Leapfrog itself -- so let's put aside this
19 consultant's email. To the extent you believe there
20 are services that Leapfrog charges hospitals in
21 exchange -- do you believe -- well, strike that.

22 Do you believe that Leapfrog provides
23 consulting services to hospitals for money in exchange
24 for better grades?

25 A. Yes.

Gina West
September 25, 2025

Page 102

1 MR. TAKAGAKI: Objection.

2 BY MS. BLAIR:

3 Q. And what is that based on?

4 A. Years prior, and I don't have an exact date,
5 but years prior in another organization where I was
6 involved with collecting data for Leapfrog I reviewed
7 the entire website to see what was available, you know,
8 to determine if there was any extra information, and I
9 found that there was a consulting component to it.
10 That's what I remember.

11 Q. And what organization was that that you were
12 compiling Leapfrog data for?

13 A. I don't recall.

14 Q. Was it one of those places of employment
15 that we went through at the beginning of your
16 deposition?

17 A. It would have been.

18 Q. So at least one of those places that you
19 worked for prior to Palm Beach Health Network did
20 participate in the Leapfrog Hospital Survey?

21 A. Yes.

22 Q. Do you know, was it just one or are there
23 others?

24 A. I don't recall.

25 Q. And what do you recall about participating

Gina West
September 25, 2025

Page 103

1 in the Leapfrog Hospital Survey for that organization
2 that you were just telling me about?

3 A. Beyond the consulting, I don't have a recall
4 for it.

5 Q. Would you have been responsible in your role
6 at that organization for compiling the data that was
7 submitted to Leapfrog?

8 A. I don't remember my exact role at the time.

9 Q. Okay. But your role did involve at least
10 looking at the Leapfrog website in some way?

11 A. Correct.

12 Q. And you recall coming across something
13 wherein you believe Leapfrog charged hospitals for
14 consulting services in order to give them a better
15 grade. That's your recollection?

16 MR. TAKAGAKI: Objection.

17 A. I do.

18 MR. TAKAGAKI: Asked and answered.

19 BY MS. BLAIR:

20 Q. Have you had a chance to look at the
21 Leapfrog website since this lawsuit has been filed to
22 determine whether that is indeed case?

23 A. I have not.

24 THE VIDEOGRAPHER: Sorry to interrupt,
25 Counselor. We need to break for a media change.

Gina West
September 25, 2025

Page 104

1 MS. BLAIR: Yes, we can do it right now.

2 THE VIDEOGRAPHER: This is the end of media
3 unit one. We are going off the record for a
4 media change at 11:14.

5 (A recess was taken from 11:14 a.m. to 11:32 a.m.)

6 THE VIDEOGRAPHER: This is media unit number
7 two. The time is 11:32. We're back on the
8 record.

9 BY MS. BLAIR:

10 Q. Ms. West, right before the break, we had
11 been talking about the consulting services that you
12 believe Leapfrog charges for. And I want to set aside
13 the email that you believe you received from a
14 consultants on behalf of Leapfrog that stated that you
15 could pay that consultant a fee for a better grade.
16 And I want to focus on the information on the Leapfrog
17 website that you reviewed that you believe talks about
18 the fact that Leapfrog charges for consulting services.
19 Okay?

20 A. (Nodding head).

21 Q. Do you recall the names of any of these
22 consulting services that Leapfrog allegedly offers in
23 exchange for better grades?

24 A. I don't remember.

25 MS. BLAIR: I'm going to hand you what we're

Gina West
September 25, 2025

Page 105

1 going to mark as Exhibit A.

2 THE STENOGRAPHER: Do you mind if we use
3 numbers?

4 MS. BLAIR: Oh, I'm sorry. Yes. 1. We've
5 been using numbers.

6 (Defendant's Exhibit Number 1 for i.d.)

7 BY MS. BLAIR:

8 Q. My apologies, Ms. West. I'm going to hand
9 you what we are now marking as West Exhibit 1, and
10 you'll see this is a printout from the Leapfrog website
11 dated this morning, 9-25-25.

12 Do you see at the top it says "become a
13 Leapfrog certified coach"? Do you see that?

14 A. I do.

15 Q. Does this refresh your recollection of
16 whether or not this is one of the consulting services
17 that you believe Leapfrog offers to hospitals in
18 exchange for a fee to receive a better grade?

19 A. It doesn't because this is referencing 2024
20 and 2025 and I haven't reviewed it.

21 Q. Okay. Have you ever heard this "become a
22 Leapfrog certified coach" before?

23 A. I have not.

24 Q. When you look at this document about the
25 certified coaching, this does not refresh your

Gina West
September 25, 2025

Page 106

1 recollection as to whether or not this is the -- these
2 are the consulting services that you're referring to
3 that Leapfrog offers for a fee?

4 A. No.

5 Q. Okay. And we'll go to Exhibit 2.

6 (Defendant's Exhibit Number 2 for i.d.)

7 BY MS. BLAIR:

8 Q. Ms. West, I've now handed you what we've
9 marked West Exhibit 2. And you'll see, again, this is
10 printed off of the Leapfrog website on September 24th,
11 2025. And it says, "2025 Deep Dive Sessions."

12 Do you see that?

13 A. Yes.

14 Q. If you wouldn't mind taking a moment to look
15 at this and tell me if this refreshes your recollection
16 in any way as to whether or not these are the services
17 that you are referring to that Leapfrog offers to
18 hospitals in exchange for a better grade?

19 A. It is not.

20 Q. Okay. And so you believe that somewhere on
21 the Leapfrog -- do you believe that Leapfrog is
22 currently as we sit here today in September of 2025
23 offering consulting services to hospitals for a fee in
24 exchange for better grades?

25 A. Yes.

Gina West
September 25, 2025

Page 107

1 Q. Okay. And is it your belief that that
2 offering of consulting services in exchange for a fee
3 for better grades is currently advertised on the
4 Leapfrog website somewhere?

5 A. I don't know if it's advertised on the
6 Leapfrog website. However, I've received emails such
7 as the webinar where you would have to pay to like get
8 it -- the additional information.

9 Q. And so it's your understanding that Leapfrog
10 offers paid for webinars that hospitals can pay for in
11 exchange for learning how to get a better grade?

12 A. Correct.

13 MR. TAKAGAKI: Objection.

14 BY MS. BLAIR:

15 Q. Is it your understanding that those
16 webinars -- well, what is your understanding? Is it
17 related to the safety grade or the survey
18 participation?

19 A. So my understanding was from years back.

20 Q. Okay.

21 A. And unless it's changed, my opinion hasn't
22 changed because I don't know that it's changed.

23 Q. Okay.

24 A. If that makes sense.

25 Q. That makes sense. And I'm just trying to

Gina West
September 25, 2025

Page 108

1 get a sense. So what you recall about years back was a
2 webinar?

3 MR. TAKAGAKI: Objection. Misstates her
4 testimony.

5 A. The webinar -- the webinar is current.

6 BY MS. BLAIR:

7 Q. Okay.

8 A. From prior years back I reviewed the
9 information on the consulting fees.

10 Q. Okay. And but I want to make sure I
11 understand your testimony. So there's the reviewing of
12 consulting fees years back, correct?

13 A. Correct.

14 Q. And then your belief that Leapfrog charges
15 for consulting services in exchange for a fee for a
16 better grade is also based on webinars that are
17 current, is that a fair recitation of your testimony?

18 A. Emails received regarding webinars where
19 there's a charge.

20 Q. And I want to focus just on the webinars
21 where there's a charge. Do you have any recollection
22 of whether those webinars were related to the survey or
23 the hospital safety grade?

24 A. I don't recall. But if you have a document,
25 I'm happy to look at it.

Gina West
September 25, 2025

Page 109

1 Q. I don't.

2 Do you recall how much the fee was for
3 engaging in the webinar?

4 MR. TAKAGAKI: Objection.

5 A. It was around \$350.

6 BY MS. BLAIR:

7 Q. Okay. And did you save those emails?

8 A. I believe so.

9 Q. Okay. And do you believe those emails were
10 produced in this litigation? I'm sorry. Do you
11 believe you collected those emails and produced them to
12 your counsel for production in this litigation?

13 A. I don't recall.

14 Q. Do you recall having any conversations with
15 anyone associated with Palm Beach Health Network at any
16 time up until today outside the presence of your
17 counsel about your belief that Leapfrog charges
18 hospitals consulting fees in exchange for better
19 grades?

20 A. I don't recall.

21 Q. Do you recall ever having a conversation
22 with Sheri Montgomery at any time outside the presence
23 of your counsel about your belief that Leapfrog charges
24 hospitals consulting fees in exchange for better
25 grades?

Gina West
September 25, 2025

Page 110

1 A. I recall having a conversation with
2 Sheri Montgomery in regards to what Leapfrog charges
3 for, what I know they charged for and what I don't know
4 that they charged for.

5 Q. Okay. And tell me about that conversation.
6 What do you recall you told Sheri Montgomery about what
7 they charge for, what they don't charge for and what
8 you don't know they charge for?

9 A. I did not think that they, that Leapfrog
10 charged to enter data on the website. I do recall that
11 we had a discussion about the licensing fee and the use
12 of the logo, the amount of money that it was taking for
13 employees to complete, hours and time and money to
14 complete the survey. And at that time I think that was
15 all.

16 Q. Okay. And when you say "licensing fee and
17 use of logo," what do you mean by "licensing fee"?

18 A. To use the logo.

19 Q. So that's all one, licensing fee and use of
20 logo is the licensing fee to use the logo?

21 A. Correct.

22 Q. And are you aware of whether or not any of
23 the five hospitals that make up the Palm Beach Health
24 Network pay a licensing fees to use the Healthgrades®
25 logo?

Gina West
September 25, 2025

Page 111

1 A. I'm not aware.

2 Q. And so when you said there's no charge for
3 entering data, what did you mean by that?

4 A. To put it into the website.

5 Q. And so is it fair to say that there's no
6 charge for completing the survey?

7 MR. TAKAGAKI: Objection.

8 A. I wouldn't necessarily say that because
9 there's time and energy, all the time that goes into
10 completing the survey, the time that goes into prepping
11 for CPOE, completing CPOE. You know, that has monetary
12 value.

13 BY MS. BLAIR:

14 Q. Of course. And so I want to separate that
15 out. I want to ask about charges that Leapfrog charges
16 for. So set aside time and energy to complete the
17 survey.

18 Is it fair to say that Leapfrog does not
19 charge a hospital a fee that comes back to Leapfrog for
20 completing the survey?

21 A. It's fair to say that we're not charged for
22 entering data into the website.

23 Q. And even if you don't participate in the
24 Leapfrog survey, would you agree with me that you can
25 go on the website and print out for free the survey

Gina West
September 25, 2025

Page 112

1 itself and use it in any form you want?

2 A. Yes, I am aware of that.

3 Q. And are you aware of whether or not after
4 these five hospitals, the five hospitals that are
5 plaintiffs in this litigation stopped participating in
6 the Leapfrog Hospital Survey, whether they used the
7 Leapfrog Hospital Survey in any way from 2021 to
8 present day?

9 MR. TAKAGAKI: Objection. Vague.

10 A. Not that I recall.

11 BY MS. BLAIR:

12 Q. Do you know whether or not any hospital that
13 you ever have been associated with has paid for the
14 licensing use of the Leapfrog logo?

15 A. I'm not aware.

16 Q. Do you know whether St. Mary's has ever paid
17 for the use of the Leapfrog logo?

18 A. I'm not aware.

19 Q. While you were the director of quality for
20 Good Samaritan and you had some responsibility for
21 completing the 2021 hospital survey for Good Samaritan,
22 did Good Samaritan accurately report its data to the
23 Leapfrog survey?

24 MR. TAKAGAKI: Objection.

25 A. To my knowledge.

Gina West
September 25, 2025

Page 113

1 BY MS. BLAIR:

2 Q. Are you aware of any hospital that
3 purposefully overinflates its survey results on the
4 Leapfrog Hospital Survey?

5 MR. TAKAGAKI: Objection.

6 A. I'm not aware.

7 BY MS. BLAIR:

8 Q. When Good Samaritan participated in the
9 Leapfrog survey in 2021, was there staff dedicated to
10 just the Leapfrog Hospital Survey?

11 MR. TAKAGAKI: Objection.

12 A. There weren't staff just dedicated for
13 Leapfrog survey.

14 BY MS. BLAIR:

15 Q. When Good Samaritan engaged in the
16 Leapfrog Hospital Survey in 2021, were there physicians
17 that were -- did time get taken away from physicians to
18 complete the Leapfrog Hospital Survey?

19 MR. TAKAGAKI: Objection. Vague.

20 A. Yes.

21 BY MS. BLAIR:

22 Q. Okay. And in what way do you believe that
23 time was taken away from physicians to complete the
24 hospital -- the Leapfrog Hospital Survey at
25 Good Samaritan in 2021?

Gina West
September 25, 2025

Page 114

1 A. With CPOE tests.

2 Q. And, again, do you know how long that CPOE
3 test took?

4 MR. TAKAGAKI: Objection. Asked and
5 answered.

6 A. I don't recall.

7 BY MS. BLAIR:

8 Q. Other than physicians being involved in the
9 CPOE test for the Leapfrog Hospital Survey in 2021
10 while you were at Good Samaritan, do you know of any
11 other physician time that was taken away from the
12 physician to complete the hospital survey?

13 A. Just broadly I'll say the physician advisor
14 collaborated with us on the CPOE prep, the test and the
15 data review.

16 Q. Okay.

17 A. But I don't know how much time they spent.

18 Q. And other than the CPOE measure, are you
19 aware of any physician time in 2021 while you were
20 associated with St. Mary's in completing the Leapfrog
21 Hospital Survey, any other physician time that was
22 taken away to complete any other measures on the
23 Leapfrog Hospital Survey?

24 MR. TAKAGAKI: Objection.

25 A. I wasn't at St. Mary's.

Gina West
September 25, 2025

Page 115

1 BY MS. BLAIR:

2 Q. I'm sorry. Good Samaritan. Thank you.

3 A. Could you repeat your question?

4 Q. Sure.

5 So you've told me, correct, you told me
6 about physician time that was taken away for a
7 physician to engage in the CPOE measure, correct?

8 A. Correct.

9 Q. Are you aware of any other physician time
10 other than the CPOE that was spent in 2021 at
11 St. Mary's -- at Good Samaritan -- sorry -- at
12 Good Samaritan in completing the Leapfrog Hospital
13 Survey?

14 A. Not that I recall.

15 Q. And then let's do the same thing with
16 respect to nurses. Are you aware of nursing time that
17 was taken away in 2021 when you were completing the
18 Leapfrog Hospital Survey for Good Samaritan that was
19 taken away to help complete the Leapfrog Hospital
20 Survey?

21 MR. TAKAGAKI: Objection.

22 A. Not that I recall specifically.

23 BY MS. BLAIR:

24 Q. What about generally?

25 A. Directors of quality are nurses, so I'm

Gina West
September 25, 2025

Page 116

1 trying to make the distinction. Not that I recall.

2 Q. How long does it take -- and let's just talk
3 about your involvement at St. Mary's now present day.

4 How many hours does it take to prepare for
5 and engage with Joint Commission on an annual basis?

6 MR. TAKAGAKI: Objection.

7 A. I don't recall sitting here today, but we
8 complete survey readiness every day.

9 BY MS. BLAIR:

10 Q. Every day of the year?

11 A. Every day of the year.

12 Q. Are there any measures on the Leapfrog -- to
13 your knowledge, are there any measures on the Leapfrog
14 Hospital Survey that are similar to data requests
15 contained for the Joint Commission?

16 MR. TAKAGAKI: Objection.

17 A. I'm going through it in my head right now.

18 BY MS. BLAIR:

19 Q. That's all right. Take your time.

20 A. Yes.

21 Q. And what are those?

22 A. CLABSI prevention, CAUTI prevention, C. diff
23 prevention, MRSA prevention. That's what we do on a
24 daily basis.

25 Q. Are you aware of any regulatory agency that

Gina West
September 25, 2025

Page 117

1 measures CPOE compliance?

2 MR. TAKAGAKI: Objection.

3 A. Not that I recall.

4 BY MS. BLAIR:

5 Q. Are you aware of any regulatory compliance
6 that measures BCMA compliance?

7 MR. TAKAGAKI: Objection.

8 A. May I go back one --

9 BY MS. BLAIR:

10 Q. Sure, yeah.

11 A. -- for CPOE and clarify that? Yes, I'm
12 aware in terms of Joint Commission activity when they
13 are on site, they review how physicians enter orders
14 into the electronic medical record.

15 They also while they're on site will watch
16 medication pass, they'll look at barcode scanning and
17 make sure that we're going through the five patient
18 rights.

19 They will also review the medication policy.

20 They will review the bylaws and the rules
21 and regulations.

22 And they will observe and speak to staff.

23 Q. And so that would cover both, as I
24 understand your answer, but you tell me, CPOE and BCMA,
25 correct?

Gina West
September 25, 2025

Page 118

1 A. That is correct.

2 Q. And that was the Joint Commission, correct?

3 A. That is correct.

4 Q. Are you aware of any regulatory agency that
5 reviews compliance with hand hygiene?

6 MR. TAKAGAKI: Objection.

7 A. Yes.

8 BY MS. BLAIR:

9 Q. And what regulatory agency reviews
10 compliance with hand hygiene?

11 A. The Joint Commission and the agency on
12 healthcare administration in Florida.

13 Q. And the Agency for Health Care
14 Administration in Florida, is that acronym AC -- AHCA?

15 A. Yes.

16 Q. And can you tell just tell me a little bit
17 about how the Joint Commission reviews hand hygiene
18 protocols for hospitals, to the best of your knowledge?

19 A. Okay. They review our standard precautions
20 policy. They observe staff while they're on site
21 correctly performing hand hygiene, whether it's through
22 soap and water or alcohol-based hand rub. They review
23 our audits and our outcomes.

24 Q. And what do you mean by "audits"?

25 A. We complete review observations of hand

Gina West
September 25, 2025

Page 119

1 hygiene.

2 Q. And are those the logs that each hospital
3 keeps on the observations of hand hygiene?

4 A. So I can't necessarily speak to the logs,
5 but I can speak to the data that are collected and the
6 data that are reported.

7 Q. Okay. And how is the data collected for
8 these five hospitals as it relates to the audits for
9 hand hygiene?

10 A. It is my understanding that each leader
11 chooses an observer that has had education and
12 competency to observe staff appropriately either
13 washing with soap and water or utilizing the
14 alcohol-based hand rub.

15 Q. And is there an audit report that is
16 generated specifically with respect to hand hygiene for
17 each of the five hospitals that are plaintiffs in this
18 litigation?

19 A. Yes.

20 Q. And do you know whether that hand hygiene
21 audit report has -- was gathered by you and produced to
22 your attorneys for production in this litigation?

23 A. It was requested by attorneys, and hand
24 hygiene information was produced.

25 Q. And then you said, with respect to the

Gina West
September 25, 2025

Page 120

1 Joint Commission's review of hand hygiene, they also
2 review outcomes. Do you recall that?

3 A. Yes.

4 Q. What did you mean by "outcomes"?

5 A. They have a data review session and they
6 review it during that time.

7 Q. And are the outcomes the outcomes of the
8 observations of the hand washing?

9 A. Correct.

10 Q. So the word "outcomes" doesn't mean outcomes
11 to patients like infection, correct?

12 A. It could, but what I was referring to was
13 observations.

14 Q. Right. In this context you're referring to
15 the observations, correct?

16 A. Yes.

17 Q. And then how does the AHCA observe
18 hand hygiene in the hospitals? I'm sorry. I said
19 "observe."

20 How do they monitor compliance with
21 hand hygiene in the hospital?

22 A. I'll give you a great example.

23 Q. Excellent.

24 A. They were just on site in the spring for all
25 five hospitals specifically focused on quality of care,

Gina West
September 25, 2025

Page 121

1 infection control and hand hygiene. It was a large
2 focus for them. And they observed staff at that time.
3 They reviewed policies. They looked at our audits.
4 They looked at our hand hygiene outcomes. We had no
5 findings. So they basically validated our program.

6 Q. And is there any regulatory agency -- so you
7 told me about the Joint Commission and the AHCA with
8 respect to hand hygiene. Any other regulatory agencies
9 you can think of that monitor the hospitals' hand
10 hygiene?

11 A. None that comes to mind.

12 Q. And then with respect to ICU physician
13 staffing, are there any regulatory agencies that you're
14 aware of that monitor the hospital's ICU physician
15 staffing?

16 MR. TAKAGAKI: Objection.

17 A. Not to my knowledge.

18 BY MS. BLAIR:

19 Q. Are you aware -- and I want to talk
20 specifically about the Joint Commission.

21 Are you aware that whether or not the Joint
22 Commission's findings with respect to CPOE, hand
23 hygiene and BCMA are available to the public?

24 A. I do not believe that the Joint Commission
25 findings are, but AHCA should be.

Gina West
September 25, 2025

Page 122

1 Q. AHCA, that's a-h-c-a?

2 A. Yes.

3 Q. And so and AHCA, a-h-c-a, they only observe
4 with respect to those three, the hand hygiene?

5 MR. TAKAGAKI: Objection.

6 A. The last -- the last that they were on site,
7 that's what they surveyed to.

8 BY MS. BLAIR:

9 Q. Okay. Do they ever do CPOE or BCMA?

10 A. They could in the same way that the
11 Joint Commission does in terms of observing, reviewing
12 medical records, reviewing audits.

13 Q. And do you know if they ever have, at least
14 for these five hospitals, to the best of your
15 knowledge, done a review of the CPOE system for any of
16 the five hospitals that make up Palm Beach Health
17 Network?

18 A. I can speak confidentially to their review
19 of how that system works, how there's information that
20 guides the physician, monitoring it through the medical
21 record -- or reviewing it through the medical record.
22 It's basically those two things.

23 Q. So AHCA will come in and monitor that for
24 CPOE?

25 A. Not specifically. But while they're on

Gina West
September 25, 2025

Page 123

1 site, that is a component, that could be a component of
2 their review.

3 Q. And to the extent they do review CPOE when
4 they're on site, are the findings that -- are AHCA's --
5 sorry -- findings reported publicly for the public to
6 review?

7 A. To my knowledge, they're available.

8 Q. Okay. We talked earlier today about the
9 decision by the five hospitals to stop participating in
10 Leapfrog Hospital Survey in or around 2021. To the
11 best of your knowledge, was anybody from Tenet home
12 office involved in that decision?

13 A. To the best of my knowledge, no one was.

14 Q. Okay. Talking specifically about
15 Good Samaritan in or around 2021, do you recall once
16 Libby Flipppo made the recommendation that there would
17 no longer be -- and it was agreed to -- no longer be
18 participation in the Leapfrog Hospital Survey, do you
19 recall any conversation -- do you recall what the
20 reaction was among your direct reports at
21 Good Samaritan regarding that decision?

22 MR. TAKAGAKI: Objection.

23 A. We supported the decision.

24 BY MS. BLAIR:

25 Q. Do you recall whether or not anyone

Gina West
September 25, 2025

Page 124

1 expressed any concern to you about the fact that --
2 and, again, just Good Samaritan in 2021 -- that
3 Good Samaritan was stopping participating in the
4 Leapfrog Hospital Survey?

5 A. Not that I recall.

6 Q. Do you recall any discussions among -- any
7 discussions with anyone after the decision was made in
8 2021 about whether or not the five hospitals would
9 still receive a grade, a Leapfrog Hospital Safety Grade
10 after the hospital stopped participating in the
11 Leapfrog survey?

12 A. So very broadly, yes.

13 Q. And what do you recall very broadly about
14 that discussion?

15 A. Once we stopped, we were concerned still how
16 that would be reflected to our community and to our
17 patients. We didn't know if it was going to have
18 negative effect on the grade, how it would be perceived
19 by the public.

20 Q. And when you say how that would be perceived
21 by the public, are you referring to the fact that
22 you're no longer participating in the survey?

23 A. Correct.

24 Q. And was there any change in perception by
25 the public once you stopped participating in the

Gina West
September 25, 2025

Page 125

1 Leapfrog Hospital Survey?

2 MR. TAKAGAKI: Objection.

3 A. Yes.

4 BY MS. BLAIR:

5 Q. And what was it?

6 A. When it changed to imputed scoring and our
7 grades just automatically dropped because we were no
8 longer participating --

9 Q. Okay.

10 A. -- that's when I became aware that we were
11 losing patients and we were going to potentially lose
12 surgeons because of that methodology change.

13 Q. Okay. So I want to walk back in time. So I
14 want to talk about 2021 when the decision is made to
15 stop participating in the Leapfrog Hospital Survey.
16 Were there any discussions in or around that time about
17 the impact, if any, that not participating in the
18 survey would have on the hospitals?

19 A. I mean, I just don't recall specifically,
20 but if you can show me something.

21 Q. Yeah, I'm just trying to ask right now for
22 your general recollection.

23 A. Okay.

24 Q. And let's just kind of go back.

25 Do you understand that the hospital survey

Gina West
September 25, 2025

Page 126

1 is separate and distinct from the hospital safety
2 grade?

3 MR. TAKAGAKI: Objection.

4 A. Yes.

5 BY MS. BLAIR:

6 Q. Okay. And would you agree with me that the
7 hospital survey that we've been discussing this morning
8 that's quite lengthy and you described measures many
9 things other than the four imputed measures that this
10 litigation is about?

11 A. Yes.

12 MR. TAKAGAKI: Objection.

13 BY MS. BLAIR:

14 Q. And in 2021 when the hospitals stopped
15 participating in the Leapfrog Hospital Survey, were
16 there any discussions about whether or not the
17 hospitals would continue to be graded by Leapfrog
18 despite the fact that they were no longer participating
19 in the hospital survey?

20 A. I just don't recall specifically.

21 Q. Do you recall any conversations where -- any
22 conversations at all where anyone associated with
23 Palm Beach Health Network stated their belief that
24 because the hospital was no longer, any one of these
25 five hospitals was no longer participating in the

Gina West
September 25, 2025

Page 127

1 Leapfrog Hospital Survey, they would no longer receive
2 a safety grade?

3 A. I don't recall.

4 MR. TAKAGAKI: Objection. Sorry. You're
5 talking about '21 still?

6 MS. BLAIR: Yes.

7 BY MS. BLAIR:

8 Q. Same question with respect to 2022 -- well,
9 let's talk about 2022 now. We'll go to 2022.

10 2022 would be the first year that these five
11 hospitals were not participating in the Leapfrog
12 survey, correct?

13 A. Correct.

14 Q. And, yet, these five hospitals receive
15 hospital safety grades in 2022, correct?

16 A. Correct.

17 Q. When the hospital safety grades came out in
18 2022, let's just talk about the spring of 2022, was
19 there any discussion that you can recall that you were
20 surprised that Leapfrog was continuing to grade
21 hospitals in light of the fact that you were no longer
22 participating in the survey?

23 MR. TAKAGAKI: Objection.

24 A. I don't recall that for 2022.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 128

1 Q. As the director of quality in 2022 for both
2 the Palm Beach Health Network and for Good Samaritan,
3 did you have a belief as to whether or not
4 nonparticipating hospitals -- and by that I mean,
5 nonparticipating in the survey -- received hospital
6 safety grades from Leapfrog?

7 A. Would you mind repeating the question?

8 Q. Yes. I'm trying to figure out what your
9 understanding was as the director of quality for both
10 Palm Beach Health Network and Good Samaritan in or
11 around 2022 as to whether or not nonparticipating
12 hospitals received hospital safety grades from
13 Leapfrog.

14 A. I'm so sorry. I don't recall.

15 Q. Okay. But you did receive a grade, you did
16 receive grades from Leapfrog in 2022, correct?

17 A. To my knowledge.

18 Q. Do you recall any discussions as the
19 director of quality for Palm Beach Health Network with
20 anybody at any of the five hospitals about the fact
21 that the hospitals were still receiving a hospital
22 safety grade even though the hospitals were not
23 participating in the survey?

24 A. I don't recall sitting here today, but I'm
25 happy to look at a document.

Gina West
September 25, 2025

Page 129

1 Q. I don't have a document. Sorry. I will.

2 To your --

3 MR. TAKAGAKI: I'm sorry. Are you still on
4 2022?

5 MS. BLAIR: Yes.

6 MR. TAKAGAKI: Okay. The last question
7 didn't clarify that, so that's why. I
8 apologize.

9 BY MS. BLAIR:

10 Q. Okay. To your knowledge, was there an
11 expectation ever discussed in 2022 when the hospital
12 safety grades came out that hospitals that did not
13 participate in the hospital survey should not receive a
14 grade from Leapfrog?

15 MR. TAKAGAKI: Objection.

16 A. I don't recall.

17 BY MS. BLAIR:

18 Q. In 2023, the five hospitals that are
19 plaintiffs in this litigation also received hospital
20 safety grades from Leapfrog, correct?

21 A. Correct.

22 Q. In 2023 when hospital safety grades came out
23 in both the spring or the fall, do you have any
24 recollection of any conversations with anyone at any of
25 the five hospitals about the fact that your expectation

Gina West
September 25, 2025

Page 130

1 would be that a hospital that does not participate in
2 the Leapfrog Hospital Survey is still getting a
3 hospital safety grade?

4 MR. TAKAGAKI: Objection.

5 A. I don't recall.

6 BY MS. BLAIR:

7 Q. You don't recall any conversations about
8 that?

9 A. In 2023?

10 Q. Right.

11 MR. TAKAGAKI: Objection.

12 A. That is correct.

13 BY MS. BLAIR:

14 Q. Okay. So just to recap, in 2021, 2022 and
15 2023, you don't recall any conversations with anyone
16 expressing to you that they were surprised that the
17 hospitals were still receiving a hospital safety grade
18 in light of the fact that the hospitals were no longer
19 participating in the Leapfrog Hospital Survey?

20 MR. TAKAGAKI: Objection.

21 A. I don't recall any specific conversations.

22 BY MS. BLAIR:

23 Q. As the director of quality for Palm Beach
24 Health Network and Good Samaritan in 2020 through 2023,
25 did you understand how the Leapfrog Hospital Safety

Gina West
September 25, 2025

Page 131

1 Grade worked?

2 A. Yes.

3 Q. And did you understand in or around that
4 time that Leapfrog provided hospital safety grades for
5 approximately 3,000 acute care centers around the
6 country?

7 A. I was not aware of the number.

8 Q. Were you aware that it was more than just
9 Florida?

10 A. Yes.

11 Q. Were you aware that it was across the
12 country?

13 A. I feel like that's so broad because I know
14 that it's voluntary and not everyone participates.

15 Q. Right. And I'm talking about two separate
16 things.

17 A. Okay.

18 Q. So the survey is voluntary, correct?

19 A. Correct.

20 Q. Do you have any understanding of whether the
21 hospital safety grade is voluntary?

22 A. Yes.

23 Q. Okay. And what is your understanding as to
24 whether or not the hospital safety grade is voluntary?

25 A. I understand that there are measures that

Gina West
September 25, 2025

Page 132

1 come from CMS that are publicly reported that go into
2 the safety grade, and that is not voluntary.

3 Q. Right. Do you understand that Leapfrog
4 grades all acute, adult acute care centers regardless
5 of whether they participate in the survey or not?

6 A. Could you clarify?

7 Q. Sure. So there are hospitals that
8 participate in the hospital survey, correct?

9 A. Correct.

10 Q. And do you have any understanding of the
11 percentage of adult acute care hospitals that
12 participate in the Leapfrog Hospital Survey in 2025?

13 A. Off the top of my head I want to say
14 80 percent.

15 Q. Okay. And so I'm not holding you to that
16 number, but let's just say 80 percent. So there are 20
17 percent of adult acute care hospitals in the United
18 States that do not participate, then, in the Leapfrog
19 Hospital Survey, correct?

20 A. On or about.

21 Q. Excellent.

22 Do you have an understanding, though, that
23 all of those hospitals, whether they submit a survey or
24 not, get a hospital safety grade?

25 A. Yes.

Gina West
September 25, 2025

Page 133

1 Q. And did you have that understanding in '21,
2 '22 and '23 when you were the director of quality for
3 Palm Beach Health Network during those years?

4 MR. TAKAGAKI: Objection.

5 A. Yes.

6 BY MS. BLAIR:

7 Q. Okay. Sorry to make that so confusing.
8 So prior to the fall of 2024 -- well, hold
9 on one second.

10 MS. BLAIR: I'm getting into a new topic.
11 Is everybody okay to keep going, or would you
12 like to take a lunch break in light of the fact
13 it's noon?

14 MR. TAKAGAKI: I'll defer to the witness.

15 MS. MALONEY: How long have we been on the
16 record since the break?

17 MR. TAKAGAKI: About 40 minutes, I think.

18 THE VIDEOGRAPHER: 37.

19 MS. BLAIR: Oh, I can keep going. I just, I
20 don't want to make anybody --

21 MR. TAKAGAKI: Yeah, no reason.

22 (A discussion was held off the record.)

23 BY MS. BLAIR:

24 Q. And I want to now focus on, you understand
25 that Leapfrog changes its methodology from time to

Gina West
September 25, 2025

Page 134

1 time, correct?

2 A. I'm aware of that.

3 Q. And are you aware that there was a change in
4 the Leapfrog methodology in 2023?

5 A. I don't recall.

6 Q. Now I have some documents, and I don't know
7 why this printed out on half bond paper and half not,
8 but here we are. This is the only one that did.

9 (Defendant's Exhibit Number 3 for i.d.)

10 BY MS. BLAIR:

11 Q. Ms. West, I'm handing you what's now been
12 marked as Exhibit 3 to your deposition. This is an
13 email from Andrea Nunes to Ricardo Ramirez and yourself
14 dated January 26, 2023. Do you see that in front of
15 you?

16 A. I do.

17 MR. TAKAGAKI: I'm sorry, Counsel. Before
18 you continue --

19 MS. BLAIR: There's no Bates labels because
20 I printed it out from your natives. So sorry.

21 MR. TAKAGAKI: I see. Do you know the
22 Bates?

23 MS. BLAIR: I don't, but I can get these for
24 you at the end of deposition.

25 MR. TAKAGAKI: Sure, that's fine.

Gina West
September 25, 2025

Page 135

1 MS. BLAIR: There will be a few that look
2 like this.

3 MR. TAKAGAKI: No problem. Thanks.

4 MS. BLAIR: But I promise you, it's not from
5 my documents.

6 BY MS. BLAIR:

7 Q. And you'll see the subject here is "Forward:
8 Just Published 2023 Hospital Safety Grade Methodology
9 Leapfrog."

10 Do you see that?

11 A. I do.

12 Q. And in or around 2023, who was Andrea Nunes?

13 A. Director of quality at West Boca Medical
14 Center.

15 Q. Is she still?

16 A. She is.

17 Q. And she is informing both you and
18 Mr. Ramirez of new revisions for 2023. Do you see
19 that?

20 A. Can I have a moment to --

21 Q. Oh, yes, please, take your time.

22 A. Can I look at the whole thing?

23 Q. Absolutely. Just let me know when you're
24 ready.

25 MR. TAKAGAKI: I'm sorry, Kim. While you're

Gina West
September 25, 2025

Page 136

1 looking, the staples came off a little bit, but
2 I assume these are part of the document, right?

3 MS. BLAIR: Yes, they're part of mine, yeah,
4 exactly.

5 MR. TAKAGAKI: Okay. Thanks.

6 MS. BLAIR: Oh, yeah, those have Bates
7 numbers so we'll be able to figure out the other
8 Bates numbers.

9 BY MS. BLAIR:

10 Q. Ms. West, have you had a chance to review
11 what we have now marked Exhibit 3 to your deposition?

12 A. Yes.

13 Q. Having seen this document and reviewed it,
14 does this refresh your recollection as to what may have
15 been occurring with respect to Leapfrog Safety Grade
16 methodology change in or around 2023?

17 A. Yes, it hasn't triggered a memory, but I
18 understand what I've read.

19 Q. Okay. But you have no -- as you sit here
20 today, you have no memory of this email; is that a fair
21 statement?

22 A. That's fair.

23 Q. And do you see here that Andrea Nunes is
24 saying that it appears that we will continue to receive
25 the score of five for ICU staffing. Do you see that?

Gina West
September 25, 2025

Page 137

1 A. Yes.

2 Q. Having reviewed this document now, do you
3 have an understanding of what she's referring to when
4 she is telling you that?

5 A. Yes.

6 Q. And what is your understanding?

7 A. My understanding is that if the five would
8 be carried over to the new grade.

9 Q. Okay. And do you understand why West Boca
10 was receiving a five for ICU staffing in or around
11 January of 2023?

12 A. I do.

13 Q. And what is that understanding?

14 A. They did not receive full credit for their
15 staffing model during that time period.

16 Q. And was that based on a survey submission
17 that they had made?

18 A. Yes, to my knowledge.

19 Q. And then you see here it says, also the
20 second paragraph it said, "We could have an opportunity
21 for a B if we resubmit it. Our risks include BCMA has
22 not achieved 95 percent."

23 Do you see that?

24 A. I see it.

25 Q. And what do you understand the phrase "BCMA

Gina West
September 25, 2025

Page 138

1 has not achieved 95 percent" to refer to?

2 A. She's referring to the Leapfrog threshold.

3 Q. And so is it your understanding that they
4 would not receive full credit for BCMA in 2023 due to
5 the fact that BCMA has not achieved a 95 percent
6 threshold?

7 A. Andrea's email says, "Our risks include BCMA
8 has not achieved 95 percent."

9 Q. Okay. And I thought you just told me, but
10 maybe I'm wrong, that it was the Leapfrog threshold is
11 95 percent, correct?

12 A. Correct.

13 Q. And then she says, "Our patient satisfaction
14 is worse."

15 Do you see that?

16 A. Yes.

17 Q. Do you have an understanding of whether or
18 not when she refers to patient satisfaction she's
19 referring to the HCAHPS scores?

20 A. I don't know exactly what she was referring
21 to.

22 Q. Okay. And she goes on to say, "CAUTI
23 increased in 2022," correct?

24 A. Correct.

25 Q. And CAUTI is the UTI infections from

Gina West
September 25, 2025

Page 139

1 catheters, correct?

2 A. Correct.

3 Q. And she goes on to say, "I do know that
4 Christen," C-h-r-i-s-t-e-n, Mayer stated we would not
5 participate as a system in 2023."

6 Do you see that?

7 A. I do.

8 Q. Who is Christen Mayer?

9 A. At the time, she was a national director of
10 quality.

11 Q. Okay. And when you say "national director
12 of quality," is that at the Tenet home office level?

13 A. Yes, it is.

14 Q. And so does that mean that at least for 2023
15 home office had directed that the five hospitals that
16 make up Palm Beach Health Network would not be
17 participating in Leapfrog in 2023?

18 A. According to this email.

19 MR. TAKAGAKI: Objection.

20 A. According to this email.

21 BY MS. BLAIR:

22 Q. And when he says, "We will not participate
23 as a system," do you know what that means, "a system"?

24 A. Yes.

25 Q. And what does that mean to you?

Gina West
September 25, 2025

Page 140

1 A. Tenet Healthcare.

2 Q. So that means all of the hospitals within
3 Tenet Healthcare, correct?

4 MR. TAKAGAKI: Objection.

5 A. Correct.

6 BY MS. BLAIR:

7 Q. And then they say, "This is a topic that we
8 need to discuss."

9 I say "they." Andrea, "This is a topic we
10 need to discuss?"

11 Do you see that's how she ends her email?

12 A. Yes.

13 Q. Do you recall whether there were any
14 discussions about West Boca participating in the
15 Leapfrog Hospital Survey for 2023?

16 A. I don't recall this one in particular. I do
17 recall just broadly that there had been discussions
18 over time.

19 Q. And do you recall as you reviewed this
20 document and the attachments that all hospitals that
21 did not have survey results for four rounds were also
22 going to receive a 5 for ICU physician staffing going
23 forward?

24 A. Yes.

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 141

1 BY MS. BLAIR:

2 Q. And so, as I understand it, or do you have
3 an understanding that in -- for the spring 2024
4 Leapfrog Hospital Safety Grade the other four
5 hospitals, sans West Boca, were receiving 100 percent
6 for ICU physician staffing because they still had
7 survey materials in the system with Leapfrog from four
8 rounds prior?

9 MR. TAKAGAKI: Objection. I think you said
10 spring 2024.

11 MS. BLAIR: Correct, I did.

12 MR. TAKAGAKI: Okay.

13 A. Yes.

14 (Defendant's Exhibit Number 4 for i.d.)

15 BY MS. BLAIR:

16 Q. Thank you. And then if we go to
17 Exhibit 4, Ms. West, I'm handing you what we've now
18 marked West Exhibit 4, which is, again, an email with
19 no Bates numbers --

20 MS. BLAIR: And I will get those for you at
21 the end of this deposition, Counsel.

22 BY MS. BLAIR:

23 Q. -- but this is an email from you to
24 Libby Flipppo at the top dated January 27th, 2023. Do
25 you have that email in front of you?

Gina West
September 25, 2025

Page 142

1 A. I do.

2 Q. And this is one day after the Exhibit we
3 just saw that was marked as Exhibit 3, correct?

4 A. Correct.

5 Q. Do you having -- do you need time to review
6 this?

7 A. Yes.

8 Q. Okay. Do you recall sending this email in
9 or around January of 2023?

10 A. I don't recall sending it, but I see that I
11 did.

12 Q. Okay. And, again, who is Libby Flipppo?

13 A. She's the market chief nursing officer.

14 Q. And it says here, you are saying, "Hi,
15 Libby. West Boca would like to participate in
16 Leapfrog's survey. Required elements in order to
17 change the ICU coverage results."

18 Do you see that?

19 A. Yes.

20 Q. Do you recall that you did reach out to
21 Libby Flipppo and asked her for an exemption for
22 West Boca to participate in the Leapfrog survey?

23 A. In general, yes.

24 Q. Okay. Do you recall what Libby Flipppo's
25 response to you was in or around this time?

Gina West
September 25, 2025

Page 143

1 A. I do not recall.

2 Q. Do you know whether or not West Boca ended
3 up participating in the Leapfrog Hospital Survey for
4 spring of 2023?

5 A. Not to my knowledge.

6 Q. Do you know why they did not participate in
7 the Leapfrog Hospital Survey for the spring of 2023?

8 A. Yes.

9 Q. And why?

10 A. We were upholding the decision to focus in
11 on other required areas of our work.

12 Q. And even though you were with -- upholding
13 that decision, you still reached out to Libby Flipppo
14 for the exemption, correct?

15 A. I did.

16 Q. And so is it your memory, to the best of
17 your recollection, that after consultation with
18 Libby Flipppo, the decision was made that you would
19 withhold the decision not to participation in Leapfrog
20 surveys for any of the five hospitals?

21 MR. TAKAGAKI: Objection.

22 A. I recall that we did not continue to
23 participate.

24 BY MS. BLAIR:

25 Q. Do you recall whether it was your decision

Gina West
September 25, 2025

Page 144

1 or Libby Flipppo's decision that West Boca not
2 participate in the spring of 2023 in the Leapfrog
3 Hospital Survey?

4 MR. TAKAGAKI: Objection.

5 A. I don't recall.

6 BY MS. BLAIR:

7 Q. Is there a reason that you reached out to
8 Libby Flipppo regarding West Boca's permission to
9 participate in the survey for 2023 as opposed to anyone
10 else?

11 A. I reported to her at the time.

12 Q. Okay. Do you know if Libby Flipppo would
13 have needed to reach out to anyone else to see if there
14 was permission granted for West Boca to participate in
15 the Leapfrog survey in 2023?

16 MR. TAKAGAKI: Objection.

17 A. I don't have knowledge of it.

18 BY MS. BLAIR:

19 Q. Based on the reporting system in place for
20 Palm Beach Health Network, would Libby Flipppo have had
21 the authority on her own to make the decision as to
22 whether or not West Boca would participate in the
23 Leapfrog Hospital Survey for the spring of 2023?

24 MR. TAKAGAKI: Objection.

25 A. I don't want to speculate on that because I

Gina West
September 25, 2025

Page 145

1 truly don't know.

2 BY MS. BLAIR:

3 Q. Okay. Are you aware of any email response
4 from Libby Flipppo back to you regarding the decision as
5 to whether or not West Boca could participate in the
6 Leapfrog Hospital Survey in 2023?

7 A. I don't recall.

8 Q. Other than West Boca's request to
9 participate in the Leapfrog Hospital Survey in 2023,
10 are you aware of any other hospitals that are part of
11 the Palm Beach Health Network that requested permission
12 to participate in the Leapfrog Hospital Survey in 2023?

13 A. Sitting here today, I just can't pull that
14 from my memory. But if you have a document --

15 Q. I don't. I just want to know your memory.

16 Are you aware of -- other than this West
17 Boca situation do you have any recollection of another
18 hospital asking to participate?

19 A. I don't.

20 Q. And are you aware in 2023 whether any of the
21 other hospitals other than West Boca that make up the
22 Palm Beach Health Network were receiving any scores
23 other than 100 out of 100 for ICU physician staffing?

24 MR. TAKAGAKI: Objection.

25 A. No.

Gina West
September 25, 2025

Page 146

1 BY MS. BLAIR:

2 Q. And are you aware as you sit here today that
3 for the other three measures that are at issue in this
4 litigation, BCMA, CPOE and hand hygiene, all five of
5 the hospitals that make up the Palm Beach Health
6 Network were receiving 100 out of 100 points for those
7 three measures?

8 MR. TAKAGAKI: Objection.

9 A. I'd have to look at it.

10 BY MS. BLAIR:

11 Q. Okay. Do you have any understanding of how
12 the Leapfrog methodology prior to the fall of 2024
13 treated those four measures, BCMA -- CPOE, BCMA,
14 hand hygiene and ICU physician staffing, for
15 nonparticipating hospitals in the hospital safety
16 grade?

17 MR. TAKAGAKI: Objection.

18 A. I am aware that the calculation methodology
19 changes over time. I'm aware that there are cohort
20 averages assigned, that there are imputed scoring
21 methodologies assigned, but I do not recall the exact
22 time frames for all of those changes.

23 BY MS. BLAIR:

24 Q. Okay. And I'm not trying to be tricky. So
25 for, let's just take the spring of 2024, do you have an

Gina West
September 25, 2025

Page 147

1 understanding that for those four measures, CPOE, BCMA,
2 hand hygiene and ICU physician staffing, that Leapfrog
3 had a two-step method wherein step one, a hospital that
4 had a survey done within the last two years would
5 receive the score from that survey, and if it hadn't,
6 it would receive the mean of its cohort?

7 A. I just re-read this in this document.

8 Q. Oh. Yes, that's from 2023, correct?

9 A. Okay. Yes.

10 Q. So now I'm asking about --

11 A. 2024?

12 Q. -- '24. Do you have any understanding of
13 how the imputation model worked in the spring of 2024
14 before the methodology change that we're here today in
15 this litigation for? So I just want to know what your
16 understanding was as to how the five hospitals at
17 Palm Beach Health Network were scored on the four
18 measures that are at issue in this litigation, and
19 let's just take for the spring of 2024.

20 A. I don't have a great memory for it because
21 we weren't participating at the time. I wasn't doing a
22 lot with Leapfrog so I just do not recall for that
23 moment.

24 Q. Okay. And you recall -- you do know,
25 though, that a change went into place in fall of 2024,

Gina West
September 25, 2025

Page 148

1 correct?

2 A. I am aware of that, yes.

3 Q. And what is your understanding of the
4 difference between how the scoring worked in spring of
5 2024 versus how it was going to work in the fall of
6 2024?

7 A. So my own words --

8 Q. Your own words.

9 A. -- the scoring changed on those four
10 measures: ICU staffing, CPOE, BCMA, hand hygiene, to
11 an imputed scoring system that would give hospitals the
12 lowest score if they did not participate.

13 Q. Did you have an understanding that for
14 spring of 2024, those four measures also had an imputed
15 scoring system?

16 A. Yes, high level, not at the lowest scoring
17 possible.

18 Q. Right. And you had mentioned in one of your
19 answers about the cohort. What is your memory about
20 how that worked?

21 MR. TAKAGAKI: Objection.

22 A. I don't have a great memory for it so I
23 don't feel like I can give a great response.

24 BY MS. BLAIR:

25 Q. Okay. So you just know that there was a

Gina West
September 25, 2025

Page 149

1 change, and the change was for fall of 2024 for those
2 four measures, nonparticipating hospitals were going to
3 receive limited achievement for those four measures,
4 correct?

5 A. Correct.

6 Q. Did you have an understanding in or around
7 fall of 2024 what was meant by "limited achievement"?

8 MR. TAKAGAKI: Objection.

9 A. My understanding, if we're still talking
10 about imputed scoring --

11 BY MS. BLAIR:

12 Q. Yes. Sorry.

13 A. -- is that the lowest score possible would
14 be assigned in those areas.

15 Q. Did you have an understanding that limited
16 achievement referred to the lowest score received by a
17 participating hospital?

18 A. Yes.

19 Q. And do you have an understanding that the
20 way Leapfrog's methodology works --

21 MR. TAKAGAKI: I think she wasn't done
22 answering.

23 BY MS. BLAIR:

24 Q. Oh, I'm sorry. Yeah.

25 A. I'd like to back up because you said a

Gina West
September 25, 2025

Page 150

1 participating hospital, and I said "yes."

2 Q. Correct.

3 A. But my understanding is, it's for
4 participating -- for nonparticipating hospitals --

5 Q. Okay.

6 A. -- that didn't participate with the survey
7 would get the lowest imputed score possible, so I did
8 not answer you correctly.

9 Q. Okay. So that is -- that's your -- okay.
10 Let's go back through it. Good, thank you.

11 A. Okay. Okay.

12 Q. So your understanding is -- so let's just
13 rewind a little because I want to make sure my record
14 is clear and I understand, so I'm sorry I looked away.

15 Tell me one more time, what is your
16 understanding of what limited achievement means in the
17 Leapfrog scoring methodology?

18 A. When it comes to the safety grade, my
19 understanding is that the imputed scoring gets assigned
20 to hospitals that do not participate in the survey.

21 Q. Okay. And let's just take ICU physician
22 staffing for just for a moment because we just saw
23 that, right, in Exhibit 3, that email talks about ICU
24 physician staffing, correct?

25 A. Correct.

Gina West
September 25, 2025

Page 151

1 Q. And you see in that email, Exhibit 3, that a
2 hospital is going to get a score of five for ICU
3 physician staffing, correct?

4 A. Correct.

5 Q. And do you understand that a score of five
6 is associated with limited achievement on the Leapfrog
7 scoring system?

8 A. Yes.

9 Q. And do you understand that that five is
10 associated with the lowest score earned by a hospital
11 that did participate in the Leapfrog Hospital Survey?

12 A. Yes.

13 MS. BLAIR: And I thought you guys said you
14 wanted to go a break, so I'm happy to do so
15 whenever.

16 MR. TAKAGAKI: Yes, whenever, that's fine.

17 THE VIDEOGRAPHER: Off the record 12:34.

18 (A recess was taken from 12:34 p.m. to 1:28 p.m.)

19 THE VIDEOGRAPHER: Back on the record 1:28.

20 BY MS. BLAIR:

21 Q. Ms. West, before the break we were starting
22 to talk about how the Leapfrog scoring methodology for
23 the hospital safety grade worked prior to 2024, do you
24 recall that?

25 A. Yes.

Gina West
September 25, 2025

Page 152

1 Q. I'm sorry. Prior to fall of 2024. Do you
2 recall that?

3 A. Yes.

4 Q. And I think for purposes of this deposition,
5 can you agree with me that the methodology in spring of
6 2024 as it related to the four measures that are at
7 issue in this litigation was different or changed for
8 fall of 2024?

9 A. Yes.

10 Q. And do you have an understanding -- and I'm
11 trying to find something to show you. Do you have an
12 understanding that the scoring for the Leapfrog
13 Hospital Safety Grade consists of 22 different
14 measures?

15 A. Yes.

16 Q. And do you understand that they are divided
17 into two separate domains? Do you know what I mean
18 when I say that?

19 A. Yes.

20 Q. Okay. And twelve of the measures are in the
21 domain of process and structural measures, correct?

22 A. Yes.

23 Q. And ten of the measures are in the domain of
24 outcomes, correct?

25 A. Yes.

Gina West
September 25, 2025

Page 153

1 Q. And if we talk just briefly about those
2 measures that are in the outcome domain, do you have
3 any understanding of what those ten measures that are
4 in the outcome domain of the Leapfrog Hospital Safety
5 Grade scoring methodology are?

6 A. Yes.

7 Q. And what is your understanding of what they
8 are?

9 A. If I recall, those measures are received
10 from publicly reported data.

11 Q. And when you say "publicly reported data,"
12 are you referring to CMS data?

13 A. I am.

14 Q. I'm just trying to find, see if I've got
15 something I can show you.

16 And then with respect to the twelve process
17 and structural measures, do you have an understanding
18 of what those twelve structural and process measures
19 are in the Leapfrog Hospital Safety Grade methodology?

20 A. Could you show me a document?

21 Q. Yeah, I'm trying to find one.

22 But just generally speaking, you understand
23 that there are twelve measures that make up the
24 structural and process measures of the
25 Leapfrog Hospital Safety Grade methodology, correct?

Gina West
September 25, 2025

Page 154

1 A. I am.

2 Q. Do you understand that four of the measures
3 that are in the structural and process domain of the
4 Leapfrog Hospital Safety Grade methodology are the four
5 measures that we've been referring here today: BCMA,
6 CPOE, ICU physician staffing and hand hygiene?

7 A. Can you say that again, please?

8 Q. Sure. That was fast. Sorry.

9 So of the twelve measures that we just
10 discussed that are in that domain of process and
11 structural measures, do you understand the four
12 measures that are at issue in the litigation fall
13 within that process and structural domain?

14 A. I am.

15 Q. Okay. And do you understand that four of
16 the twelve measures -- I'm sorry -- five of the twelve
17 measures that fall within that process and structural
18 domain of the Leapfrog hospital grade come from
19 CMS data as well?

20 A. If you can show me a document.

21 Q. I am going to do that. Do you understand of
22 the twelve measures that fall within the process and
23 structural -- here we go -- structural domain, three of
24 those measures for nonparticipating hospitals are
25 simply coded as "declined to respond" and do not factor

Gina West
September 25, 2025

Page 155

1 into the ultimate hospital safety grade score that's
2 given to a nonparticipating hospital?

3 MR. TAKAGAKI: Objection.

4 A. I am.

5 MS. BLAIR: I don't know who copied this,
6 but here we are. I'm going to mark this now as
7 Exhibit 5.

8 BY MS. BLAIR:

9 Q. Ms. West, I've now handed you what we've
10 marked as Exhibit 5 to this deposition. Have you ever
11 seen this document before?

12 A. Yes.

13 Q. And what is your understanding of what this
14 document is?

15 A. This is the scoring methodology document for
16 spring 2024 safety grade.

17 Q. Okay. And if we turn to page 5 of this
18 document -- it might be 4 and 5. Oh, I'm sorry. Maybe
19 5 and 6. Do you see it starts with process structural
20 measures, twelve?

21 MR. TAKAGAKI: I'm sorry.

22 A. I don't have a five.

23 MR. TAKAGAKI: The page numbers are kind of
24 all over it. Like goes from 7 to 24 --

25 MS. BLAIR: Oh, yeah. I thought the copies

Gina West
September 25, 2025

Page 156

1 were weird, too.

2 MR. TAKAGAKI: -- 11 to 12.

3 MS. BLAIR: My copy is strange as well.

4 MR. TAKAGAKI: Yeah.

5 MS. BLAIR: You know what? I'm going to
6 strike that Exhibit. I thought the copies were
7 weird.

8 THE WITNESS: I don't have a five.

9 MS. BLAIR: Let's strike that Exhibit, then,
10 from your -- from this deposition. I'll get it
11 later. I'm get you a full copy later. So this
12 is strange.

13 MR. TAKAGAKI: I think they're out of order.

14 MS. BLAIR: I think it looks like it was
15 double sided, and they only copied the even
16 sides is what that looks like.

17 So put that aside. I'll save it.

18 BY MS. BLAIR:

19 Q. With respect to the measures, the four
20 measures that are at issue in this litigation -- let's
21 go back in time.

22 Do you have an understanding that
23 Tenet Healthcare required at least the five hospitals
24 that make up the Palm Beach Hospital Network to provide
25 its leap score, Leapfrog Hospital Safety Grade scores

Gina West
September 25, 2025

Page 157

1 at every grading period?

2 MR. TAKAGAKI: Objection.

3 A. Could you clarify, please?

4 BY MS. BLAIR:

5 Q. Sure. So do you have any recollection, at
6 least from 2023 through 2025, as to whether or not
7 Tenet home office requested the five hospitals that are
8 plaintiffs in this litigation send home office copies
9 of their Leapfrog scores every six months when they
10 came out from Leapfrog?

11 A. I am aware.

12 Q. And do you know for what purpose there was a
13 request from Tenet home office to supply those scores?

14 MR. TAKAGAKI: Objection.

15 A. Yes.

16 BY MS. BLAIR:

17 Q. And what do you understand the purpose was?

18 A. A collection of the grades.

19 Q. Do you know why they were collecting the
20 grades?

21 MR. TAKAGAKI: Objection.

22 A. I don't know.

23 BY MS. BLAIR:

24 Q. Did you as the director of quality for
25 Palm Beach Health Network ever have any discussions

Gina West
September 25, 2025

Page 158

1 with Maggie Gill about the reason that Tenet home
2 office continued to collect Leapfrog scores even though
3 the five hospitals were not participating in the
4 survey?

5 A. I don't recall having a discussion with
6 Maggie Gill.

7 Q. Do you recall having a discussion with
8 anybody about why home office was continuing to request
9 the five hospitals to send in their Leapfrog hospital
10 safety grades even though the hospitals were not
11 participating?

12 A. Yes, I do.

13 Q. And who did you have that conversation with?

14 A. I had it with a biostatistician, Bonnie. I
15 forgot her last name.

16 Q. Nukala?

17 A. Yes. Thank you.

18 Q. And Bonnie Nukala, who does she work for, to
19 the best of your knowledge?

20 A. To the best of my knowledge, she reports to
21 Tanushree Tomer.

22 Q. And does Tanushree Tomer work for
23 Tenet healthcare home office?

24 A. She does.

25 Q. And what was the substance of the

Gina West
September 25, 2025

Page 159

1 conversation you had with Bonnie Nukala about why
2 Tenet home office was continuing to collect Leapfrog
3 hospital safety grades even though the hospitals were
4 not participating in the Leapfrog Hospital Survey?

5 A. Just broadly speaking --

6 Q. Yes.

7 A. -- to get an understanding.

8 Q. To get an understanding of what?

9 A. Of why we continued to submit.

10 Q. Of why you continue to submit what?

11 A. The scores to the home office.

12 Q. Oh, okay. So you called Bonnie to get an
13 understanding. And what did she tell you about why you
14 continued to submit scores to the home office?

15 A. I actually emailed Bonnie, and she stated
16 that Alex Kim was -- continued to collect them.

17 Q. And who is Alex Kim?

18 A. Tanushree Tomer reports to Alex Kim and I've
19 forgotten his exact title.

20 Q. And did she tell you why Alex Kim continues
21 to collect them?

22 A. Not that I recall.

23 Q. Do you know if a report was ever produced in
24 any way related to the Leapfrog Hospital Safety Grades
25 that the Palm Beach hospitals were submitting to Tenet

Gina West
September 25, 2025

Page 160

1 home office?

2 MR. TAKAGAKI: Objection.

3 A. Could you ask that one more time?

4 BY MS. BLAIR:

5 Q. Sure.

6 You told me Alex Kim was still collecting
7 the Leapfrog Hospital Safety Grades at least for these
8 five hospitals, correct?

9 A. Correct.

10 Q. Do you know whether or not Tenet home office
11 ever produced a report related to the hospital safety
12 grades that these five offices continued to submit to
13 Tenet home office?

14 A. Not to my knowledge.

15 Q. Beyond the conversations you had with
16 Bonnie Nakula regarding -- to get an understanding of
17 why you were continuing to submit these, did you have
18 any other conversations with anyone else about why
19 these five Palm Beach Health Network hospitals were
20 continuing to be asked to submit their Leapfrog
21 hospital safety grades?

22 A. Yes.

23 Q. Who else?

24 A. If my memory serves me correctly, it was
25 Anna Gunod.

Gina West
September 25, 2025

Page 161

1 Q. And who is Anna Gunod?

2 A. The market director of infection control.

3 Q. And so when you say "market director," does
4 that mean she's over the Palm Beach Health Network
5 market?

6 A. I need to correct myself.

7 Q. Okay.

8 A. She is the national director.

9 Q. So she works for Tenet home office?

10 A. Correct.

11 Q. And what did she tell you about why the
12 Palm Beach hospital network hospitals were continuing
13 to be asked to submit their Leapfrog hospital safety
14 grades even though the hospitals were not participating
15 in the survey?

16 A. She asked me who had requested the grades.

17 Q. And what do you recall -- did you answer
18 her?

19 A. I answered her.

20 Q. And what did you tell her?

21 A. I recall that I explained that I was
22 submitting them to Bonnie Nukala.

23 Q. And was that in email?

24 A. Yes.

25 Q. And did you review that email in preparation

Gina West
September 25, 2025

Page 162

1 for your deposition today?

2 A. No.

3 Q. And then did you have any further
4 conversations with Anna Gunod regarding -- after you
5 told Anna Gunod that Bonnie was requesting the grades?

6 A. Say that just one more time.

7 Q. Sure, yeah.

8 A. Sorry.

9 Q. I'm confusing myself at this point.

10 After you had that conversation -- or after
11 you had that email exchange with Anna Gunod where she
12 asked you who was requesting the Leapfrog grades and
13 you answered her, Bonnie, do you recall whether or not
14 there was any further email exchange from Anna about
15 this topic, sharing the Leapfrog hospital grades?

16 A. Not that I recall.

17 Q. Did you have any follow-up with Bonnie about
18 the fact that Anna Gunod asked you about who was
19 requesting the grades?

20 A. Not that I remember.

21 Q. Other than the conversation you told me with
22 Bonnie Nukala and Anna Gunod, do you recall any other
23 conversations you may have had with anybody regarding
24 the fact that Tenet Healthcare was still requesting
25 Leapfrog grades be submitted even though the hospitals

Gina West
September 25, 2025

Page 163

1 were no longer participating in the survey?

2 A. As I sit here right now, I don't remember.

3 Q. That's fine.

4 A. But I'd be happy to look at a document.

5 Q. Just trying to figure out the extent of your
6 memory.

7 Is it the case that since your time as
8 director of quality for the Palm Beach Health Network
9 that Tenet home office has requested the five hospitals
10 to provide their Leapfrog Safety Grades to them on a
11 biannual basis?

12 A. I don't know when the request started and
13 for how long it was, you know, carried out
14 (Defendant's Exhibit Number 5 for i.d.)

15 MR. TAKAGAKI: Is this going to be 5 or 6?

16 MS. BLAIR: 5. I withdrew 5.

17 BY MS. BLAIR:

18 Q. Ms. West, I am handing you what we marked
19 Exhibit 5. Again, it does not have a Bates number.
20 And I will get that for counsel after the deposition.

21 This is an email from you to Andrea Nunes,
22 Carola Kuret, Heather Wehmeyer, Taylor Pool and
23 Kathleen McDonald, and the subject is "Leapfrog Market
24 Analysis."

25 Do you see that?

Gina West
September 25, 2025

Page 164

1 A. Yes.

2 Q. And the date of this email is April 17th,
3 2023, correct?

4 A. Correct.

5 Q. And you say, "Hi, fellow quality leaders. I
6 completed an analysis of our Leapfrog scores for 2023."
7 Do you see that?

8 A. Yes.

9 MR. TAKAGAKI: Objection. You left out
10 "spring."

11 BY MS. BLAIR:

12 Q. Oh. "I completed a analysis of our Leapfrog
13 scores for spring 2023."

14 Do you see that?

15 A. Yes.

16 Q. Do you know as you look at this email today
17 in September of 2025 whether or not you were completing
18 an analysis of the Leapfrog scores for Tenet home
19 office?

20 A. It was not.

21 MR. TAKAGAKI: Objection.

22 A. It was not for Tenet home office.

23 BY MS. BLAIR:

24 Q. What do you recall about why you were
25 completing an analysis of the Leapfrog scores for

Gina West
September 25, 2025

Page 165

1 spring of 2023?

2 A. I recall doing this each time that the
3 numerical scores were published.

4 Q. And for what purpose did you do this each
5 time?

6 A. I did it just so we could see what the
7 scores looked like.

8 Q. Did you use the Leapfrog hospital scores to
9 benchmark yourself in terms of how your performance was
10 as compared to other hospitals in the area?

11 MR. TAKAGAKI: Objection.

12 A. No, I did not.

13 BY MS. BLAIR:

14 Q. And you say, the first bullet point you say,
15 "All five hospitals scored at a C level," correct?

16 A. Correct.

17 Q. And this would have been for the spring
18 2020 -- 2023 Leapfrog Hospital Safety Grade, correct?

19 A. Yes.

20 Q. And you say here, "The largest opportunity
21 continues to lie in patient experience."

22 Do you see that?

23 A. I do.

24 Q. Do you know what you were referring to when
25 you referred to patient experience?

Gina West
September 25, 2025

Page 166

1 A. The category of patient experience.

2 Q. Does that refer in any way to the HCAHPS
3 scores that are used to calculate the Leapfrog Hospital
4 Safety Grade?

5 A. Yes.

6 Q. You then say in the next sentence, "West
7 Boca would need to participate in the fall 2023 survey
8 and change their BCMA and IPS performance as well."

9 Do you see that?

10 A. I do.

11 Q. And do you recall we saw an email earlier in
12 this deposition where West Boca -- well, where you on
13 behalf of West Boca was asking for an exemption to
14 participate in the Leapfrog Hospital Survey, correct?

15 A. Correct.

16 Q. Were you as the director of quality for the
17 Palm Beach Health Network supportive of West Boca
18 participating in the fall 2023 survey?

19 A. I was.

20 Q. And why were you supportive of that?

21 A. Because we didn't want this to show
22 negatively in the community. We didn't want for
23 patients to be leaving our hospitals, to be leaving the
24 area, for physicians to be leaving us, so a request was
25 made each time to participate so that we wouldn't be

Gina West
September 25, 2025

Page 167

1 punished.

2 Q. Okay. How in fall of 2023 would you be
3 punished?

4 A. Well, we were being punished because of BCMA
5 and IPS at West Boca, so the grade was showing lower
6 than what they were actually performing. So their
7 community wouldn't know that they were actually
8 performing better than what was within the Leapfrog
9 grade.

10 Q. Did we not see an email from West Boca that
11 we had marked previously, it's the January 2026 [sic]
12 email. I believe it's Exhibit 3 in front of you there.
13 It's the one with the weird colored paper. This is
14 from Andrea Nunes. And if you look, I'm looking at
15 Exhibit 3, she says that the BCMA has not achieved
16 95 percent. Do you see that?

17 A. I do.

18 Q. So is it your understanding that West Boca
19 was being punished somehow by Leapfrog in the spring of
20 2023 for its BCMA score?

21 MR. TAKAGAKI: Objection.

22 A. Between January and April, I'm not sure how
23 that could have changed. It could have gotten better
24 between that time. But with all of these requests, it
25 was in an effort to not show worse in a Leapfrog grade

Gina West
September 25, 2025

Page 168

1 than we were actually performing for our community.

2 BY MS. BLAIR:

3 Q. Understood. In fall -- in spring of 2023,
4 though, you understand that methodology change that
5 we're in this litigation about had not yet been put
6 into place, correct?

7 A. I understand.

8 Q. Okay. And so do you have any belief when we
9 look at Exhibit 5 that West Boca was going to be
10 punished for its BCMA grade based on the Leapfrog
11 methodology?

12 MR. TAKAGAKI: Objection.

13 A. The request was to be able to re-enter the
14 data to get all of the credit possible so that we
15 wouldn't leave any credit on the table if that makes
16 sense.

17 BY MS. BLAIR:

18 Q. Okay. That makes sense.

19 MS. BLAIR: Mark this as Exhibit 6.

20 (Defendant's Exhibit Number 6 for i.d.)

21 BY MS. BLAIR:

22 Q. Ms. West, I'm handing you what we've now
23 marked as Exhibit 6, which is a calendar entry from
24 Ashley Barquin. And it's the -- do you see that there?

25 A. Yes.

Gina West
September 25, 2025

Page 169

1 Q. And it says, "The location of this meeting
2 is Gina's office." I assume you're Gina with respect
3 to this.

4 A. Um-hum.

5 Q. And the subject line, is "Accepted
6 Leapfrog-Good Sam."

7 And this is Friday. The meeting is set to
8 take place on Friday 21st at 2023. Do you have any
9 recollection of in or around the spring of 2023 what
10 the purpose of this meeting would have been with
11 Ashley Barquin?

12 A. I do not recall.

13 Q. And for the record, who is Ashley Barquin?

14 A. 2023. Ashley Barquin is a registered nurse
15 who has worked at St. Mary's Medical Center and
16 Good Samaritan Medical Center. At St. Mary's she was
17 the assistant chief nursing officer. At Good Samaritan
18 Medical Center she was the chief nursing officer.

19 Q. Okay. And do you have any understanding of
20 what her involvement would have been in or around
21 April of 2023 with respect to Leapfrog?

22 A. I don't recall. I don't recall meeting with
23 Ashley at all.

24 Q. Okay. Do you know in 2023 was she the
25 assistant chief nursing officer at St. Mary's or

Gina West
September 25, 2025

Page 170

1 Good Sam?

2 A. So she held more than just that role at
3 St. Mary's Medical Center. It would either have been
4 the ACNO or a different role. And I've forgotten which
5 department she was in at the time.

6 Q. And to ask it maybe a different way, in 2023
7 was she working at St. Mary's?

8 A. I don't really recall.

9 Q. Do you recall whether in or around April of
10 2023 in your capacity as the director of quality for
11 the Palm Beach Health Network you had an opinion about
12 whether or not the five Palm Beach Health Network
13 hospitals should be participating in the Leapfrog
14 survey?

15 A. I felt like we should.

16 Q. And why did you feel like you should?

17 A. So that we didn't leave any credit on the
18 table.

19 MS. BLAIR: Can you mark this one as 7?

20 (Defendant's Exhibit Number 7 for i.d.)

21 BY MS. BLAIR:

22 Q. Mrs. West, I'm handing you what we are now
23 marking as west Exhibit Number 7. It's another
24 calendar entry.

25 I apologize. It says here "From

Gina West
September 25, 2025

Page 171

1 Regina West." It doesn't say who it's to.

2 It says, "You are the organizer. The
3 location will be at your office." And, again, the
4 subject is "Leapfrog work."

5 And the meeting is set for one hour on the
6 29th of January 2024. Do you have that document in
7 front of you?

8 A. I do.

9 Q. Do you have any recollection of what the
10 Leapfrog work meeting was about in January of 2024?

11 MR. TAKAGAKI: Objection.

12 A. In general, I put meeting invites on my
13 calendar with each piece of work that I do just to jog
14 my memory of when I'm working on stuff. It doesn't
15 mean that it's going to take an hour. Most of the time
16 I don't put notes in in terms of like what I'm
17 reviewing, what I'm looking at, so it appears that
18 sometime between 12:00 o'clock and 1:00 o'clock I
19 looked at some sort of Leapfrog document.

20 BY MS. BLAIR:

21 Q. Okay. And you would have scheduled yourself
22 that time to look at some sort of Leapfrog documents
23 prior to noon on January 29th, 2024, is that generally
24 how you operate?

25 A. It happens that way sometimes, but also

Gina West
September 25, 2025

Page 172

1 retrospectively when I'm working on things, just to get
2 like an idea of how I've spent my time, I'll go back
3 and pencil it in.

4 Q. I should probably do that.

5 Do you have any recollection of what type of
6 Leapfrog work you would be doing in January of 2024?

7 A. I don't.

8 Q. And in January of 2024, none of the five
9 hospitals that are plaintiffs in this litigation were
10 participating in the Leapfrog Hospital Survey, correct?

11 A. Correct.

12 Q. Were you still regularly monitoring various
13 aspects of the five hospitals' quality performance that
14 are listed on the Leapfrog Hospital Survey even though
15 the hospitals weren't participating in the survey?

16 MR. TAKAGAKI: Objection to form.

17 A. Each time the numerical grade came out I
18 would do some sort of work with it, just a review and
19 an analysis.

20 BY MS. BLAIR:

21 Q. Okay. But to the best of your recollection,
22 do any of the Leapfrog grades, Hospital Safety Grades
23 come out in January of 2024?

24 A. No.

25 Q. Okay. But as you sit here today, you don't

Gina West
September 25, 2025

Page 173

1 recall what kind of Leapfrog work you would have been
2 doing in January of 2024?

3 A. I'm sorry, I don't.

4 Q. That's all right.

5 A. Do you have a document that goes with this?

6 Q. I don't.

7 A. Okay.

8 MS. BLAIR: We'll do this one as 8.

9 (Defendant's Exhibit Number 8 for i.d.)

10 BY MS. BLAIR:

11 Q. Ms. West, I'm now handing you what we've
12 marked as west Exhibit 8, and this is an email from
13 Maureen Colandrea to you, CCing Maritza Ortiz and
14 Taylor Pool, and subject is "Leapfrog SAR benchmark
15 numbers for Good Samaritan."

16 Do you see that?

17 A. Yes.

18 Q. And who is -- well, I see at the bottom,
19 this Maureen Colandrea in or around March of 2024 was
20 the infection prevention nurse for Good Samaritan,
21 correct?

22 A. That's correct.

23 Q. And who was Maritza Ortiz?

24 A. She was another infection prevention nurse.

25 Q. And in March of 2024 did Taylor Pool work at

Gina West
September 25, 2025

Page 174

1 Good Samaritan?

2 A. Yes, she did.

3 Q. And was she an infection prevention at
4 Good Samaritan in or around March of 2024?

5 A. She was the director of quality.

6 Q. That's right. Sorry.

7 And Maureen says to you and others, "Good
8 morning. Maritza, kindly provided me the following
9 numbers. See below. Please let me know if you have
10 any questions. Thanks, Maureen."

11 And then right underneath that in bold it
12 says, "The number of cases Good Samaritan can have in
13 order to meet Leapfrog benchmarks."

14 Do you see that?

15 A. Yes.

16 Q. Does this refresh your recollection in any
17 way that any of the five hospitals that make up the
18 Palm Beach Health Network were using the Leapfrog
19 standards as benchmarks?

20 MR. TAKAGAKI: Objection.

21 A. No.

22 BY MS. BLAIR:

23 Q. Do you know -- do you have any understanding
24 of what Maureen means when she says, "The number of
25 cases Good Samaritan can have in order to meet Leapfrog

Gina West
September 25, 2025

Page 175

1 benchmarks"?

2 A. No, because she says infection type, number
3 of cases, CMS, current and projected."

4 Q. Correct.

5 A. I don't know.

6 Q. Do you recall any discussions you would have
7 had with the infection prevention nurses and/or
8 Taylor Pool, the director of quality at Good Samaritan,
9 in or around March of 2024 related to these infection
10 numbers that they're providing you?

11 MR. TAKAGAKI: Objection.

12 A. I don't recall anything specific.

13 BY MS. BLAIR:

14 Q. Looking at the numbers that Maureen is
15 reporting to you in this email, let's just take CLABSI.
16 And the CMS score is 1.45. Do you see that?

17 MR. TAKAGAKI: Objection.

18 A. I see it.

19 BY MS. BLAIR:

20 Q. Is that the CMS standard, to the best of
21 your recollection?

22 MR. TAKAGAKI: Objection.

23 A. I don't know.

24 BY MS. BLAIR:

25 Q. And I guess, generally speaking, looking at

Gina West
September 25, 2025

Page 176

1 this chart that is in the kind of center of Exhibit 8,
2 is this the type of data that you're often provided by
3 hospitals from Palm Beach Health Network related to
4 HAIs?

5 MR. TAKAGAKI: Objection.

6 A. I was often provided number of cases for all
7 units. I don't recall the CMS column or what she was
8 referring to. It just says current 2024, so I don't
9 know if this was a rate of what she was referring to
10 here and then projected. It's just difficult to speak
11 to.

12 BY MS. BLAIR:

13 Q. Okay. And so as you sit here, you don't
14 know if that current and projected refers to the
15 Leapfrog benchmarks for that time period?

16 MR. TAKAGAKI: Objection.

17 A. It does not appear to.

18 BY MS. BLAIR:

19 Q. Okay. And why do you say it does not appear
20 to?

21 A. There is nothing outside of this statement
22 at the top that shows this is a Leapfrog benchmark.
23 There's nothing that would draw my attention here that
24 would help me understand that.

25 Q. Okay. And you don't have any specific

Gina West
September 25, 2025

Page 177

1 recollection of any conversations you would have had
2 with anybody on this email regarding the statement that
3 number of cases Good Samaritan can have in order to
4 meet Leapfrog benchmarks, correct?

5 A. I just don't recall in the moment.

6 Q. We talked a little earlier, I think it's
7 Exhibits 1 and 2 I showed you about West Boca's
8 question in 2023 to participate in the Leapfrog
9 Hospital Survey. Do you recall the ultimate reason
10 that was given for why West Boca would not be allowed
11 to participate in the Leapfrog Hospital Survey in 2023?

12 A. It's related --

13 MR. TAKAGAKI: Objection.

14 A. It's related to one --

15 BY MS. BLAIR:

16 Q. Oh, I'm sorry. It's Exhibit 3. I
17 apologize. Thank you so much. It's Exhibits 3 and 4.

18 A. 3 and 4.

19 My recollection for this is and for each
20 time that I made the request and we didn't move forward
21 with it, it was so that we could focus on other work at
22 the time.

23 MS. BLAIR: I'll mark this one as 9. It's
24 3-hole punched.

25 (Defendant's Exhibit Number 9 for i.d.)

Gina West
September 25, 2025

Page 178

1 BY MS. BLAIR:

2 Q. Ms. West, I'm providing you what we've now
3 marked as West Exhibit 9, which is an email from you to
4 Andrea Nunes, Heather Wehmeyer, Taylor Pool and
5 Kathleen McDonald CC'ing Ricardo Ramirez. The subject
6 is "CPOE response to EHR SAFER® survey."

7 Do you see that?

8 A. I do.

9 Q. What is the EHR SAFER® survey?

10 A. It is a survey we're required for each year
11 the hospitals are maintained in the EHR system to
12 maintain a SAFER® guide survey.

13 Q. Okay. And the SAFER® guide survey, is that
14 a regulatory survey?

15 A. Yes, it is.

16 Q. And what regulatory body requires the SAFER®
17 guide survey?

18 A. My understanding it's the Centers for
19 Medicare & Medicaid.

20 Q. So CMS?

21 A. Yes.

22 Q. And you write to this group of people and
23 you say, "Hi, everyone. Just wanted to alert you to a
24 corporate response regarding CPOE testing. If you are
25 planning to copy and paste corporate responses, please

Gina West
September 25, 2025

Page 179

1 remove reference to Leapfrog."

2 Do you see that?

3 A. I do.

4 Q. What in or around April of 2024, what CPOE
5 testing was being performed by the five hospitals that
6 make up Palm Beach Health Network?

7 MR. TAKAGAKI: Objection.

8 A. We didn't have testing in place, so this
9 is -- I misspoke when I said "testing."

10 BY MS. BLAIR:

11 Q. Okay. And then you go on to say, "If you
12 are planning to copy and paste corporate responses,
13 please remove the reference to Leapfrog."

14 Do you see that?

15 A. Yes.

16 Q. What were the corporate responses that
17 you're referring to here?

18 A. Tenet did an independent review of our
19 system and made that available to us, and then each
20 director of quality was responsible to meet the
21 informaticist and someone within the IT of the hospital
22 that would have knowledge of the responses, determine
23 if they were the same for the hospital, if we should
24 made edits and how we would respond on our own, so
25 that's the process that we went through.

Gina West
September 25, 2025

Page 180

1 Q. Okay. And so when you say that Tenet did
2 independent testing of all the systems, you mean that
3 Tenet did independent testing of each hospital CPOE
4 system?

5 A. Again, if I said "testing," then I am
6 misspeaking.

7 Q. Oh, that's okay. Oh, you did not. You did
8 not so let me correct my question.

9 I'm not good with all this technology.

10 You said, "Tenet did an independent review
11 of our system and made that available to us," correct?

12 A. Correct.

13 Q. Okay. To your knowledge, what was the
14 review that was done by Tenet of the CPOE system?

15 A. Well, one of the questions -- and I don't
16 recall all of the questions, but one of them is right
17 here in this email where it says "hardware and software
18 modifications and system/system interfaces are tested
19 pre and post to go live to ensure that data are not
20 lost or incorrectly displayed or transmitted within or
21 between EHR system components."

22 That would be one question.

23 And the corporate response included for
24 Leapfrog Group's evaluation tool which we were no
25 longer completing, so the request was, please remove

Gina West
September 25, 2025

Page 181

1 that language.

2 Q. How often do you do this SAFER® guide
3 survey?

4 A. It's completed annually.

5 Q. Okay. And this is dated 2024, correct?

6 A. Correct.

7 Q. And by this point none of the five hospitals
8 had participated in the Leapfrog Hospital Survey for
9 three years; isn't that true?

10 A. Correct.

11 Q. And so had this response, this -- that you
12 just referred to, The Leapfrog Group's evaluation tool
13 for computerized physician order entry is used, had
14 that been in the SAFER® -- the EHR SAFER® survey since
15 2021?

16 MR. TAKAGAKI: Objection.

17 A. I don't know.

18 BY MS. BLAIR:

19 Q. So is it fair to say that 2021 to 2024 none
20 of the five hospitals were using The Leapfrog Group's
21 evaluation tool for computerized physician order entry?

22 MR. TAKAGAKI: Objection.

23 A. We were not.

24 BY MS. BLAIR:

25 Q. And when you say Tenet did an independent

Gina West
September 25, 2025

Page 182

1 review of all of systems and provided that to you, how
2 did they -- in what form did they provide the findings
3 of their independent review to each hospital?

4 A. It's web based.

5 Q. And that was -- do you know what year that
6 Tenet did the independent review of the CPOE system?

7 MR. TAKAGAKI: Objection.

8 A. I don't know how long it went back, but
9 we -- we've done it annually since it's been required.

10 BY MS. BLAIR:

11 Q. And is that something that you provided to
12 your counsel for production in this matter?

13 A. I don't recall.

14 Q. Do you recall what the findings were of the
15 independent review by Tenet hospitals of the five
16 hospital CPOE systems that make up Palm Beach Health
17 Network in 2024?

18 MR. TAKAGAKI: Objection.

19 A. Let me clarify again.

20 BY MS. BLAIR:

21 Q. Sure.

22 A. Tenet completes it for the entire Tenet
23 system. And then each hospital within the Palm Beach
24 Health Network was required to do an independent
25 review, so we could consider corporate responses,

Gina West
September 25, 2025

Page 183

1 consider if those matched what actually was happening
2 in our hospitals or if we needed to make edits or
3 modifications to our responses, so this request to
4 remove was a request to modify our response back in
5 terms of our SAFER® EHR review.

6 Q. Okay. And so with respect to the five
7 hospitals that did their independent review, in
8 response to the EHR SAFER® survey, four years, '21,
9 '22, '23, prior to 2024, did the response for each of
10 these five hospitals say The Leapfrog Group evaluation
11 tool for CPOE is used to access point of care CDS
12 intervention, is that how that worked?

13 MR. TAKAGAKI: Objection.

14 A. I don't recall.

15 BY MS. BLAIR:

16 Q. Okay. And so there is an EHR SAFER® survey
17 that is done annually by each independent hospital that
18 makes up the Palm Beach Health Network?

19 A. Yes.

20 Q. And --

21 A. Can I clarify real fast?

22 Q. Yes, please.

23 A. In the last year that I completed it I was
24 able to complete it in 2025 for the market because
25 we're all on the same computer, what's called a hub, so

Gina West
September 25, 2025

Page 184

1 in order to make modifications in that hub, all five
2 hospitals would have to agree to it, so technically all
3 of those would be same.

4 So once it was completed, then that went out
5 to the hospitals to review to see if any modifications
6 needed to be made.

7 Q. Okay.

8 A. But I did complete it for the market this
9 last year.

10 Q. So that was for 2025, correct?

11 A. Correct.

12 Q. But if we're talking about 2024, 2023, that
13 would have been each individual hospital, correct?

14 A. Prior to me completing it this year --

15 Q. Correct.

16 A. -- each individual hospital would have done
17 that.

18 Q. And do you know how each individual hospital
19 tested the operational ability of their CPOE testing --

20 Or I'm sorry. That's a terrible question?

21 Prior -- I don't want to talk about 2025.

22 Let's just stick with 2024 when this email is dated.

23 Do you know how each individual hospital associated
24 with the Palm Beach Health Network reviewed its CPOE
25 system in order to answer this particular question on

Gina West
September 25, 2025

Page 185

1 the SAFER® survey?

2 A. At a high level, each director of quality
3 was responsible for coordinating that for the hospital,
4 and each director of quality would have collaborated
5 within the hospital with either the clinical
6 informaticist, an IT representative. But at least as a
7 group to review the responses and determine if we
8 wanted to make edits, add, take away, like this one is
9 taking away.

10 Q. And do you know whether or not CMS makes the
11 results of the EHR surfer -- oh, my gosh -- EHR SAFER®
12 survey available to the public?

13 A. I don't know.

14 Q. Ultimately the hospitals all received grades
15 for spring of 2024 from the Leapfrog Hospital Safety
16 Grade, correct?

17 A. Yes.

18 Q. Do you recall what the grades were for the
19 five hospitals in the spring of 2025?

20 A. Not off the top of my head.

21 Q. Do you recall that Delray was already a D in
22 the spring of 2024?

23 A. Not off the top of my head.

24 Q. Is that something as the director of quality
25 you would have known at least at that time?

Gina West
September 25, 2025

Page 186

1 A. Yes.

2 Q. And would the hospitals have provided you
3 with their Leapfrog hospital safety scores when they
4 came out in the spring of 2024?

5 A. Yes.

6 Q. And, again, we talked about this earlier,
7 but would you have provided those scores to
8 Bonnie Nukala of Tenet home office in or around when
9 those grades came out in spring of 2024?

10 A. I didn't provide them all. Each director of
11 quality would have provided that.

12 Q. As the director of quality for Palm Beach
13 Health Network, would it have been your expectation
14 that each quality director for each of the five
15 hospitals provided their spring 2024 hospital safety
16 grade to Bonnie in or around that time?

17 A. Yes.

18 Q. Are you aware that prior to any methodology
19 change Leapfrog puts out for public comments the
20 methodology changes that it's contemplating?

21 A. Yes.

22 Q. And during your time as the -- well, at any
23 time in your career, let's just say, because you've
24 always been in quality, have you ever had -- have you
25 ever commented during the Leapfrog public comment

Gina West
September 25, 2025

Page 187

1 period on any methodology changes that Leapfrog has
2 proposed?

3 A. Not to my knowledge.

4 Q. And that would include with respect to the
5 methodology change that was proposed for fall of 2024,
6 correct?

7 A. Correct.

8 MS. BLAIR: We can mark this as 10?

9 THE VIDEOGRAPHER: And I'm sorry to
10 interrupt, Counsel.

11 MS. BLAIR: Yeah, sure.

12 THE VIDEOGRAPHER: I need to change media.

13 MS. BLAIR: Sure, go ahead.

14 THE VIDEOGRAPHER: We're going off the
15 record 2:15.

16 (A recess was taken from 2:16 p.m. to 2:17 p.m.)

17 THE VIDEOGRAPHER: This is media unit number
18 three. The time is 2:18. We're back on the
19 record.

20 (Defendant's Exhibit Number 10 for i.d.)

21 BY MS. BLAIR:

22 Q. Ms. West, I've now handed you what we've
23 marked as west Exhibit 10 for this deposition.

24 As you will see, this is an email from
25 Andrea Nunes to you and Ricky Ramirez dated May 21st,

Gina West
September 25, 2025

Page 188

1 2024. Do you see that?

2 A. I do.

3 Q. And for timing sake, do you understand that
4 the spring Leapfrog Hospital Safety Grades come out in
5 April every year?

6 A. Yes.

7 Q. So this would have been approximately a
8 little less than a month after the Leapfrog spring
9 safety grade came out, correct?

10 A. Correct.

11 Q. And Andrea Nunes, again, is the -- we talked
12 about her a lot -- the director of clinical quality
13 improvement for West Boca, correct?

14 A. Correct.

15 Q. And she says to you and Mr. Ramirez, and the
16 subject line -- well, let's just say this. The subject
17 line of this email is "Review planned updates to the
18 fall 2024 hospital safety grade."

19 Do you see that?

20 A. I do.

21 Q. Okay. And she says to you, "Leapfrog is
22 revising their scoring methodology, and this will
23 affect those hospitals who have not submitted a survey.
24 It is" -- it says, "it a hospital, does not submit
25 survey for two cycles, then the new imputation

Gina West
September 25, 2025

Page 189

1 methodology is utilized."

2 Do you see that?

3 A. Yes.

4 Q. And taking a look at what she copies on this
5 page, is this your understanding of what the new
6 imputation model was going to be for nonreporting
7 hospitals for the fall of 2024?

8 A. Yes.

9 Q. And do you recall any conversations you had
10 with anyone after you received this email from
11 Andrea Nunes in or around May of 2024?

12 MR. TAKAGAKI: Objection.

13 A. Broadly speaking, I recall having
14 conversations about something to refer to. I wouldn't
15 be able to give the details right now.

16 BY MS. BLAIR:

17 Q. Do you recall what your opinion was when you
18 first heard about the changes that were going to occur
19 to the Leapfrog Hospital Safety Grade methodology for
20 the fall of 2024?

21 A. Could you repeat that, please?

22 Q. Sure. So I don't want to know about
23 conversations at this appointment.

24 Like do you recall what your reaction was
25 when you first came to learn about the changes that

Gina West
September 25, 2025

Page 190

1 were going to occur for fall of 2024 to the Leapfrog
2 Hospital Safety Grade?

3 A. Yes, my opinion was that it was pretty scary
4 for hospitals.

5 Q. And why did you believe it was pretty scary
6 for hospitals?

7 A. Because these imputed scores could
8 potentially hurt hospitals' reputations and hurt it in
9 a way that didn't accurately represent the hospital,
10 and it could be misleading to the public.

11 Q. Do you recall having that conversation about
12 your reaction to this methodology change with anybody
13 associated with the Palm Beach Health Network in or
14 around the spring or summer of 2024?

15 A. I don't remember the details around it.

16 Q. Do you recall generally who you talked to
17 about the change in methodology in or around the spring
18 or summer of 2024?

19 A. Generally speaking, it would have been to
20 CEOs, CNOs and directors of quality.

21 Q. And do you recall any specific -- let's just
22 start with the CEOs. So this would be, I want to talk
23 about the time frame from when you received this email
24 from Andrea Nunes and when the fall safety grades came
25 out on November 20th of 2024, so that kind of spring,

Gina West
September 25, 2025

Page 191

1 summer, early fall time period.

2 Do you recall any conversations you had with
3 CEOs regarding the methodology change?

4 A. I don't recall right now, but if you have
5 something to show me...

6 Q. Do you have any memory of conversations you
7 had with chief nursing officers between May of 2024 and
8 the release of the fall 2024 safety grades off the top
9 of your head?

10 A. Off the top of my head, I do not recall.

11 Q. And same question with respect to directors
12 of quality. Between that May 2024 time frame and the
13 release of the fall 2024 safety grades on
14 November 20th, 2024, do you recall any specific
15 conversations with chief nursing officers about the
16 change in Leapfrog methodology?

17 A. I don't recall the specifics.

18 Q. Do you recall generally what the reaction
19 was from those stakeholders with respect to the change
20 in the Leapfrog methodology for fall of 2024?

21 A. Yes.

22 MR. TAKAGAKI: Objection.

23 BY MS. BLAIR:

24 Q. What do you recall generally what the
25 reaction was to this methodology change?

Gina West
September 25, 2025

Page 192

1 A. I recall that there was concern over how it
2 would be published and how we would be portrayed.

3 Q. And when you talk about "how it would be
4 published," what are you referring to?

5 A. Referring to Leapfrog and potentially the
6 media.

7 Q. And when you say "portrayed," what do you
8 mean when you use that word?

9 A. Imputed scoring that potentially moved a
10 hospital down a grade or two doesn't accurately show
11 the quality of care that the hospital is providing.
12 It's not an accurate representative of the services or
13 the quality.

14 Q. Is it your opinion that a more accurate
15 representative would be a scoring methodology that
16 relied on just the CMS data?

17 MR. TAKAGAKI: Objection.

18 A. No, not necessarily because we already have
19 CMS data. My opinion about it is that hospitals that
20 don't participate should not be included. It's a
21 voluntary program, and my opinion is that the hospital
22 should be removed if they're not participating.

23 BY MS. BLAIR:

24 Q. My question is just a little different.

25 A. Okay.

Gina West
September 25, 2025

Page 193

1 Q. Let's say we took all of the measures that
2 are used to calculate this hospital safety grades that
3 come from the survey, and the hospital safety grade is
4 now based solely on CMS data. Would you have an issue
5 with the methodology that scored or gave hospitals a
6 safety grade based on the measures that come from CMS?

7 MR. TAKAGAKI: Objection.

8 A. I guess personally I just don't understand
9 duplication for that.

10 BY MS. BLAIR:

11 Q. You don't understand the? I'm sorry. I
12 didn't hear you.

13 A. The duplication. Why would Leapfrog take
14 information from CMS to give hospitals a grade?

15 Q. Well, you would agree with me that CMS
16 already provides a star rating for hospitals, correct?

17 A. Correct.

18 Q. And do you know what the star ratings are of
19 the five -- the CMS star ratings are currently for the
20 five hospitals that are plaintiffs in this litigation?

21 A. So I can't repeat them to you today, but,
22 yes, I've seen them.

23 Q. And would you agree with me that they're one
24 and two stars?

25 A. Yes.

Gina West
September 25, 2025

Page 194

1 Q. And with five stars being the best, correct?

2 A. Correct.

3 Q. And would you agree with me that CMS, the
4 measures that go into that star rating include a whole
5 host of things in addition to what Leapfrog uses as CMS
6 measures to calculate its safety grade?

7 MR. TAKAGAKI: Objection.

8 A. Let's say they're very different.

9 BY MS. BLAIR:

10 Q. They are very different, right. So I'm just
11 curious how -- is it your position the CMS star rating
12 is just a duplication of the Leapfrog grade?

13 A. No.

14 MR. TAKAGAKI: Objection.

15 A. And I guess what I was trying to say I would
16 really just see your model in order to have an opinion
17 about it.

18 BY MS. BLAIR:

19 Q. Okay.

20 A. If the model is moving from just CMS
21 measures and they're moving into a Leapfrog system, how
22 that would produce a grade.

23 Q. Okay.

24 A. And I guess I don't understand why Leapfrog
25 would do that if they're already reported through CMS.

Gina West
September 25, 2025

Page 195

1 I guess I don't understand what the -- what the
2 rationale would be for it.

3 Q. Will you agree with me that CMS does not
4 create any sort of grade or star rating based on the
5 CMS measures that Leapfrog looks at for patient safety,
6 just on those measures, correct?

7 MR. TAKAGAKI: Objection.

8 A. Could you repeat it, please?

9 BY MS. BLAIR:

10 Q. Yes. So CMS, the CMS issues the star
11 rating, the overall CMS star rating. You're familiar
12 with that, correct?

13 A. Yes.

14 Q. And the CMS overall star rating contains
15 several different measures that CMS looks at to come to
16 that star rating, correct?

17 A. Yes.

18 Q. And of all of those measures that look at,
19 that CMS looks at to come to that star rating, there
20 are several that are not patient safety measures that
21 Leapfrog looks at when it's looking at its hospital
22 safety grade. Would you agree with that?

23 MR. TAKAGAKI: Objection.

24 A. I don't know that I would categorize it as
25 not patient safety. I'd just have to look at them one

Gina West
September 25, 2025

Page 196

1 by one.

2 BY MS. BLAIR:

3 Q. Do you understand that in coming to the
4 conclusion as to what measures Leapfrog considers in
5 its hospital safety grade, it consults with an expert
6 panel?

7 A. Yes, I'm aware.

8 Q. And do you understand that that expert panel
9 has not taken the position that every measure that CMS
10 looks at should also be a measure that Leapfrog looks
11 at for patient safety?

12 A. Yes.

13 MR. TAKAGAKI: Objection. You're asking her
14 her knowledge of what Leapfrog's expert panel
15 talks about in its meetings and considers?

16 MS. BLAIR: Yeah, I'm asking her questions.

17 BY MS. BLAIR:

18 Q. And, ma'am, so you use the word
19 "duplication," and I'm trying to get at what you meant
20 by "duplication."

21 And so I understand that CMS measures that
22 go into the overall CMS star rating are not the same,
23 are not one to one with the measures that Leapfrog
24 looks at for its rating. Do you understand that to be
25 the case?

Gina West
September 25, 2025

Page 197

1 MR. TAKAGAKI: Objection.

2 A. I would really need to see them side by side
3 in terms of patient satisfaction, how are they similar,
4 how are they different. CAUTI, CLABSI, C. diff, MRSA,
5 how is it same; how is it different; how would Leapfrog
6 take that information. If all of the measures and --
7 if that's what you suggested, right? All CMS measures
8 and Leapfrog would give them a grade?

9 Q. Yeah, I'm not suggesting anything. I'm just
10 trying to figure out what you meant when you used the
11 word "duplication."

12 A. Duplication. I understood you to say, ask
13 me about Leapfrog taking all of the CMS measures,
14 putting them into the Leapfrog system and producing a
15 grade from there. And I didn't understand the, you
16 know, the idea of the duplication of that.

17 Q. Understood. Okay. So let's go through
18 this.

19 We talked before that there are 22 measures,
20 right, that the Leapfrog Hospital Survey grades on?

21 A. Yes.

22 Q. And we talked about the ten outcome
23 measures. Do you recall that?

24 A. Yes.

25 Q. And those ten outcome measures, the data

Gina West
September 25, 2025

Page 198

1 that Leapfrog uses comes from CMS, do you understand
2 that?

3 A. I do.

4 Q. And then of the twelve process measures,
5 five of those come from CMS data, do you understand
6 that?

7 A. Yes.

8 Q. And the other seven come from the Leapfrog
9 Hospital Safety Grade, correct?

10 A. Correct.

11 Q. And so I'm asking if we took out those seven
12 measures, we, being Leapfrog, and the grade simply
13 consisted of the 15 measures that come from CMS data --
14 and I'm sorry I was unclear -- that come from CMS data,
15 would it be your opinion that that would be a more
16 accurate representation of a hospital's safety?

17 MR. TAKAGAKI: Objection. Incomplete
18 hypothetical. Vague. Calls for speculation.
19 Lack of foundation.

20 A. I would really need to see it because I -- I
21 don't know what the weighting would be. I don't know
22 what the final grade would be. There's just so many
23 variables that just a hypothetical doesn't get into.

24 BY MS. BLAIR:

25 Q. Okay. And so I'm just trying to make sure.

Gina West
September 25, 2025

Page 199

1 Your issue with the change in the fall 2024 Leapfrog
2 methodology, was it with just the imputation method, or
3 do you have other issues with the fall 2024
4 methodology?

5 MR. TAKAGAKI: Objection.

6 A. My opinion --

7 BY MS. BLAIR:

8 Q. Yeah.

9 A. -- is that it further hurt hospitals and
10 hurt their reputation because the information that I've
11 received is that we started losing patients because of
12 that. We started, you know, having physicians state
13 that they didn't want to come to our hospitals. We
14 have excellent hospitals. We have level I trauma
15 centers. You know, we have -- we have pediatric -- we
16 have a pediatric hospital. We provide great care, and
17 to have that in the media as part of our reputation is
18 very hurtful.

19 BY MS. BLAIR:

20 Q. And what was the -- you used the word "it,"
21 and I want to make sure we understand. You said, "My
22 opinion is that it further hurt hospitals..." And I
23 want to know, what do you -- what is the "it"?

24 A. The change in the scoring methodology and
25 change in the grades.

Gina West
September 25, 2025

Page 200

1 Q. Okay. And my question was, is your issue
2 with the change in the methodology related to the new
3 imputation model for these four measures, BCMA -- BCMA,
4 CPOE, hand hygiene and ICU physician staffing?

5 A. It didn't help. If I were able to give a
6 recommendation, I would recommend for any hospital not
7 participating in the Leapfrog survey not be included.

8 Q. And in what way would any consumer -- let me
9 ask you this.

10 Do you think consumers deserve to be
11 provided with transparent information related to a
12 hospital's patient safety?

13 MR. TAKAGAKI: Objection.

14 A. Yes, I do.

15 BY MS. BLAIR:

16 Q. And do you believe that consumers are --
17 should be provided with transparent information with
18 respect to a hospital's HAIs, for example?

19 MR. TAKAGAKI: Objection.

20 A. Yes, I do.

21 BY MS. BLAIR:

22 Q. And do you believe that patients should be
23 provided with transparent information regarding whether
24 or not a hospital's CPOE system is functioning
25 properly?

Gina West
September 25, 2025

Page 201

1 MR. TAKAGAKI: Objection.

2 A. I don't have an opinion about that.

3 BY MS. BLAIR:

4 Q. Okay. And why don't you have opinion about
5 the CPOE system?

6 MR. TAKAGAKI: Objection.

7 A. If I understood your question correctly, it
8 was whether or not the community or the public should
9 be provided the information, so I don't really have an
10 opinion about that.

11 I know from the way that we're surveyed that
12 that they're looking at this when we're surveyed
13 multiple times to make sure that we have an appropriate
14 system in place, that we're utilizing it correctly,
15 we're collecting data, we're providing information,
16 that we are transparent. So I don't know that I can
17 say --

18 Q. Well, when you say you're surveyed --

19 MR. TAKAGAKI: Well, let her -- was she
20 done answering?

21 BY MS. BLAIR:

22 Q. Oh, I'm sorry. Were you done answering?

23 A. It's fine.

24 Q. I didn't mean to cut you off. Are you done
25 answering?

Gina West
September 25, 2025

Page 202

1 A. I'll be finished.

2 Q. When you say "when we are surveyed," are you
3 referring to the SAFER® survey?

4 A. I'm referring to like the Joint Commission
5 surveys, the agency on healthcare administration, the
6 AHCA, AHCA.

7 Q. AHCA.

8 A. That's where we're validated.

9 Q. And I understand that, but I thought you
10 told me earlier that the Joint Commission doesn't
11 provide any actual data to consumers on CPOE.

12 MR. TAKAGAKI: Objection.

13 A. That's correct.

14 BY MS. BLAIR:

15 Q. AHCA does, however, as I understand your
16 previous testimony, correct?

17 A. Yes.

18 Q. In what way do you understand that AHCA
19 provides transparent publicly available data to
20 consumers about the CPOE system of a hospital?

21 A. They make the survey results public.

22 Q. And then with respect to hand hygiene, does
23 the Joint Commission make its findings on hand hygiene
24 public to consumers?

25 A. No.

Gina West
September 25, 2025

Page 203

1 Q. Do you think it's important that patients
2 have transparent information related to a hospital's
3 commitment to hand hygiene?

4 MR. TAKAGAKI: Objection. Vague.

5 A. Yes.

6 BY MS. BLAIR:

7 Q. Are you aware of any publicly available data
8 through any source that gives consumers publicly
9 available and transparent data related to a hospital's
10 hand hygiene?

11 A. Yes.

12 Q. And what is that?

13 A. It's my understanding that AHCA makes their
14 surveys available to the public. We were surveyed
15 extensively just at the beginning of this year.
16 Hand hygiene was a huge component of that.

17 Q. And HCA -- AHCA is specific to Florida,
18 correct?

19 A. Correct.

20 Q. Other than AHCA, is there any other publicly
21 available data for a hospital that you know of related
22 to hand hygiene?

23 A. Not that I recall right now.

24 Q. Do you know if there's any -- do you believe
25 that the public is entitled to have transparent

Gina West
September 25, 2025

Page 204

1 information about a hospital's ICU physician staffing?

2 MR. TAKAGAKI: Objection.

3 A. I don't have an opinion about that.

4 BY MS. BLAIR:

5 Q. And why don't you have an opinion about
6 that?

7 MR. TAKAGAKI: Objection.

8 A. I don't have one.

9 BY MS. BLAIR:

10 Q. Okay. Do you have an opinion about whether
11 or not consumers deserve to have transparent
12 information related to barcode medication
13 administration errors at hospitals?

14 MR. TAKAGAKI: Objection.

15 A. May I ask a clarifying question?

16 BY MS. BLAIR:

17 Q. Sure.

18 A. When you say "transparent data," do you mean
19 hospitals that report to Leapfrog, or do you mean
20 hospitals that have been validated after they've
21 reported through Leapfrog?

22 Q. I'm not --

23 A. When we're talking transparency, is it only
24 the information that's been reported, or is it
25 information that's been validated?

Gina West
September 25, 2025

Page 205

1 Q. This question has nothing to do with
2 Leapfrog. I'm asking in general do you believe that
3 patients deserve to have transparent data related to
4 errors resulting from barcode medication
5 administration?

6 MR. TAKAGAKI: Objection. Vague.
7 Incomplete hypothetical.

8 A. Yes.

9 BY MS. BLAIR:

10 Q. And I think you told me earlier that the
11 Joint Commission does some surveying, correct, of
12 barcode administration for hospitals, correct?

13 A. Correct.

14 Q. Do you know if the Joint Commission makes
15 that, their findings for each hospital publicly
16 available to consumers?

17 A. Not to my knowledge. But AHCA --

18 Q. I was just going to ask you, does AHCA make
19 their findings related to barcode administration
20 available to consumers?

21 A. Yes, to my knowledge.

22 Q. And, again, AHCA is only with respect to
23 Florida hospitals, correct?

24 A. Correct.

25 Q. Do you have an understanding that prior to

Gina West
September 25, 2025

Page 206

1 the --

2 MS. BLAIR: Well, actually can we take a
3 quick break?

4 MR. TAKAGAKI: Sure.

5 MS. BLAIR: Yeah, sorry.

6 THE VIDEOGRAPHER: Off the record 2:41.

7 (A recess was taken from 2:41 p.m. to 2:56 p.m.)

8 THE VIDEOGRAPHER: Back on the record 2:56.

9 BY MS. BLAIR:

10 Q. Ms. West, I want to take you back to that
11 May 2024 time frame when you first are told, I think
12 it's the last Exhibit we looked at, when you were first
13 told that there's going to be a change to the Leapfrog
14 methodology. Did you have an opinion at that point in
15 time as to whether or not the five hospitals that make
16 up the Palm Beach Health Network should participate in
17 the Leapfrog Hospital Survey?

18 A. Yes.

19 Q. And what was your opinion?

20 A. I felt like we should participate.

21 Q. I'm sorry. Your answer was, yes, you felt
22 like you should?

23 A. Correct.

24 Q. And why?

25 A. To avoid negative press and damage to the

Gina West
September 25, 2025

Page 207

1 hospitals' reputation.

2 Q. Did you have any discussions with anyone in
3 public relations for the Palm Beach Health Network in
4 or around this, you know, May 2024 through summer 2024
5 time frame about potential negative press related to
6 the Leapfrog methodology change?

7 A. I don't recall.

8 Q. Do you recall any communications you would
9 have had with Ricky Ramirez regarding potentially
10 negative press related to the 2024 -- fall of 2024
11 methodology change on the Leapfrog Hospital Safety
12 Grade?

13 A. Yes.

14 Q. What do you recall about the conversations
15 you had with Ricky Ramirez?

16 A. We had email communication, and I recall
17 that negative press had already come out at that time.

18 Q. And I want to reorient you.

19 A. Okay.

20 Q. I'm talking about before the grades come
21 out.

22 A. Before the grades come out? If you have
23 anything you can show me.

24 Q. Sure, we can go over some documents.

25 A. Okay.

Gina West
September 25, 2025

Page 208

1 Q. I just want to know, do you recall like
2 Ricky Ramirez's reaction to the methodology change?

3 A. Not specifically, but I'm happy to look at a
4 document.

5 Q. I don't know if I have any on that regard,
6 but we'll show you some documents.

7 Do you recall whether or not you had any
8 conversation with Maggie Gill between May of 2024 and
9 when the hospital safety grades came out about
10 potential negative publicity as a result of the
11 hospital -- I'm sorry -- as a result of the methodology
12 change in the hospital safety grade scoring by
13 Leapfrog?

14 MR. TAKAGAKI: Objection.

15 And when you say "when the grades came out,"
16 you mean the November '24 grades?

17 MS. BLAIR: The November 2024 Hospital
18 Safety Grades.

19 A. I do not remember exact time frames for
20 discussions.

21 BY MS. BLAIR:

22 Q. Okay. And I'm just trying to get a sense of
23 you get this email that we've marked as Exhibit 10,
24 right, that's in front of you?

25 A. Yes.

Gina West
September 25, 2025

Page 209

1 Q. And that's May of 2024. And there is
2 clearly a discussion, at least with respect to
3 Ms. Nunes, where she's alerting you to the fact that
4 this methodology change is coming, correct?

5 A. Correct.

6 Q. And do you recall -- you know, you've told
7 me what your reaction is. Do you recall whether your
8 reaction to that was in or around the same time that
9 you were informed of the methodology change?

10 A. I don't recall.

11 Q. And do you recall that this methodology
12 change was put out for public comments by Leapfrog
13 asking hospitals and others to comment as to whether or
14 not they supported the methodology change or not?

15 A. Yes, I do.

16 Q. Did you as the director of quality for
17 Palm Beach Health Network follow any of the public
18 comment that was being given to Leapfrog with respect
19 to the proposed fall 2024 methodology change?

20 A. I did not.

21 Q. Did you have any conversations with anybody
22 at the Palm Beach Health Network about whether or not
23 any of the five hospitals or the Palm Beach Health
24 Network itself should make a public comment with
25 respect to this methodology change?

Gina West
September 25, 2025

Page 210

1 A. It's so broad. And, again, I'm happy to
2 look at any document that you have and then comment on
3 that.

4 Q. Sure, my understanding --

5 A. But --

6 Q. I don't mean to cut you off.

7 MR. TAKAGAKI: I was going to say, finish
8 your answer.

9 BY MS. BLAIR:

10 Q. Yes, finish your answer. I didn't mean to
11 cut you off.

12 A. It's okay.

13 Q. I understand from the interrogatory answers
14 that have been provided in this case that there was no
15 communication between any of these five hospitals and
16 Leapfrog related to the public comment period for this
17 methodology change.

18 And so I'm asking you, is that consistent
19 with your understanding?

20 A. Yes, it is.

21 MR. TAKAGAKI: Objection. Lack of
22 foundation.

23 BY MS. BLAIR:

24 Q. And so even though there was no public
25 comment -- even though none of the five hospitals

Gina West
September 25, 2025

Page 211

1 publicly commented to Leapfrog regarding the
2 methodology change, do you recall whether there was any
3 discussions internally about whether you should
4 publicly comment on the methodology change?

5 A. Yes, I do.

6 Q. Okay. And what do you recall about those
7 conversations?

8 A. I recall an email thread -- again, I don't
9 know what the time frame is -- where a question was
10 posed as to whether or not we were going to comment,
11 and I responded that we were not going to comment.

12 Q. Okay. And what was the basis for your
13 position that "we're not going to comment"?

14 A. Generally we don't comment at a local level
15 hospital to hospital. We work through Tenet Healthcare
16 system to make any type of comment that would be public
17 in nature.

18 Q. Do you recall whether or not you reached out
19 to anyone at Tenet health system about commenting on
20 the Leapfrog methodology change that was proposed for
21 fall of 2024?

22 A. I don't recall.

23 Q. Do you recall whether you had any
24 conversations with Maggie Gill about your opinions
25 about whether Tenet health system should comment

Gina West
September 25, 2025

Page 212

1 publicly with respect to the proposed methodology
2 change by Leapfrog for fall of 2024?

3 A. I do not recall.

4 Q. Do you recall whether or not any of the
5 directors of quality for any of the five hospitals
6 provided their opinion to you about whether or not the
7 hospitals should publicly comment about the methodology
8 change?

9 A. No, I don't recall.

10 MS. BLAIR: We'll mark this as Number 11.

11 (Defendant's Exhibit Number 11 for i.d.)

12 BY MS. BLAIR:

13 Q. Ms. West, I'm now handing you what we've
14 marked Exhibit Number 11 to your deposition. This is
15 an email from you to Anna Gunod, G-u-n-o-d, CC'ing
16 Andrea Nunes, Heather Wehmeyer, Kathleen McDonald and
17 Taylor Pool dated September 25th, 2024. And the
18 subject is "Leapfrog."

19 Do you see that?

20 A. I do.

21 Q. And the first sentence from you it says, "If
22 we would like to participate in the next survey, are we
23 able?"

24 Do you see that?

25 A. I do.

Gina West
September 25, 2025

Page 213

1 Q. And are you aware of whether there were any
2 conversations between May of 2024 in Exhibit 10 and
3 this Exhibit 11 which is September of 2024 between you
4 and any of the directors of quality about participating
5 in the next Leapfrog Hospital Survey?

6 A. That's so broad, and sitting here today, I'm
7 not able to recall that right now, but I'm able to
8 comment on any document you may have.

9 Q. Okay. So but this says, "If we would like
10 to participate," and it's CC'd to the quality
11 directors, and so I'm just wondering if that refreshes
12 your recollection as you look at this document as to
13 whether there was a request on behalf of not only
14 yourself but all the directors of quality for the five
15 hospitals that make up Palm Beach Health Network?

16 A. That would be correct.

17 Q. And does this, this document, and I
18 understand you have no specific recollection, and it's
19 not a guessing game, but does this document in any way
20 refresh your recollection about what those
21 conversations would have been?

22 A. Could you further clarify "conversations"?

23 Q. Sure. Do you recall any one of the quality
24 directors of any of the five hospitals that make up
25 Palm Beach Health Network objecting to participating in

Gina West
September 25, 2025

Page 214

1 a Leapfrog Hospital Survey going forward?

2 A. I don't recall that.

3 Q. Do you recall any of the five directors of
4 quality for the five hospitals that make up Palm Beach
5 Health Network telling you that they would have to hire
6 additional staff in order to participate in the
7 Leapfrog Hospital Survey?

8 A. I do not remember that for this period. I
9 do remember that for the prior period. And it was
10 something that came up during the initial conversation.
11 And one of the decisions, one of the reasons that we
12 decided not to participate was how much time we were
13 spending just on Leapfrog, the survey response,
14 gathering the data, collecting it, putting it in usable
15 format to get it to where we could enter it and those
16 other duties were falling to the side. So I remember
17 that being a component early on. I do not remember
18 that being a component during this time period.

19 Q. And just for my record when you say "a
20 component early on," are you referring to that
21 conversation we had back in -- that you and I had about
22 back in 2021 when the design was made to stop during
23 the survey?

24 A. That is correct.

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 215

1 BY MS. BLAIR:

2 Q. Do you recall any conversations between that
3 time in 2021 and this email in September of 2025 [sic]
4 where there was a discussion to potentially restart
5 participation in the Leapfrog Hospital Survey where the
6 issue of having to add additional staff was discussed?

7 MR. TAKAGAKI: Objection.

8 A. I don't recall that.

9 MR. TAKAGAKI: And I think you referred to
10 this email as "2025."

11 MS. BLAIR: Oh, I meant "2024."

12 MR. TAKAGAKI: I think you meant 2024.

13 MS. BLAIR: I meant September 25, 2024.

14 Thank you very much.

15 BY MS. BLAIR:

16 Q. If we look at this email the second sentence
17 from you, you said, "We have done this in the past so
18 it would not be new participation."

19 Do you see that?

20 A. I do.

21 Q. Are you referring to the fact that you had
22 participated back in 2021?

23 A. Correct.

24 Q. And then you say, "This takes SMMC" -- is
25 that St. Mary's?

Gina West
September 25, 2025

Page 216

1 A. It is.

2 Q. -- "from 100 points in each of the
3 categories below to limited achievement scores."

4 Do you see that?

5 A. I do.

6 Q. Does this refresh your recollection that the
7 five hospitals who were not participating in the
8 Leapfrog Hospital Survey were receiving 100 out of
9 100 points for the imputed measures prior to fall of
10 2024?

11 A. Yes.

12 Q. And you were going to go from 100 points to,
13 if we look at this like chart in the middle of the
14 page, these were going to be the limited achievement
15 points that were going to be awarded to
16 nonparticipating hospitals for these four hospitals --
17 I'm sorry -- five hospitals under the limited
18 achievement category for the fall 2024 methodology,
19 correct?

20 A. Correct.

21 Q. And then you say, "We will likely decrease
22 an entire letter and score a D this time around."

23 Do you see that?

24 A. Yes.

25 Q. And when you say "we," are you referring to

Gina West
September 25, 2025

Page 217

1 St. Mary's there?

2 A. Yes.

3 Q. Because Delray was already a D, correct?

4 A. I would --

5 MR. TAKAGAKI: Objection.

6 A. I would have to look at a document.

7 BY MS. BLAIR:

8 Q. Okay. Do you -- is it your belief that if a
9 hospital under the fall of 2024 methodology, if a
10 hospital does not participate in the Leapfrog Hospital
11 Survey, they automatically receive a D or an F?

12 A. No.

13 Q. And if you look at this document, if we go
14 to the bottom of the second page, there's an email that
15 starts from Anna Gunod to DLDCQI only. Do you see
16 that?

17 A. Yes.

18 Q. Would you be -- have been part of the DLDCQI
19 only group?

20 A. Yes.

21 Q. And she says here, "Good morning quality
22 leaders. I'm doing an annual check-in on Leapfrog
23 participation."

24 Do you see that?

25 A. I do.

Gina West
September 25, 2025

Page 218

1 Q. Is this similar to what we were discussing
2 earlier this morning about the fact that Tenet home
3 office checked in regularly about participation on the
4 Leapfrog Hospital Safety Grade?

5 MR. TAKAGAKI: Objection.

6 A. This is a different check-in.

7 BY MS. BLAIR:

8 Q. Okay. And what is this check-in?

9 A. This is an independent check-in by
10 Anna Gunod.

11 Q. And she's checking in with respect to
12 Leapfrog participation in the hospital survey?

13 A. That is correct.

14 Q. And was it your understanding in or around
15 this time, which is September of 2024, that no
16 hospitals of Tenet were participating in a Leapfrog
17 Hospital Survey system wide?

18 MR. TAKAGAKI: Objection.

19 A. I didn't have an understanding of that.

20 BY MS. BLAIR:

21 Q. And if we look back at Exhibit 3, which is
22 an Exhibit from Andrea Nunes, you see here she says in
23 the second to last paragraph, "I do know that
24 Christen Mayer stated we would not participate as a
25 system in 2023."

Gina West
September 25, 2025

Page 219

1 Do you see that?

2 A. I do.

3 Q. Was Andrea mistaken about whether or not
4 Tenet as a system was going to participate in the
5 hospital survey in 2023?

6 MR. TAKAGAKI: Objection.

7 A. I don't recall.

8 BY MS. BLAIR:

9 Q. Okay. And Christen Mayer that we discussed
10 was the national director of --

11 A. Quality.

12 Q. -- quality, correct?

13 A. Correct.

14 Q. And so when Anna Gunod, who is the national
15 director of infection prevention in our Exhibit 11, is
16 doing a different annual check-in, did you have any
17 understanding in or around this time, September of
18 2024, as to whether any hospitals in the Tenet system
19 were participating in the Leapfrog Hospital Survey?

20 A. I didn't have a sense.

21 Q. And then if we go back to the second page of
22 this email, you write, "The hospitals in PBHN are not
23 participating," correct?

24 A. Correct.

25 Q. And that's based on what we had talked about

Gina West
September 25, 2025

Page 220

1 earlier this morning that in 2021 a decision was made
2 by the five hospitals to stop participating in the
3 Leapfrog Hospital Survey due to the large amount of
4 resources it took to comply, correct?

5 A. Yes.

6 MR. TAKAGAKI: Objection.

7 BY MS. BLAIR:

8 Q. And that email we just looked at,
9 Exhibit 11, do you recall -- you said "If we would like
10 to participate in the next survey, are we able?"

11 Do you recall whether Anna Gunod got back to
12 you or not?

13 A. Yes, I do.

14 Q. Okay. And what -- did she get back to you
15 in an email?

16 A. Yes.

17 Q. And what do you recall her email saying?

18 A. I recall her email saying that we were not
19 able to participate.

20 Q. And did you have a follow-up call with her
21 about that fact?

22 A. Not that I recall.

23 Q. So is it fair to say all the communications
24 you had with Anna Gunod related to whether or not the
25 five hospitals that make up Palm Beach Health Network

Gina West
September 25, 2025

Page 221

1 could participate in the Leapfrog Hospital Survey for
2 fall of 2024 was in writing?

3 MR. TAKAGAKI: Objection.

4 A. Yes.

5 (Defendant's Exhibit Number 12 for i.d.)

6 BY MS. BLAIR:

7 Q. And so we can mark that as Exhibit 12. Can
8 I see it real fast? I might have given you the wrong
9 one. Oh, no, I didn't. Sorry. Thank you.

10 Ms. West, I've handed you what we've now
11 marked as Exhibit 12. And if we go to the second --
12 oh, this is a document, the first, the email on the
13 first page is an email from you to Ricky Ramirez dated,
14 excuse me, September 27th, 2024, correct?

15 A. Correct.

16 Q. And if we go to the second page of this
17 Exhibit, it starts with an email from Anna Gunod on
18 September 26, 2024 to you. Do you see that?

19 A. I do.

20 Q. And she says, "Hi, Gina. Leapfrog
21 participation is not supported unless it is directly
22 tied to a payment contract or a local regulatory
23 requirement."

24 Do you see that?

25 A. I do.

Gina West
September 25, 2025

Page 222

1 Q. Do you know what she means by
2 "payment/contract" or "local regulatory requirement"?

3 A. I don't know.

4 Q. And is Leapfrog related in any way to a
5 payment or contract for any of the five hospitals that
6 are plaintiffs in this litigation?

7 A. Not to my --

8 MR. TAKAGAKI: Objection.

9 A. Not to my knowledge.

10 THE WITNESS: Sorry.

11 BY MS. BLAIR:

12 Q. And then you respond at the top of the
13 second page of this email, you say, "Although not
14 supported, is it left up to the local markets to decide
15 or a strict no from home office?"

16 Do you see that?

17 A. Yes.

18 BY MS. BLAIR:

19 Q. And what is your -- she responds then if we
20 go to the first page of this Exhibit, Ms. Gunod
21 responds to you, "It is a no from home office."

22 Do you see that?

23 A. I do.

24 Q. What was your understanding of home office's
25 role in making decisions about whether or not

Gina West
September 25, 2025

Page 223

1 Palm Beach Health Network hospitals could participate
2 in the Leapfrog survey?

3 A. I'm sorry. Could you repeat it?

4 Q. Sure. As I understood our discussion
5 earlier today, in 2021, it was the decisions -- it was
6 the decision of these five hospitals collectively to
7 stop participating in the Leapfrog Hospital Survey,
8 correct?

9 A. Correct.

10 MR. TAKAGAKI: Objection to the extent it
11 mischaracterizes previous testimony and lacks
12 foundation.

13 BY MS. BLAIR:

14 Q. And then subsequently we see in this
15 Exhibit Number 11 [sic] that home office is making the
16 decision as to -- I'm sorry -- Exhibit 12 -- that home
17 office is making the decision for you about whether or
18 not you can participate in the Leapfrog hospital survey
19 going forward, correct?

20 MR. TAKAGAKI: Objection. Lacks foundation.

21 A. It's not necessarily just the home office
22 decision, but in terms of that piece of it where the
23 home office did not want us to participate, that would
24 have been an area that I would have wanted to clear or
25 make sure that we had support, you know, just if we

Gina West
September 25, 2025

Page 224

1 were going to make a different request somewhere else
2 make through the market again.

3 BY MS. BLAIR:

4 Q. Okay. I want to make sure I understand your
5 answer. You said, "It's not necessarily just the home
6 office decision, but in terms of that piece of it..."

7 What is "that piece of it" that you're
8 referring to?

9 A. So we already had a decision that we weren't
10 going to participate. And then we had the home office
11 that had asked for whether or not we were
12 participating. I responded that we weren't.

13 But then I asked could we, and the response
14 was, no, it's a no from the home office. So it's a no
15 from the home office even though we've already made a
16 decision not to do it. It's really information
17 gathering.

18 Q. Okay. So at this point, if I understand
19 you, at this point on, in or around September 27th,
20 2024, you, the five hospitals, have already made the
21 decision that you're not going to participate in the
22 Leapfrog Hospital Survey for fall of 2024?

23 A. Correct.

24 MR. TAKAGAKI: Objection.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 225

1 Q. Got it.

2 (Defendant's Exhibit Number 13 for i.d.)

3 BY MS. BLAIR:

4 Q. And if we look at Number 13, what we'll mark
5 as 13, Ms. West, I'm handing you a document that the
6 first email that -- well, it's Bates labeled finally,
7 PBHN 5092 through PBHN 5093. Do you have that in front
8 of you? Those are the little numbers on the bottom
9 right-hand side.

10 A. I do.

11 Q. And if we look at your email in the middle
12 of the first page of this Exhibit, from you to
13 Ricky Ramirez, "Subject: Leapfrog Scores," do you see
14 that email?

15 A. I do.

16 Q. And it's dated September 25th, 2024,
17 correct?

18 A. Correct.

19 Q. And this is, I believe, the same date as the
20 document we saw, or close to the same dates of the
21 document we saw as Exhibit 11 and 12, correct?

22 That's all right. You can look at it.

23 A. Okay. Would you mind repeating your
24 question?

25 Q. Sure. So if we look at Exhibit 11, that's

Gina West
September 25, 2025

Page 226

1 dated September 25th, correct?

2 A. Correct.

3 Q. And then if we look at what I just marked as
4 Exhibit 13, the middle email from you to Ricky Ramirez
5 is also dated September 25th, correct?

6 A. Correct.

7 Q. And in your email to Ricky Ramirez, you say,
8 "Ricky, Our Leapfrog scores will take a huge dive
9 across the market in fall reporting period because we
10 haven't participated in the survey process for two
11 years. I respectfully request to begin the process
12 begin."

13 Do you see that?

14 A. I do.

15 Q. Okay. So on September 25th were you wanting
16 to participate in the Leapfrog Hospital Survey for fall
17 of 2024 on behalf of all five hospitals, or had you
18 already made the decision that you -- that the five
19 hospitals that make up Palm Beach Health Network were
20 not going to participate?

21 MR. TAKAGAKI: Objection.

22 A. The decision had already been made. It
23 hadn't changed since 2021.

24 But, again, knowing how this was going to
25 affect us, I made the request to participate.

Gina West
September 25, 2025

Page 227

1 BY MS. BLAIR:

2 Q. And then if we look at Exhibit 12, which is
3 the one, Exhibit 12 where they say, "It's a no from
4 home office," do you see that as your request to
5 participate being denied by home office?

6 A. Yes.

7 MR. TAKAGAKI: Objection.

8 A. It states, "Facilities would need an
9 exception due to Leapfrog participation being tied to
10 local requirement, contract compliance or reimbursement
11 need to submit their case for review by Dr. Franklin."

12 BY MS. BLAIR:

13 Q. Okay. And did you submit your case for
14 review by Dr. Franklin?

15 A. I did not.

16 Q. And do you recall with respect to your email
17 of September 25th, 2024 which we've marked as
18 Exhibit 13 -- it's in the middle -- do you recall any
19 discussions you had with Ricky Ramirez in or around
20 that time related to your request on behalf of the five
21 hospitals that make up Palm Beach Health Network to
22 participate in the Leapfrog Hospital Survey?

23 A. I don't recall a verbal request, but I do
24 remember this, the email request.

25 Q. Okay. So as you sit here today, you just

Gina West
September 25, 2025

Page 228

1 don't recall any discussions with Ricky Ramirez?

2 A. Verbal, verbal discussions.

3 Q. Do you recall whether or not Ricky Ramirez
4 was supportive of your request to participate in the
5 Leapfrog Hospital Survey for fall of 2024?

6 A. I remember that Ricky Ramirez was not
7 supportive of that request.

8 Q. And what is your memory about why he was not
9 supportive?

10 A. I don't remember all of the details.

11 Q. Sure.

12 A. But if you can show me a document...

13 Q. I don't have a document. I'm just asking
14 you what you recall.

15 A. I don't remember if it went past the
16 original reason of it being very lengthy and
17 time-consuming and we needed to focus on some of the
18 other work we had.

19 Q. Sure.

20 Did you have you any discussions with
21 Ricky Ramirez that you can recall about what impact a
22 downgrade in the Leapfrog grade may have from a PR
23 perspective for the hospitals?

24 A. I remember an email thread.

25 Q. And what do you recall about that email

Gina West
September 25, 2025

Page 229

1 thread?

2 A. I do not recall the details.

3 Q. And it was not this email thread that we
4 were just discussing which we've marked as Exhibit 13?

5 A. That's correct.

6 Q. Okay. Did you review that email thread that
7 you just told me about in preparation for your
8 deposition today?

9 A. I may have.

10 Q. Okay. Ultimately, the five hospitals that
11 make up Palm Beach Health Network did not participate
12 in the fall 2024 Leapfrog Hospital Survey, correct?

13 A. Correct.

14 Q. And do you have any recollection of what the
15 grades were that were posted for these five hospitals
16 from the fall of 2024 methodology?

17 A. I do not off the top of my head.

18 Q. Do you recall that they were all D's and
19 F's?

20 A. Yes, I do.

21 Q. What is your involvement, if any, in public
22 relations?

23 A. Could you further clarify?

24 Q. Sure. Well, let's talk about a document
25 maybe.

Gina West
September 25, 2025

Page 230

1 MS. BLAIR: We'll mark this as 14.

2 (Defendant's Exhibit Number 14 for i.d.)

3 BY MS. BLAIR:

4 Q. Ms. West, I'm handing you what we've now
5 marked as Exhibit 14. This is an email with -- or this
6 is an Exhibit with Bates numbers PBHN 5094 through
7 5096.

8 Is this the email thread if we go back to --
9 let's just go back to, I guess, the bottom of the first
10 page, Ricky says, same date, September 25th, 2024, same
11 date as Exhibit 13 that we saw, he says, "I understand.
12 Honestly, I don't see the value in Leapfrog, but please
13 send me all of projected grades for the market and I
14 will discuss with Maggie."

15 Do you see that?

16 A. I do.

17 Q. Is this the email thread you were referring
18 to earlier?

19 MR. TAKAGAKI: Objection.

20 A. It's not. And the email thread that comes
21 to mind to me was one where the grades are -- had
22 already been published and there was already negative
23 media postings.

24 BY MS. BLAIR:

25 Q. Okay. And so if we look at the email in the

Gina West
September 25, 2025

Page 231

1 middle of this page from you to Ricky Ramirez,
2 "Subject: Leapfrog scores," and this is now
3 November 4th, 2024, do you see that?

4 A. I do.

5 Q. Do you recall any conversations you may have
6 had with Ricky Ramirez between September of 2024 and
7 November of 2024 regarding the anticipated grades for
8 the five hospitals, the anticipated Leapfrog grades for
9 the five hospitals that make up the Palm Beach Health
10 Network?

11 A. Outside of the emails, I do not recall
12 verbal conversations.

13 Q. Okay. And do you see Ricky says, "I will
14 discuss it with Maggie?"

15 I'm referring to the bottom of this page
16 email. Do you see that?

17 A. I do.

18 Q. Do you understand that Maggie would be
19 Maggie Gill, the CEO of Palm Beach Health Network?

20 A. Yes.

21 Q. Were you ever -- did you ever become aware
22 of what Maggie Gill's position was with respect to
23 whether or not the five hospitals associated with the
24 Palm Beach Health Network could participate in the fall
25 of 2024 Leapfrog Hospital Survey?

Gina West
September 25, 2025

Page 232

1 MR. TAKAGAKI: Objection.

2 A. I don't recall the details of what her
3 recommendations were.

4 BY MS. BLAIR:

5 Q. Okay. But ultimately there was no
6 participation in the survey, correct?

7 A. Correct.

8 Q. And then if we see here your email in the
9 middle of the page Regina West November 24, 2024 you
10 said, "I'm being asked if we have a marketing
11 communication plan ready."

12 Do you see that?

13 A. Yes, I do.

14 Q. What do you recall about the marketing
15 communication plan that was being asked of you in or
16 around November of 2024?

17 A. I don't recall honestly.

18 Q. Do you recall who was asking you about
19 whether there was a marketing plan in place?

20 A. No, I'm sorry, I don't.

21 Q. And then you see here, the grades for
22 Delray, F; Good Sam, F; Palm Beach Gardens, F;
23 St. Mary's, D; and West Boca D. Do you see that?

24 A. I do.

25 Q. Is that your -- were you relaying to Ricky

Gina West
September 25, 2025

Page 233

1 in this message what the projected grades were going to
2 be or had they already come out?

3 A. They had already come out.

4 Q. And so I asked you, I started this whole
5 thing by asking you what involvement you had in public
6 relations surrounding the release of the fall 2024
7 hospital safety grades. Did you have any involvement?

8 A. I didn't.

9 Q. So despite the fact that somebody was asking
10 for a marketing communication plan, you wouldn't have
11 had any involvement in putting that together?

12 MR. TAKAGAKI: Objection.

13 A. I recall at some point someone sending to me
14 a response, but I don't know if it was premedia,
15 postmedia. I can't remember, but I do recall reading a
16 response.

17 BY MS. BLAIR:

18 Q. Okay. I'm going to show you some documents
19 about responses. It's not a memory test.

20 A. Okay.

21 Q. But other than someone showing you a
22 premedia or postmedia response, did you have any
23 involvement in putting together a public relations plan
24 related to the release of the Leapfrog fall 2024 safety
25 grades?

Gina West
September 25, 2025

Page 234

1 A. No.

2 Q. Were you involved in any way with drafting
3 of any responses related to the release of the fall
4 2024 safety grades?

5 A. I recall reading a response, but, again, I
6 don't know if it was pre or post.

7 Q. Right. And I don't know. In my mind
8 there's a difference between reading and drafting so I
9 want to be very clear.

10 Were you involved in drafting any media
11 responses?

12 A. No.

13 Q. Were you involved in giving any edits to
14 media responses related to the release of the fall 2024
15 hospital safety grade?

16 A. If I could review a document, that's going
17 to help me answer your question.

18 Q. But without any documents in front of you,
19 you have no recollection of any of that; is that fair?

20 A. Correct.

21 Q. Who was involved in public relations for the
22 Palm Beach Health Network in or around November of
23 2025?

24 A. Because I can't recall, I don't want to
25 speculate.

Gina West
September 25, 2025

Page 235

1 Q. Okay. Who was in charge of public relations
2 for the Palm Beach Health Network today?

3 A. Lisa Cook.

4 Q. Do you know if Lisa Cook was employed by
5 Palm Beach Health Network in or around 2024?

6 A. Yes, she was.

7 Q. And do you know what capacity she was
8 employed in for the Palm Beach Health Network in or
9 around November of 2024?

10 A. Yes.

11 Q. And what --

12 A. I don't know her exact title.

13 Q. Okay.

14 A. But essentially it's the marketing director
15 of marketing.

16 Q. Okay.

17 A. The director of marketing for the Palm Beach
18 Health Networks is a better way to put it.

19 Q. That was going to be my question. So she's
20 at the group level, correct?

21 A. At the market level.

22 Q. Or the market level.

23 Does she have any job responsibilities for
24 any specific hospitals that you know of?

25 A. I don't know her specific job

Gina West
September 25, 2025

Page 236

1 responsibilities.

2 Q. And Lisa Cook does not report to you,
3 correct?

4 A. Correct.

5 Q. And you do not report to Lisa Cook, correct?

6 A. Correct.

7 MS. BLAIR: 15. If you could mark this as
8 Exhibit 15.

9 (Defendant's Exhibit Number 15 for i.d.)

10 BY MS. BLAIR:

11 Q. Ms. West, I'm handing you what's been marked
12 as Exhibit 15, and granted you are not on these emails
13 that I can see, but my question is, if we go to the
14 bottom here, you'll see that Andrew Lofholm is sending
15 several people an email on December 10th, 2024 and
16 subject is Stet news coverage of Leapfrog rankings.

17 Do you see that?

18 A. Yes.

19 Q. And if we turn to the next page, there's a
20 newspaper article entitled "Tenet hospitals at bottom
21 of local safety grades."

22 And my question is, did you see this article
23 in or around December of 2024?

24 A. It feels familiar.

25 Q. I know it's hard. But do you have any

Gina West
September 25, 2025

Page 237

1 specific recollection of receiving this?

2 A. I don't.

3 Q. Do you recall whether this was the first
4 article that was published regarding the Leapfrog
5 Hospital Safety Grades for the fall of 2024 that were
6 received by the five hospitals that make up the Palm
7 Beach Health Network?

8 A. I do not recall if this was the first.

9 Can I comment on this?

10 Q. Yes.

11 A. It's very interesting that Jupiter Medical
12 Center is the lone local A grade in ranking by
13 The Leapfrog Group. This medical center sends many
14 patients to our hospitals. They don't keep them and
15 care for them. And that's not all of them. But they
16 send us hundreds of patients, this A hospital --

17 Q. I'm aware.

18 A. -- sends to ours.

19 Q. Right, okay. Yeah.

20 MR. TAKAGAKI: Did you have anything else to
21 say there?

22 THE WITNESS: No.

23 BY MS. BLAIR:

24 Q. And after -- well, let's talk about that for
25 a second. After these grades came out in or around

Gina West
September 25, 2025

Page 238

1 November of 2024, has Jupiter slowed its transfer of
2 patients to the five hospitals that make up Palm Beach
3 Health Network?

4 MR. TAKAGAKI: Objection.

5 A. I don't have knowledge of that.

6 BY MS. BLAIR:

7 Q. Do you recall in or around December of 2024
8 any discussions that were occurring with anyone
9 associated with Palm Beach Health Network regarding the
10 publicity that was occurring from the publication of
11 the fall 2024 Leapfrog Hospital Safety Grade?

12 A. Yes.

13 Q. And what do you recall about those
14 discussions?

15 A. I had a discussion with Sheri Montgomery in
16 regards to essentially how scary it is to have quality
17 hospitals viewed so negatively.

18 Q. And Sheri Montgomery, for the record, was
19 the CEO of Good Samaritan in or around December of
20 2024, correct?

21 A. Correct.

22 Q. What else do you recall Ms. Montgomery
23 saying to you about the publicity surrounding the
24 publication of the Leapfrog fall 2024 hospital safety
25 grade?

Gina West
September 25, 2025

Page 239

1 A. At some point, and I don't know what the
2 time frame is, she talked to me about patients that had
3 cancelled their surgeries, about physicians that no
4 longer wanted to work at Good Sam. I guess that's
5 essentially it.

6 Q. Any other discussions? So you told me
7 about -- have you told me everything you recall about
8 your discussion with Sheri Montgomery in or around the
9 time that the initial publicity surrounding the fall
10 2024 hospital safety grade came out?

11 A. Yes.

12 Q. Any discussions with anyone else you recall
13 in or around this time?

14 A. No, not around this time frame.

15 Q. And that time frame that we're discussing is
16 December of 2024, correct?

17 A. Yes.

18 Q. What about later in January of 2025, do you
19 recall any conversations you had with anybody related
20 to publicity surrounding the publication of the fall of
21 2024 Leapfrog Hospital Safety Grade?

22 A. Not off the top of my head.

23 Q. What about February of 2025, any memory of
24 any conversation?

25 A. No.

Gina West
September 25, 2025

Page 240

1 Q. Okay. What about between December of 2024
2 when you had this conversation with Sheri Montgomery
3 that you told me about and April of 2025 when the
4 spring 2025 Leapfrog Hospital Safety Grades came out,
5 do you recall any discussions with anyone regarding the
6 negative publicity surrounding the current at that time
7 Leapfrog Hospital Safety Grades for the five hospitals
8 that make up the Palm Beach Health Network?

9 A. I don't remember any verbal discussions.

10 Q. Do you remember any written discussions?

11 A. Not off the top of my head.

12 Q. Do you attend the governing board meetings
13 for St. Mary's?

14 A. I don't.

15 Q. Do you attend the governing board meetings
16 for any of the five hospitals?

17 A. I don't.

18 Q. Do you attend the med exec for St. Mary's?

19 A. I don't.

20 Q. Do you attend the med exec meetings for any
21 of the other hospitals that make up the Palm Beach
22 Health Network?

23 A. I don't.

24 Q. Have you ever spoken to any member of any of
25 the governing boards of any of the five hospitals that

Gina West
September 25, 2025

Page 241

1 make up the Palm Beach Health Network regarding
2 negative publicity surrounding any of the five
3 hospitals that are plaintiffs in this litigation?

4 A. Can I back up for a minute?

5 Q. Sure.

6 A. I need to correct --

7 Q. Oh, yes, of course.

8 A. -- my testimony.

9 I stated that I don't go to the board
10 meetings for St. Mary's, but I do go to the pediatric
11 board meetings for St. Mary's.

12 Q. Okay. That's a great distinction. Yes, I'm
13 just talking about the adult acute care center that I'm
14 referring to St. Mary's.

15 A. I do not.

16 Q. Thank you.

17 I'm going to show you this email.

18 MS. BLAIR: We'll mark this as Exhibit 16.

19 (Defendant's Exhibit Number 16 for i.d.)

20 BY MS. BLAIR:

21 Q. Mrs. West, you had just told me about a
22 conversation you had or recalled with Sheri Montgomery,
23 correct, regarding the negative publicity in or around
24 December of 2024.

25 A. (Nodding head).

Gina West
September 25, 2025

Page 242

1 Q. And I've now handed you a document that
2 we've now marked as West Exhibit 16, which is an email
3 from you to Sheri Montgomery dated December 11th, 2024,
4 correct?

5 A. Correct.

6 Q. And you say here to Ms. Montgomery -- well,
7 the subject is "Leapfrog healthcare advisory board."
8 Do you see that?

9 A. I do.

10 Q. And you say, "Looks like the insurance
11 companies dropped off for 2025."

12 Do you see that?

13 A. I do.

14 Q. Does this refresh your recollection, was
15 this part of the conversation that you had with
16 Sheri Montgomery in December of 2024 related to the
17 launch of the fall 2024 hospital safety grades?

18 MR. TAKAGAKI: Objection.

19 A. I do not recall why I sent this to her.

20 BY MS. BLAIR:

21 Q. That was going to be my next question.
22 Thank you.

23 MS. BLAIR: We'll mark this one as 17.

24 (Defendant's Exhibit Number 17 for i.d.)

Gina West
September 25, 2025

Page 243

1 Q. Ms. West, I'm handing you now an email that
2 we've marked West Exhibit 17, which is an email from
3 you -- or, I'm sorry -- from Maggie Gill to you dated
4 February 13th 2025 and the subject is "Leapfrog." Do
5 you see that?

6 A. I do.

7 Q. And it says, "Hi, Gina. Corporate is
8 completing a review of issues related to Leapfrog
9 inaccurate portrayal of hospital quality and safety."
10 Do you see that?

11 A. Yes.

12 Q. And then she goes on to say, "What
13 regulatory agency survey results (Joint Commission
14 and/or other) can we share that speak to quality and
15 safety?"

16 Do you see that?

17 A. I do.

18 Q. Was this email followed up by any telephone
19 conversations between yourself and Ms. Gill?

20 A. I do not recall getting this and I don't
21 recall responding to it.

22 Q. Do you recall if you had any understanding
23 in or around February of 2025 of the review of issues
24 that corporate was completing?

25 A. I do not.

Gina West
September 25, 2025

Page 244

1 Q. Were you involved in any discussions about
2 corporate reviewing Leapfrog in or around February of
3 2025?

4 A. Not that I recall.

5 Q. Do you understand that there was a cease and
6 desist letter sent by Palm Beach -- well, the hospitals
7 that make up Palm Beach Health Network to Leapfrog in
8 January of 2025?

9 MR. TAKAGAKI: Objection.

10 A. I recall that.

11 BY MS. BLAIR:

12 Q. Did you have any involvement in drafting
13 that cease and desist letter?

14 A. No, I did not.

15 Q. Did you have any involvement in approving
16 that cease and desist letter?

17 A. Not that I recall.

18 Q. Did you have any involvement in making the
19 decision as to whether or not a cease and desist letter
20 should be sent to Leapfrog?

21 A. Not that I recall.

22 Q. So is it your memory that you just were
23 aware of the fact that a cease and desist letter was
24 being sent but you had no involvement in drafting it?

25 A. I recall finding out about it through media.

Gina West
September 25, 2025

Page 245

1 Q. And when you say "through media," what does
2 "media" mean?

3 A. It was somewhere on the internet.

4 Q. Oh. I just want to make sure when you said
5 "through media," that's not some internal department
6 I'm unaware.

7 So that would be media that would be
8 publicly available to everyone, right?

9 A. Right.

10 Q. Did the way in which you operated from a
11 quality standpoint after January of 2025 change in any
12 way?

13 MR. TAKAGAKI: Objection.

14 A. Can you further clarify?

15 BY MS. BLAIR:

16 Q. Sure.

17 Did the Leapfrog Hospital Safety Grades from
18 fall of 2024 have any impact on the way in which you as
19 the director of quality for Palm Beach Health Network
20 reviewed patient safety at the five hospitals that make
21 up the Palm Beach Health Network?

22 MR. TAKAGAKI: Objection.

23 A. Not that -- not that I recall.

24 BY MS. BLAIR:

25 Q. Were you involved in any meetings at the

Gina West
September 25, 2025

Page 246

1 Palm Beach Health Network group level before April --
2 outside the presence of your attorneys -- before
3 April 30th, 2025 related to decisions to file a lawsuit
4 against Leapfrog?

5 A. Not that I recall.

6 Q. Going back to, I asked you some questions
7 earlier about using the -- whether or not the five
8 hospitals used the Leapfrog Hospital Survey, not safety
9 grade, survey as a benchmark for quality at the five
10 hospitals. Do you recall that?

11 MR. TAKAGAKI: Objection. Vague.

12 A. Yes.

13 BY MS. BLAIR:

14 Q. And I just, I'm going to hand this to you
15 17? 18.

16 (Defendant's Exhibit Number 18 for i.d.)

17 BY MS. BLAIR:

18 Q. I'm handing you what we've now marked
19 Exhibit 18, and this is an email from you dated
20 March 27th, 2025 at that Andrea Nunes,
21 Stephany Johnson, Kathleen McDonald, Erin Britt and
22 Taylor Pool, CC'ing Ricardo Ramirez. And the subject
23 is 'Leapfrog benchmarks.'"

24 Do you see that?

25 A. Yes.

Gina West
September 25, 2025

Page 247

1 Q. And you say to these quality directors,
2 "Please make sure that any quality/infection control
3 benchmarkings/goals are not based on Leapfrog
4 information."

5 Do you see that?

6 A. Yes.

7 Q. Does this refresh your recollection that at
8 least maybe some of these hospitals were using Leapfrog
9 information as benchmarking/goals?

10 A. May I look through these documents?

11 Q. Yeah, of course.

12 A. Because what I can recall is sending the
13 email regarding the SAFER® EHR, and I want to see if it
14 was around the same time because that's what jumps to
15 mind. That's what jumps to my mind.

16 Q. Understood.

17 A. So this was a different year, but it could
18 be related to completion again of the SAFER® EHR.

19 Q. Okay.

20 A. So it's just a request to take a look and
21 make sure that there were no references to Leapfrog --

22 Q. Okay.

23 A. -- since we weren't participating.

24 Q. And was there any reason that the email that
25 you sent related to references to Leapfrog is sent in

Gina West
September 25, 2025

Page 248

1 March of 2025 as opposed to earlier after the hospitals
2 stopped participating in Leapfrog?

3 A. Do you mind asking me again?

4 Q. Sure. So, as I understand it, the hospitals
5 stopped participating in the Leapfrog survey in 2021,
6 correct?

7 A. Correct.

8 Q. Was there anything that you can recall that
9 spurred you in March of 2025 to send this email to your
10 quality directors requesting that they remove any
11 Leapfrog benchmarking from their -- from their goals?

12 MR. TAKAGAKI: Objection.

13 A. It could have been, again, that I was
14 looking at the SAFER® EHR. It's around the same time
15 frame where I've asked to make sure we've removed it,
16 and it could have just been a reminder. This email is
17 a reminder.

18 BY MS. BLAIR:

19 Q. Got it.

20 A. But it could have been related to the
21 SAFER® EHR because it's during the same time frame.

22 Q. And "during the same time frame," are you
23 referring to like the time of year?

24 A. Yes.

25 Q. Okay. But as you sit here today you have no

Gina West
September 25, 2025

Page 249

1 specific recollection as to why you sent that email
2 when you did?

3 A. No.

4 Q. Do you recall if at any QIPSC meetings there
5 were discussions at any time from 2023 to March of
6 2025, do you recall if there were discussions of any
7 QIPSC meetings regarding using Leapfrog standards as
8 benchmarking standards for the five hospitals, any of
9 the five hospitals that make up the Palm Beach Health
10 Network?

11 A. I don't recall.

12 Q. Would the best place for me to look to see
13 if that was being done, the minutes from those QIPSC
14 meetings?

15 MR. TAKAGAKI: Objection.

16 A. Correct.

17 MS. BLAIR: 19.

18 (Defendant's Exhibit Number 19 for i.d.)

19 BY MS. BLAIR:

20 Q. Ms. West, I'm now handing you what we've
21 marked as West Exhibit 19, which is an email from
22 Amy Buzzelli, B-u-z-z-e-l-l-i, to you at the top.

23 And if we go way down to the bottom of this
24 one-page Exhibit, she's writing to you and others,
25 "AH" -- AHCA -- "AHCA has arrived to West Boca."

Gina West
September 25, 2025

Page 250

1 Do you see that?

2 A. I do.

3 Q. And she says, "As expected, AHCA has arrived
4 to West Boca. The complaint is the same."

5 Do you see that?

6 A. I do.

7 Q. What was "the complaint"?

8 MR. TAKAGAKI: Objection.

9 A. I don't recall that being shared with us,
10 but that goes back to the spring of when AHCA came to
11 the hospitals to do that thorough quality infection
12 quality control and hand hygiene review. And if I
13 remember correctly, it was around the same time that
14 all of the media coverage was occurring.

15 BY MS. BLAIR:

16 Q. Okay. And by "media coverage," just for the
17 record, you're referring to media coverage regarding
18 the hospital safety grades that these five hospitals
19 received from Leapfrog for the fall of 2024?

20 A. Yes.

21 Q. And you say to Amy, "Why are they saying
22 'complaint'?"

23 Do you see that?

24 A. I do.

25 Q. And then she said, "Heard [sic] is wondering

Gina West
September 25, 2025

Page 251

1 if Leapfrog complaint."

2 Do you see that?

3 A. I do.

4 Q. Who is Heard?

5 A. She meant she heard.

6 Q. Oh, okay. I thought that was a person.

7 And so she heard that Leapfrog complained
8 about the hospital?

9 A. Correct.

10 MR. TAKAGAKI: Objection.

11 BY MS. BLAIR:

12 Q. Did you have any conversations with her
13 regarding who she heard that from?

14 MR. TAKAGAKI: Objection. Lack of
15 foundation.

16 A. I don't recall Amy saying who she heard it
17 from, but I do remember when the surveyors came on
18 site, they mentioned Leapfrog a lot at some of
19 hospitals, and they really focused in on hand hygiene,
20 and they really focused on our methodology, our
21 observations, the data that was collected, how it was
22 reported publicly on our units, how we had completed
23 performance improvement in those areas. They did
24 continue to refer to Leapfrog.

25 BY MS. BLAIR:

Gina West
September 25, 2025

Page 252

1 Q. Did you ever come to find out whether
2 Leapfrog complained about this hospital?

3 A. I didn't come to find out.

4 Q. Do you know if anybody came to find that
5 out?

6 A. Not to my knowledge.

7 Q. As you sit here today do you believe that
8 Leapfrog complained to AHCA regarding the Tenet
9 hospitals in Palm Beach?

10 A. I don't have an opinion about it.

11 After this, do you mind if we take a quick
12 break so I can run to the restroom?

13 MS. BLAIR: Oh, sure. Do you want to do it
14 right now?

15 MS. MALONEY: Why don't we take a break now.

16 THE WITNESS: Do you mind?

17 MS. BLAIR: No, sure.

18 THE VIDEOGRAPHER: Off the record, 3:58.

19 (A recess was taken from 3:58 p.m. to 4:13 p.m.)

20 THE VIDEOGRAPHER: This is media unit number
21 four. The time is 4:13. We're back on record.

22 BY MS. BLAIR:

24 MS. BLAIR: Let's mark this one as 20.

25 (Defendant's Exhibit Number 20 for i.d.)

Gina West
September 25, 2025

Page 253

1 BY MS. BLAIR:

2 Q. Ms. West, I'm handing you what we've now
3 marked as Exhibit 20. This is an email from you to
4 Ricardo Ramirez dated April 28, 2025. Do you see that?

5 A. I do.

6 Q. And you say to him what we were talking
7 about this morning, correct?

8 A. Correct.

9 Q. And below that email is an email from you to
10 Andrea Nunes, Stephany Johnson, Erin Britt and
11 Kathleen McDonald, correct?

12 A. Correct.

13 Q. Were they quality directors for the
14 individual, the other four individual hospitals that
15 make up Palm Beach Health Network?

16 A. Yes.

17 Q. And you say, "FYI, to each hospital spring
18 2025 scores along with the following what-if'
19 scenarios."

20 Do you recall that, or do you see that? I'm
21 sorry?

22 A. Yes.

23 Q. Do you recall what the circumstances were
24 surrounding your drafting of this email?

25 A. So, first of all, let me start with saying,

Gina West
September 25, 2025

Page 254

1 I'm a registered nurse. I'm not a statistician. So
2 this is a simple exercise each time the scores would
3 come out utilizing Leapfrog's calculator to complete
4 what-if scenarios, just as talking points and FYI
5 information.

6 Q. And so is it your recollection that you did
7 a chart like this each time the safety grades came out?

8 MR. TAKAGAKI: Objection.

9 A. Yes.

10 BY MS. BLAIR:

11 Q. And in this particular chart it says, the
12 first bullet point says, "What if the hospital
13 participated in the survey and received full credits,
14 100 percent in the areas that we usually receive full
15 credit?"

16 Do you see that?

17 A. Yes.

18 Q. What were the areas that you usually
19 received full credit that you were referring to in this
20 bullet point?

21 A. That would be the four areas of imputed
22 scoring.

23 And if I can just clarify to say, this is
24 the first time that I ever did the N/A on it.

25 Q. Okay. Thank you. I was going to ask that

Gina West
September 25, 2025

Page 255

1 question.

2 And then so you were receiving 100 percent
3 in prior safety grades for BCMA, CPOE, ICU physician
4 staffing and hand hygiene, correct?

5 A. With the exception of West Boca.

6 Q. With the exception of West Boca, correct?
7 Correct?

8 A. Yes, correct.

9 Q. And we talked about this a little earlier.
10 Is it your understanding that you were receiving
11 100 percent on those four measures even though Leapfrog
12 had no data from those hospitals that were receiving
13 100 percent, sans West Boca, for those four measures,
14 correct?

15 MR. TAKAGAKI: Objection to the extent it
16 mischaracterizes previous testimony and lacks
17 foundation.

18 BY MS. BLAIR:

19 Q. Do you know whether or not -- let's start
20 over.

21 Do you know whether or not for these four
22 measures the four hospitals, sans West Boca, were
23 receiving 100 out of 100 for those four measures?

24 MR. TAKAGAKI: Objection.

25 A. It's my understanding for a period of time,

Gina West
September 25, 2025

Page 256

1 yes.

2 BY MS. BLAIR:

3 Q. And would that period of time have been from
4 when you stopped participating in the survey until fall
5 of 2024?

6 A. I would have to look at a document to know
7 for sure.

8 Q. Well, let's just talk about the spring of
9 2024, then. Is it your understanding that with the
10 exception of -- well, no.

11 Is it your understanding that in the spring
12 of 2024 all five hospitals were receiving 100 out of
13 100 points for CPOE, BCMA, hand hygiene and ICU
14 physician staffing?

15 A. For the exception of West Boca, yes.

16 Q. With the exception of West Boca.

17 Am I also correct that for the spring of
18 2024 with the exception of West Boca, those four
19 hospitals were receiving 100 out of 100 points on those
20 four measures even though they did not submit a
21 Leapfrog Hospital Survey?

22 A. That is what I recall.

23 Q. And is that is what -- is that what you are
24 trying to articulate in this first bullet point when
25 you say, "Received full credits (underlined 100 percent

Gina West
September 25, 2025

Page 257

1 in the areas that we usually receive full credit)?"

2 A. Correct.

3 Q. And then your second bullet point is, "What
4 if Leapfrog applied N/A to the categories where the
5 hospital declined to participate?"

6 Do you see that?

7 A. I do.

8 Q. Okay. And so if we look at your chart, this
9 first section, spring 2025, is this what you are
10 anticipating your spring 2025 grades to be for the
11 Leapfrog Hospital Safety Grade?

12 A. That is correct.

13 Q. And is it your understanding that as of the
14 date that you wrote this email, April 24th, 2025, the
15 spring hospital safety grades for 2025 had not yet been
16 issued?

17 A. I don't recall.

18 Q. Okay. And then if we look at the middle box
19 where you say "What if 100 percent," do you see that?

20 A. Yes.

21 Q. And does that suggest what if the scoring
22 methodology had not changed for your hospitals?

23 A. That's correct.

24 Q. And when we look at West Boca, which is the
25 last row of your chart, are you assuming that West Boca

Gina West
September 25, 2025

Page 258

1 is going to get 100 percent?

2 A. Again, it's a simple exercise.

3 Q. Sure.

4 A. It was nothing that was official, nothing
5 sanctioned. It was my attempt to analyze potential
6 what-ifs and just make that information available.

7 Q. And I guess my question, though, is just
8 specific with respect to West Boca, do you know whether
9 or not you were inputting West Boca's score here as
10 100 percent for all four measures?

11 A. That's --

12 MR. TAKAGAKI: Objection.

13 A. That is correct.

14 BY MS. BLAIR:

15 Q. And you did not take into account when you
16 were putting together this center box the fact that
17 nonparticipating hospitals based on the Leapfrog 2023
18 methodology would have been getting fives for ICU
19 physician staffing, correct?

20 A. That's correct.

21 MR. TAKAGAKI: Objection.

22 A. So no changes to the Leapfrog methodology,
23 no changes to the calculator, which is flawed in
24 itself, because the mean would have changed, obviously,
25 as these changed as the other hospitals received the

Gina West
September 25, 2025

Page 259

1 same N/A, so simple exercise, flawed in the exercise
2 admittedly.

3 Q. Yeah, I'm just trying to figure out what
4 inputs you had put on the 100 percent.

5 And so that is 100 percent for all five
6 hospitals for all four measures, correct, in that
7 middle box?

8 A. Yes.

9 MR. TAKAGAKI: And just objection.

10 Are you asking -- when you say "inputs,"
11 you're referring to inputs of this chart or the
12 Excel that was attached?

13 MS. BLAIR: I'm talking about the inputs
14 that Ms. West put into the calculator to get
15 these grades that say "what if 100 percent."

16 BY MS. BLAIR:

17 Q. And I am assuming -- but you tell me because
18 I don't want to assume -- that you would have put in
19 100 out of 100 points for this middle box for each of
20 those four measures for all five hospitals; is that
21 correct?

22 MR. TAKAGAKI: Objection. Vague.

23 A. That's correct.

24 BY MS. BLAIR:

25 Q. Okay. And then for this last box -- I

Gina West
September 25, 2025

Page 260

1 understand it's a simple exercise. I understand that.
2 But what you were doing was simply -- well, you tell
3 me. What did you do with respect to "what if any"?

4 MR. TAKAGAKI: Objection.

5 A. I removed the imputed scores and replaced it
6 with N/A.

7 BY MS. BLAIR:

8 Q. Correct. And so you didn't reweight
9 anything; is that fair?

10 A. That's correct.

11 Q. And so do you understand that, we talked a
12 little bit earlier that the Leapfrog scoring
13 methodology in the calculator is separated into two
14 different domains, correct?

15 A. Yes.

16 Q. And so one domain has ten measures that are
17 all outcome measures, correct?

18 A. Correct.

19 Q. And that accounts for 50 percent, 50, five
20 zero, percent of the Leapfrog score, correct?

21 MR. TAKAGAKI: Objection.

22 A. Correct.

23 BY MS. BLAIR:

24 Q. And then we've got the other domain, which
25 is process and structural measures, that has twelve

Gina West
September 25, 2025

Page 261

1 different measures included in it, correct?

2 A. Yes.

3 Q. And so for this exercise, again, a simple
4 exercise, and I understand, you would have removed or
5 created N/A for seven of those twelve measures,
6 correct?

7 MR. TAKAGAKI: Objection.

8 A. That's not correct.

9 BY MS. BLAIR:

10 Q. That's not correct. How many measures did
11 you enter N/A for?

12 A. Four.

13 Q. Okay. But three of those would have already
14 been N/A, correct?

15 A. Correct.

16 Q. Did you keep them as N/A for this very
17 simple exercise?

18 A. Yes.

19 Q. Okay. So the scoring methodology that you
20 used here -- albeit very simple, I understand. I just
21 want to make sure I understand what you did -- would
22 have had with respect to the process and structural
23 measures 50 percent of the weight -- or 50 percent of
24 the score would have been based just on the H-Comp
25 scores that are the other five measures of the process

Gina West
September 25, 2025

Page 262

1 and structural measures that are contained in that
2 domain, correct?

3 A. I have --

4 MR. TAKAGAKI: I just want to object here to
5 note that the actual Excel calculator is not an
6 Exhibit here. She doesn't have it in front of
7 her.

8 A. I was going to say...

9 MS. BLAIR: I understand.

10 BY MS. BLAIR:

11 A. Just off your best memory, N/A, seven
12 measures were counted as N/A when you did this
13 calculation; would that be fair?

14 MR. TAKAGAKI: Objection.

15 A. Yes.

16 BY MS. BLAIR:

17 Q. Thank you.

18 And do you recall whether you had any
19 conversations with Vicki Ramirez regarding document
20 after you sent it to him?

21 A. The email indicates that I did, but I do not
22 recall that conversation.

23 Q. Do you recall if Ricky Ramirez asked you to
24 prepare this document?

25 A. He did not.

Gina West
September 25, 2025

Page 263

1 Q. Do you recall if anyone asked you to prepare
2 this document?

3 A. No one asked me to prepare this document.

4 Q. And for what purpose did you prepare this
5 document, to the best of your recollection?

6 MR. TAKAGAKI: Objection. Asked and
7 answered.

8 A. Just a simple exercise to see how it would
9 change in the moment.

10 BY MS. BLAIR:

11 Q. Did any of the recipients of this email have
12 any conversations with you with respect to your simple
13 exercise?

14 A. No, not to my knowledge, not that I recall.

15 Q. Do you recall whether or not after the
16 spring 2025 safety grades were published you had any
17 meetings with Maggie Gill regarding the Palm Beach
18 Health Network's Leapfrog Safety Grades?

19 A. I did not.

20 Q. Okay. Do you recall whether at any time you
21 had any conversations with anyone associated with the
22 Palm Beach Health Network regarding the release of the
23 spring 2025 hospital safety grades for the five
24 hospitals?

25 MR. TAKAGAKI: Objection.

Gina West
September 25, 2025

Page 264

1 A. Your question is about meetings?

2 BY MS. BLAIR:

3 Q. Did you have any discussions with anybody?
4 So we've talked about, right, the release of the fall
5 2024 safety grades and all the discussions you had
6 after that release.

7 And now we're looking at documents that are
8 dated in April of 2025, correct?

9 A. Correct.

10 Q. And you understand that Leapfrog would issue
11 a spring hospital safety grade for these five
12 hospitals, correct?

13 A. Correct.

14 Q. And, in fact, Leapfrog did issue hospital
15 safety grades for these five hospitals for the spring
16 of 2025, correct?

17 A. Correct.

18 Q. And so I'm asking, after those grades were
19 released on April 30th, 2025, did you have any
20 discussions with anybody associated with Palm Beach
21 Health Network regarding the grades that these five
22 hospitals received for the spring of 2025?

23 A. Not that I recall.

24 Q. Are you aware -- I hate to do this, but
25 we're going to go fast.

Gina West
September 25, 2025

Page 265

1 Let me mark this as 21.

2 (Defendant's Exhibit Number 21 for i.d.)

3 BY MS. BLAIR:

4 Q. Ms. West, I've just handed you what we've
5 now marked as Exhibit 21 to your deposition, which is
6 entitled "Leapfrog Hospital Survey Hard Copy.
7 Questions and Reporting Periods End Notes Measure
8 Specifications and FAQs."

9 Do you have that before you?

10 A. Yes, I do.

11 Q. And have you ever seen this copy in hard
12 copy before?

13 A. I have not.

14 Q. And did you -- when's the last time that you
15 reviewed this document in hard copy, to the best of
16 your memory?

17 A. I remember doing a quick review of the
18 hospital survey in 2024.

19 Q. Okay. In connection with this litigation
20 and getting together documents sufficient to simulate
21 how these five hospitals would have performed on the
22 four imputed measures at issue in this litigation, did
23 you utilize or refer to in any way the Leapfrog
24 Hospital Survey with respect to these four measures?

25 MR. TAKAGAKI: Objection. Lacks foundation.

Gina West
September 25, 2025

Page 266

1 Vague.

2 A. I did not.

3 BY MS. BLAIR:

4 Q. Oh, okay. Then you can set that aside.

5 A. Okay.

6 Q. You understand that there was a lawsuit
7 filed in this action on April 30 -- with regard to the
8 matter you're being deposed in, filed on April 30th,
9 2025?

10 A. I am aware that there was a lawsuit, but I
11 don't know what date.

12 Q. Okay. Did you have any involvement in
13 drafting -- I'm sorry.

14 Did you have any involvement in putting
15 together the lawsuit that was filed against Leapfrog?

16 A. I did not.

17 Q. Did you -- outside the presence of your
18 attorneys, did you have any involvement in editing the
19 lawsuit that was ultimately filed in this matter?

20 A. I did not.

21 Q. Were you involved in any discussions outside
22 the presence of your lawyers with anybody associated
23 with Palm Beach Health Network related to whether or
24 not a lawsuit should be filed against Leapfrog in this
25 action?

Gina West
September 25, 2025

Page 267

1 A. No.

2 Q. Were you involved in any governing board
3 meetings of any of the five hospitals related to the
4 decision as to whether or not a lawsuit should be filed
5 against Leapfrog in this action?

6 A. No.

7 Q. Were you involved in any way with commenting
8 to the press in or around April or May of 2025 with
9 respect to the filing of the lawsuit that we're at
10 today?

11 A. No.

12 Q. Did you help prepare any media or press
13 releases related to the filing of the lawsuit that was
14 filed in April of 2025?

15 A. No.

16 Q. Did you have -- are you aware that there was
17 an Amended Complaint filed in this action?

18 A. I was not.

19 Q. So you weren't involved in any way with that
20 as well, correct?

21 A. Correct.

22 Q. Have you signed any affidavits in connection
23 with this litigation?

24 A. No.

25 Q. Were you involved in any way in helping put

Gina West
September 25, 2025

Page 268

1 together the press release that was issued on
2 April 30th, 2025 by Palm Beach Health Network with
3 respect to this litigation?

4 A. No.

5 Q. Were you involved in any conversations with
6 anyone at the market level regarding the decision to
7 file the lawsuit that was -- in this action that was
8 filed on April 30th, 2025?

9 A. No.

10 Q. Are you involved in any way in -- were you
11 involved in any way -- well, strike that.

12 A. I wasn't involved in any way for this
13 lawsuit. That covers all of the components.

14 Q. Thank you.

15 Give me one second to look at my notes.
16 Thank you very much.

17 Do you consider a D on the Leapfrog Hospital
18 Safety Grade to be a fail grade?

19 A. It's not a good grade.

20 Q. Do you consider it to be a failing grade?

21 MR. TAKAGAKI: Objection.

22 A. As Leapfrog defined a D is failing.

23 BY MS. BLAIR:

24 Q. Do you as the quality director --

25 A. I've never defined it as failing.

Gina West
September 25, 2025

Page 269

1 Q. Do you believe that the hospital were fairly
2 graded by Leapfrog prior to the fall of 2024 change of
3 methodology?

4 MR. TAKAGAKI: Objection. Vague.

5 A. It's my belief that if hospitals don't
6 participate, they should not be included, and they
7 should not receive a grade.

8 BY MS. BLAIR:

9 Q. But my question was, do you believe that
10 they were fairly graded prior to the change in
11 methodology in 2024?

12 MR. TAKAGAKI: Objection. Asked and
13 answered. Vague.

14 A. I don't have an opinion about it.

15 MS. BLAIR: Just one more Exhibit, and I
16 don't have another copy of it. What is this,
17 Barbie, 22?

18 THE STENOGRAPHER: 22.

19 (Defendant's Exhibit Number 22 for i.d.)

20 BY MS. BLAIR:

21 Q. Ms. West, I'm handing you an Exhibit that
22 we've just marked West Exhibit 22, which appears to be
23 a calendar entry, again, on your calendar dated
24 April 29th, 2025, that appears to represent a meeting
25 that is going to occur between you and Maggie Gill.

Gina West
September 25, 2025

Page 270

1 Do you see that?

2 A. I see the entry in my calendar.

3 Q. And what is the subject on that entry, for
4 the record?

5 A. "Data for Maggie, Leapfrog."

6 Q. Do you have any recollection of what it was
7 that you were compiling for -- well, strike that.

8 Does "Maggie" refer to Maggie Gill in your
9 calendar entry?

10 A. It appears that way, yes.

11 Q. Okay. And is this an invitation to
12 Maggie Gill to join a meeting?

13 A. No, it is not.

14 Q. Okay. And does this calendar entry refresh
15 your recollection in any way as to what the meeting or
16 what you were going to do -- not a meeting -- what you
17 were going to do on April 29th, 2025 with respect to
18 data for Maggie Leapfrog?

19 A. I don't recall this at all. And I would
20 need -- again, this is just, it's a calendar entry for
21 me. Occasionally I'll put things on that reoccur. I
22 don't know if this could have been one of those
23 recurrences. I'm not sure. I don't have anything in
24 the body of it to like -- and I do not recall this at
25 all.

Gina West
September 25, 2025

Page 271

1 MS. BLAIR: Okay. Thank you. I have no
2 further questions. Thank you very much.

7 need a moment to determine --

8 MS. BLAIR: Oh, I apologize.

9 MS. MALONEY: -- if he's going to do any
10 redirect [sic].

11 MR. TAKAGAKI: I don't believe so.

12 MS. MALONEY: You want to take a break?

13 MR. TAKAGAKI: Sure, we can take a quick

15 THE VIDEOGRAPHER: Off the record, 4:38.

16 (A recess was taken from 4:38 p.m. to 4:40 p.m.)

17 THE VIDEOGRAPHER: Back on the record 4:41.

18 MR. TAKAGAKI: I have no questions. I just
19 want to designate the transcript as
20 confidential.

21 And, Counsel, if you could send us the Bates
22 numbers for the Exhibits, that will be very
23 helpful.

24 MS. BLAIR: I will send you the Bates
25 numbers for the Exhibits, and I will reserve my

Exhibit 99

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**PLAINTIFF DELRAY MEDICAL CENTER, INC.’S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP’S FIRST SET OF
INTERROGATORIES TO DELRAY MEDICAL CENTER, INC.**

Pursuant to Federal Rules of Civil Procedure 26 and 33 and the *Pretrial Scheduling Order and Order Referring Case to Mediation* (ECF No. 36) (the “Pretrial Scheduling Order”), Plaintiff Delray Medical Center, Inc. (“Plaintiff” or “Delray”), by and through its undersigned counsel, hereby submit its amended and supplemented responses and objections (“Responses”), to Defendant The Leapfrog Group’s (“TLG”) First Set of Interrogatories, dated July 11, 2025 (the “Interrogatories” and each numbered interrogatory, an “Interrogatory”) in the above-captioned action (the “Action”).

Plaintiff’s Responses to the Interrogatories are made solely for purposes of this Action and to the best of Plaintiff’s present knowledge, information, and belief regarding the matters about which inquiry have been made. Discovery is ongoing, and Plaintiff reserves the right to amend, supplement, clarify, or further explain its Responses at any time prior to the trial in

this Action. Plaintiff further reserves the right to raise any additional objections deemed necessary or appropriate in light of any further review.

OBJECTIONS TO INSTRUCTIONS AND DEFINITIONS

1. Plaintiff objects to the definition of terms “Plaintiffs” and “Plaintiff Hospitals” as overbroad, unduly burdensome, and not proportional to the needs of the case to the extent it seeks to require Plaintiffs to respond on behalf of entities or individuals other than themselves.

2. Plaintiff objects to the definition of the terms “Delray,” “Delray Medical Center,” “Plaintiff,” “You,” and “Your” to the extent each term seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

3. Plaintiff objects to the definition of the terms “Tenet Healthcare” and “Tenet” to the extent it seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of Tenet, Tenet’s agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

4. Plaintiff objects to the definition of “identify, when referring to a person,” as overbroad and unduly burdensome to the extent it calls for the “address” and “present or last-known employer” of identified individuals. Such information is overbroad and beyond the scope of permissible discovery.

5. Plaintiff objects to the instruction that the relevant time period for the Interrogatories begins on January 1, 2020. Plaintiff will apply to each Interrogatory the time period

of November 1, 2023 to present (the “Relevant Time Period”). Any response to an Interrogatory that provides information that falls outside of the Relevant Time Period should not be construed as an admission that the Relevant Time Period begins prior to November 1, 2023.

SPECIFIC RESPONSES TO INTERROGATORIES

Interrogatory No. 1: State the full name, address, job title or position, and hospital or employer affiliation of all individuals that assisted with responding to these interrogatories.

Answer: The following individuals assisted with responding to these Interrogatories.

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Heather Havericak	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Chief Executive Officer	Delray Medical Center
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary's Medical Center

Interrogatory No. 2: Identify every individual not identified in Your Rule 26(a) initial disclosures with knowledge of facts pertaining to the allegations in Your Complaint in this Lawsuit (and any subsequent amendments) and/or whom You believe may have discoverable knowledge, information or data regarding this matter, including those who You expect to call as a fact or opinion witness at any hearing in this proceeding or whose testimony (by affidavit, deposition or testimony) You intended to submit in connection with this proceeding, and the substance of his/her testimony or affidavit, and, with respect to each person identified, provide:

- A. full name,
- B. address,
- C. telephone number,
- D. job title or position,
- E. hospital or employer affiliation,
- F. and describe in detail the facts possessed by each such person.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of “every individual...with knowledge” or who “may have discoverable knowledge, information or data regarding this matter.” Plaintiff will not provide more than the identity of individuals most likely to have knowledge regarding this matter. Plaintiff further objects to this Interrogatory as premature because it requests disclosure of Plaintiff’s witnesses for hearings and the substance of witness testimony before such disclosure is required under applicable law or the Pretrial Scheduling Order. Plaintiff will submit its trial witness list on October 2, 2025, per the Pretrial Scheduling Order, and disclose any other witnesses and witness testimony as further ordered by the Court or otherwise required by applicable law. Plaintiff also objects to this Interrogatory’s request for the identity of “opinion witness[es]” as vague, since witnesses are either “fact” or “expert” witnesses. Plaintiff will interpret “opinion witness” to mean “expert witness.” Plaintiff submitted expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Answer: Subject to the foregoing objection, Plaintiff will amend its Rule 26(a)(1) Initial Disclosures to identify additional individuals who may have knowledge of facts pertaining to the allegations in the Complaint.

Amended Answer: In addition to those disclosed in Plaintiff’s supplemental disclosures, the following individuals may have relevant factual knowledge:

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Stephany Johnson	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Quality Director	Delray Medical Center

In addition to the individuals identified above, persons identified in documents produced in this dispute have knowledge of facts pertaining to the allegations in the Amended Complaint. *See* Fed. R. Civ. P. 33(d). Discovery is ongoing, and Plaintiff reserves the right to supplement, amend, correct, clarify, or modify this Response as further information becomes available.

Interrogatory No. 3: Describe in detail all factual bases for Your contention that Leapfrog’s published Safety Grade for Your hospital was false, inaccurate, misleading, deceptive, or unfair. In so answering, identify with particularity each measure, data point, or metric that You contend was inaccurately reported, calculated, or misrepresented by Leapfrog in calculating the Safety Grade for Your hospital.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all factual bases” for Plaintiff’s contention. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory as premature to the extent it requests that Plaintiff “[d]escribe in detail all factual bases” to support its contention. *In re Reliance Fin. & Inv. Grp., Inc.*, 2006 WL 8435541, at *4 (S.D. Fla. Feb. 14, 2006) (Contention interrogatories “are more appropriately used after a substantial amount of discovery has been conducted--typically, at the end of the discovery period.”). Plaintiff also objects to this

Interrogatory to the extent it attempts to limit or mischaracterize Plaintiff's claim as just challenging the false, inaccurate, misleading, deceptive, or unfair nature of TLG's Safety Grade. As the Court explained in its order denying TLG's motion to dismiss, the core of the Complaint is "a challenge to Defendant's representations about its methodology, which they claim mislead consumers by failing to distinguish between absent data and damning data, and professing that grades are not influenced by a hospital's lack of survey participation." *Order on Motion to Dismiss* 6 (ECF No. 41). Plaintiff also challenges the provably false facts and deceptive scoring system underlying these grades, which TLG admits it relies on to arrive at its deceptive Safety Grades.

Subject to the foregoing objections and as more fully stated in the *Amended Complaint* (ECF No. 74) ("Complaint"), TLG has engaged in deceptive and unfair business practices and misrepresentations when issuing the Safety Grade for Plaintiff's hospital as part of TLG's annual "Hospital Survey." TLG posts these Safety Grades online at hospitalsafetygrade.org.

To arrive at these Safety Grades, TLG uses CMS data, survey responses from participating hospitals, and other supplemental data sources. For participating hospitals, TLG uses the hospitals' self-reported responses to the Hospital Survey for 12 of the 22 measures. For non-participating hospitals, TLG uses other sources for those 12 measures. For the remaining four measures—Computerized Physician Order Entry, Bar Code Medication Administration, ICU Physician Staffing, and Hand Hygiene Score (the "Deceptive Score Categories")—TLG devised and uses a so-called "imputation model." Prior to Fall 2024, TLG's imputation model assigned non-participating hospitals a score based on the average score applicable to a similarly situated hospital. Beginning in Fall 2024, TLG modified its imputation model. TLG now assigns the lowest possible score to non-participating hospitals, which has the effect of punishing non-participating hospitals and artificially deflating their Safety Grades. TLG has even admitted the changes in Fall 2024

were designed to penalize non-participating hospitals. TLG also misleads consumers about how it grades hospitals, stating “[t]he Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the [TLG] Hospital Survey.” *Declaration of Lee Crain* (ECF No. 21) (“Crain Decl.”), Ex. 1 at 4 (“Frequently Asked Questions About the Leapfrog Hospital Safety Grade”).

As TLG explains, “not all hospitals have enough data publicly available to be eligible for a grade.” Crain Decl. Ex. 1 at 5. “As per the National Expert Panel guidance, [TLG] has requirements for the minimum amount of data [it] need[s] to issue an accurate grade.” Crain Decl. Ex. 1 at 5. According to TLG, “[h]ospitals missing more than six process measures” are “not graded.” Crain Decl. Ex. 2 at 6. Non-participating hospitals should fall easily into that “not graded” bucket, because their decision not to participate in TLG’s survey necessarily means TLG is missing seven process measures that rely on voluntary submission of hospital data.¹

TLG then deceptively conceals how it makes up grades for the four “imputation” measures and even suggests on its website that TLG *does* have data sufficient to score TLG on those four measures. By way of example, TLG acknowledges that Plaintiff “Declined to Report” information in response to questions about “Staff work[ing] together,” but then tells consumers—as if it were a fact—that Plaintiff is “Worse Than Average” on “Handwashing,” “Communication,” “medication administration,” and the like—even though TLG has no basis whatsoever to adopt those conclusions. Crain Decl. Ex. 32 at 2. TLG itself says handwashing is among the “most important” measures in its survey, Crain Decl. Ex. 15 at 4, yet it deceptively conceals that it has no data with which to grade the Plaintiff hospital on that measure. *Defendant The Leapfrog*

¹ Those seven include CPOE, BCMA, IPS, Safe Practice 1: Culture of Leadership Structures and Systems; Safe Practice 2: Culture Measurement, Feedback & Intervention; Total Nursing Care Hours per Patient Day; and Hand Hygiene.

Group's Responses to Plaintiffs' Requests for Production at 7 ("Leapfrog is not itself in possession of data showing Plaintiffs' performance on the 'imputed metrics' considered by the methodology.")). Of course, Plaintiff in fact has a comprehensive and thorough handwashing policy. And had Plaintiff merely filled out TLG's survey, it would have received a full two letter grades higher on TLG's score. *Expert Report of Professor Sean Nicholson* (Aug. 7, 2025), Ex. 6.

Based on the foregoing, and as more fully set forth in the Complaint, TLG engages in deceptive trade practices by, among other things, deceiving consumers about its grading methods by implying that Plaintiff has failed on certain measures that, in truth, TLG has no data or other basis to evaluate; deceiving consumers by telling them the Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the Hospital Survey; deceiving consumers when it represents that it does not grade hospitals if it lacks sufficient data, when, in truth, it does grade hospitals by "imputing" or making up a grade for the Deceptive Score Categories; hiding the truth about its "imputation model" from consumers by burying it in fine print on a separate website; punishing non-participating hospitals by "imputing" scores, which artificially deflate a hospital's Safety Grade; and favoring participating hospitals. Additional factual bases for the Plaintiff's claims are presented in the Complaint.

Interrogatory No. 4: Describe the scoring or grading methodology You believe Leapfrog should have used to assess Your hospital's patient safety performance and explain why that method would yield a different result.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's provision of an alternative scoring or grading methodology has nothing to do with the claims and defenses in this case related to TLG's

decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it calls for speculation.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff responds that TLG should use a scoring system that is not unfair or deceptive. By way of example only, TLG could decline to grade hospitals that do not participate in TLG's survey, because their decision not to participate means TLG is missing seven process measures that rely on voluntary submission of hospital data. This would yield a different result, because the hospitals would not receive a grade at all. TLG's methodology certainly should not affirmatively assign an arbitrary low score to a particular metric just because a hospital does not provide data for that metric.

Interrogatory No. 5: State whether You submitted any data, corrections, or appeals to Leapfrog regarding the Safety Grade Your hospital received, and for each such submission, identify the date of the submission, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the submission, and the content of the submission.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any data, corrections, or appeals to Leapfrog regarding the Safety Grade" Plaintiff hospital received has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Answer: Subject to the foregoing objections, Plaintiff engaged in correspondence prior to the commencement of this case demanding that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, but at every turn TLG refused.

Amended Answer: Subject to the foregoing objections, Plaintiff did not submit any data, corrections or appeals to Leapfrog regarding the Safety Grades it has received.

Interrogatory No. 6: State whether You provided any comment or input in any form during Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade methodology that was proposed for the calculation of Hospital Safety Grades (including but not limited to for the Fall 2024 methodology update). If yes, please identify the date of the comment, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the comment and the content of the comment. If no, please state the reason why You chose not to comment.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any comment or input" in response to TLG's request for public comments has nothing to do with claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Subject to the foregoing objections, Plaintiff did not provide comments in response to Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade scoring system because Plaintiff generally does not respond to requests for public comment from private entities like TLG.

Interrogatory No. 7: Describe all actions Your hospital took in response to (or in deciding not to respond to) its Safety Grade or the Hospital Survey, including internal meetings, media statements, or public relations efforts. In so answering, state the date of the action, the individuals involved in the action and the content of the action.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all actions” Plaintiffs may have taken in response to TLG’s Safety Grades. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, No. 14-81476-CIV, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grade. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive committee, and governing board, corresponding with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action.

Amended Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grades. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive

committee, and governing board, corresponding through Plaintiff's corporate parent with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action. Plaintiff has also held many phone calls and meetings with physicians and other stakeholders about the TLG grades, explaining how the grades were deceptive and did not accurately reflect the hospital quality and patient safety at Plaintiff.

Interrogatory No. 8: Identify any and all persons, whether internal or external (e.g., patients, vendors, affiliates, parents, agents, partners, media) with whom You communicated in any way with respect to the Safety Grade or the Hospital Survey. In so answering, state the date of the communication, the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.) and the content of the communication.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of "any and all persons, whether internal or external." Plaintiff will disclose the categories of individuals with whom Plaintiff communicated about the Safety Grade or Hospital Survey during the Relevant Time Period. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that Health Insurance Portability and Accountability Act ("HIPAA"), among other statutes and regulations, bars Plaintiff from disclosing. Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, and physicians and nurses when

asked about the Safety Grade or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grade for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and since then, has engaged in various social networking and other marketing campaigns to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of the network.

Amended Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of

the network. Plaintiff also engaged in email discussions about TLG's misleading grades, either as sender or recipient, which TLG has through Plaintiff's production of documents.

Interrogatory No. 9: Describe all instances in which a third party declined to contract with, refer patients to, or work with Your hospital, where Leapfrog's grade was cited or discussed. In so identifying list the name of the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.), the date of the communication and the content of the communication.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it requires Plaintiff to "[d]escribe all instances" in which a third party took an action in response to TLG's deceptive grade.

Answer: Subject to the foregoing objection, Plaintiff is not aware of any responsive instances.

Amended Answer:

Subject to the forgoing objection, by way of example, medical professionals have expressed concern about working with the Medical Center due to the grade TLG assigned it.

Interrogatory No. 10: Describe with specificity the basis for each and every category of damage You claim You incurred as a result of the Leapfrog Safety Grade. In so identifying, list each category of damages and the dollar value of each category of damage You claim.

Plaintiff objects to this Interrogatory to the extent it seeks information that is the subject of expert testimony.

Answer: Plaintiff will submit expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Amended Answer: Plaintiff has served the expert report of Thomas Chakurda, which addresses the issue of reputational harm and harm to Plaintiff's goodwill. Plaintiff further objects

to this Interrogatory as overbroad and unduly burdensome to the extent it seeks “each and every” category of claimed damages.

Subject to the foregoing objections and as agreed during the parties’ September 3, 2025 meet and confer, Plaintiff will limit its response to the live non-monetary claims, including injunctive and declaratory relief, to remedy harm to Plaintiff’s reputation and goodwill. Plaintiff’s reputation and goodwill has been damaged by TLG’s false and misleading methodology and resulting Safety Grades. Plaintiff’s claim for reputational harm is based on, among other things, concerns raised by patients, doctors, staff, and community members, as well as false and misleading statements based on TLG’s false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

By way of example, our Medical Executive Committee has received direct inquiries from patients regarding their concerns as to TLG’s grades and related public reports. Patients have told physicians that they do not want to go to the Medical Center for surgeries after seeing TLG’s grade and associated press reports. Medical professionals have expressed concern about working with the Medical Center due to the grade TLG assigned it. Further, we have received reports from patients and doctors that patients have planned to drive past the Medical Center to a farther away medical facility due to the grade assigned by TLG to the Medical Center. Community members have given negative feedback related to the rating. The harm caused by TLG’s false and misleading Safety Grade is ongoing.

Interrogatory No. 11: Identify all adverse patient events which occurred at Your hospital, including any citations received from regulatory agencies, accrediting agencies, and third party payors such as The Joint Commission, CMS, state health departments, etc. during the period covered by each Leapfrog Safety Grade publication of which You complain (i.e., Fall 2024, Fall 2025, etc.), as well as any complaints received from patients regarding the same.

Plaintiff objects to this Interrogatory because it is overly broad, unduly burdensome, seeks discovery of information that is irrelevant to the claims and defenses in this Action, seeks information that is beyond the scope of Leapfrog's Hospital Survey, and is not reasonably calculated to lead to the discovery of admissible evidence. TLG does not include "all adverse patient events," "citations received from" agencies or payors, or "complaints received from patients" in TLG's determination of its Hospital Safety Grades or request such information in the Hospital Survey, so any such information is irrelevant to whether TLG's actions constitute unfair or deceptive trade practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that HIPAA, among other statutes and regulations, bars Plaintiff from disclosing.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Defendant has agreed to withdraw this Interrogatory.

Interrogatory No. 12: Describe in detail how Your hospital compares nationally on on [sic] any other ranking of patient safety performance, including but not limited to Vizient, Inc., Premier, Inc., HealthTrust Purchasing Group, The Joint Commission, HealthGrades, US News, Newsweek, Statista, Definitive Healthcare, or any other quality benchmarking entity including benchmarking on patient safety including on adverse events and on healthcare-acquired infections.

Plaintiff objects to this Interrogatory's request that Plaintiff "[d]escribe in detail how Your hospital compares nationally" based on undisclosed "benchmarking" as vague and confusing. To the extent this Interrogatory seeks the top-line rankings of the identified organizations, Plaintiff objects to this Interrogatory because such information is publicly and equally available to TLG. To the extent this Interrogatory asks Plaintiff to compare itself to the named and unnamed entities, that request is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is

irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Other organizations' rankings have nothing to do with the claims and defenses in this case related to the Deceptive Score Categories or TLG's decision to use deceptive business practices.

Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades. For example, Plaintiff was awarded the Resuscitation Center of Excellence award for 2025, becoming the first hospital in Palm Beach County to be named a Florida Resuscitation Center of Excellence. To do so, Plaintiff met approximately 15 criteria for patient care that were established by the Florida Resuscitation Center Committee, including intensive neurological monitoring, strong collaboration with Emergency Medical Services partners, and community outreach programs to promote health and lifestyle modifications to decrease the prevalence of cardiac disease. Additionally, the American College of Surgeons awarded Plaintiff the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program ("MBSAQIP") Surgery Center of Excellence award, which is dedicated to enhancing the safety and quality of care for bariatric patients in the United States and Canada. MBSAQIP accreditation promotes uniform standards and continuous quality improvement.

Plaintiff also earned DNV GL Comprehensive Stroke certification, which means Plaintiff gives the highest quality of care to most complete patient cases and offers evidence-based treatments with cutting-edge research protocols. Additionally, Plaintiff earned the VQI (Vascular Quality Initiative) Carotid Care Champion this year, which honors participants that are dedicated to improving the safety and effectiveness of vascular care. Plaintiff is also accredited by the Joint Commission, the nation's largest hospital accreditor that evaluates hospitals' quality performance standards through an objective evaluation process. Plaintiff also earned a Certification for the

American Association of Cardiovascular and Pulmonary Rehabilitation Program. This accreditation is peer-reviewed and designed to review individual facilities.

The American Heart Association honored Plaintiff with “Get with the Guidelines” Gold Plus awards in three specializations. First, Plaintiff earned the Target Stroke Honor Roll Elite, meaning Plaintiff is able to achieve door-to-needle times of within 60 minutes for at least 85% of applicable patients. Second, Plaintiff earned the Target Stroke Honor Roll Advanced Therapy, meaning that 50% of applicable patients are able to achieve door-to-device times of 90 minutes or less in the case of directly arriving patients, and 60 minutes or less for transfer patients. Third, Plaintiff earned the Target Type II Diabetes Honor Roll, meaning that Plaintiff met numerous requirements, including qualifying for a Silver level or higher Achievement Award in the “Get with the Guidelines-Heart Failure, Stroke, and/or Coronary Artery Disease” modules. The entities that award and assign these accreditations and certifications visit the healthcare facility and perform regular periodic in-person reviews, audits, surveys, and assessments of the facility.

In 2025, the medical ranking organization Healthgrades named Plaintiff one of the top 250 hospitals in the country. To assess and evaluate hospitals, Healthgrades relies on data from Medicare medical claims records and states’ data on Medicare and commercially insured patient outcomes to determine patients’ actual clinical outcomes when visiting a given hospital. Healthgrades also assigned Plaintiff the following awards:

a. Cardiac Care

- i. Five-Star Recipient for Valve Surgery (2024-2025, two years in a row)
- ii. Five-Star Recipient for Treatment of Heart Attack (2024-2025, two years in a row)

- iii. Five-Star Recipient for Treatment of Heart Failure (2003-2025, 23 years in a row)
- iv. Five-Star Recipient for Defibrillator Procedures (2024-2025, two years in a row)
- v. Five-Star Recipient for Treatment of Stroke (2008-2025, 18 years in a row)
- vi. Five-Star Recipient for Coronary Interventional Procedures (2024)

b. Pulmonary Care

- i. One of Healthgrades America's 100 Best Hospitals for Pulmonary Care in 2025
- ii. Recipient of the Healthgrades 2025 Pulmonary Care Excellence Award
- iii. Top 5% in the Nation for Overall Pulmonary Services (2025)
- iv. Top 10% in the Nation for Overall Pulmonary Services (2025)
- v. Five-Star Recipient for Treatment of Pneumonia (2024-2025, two years in a row)

c. Critical Care

- i. Recipient of the Healthgrades 2025 Critical Care Excellence Award
- ii. Top 5% in the Nation for Critical Care (2025)
- iii. Top 10% in the Nation for Critical Care (2025)
- iv. Five-Star Recipient for Treatment of Sepsis (2004-2025, 22 years in a row)
- v. Five-Star Recipient for Treatment of Respiratory Failure (2023-2025, three years in a row)

d. Gastrointestinal

- i. Five-Star Recipient for Upper Gastrointestinal Surgery (2022-2024, three years in a row)
- ii. Five-Star Recipient for Small Intestine Surgeries (2017-2021 (five years in a row), 2024)

e. Neurosurgery

- i. Five-Star Recipient for Cranial Neurosurgery (2024)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Amended Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades. For example, Plaintiff was awarded the Resuscitation Center of Excellence award for 2025, becoming the first hospital in Palm Beach County to be named a Florida Resuscitation Center of Excellence. Additionally, the American College of Surgeons awarded Plaintiff the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program ("MBSAQIP") Surgery Center of Excellence award, which is dedicated to enhancing the safety and quality of care for bariatric patients in the United States and Canada.

Plaintiff also earned DNV GL Comprehensive Stroke certification. Additionally, Plaintiff earned the VQI (Vascular Quality Initiative) Carotid Care Champion this year, which honors participants that are dedicated to improving the safety and effectiveness of vascular care. Plaintiff is also accredited by the Joint Commission, the nation's largest hospital accreditor that evaluates hospitals' quality performance standards through an objective evaluation process. Plaintiff also earned a Certification for the American Association of Cardiovascular and Pulmonary Rehabilitation Program.

The American Heart Association honored Plaintiff with “Get with the Guidelines” Gold Plus awards in three specializations: Target Stroke Honor Roll Elite, Target Stroke Honor Roll Advanced Therapy, and Target Type II Diabetes Honor Roll.

In 2025, the medical ranking organization Healthgrades named Plaintiff one of the top 250 hospitals in the country. Healthgrades also assigned Plaintiff the following awards:

a. Cardiac Care

- i. Five-Star Recipient for Valve Surgery (2024-2025, two years in a row)
- ii. Five-Star Recipient for Treatment of Heart Attack (2024-2025, two years in a row)
- iii. Five-Star Recipient for Treatment of Heart Failure (2003-2025, 23 years in a row)
- iv. Five-Star Recipient for Defibrillator Procedures (2024-2025, two years in a row)
- v. Five-Star Recipient for Treatment of Stroke (2008-2025, 18 years in a row)
- vi. Five-Star Recipient for Coronary Interventional Procedures (2024)

b. Pulmonary Care

- i. One of Healthgrades America’s 100 Best Hospitals for Pulmonary Care in 2025
- ii. Recipient of the Healthgrades 2025 Pulmonary Care Excellence Award
- iii. Top 5% in the Nation for Overall Pulmonary Services (2025)
- iv. Top 10% in the Nation for Overall Pulmonary Services (2025)

- v. Five-Star Recipient for Treatment of Pneumonia (2024-2025, two years in a row)

c. Critical Care

- i. Recipient of the Healthgrades 2025 Critical Care Excellence Award
- ii. Top 5% in the Nation for Critical Care (2025)
- iii. Top 10% in the Nation for Critical Care (2025)
- iv. Five-Star Recipient for Treatment of Sepsis (2004-2025, 22 years in a row)
- v. Five-Star Recipient for Treatment of Respiratory Failure (2023-2025, three years in a row)

d. Gastrointestinal

- i. Five-Star Recipient for Upper Gastrointestinal Surgery (2022-2024, three years in a row)
- ii. Five-Star Recipient for Small Intestine Surgeries (2017-2021 (five years in a row), 2024)

e. Neurosurgery

- i. Five-Star Recipient for Cranial Neurosurgery (2024)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Also, Plaintiff does not participate in Vizient and has not done so during the Relevant Time Period.

Interrogatory No. 13: Describe any steps taken by Your hospital to improve any and all of the patient safety measures considered by Leapfrog's Hospital Safety Grade (as set forth on Leapfrog's

published scoring methodology documents; see ECF No. 21-3 at 6-10; ECF No. 21-43 at 6-9), before and after each Safety Grade publication of which You complain.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of Plaintiff's improvements to "any and all" patient safety measures considered by Leapfrog's Hospital Safety Grade. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks information on metrics other than TLG's Deceptive Score Categories and to the extent it seeks information that is beyond the scope of Leapfrog's Hospital Survey.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff is committed to continual improvement of patient safety measures, motivated by our commitment to ensuring the best possible patient safety—not chasing the best possible Leapfrog grade. To achieve this core objective, Plaintiff devotes significant time and resources to improving its delivery of the highest possible quality of care for those in the community it serves, including efforts to improve its performance in areas related to the four metrics Plaintiff has chosen to impute in its survey.

Hand hygiene is reviewed at Plaintiff's monthly quality meeting by unit and by discipline. BCMA by unit is reviewed monthly by Plaintiffs' Chief Nursing Officer, and CPOE compliance is reviewed monthly through its hospitalists meetings, ensuring that providers are meeting metric.

ICU staffing is not something that needs to be monitored ongoing because Plaintiff has ICU coverage onsite 24/7 for regular critical care patients and trauma critical care patients.

Interrogatory No. 14: State whether You are aware of specific patients who have relied on the Leapfrog Safety Grade in declining to receive healthcare services at Your hospital. In so answering, identify the individual patient that declined to receive services, the date of such declination, the type of service the patient declined to receive, the medium for the communication from the patient (i.e. telephone, video conference, email, letter, etc.), the content of the communication, and the reason given for the stated decision.

Plaintiff objects to this Interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to a Qualified Protective Order entered by this Court.

Answer: Subject to the foregoing objection, Plaintiff has received reports that patients considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objection, since the release of TLG's false and misleading grades, Plaintiff has received numerous reports from doctors that patients considered or decided not to use Plaintiff's facility due to concerns related to TLG's misleading grades.

Interrogatory No. 15: Describe any effort Your hospital has made to influence public perception of Your hospital's performance on patient safety following the publication of the Leapfrog Safety Grade.

Plaintiff objects to this Interrogatory as vague and ambiguous because it does not specify which Leapfrog Safety Grade is at issue. Plaintiff will construe this Interrogatory to reference TLG's deceptive Safety Grades beginning in Fall 2024. Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks "any effort" Plaintiff "has made to influence public perception" after the release of TLG's deceptive and unfair Safety Grades because there have been many such "efforts" and those

“efforts” are ongoing given the significant harm caused by TLG’s deceptive and unfair business practices.

Answer: Subject to the foregoing objections, Plaintiff continues to influence public perception by, among other things, delivering the highest quality care to the community it serves, which, as discussed in response to Interrogatory 12, has led to numerous awards, accreditations, and accolades. In addition, several public statements disputing the misleading nature of the Safety Grade have been made on Plaintiff’s behalf.

Supplemental Answer: In addition to the above, members of hospital leadership have communicated with patients, doctors, or community members on a regular basis to dispel the misleading nature of the Leapfrog Safety Grades. For instance, Plaintiff communicated its governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff’s hospital. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG’s deceptive scores on behalf of Plaintiff and other affected members of the network. Plaintiff also engaged in email discussions about TLG’s misleading grades, either as sender or recipient, which TLG has through Plaintiff’s production of documents.

Interrogatory No. 16: Describe the due diligence Your hospital undertakes to ensure the accuracy of its own publicly reported safety data (including but not limited to data submitted to CMS, the CDC, and third party organizations).

Plaintiff objects to this Interrogatory as vague and ambiguous due to its use of the undefined term “due diligence.” Plaintiff further objects to this Interrogatory because it seeks

discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Any “due diligence” Plaintiff performs when reporting to *third parties* has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices, especially when TLG does nothing to ensure the accuracy of information that hospitals that participate in its survey self-report.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff makes reasonable efforts to ensure the accuracy of the data it reports to third-party organizations. For instance, Plaintiff employs data abstractors, quality coordinators and a Quality Director, who are all responsible for abstracting, validating, and submitting safety data.

Interrogatory No. 17: Describe in detail how You communicate to the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System the outcome of any and all healthcare safety ratings, evaluative publications, studies, or performance analyses that Your Hospital receives.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff’s communication, if any, with the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System, all non-parties to this litigation, has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff communicates with Tenet stakeholders, including employees who work to support the Palm Beach Health Network, on a range of matters, including issues related to patient safety and outcomes and in particular related to TLG and the Safety Grades by email and oral communication. Those communications included discussions about the reasons for particular grades, the method used to calculate Safety Grades, the value of Safety Grades, and responses to the Safety Grades. In addition, identified below are documents Plaintiff produced evidencing communications between the Plaintiff and Tenet related to TLG, the Leapfrog survey, and Safety Grades.

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 18: State whether the compensation of Your Chief Executive Officer or any other executive-level leadership officers is tied to or related in any way to Your hospital's

performance on patient safety, union worker contracts or Your hospital's ratings by third party ratings organizations' ratings publications (including but not limited to the Leapfrog Hospital Safety Grade).

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's method of compensating its Chief Executive Officer and other executive-level leadership **has nothing to do with the** claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff's performance on patient safety, union worker contracts, or ratings by third party ratings organizations' ratings publications is related in some way to the compensation of Plaintiff's Chief Executive Officer or other executive-level leadership officer(s).

Interrogatory No. 19: Identify all hospitals, medical centers, or healthcare systems that you consider to be your direct competitors within the relevant geographic market during the time period covered by the Complaint and describe in detail the criteria you use to determine whether another hospital or healthcare provider is a competitor.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. The identity of Plaintiff's competitors and "the criteria" used to determine whether a hospital or provide is a competitor has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff

also objects to this Interrogatory to the extent it seeks confidential, proprietary information, and commercially sensitive information related to Plaintiff's scoring system and "criteria" used to determine whether a hospital or provide is a competitor.

Subject to the foregoing objections and on condition that this response is considered "Confidential" under the forthcoming agreed confidentiality order, Bethesda Hospital East, Bethesda Hospital West, Boca Raton Regional Hospital, and HCA Florida JFK Hospital are Plaintiff's competitors. Plaintiff considers these hospitals competitors because of their proximity to Plaintiff, their competing services lines, and that patients within Plaintiff's service area go to these hospitals for medical care.

Interrogatory No. 20: State and describe the results of any market analysis, competitive analysis, or consumer perception surveys you have conducted or commissioned regarding your competitors from 2020 to present, and identify the individuals or entities that prepared or participated in such analyses.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not is not proportional to the needs of this Action. The results of any market analysis, competitive analysis, or consumer perception surveys and the identity of those who prepared or participated in such analyses has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Plaintiff further objects to this Interrogatory to the extent it requests information from outside of the relevant time period of January 1, 2023, to present. Plaintiff also

objects to this Interrogatory as unduly burdensome to the extent it asks Plaintiff to “state and describe” various market analysis.

As agreed during the parties’ meet and confer on September 3, 2025, Plaintiff will produce documents showing the results of studies or surveys Plaintiff has conducted or commissioned related to internal market analysis, competitive analysis, or consumer perception. Plaintiff will identify the documents responsive to this Interrogatory by Bates number in Plaintiffs’ production cover letter.

Interrogatory No. 21: Identify with specificity any comments or concerns raised by any third party payor, bank or lender, or investor related to Your hospital’s reputation and/or public perception on issues in any way involving patient safety or satisfaction.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this case to the extent it seeks “comments and concerns” from third parties related generally to Plaintiff’s reputation that has nothing to do with the specific and significant reputational harm caused by TLG’s misleading grades.

Answer: Subject to the foregoing objections, Plaintiff will produce and identify documents related to the significant reputational harm caused by TLG’s deceptive and unfair Safety Grades that provide sufficient detail to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff is unaware of any documents related to this Interrogatory.

Interrogatory No. 22: Identify and describe any complaints, concerns, or comments from patients, community members, or referring physicians that relate to the hospital’s reputation or comparisons to other hospitals in the region.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this Action to the extent it seeks “comments and concerns” from patients, community members, or referring physicians that have nothing to do with the significant reputational harm caused by TLG’s misleading grades. Plaintiff also objects to this interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff’s facility because of TLG’s misleading grades.

Amended Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff’s facility because of TLG’s misleading grades. In addition, concerns have been raised by patients, doctors, staff, and community members, and Plaintiff is aware of false and misleading statements based on TLG’s false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

Our Medical Executive Committee has received direct inquiries from patients regarding their concerns as to TLG’s grades and related public reports. Patients have told physicians that they do not want to go to the Medical Center for surgeries after seeing TLG’s grade and associated press reports. Medical professionals have expressed concern about working with the Medical Center due to the grade TLG assigned it. Further, we have received reports from patients and

doctors that patients have planned to drive past the Medical Center to a farther away medical facility due to the grade assigned by TLG to the Medical Center. Community members have given negative feedback related to the rating. The harm caused by TLG's false and misleading Safety Grade is ongoing.

In addition, the following produced documents evidence such harm.

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 23: List with specific detail each and every concern, complaint or comment made by any union, collective bargaining unit or employee association in any way related to patient safety at Your hospital.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks "each and every concern, complaint or comment " from third parties that have

nothing to do with the significant reputational harm caused by TLG's misleading grades. Plaintiff also objects to this Interrogatory to the extent it seeks health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Subject to the foregoing objections, there is no union, collective bargaining unit, or employee association at Plaintiff.

Interrogatory No. 24: Identify any and all criticism You have received since 2020 from Tenet Healthcare Corporation and/or from any individual executive of Tenet Healthcare Corporation regarding Your hospital's performance in any way.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. Any so-called "criticism" has nothing to do with the claims and defenses related to TLG's decision to use deceptive business practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: As discussed during the parties' meet and confer on September 3, 2025, TLG agreed to narrow this Interrogatory to concern only "criticism...regarding Your hospital's patient safety." After a reasonable and diligent search, Plaintiff is unaware of having received "criticism" from Tenet Health Corporation regarding patient safety. Plaintiff is always working to improve its performance, quality, and safety in a constructive way and engages with Tenet Health Corporation as needed to ensure Plaintiff provides the best patient care possible.

Dated: September 8, 2025

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**AFFIDAVIT OF HEATHER HAVERICAK IN SUPPORT OF
PLAINTIFF DELRAY MEDICAL CENTER, INC.'S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP'S FIRST SET OF
INTERROGATORIES TO DELRAY MEDICAL CENTER**

I, Heather Havericak, declare as follows:

1. I am over 21 years of age and competent to give this testimony.
2. I am the Chief Executive Officer of Delray Medical Center, Inc. ("Plaintiff"). I am the corporate representative of Plaintiff for the purpose of answering Defendant The Leapfrog Group's First Set of Interrogatories to Delray Medical Center. I have read the foregoing interrogatories and the answers to those interrogatories, which are true according to the best of my knowledge, information, and belief.
3. I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 8, 2025.

Heather Havericak

Exhibit 100

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**PLAINTIFF GOOD SAMARITAN MEDICAL CENTER, INC.’S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP’S FIRST SET OF
INTERROGATORIES TO GOOD SAMARITAN MEDICAL CENTER, INC.**

Pursuant to Federal Rules of Civil Procedure 26 and 33 and the *Pretrial Scheduling Order and Order Referring Case to Mediation* (ECF No. 36) (the “Pretrial Scheduling Order”), Plaintiff Good Samaritan Medical Center, Inc. (“Plaintiff” or “Good Samaritan”), by and through its undersigned counsel, hereby submit its amended and supplemented responses and objections (“Responses”), to Defendant The Leapfrog Group’s (“TLG”) First Set of Interrogatories, dated July 11, 2025 (the “Interrogatories” and each numbered interrogatory, an “Interrogatory”) in the above-captioned action (the “Action”).

Plaintiff’s Responses to the Interrogatories are made solely for purposes of this Action and to the best of Plaintiff’s present knowledge, information, and belief regarding the matters about which inquiry have been made. Discovery is ongoing, and Plaintiff reserves the right to amend, supplement, clarify, or further explain its Responses at any time prior to the trial in

this Action. Plaintiff further reserves the right to raise any additional objections deemed necessary or appropriate in light of any further review.

OBJECTIONS TO INSTRUCTIONS AND DEFINITIONS

1. Plaintiff objects to the definition of terms “Plaintiffs” and “Plaintiff Hospitals” as overbroad, unduly burdensome, and not proportional to the needs of the case to the extent it seeks to require Plaintiffs to respond on behalf of entities or individuals other than themselves.

2. Plaintiff objects to the definition of the terms “Good Samaritan”, “GSMC” “Plaintiff,” “You,” and “Your” to the extent each term seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

3. Plaintiff objects to the definition of the terms “Tenet Healthcare” and “Tenet” to the extent it seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of Tenet, Tenet’s agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

4. Plaintiff objects to the definition of “identify, when referring to a person,” as overbroad and unduly burdensome to the extent it calls for the “address” and “present or last-known employer” of identified individuals. Such information is overbroad and beyond the scope of permissible discovery.

5. Plaintiff objects to the instruction that the relevant time period for the Interrogatories begins on January 1, 2020. Plaintiff will apply to each Interrogatory the time period

of November 1, 2023 to present (the “Relevant Time Period”). Any response to an Interrogatory that provides information that falls outside of the Relevant Time Period should not be construed as an admission that the Relevant Time Period begins prior to November 1, 2023.

SPECIFIC RESPONSES TO INTERROGATORIES

Interrogatory No. 1: State the full name, address, job title or position, and hospital or employer affiliation of all individuals that assisted with responding to these interrogatories.

Answer: The following individuals assisted with responding to these Interrogatories.

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Sheri Montgomery	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Chief Executive Officer	Good Samaritan Medical Center
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Interrogatory No. 2: Identify every individual not identified in Your Rule 26(a) initial disclosures with knowledge of facts pertaining to the allegations in Your Complaint in this Lawsuit (and any subsequent amendments) and/or whom You believe may have discoverable knowledge, information or data regarding this matter, including those who You expect to call as a fact or opinion witness at any hearing in this proceeding or whose testimony (by affidavit, deposition or testimony) You intended to submit in connection with this proceeding, and the substance of his/her testimony or affidavit, and, with respect to each person identified, provide:

- A. full name,
- B. address,
- C. telephone number,
- D. job title or position,
- E. hospital or employer affiliation,
- F. and describe in detail the facts possessed by each such person.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of “every individual...with knowledge” or who “may have discoverable knowledge, information or data regarding this matter.” Plaintiff will not provide more than the identity of individuals most likely to have knowledge regarding this matter. Plaintiff further objects to this Interrogatory as premature because it requests disclosure of Plaintiff’s witnesses for hearings and the substance of witness testimony before such disclosure is required under applicable law or the Pretrial Scheduling Order. Plaintiff will submit its trial witness list on October 2, 2025, per the Pretrial Scheduling Order, and disclose any other witnesses and witness testimony as further ordered by the Court or otherwise required by applicable law. Plaintiff also objects to this Interrogatory’s request for the identity of “opinion witness[es]” as vague, since witnesses are either “fact” or “expert” witnesses. Plaintiff will interpret “opinion witness” to mean “expert witness.” Plaintiff submitted expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Answer: Subject to the foregoing objection, Plaintiff will amend its Rule 26(a)(1) Initial Disclosures to identify additional individuals who may have knowledge of facts pertaining to the allegations in the Complaint.

Amended Answer: In addition to those disclosed in Plaintiff’s supplemental disclosures, the following individuals may have relevant factual knowledge:

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Erin Britt	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Quality Director	Good Samaritan Medical Center

In addition to the individuals identified above, persons identified in documents produced in this dispute have knowledge of facts pertaining to the allegations in the Amended Complaint. *See* Fed. R. Civ. P. 33(d). Discovery is ongoing, and Plaintiff reserves the right to supplement, amend, correct, clarify, or modify this Response as further information becomes available.

Interrogatory No. 3: Describe in detail all factual bases for Your contention that Leapfrog’s published Safety Grade for Your hospital was false, inaccurate, misleading, deceptive, or unfair. In so answering, identify with particularity each measure, data point, or metric that You contend was inaccurately reported, calculated, or misrepresented by Leapfrog in calculating the Safety Grade for Your hospital.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all factual bases” for Plaintiff’s contention. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory as premature to the extent it requests that Plaintiff “[d]escribe in detail all factual bases” to support its contention. *In re Reliance Fin. & Inv. Grp., Inc.*, 2006 WL 8435541, at *4 (S.D. Fla. Feb. 14, 2006) (Contention interrogatories “are more appropriately used after a substantial amount of discovery has been conducted--typically, at the end of the discovery period.”). Plaintiff also objects to this Interrogatory to the extent it attempts to limit or mischaracterize Plaintiff’s claim as just

challenging the false, inaccurate, misleading, deceptive, or unfair nature of TLG's Safety Grade. As the Court explained in its order denying TLG's motion to dismiss, the core of the Complaint is "a challenge to Defendant's representations about its methodology, which they claim mislead consumers by failing to distinguish between absent data and damning data, and professing that grades are not influenced by a hospital's lack of survey participation." *Order on Motion to Dismiss* 6 (ECF No. 41). Plaintiff also challenges the provably false facts and deceptive scoring system underlying these grades, which TLG admits it relies on to arrive at its deceptive Safety Grades.

Subject to the foregoing objections and as more fully stated in the *Amended Complaint* (ECF No. 74) ("Complaint"), TLG has engaged in deceptive and unfair business practices and misrepresentations when issuing the Safety Grade for Plaintiff's hospital as part of TLG's annual "Hospital Survey." TLG posts these Safety Grades online at hospitalsafetygrade.org.

To arrive at these Safety Grades, TLG uses CMS data, survey responses from participating hospitals, and other supplemental data sources. For participating hospitals, TLG uses the hospitals' self-reported responses to the Hospital Survey for 12 of the 22 measures. For non-participating hospitals, TLG uses other sources for those 12 measures. For the remaining four measures—Computerized Physician Order Entry, Bar Code Medication Administration, ICU Physician Staffing, and Hand Hygiene Score (the "Deceptive Score Categories")—TLG devised and uses a so-called "imputation model." Prior to Fall 2024, TLG's imputation model assigned non-participating hospitals a score based on the average score applicable to a similarly situated hospital. Beginning in Fall 2024, TLG modified its imputation model. TLG now assigns the lowest possible score to non-participating hospitals, which has the effect of punishing non-participating hospitals and artificially deflating their Safety Grades. TLG has even admitted the changes in Fall 2024 were designed to penalize non-participating hospitals. TLG also misleads consumers about how

it grades hospitals, stating “[t]he Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the [TLG] Hospital Survey.” *Declaration of Lee Crain* (ECF No. 21) (“Crain Decl.”), Ex. 1 at 4 (“Frequently Asked Questions About the Leapfrog Hospital Safety Grade”).

As TLG explains, “not all hospitals have enough data publicly available to be eligible for a grade.” Crain Decl. Ex. 1 at 5. “As per the National Expert Panel guidance, [TLG] has requirements for the minimum amount of data [it] need[s] to issue an accurate grade.” Crain Decl. Ex. 1 at 5. According to TLG, “[h]ospitals missing more than six process measures” are “not graded.” Crain Decl. Ex. 2 at 6. Non-participating hospitals should fall easily into that “not graded” bucket, because their decision not to participate in TLG’s survey necessarily means TLG is missing seven process measures that rely on voluntary submission of hospital data.¹

TLG then deceptively conceals how it makes up grades for the four “imputation” measures and even suggests on its website that TLG *does* have data sufficient to score TLG on those four measures. By way of example, TLG acknowledges that Plaintiff “Declined to Report” information in response to questions about “Staff work[ing] together,” but then tells consumers—as if it were a fact—that Plaintiff is “Worse Than Average” on “Handwashing,” “Communication,” “medication administration,” and the like—even though TLG has no basis whatsoever to adopt those conclusions. Crain Decl. Ex. 32 at 2. TLG itself says handwashing is among the “most important” measures in its survey, Crain Decl. Ex. 15 at 4, yet it deceptively conceals that it has no data with which to grade the Plaintiff hospital on that measure. *Defendant The Leapfrog Group’s Responses to Plaintiffs’ Requests for Production* at 7 (“Leapfrog is not itself in possession

¹ Those seven include CPOE, BCMA, IPS, Safe Practice 1: Culture of Leadership Structures and Systems; Safe Practice 2: Culture Measurement, Feedback & Intervention; Total Nursing Care Hours per Patient Day; and Hand Hygiene.

of data showing Plaintiffs' performance on the 'imputed metrics' considered by the methodology."'). Of course, Plaintiff in fact has a comprehensive and thorough handwashing policy. And had Plaintiff merely filled out TLG's survey, it would have received a full letter grade higher on TLG's score. *Expert Report of Professor Sean Nicholson* (Aug. 7, 2025), Ex. 6.

Based on the foregoing, and as more fully set forth in the Complaint, TLG engages in deceptive trade practices by, among other things, deceiving consumers about its grading methods by implying that Plaintiff has failed on certain measures that, in truth, TLG has no data or other basis to evaluate; deceiving consumers by telling them the Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the Hospital Survey; deceiving consumers when it represents that it does not grade hospitals if it lacks sufficient data, when, in truth, it does grade hospitals by "imputing" or making up a grade for the Deceptive Score Categories; hiding the truth about its "imputation model" from consumers by burying it in fine print on a separate website; punishing non-participating hospitals by "imputing" scores, which artificially deflate a hospital's Safety Grade; and favoring participating hospitals. Additional factual bases for the Plaintiff's claims are presented in the Complaint.

Interrogatory No. 4: Describe the scoring or grading methodology You believe Leapfrog should have used to assess Your hospital's patient safety performance and explain why that method would yield a different result.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's provision of an alternative scoring or grading methodology has nothing to do with the claims and defenses in this case related to TLG's

decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it calls for speculation.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff responds that TLG should use a scoring system that is not unfair or deceptive. By way of example only, TLG could decline to grade hospitals that do not participate in TLG's survey, because their decision not to participate means TLG is missing seven process measures that rely on voluntary submission of hospital data. This would yield a different result, because the hospitals would not receive a grade at all. TLG's methodology certainly should not affirmatively assign an arbitrary low score to a particular metric just because a hospital does not provide data for that metric.

Interrogatory No. 5: State whether You submitted any data, corrections, or appeals to Leapfrog regarding the Safety Grade Your hospital received, and for each such submission, identify the date of the submission, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the submission, and the content of the submission.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any data, corrections, or appeals to Leapfrog regarding the Safety Grade" Plaintiff hospital received has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Answer: Subject to the foregoing objections, Plaintiff engaged in correspondence prior to the commencement of this case demanding that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, but at every turn TLG refused.

Amended Answer: Subject to the foregoing objections, Plaintiff did not submit any data, corrections or appeals to Leapfrog regarding the Safety Grades it has received.

Interrogatory No. 6: State whether You provided any comment or input in any form during Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade methodology that was proposed for the calculation of Hospital Safety Grades (including but not limited to for the Fall 2024 methodology update). If yes, please identify the date of the comment, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the comment and the content of the comment. If no, please state the reason why You chose not to comment.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any comment or input" in response to TLG's request for public comments has nothing to do with claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Subject to the foregoing objections, Plaintiff did not provide comments in response to Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade scoring system because Plaintiff generally does not respond to requests for public comment from private entities like TLG.

Interrogatory No. 7: Describe all actions Your hospital took in response to (or in deciding not to respond to) its Safety Grade or the Hospital Survey, including internal meetings, media statements, or public relations efforts. In so answering, state the date of the action, the individuals involved in the action and the content of the action.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all actions” Plaintiffs may have taken in response to TLG’s Safety Grades. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, No. 14-81476-CIV, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grade. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive committee, and governing board, corresponding with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action.

Amended Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grades. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive

committee, and governing board, corresponding through Plaintiff's corporate parent with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action. Plaintiff has also held many phone calls and meetings with physicians and other stakeholders about the TLG grades, explaining how the grades were deceptive and did not accurately reflect the hospital quality and patient safety at Plaintiff.

Interrogatory No. 8: Identify any and all persons, whether internal or external (e.g., patients, vendors, affiliates, parents, agents, partners, media) with whom You communicated in any way with respect to the Safety Grade or the Hospital Survey. In so answering, state the date of the communication, the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.) and the content of the communication.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of "any and all persons, whether internal or external." Plaintiff will disclose the categories of individuals with whom Plaintiff communicated about the Safety Grade or Hospital Survey during the Relevant Time Period. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that Health Insurance Portability and Accountability Act ("HIPAA"), among other statutes and regulations, bars Plaintiff from disclosing. Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, and physicians and nurses when

asked about the Safety Grade or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grade for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and since then, has engaged in various social networking and other marketing campaigns to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of the network.

Amended Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of

the network. Plaintiff also engaged in email discussions about TLG's misleading grades, either as sender or recipient, which TLG has through Plaintiff's production of documents.

Interrogatory No. 9: Describe all instances in which a third party declined to contract with, refer patients to, or work with Your hospital, where Leapfrog's grade was cited or discussed. In so identifying list the name of the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.), the date of the communication and the content of the communication.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it requires Plaintiff to "[d]escribe all instances" in which a third party took an action in response to TLG's deceptive grade.

Answer: Subject to the foregoing objection, Plaintiff is not aware of any responsive instances.

Amended Answer: Subject to the forgoing objection, by way of example, our Chief Nursing Officer reported that a nursing candidate questioned the quality of care of the hospital in her interview for a job opening. In addition, the recently hired Director of Cardiac Cathater Lab shared with the Chief Operating Officer that he considered rescinding his acceptance of the position after learning that the hospital had received an F from TLG, but he was glad that he didn't do so because Good Samaritan is a high-quality hospital and he is happy to be part of the organization.

Interrogatory No. 10: Describe with specificity the basis for each and every category of damage You claim You incurred as a result of the Leapfrog Safety Grade. In so identifying, list each category of damages and the dollar value of each category of damage You claim.

Plaintiff objects to this Interrogatory to the extent it seeks information that is the subject of expert testimony.

Answer: Plaintiff will submit expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Amended Answer: Plaintiff has served the expert report of Thomas Chakurda, which addresses the issue of reputational harm and harm to Plaintiff's goodwill. Plaintiff further objects to this Interrogatory as overbroad and unduly burdensome to the extent it seeks "each and every" category of claimed damages.

Subject to the foregoing objections and as agreed during the parties' September 3, 2025 meet and confer, Plaintiff will limit its response to the live non-monetary claims, including injunctive and declaratory relief, to remedy harm to Plaintiff's reputation and goodwill. Plaintiff's reputation and goodwill has been damaged by TLG's false and misleading methodology and resulting Safety Grades. Plaintiff's claim for reputational harm is based on, among other things, concerns raised by patients, doctors, staff, and community members, as well as false and misleading statements based on TLG's false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

By way of example, our Medical Executive Committee has received direct inquiries from patients regarding their concerns as TLG's grades and related public reports. Our Chief Nursing Officer reported that a nursing candidate questioned the quality of care of the hospital in her interview for a job opening. Patients have asked independent physicians that use both our facilities and those of Jupiter Medical Center (a nearby hospital) to schedule their surgeries at Jupiter Medical Center and not at ours. Those patients chose not to use our hospital specifically because of the Leapfrog grades. These independent surgeons have told us that they believe TLG has misled these patients about the quality of the Medical Center. The harm caused by TLG's false and misleading Safety Grade is ongoing.

Interrogatory No. 11: Identify all adverse patient events which occurred at Your hospital, including any citations received from regulatory agencies, accrediting agencies, and third party payors such as The Joint Commission, CMS, state health departments, etc. during the period covered by each Leapfrog Safety Grade publication of which You complain (i.e., Fall 2024, Fall 2025, etc.), as well as any complaints received from patients regarding the same.

Plaintiff objects to this Interrogatory because it is overly broad, unduly burdensome, seeks discovery of information that is irrelevant to the claims and defenses in this Action, seeks information that is beyond the scope of Leapfrog's Hospital Survey, and is not reasonably calculated to lead to the discovery of admissible evidence. TLG does not include "all adverse patient events," "citations received from" agencies or payors, or "complaints received from patients" in TLG's determination of its Hospital Safety Grades or request such information in the Hospital Survey, so any such information is irrelevant to whether TLG's actions constitute unfair or deceptive trade practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that HIPAA, among other statutes and regulations, bars Plaintiff from disclosing.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Defendant has agreed to withdraw this Interrogatory.

Interrogatory No. 12: Describe in detail how Your hospital compares nationally on on [sic] any other ranking of patient safety performance, including but not limited to Vizient, Inc., Premier, Inc., HealthTrust Purchasing Group, The Joint Commission, HealthGrades, US News, Newsweek, Statista, Definitive Healthcare, or any other quality benchmarking entity including benchmarking on patient safety including on adverse events and on healthcare-acquired infections.

Plaintiff objects to this Interrogatory's request that Plaintiff "[d]escribe in detail how Your hospital compares nationally" based on undisclosed "benchmarking" as vague and confusing. To the extent this Interrogatory seeks the top-line rankings of the identified organizations, Plaintiff objects to this Interrogatory because such information is publicly and equally available to TLG.

To the extent this Interrogatory asks Plaintiff to compare itself to the named and unnamed entities, that request is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Other organizations' rankings have nothing to do with the claims and defenses in this case related to the Deceptive Score Categories or TLG's decision to use deceptive business practices.

Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades, including many that are directly relevant to patient care for the community we serve. As a full-service cancer hospital, it is important to Plaintiff that it is accredited by the Commission on Cancer (CoC). In order to be accredited, Plaintiff had to undergo an on-site visit on a triennial basis, in which a trained CoC reviewer visited Plaintiff and reviewed its required cancer program activity documentation to ensure compliance with the standards.

The American College of Surgeons has designated Plaintiff a National Accreditation Program for Breast Centers for 13 years in a row. The American College of Radiology designated Plaintiff a Breast Imaging Center of Excellence, which it received only after accomplishing the highest level of care in breast imaging, including being committed to patients, providers, and payers. Plaintiff has been accredited as a Comprehensive Center by the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program, a joint Quality Program of the American College of Surgeons and the American Society for Metabolic and Bariatric Surgery.

Plaintiff is accredited by the Joint Commission, the nation's largest hospital accreditor that evaluates hospitals' quality performance standards through an objective evaluation process. Plaintiff has also been accredited by Joint Commission for specialization certifications for Gold

Seal of Approval for Total Hip and Knee Replacement, Shoulder Replacement and Spine Surgery—certification designed for hospitals providing the critical elements to achieve long-term success in improving critical medical outcomes—which signifies our services have delivered evidence-based proof of clinical quality sought by patients and payers alike. The entities that award and assign these accreditations and certifications visit the healthcare facility and perform regular periodic in-person reviews, audits surveys and assessments of the facility.

Plaintiff has also recently received the Florida Department of Health and Florida Agency for Health Care Administration Excellence for Maternal Care Award, which highlights hospitals that surpass Florida Department of Health’s goal of reducing the rate of C-sections among first-time mothers with low-risk pregnancies. Plaintiff was recognized by BlueCross BlueShield with a Blue Distinction Centers for Bariatric Surgery designation, as part of the Blue Distinction Specialty Care program, and for Knee and Hip Replacement. Plaintiff earned this recognition by providing a full range of bariatric surgical care services, including inpatient care, postoperative care, follow-up, and patient education that operate to standards set by BlueCross BlueShield, in partnership with physician experts and medical organizations. Aetna has also designated Plaintiff as an Aetna Institute of Quality orthopedic facility for total joint replacement and spine surgery, which it earned by consistently delivering safe and effective orthopedic care.

Healthgrades has awarded Plaintiff numerous Healthgrades accolades. To assess and evaluate hospitals, Healthgrades relies on data from Medicare medical claims records and states’ data on Medicare and commercially insured patient outcomes to determine patients’ actual clinical outcomes when visiting a given hospital. Plaintiff also received several awards from Healthgrades for various specialties, including:

a. Labor and Delivery

- i. Five-Star Recipient for C-Section Delivery for four years in a row (2022-2025)
- ii. Five-Star Recipient for Vaginal Delivery for 12 years in a row (2014-2025)

b. Outpatient Orthopedic

- i. Five-Star Recipient for Outpatient Back and Neck Surgery (except Spinal Fusion) (2025)
- ii. Recipient of the Healthgrades Outpatient Orthopedic Surgery Excellence Award (2025)

c. Spine Surgery

- i. Five-Star Recipient for Spinal Fusion
- ii. Recipient of the Healthgrades America's 100 Best Hospitals for Spine Surgery Award (2025)
- iii. Top 10% in the Nation for Spine Surgery (2025)
- iv. Recipient of the Healthgrades 2025 Spine Surgery Excellence Award

d. Gastrointestinal

- i. Five-Star Recipient for Treatment of Gastrointestinal Bleed (2024)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Amended Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades. For example, Plaintiff has been accredited by the Commission on Cancer (CoC) for 31 years. The American College of Surgeons has designated Plaintiff a National

Accreditation Program for Breast Centers for 13 years in a row. The American College of Radiology designated Plaintiff a Breast Imaging Center of Excellence. Plaintiff has been accredited as a Comprehensive Center by the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program, a joint Quality Program of the American College of Surgeons and the American Society for Metabolic and Bariatric Surgery. Plaintiff received the American Heart Association Stroke Gold Plus award for 2025.

Plaintiff is accredited by the Joint Commission. Plaintiff has also been accredited by Joint Commission for specialization certifications for Gold Seal of Approval for Total Hip and Knee Replacement, Shoulder Replacement and Spine Surgery.

Plaintiff has also recently received the Florida Department of Health and Florida Agency for Health Care Administration Excellence for Maternal Care Award. Plaintiff was recognized by BlueCross BlueShield with a Blue Distinction Centers for Bariatric Surgery designation, as part of the Blue Distinction Specialty Care program, and for Knee and Hip Replacement. Aetna has also designated Plaintiff as an Aetna Institute of Quality orthopedic facility for total joint replacement and spine surgery.

Healthgrades has awarded Plaintiff numerous Healthgrades accolades. Plaintiff also received several awards from Healthgrades for various specialties, including:

a. Labor and Delivery

- i. Five-Star Recipient for C-Section Delivery for four years in a row (2022-2025)
- ii. Five-Star Recipient for Vaginal Delivery for 12 years in a row (2014-2025)

b. Outpatient Orthopedic

- iii. Five-Star Recipient for Outpatient Back and Neck Surgery (except Spinal Fusion) (2025)
- iv. Recipient of the Healthgrades Outpatient Orthopedic Surgery Excellence Award (2025)

c. Spine Surgery

- i. Five-Star Recipient for Spinal Fusion
- ii. Recipient of the Healthgrades America's 100 Best Hospitals for Spine Surgery Award (2025)
- iii. Top 10% in the Nation for Spine Surgery (2025)
- iv. Recipient of the Healthgrades 2025 Spine Surgery Excellence Award

d. Gastrointestinal

- i. Five-Star Recipient for Treatment of Gastrointestinal Bleed (2024)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Also, Plaintiff does not participate in Vizient and has not done so during the Relevant Time Period.

Interrogatory No. 13: Describe any steps taken by Your hospital to improve any and all of the patient safety measures considered by Leapfrog's Hospital Safety Grade (as set forth on Leapfrog's published scoring methodology documents; see ECF No. 21-3 at 6-10; ECF No. 21-43 at 6-9), before and after each Safety Grade publication of which You complain.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of Plaintiff's improvements to "any and all" patient safety measures considered by Leapfrog's Hospital Safety

Grade. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks information on metrics other than TLG's Deceptive Score Categories and to the extent it seeks information that is beyond the scope of Leapfrog's Hospital Survey.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff is committed to continual improvement of patient safety measures, motivated by our commitment to ensuring the best possible patient safety—not chasing the best possible Leapfrog grade. To achieve this core objective, Plaintiff devotes significant time and resources to improving its delivery of the highest possible quality of care for those in the community it serves, including efforts to improve its performance in areas related to the four metrics Plaintiff has chosen to impute in its survey.

Plaintiff monitors its BCMA rate, but the rate is already nearly 100%, so there is very little scope for improvement. Plaintiff consistently tracks CPOE and hand hygiene. For CPOE, Plaintiff trains new hires one-on-one on how to implement CPOE properly, meets with providers to address any barriers, shares compliance reports with individual providers, and clinical informatics educators visit physicians' offices to address any access issues. Plaintiff also trains new hires in proper compliance with Plaintiff's hand hygiene policy and requires annual continuing education on it. Plaintiff surveils hand hygiene compliance monthly and provides real time education on the importance of hand hygiene. Compliance with Plaintiff's hand hygiene policy is also reviewed at periodic committee meetings, and leadership shares data with staff and holds them accountable for the results.

Plaintiff already has 24/7 ICU coverage for its intensivist unit and has had that coverage for several years, so it does not need to track this metric.

Interrogatory No. 14: State whether You are aware of specific patients who have relied on the Leapfrog Safety Grade in declining to receive healthcare services at Your hospital. In so answering, identify the individual patient that declined to receive services, the date of such declination, the type of service the patient declined to receive, the medium for the communication from the patient (i.e. telephone, video conference, email, letter, etc.), the content of the communication, and the reason given for the stated decision.

Plaintiff objects to this Interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to a Qualified Protective Order entered by this Court.

Answer: Subject to the foregoing objection, Plaintiff has received reports that patients considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objection, since the release of TLG's false and misleading grades, Plaintiff has received numerous reports from doctors that patients considered or decided not to use Plaintiff's facility due to concerns related to TLG's misleading grades.

Interrogatory No. 15: Describe any effort Your hospital has made to influence public perception of Your hospital's performance on patient safety following the publication of the Leapfrog Safety Grade.

Plaintiff objects to this Interrogatory as vague and ambiguous because it does not specify which Leapfrog Safety Grade is at issue. Plaintiff will construe this Interrogatory to reference TLG's deceptive Safety Grades beginning in Fall 2024. Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks "any effort" Plaintiff "has made to influence public perception" after the release of TLG's

deceptive and unfair Safety Grades because there have been many such “efforts” and those “efforts” are ongoing given the significant harm caused by TLG’s deceptive and unfair business practices.

Answer: Subject to the foregoing objections, Plaintiff continues to influence public perception by, among other things, delivering the highest quality care to the community it serves, which, as discussed in response to Interrogatory 12, has led to numerous awards, accreditations, and accolades. In addition, several public statements disputing the misleading nature of the Safety Grade have been made on Plaintiff’s behalf.

Supplemental Answer: In addition to the above, members of hospital leadership have communicated with patients, doctors, or community members on a regular basis to dispel the misleading nature of the Leapfrog Safety Grades. For instance, Plaintiff communicated its governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff’s hospital. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG’s deceptive scores on behalf of Plaintiff and other affected members of the network. Plaintiff also engaged in email discussions about TLG’s misleading grades, either as sender or recipient, which TLG has through Plaintiff’s production of documents.

Interrogatory No. 16: Describe the due diligence Your hospital undertakes to ensure the accuracy of its own publicly reported safety data (including but not limited to data submitted to CMS, the CDC, and third party organizations).

Plaintiff objects to this Interrogatory as vague and ambiguous due to its use of the undefined term “due diligence.” Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Any “due diligence” Plaintiff performs when reporting to *third parties* has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices, especially when TLG does nothing to ensure the accuracy of information that hospitals that participate in its survey self-report.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff makes reasonable efforts to ensure the accuracy of the data it reports to third-party organizations. For instance, Plaintiff employs data abstractors, quality coordinators and a Quality Director, who are all responsible for abstracting, validating, and submitting safety data.

Interrogatory No. 17: Describe in detail how You communicate to the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System the outcome of any and all healthcare safety ratings, evaluative publications, studies, or performance analyses that Your Hospital receives.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff’s communication, if any, with the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System, all non-parties to this litigation, has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff communicates with Tenet stakeholders, including employees who work to support the Palm Beach Health Network, on a range of matters, including issues related to patient safety and outcomes and in particular related to TLG and the Safety Grades by email and oral communication. Those communications included discussions about the reasons for particular grades, the method used to calculate Safety Grades, the value of Safety Grades, and responses to the Safety Grades. In addition, identified below are documents Plaintiff produced evidencing communications between the Plaintiff Hospitals and Tenet related to TLG, the Leapfrog survey, and Safety Grades.

PBHN000006465	PBHN000006466

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 18: State whether the compensation of Your Chief Executive Officer or any other executive-level leadership officers is tied to or related in any way to Your hospital's performance on patient safety, union worker contracts or Your hospital's ratings by third party ratings organizations' ratings publications (including but not limited to the Leapfrog Hospital Safety Grade).

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's method of compensating its Chief Executive Officer and other executive-level leadership **has nothing to do with the** claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff's performance on patient safety, union worker contracts, or ratings by third party ratings organizations' ratings publications is related in some way to the compensation of Plaintiff's Chief Executive Officer or other executive-level leadership officer(s).

Interrogatory No. 19: Identify all hospitals, medical centers, or healthcare systems that you consider to be your direct competitors within the relevant geographic market during the time period covered by the Complaint and describe in detail the criteria you use to determine whether another hospital or healthcare provider is a competitor.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. The identity of Plaintiff's competitors and "the criteria" used to determine whether a hospital or provide is a competitor has nothing to do with the claims and

defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff also objects to this Interrogatory to the extent it seeks confidential, proprietary information, and commercially sensitive information related to Plaintiff's scoring system and "criteria" used to determine whether a hospital or provide is a competitor.

Answer: Subject to the foregoing objections and on condition that this response is considered "Confidential" under the forthcoming agreed confidentiality order, HCA Florida JFK Hospital, HCA Florida Palms West Hospital, Jupiter Medical Center, and Wellington Regional Medical Center are Plaintiff's competitors. Plaintiff considers these hospitals competitors because of their proximity to Plaintiff, their competing services lines, and that patients within Plaintiff's service area go to these hospitals for medical care.

Supplemental Answer: Cleveland Clinic and NYU Langone are also Plaintiff's competitors.

Interrogatory No. 20: State and describe the results of any market analysis, competitive analysis, or consumer perception surveys you have conducted or commissioned regarding your competitors from 2020 to present, and identify the individuals or entities that prepared or participated in such analyses.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not is not proportional to the needs of this Action. The results of any market analysis, competitive analysis, or consumer perception surveys and the identity of those who prepared or participated in such analyses has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Plaintiff further objects to this Interrogatory to the extent it requests information from outside of the relevant time period of January 1, 2023, to present. Plaintiff also objects to this Interrogatory as unduly burdensome to the extent it asks Plaintiff to “state and describe” various market analysis.

As agreed during the parties’ meet and confer on September 3, 2025, Plaintiff will produce documents showing the results of studies or surveys Plaintiff has conducted or commissioned related to internal market analysis, competitive analysis, or consumer perception. Plaintiff will identify the documents responsive to this Interrogatory by Bates number in Plaintiffs’ production cover letter.

Interrogatory No. 21: Identify with specificity any comments or concerns raised by any third party payor, bank or lender, or investor related to Your hospital’s reputation and/or public perception on issues in any way involving patient safety or satisfaction.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this case to the extent it seeks “comments and concerns” from third parties related generally to Plaintiff’s reputation that has nothing to do with the specific and significant reputational harm caused by TLG’s misleading grades.

Answer: Subject to the foregoing objections, Plaintiff will produce and identify documents related to the significant reputational harm caused by TLG’s deceptive and unfair Safety Grades that provide sufficient detail to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff is unaware of any documents related to this Interrogatory.

Interrogatory No. 22: Identify and describe any complaints, concerns, or comments from patients, community members, or referring physicians that relate to the hospital's reputation or comparisons to other hospitals in the region.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this Action to the extent it seeks "comments and concerns" from patients, community members, or referring physicians that have nothing to do with the significant reputational harm caused by TLG's misleading grades. Plaintiff also objects to this interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff's facility because of TLG's misleading grades. In addition, concerns have been raised by patients, doctors, staff, and community members, and Plaintiff is aware of false and misleading statements based on TLG's false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

Our Medical Executive Committee has received direct inquiries from patients regarding their concerns as TLG's grades and related public reports. Our Chief Nursing Officer reported that a nursing candidate questioned the quality of care of the hospital in her interview for a job opening.

Patients have asked independent physicians that use both our facilities and those of Jupiter Medical Center (a nearby hospital) to schedule their surgeries at Jupiter Medical Center and not at ours. Those patients chose not to use our hospital specifically because of the Leapfrog grades. These independent surgeons have told us that they believe TLG has misled these patients about the quality of the Medical Center. The harm caused by TLG's false and misleading Safety Grade is ongoing.

In addition, the following produced documents evidence such harm.

PBHN000008914	PBHN000008914
PBHN000008915	PBHN000008915

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 23: List with specific detail each and every concern, complaint or comment made by any union, collective bargaining unit or employee association in any way related to patient safety at Your hospital.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “each and every concern, complaint or comment ” from third parties that have nothing to do with the significant reputational harm caused by TLG’s misleading grades. Plaintiff also objects to this Interrogatory to the extent it seeks health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff is unaware of any concern, complaint or comment regarding TLG deceptive scores made by the union at Plaintiff’s hospital.

Amended Answer: Subject to the foregoing objections, Plaintiff is unaware of any concern, complaint, or comment regarding TLG’s deceptive scores or regarding patient safety made by the union at Plaintiff’s hospital.

Interrogatory No. 24: Identify any and all criticism You have received since 2020 from Tenet Healthcare Corporation and/or from any individual executive of Tenet Healthcare Corporation regarding Your hospital’s performance in any way.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. Any so-called “criticism” has nothing to do with the claims and defenses related to TLG’s decision to use deceptive business practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: As discussed during the parties' meet and confer on September 3, 2025, TLG agreed to narrow this Interrogatory to concern only "criticism...regarding Your hospital's patient safety." After a reasonable and diligent search, Plaintiff is unaware of having received "criticism" from Tenet Health Corporation regarding patient safety. Plaintiff is always working to improve its performance, quality, and safety in a constructive way and engages with Tenet Health Corporation as needed to ensure Plaintiff provides the best patient care possible.

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**AFFIDAVIT OF SHERI MONTGOMERY IN SUPPORT OF
PLAINTIFF GOOD SAMARITAN MEDICAL CENTER, INC.'S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP'S FIRST SET OF
INTERROGATORIES TO GOOD SAMARITAN MEDICAL CENTER, INC.**

I, Sheri Montgomery, declare as follows:

1. I am over 21 years of age and competent to give this testimony.
2. I am the Chief Executive Officer of Good Samaritan Medical Center, Inc. ("Plaintiff"). I am the corporate representative of Plaintiff for the purpose of answering Defendant The Leapfrog Group's First Set of Interrogatories to Good Samaritan Medical Center, Inc. I have read the foregoing interrogatories and the answers to those interrogatories, which are true according to the best of my knowledge, information, and belief.
3. I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 8, 2025.

Sheri Montgomery

Exhibit 101

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**PLAINTIFF PALM BEACH GARDENS MEDICAL CENTER'S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP'S FIRST SET OF
INTERROGATORIES TO PALM BEACH GARDENS MEDICAL CENTER**

Pursuant to Federal Rules of Civil Procedure 26 and 33 and the *Pretrial Scheduling Order and Order Referring Case to Mediation* (ECF No. 36) (the “Pretrial Scheduling Order”), Plaintiff Palm Beach Gardens Medical Center (“Plaintiff” or “Palm Beach Gardens”), by and through its undersigned counsel, hereby submit its amended and supplemented responses and objections (“Responses”), to Defendant The Leapfrog Group’s (“TLG”) First Set of Interrogatories, dated July 11, 2025 (the “Interrogatories” and each numbered interrogatory, an “Interrogatory”) in the above-captioned action (the “Action”).

Plaintiff’s Responses to the Interrogatories are made solely for purposes of this Action and to the best of Plaintiff’s present knowledge, information, and belief regarding the matters about which inquiry have been made. Discovery is ongoing, and Plaintiff reserves the right to amend, supplement, clarify, or further explain its Responses at any time prior to the trial in

this Action. Plaintiff further reserves the right to raise any additional objections deemed necessary or appropriate in light of any further review.

OBJECTIONS TO INSTRUCTIONS AND DEFINITIONS

1. Plaintiff objects to the definition of terms “Plaintiffs” and “Plaintiff Hospitals” as overbroad, unduly burdensome, and not proportional to the needs of the case to the extent it seeks to require Plaintiffs to respond on behalf of entities or individuals other than themselves.

2. Plaintiff objects to the definition of the terms “Palm Beach Gardens,” “Palm Beach Gardens Medical Center,” “Plaintiff,” “You,” and “Your” to the extent each term seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

3. Plaintiff objects to the definition of the terms “Tenet Healthcare” and “Tenet” to the extent it seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of Tenet, Tenet’s agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

4. Plaintiff objects to the definition of “identify, when referring to a person,” as overbroad and unduly burdensome to the extent it calls for the “address” and “present or last-known employer” of identified individuals. Such information is overbroad and beyond the scope of permissible discovery.

5. Plaintiff objects to the instruction that the relevant time period for the Interrogatories begins on January 1, 2020. Plaintiff will apply to each Interrogatory the time period

of November 1, 2023 to present (the “Relevant Time Period”). Any response to an Interrogatory that provides information that falls outside of the Relevant Time Period should not be construed as an admission that the Relevant Time Period begins prior to November 1, 2023.

SPECIFIC RESPONSES TO INTERROGATORIES

Interrogatory No. 1: State the full name, address, job title or position, and hospital or employer affiliation of all individuals that assisted with responding to these interrogatories.

Answer: The following individuals assisted with responding to these Interrogatories.

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Erik Cazares	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Chief Executive Officer	Palm Beach Gardens Community Hospital
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Interrogatory No. 2: Identify every individual not identified in Your Rule 26(a) initial disclosures with knowledge of facts pertaining to the allegations in Your Complaint in this Lawsuit (and any subsequent amendments) and/or whom You believe may have discoverable knowledge, information or data regarding this matter, including those who You expect to call as a fact or opinion witness at any hearing in this proceeding or whose testimony (by affidavit, deposition or testimony) You intended to submit in connection with this proceeding, and the substance of his/her testimony or affidavit, and, with respect to each person identified, provide:

- A. full name,
- B. address,
- C. telephone number,
- D. job title or position,
- E. hospital or employer affiliation,
- F. and describe in detail the facts possessed by each such person.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of “every individual...with knowledge” or who “may have discoverable knowledge, information or data regarding this matter.” Plaintiff will not provide more than the identity of individuals most likely to have knowledge regarding this matter. Plaintiff further objects to this Interrogatory as premature because it requests disclosure of Plaintiff’s witnesses for hearings and the substance of witness testimony before such disclosure is required under applicable law or the Pretrial Scheduling Order. Plaintiff will submit its trial witness list on October 2, 2025, per the Pretrial Scheduling Order, and disclose any other witnesses and witness testimony as further ordered by the Court or otherwise required by applicable law. Plaintiff also objects to this Interrogatory’s request for the identity of “opinion witness[es]” as vague, since witnesses are either “fact” or “expert” witnesses. Plaintiff will interpret “opinion witness” to mean “expert witness.” Plaintiff submitted expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Answer: Subject to the foregoing objection, Plaintiff will amend its Rule 26(a)(1) Initial Disclosures to identify additional individuals who may have knowledge of facts pertaining to the allegations in the Complaint.

Amended Answer: In addition to those disclosed in Plaintiff’s supplemental disclosures, the following individuals may have relevant factual knowledge:

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Kathleen McDonald	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Quality Director	Palm Beach Gardens Community Hospital

In addition to the individuals identified above, persons identified in documents produced in this dispute have knowledge of facts pertaining to the allegations in the Amended Complaint. *See* Fed. R. Civ. P. 33(d). Discovery is ongoing, and Plaintiff reserves the right to supplement, amend, correct, clarify, or modify this Response as further information becomes available.

Interrogatory No. 3: Describe in detail all factual bases for Your contention that Leapfrog’s published Safety Grade for Your hospital was false, inaccurate, misleading, deceptive, or unfair. In so answering, identify with particularity each measure, data point, or metric that You contend was inaccurately reported, calculated, or misrepresented by Leapfrog in calculating the Safety Grade for Your hospital.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all factual bases” for Plaintiff’s contention. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory as premature to the extent it requests that Plaintiff “[d]escribe in detail all factual bases” to support its contention. *In re Reliance Fin. & Inv. Grp., Inc.*, 2006 WL 8435541, at *4 (S.D. Fla. Feb. 14, 2006) (Contention interrogatories “are more appropriately used after a substantial amount of discovery has been conducted--typically, at the end of the discovery period.”). Plaintiff also objects to this Interrogatory to the extent it attempts to limit or mischaracterize Plaintiff’s claim as just

challenging the false, inaccurate, misleading, deceptive, or unfair nature of TLG's Safety Grade. As the Court explained in its order denying TLG's motion to dismiss, the core of the Complaint is "a challenge to Defendant's representations about its methodology, which they claim mislead consumers by failing to distinguish between absent data and damning data, and professing that grades are not influenced by a hospital's lack of survey participation." *Order on Motion to Dismiss* 6 (ECF No. 41). Plaintiff also challenges the provably false facts and deceptive scoring system underlying these grades, which TLG admits it relies on to arrive at its deceptive Safety Grades.

Subject to the foregoing objections and as more fully stated in the *Amended Complaint* (ECF No. 74) ("Complaint"), TLG has engaged in deceptive and unfair business practices and misrepresentations when issuing the Safety Grade for Plaintiff's hospital as part of TLG's annual "Hospital Survey." TLG posts these Safety Grades online at hospitalsafetygrade.org.

To arrive at these Safety Grades, TLG uses CMS data, survey responses from participating hospitals, and other supplemental data sources. For participating hospitals, TLG uses the hospitals' self-reported responses to the Hospital Survey for 12 of the 22 measures. For non-participating hospitals, TLG uses other sources for those 12 measures. For the remaining four measures—Computerized Physician Order Entry, Bar Code Medication Administration, ICU Physician Staffing, and Hand Hygiene Score (the "Deceptive Score Categories")—TLG devised and uses a so-called "imputation model." Prior to Fall 2024, TLG's imputation model assigned non-participating hospitals a score based on the average score applicable to a similarly situated hospital. Beginning in Fall 2024, TLG modified its imputation model. TLG now assigns the lowest possible score to non-participating hospitals, which has the effect of punishing non-participating hospitals and artificially deflating their Safety Grades. TLG has even admitted the changes in Fall 2024 were designed to penalize non-participating hospitals. TLG also misleads consumers about how

it grades hospitals, stating “[t]he Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the [TLG] Hospital Survey.” *Declaration of Lee Crain* (ECF No. 21) (“Crain Decl.”), Ex. 1 at 4 (“Frequently Asked Questions About the Leapfrog Hospital Safety Grade”).

As TLG explains, “not all hospitals have enough data publicly available to be eligible for a grade.” Crain Decl. Ex. 1 at 5. “As per the National Expert Panel guidance, [TLG] has requirements for the minimum amount of data [it] need[s] to issue an accurate grade.” Crain Decl. Ex. 1 at 5. According to TLG, “[h]ospitals missing more than six process measures” are “not graded.” Crain Decl. Ex. 2 at 6. Non-participating hospitals should fall easily into that “not graded” bucket, because their decision not to participate in TLG’s survey necessarily means TLG is missing seven process measures that rely on voluntary submission of hospital data.¹

TLG then deceptively conceals how it makes up grades for the four “imputation” measures and even suggests on its website that TLG *does* have data sufficient to score TLG on those four measures. By way of example, TLG acknowledges that Plaintiff “Declined to Report” information in response to questions about “Staff work[ing] together,” but then tells consumers—as if it were a fact—that Plaintiff is “Worse Than Average” on “Handwashing,” “Communication,” “medication administration,” and the like—even though TLG has no basis whatsoever to adopt those conclusions. Crain Decl. Ex. 32 at 2. TLG itself says handwashing is among the “most important” measures in its survey, Crain Decl. Ex. 15 at 4, yet it deceptively conceals that it has no data with which to grade the Plaintiff hospital on that measure. *Defendant The Leapfrog Group’s Responses to Plaintiffs’ Requests for Production* at 7 (“Leapfrog is not itself in possession

¹ Those seven include CPOE, BCMA, IPS, Safe Practice 1: Culture of Leadership Structures and Systems; Safe Practice 2: Culture Measurement, Feedback & Intervention; Total Nursing Care Hours per Patient Day; and Hand Hygiene.

of data showing Plaintiffs' performance on the 'imputed metrics' considered by the methodology."'). Of course, Plaintiff in fact has a comprehensive and thorough handwashing policy. And had Plaintiff merely filled out TLG's survey, it would have received a full two letter grades higher on TLG's score. *Expert Report of Professor Sean Nicholson* (Aug. 7, 2025), Ex. 6.

Based on the foregoing, and as more fully set forth in the Complaint, TLG engages in deceptive trade practices by, among other things, deceiving consumers about its grading methods by implying that Plaintiff has failed on certain measures that, in truth, TLG has no data or other basis to evaluate; deceiving consumers by telling them the Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the Hospital Survey; deceiving consumers when it represents that it does not grade hospitals if it lacks sufficient data, when, in truth, it does grade hospitals by "imputing" or making up a grade for the Deceptive Score Categories; hiding the truth about its "imputation model" from consumers by burying it in fine print on a separate website; punishing non-participating hospitals by "imputing" scores, which artificially deflate a hospital's Safety Grade; and favoring participating hospitals. Additional factual bases for the Plaintiff's claims are presented in the Complaint.

Interrogatory No. 4: Describe the scoring or grading methodology You believe Leapfrog should have used to assess Your hospital's patient safety performance and explain why that method would yield a different result.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's provision of an alternative scoring or grading methodology has nothing to do with the claims and defenses in this case related to TLG's

decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it calls for speculation.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff responds that TLG should use a scoring system that is not unfair or deceptive. By way of example only, TLG could decline to grade hospitals that do not participate in TLG's survey, because their decision not to participate means TLG is missing seven process measures that rely on voluntary submission of hospital data. This would yield a different result, because the hospitals would not receive a grade at all. TLG's methodology certainly should not affirmatively assign an arbitrary low score to a particular metric just because a hospital does not provide data for that metric.

Interrogatory No. 5: State whether You submitted any data, corrections, or appeals to Leapfrog regarding the Safety Grade Your hospital received, and for each such submission, identify the date of the submission, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the submission, and the content of the submission.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any data, corrections, or appeals to Leapfrog regarding the Safety Grade" Plaintiff hospital received has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Answer: Subject to the foregoing objections, Plaintiff engaged in correspondence prior to the commencement of this case demanding that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, but at every turn TLG refused.

Amended Answer: Subject to the foregoing objections, Plaintiff did not submit any data, corrections or appeals to Leapfrog regarding the Safety Grades it has received.

Interrogatory No. 6: State whether You provided any comment or input in any form during Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade methodology that was proposed for the calculation of Hospital Safety Grades (including but not limited to for the Fall 2024 methodology update). If yes, please identify the date of the comment, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the comment and the content of the comment. If no, please state the reason why You chose not to comment.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any comment or input" in response to TLG's request for public comments has nothing to do with claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Subject to the foregoing objections, Plaintiff did not provide comments in response to Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade scoring system because Plaintiff generally does not respond to requests for public comment from private entities like TLG.

Interrogatory No. 7: Describe all actions Your hospital took in response to (or in deciding not to respond to) its Safety Grade or the Hospital Survey, including internal meetings, media statements, or public relations efforts. In so answering, state the date of the action, the individuals involved in the action and the content of the action.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all actions” Plaintiffs may have taken in response to TLG’s Safety Grades. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, No. 14-81476-CIV, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grade. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive committee, and governing board, corresponding with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action.

Amended Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grades. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive

committee, and governing board, corresponding through Plaintiff's corporate parent with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action. Plaintiff has also held many phone calls and meetings with physicians and other stakeholders about the TLG grades, explaining how the grades were deceptive and did not accurately reflect the hospital quality and patient safety at Plaintiff.

Interrogatory No. 8: Identify any and all persons, whether internal or external (e.g., patients, vendors, affiliates, parents, agents, partners, media) with whom You communicated in any way with respect to the Safety Grade or the Hospital Survey. In so answering, state the date of the communication, the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.) and the content of the communication.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of "any and all persons, whether internal or external." Plaintiff will disclose the categories of individuals with whom Plaintiff communicated about the Safety Grade or Hospital Survey during the Relevant Time Period. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that Health Insurance Portability and Accountability Act ("HIPAA"), among other statutes and regulations, bars Plaintiff from disclosing. Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, and physicians and nurses when

asked about the Safety Grade or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grade for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and since then, has engaged in various social networking and other marketing campaigns to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of the network.

Amended Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of

the network. Plaintiff also engaged in email discussions about TLG's misleading grades, either as sender or recipient, which TLG has through Plaintiff's production of documents.

Interrogatory No. 9: Describe all instances in which a third party declined to contract with, refer patients to, or work with Your hospital, where Leapfrog's grade was cited or discussed. In so identifying list the name of the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.), the date of the communication and the content of the communication.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it requires Plaintiff to "[d]escribe all instances" in which a third party took an action in response to TLG's deceptive grade.

Subject to the foregoing objection, Plaintiff is not aware of any responsive instances.

Interrogatory No. 10: Describe with specificity the basis for each and every category of damage You claim You incurred as a result of the Leapfrog Safety Grade. In so identifying, list each category of damages and the dollar value of each category of damage You claim.

Plaintiff objects to this Interrogatory to the extent it seeks information that is the subject of expert testimony.

Answer: Plaintiff will submit expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Amended Answer: Plaintiff has served the expert report of Thomas Chakurda, which addresses the issue of reputational harm and harm to Plaintiff's goodwill. Plaintiff further objects to this Interrogatory as overbroad and unduly burdensome to the extent it seeks "each and every" category of claimed damages.

Subject to the foregoing objections and as agreed during the parties' September 3, 2025 meet and confer, Plaintiff will limit its response to the live non-monetary claims, including

injunctive and declaratory relief, to remedy harm to Plaintiff's reputation and goodwill. Plaintiff's reputation and goodwill has been damaged by TLG's false and misleading methodology and resulting Safety Grades. Plaintiff's claim for reputational harm is based on, among other things, concerns raised by patients, doctors, staff, and community members, as well as false and misleading statements based on TLG's false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

By way of example, we have received reports from patients that they decided not to use our hospital due to the misleading grade TLG assigned to the hospital. Our Medical Executive Committee has received direct inquiries from patients regarding their concerns about TLG's grades and related public reports. Patients have asked independent physicians that use both our facilities and those of Jupiter Medical Center (a nearby hospital) to schedule their surgeries at Jupiter Medical Center and not at ours. These independent surgeons have told us that they believe TLG has misled these patients about the quality of the Medical Center because these surgeons believe our hospital provides higher-quality care. Doctors have had patients express that they do not want to come to the Medical Center, specifically because of the Leapfrog grade. The harm caused by TLG's false and misleading Safety Grade is ongoing.

Interrogatory No. 11: Identify all adverse patient events which occurred at Your hospital, including any citations received from regulatory agencies, accrediting agencies, and third party payors such as The Joint Commission, CMS, state health departments, etc. during the period covered by each Leapfrog Safety Grade publication of which You complain (i.e., Fall 2024, Fall 2025, etc.), as well as any complaints received from patients regarding the same.

Plaintiff objects to this Interrogatory because it is overly broad, unduly burdensome, seeks discovery of information that is irrelevant to the claims and defenses in this Action, seeks information that is beyond the scope of Leapfrog's Hospital Survey, and is not reasonably

calculated to lead to the discovery of admissible evidence. TLG does not include “all adverse patient events,” “citations received from” agencies or payors, or “complaints received from patients” in TLG’s determination of its Hospital Safety Grades or request such information in the Hospital Survey, so any such information is irrelevant to whether TLG’s actions constitute unfair or deceptive trade practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that HIPAA, among other statutes and regulations, bars Plaintiff from disclosing.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Defendant has agreed to withdraw this Interrogatory.

Interrogatory No. 12: Describe in detail how Your hospital compares nationally on on [sic] any other ranking of patient safety performance, including but not limited to Vizient, Inc., Premier, Inc., HealthTrust Purchasing Group, The Joint Commission, HealthGrades, US News, Newsweek, Statista, Definitive Healthcare, or any other quality benchmarking entity including benchmarking on patient safety including on adverse events and on healthcare-acquired infections.

Plaintiff objects to this Interrogatory’s request that Plaintiff “[d]escribe in detail how Your hospital compares nationally” based on undisclosed “benchmarking” as vague and confusing. To the extent this Interrogatory seeks the top-line rankings of the identified organizations, Plaintiff objects to this Interrogatory because such information is publicly and equally available to TLG. To the extent this Interrogatory asks Plaintiff to compare itself to the named and unnamed entities, that request is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Other organizations’ rankings have nothing to do with

the claims and defenses in this case related to the Deceptive Score Categories or TLG's decision to use deceptive business practices.

Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades, including many that are especially relevant to patient care for the over-65 patient community that represent over 50% of the patients we serve. Plaintiff is accredited by the Joint Commission, the nation's largest hospital accreditor that evaluates hospitals' quality performance standards through an objective evaluation process. Plaintiff has also been accredited by Joint Commission as an Advanced Primary Stroke Center—a certification designed for hospitals providing the critical elements to achieve long-term success in improving stroke outcomes—and Total Joint Hip/Knee Certification—which signifies our services have delivered evidence-based proof of clinical quality sought by patients and payers alike. Additionally, it has a lab accreditation from the College of American Pathologists—requirement to perform testing on specimens from human beings—and was selected as a certified program with the American Association of Cardiovascular and Pulmonary Rehabilitation (AACVPR)—the only peer-reviewed accreditation process designed to review individual facilities for adherence to standards and guidelines developed and published by the AACVPR. These accreditations and certifications are only awarded after in-person visits to Plaintiff where our health care professionals are interviewed and patient care is reviewed first hand. We are subject to regular periodic in-person reviews, audits, surveys, and assessments of the facility.

Plaintiff has also received numerous awards that exemplify its quality such as Blue Distinction Center+ Designation for Quality and Cost-Efficiency in Knee and Hip Replacement Surgeries by BlueCross BlueShield, the Joint Commission's Gold Seal of Approval for Hip and Knee Replacement, an Aetna Institute of Quality Orthopedic Facility for Total Joint Replacement

and Spine Surgery, Get with the Guidelines Gold Plus Stroke Recognition Award from the American Heart Association for 10 years straight, and the Gold Plus Diabetes Recognition Award for the last three years, among several other awards.

In 2025, the medical ranking organization Healthgrades gave Plaintiff the award for “America’s 100 Best for Spine and Outpatient Orthopedic Excellence Award.” To assess and evaluate hospitals, Healthgrades relies on data from Medicare medical claims records and states’ data on Medicare and commercially insured patient outcomes to determine patients’ actual clinical outcomes when visiting a given hospital. Healthgrades also assigned Plaintiff five-star awards for various specialties, including:

a. Cardiac Care

- i. Five-Star Recipient for Valve Surgery (2023, 2025)
- ii. Five-Star Recipient for Treatment of Heart Failure for three years in a row (2023-2025)
- iii. Five-Star Recipient for Carotid Procedures for three years in a row (2023-2025)
- iv. Recipient of the Healthgrades 2023 Cardiac Surgery Excellence Award
- v. Top 10% in the Nation for Cardiac Surgery (2023)

b. Critical Care

- i. Five-Star Recipient for Respiratory Failure for two years in a row (2024-2025)

c. Gastrointestinal

- i. Five-Star Recipient for Colorectal Surgeries (2025)
- ii. Five-Star Recipient for Treatment of GI Bleed (2024)

d. Neurosurgery

- i. Five-Star Recipient for Treatment of Stroke (2025)

e. Pulmonary

- i. Five-Star Recipient for Treatment of Pneumonia for three years in a row (2023-2025)
- ii. Recipient of the Healthgrades Pulmonary Care Excellence Award (2024, 2025)
- iii. Top 10% in the Nation for Pulmonary Care (2024, 2025)
- iv. Five Star Recipient for Treatment of Chronic Obstructive Pulmonary Disease (2024).

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Amended Answer: Plaintiff has received numerous awards and accolades. For example, Plaintiff is accredited by the Joint Commission. Plaintiff has also been accredited by Joint Commission as an Advanced Primary Stroke Center and earned Total Joint Hip/Knee Certification. Additionally, it has a lab accreditation from the College of American Pathologists and was selected as a certified program with the American Association of Cardiovascular and Pulmonary Rehabilitation (AACVPR).

Plaintiff has also received the Blue Distinction Center+ Designation for Quality and Cost-Efficiency in Knee and Hip Replacement Surgeries by BlueCross BlueShield, an Aetna Institute of Quality Award, Get with the Guidelines Gold Plus Stroke Recognition Award from the American Heart Association, and the Gold Plus Diabetes Recognition Award, among several other awards.

In 2025, the medical ranking organization Healthgrades assigned Plaintiff five-star awards for various specialties, including:

a. Cardiac Care

- i. Five-Star Recipient for Valve Surgery (2025)
- ii. Five-Star Recipient for Treatment of Heart Failure for three years in a row (2023-2025)
- iii. Five-Star Recipient for Carotid Procedures for three years in a row (2023-2025)

b. Critical Care

- i. Five-Star Recipient for Respiratory Failure (2024, 2025)

c. Gastrointestinal

- i. Five-Star Recipient for Colorectal Surgeries (2025)

d. Neurosurgery

- i. Five-Star Recipient for Treatment of Stroke (2025)

e. Pulmonary

- i. Five-Star Recipient for Treatment of Pneumonia for three years in a row (2023-2025)
- ii. Recipient of the Healthgrades Pulmonary Care Excellence Award (2024, 2025)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Also, Plaintiff does not participate in Vizient and has not done so during the Relevant Time Period.

Interrogatory No. 13: Describe any steps taken by Your hospital to improve any and all of the patient safety measures considered by Leapfrog's Hospital Safety Grade (as set forth on Leapfrog's published scoring methodology documents; see ECF No. 21-3 at 6-10; ECF No. 21-43 at 6-9), before and after each Safety Grade publication of which You complain.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of Plaintiff's improvements to "any and all" patient safety measures considered by Leapfrog's Hospital Safety Grade. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks information on metrics other than TLG's Deceptive Score Categories and to the extent it seeks information that is beyond the scope of Leapfrog's Hospital Survey.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff is committed to continual improvement of patient safety measures, motivated by our commitment to ensuring the best possible patient safety—not chasing the best possible Leapfrog grade. To achieve this core objective, Plaintiff devotes significant time and resources to improving its delivery of the highest possible quality of care for those in the community it serves, including efforts to improve its performance in areas related to the four metrics Plaintiff has chosen to impute in its survey.

Plaintiff reviews its CPOE, BCMA, and Hand Hygiene metrics at periodic meetings to ensure patient safety and compliance and develop and review remedial plans as necessary.

Plaintiff already has 24/7 ICU coverage for its intensivist unit and has on call providers in case additional resources are needed. Plaintiff also continuously reassesses the staffing needs for the department.

Interrogatory No. 14: State whether You are aware of specific patients who have relied on the Leapfrog Safety Grade in declining to receive healthcare services at Your hospital. In so answering, identify the individual patient that declined to receive services, the date of such declination, the type of service the patient declined to receive, the medium for the communication from the patient (i.e. telephone, video conference, email, letter, etc.), the content of the communication, and the reason given for the stated decision.

Plaintiff objects to this Interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to a Qualified Protective Order entered by this Court.

Answer: Subject to the foregoing objection, Plaintiff has received reports that patients considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objection, since the release of TLG's false and misleading grades, Plaintiff has received numerous reports from doctors that patients considered or decided not to use Plaintiff's facility due to concerns related to TLG's misleading grades.

Interrogatory No. 15: Describe any effort Your hospital has made to influence public perception of Your hospital's performance on patient safety following the publication of the Leapfrog Safety Grade.

Plaintiff objects to this Interrogatory as vague and ambiguous because it does not specify which Leapfrog Safety Grade is at issue. Plaintiff will construe this Interrogatory to reference TLG's deceptive Safety Grades beginning in Fall 2024. Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks "any effort" Plaintiff "has made to influence public perception" after the release of TLG's deceptive and unfair Safety Grades because there have been many such "efforts" and those

“efforts” are ongoing given the significant harm caused by TLG’s deceptive and unfair business practices.

Answer: Subject to the foregoing objections, Plaintiff continues to influence public perception by, among other things, delivering the highest quality care to the community it serves, which, as discussed in response to Interrogatory 12, has led to numerous awards, accreditations, and accolades. In addition, several public statements disputing the misleading nature of the Safety Grade have been made on Plaintiff’s behalf.

Supplemental Answer: In addition to the above, members of hospital leadership have communicated with patients, doctors, or community members on a regular basis to dispel the misleading nature of the Leapfrog Safety Grades. For instance, Plaintiff communicated its governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff’s hospital. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG’s deceptive scores on behalf of Plaintiff and other affected members of the network. Plaintiff also engaged in email discussions about TLG’s misleading grades, either as sender or recipient, which TLG has through Plaintiff’s production of documents.

Interrogatory No. 16: Describe the due diligence Your hospital undertakes to ensure the accuracy of its own publicly reported safety data (including but not limited to data submitted to CMS, the CDC, and third party organizations).

Plaintiff objects to this Interrogatory as vague and ambiguous due to its use of the undefined term “due diligence.” Plaintiff further objects to this Interrogatory because it seeks

discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Any “due diligence” Plaintiff performs when reporting to *third parties* has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices, especially when TLG does nothing to ensure the accuracy of information that hospitals that participate in its survey self-report.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff makes reasonable efforts to ensure the accuracy of the data it reports to third-party organizations. For instance, Plaintiff employs data abstractors, quality coordinators and a Quality Director, who are all responsible for abstracting, validating, and submitting safety data.

Interrogatory No. 17: Describe in detail how You communicate to the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System the outcome of any and all healthcare safety ratings, evaluative publications, studies, or performance analyses that Your Hospital receives.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff’s communication, if any, with the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System, all non-parties to this litigation, has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff communicates with Tenet stakeholders, including employees who work to support the Palm Beach Health Network, on a range of matters, including issues related to patient safety and outcomes and in particular related to TLG and the Safety Grades by email and oral communication. Those communications included discussions about the reasons for particular grades, the method used to calculate Safety Grades, the value of Safety Grades, and responses to the Safety Grades. In addition, identified below are documents Plaintiff produced evidencing communications between the Plaintiff Hospitals and Tenet related to TLG, the Leapfrog survey, and Safety Grades.

Start Page	End Page
PBHN000006509	PBHN000006513

PBHN000004564	PBHN000004564
PBHN000004574	PBHN000004581
PBHN000004565	PBHN000004569
PBHN000004704	PBHN000004704
PBHN000004715	PBHN000004719
PBHN000006465	PBHN000006466

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 18: State whether the compensation of Your Chief Executive Officer or any other executive-level leadership officers is tied to or related in any way to Your hospital's performance on patient safety, union worker contracts or Your hospital's ratings by third party ratings organizations' ratings publications (including but not limited to the Leapfrog Hospital Safety Grade).

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's method of compensating its Chief Executive Officer and other executive-level leadership **has nothing to do with the** claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff's performance on patient safety, union worker contracts, or ratings by third party ratings organizations' ratings publications is related in some way to the compensation of Plaintiff's Chief Executive Officer or other executive-level leadership officer(s).

Interrogatory No. 19: Identify all hospitals, medical centers, or healthcare systems that you consider to be your direct competitors within the relevant geographic market during the time period covered by the Complaint and describe in detail the criteria you use to determine whether another hospital or healthcare provider is a competitor.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. The identity of Plaintiff's competitors and "the criteria" used to determine whether a hospital or provide is a competitor has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff also objects to this Interrogatory to the extent it seeks confidential, proprietary information, and commercially sensitive information related to Plaintiff's scoring system and "criteria" used to determine whether a hospital or provide is a competitor.

Answer: Subject to the foregoing objections and on condition that this response is considered “Confidential” under the forthcoming agreed confidentiality order.

Jupiter Medical Center is Plaintiff’s competitor. Plaintiff considers this hospital a competitor because of its proximity to Plaintiff, its competing services lines, and that patients within Plaintiff’s service area go to this hospital for medical care.

Interrogatory No. 20: State and describe the results of any market analysis, competitive analysis, or consumer perception surveys you have conducted or commissioned regarding your competitors from 2020 to present, and identify the individuals or entities that prepared or participated in such analyses.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not is not proportional to the needs of this Action. The results of any market analysis, competitive analysis, or consumer perception surveys and the identity of those who prepared or participated in such analyses has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Plaintiff further objects to this Interrogatory to the extent it requests information from outside of the relevant time period of January 1, 2023, to present. Plaintiff also objects to this Interrogatory as unduly burdensome to the extent it asks Plaintiff to “state and describe” various market analysis.

As agreed during the parties’ meet and confer on September 3, 2025, Plaintiff will produce documents showing the results of studies or surveys Plaintiff has conducted or commissioned related to internal market analysis, competitive analysis, or consumer perception. Plaintiff will

identify the documents responsive to this Interrogatory by Bates number in Plaintiffs' production cover letter.

Interrogatory No. 21: Identify with specificity any comments or concerns raised by any third party payor, bank or lender, or investor related to Your hospital's reputation and/or public perception on issues in any way involving patient safety or satisfaction.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this case to the extent it seeks "comments and concerns" from third parties related generally to Plaintiff's reputation that has nothing to do with the specific and significant reputational harm caused by TLG's misleading grades.

Answer: Subject to the foregoing objections, Plaintiff will produce and identify documents related to the significant reputational harm caused by TLG's deceptive and unfair Safety Grades that provide sufficient detail to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff is unaware of any documents related to this Interrogatory.

Interrogatory No. 22: Identify and describe any complaints, concerns, or comments from patients, community members, or referring physicians that relate to the hospital's reputation or comparisons to other hospitals in the region.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this Action to the extent it seeks "comments and concerns" from patients, community members, or referring physicians that have nothing to do with the significant

reputational harm caused by TLG's misleading grades. Plaintiff also objects to this interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff's facility because of TLG's misleading grades. In addition, concerns have been raised by patients, doctors, staff, and community members, and Plaintiff is aware of false and misleading statements based on TLG's false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

We have received reports from patients that they decided not to use our hospital due to the misleading grade TLG assigned to the hospital. Our Medical Executive Committee has received direct inquiries from patients regarding their concerns about TLG's grades and related public reports. Patients have asked independent physicians that use both our facilities and those of Jupiter Medical Center (a nearby hospital) to schedule their surgeries at Jupiter Medical Center and not at ours. These independent surgeons have told us that they believe TLG has misled these patients about the quality of the Medical Center because these surgeons believe our hospital provides higher-quality care. Doctors have had patients express that they do not want to come to the Medical Center, specifically because of the Leapfrog grade. The harm caused by TLG's false and misleading Safety Grade is ongoing.

In addition, the following produced documents evidence such harm.

Start Page	End Page
PBHN000006771	PBHN000006773
PBHN000002082	PBHN000002085
PBHN000002066	PBHN000002070
PBHN000002615	PBHN000002617
PBHN000006397	PBHN000006401
PBHN000002090	PBHN000002094
PBHN000004484	PBHN000004484

PBHN000004562	PBHN000004563
PBHN000004564	PBHN000004564
PBHN000004574	PBHN000004580
PBHN000004557	PBHN000004557
PBHN000008718	PBHN000008718
PBHN000006461	PBHN000006462
PBHN000008914	PBHN000008914
PBHN000008915	PBHN000008915

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 23: List with specific detail each and every concern, complaint or comment made by any union, collective bargaining unit or employee association in any way related to patient safety at Your hospital.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “each and every concern, complaint or comment ” from third parties that have nothing to do with the significant reputational harm caused by TLG’s misleading grades. Plaintiff also objects to this Interrogatory to the extent it seeks health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff is unaware of any concern, complaint or comment regarding TLG deceptive scores made by the union at Plaintiff's hospital.

Amended Answer: Union personnel have in the past registered complaints or disagreements with Plaintiff's hospital's management, including alleged concerns about patient safety. Plaintiff carefully considers such allegations but finds generally that they are attempts to gain leverage in contract negotiations and are less genuine concern about patients. The union at Plaintiff's hospital made allegations in December 2023, February 2024, and March 2024. On April 5, 2024, the union publicly retracted those statements, rightly saying they were "entirely inappropriate to make," that "the Union should not have made the negative statements," and one after another, that the union did "not have any basis for believing" the accusations were true. After that, the union made only one other accusation of which Plaintiff is aware, and that was on April 10, 2024 concerning allegedly high turnover. But, the union's proposed remedies showed that the accusation was only an ordinary attempt to increase member wages: four of its five recommended "resolution[s]" were raising wages. The last "resolution" was that "hospital must staff based on the acuity of the patient," which Plaintiff already does. Plaintiff looked into the allegations anyways and found they lacked merit.

Interrogatory No. 24: Identify any and all criticism You have received since 2020 from Tenet Healthcare Corporation and/or from any individual executive of Tenet Healthcare Corporation regarding Your hospital's performance in any way.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. Any so-called "criticism" has nothing to do with the claims and defenses related to TLG's decision to use

deceptive business practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: As discussed during the parties' meet and confer on September 3, 2025, TLG agreed to narrow this Interrogatory to concern only "criticism...regarding Your hospital's patient safety." After a reasonable and diligent search, Plaintiff is unaware of having received "criticism" from Tenet Health Corporation regarding patient safety. Plaintiff is always working to improve its performance, quality, and safety in a constructive way and engages with Tenet Health Corporation as needed to ensure Plaintiff provides the best patient care possible.

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**AFFIDAVIT OF ERIK CAZARES IN SUPPORT OF
PLAINTIFF PALM BEACH GARDENS MEDICAL CENTER'S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP'S FIRST SET OF
INTERROGATORIES TO PALM BEACH GARDENS MEDICAL CENTER**

I, Erik Cazares, declare as follows:

1. I am over 21 years of age and competent to give this testimony.
2. I am the Chief Executive Officer of Palm Beach Gardens Community Hospital, Inc. d/b/a Palm Beach Gardens Medical Center ("Plaintiff"). I am the corporate representative of Plaintiff for the purpose of answering Defendant The Leapfrog Group's First Set of Interrogatories to Palm Beach Gardens Medical Center. I have read the foregoing interrogatories and the answers to those interrogatories, which are true according to the best of my knowledge, information, and belief.

3. I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 8, 2025.

Erik Cazares

Exhibit 102

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**PLAINTIFF ST. MARY'S MEDICAL CENTER, INC.'S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP'S FIRST SET OF
INTERROGATORIES TO ST. MARY'S MEDICAL CENTER, INC.**

Pursuant to Federal Rules of Civil Procedure 26 and 33 and the *Pretrial Scheduling Order and Order Referring Case to Mediation* (ECF No. 36) (the "Pretrial Scheduling Order"), Plaintiff St. Mary's Medical Center, Inc. ("Plaintiff" or "St. Mary's"), by and through its undersigned counsel, hereby submit its amended and supplemented responses and objections ("Responses"), to Defendant The Leapfrog Group's ("TLG") First Set of Interrogatories, dated July 11, 2025 (the "Interrogatories" and each numbered interrogatory, an "Interrogatory") in the above-captioned action (the "Action").

Plaintiff's Responses to the Interrogatories are made solely for purposes of this Action and to the best of Plaintiff's present knowledge, information, and belief regarding the matters about which inquiry have been made. Discovery is ongoing, and Plaintiff reserves the right to amend, supplement, clarify, or further explain its Responses at any time prior to the trial in

this Action. Plaintiff further reserves the right to raise any additional objections deemed necessary or appropriate in light of any further review.

OBJECTIONS TO INSTRUCTIONS AND DEFINITIONS

1. Plaintiff objects to the definition of terms “Plaintiffs” and “Plaintiff Hospitals” as overbroad, unduly burdensome, and not proportional to the needs of the case to the extent it seeks to require Plaintiffs to respond on behalf of entities or individuals other than themselves.

2. Plaintiff objects to the definition of the terms “St. Mary’s” and “St. Mary’s Medical Center,” “Plaintiff,” “You,” and “Your” to the extent each term seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

3. Plaintiff objects to the definition of the terms “Tenet Healthcare” and “Tenet” to the extent it seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of Tenet, Tenet’s agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

4. Plaintiff objects to the definition of “identify, when referring to a person,” as overbroad and unduly burdensome to the extent it calls for the “address” and “present or last-known employer” of identified individuals. Such information is overbroad and beyond the scope of permissible discovery.

5. Plaintiff objects to the instruction that the relevant time period for the Interrogatories begins on January 1, 2020. Plaintiff will apply to each Interrogatory the time period

of November 1, 2023 to present (the “Relevant Time Period”). Any response to an Interrogatory that provides information that falls outside of the Relevant Time Period should not be construed as an admission that the Relevant Time Period begins prior to November 1, 2023.

SPECIFIC RESPONSES TO INTERROGATORIES

Interrogatory No. 1: State the full name, address, job title or position, and hospital or employer affiliation of all individuals that assisted with responding to these interrogatories.

Answer: The following individuals assisted with responding to these Interrogatories.

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Cynthia McCauley	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Chief Executive Officer	St. Mary’s Medical Center
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Interrogatory No. 2: Identify every individual not identified in Your Rule 26(a) initial disclosures with knowledge of facts pertaining to the allegations in Your Complaint in this Lawsuit (and any subsequent amendments) and/or whom You believe may have discoverable knowledge, information or data regarding this matter, including those who You expect to call as a fact or opinion witness at any hearing in this proceeding or whose testimony (by affidavit, deposition or testimony) You intended to submit in connection with this proceeding, and the substance of his/her testimony or affidavit, and, with respect to each person identified, provide:

- A. full name,
- B. address,
- C. telephone number,
- D. job title or position,
- E. hospital or employer affiliation,
- F. and describe in detail the facts possessed by each such person.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of “every individual...with knowledge” or who “may have discoverable knowledge, information or data regarding this matter.” Plaintiff will not provide more than the identity of individuals most likely to have knowledge regarding this matter. Plaintiff further objects to this Interrogatory as premature because it requests disclosure of Plaintiff’s witnesses for hearings and the substance of witness testimony before such disclosure is required under applicable law or the Pretrial Scheduling Order. Plaintiff will submit its trial witness list on October 2, 2025, per the Pretrial Scheduling Order, and disclose any other witnesses and witness testimony as further ordered by the Court or otherwise required by applicable law. Plaintiff also objects to this Interrogatory’s request for the identity of “opinion witness[es]” as vague, since witnesses are either “fact” or “expert” witnesses. Plaintiff will interpret “opinion witness” to mean “expert witness.” Plaintiff submitted expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Answer: Subject to the foregoing objection, Plaintiff will amend its Rule 26(a)(1) Initial Disclosures to identify additional individuals who may have knowledge of facts pertaining to the allegations in the Complaint.

Amended Answer: In addition to those disclosed in Plaintiff’s supplemental disclosures, the following individuals may have relevant factual knowledge:

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

In addition to the individuals identified above, persons identified in documents produced in this dispute have knowledge of facts pertaining to the allegations in the Amended Complaint. *See* Fed. R. Civ. P. 33(d). Discovery is ongoing, and Plaintiff reserves the right to supplement, amend, correct, clarify, or modify this Response as further information becomes available.

Interrogatory No. 3: Describe in detail all factual bases for Your contention that Leapfrog’s published Safety Grade for Your hospital was false, inaccurate, misleading, deceptive, or unfair. In so answering, identify with particularity each measure, data point, or metric that You contend was inaccurately reported, calculated, or misrepresented by Leapfrog in calculating the Safety Grade for Your hospital.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all factual bases” for Plaintiff’s contention. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory as premature to the extent it requests that Plaintiff “[d]escribe in detail all factual bases” to support its contention. *In re Reliance Fin. & Inv. Grp., Inc.*, 2006 WL 8435541, at *4 (S.D. Fla. Feb. 14, 2006) (Contention interrogatories “are more appropriately used after a substantial amount of discovery has been conducted--typically, at the end of the discovery period.”). Plaintiff also objects to this Interrogatory to the extent it attempts to limit or mischaracterize Plaintiff’s claim as just challenging the false, inaccurate, misleading, deceptive, or unfair nature of TLG’s Safety Grade. As the Court explained in its order denying TLG’s motion to dismiss, the core of the Complaint is “a challenge to Defendant’s representations about its methodology, which they claim mislead consumers by failing to distinguish between absent data and damning data, and professing that grades are not influenced by a hospital’s lack of survey participation.” *Order on Motion to Dismiss*

6 (ECF No. 41). Plaintiff also challenges the provably false facts and deceptive scoring system underlying these grades, which TLG admits it relies on to arrive at its deceptive Safety Grades.

Subject to the foregoing objections and as more fully stated in the *Amended Complaint* (ECF No. 74) (“Complaint”), TLG has engaged in deceptive and unfair business practices and misrepresentations when issuing the Safety Grade for Plaintiff’s hospital as part of TLG’s annual “Hospital Survey.” TLG posts these Safety Grades online at hospitalsafetygrade.org.

To arrive at these Safety Grades, TLG uses CMS data, survey responses from participating hospitals, and other supplemental data sources. For participating hospitals, TLG uses the hospitals’ self-reported responses to the Hospital Survey for 12 of the 22 measures. For non-participating hospitals, TLG uses other sources for those 12 measures. For the remaining four measures—Computerized Physician Order Entry, Bar Code Medication Administration, ICU Physician Staffing, and Hand Hygiene Score (the “Deceptive Score Categories”)—TLG devised and uses a so-called “imputation model.” Prior to Fall 2024, TLG’s imputation model assigned non-participating hospitals a score based on the average score applicable to a similarly situated hospital. Beginning in Fall 2024, TLG modified its imputation model. TLG now assigns the lowest possible score to non-participating hospitals, which has the effect of punishing non-participating hospitals and artificially deflating their Safety Grades. TLG has even admitted the changes in Fall 2024 were designed to penalize non-participating hospitals. TLG also misleads consumers about how it grades hospitals, stating “[t]he Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the [TLG] Hospital Survey.” *Declaration of Lee Crain* (ECF No. 21) (“Crain Decl.”), Ex. 1 at 4 (“Frequently Asked Questions About the Leapfrog Hospital Safety Grade”).

As TLG explains, “not all hospitals have enough data publicly available to be eligible for a grade.” Crain Decl. Ex. 1 at 5. “As per the National Expert Panel guidance, [TLG] has requirements for the minimum amount of data [it] need[s] to issue an accurate grade.” Crain Decl. Ex. 1 at 5. According to TLG, “[h]ospitals missing more than six process measures” are “not graded.” Crain Decl. Ex. 2 at 6. Non-participating hospitals should fall easily into that “not graded” bucket, because their decision not to participate in TLG’s survey necessarily means TLG is missing seven process measures that rely on voluntary submission of hospital data.¹

TLG then deceptively conceals how it makes up grades for the four “imputation” measures and even suggests on its website that TLG *does* have data sufficient to score TLG on those four measures. By way of example, TLG acknowledges that Plaintiff “Declined to Report” information in response to questions about “Staff work[ing] together,” but then tells consumers—as if it were a fact—that Plaintiff is “Worse Than Average” on “Handwashing,” “Communication,” “medication administration,” and the like—even though TLG has no basis whatsoever to adopt those conclusions. Crain Decl. Ex. 32 at 2. TLG itself says handwashing is among the “most important” measures in its survey, Crain Decl. Ex. 15 at 4, yet it deceptively conceals that it has no data with which to grade the Plaintiff hospital on that measure. *Defendant The Leapfrog Group’s Responses to Plaintiffs’ Requests for Production* at 7 (“Leapfrog is not itself in possession of data showing Plaintiffs’ performance on the ‘imputed metrics’ considered by the methodology.”). Of course, Plaintiff in fact has a comprehensive and thorough handwashing policy. And had Plaintiff merely filled out TLG’s survey, it would have received a full letter grade higher on TLG’s score. *Expert Report of Professor Sean Nicholson* (Aug. 7, 2025), Ex. 6.

¹ Those seven include CPOE, BCMA, IPS, Safe Practice 1: Culture of Leadership Structures and Systems; Safe Practice 2: Culture Measurement, Feedback & Intervention; Total Nursing Care Hours per Patient Day; and Hand Hygiene.

Based on the foregoing, and as more fully set forth in the Complaint, TLG engages in deceptive trade practices by, among other things, deceiving consumers about its grading methods by implying that Plaintiff has failed on certain measures that, in truth, TLG has no data or other basis to evaluate; deceiving consumers by telling them the Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the Hospital Survey; deceiving consumers when it represents that it does not grade hospitals if it lacks sufficient data, when, in truth, it does grade hospitals by “imputing” or making up a grade for the Deceptive Score Categories; hiding the truth about its “imputation model” from consumers by burying it in fine print on a separate website; punishing non-participating hospitals by “imputing” scores, which artificially deflate a hospital’s Safety Grade; and favoring participating hospitals. Additional factual bases for the Plaintiff’s claims are presented in the Complaint.

Interrogatory No. 4: Describe the scoring or grading methodology You believe Leapfrog should have used to assess Your hospital’s patient safety performance and explain why that method would yield a different result.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff’s provision of an alternative scoring or grading methodology has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it calls for speculation.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff responds that TLG should use a scoring system that is not unfair or deceptive. By way of example only, TLG could decline

to grade hospitals that do not participate in TLG's survey, because their decision not to participate means TLG is missing seven process measures that rely on voluntary submission of hospital data. This would yield a different result, because the hospitals would not receive a grade at all. TLG's methodology certainly should not affirmatively assign an arbitrary low score to a particular metric just because a hospital does not provide data for that metric.

Interrogatory No. 5: State whether You submitted any data, corrections, or appeals to Leapfrog regarding the Safety Grade Your hospital received, and for each such submission, identify the date of the submission, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the submission, and the content of the submission.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any data, corrections, or appeals to Leapfrog regarding the Safety Grade" Plaintiff hospital received has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Answer: Subject to the foregoing objections, Plaintiff engaged in correspondence prior to the commencement of this case demanding that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, but at every turn TLG refused.

Amended Answer: Subject to the foregoing objections, Plaintiff did not submit any data, corrections or appeals to Leapfrog regarding the Safety Grades it has received.

Interrogatory No. 6: State whether You provided any comment or input in any form during Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety

Grade methodology that was proposed for the calculation of Hospital Safety Grades (including but not limited to for the Fall 2024 methodology update). If yes, please identify the date of the comment, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the comment and the content of the comment. If no, please state the reason why You chose not to comment.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted “any comment or input” in response to TLG’s request for public comments has nothing to do with claims and defenses in this case related to TLG’s decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG’s possession, custody and control, or equally available to TLG.

Subject to the foregoing objections, Plaintiff did not provide comments in response to Leapfrog’s requests for public comments for planned updates to the Leapfrog Hospital Safety Grade scoring system because Plaintiff generally does not respond to requests for public comment from private entities like TLG.

Interrogatory No. 7: Describe all actions Your hospital took in response to (or in deciding not to respond to) its Safety Grade or the Hospital Survey, including internal meetings, media statements, or public relations efforts. In so answering, state the date of the action, the individuals involved in the action and the content of the action.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all actions” Plaintiffs may have taken in response to TLG’s Safety Grades. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, No. 14-81476-CIV, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’

facts or witnesses that support an opposing party's case" to be "unduly broad") (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG's deceptive and unfair Safety Grade. Plaintiff's response included meeting internally with Plaintiff's leadership team, medical executive committee, and governing board, corresponding with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action.

Amended Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG's deceptive and unfair Safety Grades. Plaintiff's response included meeting internally with Plaintiff's leadership team, medical executive committee, and governing board, corresponding through Plaintiff's corporate parent with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action. Plaintiff has also held many phone calls and meetings with physicians and other stakeholders about the TLG grades, explaining how the grades were deceptive and did not accurately reflect the hospital quality and patient safety at Plaintiff.

Interrogatory No. 8: Identify any and all persons, whether internal or external (e.g., patients, vendors, affiliates, parents, agents, partners, media) with whom You communicated in any way with respect to the Safety Grade or the Hospital Survey. In so answering, state the date of the communication, the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.) and the content of the communication.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of “any and all persons, whether internal or external.” Plaintiff will disclose the categories of individuals with whom Plaintiff communicated about the Safety Grade or Hospital Survey during the Relevant Time Period. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that Health Insurance Portability and Accountability Act (“HIPAA”), among other statutes and regulations, bars Plaintiff from disclosing. Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff’s governing board, its medical executive committee, department directors, and physicians and nurses when asked about the Safety Grade or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grade for Plaintiff’s hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG’s release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any

information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and since then, has engaged in various social networking and other marketing campaigns to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of the network.

Amended Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of the network. Plaintiff also engaged in email discussions about TLG's misleading grades, either as sender or recipient, which TLG has through Plaintiff's production of documents.

Interrogatory No. 9: Describe all instances in which a third party declined to contract with, refer patients to, or work with Your hospital, where Leapfrog's grade was cited or discussed. In so identifying list the name of the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.), the date of the communication and the content of the communication.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it requires Plaintiff to “[d]escribe all instances” in which a third party took an action in response to TLG’s deceptive grade.

Subject to the foregoing objection, Plaintiff is not aware of any responsive instances.

Interrogatory No. 10: Describe with specificity the basis for each and every category of damage You claim You incurred as a result of the Leapfrog Safety Grade. In so identifying, list each category of damages and the dollar value of each category of damage You claim.

Plaintiff objects to this Interrogatory to the extent it seeks information that is the subject of expert testimony.

Answer: Plaintiff will submit expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Amended Answer: Plaintiff has served the expert report of Thomas Chakurda, which addresses the issue of reputational harm and harm to Plaintiff’s goodwill. Plaintiff further objects to this Interrogatory as overbroad and unduly burdensome to the extent it seeks “each and every” category of claimed damages.

Subject to the foregoing objections and as agreed during the parties’ September 3, 2025 meet and confer, Plaintiff will limit its response to the live non-monetary claims, including injunctive and declaratory relief, to remedy harm to Plaintiff’s reputation and goodwill. Plaintiff’s reputation and goodwill has been damaged by TLG’s false and misleading methodology and resulting Safety Grades. Plaintiff’s claim for reputational harm is based on, among other things, concerns raised by patients, doctors, staff, and community members, as well as false and misleading statements based on TLG’s false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

By way of example, our Board of Directors has informed me that they have been barraged by community constituents and leaders about the Medical Center's poor TLG Hospital Safety Grade. Further, our medical leadership has received direct inquiries from patients regarding their concerns about TLG's grades and related public reports. The harm caused by TLG's false and misleading Safety Grade is ongoing.

Interrogatory No. 11: Identify all adverse patient events which occurred at Your hospital, including any citations received from regulatory agencies, accrediting agencies, and third party payors such as The Joint Commission, CMS, state health departments, etc. during the period covered by each Leapfrog Safety Grade publication of which You complain (i.e., Fall 2024, Fall 2025, etc.), as well as any complaints received from patients regarding the same.

Plaintiff objects to this Interrogatory because it is overly broad, unduly burdensome, seeks discovery of information that is irrelevant to the claims and defenses in this Action, seeks information that is beyond the scope of Leapfrog's Hospital Survey, and is not reasonably calculated to lead to the discovery of admissible evidence. TLG does not include "all adverse patient events," "citations received from" agencies or payors, or "complaints received from patients" in TLG's determination of its Hospital Safety Grades or request such information in the Hospital Survey, so any such information is irrelevant to whether TLG's actions constitute unfair or deceptive trade practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that HIPAA, among other statutes and regulations, bars Plaintiff from disclosing.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Defendant has agreed to withdraw this Interrogatory.

Interrogatory No. 12: Describe in detail how Your hospital compares nationally on on [sic] any other ranking of patient safety performance, including but not limited to Vizient, Inc., Premier, Inc., HealthTrust Purchasing Group, The Joint Commission, HealthGrades, US News, Newsweek,

Statista, Definitive Healthcare, or any other quality benchmarking entity including benchmarking on patient safety including on adverse events and on healthcare-acquired infections.

Plaintiff objects to this Interrogatory's request that Plaintiff "[d]escribe in detail how Your hospital compares nationally" based on undisclosed "benchmarking" as vague and confusing. To the extent this Interrogatory seeks the top-line rankings of the identified organizations, Plaintiff objects to this Interrogatory because such information is publicly and equally available to TLG. To the extent this Interrogatory asks Plaintiff to compare itself to the named and unnamed entities, that request is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Other organizations' rankings have nothing to do with the claims and defenses in this case related to the Deceptive Score Categories or TLG's decision to use deceptive business practices.

Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades, including many that are directly relevant to patient care for both the low-income underserved community in which it resides and the greater central Florida east coast.

Plaintiff has several accreditations that demonstrate the high-quality of care it provides to pregnant women and children in the community. For example, it is an accredited acute care hospital that is a Level I adult and pediatric Trauma Center. A Level I Trauma Center is a healthcare facility that is central to the trauma system and capable of providing the highest level of care for every aspect of injury for both adults and children. Plaintiff is also a Level III NICU, meaning it provides lifesaving care for babies born before 32 weeks' gestation and / or weighing less than 1,500 grams (approximately 3.3 pounds) or babies with specific medical conditions that require

surgery or specialized pediatric care. Additionally, Plaintiff is one of only 11 designated hospitals by the Florida Department of Health as a Regional Perinatal Intensive Care Center (RPICC) that provides obstetrical services to women who have a high-risk pregnancy and care for newborns with special health needs, such as critical illness or low birth weight. Plaintiff is also certified by the American College of Surgeons for the Verified Pediatric Surgery Program, which recognizes hospitals that properly address the surgical care of infants and children.

Plaintiff is also a Commission on Accreditation of Rehabilitation Facilities (“CARF”) accredited facility for its stroke, brain injury and amputation specialty services. Achieving CARF accreditation means that our hospital meets CARF’s standards and has demonstrated a commitment to being among the best available to patients. We are also a Certified Comprehensive Stroke Center, which means we are dedicated to raising the bar for evaluating and evolving the care of patients at every part of the stroke care continuum. Additionally, Plaintiff has achieved a Det Norske Veritas (DNV) for Comprehensive Stroke Certification. A DNV Comprehensive Stroke Certification demonstrates that Plaintiff provides the highest quality of care and offers evidence-based treatments with cutting-edge research protocols for stroke patients. In order to be accredited, Plaintiff had to undergo an on-site visit on a triennial basis, in which a trained DNV site visit reviewer visits the facility and reviews its required stroke program activity documentation to ensure compliance with the standards. The entities that award and assign these accreditations and certifications visit the healthcare facility and perform regular periodic in-person reviews, audits, surveys and assessments of the facility.

Additionally, Plaintiff is accredited by the Joint Commission, the nation’s largest hospital accreditor that evaluates hospitals’ quality performance standards through an objective evaluation process. Plaintiff has been accredited by the Joint Commission for specialization certifications for

Spine Surgery and Total Joint Replacement for Hip and Knee—a certification designed for hospitals providing the critical elements to achieve long-term success in improving critical medical outcomes—which signifies our services have delivered evidence-based proof of clinical quality sought by patients and payers alike.

These accreditations and certifications are particularly important given Plaintiff's patient population. With its accreditation and specialties, Plaintiff provides patients care they are not able to receive at other facilities. Plaintiff sees more transfers to its facility from nearby hospitals who are unable to provide patients with the care they need than any other Palm Beach County hospital. Also, due to its location in a low-income community, Plaintiff treats a significant number of high-risk pregnancies in which infant mortality is a serious risk and heartbreaking reality.

Plaintiff has also received numerous awards that exemplify its quality. Plaintiff received multiple Get with the Guidelines awards, including Stroke Gold Plus Award 2024 (13th Consecutive Year); Stroke Elite Plus Honor Roll; Stroke Advance Therapy Honor Roll; and Type 2 Diabetes Honor Roll. The Get with the Guidelines Stroke program is designed to improve stroke care by promoting consistent adherence to the latest scientific treatment guidelines.

Additionally, Plaintiff has been recognized by BlueCross BlueShield with a Blue Distinction Centers for Knee, Hip Replacements, Spine Surgery and Maternity Care designation, as part of the Blue Distinction Specialty Care program. The Blue Distinction Specialty Care is a national designation program that recognizes health providers that demonstrate expertise in quality and affordable health care to meet consumers' specialty care needs.

Plaintiff has also received numerous awards that recognize the high-quality care it provides to pregnant women and children. For example, it recently received the Florida Department of Health and Florida Agency for Health Care Administration Excellence for Maternal Care Award,

which highlights hospitals that surpass Florida Department of Health's goal of reducing the rate of C-sections among first-time mothers with low-risk pregnancies. Similarly, the Florida Hospital Association also recently awarded Plaintiff the Excellence in Maternity Care designation, which is awarded to a hospital that demonstrates exceptional dedication to maternal health care.

Additionally, the Palm Beach Post has awarded Plaintiff with Community Choice Awards for Best Hospital, Best Orthopedic/Sports Medicine 2024 and Best Maternity and Childbirth Center 2024 & 2025. The Palm Beach County Community Choice Awards celebrate the best business and organizations in the area, with people in the community voting on these designations.

The medical rankings organization Healthgrades awarded Plaintiff numerous accolades. To assess and evaluate hospitals, Healthgrades relies on data from Medicare medical claims records and states' data on Medicare and commercially insured patient outcomes to determine patients' actual clinical outcomes when visiting a given hospital. Plaintiff has received several awards from Healthgrades for various specialties, including:

a. Labor and Delivery

- i. Five-Star Recipient for C-Section Delivery for 11 years in a row
- ii. Five-Star Recipient for Vaginal Delivery for 11 years in a row

b. Orthopedic

- i. Five-Star Recipient for Hip Fracture Treatment (2024)
- ii. Five-Star Recipient for Knee Replacement (2024)

c. Spine Surgery

- i. Five-Star Recipient for Spinal Fusion (2025)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Amended Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades. For example, Plaintiff has several accreditations that demonstrate the high-quality of care it provides to pregnant women and children in the community. For example, it is an accredited acute care hospital that is a Level I adult and pediatric Trauma Center. Additionally, Plaintiff is one of only 11 designated hospitals by the Florida Department of Health as a Regional Perinatal Intensive Care Center (RPICC) that provides obstetrical services to women who have a high-risk pregnancy and care for newborns with special health needs, such as critical illness or low birth weight. Plaintiff is also certified by the American College of Surgeons for the Verified Pediatric Surgery Program, which recognizes hospitals that properly address the surgical care of infants and children.

Plaintiff is also a Commission on Accreditation of Rehabilitation Facilities (“CARF”) accredited facility for its stroke, brain injury and amputation specialty services. We are also a Certified Comprehensive Stroke Center. Additionally, Plaintiff has achieved a Det Norske Veritas (DNV) for Comprehensive Stroke Certification.

Additionally, Plaintiff is accredited by the Joint Commission. Plaintiff also has been accredited by the Joint Commission for specialization certifications for Spine Surgery and Total Joint Replacement for Hip and Knee.

Plaintiff has also received multiple Get with the Guidelines awards, including Stroke Gold Plus Award 2024 (13th Consecutive Year); Stroke Elite Plus Honor Roll; Stroke Advance Therapy Honor Roll; and Type 2 Diabetes Honor Roll.

Additionally, Plaintiff has been recognized by BlueCross BlueShield with a Blue Distinction Centers for Knee, Hip Replacements, Spine Surgery and Maternity Care designation, as part of the Blue Distinction Specialty Care program.

Plaintiff recently received the Florida Department of Health and Florida Agency for Health Care Administration Excellence for Maternal Care Award. Similarly, the Florida Hospital Association also recently awarded Plaintiff the Excellence in Maternity Care designation.

Additionally, the Palm Beach Post has awarded Plaintiff with Community Choice Awards for Best Hospital, Best Orthopedic/Sports Medicine 2024 and Best Maternity and Childbirth Center 2024 & 2025.

The medical rankings organization Healthgrades awarded Plaintiff numerous accolades, including:

a. Labor and Delivery

- i. Five-Star Recipient for C-Section Delivery for 11 years in a row
- ii. Five-Star Recipient for Vaginal Delivery for 11 years in a row

b. Orthopedic

- i. Five-Star Recipient for Hip Fracture Treatment (2024)
- ii. Five-Star Recipient for Knee Replacement (2024)

c. Spine Surgery

- i. Five-Star Recipient for Spinal Fusion (2025)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Also, Plaintiff does not participate in Vizient and has not done so during the Relevant Time Period.

Interrogatory No. 13: Describe any steps taken by Your hospital to improve any and all of the patient safety measures considered by Leapfrog's Hospital Safety Grade (as set forth on Leapfrog's published scoring methodology documents; see ECF No. 21-3 at 6-10; ECF No. 21-43 at 6-9), before and after each Safety Grade publication of which You complain.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of Plaintiff's improvements to "any and all" patient safety measures considered by Leapfrog's Hospital Safety Grade. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks information on metrics other than TLG's Deceptive Score Categories and to the extent it seeks information that is beyond the scope of Leapfrog's Hospital Survey.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff is committed to continual improvement of patient safety measures, motivated by our commitment to ensuring the best possible patient safety—not chasing the best possible Leapfrog grade. To achieve this core objective, Plaintiff devotes significant time and resources to improving its delivery of the highest possible quality of care for those in the community it serves, including efforts to improve its performance in areas related to the four metrics Plaintiff has chosen to impute in its survey.

Plaintiff tracks three of these metrics through its patient safety plan or as part of its quality improvement patient safety committee. For example, Plaintiff does random hand washing audits every month on every unit and addresses any negative trends. Plaintiff already has 24/7 ICU coverage for its intensivist unit and has had that coverage for several years, so it does not need to track this metric.

Interrogatory No. 14: State whether You are aware of specific patients who have relied on the Leapfrog Safety Grade in declining to receive healthcare services at Your hospital. In so

answering, identify the individual patient that declined to receive services, the date of such declination, the type of service the patient declined to receive, the medium for the communication from the patient (i.e. telephone, video conference, email, letter, etc.), the content of the communication, and the reason given for the stated decision.

Plaintiff objects to this Interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to a Qualified Protective Order entered by this Court.

Answer: Subject to the foregoing objection, Plaintiff has received reports that patients considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objection, since the release of TLG's false and misleading grades, Plaintiff has received numerous reports from doctors that patients considered or decided not to use Plaintiff's facility due to concerns related to TLG's misleading grades.

Interrogatory No. 15: Describe any effort Your hospital has made to influence public perception of Your hospital's performance on patient safety following the publication of the Leapfrog Safety Grade.

Plaintiff objects to this Interrogatory as vague and ambiguous because it does not specify which Leapfrog Safety Grade is at issue. Plaintiff will construe this Interrogatory to reference TLG's deceptive Safety Grades beginning in Fall 2024. Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks "any effort" Plaintiff "has made to influence public perception" after the release of TLG's deceptive and unfair Safety Grades because there have been many such "efforts" and those "efforts" are ongoing given the significant harm caused by TLG's deceptive and unfair business practices.

Answer: Subject to the foregoing objections, Plaintiff continues to influence public perception by, among other things, delivering the highest quality care to the community it serves, which, as discussed in response to Interrogatory 12, has led to numerous awards, accreditations, and accolades. In addition, several public statements disputing the misleading nature of the Safety Grade have been made on Plaintiff's behalf.

Supplemental Answer: In addition to the above, members of hospital leadership have communicated with patients, doctors, or community members on a regular basis to dispel the misleading nature of the Leapfrog Safety Grades. For instance, Plaintiff communicated its governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff's hospital. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of the network. Plaintiff also engaged in email discussions about TLG's misleading grades, either as sender or recipient, which TLG has through Plaintiff's production of documents.

Interrogatory No. 16: Describe the due diligence Your hospital undertakes to ensure the accuracy of its own publicly reported safety data (including but not limited to data submitted to CMS, the CDC, and third party organizations).

Plaintiff objects to this Interrogatory as vague and ambiguous due to its use of the undefined term "due diligence." Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Any "due diligence"

Plaintiff performs when reporting to *third parties* has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices, especially when TLG does nothing to ensure the accuracy of information that hospitals that participate in its survey self-report.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff makes reasonable efforts to ensure the accuracy of the data it reports to third-party organizations. For instance, Plaintiff employs data abstractors, quality coordinators and a Quality Director, who are all responsible for abstracting, validating, and submitting safety data.

Interrogatory No. 17: Describe in detail how You communicate to the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System the outcome of any and all healthcare safety ratings, evaluative publications, studies, or performance analyses that Your Hospital receives.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's communication, if any, with the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System, all non-parties to this litigation, has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff communicates with Tenet stakeholders, including employees who work to support the Palm Beach Health Network, on a range of matters, including issues related to patient safety and outcomes and in particular related

to TLG and the Safety Grades by email and oral communication. Those communications included discussions about the reasons for particular grades, the method used to calculate Safety Grades, the value of Safety Grades, and responses to the Safety Grades. In addition, identified below are documents Plaintiff produced evidencing communications between the Plaintiff Hospitals and Tenet related to TLG, the Leapfrog survey, and Safety Grades.

PBHN000004704	PBHN000004704
PBHN000004715	PBHN000004719
PBHN000006465	PBHN000006466

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 18: State whether the compensation of Your Chief Executive Officer or any other executive-level leadership officers is tied to or related in any way to Your hospital's performance on patient safety, union worker contracts or Your hospital's ratings by third party ratings organizations' ratings publications (including but not limited to the Leapfrog Hospital Safety Grade).

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's method of compensating its Chief

Executive Officer and other executive-level leadership **has nothing to do with the** claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff's performance on patient safety, union worker contracts, or ratings by third party ratings organizations' ratings publications is related in some way to the compensation of Plaintiff's Chief Executive Officer or other executive-level leadership officer(s).

Interrogatory No. 19: Identify all hospitals, medical centers, or healthcare systems that you consider to be your direct competitors within the relevant geographic market during the time period covered by the Complaint and describe in detail the criteria you use to determine whether another hospital or healthcare provider is a competitor.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. The identity of Plaintiff's competitors and "the criteria" used to determine whether a hospital or provide is a competitor has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff also objects to this Interrogatory to the extent it seeks confidential, proprietary information, and commercially sensitive information related to Plaintiff's scoring system and "criteria" used to determine whether a hospital or provide is a competitor.

Answer: Subject to the foregoing objections and on condition that this response is considered "Confidential" under the forthcoming agreed confidentiality order, Jupiter Medical Center is Plaintiff's competitor. Plaintiff considers this hospital a competitor because of its

proximity to Plaintiff, its competing services lines, and that patients within Plaintiff's service area go to this hospital for medical care.

Interrogatory No. 20: State and describe the results of any market analysis, competitive analysis, or consumer perception surveys you have conducted or commissioned regarding your competitors from 2020 to present, and identify the individuals or entities that prepared or participated in such analyses.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not is not proportional to the needs of this Action. The results of any market analysis, competitive analysis, or consumer perception surveys and the identity of those who prepared or participated in such analyses has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Plaintiff further objects to this Interrogatory to the extent it requests information from outside of the relevant time period of January 1, 2023, to present. Plaintiff also objects to this Interrogatory as unduly burdensome to the extent it asks Plaintiff to "state and describe" various market analysis.

As agreed during the parties' meet and confer on September 3, 2025, Plaintiff will produce documents showing the results of studies or surveys Plaintiff has conducted or commissioned related to internal market analysis, competitive analysis, or consumer perception. Plaintiff will identify the documents responsive to this Interrogatory by Bates number in Plaintiffs' production cover letter.

Interrogatory No. 21: Identify with specificity any comments or concerns raised by any third party payor, bank or lender, or investor related to Your hospital's reputation and/or public perception on issues in any way involving patient safety or satisfaction.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this case to the extent it seeks "comments and concerns" from third parties related generally to Plaintiff's reputation that has nothing to do with the specific and significant reputational harm caused by TLG's misleading grades.

Answer: Subject to the foregoing objections, Plaintiff will produce and identify documents related to the significant reputational harm caused by TLG's deceptive and unfair Safety Grades that provide sufficient detail to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff is unaware of any documents related to this Interrogatory.

Interrogatory No. 22: Identify and describe any complaints, concerns, or comments from patients, community members, or referring physicians that relate to the hospital's reputation or comparisons to other hospitals in the region.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this Action to the extent it seeks "comments and concerns" from patients, community members, or referring physicians that have nothing to do with the significant reputational harm caused by TLG's misleading grades. Plaintiff also objects to this interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other

statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff's facility because of TLG's misleading grades. In addition, concerns have been raised by patients, doctors, staff, and community members, and Plaintiff is aware of false and misleading statements based on TLG's false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

Our Board of Directors has informed me that they have been barraged by community constituents and leaders about the Medical Center's poor TLG Hospital Safety Grade. Further, our medical leadership has received direct inquiries from patients regarding their concerns about TLG's grades and related public reports. The harm caused by TLG's false and misleading Safety Grade is ongoing.

In addition, the following produced documents evidence such harm.

Start Page	End Page
PBHN000002082	PBHN000002085
PBHN000002066	PBHN000002070
PBHN000002615	PBHN000002617
PBHN000006397	PBHN000006401

PBHN000008914	PBHN000008914
PBHN000008915	PBHN000008915

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 23: List with specific detail each and every concern, complaint or comment made by any union, collective bargaining unit or employee association in any way related to patient safety at Your hospital.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “each and every concern, complaint or comment ” from third parties that have nothing to do with the significant reputational harm caused by TLG’s misleading grades. Plaintiff also objects to this Interrogatory to the extent it seeks health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff is unaware of any concern, complaint or comment regarding TLG deceptive scores made by the union at Plaintiff’s hospital.

Interrogatory No. 24: Identify any and all criticism You have received since 2020 from Tenet Healthcare Corporation and/or from any individual executive of Tenet Healthcare Corporation regarding Your hospital’s performance in any way.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. Any so-called

“criticism” has nothing to do with the claims and defenses related to TLG’s decision to use deceptive business practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: As discussed during the parties’ meet and confer on September 3, 2025, TLG agreed to narrow this Interrogatory to concern only “criticism...regarding Your hospital’s patient safety.” After a reasonable and diligent search, Plaintiff is unaware of having received “criticism” from Tenet Health Corporation regarding patient safety. Plaintiff is always working to improve its performance, quality, and safety in a constructive way and engages with Tenet Health Corporation as needed to ensure Plaintiff provides the best patient care possible.

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**AFFIDAVIT OF CYNTHIA MCCAULEY IN SUPPORT OF
PLAINTIFF ST. MARY'S MEDICAL CENTER, INC.'S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP'S FIRST SET OF
INTERROGATORIES TO ST. MARY'S MEDICAL CENTER**

I, Cynthia McCauley, declare as follows:

1. I am over 21 years of age and competent to give this testimony.
2. I am the Chief Executive Officer of St. Mary's Medical Center, Inc. ("Plaintiff"). I am the corporate representative of Plaintiff for the purpose of answering Defendant The Leapfrog Group's First Set of Interrogatories to St. Mary's Medical Center. I have read the foregoing interrogatories and the answers to those interrogatories, which are true according to the best of my knowledge, information, and belief.
3. I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 8, 2025.

Cynthia McCauley

Exhibit 103

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**PLAINTIFF WEST BOCA MEDICAL CENTER, INC.’S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP’S FIRST SET OF
INTERROGATORIES TO WEST BOCA MEDICAL CENTER, INC.**

Pursuant to Federal Rules of Civil Procedure 26 and 33 and the *Pretrial Scheduling Order and Order Referring Case to Mediation* (ECF No. 36) (the “Pretrial Scheduling Order”), Plaintiff West Boca Medical Center, Inc. (“Plaintiff” or “West Boca Medical Center”), by and through its undersigned counsel, hereby submit its amended and supplemented responses and objections (“Responses”), to Defendant The Leapfrog Group’s (“TLG”) First Set of Interrogatories, dated July 11, 2025 (the “Interrogatories” and each numbered interrogatory, an “Interrogatory”) in the above-captioned action (the “Action”).

Plaintiff’s Responses to the Interrogatories are made solely for purposes of this Action and to the best of Plaintiff’s present knowledge, information, and belief regarding the matters about which inquiry have been made. Discovery is ongoing, and Plaintiff reserves the right to amend, supplement, clarify, or further explain its Responses at any time prior to the trial in

this Action. Plaintiff further reserves the right to raise any additional objections deemed necessary or appropriate in light of any further review.

OBJECTIONS TO INSTRUCTIONS AND DEFINITIONS

1. Plaintiff objects to the definition of terms “Plaintiffs” and “Plaintiff Hospitals” as overbroad, unduly burdensome, and not proportional to the needs of the case to the extent it seeks to require Plaintiffs to respond on behalf of entities or individuals other than themselves.

2. Plaintiff objects to the definition of the terms “West Boca,” “West Boca Medical Center,” “Plaintiff,” “You,” and “Your” to the extent each term seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

3. Plaintiff objects to the definition of the terms “Tenet Healthcare” and “Tenet” to the extent it seeks to require Plaintiff to respond on behalf of entities or individuals other than itself, including on behalf of Tenet, Tenet’s agents, employees, directors, or other non-party entities that are not part of this litigation. Such information is overbroad and beyond the scope of permissible discovery. Accordingly, Plaintiff states that its Responses are on behalf of itself only.

4. Plaintiff objects to the definition of “identify, when referring to a person,” as overbroad and unduly burdensome to the extent it calls for the “address” and “present or last-known employer” of identified individuals. Such information is overbroad and beyond the scope of permissible discovery.

5. Plaintiff objects to the instruction that the relevant time period for the Interrogatories begins on January 1, 2020. Plaintiff will apply to each Interrogatory the time period

of November 1, 2023 to present (the “Relevant Time Period”). Any response to an Interrogatory that provides information that falls outside of the Relevant Time Period should not be construed as an admission that the Relevant Time Period begins prior to November 1, 2023.

SPECIFIC RESPONSES TO INTERROGATORIES

Interrogatory No. 1: State the full name, address, job title or position, and hospital or employer affiliation of all individuals that assisted with responding to these interrogatories.

Answer: The following individuals assisted with responding to these Interrogatories.

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Jerad Hanlon	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Chief Executive Officer	West Boca Medical Center
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Interrogatory No. 2: Identify every individual not identified in Your Rule 26(a) initial disclosures with knowledge of facts pertaining to the allegations in Your Complaint in this Lawsuit (and any subsequent amendments) and/or whom You believe may have discoverable knowledge, information or data regarding this matter, including those who You expect to call as a fact or opinion witness at any hearing in this proceeding or whose testimony (by affidavit, deposition or testimony) You intended to submit in connection with this proceeding, and the substance of his/her testimony or affidavit, and, with respect to each person identified, provide:

- A. full name,
- B. address,
- C. telephone number,
- D. job title or position,
- E. hospital or employer affiliation,
- F. and describe in detail the facts possessed by each such person.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of “every individual...with knowledge” or who “may have discoverable knowledge, information or data regarding this matter.” Plaintiff will not provide more than the identity of individuals most likely to have knowledge regarding this matter. Plaintiff further objects to this Interrogatory as premature because it requests disclosure of Plaintiff’s witnesses for hearings and the substance of witness testimony before such disclosure is required under applicable law or the Pretrial Scheduling Order. Plaintiff will submit its trial witness list on October 2, 2025, per the Pretrial Scheduling Order, and disclose any other witnesses and witness testimony as further ordered by the Court or otherwise required by applicable law. Plaintiff also objects to this Interrogatory’s request for the identity of “opinion witness[es]” as vague, since witnesses are either “fact” or “expert” witnesses. Plaintiff will interpret “opinion witness” to mean “expert witness.” Plaintiff submitted expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Answer: Subject to the foregoing objection, Plaintiff will amend its Rule 26(a)(1) Initial Disclosures to identify additional individuals who may have knowledge of facts pertaining to the allegations in the Complaint.

Amended Answer: In addition to those disclosed in Plaintiff’s supplemental disclosures, the following individuals may have relevant factual knowledge:

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Regina West	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Market Quality Director	Palm Beach Health Network and St. Mary’s Medical Center

Full Name	Address	Job Title / Position	Hospital or Employer Affiliation
Andrea Nunes	c/o Gibson, Dunn & Crutcher LLP 200 Park Avenue New York, NY 10166	Quality Director	West Boca Medical Center

In addition to the individuals identified above, persons identified in documents produced in this dispute have knowledge of facts pertaining to the allegations in the Amended Complaint. *See* Fed. R. Civ. P. 33(d). Discovery is ongoing, and Plaintiff reserves the right to supplement, amend, correct, clarify, or modify this Response as further information becomes available.

Interrogatory No. 3: Describe in detail all factual bases for Your contention that Leapfrog’s published Safety Grade for Your hospital was false, inaccurate, misleading, deceptive, or unfair. In so answering, identify with particularity each measure, data point, or metric that You contend was inaccurately reported, calculated, or misrepresented by Leapfrog in calculating the Safety Grade for Your hospital.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all factual bases” for Plaintiff’s contention. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory as premature to the extent it requests that Plaintiff “[d]escribe in detail all factual bases” to support its contention. *In re Reliance Fin. & Inv. Grp., Inc.*, 2006 WL 8435541, at *4 (S.D. Fla. Feb. 14, 2006) (Contention interrogatories “are more appropriately used after a substantial amount of discovery has been conducted--typically, at the end of the discovery period.”). Plaintiff also objects to this Interrogatory to the extent it attempts to limit or mischaracterize Plaintiff’s claim as just

challenging the false, inaccurate, misleading, deceptive, or unfair nature of TLG’s Safety Grade. As the Court explained in its order denying TLG’s motion to dismiss, the core of the Complaint is “a challenge to Defendant’s representations about its methodology, which they claim mislead consumers by failing to distinguish between absent data and damning data, and professing that grades are not influenced by a hospital’s lack of survey participation.” *Order on Motion to Dismiss* 6 (ECF No. 41). Plaintiff also challenges the provably false facts and deceptive scoring system underlying these grades, which TLG admits it relies on to arrive at its deceptive Safety Grades.

Subject to the foregoing objections and as more fully stated in the *Amended Complaint* (ECF No. 74) (“Complaint”), TLG has engaged in deceptive and unfair business practices and misrepresentations when issuing the Safety Grade for Plaintiff’s hospital as part of TLG’s annual “Hospital Survey.” TLG posts these Safety Grades online at hospitalsafetygrade.org.

To arrive at these Safety Grades, TLG uses CMS data, survey responses from participating hospitals, and other supplemental data sources. For participating hospitals, TLG uses the hospitals’ self-reported responses to the Hospital Survey for 12 of the 22 measures. For non-participating hospitals, TLG uses other sources for those 12 measures. For the remaining four measures—Computerized Physician Order Entry, Bar Code Medication Administration, ICU Physician Staffing, and Hand Hygiene Score (the “Deceptive Score Categories”)—TLG devised and uses a so-called “imputation model.” Prior to Fall 2024, TLG’s imputation model assigned non-participating hospitals a score based on the average score applicable to a similarly situated hospital. Beginning in Fall 2024, TLG modified its imputation model. TLG now assigns the lowest possible score to non-participating hospitals, which has the effect of punishing non-participating hospitals and artificially deflating their Safety Grades. TLG has even admitted the changes in Fall 2024 were designed to penalize non-participating hospitals. TLG also misleads consumers about how

it grades hospitals, stating “[t]he Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the [TLG] Hospital Survey.” *Declaration of Lee Crain* (ECF No. 21) (“Crain Decl.”), Ex. 1 at 4 (“Frequently Asked Questions About the Leapfrog Hospital Safety Grade”).

As TLG explains, “not all hospitals have enough data publicly available to be eligible for a grade.” Crain Decl. Ex. 1 at 5. “As per the National Expert Panel guidance, [TLG] has requirements for the minimum amount of data [it] need[s] to issue an accurate grade.” Crain Decl. Ex. 1 at 5. According to TLG, “[h]ospitals missing more than six process measures” are “not graded.” Crain Decl. Ex. 2 at 6. Non-participating hospitals should fall easily into that “not graded” bucket, because their decision not to participate in TLG’s survey necessarily means TLG is missing seven process measures that rely on voluntary submission of hospital data.¹

TLG then deceptively conceals how it makes up grades for the four “imputation” measures and even suggests on its website that TLG *does* have data sufficient to score TLG on those four measures. By way of example, TLG acknowledges that Plaintiff “Declined to Report” information in response to questions about “Staff work[ing] together,” but then tells consumers—as if it were a fact—that Plaintiff is “Worse Than Average” on “Handwashing,” “Communication,” “medication administration,” and the like—even though TLG has no basis whatsoever to adopt those conclusions. Crain Decl. Ex. 32 at 2. TLG itself says handwashing is among the “most important” measures in its survey, Crain Decl. Ex. 15 at 4, yet it deceptively conceals that it has no data with which to grade the Plaintiff hospital on that measure. *Defendant The Leapfrog Group’s Responses to Plaintiffs’ Requests for Production* at 7 (“Leapfrog is not itself in possession

¹ Those seven include CPOE, BCMA, IPS, Safe Practice 1: Culture of Leadership Structures and Systems; Safe Practice 2: Culture Measurement, Feedback & Intervention; Total Nursing Care Hours per Patient Day; and Hand Hygiene.

of data showing Plaintiffs' performance on the 'imputed metrics' considered by the methodology."'). Of course, Plaintiff in fact has a comprehensive and thorough handwashing policy. And had Plaintiff merely filled out TLG's survey, it would have received a full two letter grades higher on TLG's score. *Expert Report of Professor Sean Nicholson* (Aug. 7, 2025), Ex. 6.

Based on the foregoing, and as more fully set forth in the Complaint, TLG engages in deceptive trade practices by, among other things, deceiving consumers about its grading methods by implying that Plaintiff has failed on certain measures that, in truth, TLG has no data or other basis to evaluate; deceiving consumers by telling them the Hospital Safety Grade reflects how well a hospital does on safety, not whether they complete the Hospital Survey; deceiving consumers when it represents that it does not grade hospitals if it lacks sufficient data, when, in truth, it does grade hospitals by "imputing" or making up a grade for the Deceptive Score Categories; hiding the truth about its "imputation model" from consumers by burying it in fine print on a separate website; punishing non-participating hospitals by "imputing" scores, which artificially deflate a hospital's Safety Grade; and favoring participating hospitals. Additional factual bases for the Plaintiff's claims are presented in the Complaint.

Interrogatory No. 4: Describe the scoring or grading methodology You believe Leapfrog should have used to assess Your hospital's patient safety performance and explain why that method would yield a different result.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's provision of an alternative scoring or grading methodology has nothing to do with the claims and defenses in this case related to TLG's

decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it calls for speculation.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff responds that TLG should use a scoring system that is not unfair or deceptive. By way of example only, TLG could decline to grade hospitals that do not participate in TLG's survey, because their decision not to participate means TLG is missing seven process measures that rely on voluntary submission of hospital data. This would yield a different result, because the hospitals would not receive a grade at all. TLG's methodology certainly should not affirmatively assign an arbitrary low score to a particular metric just because a hospital does not provide data for that metric.

Interrogatory No. 5: State whether You submitted any data, corrections, or appeals to Leapfrog regarding the Safety Grade Your hospital received, and for each such submission, identify the date of the submission, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the submission, and the content of the submission.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any data, corrections, or appeals to Leapfrog regarding the Safety Grade" Plaintiff hospital received has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Answer: Subject to the foregoing objections, Plaintiff engaged in correspondence prior to the commencement of this case demanding that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, but at every turn TLG refused.

Amended Answer: Subject to the foregoing objections, Plaintiff did not submit any data, corrections or appeals to Leapfrog regarding the Safety Grades it has received.

Interrogatory No. 6: State whether You provided any comment or input in any form during Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade methodology that was proposed for the calculation of Hospital Safety Grades (including but not limited to for the Fall 2024 methodology update). If yes, please identify the date of the comment, the medium of the submission (i.e. telephone, video conference, email, letter, etc.), who was involved in the comment and the content of the comment. If no, please state the reason why You chose not to comment.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Whether or not Plaintiff submitted "any comment or input" in response to TLG's request for public comments has nothing to do with claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff further objects to this Interrogatory to the extent it seeks information that is already in TLG's possession, custody and control, or equally available to TLG.

Subject to the foregoing objections, Plaintiff did not provide comments in response to Leapfrog's requests for public comments for planned updates to the Leapfrog Hospital Safety Grade scoring system because Plaintiff generally does not respond to requests for public comment from private entities like TLG.

Interrogatory No. 7: Describe all actions Your hospital took in response to (or in deciding not to respond to) its Safety Grade or the Hospital Survey, including internal meetings, media statements, or public relations efforts. In so answering, state the date of the action, the individuals involved in the action and the content of the action.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “all actions” Plaintiffs may have taken in response to TLG’s Safety Grades. *See Megdal Assocs., LLC v. La-Z-Boy, Inc.*, No. 14-81476-CIV, 2016 WL 4503337, at *6 (S.D. Fla. Feb. 1, 2016) (finding interrogatories asking for “‘all’ facts or witnesses that support an opposing party’s case” to be “unduly broad”) (citing 8B Wright, Miller, & Kane, Federal Practice and Procedure: Civil 3d § 2167 (2015)). Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grade. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive committee, and governing board, corresponding with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action.

Amended Answer: Subject to the foregoing objections, Plaintiff devoted substantial time and resources that could have otherwise been spent continuing to improve patient care to respond to the significant harm and disruption caused by TLG’s deceptive and unfair Safety Grades. Plaintiff’s response included meeting internally with Plaintiff’s leadership team, medical executive

committee, and governing board, corresponding through Plaintiff's corporate parent with TLG to demand that TLG reform its deceptive practices and cease and desist reporting deceptive and unfair Safety Grades, and devoting substantial time and resources to facilitate the preparation and prosecution of this Action. Plaintiff has also held many phone calls and meetings with physicians and other stakeholders about the TLG grades, explaining how the grades were deceptive and did not accurately reflect the hospital quality and patient safety at Plaintiff.

Interrogatory No. 8: Identify any and all persons, whether internal or external (e.g., patients, vendors, affiliates, parents, agents, partners, media) with whom You communicated in any way with respect to the Safety Grade or the Hospital Survey. In so answering, state the date of the communication, the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.) and the content of the communication.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of "any and all persons, whether internal or external." Plaintiff will disclose the categories of individuals with whom Plaintiff communicated about the Safety Grade or Hospital Survey during the Relevant Time Period. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that Health Insurance Portability and Accountability Act ("HIPAA"), among other statutes and regulations, bars Plaintiff from disclosing. Plaintiff further objects to this Interrogatory to the extent it seeks information that is subject to a claim of privilege or otherwise protected from disclosure, including seeking information protected by the attorney-client privilege, work-product doctrine, or other immunity.

Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, and physicians and nurses when

asked about the Safety Grade or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grade for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and since then, has engaged in various social networking and other marketing campaigns to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of the network.

Amended Answer: Subject to the foregoing objections, Plaintiff communicated with the following categories of people regarding the Safety Grade or the Hospital Survey: Plaintiff's governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff's hospital. Most of these communications occurred during regularly scheduled meetings, during which attendees were told about TLG's release of the deceptive and unfair Safety Grade, that Plaintiff does not participate in the Hospital Survey because it is unreliable and not an accurate reflection of hospital quality and safety or patient outcomes, and that the Safety Grade, which was not based on any information provided by Plaintiff, was misleading. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG's deceptive scores on behalf of Plaintiff and other affected members of

the network. Plaintiff also engaged in email discussions about TLG's misleading grades, either as sender or recipient, which TLG has through Plaintiff's production of documents.

Interrogatory No. 9: Describe all instances in which a third party declined to contract with, refer patients to, or work with Your hospital, where Leapfrog's grade was cited or discussed. In so identifying list the name of the individuals involved in the communication, the medium of the communication (i.e. telephone, video conference, email, letter, etc.), the date of the communication and the content of the communication.

Answer: Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it requires Plaintiff to "[d]escribe all instances" in which a third party took an action in response to TLG's deceptive grade.

Subject to the foregoing objection, Plaintiff is not aware of any responsive instances.

Interrogatory No. 10: Describe with specificity the basis for each and every category of damage You claim You incurred as a result of the Leapfrog Safety Grade. In so identifying, list each category of damages and the dollar value of each category of damage You claim.

Plaintiff objects to this Interrogatory to the extent it seeks information that is the subject of expert testimony.

Answer: Plaintiff will submit expert reports on August 7, 2025, per the Pretrial Scheduling Order.

Amended Answer: Plaintiff has served the expert report of Thomas Chakurda, which addresses the issue of reputational harm and harm to Plaintiff's goodwill. Plaintiff further objects to this Interrogatory as overbroad and unduly burdensome to the extent it seeks "each and every" category of claimed damages.

Subject to the foregoing objections and as agreed during the parties' September 3, 2025 meet and confer, Plaintiff will limit its response to the live non-monetary claims, including

injunctive and declaratory relief, to remedy harm to Plaintiff's reputation and goodwill. Plaintiff's reputation and goodwill has been damaged by TLG's false and misleading methodology and resulting Safety Grades. Plaintiff's claim for reputational harm is based on, among other things, concerns raised by patients, doctors, staff, and community members, as well as false and misleading statements based on TLG's false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

By way of example, our Medical Executive Committee has received direct inquiries from patients regarding their concerns with TLG's grades and related public reports. An emergency-department patient, who needed surgery, said that he was leaving because of the Leapfrog grade. The harm caused by TLG's false and misleading Safety Grade is ongoing.

Interrogatory No. 11: Identify all adverse patient events which occurred at Your hospital, including any citations received from regulatory agencies, accrediting agencies, and third party payors such as The Joint Commission, CMS, state health departments, etc. during the period covered by each Leapfrog Safety Grade publication of which You complain (i.e., Fall 2024, Fall 2025, etc.), as well as any complaints received from patients regarding the same.

Plaintiff objects to this Interrogatory because it is overly broad, unduly burdensome, seeks discovery of information that is irrelevant to the claims and defenses in this Action, seeks information that is beyond the scope of Leapfrog's Hospital Survey, and is not reasonably calculated to lead to the discovery of admissible evidence. TLG does not include "all adverse patient events," "citations received from" agencies or payors, or "complaints received from patients" in TLG's determination of its Hospital Safety Grades or request such information in the Hospital Survey, so any such information is irrelevant to whether TLG's actions constitute unfair or deceptive trade practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff also objects to this Interrogatory to the extent it seeks protected health information that HIPAA, among other statutes and regulations, bars Plaintiff from disclosing.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Defendant has agreed to withdraw this Interrogatory.

Interrogatory No. 12: Describe in detail how Your hospital compares nationally on on [sic] any other ranking of patient safety performance, including but not limited to Vizient, Inc., Premier, Inc., HealthTrust Purchasing Group, The Joint Commission, HealthGrades, US News, Newsweek, Statista, Definitive Healthcare, or any other quality benchmarking entity including benchmarking on patient safety including on adverse events and on healthcare-acquired infections.

Plaintiff objects to this Interrogatory's request that Plaintiff "[d]escribe in detail how Your hospital compares nationally" based on undisclosed "benchmarking" as vague and confusing. To the extent this Interrogatory seeks the top-line rankings of the identified organizations, Plaintiff objects to this Interrogatory because such information is publicly and equally available to TLG. To the extent this Interrogatory asks Plaintiff to compare itself to the named and unnamed entities, that request is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Other organizations' rankings have nothing to do with the claims and defenses in this case related to the Deceptive Score Categories or TLG's decision to use deceptive business practices.

Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades, including many that are directly relevant to patient care for children and women that we serve. For example, Plaintiff is the only Level III NICU facility in southern Palm Beach County. Level III NICUs provide lifesaving care for babies born before 32 weeks' gestation or babies with specific medical conditions that require surgery or specialized pediatric care. The American College of Radiology accredited Plaintiff for Imaging Modalities including Nuclear

Medicine, Ultrasound, MRI, CT—which provides us the ability to care for the Level III NICU children and at-risk pregnancy mothers that we treat and ensures we are using best practices. Relatedly, Plaintiff has an accredited education program in radiology through Joint Review Committee on Education and Radiologic Technology, which is the only agency recognized by the United States Department of Education and the Council for Higher Education Accreditation for the accreditation of traditional and distance delivery educational programs in radiography, radiation therapy, magnetic resonance, and medical dosimetry. This program provides our clinical staff with educational opportunities to ensure our patients receive quality care.

Plaintiff is accredited by the Joint Commission, the nation’s largest hospital accreditor that evaluates hospitals’ quality performance standards through an objective evaluation process. Plaintiff has also been accredited by Joint Commission for specialization certifications for Joint-Replacement – Hip, Joint Replacement – Shoulder, and Joint Replacement – Knee—a certification designed for hospitals providing the critical elements to achieve long-term success in improving critical medical outcomes—which signifies our services have delivered evidence-based proof of clinical quality sought by patients and payers alike. The entities that award and assign these accreditations visit the healthcare facility and perform regular periodic in-person reviews, audits, surveys, and assessments of the facility.

Plaintiff has also received numerous awards that exemplify its quality such as Get with the Guidelines Silver Plus Stroke Recognition Award and Diabetes Honor Roll. In addition, as a facility that primarily treats mothers and children, it is important to us that we implement the American Academy of Pediatrics best practices and have been recognized for doing so by receiving the Silver designation from the Cribs for Kids’ National Safe Sleep Hospital Certification program, which signifies our facility’s commitment to infant safe sleep to reduce the risk of Sudden

Unexpected Infant Death, Accidental Suffocation and Strangulation in Bed, SIDS, and unsafe sleep injuries.

Healthgrades has awarded Plaintiff numerous Healthgrades accolades. To assess and evaluate hospitals, Healthgrades relies on data from Medicare medical claims records and states' data on Medicare and commercially insured patient outcomes to determine patients' actual clinical outcomes when visiting a given hospital. Plaintiff also received several awards from Healthgrades for various specialties, including:

a. Critical Care

- i. Five-Star Recipient for Treatment of Sepsis for four years in a row (2022-2025)

b. Gastrointestinal

- i. Recipient of the Healthgrades Gastrointestinal Care Excellence Award (2022-2025)
- ii. Recipient of the Healthgrades Gastrointestinal Surgery Excellence Award (2025)
- iii. Top 10% in the Nation for overall Gastrointestinal Services (2025)
- iv. Top 10% in the Nation for Gastrointestinal Surgery (2025)
- v. Five-Star Recipient for Colorectal Surgeries for three years in a row (2023-2025)
- vi. Five-Star Recipient for Treatment of Bowel Obstruction (2025)

c. Labor and Delivery

- i. Five-Star Recipient for C-Section Delivery for 11 years in a row (2015-2025)

- ii. Five-Star Recipient for Vaginal Delivery for 11 years in a row (2015-2025)

d. Pulmonary Care

- i. Five-Star Recipient for Treatment of Respiratory Failure for three years in a row (2023-2025)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Amended Answer: Subject to the foregoing objections, Plaintiff has received numerous awards and accolades. For example, the American College of Radiology accredited Plaintiff for Imaging Modalities including Nuclear Medicine, Ultrasound, MRI, and CT. Relatedly, Plaintiff has an accredited education program in radiology through Joint Review Committee on Education and Radiologic Technology.

Plaintiff is accredited by the Joint Commission for specialization certifications for Joint-Replacement – Hip, Joint Replacement – Shoulder, and Joint Replacement – Knee.

Plaintiff has also received Get with the Guidelines Silver Plus Stroke Recognition Award and Diabetes Honor Roll. In addition, Plaintiff has received the Silver designation from the Cribs for Kids' National Safe Sleep Hospital Certification program.

Healthgrades has awarded Plaintiff numerous Healthgrades accolades, including:

a. Critical Care

- i. Five-Star Recipient for Treatment of Sepsis for four years in a row (2022-2025)

b. Gastrointestinal

- i. Recipient of the Healthgrades Gastrointestinal Care Excellence Award (2022-2025)
- ii. Recipient of the Healthgrades Gastrointestinal Surgery Excellence Award (2025)
- iii. Top 10% in the Nation for overall Gastrointestinal Services (2025)
- iv. Top 10% in the Nation for Gastrointestinal Surgery (2025)
- v. Five-Star Recipient for Colorectal Surgeries for three years in a row (2023-2025)
- vi. Five-Star Recipient for Treatment of Bowel Obstruction (2025)

c. Labor and Delivery

- i. Five-Star Recipient for C-Section Delivery for 11 years in a row (2015-2025)
- ii. Five-Star Recipient for Vaginal Delivery for 11 years in a row (2015-2025)

d. Pulmonary Care

- i. Five-Star Recipient for Treatment of Respiratory Failure for three years in a row (2023-2025)

In addition, Plaintiff will produce and identify documents reflecting some of Plaintiff's rankings from other organizations.

Also, Plaintiff does not participate in Vizient and has not done so during the Relevant Time Period.

Interrogatory No. 13: Describe any steps taken by Your hospital to improve any and all of the patient safety measures considered by Leapfrog's Hospital Safety Grade (as set forth on Leapfrog's

published scoring methodology documents; see ECF No. 21-3 at 6-10; ECF No. 21-43 at 6-9), before and after each Safety Grade publication of which You complain.

Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks the identity of Plaintiff's improvements to "any and all" patient safety measures considered by Leapfrog's Hospital Safety Grade. Plaintiff further objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks information on metrics other than TLG's Deceptive Score Categories and to the extent it seeks information that is beyond the scope of Leapfrog's Hospital Survey.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff is committed to continual improvement of patient safety measures, motivated by our commitment to ensuring the best possible patient safety—not chasing the best possible Leapfrog grade. To achieve this core objective, Plaintiff devotes significant time and resources to improving its delivery of the highest possible quality of care for those in the community it serves, including efforts to improve its performance in areas related to the four metrics Plaintiff has chosen to impute in its survey.

Plaintiff tracks three of these metrics through its patient safety plan or as part of its quality improvement patient safety committee. For example, Plaintiff does random hand washing audits every month on every unit and addresses any negative trends. Plaintiff already has 24/7 ICU coverage for its intensivist unit and has had that coverage for several years, so it does not need to track this metric.

Interrogatory No. 14: State whether You are aware of specific patients who have relied on the Leapfrog Safety Grade in declining to receive healthcare services at Your hospital. In so answering, identify the individual patient that declined to receive services, the date of such declination, the type of service the patient declined to receive, the medium for the communication from the patient (i.e. telephone, video conference, email, letter, etc.), the content of the communication, and the reason given for the stated decision.

Plaintiff objects to this Interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to a Qualified Protective Order entered by this Court.

Answer: Subject to the foregoing objection, Plaintiff has received reports that patients considered or decided not to use Plaintiff's facility because of TLG's misleading grades.

Amended Answer: Subject to the foregoing objection, since the release of TLG's false and misleading grades, Plaintiff has received numerous reports from doctors that patients considered or decided not to use Plaintiff's facility due to concerns related to TLG's misleading grades.

Interrogatory No. 15: Describe any effort Your hospital has made to influence public perception of Your hospital's performance on patient safety following the publication of the Leapfrog Safety Grade.

Plaintiff objects to this Interrogatory as vague and ambiguous because it does not specify which Leapfrog Safety Grade is at issue. Plaintiff will construe this Interrogatory to reference TLG's deceptive Safety Grades beginning in Fall 2024. Plaintiff objects to this Interrogatory as overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks "any effort" Plaintiff "has made to influence public perception" after the release of TLG's deceptive and unfair Safety Grades because there have been many such "efforts" and those

“efforts” are ongoing given the significant harm caused by TLG’s deceptive and unfair business practices.

Answer: Subject to the foregoing objections, Plaintiff continues to influence public perception by, among other things, delivering the highest quality care to the community it serves, which, as discussed in response to Interrogatory 12, has led to numerous awards, accreditations, and accolades. In addition, several public statements disputing the misleading nature of the Safety Grade have been made on Plaintiff’s behalf.

Supplemental Answer: In addition to the above, members of hospital leadership have communicated with patients, doctors, or community members on a regular basis to dispel the misleading nature of the Leapfrog Safety Grades. For instance, Plaintiff communicated its governing board, its medical executive committee, department directors, physicians and nurses, and patients when asked about the Safety Grades or Hospital Survey. These communications occurred in and after Fall 2024, after TLG released its deceptive and unfair Safety Grades for Plaintiff’s hospital. The Palm Beach Health Network also issued a press release and has engaged in marketing efforts, including through social media, to counteract TLG’s deceptive scores on behalf of Plaintiff and other affected members of the network. Plaintiff also engaged in email discussions about TLG’s misleading grades, either as sender or recipient, which TLG has through Plaintiff’s production of documents.

Interrogatory No. 16: Describe the due diligence Your hospital undertakes to ensure the accuracy of its own publicly reported safety data (including but not limited to data submitted to CMS, the CDC, and third party organizations).

Plaintiff objects to this Interrogatory as vague and ambiguous due to its use of the undefined term “due diligence.” Plaintiff further objects to this Interrogatory because it seeks

discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Any “due diligence” Plaintiff performs when reporting to *third parties* has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices, especially when TLG does nothing to ensure the accuracy of information that hospitals that participate in its survey self-report.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff makes reasonable efforts to ensure the accuracy of the data it reports to third-party organizations. For instance, Plaintiff employs data abstractors, quality coordinators and a Quality Director, who are all responsible for abstracting, validating, and submitting safety data.

Interrogatory No. 17: Describe in detail how You communicate to the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System the outcome of any and all healthcare safety ratings, evaluative publications, studies, or performance analyses that Your Hospital receives.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff’s communication, if any, with the shareholders, board members, collective bargaining representatives and investors of Tenet Healthcare System, all non-parties to this litigation, has nothing to do with the claims and defenses in this case related to TLG’s decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff communicates with Tenet stakeholders, including employees who work to support the Palm Beach Health Network, on a range of matters, including issues related to patient safety and outcomes and in particular related to TLG and the Safety Grades by email and oral communication. Those communications included discussions about the reasons for particular grades, the method used to calculate Safety Grades, the value of Safety Grades, and responses to the Safety Grades. In addition, identified below are documents Plaintiff produced evidencing communications between the Plaintiff Hospitals and Tenet related to TLG, the Leapfrog survey, and Safety Grades.

PBHN000006414	PBHN000006419
PBHN000006465	PBHN000006466

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 18: State whether the compensation of Your Chief Executive Officer or any other executive-level leadership officers is tied to or related in any way to Your hospital's performance on patient safety, union worker contracts or Your hospital's ratings by third party ratings organizations' ratings publications (including but not limited to the Leapfrog Hospital Safety Grade).

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action. Plaintiff's method of compensating its Chief Executive Officer and other executive-level leadership **has nothing to do with the** claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objection, Plaintiff's performance on patient safety, union worker contracts, or ratings by third party ratings organizations' ratings publications is related in some way to the compensation of Plaintiff's Chief Executive Officer or other executive-level leadership officer(s).

Interrogatory No. 19: Identify all hospitals, medical centers, or healthcare systems that you consider to be your direct competitors within the relevant geographic market during the time period covered by the Complaint and describe in detail the criteria you use to determine whether another hospital or healthcare provider is a competitor.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. The identity of Plaintiff's competitors and "the criteria" used to determine whether a hospital or provide is a competitor has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices. Plaintiff also objects to this Interrogatory to the extent it seeks confidential, proprietary information, and

commercially sensitive information related to Plaintiff's scoring system and "criteria" used to determine whether a hospital or provide is a competitor.

Answer: Subject to the foregoing objections and on condition that this response is considered "Confidential" under the forthcoming agreed confidentiality order, Baptist Health South Florida, Bethesda Hospital East, Bethesda Hospital West, Boca Raton Regional Hospital, Broward Health Hospital in Coral Springs, and HCA Florida Northwest Hospital are Plaintiff's competitors. Plaintiff considers these hospitals competitors because of their proximity to Plaintiff, their competing services lines, and that patients within Plaintiff's service area go to these hospitals for medical care.

Interrogatory No. 20: State and describe the results of any market analysis, competitive analysis, or consumer perception surveys you have conducted or commissioned regarding your competitors from 2020 to present, and identify the individuals or entities that prepared or participated in such analyses.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is irrelevant to the claims and defenses in this Action and is not is not proportional to the needs of this Action. The results of any market analysis, competitive analysis, or consumer perception surveys and the identity of those who prepared or participated in such analyses has nothing to do with the claims and defenses in this case related to TLG's decision to use deceptive business practices.

Answer: Plaintiff declines to respond to this Interrogatory.

Amended Answer: Plaintiff further objects to this Interrogatory to the extent it requests information from outside of the relevant time period of January 1, 2023, to present. Plaintiff also

objects to this Interrogatory as unduly burdensome to the extent it asks Plaintiff to “state and describe” various market analysis.

As agreed during the parties’ meet and confer on September 3, 2025, Plaintiff will produce documents showing the results of studies or surveys Plaintiff has conducted or commissioned related to internal market analysis, competitive analysis, or consumer perception. Plaintiff will identify the documents responsive to this Interrogatory by Bates number in Plaintiffs’ production cover letter.

Interrogatory No. 21: Identify with specificity any comments or concerns raised by any third party payor, bank or lender, or investor related to Your hospital’s reputation and/or public perception on issues in any way involving patient safety or satisfaction.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this case to the extent it seeks “comments and concerns” from third parties related generally to Plaintiff’s reputation that has nothing to do with the specific and significant reputational harm caused by TLG’s misleading grades.

Answer: Subject to the foregoing objections, Plaintiff will produce and identify documents related to the significant reputational harm caused by TLG’s deceptive and unfair Safety Grades that provide sufficient detail to respond to this Interrogatory.

Amended Answer: Subject to the foregoing objections, Plaintiff is unaware of any documents related to this Interrogatory.

Interrogatory No. 22: Identify and describe any complaints, concerns, or comments from patients, community members, or referring physicians that relate to the hospital’s reputation or comparisons to other hospitals in the region.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not proportional to the needs of this Action to the extent it seeks “comments and concerns” from patients, community members, or referring physicians that have nothing to do with the significant reputational harm caused by TLG’s misleading grades. Plaintiff also objects to this interrogatory as seeking protected health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff’s facility because of TLG’s misleading grades.

Amended Answer: Subject to the foregoing objections, Plaintiff has received reports that patients and physicians considered or decided not to use Plaintiff’s facility because of TLG’s misleading grades. In addition, concerns have been raised by patients, doctors, staff, and community members, and Plaintiff is aware of false and misleading statements based on TLG’s false and misleading methodology and Safety Grades made in newspapers, viral social-media videos, television programs, and blogs.

Our Medical Executive Committee has received direct inquiries from patients regarding their concerns with TLG’s grades and related public reports. An emergency-department patient, who needed surgery, said that he was leaving because of the Leapfrog grade. The harm caused by TLG’s false and misleading Safety Grade is ongoing.

In addition, the following produced documents evidence such harm.

Start Page	End Page
PBHN000006771	PBHN000006773
PBHN000002082	PBHN000002085
PBHN000002066	PBHN000002070
PBHN000002615	PBHN000002617
PBHN000006397	PBHN000006401

PBHN000008914	PBHN000008914
PBHN000008915	PBHN000008915

Discovery is ongoing, and Plaintiff reserves the right to amend, modify or supplement the response to this Interrogatory.

Interrogatory No. 23: List with specific detail each and every concern, complaint or comment made by any union, collective bargaining unit or employee association in any way related to patient safety at Your hospital.

Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is overly broad, unduly burdensome, and not proportional to the needs of this Action to the extent it seeks “each and every concern, complaint or comment ” from third parties that have nothing to do with the significant reputational harm caused by TLG’s misleading grades. Plaintiff also objects to this Interrogatory to the extent it seeks health information that is protected from disclosure by HIPAA, among other statutes and regulations. Plaintiff will only produce this information as needed and subject to the agreed protective order entered by this Court.

Answer: Subject to the foregoing objections, Plaintiff is unaware of any concern, complaint or comment regarding TLG deceptive scores made by the union at Plaintiff’s hospital.

Amended Answer: Subject to the foregoing objections, Plaintiff is unaware of any concern, complaint, or comment regarding TLG's deceptive scores or regarding patient safety made by the union at Plaintiff's hospital.

Interrogatory No. 24: Identify any and all criticism You have received since 2020 from Tenet Healthcare Corporation and/or from any individual executive of Tenet Healthcare Corporation regarding Your hospital's performance in any way.

Answer: Plaintiff objects to this Interrogatory because it seeks discovery of information that is overly broad, unduly burdensome and irrelevant to the claims and defenses in this Action and is not reasonably calculated to lead to the discovery of admissible evidence. Any so-called "criticism" has nothing to do with the claims and defenses related to TLG's decision to use deceptive business practices. TLG has, therefore, only propounded this Interrogatory for purposes of harassment. Plaintiff declines to respond to this Interrogatory.

Amended Answer: As discussed during the parties' meet and confer on September 3, 2025, TLG agreed to narrow this Interrogatory to concern only "criticism...regarding Your hospital's patient safety." After a reasonable and diligent search, Plaintiff is unaware of having received "criticism" from Tenet Health Corporation regarding patient safety. Plaintiff is always working to improve its performance, quality, and safety in a constructive way and engages with Tenet Health Corporation as needed to ensure Plaintiff provides the best patient care possible.

Dated: September 8, 2025

Respectfully submitted,

By: /s/ Lee R. Crain

IN THE UNITED STATES DISTRICT COURT
FOR THE SOUTHERN DISTRICT OF FLORIDA
WEST PALM BEACH DIVISION

CASE NO. 9:25-CV-80526-DMM

GOOD SAMARITAN MEDICAL
CENTER, INC., et al.,

Plaintiffs,

v.

THE LEAPFROG GROUP,

Defendant.

**AFFIDAVIT OF JERAD HANLON IN SUPPORT OF
PLAINTIFF WEST BOCA MEDICAL CENTER, INC.'S
AMENDED AND SUPPLEMENTED RESPONSES AND OBJECTIONS TO
DEFENDANT THE LEAPFROG GROUP'S FIRST SET OF
INTERROGATORIES TO WEST BOCA MEDICAL CENTER**

I, Jerad Hanlon, declare as follows:

1. I am over 21 years of age and competent to give this testimony.

2. I am the Chief Executive Officer of West Boca Medical Center, Inc. ("Plaintiff"). I am the corporate representative of Plaintiff for the purpose of answering Defendant The Leapfrog Group's First Set of Interrogatories to West Boca Medical Center. I have read the foregoing interrogatories and the answers to those interrogatories, which are true according to the best of my knowledge, information, and belief.

3. I declare under penalty of perjury that the foregoing is true and correct.

Executed on September 8, 2025.
